"You've been married longer;

and George weren't getting along well after being married only three months.

"..... he used to be so cheerful," Alice said, dabbing at her eyes, "and now he's so irritable especially at meal times. This morning after breakfast he growled a good-bye to me and "

"How many cups of coffee did he have?" June asked, shrewdly.

"One-and he drank only half."

"What kind of coffee was it?"

"It was . . . why, I really don't remember. What difference does it make?"

"All the difference in the world, my dear," June told her chum. "A husband without good coffee at breakfast is like a bear. I made the same mistake with Dan. You get White Swan Coffee for George and . . . well, you just get it. You'll get the surprise of your life."

Alice got both - the coffee and the surprise.

It never takes a bridegroom any longer to begin praising his wife's coffee than it takes for her to discover White Swan. Its appetizing aroma and satisfying flavor are always welcomed as essential to the full enjoyment of every meal.

The delicious quality of White Swan is the result of many highly perfected processes; some as old and artful as the happy custom of serving coffee; others as new as science can devise.

Modern roasting ovens bring out the natural flavor of the imported coffees which are so nicely combined and balanced in achieving the full, rich quality of the White Swan blend.

> WASHINGTON, Dec. 13 .-Without a single objection, the administration's \$160,-000,000 tax cut resolution was brought before the senate today. Prospects for early passage were bright although the parliamentary situation will offer opponents of the resolution an opportunity later to block the resolution if they choose.

The brief debate which preceded adoption of unanimous consent agreement for consideration of the resolution, indicated the opponents would let the resolution pass without any serious delay.

Chairman Smoot of the senate finance committee opened the tax de-bate urging that the measure would be beneficial to industry and individuals. The corporations will get \$90,000,000 of the reduction and individuals but \$60,000.000, he admitted, but contended the percentage reduction was greater for individuals.

Normal tax rates are to be cut, he explained, from 1 1-2 per cent to half one one per cent on the first \$4,000 of income from 3 per cent to 2 per cent on the next \$4,000 and from 5 per cent to 4 per cent on the third \$4,000. The corporation tax is to be reduced from 12 to 11 per

You've been married longer; maybe you

can tell me . . JUNE thought

something terrible must have happened when Alice came to her in tears and said that she

and George weren't getting along well after being married only three months.

"..... he used to be so cheerful," Alice said, dabbing at her eyes, "and now he's so irritable especially at meal times. This morning after breakfast he growled a good-bye to me and ? ."

"How many cups of coffee did he have?" June asked, shrewdly.

"One—and he drank only half."

"What kind of coffee was it?"

"It was . . . why, I really don't remember. What difference does it make?"

"All the difference in the world, my dear," June told her chum. "A husband without good coffee at breakfast is like a bear. I made the same mistake with Dan. You get White Swan Coffee for George and . . . well, you just get it. You'll get the surprise of your life."

Alice got both - the coffee and the surprise.

It never takes a bridegroom any longer to begin praising his wife's coffee than it takes for her to discover White Swan. Its appetizing aroma and satisfying flavor are always welcomed as essential to the full enjoyment of every meal.

The delicious quality of White Swan is the result of many highly perfected processes; some as old and artful as the happy custom of serving coffee; others as new as science can devise.

Modern roasting ovens bring out the natural flavor of the imported coffees which are so nicely combined and balanced in achieving the full, rich quality of the White Swan blend.

After roasting, White Swan is packed in sealed tins and handled promptly. No chances are taken with the freshness of its flavor. Your dealer is within convenient shipping distance of one or more of the 22 Waples Platter Houses strategically located to insure quick distribution. Fleets of motor trucks which operate over established routes make regular deliveries to the 10,000 White Swan dealers.

By going to the very source for its product, by controlling every stepofits preparation and distribution, this institution of the Southwest, with more than a half century of experience, makes sure that no finer coffee can be brought into your home for the price you are asked to pay.

Now, and whenever you need a fresh supply, White Swan Coffee is available at your grocer's freshly packed in one and three pound cans.
