DAILY BIBLE READING

2 Kings 14:17-19

- 17. And Elisha prayed, and said, Lord, I pray thee, open his eyes, that he may see. And the Lord opened the eyes of the young man; and he saw, and behold, the mountain was full of horses and chariots of fire round about Elisha.
- 18. And when they came down to him, Elisha prayed unto the Lord, and said, Smite this people, I pray thee, with blindness. And he smote them with blindness according to the word of Elisha.
- 19. And Elisha said unto them, This is not the way, neither is this the city; follow me, and I will bring you to the man whom ye seek. But he led them to Hamath.

NORMALITY RETURNING.

The Fisher Body company's plant at Cleveland, Ohio, has resumed operation of its assembly plant, giving employment to hundreds of men after a long period of idleness. Officials of the company stated that a general resumption of employment is underway and is expected to continue for some time.

There is good news in that. During the past two months numerous manufacturing concerns have been gradually returning to conditions of normal operation. It is an indication that the buying public is stirring itself, putting money back into circulation that has been hoarded, stimulating the blood stream of commerce that has been halted in a tourniquet of fear and lack of confidence.

SUCCESS FORMULA.

James Augustine Farrell, president and chief executive officer of the United States Steel corporation, gives his formula for success in three words in Nation's Business. It is: Work, temperance, thrift.

Mr. Farrell is one of those captains of industry who fought his way up from the ranks. He started out as a helper at a pittance a week. His route to the top of the ladder was one of blood and iron, figuratively speaking. He learned in the stern school of experience those things that are essential to success. He can tell younger men many things. They will not heed. But that is no reason to discountenance the young men. Character is not something that can be predigested and poured into the human hide. It is something that is built up slowly by gruelling contracts.

Nevertheless, Mr. Farrell's formula speaks volumes. He might have added a word, Straight thinking. The horse works, is temperate by instinct. He fails to get above being a horse because he can't think. One of the greatest lessons that the young man can learn is to be certain of where he puts his hand and to be thorough in the execution of what he undertakes.

COERCION.

A questionnaire upon the preferences of radio audiences sent out by the Columbia Broadcasting system has brought back some interesting information. For instance it was discovered that children like history better than literary or musical programs. Shades of the little red school house!

But there is some food for earnest thought there, speaking pedagogically. It brings up the question of just how far coercion acts in shaping the antipathies of the student, to what extent it interferes with what would otherwise be a spontaneous interest in the curricula. The human being is a peculiar animal. He dislikes to be driven. He wants to be attracted, impelled, not dragged.

In the days when the long hickory withe reposed upon two pegs behind the master's elevated seat, the symbol of an authority as absolute as tyranny, there was, according to the force of the character of him who wielded it, a dogged application to the problem and the page. There were merits in that long withe, merits that soaked through the hide of the recalcitrant student and became a disciplinary part of his system. But so far as learning went the most of those time-honored merits remained in the hide.

OTHER OPINIONS

PRORATION WINS.

In upholding the constitutionality of the state laws relating to oil conservation, with special emphasis on the proration of production in the major oil fields of the state, the Oklahoma supreme court has put fresh impetus on the movement to cut down the production of crude oil in the interest of fairer prices.

production there has been a very considerable quantity of oil imported, and all efforts to shut it out by tariff enactment failed. If prosperity could be restored to the oil industry, you would see its almost immediate effect on the prosperity of west Texas. The depression in the oil industry has been reflected in the general sickness of business in all lines throughout west Texas where oil and the search for oil has been a major factor in our development.

NEW CHARTERS

AUSTIN, October 16.—Chartered, Shamrock Natural Gas company, Amarillo, capital stock \$10,000; incorporators, H. D. Thompson, Nina Carlton, W. E. Todd. Plains Roofing Company, Inc., Pampa, capital stock \$5,000; incorporators, A. Groening, J. B. Starkey, Mrs. Johanna Groening.

IT WAS ALL IN FAMILY

TWICKENHAM, Surrey.—The bride, bridegroom, bridesmaids, and the best man were cousins and the clergyman was an uncle at a wedding here, recently.

Did You Ever Stop to Think?

By EDSON R. WAITE
Shawnee, Oklahoma.

That the gentle art of "passing the buck" is practiced too much in some cities.

Many of the so-called "leading citizens" are long on talk and short on doing any real constructive work. When it comes to work, they "pass the buck."

If some cities took a census of their "buck passers," the result would be astonishing. They would find enough citizens to build another city—provided they could be turned into community workers.

Other cities are hard in building their home city as they go in "passing the buck" their city would soon be twice its present size.

The "buck passers" believe in a fifty-fifty proposition. They will do the talking for their part and the other fellows can spend their money and do the work.

SHOWERS GIVE TEXAS RELIEF FROM DROUGHT

Scattered showers during September gave some relief from the prolonged drought. On October 1, however, a general rain was needed to facilitate plowing, sowing wheat, fall oats, barley and rye, and to replenish stock water which was short in many sections.

During the first week of October, heavy soaking rains fell over the entire state, and now tanks are full, grass and weeds are starting, fall grains are springing up and a good season is in the ground. These rains were of untold benefit to stockmen and grain farmers. All crop except cotton, oats and sugar cane promise a lower yield per acre this year than last year. The crop conditions reported on October 1 do not portray the effect of the general rains which fell immediately after the first of October.

A cotton crop of 4,275,000 bales is the forecast for this season compared with 3,940,000 bales last year, which was the first time in seven years that the production had fallen below 4,000,000 bales. In the area south of a line drawn from Gillespie county easterly to Shelby county, and east of a line drawn from Gillespie county south to Klobner county, the production will be nearly twice as large as last year's production. The combined production of Grayson, Fannin, Lamar, Red River, Collin, years' production, on the whole, the remaining area will fall short of last year. The lower valley is sure to fall short as is the area between the large producing areas mentioned above. The northeast is still in doubt, however, it is unlikely that it will reach last year's production.

Corn: Indications point to a production of 38,128,000 bushels and an average yield of 18.0 bushels per acre. Only 1924 and 1925 in recent years, have had a lower yield. Last year, 36,127,900 bushels were produced. All except the late planted corn has been ripe for some time and a large proportion has been gathered. The central portion of the state produced a good corn crop as much of the corn was nearing maturity before the drought became severe. In the remainder of the state, the corn crop ranged from fair to a near failure. The United States production is estimated at 2,046,000 bushels compared with 2,614,397,000 in 1929, and a 5-year average of 2,699,809,000.

