

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, MAY 21, 1936

VOLUME 14 NUMBER 17

JOHN TEAL CASE CONTINUED 'TIL NEXT TERM DISTRICT COURT DUE TO ABSENCE OF A STATE WITNESS

Judge Overrules The Strong Plea Of Defense Attorney For Immediate Trial; Several Witnesses Here For Trial.

When Bailey County District court reconvened last Monday morning the case of John Teal, who is being held without bail on a charge alleging the murder of Evelyn Montis, a Bailey county school teacher, which occurred about 18 years ago in the Circleback community, was continued until the fall term on motion of the district attorney.

The Commencement Program Held Here Last Friday Night

Friday evening of last week the commencement program was held at the Muleshoe High school auditorium at 8:00 o'clock for the 25 graduates. The auditorium was overflowing with an expectant audience, when Miss Madeline Ely at the piano, began playing the professional for the graduates of the 1936 Centennial class to march in, taking their seats on the stage.

HON. DENNIS ZIMMERMANN Prominent Tulsa attorney, who is candidate for judge of the 64th judicial district.

Dennis Zimmermann Tulsa, Announces For District Judge

In this issue of the Journal Hon. Dennis Zimmermann takes the opportunity of announcing to the voters of Bailey county his candidacy for the office of District Judge, 64th judicial district, to fill the unexpired term of Judge R. C. Joiner, recently deceased. Mr. Zimmermann is one of the leading attorneys of Tulsa, in Swisher county, and widely known throughout West Texas as a capable lawyer.

DEAN GORDON SPOKE TO 4-H CLUBBERS SUNDAY

Services Held Various Points In County For 206 Members.

Dr. J. M. Gordon, dean of Texas Technological college, Lubbock, last Sunday morning delivered a very inspirational and constructive address at the Baptist church to members of Bailey county 4-H club boys and girls and their accompanying parents and club member parents and other citizens attending.

FARMERS PROTEST GOV'T RULE THAT SUDAN IS SOIL CONSERVING CROP; MODIFICATION IS SOUGHT

Claim Discrimination Since Sudan Is Classed As Soil Depleting Crop In Eastern New Mexico Area.

Much interest in a government ruling declaring Sudan to be a soil-conserving crop, rather than one of a depleting nature, is being manifested in Bailey county and other South Plains counties by growers and other citizens, who declare such ruling means the taking away from this area another "money crop" greatly needed by Sudan growers.

A reversal or at least modification of the ruling is now being sought by W. G. Kennedy, chairman of the Bailey county farm association, in connection with O. G. Tumlinson, district farm agent, the latter having gone to College Station last week in behalf of a more favorable adjustment of governmental mandate for this section. Judge Kennedy stated that more than 20 letters and telegrams had been sent to Washington congressmen and various Texas officials protesting on the ruling and urging influential action toward a change. Replies received from some of these communication indicate favorable support. Kennedy said this section of West Texas is noted as growing more Sudan grass than any other one section of the United States, and because of the altitude and favorable climatic conditions prevailing at harvest time, it is said the Sudan seed grown here gives forth a much higher germination test than that grown elsewhere. Because of this favorable condition, Sudan growing has become one of the leading crops of this area.

Several high school students received certificates of awards for not being absent or tardy during the entire school year. Those who graduated were Fred W. Long, Ada Lee Hogan, Flora Mae Lee, Lora Maude Liston, Ira Muriel Hollis, V. Pauline Matthews, A. Cloyd Skeeters, Jean G. Willman, Ralph R. Borden, Fay E. Walker, Bill Palmer, Roy H. Elrod, Eunice M. Griffiths, Crystal E. Kennedy, Ruby M. Sterling, Maids S. Chandler, James L. Alsop, Kenneth W. Jennings, Lettie Ellen Darnell, Joseph W. Terrell, Dan W. Winn Jr., Bertha E. Darnell, Neva Jewel Beene, Elma M. Pruitt, and Sibyl Corinne Hunter.

District Court Is Adjourned Monday Tax Suits Thursday

In Bailey County District court last Monday morning the case of the State vs. C. C. Ragsdale, wherein the defense is charged with disposing of mortgaged property, was continued for the term upon representation of the defense that he had no attorney nor money to employ one; but that he could secure counsel by next term of court. Pete Melchani pleaded guilty to a charge of driving an automobile while in an intoxicated condition, and was sentenced to one year in the state penitentiary, the sentence being suspended. His driving license was also revoked during that period. Arnold Reed was divorced a divorce from Era Mae Reed. Divorce was also granted to Mrs. Elizabeth Stephenson from Nelson Stephenson, after which Judge Russell adjourned court until Thursday when several tax suits will be adjudicated.

County Agents Changed

W. W. Evans, for several years county farm agent of Hale county, and one of the leaders of the South Plains Dairy show, was last week transferred to Baylor county, being stationed at Seymour. C. B. Martin, formerly of Swisher county, has been made farm agent at Plainview, by district agent O. G. Tumlinson.

U. S. Supreme Court Holds Guffey Coal Act Void, Unconstitutional

Dividing six to three, the U. S. Supreme court, Washington, last Monday struck down the Guffey Coal act on the same ground that it invalidated the NEA's unconstitutional invasion of state powers. It was held the Federal government was without power to regulate hours and wages in the mining industry as well as in the manufacturing industry. Constitutionality of price-fixing was not ruled on.

