## Sport Cartoonist Will Be Here

It all started out with a cartoon on the sport pages of the Lubbock Avalanche-Journal, and by the time it

winds up tomorrow night, Monday, many cartoons of various types have gone back and forth between Muleshoe and Lubbock.

Tomorrow night, Lubbock Mayor and sports cartoonist Dirk West will greet special invited guests at the Capitol Freehold Land and Investment Co., Ltd. Restaurant in Muleshoe. Greeting Dirk West will be representatives of the Muleshoe Chamber of Commerce and Agriculture, the Muleshoe City Council and city officials, several persons who wrote to West following the first cartoon, members of the local and Lubbock news media, restaurant owners and operators and a few other specially invited persons.

And what's the occasion? The Mayor-Cartoonist has been invited to Muleshoe to eat. That's right! It was decided that since the Mayor, by his own admission, has never eaten in Muleshoe, he really cannot do cartoons about the food in Muleshoe without first eating here. In fact, several of the restaurant own-

## Broken Cable Causes Fire In Pasture

Shortly after 3 p.m. Friday, members of the Muleshoe Fire Department were summoned to a ranch pasture one mile south of Muleshoe for a reported grass fire.

The firemen found that an insulator had broken on a cable dropping the high voltage cable into the pasture and starting a fire in the grass, weeds and brush along the fence row.

The firemen stood along the fence to warn persons not to try to touch the fence which was carrying the high voltage electricity until workmen could arrive from Bailey County Electric Cooperative to repair the line.

Bailey County Electric Cooperative were busy shortly after the report repairing the line, and firemen extinguished the blazing dry brush and grass.

## Mule Mania 'Hits' Mustang Defenses

The Mules got it all together Friday night and scored in each of the four quarters of the football game to defeat the Olton Mustangs by a score of 27-7.

It all started off with an 87 yard scoring drive for the Mules when quarterback Mike Northcutt found Bones Norman all alone near the corner in the end zone. Norman made a diving catch and latched onto a 10-yard touchdown pass. Sam Whalin added the extra point for a 7-0 lead as the clock ran out in the first quarter.

Holding the frustrated Mustangs, the Mules again edged toward the end zone and with 9:05 left before halftime, Zeke Pecina dived over the Olton defenders to add another six points from the three yard line. Sam Whalin again added the extra point.

Going into halftime, the Mustangs were still smarting over the fumble made by an Olton back on their own 20 yard line that set up the second touchdown of the game after it was

recovered by Sam Whalin. Again in the second, the Mustangs fumbled, and the Mules failed to capitalize on that opportunity after Carroll Precure recovered the Olton miscue at mid-field.

Going into halftime, the scoreboard was shining with 14-0. At halftime, the packed visitor's stands were treated to two good bands, as the Muleshoe band was followed by the Olton drum and bugle corps, the Olton flag girls and the Olton Marching band.

Early in the second half, Olton started moving the ball and started racking up yardage and making first downs. The team had been held to three first downs during the first half of play, but quickly started making up the deficit with a series of good plays.

However, things went bad for the Mustangs at 8:25 of the third when Sam Whalin went up high in a crowd of blue uniforms and picked off an Olton pass on Olton's 40-yard line. He shifted into high gear and raced downfield with his prize. This time, his attempt at the extra point failed, the Muleshoe was leading by 20-0.

Undaunted, the Mustang offense came right back and put together a drive

#### IT'S THE MOST!

The most lemons—skin, seeds and all—known to be consumed at once is three, eaten by Bob Blackmore in 1977.

Most people prefer their lemons in other forms. One popular way is blended with the natural juices of oranges, grapefruit, tangerines and limes in new Snow Crop Five Alive, a refreshing fruit

beverage containing 60 percent fruit juice. Parents and children alike enjoy it throughout the day, and it's an ideal way to give children the goodness of natural fruit juice.

HELPED BY FATHER TERRY BURKE...These four youngsters, pictured with Mrs. Geronimo Perez, upper picture and Mrs. Josephine Reyes, lower picture, were helped by Father Terry Burke after an infant in the family was hospitalized in Muleshoe. The two women have been keeping the four young children while their mother stays at the hospital with the infant.

ment, the disease can usually be controlled and, in most cases, the MG patient can lead a normal life.

"Myasthenia gravis is one of the most insidious afflictions known to man. A crippler and potential killer, MG can strike anyone, at any age. MG is a neuromuscular disease characterized by varying weakness of the voluntary muscle of the body. This weakness is abnormally increased by continued or

repeated use of the muscles at any one time and partially relieved by short periods of rest or inactivity of the muscles."

"The myasthenic sometimes has only enough strength for today. So caring friends of the Muleshoe area are helping supply some of the items that will be on sale at the bazaar, and the Chapter deeply appreciates this help," Mrs. McVicker concluded.