Grain Sorghum: Grain sorghums were benefitted by the scattering September rains, but the crop is still far from good. With only 47 per cent condition on October 1, a crop of 37,674,000 bushels, for all purposes, was indicated. The indicated yield is 13 bushels compared with 17 last year. The rains in early October will probably prove beneficial to the late crop. The grain sorghum crop is generally poor in all portions of the state, excepting in the central and extreme northwest.

Rice: A production of 8,200,000 bushels is indicated by the October 1 condition of 86 per cent. Last year 7,524,000 bushels were produced. The yield per acre this year is 40 bushels compared with 44 last year. For the United States a production of 38,564,000 bushels is estimated as compared with 40,217,000 bushels last year.

Sirup: Sorghum and sugar cane sirup are now being made. The yield of sorghum sirup is running lower than a year ago, but the yield of sugar cane sirup is much higher. The sorghum cane was damaged seriously by the drought. The September rains were of some benefit in scattering areas.

Sweet Potatoes: The condition on October 1 was reported at 94 per cent compared with 60 a year ago and 69 the 10-year average. The indicated yield per acre is 60 bushels, which promises a production of 6,780,000 bushels as compared with 7,784,000 bushels last year. The yield this year promises to be the lowest since 1924 when the outturn was 57 bushels per acre.

Broomcorn: The Texas broomcorn production this year is estimated at 1,200 tons against 1,290 tons last year. In the south the harvest is practically over; in the northwest the September rains

were beneficial. The United States crop of 49,700 tons is estimated compared with 43,800 tons in 1929. Peanuts: Peanuts have been benefited by the September rains, and the indicated yield has advanced from 440 pounds on September 1 to 460 pounds on October 1. The indicated yield of 460 pounds applied to the estimated acreage of 106,000 indicates total production for all purposes, of 76,136,000 pounds as compared with 91,500,000 pounds last year. The long drought did serious damage to the crop this year. For the United States a production of 693,123,000 pounds is forecast compared with 1,330,277,000 pounds last year. Hay: All time hay promises a yield of 1.05 tons per acre, and a total production of 715,000 tons compared with a yield of 1.13 tons per acre, and 744,000 tons production last year. Only a few counties in the central portion of the state, and a few scattering areas in West Texas have any surplus of hay this year. The yield of alfalfa hay was about 9 per cent less than last year. Pecans: The condition of pecans on October 1, this year, was 32 per cent of normal compared with 40 per cent last year. Drouth a case bearer have done serious injury to the crop this year. Conditions are very spotted. Some of the heavy producing areas have prospects for a very small crop, while in some few counties prospects are good. For the state as a whole it is very unlikely that the crop will be much more than half of last year's crop, when 17,496,000 pounds were produced. On October 1 conditions for other states follow: Illinois 65 per cent; Missouri 35; North Carolina 54; South Carolina 56; Georgia 44; Florida 52; Alabama 58; Mississippi 47; Arkansas 46; Louisiana 66; and Oklahoma 44.

Fruits: Apples promise 149,000 bushels against 230,000 bushels last year; pears 325,000 bushels against 455,000 last year; grapes 1,100 tons against 1,320 tons last year. The condition of grapefruit on October 1 was 56 per cent of normal compared with 89 a year ago. The reported condition of oranges was 57 per cent compared with 88 a year ago. The marketing of grapefruit has just started. Total shipments this season to October 4 was 17 cars compared with 19 cars last season to October 5. Late freezes damaged the citrus trees seriously. Trees under five years suffered the most damage. Due to the spring freezes the bearing acreage is not expected to be much larger than last year, and it is doubtful if the production per tree will equal last year's production.

Board of Control Budget Chief Ill

AUSTIN, Oct. 16.—J. D. Hall, budget chief for the board of control is in a hospital here recovering after an operation for acute appendicitis. His illness will delay completion of the state budget until sometime in December, board of control members said. Gov. Dan Moody has indicated he will appoint a successor to R. B. Wallhall on the record as soon as the budget has been completed.

PORTLAND Ore., Oct. 16.—The first winter "weather" was experienced in the Pacific northwest today.

Furries of snow were reported at Spokane, Washington, Victoria, B. C., and other points along the border. Moscow, Idaho, experienced a storm, with snow blanketing the ground for two or three hours. Along the coast it was cold and blustery.

HOW ONE WOMAN LOST 20 POUNDS OF FAT

Lost Her Double Chin
Lost Her Prominent Hips
Lost Her Sluggishness
Gained Physical Vigor
Gained in Vivaciousness
Gained in Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves must have to function properly. When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideously fat!

Take half a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning exercise

regularly—do not overeat and—in 3 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give any fat person a joyous surprise.

Get an 45c bottle of KRUSCHEN SALTS at Moore Drug Co. or Dean Drug Co. (lasts 4 weeks). If you don't like this bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—a gloriously energetic—vigorously alive—your money gladly returned. —Adv.

CISCO'S BIG DEPARTMENT STORE

CHANCELLOR DELIVERS HIS ULTIMATUM

PLIN, Oct. 16.—Chancellor Hugh Bruening laced a hostile atmosphere in the Reichstag today and announced his intentions of settling Germany's affairs in order, even has to establish a dictatorship, hinted plainly to the shouting, fascistists that he would use force to quell disorders in the Reichstag. It came at the end of his speech when he delivered a significant sentence, punctuated by fascist shouts: "The maintenance of Germany's most important task for the upholding of the Reichstag through the nation."

PLIN, Oct. 16.—Chancellor Hugh Bruening delivered his ultimatum to a restless and dispirited Reichstag today. He threatened a dictatorship if the firm hand of president Von Hindenburg in the background, Bruening outlined the chancellor's plans for restoring order to the nation's business and industry despite the present wave of unrest, and of continuing a firm and constructive policy in foreign relations.

The scholarly chancellor was and slightly nervous as he faced the packed Reichstag. Fascist "Brown Shirts" wait-animously in their seats. Communist boxes and jeered. Out-riding police guards were on against disorder. Domestic and foreign issues shared in the chancellor's problems. Some, the strike involving more than 100,000 metal workers, unemployment and heavier taxation added grave difficulties. Abroad government faced the necessity of meeting its reparations and obligations against the demand for renunciation of the young plan. Bruening clearly hinted that the government could cope with the crisis by ordinary means. "Reichstag annuls the government's emergency powers," he

Motor Licenses Ordered Cancelled

STIN, Oct. 16.—Cancellation of motor truck and motor bus licenses for failure to pay the taxes has been ordered subject to a hearing to be held here Oct. 30. The motor division of the state department announced. Operators of trucks not displaying licenses already has begun. The hearing was made about Amarillo yesterday.

