VOLUME X. TEN PAGES IN TWO SECTIONS. CISCO, TEXAS, SUNDAY, JUNE 16, 1929. SECTION TWO. NUMBER 87

WRIT OF HABEAS CORPUS FILED FOR TOGO RAY

DEFENDANT IS ALLEGED OF UNSOUND MIND

Writ One of Most Unusual to Be Filed in District Court

Togo Ray, who has been in jail in Abilene awaiting decision of court of criminal appeals on his writ for a new trial on a robbery charge and who faces a five-year suspended sentence in Eastland county upon conviction of fatally shooting S. B. Houston in July, was taken to Eastland Thursday by Sheriff Virge Foster and by Sheriff Steele Hill, where a writ of habeas corpus was filed in behalf of Ray by M. E. Lawrence, his attorney.

The writ, which alleges that Ray is of unsound mind, is one of the most unusual ever filed in district court during the time which District Clerk Bill McDonald has been connected with the district court, he states. A part of the writ reads:

I, M. E. Lawrence, attorney for Togo Ray, who is in county jail in Eastland county, Texas, state to the court that I have good reason to believe that the said Togo Ray is of unsound mind, and that for the welfare of himself and others that he be confined in an institution for treatment.

Hearing Granted.

A hearing upon the writ has been granted for an unset date by Judge George L. Davenport of the 9th district court.

Ray was given 15 years when he was convicted in Abilene of robbing the Ovalo State bank in March, 1927. Aubrey Ray, cousin of Togo and companion in the Ovalo holdup, was arraigned in court in Abilene with Togo June 2, 1927. Aubrey accepted his 30-year sentence, but Togo, facing a 25-year prison term, appealed. The case was reversed and was tried here again February 4. Togo's defense attorneys put up a fight based on a "mental irresponsibility" plea, and notice of appeal followed the 15-year verdict at the second trial.

Togo was 19 years old when the shooting of S. B. Houston occurred. Only six months of the five-year suspended sentence remains. If the suspended sentence is revoked, the five years must be served.

Texas Has Nothing on Rest of World in New Marriage Law

With three days to think it over would Solomon have made his thousand mistakes?

Modern Texans who march to marriage license bureaus now and write down their intention to become henpecked may speculate on the matter. Solomon was supposed to be wise. But his palace was a huge affair and he probably had trouble in getting roomers. Therefore he merely threw in a little board and some honorable intentions.

As far as being original with the new law, Texas "also ran." Europe started this fad several centuries ago. Sister-states also beat Texas in proving that there is lots of dust on the subject.

Brigham Young sneaked out west to dodge them. This husband of 56 wives would surely have cut loose with some naughty words had there been a law requiring three days' notice of intention. When he fell heir to an intention he usually acquired a wife—or so.

Savage or modern, the laws all had the same intent. Tests and rules were enacted to determine that prospective groomers were actually mature men, able to support a wife and physically fit. The new Texas law merely contains the gist of what has been handed down from past centuries.

When the dusky maiden of a South American Indian tribe

consented ready for marriage. Sometimes he is sewed up in a skin, together with several hundred indisposed ants. In this case the poor fellow may not even shiver. To do so loses him the queen.

Among the South African tribes the man must first slay a rhinoceros. A cheerful custom of South Asia head hunters prescribed that he must have at least one head to his credit.

Siberian Yukahirs ask that Mr. Groom drag a hefty tree trunk and toss it upon his prospective father-in-law's tent with intent of knocking down the structure. If the tent caves in he gets the girl.

These tests are much more severe than our law which merely says that the man should be 21 but does not bother about his manhood, or whether he can defend and support his woman.

French laws up to 1907 prescribed 25 and 21 as legal ages. Otherwise the consent of guardian was necessary. Back in 1856 Henry II of France decreed that marriage of minors without consent of parents was null and void. And Hank meant it.

You are not a man before you reach 24 in Austria and in Germany even women of middle age may not marry without parents' consent, unless they wish to risk losing their slice of the inheritance pie.

trees until he has cleared space for a hut. Spikes are punched into his flesh and if he yells he is not

considered ready for marriage. Sometimes he is sewed up in a skin, together with several hundred indisposed ants. In this case the poor fellow may not even shiver. To do so loses him the queen.

Among the South African tribes the man must first slay a rhinoceros. A cheerful custom of South Asia head hunters prescribed that he must have at least one head to his credit.

Siberian Yukahirs ask that Mr. Groom drag a hefty tree trunk and toss it upon his prospective father-in-law's tent with intent of knocking down the structure. If the tent caves in he gets the girl.

These tests are much more severe than our law which merely says that the man should be 21 but does not bother about his manhood, or whether he can defend and support his woman.

Justice of the Peace J. H. McDonald, of Cisco, returned Friday from Dallas where he had been on a vacation visit with his daughter, Miss Zonnie McDonald, assistant superintendent of the Parkland hospital.

Judge McDonald's visit was interfered with by illness and he spent ten days in the hospital under treatment by two specialists. He was much improved Saturday, however, and able to take up his duties.

FRENCH TO HAVE AWARD FOR PROWESS IN SPORTS

PARIS, June 15.—In addition to the Legion of Honor, the Academy Palms, the Croix de Guerre and decorations for agriculture and kindred sciences, France is to have another decoration, for sport.

President Doumergue has signed a decree creating a medal of physical education, a silver medal on a bright blue ribbon with grades of Knight and Officer.

It will be given to all athletes who merit a reward for their country and to persons who devote themselves to development of sports. Sports writers are entitled to the reward.

CO-EDS OPPOSE MILITARY.

COLUMBUS, O., June 15.—"I didn't raise my boy friend to be a soldier," seems to be the unanimous opinion of co-eds in Ohio State university student senate who endorsed a campaign against compulsory military drill. They voted for optional drill.

LETTERS COME FROM ALL OVER UNITED STATES

Ask Copies of Questionnaire Used by Local C. of C.

The chamber of commerce has been swamped with letters from all over the United States asking copies of the "Work Questionnaire" which the Cisco chamber issued a few years ago outlining 10 projects for the local organization. An article concerning the questionnaire appeared recently in the U. S. chamber of commerce news, letter with the notation that the local chamber would supply copies upon application.

All but one of the 10 projects outlined by the Cisco chamber in that questionnaire have been accomplished, which is regarded as a splendid record, a rather unusual record in fact and one that recommends the method employed.

Letters have been received from the following places within the past few days:

Marshall, Missouri; Hot Springs, Arkansas; Camden, Arkansas; Ashkaba, Ohio; Jasper, Texas; Chickasha, Oklahoma; Puyallup, Washington; Jacksonville, Florida; Denton, Texas; Titusville, Pennsylvania; Madison, Indiana; Palm Beach, Florida; Sarasota, Florida; Norton, Kansas; Kenosha, Wisconsin; Maud, Oklahoma; Big Spring, Texas; Ottawa, Kansas; Pine Bluff, Arkansas; Tarrytown, New York; Booneville, Missouri; Forest Grove, Oregon; Shenandoah, Iowa; Orangeburg, South Carolina; Twin Falls, Idaho; El Centro, California; Fort Smith, Arkansas; Douglas, Arizona; Marlow, Oklahoma.

F. E. Harrell Installing System to Irrigate Farm Near Cisco; Corn Shows for High Production

Frank E. Harrell, 2 miles west on the Bankhead highway, is now laying pipe for the irrigation of the 400 acres of his farm.

The water is piped from a large lake built last year, through a 6 inch line which forks into 3 inch and 4 inch lines with plugs every 20 feet to irrigate fields on both sides of the highway.

