16 ARE KILLED IN MINE EXPLOSION No Indication of Agreement Given by Brady Jury PROBE OF STATE OFFICES SOUGHT

RESOLUTION OFFERED IN LEGISLATURE

State Comptroller and Treasurer Are Under Fire

AUSTIN, Feb. 7.—A house concurrent resolution calling for a committee to investigate charges against conduct of the offices of the state comptroller and state treasurer was offered today in the house of representatives after filing a supplemental report by State Auditor Moore Lynn.

The resolution prepared by Representative Alfred Petch of Fredericksburg calls for a committee to investigate specifically 13 charges against the comptroller's department and eleven against the state treasury.

If the work cannot be completed by the end of the present special session the resolution authorizes the committee continue its work and report at the next called session.

The committee is directed to include in its report its recommendation of any action that should be taken and specifically "whether said officers have been guilty of any official misconduct."

Reading of the resolution was interrupted after the preamble on a point of order by Representative Harold Kayton of San Antonio. As unanimous consent was necessary to take it up at the time, the reading ended.

The senate has invited the state auditor to address the senate this afternoon.

One of the matters upon which investigation is asked in connection with the comptroller's department is that in his statement to the auditor the comptroller failed to account, and has not to this day, accounted for over \$40,000 deposited by him in the Austin National bank. This section had not been read when Kayton objected.

Pythians Will Meet at Eastland

EASTLAND, Feb. 7 — Knights of Pythias members of Gorman, Ranger, Cisco, Breckenridge and Eastland will meet here Tuesday night at 7.30 for a get-together meeting, according to an announcement made by A. M. Smith, deputy district grand chancellor of Breckenridge.

A special program, which will include a banquet, is being arranged for the occasion.

Ousted Manager Seeks Mayor's Job

BEAUMONT, Feb. 7 — Ousted from his position as city manager two weeks ago by the commission, J. M. Anderson has announced his candidacy for mayor. City primaries will be run off Feb. 28. The office of city manager was declared vacant by the commission when Anderson refused to comply with that body's demand for his resignation.

IN CAPITAL'S SOCIAL WHIRL

Among the socially prominent young women of the national capital who are taking a leading part in Washington's brilliant winter social season are those pictured above. They are: (1) Miss Maria Sacasa, daughter of the Nicaraguan minister to the U. S., shown as she enjoyed a recent snow in Washington; (2) Miss Jane Hanna, one of the prettiest of the season's "debs"; (3) Mrs. T. A. Scott Thripp, a young matron who is among the leaders of her set; (4) Betsy McAllister, daughter of Lieut.-Col. and Mrs. John A. McAllister, prominent in the younger army circle; (5) Anne Virginia Ashburn, daughter of Colonel and Mrs. Percy M. Ashburn, who made her bow to society just recently.

Says Congress Can Make Beer Legal

By KENNETH G. CRAWFORD
United Press Staff Correspondent

WASHINGTON, Feb. 7. — Representative James M. Beck, Republican, Pennsylvania, former solicitor-general of the United States, advanced the legal contention today in a house speech that congress itself has power to legalize light wines and beer, without repealing the 18th amendment, by vesting in the states the enforcing powers.

Congress, Beck said, "could, without any violation of the constitution, reach the conclusion that the methods of enforcement and the actual enforcement of the 18th amendment were best left to the states."

"It must be remembered," Beck said, "that the fugitive slave law also was a part of the constitution, but the attempt to make the people of the north involuntary slave catchers provoked such an intense moral revolt that Webster did not avert the Civil war, but simply destroyed himself in his honest attempt to save the union by making the fugitive slave section of the constitution more obligatory."

"The result as a sinister omen to the Republican party even in this day of its great power. The Whig party perished and the Republican party came into being. I say it with regret but I say it is a necessary warning. The party did not emancipate the slave to put the white man in the chains of an intolerant policy."

"The Democratic party can retain its hold upon its rank and file by the 'vis inertiae' of invincible prejudices, but the Republican party cannot hold forever the large number of self-respecting men and women to whom the intolerance of prohibition is a moral affront. It cannot forever be half wet and half dry."

Beck chose for the theme of his speech the opening statement of the law enforcement commission's preliminary report, which warned that in any consideration of the prohibition question the Whig tradition

12 MEN STILL PONDER FATE OF DEFENDANT

Judge Says Nothing as He Waits Verdict in Case

AUSTIN, Feb. 7.—Still "in action" after 67 hours of confinement, the John W. Brady murder jury continued to keep the waiting world in suspense at noon today, and gave no indication that an agreement is possible.

High up in the weather-beaten old building, but within the view of passersby who watched them through three windows in the jury room, the 12 men continued to ponder the circumstances surrounding the killing of Miss Le-lia Highsmith, for which Brady is on trial for his life, and to debate whether or not he should be punished, or perhaps sow severely.

No word came from behind the locked door. Judge J. D. Moore volunteered nothing.

"I don't know a thing," he told newspaper men who quizzed him. "I won't do anything until the jury moves first. I think courtesy demands that."

A few pedestrians at a time gathered across Congress avenue and watched the jurors move about in their third floor "prison." They are confined there until the judge sees fit to discharge them.

District Attorney Henry Brooks and Dayton Moses, the chief counsel for Brady, relaxed themselves in chairs in the judges office and talked about subjects, but neither would offer any comment on the situation in the jury room.

Judge Moore has indicated he will keep the jury locked up until tomorrow at least. They probably will be discharged late Saturday if they have not reached a verdict.

If a hung jury is the final result, it is the general opinion that the 50-year defendant who has been in jail since the November 9, the night of the killing, will seek release on bond and possibly a change of venue.

TO RECOMMEND WURZBACH BE AWARDED SEAT

WASHINGTON, Feb. 7 — The house elections subcommittee considering the contest between Harry Wurzbach, Republican and August McCloskey, Democrat, for the house seat from the 14th Texas district, will recommend Wurzbach be declared the winner. Chairman Sears announced today.

The report, Sears said, will probably be unanimous, in view of McCloskey's request that his rival be given the disputed seat. This request was made after a partial recount of ballots.

The only question now unsettled is whether the committee's report will uphold Wurzbach's charge that the returns upon which McCloskey was awarded the election by a commissioner's court, were fraudulent. Sears refused to reveal the committee's opinion on this point after a closed session today.

NEWCOMER TO CISCO

J. C. McCoy, of Fort Worth, is a recent addition to the citizenship of Cisco. He has assumed his duties as pharmacist at the Elliott drug store.

UNDERGOES OPERATION
K. L. Kunkel will undergo an operation at Scott-White hospital in Temple today.

