

THE RULES OF THE GAME

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 13

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, JUNE 6, 1935

NUMBER 19

TWO AND A QUARTER INCHES RAIN FALLS MULESHOE TUESDAY; HAIL STONES DO MUCH DAMAGE IN STRIP

Some Replanting Necessary; Hundreds of Window Panes Broken Out; Much Loss of Young Poultry.

In less than an hour and a half, beginning about noon Tuesday, two and one-quarter inches of rain, accompanied by considerable hail, fell at Muleshoe, some of which was seriously damaging.

Very few houses in Muleshoe without screens escaped losing one or more window panes, while some lost practically every window on the north side of their houses. One man, living about three miles north of town, is reported to have lost 150 young turkeys, while several others report loss of little chicks before they could get them in out of the storm.

The father of Levi Churchill is reported to have been temporarily rendered unconscious by hail stones while getting some young poultry in out of the rain.

While most of the hail was marble size, some of it was as large as hen eggs, riddling roofs and automobile tops as well as breaking out window panes. Several farmers in the hail and rain area report replanting necessary. The hail area, from early reports coming in, appears to not have been very wide.

That the rain was quite general over this South Plains area is indicated by reports coming in Wednesday. Heavy hail doing much damage is reported in and around Tahoka and Brownfield. Throughout Lamb, Cochran and Hockley counties the rain was very heavy, some places reporting as much as five inches. There was about four inches reported at Anton and south of there, with lakes at that vicinity running over. Good rains are reported at Plainview, Hale Center, Dimmitt, and as far south as Matador.

MULESHOE WINS CLOVIS 4-3 ON MEMORIAL DAY

Game Was a Pitcher's Battle Between Allen and Tuten.

Muleshoe crossing bats with the Sunshiners team in a memorial day game of baseball at Clovis, N. M., last Friday brought back home with them the long end of a 4-3 score. Jam-up big league stuff is reported throughout the entire game.

It was a pitcher's battle throughout, between "Lefty" Tuten, Muleshoe, twirler, and "Jelly" Allen, pitcher for the Clovis team; but both pitchers had good support which kept the fans on their toes until the last inning.

The Sunshiners had but few errors, while none were chalked up against the Muleshoe team. Allen gave up seven hits, Tuten only one. Allen got eight strikeouts to Tuten's four. Allen allowed two bases on balls, but Tuten allowed five.

However, Tuten made two home runs himself, and another player, Cates, made a complete circle, while there were several two and three-baggers. Both teams were scorers in the first inning. In the second Muleshoe got three of her four figures. In the third frame the New Mexicans began climbing up, scoring a pair of runners, one of whom was in the home-run class.

Both teams went scoreless in the first frame, but in the second Muleshoe got three of their four runs. L. Nalls, first up in the second inning, went to left field, the ball getting away from McCann on the hard ground. As a matter of fact, had the ground been softer, none of the homers would have been good for more than two bases. Tuten C. Nalls stepped up to the plate and clouted a three-bagger, coming home on Tuten's homer, which McCann lost in the sun in left field. In the next inning McCann was switched to right field, Lewis went from center to his old left field position, and Burke moved over from right to center field.

The Sunshiners began overhauling Muleshoe's lead in the third, scoring two runs as Tuten got a little wild. Allen, first up in the last of the third, walked and went to second as Ridley was hit by a pitched ball. Bell sacrificed Allen to third and Ridley to center and McCann walked to fill in the bases. Stratton singled to bring in Allen and Ridley and was caught. Tuten to Danron, as he tried to go down to second. Lewis grounded out to first.

Cotton Exemption Certificates Now Being Taken Here

Bailey County Cotton committees have begun taking applications for cotton exemption certificates for 1935, according to J. B. Waide, jr., county farm agent, it being estimated there will be about 1,100 applications taking in this county.

Six hundred odd and about 300 new contracts have been signed.

The transfer of 1934 cotton tax exemption certificates for certificates to be used in 1935 is to be completed this week, Waide said, and producers who have old certificates in their possession should apply to the county agents' office promptly.

BAILEY COUNTY LAND TRANSFERS

May 1—That for any amount due during the past two years, the county clerk's record being as follows:

May 5—Fairview Land & Cattle Co., to H. C. Henington, 1/2 out of NW 1/4 NW 1/4, sec. 40, blk. 1, S. 10 acres.

May 5—F. C. Carpenter to Ethel Carpenter, labor 14, league 186, Swisher county school land, F. C. Carpenter to A. L. Carpenter, labor 6 and 6, league 186, Swisher county school land.

May 7—J. R. Givens et ux to H. C. Henington, lot 5 out of W 1/4 NW 1/4, sec. 40, blk. 1, 10 acres.

May 7—Fairview Land & Cattle Co. to H. C. Henington, lots 6 and 7 of W 1/4 of NW 1/4, sec. 40, blk. 1, 11.62 acres.

May 23—Childress county to Nelson W. Willard, tract 2, league 122, Childress county school land, 177.93 acres.

There was less land to change hands in Bailey County during the month of

HOME DEMONSTRATION WOMEN MAKE \$30, KIWANIANS GET \$100 WORTH OF FOOD AND ENJOYMENT UNKNOWN

Members of the Muleshoe Women's Home Demonstration club "put the big pot in the kettle" Friday of last week when members of the Kiwanis club, their wives, sweethearts and several other citizens were guests of the scientific cooks at the noonday luncheon.

A delightful menu was served, proving beyond a shadow of a doubt the culinary ability of club members, also, demonstrating their skill as psychologists, since the epicurean gentlemen lost their hearts through the stomach route. Incidentally, the club cleared nearly \$30, while the Kiwanians were for another opportunity to partake of their toothsome hospitality.

A feature of the noonday meet was an address by Judge Wm. G. Kennedy explaining the inspiration and encouragement to be given to the Short Course to be given next month at College Station, to which the various clubs throughout the county plan sending a big delegation.

Judge Kennedy had the privilege of attending one of these courses last

summer and was highly delighted with it. "You will be greatly surprised," he said, "at the magnitude of a K. & M. college, with its 25 acres of campus and 67 buildings devoted to instruction of various kinds. Here animal husbandry, agriculture, horticulture, engineering of different kinds, together with numerous other secondary courses are given."

The judge, though a staunch prohibitionist, was apparently greatly impressed with the grape culture of the college, and the delectable flavor of that drink made popular by Wm. Jennings Bryan lingers in his appetite.

Hundreds of people from all over the state attend this course each year, he said, and they all mingle together like one great family. It is at these courses the community leaders are trained to be consistent in their respective sections and teach other some of the things they have learned, he declared, many of them, in turn, becoming competent in what their demonstration work in their own communities.

MULESHOE RURAL CARRIERS DELIVER MUCH MAIL; AVERAGES 1,690 PIECES PER DAY TO PATRONS OF THIS AREA

That patrons of the Muleshoe post office on routes leading out of here obtain an average of 1,690 pieces of mail daily, is the statement of A. J. Gardner, Muleshoe postmaster. There are two star routes and two rural routes leading out of Muleshoe, covering the surrounding country in all directions.

Gilbert Woolard, carrier on rural route 1 which, incidentally the third longest rural route in the United States, recently handled 7,126 pieces of mail in 15 days, an average of 807 pieces, all classes, per day, while W. B. McAdams, carrier on rural route 2, handled an average of 333 pieces of mail daily.

Robert Simmons, carrier on star route 1, handles an average of 250 pieces daily, while Mrs. Clay Beavers, carrier of star route 2, handles more than 300 pieces daily.

Rural route 1 is 86 miles long, has 218 boxholders accommodating 241 families with 1,182 patrons over 10 years of age. Rural route 2 has 150 boxholders accommodating 222 families, with 872 patrons over 10 years of age, the route being 34.48 miles long. Star route 1 is 107 miles long, has 65 boxholders accommodating 80 families with 320 patrons over 10 years of age. Star route 2 is 63 miles long, has 130 boxholders accommodating 160 families, with 390 patrons over 10 years of age.

The mail picked up by carriers is generally a little heavier than what is delivered, and averages approximately 46 per cent first class, 42 per cent second class with the balance fourth class mail.

More Than Mile of Tile Is Made And Laid In Bailey Co.

Just as long as the windmill turns and the well doesn't run dry, Bailey County women gardeners are not going to worry about any droughty conditions, for they have already laid more than a mile of garden tile during the past month and a half, according to Miss Alma Stewart, county home demonstrator.

To be exact, within the past 50 days, there have been made 5,294 feet of tile, at an average cost of only 14 cents per foot, 3,294 feet of it being made and laid under direction of some of the 13 garden demonstrators of the 16 home demonstration clubs in Bailey County.

That the women are all greatly pleased with the project and its prospects is clearly demonstrated by their favorable remarks.

"I am going to make enough tile this summer to tile my entire garden," said tort of the Circleback club. She already has her tile laid with 12 feet of tile laid under them for sub-irrigation.

Baptist Revival Is Opened Here Under Favorable Auspices

A series of revival services was begun at the Baptist church, Muleshoe, Monday evening of this week. Rev. L. H. Hays, pastor of the First Baptist church, Snyder, doing the preaching. Song services average 100 in number.

Both Rev. Hays and Mr. Porter are well known in Muleshoe. Rev. Hays is conducting a revival meeting at the local Baptist church last spring, while this makes the third call Mr. Porter has answered to the Muleshoe church for evangelistic singing.

The meeting is now well under way and thus far has been marked by good attendance. Rev. Hays opened his series of sermons Monday night, using as a subject, "Back to Bethel." Other sermon subjects for the revival have been announced on a circular advertising the meeting. He is proving to be a forcible and spiritual speaker and apparently is being well received in Muleshoe.

AIRPLANE STUNTS HERE SUNDAY

A feature of the baseball game to be played next Sunday afternoon will be the presence of one or more airplanes with daring stunt drivers who will give exhibition stunts of various kinds, including tall spins, wing-walking, etc. A movie man will crash a board wall on fire, using a stock Ford V-8 coupe traveling at the rate of 50 miles per hour.

The baseball game will be between Muleshoe and Enochs. Enochs poured it on the local team last Sunday, and the Muleshoers are seeking sweet retribution.

See the advertisement appearing elsewhere in the columns of the Journal.

START OIL WELL ON N. M. LINE

Another oil test well is expected to be spudded in some time this week, located 12 miles southeast of Clovis, N. M., near the Texas state line.

The drilling contract has been let to S. Shelling, Oklahoma operator, and provides for a 4,500 foot test, or deeper if indications justify. Rotary tools will be used.

