AIRPLANE NEARS 320TH FLIGHT HOUR

AIR MARATHON CONTINUES TO BREAK RECORD

Billion Dollar City Passes 200 Mark at Houston

ST. LOUIS, Mo., July 26.—The St. Louis Robin endurance plane staged on today, unflinching in the longest flight on record, and at 11:17 a. m., CST., marked its 316th hour with as much apparent ease as it did the first.

Some of the finest weather of the past two weeks—which have been exceptionally calm—favored Dale Jackson and Forrest O'Brine as they guided their "Golden Goose" through cloudless skies.

It's a "Golden Goose" to the two men as every day they keep it aloft means approximately \$3,000 to them in extra flying awards.

Meanwhile, plans were under way at Lambert-St. Louis field for reception of Jackson's aerial-minded parents, reported en route by air from their home at Fairbault, Minn. O'Brine's parents arrived here by motor several days ago.

HOUSTON PLANE PASSES 200 MARK

HOUSTON, July 26.—Marking time in the air above Houston and hoping the St. Louis Robin pilots would soon descend, the pilots of the Billion Dollar City still remained aloft early today.

Joe Glass and Glenn Loomis completed the 200-hour mark at 9:49 p. m. last night, which one month ago would have been an enviable record, but with the record continually reaching toward a new mark today, the Houston pilots continued to hang on doggedly.

HOUSTON, July 26.—Reports that the Houston endurance plane Billion Dollar City might be put out of the race because of the barograph running down, were called untrue by the ground crew here today.

When the barograph runs down this afternoon the ship will remain within sight of the airport and affidavits of watchers will be accepted as proof that the flyers have not landed. Efforts are being made to secure permission to have a "chaperone" ship fly with the plane.

HAUGLAND-CRITCHON CONTINUE FLIGHT.

MINNEAPOLIS, July 26.—Favored by nearly perfect weather in their endurance flight record attempt, Owen Haugland and Captain P. L. Critchton cruised over Wood-Chamberlain field in the Minnesota today on their fourth day of continuous flying.

At 7 a. m. Haugland and Critchton had been aloft more than 84 hours.

KILLED AT GRADE CROSSING

NORWALK, O., July 26.—Three members of a family were dead today and a fourth seriously injured, as the result of a grade crossing accident at Seylon, O. Arthur Lockwood, 59, his wife, Mrs. May Lockwood, 47, and their daughter, Alice, 15, were killed instantly. Mable Lockwood, 7, although seriously injured, is expected to recover.

PRETTIEST INDIAN IN SOUTHWEST

Princess Lou-Scha-Laya, above, is said to be the most beautiful Indian girl in the southwest. Known as the "humming bird" of the Chickasaws, she will have the leading role in the dramatic Indian spectacle to be produced at Albuquerque, N. M., Aug. 21-24, inclusive. She is a full-blooded Chickasaw Indian, an accomplished singer, and plays her own accompaniment.

Dallas Police Commissioner Demands Resignation of Chief of Municipality's Police Force

DALLAS, July 26.—Coming as a sequel to recent disturbances in the Dallas police department, Police Commissioner W. C. Graves today demanded the resignation of Police Chief Claude Trammell.

The chief of police refused to resign, saying that if he was put out of office it would be by due process of law.

The altercation is said to have resulted from the recent action of Commissioner Graves in dismissing plain-clothes policemen, A. B. Farrow and Mike Higgins. Chief Trammell disagreed with Graves and refused to dismiss the men out-

Farm Board Meets With Grain Body

CHICAGO, July 26.—The federal farm board assembled with representatives of grain growers' cooperative organizations here today in the first of the board's series of conferences over the country to discuss the farm situation.

The board, through Carl Williams, of Oklahoma City, gave out a statement to newspaper men outlining the aims of the continuing and immediately thereafter after the board went into closed session. Williams is representing the cotton growers on the board.

THOMAS IVY INJURED

Thomas Ivy of Crockett is confined in an Eastland hospital by injuries sustained Thursday in a car wreck on the Bankhead highway east of Cisco near Central school house. Among other injuries he has a broken shoulder. Attending physicians say he will recover.

BUSINESS AND SOCIAL EVENT BEGINS TODAY

Officials Meeting Is Conducted This Afternoon

Registration, assignment of hotel reservations, and a meeting of the district superintendents and department heads, occupied the greater part of this afternoon, as the West Texas Utilities company and employees convened here for the annual business and picnic meeting of the organization.