County Chairman to Abide by Ruling

EASTLAND, Feb. 7 — Ed T. Cox, county Democratic chairman, stated today that so far as he was concerned the Eastland county Democratic executive committee would abide by the ruling of Attorney General R. L. Bobbitt and all who made application for pieces on the ticket would be placed on it. "Of course I cannot speak for the other members of the committee," Mr. Cox said.

PASCHALL IS DRILLING NOW AROUND 500

The Anna Belle Oil company's Mrs. Lula Paschall, et al, located just within the eastern edge of the city limits is drilling at about 500 feet now after spudding in February 1. Rapid progress is being made in this test.

The well is of considerable interest to Cisco. Oil men declare that it is excellent located.

Location is between the Cisco and North-eastern and the Texas and Pacific railroads just east of the highway leading toward Breckenridge.

BANKER IS CHARGED WITH FUNDS MISUSE

HOUSTON, Feb. 7 — A. T. Schwarzbach, cashier of the South Texas National bank of Galveston for twelve years, was charged before U. S. Commissioner McMahon here today with misappropriating \$116,000 from the bank.

Schalz Hutchings, chairman of the bank's board of directors, said Friday that an examination of the books showed the misappropriations had been going on for "seven or eight years."

The charge was filed by F. R. Peterson, National bank examiner at the Federal Reserve bank, Houston, after he had been called and made an investigation.

Schwarzbach is in a Galveston hospital suffering from a broken leg sustained January 17, when he fell down a stairway at the bank during a fire in a studio at the rear of the bank.

The charge filed before commissioner McMahon charged that Schwarzbach "did feloniously misapply" funds of the Galveston bank, "on or about January 16, 1920."

Hutchings said the entire shortage was covered by a fidelity bond and that all funds had been taken care of.

Condition of Mr. Langston Unchanged

The condition of George Langston old-time resident of Cisco, is reported to be unchanged since Wednesday when he suffered a slight stroke at his home, 306 West Broadway. The attending physician states his case to be very serious.

Taft Continues Improvement

WASHINGTON, Feb. 7 — A bulletin issued at 11:30 a. m. today by Chief Justice Taft's physicians further confirmed the improvement in his condition noted last night. The bulletin said he is continuing to improve and is taking more nourishment.

KITTENS OFF ON TOUR OF TWO STATES

Randolph Team Will Play Arkansas and Louisiana Girls

Ten members of the Randolph college Kittens basketball team, southern A. A. U. champions of 1929, with their coach, H. R. Garrett, and Mrs. Ina Query, chaperon, are leaving by bus at 7 o'clock tomorrow for a week's tour of Arkansas and Louisiana during which they will meet outstanding girls teams of those states.

Those making the trip will be Delma Fullard, captain, Kathleen Darrell, Anne Greenlee, Beola Kirby, Juanita Wright, Pearl Teddlie, Thelma Russell, Mattie Bess Russell, "Pat" Patterson and Glad Johnson.

The Kittens will play their first game Monday evening, meeting the Hartman, Arkansas, independent team in the first of a series of two contests. They will play the second game with this team Tuesday evening.

From Hartman the team will go to Monticello, Arkansas, to meet the Arkansas A. and M. sextet Wednesday night.

Thursday the team will play the Home-Accident Insurance company team at Little Rock. This team has scored 600 points to opponents 200 in the 17 games they have played this season. Of the 17 games they have won 14.

Friday evening the Kittens will play a Sparkman team and Saturday night they will wind up their week's tour schedule by meeting a team at Shreveport.

Returning home the following week the Kittens will play the Golden Cyclones, of Dallas, at Cisco in a return game.

LOBOS DEFEAT SCRANTON FIVE BY BIG SCORE

The Cisco Lobos defeated the Scranton high school team 39 to 7 in the first game of the final series in the county basketball championship playoff last night. The game took place at the high school gym and a second game will be played tonight, if the Lobos win that game, which is more than likely, they will progress to inter-county competition.

Ranger Police Chief First to Identify Cole Oglesby After Ft. Worth Capture

RANGER, Feb. 7 — The first identification of the wounded bandit in Fort Worth as Cole Oglesby, who has flitted about like a phantom while West Texas authorities have looked for him for many months, was made by Police Chief Jim Ingram of Ranger.

The man had given his name as Albert Oglesby but when Chief Ingram walked in, he immediately recognized the wounded man as Cole Oglesby and the latter greeted him with:

"Hello, Jim."

The officer and the prisoner chatted and Oglesby remarked, "I went a long time without getting shot."

Firemen Ponder Fellows' Lack of Consideration

WACO, Feb. 7 — Two Waco firemen wanted a ride last night. They got it, but not to the desired destination.

The problem of transportation from a remote residential district to station headquarters struck the duo as easy of resolution. They turned in a false fire alarm.

Out roared the fire ladders, to find their buddies seated on the curb near the box.

"We want a ride back to the station," the spokesman explained in the approved Volstead accent.

They got a ride, but it was to the police station. The couple had the night in jail to ponder on the lack of consideration of their fellow firemen.

CHICAGO SENDS SCRIPT IN LIEU OF REAL MONEY

CHICAGO, Feb. 7 — Scrip went out from the emptied city coffers today in lieu of real money to pay Chicago's debts.

Tax anticipation warrant No. 1 of the 1930 issue, bearing the signature of William Hale Thompson, mayor of the city and once hailed as "Big Bill, the builder" was turned over to employees and firms to whom the city owes money.

Several merchants have indicated that they will accept the scrip at face value.

Issuance of scrip has been opposed from the first by Attorney Silas H. Strawn and members of his "citizens' rescue committee."

The citizens' group has consistently maintained that issuance of scrip, or tax anticipation warrants, would place the city under a burden of \$404,000,000, and would not meet the essential necessities now.

Deputy Controller Peterson said that any creditor of the city who wished would be paid in tax anticipation warrants and that any of the 25,000 city employees who have not been paid for more than a month may also get his salary in scrip by applying to the controller's office.

The move to pay in scrip was taken as a start of a war on the Strawn "rescue" committee by the forces of Mayor Thompson, who never has been more than lukewarm in accepting the aid of the committee.

CRITICALLY ILL

Chester Norvell, son of Mr. and Mrs. L. B. Norvell, who has been critically ill with pneumonia at his home, 807 West Broadway since last Monday, is not improved, it was stated today.

MANY OTHER MINERS ON MISSING LIST

Rescue Crews Tear Frantically at Ruins Today

HELPER, Utah, Feb. 7. — While grief-stricken women and children huddled about the camp awaiting news, every available mine rescue crew in Carbon county worked feverishly today to penetrate the gas-filled drifts and stopes of the Standard coal mine, in which at least 16 men were killed when an explosion spread rocks, timbers, debris and gas through the mine last night.