On the east side and near the lake is a field where almost every known variety of berry is planted—raspberry, blackberry, strawberry, dewberry, auberry, gooseberry, Juneberry, Himalaya berry and others. Four different kinds of beans, peas, maize, ribbon corn, and Country Gentleman corn fill successive rows covering about 35 acres.

Corn 10 Feet

On the west side is sudan, cane, and four acres of corn, some of which reaches the height of 10 feet. Along the ditches, paper-shelled pecans, melon vines, and huge sugar beets over a foot long and 16 inches in circumference, are planted. A couple of years ago this land yielded 109 bushels of corn to the acre. This year Harrell has every prospect of breaking even this unusual record.

To the north of the corn field is a vineyard loaded with white and purple grapes. Near there are several pecan trees which Mr. Harrell, assisted by E. H. Varnell, agricultural advisor, is grafting from Holbert to Barkett.

One unusual feature of this farm is the multitude of huge yellow sunflowers that are scattered over both fields. Ten pounds of this seed were planted in the spring.

Mr. Harrell has irrigated part of this farm in past years though none last year, and now for the

NEW PONTOON FOR SALVAGE WORK INVENTED IN SWEDEN

STOCKHOLM, June 15.—An entirely new kind of pontoon, said to be of great importance for a marine salvage work and far easier to handle than the old type which is bulky and unwieldy, has just been invented by a Swedish engineer, Ragnar Blomquist. The new device is collapsible and can be folded together and thus easily transported.

When submerged, it opens into its natural size and is filled with air through a hose leading from the compressor of the salvage ship. The new invention, which has been patented in all seafaring countries, has aroused great interest among shipping experts in Sweden and abroad.

Lanzetta—Plans progressing for establishment of milk plant in this place.

ARE YOU PROTECTED?

Several days ago we asked the owner of a new car to let us insure it. He agreed to "think about it." Today the car is a total wreck. No insurance.

An automobile may be the source of a great deal of pleasure, or profit, BUT, if the owner is NOT protected with the proper insurance, it may be the cause of tremendous financial loss. Let us provide this complete protection.

Cattle on Three Ranches of George Winston Are Doing Well; Crops Are in Fair Condition

George Winston, retired merchant, stockman and farmer, who is now taking his ease at his charming home at 302 West Twelfth street, reports cattle on his three ranches doing well and crops fairly good.

Jail Term for Practical Joker

MADISON, Wis., June 15.—Pardon for a practical joke which cost them three years in prison is sought today from Governor Walter J. Kohler by Francis Dolan and Harry Fuller, Vernon county farmers.

Returning from a party where moonshine had flowed freely several months ago, the two men stopped at a friend's home and, finding his family absent, moved the furniture from the house into the nearby fields and orchards.

Despite the court's instructions that the men were not guilty of burglary if they were not intent on crime but merely were participating in a drunken frolic, a jury convicted them.

Oculist Needs His Eyes Examined

MEMPHIS, Tenn., June 15.—Sergt. Hall, chief of the Memphis motorcycle traffic squad, went to a specialist to have his eyes examined—motorists had told him they needed it.

After a thorough examination the oculist said: "The trouble is caused by your upper teeth. Perhaps they need pulling."

Finds a Way to Stop Attacks of Fits

Reports are received of an amazing treatment that epileptics state has proved successful in stopping their attacks. R. Lepso, Apt. 109, 895, Island Ave., Milwaukee, Wis., has been supplying sufferers with this treatment. He now wishes to reach all those who have not been helped and to do so is making the startling offer of a generous treatment free to all sufferers.

ANOTHER WOLF ADDED TO TOLL OF CISCO MAN

F. B. Mathews, government wolf trapper, captured another wolf Thursday night on the Fee ranch northeast of Cisco. This makes the second to be caught here recently, and Mathews expects two or three more immediately.

According to Mr. Mathews, wolves usually return to an old trail three or four nights afterward, giving the hunter time in which to carefully reset his traps and repair any defects.

Anyone wishing the aid of Mr. Mathews in ridding their ranch of wolves should either call him at his home, 804 West Seventeenth street, or leave notice there of the locality and name.

Caracas Avoids Street Names

CARACAS, Venezuela, June 15.—This city of 100,000 is in effect a town of nameless streets, although the officials long ago decreed a modern system of North First, East Second and similar titles. In practice nobody uses them.

Addresses in Caracas are all given with reference to street corners. Each street intersection is named, and house numbers start new in every block.

For instance, if you live at 597 East Fifth, your real address will be something like "Little Birds to Green Cross, 97," and nobody will understand you if you say anything else.

The corner names are centuries old, and some of them are expressive. They include Torre (of the cathedral), Father, Tierra, The Palm Tree, Drugs (where they were sold) and Physician.

Rock Island railroad seeks permit to build 108-mile extension from Shamrock to Quanah.

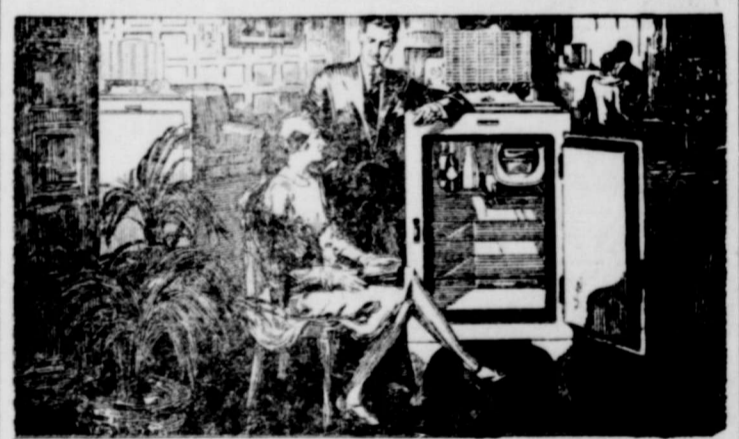

Rescues Cat

"We couldn't let the poor devil die, could we?" retorted George Charbonnet above, when he was praised for risking his life to save a cat that had been trapped under New Orleans docks for a month. The feline, a steamer pet, fell in the water and took refuge on a narrow cement ledge in a manner that defied rescue until Charbonnet and Paul Silva, dock board patrolman, slipped through a man-hole and swam 200 yards in darkness to perform their heroic act.

Former Partner of E. P. Crawford Here

Mr. and Mrs. L. M. Dyke, of Dallas, were visitors to Cisco Friday evening and Saturday. Mr. Dyke, who has an income tax accountant business in Dallas, was formerly associated with E. P. Crawford, in the same business in that city.

KEEPING UP WITH WEST TEXAS GROWTH

Wink is building for the future and assuming more substantial proportions. Some of the latest accomplishments of the group of young men who have formed a chamber of commerce is the securing of a new Vitaphone theater and the construction of a \$225,000 school building with an auditorium seating capacity of 650.

Wheeler has employed Grady O. Wagon as secretary of his chamber of commerce. Agricultural development will be stressed in the first year's program. Street paving and an adequate water and fire protection system are among the projects that will receive attention in the civic development work.

Hereford's wheat harvest is such that 150 combines, costing a total of \$300,000 will be distributed for the 1929 harvest, according to dealers who have them for sale. Probably 50 more will be sold later, and these with tractors will bring the cost of harvesting equipment to well over the half million mark.

Booker's largest business house under construction at present is the 30 foot brick building constructed by A. W. Robinson which will be occupied by the local DeSota automobile agency soon. A number of permanently constructed residences are being built.

Big Spring's Read building is nearing completion. The building contains seven store building spaces on the ground floor, and a 25 room hotel on the second floor.

July 10 to 20 has been set as the dates for the fourth annual motorcade conducted by the West Texas chamber of commerce so as to include two district meetings of the regional organization. These are the Big Bend district meet to be held at Van Horn on July 13, and the Pecos Valley-Inter Mountain meet to be held at Roswell on July 16.