The first woman member to serve on the State Fair board has been named as Mrs. Charlotte A. Teague, Houston, announces Gov. Allred.

LAST VESTIGES OF NRA RESTRAINT THROWN OFF; PRESIDENT AND HIS ADVISERS STILL IN WONDERMENT

Whole New Deal Plan Affected by the Supreme Court Decision; Numerous People Thrown Out of Jobs; Houses Vacated.

40 FROM CO. TO ATTEND SHORT COURSE, JULY

Each of 16 H. D. Clubs To Have Delegates Farmers Go.

There will be approximately 40 men and women from Bailey county to attend the Short Course to be given at A. & M. college, College Station, July 25 to August 2, according to Miss Alma Stewart, county home demonstrator.

Two big house buses will be chartered, in which most of them will make the trip.

Every phase of domestic and agricultural operations from house to field will be covered in this course, according to Roy W. Snyder, chairman of the Short Course committee.

"What's more, every subject is treated up definitely with the theme—'The Changing Country Life,'" he added.

"The AAA, through its adjustment program; the Federal Housing Administration, through its encouragement of building and improvement; the work in soil erosion control, are all represented."

Several programs are arranged around the subject of housing. There will probably be one showing some of the details of building and repairing. A program on house planning from the artistic standpoint, and something on storage for the whole farm home. There will also be exhibits showing water systems.

That the NRA decision of the United States Supreme court meant the end of the Agricultural Adjustment administration, the Securities commission and the Federal Alcohol Control administration, is the statement made by President Roosevelt. He told members of the press conference that the court's interpretation of the interstate commerce clause of the constitution took the nation back to "the horse and buggy stage."

Following unanimous decision of the U. S. Supreme court last week that the NRA is unconstitutional, guerrilla price-cutting and strikes of various kinds were threatened in nation-wide proportions as the New Deal proponents groped for a future pathway.

President Roosevelt has frequently been closeted with his advisors and committee meetings of various kinds have been held wherein the wreck was explored and effort made to discover some method of reviving the death of the Blue Eagle imposed by this the highest tribunal of the nation.

William Green, president of the American Federation of Labor, John L. Lewis, president of the United Workers, and Secretary of Labor Perkins have been frequently called into the conference, some of the high officials expressing hope that something may be resurrected over the grave of this bird without tail feathers, while others have assumed a "watchful and waiting" attitude.

To revive the NRA on a purely voluntary basis has been suggested by some. Donald Reichberg, NRA head, has called upon the various industries affected under the 567 different codes, and asked a patriotic continuance of

New Constitutional Amendment Is Now Being Advocated

Following announcement of the NRA by the U. S. Supreme court decision last week, a movement was immediately launched in Washington to present the decision of that high tribunal by carrying the matter to the public for a vote on the question of amending the United States constitution, several members of the House and Senate concurring in the movement.

President Roosevelt has frowned upon the idea, as has many members of Congress. Several Republicans, as well as some Democrats have spoken out against it already, yet there appears to be many who would favor such an amending action.

While deeply regretting that the high court had knocked mitch of his New Deal into a "cooked hat," the President was inclined to challenge the court's interpretation of the fundamental law, telling newspaper reporters that the court had relegated the nation back to the old horse and buggy days. Numerous leading senators expressed similar opinions.

Many citizens, some of whom claim to be on the verge of bankruptcy, and regretting the passage of the NRA, have also expressed themselves as unfavorable to any constitutional amendment at this time.

Lubbock Named Dist. Head For PWA With 15 Counties Listed

Lubbock was headquarters for 15 counties in the South Plains area for administrative purposes of the Works Progress administration. Counties included in this district are Farmer, Castro, Swisher, Briscoe, Hall, Bailey, Lamb, Hale, Floyd, Motter, Cochran, Hockley, Lubbock, Crosby and Dickens.

Amarillo was named as headquarters for a district north of here, having jurisdiction over 20 North Plains counties.

District managers, as well as the state manager, will be responsible to Harry Hopkins, Washington. Duties will be the co-ordinating of various federal projects, investigating execution of such, terminating projects not properly carried on, seeing that citizens get proper work relief, looking after wages and working conditions, recommending new projects and seeing that governmental requirements are properly carried out.

Bailey County Will Get \$4,000 Rural School Teachers Aid

County Judge J. E. Adams is in receipt of a telegram from Congressman Geo. Mahon, Washington, D. C., to the effect that the Federal financial aid for rural school teachers will be granted, this county having applied for a total of \$3,792 aid for four different school districts.

It is understood that 454 school districts have already made application to the State Relief office. Austin, for such aid, such applications being approved immediately, if in proper form checks to teachers are expected to be forwarded as soon as money for the program is received from Washington.

Total number of applications received at Austin, less the 454 already approved, is 1,102, for salaries of 6,940 teachers, the request totaling \$864,107.27.

2,790,000 TEXAS GRADUATES

The Texas grapefruit crop is estimated at 2,720,000 boxes, an increase of 140 per cent over last year's crop, and record. The Texas orange crop is estimated at 950,000 boxes, an increase of 53 per cent.

Two people got marriage license in El Paso seven years ago, and went home happy, but unwed. They were Mexicans.

Trial Of Lamb Co. Sheriff, 25 More Was Begun Mon.

Constant Sam Hutton of Littlefield was exonerated by the government as the trial of Sheriff J. L. (Len) Irvin and 25 other persons for dealing in un-axed liquor was opened in United States district court Monday morning at Lubbock.

Judge James C. Wilson previously had overruled a defense motion to quash the blanket indictment.

A jury impaneled at 11:40 o'clock and early in the afternoon Clyde G. Hood, assistant district attorney read the indictment, which included 13 counts and alleged 84 overt acts.

A federal grand jury was instructed to return at 10 o'clock Wednesday morning. It was understood it would consider indictments against narcotic addicts who have agreed to plead guilty, if indicted, and accept sentence to a federal narcotics farm at Lexington, Kentucky.

One of the addicts, Luther Collins, held here as a government witness collapsed in the marshal's office Monday morning. Use of narcotics for 30 years had weakened his heart. His condition was improved after treatment.

26 Boys And Girls Enroll In 4-H Club Work In Bailey Co.

Twenty-six boys and girls have enrolled in 4-H club work, according to J. B. Waide, jr., county agent, and 28 projects have been outlined.

Louise Adair, Melba Gates, Juanita Hughes, Imogene Lowery, Patsy Nellie McCrary, Ina Richardson, Ina Penfrow and Eloise Waller have been enrolled on chicken projects.

Doris Churchill, Grace Churchill, and Morris Gaston have turkey projects.

Billie Dotson, James Warren and J. C. Hughes have begun calf-feeding projects.

J. C. Hughes and L. C. Gurley have crop projects.

Present indications are that 4-H club work will progress rapidly in Bailey county, much enthusiasm being shown by the members.

OKLA. LANE BAPTISTS BUILD

Members of the Oklahoma Lane Baptist church, located in Farmer county, a few miles northwest of Muleshoe, last week completed construction of a church building, 36x56 feet with basement which will be partitioned for Sunday school and classes.

The building is of frame and stucco construction and one of the largest rural churches in this section.

One reason the average farmer suffers so much today is because he has quit raising his own hoe hands.

WHAT IS A HYDRAULIC BRAKE?

Some of us are under the impression that hydraulic brake is no relation to a mechanical brake system, which is what we are in error. The first and last principle of a hydraulic brake system is mechanical. The term "hydraulic" applies only to the method of application of brake pedal pressure to the brake shoes.

The V-8 has no liquid, no reservoir, no flexible tubing necessary to apply the brakes—rather a solid steel, rustproof rod transmits power from brake pedal to 186 sq. inches of V-8 brake surface.

Motor Co.

Do you know that it is impossible for most cars to use the stationary Brake Rod as used on the Ford V-8. We will be glad to explain!

Mahon Proposes An Irrigation Survey Of South Plains

Irrigation of the high plains of West Texas has been suggested by Representative George Mahon of this 19th district as a way to overcome hardships caused by the drought and reduce government relief expenditures.

The plan would contemplate use of the area's underground water resources and a federal loan to conduct surveys and enable farmers to bring the water to the surface.

"I believe that this work is particularly meritorious because of the interest that has been taken in irrigation and the inestimable value which a properly conducted program of irrigation would be to agriculture in the region," Mahon wrote Secretary Ickes. "There has been for several years some irrigation near Plainview and around Muleshoe, but the people are uncertain as to the possibilities and can't intelligently proceed. If the irrigation program could be carried out successfully a long step would also have been taken toward alleviating the soil erosion menace which confronts the farmers there."

Until last year the surveys had been carried on cooperatively by the United States Geological Survey and the Board of Water Engineers of Texas, the state matching federal allocations dollar for dollar. The state legislature reduced the appropriation for this work to \$5,000 last year and that sum is barely enough to carry on work already established.

The survey would determine the amount of water recharge, the extent of well drainage on the water level, the strata slope and rate of movement of the water, the nature of the various top soils in the areas available to irrigation, and the depth and thickness of the tertiary sand which carries the water.

A survey, preliminary in nature was started in 1933 and will be used as a background for more intensive examinations.

Mahon first applied to Secretary Ickes and Elwood Mead, commissioner of the bureau of reclamation and now has submitted the proposal to the Texas PWA engineer at Fort Worth for study and approval.

The Geological Survey and the Board of Water Engineers since 1929 have conducted similar surveys around Pecos and Balmorea, El Paso, Uvalde to Corpus Christi and Victoria to Houston. The largest area to come under reclamation contains about 40 counties in the Panhandle and western plains.

BRUCE BARTON

writes of **THE MASTER EXECUTIVE**—Supplying a week-to-week inspiration for the heavy-burdened who will find every human trial paralleled in the experiences of "The Man Nobody Knows."

MARY OF MAGDALA

The name MARY was immensely popular in the time of Jesus because of the love of the Jewish people for Marianne, the Jewish wife of Herod, who was murdered by him. Hence there are so many women in the New Testament named Mary that we sometimes find it difficult to keep track of them. Foremost, of course, is Mary, the mother of Jesus. Next in order of her importance is Mary of Magdala. Of her early history we know nothing except that she suffered with some nervous or mental complaint.

And it came to pass afterward, that he went throughout every city and village, preaching and showing the glad tidings of the kingdom of God; and the twelve were with him.

And certain women, which had been healed of evil spirits and infirmities, Mary called Magdalene, out of whom went seven devils.

We know the names of a few of the women who followed Jesus on that last journey from Galilee to Jerusalem, "ministered to him of their substance." Three of them were Marys. Some apprehension of expectation of crisis, some woman's instinct caused them to leave their homes and be His companions in this last stage of His public work.