Muleshoe School Gets Added Credit Total Is Up To 24

Superintendent W. C. Cox, of Muleshoe public schools, last Tuesday received notice from the State Department of Education stating another amount had been granted this school on music, bringing the total credits of affiliation up to 24. Six years ago when Prof. Cox was first employed as superintendent of the Muleshoe schools there was no affiliation at all, and pupils graduating from this high school could not be admitted to higher schools of learning without first taking examinations. Now this school has more credits than any other school in the county, and its graduates at any of the colleges or universities of the State.

Muleshoe Wins From Enochs

Sunday afternoon the Muleshoe baseball team played a match game with the Enochs team. Muleshoe was victorious the score being 17 and 11 at the end of the game. The local team did not use any of their pitchers and the Enochs team made all of their scores in the eighth and ninth innings. This was the seventh game of the season Muleshoe has played and has won five out of seven.

Rain From One-Half To Five Inches On Plains

Blowing in from the northwest, dripping skies left moisture varying from one-half to five inches the early part of this week, some of it falling Sunday and some Monday. The North Plains area was pretty well covered, some portions receiving from one to two inches. From 25 miles north of Muleshoe, reported a five inch rain, water sweeping over the railroad track and inundating all the country around, regardless of the "ship canal" now being completed in that vicinity. Good showers are reported in Circleback, Bula and some other southeast communities in Bailey county. Muleshoe received only a light sprinkle.

South Plains Singing Convention Held At Lubbock, June 10-11

Lubbock, Texas, May 18.—The annual Plains-Panhandle Singing Convention will be held here June 10 and 11, officially starting at 2:00 o'clock on Saturday afternoon, June 20, and continuing through Sunday. An invitation is extended to all music companies, and it is urged they have representatives here with displays of their music wares. A special invitation is extended to all singers—whose presence, after all, is the determining factor of a successful convention. Between 10,000 and 15,000 people attended the convention last year, and S. B. Summers, president, announces this convention will be the Centennial session, with all efforts combined to make it the banner session of the organization.

Van Zanders Reunion

Ex-Van Zanders will hold their annual reunion at the Fair park at Lubbock, next Sunday afternoon, according to announcement made by H. M. McEwen, president. A feature of the occasion will be an old time picnic dinner. A general invitation is extended all who attend.

Trade Expansion Awards

Recipients of the Trade Expansion awards given here last Saturday were: D. B. Conner, star route, Sudan, \$10; Foch Goodfin, Maple, \$3; W. L. Taylor Muleshoe, \$2. The name of C. R. Black, route 2, Muleshoe, was called for first award; J. L. Wallace, route 1 and Mrs. John Rogers, route 2, Muleshoe, for second award; Mrs. Lyde Garrett, Goodfin, for third award; all of whom were absent. Mrs. Jeff White, Muleshoe, received a set of dishes given by a laundry located east of the Panhandle lumber company. The usual awards will again be made next Tuesday.

Gets Bailey School Money

Floyd county last week received \$2,200 for sale of school land located in Bailey county, which will be applied to the available school fund of that county. Be loyal to home town interests.

Indians Ask For Relief

Bedecked with silver and feathered headdresses, Indians from southwest located tribes, were yesterday in a chartered way into the halls of Congress and gained a Senate hearing to record complaints against asserted mistreatment of their people.

Be loyal to home town interests.

CLOVIS POLICE WILL TAKE A VACATION SAY BOOSTERS HERE TUESDAY WHEN PIONEERS CELEBRATE THERE JUNE 2-3

Muleshoe turned the calendar back about 40 years last Tuesday morning and for 15 or 20 minutes lived again in the pioneer days when a booster bunch of Clovis, N. M., citizens, headed by C. L. Dobbs, visited here, advertising the big Pioneer celebration to be held there Tuesday and Wednesday, June 2 and 3.

Most of the boosters were dressed in whiskers, cowboy boots, chaps, 10-gallon hats and wearing the proverbial 45 six shooter on their hips. They brought with them the municipal band and a string orchestra, music of both being much enjoyed. Misses Doris Williams, Donnie Campbell, and Ann Hill in cowgirl attire and officially designated as Texas Rangers for the celebration, gave added attraction to the program with their miles and songs.

The orchestra, played numerous old time melodies and breakdowns familiar to the majority of earlier days and enjoyed by their offspring who hung about the curbs as the music was broadcast by the giant loud speaker carried

with them. S. A. Harrell, singing cowboy songs, was also a feature of the inspirational program.

While there were no visible evidences of "red-eyes" yet the visiting cowboys frequently pictured the atmosphere of this peaceful little city with volleys of forty-fives, as in the olden times when they used to ride their horses into some favorite saloon and shoot up the town. Some one picked up a negro, called "Sam," put him in the circle of onlookers and, while five or six of these soda-fountain cowboys fired volleys of 45s at his feet to make him dance, the negro turned white about the gills and proceeded to shake his feet in true preagricultural days.

Mr. Dobbs, in a brief address before the "mike," invited all Muleshoe citizens to "come to Clovis, and help us celebrate." The town will be wide open he said. "You may do anything you are big enough to get away with—the policeman have all gone on a vacation."

Each year there are fewer ducks, geese, quail and —sorks.

Old Age Pension Questions Answered By Orville Carpenter

Numerous questions are now being received by Orville S. Carpenter, state head of Texas Social Security by people wanting to know more about payment of old age pensions. Some of these questions and answers being sent to the Journal this week, and are as follows:

Q—Why cannot assistance be paid to those "in need," second, because the Federal Government will not allow us to pay Federal money to people who are not in need.

Q—Will not Federal money mean a lot to Texas?

A—Yes. It will mean that several millions of dollars each year will be given to the aged people of Texas that they would not otherwise get; it will mean that what a person will be able to receive as much as \$30 a month, and without it no one could get more than \$15 per month.