Members of the company were still arriving today, and the ten district cities, which in turn represent 110 towns and cities of the organization, will be represented. The district cities are Abilene, Stamford, Munday, Quanah, Mason, Cisco, Ballinger, McCombs, Childress and San Angelo.

While the meeting is to be one of entertainment and festival, the sessions this afternoon of the district superintendents and department heads was one of business entirely. It was presided over by G. W. Fry, president of the W. T. U. company.

This meeting convened at 2:30 p. m. today. Merchandising problems, engineering work, construction program, safety methods, public relations work, news, and advertising, as related to the company—all of these features were engaged in consideration and discussion by the officials.

The annual meeting began at 1 p. m. today and will close with a dance at the Cisco Country club at 9 o'clock tomorrow night.

The complete two-day program is given below:

Friday, July 26

1 p. m.—General registration and assignment of hotel reservations.

2:30 p. m.—President's meeting for district superintendents and department heads—Lake Cisco Pavilion.

6:30 p. m.—Dinner for ladies at Savoy cafe, followed by picture show party.

Saturday, July 27

10 a. m.—Women's meeting at Country club.

11 a. m.—General safety council at Lake Cisco pavilion. (All members of company expected to attend.)

12:30 p. m.—Chicken barbecue—Lake Cisco.

2 p. m.—Swimming contest.

3:30 p. m.—Golf tournament—West Texas Utilities company vs. Cisco Country club.

9 p. m.—Dance—Cisco Country club.

Electrocute Negro Huntsville Prison

HUNTSVILLE, July 26.—Last minute efforts to obtain clemency having failed, Willie Grady, 20-year-old negro, was electrocuted at the state penitentiary here today for an attack on Mrs. Vada Roberts of Greenville last October.

Grady protested his innocence to the last, and spoke at length on the kindness he had received from officers of the prison.

The negro was pronounced dead at 12:29 a. m. After three shots of current were sent through his body.

Government Target of Plot, Is Report

LIMA, Peru, July 26.—The newspaper La Prensa published an article today saying the police had uncovered a plot against the government and had arrested a senator, a deputy, and four other principals, and seized incriminating documents. Other arrests were expected.

Berger Near Crisis

MILWAUKEE, Wis., July 26.—Victor L. Berger, former congressman and world Socialist leader, seriously injured when struck by a street car ten days ago, is nearing the crisis.

Editor of North Carolina Writes Views Concerning 'Pajama Situation'

EDITORS' NOTE: W. O. Sanders, publisher of the Elizabeth City, N. C., Independent, has attracted wide attention during the past two weeks by wearing pajamas in public as a suitable man's costume for the summer time. He has written the following article for the United Press, giving his ideas of pajamas as the proper summer wear, and suggesting the appropriate styles for men who would be comfortable.

By W. O. SAUNDERS
Publisher Elizabeth City (N. C.) Independent.
Written for the United Press
ELIZABETH CITY, N. C., July 26.—The surprising thing to me is that everywhere in America there is a superstition that it is against the law for a man to dress comfortably in hot weather. Cartoonists bolster up the superstition by drawing cartoon of pajama clad males being chased by policemen. A preacher mounted his pulpit last Sunday and denounced me for dressing contrary to Holy Writ. Where do they get that stuff?

RURAL SCHOOL BOOKS WILL BE RECONDITIONED

During this week County Superintendent Miss Beulah Spear, with the assistance of John Racon of the State Text Book Rebinding company, is making a visit to practically every rural school in Eastland county for the purpose of gathering up all the worn out and disused text books. These books will be shipped to the state department of education at Austin for re-binding and reconditioning.

By the end of the week Miss Spear expects to have shipped approximately 4,500 books. These have been worn out by the schools in the past years, and have no value in their present condition, but when remade they will be worth approximately \$3,500. The state will have these books rebound for a cost of less than \$1,200, thereby making a saving of more than \$2,300.

Re-binding of books is being carried on by the state department all over the state and is resulting in a large saving in supplying books to the school children of Texas; at the same time the condition of the books used is improving and it instills in the child a trait of good citizenship to save and care for public property.