The Household

By LYDIA DE BARON WALKER

WHEN a room has to serve a double purpose and it can, by any means not unattractive, be divided so that there is a separateness about each part, both comfort and specificness are conserved. Just how the semi-separateness can be managed depends upon the architectural features of a room, as well as the ways and means at the disposal of the occupant. It is not suggested that a partition be built for the division. This is frequently done in office buildings, but rarely in homes. Decoration is not fostered by such means, although in an office it is eminently practical. In a home other measures should be used, preferably.

We can take a leaf from the Japanese practice of using screens for division walls. By these, in the Orient, a floor may be divided into many rooms decoratively. The handsomer the screen the more ornamental the partition. It may be argued that beautiful screens, substantial and large enough for this use, are not inexpensive. This is true, but frequently at auctions, in antique shops, or second-hand stores, one can find just what is wanted and get it for a song.

Blanketing or Making Screens

Or the person can buy a dilapidated screen with a firm and sturdy frame, or a new screen frame and cover it herself. Paint the frame or polish it again. Cut ordinary muslin or cotton

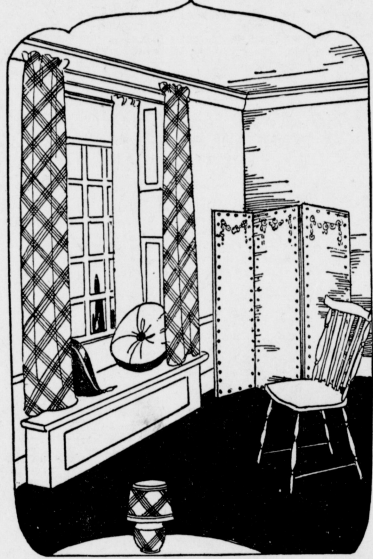

cloth to fit each side of each panel, and if it fits in it nicely, use this handsome wall paper can be glued and a gimp edge be put about each panel. Or a textile can be tacked on with round brass-headed tacks which, in themselves, form a finish if they are close. Burlap may be used thus as the textile, but it is not ornamental. The choicest textile is, perhaps, a patterned brocade, in self-tone or artistic blends of colors. In between these extremes there are many good and suitable materials.

Sometimes a pair of portieres can be hung in the space between two tall pieces of furniture, such for example as an upright piano and a high bookcase placed at right angles to the walls. Or again, lower pieces of furniture can have shorter hangings over them, and the portieres fill in a gap between the furniture so arranged.

Successful Two-Room Effect

I know of one woman, whose one room is longer than it is wide, who feels the individuality of each part of the room through having a high four-foot Japanese screen for a partition wall. One window comes in each of these divisional sections. A daynoor bed, and a Martha Washington table with drawers in it, and a mirror above in a handsome hanging, supply a sitting room and recognizable bedroom in one part of the room. In the other is her hidden workroom entirely different in character, yet not out of keeping with the other part, so that, on occasions, she folds the screen and puts it in the corner of the room or in her closet (off the workroom portion) and makes one large room of the two parts. The success of this screen partitioning is excellent.

© B. H. Spaulding—WNU Service

When Not in Use for a Partition, the Screen Was an Ornament in the Corner of the Room.

"Little Stories for Bedtime" by Thornton W. Burgess

PETER DISCOVERS SNOWFLAKE

ROUGH BROTHER NORTH WIND hurried up one big cloud after another, and late in the afternoon, white feathery flakes came drifting down out of the sky. Peter Rabbit sat tight in the dear Old Briar Patch. All night he remained squatting just inside the entrance to an old hole Johnny Chuck's grandfather had dug a long time ago in the middle of the dear Old Briar

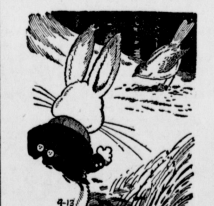

where the day before he had found Doty the Tree Sparrow and Slaty the Junco. They were there before him, not seeming to mind the snow in the least and having the very best of good times, as they picked seeds from the tops of the weeds which showed above the snow.

At once Peter discovered that they were not alone. Quite as busy seeking seeds as were Doty and Slaty was a bird just a little bigger. The top of his head and back were a rusty brown and on his back were streaks of black. Back of each eye and on each shoulder was a little patch of this same rusty brown. The inner tail feathers were black, and the outer half of the long wing feathers were black. Otherwise he was dressed all in white. It was Snowflake and Snow Panting. Peter knew him instantly. He knew that there is no other small bird who is so largely white. Peter had his usual question ready.

He knew that there is no other small bird who is so largely white. Peter had his usual question ready.

"Are You Going to Spend the Winter Here, Snowflake?" He cried.

Patch. When Jolly, round, bright Mr. Sun began his daily climb up in the blue, blue sky he looked down on a world of white. It seemed as if every little snowflake twinkled back at every Jolly Little Sunbeam. It was all very lively and Peter Rabbit rejoiced as he scampered forth in quest of his breakfast. He started first for the weedy field

"Are You Going to Spend the Winter Here, Snowflake?" He cried.

Hattie Griffiths Heads the Eastern Star For New Year

Friday evening of last week, public installation of officers for the Eastern Star organization was held at the Masonic hall in Muleshoe.

The following new officers were installed: Mrs. Hattie Griffiths, worthy matron; Stella Eason, worthy patron; R. J. Clump, associate patron; Miss Elizabeth Harden, secretary; Miss Lola Lipscomb, treasurer; Mrs. Faye Elrod, conductress; Mrs. Virginia Wye, associate conductress; Mrs. Elizabeth Garner, chaplain; Grace Osborn, warder; Mrs. DeShazo, sentinels; Inez Bobo, pianist; Mesdames Mary Hart, Mary Adams, Beth McCarty, Lena Cook, Bonnie Isaacs and Zula Carlyle were the star points.

Mrs. A. W. Coker, the out-going worthy matron, was presented with a beautiful pin and Mrs. J. Klumbe, out-going worthy patron was presented a pin by Rosa Stidham. Mrs. Hattie Griffiths, new worthy matron, was presented a beautiful bouquet of roses from a beautiful pin and Mrs. J. Klumbe, out-going worthy patron was presented a pin by Rosa Stidham. Mrs. Hattie Griffiths, new worthy matron, was presented a beautiful bouquet of roses from a beautiful pin and Mrs. J. Klumbe, out-going worthy patron was presented a pin by Rosa Stidham.

All officers that were installed were dressed formally, and the hall was beautifully decorated with roses and pot flowers. Assorted colored roses were given as favors to the new officers.

The program given was as follows: March of the old officers; invocation, Rev. J. Frank Luker; welcome address, Rosa Stidham; response, Judge J. E. Adams; prayer, chaplain; farewell address of the worthy matron; roll call; installing of worthy patron; reading by Miss Estelene Hobbs; special by Mrs. Truma Griffiths; reading by Miss Siboy Coker; song, "Your Matron," Mrs. Bonnie Isaacs, special by all. "The Eyes of Texas," and formation of the Star March.

FLOODS TAKE HEAVY LIFE TOLL

There were 250 people lost their lives in Colorado and Nebraska last Saturday when excessively heavy rains with tornado accompaniment swept over that area swelling the streams and inundating the valleys with water.

In some places the water was reported as being 30 miles wide. There was heavy loss of life at Brush and Fort Morgan, Colorado, while several towns in Nebraska were reported isolated.

Five children were reported drowned at Dykiss, southwestern part of that state, and much property damage from six feet of water in the swollen Rio Grande that swept through the town.

General News Over Texas And Adjoining States For The Week

More Federal relief funds are being spent in Texas during this year than were expended in 1934.

There will be required 5,000 men working for eight months to construct the Centennial buildings at Dallas.

The Texas Forest Service has bought 754,416 acres in East and Southeast Texas for reforestation purposes.

The world's deepest oil test was bottomed last week at 12,786 feet near San Angelo.

Trusteeship in Texas is on the decline, according to report from the State Relief office, Austin, this week.

The U. S. Bureau of Animal Industry has announced that New Mexico is now fully accredited as being free from bovine tuberculosis.

Fourteen eggs from 14 hens in one day should be enough, but W. N. Jackson, Lubbock, reports gathering 21 eggs one day and 19 another.

Letty Gard, Fort Sam Houston army nurse, who set down a skillet in a hospital kitchen an instant before it was struck by lightning, was only shocked.

The U. S. Senate has authorized an appropriation of \$3,000,000 for the Texas centennial, also providing for a commissioner and assistant at the exposition.

Tax penalties over the state of Texas become delinquent July 1. Those not paid will be transferred to the delinquent rolls with interest and penalties added.

The State Supreme court held last week that a legislative act of 1925 exempting Hidalgo county from state taxes for 25 years was unconstitutional. The decision may effect other counties more recently granted similar exemptions.

The body of the late Bronson Cutting, Senator from New Mexico, killed a few days ago in an airplane wreck in Missouri, will be buried at Santa Fe, N. M., according to his request before death. He will be laid away in the national cemetery of that city.

Governor Alfred East Friday signed a

bill to tax marble tables and other coin operated machines, those costing more than five cents to operate will pay an annual tax of \$20. He also voted the farmer's relief and pension bill.

There was 25 1/2 per cent cotton less used in Texas textile mills in April this year than a year ago. There were 31 per cent less poultry and eggs shipped out of the state last month than a year ago. Employment in Texas decreased last month one per cent, but payroll increased 1.3 per cent.

Grady Shipp, for several years past secretary of the Plainview Chamber of Commerce, has tendered his resignation having been offered the secretaryship of the Chamber of Commerce at Sweetwater. He had also been offered management of South Texas Chamber of Commerce.

URGE BIG DELEGATION TO MINERAL WELLS MEET SAT.

R. L. Brown and Jess Mitchell attended a meeting of the South Plains Good Roads association held at Lubbock Tuesday afternoon, at which time it was decided to send a large delegation of citizens from this area to the meeting of county judges and commissioners called by the State Highway department to be held at Mineral Wells next Saturday. Every effort possible for finishing the caliche base on State Highway No. 28 and improving No. 214, leading south of Muleshoe is being made by citizens of this county.

While in Lubbock, Brown and Mitchell remained over for a meeting of the Chamber of Commerce held at the Stock-Judging pavilion, Tech college, attended by about 250 guests who partook of an appetizing barbecue feed. Ralph Bradford, representative of the United States Chamber of Commerce, was the principal speaker of the evening. Others to speak on the program were O. L. Slaton, A. B. Davis, Mayor Ross Edwards, Lubbock, and Jess Mitchell, Muleshoe.