Q—What does the Federal law say about "need"?

A—It says that the Federal appropriation is made for the purpose of enabling states to assist "aged needy individuals." (Sec. 1)

Q—Was this "aged needy individuals" question checked?

A—The Social Security Board stated that this was the correct interpretation of the law.

Q—How does the Texas definition of "needy" compare with that of other states?

A—Texas has the most liberal definition of "aged needy individuals" in the United States. The Texas law is much more liberal on this point than that of any other state in the Union.

Q—How many people are there in Texas past the age of 65 years?

A—Over 300,000.

Q—Definitely, if Texas gave each one of these \$30 a month, would the Federal Government pay half of it?

A—No.

Q—If each of the 300,000 received assistance, where would the money come from to pay the bill?

A—It could come only from the taxpayers of Texas.

Q—Could we pay everyone past 65 years of age \$30 per month if we desired, and were willing to do so without the millions that the Federal Government will contribute?

A—No, we could not because the Old Age Assistance Amendment to the Texas Constitution provides for payments not to exceed \$15 per month per person.

Q—Then \$15 per month would be all that we could pay if we gave everyone past 65 years of age assistance without the help of the Federal Government?

A—Yes.

Buy it in Muleshoe.

HELFUL HINTS

Blueing Spots—If the blueing stains an article when washing, wash the spot in alcohol and it will disappear.

Silks—Always wash your white silk gloves, stockings, etc., in cold water. Otherwise they will turn yellow.

Salty Ham—If a salty ham is soaked in milk it will remove a great deal of the salt, as well as improve the flavor.

Culinary Success—Nearly everyone likes grated cheese in their macaroni. If one is desirous of saving labor, cut the cheese in small pieces and put them through the potato ricer.

Drying Dainty Materials—Remove dainty hosiery, corsets, etc., from the line as soon as dry, as the wind will make them limp.

Starch Substitute—A very good substitute for starch. A teaspoonful of borax used to each gallon of water will stiffen sufficiently yet not have the cloudy appearance given by starch.

Wall Paper Paste—A good wall paper paste can be made by using rye flour and water. Take some flour and stir in warm water, then boil and cool, stirring constantly. No exact recipe can be given for the quantity of flour to use as different flours vary in different pasting qualities. A few drops of carbolic acid will help preserve the paste.

"Table of Baking"—Bread, 40-75; Biscuits, 10-20; Piecrusts, 30-40; Pastries, 30-60; Cakes, 15-20; Cakes, 30-60; Gingerbread, 20-30; Beans, 8-10; Potatoes, 30-45.

Nickle or silver ornaments may be kept bright by rubbing them with a woolen cloth saturated in spirits of ammonia.

Damping Clothes—Use water as hot as can be borne on the hands. It will not be necessary to use as much on the clothes.

Stained Hands—A little kerosene will remove all grease and paint from the hands.

Brought First Negro Slaves—The ship that brought the first negro slaves to North America was the Treasurer, commanded by Capt. Daniel Elfrith, which landed at Jamestown, Va., in 1619.

Intelligence, Training—Intelligence, say many experts, cannot be increased, but it is useless without training.

M. A. Goodson, 73, Of Muleshoe Buried Here Last Friday

Funeral services for the late M. A. Goodson were held Friday afternoon of last week from the Baptist church, being conducted by Rev. J. A. Barrington, Primitive Baptist minister of Portales, N. M., and interment made in the local cemetery northwest of Muleshoe.

There was a large concourse of friends, neighbors and acquaintances to attend the service and follow the remains of this elderly citizen to its last resting place in God's Acre, where the sacred mound of earth was banked high with numerous and beautiful floral offerings, mute testimony of the respect paid his life while on earth.

Milton Amos Goodson was born May 31, 1853, at Cartersville, Georgia, died May 15, at 2:40 p. m., lacking but a few days of attaining the ripe age of 73. August, 1881, he was married to Miss Savannah Keever, and to this union there were born nine children, three of whom have preceded the father in death.

Mr. Goodson made his home in Cartersville until 1908, when he moved to Childress, this state, living there until 1925, when he moved to Muleshoe, living here until death. He was a member of the Primitive Baptist church, which he joined when 21 years of age.

Aside from his widow, he is also survived by four sons and daughters: J. P. Goodson and W. T. Goodson, Children; John A. Goodson, Horatio, Ark. C. A. Goodson, Folsom, N. M.; Mrs. Mary E. Hart, Muleshoe, Ky.; Mrs. Mary E. Hart, Muleshoe, all the children, except Mrs. Hudson, being present at the funeral service. He is also survived by 17 grandchildren. The children preceding him in death were, Homer, Sanford and Emmett Goodson the last two named being well known in Muleshoe preceding their demise.

Funeral bearers carrying Mr. Goodson to his last resting place were: Wm. Sutton, W. B. Mitchell, Geo. Johnson, Ray Griffiths, J. E. Adams and W. L. Brooks.

Loss Of Color In The Leaves And Plants Caused By Chlorosis

The yellowing and loss of color in leaves of some plants in the garden, shrubs, orchard trees, or even on spots of the field crops is generally a condition called chlorosis, according to a statement made in the press bulletin of the Texas Experiment Station.

Research workers at the Texas Experiment Station stated that the most common cause of chlorosis is an excess of lime in certain soils which prevents the iron in the soil from being available to the plant.

According to this press bulletin, other causes include the deficiency of potash, nitrogen, zinc, manganese, excess of alkali, or defective conditions of the roots.

