Adult education classes will begin at Cross Plains schools on Monday, Sept. 9, beginning at 6 p.m.

Arthur Boyle, local elementary principal, stated that any adult with less than a high school diploma, is invited to enroll in these classes. "We had a successful program last year," Boyle said, "with about 27 persons participating." He added that we hope to have that many again this year, with some who attended last year returning.

Areas to be offered this year will be in science, math, English and possibly social studies. Classes will be held one night weekly, Monday, from 6 to 9 p.m.

Boyle said persons wishing to enroll in the adult classes should contact him, Scot Edington or Mrs. Clara Nell Spencer or simply attend the opening night session. During school hours those persons may be contacted at the local school or telephone 725-6123 or 725-6121.

School Enrollment Up Since Opening

Although still below expectations and desires, students enrollment at Cross Plains schools climbed slowly last week.

On Monday a total of 428 students were attending classes in the kindergarten and 12 other grades at the local school. That figure is 20 more than were present on opening day, a week earlier. It is still seven below the number which was enrolled on opening day for the 1973-74 term. It is, however, four more than were enrolled at the closing of last term, when 424 pupils were on rolls.

Scot H. Edington, high school principal, reported that he had 164 students enrolled on Monday. The remaining were attending kindergarten or classes in one of the first eight grades.

The largest class in school is the freshman class with 53 members. Sophomores rate second with 44. Smallest class distinction is shared by the second and third grades with 22 members each.

Breakdown of the top four grades, as reported by Edington, is as follows: seniors 34, juniors 33, sophomores 44 and freshmen 53.

Arthur Boyle, elementary school principal, provided the following breakdown on enrollment in his section of the local school: kindergarten 24, first grade 31, second grade 22, third grade 22, fourth grade 23, fifth grade 33, sixth grade 34, seventh grade 35 and eighth grade 40.

It is expected that a few more students may report to classes this week.

Student Council Being Organized At C.P.H.S.

A student council is in the process of being organized at Cross Plains High School. Initial steps were taken Monday when 12 class representatives and four alternates were elected by classes to start the council organization.

Rolan Jones and Mrs. Dora Smith, faculty advisors, noted that purpose of the council is to promote better understanding among the student body, faculty and administration and school board. It will also give students a voice in operations and programs of the school. The council will also have projects of its own which will be drafted later.

Temporary council officers were elected by the dozen representatives. They are Tony Dimitri, president; Greg Turner, vice-president; Tammy Stroud, secretary; Sharon Dillard, treasurer, and Jimmy Crawford, parliamentarian.

Representatives by classes were reported as follows: Seniors named Randy Hunter, Dimitri, Miss Dillard and Teri Brown, alternate.

Juniors selected are Teri Dillard, Debbie Potter, Turner and Louann McConal, alternate. Sophomores chose Rusty Dimitri, Crawford, Miss Stroud and Dannes Dickson, alternate.

Freshmen representatives are Brad Waggoner, Roxie McConal, Cindy Bailey and Richard Taff, alternate.

In order to have true representation of the student body, no requirement other than a passing grade was imposed on being elected to the council. It was also pointed out that one representative each month from the seventh and eighth grades will be named to the council later.

The council will meet Monday after school to begin drafting a constitution and by-laws in the next few days representatives will decide upon which office they will seek, with two candidates for each position.

The candidates will campaign September 3-10 for the offices, and on the final day will make speeches to the student body in assembly. On September 11 high school students will vote on the candidates during the noon hour.

Countians Income Up; Retail Store Sales Rise

Callahan County proved to be a stronger market than most in the past year, according to a nationwide survey of business, just released.

Its relative strength was manifest in the rising level of family income in the area and in the amount of consumer spending in local retail stores.

The findings are contained in the new, copyrighted report, entitled "Survey of Buying Power," issued by Sales Management, a marketing publication.

It shows how much was earned and how much was spent in communities in all parts of the nation.

The amount of disposable cash that Callahan County families had left, after providing for their personal taxes, was above average.

Their net income in the year amounted to \$25,484,000, compared with the previous year's \$23,186,000.

Just what this net income was equivalent to, on a per-family basis, is indicated by the median in many sections of the country.

With their biggest incomes, local residents had more money than usual left for discretionary spending, despite the effect of inflation, which cut into the purchasing power of people all over the country.