Boat Drowns in Lake Worth Today

FT WORTH, Oct. 16.—Victor Smith, 19, apprentice stereotypist, drowned near Sunset Park at Worth at 7:30 a. m. Thursday, attempting to swim from a blind to his boat which had blown away. Smith, Star-gram stereotypist, were open-duck season at the lake. They had gone into the blind, several yards from the shore in the morning. Shortly before 7:30, it was noticed that the boat had floated away from the shore. Clemens pulled off his clothing and started swimming for the boat. According to Smith he had only a short distance when the boat was overcome by the cold water and went under. At 10 a. m. the body had not yet recovered.

Bill of Relief

Continued from page one
A bill should be passed by the legislature extending the state relief in drought stricken areas for one year without interest or penalty. Meeting adopted this resolution.
The consensus of opinion of various speakers that the position of the drought area had to have and have it at once. It was the consensus of opinion of speakers and of the meeting should aid ever be obtained with the federal government. It was too late to aid those in the West Texas area as they had given up in despair by that time.
Suggesting the relief plans of the meeting it was pointed out that the plans were feasible business like and need not be used except by such counties as feel the need of relief and only to the extent of that

Says Facts About Texas Not Told

STAMFORD, Oct. 16.—That Texas is the largest state in the United States and that it leads in the value of agricultural production, number of cattle and in the production of oil and sulphur is not told to the students of the fourth and fifth grades of the public schools by the geographies adopted and furnished them by the state, declares Chas. E. Combes, president of the West Texas Chamber of Commerce.
Combes, together with Max Bentley, Abilene, chairman of the W. T. C. C. publicity committee, and D. A. Bantzen, Stamford, general manager of the organization, appeared before the Texas State Board of Education at Austin this week attempting to convince that book that revisions and corrections were needed in some of the books being used in the state.
According to a survey made by the West Texas chamber, no mention is made of any of the above facts in "Elementary Geography" by McMurry & Parkins, published by the McMillan company, the state adopted book for the fourth and fifth grades.

White Deer—Wild gusher has recently been brought in on Robt. Sullivan land with estimated production of from 1,000 to 5,000 barrels of oil and 50,000,000 cubic feet of gas.

TEXANS WORK DILIGENTLY TO DOWN SOONERS

AUSTIN, Oct. 16.—Presented with a golden opportunity to gain national recognition and at the same time raise the lagging prestige of the Sooners, the Texas Longhorns have hearkened to the words of Marty Karow about the powerful Sooners of Oklahoma University, and settled down to work with the idea of repeating their victory of a year ago over their Big Six rivals. Karow, assistant varsity coach at Texas, went to Norman, Oklahoma, last week to see the Sooners upset the Nebraska Cornhuskers of Dana Bible 23-7, and he came back with plenty to tell the Longhorns.
The victory over Nebraska, conquerors of the Texas Aggies by a 13-0 score, established the Sooners as overwhelming favorites to take the Big Six title, and with the Longhorns just beginning to develop their real power, Steer followers are hoping that the game will be a fight between champions. Karow reported that the Sooners were much stronger than in 1929, when the Steers, at the height of the October glory, smashed their way to a 21-0 victory. The game with Howard Payne

last Saturday did much to clear up the mystery and indecision that has hung over the Longhorns since the beginning of the season. After watching the Steer backs follow perfect interference past the line into the Yellow Jacket secondary and then twist and smash their way for long gains, there is no doubt in the minds of most critics that the 1930 team is stronger than the 1929 edition. All of the old power is there, with the blocking and interference the best that Texas has boasted in several years. Glimpses of what can be expected from the Texas aerial attack this year were given now and then in the game, with Captain Shelley hurling to Elkins and Peterson for beautiful gains.

San Antonio.—Construction started on new \$150,000 Woodmen of World Chapel and Bird Sanctuary to be built at W. O. W. Memorial Hospital grounds at this city.

To Fight Revision of Fruit Tariffs

SAN BENITO, Oct. 16.—An organized movement to combat revision of the protective tariff schedule affecting fruits and vegetables is being worked out in the lower Rio Grande valley in co-operation with the growers and shippers league of Florida.
With a hearing on the present rates expected before the tariff commission in Washington, valley leaders are compiling data to be presented.
Both Texas and Florida interests contend that schedules now written in the bill must be retained if a fair price is to be realized for tomatoes and other produce.

Victoria.—Methodists may build educational building in city.

LEGAL RECORDS

Filed in District Court.
Higginbotham-Bartlett Co. vs. W. G. Cummings, to collect account.

What They Do at Brown's Sanatorium
August 9, 1930.
TO WHOM IT MAY CONCERN:
Two years ago I came to the Brown Douglas Sanatorium with gall bladder trouble. I only took six treatments and have never been bothered since. Then I came this spring to take treatment for a goitre that had bothered me over a year. I stayed for four weeks—I went home perfectly well and feel better every day.
I certainly recommend Dr. N. A. Brown for gall bladder and goitre.

"SCIENCE INTELLIGENTLY APPLIED"

Says
CLARK HOWELL
Editor Atlanta Constitution
Many years Member Democratic National Committee
Member United States Coal Commission
Former Member and President Georgia Senate
Former Member and Speaker of Georgia House of Representatives
And long Trustee University of Georgia

"Science is revolutionizing all forms of manufacture. The manufacturers of LUCKY STRIKE cigarettes have extended me the courtesy of an invitation to their factories. I was not able to accept but have taken the opportunity to read the reports of scientific men as to the achievements in their factories.

"It is clear that in no line has science been more intelligently applied than in the making of cigarettes."

Clark Howell.

LUCKY STRIKE — the finest cigarette you ever smoked, made of the finest tobaccos — the Cream of the Crop — THEN — "IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows — that's why TOASTING includes the use of the Ultra Violet Ray.

"It's toasted"

Your Throat Protection — against irritation — against cough
Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. Clark Howell to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Howell appears on this page.

A "42" party, honoring Mr. and Mrs. Virgil Wagley, newly weds, was given in the home of Mr. and Mrs. A. H. Wagley on Friday evening. A merry time was had in the diversion of the game until a late hour.

Prizes for high score went to Mrs. Arch Smoot of the ladies and to Clyde Thorpe of the gentlemen. Those present were Mr. and Mrs. S. E. Eubank, Mr. and Mrs. John Thorpe, Mr. and Mrs. Albert Wagley, Mr. and Mrs. W. O. Lawson, Clyde Thorpe and E. H. Johnson.