The money saved the state by re-binding text books reverts back into the available school fund and is apportioned to the schools to pay teachers' salaries and general cost of running. The cost of supplying books has been less than \$1 per capita during the past three years, and has been largely responsible for the state apportionment being at the highest mark in history at the present time.

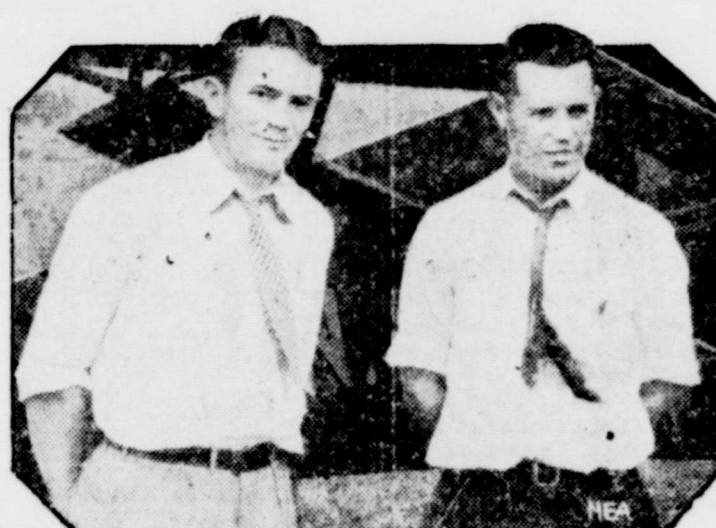

A dollar saved in text books means a dollar put into the available school fund.

German Chancellor's Condition Is Grave

HEIDELBERG, Germany, July 26.—Chancellor Hermann Mueller, who has been gravely ill after an operation for an abscessed gall bladder, was out of danger today, his physicians said.

PARIS, July 26.—Premier Raymond Poincare, whose health has been poor, remained home in the care of his doctors today and will not assist in the debt ratification debate tonight in the senate.

MAKE TWO-WEEKS' RECORD IN AIR

Dale "Red" Jackson, left, and Forrest O'Brine in the air above St. Louis broke the Mendell-Reinhart record made at Custer City, Calif., and had been flying nearly 14 continuous days at 11:17 a. m. today, when their plane, the St. Louis-Robin marked up its 316th hour of continuous flight.

Dr. James Howard Snook Begins to Actively Co-operate With Attorneys Conducting Defense

COURT ROOM, Columbus, O., July 26.—Dr. James Howard Snook, former Ohio State university professor accused of the murder of Theora Hix, today began cooperating actively with attorneys conducting his defense.

He came into court armed with a sheaf of newspapers, removed his coat, sat down with his lawyers and went to work as if he were one of them and not the defendant.

He carefully studied the list of jurors, took their identities and made notations for future use. His lawyers seemed to give weight to his whispered words.

"I know little about court procedure," he told newspapermen. Snook told court attendants he felt the newspapers were not giving him "an even break."

The day's session began with 11 temporary jurors passed. Mrs. Louis Rogers was quickly disqualified as was Jay R. Rawyer, a railroad man. Russel Obert, an

TO BE SECOND WELL ADJACENT TO THIS CITY

Optimism Is Aroused By Interest in New Project

Drilling operations on a 4,000-foot test, one-half mile north of the city limits of Cisco are to begin in a very few days, according to J. A. Bearman, and the development is scheduled to be one of the most important in oil within several years in so far as its relation to Cisco is concerned. The drilling rig is now on location.

As previously announced in the Daily News, the test is to be operated by J. A. Bearman, et al, on the Mrs. J. E. Kincaid tract. The location is announced as in the center of the north one-half of the east 80 acres of the northwest quarter of section 80, block 4, H. and T. C. railroad survey.

This will be the first oil well, with a single exception, to be drilled adjacent to the city of Cisco. The first was the Luse, completed in the south part of the city several years ago, and still flowing naturally. The fact that it is being developed by Cisco citizens adds to its importance to this city.

The new test, which is expected to be a producer, is in reality a Cisco well, according to Mr. Bearman. Announcement of the project has aroused a feeling of optimism among local people, who realize the value of the oil industry to this section and who are looking forward to a revival of this industry here. For that reason and for a greater reason that a successful well will bring about a stimulation of activity in this immediate vicinity, the projected well is looked upon as possessing outstanding municipal benefit.