Not everyone was in a spending mood, however. Some were hesitant and cautious, preferring to hold back until the problems of inflation, energy, shortage and the like simmered down.

Most consumers, on the other hand, had a different outlook than that and were less constrained in their spending. Their attitude was that inflation was not going to subsidize for a long time to come and that it was better to buy new rather than wait until later when prices would be still higher.

The net result was that retail sales in Callahan County reached a grand total of \$14,527,000, as against the prior year's \$10,938,000.

Preliminary figures for this year indicate that the sales slump that was feared has failed to materialize thus far. Consumers, who contribute 60 percent to the gross national product have not gone into hiding. Neither have they gone all out in their spending.

Enrichment Program Slated For Schools

Cross Plains schools are planning to put into effect classes for students which is called An Enrichment Program.

Needed are the adults of the community to be willing to share information and knowledge of skills and talents they possess.

This has been a great program in other communities. Its success depends on adult involvement. The classes are tentatively set for Wednesday and Thursday of each week from 3:45 p.m. to 5:15 p.m. If you have skills such as art, needlecraft, handicraft, carpentry, music, journalism, speech, first aid or any other talent, please contact Frank E. Rundell, superintendent of schools 725-6121.

It is pointed out that formal education is not required in this endeavor, only possession of a talent.

Vet To Give Dogs Shots Here Tuesday

It has been announced that Dr. Ray Martin, veterinarian from Coleman, will be at the Agriculture Building on Cross Plains school campus Tuesday, Sept. 3, to vaccinate dogs. He will be here from 3 to 5 p.m.

It was noted that the veterinarian performed this service for the convenience of local canine owners last year.

A local spokesman for Dr. Martin indicated that the exact cost of the shots was not immediately learned here, however, it is expected to approximate \$3.50 per animal per shot.

BOB BULLOCK THANKS LOCAL PEOPLE FOR VOTE

Bob Bullock, Democratic nominee for State Comptroller, was in Cross Plains last week to say "thank you" to the voters of Callahan County who gave him a 77.5 per cent majority in the May primary.

MRS. LAWRENCE LEE IS HOME, DOING NICELY

Mrs. Lawrence Lee of Pioneer returned to her home about two weeks ago following major surgery and convalescence in John Sealy Hospital in Galveston. She is reported to be doing real well, however, she will have to make at least two more trips to Galveston for check-ups by her doctor.

Mrs. H. F. Jackson of Giddings, Mrs. Lee's mother, spent a week in the Pioneer home after Mrs. Lee's return. Mrs. Jackson left last Saturday to be with a niece who underwent surgery last Monday.

Rain Shower Monday Nets Only .05 Inch

A light rain shower Monday afternoon yielded only .05 of an inch of rain here, according to the official weather gauge. Light sprinkles also fell in other parts of this section of Texas.

The .05 of an inch brings to 2.97 inches received in Cross Plains in August. Aggregate for the year stood at 12.12 inches at mid-morning Tuesday.

A trace of rain fell here Tuesday morning.

Additional moisture is needed in the near future by crops and pastures. Some stock tanks are still reported to be low in spite of the rains received here first part of this month.

MRS. JOHN PRUET IS IN DALLAS HOSPITAL

Local Nursing Home Receives Praise

Following is letter received by the Review from Pauline Graham of Abilene praising the Colonial Oaks Nursing Home in Cross Plains. She entitled the article "A Tribute to Colonial Oaks Rest Home". It follows:

"This home is owned and operated by Col. and Mrs. Ray Lee, and is situated in the northeast part of Cross Plains.

"My brother-in-law was in the rest home recently and passed away there. He was very ill and received the best of care from the staff of nurses and other help.

"Since this home is located in a quiet place among trees, this creates a homey atmosphere, and the people who reside there seem content and happy.

Mr. and Mrs. Lee are to be highly commended for the personal interest and care given these people."

LAKEWOOD POOL OPEN ONLY 3 MORE DAYS

Mrs. Eunice Pointer of the Lakewood Recreation Center reminds the public that there are only three more days in which the swimming pool will be open this season. They are Saturday, Aug. 31, from 2 to 7 p.m., Sunday, Sept. 1, from 2 to 6 p.m., and Monday, Sept. 2, from 2 to 7 p.m.

Mrs. Pointer added that "she had enjoyed being the life-guard very much" and looks forward to seeing you these last three days.