The Night Hawk Bridge club met with Mrs. J. F. Cunningham Friday evening, October 10. A very enjoyable time was reported by those present. Miss Willie Kennedy won high score and Mrs. A. B. Allen the high score for the guests. Delicious refreshments were served the following: Mesdames A. J. Frazier, L. B. Williams, E. H. Williams, J. F. Cunningham, W. A. Wallace, E. C. Waddell, A. B. Allen, Misses Lois Reese, Frances McIntosh, Vella Sandlin, Willie Kennedy and Lois Kennedy.

The Women's Study club met Monday in regular meeting in the home of Mrs. E. C. Waddell. The club was to have been favored with an address by Mrs. William Reagan, of Cisco, but on account of the inclement weather Mrs. Reagan was unable to get here. The president called for the business session however, and in absence of the secretary the reading of the minutes was omitted. The chairman of the program committee reported some changes in the year's program and the corresponding secretary, Mrs. John Cook gave a report from Mrs. Lindsey thanking the club for a copy of the year book. It was then voted to make a change in the next regular meeting from a social to a regular program, on November 10. The president read an article from the Texas Federation News by Mrs. Fisk urging each club of the Sixth District to send a delegate to Houston to the state meeting in November. After the roll call the club was favored with piano numbers by Miss McIntosh. After delicious refreshments of charlotte russe in pink angel food squares in green, and hot tea the club adjourned to meet on October 27 in the home of Mrs. B. L. Mitchell. Those present were: Mesdames F. Shackelford, S. B. Miller, John Cook, Fred Cook, L. B. Williams, R. D. Williams, Marvin Eubank, E. C. Waddell, R. L. Clifton, Wiley Clinton, members. Guests were Misses Lois Reese, Rena Ball and Frances McIntosh.

Reuben Short was crushed to death under a locomotive engine on Sunday afternoon, October 12, near Eagle Ford. Mr. Short was fireman on train No. 10 to the T. & P. railroad, traveling eastward. The engine turned over pinning him underneath and killing him instantly.

He was the son of E. A. Short, formerly of this place, but now of Weatherford. He was reared near Putnam and lived here after reaching the years of maturity. Mr. Short was married to Miss Inez Purvis in Putnam and moved to Arizona where he made his home for several years, recently moving to Big Spring.

This was his second trip out as fireman on the T. & P. fast passenger train. His wife and one child survive him. Interment was in Cisco on Thursday afternoon.

ADMIRAL

Jackie Street left Friday morning for a visit with relatives in Abilene.

Mrs. Dawkins spent Friday with her daughter, Mrs. Emma Harwood of Cross Plains.

Reuben Sanders from near Putnam visited with his grandmother, Mrs. Julia Sanders, last Friday.

The new school building is nearing completion. It is thought it will be ready for school Monday.

CARBON

Carbon Trading company was the scene of activities all last week while the cooking school was in progress.

Rev. and Mrs. Hollis attended the Cisco Baptists association held at Breckenridge last week.

Rev. J. W. Cunningham of Des Moines.

Relief From Curse Of Constipation

A Battle Creek physician says "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.—Dean Drug Co.—Adv.

GRAPEVINE

Speaking of rain, we have had plenty of it lately. We have a much better season in the ground now than we have had for the last two years which sounds good to the farmers of this community.

Bob Walker says he doesn't know how he will spend his money for the next several months as he will not have to have his water hauled since his new cistern was almost filled by the recent rains.

Grapevine is losing two families this week and gaining one. L. A. Kelly and family are moving to Tyler where he will again take up his work as truck driver, and W. L. Bean and family are moving to Littlefield for Mrs. Bean's health.

John Patterson and family have moved on the "old Nicholas place" We are glad to have them and hope to make them glad to be here.

Our Home Demonstration club ladies met at the school house last Thursday evening for the purpose of electing a secretary and treasurer as Miss Dona Matthews our former secretary is moving to Courtney.

Miss Della Matthews was elected to carry out this year's work. Our next meeting will be at the home of Mrs. L. C. Owens on October 22.

Mr. and Mrs. Tom Tucker visited Mr. and Mrs. John Seabourn Sunday evening.

Mrs. Joe Harrison made a business trip to Abilene this week. J. T. Walker is spending this week with his children in Cisco.

Misses Dona and Della Matthews visited their sister, Mrs. Bob Walker Thursday evening.

Mrs. Tom Nobles spent Wednesday with her mother, Mrs. Will Robinson.

Mr. and Mrs. Fred Walker visited Mr. and Mrs. W. T. Bean Monday evening.

next meeting will be at the home of Mrs. L. C. Owens on October 22.

Mr. and Mrs. Tom Tucker visited Mr. and Mrs. John Seabourn Sunday evening.

Mrs. Joe Harrison made a business trip to Abilene this week. J. T. Walker is spending this week with his children in Cisco.

Misses Dona and Della Matthews visited their sister, Mrs. Bob Walker Thursday evening.

Mrs. Tom Nobles spent Wednesday with her mother, Mrs. Will Robinson.

Mr. and Mrs. Fred Walker visited Mr. and Mrs. W. T. Bean Monday evening.

in four of inspection over this magnificent craft will reveal all the Modern facilities of steamboating and electrical refrigeration. There are barber shops, post office, bakery shop, carpenter and machine shops, laundry, printing shop pay officers, detention quarters, drug store, fireproof storerooms, first-aid stations, hospital and operating rooms with latest X-Ray equipment, complete telephone and loud-speaker equipment throughout the ship, fire fighting equipment and fire-alarm mechanism of the most modern type.

In addition to a fully equipped library, the crew has a large recreation hall amidships, with modern writing desks and reading lamps. Besides the officers there are 343 enlisted men aboard the vessel.

NOT A CANDIDATE

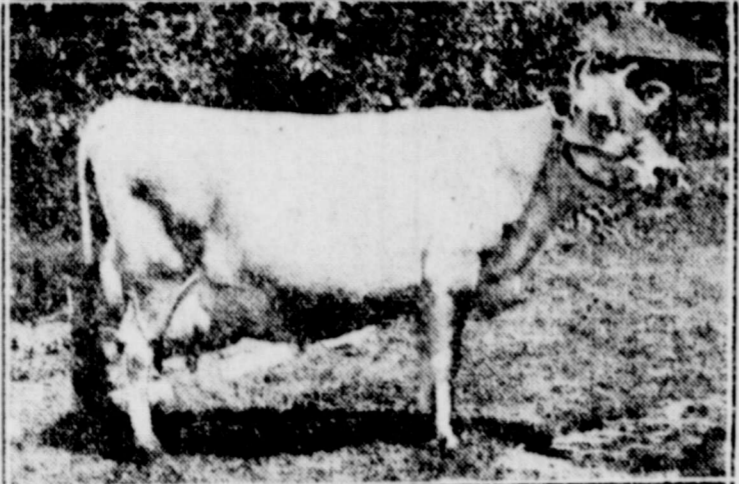

WACO, Oct. 16.—Mrs. F. S. Davis of Dallas, for 24 years president of the Baptist Missionary Union of Texas, will not be a candidate for re-election when the annual state convention is held at Amarillo early in November. She announced such intentions at the executive board meeting of that body here yesterday.