Between 26 and 35 men were in the mine at the time of the explosion. Sixteen bodies had been recovered shortly before noon today. Nine men were brought out alive, and the fate of 13 others reported unknown.

Three men emerged from the mine a few minutes after the explosion. Sixteen bodies were found barricaded in a small room, into which they fled to escape the gas fumes.

Mine officials and members of rescue crews declared that most of those who died were killed by gas, rather than by the force of the explosion, and rescuers worked fast with the hope that others had been able to seal themselves in small rooms and escape the fate of those caught in open stopes and drifts when the deadly fumes spread.

Standard's mining village in which the tragedy occurred, was covered with a pall of smoke and dust, emerging from the main entrance to the mine.

A sweeping investigation had failed to disclose the definite cause for

SCHOOL HEADS ELATED OVER AID DECISION

SAN ANTONIO, Feb. 7 — Texas school authorities were elated today over the action of Chief Justice W. S. Fly of the fourth court of civil appeals in reversing the decision of District Judge R. B. Minor, which held the \$3,000,000 rural aid appropriation of the legislature unconstitutional.

Judge Fly's opinion nullified the injunction granted by Minor, and restored the rural school aid fund in full force and effect.

The Minor decision affected 3,000 schools and threatened to keep tuition from 325,000 school children.

Under Judge Fly's decision the rural schools will continue uninterrupted unless the plaintiffs in the case can obtain an emergency writ from the supreme court restoring the injunction. Attorneys for the contesting litigants announced they would seek a rehearing and if necessary would appeal to the supreme court.

A HINT TO TEXAS COTTON GROWERS.

Forty-six per cent of the cotton growers of Texas are land owners. Sixty-four per cent are tenants. All these are reminded that the government of the United States is behind the cooperatives but it is not behind the who go it alone and walk in the ruts of the past.

It is announced that the American farm bureau of cotton growers has decided to affiliate with the cooperatives. It is a long, long road to Tipperary. The English of this is that if the cooperative movement is a failure then federal farm relief will go on the rocks.

Like-wise it is known that the farm relief program calls for the restriction of acreage in order that the supply of the fleecy staple shall not exceed the demands of the market of the world.

Carl Williams is in Texas. He is the champion of the farm relief bill. Will his ideas control or will they be rejected by a vast majority of those who produce the Texas cotton crop.

AUTO LIEN HELD AS A BAR.

A dispatch from Denver carries the news that the United States circuit court of appeals of the 10th district ruled that a corporation which in good faith sells an automobile on the installment plan can exercise its lien if seized for transportation of liquor. Why not? Why should the property of an innocent seller be confiscated if he has acted in good faith? This should be a government of law and property rights.

ANOTHER NOBLE EXPERIMENT.

President Hoover has advised the American people to organize for the making of another noble experiment. He calls it "the search for truth." Why not peer into the bottom of the deep well? It is said old lady truth is the habitant of the deep excavation. Moreover, the experimenter is reminded that it is just as easy as jumping from a high diving board into the ocean water below.

A TEMPERANCE LECTURE WORTH WHILE.

The multitudes who have read the testimony in the Brady trial are reminded if there are powerful reasons to be found in stones, there are very impressive sermons to be found in the recital of the witness as to the demoralizing and degrading and disastrous effects of "red licker." It is not necessary to go to the speeches of the dead Bryan or the living Borah for total abstinence to find their arguments against the use or abuse of intoxicating liquor as a beverage.

Did You Ever Stop to Think?

new customers, but encourages old customers to buy more. Quality, persistently advertised, creates a desire that only possession satisfies. The only way to get business is to go after it by advertising. Getting business by advertising is easy, cheap and sure.

Seeking County Superintendency

B. E. (Bert) McGlamery, of Eastland is this week announcing his candidacy for the office of county superintendent. Mr. McGlamery is well-known throughout the county and needs no introduction. He was for two years superintendent of the Gorman schools and in all has had 17 years experience in public education, eight years being spent as a teacher in the schools of Fort Worth, Wichita Falls and Abilene and six as superintendent at Haskell, Hico and Gorman.

MIAMI, Fla., Feb. 7 — Damage estimated at \$60,000 was caused here by an explosion which wrecked Gar Wood's Fat Express Cruiser, Gar. Sr. Two workmen were slightly injured by the blast. The boat, whose stern was blown off, as 70 feet long.

The program for assembly Wednesday was rather hastily gotten up and, though informal, was a very good one. Jewel and Madeline Ely gave a musical selection; Pete Station sang "Juanita"; the "Pied Piper of C. H. S.," better known as Dick West, accompanied at the piano by his sister, Mrs. Wood, played several pieces on the clarinet; the most popular of his numbers were "St. Louis Blues" and three college songs — "Texas," "fight song of A. & M. and the S. M. U. song, Martin Anderson, accompanied by Madeline Ely, gave a vocal number. Agnes Bearman who had been in charge of the program, led the student body in two rounds.

Mr. Hartsfield made announcements concerning assembly programs; on Mondays the students' body will be entertained by readers, musicians, etc.; classes and societies will have charge of Wednesday programs. Fridays will be given over to celebration of athletic victories, interscholastic league events, and band programs. Mr. Hartsfield also announced that an interclass track meet will be held soon.

The senior class held a meeting yesterday and discussed plans for a party next Tuesday. Laura Jo Asberry, Doris Powell, and Elwin Skiles were put on the entertainment committee; Roy Chambliss, Inez Strickland, and Agnes Bearman are to see that there are some cats at the party. The seniors were made especially happy yesterday when their rings arrived. They had been in repair shop since the first of December and it had begun to look as if they might not arrive in time to be graduation gifts.

There were 29 miners in the mine when the explosion occurred, and the hope was held for seven who had not been located. Rescue crews sought to penetrate the gas-filled tunnels and slopes, hoping that some of the men had been able to barricade themselves in small rooms and avoid the gas.

Women and children gathered about the main entrance, identifying bodies as they were brought out, and awaiting reports from the inside. Identified dead: R. T. Springer, married. J. L. Jensen, married. F. H. Pritchett. T. L. Pritchett. Carlyle Smith, married. Angus Barney. Roy Briggs, married. William McClure. Toby Wimber. Frank L. James. Udell Fowles. Barney Johnson. J. D. Duke. Cy Brady. William Watson.

The four who were brought out alive were Andy Dougherty, Gerald Bamasky, Rubio Monroe and a man named McClellan. Little actual mining was being done in the Standard, all of the men employed being skilled workmen engaged in making repairs.

16 ARE KILLED

CONTINUED FROM PAGE 1

the explosion, which boared through the mine last night.

