

# THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

VOLUME 13

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, OCTOBER 24, 1935

NUMBER 39

## BAILEY CO. TO GET \$288,000 FEDERAL FUNDS FOR 1935

**458 CHECKS TOTALING \$20,148.87 FOR COTTON CO-OPERATORS REC. HERE FOR DISTRIBUTION MONDAY**

**Part of Wheat, Corn-Hog Payments Also Made; \$25,000 Coming From Repealed Cotton; Parity Payments Are \$43,000.**

Four hundred and fifty-eight checks, totaling \$20,148.87, representing a second Federal payment on rented cotton land in Bailey county under the AAA, was received here Monday by J. B. Waide jr., county farm agent.

The last of the first cotton rental payment was received about 10 days ago, coming in 22 different check consignments, totaling for the year, \$48,371.63.

Last week 23 checks totaling \$2,288.75 were received here representing most of the government rental payments on wheat land.

Group 1 of the Corn-Hog payments, totaling \$5,488.35 for Bailey county, has been received, with about \$10,000.00 yet to be paid in this co-operative movement.

It is conservatively estimated by officials connected with these various AAA movements that Bailey county will receive this year as follows: For wheat rental land, \$3,258.25; for corn-hog reductions, \$15,488.35; for cotton, \$96,430.00; for parity payments, about \$43,000.00; for tax exemption certificates, \$85,000.00; for 500,000 pounds of cotton of the 1934 crop production repaid at 5 cents per pound, totaling \$25,000; and a grand total of all sources amounting to over \$228,000. Federal money that will come to Bailey county during the year 1935, with the 1935 payment, the total received in this county from AAA sources since the beginning in 1933 will total pretty close to a million dollars.

**ALLIANCE AT LITTLEFIELD**  
The Bailey-Lamb County Ministerial conference met last Monday at Oton, at a time it was decided all future sessions would be held at Littlefield, use of its central location. The meeting will be Nov. 11.

**County Gets Credit For \$30,000 Of Highway Bonds**

Counties this month will feel effects of state policy that pays them back for the highways they built by bond issue.

More than \$1,000,000 state money derived from the gasoline tax, will be disbursed through the state board of highway and district road bond interest, to meet bond maturities and interest on local bonds.

County will get credit for \$30,000 of bonds, including interest on bonds having been voted by some years ago when State No. 7 was first approved. This county, and for which there have been no taxes assessed in this road district for the past several years.

Students have not been sufficient all the bonds maturing—\$60,000 a year; but many of them have been refunded and longer periods. In a technicality, the state same outstanding county and funds. Rather, it decided to go back for expenditures, on of remaining unpaid debts and, in effect, meet the bonds and interest as they matured. The amount of bonds was yardstick for payments, on the true measure of what they actually had paid out and incurred as debt. Bonds are worked off, cannot be embodied to save a substantial amount of the old taxes formerly to meet the bond payments.

**SIGNING WHEAT CONT.**  
Signing of Federal government anti contracts for the coming year, for 1936 to 1939, but began this week, according to Agent J. B. Waide, about 30 contracts were anticipated. There were 5,720 acres of land in this county under government control, but the acreage and applications are expected to increase this year. Contract provides that any money withdrawn at the end of the year, or any entire region withdrawn upon action of its members.

**ALLOTMENT OF \$25,000.00 MADE TECH COLLEGE**

**Centennial Board Also Gives Allotments Totaling \$759,000.**

Following urgent representations made by the Centennial Commission of Control last Saturday made a grant of \$25,000 toward erecting a historical museum at Texas Technological college, Lubbock, last week this being but one grant of numerous others totaling \$759,000. All allotments were for some type of permanent construction and none were allowed for gratuity.

The commission allocated \$50,000 for a memorial building in El Paso to the conquistadors, and \$25,000 each to Lubbock, Canyon, and Alpine for museums at Texas Technological college, West Texas State Teachers college and Sul Ross State Teachers college, respectively.

An allotment of \$25,000 was approved for a monument to pioneer Texas women on the campus of the College of Industrial Arts in Denton.

Previous allotments of \$50,000 to each of eight Texas colleges were included in the final allocations, which were based in part upon recommendations in majority and minority reports of the historical advisory board.

**\$100,000 For Markers**  
The commission allotted \$100,000 for (Turn to Page Eight, Please)

**18 Students From Bailey Co. Could Get NYA Assistance**

Austin, Oct. 22.—In Bailey county there are 18 high school students losing part-time jobs paying \$6 per month were offered \$34.75 monthly to make application for NYA aid allocations, Lyndon B. Johnson, state director, announced today.

"On September 12, socially desirable part-time jobs having \$6 per month were offered \$34.75 monthly to this office has been retained, and the National Youth Administration is desirous of filling the quota immediately in order to give those eligible students the full sum of cash due them," he said.

Students between the ages of 16 and 25, who for lack of financial assistance are unable to attend school, should make application directly to the principal of their school, Johnson said. The principal then submits to the county superintendent a project application in affidavit form asking for his quota of jobs, together with students' applications properly executed. Applications should then be forwarded to the National Youth Administration, Littlefield Building, Austin.

**ACCEPTS LITTLEFIELD CHURCH**  
Rev. A. A. Brian, for three years pastor of the Baptist church at Levelland has accepted pastorate of the First Baptist church at Littlefield, effective last Sunday, and succeeding Rev. Joe F. Grizzle, for six years Littlefield pastor, but who recently accepted the Baptist church pastorate at Portales, N. M.

**4-H BOYS INSURE CALVES**  
Nine of the Bailey County 4-H club boys have had their pure bred calves insured for the winter, insured for \$50 each, the policies covering any loss or damage except that sustained through transportation.

It is probable other club boys will also insure their animals, according to County Agent Waide.

**MULESHOE HIGH PLAYS SPRING LAKE HERE FRIDAY; LARGER ATTENDANCE IS URGENTLY REQUESTED FOR GAMES**

A football game is scheduled to be played here Friday (tomorrow) afternoon between the Muleshoe and Spring Lake high school teams, the local team looking forward to a tough tussle in the approaching meet. Friday of last week Muleshoe played the Farwell High school team, a non-league game, the visiting team winning in a score of 25-0. Notwithstanding the defeat, members of the local squad are reported to have put up the best fight of the season, three times being within two yards of the goal when fumbles became expensive.

The next three football games are also to be played on Muleshoe grounds, and it is being urged that favorable attendance be accorded these coming games. The Muleshoe squad this year is essentially a young bunch of players. Some of the members are playing in their first season, a few have had a year's experience, but there is not a well seasoned player on the entire team. They are giving a good account of themselves, according to their lack of experience.

Several citizens have commented adversely upon the lack of patronage of games by local fans, and it is said more games have been scheduled away from Muleshoe this year because home people have not patronized them as they should. Lack of patronage is costly for the team, sometimes being very expensive when it comes to digging in to pay expenses of the visiting team.

Superintendent W. C. Cox furnishes the following figures for the first two games played away from home and for

which the local team received \$30.00, as follows:  
Transportation cost to local team was \$10; bandage and tape cost, 75c; depreciation on uniforms at \$7.00 per game, \$14; leaving a net income of \$7.25 to the local team for the two games.

On the two games played at home this season, the data is as follows: Gate receipts two games, \$34.80; paid to the two visiting teams, \$25; depreciation on uniforms at \$7 per game, \$14; umpires for the two games, \$5.50; bandage and tape, 75c; leaving a loss to the home team and club of \$11.45. "But," Cox states, "was the original intention to schedule most of the football games this season at home, hoping by so doing to make the athletic department of the public school self-supporting. The Muleshoe squad this year is essentially a young bunch of players, but recent experiences has proven otherwise, and away from home schedules have had to be arranged. Prof. Cox was in no way censuring the lack of attendance; but he does believe with many others that these games should be more liberally patronized.

It is generally agreed that good clean sportsmanship has a definite place in school life, furnishing not only stronger physiques but teaching many lessons of incalculable value for future life. Athletics are not overdone in the Muleshoe school, rather they are given reasonable attention, and it is declared by the sponsors if football games are to be played on local grounds it is, therefore, necessary that they be financially supported to at least the point of being able to pay necessary expenses.

**About 2,200 Bales Of Cotton Ginned; Is Opening Slowly**

That cotton is opening slowly and ginning not being very rapid, is the statement of growers and ginners the first of this week, some contending a few light frosts may be necessary to pop open the cotton bolls so picking can be carried on in an efficient manner.

As this newspaper goes to press approximately 2,200 bales of cotton have been ginned by the 11 gins operating in Bailey county, there being two in Muleshoe, two at Bulla, and one each at Joyland, Chinook, Enoch, Maple, Goodland, Baleyboro and Needmore. Perhaps the largest field of cotton in this area of the state and certainly the largest in Bailey county is that of W. E. McLaughlin, in the Watson community, who has 2,200 acres, now employing 200 pickers and gathering about 45 bales per day.

**D. A. Adam Suffers Loss Of Left Arm In Fri. Auto Wreck**

D. A. Adam, well known in Bailey county, and for the past seven years farm agent of Lamb county, but who a few weeks ago was transferred to the same position in Young county, was seriously injured Friday of last week when the automobile in which he was riding was side-swiped by an on-coming truck.

Adam's left arm was so seriously injured that its amputation was necessary, the member being removed by surgeons at a Fort Worth hospital where he was taken following the accident.