There are two methods of attacking chlorosis which are as follows, first, the actual mechanical application of iron into or on the plant and second, soil treatment to render the iron already in the soil available to the plant.

According to this release from the Texas Experiment Station, the quickest way of finding out which is needed is to spray the leaves with iron sulphate, zinc sulphate, or manganese sulphate. The one needed will turn the leaves green within two weeks.

Sore Gums—Curable

You won't be ashamed to smile again after you use **Lo's Pyorrhoea Remedy**. This preparation is used and recommended by leading dentists and cannot fail to benefit you. Druggists return money if it fails. **Western Drug Co.**

WEEKLY LAY SERMON OPPORTUNITY

By JESS MITCHELL

What is an opportunity? The Lexicographer would coolly tell you it is a conjunction of circumstances favorable to the accomplishment of a given purpose, aim or desire. But I declare, words can not tell its full meaning. If you should consume a thousand years in trying to manufacture a successful definition which would adequately describe it, your labor would be in vain.

time; but how many opportunities are born and die in less time than that—a time so short, its brevity is almost incalculable, yet how many of these short-lived opportunities reach far reaching overshadowing influences! All commercial, literary, business, political and social success depends upon taking advantage of opportunity, and men should learn to do this one thing. Learn to lasso it. Grab it by the forelock, throw it down and put their foot upon its neck.

A TICKLER FOR THE PALATE

People live to eat as well as eat to live. They want food that is not only wholesome; but appetizing—that's what you get at this store.

Folks who eat Red and White Groceries get an exceptional zest and delight from that daily pleasure.

Also, there's much satisfaction in knowing that food you eat is of unquestionable quality. It's worth a lot to buy at a grocery store where you don't have to ask: "Is it fresh?" It's good to deal where you are never in doubt on that point.

General News Over Texas And Adjoining States For The Week

Bricks county for last week voted in favor of incorporating the county into an erosion control district.

State Corporation Commissioner J. D. Lamb was arrested last Saturday at Roswell, N. M., on two charges alleging bribery and one of embezzlement.

During the first six months recently closed Texas realized a tax revenue of \$2,500,000 from liquor sold in about 100 of its counties.

Former State Senator Charles J. Hutcheson, of Hillsboro, N. M., was given two years in prison last week on charge of mail fraud.

Several shipments of arms and ammunition for Mexico were held up at San Antonio last week. Parties to whom they were addressed claim no knowledge of the purchase.

There were one hundred commercial failures in Texas last month against 23 the month before, according to Dun & Bradstreet. Auto licenses issued show 18.1 per cent increase over 1935.

A contract was signed last week between the U. S. and Mexico for building a bridge across the Rio Grande river between Hidalgo, Texas and Reynosa, Tamaulipas, Mexico, work to begin immediately.

Senator Morris Sheppard, Texarkana, senior Texas U. S. senator and dean of senators in Congress, last week announced his candidacy for re-election. He will begin a speaking tour as soon as Congress adjourns.

There were 30,000 Rio Grande citizens gathered at Brownsville, new ocean port last Saturday when it was officially opened. Ocean steamer service is said will be of much value to that section.

Rev. J. Frank Norris, belligerent Baptist preacher of Fort Worth, who has been campaigning against Japanese in Japan, was stopped by members of the Baptist convention in session at St. Louis last week.

For two years the annual in Palo Pinto county has been causing serious depletions among cattle and sheep of that county. Last Saturday it was a sheep rancher, Jesse and Evelyn Shultz, of Hereford, Nova Louisa, Harless, Naomi Fine, Junita Key and Mareta Parker, of Enochs, Joy and Orville Lane, Johnnie Tucker, Douglas Shaver, A. C. Corbett, E. A. Harrell, Jack and James Henderson, Bill Key, G. W. Fine, Adolph Neutzler and John Shultz of Hereford. Bob Sowder chartered the group. All reported a nice time.

T. G. Miller is in Oklahoma on business.

Perry Fort, Bob Sowder and W. L. Key were in Muleshoe, Monday.

Mr. and Mrs. L. L. Harless visited in Halls, Sunday afternoon.

There were 57 out at Sunday school. Everyone is welcome.

Mr. and Mrs. A. E. Cook spent the weekend in Hereford.

Quite a few attended the Junior play at Bula Friday night.

There were 22 attended the Sunday school study course at the school house the past week. The book was taught by Mrs. A. E. Cook.

Miss Eunice Drinkard, of Portales, N. M., is spending the weekend with her cousins, Mr. and Mrs. David S. Clair.

Mr. and Mrs. Arthur Tucker have returned from a visit to Little Rock, Ark., where they attended a family reunion of Mrs. Tucker's at her father's.

Mr. and Mrs. W. E. Laney visited last week in Frederick, Okla.

H. D. Club Meeting

Texas is a wonderful state said Mrs. Auline Davis, cooperator of the Watson home demonstration club Wednesday of last week when members met in the home of Mrs. Joy Lane.

A Centennial program was given by several members.

Those attending were Mesdames N. O. Sullivan, Marie Willford, Esther Miller, J. V. Lemons, Auline Davis, Clara Edna, A. J. Neutzler, David S. Clair, W. Key and hostess.

Refreshments were served and the club adjourned to meet May 27 with Mrs. W. L. Key—Reporter.

ONE POTATO PLOWING ENOUGH

Crop specialists now say that unless weed growth makes it necessary one cultivation of potatoes is sufficient except a light cultivation two weeks after planting and before the potatoes are up. If weeds make more cultivation necessary it should be shallow for deep cultivation prunes the potato roots. In a three-year test by the Department of Agriculture in Maine one-cultivation potatoes yielded slightly more than potatoes cultivated five times.