Mason will entertain the Hills Country, Heart of Texas, district of the West Texas chamber of commerce on June 17. The legislature and staff correspondents of newspapers on duty in Austin will attend the meeting and a tour of towns in the district will be made in a Texas Bus company bus.

Tahoka, in viewing the growth of recent months points out that since 1927 two new rural routes have been inaugurated, two new rural stations established and receipts have increased from \$4,556 to \$10,514, or 128 per cent. Comanche's berry growers are at the height of their season now. The first day of the opening of the Bowdoin canning plant 4,188 pounds of berries were bought from 30 different growers. More money is being brought for the berries than ever before, 85 cents being the present price.

Blanton fruit growers report that, unless unforeseen damage is experienced, the fruit crop through the territory will be the best in years. Trees are now heavily loaded and giving promise of a high quality of apples, peaches, plums, cherries and many other kinds of fruit.

Lampasas is planning a large July 4 program. The American Legion is preparing a rodeo for six or seven thousand people, special features of which will be a barbecue for all Legionnaires, and a drum and bugle corps contest with three handsome cups as prizes. A prize of \$100 in gold is offered to the rider of one of the post's outlaw horses.

Alpine is planning for the biggest and best Old Settlers and Cowboy's Roundup this year on July 4 ever staged in the town. The celebration will be held two days, and a permanent rodeo and fair association will be organized at this time, and plans made to buy land upon which to erect permanent buildings.

Midland recently opened the 10th city addition that has been added to the town since it became a thriving oil city two and one half years ago. The addition lies within ten blocks of the business district.

FAMILY CONVENTION. CLERMONT - FERRAND, France, June 15.—The Rougier-Grenets celebrated their diamond wedding anniversary in the presence of 169 children, grandchildren and great-grandchildren.

"Emancipation" Brings Murder

MOSCOW, June 15.—The tragic fight of women in Mid-Asiatic Russia for emancipation is underlined by a report of three trials which took place almost at the same time in different parts of Kirghiz Soviet Republic.

In all three, husbands were tried for the murder of their respective wives and in all three the crime was committed because the wives, touched by the new liberal spirit, had announced their intentions to obtain a divorce.

The peasant Shabdanov, one of the wife killers, received a ten-year term of imprisonment in strict isolation, the severest penalty for murder under Soviet law. Similar terms were received by Miatchev and Tutchev. Miatchev had killed his mother-in-law for good measure.

The murder of women in this region for removing their face veils is a frequent occurrence. There have been numerous instances, too, where young girls were killed for refusing to marry old men selected for them by their parents.

KEPT JOB IN FAMILY. CANTERBURY, N. H., June 15.—For 106 years, the financial affairs of the local Baptist society have been in charge of two generations of one family. Miss Christina Clough, 86, has just resigned as treasurer after 50 years' service. Before her, her father, the Rev. Jeremiah Clough, held the office for 56 years. COUNTY ROAD TAX ELECTION CALLED

Moody Testifies in Investigation of Robison Charges

PRESIDENT SIGNS FARM RELIEF BILL

FEDERAL FARM BOARD IS NOW PROVIDED FOR

Controversial Deben-ture Plan Eliminat-ed From Measure

WASHINGTON, June 15.—President Hoover today signed the \$500,000,000 administration farm relief bill.

The new law, to become effective immediately, provides for creation of a federal farm board of nine members to work for the rehabilitation of American agriculture.

No export bounty or subsidy is provided, the controversial debenture feature having been killed by congress after President Hoover twice had expressed uncompromising opposition to the scheme.

The new federal farm board, to be selected by the president and confirmed by the senate, will be organized in about ten days under present executive plans.

With confirmation of the new board, the nation will have its first permanent federal board empowered to work for coordination and stabilization in all phases of agriculture.

A revolving fund of \$500,000,000 is authorized by the bill, to stimulate development of co-operative marketing systems and aid in balancing production with consumption in every commodity.

Consumption of the legislation, in the opinion of administration supporters, lays low the spectre of "farm relief" that has haunted the corridors of capitol hill since the war. "Equality for agriculture," the rallying cry of the farm bloc since the drastic deflation of 1920, has been the overtime of every session of congress since that time. With the possible exception of prohibition, agriculture has dominated politics in both parties for almost a decade.

Passing of the measure brought would advance within 30 days from Reps. Purcell, Repn., Ind., one of the drafters of the measure.

Although the bill authorizes the half million dollar revolving fund, additional legislation will be necessary to actually appropriate the funds necessary to carry on operations. Under the present administration plan, President Hoover will send a special budget recommendation to congress early next week asking for an immediate appropriation of \$150,000,000. This will enable the newly created farm board to operate on a gigantic scale from the outset. Additional appropriations will be sought in the regular session next December, if needed.

It has been stated semi-officially that Julius H. Barnes, of Duluth, war-time grain administrator, will not be a member of the farm board. Speculation on capitol hill had it that Barnes had been selected for chairman.

White house authorities declare that President Hoover has not yet approached any individual, directly or indirectly, concerning his possible appointment of the board.

Rumors that former Governor Frank O. Lowden of Illinois, long-time leader of the McNary-Haugen forces in the middle west, might be placed on the board could not be confirmed today.

PIPE DAWES: HE'S ON NEW JOB

America's new envoy to the Court of St. James, General Charles G. Dawes is shown with Mrs. Dawes as they sailed from New York. Note the familiar underslung pipe. He was reported to have a large supply of them in his trunks for personal use and to give to friends in England.

Authorities Convinced That Dr. Snook Knows More About Hammer Murder Than He Told

COLUMBUS, O., June 15.—Convinced that Dr. James H. Snook, veterinarian attached to the faculty of Ohio State University, knows something he has not divulged, police late today again questioned him in connection with the hammer murder of Theora Hix, 25-year-old coed.

In another part of the city prison, where the examination was conducted, detectives also questioned Marion T. Meyers, 35, of the university horticultural department, who is known to have been seen with Miss Hix on various occasions.

Friends of the slain medical student told police they frequently had seen Miss Hix in the company of Dr. Snook, remembering him by his blue coupe.

On Thursday night, when police believed Miss Hix was murdered, Dr. Snook said he went to his office at the university about 7:40 o'clock to clear up some work. After leaving there he related he went to a golf links to get his shooting glasses.

He said he first learned of Miss Hix's body being found when he read the newspapers late Thursday night.

Dean Marion Meyer of the horticultural department of Ohio state university, who said he "kept company" with Miss Hix, voluntarily appeared before the investigating officers and recounted satisfactorily his movements previous to the crime.

Several minor local bills were acted upon. The senate then adjourned until Tuesday morning.

Members will leave this afternoon for Fredericksburg, Kerrville, and Mason where the legislators will be guests at the Hill Country chamber of commerce convention.

MORPHINE CONFISCATED. SAN ANTONIO, June 15.—Morphine valued at \$10,000 was in confiscation here today and two men were in jail. Officers arrested the men late yesterday as they were about to deliver the drugs at a home. It was believed the narcotics had been imported through Laredo.

NEARLY DECAPITATED. TOPEKA, Kas., June 15.—When the automobile in which they were riding crashed under a house, elevated and being moved through the city streets, Richard Wahle and Sheldon Hogeboom were nearly decapitated here early today. Both were killed.

DETAILS STEPS TAKEN TO STOP LAND LEASING

Attorney General Pollard Quizzed During Morning Hearing

AUSTIN, June 15.—Governor Moody testified this afternoon in the house of representatives hearing into charges of misconduct that have been filed against State Land Commissioner J. T. Robison.