Mrs. Adam and three others were in the car at the time of the accident; but indefinite reports do not state if they were also injured.

**NEW WPA TRUCK RULING**  
Removal of restrictions on employment of trucks under contract for WPA projects is expected to expedite such proceedings all over Texas. Heretofore, because of restrictive rulings, trucks have been difficult to obtain for projects in action.

A truck owner anywhere in the state may now obtain a WPA project, and because of restrictive rulings, trucks have been difficult to obtain for projects in action.

**Ginnings Are Lower This Year Than A Same Time In 1934**

That cotton opening is away behind times is the report released by the U. S. Census Bureau Friday of last week, showing ginnings all over the south to be delinquent, largely because of general lateness of all crops in the cotton producing states.

Figures for the South Plains area indicate the number of bales of cotton turned out to be only about one-eighth of that of a year ago, some counties, including Bailey, ginning so little as to not be worth while reporting at all time. Brisco, Castro, Cochran, Crosby, Floyd, Gaines, Garza, Hockley, Farmer Swisher and Terry counties also made no report.

For Texas as a whole, ginnings to October 1 were slightly more than one-half what they were the same date last year, this year being 927,891 bales as against 1,720,000 bales the same date last year.

**First Half Taxes Is Due November 30th Says Co. Collector**

First half 1935 taxes must be paid by midnight, November 30, according to Jim Cook, Bailey county tax assessor and collector.

If first half taxes are paid by that date, then second half taxes may be paid until midnight June 30, 1936. If first half of taxes are not paid before December 1, then all taxes must be paid by midnight January 31, 1936, to avoid penalty.

Mr. Cook said that the three per cent discount allowed by the legislature for prompt payment of taxes in October, could not be made until a Supreme Court decision has been handed down.

Attorney General William McCrew ruled the discount unconstitutional and two test cases are now pending before the Supreme Court. A decision is expected at any time.

**POULTRY SPECIALIST HERE**  
Geo. P. McCraw, assistant poultry husbandman, Extension department, A. & M. college, spent Wednesday of last week in Muleshoe and vicinity and accompanied by J. B. Waide jr., county farm agent paid a visit to several turkey raisers of this county.

He said more work was being done in this section to improve flocks, bringing them up to standards of meat type bird development than any other section he had visited.

More than 400 million dollars is now in the unclaimed fund of the U. S. treasury, much of it for paying off bonds due but not yet claimed. Meanwhile, the government is getting the use of the money without interest.

**CORN-HOG PHASE REFERENDUM OF AAA UP FOR VOTE ALL OVER STATE BY GROWERS SATURDAY**

**Four Polling Places Named In Bailey County; All Operators, Owners and Official Representatives Included.**

Four polling places where Bailey county farmers can cast their votes in the nation-wide corn-hog referendum to be held Saturday, October 26, have been set up in the county, it is announced by R. B. Dennis, president of the Bailey County Corn-Hog Control association.

Only one question will be on the ballot: "Are you in favor of a corn-hog adjustment program to follow the 1935 program which expires on November 30, 1935?" All operators and owners, or their official representatives, of farms which produced corn or hogs in 1935 may vote whether they signed 1934 or 1935 corn-hog contracts or not. Each eligible person is entitled only to one vote.

The schedule of the polling places, which will be open from 8:00 a. m. to 10:00 p. m., together with the corn-hog committee members who will be in charge, is as follows:

Muleshoe, American Legion hall, Ray Buzard and Joseph C. Terrell, judges.

West Camp, school house, M. A. Snider and W. L. Williams, judges.

Watson, school house, Henry Handerson and D. Warner, judges.

Circle Back, school house, Walter Damron and J. L. Bain, judges.

It is very important that every Corn-Hog Contract signer vote in the referendum. The Agricultural Adjustment Administration wants a complete report on how the contract signers feel toward the Corn-Hog contracts. This would only be possible when a majority of the signers vote in the referendum. All who do not vote will probably be counted as not interested in a program.

**Senator Nelson In Greeting To People Thru Local Editor**

"Since arriving in Austin, I have found myself quite busy getting adjusted to new relations and preparing myself to intelligently vote upon various legislative matters now coming up for consideration in these special sessions," remarked Senator G. R. Nelson, who visited Muleshoe editor, J. B. Waide jr., the newly elected senator in Austin last week.

"The State Monopoly of sale of whiskey favored by me was defeated in the Senate by four votes. I was relieved from this source any revenue from about five votes. None of the votes favor this system for the reason that it takes vast profits from the liquor dealer. A few dregs, enough to defray the bill, hesitate for sentimental reasons to put the State in the liquor business. I doubt that any law based on the old license system will give proper protection to dry territories. Such a system has heretofore been tried. In order to secure any appreciable amount of revenue the license must be reasonably high; high prices of liquor has and will, in my opinion, encourage bootlegging," said Senator Nelson.

"The main trouble with passage of my Old Age Pension law is that no one wants to be taxed to get the money," he said. "All special interests favor a General Sales tax, because from this source any revenue can be raised and the consumer will pay the whole bill. I have not supported the Sales tax because I know there are sources not yet touched from which revenue can be drawn. I feel there is no necessity for making the tax load heavier on the masses. I believe it is safe to say that an Old Age Pension will be provided for within the next 30 days."

"Tell the people back home I shall at all times welcome ideas and views of my constituents in regard to any legislation pending before the Senate, and shall be glad to help them with their personal problems at any time I may be able to serve them."

**MAY HAVE 4-YEAR COTTON PLAN SAYS ADMINISTRATOR**  
A four year program has already been outlined for wheat and tobacco, and one of a similar nature may also be outlined for cotton, according to Chester C. Davis, AAA administrator, Washington.

gram which would be the same as voting against the continuation of the program.

"In event it would be impossible for you to go to the polls and vote please see an election judge in your community and let him give you an absentee ballot," said J. B. Waide, county farm agent.

County results of the referendum will be wired to state headquarters at College Station by midnight noon, and the state results, in turn, will be telegraphed by Tuesday.

Officials of the Agricultural Adjustment Administration point out that unless a sufficient number of farmers vote favorably, there will be no program. The administration must be assured that a sufficient number of farmers will participate to make a program operative and successful.

Facts upon which farmers can base their judgment have been presented at a series of community meetings. Evidence was presented to show that livestock numbers are far out of line with feed supplies as a result of the drought. With plentiful supplies of cheap feed in prospect and with rapid rebuilding of swine numbers possible, farmers and consumers face the prospect that the next three years may bring the greatest increase in hog production that the country has ever seen in a similar period and consequent disastrous hog prices.

During the past 45 years there have been 10 such violent ups and downs, or cycles, which have undermined the swine industry, brought violent upswings and downswings in pork prices, destroyed farm buying power and wiped out markets for industrial products.

**Crop Payment Checks Must Be Delivered In Person Says Official**

Cotton exemption certificates issued under the Bankhead act are not to be used for collateral, and county agents have no authority to deliver checks to other persons than the payees named on the cotton check a ruling made by A. L. Smith, chairman of the state cotton allotment board, received by J. B. Waide jr., county farm agent.

"Recently many creditors and others have made inquiries about obtaining producers' surplus tax exemption certificates to pool them in the name of the producer," he said. "The House government check Mr. Smith took the matter up with the division of cotton and a ruling was had."

In a letter to county agents, received by J. B. Waide jr., agent, the admissions to put the State in the liquor business. I doubt that any law based on the old license system will give proper protection to dry territories. Such a system has heretofore been tried. In order to secure any appreciable amount of revenue the license must be reasonably high; high prices of liquor has and will, in my opinion, encourage bootlegging," said Senator Nelson.

"Reference request opinion of assignment pool proceeds. We advise that the manager of the pool has no authority to recognize any transfer or assignment and that the assistant in cotton adjustment is authorized to deliver a check issued by the pool or certificate issued therefrom upon liquidation of the pool only to the permittees certificates are for the purpose named as payee on the check or named in such certificate."

Mr. Smith commented: "Tax-exemption certificates are for the purpose of paying the ginning tax on cotton and are not to be used as collateral. Surplus certificates may be pooled or transferred at the rate of five cents per pound to another producer in an amount necessary to pay the ginning tax on his cotton produced by or for him, in excess of his Bankhead allotment."

"They are not for speculation. Your regulations are very clear concerning speculation in tax exemption certificates."

**ORGANIZE NEEDMORE CHURCH**  
Sunday morning at 10:00 o'clock the recently constructed Methodist church at Needmore will be organized. Plans and discussions will be held regarding organizing the Sunday school classes, Epworth leagues and missionary society.

At 11:00 a. m., the pastor, Rev. G. R. Fort, will preach the opening sermon.

Everybody has a very special invitation to attend.

**HAVE YOU SEEN IT?**

The new Ford V-8 for 1936 is now on display at our show-rooms. Words will not fully describe what new beauty of streamlining has done to this already marvelous car. The new massive grille and front end assembly has been softened by long streaming lines blending into the car as a whole. Even the new wheels add their part to the beautiful assembly which is further accentuated in the modern motif of interior design—See them today!

Proved by the past—Improved for the future.

**Muleshoe vs. Farwell**

Muleshoe and Farwell high school football teams met in Cobb park October 18 to settle an old grudge. Last season, Muleshoe beat Farwell in the two games they played. This year Farwell was determined to beat Muleshoe, and did, with the final score 25 to 0. Even with a score like that, Muleshoe was on the 10 yard line, only to lose the ball by fumbles.