Mr. and Mrs. R. E. "Hick" Edington of this city visited last week in Rotan with their daughter, Mr. and Mrs. James Branch, then went on to Lubbock where they visited their other daughter, Terry, at Texas Tech.

HINTS FOR ADVERTISERS

When you next call The Review, 725-3571, to place a classified ad, remember that words are your business. Words properly put together in an ad mean more phone calls and more sales for you. Follow the rules below and get more and faster results.

- Put in the address**
Many out-of-town readers will write you, but will not spend money for a long distance call.
- Put in the phone number**
Many readers will call you but will not find it convenient to come to your home or business.
- Avoid use of blind boxes**
Avoid them if possible. They are difficult to answer and people prefer to deal directly.
- Put in the price, by all means**
Surveys show that many people will not answer an ad unless the price is given.
- Keep the readers from guessing**
On important details it is better to include them if they are relevant to a sale.
- Be available**
If you advertise your phone and address, be sure you are not absent when the ad appears so as to accommodate the reader.

Words are your tools in advertising. Competent sales help is available to assist you in writing the proper ad.

Reddy's consumer tips on ... lighting

Edison's light bulb has come a long way since it first lit up the night in 1879; today, lighting is such a natural part of our lives we hardly give it a thought. But the fact is, the more choice we have in how we can use light, the more attention we should pay to how we buy and use light bulbs and lighting fixtures. Put a little more light in your life by following Reddy's money-saving, energy-conserving lighting tips:

CARE FOR LIGHTING EQUIPMENT

Dust and dirt alone cause substantial losses in the amount of light produced. Systematic cleaning is important. Clean lamp bulbs (when they are cool) with a damp cloth.

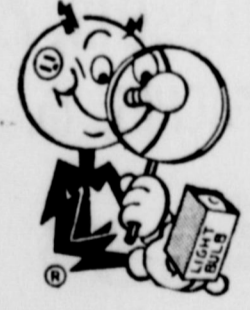

LESS IS MORE

Generally, you'll get more light for your money if you use the least amount of bulbs that give the light you need. For instance, one 100-watt bulb gives more light than three 40-watt bulbs—and costs about one-third less to buy and replace.

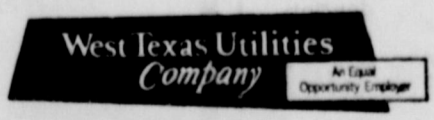

READ THE LABEL

Speaking of "lumens," you'll find that all light bulbs have three ratings on their packaging. Lumens tell you what the light output or performance of the bulb is. "Watts" tell you how much electricity is needed to produce that light, and "bulb life" is the estimated length of time it will take the filament inside the bulb to burn out. When brightness is more important than bulb life—for reading, studying or working—choose the "standard" life bulb that gives you the most lumens for its wattage.

Remember, Reddy supplies the energy, but only you can use it wisely!

Economic Boost Could Come From Oil And Gas

Editor's Note: following is a release from Texas Mid-Continent Oil & Gas Association in Dallas. It projects higher income for Callahan County land and royalty owners with gas or oil on lands at higher prices for those new petroleum products are allowed to stand. The article follows.

Current higher prices for crude oil and natural gas produced in Callahan County point to a significant jump in 1974 income for county land and royalty owners who last year received \$384,706 as their share of the county's output, according to a study by Texas Mid-Continent Oil & Gas Association.

"With the average price of Texas crude oil at about \$6.70 a barrel, compared with the 1973 average of \$3.85 a barrel, and with some newly discovered natural gas selling intrastate for more than \$1 per thousand cubic feet, the outlook for the economy of producing communities is encouraging if prices hold up," according to Sherman Hunt, Dallas, association president.

"Should price rollback schemes and other tax-and-control proposals now under way in Congress be successful, current economic gains will evaporate," Hunt said.

The association's study shows that crude oil and natural gas produced last year in Callahan County was valued at \$3.1 million, ranking the county 143rd in the state. Crude oil production of 730,913 barrels was valued at \$2.8 million and 1.4 billion cubic feet of natural gas at \$270,841.

Statewide, crude oil prices for 1974 are estimated to be some 74 per cent higher than 1973. This expectation has stimulated a revival of drilling in Texas, with well completions the first five months of 1974, a 19 per cent jump over the same 1973 period.