The sign of wisdom is one's willingness to listen and learn.

children in the lobby of the hospital and went to work. Fr. Burke called members of the church and looked for a temporary home for the children, said the members.

Mrs. Geronimo Perez took the four children and kept them day and night until Wednesday night and at that time, they were taken to Needmore by Josephine Reyes. She plans to take care of the children until the infant can be released from the hospital.

A member of the church, Frances Perez, has been providing food and clothing for the mother of the sick infant, who is staying at the hospital with her baby.

In another instance, Mrs. Eddie Vega of Clay's Corner had two young sons hospitalized at the same time at West Plains Medical Center. Her electricity was turned off and the butane ran out. On finding

ers are busy planning what of their own specialties they will be preparing to serve Mayor West during the evening.

A special program is also planned, with several speakers who will be greeting the Mayor 'Muleshoe Style'.

It's an evening planned to be spent in fun with West, who is probably best known in this area for his sports cartoons where no one can escape his 'merciless' pen.

A master of spoof and satire, he has been including Muleshoe approximately once a week in some cartoon. But, it has all been in a spirit of fun, and West has said that he will be withholding further comments until he has had the opportunity to sample the food served him in Muleshoe.

However, if plans should go awry, Muleshoe may be the brunt of many of the cartoons and in fact, become 'The Siberia and the South Plains'.

At this point, Dirk West is coming to town to eat and enjoy an evening of being entertained by the local 'Masters of Wit'. Perhaps he will go back to Lubbock determined that Muleshoe is not such a bad place after all, and continue the cartoons, even mentioning Muleshoe once in awhile.

out about the problems, and finding several other children at home, Fr. Burke turned to the Church members. The Guadalupe Society of the church furnished money for butane and the Knights of Columbus and Sacred Heart Society paid the \$61 electric bill so electricity could be restored to the family's home.

The members say that Fr. Burke spends almost all of his small salary helping the members of the church and even persons in the community who are not members of the Catholic Church. "We need a man like this in the community, who cares about everyone," said a member of the church.

During the week, several petitions were circulated, with the church seeking signatures from both members and non-members of the church. The petition asks that Fr. Burke be allowed to stay in Muleshoe with the local church.

Friday morning, a delegation from the church, along with a local attorney who has been retained, went to Amarillo to present the petitions to the Diocese and the Msgr. L.T. Matthiesen, Administrator sede vacante, who has named to the interim after the death of Bishop Lawrence DeFalco recently.

Fr. Burke said he is growing to love the people in this community and said he is "overwhelmed by the response." He did not ask for the petition, and remains firm in his conviction, "The Lord will show the way."

Whether he returns to the church in Muleshoe or not, during the two months he has been here, he has touched many lives.

that culminated with tail-back Danny Garcia making it into the end zone on a three yard dive after the team moved the ball 68 yards in nine plays. Kenny Smith added the extra point.

Again the Mules started a drive, but Scott Parker recovered a Mule fumble on Olton's 49 yard to end a possible threat by the Mules.

They came back with 8:12 left to play in the game and Zeke Pecina slammed through the uprights.

Time ran out for the Mustangs before they could muster a drive to try to add additional points to the score.

The game left the Mules 3-0 in district play, and Dimmitt and Morton to end the season in regular season play. However, Friday night, Morton defeated Friona to keep their district hopes alive. In the event Morton should come into the final game in two weeks unbeaten, they will probably be a lot for the Mules to handle. This appears to be the year the Indians have gone on the

warpath, and should prove to be strong contenders against the Mules to end the season.

Zeke Pecina went over a hundred yards rushing Friday night, with 109 yards to his credit; quarterback Mike Northcutt had 72 yards rushing and 25 yards passing; Felix Norman had a good night with 54 yards rushing; and Lindall Stovall had five yards.

Northcutt completed two of seven passes, one for a touchdown; and Vance Stroebel, quarterback for the Mustangs, completed three of five passes.

Muleshoe had five yards in penalties in the game and Olton had 35 yards; Muleshoe punted twice for an average of 33 yards and Olton punted three times for an average of 32.6 yards. Muleshoe had 20 first downs to 13 for Olton; Olton lost two fumbles and were intercepted one time and the Mules lost one fumble and were not intercepted.

Muleshoe's two final games for the season will be at home. Dimmitt's Bobcats will come scratching to town next Friday night, and the Morton Indians will invade Muleshoe on November 16.

In the event the Mules win the next two games, they will again be the district champions and will probably face Dalou in bi-district action again this year.

## Littlefield Wins 14-8 Over JV

It was a frustrating night for the Junior Varsity Mules as they fell behind the cats 14-0 in the first half. Six first half turnovers cost the Mules dearly as they constantly halted

their own offensive drivers and also put Littlefield in excellent scoring position. Despite this fact, the Mules fought back in the 2nd half to score a touchdown with the score coming on a pass from Monty

Hysinger to Ronnie Angeley and the 2 point conversion was scored on the same combination.