There were several new players in the game, namely: Clifton Griffiths, Charles Alsup, R. L. Hicks, and William Norris. The starting line-up was: Woodie Lambert, re; Raymond Brooks, le; Ben Healy, rt; Houston Hart, lt; Curtis Spry, rt; Delbert Parsons, lg; Kenneth Brisco, c; Ralph Border, qb; Odin Rollins, lb; Bill Faulkner, rh; Roy Errod, fb.

**Muleshoe Still In Conference**

Due to the withdrawal of the Farwell team from conference games, Muleshoe is still in the run.

This ties this end of the district. With concentration and a display of enthusiasm the Muleshoe boys have a chance to overcome some of the difficulties they have been experiencing. The school would like to have a good representation at the Springlake vs. Muleshoe game to be at Cobb park Friday, October 25. Everybody come and help yell!

**Pep Squad News**

The Pep squad, as usual, marched out to the football field last Friday to see the great football fight between Farwell and Muleshoe. It was really a good game, although the score was 25-0 in favor of Farwell. Muleshoe boys played a better game than they have ever played. Even Coach Stevens complimented the boys on their good playing. By the next game, we believe the boys will be able to win. Kenneth Briscoe got hurt in the second quarter and was unable to play the rest of the game, but did some good playing while he was in the game.

If anyone wonders why the Pep squad could not yell for Kenneth Jennings or Neil Prescott, see them. They did some good yelling on the sideline.

The Pep squad will give a program in chapel Wednesday morning. Everyone come and play the exactly what kind of football talent our Pep squad has.

**Hallow'en Carnival Oct. 31**

The annual High school carnival will be held in the High school building, Thursday, October 31. This function has proved to be the most enjoyable activity of the school year. The results of the carnival will go into the

**MEDICAL TOPICS**

**INFECTON**

A large percentage of the deaths occurring each year are due to infections originating above the neck—Namely, from the teeth, tonsils and sinuses. This is brought about by the infection being carried from a diseased mouth or nose through the blood to the heart, kidneys, lungs, gall bladder and other important organs and there setting up diseases that not only cause bad health frequently for years but finally death.

One of the most important services the doctors have rendered the public during the past fifteen years is to advise them to "Get rid of those diseased teeth, tonsils and sinuses before they get rid of you."

Courtesy of the  
**Plainview Sanitarium & Clinic**  
Plainview, Texas Adv.

held next Thursday night, October 24, in the High school auditorium. All the mothers are cordially invited to be present at that time.

A very good program was rendered, and Mildred Burhead had an opportunity to prove her ability to tap dance. "Duckie" Beier sang "When I Grow Too Old To Dream," and Malda Chandler played a piano solo. To cap the climax, Mary Holt, an honorary member, made a wonderful talk entitled "Brought Up To Do Something."

**The Student Body, What We Stand For**  
By Odin Rollins

We, the student body of Muleshoe High school, stand for high ideas and great achievement. We think that each individual should have an unlimited amount of initiative of his own. We think that Crystal Kennedy should be permitted to be a Democrat even if she does not know what a Democrat is.

We permit Martin Hill to keep company with Wayne Mann even if he is a fish and she a junior. We justify some of our outstanding girls for throwing notes to boy friends, because their boy friends sit clear across the study hall from them; and that is a long way to walk just to deliver a 250 word note. We think it is alright for a group of freshmen to entertain the spectators at our football games with a free rodeo, with the school mascot, even if they do draw all the attention. We also justify the fact when some of our outstanding girls get some of our football players kicked off the team with the lure of their attractions. In other words, we stand for all that could possibly be stood for, so if there are anymore students who have not yet enrolled we want you to feel free from restrictions as far as the student body is concerned.

**What Nats**  
Ask William Terrell about his shadow which was so conspicuous last Friday evening on the school bus.

Odin Rollins and Alice De Bord would like to know who was news reporter when their names came into prominence.

If you need extra history notes ask Marie Finley for the ones she wrote during the weekend.

Naomi Harper and Louise Reynolds cannot be beaten when raising the stage curtain is considered.

It is reported that Joe Bill Alsup needs to catch up on his sleep. The other day he went to sleep in music class and even when the bell rang he did not wake up.

The report cards were handed out last Thursday for the first time this year. Groans and moans were very numerous. Especially from the Spanish II grades.

A general discussion was carried on among the seniors this week concerning their class invitations. The decision has not yet been made as it is yet early in the season.

**Next Wednesday is the Senior chapel program day.** They are planning a short play and urge the parents to visit us that day.

A school paper was published this week and one whole page was devoted to gossip and scandal. The latest school gossip is out. Many pupils are wearing gaily expressions. If you would like a copy see Mr. Morgan or the editor.

**Yes Mam! We've got Poly.**

And I'm sure proud that Phillips is the first to offer POLYmerized Gas at all stations

"POLYmerization... Lady, there is a mouthful for you. So I just say POLY—for short... Phillips 66 POLY GAS.

"And what a gasoline! It's the nearest thing to liquid dynamite that ever squirted through a carburetor. It sure demonstrates, and no fooling.

"Starts as quick as your toe touches the button, just like that! Why, all our customers say it's the most powerful and the biggest-mileage gasoline that ever punched a set of pistons into action.

"Scientists are discovering all kinds of wonderful things these days, and you gotta give them credit for Phillips 66 POLY. It's tops in gasoline, bar none, at regular price. Costs nothing extra... Shall I fill'er up?"

**Phill-up with Phillips for Instant Starting**

**Lost and Found**

Lost: A check of gum Pauline Matthews and Ruth Gilbreath.

Lost: A note in 5th period study hall, David Border.

Lost: Our soprano voices, The Pep-squad.

Found: My name in the gossip column of the Muleshoe Bray, Malda Chandler and Ennie Griffiths.

**S. S. HALLOWEEN MEET**

Thursday evening of last week members of the Women's Sunday school class, Baptist church, entertained their husbands with a Halloween party at the Educational building of the church. The feature entertainment of the evening was the playing of Hallow'en games, enjoyed by everyone. Delicious refreshments of salad,

**The Doubters**

The wise man doubts often, the ignorant man seldom, the fool never.

**Preacher's HAIR TONIC Praised By Plainview Lady**

Says Mrs. J. T. Deacon, "Preacher's Hair Tonic has cleared my scalp of dandruff and chronic, terrifying itching, a form of Exema. Came in too highly as I have used everything with no relief until this famous tonic." Postively gray hair to original color. Stop itching hair. Use and tell your friends by all Good Drug Stores, Beauty Shops or Beauticians. Adv-5.

**Scandinavia and Roman Empire**

Odin of Emperor Nero's time (found in north Jutland, show that Scandinavia had connections with the Roman empire earlier than was supposed.

...but, after all is said and done, it's the cigarette itself that counts

... the question is, does it suit you?

**Now, when it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste**

That Chesterfields are milder and taste better is no accident...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

**Outstanding** .. for mildn .. for better

**200 MINISTERS, MANY LAYMEN WILL MEET IN N. W. TEXAS CONFERENCE HELD AT PLAINVIEW IN NOVEMBER**

Nov. 18 is destined to be perhaps the most important day in the history of Methodists in the Northwest Texas conference when 200 pastors having charge of about 500 parishes in this conference will meet at Plainview for the 20th annual round-up, at which time there will also be hundreds of lay delegates and visiting church members.

Bishop Hiram Ault Boaz, Dallas, will be the "top hand" in charge of this ministerial rodeo, presiding over all important sessions and finally appointing out the appointments of preachers for another 12 months, which will be made the last day, Sunday, just before final adjournment.

Preachers in charge of stations and circuits all over this area will make annual reports of their "seaworthiness" at this culminating meeting; tell of their victories and defeats, whether they have been able to obtain all their benevolent appointments—and, if their salaries have been paid up in full.

Some of these preachers who have been faithful to their trusts and have been a faithful band of people co-laboring with them, will be anxious to return to their former pastorates and may do so; but there is always a group of them who, for one reason or another, will ask or have already indicated to their presiding elders their desire to be transferred to another point for the coming year.

Sometimes these transfers are accompanied by tears and heartaches, while again there may be joy and laughter, according to results of the past year. However, Methodist preachers do not worry so much now about their next location as they did a few years ago, since the bishop and his cabinet are not so secretive in their business sessions as they used to be. Frequently now, many preachers have an idea where, under the Episcopal system of the church, they may be located next year before the annual conference even convenes.

**WATTS-ALSUP**

Miss Frances Watts and Herschell Alsop of Muleshoe were married in Littlefield, Saturday at the Methodist parsonage by the Rev. J. W. Hendrix, pastor of the Methodist church there.

The bride is the daughter of Mrs. S. A. Watts, of Baird, and the groom is the son of Mr. and Mrs. J. L. Alsop, Muleshoe.

Mrs. Alsop, with her sister, Mrs. Louie Allen, has been operating the Luxur beauty shop here for the past several months.

The bride and groom will make their home at present in Lubbock, where he is employed by the State Highway department.

Sunday a dinner was given at the home of Mr. and Mrs. J. L. Alsop in honor of the newly weds. Invited guests were Mrs. Raynes Sparks, of Sudan and Mrs. Louie Allen.

**LEAGUE ATTENDANCE INCREASES**

Lately much interest is being shown by members of the Senior and Excelsior Epworth leagues of the Methodist church. Last Sunday evening 21 attended the Excelsior league and there was 28 in attendance at the Senior league.