Confusion and absence of the usual list of workmen checked into the mine slowed up the progress of investigation, and mine officials did not know definitely how many remained in the workings after the 16 bodies had been recovered and eight men rescued. One of the bodies was identified.

The explosion caused the worst disaster in Utah since the Castle Gate explosion in 1924, which claimed 109 lives.

TERRIFIC BLAST ROCKS COUNTRY

HELPER, Utah, Feb. 7 — Rescue workers today were tearing furiously at the shafts of the Standard coal mine at Standardville, six miles northwest of here, in an effort to learn the full extent of death and injury caused by an explosion late last night.

Eighteen miners were killed by the blast, officials said. Seven others are missing. Four were rescued alive.

A terrific blast rocked the mine and spread poisonous gasses through the drifts and slopes. It was believed that 14 were killed outright in the explosion while others were suffocated by gas.

Cause of the explosion was unknown.

Survivors declared the blast crumbled entry ways and hurled rocks, timber and debris through the drifts.

There were 29 miners in the mine when the explosion occurred, and the hope was held for seven who had not been located.

Rescue crews sought to penetrate the gas-filled tunnels and slopes, hoping that some of the men had been able to barricade themselves in small rooms and avoid the gas.

Women and children gathered about the main entrance, identifying bodies as they were brought out, and awaiting reports from the inside. Identified dead: R. T. Springer, married. J. L. The Gas Dispatcher's Office in Cold Weather is a Center of Action!

A "blue norther" swoops down with breathtaking suddenness. Gas demands jump two-five-ten times in a few hours—and tax the gas system's entire service facilities for days of bitter cold weather! The gas dispatcher's office—nerve center of the Lone Star gas system—springs into action!

At the gas dispatcher's command is a small army of telephone operators, compressor station attendants, field men, truck drivers, repair men—co-ordinated through 1,200 miles of private telephone wires, vibrating with rapid-fire directions.

Queens to Play Strong Boswell Dairies Team Saturday

GAME WILL TAKE PLACE AT 8 O'CLOCK

Visitors Rated High as Commercial Sex-tet

The Cisco Lobo Queens tomorrow night will step upon the floor against the highest rated competition that they will have met this season. Their opponents in this game will be the Boswell Dairies sextet, of Fort Worth, a commercial club that has shown surprising strength in A. A. U. and city league competition.

The game will begin at 8 o'clock. A small admission fee to take care of the expense incident upon the bringing of the Fort Worth team here will be charged.

The Queens, always in the lead for the state title, which they have won once already, are developing rapidly under the tutelage of Miss Blanche Slicer.

The probable starting lineup for the Queens will be: Purvis and Phippen at forwards; Powell and Smith at centers; Bates and Purdue at guards.

RISING STAR PLAYERS ARE GIVEN LETTERS

RISING STAR, Feb. 7—Eighteen members of the Wilcox football squad of 1929 were awarded their letters in the form of a handsome sweater at the chapel exercises held in the auditorium of the ward school building Monday morning.

The presentation of the sweaters was made by H. S. Childress, president of the board, who complimented the boys highly not only in their proficiency in the field of sports but also their fine scholastic work. The Rev. A. E. Turney, pastor of the Methodist church, also made a short and appreciated talk to the boys. Capt. Stanley Gray, of the team, made the response for the boys.

The sweater is of dark solid color trimmed in blue with a large "R" embroidered on the front and are of the slip-over style.

The sweaters were awarded to the following players: Stanley Gray, Cid Bowers, Clovis Beasley, Burton Bowers, Forrest Watts, Glenn Montgomery, Travis Roach, Dick Madison, Medford Conger, Bill Falls, Jack Sucke, Jack Beyhan, Ray Nunnally, Horace Slumate, Finney Patterson, Woodrow McIntosh, J. Lee Smith, R. D. Bowman.

Following the presentation of the sweaters, Commander E. T. Dawson, of the local Post of the American Legion, presented the flag offered by the post to the pupils of the best kept room in the ward school to Mrs. F. W. Roberts, teacher and her pupils were highly complimented for the perfect manner in which the room had been kept this season.

Now Millions More Stop "Dosing" Colds

Better External Treatment Wins New Users All Over the World

Every year since the introduction of Vicks VapoRub, more and more people have given up the old-fashioned way of "dosing" colds and turned to this modern external method. Today, the whole trend of medical practice is away from needless "dosing."

Mothers of young children especially appreciate Vicks because there's nothing to swallow, and, of course, nothing to upset delicate stomachs. Just rubbed on, its medicated vapors are released by the heat of the body and inhaled direct to the inflamed air-passages. At the same time Vicks acts through the skin like a poultice or plaster, "drawing out" tightness and soreness.

Year by year, the fame of Vicks has spread from neighbor to neighbor and from state to state, until now it is used for the colds of adults as well as children in over 60 countries.

The ever-growing demand for this modern method of treating colds is shown in the familiar Vicks slogan: "Made famous when Vicks reached '17 Million Jars Used Yearly,' later raised to '21 Million,' these figures are again being changed, as there are now 'Over 26 Million Jars Used Yearly'—in the United States alone.

SPORT SHOTS

DALLAS—Local grappling fans who have anticipated the appearance here next Monday of the world heavyweight champion for several weeks of ballyhoo are foredoomed to disappointment.

Gus Sonnenberg's scheduled match with Freddy Myers of Chicago has been postponed.

Injuries received in training at Boston are reported to have incapacitated Sonny for the local appearance immediately. Bert Willoughby, promoter, said the tilt would probably come off some ten days later than scheduled.

SAN ANTONIO—Advancing to the quarter-finals of the San Antonio country club invitation tennis tournament, several players of note in the net world resumed play here today.

Bruce Barnes, University of Texas star; John Doeg, high-ranking national player; Jimmie Quick, Dallas, Ben Gorchak-off, Pacific coast entry; Sidney Wood, New York; Wilmer Allison, Davis cup team member; Berkeley Bell, intercollegiate singles champion and Joe Kaufman, San Antonio, are paired in order for this afternoon's play.

Dallas, with all hopes of getting anywhere in the southwest conference basketball race faded and the rest of the season but so many games for the school. Southern Methodist university's athletic interest has been shifted from the hardwood court to the diamond.

Coach Jerry Mann had thirteen prospects out for limbering up-exercises yesterday.

Reports from the school presage little more for the Mustangs in the spring than the mid-winter sport.

KERRVILLE—Eight San Antonio men have launched a project to establish a 2,500-acre hunting preserve some 20 miles west of here.

Deer and wild turkey abound in the area along the north fork of the Guadalupe river, Bear creek and Honey creek.