"There can be no conflict between science and religion,"—Mussolini.

HOME DEMONSTRAT'N NEWS

By MISS MARY STEWART
Home Demonstration Agent
Bailey County

Miss Cooper Enjoyed Visit.
A letter received this week from Miss Lida Cooper, district home demonstration agent, Lubbock, expresses her appreciation of the interest of Bailey county women in the demonstration work here. The letter is as follows:
"I want to tell you how much I enjoyed the visit to Bailey county, and it was truly an inspiration to me to contact women who are so enthusiastic and eager for information as the women in your county are. I feel that it is really and truly an opportunity and am delighted with the way the work is going at present. I will, of course, not be surprised at any number of people you may bring to the Short Course, and will be looking forward to your coming."

Short Course Committee Met Saturday

The Bailey County Short Course committee met last Saturday for the purpose of making plans for people of the county to attend. This committee is composed of Miss Vera Baker, county council chairman; Mrs. Dudley Buzard, vice-president of the county council; Mrs. T. G. Miller, county delegate of the Watson club; Mrs. Ruby Ponder, president of the Goodland club; Mrs. R. R. Kluttz, president of Stegal club; Vess Garner of Circleback, Wm. Pool, Jr., of Longview and Wm. Kennedy of Progress.

The committee decided that they would receive bids on the trip to Short Course. All bus drivers in Bailey county will be allowed to bid on the trip.

Will Plant Cos.

"I plan to plant cos (which is similar to lettuce, watercress, a cross between celery and cabbage), and peas, (a type long cucumber) for my new vegetables this year," said Mrs. R. L. Jones, farm food supply demonstrator of Muleshoe home demonstration club.

West Camp News

Mr. and Mrs. Willie Williams went to Hollis, Okla., Sunday. She expects to have a major operation while there. The 4-H club girls will sponsor a carnival at the school house Friday night. They plan to raise funds to send a delegate to A. & M. Short Course in July. Everyone has a hearty welcome to attend, and help the girls in their efforts.

Mr. and Mrs. J. R. Sheriff and daughters, Misses Velma and Etha, went to Oklahoma last week to be at the bedside of Mr. Sheriff's brother who has been quite ill.

Little Hugh Wallace Foster, infant son of Mr. and Mrs. H. W. Foster, was born and died May 30. The funeral services were held May 31 with Rev. H. H. Copeland officiating. Interment was made in the West Camp cemetery.

Mr. and Mrs. L. C. Gurley and son, L. C. Jr., were visitors in Portales, N. M., Saturday. Mrs. Gurley visited the Baptist orphanage while there and met Katherine Selby, whom the women of this community have assumed the responsibility and pleasure of clothing.

Harrison Stone, surprised his many friends last week when he returned home from attending a college in Tennessee by bringing a bride with him. We wish them much happiness.

Sunday afternoon, June 9, is regular singing evening. Plans will then be discussed about the singing school to be held here this summer. Everyone is invited.

A carnival will be given Friday night June 7th at the West Camp school house. This carnival is sponsored by the 4-H club girls of West Camp.

Mr. W. M. Pool, Jr., will be at the West Camp school house Friday night and will make a report on his trip to Washington, D. C., in behalf of the farmers of Bailey county.—Reporter.

THE CONQUERING LIFE

By MISS SIBYL COKER
Valedictorian, Muleshoe High School Graduation Class

Classmates, let us think of ourselves tonight as conquerors of the battles of life, and parents, teachers and friends, please think of us as the men and women of the future who shall take your places in the battles of life. If we are to think of ourselves as conquerors it would be well to think of the meaning of the word conqueror. The first definition is: One who overcomes by force or fighting subdues especially in war; one who crushes the resistance of one who vanquishes. The second type of conqueror is the one to which we shall liken ourselves; it is: one who overcomes by mental or moral power; subdues by an inward struggle; one who surmounts or removes by efforts; overcoming habits.

Usually, the first important victories determine the habits, ideals, faults, and the manner in which the conqueror wins his victories. Tonight you are witnessing the first real triumph in our battle with life. Our graduation tonight is a celebration of many triumphs over various problems of which we alone know. Parents, teachers and friends, we are glad that you are here tonight because it is you who have furnished that which is indispensable to any conqueror—encouragement.

Just as it is impossible to speak a word or commit a deed, no matter how seemingly thoughtless, without first thinking; it is equally impossible to conquer in any battle without first having the dreams and ambitions of a conqueror. Class mates, each of us has a dream, for although we may never have expressed it, we have a longing to be something more in the future than we now are. Perhaps some of these dreams are to attain something because we may not yet have the best conception of a successful life.

Every conqueror must go through a period of preparation before these dreams (if they are the type worthy of our training and environment) may be fulfilled. We have completed a portion of this preparation tonight. Although education is the preparation for living, it is more than that—it is life. One's education should not stop with a high school education or any of the many college degrees that are conferred throughout life. One of the first requirements for a conqueror is the ability to adapt himself to new conditions, new ideals, new inventions, and new people, because the greatest triumph of real life will be encountered many difficulties which this ability alone will ever come. Perhaps so much preparation seems to be the greatest of a conqueror of all, Jesus Christ, spent thirty years in preparation for his three years ministry and the reforms and results of his ministry gave us that which is more precious than anything else—salvation.

The dreams and preparations are of no avail unless we know how to start; campaign as a conqueror of life. The first victory which is absolutely necessary to the success of every person and which is frequently never won and which is not won until in old age is the triumph over self. Some who are considered great and whose deeds are emblazoned in great letters across the pages of history had never won this first victory. Napoleon Bonaparte is an example of this failure. He was always led by the will-o-the-wisp desire; his egotism unbalanced his judgment and caused him to believe that he could decide matters about which he knew practically nothing. Napoleon's dramatic and magnetic personality caused his soldiers, in a cloud of sentimentality, to practically worship him. He should not be heralded because of his splendid personality because he naturally had this asset and only developed it for selfish purposes. Although his power of imagination, instinctive selectivity, creative ability, and personal initiative were very unusual, his failure to master himself enabled us to appreciate the sum and total of Napoleon's actual victories only by the tragic travesty of a man ending his cancerous hours in a bleak, storm-bound prison off the west coast of Africa. Perhaps he spent his time realizing the truth of these words: "The conqueror is the pawn of fate. Fate would certainly have no patience with one whose only thought of conquering was by destruction. Some times it is necessary to destroy in order to construct. For instance, the tree is hewn down and the life destroyed that it may become a part of that which shelters life. Perhaps Napoleon also realized the truth of the Duke of Wellington's words: "Nothing but battles lost can ever be half so sad as battles won."

Since we realize that the first foe to be vanquished is in our own hearts and minds and that the greatest battles fought and won are those whose wisdom and character are opposed to stupidity, ignorance, and vice, surely we realize that training which will enable the youth of our land to win these battles is very necessary. Many students realize that they would be better equipped to win the battles by attending the higher institutions of learning; however, some of them will be unable to attend because they lack funds. Friends, the great civilized nations of the world are spending enough money each year for the manufacture of destructive devices to educate most of these students. Should the students attend college they would be better fitted to conserve society which is being continually improved but the growth of which would be so retarded

by the use of these many munitions in a war that centuries would be required to rebuild it. We are weighing our appreciation of society. On one of the balance is found conservation and on the other is destruction. The one which finally outweighs the other will determine the type of people we are, because a nation is made up of people whose desires, hopes, weaknesses, and ideals will determine the rise or decline of the nation. Incidentally, the unconquered desires and the wrong emphasis on life will lead to destruction.

Sometimes the wrong emphasis is placed on the desire for success. Many people who are truly great will always be in obscurity and many who are constantly mentioned now may soon be forgotten. Every person cannot be a leader, but there are no successful leaders who cannot follow, because a truly successful leader follows as nearly as possible the desires of those who are leading. It is the obscure followers who have covered themselves, are well respected by their fellow men, moderately successful in business and with God-fearing principles who are the backbone of our great nation. These people, leading ordinary lives, are like the homely, insignificant and usually unmentioned roots of the sturdy tree whose green foliage is admired by everyone. This, those who are successful in obscurity fling their torch to posterity to fulfill the aims which they strived to achieve. Sometimes the next generation fails to grasp the torch and the flame of achievement does not shine for many generations, but this does not lessen the glory of the obscure conqueror. After all the aim of society is for each generation to improve civilization and society for the next generation and society for the next generation. Thus, each generation is very important, and each member of that generation fails to fill his place then there is a blight and the plan of that generation is not fulfilled.

No matter what vocation we choose or to what calling we answer, each of us will have the conflict with hatred, pain, ugliness, jealousy, intolerance, superstition, ignorance and fear. As a talkman to aid us in this battle, let us be engraved on our hearts these words: "Do unto others as you would have them do unto you."

If we follow these ideals and keep in mind the principles of service, the treasure of our conquest, kingdom will be stored "where moth and rust do not corrupt nor thieves break through and steal." Oh, that we may say, through our lives, with that magnanimous character, Paul: "I have fought a good fight, I have finished the course," and feel with Tenyson that:

"Though from out my bosom
Time and place
The flood may bear me far,
I hope to meet my Pilot face to face,
When I have crossed the bar."

Beware! Says State Doctor, Season For Typhoid Is At Hand

AUSTIN, June 7.—Now is the time, according to Dr. Charles D. Reece, Bureau of Communicable Diseases, to be vaccinated against typhoid fever, a disease that has cost the lives of more than 2,000 Texans in the past four years.

Typhoid fever has been eliminated in our army and navy through vaccination. The typhoid vaccine is not a serum. This preventive treatment of typhoid fever consists of three small hypodermic "shots" given every 5 to 7 days until three injections are given. Such treatment protects you from taking the typhoid fever for two to three years.

Consult your family physician today in regard to typhoid prevention. Invest in typhoid protection against this often fatal disease. This form of protection insures you and your family against possible long confinement, great economic loss, and perhaps death.

You may be so unfortunate as to drink contaminated milk, water, or other food containing the typhoid bacilli and contract the disease this year. In selecting a place for a vacation, choose one where you know that water and milk supply is pure. Be sure that the kitchen and dining room are screened to protect food from flies. When camping it is best to boil water used for drinking, unless you know that it is pure. Clear, sparkling spring water may be polluted by drainage.

LLOYD ALSUP CELEBRATES NINTH BIRTH ANNIVERSARY

Friday afternoon of last week Lloyd Alsop celebrated his ninth birthday anniversary with a party at the home of his parents, Mr. and Mrs. J. L. Alsop.