APPLICATION

FORT WORTH, Oct. 16.—Operation of the Burlington-Rock Island railroad from Houston into Galveston over the Southern Pacific tracks is sought in a petition of the Rock Island and Burlington systems, according to John A. Hulien, vice president of the Fort Worth and Denver, a Burlington subsidiary.

TAKES OFF

WICHITA, Kan., Oct. 16.—Laura Ingalls, St. Louis aviatrix who is setting a woman's record for the flight from Los Angeles to New York, took off from the Wichita Municipal airport at 8:22 a. m. today for Kansas City. A propeller was secured here to replace the one cracked yesterday when a gust of wind caught Miss Ingalls' plane just as she landed and forced it over.

Golden Chief's Lady May 601637

Breaking at one time two world records, one for milk, the other for butterfat production, Golden Chief's Lady May, a purebred Jersey cow owned by Lloyd A. Hulbert of Independence, Oregon, recently yielded 19,922 pounds of milk, 852.29 pounds of butterfat in an official production test of 305 days, the first which she has completed.

Her milk yield in this test, exceeds by almost a ton of milk the existing 305-day world record of 18,947 pounds for Jersey milk production, all ages, established in 1923 by Trimmer's Sancy Meg, a cow owned by E. M. Sherman, Charles City, Iowa, and her butterfat yield breaks the existing world butterfat record of the Jersey breed for mature cows, 305-day tests, completed in 1927 by Poet's Mabel Mowal, owned by Karl Hanneinan of Portland, Oregon.

The amount of milk and butterfat produced by Golden Chief's Lady May during her test is the equivalent of 9,266 quarts of milk, 1,117 pounds of butter, or enough milk to supply a family with a quart a day for more than twenty-five years. Valuing the milk at 12 1/2 c a quart Golden Chief's Lady May earned \$1,158.25 for Mr. Hulbert in the 305 days. During this time, according to records kept by Mr. Hulbert, she consumed approximately \$210 worth of feed.

Golden Chief's Lady May was 6 years and 7 months of age when started on test and while making her remarkable records received only the usual care given a profitable dairy cow. Eight different supervisors from the Oregon State Agricultural college checked her production during the 305 days of test. On four different occasions she yielded more than a ton of milk in a single month, during her highest month producing 2,164 pounds of butterfat.

Mr. Hulbert had not officially tested his cows for production previous to September, 1929, at which time Golden Chief's Lady May and three of her stablemates were started on test. When these four cows, three of

which were under 4 years of age, finished their tests at the end of ten months they had produced a total of 55,504 pounds of milk, 2,384.19 pounds of butterfat, the equivalent of 25,815 quarts of milk, 3,896.48 pounds of butter. In addition to the two world records broken by Golden Chief's Lady May, this quartet of purebred Jersey cows, pending calving, have qualified for two Medals of Merit, three Gold Medals and three Silver Medals awards of the American Jersey Cattle club for their outstanding performance as products.

In the ensuing melee Bill was whacked over the head. Officers and cowboys engaged in hand-to-hand conflict. Ranger Captain Tom Hickman vainly tried to restore order. The leader of the Simmons University Cowboy band drew a couple of wicked looking guns, allegedly unloaded but looking wild and woolly nevertheless. The cowhands turned a herd of wild steers into the arena.

In short, pandemonium reigned. Bill was escorted to the city hall, docketed to appear in corporation court today and released.

NIGHT STICKS TO COME BACK

LINCOLN, Neb. — Lincoln police will be wielding the "big sticks" again, according to Acting Chief of Police Walter Anderson. For some time, patrolmen have not carried night sticks. Recently a patrolman was injured in a scuffle with a drunk. As a result Anderson has ordered night sticks.

CENTENARIAN DEAD

NORRAHAMMAR, Sweden — Mrs. Stina Great Abrahamson, 105, believed to be Sweden's oldest inhabitant, has died here.

Reduction in U. S. Debt to Be Less

WASHINGTON, Oct. 16.—The amount of reduction on the \$16,000,000,000 (16 billion) United States public debt is likely this year to be about half the amount paid off annually in recent years, it was indicated at the treasury today.

For some years, the treasury has been reducing the public debt at an average annual rate of \$900,000,000. In the last fiscal year, \$746,000,000 was cut off the debt, but this fiscal year debt retirement probably will not exceed the legal minimum of \$455,000,000.

The treasury is required by law to place in the sinking fund for best retirement each year an increasing amount bearing a definite relation to the debt outstanding. The treasury this fiscal year must retire \$455,000,000. Slow progress has been made to date, only \$65,000,000 having been placed in the sinking fund since July 1.

In the many years of large surpluses since the World War, it has been the treasury's policy to utilize the surplus at close of each fiscal year for debt retirement. This was \$18,950,000,000 last year.

SLOW RIDERS TOO SLOW

LUTON.—So slow were the only two competitors in a slow bicycle race, that they were ordered to dismount and toss to decide the issue.

IMPROMPTU PERFORMANCE IS SUPERIOR

DALLAS, Oct. 16.—An entirely impromptu performance in the rodeo arena at the State Fair grounds last night was judged by some patrons to be far superior to the anticipated program. Others taking advantage of a technicality asked for their money back.

As the trite phrase goes, a good time was had by all, with the possible exception of one Bill Till, strapping cowhand, and a few coppers.

Bill asserted rights over the rules to enter the arena by the spectators' gate, with which a policeman differed. Antagonism arose, and was aggravated by officers' orders to enforce a loose rule to clear the ring of non-performing cowboys.

In the ensuing melee Bill was whacked over the head. Officers and cowboys engaged in hand-to-hand conflict. Ranger Captain Tom Hickman vainly tried to restore order. The leader of the Simmons University Cowboy band drew a couple of wicked looking guns, allegedly unloaded but looking wild and woolly nevertheless. The cowhands turned a herd of wild steers into the arena.

