Peanut Market Quota Vote Deadline Dec. 10

dates have been set as Dec. 6 - 10 ments prior to the referendum. and balloting must be returned Peanut farmers in the area to the county ASCS office by should keep in mind the refmail or in person by December erendum dates, and be sure to 10 deadline.

"Growers have approved deadline," Harris stated. marketing quotas for each year's peanut crop since 1949. In the last three year vote in Dec. 1968, 96.9 per cent of the 50,358 growers voting approved quotas. We are hopeful that all peanut voters will use the convenient mailing system to cast their ballots this year," Harris said.

A grower will be eligible to vote in the referendum if he is entitled to share in the 1971 peanut crop of a farm which produced more than one acre of ganization. nuts. A landlord of a standing rent, cash rent, or fixed rent ported as follow. tenant is not eligible to vote.

It takes a favorable vote by two - thirds of the growers voting in the referendum to approve marketing quotas for the next three years. Whether or not quotas are approved, peanut acreage allotments will remain in effect as a means of determining eligibility for government loans.

Harris explained that if marketing quotas stay in effect there will be marketing penalties on the peanuts produced in excess of a farm's allotment. Growers who do not exceed their allotment will be eligible for loans out of living at 75% of parity.