About the only place now to find "home cooking" is at the restaurant.

HOW STATE TAX DOLLAR IS SPLIT FOR EXPENSES

Several mysteries concerning how the State's tax dollar is spent were revealed today in the annual report of Comptroller Sheppard for the year 1935 the state just having come from the printer. While much has been said and published, while it has been a subject of debate, yet the Sheppard survey shows that out of this dollar less than one cent just having come from the printer. While much has been said and published, while it has been a subject of debate, yet the Sheppard survey shows that out of this dollar less than one cent just having come from the printer.

Highways and Educational System Take 78c Legislature One.

The expense of maintaining the entire judiciary system of Texas for 1935 took a little less than two cents out of the tax dollar, while the executive and administrative costs are set down at about one and a half cents.

Highways took the largest slice out of the dollar, given as 41 cents; plus the public schools, with their regular and higher education, four cents; eleemosynary education, two cents plus. This makes the amount of all education coming from the tax dollar about 56 cents. Highways and education together receive 78 cents out of the total tax dollar, which doesn't leave much for the Legislature to trim unless it should want to economize on schools and roads.

Pensions Only 2 Cents.

Pensions are put down at two cents and relief expenses at five cents out of the dollar, with the regulation of business and industry was allowed a little more than one cent.

The State Government for the fiscal year of 1935 expended \$111,000,000, of which \$46,000,000 went to executive and \$35,000,000 to the school system, with \$5,000,000 more for institutions of higher learning, while relief took \$6,000,000, and public safety, bond payments, the legislative expense, \$3,000,000; cigarette stamp tax, \$6,798,000; beer tax, \$1,000,000; insurance occupation, \$2,000,000; poll tax, \$1,000,000; franchise tax, \$1,000,000. These constitute the chief tax levy incomes.

\$4,000,000 Realty Business

But additional money was received by the State from permits, land sales interest, and a federal copy aid. This latter item alone amounted to \$18,000,000. The State Government likely was the biggest real estate dealer in 1935, for its total in high price sales and rentals, interest and penalties reached more than \$4,000,000 while fees and permits exceeded \$2,000,000.

The State at present has five selective taxes in the form of a copy aid. This issue over this feature in and out of the Legislature. There is a State tax on gasoline, cigarettes, beer, liquor and wine, and the public school system gets its percent of each.

Collection from the liquor tax were not made in time to get into the comptroller's report, but they are estimated by J. C. Carpenter, director of gas assistance, to be far in excess of term it, at about \$2,500,000.

The forty-fourth Legislature, which opened four new boards or commissions, the Public Safety Commission, State Planning Board and Liquor Control Board, none of which could gain offices in the Capitol, due crowded conditions.

The comptroller's survey consists of 300 pages, with a break-down on all receipts and expenditures, besides carrying tax collections from all of the counties, along with assessments. While it is the only source available to students of state government costs, the comptroller's department says there is little demand for the book. No candidate for State office so far has sent in for one. It is far from a "best seller" in spite of its revelations.

LIGHTNING STRUCK PARSONAGE

The Methodist parsonage at Jones chapel in the western edge of Lamb county, and occupied by Rev. F. R. Pickens, pastor of the Muleshoe circuit, was struck by lightning last Sunday afternoon while the occupants were attending a singing at the nearby church.

Some folks passing by saw the flash broke open a door to the building, set out the fire which had driven some window curtains, shades paper nearby.

The damage was covered by insurance, according to Rev. F. R. Pickens.

Be proud of your home town.

LOCALS

- John Wood, Amherst attorney, was here last Friday on legal business.

- Editor R. B. Boyle, of Brady, was in Muleshoe Friday of last week. He was

BAILEY CO. HOME DEMONSTRATION CLUB NEWS

By MISS ALMA STEWART
Bailey County

Remodels Clothes Closet
"One of the first things I did to remodel my clothes closet was to add shelves for holding underwear and hosiery," said Mrs. L. L. Daniel, clothing demonstrator of Joyland home demonstration club. She added, "In selecting the paint I chose a light color because moths do not like light places. I made shelves and last racks, which they will help to protect clothing. I put in a more substantial rod for clothes hangers."

Wraps Blankets for Storage
"I feel that improving my storage space has meant more to me than any other part of my clothing work," said Mrs. J. S. Williams, clothing demonstrator of the West Camp home demonstration club. She added, "My husband has moved the walls between our bed rooms and built two new clothes closets, which are under proof. We used drawers from an old dresser in one end of each closet instead of building shelves. I was so proud of these closets that I am improving an old closet I had so that gives me more improved clothes. I put a rod for hanging clothes in each closet with a shelf above for the hats, made hat and shoe racks, painted the inside walls with left over paper from the rooms and painted all the woodwork white to keep the moths away. I plan to wash and wrap my wool blankets in newspapers and seal them with gummed paper to store them through the summer. The printer's ink in the newspapers will help keep the moths away."