They meet regularly every Sunday evening at the church annex and every boy and girl of Muleshoe and surrounding territory who are not attending any league or B. Y. P. U. has a special invitation to come and enjoy one of these groups, members say.

**P. T. A. MEETING OCT. 28**

The regular monthly meeting of the Parent-Teachers association will be held Monday evening, October 28, beginning at eight o'clock in the High school auditorium.

An interesting program has been planned and everyone is invited to attend. Come and show your interest in your children's school activities.—Reporter.

**Organization Made To Keep Negro Out Of Demo. Primaries**

Austin, Oct. 22.—The Election Managers association of Texas has been granted a charter by the Secretary of State. The aims and purposes of the organization of county and precinct chairmen of the Democratic party are to keep the Democratic party white, simplify the Texas election laws and make it possible to hold elections upon the highest plane of efficiency. Incorporators of the new political and educational organization include Allen S. Shepherd of Houston, militant member of the Harris County Democratic Executive committee, who has played an important part in legally preventing negroes from participating in Democratic elections and conventions in Texas.

The Association's membership is made up of Democratic county and precinct chairmen, election judges, clerks and other election officials throughout the 254 counties of the state.

After obtaining a state charter, the first official act of Mr. Shepherd, originator of the organization idea, was to appear before committees of the Senate and House of the Texas Legislature to enlist the support of that body in carrying out the aims and purposes of the election officials organization. The Legislature responded by unanimously adopting a concurrent resolution embodying the following principles:

Only white Democrats to participate in Democratic conventions and primary elections.

Promulgation of rules and regulations by National Democratic convention that no negroes shall be seated in the National Democratic convention of 1936.

If negroes are to be seated in the National convention that said convention be not held in any southern state. State headquarters of the Texas Election Managers association have been established in Houston under the direction of Mr. Shepherd, 516 Kirby building.

**B. Y. P. U. S HAVE A PARTY**

The Locket B. Y. P. U. members, Baptist church, were entertained with a party Monday evening, in the annex of the church.

Many interesting and entertaining games were played and everyone joined in the fun and frolic. Billie Jo Dameron and Smith Byrley was the outstanding couple of the evening. After the games, a generous supply of sandwiches and cookies was passed around.

Those attending were Margaret Ann Cook, D. L. Smith, Billy Jo Dameron, Smith Byrley, Betty Ruth Moeller, Wanda Farrell, Delbert Parsons, Fred Johnson, Naomi Harper, Louise Reynolds, Mary Hester Glaze, Welton Brooks Winn, Myron Bayless, Clifton Griffiths, Wallace Solomon, Wayne Mann, Mrs. L. S. Jenkins and son Billie Wayne.

Mrs. Jim Cook and Mrs. Irvin St. Clair broke in upon the party as refreshments were being served.—Reporter.

**E NEW FORD V-8 FOR 1936**

we say The New Ford V-8

new about it?

is the newest engine in the car field is still the V-8 engine.

made it available to all car owners it is economical as cars (cylinders) the Ford V-8 has the newest engine on the market, as the newest for 1936.

buy a car on minor "talking me specially advertised feature car thrown in"—but after you engine you buy when you Hence we put the engine first.

new points about the car on list.

are much more beautiful. The nger and sweeps forward over tive new radiator grille, giving length and grace that are impressive. The fenders are h a wide flare, Horns are conchid circular grilles beneath mples. New steel wheels.

holstery — always of sterling d excellent taste—is rich and d appointments of the car new touch of refinement. There

is no question about the increased beauty of the Ford V-8 for 1936.

In more practical matters, many improvements have been made—

Steering is made easier by a new steering gear ratio. The cooling system circulates 5½ gallons of water through a new, larger radiator. Natural thermosiphon action is assisted by two centrifugal water pumps. New style hood louvres permit a rapid air-flow around the engine.

Easier, quieter shifting of Ford gears —The gear shift lever now travels a shorter distance.

The two qualities you want in brakes—Brakes that stop the car with ease and certainty, Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.

Safety—as always—in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.

A car you can drive without strain all day, if you like, in city or country. Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "light" the Ford V-8—driver and car easily get on terms of good understanding with each other.

An engine has much to do with the roominess of a car. Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way, this 1936 Ford V-8—the finest, safest, most dependable Ford car ever built. Now on display by Ford dealers.

**LOW FORD V-8 PRICES**

F. O. B. Detroit. Standard accessory group, including bumper and spare tire, extra. All Ford V-8 body types have Safety Glass throughout at no additional cost. Economical terms through Universal Credit Company.

# THE MULESHOE JOURNAL

Entered as second-class matter at the Muleshoe Postoffice under the Act of Congress, March 3, 1879.

JESS MITCHELL, Editor. I. F. MITCHELL, Bus. Mgr.

### SUBSCRIPTION RATES

In Bailey County, one year, \$1.50; Outside of County one year, \$2.00.

Published every Thursday at Muleshoe, Texas.  
Advertising rates given upon application. Telephone No. 54.

Subscribers who change their addresses, or fail to get their paper, should immediately notify this office, giving both new and old addresses. Communications of local interest are solicited. They should be briefly written, on only one side of the paper, and must reach this office no later than Wednesday morning of each week. The right of revision or rejection is reserved by the publisher.

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, are accepted for publication without charge, or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituary cards of thanks, and resolutions of respect, are also charged for at the same rate.

Any erroneous retention upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon its being brought to the attention of the publisher.

In case of errors or omissions in local or other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

### A THOUGHT FOR THE WEEK

I love them that seek me; and those that seek me early shall find me.—Proverbs 8:17.

Love never reasons, but profusely gives; gives, like the thoughtless prodigal, its all, and then trembles lest it has done too little.—Hannah Moore.

### A HOG HEAVEN

Now that the price of pork has soared so high, the humble hog is to be highly honored at the coming Texas Centennial to be held in Dallas, according to reports now rife. In fact this deliberate honor to be shown to these grunting quadrupeds is far exceeded those received of by many of the humble pilled citizens of this great nation.

Before retiring each night, Mr. and Mrs. Hog will have a private bath, the water being well sterilized and perfumed, and after being rubbed down with an imported Turkish towel and the quadrupeds put to bed, they will be lulled to slumberland by soft sweet music.

It has been frequently said that the hog is not essentially a filthy animal; being addicted to muddy wallows largely because of the unwholesome nature of its environment. In fact, the said hog actually preferring a diet similar to that of its owner; would enjoy pink and blue ribbon adornment, its bristles nicely combed, oiled and parted; its hoofs well pared, trimmed in the latest manner and douché with the violent red employed by females of the human division of animals. Now this assertion will have a chance to be proven.

This Centennial Hog Heaven, according to report, is to be a very close imitation of that heaven being sought by humans for future enjoyment. Soft indirect lighting to protect the animal's eyesight, music to lull the pure breeds to fairly slumberland and to quiet their tempers while awake, private baths, automatic feeders and watering troughs, change of bedding and stall carpeting twice daily, with special chambermaids of the masculine type dressed in immaculate white duck to look after and accommodate their every want.

The refined quarters of these "mortgage lifters" will be located in a building planned to cost \$130,000, where these honored inmates will be permitted to gaze upon artistic paintings of their predecessors and study murals on the wall depicting the part they have played in the state's livestock industry.

It's all going to be very heavenly like—but still he'll have to go back to the ordinary hog pen after the big show is all over!

### NO WAR FOR US

If there is any one thing on which citizens around Muleshoe are wholeheartedly agreed it is that right now is a good time for this country to mind its own business. In other words, there is a demand that the U. S. keep out of foreign entanglements, and stay out of war, and that sentiment is general all over the land.

sign nations make a sucker out of us in 1917-18, but we'll never do it again.

### A GRAND OLD GAME

Say what you will about outdoor entertainment, the good old game of baseball still retains the crown, as shown by attendance and enthusiasm at the recent world's series.

Possibly never in history has the country witnessed a more exciting baseball season; never before have the smaller towns of the land gone in for it as they have in the summer just closed. An example of this was the journey of a Scribner, Neb. ball team a distance of 800 miles to contest with other small teams at Dayton, Ohio.

Men may pass on and boys may become men, but the Muleshoe man or boy who can't get a kick out of a ball game is missing the most satisfying sport this old world has ever known.

### JUST COMMON SENSE

No laws should be needed to caution a motorist to drive with added caution when he is in the neighborhood of a schoolhouse, either in city or town or out in the rural districts. Neither does the careful Muleshoe motorist need to be warned to that effect. But there are new drivers coming on the scene all the time, and too many of these are apt to be careless at the start.

When a new driver gets the importance of being careful in the neighborhood of a school of fixed in his mind he has learned one of the greatest of all safety lessons.

### BUSINESS IMPROVING

Following a comparatively dull business month in September, local business concerns are now reporting a considerable increase in buying and selling, as well as commercial trafficking in general.

Generally speaking, harvest time is buying time; but this harvest there seems to be a general loosening of purse strings, people having more confidence in future economic conditions and not so fearful of digging into the money pile accumulated to buy much needed merchandise and other desirable commodities.

