REV. AND MRS. KNOX WAGGONER

Rev. Knox Waggoner Announces Retirement from Cottonwood Baptist Church

An era in the history of Callahan County Baptist ministry will come to a close on July 6, 1997, as the effective date of the retirement of Rev. Knox Waggoner and his wife Wenona arrives. Rev. Waggoner has announced his resignation as pastor of the Cottonwood Baptist Church as of Sunday morning's service.

This will finalize what is believed to be the longest continuous pastorate in the history of the Callahan Baptist Association; having served at the church in Cottonwood for almost 26

Cottonwood is located between the communities of Admiral and Cross Plains in the southeast corner of Callahan County. The sleepy little community was once the "hub" of activity in this area with some fifteen or so businesses, including two banks and a small college. Now all that remains is the Cottonwood Baptist Church, Church of Christ and the new kid on the block — the Cottonwood Volunteer Fire Control.

Completing 42 years as a pastor, Rev. Waggoner has served 40 years in Callahan County. He first became a pastor at Denton Valley Baptist Church where he ministered for 13 years. Between the two long Callahan County pastorates, he pastored at Westside Baptist Church in Abilene.

Rev. Waggoner has served as the moderator/missionary for the Callahan Baptist Association for a total of 6 years, as well as other positions in the associational structure. Currently he is on the board of trustees for both the Callahan Baptist Association and the Big Country Baptist Assembly at Lueders. His service includes 6 years on the Executive Board of the Baptist General Convention of Texas. He has been appointed to various committees while on the executive board.

He has also been active in local civic groups such as Kiwanis Club, Athletic Boosters Club, Community Parks boards and several youth activities. It is expected that he will continue to participate in these organizations while learning to become a "working member" of some local

congregation.

Rev. Waggoner estimates that during his ministry he has conducted some 300 weddings and 350 funerals. While at Cottonwood, he has delivered approximately 4,000 messages; which probably includes several times each for some. (There are at least two ladies at the church who keep tabs on such things, he says.)

"This has been a beautiful and enjoyable journey, and this decision has been the most difficult one we have been called upon to make during our entire lives," Rev. Waggoner commented. "We will miss the fellowship with all our people and those of the community more than anything else. We have so many dear friends in the community of Cross Plains, also."

Rev. and Mrs. Waggoner have one son, Lynn "Butch" Waggoner and wife Sharon of China Spring. They have three grandchildren, Brian Waggoner and wife Dee Dee of Clyde, Bradley Waggoner who is attending Texas Tech Medical School in El Paso, and Brooke Waggoner who will be a sophomore at Texas Tech University in Lubbock.

When asked to point out the highlight of his ministry at Cottonwood, Rev. Waggoner was quick to note the increase in giving to mission causes and the great missionary spirit of the small country church that has been a viable force in the 1800's, 1900's and now ready to enter the 2000's. The church is 116 years old and still stands as a lighthouse to the world around her. The church was organized 10 years before Simmons College (now Hardin-Simmons University) became a reality.

He relates the most exciting time at Cottonwood was May 29, 1994, when the tornado trapped he and Mrs. Waggoner in the basement of the church, forcing them to "ride out" the storm for some twenty-five minutes. He recalls that probably no time in his

life has he been any closer to the Lord. Rev. Waggoner will still be available for pulpit supply, weddings, funerals and of course, visits and contacts from their friends.

Library Renovation Complete

By JOAN M. MCCOWEN

Today at 2 p.m. the Library is celebrating its new look with an Open House. All are welcome to drop in and meet the librarian, Cherry Shults, and enjoy the refreshments and admire the revitalized library.

All credit goes to the volunteers who made this undertaking possible in just two weeks. Members of the National Honor Society who moved the heavy stuff were Matt McGowen, Sam Nixon, Nathaniel Swift, Jolena Fleming, Mindy Mitchell and Claren Sliger. Others volunteers who removed the books from the shelves and replaced them a "Caring Community."

after the painting was done were Babs Sherrell, Connie Swift, Barbara Sowell, Polly Lawson, Era Lee Hanke, Melanie Chessier, Janet Purvis, Judy Luter, Sandra Crockett, Carol Atchley and Cherry Shults. Also volunteering much of their time was Tim Curry, Fred and Tim Dill who painted walls and shelves and installed the new lighting and Dub Meador who installed the new carpeting.

