"Get the Reds! String 'em up!" shouted an anti-communist mob of Gastonia, N. C., men, infuriated by the disclosure following a mistrial that jurors favored acquittal of the sixteen strikers and communists charged with the murder of Chief of Police O. P. Adersholt. Here are the three radical labor leaders kidnaped by the mob. C. M. Leil, and Cliff D. Saylor, right, escaped injury at the hands of the raiders, but Ben Wells, center, a British communist, was severely beaten. They said threats of death were made against a member of the defense counsel and several labor organizers.

COLUMBUS, O., Sept. 17.—Awaiting his fate with an indifferent calm, Dr. James Howard Snook, condemned slayer of Theora Hix, his college girl sweetheart, today spent his 50th and what may be his last birthday in death row at the state penitentiary.

Closing Arguments Likely to Begin Late Today

NEW BRAUNFELS, Sept. 17.—The state rested its case this morning in the trial of Becky Rogers, the Texas university co-ed who discarded her school books for a course in bank banditry.

Otis Rogers, who is trying to save his child wife from prison, announced immediately afterwards that he would recall three expert witnesses for rebuttal testimony.

Indications were that closing arguments in the trial would commence late this afternoon with a bare possibility that the jury would get the case tonight.

CHANGES IN WIND SAVE TWO TOWNS

Loss Will Run Into Many Millions of Dollars

PORTLAND, Ore., Sept. 17.—Although changes of wind appeared today to have saved two towns from destruction by forest fires, the red demon burned on and on to new fronts, leaving behind it only ashes and obliterated stumps.

Human lives, 11 of them, it stood today, have been taken. Farm houses, schools, mills and hundreds of thousand of acres of proud, green fir trees have been swept away. The loss of animal life, cattle, horses, dogs, deer and all the smaller animals of the woods was uncounted, but known to be appalling. As for the loss in dollars, no one can even estimate it, although it is known it will run to millions.

FUNERAL FOR SLAIN WIDOW HELD TODAY

BESSEMER CITY, N. C., Sept. 17.—In a tiny, isolated cemetery with labor organizers shouting criticisms at her slayer, Mrs. Ella May Wiggins, 35-year old widow and textile striker, was buried here today.

Mrs. Wiggins was shot to death late Saturday while en route to a strikers' rally in South Gastonia, when gunmen fired into a truck load of workers.

Many had plodded through the red clay and in the drenching rain to the cemetery long before the grave was ready to receive the inexpensive gray casket that bore the victim's body.

The cheap but bright dresses of the women mill workers were sodden. Their grim faces were moist. They stood about patiently.

The hearse arrived and the procession began. The automobiles plowed through the muddy roads. One car became mired in the clay near the center of the cemetery.

Did You Ever Stop to Think?

By EDSON R. WAITE, Shawnee, Oklahoma.

Reaching from San Francisco north to Crescent City and the Oregon line is a country rich in resources, varied in terrain and equable in climate, a section of California that is little known to the outside world. It is a resource rich opportunity were known. It would not lack for investors, agriculturists and manufacturers to aid in its development and add to its storehouse of wealth.

Walls there I met R. J. Andrus, president of Public Utilities Consolidated Corporation, a Foshay managed company, who operates utility properties in that section. I most certainly had to agree with Mr. Andrus when he said: "Northern California is a paradise for the traveler, the sightseer, the vacationist, the seeker after opportunity to invest, live and prosper."

New Worries for Prohibition Men

FIVE POINTS, La., Sept. 17.—Opponents of the prohibition laws will be happy to learn that a new drink has been concocted—a drink guaranteed to supply plenty of "kick."

When police here demanded to know what beverage had caused a man arrested for intoxication to have such a rosy outlook upon the world, they were given the following formula:

Strain the alcohol from a can of canned beef, through a cloth, mix to taste with dry rum, snake well and apply internally.

It was presumed by officers that by rum, besides helping the kick, added a delightful flavor and color to the drink.

When arrested the man had in his possession two bottles of bay rum and three cans of canned beef, providing that regardless of general consensus of opinion concerning his mixture it rated ace-high in his own estimation.

Innocent Cheat

© 1929 BY NEA SERVICE INC.

THIS HAS HAPPENED HELEN PAGE feels unhappy when the girls at the boarding school tease her about posing as Miss Simplicity to please her handsome guardian, LEONARD BRENT, with whom they accuse her of being in love. And her roommate calls her a fool after they see him at the Ritz one day with another woman.