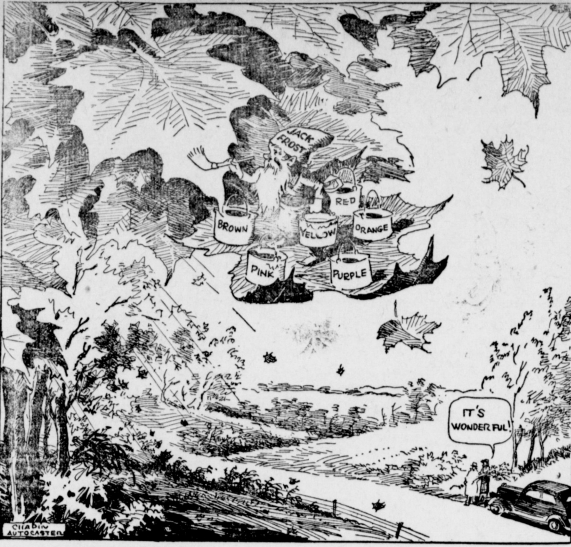

Local business concerns are shipping in larger stocks of wider varieties in anticipation of a greatly increased patronage, which they are marking at prices designed to be entirely competitive with those offered at surrounding and larger towns, furnishing a real incentive to trade at home this fall.

### WHAT KIND OF WINTER?

With the frost soon to be on the pumpkin and the fodder now going into the stack, with Bailey county people more interested in making last year's overcoat do a little more service and in getting the coal bins filled, the amateur weather sharks are making their first predictions as to what sort of winter we are apt to have, and it's a subject all are interested in.

## THE OLD MASTER

—by A. B. Chapin

There is an extra amount of covering on the toothsome onion the old belief being that when corn husks and onion skins are extra thick it presages a hard winter.

But on one thing the amateur and profession weather men are agreed and that is that every indication now points to less snowfall for the country as a whole. The forecast is based on the fact that the spring, summer and fall of 1935 saw an unusual amount of rainfall throughout the country, and that with so much moisture having already fallen there is apt to be a smaller amount of snow ahead than usual.

It all furnishes an interesting topic of conversation, even though one man's guess is as good as another's. Personally, we don't care to venture any predictions. We know it is best to seem mild to the man who is going to get ready for it, so we are content to let the subject drop with a warning to everyone to get ready for it.

### Jaunty Journalettes

A Muleshoe girl's first painful disillusionment is the discovery that her favorite movie star is as honestly as home-made sin when she has not got on her makeup.

Any Muleshoe boy can become rich, provided he lives prudently, practices moderation—and has a rich uncle.

Honesty is the best policy, and yet we have heard some Muleshoe people acting as though they were doing the grocer a favor when they paid their bill.

Muleshoe folks are still young, regardless of their age, when they will get up at 4:00 a. m., to watch a circus unload, as some of them here did a couple of weeks ago.

Old-fashioned Muleshoe girls used to call attention to their trim ankles by pulling at the hem of their skirt as a gesture of modesty; but those days are long gone past.

We still insist that life was a lot safer and safer around Muleshoe when all the honking was done by the geese.

Another trouble with some men around Muleshoe is the danger of overworking themselves trying to live with out work.

Judging by the way they are jumping around, Muleshoe folks may rightly judge that some of the taxes have grasshopper blood in them.

About the smallest man in Muleshoe is the one who thinks he is bigger than the law.

Muleshoe men are made of dust; yet it's queer so many of the women here seem to think it is gold-dust.

The difference between a Muleshoe Christian and a church-goer is sometimes mostly the weather.

The average Muleshoe mother's vacation usually begins when she gets to the point she can say: "Now run along to school, darling."

Still we should be thankful for failures. Muleshoe would be a helluva place to live in if everybody was overbearing and biggy.

### SNAP SHOTS

The wonderful female athlete doesn't prove very much except that a woman can do about as well as a man if she is built like one.

Mussolini says he will go through with what he started. Some of us can remember when the Kaiser said about the same thing.

Sometimes the worst feature of a mistake is the excuse some people give for making it.

We don't wonder that George Washington was a great man. He couldn't tell a lie, so he had to develop enough power to get by with the truth.

The U. S. War department now has a plan of defense against nearly everything else except fool war talk.

Since the government pays farmers for not raising hogs, why not also pay butchers for not raising the price of hog meat?

It is said only two cowbell factories are now left in this country, and they are probably busy turning out jazz equipment.

## AUCTION SALE!

Having rented my farm, I will sell at Public Auction my entire farming equipment and livestock. Located at my farm 1 mile east and 1 mile north of Jesko school house, or 14 miles north and 1 mile east of Muleshoe, or 14 miles south and 1 1/2 east of Friona.

TUESDAY, OCTOBER 29  
SALE STARTS PROMPTLY AT 10:30 A. M.

## Methodists Have A Shower and Banquet Of Real Fellowship

Wednesday evening of last week, beginning at 7:30 o'clock a fellowship banquet and kitchen shower was given at the Education building of the Methodist church.

Every family brought a plate which will help furnish the kitchen of the church. Everybody brought well filled baskets of a variety of delicious eatables and the banquet was greatly enjoyed.

A. C. Gaede returned thanks and Rev. J. Frank Luker dismissed the crowd.

Among those attending were Mr. and Mrs. Mills Barfield, Mrs. F. Wallace Mr. and Mrs. Claud Farrell and family, Dr. and Mrs. L. S. Gibb, Mrs. Jessie Wright, Billy and Spencer Beavers, Mr. and Mrs. Arnold Morris and two children, Barbara Mae and Marshall, Mr. and Mrs. Howard Carlyle and son, Howard Harding, Ms. Faye Elrod and son, Carl, Mr. and Mrs. J. W. Harden, Norma Elrod, Mr. and Mrs. H. C. Holt, and daughters, Mary and Helen, Miss Elizabeth Harden, Mr. and Mrs. A. C. Ford Butts, Miss Lola Lipscomb, Miss Gaede, Miss Alice Edmonds, Mrs. B. Margaret Copley, and Rev. and Mrs. J. Frank Luker.

A committee was appointed to raise money to finish paying payments on the piano purchased some time ago for the church and to pay for the church insurance.

### PANHANDLE GETS RAINS

General rains fell over the entire Panhandle area Thursday of last week, and reaching as far south as Sims and there were good showers.

Plainview section reported .76 of an inch, other places receiving light showers mostly. At Muleshoe there was .46 inch rain.

While rain at this time is beneficial to pastures and winter cover crops, such as wheat and rye, most farmers prefer no added moisture because of hindrance in gathering fall crops and picking cotton.

Tuesday morning when the denizens of Muleshoe and surrounding area arose from their repose of the previous night, they were greeted with a young norther which grew colder as the day waked strong, the thermometer tumbling down several degrees.

Tuesday night was the coldest yet experienced in this area this year, though, on account of continued wind, there was no frost. However, Wednesday morning a light eight o'clock it began snowing lightly.

### DUCK SEASON OPENS NOV. 20

The hunting season for this section on wild ducks, coot, geese, brant, Wilson's snipe is Nov. 20 to Dec 19, both dates inclusive, the shooting period being from 7:00 a. m. to 4:00 p. m. There is no open season on wood duck, ruddy duck or buffhead duck.

The bag and possession limit is not to exceed 10 of any or all kinds, geese and brant not more than four of all kinds. Only a shotgun, not exceeding 10-gauge and holding more than three shells is allowed. Lures of grain, salt or anything else is forbidden. Any hunter not familiar with the details of the law had better so acquaint himself with the numerous changes, copy of laws being at the county clerk's office.

The dove hunting season in this area closes Oct. 31.

## Do You Ever Wonder

Whether the 'I Remedy You' is SAFE? Ask Your Doc and Find Out

Don't Entrust Own or Your Family Well-Being to Unreliable Preparations

THE person to ask who preparation you or yo are taking for the relief of is SAFE to use regular Bayer Aspirin. At this elevator you will find your patronage fully appreciated and every possible courtesy is extended you.

**S. E. CONE GRAIN CO.**

**Certificate Traders Must Be Careful Or Mix Up With Law**

Several Bailey county cotton producers who are long on tax exemption certificates and short on feed and grain of different kinds, are selling their certificates and in turn buying feed of those who are short on the tax exemption certificates, according to report. That such transfers may be valid, they must be properly registered at the county agent's office, proof must be made to show that the seller is realizing five cents per pound for his certificates, the purchaser must be an operator or landlord who has actual need for the certificate for his own crop, and transfers must not be made to non-producers, according to advice of the Bailey county farm agent. It is reported that some certificates have been sold at a loss figure with five cents per pound, the seller making affidavit of receiving the full amount required, and investigation is being made of such alleged procedure. These certificates, it is said, are proving of much value to the farmers who may be long on them but short on feed for the coming winter.

Luxuries often indulged become necessities.

**What's Happening In Washington And Other Cities Of Importance**

Women of Minneapolis have begun a meat boycott in that city demanding a 25 per cent price reduction or "we don't eat meat."  
If the "sanctions" of the indicated 52 nations become effective against Italy, it will cut off about 70 per cent of her commerce, it is said.  
Two were killed, several others injured and considerable property damage in a series of earthquakes fell at Helena, Montana, Friday of last week.  
There were 2,500 pure bred animals entered at the Kansas City Livestock show which opened last Monday. A total of \$75,000 will be paid in premiums.

A Washington announcement says 4,638 Texans are now being given employment on \$4,033,258 worth of WPA projects, this number expecting to be increased shortly to 12,000.

As a sign of better business, newspapers all over the U. S. are now reporting increased circulation and advertising, according to an ABC report made at Chicago last week.