Beginning with a conference in Governor Moody's office last December attended by Robison, University regents, President Benedict, of the University and Attorney General Pollard, Governor Moody detailed the steps taken to prevent leasing of university lands supposed to contain oil before the legislature met Jan. 8, last.

The governor thought that satisfactory arrangements had been made to withdraw the land which had been advertised for sale Jan. 2. He had gone on a holiday hunting trip when he learned that the land had not been withdrawn. A conference was arranged with Land Commissioner Robison. Robison was near Laredo at the time so the governor and land commissioner met at Dilley, Tex. This is about half way between Austin and Laredo.

Governor Moody says that Land Commissioner Robison agreed then that he would withdraw all but land for which he had specific demand and that this was estimated at not over 20,000 acres. It turned out to be 50,000 acres. Commissioner Robison insists that he never told the governor that it would be less than that acreage.

Attorney General Pollard was quizzed at length this morning before the house of representatives as the investigation of charges against Commissioner Robison opened.

After being questioned by house attorneys in support of the charges against Commissioner Robison, the attorney general was subjected to a grilling cross examination by Lloyd Price of Fort Worth.

Price was attorney for Gipson and Johnson of Abilene who bid \$875,000 on university land leases which Governor Moody, the board of regents of the University of Texas and the attorney general's department endeavored to have withdrawn from market last January.

Steps in the proceedings were reviewed. There was a conference of these officials with Robison; it was agreed that conditions made it undesirable to put the lands on the market; the supreme court had decided that the law placing lands on the market when there was demand was mandatory; Robison said there was such demand and had advertised a million acres for lease between Jan. 2 and Jan. 30, 1929.

Letter Sent. Pollard testified that Robison agreed to withdraw the land if furnished a "well considered opinion" that he could do so legally.

A letter was sent from an assistant attorney general saying while the law was mandatory it required the sales only once a month and that the land could be withdrawn until later date in January. This was so that the legislature which met January 8 might repeal the leasing law. Robison refused to take the letter as an opinion and it was ordered put in opinion form after being read to Attorney General Pollard over the telephone.

Robison still refused to withdraw 50,000 acres in Ward and Shreveport counties for which he had specific requests. An injunction was issued on ex parte hearing on allegations made by the attorney general's department.

GROOMED FOR FLIGHT. SHREVEPORT, La., June 15.—The "City of Shreveport" sister ship of the famous "Spirit of St. Louis" was reported here today as being made ready for a flight to better the world's endurance record for sustained flight. Although the Shreveport airways officials refused to confirm or deny the report, the report generally circulated that local fliers expected to make the flight within the next two months.

SCARFACE WANTS OUT.

PHILADELPHIA, June 15.—Alphonse (Scarface) Capone has offered \$50,000 to any lawyer or group of lawyers who can gain his release from Holmesburg county prison before his one year sentence for carrying concealed weapons expires. Director of Public Safety Lemuel B. Schofield said today.

Two Boys Who Aided Capture of 5 Bad Men Are Heroes Now

LEWISTON, Ida., June 15.—Ward Alexander, 14, and Sam Bryant, 16, were the heroes of their chums here today after their capture of the five "bad men" who kidnapped Lieut. Gov. W. B. Kinne and two men who came to his aid Wednesday.

While bloodhounds, airplanes and hundreds of possemen searched in parts of three states, guarded highway junctions and bridges in an effort to apprehend the bandit gang, the lads stole upon three of the desperadoes sleeping in the bushes on the banks of the Potlatch Creek, near Julietta, yesterday.

The boys sneaked silently away. Then, when they were far enough so they were sure their footsteps would not be heard, they strained legs and lungs in a dash to notify officers of their discovery.

The heavily armed men were awakened and arrested without resistance although it had been feared blood would be shed when they came face to face with officers. The other two were captured close by.

TROUBLE WITH ENGINE HALTS "YELLOW BIRD"

Resumption of Hop to France Delayed Saturday

COMILLAS, Spain, June 15.—Engine trouble and a gasoline leak halted the French Monoplane Yellow-Bird tonight just as it was about to resume its journey to Paris after a successful non-stop flight across the Atlantic.

Plans to start for Paris during the day could not be carried out until a starting apparatus from Madrid to get the powerful motor going. It arrived early this evening and the four fliers entered the plane for a start.

Jean Assolant took the controls and opened the throttle wide, after letting the motor run at full speed for a minute he climbed out and announced it was no use. He was followed to the ground by his companions, Rene Lefevre and Armand Lott, Jr., and Arthur Schreiber the young American stowaway.

HOOVER SENDS CONGRATULATIONS. WASHINGTON, June 15.—President Hoover sent the following message to President Doumergue, of France, last night, congratulating the French fliers on their flight across the North Atlantic:

"Upon the occasion of the magnificent flight across the Atlantic by your compatriots I wish to extend to you and the French people, as well as the aviators themselves, my sincere congratulations and an expression of my admiration of their gallantry."

The message was conveyed to the French president through the state department embassy in Paris.

Man Arrested Here on Burglary Charge A. W. Arnold, arrested here early Saturday morning and charged with burglary at the Kent Filling station, J avenue and Second street, was taken to Eastland yesterday afternoon to be turned over to county authorities. Arnold was arrested by Night Officers B. B. Poe and O. Gustafson.

The officers were making their rounds when they discovered a man at the station, drawing gasoline from one of the pumps into a bucket. He claimed he wanted the gas for his car, the officers said.

May Have Been "Eye Teeth" After All A. L. Mayhew informs the Daily News that it made a serious mistake in its story on Friday concerning his misfortune in swallowing a portion of his teeth. He made it clear that it was his lower teeth which broke, half of them going down his throat while he was eating. But Saturday he complained of his left eye hurting and the News is lead to believe that it was his eye teeth he swallowed.

COAST GUARD HORSE GOES. PROVINCETOWN, Mass., June 15.—Too old to carry on, "Dan," famed coast guard horse, was put to death recently. The horse, 21 years old, had participated in almost every rescue engineering by coast guards on Race Point during the past decade. It was "Dan's" duty to haul the big surf boat down the long stretch to the boat.

Accused

Tennessee faces an unusual murder trial in the case of Miss Eva Cofer, above, of Georgetown, accused of having beaten a man to death with a wagon spoke because he tried to hug her. She is now at liberty under \$10,000 bond. The victim was Lee Achley, a Georgetown merchant, and Miss Cofer claims he tried to embrace her when she went to his store to make a purchase. She denies, however that her blows caused his death.

"Guess I'm Sittin' Pretty," Stowaway Says Between Kisses

COMILLAS, Spain, June 15.—The life of a stowaway on the coast of Spain has surpassed all the dreams of Schreiber. The only thing the youth could say was:

"I think I'm sittin' pretty." While the aviators were tuning up the monoplane Yellow Bird this morning, Schreiber spent his time kissing black-eyed señoritas, writing his autograph and eating breakfast. His only criticism of the Spaniards was that they spoke Spanish.

"Why don't they speak English? I haven't understood a word since I landed here, they'd be much more interesting if they spoke English."

"I suppose I'll have to go to jail when I get to France, because I have no passport. But after the ride through the storm I think I can stand jail, even a French one."

"All I hope is that they don't ship me back home before I've seen Paris. Assolant promised to show me things I never saw before. Lott says I can live at his hotel. Lefevre says he thinks he can get me a temporary passport."

"So I guess I'm sittin' pretty."

SAYS BOY PERMITTED TO STOW AWAY. PORTLAND, Me., June 15.—The Portland Evening News, in a copyrighted article today, said that Arthur Schreiber was permitted to stow away aboard the Yellow Bird as compensation for assisting Pilot Jean Assolant with the latter's wedding plans.