Husband Builds New Closet
"I feel like Miss Bees Edwards' address at Canyon was the cause of our new clothes closet. She paid the men who helped improve the home such a compliment, my husband felt he had not done enough to improve our place when he put a 20 Chinese elm tree, so he built me a clothes closet," said Mrs. W. H. Gason, cooperorator of the Progress home demonstration club. Mrs. Gason used scrap lumber for the sides and panel board for the door. He spent 28¢ for molding, 15¢ for hinges, and screws and 5¢ for nails, making a total of 48 cents for the closet. He used part of the steering rod of a model T Ford car for the rod to hang clothes on. The rod is bolted in to make it more substantial. The

closet is 24x32x68. Mrs. Gason had enough left over paint for the inside. She will paint it white. They will make shoe racks, left over ceiling paper to paper the walls of my clothes closet before papering them," said Mrs. Iris Holloway, clothing demonstrator. Mrs. Holloway wants to use the oil cloth to keep sand out. They had to buy 35 cents worth of lumber for the floor frame and that is all the closet will cost her. The door is made of heavy cardboard and is varnished. This closet has a window in it, and will be too light for moths to stay in.

Has New Clothes Closet
"My new clothes closet is 31 inches deep, four feet wide, and eight feet high," said Mrs. S. L. Williams, cooperorator of the Joyland club. The rod for hangers is made of a brown handle and is four feet long. The space above this rod will be used for cover. She will build shelves in one end, and make hat and shoe racks. She has canvas left over ceiling paper to paper the inside, which will make the closet lighter and help keep the moths away."

Husband Builds Clothes Closet
"I was so proud of my new clothes closet, my husband built. Our house is small and the closet answers the purpose of another room," said Mrs. Albert Simmons, cooperorator of the Joyland club. This closet is six feet long, 31 inches wide and goes to the ceiling. They used scrap boards for the frame and pasteboard boxes for the walls. The cost of the entire closet was about 30 cents. The only expense was for hinges and a door knob Mrs. Simmons is putting canvas on the walls and then papering them to protect her clothes from the sand and to make the closet lighter to keep the moths away."

Uses Square Tile Form
"One sack of cement will make 75 feet of square tile," said Mrs. Albert Simmons, cooperorator of the Joyland home demonstration club. Her husband made 300 feet of tile and the cost was 1-1/2 cents per foot. He used four parts of sand to one part of cement and half as much water as cement for making the tile.

Sub-irrigated Potatoes Larger
"Our potatoes that were sub-irrigated were twice as big as a neighbor's that were surface irrigated," said Mrs. J. A. Johnson, cooperorator of the Goodland home demonstration club. "We planted our potatoes the same day and planted the same variety. The sub-irrigated ones have a much darker color, she said. Mr. and Mrs. Johnson have nearly all of their garden sub-irrigated."

Trials and Temptations
Every man deems that he has precisely the trials and temptations which are the hardest of all others for him to bear; but they are so, simply because they are the very ones he most needs.

Clock Smaller Than Dime
An eight-day clock smaller than a dime and more than 100 years old is one of the treasures of the Worshipful Company of Clockmakers in London.

GET READY FOR— WARM WEATHER!!

MULESHOE ELEVATOR CO.
TOM DAVIS, Manager

- accompanied on his return home by his wife, the former Mrs. Faye Elrod and her son, Carl. Mrs. Boyles, who has been a resident of Muleshoe for several years, will be missed by her many friends here, as she was very active in church and lodge circles here.
- Mrs. W. B. McAdams, Mrs. Gilbert Wollard and Leo Wollard were in Lubbock Saturday of last week where Leo received medical treatments at a sanitarium.
- J. B. Burkhead, accompanied by Mrs. Burkhead, returned home Tuesday from Casper, Wyoming, where he took the state pharmacist examination. They returned via Albuquerque, N. M., where he took a similar examination.
- M. A. Wiley, accompanied by Rev. R. E. Bricker, of Lakeview, was here Friday of last week obtaining signatures to a petition asking for parole for Wiley's son now in the state penitentiary.
- Rev. J. A. Barrington, of Portales, N. M., visited in Muleshoe, Saturday of last week with his sister, Mrs. Cecil H. Tate, and other friends. He preached the funeral service at the local Baptist church for M. A. Goodson.
- Mr. and Mrs. Ivan Mardis and son, of Lubbock, visited in Muleshoe, Sunday with their parents, Mr. and Mrs. C. G. Mardis and Mr. and Mrs. E. Morris ar, and other relatives and friends.
- Mr. and Mrs. Harold Griffiths, of Bledsoe, have been here for the past few days where he is assisting with invoicing at the E. R. Hart Co., and she has been visiting her parents, Mr. and Mrs. W. A. Stevens.
- Mr. and Mrs. P. E. Wilmon returned home to Muleshoe Friday of last week from an extended trip to Sulphur Springs and and various other East Texas points. While gone they visited in Fort Worth with their daughter, Mrs. Odell Cates.
- Jason Gordon, Parmer county farm agent of Farwell, attended the church service in Muleshoe, Sunday morning at the Baptist church. He is a nephew to Dean J. M. Gordon, of Trebb, Lubbock, who preached here at this particular service.
- Dr. and Mrs. Richard W. Lewis, after visiting in Muleshoe for a few days with his sister, Mrs. R. L. Faulkner, and other relatives, left Monday for their home at Sileam Springs, Ark. He filled the pulpit at the Methodist church here Sunday night.
- Mrs. Alice Davenport, wife of G. H. Davenport, Baileyboro, was last Friday morning adjudged insane by a jury in County court and ordered sent to the psychopathic institute at Wickliffe Falls. This is the fourth time she has been sent to an asylum for mental incompetence. Friday she was taken to the asylum by Sheriff Jim Cook, accompanied by W. E. Renfrow and Geo. Bundrick.