The J. A. Bearman, et al; No. 2A, Ledbetter heirs, Throckmorton county, located in section 2, S. P. R. R. company survey, has come in. Top sand was encountered at 751 feet; the total depth is 771. Estimated production is 60 barrels.

TACOMA, Wash., July 26.—Clouds, fog, wind and rain over the Aleutian Islands and British Columbia were expected to keep Lieut. Harold Bromley from starting his 4,700 mile non-stop flight to Tokio today.

Enrique Armentas, driver of the car in which he, Mrs. Julia Perez and the woman's six children went to their death, had left a wife and two children behind him in Brawley. He had quarreled with his wife and having gone to Mrs. Perez several weeks ago, decided to move with her to Blythe. They were on their way to the little town when their automobile broke down near Beale wells.

While Armentas sought to repair the car Mrs. Perez and her children made a futile search for water. The bodies of the eight were found yesterday after a passing motorist had seen Armentas' body near the machine on the little traveled road.

REACHING FOR WICKERSHAM'S SCALP

Chairman George W. Wickersham of the Hoover law enforcement commission has many bitter critics trailing him. They are reaching for his scalp. They demand his resignation. They say he is a rank wet. Chairman Wickersham is an outspoken individual. He gave great offense to the dries while addressing the students of William and Mary college before his appointment by President Hoover; he made use of the following language: "The policy of the Jones law which seems to compel observance of prohibition law by more rigorous penalties, probably will defeat itself through the consequences it entails. It requires the prosecution by indictment and not by information in every case. This will mean one of two things, either a very large increase in the number of special judges or the continued employment of civil litigants in the delays caused by the swelling mass of criminal indictments and trials under the prohibition act." Wickersham has been president of the American Bar association. He is a former attorney general of the United States. He knows his own mind and he speaks it. He further offended the dries in an address before the Berkley Divinity school commencement at New Haven on June 4, when he linked the church and crime, or else the militant preachers of the dry cause insisted that he linked the church and crime when he said: "It is of course common knowledge that the ministry, which a century ago disputed with the bar the primacy in education, has fallen to the rear and can no longer pretend to intellectual leadership in any branch of human knowledge. The church formerly exercised a restraining influence upon the lawless tendencies of certain elements of the community. Perhaps it still does to some extent, but no one can fail to realize that the authority has been greatly weakened if not destroyed." Chairman Wickersham's plan was not accepted by the national convention of governors. He advanced the proposal that the 48 states should make large appropriations annually for the enforcement of the pro laws, leaving it to the federal authorities to enforce the Volstead and the Jones acts against the importation of intoxicants from foreign countries, as well as to the arrest and punishment of so-called higher-ups who are said to be responsible for the Canadian inflow of liquor as well as the influx from Mexico, South American nations and European countries. Those who are close to him say that Chairman Wickersham will not resign, that he will not muzzle his tongue, that he intends to go all and not half the road and then the commission in this distant future will submit its findings, through the president, to the American congress.

Did You Ever Stop to Think?

By EDSON R. WAITE, Shawnee, Oklahoma. Arthur K. Remmel, editor of the Fort Wayne (Indiana) News-Sentinel, says: That there is a vast difference between publicity and news. Mere publicity will not bring the desired results. Indeed, there must be an element of news in the publicity—something that will attract attention. More than that, real money must be spent in real advertising. Churches must advertise, and, of course, the most effective advertising is newspaper advertising. The church not only should advertise, but it must advertise because it is slowly but surely losing ground in our great centers of population, which are inevitably to dominate the nation. The right kind of advertising should increase the good will of the public toward the church. It should break down the prejudice of the public concerning those matters which are little understood by the mass of people outside the church, and there are many such. A general campaign should deal with the form of government of the church. Most churches may easily lay claim to the spirit of democracy in the manner that they are governed. The subject creed should be handled in a popular manner. Few outside of the church have the proper conception of the doctrines which are actually taught by the church today. Their minds run back to medieval times for the church's theology. The terms of submission should be made very plain. To many men the barriers of church membership are almost insurmountable. It seems to me that the different denominations represent different brands of an article that should be merchandised as effectively as a soap, a food, or an article of wearing apparel.