Babe Celebrates His 36th Birthday

ST. PETERSBURG, Fla., Feb. 7—Babe Ruth today celebrated his 36th birthday, playing golf and awaiting the opening of the 1930 baseball season during which he may receive the largest salary ever paid a professional athlete. Now he's a holdout.

Seventeen of Ruth's 36 years have been spent in the national pastime, and he admitted today that his love for the game is greater than ever.

"You might think I'd be tired of it," said Ruth, "between practice swings with a mallet at an imaginary out-curve, his squinted eyes envisioning a distant fence and a disappearing ball. 'But I'll admit I'd rather go up there and take a cut at one and slap it over the fence than cut.'"

SEEKS LIFE EXTENSION
MOSCOW, Feb. 7—A Life Extension Institute largely modeled on the one in the United States is in the process of organization here. The government health departments various scientific bodies and leading physicians are taking part in the preparatory work.

CARNERA ADDS ANOTHER QUICK K. O. TO RECORD

CLEVELAND, O., Feb. 7—When Johnny Risko, Cleveland heavyweight, was arrested in Maple Heights for driving his automobile at an alleged speed of 82 miles an hour last night he told Marshall Louis Seely that he was hurrying to referee a fight.

"You'll have to guess again, Johnny," Seely replied. "Being the Marshal here is only one of the things I do. I'm promoting the fight you're to referee and know you don't have to get there until 10 o'clock. It's only 7:45 now."

Danny Dunn, Risko's manager, furnished bond.

NEWARK, N. J., Feb. 7—Another quick knockout was added today to Primo Carnera's American record which now reads: February 6—KOD cowboy Billy Owens in 23 seconds of the second round.

January 31—KOD Elzear Rioux in 47 seconds.

January 24—KOD big boy Peterkin in 30 seconds.

Carnera, weighing 276 pounds, finished Owens, a nondescript from Guthrie, Okla., with a series of lefts and rights to the head in the second round here last night before a crowd of 7,500. Owens was counted out after the fourth right to the jaw.

After holding Carnera fairly even in the first round, Owens wilted under a two-fisted attack to the head as soon as the second round got underway.

Owens was actually hit last night and did not collapse from fright as did Carnera's other two opponents. Owens rushed into Carnera several times in the first round and landed a half a dozen blows. None of them did any apparent damage, but he was in there trying as long as he remained erect.

Carnera's board of managers maintained that the huge ten-man was under orders last night to box Owens. If such was the case, Carnera showed just what a novice he is at boxing even against such a third rater as Owens.

About in-fighting Carnera demonstrated that he knows nothing. Several times, Owens got inside Carnera's long arms. The big Italian didn't know what to do and once looked appealingly at the referee.

In this three American bouts, Carnera has seen five minutes and 20 seconds of action—less than two rounds.

Last night's finish was sudden as were the other two. After a rather slow first round, Carnera rushed across the ring at the opening of the second and began beating a tattoo on the Oklahoma's head.

A right cross to the jaw sent Owens to the canvas and he was counted out.

BATTLING COP TO FIGHT CARNERA
ST. LOUIS, Feb. 7—Buster Martin, Tulsa, Okla., battling cop, will

OUT OUR WAY

renewed their efforts today to build derricks on nine locations in the vicinity of the J. C. Abbott farm 14 miles southeast of here after having been hampered in their work by rain and mud for several weeks. They reported it would be several days before heavy drilling equipment can be carried to the locations. Today the discovery well on the Abbott place had settled down to a flow of between 600 and 700 barrels a day.

SPEAK BADEN DIALECT

KARLSRUHE, Feb. 7—In its correspondence with natives of Baden living in foreign countries it preparation for the Baden Old Home Week to be held here in July the arrangement committee has found a group of negroes in Blumenau, Brazil, whose mother tongue is the Baden dialect of German.

OIL NEWS OF SOUTHWEST

VAN, Feb. 7—Pure Oil company's No. 1 Magers came in Thursday with an estimated flow of between 5,000 and 6,000 barrels per day and brought the total number of producers in the new Van Zandt county field to eight. The Magers is located a little more than a mile north of the Jarman No. 1 discovery well and is the deepest yet completed in the field, having been drilled to 2,965 as compared with a depth of 2,750 feet for the discovery well and its three offsets.

TAYLOR, Feb. 7—Oil operators

JOHNNY HAS ANOTHER GUESS

attempt to take Primo Carnera, 270-pound steak-devouring champion-guzzling Italian behemoth, into custody here February 11, it was announced last night.

The 215-pound batter who has scored 20 knockouts in 29 bouts, has been signed to replace Joe "Tiny" Roebuck, Indian heavyweight mauler who was barred for the match with the Italian giant when it was learned that he was not in fit physical condition.

TEXAN UNDERDOG IN MIDDLEWEIGHT BOUT

CHICAGO, Feb. 7—Harry Ebets of Brooklyn is a 7 to 5 favorite to defeat Clyde Chastain of Texas when the middleweights meet in the feature ten round bout of promoter Jack Dempsey's fighting card here tonight.

The main interest in the card tonight, however, is expected to be centered in the George Trifton-Batling criss four-round contest. Trifton, a pro football star, is the only boxer who was able to defeat C. Arthur (the great) Shires while criss bagged out of a match with the slugging White Sox first baseman because the Detroit batter was under the impression he was supposed to take a "dive."

150 Golfers Tee Off at Houston

HOUSTON, Feb. 7—More than 150 golfers, including several stars of national repute and the best amateur weiders in Texas, teed-off at the Rio Rico course here early today in the professional-amateur best ball event, a match preliminary to the opening of the Houston open tournament tomorrow.

The tournament, the first held since 1925, will be played in two days with four 18-hole rounds of medal competition. Cash prizes totalling \$2,500 have been offered.

The Rio Rico course, flooded by heavy rains early in the week, was in fair condition today. Water had been removed from the fairways by suction pumps and the greens were sanded and mowed.

Jack Forrester, Hutchinson, N. J., professional, teamed with Oesie Cariston, former Texas champion, was favored to win low score honors. The professionals drew for partners last night.

Approximately 75 professionals and 20 amateurs will play in the tournament. Al Espinosa, Bill Melhorn, Harry Cooper, Bobby Cruickshank, Mike Turnesa and Tony Manero, all of whom competed in the Texas open at San Antonio last week, limbered up their clubs yesterday. Their scores were near par.

The tournament, originally scheduled to start today, was postponed because of the poor condition of the course.

DEAD NURSE GIVEN MEDAL

PARIS, Feb. 7—The French government has just awarded a post-humous gold medal of honor to Mile Jeanne Arnaudeau, a nurse who refused to cease caring for a number of patients stricken with a deadly and contagious disease. She cared for them night and day until she was stricken with the same disease and died.