Says Song Strengthens International Harmony

DEN BERNIE

's Horses' Hailed As Link of Nations

York City.—If only an anvil hurly and write a characteristically Yankee 'g's Horses' is characteristically British, there will be no worry about harmony be- least two nations of the

is the conviction of Ben famous orchestra leader, rendition of "King's both on the record and on, has proved one of the the Manhattan section a "natural," as it is called away.

spent some time in Lon- an attraction of the Kit and it is due to his re- of England's great in- is able to make a "English song intelligible

and interesting to America. The song, incidentally, is written in American fox trot tempo.

"What the world needs is fewer long-winded diplomatic notes and more exchange of the lively arts," Bernie declares.

"People who are singing each other's songs, understanding each other's jokes and laughing when the other fellow pokes gentle fun have little to fear in the way of international disagreements.

"Nations, after all, are made up of individuals, and therefore, when nations quarrel, it means simply that individuals in the mass have found themselves unable to agree.

Safety First

SAFETY first should be the rule this year when there has been so much home canning. Don't take any risks. It is impracticable and dangerous to attempt can non-acid vegetables at home without a pressure cooker, and unsafe to eat non-acid vegetables that have been so canned.

readily available at small cost. The Department does not recommend any particular make, although it is important that the pressure kettle be equipped with thermometer and pressure gauge for proper control.

"In there is now no excuse for continuing to take risks involved in canning non-acid foods without adequate pressure cookers.

"All recommendations of this Department will hereafter make this clear and emphatic."

In further support of this timely warning, the United States Department of Agriculture Farmers' Bulletin No. 1471 (revised June, 1935) entitled "Canning Fruits and Vegetables at Home" contains the following statement:

"Process all these vegetables in the pressure canner. If no pressure canner is available, it is recommended that the method of preservation other than canning be used."

Cookers Cost Little "Pressure cookers are now standard equipment and are

Wait Long for Cremation It is not unusual for a Dutch family to sell all its property to defray the cost of cremation of the father. A poor family will scripe and save for years to provide funds for the cremational cremation of a member. Meanwhile, a corpse often reposes in a village graveyard for years, waiting the accumulation of the necessary funds. Expense of cremation is sometimes reduced to a minimum by co-operative or mass cremations, at which 50 or 100 bodies are burned in one grand ceremony, and the expense divided per rata.

First Sewing Machine The first sewing machine was made in 1790 and named Thomas

V JARVIS HEADS W T. CHAMBER TO BROWNWOOD

Senator Small Says Taxes To Be Higher In The State.

Van Zant Jarvis, mayor of Fort Worth, banker and cattleman, was elected president of West Texas Chamber of Commerce at its annual meeting held at Amarillo last week.

E. M. Caldwell, Abilene, prominent regional worker in the organization and former first vice-president, refused to be elevated to the presidency.

Milburn McCarty, Eastland lawyer, was named first vice-president; H. S. Hibburn, Plainview newspaper editor, second vice-president; C. M. Francis, Stamford, re-elected treasurer, and D. A. Abden, Stamford, re-elected general manager of the organization.

On a three to one vote, Brownwood was chosen as the next place of meeting, over Wichita Falls, the only other applicant for the next annual meeting.

During the session, State Senator Clint Small took a nap at candidates for office who promise to lower taxes on everyone when they know it is now impossible, criticized efforts, being launched for a big increase in the tax on Texas natural resources, saying this course would be destructive, and declared a type of selective sales tax is the only way possible to pay the bill for old-age pensions, along with a slight increase on natural resources, utilities and insurance. He strongly opposed increasing the gasoline tax and declared the public has been interested only in keeping down the gasoline tax, letting the others go, although every tax levied finally comes out of everyone's pocket.

"The conduct of the West Texas Chamber of Commerce is an example which all government branches should adopt," he said. "This tax problem has provoked more prevarication than any other subject, and always in running for office I have told the plain, unvarnished truth regarding taxes.

"In the past I warned you that certain politicians would promise to take off your taxes, and this prophecy holds good today. The expansion of government makes it impossible to take off all taxes. The tax bill is going to be higher the next two years than ever before.

"The Legislature can best serve the people by making all of us pay a proportionate share, but the ad valorem tax on property can not be raised, for already it has reached the point of confiscation, when all the property taxes are considered as a whole."

Under the second part of soil building practices some crops plowed under for green manure. The crops and rates are: soybeans, velvet beans, cowpeas, croutalaria, beggar weed and other locally adapted summer legumes—rate \$1.50 per acre if grown on land in 1936 and vines or stalks left on land and seed not harvested for oil mill crushing, or \$2 per acre if plowed under

green; crimson clover, bur clover, Austrian winter peas, vetch and other locally adapted winter legumes—rate \$1.50 per acre when turned under; rye, oat, barley, Italian ryegrass, wheat, or mixture of these—rate \$1 per acre when turned under as green manure after reasonable growth, provided that such crops have not gone to the dough stage.

Any sorghum, Sudan grass, wheat or millet seeded, solid or broadcast, by Texas farmers will bring them a rate of \$1 per acre when seeded between January 1, 1936 and October 31, 1936; the crop left on the land or plowed under.

One other group of soil building practices pertain to the establishment of pastures or perennial grasses or grass and legume mixtures will pay a rate of \$2 per acre.

The planting of forest trees will pay a rate of \$5 per acre if planted on crop land between September 1, 1936, and October 31, 1936.