LONDON BUS SERVICE. LONDON, June 15.—It happened in London. A woman was riding in an open bus. She was trying to light her cigarette. Twelve times she failed. Suddenly she gave the stop signal a terrific tug and the bus came to a dead stop. She lighted her cigarette and told the conductor to proceed.

PECOS GETS LIONS MEET COLORADO. June 15.—Pecos will have the next seventeenth district meeting of the Texas Lions, it was decided at a district meeting here yesterday.

VOTE ON AN ADDITIONAL 15 CENTS ASKED

County Stock Also to Be Voted on July 16

The commissioners court of Eastland county at a session held at 2 o'clock Saturday afternoon passed an order calling for a countywide election July 16 to determine whether or not an additional road tax of 15 cents would be levied for the purpose of developing county lateral and cross roads.

The order was passed after submission of a petition signed by 210 Eastland county citizens.

The county now levies a 15-cent road and bridge tax which is the limit which the commissioners court may fix under the constitution without submitting the matter to the voting population of the county.

Stock Law Election. At the same time the court passed an order calling for an election coincident with that on the road and bridge fund tax to determine whether or not a stock law would be put in force in the county. The same judges will conduct both elections.

The need of additional funds with which to carry on road work in the county has become more and more pressing with the increasing demand of rural schools to consolidate, it is pointed out. Transportation of pupils in varying kinds of weather is essential to this consolidation and since lateral roads are called upon to handle the most of this traffic their improvement over present conditions is essential. Some stretches of these roads will have to be gravelled, county officials said.

None of the money will be used on state highways with the exception that the cost of setting back fences on the right-of-way of Highway No. 1 would to some extent be defrayed therefrom.

The proposed county stock law would prohibit owners of livestock from allowing their animals to run at large.

INSURANCE MEN HAVE PICNIC AT LAKE CISCO

West Texas agents for the American National Insurance company to the number of about 40, including their families, were here Saturday for an all-day picnic at Lake Cisco. J. L. Winkelman, of Eastland, district manager, was host to the party.

The agents had a business meeting in Eastland this morning and came directly from there to Cisco.

The following towns were represented: Eastland, Ranger, Abilene, Baird, Weatherford, Mineral Wells and Cisco.

T. E. Newton, home office inspector for the company from Galveston, and District Superintendent Pierce Fleck, of Fort Worth, were the honorary guests.

BONDS CARRY. TYLER, June 15.—Two junior high schools, a colored ward school, and improvements to other school buildings will be the result of a \$325,000 bond issue authorized by an eight to one majority in a city election yesterday.

THE WEATHER

Honest Values that assure DEPENDABLE TRANSPORTATION!

The Chevrolet Red "O.K. That Counts" Tag Protects Your Used Car Purchase.

Every reconditioned car we offer for sale is identified by means of the Chevrolet red "O.K. that Counts" tag. This tag is the purchaser's assurance that the car to which it is attached has been gone over carefully by expert mechanics—that it has been thoroughly reconditioned—and that the price is based on the car's actual ability to render service.

Due to the overwhelming popularity of the new Chevrolet Six, we have on hand at this time an unusually large group of these "O.K." cars. Come in! You are certain to find the car you want—at a price that will save you money. Make a small down payment and drive your car away!

RETURNS TO DIXIE AFTER LONG RIDE

MEMPHIS, Tenn., June 15.—Remember "Calamity Jane's Little Sister"—she took a 5,000 cross-country jaunt on horseback a couple of years ago and attracted wide attention?

She came back south on a train the other day, dressed very chic and looking rather Hollywoodish.

"I've been places and seen things," she confided, "but nothing to compare with Dixie. I reckon I'm back to stay—if I can find a job."

Her companion on the jog that took her from Memphis through 12 western states, Billy, has been retired to pick grass on a California ranch. They left Memphis in June, 1927 and arrived in Los Angeles in February, 1928.

Hollywood? Oh, it's a nice town, but hardly worth the trip," Evelyn—her real name is Evelyn Estes, you know—said. "The trip? It was worth it all right. Again? I hardly think so."

Miss Estes "camped out" when

there were no towns or homes handy. She had a "lovely time" and people were nice to her, she said. She made the trip "just to be going" and didn't try to crash into the movies, she said.

The funniest experience: The time she "interviewed" President Coolidge at his summer home in the Black Hills. "I was given a card that entitled me to 15 minutes of his time—but I didn't need nearly that much," she said.

"I assured him I liked to ride horses. We agreed I had ridden a long way and let it go at that," Evelyn said.

STUDENTS COCOA ADDICTS
OXFORD, Eng., June 15.—Cambridge students' insinuations that too much "tea-fighting" is the cause of Oxford's loss of prestige in athletics is being met here by a cocoa drinking movement. An undergraduate club has been formed to encourage the drinking of cocoa and to discourage the taking of cocktails. What affect it will have on tea drinking remains to be seen.

Featuring American Watches

Style by the Masters

—a new note in watch beauty—

HAVE you seen the new Styles in American watches?

The world's fashion leaders have designed them; and have set an entirely new note in watch beauty. The women's models for wrist-wear are elegantly simple, with just a touch of color, and just a bit of delicate chasing. The effect is too exquisite for words. America has again merited the leadership she occupies in the field of fine watch making.

A number of these new designs have just arrived. It will be a pleasure to have you see them.

OF A SOCIAL NATURE

TELEPHONE 164

CIRCLE MEETS.
Circle 4 of the Methodist Missionary society met at 4 o'clock Tuesday with Mrs. R. L. Wilson, Broadway. The devotional was in charge of Mrs. Charles Yates, who read the fourth chapter of Saint John. A short business session was held and the circle agreed to pay off their part of the indebtedness on the parsonage.

Delicious refreshments of homemade ice cream and cake was served to eight members and three visitors, Mesdames Neal Turner, Joe Wilson, and John Aycock of Sweetwater.

JOINT HOSTESSES AT BRIDGE.
Misses Ester Hale, Aline Walker and Mrs. E. B. Clappitt were joint hostesses to 13 tables of bridge Friday afternoon at the home of Miss Hale, 100 West Sixth street.

A pink and green color scheme was carried out in the decorations and many baskets of cut flowers. Refreshments were individual iced mixed in the shape of hearts, spades, clubs and diamonds.

Mrs. John Ducker was awarded the prize for high score, Miss Ruth Endicott for low, and Mrs. Frank Blankenbecker for cut. Out-of-town guests were Mrs. Pat Williams and Mrs. Ray Vaughan, both of Abilene.

INDUSTRIAL ARTS CLUB HAS CONTEST.
The contest held during the year in the First Industrial Arts club for points in attendance, promptness, etc., closed Thursday evening when the winning side, led by Mrs. Joe Wilson, was entertained at a picnic in the West Texas Utilities park by the losing side, led by Mrs. H. A. Bible.

Games were played along with several good jokes, and while every one was enjoying the lunch spread on a large table, stories were told. About 70 were present, with four guests: Mrs. V. T. Lockhead and son, Talbot, Mrs. J. S. Stockard and Mrs. Mims.

MRS. SHEPARD HOSTESS TO "42" CLUB.
The Thursday "42" club met this week at the home of Mrs. P. P. Shepard, 705 West Seventh street. A salad course was served to Mesdames E. J. Anderson, J. T. Berry, J. B. Cate, T. J. Dean, C. M. Davis, Charles Hale, William Reagan, G. P. Mitcham, Williams, Bell, J. S. Stockard, W. P. Lee, S. E. Hinson, E. P. Crawford, J. W. Manell and D. W. Burleson.

RAYMOND, JR., CELEBRATES BIRTHDAY.
Raymond A. Williams, Jr., celebrated his fifth birthday Monday with a party at the home of his parents, Mr. and Mrs. R. A. Williams, 1003 West Tenth. After enjoying many games and contests, the birthday cake was cut and ice cream was served to the children with balloons as favors.