L. A. HARRISON, Owner

DISTRIBUTION CENSUS TO BE STARTED SOON

"How's business?" the question that is asked with a vengeance by enumerators working under the U. S. Census Bureau in Eastland and adjoining counties when the distribution census is begun in this district—as soon as schedules are received by the supervisor, W. R. Southworth.

Merchants of all kinds and classes will be queried in this census, which will be taken before the general population census is started.

Some of the reasons for taking the distribution census are given by Frederick M. Felzer, chairman of advisory committee of the Census of Distribution as follows:

"So universal is this question of 'How's business?' so important to the everyday conduct of trade, that it is not strange that business men have asked the government to help them find the answer. Manufacturers have used information gathered on production, and have made many improvements, all of which have come through better knowledge of costs.

"We are still in the initial stage of finding how to control the costs of distribution. Great areas of waste exist, not through the fault of the individual, but because the individual does not know. When one jobber discovered by analyzing his sales and profits, commodity by commodity, that he could make more money by reducing his volume, statistics meant something to him.

"We have many rules-of-thumb in business. One is 'I must have a complete line.' Probably there is more money tied up in inventories, more stock getting dusty on shelves and more loss in distribution from this rule-of-thumb than any other. Manufacturers working with the Division of Simplified Practice of the Department of Commerce, have found that it is possible to save thousands of dollars in inventory and increase turnovers for the retailer by eliminating lines. In one case a line was cut, in one conference between maker and seller from 66 styles and varieties to 11.

"Census Well Planned

"The present census of distribution is not entered into blindly, but represents the results of cooperative work by business men and government during the past 8 years from a definite objective.

"Facts and figures will be gathered which will have a far-reaching effect on the future prosperity of every business man in our country.

"When you receive a tabulated statement of queries about your business, or when someone may in early spring offer enumerators from the bureau of census calls at your place of business to ask what may seem like a lot of impertinent questions, remember he is your representative in the government. He is asking these questions for your information and not just for the sake of satisfying curiosity.

"Many Phases Touched

"Now for the first time we are to have a census of distribution, which may be defined briefly as a gathering of statistics in regard to wholesale and retail trade. It will show the number of stores of different types and other distributing agencies; the number of persons employed by such establishments; the principal expenses including rent, interest and total wages paid; the stocks of goods on hand December 31, 1929; and the sales during the year 1929 broken down by commodity groups so far as practical. The inclusion of this subject of distribution means a very material addition to the work of taking the next census. It is estimated that it will be necessary to canvass nearly two million establishments.

"So far as possible the census will distinguish the main classes of goods dealt in, so as to present separate totals for important classes of commodities, such as, for instance, boots and shoes, clothing and grocers. But this classification can not be carried out completely because many merchants do not keep their books in such a way as to be able to furnish separate figures for various classes of goods. In manufacturing there has been a tendency in the direction of greater specialization or concentration upon the manufacture of some one line of products. But in retail trade, with the development of the department store, the mail-order house and the modern so-called drug store carrying all sorts of other articles and drugs only incidentally, it seems as if the tendency were in the other direction.

"Cooperation Sought

"In taking this census the government counts upon the cooperation and support of the merchant and other distributors. While they are required by law to answer the questions on the census schedules and are subject to penalties for refusing to answer, the experience of the Census Bureau justifies the expectation that the merchant and other distributors will cooperate and willingly supply the information requested.

"The census takers are forbidden under penalties to reveal any information or data obtained through the census in regard to any individual person or individual establishment. No one except sworn employees of the Bureau will be permitted to examine the reports, and no information can or will be given out to any person outside the Bureau, whether in government service or in private life, which would disclose, either exactly or approximately, any of the facts or figures in these reports. The data, as the law requires, will be used

Taft, Whose Ambition Was the Supreme Court, Once Declined Place on Tribunal

By HERBERT LITTLE
United Press Staff Correspondent
WASHINGTON, Feb. 7.—William Howard Taft, whose ambition from boyhood on was the supreme court, refused an appointment to the court proffered by his closest friend, Theodore Roosevelt, in 1897. Taft disregarded the knock of fortune on his door, for he found greater opportunity where he was, then acting as mediator to the Philippine islands.

When Taft, solicitor-general, and Roosevelt, civil service commissioner, met in 1890, they became fast friends in a bond which profoundly affected American political history. The breaking of the bond was deemed to affect the nation even more.

A short time after "Will" and "Theodore" met, they went their ways. Roosevelt to become governor of New York and then vice-president and president, and Taft to "battle down for life" in a lifetime federal judgeship. President Harrison appointed him in 1892 to a judgeship in the sixth district, embracing Michigan, Ohio, Kentucky and Tennessee.

The young judge—he was only 35—made history during his eight years on the bench.

Vitalized Law

In the Addyston pipe case he discovered a combination of manufacturers under the then new Sherman anti-trust act. This decision was credited by many with vitalizing the anti-trust law.

In one other notable decision, Taft squelched labor union methods of fighting their employers. The decisions were used against him by labor in his political career later. Taft granted an injunction to railroad employers to prevent railroad engineers from going on a sympathetic strike. In the Phelan case, growing out of the Debs-American railway union strike of 1904, Taft again interdicted a boycott. An organizer ordered Cincinnati Southern workers on a sympathetic strike, as a protest against Pullman company cars. Taft sent Phelan to jail for contempt, and Governor Altgeld of Illinois gained the phrase "government by injunction."

Taft was pitched out of his judgeship by President McKinley and Secretary of War Elihu Root. The job was to establish civil government in the turbulent Philippines, where Aguinaldo and his followers had been stirring up rebellion.

"You'll have to resign your comfortable judgeship and you may never have another chance to go on the supreme bench," Root said. "But we need you in the Philippines." Taft took the job. On his arrival he hastily announced the United States would maintain its sovereignty over the islands. Hopes of the islanders for independence were crushed. Then he announced a policy of the Philippines for the Filipinos, and American traders were hurt. He made an intimate study of the situation, and established upon a definite policy of conciliation.

Was Popular

Taft held meetings in each province to discuss plans for government with the native leaders. His genial and hearty good nature and honesty made him popular. Taft left in 1902 to convince congress of the necessity to buy the Friar's land. From congress he obtained permission to deal directly with Rome. He did successfully, and returned to the islands to be met with a triumphant reception.

Roosevelt, made president by an assassin's bullet offered Taft the supreme court job. He declined. "Situation here critical from economic viewpoint," he advised Roosevelt. "I insisted Taft called 'Benevolent rulers' duty to obey orders, still insisting his work might be undone by a change of administration. 'All right, old fellow, you can stay,' was Roosevelt's reply. He appointed Oliver Wendell Holmes to the job.