From the county's 1973 output, the State of Texas collected \$129,108 in oil production

Rule On Segregation 3 Peanuts Revealed

Following is a release from the Callahan County ASCS office in Baird on segregation 3 peanuts.

"If the federal-state inspector finds on the first inspection that a lot of peanuts contains visible Aspergillus Flavus mold, the producer shall turn them over to the association to be sold, or sell to someone with a peanut marketing agreement, or have them cleaned for re-inspection by the close of business on the next day. If they are cleaned, a MQ-94 will be issued the producer which must be presented prior to any re-inspection. If after the second inspection they contain mold, they must be offered for sale at that location. Failure to handle peanuts as stated above will cause all subsequent 1974-crop peanuts to be ineligible for price support."

taxes and \$20,321 from natural gas.

Also adding to the dollar flow in the county last year were these factors:—Drilling activities, on which producers spent \$1.7 million in drilling 88 wells, \$892,446 of which was lost in 58 dry holes. Successful completions amounted to 30 oil wells. Payrolls, which amounted to \$425,404 paid to 97 workers, according to Texas Employment Commission figures. Intellectual Buck Passing

Recently the chairman of the President's Council of Economic Advisers stated that consumers, or the public, is to blame for the rate of inflation.

"This perhaps reaches the zenith of sophistry by what Governor George Wallace has referred to as 'pointy-headed intellectuals.'"

The plain facts are that government spending, at home, and all over the world, has created the current inflation.

A team of experts who formed a task force for Governor Ronald Reagan found that taxes are now taking 41 per cent of income. And it stands to reason that when that much production is taken out of any economy, either that economy fails, is beset by inflation, or both.

The nation's independent business people, voting through the National Federation of Independent Business, have called for an end of foreign give aways, to a greatly reduced Federal establishment.

Of course, any time there is a drive to cut government spending, entrenched bureaucracy opens up with the big guns claiming that the cuts will come in welfare and that the poor folks will suffer.

But Congressman Steve Symms of Idaho recently inquired: "There ain't any more tax money."

Higher Costs Are Facing College Bound Students

Callahan County's college-bound students and their parents are in a bad squeeze this year.

They are caught between a further rise in college fees, a tight money market that makes it difficult to get bank loans at normal rates and a continuation of the inflation that has raised living costs to record levels.

And, for those local families that have two youngsters going to college at the same time, the financial situation is that much more difficult.

A nationwide survey of 2,200 colleges and universities conducted by the College Entrance Examination Board, shows that nearly all of them have increased their charges for the forthcoming semester.

As a result, it has become 9.4 per cent more expensive, on average, than it was last year to go to college and nearly 36 per cent more so than in 1970.

The bill that Callahan County families are faced with this year, based upon the number of local students involved, is estimated at \$805,000. This includes tuition, fees, transportation, room and board and miscellaneous expenses.

It takes into account the current cost increases, which are in the neighborhood of \$346 for students living on campus at private four-year colleges, according to the findings, and a somewhat smaller boost, \$158, for those going to public institutions.

Because of current conditions, colleges that had more applicants than they could handle in former years are now confronted with sagging enrollments. Many of them are in the position of having to actively recruit students and are easing

their standards in the process. Based upon the latest figures, it is estimated that there will be about 250 young men and women in the Callahan County contingent this year.

For those who will be residents at private four-year colleges, the average cost will be \$4,039, according to the report. At publicly-supported institutions, it will run to about \$2,400.

The total cost of \$805,000 confronting local parents assumes that half of the students will be attending public colleges and the rest will be going to private ones.

Placing Of Foreign Students Sought Here

If a family in the Cross Plains area is willing there may possibly be one or more foreign exchange students attending Cross Plains schools.

Scot Edington, high school principal, received a call last week from Susan Ogden representing International Fellowship of Buffalo, N. Y., which deals with placing of foreign exchange students in schools in the United States.

Edington was informed that families are currently being sought who would keep the students for periods of either three, six or nine months. It was also noted that students of almost any age or sex can be placed. Most of the students are from Colombia and Peru, South America. It was also noted by the New York fellowship that the prospective students are screened closely and must adhere to strict rules. Edington said he was informed that the foreign students will have spending money and clothes, but should be housed, fed and supervised. It was also pointed out that an income tax deduction of \$50 per month may be taken by the host family.

Local families interested should contact Edington