With the new sidewalk project progressing, the many businesses sprucing up their store fronts, and now the renovated Library, this is indeed evidence that Cross Plains is

CITY COUNCIL MINUTES

June 3, 1997

This was a regular meeting of the Cross Plains City Council. Members present were Mayor Ray Purvis, Ray Womack, James Nichols, W.C. Pringle, Edwin Weiss, and Jerry Cassle.

Minutes of the last meeting were approved as read.

Robert Noreiga, WTU manager, met with the council to discuss the 2% franchise fee paid by WTU to the City that is due to expire in 1998. The council informed Mr. Noreiga that they would go over the franchise and if everything was in order, they would sign the agreement at the next meeting.

Mr. Noreiga also met with the

council to discuss the sidewalk project and proposed changing out the old light poles currently located within these three blocks with new concrete poles. The project would replace seven (7) poles at a cost of \$4,000 to the City. Also meeting with the council about the sidewalk project was Rolan Jones. He discussed putting conduit in the sidewalks so that at a later date water lines and electric lines could be put in to service the planters that will be built into the sidewalks. Cost of the project was discussed at length and was agreed that the Economic Development corporation would put in the conduit and then if it was decided later to put in the water and electrical lines it could be done at that time. Mr. Noreiga proposed to the city that if they would go ahead and sin the 2% franchise agreement he would deduct \$2,000 from the cost of the concrete electrical poles previously proposed.

W.C. Pringle moved to agree to accept the concrete pole project with the cost of \$11.45 per pole rate, and to okay purchase of the plates for the benches and also the horse rings. Jerry Cassle seconded and motion carried.

Mr. Noreiga spoke with the council briefly, stating that he would like to get more involved in the community. Jerry Cassle moved to pass the 2% franchise agreement proposed by West Texas Utilities. W.C. Pringle

Pill Splitting Problems

Not all pills can be split and not all should be split. Although it has been common practice for some people to split pills, there are some dangers in the practice. Capsules are simply containers for loose medication; when you split them the medication will spill out. Tablets with enteric coatings, (a coating used to slow the breakdown of the medication in your body) often used for over-the-counter pain relievers, shouldn't be split. Tablets designed as "time-released" medication also shouldn't be split. Ask your pharmacist if you have any questions.

Your better health is our concern.

Why did Jesus have to die? Was it because Judas loved money, had lost his sense of real values? That was part of it, but if it had not been Judas, someone else would have sold Jesus for a few pieces of silver. Sad, however, that it was one of His apostles. Would you or I have done it?

Was it because politicians were "doing their thing?" Being "politically correct" was more important to Pilate than taking a stand for right, for truth. Are you and more interested in pleasing the crowd than God -- more interested in being "politically correct" than spiritually correct?

Was it because of envy? The scribes and pharisees were green sick with envy when the common folk hung on every word Jesus uttered. It made no difference that He spoke with authority and as no other had ever. Do we find Jesus' message of salvation of utmost importance?

Jesus had to go to the cross to "take care of business" -- the Father's business! Whether our name is Judas, Pilate, Pharisee, Peter, Paul, Bob or whatever -- we "have all sinned and fallen short of God's glory," Romans 3:23, and "the wages of siri is death," Romans 6:23 -- and somebody had to die for them -- for US!

Corruptible things like thirty pieces of silver -- or any amount of silver or gold or animal sacrifices, or ones like Judas or Pilate -- or even "good" persons like Peter or Paul -- and certainly ones like you or me -- couldn't pay the price for sin, only the precious blood of Jesus, "as a lamb without spot or blemish," I Peter 1:18-

Why didn't those whom Jesus had healed, those who had hung on His every word, His teachings -- why didn they throng to Jerusalem that day and defend Him? Was it for the same reason that Peter denied Him, and that all the apostles forsook Him and fled? Why don't we better defend Him today? Will you join me in sharishing the old rugged cross more dearly? And the message of the cross, the message of

"City Sidewalks"

I expect you've noticed, as I have the unconstruction of Cross Plains downtown sidewalks and the restructuring of our new ones.