During the fifteen and one-half months since July 1, 1924, Americans have paid Uncle Sam \$16,939,172.36 for their sweets, according to announcement made a few days ago at Washington by the Internal revenue department.

Another use for cotton has been discovered in highway paving, a road in Mississippi having been recently completed. A cotton mesh is used as a sandwich filling between the base and asphalt topping, such method is claimed to give additional endurance and reduce cost.

It came to light last week that the Straus Bros., New York city, had given away nearly eight million dollars worth of stock to avoid tax payment on it before January 1. Other millions of dollars have been disposed of by U. S. wealthy people to avoid this tax payment.

Announcement has been made that 2,105 foreclosure proceedings have been instituted by the Home Owner's Loan corporation against residential property of those having such policies which is destined to put the government into the real estate business in a big way.

Italy may buy all the American oil she can pay for and only intervention by the U. S. government can prevent it, is the statement given out by the American petroleum industry from New York City. The League of Nations sanctions against Italy will not be recognized voluntarily, it is reported.

Dr. Charles H. Mayo, eminent surgeon and endocrine specialist of Rochester, Minn., told the international medical assembly at Detroit, Mich., last week that within five years a drug would be developed that would cure most cases of insanity and feeble-mindedness. He said it was being used now with marked success, but refused to divulge any details regarding it.

**Watson News Items**

Because everyone is so busy and working late, there was a very small crowd at the school house for the P. T. A. meeting Saturday night. As a number on the program were absent, it was decided to adjourn and wait until the next part of the season is over before trying to have any more meetings. Spelling matches have also been discontinued for a while.

A delightful surprise came Sunday morning just as Sunday school was over, when Mrs. May Abbott walked in and consented to give a very interesting talk. She is our missionary to the Mexicans. In the afternoon she had services for the 300 Mexicans who are working for Mr. Hartless.

Mr. and Mrs. Robert Butler, of Littlefield, and Mr. and Mrs. Gaylord Butler, of Amherst, visited Mr. and Mrs. W. L. Key, Saturday and Sunday.

Mrs. David St. Clair attended the demonstration school in Muleshoe Monday and Tuesday.

The new picture show which opened at Morton, Friday night attracted a number of young people from Watson. Mr. and Mrs. A. E. Cook and daughter spent Sunday visiting his sister at Hereford.

Eric Weigand and R. Schaub, of Gatesville, came in Monday to pick color.

Mrs. A. J. Neutler, Mrs. Clara Mueller and Mrs. Andrew Wittner were in Morton, Wednesday.

Mrs. Lemons and daughters were in Littlefield, Saturday.

Mr. and Mrs. Estep and family have been visiting her mother at Sudan.—Reporter.

**Bula News Items**

There was Sunday school at both churches Sunday with preaching at Baptist church.

Our community was much shocked and saddened Saturday night to hear of the terrible accident of Huland Clawson, his wife and sister. They were on their way from Littlefield and about one and one-half miles west of that place. A car coming following him blinded him and he ran into a parked car by the side of the road. All occupants of the car received major cuts and bruises.

Doyle Nordyke spent the weekend at Bula. He is going to school at Lubbock.

Mr. and Mrs. Gordon Bain are driving a new '36 Plymouth coach purchased at Amherst.

Mac McGee made a business trip to Littlefield, Monday.

Most everyone in the community is busy picking and pulling cotton.

Mr. and Mrs. Clarence Cannon spent Saturday in Littlefield. Several from here attended church at James, Sunday.—Reporter.

**KUEHN MAKES CATTLE SALE**

A. A. Kuehn, ranch owner about four miles southeast of Muleshoe, last week sold 330 head of Hereford steer and heifer calves to P. E. Boesen at Sudan, at a net price of \$32.25 per head, this being double the price offered for this same grade of cattle a year ago, indicating much improvement in the cattle market over a year ago. Boesen, one of the older citizens of

Sudan, last year fed out several hundred head of cattle, and it is reported will feed out a greater number this year.

**Getting Up Nights**

If you suffer from Getting Up Nights, Nervousness, Leg Pains, Swollen Joints, Headaches, Headaches, Loss of Appetite, Irritability, Stomach Acidity, etc., try the Doctor's guaranteed prescription, **Cytan** (Glycerin). **Stegall News**

No wonder the poet wrote about October's bright blue weather. The weather we have been having has been bright enough and blue enough to inspire any poet.

Mr. and Mrs. John Holt and son, Jack, arrived home Thursday, after a visit with Mrs. Holt's parents in Stigler, Oklahoma. They were accompanied home by Mrs. Holt's brother, Grady Casey, who will visit with them for awhile.

We are very proud of our new stage fixtures, and we hope to put them in use. One never knows what talent may be found right at home. Some of us may have a Hollywood future and not know it.

Mr. Cotton, a stage property salesman, was slightly injured in an automobile accident Thursday night, when his car left the road and ran into a ditch near Monument lake. The accident was caused by deficient lights. Mr. Phillips and son, Sidney, are making syrup near Olton this week.—Reporter.

**FIDELIS CLASS GIVES PLAY**

Friday evening of last week, at the High School auditorium in Muleshoe, members of the Fidelis Sunday school class, Methodist church, presented one of the gayest and funniest plays written in recent years, a three-act comedy drama, "He Was a Gay Senorita."

A good crowd attended and the proceeds amounted to \$39.50, which will be used for the class to pay their conference pledge.

Those who took part in the play were Pat R. Bobo, Delma McCarty, A. J. Gardner, Mrs. Horace Holt, Richard Rocky, Mrs. Harold Weyer, Mrs. Albert Isaacs, Mrs. W. H. Attaway, Mrs. Delma McCarty, Mrs. Pat R. Bobo, Albert Isaacs and Jim Burkhead.

Miss Ely, music teacher in the Muleshoe schools, entertained the crowd before the play started by playing several popular songs on the piano and singing.

Saturday evening the play was presented by the same cast at the Big Square school house. Five dollars and 85 cents was made, which will be added to the same fund for the conference pledge.

**TOWNSEND CLUB MEET SUNDAY AT THE METHODIST CHURCH**

A meeting of the Muleshoe Townsend Old Age pension club will be held at the Methodist church, Sunday afternoon, beginning promptly at 2:30 o'clock.

Arrangements are being made for hearing the address of Dr. F. E. Townsend, proponent of the old age plan bearing his name, who will speak from Chicago during the afternoon to a crowd of delegates from all over the United States assembled there in conference meeting. A loud speaker will be installed in the church, and if static is not too bad, a good reception is anticipated over the National hook-up.  
A local program of music and speaking is also being prepared. The public is generally invited to attend, according to Elmo Head, who is arranging for the occasion.

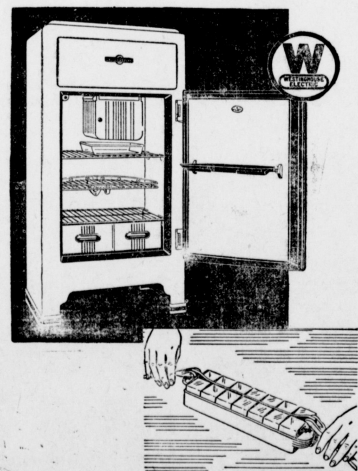

**COTTON BUREAU NOW AT DALLAS**

The Bureau of Agricultural Economics of the U. S. Department of Agriculture, has recently opened a Cotton Market News Service office in Dallas, Texas, to serve the States of Texas and Oklahoma.

This service consists of a Cotton Market Review and a Premium Staple basis sheet, both of which will be mailed without charge on Saturday of each week to persons interested. Cotton growers and others desiring the service are invited to address William D. Egan, Division of Cotton Marketing, P. O. Box 1366, Dallas, Texas.

**For All Seasons...**

Home-makers are agreed that the need for year round refrigeration is of vital importance to every household. Westinghouse and all that its name signifies are incorporated in the new "Streamline" refrigerator.

It isn't too early to be thinking of that gift for Christmas. Drop in and let us arrange to put one of these units away for a gift that will be a pleasure for many months to come.

Western Drug Co., this city is local agent for the kerosene operated refrigerators.

- **ALLERITA LOOMIS SHOW WILL BE HERE MONDAY, OCTOBER 28**
- Glen "Pop" Loomis, ambassador extraordinary for the Allerita Loomis show, was in Muleshoe last week and stated his popular and efficient organization of mirth producers, entertainers and public educators would be here Monday, Oct. 28 for three days and nights to tickle the ribs and recollect the convulsions of cerebral-ness of this vicinity.
- The Allerita Loomis show has been in Muleshoe each fall for the past nine years, always being greeted with large crowds who enjoy their performances. This year will doubtless be a repetition of past successes here.
- This show plays under its own big all-weather tent especially designed for its purposes, such type tent being especially needed when playing in Muleshoe, for it invariably rains when Loomis' come to town.
- Farmers are urged to hustle in their crops before Loomis gets here, so as to avoid the rain, also, have time to attend the show.
- **Potato Facts**
- Fifteen pounds of potatoes equal one peck. There are usually about three medium nature potatoes or five to eight new potatoes in a pound.

**West Camp News**

The home of Mr. and Mrs. Johnnie Williams was opened Friday night to a happy group of adult, senior and junior club members. Each department was well represented and everyone reported a very good time. The ladies wore aprons and the men overalls. At a late hour fruit and cake were served as refreshments.