POT SHOTS - AT - POLITICS - By - Col. Hugh Nugent Fitzgerald. AUSTIN Why Farm Relief? A bulletin issued by the federal department of agriculture carries the message that the best farm returns for any year since the post-war agricultural depression is reported in the annual survey for 1928. Gross receipts were larger on the average during 1928 than in 1927, but expenses were also higher. There are 6,000,000 American farmers. Reports were received from 11,851 owner operated farms. What happened to the tenants? There is a vast army of these luckless wights in all the states east of the Mississippi river and 65 per cent of the farms of Texas are worked by tenants—whites and Mexicans and blacks. It appears that the American tenant farmer does not figure in the government survey. A Busy Man—The Governor Gov. Moody is a very busy man. He is preparing to do the whittling act. He must lop off \$2,000,000 to keep the appropriations within the revenue in sight. A nine-judge supreme court has been ordered by the people. Of course, the governor appoints and the senate confirms. Regardless of the intense heat there are patriotic citizens the state over who are furnishing the governor with a list of available men and urging the appointment of their favorites. This makes it easy for the indi-

Fields Wins Welterweight Fight Crown From Dundee

DECISION IS RENDERED ON FOUL BLOWS

Second Round Sees Finish of Title Battle

DETROIT, Mich., July 26.—On the head of Jackie Fields product of Chicago's ghetto, the world's welterweight crown rested today. Jackie won undisputed claim to the title last night when he was fouled by two low punches in the second round of his title fight with Joe Dundee, Baltimore Italian, who has been dodging the foremost challengers of his division with such consistency that he already had been deprived of his title by the National Boxing association.

Jackie started after Dundee in the initial round and was ahead on points when the bell sounded. He opened the second round by flooring Joe for a count of six. Joe came in gamely to take another solid smash on the jaw and went down for the count of seven. From that point on he was as good as beaten.

As Joe came up, he staggered against the ropes and then lunged toward Fields, both arms swinging wildly. The first, a right, landed in the groin and Jack fell back in pain amid the crowd's boos. The second, a left, also landed low and Jackie fell prostrate to the floor. When it was obvious he was too badly hurt to continue, Fields' hand was raised as winner—as newly crowned welterweight champion of the world. The fans howled in delight. It was several minutes before the cheering subsided.

And so it was that Jackie went down—down to victory and up to the title.

DETROIT, July 26.—"I know he didn't mean to do it," said Jackie Fields in commenting on Joe Dundee's fouls.

"I'm grateful to him for giving me a chance to win the championship. I am only sorry I had to win it that way. It's the first fight I ever won on a foul. I regret it for the sake of the public which paid money to see a good fight."

DETROIT, July 26.—Joe Dundee was in tears in his dressing room after the fight.

"I think Jackie knows that it was unintentional," he told the United Press in discussing the fouling. "He is a great fighter and I wish him luck with the championship."

By BERT DEMBY
United Press Staff Correspondent.

CHICAGO, July 26.—Born Jackie Finkelstein in Chicago's ghetto—the part of this city where you use your fists or you don't get along—he's Jackie Fields now and welterweight champion of the world.

It isn't so long ago that those little ragamuffins who played about Halstead and Maxwell streets were wont to say "well maybe that's all right and maybe it ain't, if it ain't you better look out for Jackie, cause he'll bust your beezers."

They say of Jackie that he was "the scientific guy" of the district long before he ever was heard of as a leading welterweight, the boys who use their fists in the ghetto knew that he could beat a tattoo on a guy's nose without a return. Like many illustrious members of the sport world, Fields had to leave his home town to reach the top. He fought around Chicago for a considerable period without attracting any great notice. Then came one of the most popular fighters California ever has cheered.

A few months ago he got a "break" when the National Boxing association recognized him as one of the two leading contenders for the welterweight title.

HOOKER LYE
FOOD LIKE SO MUCH POISON

Warm Weather Food

The doctor says to be very careful about the quality of food eaten during this unusually hot weather. Only the choicest quality and standard brands should be bought. Food spoils easily and violent illness may be brought on by tainted food.

You can always depend upon Skiles for quality. We are careful that no inferior food should ever reach our customers.

SKILES GROCERY & MARKET
Corner Main at 14th. Phone 376-377

Two years ago specialists in Louisiana, where I used to live, advised me to come to San Antonio to recuperate from the after effects of a bad spell of malaria which had left me in a terrible run down condition.