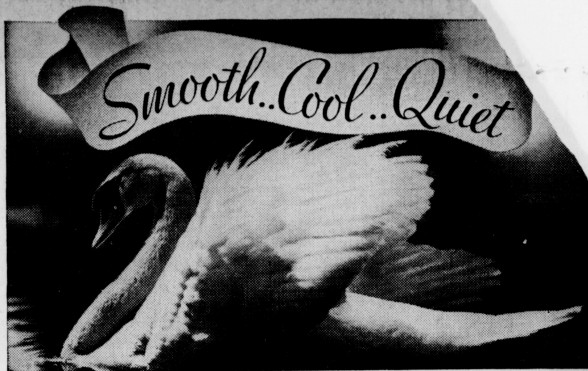

Various out-door and home games were played with much delight. Refreshments of ice cream and cake were served.

A number of gifts were received by the honoree.

Those attending were: Billy Beavers, Roger Walden, Billy Jenkins, Willis Farrell, Cliff Choate, Jr., Connie Dale Gupion and Bobby Sam Dameron.

His guests departed wishing Lloyd many more happy birthdays.

Your car will run better with this marvelous

SUMMER GASOLINE

If you are an experienced and observant driver, you can prove for yourself the hot-weather benefits of Phillips 66... the gasoline that is 100% custom-tailored.

Get a trial tankful and you quickly feel the difference... your engine feels it... but your pocketbook doesn't... because Phillips 66 costs nothing extra.

Phillips was first to match gasoline to weather. Pioneered CONTROLLED VOLATILITY 9 years ago. This scientific development squarely meets the issue of summer motor troubles—overheating, knocking, and lost power. Meets it just as effectively as it does

winter driving problems—slow starting, stalling, and lost mileage.

Every month in the year, Phillips gives you a gas custom-tailored to your locality and its temperature, as determined by U. S. Weather Bureau standards. It is definitely engineered to meet your requirements. It is not only a summer gasoline... this month it is actually a June gas. And next month it will be a July gas. As different every month as the weather differs from month to month.

That is why changes in climate cannot affect the power, pep, and mileage you get with Phillips 66. Remember, it doesn't take weeks

or months to uncover the facts. Try just a single tankful, and you may find that your car is a much better performer than you ever thought... that the engine is smoother, cooler, quieter... more responsive to the throttle and far more nimble.

Phill-up with Phillips for Greater Mileage

The Coconut Palm
The coconut palm grows in tropical America and other tropical countries; its long stem is crowned by a rosette of long leaves, and from the bases of the leaves appear the flowers from which the nuts develop.

The Earthquake
An earthquake is a shaking or trembling of the earth's surface, due chiefly to the faulting of the rocks, but also to volcanic explosions, and perhaps to other subterranean disturbances.

Sea of Galilee Below Level
The Sea of Galilee, a body of fresh water 13 miles long by 7 miles wide, is 700 feet below the level of the sea. The Jordan carries its overflow to the Dead Sea from which there is no overflow.

MULESHOE JOURNAL

Second-class matter at the Muleshoe Postoffice under the Act of March 3, 1879.
ELL, Editor. L. F. MITCHELL, Bus. Mgr.

SUBSCRIPTION RATES
County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.
Advertising rates given on application. Telephone No. 54.
Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses.
Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office not later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, in matters for which whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and sent in for publication must be paid for at the regular advertising rate per line for each issue printed.
Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

THOUGHT FOR THE WEEK

Therefore I love you, my dear, Her sins, which are many, are forgiven; for she loved much; but to whom little is forgiven, the same loveth little.—St. Luke 7:47.

Love is the hardest lesson in Christianity; but, for that reason, it should be most our care to learn it.—Penn.

A SENSIBLE CUSTOM

Back in early years when pioneers were planting the prairies or clearing away the forest and burning the brush in an effort to get a spot in which to plant a few vegetables and set out some seedling peach and apple trees, canning was an unknown art. Apples could be and were buried in the ground for winter use, those that were not cut and dried and stored away for the making of pies. But canning as we know it today had not come into the world. It is these days a destructive force meant something. It was a serious blow at the family food supply and created a shortage that could not be made up for in some other way. Today a canning wife can buy at the grocery any known variety of fruit or vegetable, in cans, regardless of whether or not there is a total failure in the local crop.

The discovery of such modern canning methods as housewives of Bailey county today enjoy is a blessing that should not be overlooked. The requirement for food throughout the winter months is as great as it was in pioneer days; the method of providing it far easier now. In fact, it is so easy that there appears to be no sense in canning for any family to approach the winter months without an abundant supply of canned goods in the pantry. From the standpoint of protection, it is a duty every housewife should perform from an investment standpoint, it is a positive way to save money. Either reason is sufficient to justify any woman in joining the army of American home-canners who soon be carrying out this sensible custom. If there is any reason for not doing so no one around here has discovered it.

HOME LOAN MONEY

While a nation-wide "building boom" is not apparent this year, as many predicted last year would be the case, there is a greater amount of home building, repair work and remodeling under way than during any spring since 1929. Property owners are commencing to realize the advantages offered by the home loan act, and the liberal extension of credit which makes it possible for things done that have been too long postponed.

Muleshoe citizens are advised to look into this new plan before criticizing or vetoing it. The fact that thousands are using this method to secure funds with which to repair and remodel their property is evidence that it must have some value.

Every property owner must know that the longer repair work is neglected the more it will cost in the long-run. And then it may not be possible to get the money under as helpful and satisfying terms as it can now be secured through the new government legislation. It certainly is worth looking into.

"HIGHBROW" DISEASES

If you are one of those nervous folks who get upset and frightened when the family doctor uses some jaw-breaking names, just not yourself familiar with a few of them and you'll get a good laugh.

For instance, if the doctor says the boy is affected by "adrenocorticalitis" resulting in "lacrimation" it only means that a severe earache is making the kid cry.

And here are a few others used by the doctor in "highbrow" language with their meaning in your own words: Cephalitis, that's headache; odontalgia is toothache; costalgia, rib pains; meralgia is pains in the thighs. Any pain-killer is an analgesic. Smallpox is variola. chickenpox is varicella; whooping

cough is pertussis and measles is morbilli. Near-sightedness is called myopia; far-sightedness, presbyopia; crossed eyes a strabismus and total blindness is amaurosis.
So you see that names are, like the average breed of dogs, their bark is worse than their bite.

FOLKS OR UNITS

A man living in a large city was visiting in his old home town, a village of a few hundred people. To a little gathering of friends he said:

"As I was leaving my apartment to come here a coffin was being carried out of the door of the apartment next to mine. I did not know whether it was a man or a woman. I had no acquaintance with those nearest neighbors of mine who live in the city. Yesterday I saw a funeral in this town, the funeral of an ordinary neighbor, and the procession was a long one. Here in the country you have time and feeling for neighbors, which is a far greater boon than any so-called city 'advantage.'"

"The loneliest place in the world is in the heart of a great city, particularly if you have no money. If you have money and pay your bills promptly, they let you alone. If you don't, then out you go. In the city you are a unit. Out in the country, or in a town like Muleshoe you are far more than that—you are folks!"

THE ROAD-HOG MENACE

There may be a wide difference of opinion around Muleshoe as to the wisdom of slaughtering thousands of pigs a year, or so ago, but everybody is a unit in declaring that a campaign to kill off all the road-hogs in the county would be justified.

There has been no reduction in the crop or road-hogs; in fact, they seem to be increasing. There will always be those who insist on both halves of the road and who are indifferent to the rights of others. They possess a belief that the roads were built for them alone, and the driver seshes alog in the middle of the highway, making it dangerous for every driver approaching and hazardous for anyone to attempt to drive around them. In some states they ignored the meaning of a: auto horn until laws were passed fixing a penalty in cases where a driver refuses to give passage to a properly signalled out a sufficient number of obnoxious by a car in the rear.

It's reported to cost on an average of \$67.50 to convert a sinner in New York City. Fortunately they are not trying to convert the entire city or the nation would go bankrupt.

Revolt in the Desert

by A. B. Chapin

or a coward, note the behaviour of his dog.

You can't always judge a Muleshoe citizen by the company he keeps. The best of dogs can't get rid of his fleas.

The old-fashioned Muleshoe child who used to commit Psalms to memory now has a child whose memory course consists of learning all the movie stars.

SNAP SHOTS

In this free setting land any man can acquire culture if he has a little money and a wife to kick his shins.

With Europe seething in military preparations, ten million Europeans would emigrate in a month if they had any place to go.

What with the NRA and Frazier-Lemke laws being invalidated by the Supreme court, we still refuse to be excited. If the world is going to the dogs then that is something for the dogs to worry about.

Another way to stop over-production would be to make the farmers and the city people change places.

A party of Mexicans and Minnesota farmers have gone to Alaska to start all over again. It would be a joke on them if the politicians followed them—and we'll bet they do.

Perhaps it would help the country a lot if it had a few good old soul-singing songs about paying taxes.

No one should expect this country to be made safe for democracy while it is silly enough to worship a good producer.

Two snipers were recently being confined. Babe Ruth will continue playing baseball, and Sally Rand, highly publicized fan-dancer, attributes her success to display advertising.

Our devil says:
"It's sweet to kiss,
But, Oh, how bitter,
To kiss a girl
And miss her spitter."

The devil says, also,
"When Adam in bliss
Asked Eve for a kiss,
She puckered her lips with a coo,
Gave a look so ecstatic,
And answered emphatic,
"I don't care A-dam if I do."
—Exchange.

THE MARCH OF SCIENCE

First, dentistry was painless;
Then bicycles were chainless
And carriages were horseless
And many laws, enforcless.

Next, cookery was fireless,
Telegraphy was wireless,
Cigars were nicotineless
And coffee, caffeineless.

Soon oranges were seedless,
The putting green was weedless,
The college boy was hairless,
Our tennis coats were soulless,
Our new religions, godless.

Now motor roads are dustless,
The later steel is rustless,
Our tennis coats are soulless,
Our new religions, godless.

But though our odes are timeless,
And all our pockets, dimeless,
Our lives will not be boonless,
When songs again are croonless.

Arthur Gutterman.

PHOENIX LIKE NEGRO ARISES FROM ASHES

Fort Scott, Kan.—The "corpse" set up an "good morning."

But for that alcoholic breath, Patrolmen Tom Decker and Roy Reese would have sworn it was a ghost.

Had they not seen the sherd burn Wednesday night? Had they not found the "body" Thursday completely covered with ashes?

"Then there was a movement. Jim Hunt, Arkansas negro, sat up. He was not even singled.

"Now, boss, I don't mean no harm" the bleary moon protested. "I just crawled in here last night to get out of the rain. I'm here."