In short, pandemonium reigned. Bill was escorted to the city hall, docketed to appear in corporation court today and released.

PLAN TO FLY COLUMBIA TO U. S. IN NOV.

After all, the American continent is a big place. Fuel consumption will finally determine both the starting point and the length of the flight. "We will not take any changes like we did on the last trip." Boyd said. "We are out for another fuel. There will be no drop of an extra fuel tank for Anyway, you can say that we flying back unless we get by a taxi or something in meantime."

He persuaded his fellows to go on with the show. They did, but patrons said it was a little flat after the unbridled and enthusiastic performance.

Airplane Bears Jap Ratification

CHEYENNE, Wyo., Oct. 16.—Lieut. Irvin A. Woodring took off from the airport here today for Omaha, Nebraska, bearing with him a copy of the Japanese ratification of the London naval treaty.

The army flier was forced down at Cheyenne last night by a heavy snowstorm. The sky had cleared today and flying conditions were reported excellent for his flight to Omaha, where he will refuel and continue on to Washington.

Woodring's flying mate, Lieut. William Caldwell, who left Victoria, B. C., at the same time yesterday with a duplicate copy of the treaty still was lost today in the region near Laramie.

The Boeing Air Corporation sent two planes out early today to search for the lost aviator.

LONDON, Oct. 16.—Capt. J. E. Boyd and Lieut. Harry Connor intend to fly the monoplane Columbia from Creydon to Balldonnell, Ireland, to North America in November, Boyd told the United Press today.

The fliers crossed the North Atlantic from Harbor Grace, Newfoundland, to Trescoe, in the Scilly Isles, last week, making a forced landing when a gasoline feed pipe broke.

Boyd did not appear at all concerned about the dangers of an east to west crossing late in the year when weather conditions are likely to add greatly to the hazards of the flight. "I intend to take every precaution for safety," he said, "and I am therefore certain of making it. I am not worrying the slightest. I am confident, and why shouldn't I be when I am accompanied by a skilled navigator like Harry Connor?"

The actual destination of the fliers after crossing the Atlantic was as much in doubt as the starting point for their journey, Boyd indicated.

"We have not decided where we will land on the American continent," he said. "If we have sufficient fuel left when we reach Canada, we may continue to New York." He added laughingly, "we might go on to South America."

Steer Team Has Some of Best Material in District

HERE IS THE STEER SQUAD WHICH WILL FURNISH LOBOES OPPOSITION FRIDAY

Above is seen the crew from which Coaches Bill Stevens and George Brown draw their strength this year. Forty-four aspirants are on the squad which will meet Cisco here Friday evening. Reading from left to right, top row—Coach Brown, Reed, Sanders, Hopper, Huit, Johnson, Fardue, Maxwell, F. Coburn, Gray Brock, C. Coburn, Thompson, Creighton, Coach Stevens; second row, Vines, Yates, Yarbrough, N. Orr, Hebeisen, Glover, F. Orr, Atkins, Hildreth, Wood, Deaton, Morris, Martin, Savage, Collins; third row, Flowers, Brehm, Gads, Neel, Yater, Mims, Rogers, Kidwell, Stanil, Schwartzbach, Phillips, Pickle, Smith, Patterson; fourth row, Hammock, Conway.

Here's the Protection You Need— It's Bad News to Germs.

Spray your nose and throat often during the fall and winter and you are avoiding the attacks of bad colds. Use one on your children each morning before they start to school and safeguard their health. Ask your doctor what he thinks about it and he will say the same thing. It will keep your head clear and is the best thing known for catarrh.

ETS CISCO LOBOES HERE FRIDAY NIGHT

Very Fast Aggregation Has Improved With Each Game

This page today appears a picture of the Big Spring Steer football team of 44 members. According to observers the Steer eleven presents a collection of material as any in the district. The team started out slowly but in each game has played to date the boys are improving rapidly. After having hardly gotten the Steers to the field in the first game, the team met Mineral in the second game. The Mineral eleven that has since proved it is nothing to be sneezed at. The Big Spring team showed improvement to upset the Mineral team and down the Miners. Last week the Steers met the co-champions of 1929 and won to a margin of two touch-

Different Story.

The Big Spring team met later in the season, after it had time to develop into something more than a collection of material. There would have been a difficulty to tell about the contest. The Steers face the Bears here Friday at 8 o'clock on Chesley. They will face a squad as well as themselves, with speed and passing attacks in the district. The Steers will stop the running attack of the Bears with their backs led by the Flowers. Flowers was the star in the game last week. The Steers are coming to Cisco for a battle that will be even more than that which they put up last week. The game offers the opportunity of the season for the Steers to show their strength to the Buckaroos, whom they meet next week.

Over-Emphasis Is Threat to Football

Over-Emphasis Is Threat to Football. The over-emphasis of college football threatens to kill it as a sport in five years, according to a report head coach at Princeton.

Who is completing his last year of college, the Tiger football coach attacked the present game on counts—spring and early practice, night games, and too much publicity for individual players. In a talk with sports writers, the place of football in the university was said to be "merely an adjunct to the college student."

He continued, "is on the decline in colleges, and that the cause of spring football practice is the early drill takes the boys from all other spring athletic terms night football and outdoor games."

TRICK SHOTS

CLASS, Oct. 16.—Ralph Guldromping young golf pro here, gave his impressions of Joe Wood's trick shots at the Bobb's driving range here tonight. All recently played to a prominent place in gold by leading initial round of play in the St. open championship.

He Must Die Man Finds Life In Crazy Water

County Sheriff Wants World To Know His Crazy Story. The year of 1923 I was living at Okla. I was confined to my bed with a complication of diseases. I was diagnosed by different ones as disease, Paralysis, Neuro-muscular and a dead liver. When it was decided to take me to Mineral Wells the doctors did not think that I would live to get there. The doctors in Mineral Wells I arrived did not think that I was any chance for me to recover.

Frank Crazy Water for four years and was, so far as I was completely well. I gained 94 lbs in weight, and took a job as a sheriff which necessitated walking on my feet from eight to ten hours every day, and often doing a lot of night work. My water certainly pulled me out of the grave.

GEO. HENSLEY, Granite, Okla.

Unbeaten Teams Are Few Now

NEW YORK, Oct. 16.—Present day football schedules being what they are, the list of major eleven unbeaten and untied is small indeed. In the east, Yale and Princeton have been defeated. Three of the far west's big teams—California, Southern California, and St. Mary's—have been defeated, while Stanford, mightiest of them all, has been tied. In the mid-west, six members of the Big Ten have been beaten and one tied. After Saturday the list will be much smaller, for six of the day's games are between unbeaten and untied eleven.