NOW GO ON WITH THE STORY

CHAPTER XI Even Helen was touched by the piteous quaver with which Mr. Cunningham echoed Brent's words. It bespoke a yearning that had little in keeping with the character that had been attributed to her grandfather. The disparity consoled her.

"I have a great deal to do with her story and with your granddaughter," Brent returned quietly. "But with you, sir, I should prefer not to deal were it not forced upon me."

COULDN'T SLEEP, SO MUCH PAIN

Lady Says She "Hurt Nerally All Over" and "Nerves Were All on Edge."

New Albany, Ind.—"About ten years ago, I was just about run-down," writes Mrs. David Brock of 1102 West Main St., this city. "My back and limbs ached; in fact, I hurt nearly all over. I had had, sick headache spells, and my nerves were all to pieces."

"I could not sleep at night; could hardly have any rest at all. I was barely able to get around to do my work. I kept up just because I was a mother with five little children to care for."

"I read about Cardui. I thought it might help me. So I bought a bottle and began to take it."

"It was such a benefit to my health. By the time I had taken the first bottle, I felt so much better. My husband insisted on my giving Cardui a fair trial, so I kept on until I had taken several bottles, and at last found myself a well woman."

"Thousands of other women, who had been in a run-down, suffering condition, have reported that after taking Cardui they recovered good health."

PLAINS WORKS FOR CREAM PLANT

PLAINS, Sept. 17.—Much has been manifested in the creamery movement here. It has been started by the Plains Lions club and a date has been set for a meeting of all cream and dairymen in this county, including Pioneer, Rising Star, Cottonwood, Burkett, Deer, Snake and Nimrod. The meeting will be held in the basement of the Methodist church at 7 o'clock Friday evening, Sept. 18. Several creamery men will be present and plans will be made for a survey of the number of cream plants in the county to determine the size plant necessary. A committee will probably be organized so that the money can be raised and the work started at once. Creameries are being built and operated in surrounding towns and we must build a creamery here or allow the business to go elsewhere. Details will be worked out at the meeting for coming and it is thought this year can easily be worked out.

HER NERVES "ON EDGE" ALL TIME

"When a neighbor of mine told me how much Sargol has helped her, I made up my mind to try it, and now I can't thank her enough."

"For over a year I was in bad health. I had a bad case of nervous indigestion and would wake up mornings with a raging headache. My nerves were on edge and I never got a good night's sleep. Even the lightest foods disagreed with me and I was badly constipated."

"I never saw anything to equal the way Sargol ended my troubles. I haven't had a sign of indigestion since I finished the first bottle and I can now actually eat such things as pickles and cabbages without bad after effects. My nerves are back to normal, the headaches have stopped and Sargol Soft Mass Pills ended my constipation without even nauseating me at all. I feel just as well now as I could want to—and I give Sargol all the credit!"—Mrs. Ed Phillips, 2513 Market St., Fort Worth.

ELECTRIC MAN IS UNABLE TO USE 'PHONE

PLYMOUTH, Eng., Sept. 17.—Frederick Stone, chauffeur at Holsworthy, North Devonshire, is so charged with electricity that:

1. He cannot use a telephone or wear a radio headpiece without receiving a shock.
2. He cannot drive his automobile or walk without wearing vulcanite pads in his shoes.
3. He can locate buried gold, silver and copper.

This strange "electrical" man has spent 20 of his 49 years in hospitals puzzling doctors.

A public test of his divining powers has been held at Plymouth Municipal museum under the supervision of the curator. The electric man located without trouble buried nuggets of gold, gold-bearing quartz and even gold jewelry.

Stone finds hidden gold and copper by means of a wand consisting of an ordinary steel clock spring. This twists and wiggles in his hand like a snake when he approaches buried treasure. The number of wiggles denotes the number of feet he is away from the exact spot.

Discussing his unusual gift, Stone said that these divining spells put a great strain upon him and were always followed by periods of intense lassitude.

"The only way I can get relief from the electric currents when I am thus overdone," he said, "is to touch wood."

"I enjoy listening to the wireless by loudspeaker but as soon as I put on a pair of headphones I feel physical helplessness as if I had received a blow on the head. I cannot use a telephone without intolerable discomfort.

"I once wore my wife's wrist watch and it came all to pieces. I must be supercharged with electricity."

The shoes Stone wears have soles an inch thick made of old motor tires. Several doctors here decided that he suffers from some form of St. Vitus' dance.