"I didn't look like myself at all. My complexion and eyes had turned such an unhealthy yellow color. In place of nourishing me my food was just like so much poison. Constipation kept my system from throwing off these poisons and it just looked like I wasn't going to get any better."

"Sargon did more for me in less than one month than all the other medicines I have used in the past five years. A number of my friends have told me that they had never seen such a remarkable change in any one in such a short time. It is simply wonderful how Sargon brought back my color and benefitted me in so many ways."

"Sargon Soft Mass Pills are the grandest in the world to overcome a sluggish liver and I don't believe medical science has ever found or ever will find an equal of Sargon."

Mrs. E. Prudhomme, 616 West Woodlawn, San Antonio, Texas. Elliott Drug Store and Corner Drug Store, Agents—Adv.

WATCHING THE SCOREBOARD

By United Press.

Yesterday's hero—Hack Wilson gained this distinction for the second consecutive day when he clubbed two doubles and a home run to aid Chicago in its third straight victory over the New York Giants. The score was 8 to 5.

Wilson's homer, his third in two days, was not as effective as his second double which came in the eighth inning and drove in two runs. The victory increased Chicago's lead in the National league by a half game as the Pittsburgh Pirates were idle.

With Haines in form, St. Louis scored an easy victory over Philadelphia, 10 to 3. Two of the hits Haines allowed were home runs.

Cincinnati opened a consistent attack against the Boston Braves and hammered out a 14 to 2 victory. Red Lucas went the whole

route for Cincinnati, allowing nine hits.

The Philadelphia Athletics were hitting the ball on the nose and rolled up a 21 to 3 decision over Cleveland. Jimmy Foxx hit two homers for the winners and Mule Haas and Lefty Grove added one each.

Chicago took a 10-inning game from Washington, 3 to 1, using Walsh, McCain and Welland on the mound to turn the trick. Fred Marberry pitched the whole game for the Senators.

Rain and wet grounds forced postponement of other games scheduled in the two majors.

Quarter of Century as Submarine Diver Brings Rare Experiences

MOBILE, Ala., July 26.—His career of more than a quarter of a century as a submarine diver has dealt out many rare experiences for Van Morgan, nearly all of them beyond the range of the landlubber's life and some of them too hazardous to be comfortable.

Yet in all his experience, in which he has explored beneath the surface of the water in many climes, he has never encountered a job to equal his pace-setting record in the raising operations of the sunken Spanish steamship Manuela Pla.

This lumber-laden freighter sank close beside its wharf in Mobile harbor three years ago last

January. In the repeated attempts to raise the vessel, Morgan has made more than 200 diving trips in surveys, inspections, examinations, cargo-unloading and other under-water work on the submerged vessel. Since October, 1927, when he was first employed on the job, Morgan has put in approximately 150 diving days, going down twice or more many days.

The steamer has been lifted eight or ten feet recently by hydraulic pressure by the use of jacks and cables after massive cylinders were extended across the bow and stern from the wharf to clusters of piling driven on the

outer edge of the vessel. Progress was halted when it became necessary to refasten the rear cable, which lost its grip when the rudder apparatus to which it was attached broke away.

Previously two wrecking crews had tried unsuccessfully to dislodge the sunken vessel from the watery berth it has occupied for more than three years.

Morgan started out as a diver in 1900 and his occupation has carried him on under-water explorations in salvaging and other work in many parts of the world, but no other sunken ship has ever summoned him into his bulky waterproof outfit on anything like the number of times this one has.

His work as a diver has played him close to injury or death on several occasions. Once, aboard the Manuela Pla, he was more than an hour extricating himself after he had been pinned hard against the inside walls 20 feet or more under water by a floating stack of lumber in one of the holds.

Morgan has believed the vessel of its lumber cargo, although a considerable quantity still remains in the holds.

A railroad alongside whose wharf it sank is seeking the removal of the vessel because of the obstruction it presents there.

Chinese Are Planning China-Manila Flight

MANILA, P. I., July 26.—A non-stop airplane flight from China to the Philippine islands will be undertaken soon by the Amoy Civil Aviation school.

Feh Hsieh Shen, Fang Shin Liu and Chang Kwong Yang, three Chinese aviators, are in Manila seeking to enlist the aid of members of the local Chinese community in the non-stop China-Manila flight. Also they are seeking aid for the Amoy Civil Aviation school.

