Barley Counted As Feed Grain In '69

Information has been received in Callahan County that barley has been designated as a feed grain for 1969.

ASCS has notified producers with barley bases that this crop will be counted as a feed grain in 1969.

J. C. Earp reminds that it is also important for other producers who may be planting barley that the seeded acreage will be counted against their feed-grain permitted acreage.

Mr. and Mrs. Fred Tunnell, accompanied by Mr. and Mrs. Tom Beene of Comanche, left Saturday for a week's vacation trip into Colorado.