Guests were: Allister and Martin Miller, Mary Beth, J. V. and Melvina Haysler, Betty Blankenbecker, Lillian and Bryan Austin, Gale and Crandal Jones, Ruby Lee Pritchard, Lillian Jane Smith, Betty Lee Paschall, Lucy Perkins Williams, Marilyn Shertzer, Catherine Mae and Tolly Ann McDaniels, Dick and A. D. Anderson and Vera Ann Garrett.

MRS. BEARMAN ENTERTAINS GUILD.
The Episcopal club met Tuesday afternoon with Mrs. J. A. Bearman, 700 H avenue. After a short business meeting wherein it was voted to stage a benefit bridge party next Tuesday morning at the home of Mrs. Bearman, it was turned into a social hour and refreshments consisting of a salad course and tea were served to the members.

WEDNESDAY CLUB MEETS.
Mrs. R. A. Williams was hostess to the Wednesday Bridge club this week at her home, 1003 West Tenth street. Mrs. Frank Bell, the guest of honor, was presented with a beautiful georgette handkerchief and with the prize for high score, a rose marie water set. Cut prize, a bottle of bath salts, went to Mrs. Norman Smith, and low score, a bath mat, to Mrs. Frank Blankenbecker.

Those present were: Guests, Mesdames Walter Leach, M. C. Williamson, P. P. Shepard, Frank Blankenbecker, T. O'Brien, and Frank Bell; members: Mesdames Forrest Wright, Leon Manner, J. W. Manell, E. P. Crawford, E. L. Graham, Norman Smith, L. A. Harrison, Henry S. Drumwright and Alex Spears.

MRS. STOVER ENTERTAINS HUMBLE CLUB.
Mrs. R. D. Stover of Humbletown entertained the Humble Bridge club Wednesday morning at the home of Mrs. R. C. Hayes, 710 West Broadway.

Mrs. Reggie Henderson was winner of high score, a vase of Italian pottery, and Mrs. J. M. Carter of the guest prize, a framed tapestry.

Kelley of Parkersburg, W. Va.; W. M. Williams, of Long Beach, Calif.; Mrs. Laura Wild, of Moran; Mrs. J. J. Winston, of San Antonio; A. N. Sweeney, of Rising Star; C. L. Garrett, of Eastland; Mrs. Martin Matson, of San Antonio; T. G. Shaw, of Fort Worth; Mrs. V. T. Lockhead, of East Wilton, Maine; Mrs. C. A. Gray, of Dallas; O. B. Webb, of New Orleans.

RIVAL WIVES

There is a grade school just about six blocks from here, I believe," Nan mused, nodding her brown head thoughtfully. "I understand, Big Pat, that you're willing to attend to the furnace in exchange for the rent of the rooms over the garage."

"Yes, miss, and glad of the chance." Big Pat acknowledged after clearing his throat politely. "You see, miss, I have a job day-times, but the extra money comes in handy, so I tend the furnace in this house and the next, Me and Maude's saving up to send the boy to college. He wants to be a doctor, and doctor it'll be, if we keep our strength."

"I really haven't known exactly what to do," Nan confessed frankly. "Mr. Morgan thought I'd better try to find a housekeeper, in addition to the cook and maid, but it does seem rather ridiculous to have three grown people all working for one lone man and boy, doesn't it? So I've been wondering, since talking with you, Mrs. O'Brien, if you and Estelle between you couldn't manage to look after Curtis the evenings that Mr. Morgan will be working late or dining out. If you could," she hastened to add "I am sure that Mr. Morgan will be glad to pay you both a little more salary than Mrs. Morgan arranged for. Estelle could have two evenings as well as one after-noon a week out, if you could arrange with her to be here the other evenings, or at least when Mr. Morgan asks you to stay. What do you think, Mrs. O'Brien?"

The cook considered, as she unrolled her sleeves, her work done for the night. "The part about Curtis is easy, miss. Lord, I can keep an eye on two rascals just as well as one. But I'm just thinking, miss, if you don't mind me saying so, that a house without a woman bossing it is like a ship with mutiny on it. Estelle's a nice enough girl, and I guess I'm fair-to-middlin' easy to get along with, but neither of us knowing which one is to take hold and give orders, like . . . Me, for instance, I like to have the lady of the house write out the menus for me, not having much gift that way, though being a fair cook."

"You're a wonderful cook, Mrs. O'Brien," Nan corrected her warmly. "But I do understand what you mean. Maude O'Brien's broad, plump face she knew that the two would if you were buying food for your own table," she flattered the cook, menus for the week every Monday-wonder if you and Estelle would mean, and I think it's awfully nice very much mind MY keeping an eye on the poor lone man."

Maude O'Brien agreed heartily. "It's a grand idea, miss, if you could spare the time."

"Then suppose we figure on that basis," Nan beamed. "I'll have all tradesmen's bills sent to me at the office, and will check them with your duplicates once a month. I'll pay salaries, too, and see that raises come when they're earned. Men don't notice about such things, you know. And I'll do the shopping for the house, if you and Estelle will keep a list and give it to me once a week. Curtis' clothes, too, of course. Does the laundry go out?"

"No, miss. Hattie, a colored woman, comes two days a week—Monday for washing and Tuesday for ironing and mending," Maude

thing awfully exciting to tell you while you get ready for bed."

The girl and the child were waiting on the stairs together hand in hand, when the telephone rang.

"That's long distance!" Curtis shrilled, beginning to jump up and down on the stairs. "The phone's in the library. Nana. Whoopee! Betcha it's Mother! I knew Estelle was a liar when she said Mother wasn't coming back!"

"And I bet it's your father!" Nan cried, bounding down the stairs two steps at a time.

But oh, what if it WAS Iris! Could she possibly make herself rejoice, if Iris was coming home?

CHAPTER XXII

It was John Curtis Morgan's deep, pleasant voice that came over the wire to Nan, startlingly clear, as if the man himself stood beside her.

"I want to speak with Miss Carroll, please," were his first words.

"Nan speaking, Mr. Morgan," she answered, joy surging into her heart.

"Good! Everything all right, Nan? How's the boy?"

"Clamoring to be allowed to speak to you, Mr. Morgan. I was just taking him up to bed. He's a charming host. Will you talk to him a minute?"

"No just a moment," Morgan answered. "The governor seems very favorably disposed to commuting Brownlee's sentence from death to life imprisonment, but he wants to have a talk with Dr. Ashley—the alienist, you know. I've called Ashley's house, but he's out of town and won't be back until noon tomorrow. I wish you'd get in touch with him then personally and persuade him to make the trip to the capital. His expenses and time will be paid for, of course. Put it to him strong that it may be within his power to save the life of poor Brownlee. But I can depend upon you to get him here, I'm sure."

"I'll get him there," Nan promised blithely. "Meanwhile, I have your permission to make any changes of any kind here in your house that seem best to me, have I not?"

When she returned to the living room Nan found Curtis lying before the fireplace, his mournful black eyes gazing upward at the life-size portrait of his exquisite mother, his languid fingers pulling absent-mindedly at the curls of a sleeping puppy.

Nan's heart, which had been so full of pity and love for the deserted husband, swelled suddenly to make room for the forlorn little boy who had been made worse than motherless by Iris guilty passion for Bert Crawford.

"Bed time, man-child," she called blithely, but her voice was husky with tears.

"Man-child," Curtis repeated dreamily. "That's what Father calls me—man-child. Sometimes he says 'Sonny-boy, too. Mother calls me 'lover.' What's a lover, Nana?"