"China is aware of the numerous advantages, commercial and political, that will result from establishment of an airline across the China sea," Shen told local newspaper correspondents. "Only lack of adequate finances is postponing operation of a regular air service between China and the Philippines."

OFFERS HELP IN PAINTING BARN ANYTHING BUT RED

JANESVILLE, Wis., July 26.—In what he termed an effort to beautify the countryside, George S. Parker, fountain pen manufacturer here, recently offered any farmer 12 1-2 per cent of the cost

of painting his barn any color but red.

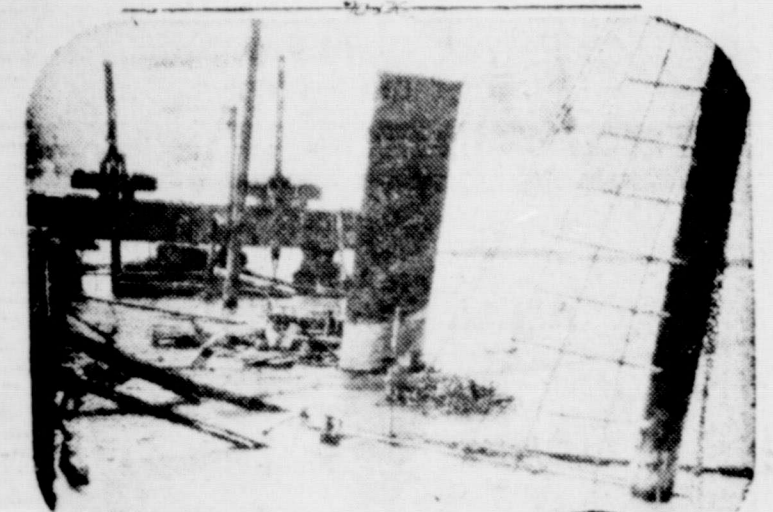

"The average farmer's barn is an eyesore," said Parker. "The red paint is monotonous."

Six townships were included in his offer.

News want ads bring results.

WILL DON PAJAMAS. Wednesday night Kammarcell raised his left arm above his head

LINDON, Neb., July 26.—Coney Kammarcell will soon discard his don his nightshirt, and discontinue nightshirts for pajamas. Retiring his shoulder.

The photo above shows the upper works of the sunken steamer Manuela Pla protruding above the water in Mobile harbor. At the right is Diver Van Morgan, who has made 200 trips to the submerged vessel.

SPEED TWIN BROTHER OF DURABILITY

F. A. Bower, chief engineer of Buick Motor company, who is one of the oldest engineers in point of service in the automotive industry, says every car manufacturer is striving constantly to better his product; to get more beauty, durability—and speed.

"Speed really is the twin brother of durability so far as automobiles are concerned," Mr. Bower declared. "One doesn't have to utilize all the speed at his command, but it is good to know it is there just the same. The fact that only a portion of the power is being used impresses one with the reserve supply. When we have this reserve we know we are not straining our engine. And that means durability."

"Automobiles are getting better and better. They last longer, are more dependable and much faster. Every year sees some advancement. One of the latest major improvements is the AC fuel pump, which is used as standard equipment on all Buicks and Marquettes.

"This device uniformly feeds the fuel from the gasoline tank to the

carburetor. No matter how fast or slow one is going or how steep the grade is, the pump supplies the exact amount of fuel needed.

"Take, for instance, the mountainous regions, or the open stretches of level country, the fuel pump will function efficiently in both places. Pulling power is especially necessary in the mountains—the pump meets all driving conditions ideally."

Speaking of early attempts to regulate speed, Mr. Bower recalled efforts of legislators to make installation of governors compulsory.

"The public did not want rash legislation then any more than now," he said. "Speed laws take care of that question. But the right idea was hit upon when the legislator sponsored better and wider roads."

"The better the roads, the better will be traffic conditions. Reasonable speed and reliable cars are aids to traffic. Excessively slow driving and junk cars not only slow up traffic, but are a positive menace to safety."

"There is a vast difference between fast driving and careless driving."

De Blondes Love
Pa and Ma Better
Than Husbands?
Are blondes more home loving and devoted to their families than brunettes?