Suddenly he looked about.
"Say!" he exclaimed in trembling tones, "when did this place burn town?"

THIS WEEK IN WASHINGTON

SUPREME COURT DECISION

WASHINGTON, June 5 (Autocaster)—The unanimous decision of the Supreme Court of the United States that two of the essential assumptions upon which the New Deal program was based, were invalid and unconstitutional, has thrown the Administration and Congress into a state of confusion which makes the fate of much of the rest of the Administration's program doubtful.

When the third arm of the government, the Judiciary, decided that the Legislative arm had no power to enact, and the Executive arm had authority to administer, laws depriving persons of their property without just compensation, or to regulate working hours, wages and trade practices in business which does not cross state lines, it brought to a halt further efforts in the same direction.

The Frazier-Lemke Farm Mortgage Moratorium Act was declared unconstitutional in that it deprived creditors holding farm mortgages of their property without due process of law. The agricultural bloc in the lower House is groping for some satisfactory substitute to hold their constituents in line.

Belief that the same reasoning which the Supreme Court used in denouncing NRA, applies with equal force to parts of the AAA, has checked the progress through Congress of the amendments designed to strengthen AAA.

The same decision, as it applies to regulation of hours and wages in interstate commerce, has put the brakes upon the progress of the Wagner Industrial Relations bill.

The Supreme Court decisions, including the unanimous opinion that the President has no right to dismiss a member of the Federal Trade Commission except for malfeasance in office came just at the moment when Mr. Roosevelt's personal prestige had been greatly enhanced by his action on the Veterans' Bonus.

The President's veto message on the bonus bill is regarded by everybody but the Veterans' lobby as the most statesmanlike utterance he has made since his inauguration. It is also regarded as an extremely smart political move. It gave all of the boys on Capitol Hill a chance to go on record as friends of

the Veterans, chance of which they promptly advantage, and it unquestionably gained for the President a great deal of conservative support. Every President since the war has voted a bonus bill. The soldier vote is too widely scattered over the country to affect a President's reelection, though there are many districts in which it might be strong enough to re-elect or defeat a Congressman.

There is more dynamite than appears on the surface in the report of the Comptroller-General, John W. McCaull, on the actions of the Tennessee Valley Authority. The TVA is asking for an extension of its powers, and more money. Mr. McCaull is the only official who can tell truths without risking his job. He cited many instances of expenditures not authorized by law, improper bookkeeping, assumptions of authority which the law did not contemplate and other kinds of irregularities. The most blasting charge he made is that the TVA deliberately "wrote down" the capital investment in its power plants, in order to make it appear that it could produce electricity cheaper than it actually can produce it.

Mr. McCaull's job is to audit all government expenditures. He holds office for a term of fifteen years and cannot be removed unless he commits a crime. He was appointed in 1921 by President Harding so his term runs until the middle of next year. Some of his enthusiastic friends in Nebraska where he used to practice law, are talking about him as a possible Republican candidate for the Presidency. Washington is most interested in him just now as a mathematician.

Case of Mr. Holt. Another question that has got to be settled on Capitol Hill before the end of this month is whether young Mr. Holt of West Virginia will be really a Senator or not when he reaches his thirtieth birthday on June 19. The Constitution says that Senators must be thirty years old. Rush D. Holt was less than twenty-nine-and-a-half when he was elected last November. There are some conservative Senators of both parties who are strict constructionists of the Constitution, and the indications are that there may be some difficulty facing Mr. Holt on his birthday when he attempts to take the oath of office and qualify as a full fledged Senator.

If the Senate wants to throw him out on the technical ground that he wasn't thirty years old when he was elected, they can do so, and the provisions of the Constitution is that each House of Congress shall be the sole judge of the qualifications and election of its own members.

The debate on Mr. Holt's qualifications might afford an opportunity for some anti-Administration Senators to conduct a filibuster against some of the Administration's proposals. That sort of debate is privileged. It cannot be controlled by any rules of the Senate. So if three or four longwinded senators under the leadership of some sort of marathon nobody could stop them. There have been hints circulating on Capitol Hill that something of that sort is contemplated.

CANT YOU LIFT?

Can't you lift as much as Samson? Can't you sing well as Caruso, Can't you paint as expertly as Raphael?

Can't you release beautiful forms from the marble prisons as well as Michael Angelo? Can't you sway the masses with your silver-tongued oratory as did Disraeli, Beecher and Bryan?

Can't you make your pen mightier than the sword. Anyone can ask a bunch of questions like the above, and the answer is also easy, "No."

But there are more thoughts. A daisy can't bring the price paid for an American beauty.

A meadow lark can't out-sing a nightingale.

The moon can't shine as brightly as the sun.

An automobile can't cover as much ground in a day as a plane.

Nevertheless, we should not forget that the humble daisy has cheered many a load-wary traveler.

Common birds bring joy and gladness to thousands of hearts as they fill the air with sweet song.

The pale moon has been responsible for many happy honeymoon-moons.

And the automobile of high or low degree is still a very useful animal.

So, CHEER-UP! For the place you were intended to fill, you are a good-sized individual.

Then where you stand. Be the best of which you are capable. Remember, "the mighty oak started out as a nut."

Try each day to make a smile grow where none grew before. Then till wagger you two wooden nickels (without holes) that, with each low descending sun there will be at least two people on the world who will be glad your mother fought in the dark to give you birth. And one of them will be YOU.

Webster's Greatest Speech On Webster spoke on the compromise measures of 1850. As a speech, it was one of the greatest of his career, and his last notable one. In it, he rebuked the North for agitating the slavery question and for violating the fugitive slave law, while he advocated concessions for the South. The speech pleased the South, but Northern critics charged that that was its principal intent; that Webster was seeking Southern support for himself as a candidate for the Presidency.

Baileyboro News

Mr. and Mrs. Dick Blackhear and son, Du Wayne and Luelia Apple, left last Monday on a pleasure trip to Parkview, N. M. where they will spend a week and then go on to Las Vegas where Mrs. Blackhear will attend school for the next six weeks.

Mr. and Mrs. Jack Brannen and Grace Brannen, of Littlefield, spent last Sunday in the home of Mr. and Mrs. G. L. Blackhear, of Baileyboro.

Mr. and Mrs. Charlie Durham, of Pettit, visited with relatives here last Sunday.

Flora Mae Lee spent last week in Muleshoe with relative, Mr. and Mrs. Roy Bayless.

Dick Blackhear returned home Sunday.

day afternoon after a week's visit in Parkview, N. M. Janie Lou Garth returned home from Lovelland Sunday with Mr. and Mrs. Herbert Hillman and John Burns of Lovelland.

Ceta Nell Bayless, of Muleshoe, spent the week in the home of Mr. and Mrs. W. B. Lee of Baileyboro.

Mr. and Mrs. J. G. Garth were Sunday visitors Sunday.

Mr. and Mrs. D. L. Rice and daughter, Clem Bell, are visiting in New Mexico this week.

Mr. and Mrs. Dee Clements have returned home after a week's absence.

Misses Eloise McGary and Flora Mae were Amherst visitors Tuesday.

Mrs. Faye Stark, Mrs. J. W. Malone and Mrs. E. L. Cunningham were shopping in Sudan Wednesday.

Mr. and Mrs. D. T. Lafon entertained with a dinner Sunday, celebrating their marriage anniversary. Those attending were: Mrs. F. A. Lafon, Mrs. E. L. Cunningham, Mr. and Mrs. A. T. Lafon, Mr. and Mrs. Bill Lafon, Woodrow Vinard, Alton Garth, Harold Lafon, Kenneth Cunningham, Windell Lloyd Lafon, Billie Fay and Joe Ann Taylor, Genevieve Lafon, Gracie Lee Cunningham and Mr. and Mrs. D. T. Lafon.

James Davis returned home from Canyon Wednesday where he has been attending school for the past nine months.

Mr. and Mrs. Ray Pugh and Mrs. Clara Coffman were shopping in Clovis, N. M., last Monday.

Clark Harvey and H. T. Davis were Canyon visitors Tuesday and Wednesday last week.

Rodger and Lois Harvey returned home from Canyon Wednesday where they have been in school.

Club News "Plant tomatoes," says Mrs. V. B. Mays, "and you will have fruit to make several different and appetizing dishes," to a group of club ladies at the school house May 28.

Miss Stewart met with the club, talked on the year book plans and gave more help and outline on the budget plans.

The roll was called and answered with what and why were certain vegetables planted and used in our gardens.

Plans were discussed for raising money to send a delegate to the A. & M. Short Course in July.

Several ladies who didn't get their names in the club quilt decided to piece blocks and make another quilt. This quilt will be set together, quilted by the club, and sold to help pay expenses for the delegate to the Short Course. Another source of raising money will be set at a later date.

Delicious refreshments of cookies and lemonade was served to about 65 ladies and children.

Before the meeting closed it was decided at the next meeting, June 4, two quilts would be quilted.

There were two officers elected and Mrs. Bob Shanks and Mrs. G. R. Stark; new members were: Mrs. F. W. McCarty, Mrs. Garrett Mays, Mrs. H. L. Flanigan, Mrs. A. A. Miller; old members: Mrs. Sybil Moore, A. F. Patrick, Francis Thomas, Faye Starkey, Faye Renfro, Lois Breedlove, Nona Hobbs, Opal Wallis, W. B. Lee, V. B. Mays, J. B. Young, Clint Dyer, Ota Ragsdale, J. B. Hutson, E. L. Cunningham, T. A. Peol, W. E. Renfro, J. L. Rogers, H. T. Davis, Susie Blackhear, J. W. Malone, Ruby Lane, J. E. Poteit, G. E. Gates, Roy Fugh, H. L. Lowery, H. G. Harvey, Lettie Fern Lafon, Sadie Howard and Misses Stewart, Flora Mae Lee, Eloise McGary and Janie Lou Garth.—Reporter.

4-H Club Report The 4-H club met recently and officers were elected as follows: Gracie Lee Cunningham, president; Geraldine Robbins, vice-president; Freda Harvey, secretary-treasurer; Patsy Nell McGary, song leader; Freda Harvey, pianist; Ollie Tate Davis, reporter; Imogene Lowry, game leader; Melba Gates, assistant game leader.

We played several games and then adjourned.

The 4-H club met May 28 with Miss Alma Stewart, county demonstration agent. There were seven old members and one new member present.

There were two officers elected and two committees appointed. The officers elected were: Merle Lee, wardrobe demonstrator; Voletta Young, garden demonstrator.