In one other notable decision, Roosevelt, made president by an assassin's bullet offered Taft the supreme court job. He declined. "Situation here critical from economic viewpoint," he advised Roosevelt. "I insisted Taft called 'Benevolent rulers' duty to obey orders, still insisting his work might be undone by a change of administration. 'All right, old fellow, you can stay,' was Roosevelt's reply. He appointed Oliver Wendell Holmes to the job.

In 1906 Roosevelt brought Taft home to be secretary of war. He assumed the job of administering the construction job then starting of the Panama Canal, in addition to overseeing the war department and the Philippines. He went to the Philippines to open the legislature when partial self-government was instituted.

He stopped in Tokio and made a famous speech against the folly of war then much discussed, between the United States and Japan. He extended the trip to a triumphant world tour.

Cuba, freed from Spain, rebelled upon native self-rule, and President Palma called on Roosevelt for help. Taft surveyed the situation and visited Havana, along with warships and soldiers. He drew up a compromise, but Palma resigned, so he took over the island temporarily to establish order. In the following year, 1907, Roosevelt sent Taft to Panama and Porto Rico to quiet

"BLOND BANDIT"

Here is a new picture of Mrs. Irene Schroeder, Pennsylvania's alleged "blond gunman," who was captured by a posse near Phoenix, Ariz., and who now faces trial for the murder of State Trooper Brady Paul near Newcasle, Pa. Armed with extraordinary papers, Pennsylvania officers went to Arizona to return Mrs. Schroeder and her two male companions.

disturbances. He did it, and also made a report on Cuba which led to withdrawal of American troops. Roosevelt had been busy with politics when Taft found a branching line spell in 1907, Roosevelt told him he was to be president. Roosevelt's great organization under his orders put Taft across in the 1908 Republican convention and elected, and Roosevelt sailed triumphantly away to hunt lions in Africa.

GAINED IN HEALTH ON ONE BOTTLE

"I was in a Serious Condition, and Tried All Kinds of Medicines, But Orogate Is the Only Medicine Gave Me Relief," Says Brown-wood Housewife.

"I have gained in health and strength on one bottle of Orogate, and feel years younger," said Mrs. Hester Lee, of 915 Victoria street, Brownwood, Texas, while in conversation with the Orogate representative.

"I was in a very much run down condition," she continued, "from stomach disturbances and most everything I ate gave me trouble. My food would sour on my stomach, and from gas that made me miserable for hours afterwards. I had liver trouble and severe intense pains in my sides, which hurt me so bad at times I could hardly stand it. The gas crowded my heart and it would palpitate so fast at times I thought I had heart trouble. My nerves were on edge so I got very little sleep at night, and when morning came I was almost as tired as when I went to bed. I had terrible headaches, and felt so wretched and no account. I hardly had any life or energy left to do anything."

"I heard so many people telling about the good that Orogate had done them that I decided to try it. The way it took hold of my troubles was one grand surprise to me and I hardly know how to begin to tell all the benefits I have derived from using it. I feel better than I have for several years. I eat anything I want now, and don't have the least trouble afterward. I sleep and rest fine every night and those terrible pains are all gone, and my liver seems to be in perfect condition now. Orogate has been a fine thing for me and I am glad to recommend it to others from my own experience with it."

Genuine Orogate may be obtained from Dean Drug Store—Adv.

Huyler Lee of San Angelo is a visitor in Cisco this week.

Mr. and Mrs. Lewis Hudson of Granbury were visitors in Cisco this week.

Mrs. F. D. Pierce is spending the week in Brownwood with her daughter, Mrs. Goodner Bedford.

Mrs. Sara L. Wilson of Dallas, Jim Langston of Crystal Falls, and Mr. and Mrs. George Langston of

Introduction of The New Konjola Medicine Hailed

Many People Calling at the Moore Drug Store to Learn Its Merits.

Immediately following yesterday's announcement that the advanced medical preparation, Konjola, was to be introduced in Cisco many local people were eagerly seeking this

G. H. MOSBY Discoverer of Konjola.

medicine and telling of reports about it which they had received from relatives and friends in cities where the herbal compound was previously introduced. Many who called at the Moore drug store, stated they already knew about this medicine and some had secured it through acquaintances at larger cities.

The extent to which this Konjola has aroused interest proves very clearly that health troubles due to disordered stomach, liver, kidneys and bowels, are so common that hundreds are suffering daily. The forms of misery described by a great many sufferers interviewed yesterday, were as follows:

Stomach: Indigestion and gas bloating, feeling like a rock in the stomach, which in reality is a mass of undigested food, dyspepsia, intense pain in the stomach and chest, wild heart palpitation, feeling like a rock from the throat to the pit of the stomach, awful headaches, loss of weight, strength and tissue, sour stomach, dizzy spells, cramps, spitting up bits of half-digested food and a hot, sour liquid.

Liver: Attacks of biliousness, sick headaches that may last for days, constipation, dizzy spells, yellowish complexion.

Kidneys: Sharp pains over the kidneys, a dull, aching feeling across the back, stiffness in the back and lower limbs, especially in the mornings just before arising, frequent getting out of bed during the night, dizziness, spots before the eyes, lack of vitality.

Bowels: Painful, bloated feeling in the lower stomach, worn out feeling, sleeplessness.

Many other forms of suffering arise from the disordered condition of the system that results from a sluggish stomach, liver, kidneys, and bowels. For instance, there may be rheumatic and neuritic troubles, with its agonizing aches and pains.

The above forms of suffering yield readily to the work of Konjola and this medical preparation has so completely eased the health troubles of so many thousands in larger cities that it is declared to be what countless sufferers in this section have long needed to actually reach their cases.

Konjola is now being sold for the first time in Cisco at the Moore Drug store, where many people are calling throughout the day to find out about this surprising new medicine.—Adv.

Crystal Falls have been at the bedside of George Langston who is very ill.

W. S. Keough, E. J. Keough and J. J. Collins were visitors in Ranger last night.

Mrs. Morris Simon is leaving today to spend the weekend in Austin.

DIRECTORS FOR PIANO TOURNEY ARE APPOINTED

ABILENE, Feb. 7.—With the appointment of 32 directors, representing three states, Texas, New Mexico and Oklahoma, plans are under way for the second All-Southwest inter-collegiate piano tournament to be held at Simmons University here April 4 and 5, according to Frank Fieger of this city, chief director.

Students from three states are being invited to compete in the tourney. There are three divisions, college, high school, and grade school. Rules governing the eligibility of contestants are essentially the same as those in all inter-scholastic and inter-collegiate contests.