In case of terracing, the government will pay the farmer 40c per hundred feet of completed terrace not to exceed \$2 per acre. The terraces must be constructed according to methods recommended by the State Conservation Board and the Texas Extension Service. Proof must be shown to the county soil conservation and allotment board that the terraces have

U. S. Navy Accepts Lincoln-Zephyr as Official Car As Ford Exposition at Centennial Nears Completion

United States Navy Representatives at Texas Centennial have accepted delivery of a Lincoln-Zephyr as their official car for parades and state occasions in which the Navy will participate during the Exposition. Left to right: Lt. (JG) C. I. Kethley, U.S.N., disbursing officer for the Navy from the Centennial; Commander J. M. Lewis, U.S.N., Navy representative at the Exposition; M. T. Runyon, Lincoln Service representative, Dallas Branch of Ford Motor Company; and 2nd Lt. J. C. McHarty, United States Marine Corps, personal aide to Commander Lewis.

RATES ARE SET ON SOIL BUILDING PRACTICES BY GOVERNMENT AS TO AMOUNTS PAID FOR COMPLIANCE

"Soil building practices, rates and conditions of payments have been officially stamped by the Soil Conservation Administrator in Washington, D. C., and announcement of same is given out by officials at College Station, as follows:

Soil building practices have been divided into three parts: seeding, crops plowed under for green manure, and establishment of pastures, forests and terraces.

Payments for soil building practices will be made to the producer who incurs the expense of the soil building practice consists first of seeding alfalfa, sericea, and kudzu—rate of payment from the government will be \$2 per acre when seeded on crop land between January 1, 1936 and October 31, 1936; seeding red clover, mammoth clover, sweet clover, and annual lespedeza—rate \$1.50 per acre; seeding alsike, white, bur, and crimson clover, Austrian winter peas, vetch and other locally adapted legumes—rate \$1 per acre

Under the second part of soil building practices some crops plowed under for green manure. The crops and rates are: soybeans, velvet beans, cowpeas, croutalaria, beggar weed and other locally adapted summer legumes—rate \$1.50 per acre if grown on land in 1936 and vines or stalks left on land and seed not harvested for oil mill crushing, or \$2 per acre if plowed under

The planting of forest trees will pay a rate of \$5 per acre if planted on crop land between September 1, 1936, and October 31, 1936.

In case of terracing, the government will pay the farmer 40c per hundred feet of completed terrace not to exceed \$2 per acre. The terraces must be constructed according to methods recommended by the State Conservation Board and the Texas Extension Service. Proof must be shown to the county soil conservation and allotment board that the terraces have

been kept up as specified in the application for a grant.

MULESHOE H. D. CLUB

"Texas Under Six Flags" was the subject of the program of the Muleshoe Home Demonstration club, which met at the home of Mrs. Wm. McAdams, Thursday, May 14. The program being of an educational nature, dealt with Texas from the time of its earliest explorations, until the present day.

Discussions regarding important Texas men were given by members of the club. Illustrations of flags and flowers were shown.

The quilt block for the council quilt made by Mrs. C. C. Mardis, was displayed.

Those present were: Mesames R. L. Hobbs, A. L. Hobbs, W. H. Kistler, A. C. Gaede, C. M. Hurst, W. H. Awtry, E. L. Kimbrough, Hertha Walker, O. H. Buzard, C. F. Mueller, C. C. Mardis, C. H. Horsley, V. Snyder, A. C. Gaede, R. C. Gaede, Wm. McAdams, Francis Gaede, John Gaede and Mrs. Dudley Buzard.—Reporter

Longest Town in America The series of towns of Crosskeys, LaPence and Shorter generally referred to as Shorter, Ala., constitutes the longest town in America. It is 500 yards wide and 15 miles long.

Horn on Its Nose A curious animal that ranged the Texas region in ancient times had a long pronged horn on its nose, resembling a boy's sling shot.

A GIFT

from the Indians

WE ARE indebted to the Indians for many things. One of the chief of these is corn. For hundreds, perhaps thousands of years before Columbus took the grains of corn which were used in cultivation all over the world, the Indians had cultivated and eaten this important food.

Just as we prize corn most highly, so did the Indians. Each year the six Indian tribes of the Brownie Forest celebrated the Green-Corn Festival—four days of feast and thanksgiving to the Great Spirit who had given them corn.

To Show Our Gratitude

Housewives, today, carry on the festival, in a different way, however. Probably four days each week they serve corn in one way or another—roasting ears, corn puddings, corn salads, corn muffins, or in some other delightful form. Canners have varied the styles of canning corn in order to suit the tastes and convenience of housewives.

For example, when corn was first canned it was almost all "cream style"—the rich creamy mixture which is especially fine for making cream soup, souffles, corn puddings and chowders. In recent years, however, in order to meet the demand for new ways to serve corn, the "whole kernel" corn became available in cans. This corn is picked at "roasting ear" maturity and the entire kernel is cut off and remains separate when in the can. It is particularly suited for soups, corn cakes, scalloped dishes, for stuffing peppers, for fritters, or for use in casseroles or dressing for fowl. In 1934 one-fifth of the total pack of white corn was in this style."

The Cause Did Not Fail During the Civil war, Oliver Perry Morton, governor of Indiana, wrote to Secretary of War Stanton: "If the cause fails, you and I will be covered with proscriptions and probably imprisoned or driven from the country." Stanton replied: "If the cause fails, I do not wish to live."

Direct, Alternating Current

The difference between alternating and direct current is virtually explained in their names. In a direct current system the current flows continuously in the same direction, and the pressure, or voltage, also is constantly in the same direction. This is useful where demand is concentrated. In an alternating current circuit, the current, and thus the pressure, reverses periodically. Thus, it can be raised in voltage by stationary apparatus—transformers—for transmission to a distance, and can be lowered in voltage for use. It is more flexible in application.

Berlin In History The first mention of the name Berlin in recorded history dates in the year 1244.