The recreational committee is composed of: Patsy Nell McGary, Imogene Lowry and Bernice Breedlove. The financial committee is: Ollie Tate Davis, Freda Harvey and Merle Lee. Every girl between 10 and 20 years of age is cordially invited to join our club.

We adjourned and met with the women where refreshments of lemonade and cookies was served.

Members of the club are Gracie Lee Cunningham, Voletta Young, Freda Harvey, Ollie Tate Davis, Imogene Lowry, Patsy Nell McGary, Bernice Breedlove, Merle Lee, Melba Gates, Verna Ruth Young, Geraldine Robbins, and Verna Robbins. Our new member is Ina Richardson.—Reporter.

S. S. CLASS SAND HILL PICNIC Wednesday evening of last week members of the Intermediate Sunday school class, Methodist church, were entertained with a party at the sand hills east of Muleshoe on the Sudan highway.

The group met at the church at eight o'clock and drove to the hills in cars.

A number of various games were played, after which winners were rosted over a camp fire. Marshmallows, apples and bread were served as the rest of the lunch.

Those attending were Rev. and Mrs. J. Frank Luker, Mr. and Mrs. A. W. Copley and daughter, Holly Ann Buey, Weta Mae Danner, Grace Churchill, Wanda Farrell, Florence Stone, Mable Rogers, Norma Elrod, Dona Mae Soles, Raynes Hayes, Myron Bayless, Clifton Griffiths, Carl Elrod, Malda Chandler, Miss Lola Lipscomb and Miss Elizabeth Harden, Sunday school teacher.

GARZA COUNTY SHERIFF FREE Spencer Stafford, Federal investigator, met his death from machine gun fire, at the hands of W. F. Cato, sheriff of Garza county, in justifiable manner of self defense, according to decision of a United States district court jury, at Lubbock, last Saturday, which decision also gave freedom to Dr. J. W. Kitchin, Tom Morga and Dr. V. A. Hartman, under charges of murder. It was an instructed verdict.

The jury was out four hours, and forty five minutes, two ballots being taken. The first was 11 to 1 for acquittal, while the second was, of course, unanimous for acquittal.

HOME-MAKERS CLASS MEETING The Home-makers Sunday school class of the Baptist church met Thursday, May 30th at the Educational building in an all-day session. We had a quilting at each member bringing a covered dish for lunch. We had a business meeting also 23 members being present, as follows: Meddams Abner, Benson, Buey, Danner, Dennis, Garth, Harper, Hann, Jones, Maxwell, Morris, Mann, McHorse, Paul, Riddle, Roebuck, Sneed, Shirley, Shaw, Smith, Spense and Winn, and Mrs. Choate, visitor. We urge all members to come to the meetings.—Reporter.

Starting With Left Foot Army regulations provide for starting with the left foot in marching drills because of the position in which the rifle is held. It is called "walking into the piece." It follows that all marchers use the same foot.

Bear Grass Stands Test Of Quality Feed For Stock

Beargrass (Yucca flacca) contains about the same quantity of minerals as legumes and apparently should be recommended as an emergency feed, says Harley A. Daniel, Acting Director of the Experiment Station, Goodwell, Oklahoma.

These plants contain slightly less calcium, practically the same percentage of phosphorus and about one-half the total nitrogen as good alfalfa hay.

Data has been reported which shows that yucca plants contain from 25 to 32.8 per cent crude fiber, while alfalfa contains on an average of 28.3 per cent. The calcium-phosphorus ratio in the beargrass approaches that of the legumes rather closely. Although the availability of the minerals in the native plants has not been determined, Daniel believes that a maintenance ration may be had providing the plants are chopped with a sledge cutter and fed with grain or a quantity of cottonseed meal. The yucca should be chopped or ground before feeding in order to make the feed more palatable to the cattle.

Data from the New Mexico Agricultural Experiment Station show, however, that cows may be maintained on yucca without other feed throughout a long period of drought. The yucca was prepared fresh every few days and the cattle were healthy and did not show any signs of constipation or clogging of the digestive tract. Furthermore, two steers were fed on yucca and cottonseed meal for a number of months at the New Mexico station and when they were slaughtered for beef, the college veterinarian made a complete study of the digestive systems and found them healthy and normal in every respect.

These yucca plants and prickly pears are other native plants that have been recommended as emergency feeds. The Russian thistles are high in calcium, phosphorus and nitrogen and low in crude fiber, while the carni are very high in calcium and rather low in phosphorus. The pines should be singled from the pears with a torch before they are harvested.

Circleback News Last Saturday was a big day for Circleback. About 30 people were present during the afternoon. Much ice cream was sold. The men had an agricultural meeting at the school house. The baseball team played Needmore. Circleback crossed bats with the winners. Ten dollars worth of groceries were given away. Grandpa Wells drew \$5.00. Mrs. Nannie McGuire \$3.00 and Mrs. George Gilpin \$2.00.

Miss Ruby Cox gave a party Saturday night in honor of Miss Dorothy McGuire of Olton, who is visiting her brother of this place.

E. J. McCollum and W. H. Walker were in Lubbock on business Thursday.

Mr. F. H. Walker and four children, Mrs. Pink Gates and children, of Aransas Pass, are visiting relatives and friends here.

Elmer Garner and his aunt, Mrs. Ethel Lee Allen, were in Lubbock Saturday.

James Betts, of Bula, visited his sister, Mrs. R. H. Akin, last week.

Mr. and Mrs. Marian Walker, of Brownfield, visited his parents, Mr. and Mrs. W. H. Walker, last Sunday.

H. P. West, of Sudan, was in Circleback on business Saturday.

Mr. and Mrs. Earl Rogers and Mr. and Mrs. Cecil Robinson were Muleshoe visitors Saturday.

Mr. and Mrs. G. W. Duncan and four children, of Lubbock, moved into G. O. Sharnon's rent house this week.

Duncan will have charge of the blacksmith shop this week.

Rev. Fort will preach at the school house Sunday afternoon at 3:30 p. m., June 9. Everyone is invited.

Rev. Moore will hold his regular appointments Saturday night and Sunday Miss Frances and Edith Goforth of Olton are visiting Mr. and Mrs. Woody Goforth.

Circleback Club. The Circleback 4-H club girls met May 30 in the school auditorium.

The following members were present: Balah Lu Perkins, Regna Daniels, Juanita Wilson, Virginia Moore, Ruth Dannon and Doris June Rollins.

Elizabeth Dannon was elected garden demonstrator, Juanita Wilson, Margaret Harper and Regna Daniels were chosen as a finance committee. Regna Daniels was elected as the delegate to attend the Short Course.

Miss Stewart gave an interesting talk on organization and on the girls work for June.

The next meeting will be at the school auditorium June 6 at 2:30 p. m.—Reporter.

YEARS ENDING IN 5 ARE WET The statement has been frequently made by citizens of this area, especially the older ones, that every year ending in the figure five is a wet one. Some are so sure of it as to say that the government weather reports kept in this area reveal that fact.

Now comes John A. Fawater, of Floyd county, who declares every year ending in five for the past 50 years has been a wet one. He predicted early this spring that there would be plenty of moisture, all the lakes would be filled with water and good crops would be the result. He declares he has always been a close student of weather conditions.

Congressman George Mahon Uses Efforts For Farmer Benefit

Congressman George Mahon has conferred with government officials in Washington in an effort to secure an extension of the aid that has been rendered farmers of the drought area. He has been working with the Commodities Purchase Section of the Agricultural Adjustment Administration and the Interstate Commerce Commission regarding a 30 day extension of the reduced freight rates on hay and feed being shipped into the counties that have suffered most from the drought. The agreement which made possible the reduced rates during the last few months expired May 31. The Commodities Purchase Section has included 131 mid-western counties in the proposed area, 69 of which are in West Texas.

He has also made an effort through the Farm Credit Administration and the Texas Relief Commission to secure an increase in the amount of loan allowed for feed for livestock.

Mr. Mahon said: "Now that rains have come over West Texas, our farmers have an opportunity to bring themselves back to a basis of prosperity if they can only be carried over a few more months until a new crop can be raised. I believe that those steps which the government has taken to help the farmers in the drought area should not be withdrawn at this crucial time, but should be continued until returns from a new crop can be realized."

Earth's Quietest Place a Room Built in Utrecht If you should seek your clients what is the quietest place in the world, they would probably say the summit of a high mountain, a distant place in the middle of the ocean, or an isolated spot in the desert.

But we need not leave the town to find the quietest place in the world, for it is in the heart of a city—the city of Utrecht, in Holland. In this quiet place is a room for scientific research, especially built to avoid all vibration. A well-known Dutch physicist and physiologist had it built.

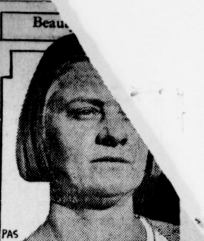

An attempt to construct a noise-proof room had been made once before, but that was not entirely successful. The means used are worthy of record.

In the first place was built three rooms, one inside the other; then, since a vacuum is a poor conductor of sound, the air was all pumped from between the walls.

The interior walls of the rooms were covered with six layers of material; one layer was of some stone blocks, treated by a special process. The cavities between the stones were filled with horsehair; next to the stone were placed layers of wood and cork. The other coverings were layers of lead plate, sea grass and paper.

The walls were next to the stone were placed layers of wood and cork. The other coverings were layers of lead plate, sea grass and paper.

Good resolutions must find quick employment or spoil.

NEWARK, N. J. ... Mary Harriet Hickman, 37, (above), says "give me beauty or give me death" and offers herself for experimental purposes to any doctor, surgical or plastic, who will try to make her beautiful. "I will take teeth rather than go on with a body and face that make me miserable," says Mary.

IT TAKES MY PATIENCE When you light the evening lamp You pay a tax. When you buy a postage stamp You pay a tax.

When you buy the baby clothes When you read the morning news, When you buy a pair of shoes, You pay a tax.

When you watch the screen girl wink You pay a tax. For the water that you drink, You pay a tax.

When you smoke a cigarette, For the dinner that you get, For the beautiful coquette, You pay a tax.

When you buy an ice cream cone You pay a tax. When you buy a small soup bone You pay a tax.

When you buy a loaf of bread, When the doctor says you're dead, And the final prayers are said, You pay a tax.

—J. E. Doringter, Bushnell, Ill.

THE JOHN DEERE MODEL D TRACTOR Noted for its simplicity and power. Has only two cylinders and burns low cost fuel. Numerous less working parts to wear than most tractors, and all in dust-proof case. Takes the big jobs easily. Come in and let us explain fully its merits.