Aren't you thrilled? I'm so excited! One of the things I'm extremely proud of is the replacing of the rings for horse reins. It brings to mind our ancestors, our historical background and our heritage.

Following the Homecoming in October, I am told, we'll have even more new downtown sidewalks.

Independence Day, July 4, is coming up this week. Whatever you plans, whether it be boating, picnicking, swimming, barbecuing, traveling, outdoor sports, TVing and armchairing it at home, dancing, singing or any number of other pursuits, be aware of the fact that it is "American Independence Day." It is a time to celebrate our independence, to be proud to be an American, to be patriotic, to exhibit the flag, to honor you country; to recognize and celebrate your heritage.

There are a number of things going

on in the area. Here in Cross Plains on July 5, will be the Callahan County July Jubilee to be held at Treadway Park. I'm sure you've observed some of the publicity on this. So if you're in town or in or out of the county come by. This is in conjunction with the Old Settlers and awards will be given. The Callahan County TRIAD/Salt Council is initiating this celebration aided by Project Pride and other individuals and organizations are included. The TRIAD/Salt Council are working with local law officers to initiate a program to aid Senior Citizens in fighting crime and scams against the elderly and the disabled. SALT stands for "Seniors and Lawmen Together." We're all looking forward to good food, good fun, lotsa music, dancing and visiting along with a chance to swap stories, see old friends and meet new ones. So bring your neighbors, your friends and all your visitors and kin folks (aka relatives) and join in the July Jubilee!

Card Of Thanks

Thank you to our "Cross Plains Family." Never before have we had so many caring, loving people express concern, offer help, and consistently pray for us as we have recently experienced.

We greatly appreciate your cards, telephone calls, and faxes received while Todd was in the hospital.

Blessings to all those wonderful prayer chains and church groups who continually prayed for us - particularly during those days of dialysis.

The town of Cross Plains has truly gone out of their way to make us feel like family. We can hardly wait to

In appreciation of their dangerous work, The Texas Highway Patrol Association is in the process of building its Hall of Fame and Museum. The museum, which will honor the Highway Patrol's history and highlight its current activities, is scheduled to open in the spring of 1998. It will be located in the heart of San Antonio's tourism district at 611 South Presa Street, close to the Alamo, another monument commemorating Texas heroes. THPA is completing renovations to the site, and planning to unveil the museum at a Ribbon Cutting Ceremony next

"In every phase of the museum's development, it should function as a bridge between citizens and law enforcement," said Trooper IV Mark Lockridge, chairman of the project and member of the THPA Board of Directors. "I envision the museum educating citizens about the importance of respect for the safety of all

The museum's staff is presently creating the Hall of Honor, the museum's exhibit which will honor those officers killed while on duty. This section of the museum will be a monument to these officers; it will describe their lives and memorialize their deaths. The museum's other exhibits will feature how the highway patrol has incorporated technology into their work and describe the active role troopers play in their communities.

This museum will offer some of the old and some of the new. There'll be historic artifacts as well as the latest in technology," said Les Strawn, THPA board member.

If you are a relative of a highway patrol officer killed in the line of duty or if you have nay items related to the highway patrol you'd like to contribute to the museum, we want to hear from you. Please contact Cisco Mendoza, Texas Highway Patrol Association, 8906 Wall Street, Suite 402, Austin, Texas 78754 or by telephone at 800-245-8598, ext. 111. We want to ensure that we include you in planning our very important

Selegiline Helped Slow Alzheimer's Disease

HOUSTON-Taking Vitamin E or a Parkinson's drug called selegiline helped slow the progression of Alzheimer's disease in patients studied nationwide.

"These medications slowed deterioration by, at best, about seven months," said Dr. Rachelle Doody, clinical director of the Alzheimer's Disease Research Center at Baylor college of Medicine in Houston.

Baylor was one of 23 centers that participated in the two-year study funded by the National Institutes of Health. Study participants were divided into four groups that received either Vitamin E tablets, selegiline, a combination of both drugs, or a sugar-pill placebo.