Mr. and Mrs. A. G. Smith and daughter, of Palestine, arrived at the home of their son, Asa Smith and family, last Friday. They expect to make this their home the rest of this year, and probably next year.

Luther Blakely and wife and Jack Taylor, of Rogers, New Mexico, were dinner guests in the L. C. Gurley home Sunday.

Miss Virginia Ruth Robertson and Addie Le Lindsey, students in Texas Tech college, Lubbock, came home Friday of last week and visited their parents over the weekend.

A group of 21 B. Y. P. U. members from West Camp church attended the district B. Y. P. U. meeting held at Levelland, Sunday.

The weather has been quite chilly the past few days. Makes us realize winter is just around the corner, as we look out and see the sleet sprinkled every where with a few flakes of snow mixed in.

Mrs. Johnnie Williams, wardrobe demonstrator, attended the wardrobe school held at Muleshoe, Monday and Tuesday.

Bryant Smith, who has been quite ill with asthma, since Saturday of last week, is slowly improving.

Roy Cramer had the misfortune of falling from a wagon, Monday evening and breaking his leg.

Threshing will be one of the big jobs farmers are facing at present. John House and his threshing machine are now located at T. H. Adair's—Reporter.

THE STATE OF TEXAS,  
COUNTY OF BAILEY.

NOTICE IS HEREBY GIVEN THAT by virtue of a certain order of sale issued out of the Honorable 99th District Court of Lubbock County, Texas, on the 27th day of September, A. D. 1935 upon a judgment rendered in said court in favor of Fidelity Building & Loan Association, a corporation, and against C. C. Ragsdale for the sum of Five & 30/100 (\$1,745.30) Dollars and costs of suit, in a certain cause, bearing the caption of The District of said court and styled, Fidelity Building & Loan Association vs. C. C. Ragsdale, et al, together with a foreclosure of a Deed of Trust lien upon the property hereinafter described, as against the defendants, C. C. Ragsdale, Lavada Odessa Ragsdale, wife of C. C. Ragsdale, and Panhandle Lumber Company, a corporation, placed in my hands for sale, as Sheriff of Bailey County, Texas, and on the 30th day of September, A. D. 1935, levy upon certain real estate situated in Bailey County, Texas, described as follows:

All of Lots Nos. Nineteen (19), Twenty (20) and Twenty-one (21), in Block No. Fourteen (14), of the original town of Muleshoe, in Bailey County, Texas, as shown by the map or plat of the townsite of Muleshoe heretofore filed in the public records of said county, Texas, being out of Survey No. 54, Block "Y" in W. W. and F. W. Johnson's Sub-division No. 2, recorded in Vol. 3, page 383-2 of the Deed Records of Bailey County, Texas, and levied upon as the property of C. C. Ragsdale, Lavada Odessa Ragsdale and Panhandle Lumber Company, corporation, that on the 31st day of September, 1935, the same being the 5th day of said month, at the hour of 10 o'clock a. m. and 4 o'clock p. m., by virtue of said levy and said order of sale, I will sell said above described real estate at public vendue for cash to the highest bidder as the property of said C. C. Ragsdale, Lavada Odessa Ragsdale and Panhandle Lumber Company, Inc.

And in compliance with law I give this notice in public in the English language once a week for three consecutive weeks immediately preceding said day of sale in the Muleshoe Journal and a weekly newspaper in Bailey County, Texas.

Witness my hand this 30th day of September, A. D. 1935.

Jim Cook, Sheriff, Bailey County, Texas  
October 10, 17, 24, 1935

### 60 Million Pounds Of Sudan Drops The Price To Producers

While the average national yield of sudan is from 20,000,000 to 25,000,000 pounds per annum, reports now given out by the Department of Agriculture, Washington, indicate the production this year will reach and may exceed that of 60,000,000 pounds, perhaps the largest crop of this one grass seed ever raised in the United States.

Last year the crop was much lower in production, the price, in some instances, going as high as 12 cents per pound, much of it selling at from five to eight cents per pound. Now the price is running around one cent per pound.

California deliberately planted a crop yielding 20,000,000 pounds, and when the check-up came this fall, it was discovered nearly double that amount had been raised. A much larger crop was also planted in Oklahoma and other states than was heretofore customary. Kansas and Nebraska added a large quota which, while late because of drought conditions, yet has turned out fairly well, according to reports.

Last year nearly 3,000,000 pounds of seed was imported into this country from foreign nations; but such importation is not anticipated this year. However, many farmers are still wondering how they are going to profitably cash in on this particular crop, there being some slight hope in the hay market because of decrease in alfalfa, though this fact was not generally known until much of the sudan grass had matured beyond desirability for use as hay.

### ENJOY A CHARACTER PARTY

A number of young people, dressed as old bachelors, old maids, kids, country Hicks, flappers, hobos, cowboys and cowgirls, assembled last Thursday night at the Methodist church annex and enjoyed a party.

The entertainment consisted mostly of contests, the boys on one side and the girls on the other. The kids cut paper dolls, the hobos ate pie without the use of their hands and the flappers tried to chew two sticks of double-bubble gum, while the bachelors painted their finger nails.

Refreshments of nib-licks were served to Misses Dorothy Ross, Juanita Sidd, Twila Farrell, Margaret Copley, Lucy Robinson, Pauline Glascock, Ruby Sterling, Virginia Ragsdale, Adele Sterling, Crystal Kennedy, Irma Willis, Mary Holt, Marvilyn Soles, Mildred Burkhead, Eloise McClary, Mrs. McClary, Pauline Matthews, and Alvin Farrell, Spencer Beavers, Kenneth Jennings, Earl Robinson, Neal Prescott, Woodrow Glascock, Floyd Sketers David Borden, Cecil Spence, Floyd Ragsdale, Ransom Robinson, Lamar Witte and the sponsors, Rev. and Mrs. J. Frank Luxor.

### Rome Established R. R. Gauge

The width of Roman wagons in antiquity may have determined the standard gauge of railways today, 4 feet 8 1/2 inches, in this way. The first railway builders of England placed the rails at the distance apart which enabled them to carry coaches of the same width as the stage coaches and wagons of their day and, according to tradition, the width of these vehicles was inherited from that of ancient Rome.

### Clothing Specialist Holds Two Days Of H. D. Instructions

Mrs. Dora Barnes, clothing specialist from A. & M. college, was here the first of this week demonstrating new mysteries of the seamstress art and teaching a pattern school, Monday and Tuesday, held under direction of Miss Alma Stewart, Bailey county home demonstration agent.

The meeting was attended by representative clothing demonstrators from 10 different clubs of this county, and foundation patterns were made for the benefit of these 10 demonstrators to later explain to their respective club members.

Many of the women present expressed surprise at the simplicity of some of the demonstrations which at first seemed rather intricate, and were greatly pleased with the new kinks and suggestions given by the specialist whereby desired garment changes could be made very easily and clothing could be transformed from something of more or less wear, not particularly up to the minute in style and cut to a garment that was decidedly according to the latest mandates of Dame Fashion. "Just follow directions and use good common sense, and you will have no trouble," said Mrs. Barnes.

Those demonstrators attending the two day meet were: Mrs. B. L. Blackshear, Baileyboro; Mrs. David St. Clair, Watson; Mrs. Wilson, Circle back; Mrs. Johnny Williams, West Camp; Mrs. C. C. Mardis, Muleshoe; Mrs. Cash, Longview; Mrs. Simpkins, New Bula; Mrs. Jimmie Woodfin, Maple; Mrs. Rollins, Progress; Mrs. L. L. Daniell, Joyland.

### State Doctor Gives Warning Against The Cure-All Medicines

Austin, Oct. 22.—Beware of patent medicines that make too extravagant claims as to its ability to cure diseases, is the warning issued by the Bureau of Food and Drugs of the State Department of Health. When purchasing such remedies be sure and read the label in order that you may know what you are getting.

During the past year the inspectors of the Department have condemned and destroyed many thousands of packages of patent medicines, totaling more than 30,000 pounds in weight. These drugs were condemned for a variety of reasons; chiefly due to untrue claims as to their value, old, worthless, and in some cases dangerous ingredients.

Some of the claims for remedies destroyed were so impossible that it is wondered that anyone would believe them. One medicine claimed that it would positively cure thirty-seven different diseases, including hookworm in humans and screw worms in stock. Many people do believe these claims as it is estimated that many millions of dollars are spent each year in Texas for drugs that cannot do all that is claimed for them.

One dangerous drug that is being sold for reducing weight is diminoprofenol. The fact is that many who are using this drug may be endangering their health and even their lives. The human machine is too complex to risk self medication. When something goes wrong with the human body and one does not feel well, he should see his family physician and then follow the advice he gives.

### Must Have Plenty of Water

Artificial silk and paper are two in industries which cannot carry on at all without plenty of water. The pulp of which paper is made is 98 per cent water, and as much as 200,000 gallons of water may be used to make one single ton of paper.

### Women, Men Get Same Wages

The only countries in the world where women receive the same wages as men for the same kind of work, writes Mrs. Robert Gray, Dartington, Wis., in Culler's Weekly, are Czechoslovakia, the Netherlands, Sweden, Denmark and Norway.

## SAVE Money!

### Buy YOUR New CHEVROLET

ON OUR **6per cent** GMAC TIME PAYMENT PLAN

As a dealer in General Motors Cars we are privileged to offer buyers the advantages and economies of the new simplified GMAC 6 per cent time payment plan.