Families Pluck Tomorrow's Pies

BIG HARBOR, Wash., Sept. 17.—Residents of this little community are preparing to reap the annual harvest of huckleberries that will net them approximately \$72,000.

Men, women and children will work their way through a strip 60 miles long and from 10 to 30 miles wide along the picturesque Olympic peninsula, clubbing the bushes and knocking down the berries, which will be caught in wash tubs, boilers, kettles and all manner of containers.

Shippers pay 5 cents a pound for the berries, including the pine needles and other debris that is picked up. Local merchants buy the berries, blow them clean and market them for pies and canning.

The huckleberries, of a black variety, will be shipped to packers in Seattle, Puyallup, Tacoma and Olympia.

The season continues from September to December and some pickers make between \$500 and \$600.

Ranger Revival to Continue 2 Weeks

RANGER, TEX., Sept. 17.—Eight hundred people were present one night for the revival services at the First Methodist church of Ranger. Ora Simmons, girl evangelist, preached to perhaps more people in one week than anyone in the history of the church. Great crowds attend the services.

Many people from the surrounding town attend the services. It is announced that the revival will continue for two more weeks.

Men and Women Need Not Have Gray Hair.

Nature Will Keep the Hair Youthful Shade. Free of Gray

LIFELESS GRAY HAIR REGAINS OLD BEAUTY

Everybody knows if color glands and hair roots are healthy and active the hair will continue indefinitely a rich, natural color entirely free of gray or streaked locks.

A doctor several years ago asked himself this question: If I can stimulate digestion, liver, heart, etc., with a tonic, why not rub a stimulating tonic into the scalp that will revive those inactive glands so nature in her own natural way will resume putting plenty of pigment into the hair tubes—surely the hair will then resume its original beautiful shades of youth regardless of user's age or previous condition of their hair.

The doctor's search led to endless experiments. He didn't want a regular dye or tint, and it, of course, must be harmless even if a person used it many years. Now under the name, "Lea's Hair Tonic," anyone may purchase the preparation he finally perfected. For several years hairdressers over the country have been using it. Results are so nice and gradual men use it too. It doesn't stain the scalp and as a test one need

only apply it to some small spot a few days to watch results. Shampoo as often as desired. Easy to apply yourself at home and look years younger.

Most people first try Lea's for gray hair, but it is primarily intended as a stimulating tonic to put the scalp and hair in healthy, vigorous condition. Of course with a healthy scalp comes more beautiful hair and restoration of the natural brilliance and shade exactly suited to your complexion. There are some three thousand shades of color in human hair—no dye expert can paint one's hair as exquisitely as nature. Lea's merely stimulates nature when massaged into the scalp—puts nature back on the job, you might say, and what is more beautiful or becoming than nature's own choice of shade to match your eyes and beauty.

If reader desires to try Lea's Hair Tonic on guarantee of complete satisfaction, they should get a bottle at drug store or pin dollar bill to this advertisement and send to Lea's Tonic Company, Brentwood, Md., for regular size bottle, full directions, postage paid. Experts cannot detect the use of Lea's Hair Tonic. Sent parcel post, C. O. D., if you wish—12c extra. Dean Drug Co.—Adv.

SHE BELIEVES ORGATONE WAS HER LIFE SAVER

Ranger Housewife Declares Medicine That Will Do What Orgatone Did for Her Deserves Praise.

"By the help of Orgatone I have overcome troubles I had begun to fear would end my life," said Mrs. R. E. Gallagher, who resides at 720 Poch Street, Ranger, Texas, recently.

"My stomach has been troubling me for twenty years," she continued, and I had gotten to where I couldn't eat even the lightest of diet without suffering afterwards. At times my stomach was so gassy and upset, that I couldn't retain a thing. The doctors told me I would have to have all of my teeth pulled out which I did and this did not help my condition one bit and I steadily grew worse. I was so nervous and miserable I could hardly sleep at all and could do no housework without feeling completely exhausted. I was badly constipated and would often get so dizzy I had to lie down."

"I took nearly every medicine I ever heard of and tried in vain so long without getting anything to help me that I had begun to think I couldn't get well. Then I commenced to hear so much about Orgatone and while I never got much relief from my first bottle, the second got me to eating heartily and sleeping fine. I now have such a big appetite that I can hardly get enough to eat and my stomach trouble is completely gone. So now I can eat what I want, sleep like a child and am praising Orgatone for my wonderful recovery. I firmly believe it has saved my life and such a medicine is worth praising."

Genuine Orgatone may be bought in Cisco, at the Dean Drug Store.—Adv.