The events will include Bach, Chopin, modern compositions, scales and arpeggios in the college division. The high school division will substitute Mozart for the sonata, and the grade school group will use Schumann. Information concerning the contest is being sent out by Fieger or can be furnished by any of the directors from the three states.

All events will be held in the auditorium at Simmons University. A program will be given by the winners in the Hilton hotel of this city on the afternoon of Sunday, April 6.

The directors appointed from Texas are: Mrs. C. M. Caldwell, Mrs. G. O. Creswell, Mrs. Ellis Douthitt, Mrs. L. W. Hunt, Mrs. Henry James, Mrs. J. M. Radford, Mrs. H. L. Schug, and Mrs. Bateell Baxter.

Abilene: Mrs. Lucile Lyons, Fort Worth: Mrs. George Bacon, Dallas: Mrs. Lena Milam, Beaumont: Mrs. Sam Means, El Paso: Alex Milyko, San Angelo: Mrs. Wilma Drago, Caton, Eastland: Mrs. J. E. Spencer, Cisco: Mrs. Cecil Horne, Lubbock: Mrs. J. O. Montref, Fort Worth: Mrs. L. O. Bowden, Silver City: Mrs. J. M. C. K. Amarillo; Mrs. S. P. Brooks, Waco; Mrs. L. H. Hubbard, Denton; Mrs. J. C. Hardy, Belton; Mrs. C. C. Seelman, Dallas; Mrs. E. M. Watts, and Mrs. H. E. Stout, Fort Worth; and Miss Mattie Swisher, Canyon.

Oklahoma directors are: Mrs. Floyd Kimes Russel, Oklahoma City; Mrs. William B. Buzell, Oklahoma University, Norman; and Mrs. Warren W. Pheasant, Oklahoma Baptist University, Shawnee.

Those appointed from New Mexico are: Mrs. Colbert C. Root, Albuquerque; Mrs. R. L. Case, Las Vegas; and Mrs. David Spence Hill, University of New Mexico.

"Bishop" Sought in Church Robbery

OMAHA, Neb., Feb. 7.—A policeman questioned a man coming out of the church of the good Shepherd here last night to learn he was the "Bishop of Houston."

Today brother officers were seeking the "Bishop" after being told by Bishop Shayer, Episcopal clergyman, that everything in the edifice excepting the organ had been stolen.

Colorado Prison Under Dictator

CANON CITY, Feb. 7.—The Colorado state penitentiary where 13 convicts and guards were killed in the nation's bloodiest prison mutiny four months ago, was under the virtual dictatorship of an "Iron man" today.

The state board of corrections, meeting here to dig at the roots of the October riots and the fire which swept the penitentiary last Saturday, appointed Col. Patrick J. Hamrock 55, a brigadier-general during the world war, special deputy warden to reorganize the guard system on a military basis.

Hamrock, who achieved nationwide fame and earned the title of "Iron man" for his leadership of the state militia during the Colorado coal strikes in 1913, in which nearly a score of men, women and children were massacred at Ludlow, left a hospital bed yesterday to accept the provisional appointment.

"Oh Promise Me"

At some time in her life Cupid pleads to every attractive woman. No matter what her features are, a woman who is sickly cannot be attractive. Sallow-skin, pinples, sunken eyes, lifeless lips—these are repellent. DR. PIERCE'S GOLDEN MEDICAL DISCOVERY is just the tonic a rundown person needs. It enriches the blood, soothes the nerves and imparts tone and vivacity to the entire system. In liquid or tablets, at drug store.

Send 10c for trial package of tablets to Dr. Pierce's Clinic, in Buffalo, N. Y., and write for free advice.

Repeal of Marriage Law Is Protested

DALLAS, Feb. 7.—Protesting the repeal of the marriage license law now in effect in Texas, the second district board, Texas federation of women's clubs, declared itself in favor of physical examinations for women as well as men at its session here Thursday. It was decided to discuss the matter further at the district convention to be held in Dallas, April 2-4. The district meeting also went on record as favoring a change in the date of the state convention from November to April, and of district meetings from April to March.

RANGER POLICE

CONTINUED FROM PAGE 1

holdup. He said that the gang lacked \$10,000 of obtaining exactly \$3,000,000 and that his share of the loot was exactly \$500,000. He was given three years for his part in the robbery.

Oglesby has been sought ever since August, 1928, for the murder of a man near Abilene. Two men were robbed by an approaching one victim drew a gun, he was fatally wounded. The hijacker then forced a couple to drive them almost to Coleman.

Information has been received of Oglesby's whereabouts from time to time but the information always came too late to locate him.

The capture of Newton and Oglesby occurred Monday in Fort Worth when an officer handling traffic at a school corner to protect the children, had his suspicions aroused by an approaching mud-caked car and when he opened the door saw a pistol in the side pocket. He took the weapon, ordered Newton out of the car and started around to the other side where Oglesby, the driver, was.

Oglesby was taken to a hospital and placed under guard and later was removed to jail. His condition is very serious.

The car in which the two men were riding bore a license plate that had been stolen from Ranger a few nights before. Cutting torches also were found in the car.

Finds Rural Schools Doing Fine Work

EASTLAND, Feb. 7.—Miss Buelah Speer, county school superintendent, said this morning that she has visited 12 of the rural schools of the county this week and found them doing fine work. She said the ladies of the Peak P. T. A. were planning a constructive work for the spring and held discussions on their projects at their regular meeting on Wednesday which Miss Speer attended.

Schools visited this week were George Hill, Crocker, Rising Star, high school, Peak, Union Hill, Sabanna, Cook, Griggs, Romney, Pleasant Hill, Flatwoods and Grapevine.

CISCO GETS "NANETTE" FOR FIRST SHOWING

The Palace theatre, of this city, will show "No, No, Nanette," lavish First National musical comedy, in the first appearance of the picture in Texas. Such amusement centers as Dallas, Fort Worth, San Antonio and others were passed up by the Texas premier, placing the Cisco showhouse for once ahead of its larger neighbors. So you may see "No, No, Nanette" here tomorrow evening at 10:45 and then go to Dallas and boast of it.

Demand for a new type of screen player—known as the "Technicolor type"—reached its greatest peak in Hollywood during the filming of "No, No, Nanette," the big First National screen musical show, which opens at the Palace theatre tomorrow night at 10:45 p. m. Many of the scenes in "No, No, Nanette" are in Technicolor.

As a result of the growing use of color photography, instead of the old black and white, the casting bureaus and directors are looking for actors and actresses who will appear to advantage on the multi-colored film. All the hundreds of players who look part in the lavish First National musical comedy were carefully selected from the old "black and white" groups after undergoing severe tests.

Hair and eyes were the chief features tested in choosing these players.