This question is suggested by the story of Richard Barthelmess' sweetest starring vehicle, 'Drag', the first national telephone 100% talking picture which opens at the Palace theater Sunday.
'Drag' has two leading ladies, a blonde and a brunette. The blonde, Alice Day, marries the hero, but her home life is wrecked because of her excessive devotion to her own kindfolk, especially her parents...

Jack listened with ill-concealed annoyance. 'I don't like it, Molly,' he said flatly.
'It's better to get in wrong with the office than the racketeers.'
Molly wired two discreet stories that night, and telegraphed the office that she was going to New York and would be back on the job Monday morning. Then she telephoned Jack to meet her at the Grand Central.

During the journey she wrote several pages of dialogue intended for the play on which she and Red were to collaborate. They had decided that a road name would be 'The Death of Delphine Darrows.'
The curtain was to rise on Delphine's heridonded tour-de-force, white and beautiful del, between sheets of orchid satin. A young man, in conventional working on the court-garden in his buttonhole, would rise from his knees by the side of the bed, and dash from the room. Immediately the curtain would be lowered.

Mrs. D. E. McElton of Fort Worth returned home yesterday after a visit with her sister, Mrs. J. T. Waddell.

COLUMBUS O., July 26.—The woman who complained to City Health Commissioner Beer that weeds had overrun two vacant lots got action. The idea being that Commissioner Beer and Earl Lehman, laboratory technicians of the health department, were the owners of the lots.

Stand on any corner a few minutes and you can't help but see what great strides forward pedestrians are taking.

Hamilton—Lone Star Gas company will complete project of bringing gas here by October 15.

"IT CERTAINLY HAS PROVEN A BLESSING"

Eastland Housewife Gives General High Praise—Was in General Run-Down Condition.

Among the many Eastland people who have recently expressed their hearty and sincere approval of Orgatone after putting the medicine to a practical test and deriving convincing results from it, none are more genuinely enthusiastic than Mrs. Martha Hart, who resides at 1314 South Seaman St., Eastland, Texas.

"I certainly do give Orgatone credit for my great improvement," said Mrs. Hart, "for it has helped me over a nervous, run-down condition that has honestly been with me for the past twenty-five years, and the last two years I have been going from bad to worse until I simply felt like I had no life left in me at all.

"My stomach just seemed to go back on me entirely, for almost everything I tried to eat would ferment and form sour gas and give me such a puffed-up, miserable feeling that sometimes I felt like I couldn't get another breath to save my life. The pressure around my heart that came along with some of these attacks would frighten me and make me so nervous and weak I could hardly stand it.

"I couldn't sleep at all well at night and became so badly run-down I was simply not equal to anything, and oftentimes felt like it was impossible for me to do my housework, and really if I hadn't heard about this Orgatone and given it a trial I don't know what would have become of me.

"I have taken it about three weeks now and I can say positively and candidly that I have never felt better or stronger in my life. I have gained in weight and strength and my stomach troubles have left me as completely as if I had never suffered with them a day in my life.

"My food agrees with me perfectly now and I am not bothered with gas or nervousness in the least. I sleep just fine and if there's any reason for me not recommending Orgatone I don't know what it is for it surely has proven a blessing to me."

Genuine Orgatone is not a so-called patent or secret remedy but a new scientific bile treatment and is manufactured by one of the world's greatest laboratories and is sold in Cisco exclusively by Deat Drug Company.—Adv.

LIGHTNING STRIKES TWICE; THREE MINERS ARE VICTIMS

VIRGINIA CITY, Mont., July 26.—Three miners here were the victims of two lightning bolts, spaced only a few minutes apart. The first hit a tree near them as they were returning to their cabin. It knocked them down and rendered them unconscious. Recovering, they continued their

journey, and just as they entered their cabin, another bolt hit, tearing off the roof, knocking them down again, and showering them with debris. They were unharmed. Karl Anderson, Frank Wright and Robert Timmurray were the miners.

Big Lake—City leases site near Orient station to private party for filling station.

EFFICIENCY FOR RUSTLERS

MILES CITY, Mont., July 26.—Even the cattle rustlers are putting old range habits and practices "business" on a modern basis. They have stopped using horses in their work, and are employing large trucks to transport stolen cattle to secret ranches, to coulees or canyons where bands may be changed at will.