The Mules pacing game ignited the drive with Brad Poyner and Mickey Long coming up with both catches along with Angeley. However Muleshoe's final drive was stopped by an interception late in the game to prepare Littlefield's victory. This was the Mules first loss in district; and Thursday the hosted Olton JV who was undefeated in district, and beat them 21-0.

### Letters To The Editor

Mr. Dave Marr, City Mgr.  
The City of Muleshoe  
215 South First Street  
Muleshoe, Texas 79347  
Dear Mr. Marr:

This is in response to the complaints which you and others have had concerning telephone service in Muleshoe. As I have received individual complaints from a number of other Muleshoe citizens, I am sending a copy of this response to those individuals.

On September 27, 1979, I made my most recent trip to Muleshoe to investigate telephone service quality. Because of the tight scheduling involved in this type of trip, I am sorry that I was not able to visit personally with you and the other complainants on that day. I did talk very briefly with Mr. Belt at his motel prior to my office investigation. Let me say that I need no further convincing that the telephone service problems you are experiencing are real.

Our staff test results showed the company to be in violation of Commission rules regarding both intra-office and D.D.D. (Direct Distance Dialing) call completions. Many of the D.D.D. call failures appeared to

be caused by malfunctions in the Littlefield toll switching office. We believe additional maintenance will be required by the company both in Muleshoe and Littlefield in order to improve service.

Our staff has begun a statewide study into the extent of D.D.D. calling difficulties through General Telephone's toll centers such as Littlefield. Both Commission and

company tests and observations will be required to determine to what extent problems may exist, and what corrective action may be required of the company.

I do not wish to leave you with the impression that we are ignoring or tabling this matter. We are extremely concerned about the service problems in Muleshoe, and we intend to use many avenues in the next few months to have General bring service levels within Commission guidelines. I truly appreciate your concern and that of others in bringing the problems to our attention. I will keep you informed of our study progress and results as we proceed.

#### DRY EYES ARE DISTURBING

Dear Dr. Pettey: My dad, now 71, has complained to me recently about his eyes getting dry when he reads a long time. In fact, he says he's beginning to notice it more all the time. What's the cause of this condition?  
If your dad is in good health, generally, and he has no uncorrected visual or eye problem, he is probably beginning to

have the dry-eye of the aging person. He may be experiencing what most everyone does as the years begin to stack up.

Tear production by the lacrimal (tear) gland slows some in almost everyone by age 70. Also, one's blink rate per minute slows, compared to people in their 40's, or earlier. As a result, reduced tear production is spread less frequently over the front of the eye, inducing a greater

amount of drying. The lids act like a soft paint brush in sweeping gently down and in, spreading the tear solution evenly over the front of the eye.

The tears cleanse and keep the front of the eye moist; without which the cornea would cease to be clear. The tears are salty and absorb oxygen almost instantly as they are spread over the eye by the lid action. The cornea breathes oxygen from the

tears in order to remain alive and healthy; to stop or slow the spread of tears over the cornea disturbs its normal metabolism.

Your dad may have to ask his eye doctor about using artificial tears. That is sometimes required to alleviate dryness.

### What Is Proposition 3?

The whole idea of the program is to make credit available to young persons who can make the annual note payments but who can not come up with the 29% down payment now being required for farm and ranch loans... something far beyond the means of most Texans.

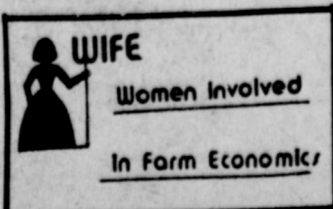

This program has built-in protections for the credit of the state which will insure that the taxpayers will not lose a penny. The first guarantee is the basic fact that the State does no loan money under this program, it only guarantees loans made by the conventional lenders and the land will be a security for that guarantee.

Secondly, the program has strict requirements which insure that loan guarantees go only to qualified persons who can make the payments.

Do you know that the average age of a Texan is 30 and the average age of the Texas Farmer is 59? Who will be farmers 20 years from now? Who will be taking care of the land 20 years from now?

If you think your food and fiber items are expensive now, wait until you are buying these items from large corporation farms.

We of WIFE urge you to support Proposition 3, on November 6, it may be the only thing between food prices of today and corporation prices of tomorrow.

**THE HARVEST**  
"While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."  
Genesis 8:22  
The harvest each year should remind us of God's great promise to man. This promise was made right after the great flood, from which only Noah and his Ark survived. Just prior to the flood, all men lived so evilly that it grieved the Lord that he had made man of the earth.  
Today the churches stand as a bulwark against evil. Attend church regularly so that never again would man grieve the Lord as before.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.  
Coleman Adv. Ser.