"One who loves, of course," Nan giggled gaily, but there was a swift stab of pain in her heart at the thought that some day Curtis would know a different, less simple, more sinister meaning of the word, and that he might hear it applied to the man who had stolen his mother from her husband and her son. "Come along, now. It's eight o'clock. And I've got some-

New Plane for Rise at Angle

MILWAUKEE, Wis., June 15.—An airplane employing the principle of the helicopter and yet radically different from most vertical lifting contrivances, is under construction here.

The device, admittedly purely an experiment, will be equipped with two propellers, devoted entirely to the job of raising the plane, in addition to the usual screw type propeller at the nose of the craft.

The vertical lifting blades will be located beneath each wing and will be driven by a Hispano Suiza motor in the fuselage through an arrangement of bevel-gears.

A tryout of the strange flying machine will be conducted in July by Jess C. Johnson of Delray Beach, Fla., its inventor. The machine is being constructed by the Hamilton Metalplane Co. here.

Johnson's plane, if it is a success, will not rise vertically but will enable a takeoff at approximately a 45 degree angle with all three propellers spinning. Landing also could be accomplished more abruptly than is possible with an ordinary type machine.

Cisco 9 Runs Into Foul Weather and Drops Two Games

BLAKE TEAM TRIMS LOCALS 7-3 SATURDAY

Boys Lose to Fast Rising Star Club 4-2 Friday

The Blake baseball nine after sweeping through opposition in the past two or three weeks in grand style ran into a bad week end Friday and Saturday and dropped two games in a row. First they lost to the Rising Star nine Friday 4 to 2 and then to the championship Blake Humble crew 7 to 3 Saturday afternoon. Both games were played at Chesley field.

The Blake aggregation proved about the classiest team in the oil belt. College stars who shone in southwestern and Texas conference title chases of recent years strutted their stuff against the locals yesterday afternoon. Among them was MacMiller, recently of Daniel Baker, who collected three doubles and a triple and turned in a good day at short stop to cap off a stellar performance, the most outstanding on the field for the afternoon.

Among other former college diamond stars numbered on the Blake lineup were Koch, formerly of Baylor, and Stone who got a try-out with Fort Worth this spring but proved not quite good enough to make the grade.

Cotton Phippen hurried for the Blake team and did a good job of it considering the opposition, allowing only 9 hits. He had poor support from his mates or the game would have been a tighter affair.

Red Moore pitched for the Cisco team Friday. An injured arm forced him from the mound early in the struggle and Jack Phippen finished the game.

Asks State Not to Use U. S. Equipment

WASHINGTON, June 15.—Secretary of War Good has requested Governor Horton to prevent future use of federal arms and equipment by national guardsmen summoned to emergency duty as Tennessee state policemen, it was announced today.

Good's letter referred to such use of federal equipment by state police as during the recent textile strike at Elizabethton, Tenn.

Robbins and Kelly on Goodwill Flight

SHREVEPORT, La., June 15.—Flyover a Ryan monoplane equipped with a Wright motor, a gift of the company to the Robbins, following the sensational flight of the "Fort Worth" endurance plane, Robbins and his pal James Kelly landed at Shreveport this morning, three hours and 23 minutes after hopping off from San Antonio.

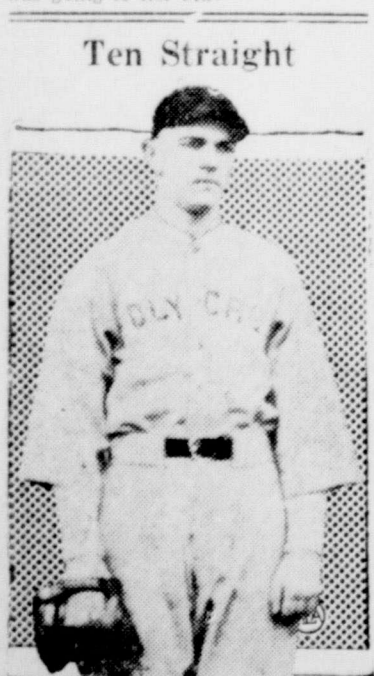

D. W. Canton of the Fort Worth chamber of commerce also was in the plane. After a brief stop here they will fly to Pine Bluff, Ark., Memphis and Saint Louis on their good will trip.

Oil Tanker Adrift in Gulf Stream

MIAMI, Fla., June 15.—The oil tanker, Charles D. Leffer, with 20,000 gallons of gasoline aboard, is adrift in the Gulf stream, her propeller broken. The Miami office of the owners said the vessel was in no danger, and a coast guard craft was going to her aid.

Ten Straight

Here is Frank "Bots" Nekola, one of the most promising of the young college pitchers being eyed by major league clubs. Nekola has won ten straight games for Holy Cross and is undefeated this season. He held the Braves to one run in six innings at Worcester the day before the National League opening. He has pitched one-hit games against Yale and Boston college.

Here is Frank "Bots" Nekola, one of the most promising of the young college pitchers being eyed by major league clubs. Nekola has won ten straight games for Holy Cross and is undefeated this season. He held the Braves to one run in six innings at Worcester the day before the National League opening. He has pitched one-hit games against Yale and Boston college.

Moody Will Not Submit Repeal of State Anti-Prizefight Law to Legislature He Announces

AUSTIN, June 15.—Governor Dan Moody said this morning that he will not submit repeal of the present anti-prizefight law to the legislature. A bill to do so was offered in the house yesterday. The bill was referred to the house committee on criminal jurisprudence. Unless the governor gives that topic to the legislature it cannot be acted upon at a special session. Chairman Ben Woodruff of Marshall said that if the point of order is raised that the governor did not submit the topic he will sustain the point of order and not let the committee report upon the bill.

YACHTS RACE FROM OLYMPIA TO JUNEAU

OLYMPIA, June 15.—The Pacific Northwest's greatest annual water event was in full swing today as 10 fast cruiser yachts started or prepared to start on a 913 1/2 mile race from Olympia, Washington, to Juneau, Alaska, for the second annual Capital-to-Capital yacht race. The first trim racing yacht up-anchored and pointed its clipper bows towards Juneau at 10 a. m. this morning and others will follow later today and tomorrow with a time handicap figuring the arrival of all racers in Juneau at noon, Friday, June 21.

Governor George A. Parks, territorial executive of Alaska, was a member of the crew of the "Jazz," well known craft on Pacific Northwest waters, owned by "Cash" Cole, of the Juneau Yacht club. Today was featured, as an added attraction to the start of the race, by a aboardboard marathon race from Seattle to Olympia by mail boats and other water craft.

The race is held under the auspices of the Olympia and Juneau Yacht clubs and Olympia chamber of commerce, with other Puget Sound clubs cooperating.

A long string of prizes and awards will be conferred upon the winners of each division and the winner over all, including the Governor George A. Parks cup, Olympia Jewellers' Challenge cup and the Queen City Yacht club cup. Other prizes will be awarded for endurance, navigation and best performance.

The yachts participating in the race, owners and clubs represented are:

"Maidie," Jack Power, Queen City Yacht club; "Mary Mar Ann," Frank Seidelhuber, Seattle Yacht club; "Blonde," Richard Froedel, Seattle Yacht club; "Kittiwake," Walter Deaham, Olympia Yacht club; "Kyona," George Briffet, Olympia Yacht club; "Blondie," Milton B. Henderson, Portland Yacht club; and the "Jazz," Cash Cole, Juneau Yacht club.

No Topic to Permit Passing Boxing Bill

AUSTIN, June 15.—No topic was submitted to the legislature that would permit passage of a boxing bill, Chairman Ben Woodruff of the house committee on criminal jurisprudence said today.

The committee will meet at 1 p. m. Tuesday, but if the boxing bill is presented Chairman Woodruff says he will sustain a point of order that the topic was not submitted.

