West Texas Utilities Asks 6% Rate Increase

Request for the first general rate increase in West Texas Company 50-year history is to be presented to the Cross Plains City Council Tuesday night by WTU local manager Pruet.

The increase will not apply to minimum bills, fuel adjustments, municipal rates and power interchanges with other utility companies. "As a result," Pruet said, "the increase in the company's total revenue will be less than five per cent."

The increase will add about 2-2 3 cents per day to the average residential bill, according to Pruet. He pointed out that since 1952 the average residential cost has dropped from 3.64 cents per kilowatt-hour to 2.59 cents, a decrease of 29 per cent. During the same time, the average residential usage has increased more than 3-1/2 times.

While this is WTU's first general rate increase, the power company manager noted that WTU had voluntarily reduced rates 14 times. The firm's last major rate reduction was in 1964.

In asking the city's approval of the new electric rate schedules, the WTU manager said that the new rates would be applied to bills rendered on or after March 1, 1973.

Pruet pointed out that almost every electric utility in Texas has found it necessary to request rate adjustments and that WTU is one of the last to make such a request.

"The spiraling cost of nearly everything we buy or use to provide electric service makes the rate adjustment essential," the WTU manager said. "The increase is the minimum needed and nothing more."

He emphasized that WTU had been caught in the "cost squeeze" as a result of the increases in the cost of equipment, services and labor, cost of new power plants, lines, and environmental controls.

With interest costs more than doubled, he pointed out that the cost of borrowing money was one of the major problems. To supply future needs, the company expects to spend about 77 million dollars for new facilities in the next five years.

Aliens In U.S. Must Register This Month

District Director Albert G. Vaughn of the Immigration and Naturalization Service stated that aliens in the United States will be required to report their addresses to the Attorney General. All aliens, with few exceptions, who are in the States on January each year must report their addresses by the end of that month.

Only the following classes of aliens are excused from this requirement: (1) Accredited diplomats; and (2) Persons accredited to certain international organizations.

Forms with which to make the report can be obtained from any post office or Immigration and Naturalization Service Office during the month of January. This year the reporting requirement has been broadened to additionally provide for the mailing of completed address reports directly to the nearest office of the Immigration and Naturalization Service. The cards will still be received at all post offices as in the past.

Vaughn said that the law provides severe penalties for failure to comply with the reporting requirement.

Cottonwood Lady Notes Past And Present News

By Mrs. Wayne Brown

We wish for you all in our community a happy and prosperous New Year. Cottonwood had a busy year in '72. We have had our good and bad times, our sorrow and glad times. Dean and Ida got lost in the hog pasture, Allen and Beth bug hunting, Bill Kelly's Yamaha gave him a wild ride then turned on him, the local ladies having ups and downs at the roller rink with Vivian complaining of a sore arm, the gardens produced fantastic amounts and sizes of vegetables this summer, the screwworm epidemic, fire destroying two homes and a barn, loss of loved ones and friends, starting of Cottonwood Community entering into the Texas Community Improvement Program, musicals and the turkey dinner served by the Ladies Quilting Club of Cottonwood. O. S. Smith celebrated their 50th anniversary; our mysterious creature of the night hopefully identified as a Durham bull, yours truly getting stuck in the hog feeder and many more bustling activities.