This is the plan you've been waiting for—the plan you can understand at a glance! It provides for convenient time payments covering the unpaid balance on new cars, plus insurance, at a cost to you of only 6 per cent financing charge.

Now you can buy the car you want, buy it on a sound business-like plan of extended credit that is clearer and more economical than any other time payment arrangement you've ever tried. Only dealers in General Motors products can offer you this service.

SIMPLE AS A, B, C

A—Take your unpaid balance  
B—Add cost of insurance  
C—Multiply by 6%—12 months plan.  
(1/2 of 1% for periods more or less than 12 months.)  
That's your whole financing cost. No extras. No service fees. No other charges.

In some states a small legal documentary fee is required.

### Sell Children

The Shom-Pen people of the Nicobar Islands in the Bay of Bengal are in the habit of selling their children to the coastal tribes for a few yards of red cloth or several large barter knives. The children live quite happily in a state of semi-slavery.

### Marriageable Age

The marriageable age in most states without consent of parents is twenty-one. A boy and girl under this age may marry in almost any state, but in every state in the Union one or the other or both must have parental consent, and in most states it is both.

# Colder this Sunday?

## SIT IN PEACE, IF YOUR ENGINE OUT THERE

# stays oiled

When your car's in cold storage at the curb this winter, don't have misgivings. Simply do what no oiling system can do by itself . . . make your engine stay oiled at a standstill, by changing to Conoco Germ Processed Oil.

Then when the thermometer slides, so will every part of your engine. You can come out calmly, as late as you like, to an engine that's oiled *IN ADVANCE*—clear to the top—before you've touched door-latch or starter. No more cruel, scraping starts, without half enough lubrication. And right there, you know, is where engineers lay more than half the blame for worn-out motors.

But the Conoco Germ Processed . . . patented . . . spares you all that. How? By giving this oil the startling power

to *COMBINE* with metal. That's what gives you the famous Hidden Quart, which won't drain down. It's up there for starting, and then while you're running it backs up the high-durability Germ Processed Oil film.

You may have one of the newest cars—with their copper-lead, high-lead, or cadmium-alloy bearings. Or you may have an older model—with babbit bearings. But you can be sure that *any* bearing—or any other moving part—is safer with Germ Processed Oil.

This season don't merely change your oil . . . change your car's whole future . . . all for the better. Get to your helpful Conoco man before Sunday comes. Continental Oil Company, Established 1875.

000 were granted various counties throughout the state having historical spots of interest, by far the larger percent of such grants going to east and central Texas locations.

It is understood that Tech college will immediately make application for a grant and loan from WPA for further funds with which to construct this historical museum to be located upon its own campus.

Enough historical material has already been assembled at Tech college, according to President Knapp, to fill a building the size of the museum now located at the West Texas Teachers college, Canyon.

Jess Mitchell, Muleshoe editor, made presentation speech of the very first contribution to the coming Tech museum several years ago at Littlefield, when the late Senator Arthur P. Dugan gave to the late President B. W. Horn several old historical papers of priceless value from the pens of early Texas patriots.

Dr. Horn stating at the time presentation was made, "This is the first contribution to Tech's future historical museum" Mitchell was also a member of the committee that called upon the Centennial Control Commission last week in behalf of the \$25,000 allotment made to Tech college.

**General News Over Texas And Adjoining States For The Week**

Former U. S. Secretary Albert B. Fall is reported seriously ill at a government hospital in El Paso.

The price of cottonseed hit a new high for the season when it sold at Ballinger last week at \$34 per ton.

Twentyfive thousand dollars was okayed at Washington last week for purchase of a dam site for the Alamo-gordo, N. M., dam.

Floydada citizens are planning the organization of a High school band there as a part of their regular school curriculum work.

Reports from the North Panhandle area indicate wheat crop prospects of that section are now more favorable than at any time since 1926.

Texas A. & M. college with an enrollment of 3,400 or 400 more than it had last year, is the largest farm school in America.

Parmer county officials last week received notice of granting of \$17,000 by PWA for county lateral road improvement.

James E. Anderson Tulorosa, was elected grand patriarch of the grand encampment of Odd Fellows at the grand lodge meeting held last week at Clovis, N. M.

Breaking a long standing tradition of never having been beaten on their home (Butler) field, the Amarillo Sandies football team last week went down to defeat, 25 to 7, before the husky Tigers of Norman, Okla.

Exactly 100 new Texas corporations were granted charters during September of the nation began, in the 1930's, 1934, but 24 per cent below the previous month. Commercial failures in Texas showed a decline of 74 per cent over the same month of last year.

Vice-president John Garner has decided against his former unostentatious life and will wear a silk top hat and formal cutaway coat when he calls upon the Japanese premier in the near future. Since some one made him a present of some silk top he will also lay aside his customary cotton ones for this special occasion.

**S. S. CLASS HAS PERFECT SCORE**  
The Builders Guild school class, Baptist church, feel they have soared beyond the ability of an average Sunday school class. Every pupil was present Sunday morning, with a grade of 100, thus the class was 100 per cent perfect, generally speaking.

The new teacher, Mrs. L. S. Barron, made the statement that she had been teaching a Sunday school class 15 or 20 years and this was the first time she had ever had a 100 per cent class. The members of the class are Naomi Harper, Jimmie Marie Adams, Juanita Coker, Margaret Ann Cook, Phyllis Lindsey, Mary Hester Glaze, and Wayne Mann.

All girls from the ages of 14 to 17 are invited to attend this class and help to make it larger.—Reporter.

**RAISES GIANT CAULIFLOWER**  
The coast country of Southern California is about to lose its highly flaunted honors to the South Plains of Texas in raising cauliflower, according to specimens now on display at the office of the county home demonstrator at the court house.

Mrs. Andy Hicks is the one threatening to usurp such honors, raising more than 600 pounds of this edible "Irishman's boquet" in her garden this summer, and some of the heads are whoppers.

One head, weighing nine and one-quarter pounds is this week being sent to Miss Mildred Horton, state home demonstration agent director at College Station.

A warning was broadcast from Washington last Friday to all police to watch for the ascending crime wave which invariably begin in October.

**The Story of the Constitution**  
—by CALEB JOHNSON—

EXPANDING NATIONAL POWERS

While the war between the states was in progress, almost dictatorial powers had been exercised by the Executive. The President, under the Constitution, was Commander-in-Chief of the Army and Navy, and the whole nation was involved in the war. Many things were done under stress of the war emergencies for which there was no specific warrant in the Constitution. Among these, for example, was the imposition of a national income tax. This, like the other war emergency measures, was abandoned at the close of hostilities. After the turmoil of the Reconstruction period had subsided, there was general satisfaction with the demonstration that had been given of the flexibility of the Constitution. It had been stretched to cover the emergencies of war and reconstruction; now it had shrunk back to its peace-time functions.

But those functions had become greater than they were, and were to keep on expanding. A new spirit of nationalism had taken possession of the Government, and in the 20 years from 1878 to 1898 Congress and the Executive, sometimes together and sometimes in opposition to each other, undertook to enlarge Federal powers while the powers of the states were constantly being diminished.

The price of cottonseed hit a new high for the seasons when it sold at Ballinger last week at \$34 per ton. Twentyfive thousand dollars was okayed at Washington last week for purchase of a dam site for the Alamo-gordo, N. M., dam. Floydada citizens are planning the organization of a High school band there as a part of their regular school curriculum work.

**RAISES GIANT CAULIFLOWER**  
The coast country of Southern California is about to lose its highly flaunted honors to the South Plains of Texas in raising cauliflower, according to specimens now on display at the office of the county home demonstrator at the court house.

Mrs. Andy Hicks is the one threatening to usurp such honors, raising more than 600 pounds of this edible "Irishman's boquet" in her garden this summer, and some of the heads are whoppers.

One head, weighing nine and one-quarter pounds is this week being sent to Miss Mildred Horton, state home demonstration agent director at College Station.

A warning was broadcast from Washington last Friday to all police to watch for the ascending crime wave which invariably begin in October.

stitutionality of the interstate commerce act, in the minds of many, but the Supreme Court upheld it as coming within the purview of the commerce clause of the Constitution. But when, in 1892, Congress undertook to enact a new income tax law, the Court held it to be unconstitutional. The West, however, was insistent upon an income tax, and after 20 years of agitation the sixteenth amendment to the Constitution, authorizing Congress to impose a tax, was submitted and ratified in 1913.

Out of the agrarian West also came demands which gradually became irresistible, for other changes in the Constitution. The Spanish war of 1898 put the finishing touch to the antagonisms between North and South and launched the United States upon a broader nationalistic career. So completely dominant was Federal supremacy that President Theodore Roosevelt, in 1906, did not hesitate to advance the idea that state lines should be wiped out. The power and authority of the Federal Government spread in direct

tions and to distances which the framers of the Constitution could never have foreseen. We annexed Hawaii under President Cleveland. We took possession of the Philippine Islands, 7,000 miles away across the Pacific, and of Porto Rico; almost at the end of the Civil War we had purchased Alaska from Russia and under the leadership of Theodore Roosevelt we embarked upon the gigantic enterprise of the Panama Canal. Probably not one of the men who sat in the convention of 1787 would have called this imperialistic expansion constitutional, but under the clauses authorizing Congress to regulate commerce with foreign nations and between the states and to provide for the common defense and the general welfare, the Supreme Court held that the documentary basic law of the land was sufficiently flexible to warrant these acts.