Woodruff says he favors the bill, personally.

New Wells in Shackelford County Sending Oil Production in That Area on a Definite Upward Trend

(Special to the News)

ALBANY, June 15.—With several important completions this week Shackelford county is showing a jump in production trend. The Cooper & Riffe No. 1, W. Y. & R. A. Davis on Section No. 15, block No. 14 T. & P. Ry land about 18 miles west of Albany topped the sand at 1,808 feet and after drilling in a few feet the well filled up with oil and was swabbing better than 60 barrels in a twenty hour test, good gravity oil, and this semi-ricid test means a lot to the west part of the county. Plans are being made to sheet the test and it is believed that production will be greatly increased. Marland, Southern Petroleum Exploration, and Empire hold leases nearby and many companies are interested in the vicinity. Humble is carrying pipe line to the well, and will run the oil.

Humble Oil & Refining Co. No. 2, W. P. Newell ranch of section No. 87, E. T. R. R. land about one and a half miles southwest of the Cook pool had a 25-barrel well in the stray sand found about 100 feet above the Cook, but that is being passed and the well will be drilled on to the Cook sand, this is being watched with much interest by all oil companies, as Roxana, Mid-Kansas and Sinclair have leases adjoining and the well is less than one-fourth mile from the Cook ranch leases, of Roesser-Pendleton.

Gilman & McMurray of Cisco, Texas, completed a nice shallow test from the Fry Shallow Sand at 636 feet on Joe B. Matthews on South half of section No. 2, E. T. R. R. land about 4 miles north of Albany, now pumping about 10 barrels and opens new territory for exploration of the Fry sand. They have started a second test one location south and will continue pumping the No. 1, which is a good producer of 38 gravity oil in that shallow sand.

Frangile No. 1, J. H. Nail, is drilling in section No. 49, E. T. R. R. land, a wildcat test, and the first of several new tests that will be drilled on the Nail ranch.

Cranfill & Reynolds Oil Co. No. 3 R. J. Moberly, about 9 miles south of Albany, is rated a 15 or 20 barrel producer from the 1040 foot sand, and it is probable that several more wells will be drilled around their two producers, on section No. 48, block No. 11, T. & P. R. R. land.

Dall-Earle Texas Co. No. 8 on Joe B. Matthews has topped the Cook sand in section No. 32 and is showing up for a good producer although it has not been drilled in.

Sterling Oil & Gas Co. is making a location on the Leroy Miller survey owned by E. E. Whitney in the northeast part of Shackelford county, and it is reported that four or five new tests will be started soon in this area. The Roesser-Pendleton pool on the R. M. Titus land is showing some fine wells from the 600 foot sand some of them as high as 40 barrels daily. Roma Oil Drilling Co. No. 4, Ada McLemore McCauley is drilling on the Bramlette survey No. 3 near a well drilled by Claude Helf last year which had about 10 feet or more of good sand with a show of oil at 700 feet.

Roesser-Pendleton have revived drilling on the Cook ranch and have put six rigs to work within the past few days, so the production column in Shackelford is due for a jump within the next week or two.

FRANCE WILL STAND PAT ON "MUSKETEERS"

La Coste and Mates Will Defend Davis Cup Title

By FRANK GETTY

United Press Sports Editor.

NEW YORK, June 15.—No matter what team the United States sends into the challenge round, France has decided to stand pat on her "four musketeers" for defense of the Davis cup.

It is taken for granted in international tennis circles that the American team will win its way through the interzone finals and once more challenge the French for the historic tennis trophy.

The "four musketeers," of course, are none other than our old friends, Rena La Coste, Henri Cochet, Jean Borotra and Jacques Brugnon, the greatest quarter of tennis players ever grouped on a Davis cup team since the breakup of American supremacy on the courts.

Before the current season opened the French had the tennis blues, and had 'em bad.

La Coste had announced his retirement to go into his father's automobile business. Borotra's business cares kept him from the courts. Cochet was badly off form in the winter tournaments and believed to have passed his prime. Brugnon, the reliable old doubles player, would not be there trying, everyone knew, but Jacques was aging and slowing up.

Hence it was with serious and troubled men that the French tennis federation looked around for replacements. And then the "four musketeers" came to life.

"Business can wait if France needs me," said little Rene La Coste, who then proceeded to step out and win the championship of France just to show that he was as good as ever.

"Sure, if business interferes with my tennis I'll give up my business," agreed vivid Jean Borotra, and he smashed his way through to the finals of the hard courts championships at Paris and carried La Coste to five desperately fought sets for the title.

Henri Cochet is rounding into form for Wimbledon and the challenge round and Brugnon will be there when they call for the doubles teams on the second day of play.

"Four musketeers" will be in the Davis cup challenge round. It's up to the American team to see that it gets there to meet them.

Like His Work

Major league scouts who have seen Reynold MacDonald, pitcher with the University of Oregon, say he is the best diamond prospect in the northwest. MacDonald, from Buffalo, N. Y., is shown here.

Schmeling Irked with Carpenter

LAKEWOOD, N. J., June 15.—Max Schmeling has offered Georges Carpenter, France's or child man, a salary of \$300 a day with a provision for an additional \$100 every time he hits the German heavyweight with a right hand, it was announced here today.

Schmeling is irked because Carpenter said that Schmeling was wide open for a right hand punch after watching the latter in training.

VISIT HOUSTON TEAM

HOUSTON, June 15.—Johnny Evers, Boston national coach, visited today with Frank Snyder, manager of the Houston Texas league team. Evers is touring the minors hunting for talent and denied that his visit here was for the purpose of offering Snyder the post as manager of the Braves.

Effective Sunday, June 16, train No. 3 will leave Cisco at 1:15 p. m., instead of 1:40 p. m.

C. P. COLE, Agent

Father's Day!

All honor to Dad, the power that keeps the hand able to rock the cradle, and who furnishes the cradle.

June 16 is a day set apart in his honor—a day all his own. So let show him the appreciation for all kindness toward us. He may not be impulsive and may not allow the t to flow very often, yet he feels just same. His heart breaks over things just the same as mother's. He loves us and gives his best efforts in life for the rest of the family—So all hats off today to the Dads of the world!

HERRON-OWEN SLIPPER SHOP

GARNER'S VACATION LUGGAGE

BAXTER TO BE HEARD HERE IN "OLD ARIZONA"

Warner Baxter's marvelous speaking voice soon will be heard around the world in "Old Arizona." Fox film first feature length picture to be made wholly in Fox Movietone.

Baxter, who has been eminently successful as a male lead in pictures, so much so that he enjoys an enviable popularity with picture devotees the world over, came to the screen after several years as a leading man of the speaking stage, and in that branch of his profession one of his chief assets was his voice.

It is heard in his portrayal of "Cisco Kid," that very colorful bandit of the romantic days in the old southwest.

"Cisco Kid" was handsome, daring and vain as all eminent and successful assassins are. His habit was anywhere between the Rio and the Rio Grande. He killed for the love of it—because he was quick-tempered—to avoid arrest—for his own amusement or for any reason that happened to come to his mind. He escaped arrest because he could shoot five-sixths of a second faster than any sheriff, ranger or soldier who came across him.

"In Old Arizona" opens at the Palace theater Tuesday for a 3 days run.

Brookhart Fails to Reply to Creager

BROWNSVILLE, June 15.—A heated reply sent Senator Smith W. Brookhart by R. E. Creager, Republican national committeeman, when Brookhart criticized the Texas patronage system, has brought no answer from Brookhart today.

Creager branded as false Brookhart's statement to the senate that Creager was conducting a campaign of coercion among Texas federal office holders and compelling them to contribute in order to hold jobs.