MATRIMONY IS THREAT TO U. S. NET OUTLOOK

By FRANK GETTY. United Press Sports Editor. NEW YORK, Oct. 16.—A preference for matrimony and business careers evinced recently by some of the country's leading young tennis stars has left the outlook for regaining the Davis cup from France even darker than ever. Among the youngsters who haven't recently acquired wives and obligations which will keep them from the barnstorming over a period of months involved in Davis cup play are several who have expressed a determination to abstain from international tennis until conditions change.

When George Lott, who was No. 2 singles player on the 1930 Davis cup team, eloped with an Abington, Pa., debutante he made it practically certain he would keep his word to withdraw from international play. John Van Ryn, the doubles player, may not allow his marriage to Midge Gladman to interfere with his tennis, but Johnny Doeg, the singles champion, is working on a Newark, N. J., newspaper with "object, matrimony," and an eye to a business career.

Insufficient. The boys are found to find the rewards of amateur tennis insufficient to care for a family. Two cannot live as cheaply as one traveling from one tournament to the next despite the elasticity of some of those country club expense accounts.

Of course, if you are sufficiently famous, like Helen Willis Moody, you can travel to South American to play exhibition matches and take the family along. Mrs. Moody is reported to be leaving Friday for tennis in Buenos Aires, accompanied by her husband and Berkeley Bell, the Texan.

The Davis cup situation, however, requires such a lot of time and travel that the average newlywed probably cannot afford it. To keep up with the team, a player has to start early in the spring in the south. If, indeed, he has not been playing all winter at expensive resorts—and travel up and down the continent meeting the Cubans, the Mexicans and the Canadians, before heading for Europe and the interzone test and challenge round.

In addition to Lott, Doeg and Van Ryn, another who may have to be counted out when prospects for 1931 Davis cup play are considered is Wilmer Allison, of Austin, Texas, who is changing to the present system which permits W. T. Tilden to stroll in and out of the Davis cup fold pretty much as he pleases, and the Texan may not try for the team next spring.

SPORT SHOTS

PALO ALTO, Cal., Oct. 16.—An important coast conference game will be played here Saturday when Stanford meets the strong Oregon state aggregation, expected to arrive tomorrow. The Cardinals will have their hands full against the Staters, who have a line averaging 197 pounds and a backfield averaging 171.

BERKELEY, Cal., Oct. 16.—Coach "Nibs" Price of California showed doubt today over his original intention of using second string players in the game Saturday with the San Francisco Olympic club. Although it is important for the Bears to save their strength for the coming battle with Washington university, all are agreed that the clubmen are not lacking in strength.

PEORIA, Ill., Oct. 16.—Allen Whitlow, Phoenix, Ariz., featherweight, won a close 10-round decision from Eddie Shea, Chicago veteran, here last night. The referee and one judge gave the decision to Whitlow, while the other judge voted for Shea.

OAKLAND, Cal., Oct. 16.—Jimmy Duffy, 149, Oakland, won a decision over Paul Aubertin, 147, France, in a ten round main event here last night.

FAYETTEVILLE, Ark., Oct. 16.—As the Pikers went about the red and white camp today straightening out miscues which the Horned Frogs unveiled for them, they were determined that the Rice Owls should no longer be the "unknown X" of the Southwest conference after Saturday's game. Whatever the score may be, the Razorbacks are determined that the fray shall uncover all the tricks the feathered tribe may carry under its wing. Oliver "Chicken" Holmes, veteran signal caller, will be back in the line-up, Coach Fred Thomsen announced.

The game will be broadcast by station K-U-O-A.

COLLEGE STATION, Oct. 16.—With the exception of Byron Magrill, veteran tackle who suffered a broken wrist bone in the clash with the Nebraska Cornhuskers, all members of the Texas Aggie grid machine are groomed for the fight in their own back-yard Saturday. Magrill will not oppose the Frogs, Coach Matty Bell has definitely announced. Joel Hunt, former stellar quarterback for the Farmers, ran with his former mates this week, giving backfield men what pointers he could. Regardless of weather conditions, the Farmer-Frog tilt will be played on dry turf protected by a field cover.

AUSTIN, Oct. 16.—Beat the Soomers was the rallying cry on the University of Texas campus today that reached the ears of the Texas Longhorns down on the practice field where final touches were being put on the Steer grid machine.

The Longhorns will enter the Soomer scrap with an appreciable weight advantage. The greatest contrast lies in the two backfields. On the Soomer squad, a 140 pound player pulls the average down to 164 pounds, while Shelley and Koy on the Steer team send the Texas average to 177 pounds. The Longhorn team average is 183 pounds, for Oklahoma 175 pounds. The Oklahoma men have flashed a wide open running attack in their previous games, while the Longhorns have made their greatest gains by the "power-house" style of play.

DALLAS, Oct. 16.—Out on the hilltop today the Ponies of S. M. U. were being paced at a hard clip, smarting under the accusation of their coach and trainer Ray Morrison who declared his men were over confident in regard to the green and gold spot on their conference schedule. With Mason and Powell out, Morrison

has two more good reasons for taking the Baylor battle seriously. Training sessions this week have indicated that the Mustang attack will go on the air in the early part of the game. The Ponies have likewise been taught how to handle their feet, but most of their yardage this Saturday is expected to come from the skies.

WACO, Oct. 16.—A green and gold grid machine worked out in grim determination today, while several hundred yards away the Baylor Bear band tuned their instruments for Saturday's rendition of "That Good Old Baylor Line," a curious melody that works magic with any Baylor team. The Bears have never been household pets exactly on football fields, and on their own traditional turf they are a great deal more to reckon with. Eleven men, all with three-year conference experience behind them, will face the Mustangs Saturday, while ten others will be on the sidelines eagerly awaiting an opportunity to sub. In addition to this reserve, the Trinity Tiger game last week uncovered some diamonds that are not entirely in the rough on the Bruin team.

CARNEGIE TECH TEAM CAN WIN, SAYS MENTOR

CHICAGO, Oct. 16.—Court convened as usual today for Judge Walter P. Steffen but it wasn't law or lawsuits that occupied his mind. The judge's main concern was whether Lathan Flanagan, Carnegie Tech's great end, would catch one of those long passes from quarterback Harry McGurly against Notre Dame of South Bend Saturday—or thoughts to that effect.

Five days a week Steffen is a judge in a Chicago superior court, hearing personal injury suits and such. The other two days he's coach of the Carnegie Tech football team which invades South Bend this week hopeful of inflicting the second defeat in 25 years on a Notre Dame eleven playing at home.