King & Parsons MULESHOE, TEXAS

THE SUPREME COURT

OF THE UNITED STATES DECIDED THE FRAZIER-LEMPKE FARM BILL IS INVALID

And there are plenty of families in and around Muleshoe who have decided that Gupton's Groceries ARE VALID. They are good constitutionals, chock full of democratic vitamins, as health producing and satisfactory as any of the alphabetical provisions of the New Deal. They are the best form of Relief we know of for natural hunger—and they cost you no more than many cheaper groceries you may buy elsewhere at the same price.

Mr. and Mrs. C. F. Moeller, daughter, Bettie Ruth, and son, Walter, returned home last Tuesday afternoon from an extensive trip to Florida, several northeastern states and Washington. While gone they attended the wedding of their son, Erik. They report having a wonderful and enjoyable trip.

SUNDAY SCHOOL LESSON

by REV. CHARLES E. DUNN

The Holy Spirit.
Lesson for June 9th. John 16:11.
Golden Text: Romans 8:14.

John assigns several functions to the Holy Spirit. First of all, he refers to it as an agent of remembrance, bringing to mind what Jesus taught. "The Holy Spirit will bring to your memor-

ies all that I have said to you." (Chap. 14:26). In the next place, the Spirit of Truth will be a witness concerning me." (Chap. 15:26).

Thirdly, the Spirit convices the world of righteousness and judgment. "And He, when He comes, will convict the world in respect of sin, of righteousness, and of judgment." (Chap. 16:8). Again, the Spirit leads to all truths, and reveals what is to come. "When He has come—the Spirit of Truth—He will guide you into all the truth. And He will make known the future to you." (Chap. 16:13).

Finally, the Spirit after the disappearance of Jesus, will act in his place and speak for him. "He will glorify me, because He will make it known to you." (Chap. 16:14).

In all this John presents the Spirit as the Revealer. There are two kinds of knowledge. The first is that which comes by careful thinking in accord with the established technic of analysis, classification, and logical deduction. The second is what follows, by a mystical, supernatural process, from that divine broadcasting system of spiritual power we call God.

It is this latter type of knowledge John associates with the Spirit. The Spirit, in his mind, illumines the believer with truth by any human process of thought.

Such truth is new, bringing with it a thrill of joyous surprise. But it also protects and perpetuates the old. Thus the message of the Spirit is an abiding one. While it has the freshness of tomorrow it possesses also the familiar touch of yesterday.

WANTED TO BUY: Good 4-wheel tractor, J. Clyde Taylor, Plains Co-Operative Creamery. 19-11c

Farmer county commissioners, J. M. V. Alexandra, of Friona, Joe Paul, of Lazbuddie, and Lee Thompson, of Farwell, attended to business in Muleshoe last Tuesday morning while enroute to Lubbock to attend a South Plains highway association meeting.

Mr. and Mrs. Gene Kistler, of Tatum, N. M., who have been visiting here for the past several days with Mr. and Mrs. W. H. Kistler and friends, left the middle of this week for Albuquerque, N. M., where he will attend the University of New Mexico this summer.

Mr. and Mrs. J. C. Weaver left the latter part of last week for Roswell, N. M., to look after property interests there for a few days, after which they will go to their former old home at Boliver, Mo., to visit with relatives there, at St. Louis, Kansas City, and other points for about two months. Mr. Weaver's only sister, residing in Boliver is now a victim of paralysis and not expected to live much longer. He has not seen her for 15 years.

medical advisor is competent. I have no tolerance for "vegetable compounds," "Indian discoveries," "Squaw cordials" and the like, such as are sold indiscriminately. Two sisters may have the same symptoms, and yet have entirely different diseases.

Of course, married women differ from unmarried sisters, and of course, require different lines of investigation, and, different treatment. It would be foolish to treat both alike, simply because both wore feminine apparel!

In no capacity is the family doctor a more faithful servant than in his treatment of his woman patrons.

Resident Relief Cases in Texas Now On Decrease

Resident relief cases in Texas decreased by 25,848 in April and the total number of persons receiving resident relief fell below the 1,000,000 mark for the first time in many months, it has been announced by Adam R. Johnson, state relief director, Austin.

Cases receiving resident relief dropped from 253,890 in March to 228,042 in April. Part of the decrease was attributable to transfer of farm families from the resident relief to rural rehabilitation rolls, the latter showing an increase of 6,622 cases in April and a total of 16,441 as against 11,819 in March.

A check is now being made in Bailey county to learn the real status of clients, after which due recommendations of continuance or dropping will be made.

In addition to general direct and work relief done in this county this month, there has also been expended the sum of \$21 on transient relief and \$2,600 on rural rehabilitation, according to Pat R. Bobo, director.

COUNTY RELIEF FUNDS ARE CUT; MANY MAY BE OFF ROLL

Radically reduced allotments for the relief population of Texas have been made by the State relief office, Austin, according to Pat R. Bobo, Bailey county relief director; this county receiving \$2,308.00 for the month's needs, whereas heretofore about \$6,000 per month has been the quota.

Notwithstanding application was made by Adam R. Johnson, state director, for \$4,000,000, only \$2,500,000 was received for Texas, necessitating cutting down of caseloads throughout the state. Grants, accordingly, are going to be reduced from \$19 in May to about \$10 for June.

LAST VESTIGES OF NRA RESTRICTIONS THROWN OFF: PRESIDENT IN WONDERMENT
(Continued from Page One)

adherence, and some solution is being sought whereby labor hours, wages and no child labor may be maintained.

The President has temporarily called off press conferences, cancelled other get-together meets, held up financial allocations of different kinds, and eschewed making any statements for the present. Congress has ordered all major legislation held up for a time, pending more mature study of the high tribunal's pronouncements.

It is feared by many, also, that the social securities bill "the measure for

abolishment or regulation of public utilities holding companies, some of the AAA codes and the Wagner labor disputes bill may be affected by the decision.

Meanwhile, Republicans have let lose a deluge of gloating over the decision, so great in fact, that the House adjourned; but the Senate kept on grinding out grist. Any day now some definite announcement of remedy may be made from Washington.

Last Saturday the President dismissed 411 court cases involving violations of the Blue Eagle rules. Several alleged labor violation cases are still on court dockets, but no intimation has yet been made of the nature of their disposal. Several cases initiated by and against the government concerning actions taken by alcohol control and petroleum administrations, the national steel labor relations board, the AAA and the textile labor board have not yet been acted on and no one seems to know their future status. The attorney general in a letter to the president stated "it seems futile to proceed."

Meanwhile, hundreds of home, apartment houses, rooms in hotels, etc., are being vacated. Present indications are that some of these administrations will close their alphabetical existence June 6, while still others will end June 16, and thousands of administrators, deputies, clerks, stenographers and other employees will be out of jobs. They are planning on getting back home while they still have money for car fare.

Enochs Wins Sunday
Last Sunday afternoon the Muleshoe team played the Enochs team on the grounds of the South Bailey county metropolis, the score ending 4 to 3 in favor of Enochs. Moore and Walker formed the battery for Muleshoe, while Pangburn and Berry did the pitching and catching for Enochs. It took 10 innings to decide the fracas, so several, matched were the contending teams, but an error on the part of the Muleshoe lads eventually gave the south Bailey countesses the winning score.

Play Circleback Monday
Last Monday Muleshoe and Circleback teams squared off on the local diamond for a game which was witnessed by between 400 and 500 people, visitors here for Trades Day. It was declared by many witnesses to be one of the most skilled and scientific games ever played on the local lot, errors by either side being few and remarkable plays being aplenty.

Goodland News

We had a large crowd out for Sunday school and preaching Sunday morning. Rev. Alford Richards and Rev. Billie Smith, of Maple, both preached at the morning service.

There will be singing Sunday night. Everyone is invited to come help us in our singing.

Miss Rose Mary Hanover is home from Canyon where she went to school the past term.

Mr. and Mrs. Vestel Rogers, of Stegall, attended Sunday school and preaching and visited their uncle, Freeman Adams and family, Sunday.

Mr. and Mrs. Richards and family and Rev. Billie Smith of Maple, visited in the Alvie Rackley home, Sunday.

Rev. Fort, of Muleshoe, visited in the Hanover home Saturday. Miss Helen Estep, of Watson, visited Helen Brinker Sunday and attended preaching.

Eugent Trussel has gone to California. Walter McGee looked after business in Portales, N. M., Thursday.-Reporter

The Methodist Missionary society met Monday, May 27, at the church. We had a very interesting lesson about Christian negroes. We had our Rosebud and several games were played, then we were served cake and cordials.

Mrs. Jacob Tyson and Mrs. Paul Powell were visitors. We are always glad to welcome visitors. Rev. and Mrs. B. C. Smith, sr., and children visited in the home of Mrs. A. R. Eubanks Sunday.

D. Rector and Verg Bigner went to Muleshoe Monday on business. Mr. Landron spent Sunday with M. W. Holloway.

Rev. and Mrs. G. R. Fort, of Muleshoe, spent Saturday night in the home of Mr. and Mrs. Geo. Tyson. John Tyson attended court at Morton all last week.

Mr. and Mrs. H. W. Garvin and others were Leveland visitors Sunday afternoon.-Reporter

WHEAT REVIVES WONDERFULLY MANY FIELDS TO BE HARVESTED
Less than a month ago farmers of Bailey county and the South Plains in general were terribly discouraged over the wheat crop failure, now they are more buoyant; for two reasons.

Recent rains have almost worked a miracle in bringing out wheat which supposedly was past redemption because of the extended winter drought. Many fields which were thought of no value for production are now bearing promise of yielding from five to ten bushels per acre. Farmers are all surprised that the heads should be filling out as nicely as they are.

The shortage of seed for planting again is going to force many farmers to cut short yield fields which otherwise fall planting in this section is practically all gone; farmers have empty and most elevators are pretty well drained. Where a field will yield from two to four bushels per acre, farmers say it will be worth cutting, because of the shortage.

Local grain dealers are estimating there will be about 74 carloads of grain raised in this territory to be shipped from Muleshoe this year.

RELIEF LOAD BEING CHECKED ALL CLIENTS MUST REPORT
The Federal Emergency Relief administration has ordered a re-examination of the entire case load in all states. This is to be accomplished in Texas by a personal interview with each client.

The purpose of the re-examination is to determine validity of cases, in order that the FEERA may be assured that the Texas Relief commission has been carrying out the purposes for which the relief administration was organized, namely to grant relief to persons in need.

It is necessary that each relief client in Bailey county call at the local relief office in Muleshoe immediately for a personal interview as the time for this re-examination is limited, according to Pat R. Bobo, Bailey county relief director.

Eight inches of rain fell at Sabin last Friday in two hours time.