"The drugs taken separately worked better than the combination," said, Doody, who is on the neurology staff at The Methodist Hospital. "The combination only slowed progression by about five months." To measure disease progression, researchers looked at four markers of deterioration -- institutionalization, progression to severe dementia, loss of ability to perform basic daily activities and death. Patient assessments were made every three months during the two-year period.

Doody says that while it is not clear why the medications work, researchers believe Vitamin E and selegiline help minimize oxidative damage of brain cells. "Oxidation stresses the brain cells and helps move the disease process along," Doody said.

Neither medication caused severe side effects. However, the Vitamin E dose was much higher than the level found in standard vitamins. Doody recommends that Alzheimer's patients and family members discuss the two options with a physician.

While Vitamin E and selegiline appear to be promising strategies for slowing Alzheimer's progression, Doody cautions that the public should not assume these drugs can prevent Alzheimer's.

"Further studies need to be done involving people at risk for developing Alzheimer's," she said. "Right now it is too early to generalize about how beneficial these drugs would be to the general public."

Doody feels that future solutions for Alzheimer's will not involve just one drug or therapy.

"After a few more years of studying risk factors and therapies, I believe we will end up individualizing treatment and even individualizing prevention strategies," she said.

Coach Boyd's Basketball Camp Set For July 14-18 in New Gym

The Fifth Annual Boyd's No Frills-Just Skills Basketball Camp will be held at the Cross Plains New Gym July 14-18. The Camp is for boys and girls who will be entering grades 4-9. If you have a younger child (below fourth grade) who you feel is ready for this camp please feel free to contact Coach Bill boyd. The cost of the camp is \$25. This includes a tshirt plus certificates.

This camp emphasizes offensive play and one-on-one skills. Coach Boyd feels it is essential to learn to break down and beat your opponent off of the dribble in today's fast pace game. These one-on-one skills will be heavily emphasized and taught step-by-step. Another camp objective is to teach the campers to shoot with proper form. The camp will also have numerous competitions with awards given in each competi-

The first session is for grades 4th, 5th; 6th and will last from 8:15 to 10:15. The second session is from 10:30 to 12:30. Parents are welcome to attend any session, especially Friday, the 18th when the awards will be presented.

Coach Boyd has a combined boys and girls varsity coaching record of 241 wins and 101 losses with numerous teams in the state playoffs. Last year the camp had 43 students. Coach Boyd and his staff hope to see you there.

Texans Smoking More Than Ever Before

Tobacco is one of the United States' deadliest killers. It is the only product, that when used directly as the manufacturer intends, causes mass addiction, disease and death. More Texans are smoking than ever before. The following facts testify to the dangers of tobacco use.

· Tobacco is the leading preventable cause of death in this country. It kills more Texans than alcohol, AIDS, heroin, auto accidents, suicides, handgun murders and fires combined. (Centers For Disease Control and Prevention, Office on Smoking and Health)

· Tobacco use in Texas has accounted for an estimated 26,427 deaths in 195. Texas Department of

FIRE ANT CONTROL TREATMENT F.A.C.T. (915) 529-3228

HOW DOES F. A. C. T. WORK? Our system in 100% environmentally safe, no chemicals or pesticides. Using the correct water

temperature (210-220 degrees) and low pressure applied directly to the mound, this application will kill the queen and render the nest incapable of reproduction. The QUEEN is the reason the mound is there. Killing the queen is our main objective. Most Fire ant mounds extend deep into the ground. The RE ANT CONTROL TREATMENT mound consists of various tunnels and chambers. The queen's chamber is generally located in the lower

ENVIRONMENTALLY SAFE egions of the mound. With this in mind, it is easy to see why most fire ant poisons never reach the queen's chamber. Once the queen is killed, the worker ants that did not get killed inhabit the mound until their life cycle is over, usually 4-6 weeks. If the queen was not killed, the worker ants will rebuild the mound within 2-3 days and a second treatment is required.

Our system of fire ant control is effective and is safe to use around children, and inlike pesticides will not harm pets, birds, or other wildlife. Our system is not narmful to underground water, lakes, and streams like current products used for Fire Ant Control. The best biological control of the Imported Fire Ant is to encourage the preconsistion of the mative species. Our system, F.A.C.1. does not attack these native species or other non-targeted organisims.