Carnegie Tech conquered the Irish 27-7, on Carter field in 1928 and Judge Steffen officiated to the United Press today that he had a team good enough to turn the trick again—"if they have one of their good days."

"Rockne has a great team," said Steffen, "but I have a good team capable of winning and we are not going to South Bend to lose. It looks like Notre Dame is getting better and I know they'll be plenty tough no matter how bad they are."

ROCKNE DISPLEASED WITH SHOWING

SOUTH BEND, Oct. 16.—Displeased with the showing of his players in practice this week, Coach Rockne planned to send the Notre Dame squad through another scrimmage today in preparation for the Carnegie Tech game Saturday. After yesterday's two hour scrimmage, in which the freshman offense all but disrupted the varsity defense, Rockne said: "You were terrible. They'll beat us by eight touchdowns instead of three if we don't get any better than this."

Austin—State highway commission during recent week awarded highway betterment contracts amounting to \$1,381,272 calling for improvement of 174 miles of roads.

BIG DAM CHATTER

Tomorrow evening at Chesley field the Cisco Lobos are due for some exciting moments if you ask us. There has been a considerable amount of "chest" evident among the members of the squad of late and we are interested in determining to what extent that will affect the score tomorrow evening. So far this season the team has been working with scientific precision and efficiency. We may expect a let-down along about now. And personally speaking we are on edge for fear that this slump will occur during this week and next.

Those who have watched the Lobos sweep impressively through opposition so far may have gotten the idea that the team is unbeatable. In a district like the oil belt, with a schedule like the oil belt schedule no team is unbeatable. It will take just a little change in the attitude of the boys tomorrow night to give Big Spring a victory over the Lobos. You may not believe that, but it is true. Ask any coach. The difference between a winning and losing team is after all a slight thing.

The Lobos enter the contest without the services of Turknett, Cole is nursing an injured knee. Beyond that the squad is in excellent condition. But the loss of the first string quarter will be felt. Turknett is playing a brand of football this season far superior to that of last year. He has not only run his team creditably but he has done some excellent punting and passing and running of his own.

Breckenridge, Cisco's foe of next week, meets Eastland Saturday afternoon at Breckenridge, according to the schedule. Thus the two opposing elevens of a major battle are polishing off for each other upon teams that have been defeated by the other. Cisco downed the Eastland eleven 26 to 0 here earlier in the season while the Buckaroos defeated Big Spring 19 to 6 at Big Spring last week.

There is much comment going about the district of late to the effect that the Buckaroos will be just a gentle breeze for other major elevens in the district. The comment recalls the "prayer" that the green wave had last year.

It stands to reason that this attitude is vastly gratifying to the Buckaroos. It gives them the advantage of working under cover while the pitiless light of public interest is centered upon other fields where apparently more dangerous contenders grind. In a district like the oil belt there are more things to coaching a team than teaching the boys how to block and tackle, and run and pass and punt and function as a team. You have heard college coaches stress psychological factors, recalling the numerous expedients which have been resorted to in taking advantage of this elusive but powerful influence.

It is not improbable, by any means, that high school coaches in a district so hard-fought, so difficult of survival, would resort to similar purposes. Canyon.—Floodlights with capacity of 72,000 watts will be installed for night playing at West Texas Teachers College football field.

Two Highlights in Texas Conference

BROWNSWOOD, Oct. 16.—Two highlights in the Texas conference contest stood out prominently today. In Sherman Friday afternoon the Yellow Jackets of Howard Payne

and the Austin college Kangaroos tie up in what is expected to be one of the toughest tussles on the calendar. That night the Saints of St. Edwards and Southwestern will clash at Georgetown in a game that will likewise have an important bearing on the race. News want ads bring results.

We join with Firestone in PRE-INVENTORY SALE

Prior to Closing of Fiscal Year October 31

WE ARE overstocked on some types and sizes of tires and tubes, also accessories—we want to clear our shelves and racks and get ready for the renewal of our franchise with Firestone.

WE HAVE marked down prices to the very bottom. Every tire is a most unusual bargain because every tire is made by Firestone and bears the Firestone name for your protection.

NEVER before has Firestone quality been available for so little cost. Practically every tire is new—fresh from the Firestone Factory.

DURING this pre-inventory sale, we will give you a special allowance for your old tires in trade for new, safe Firestone tires. Come in today and find out how little it costs to equip your car with these sturdy, dependable, non-skid Firestone tires.

THE PRICE of rubber and cotton is low—Firestone quality is the highest it has ever been and at these greatly reduced prices you will want to replace your worn tires at once and have your car equipped for the wet, slippery weather of fall and winter.

Come in while we have your size at these unusual bargains

CRIME COMM'N TO MEET AGAIN ON NOVEMBER 5

By LYLE C. WILSON
United Press Staff Correspondent
WASHINGTON, Oct. 16.—Another meeting of the Hoover crime commission was tentatively scheduled today for November 5, the day after voters in half a dozen states have expressed themselves on various phases of the prohibition problem.

The commission now is in the midst of the longest of its sessions in an effort to prepare a prohibition report for the president by early December. Another meeting probably will be held tomorrow, although at least four of the 11 commissioners are absent.

Adjournment until after the elections is contemplated with the prospect of still another session late in December when the prohibition report, if ready, would be submitted.

The extent to which election results will influence the commission is not clear. Chairman W. H. Woodruff has said the commission cares nothing about elections, but at the same time he admitted that popular opinion had to be considered in connection with enforcement of any law.

Marx Brothers Score Big Hit

Buttons anchored to home-ports with anything less than the best grade of brass rivets or steel cable, have a delicate tenure of office Sunday at the Palace theatre, where The Four Famous and Furiously, Funny Marx Brothers are doing, in "Animal Crackers," something fifty million rivet-racked lovers of comedy believed impossible. They've made a talking and musical picture that takes up where "The Cocoanuts" left off, and ends with the last survivor being carried up the aisle by force, three strong ushers, and well—who is your favorite escort to the "booby-hatch?"

The story is something about a stately and socially proper hostess, with a house-party on her hands at a palatial country estate. A big game hunter just back from an African expedition, his secretary and two vaquero musicians engaged to attend to the musical appetite of the guests is the business assigned Groucho, Zeppo, Harpo and Chico Marx, respectively.

They arrive simultaneously and with their usual hurricane momentum at a time when the festive gathering is being diverted by a butler weighing just a fraction less than a half ton, a feud between the hostess and a rival matron over the authenticity of a fine painting, and more pretty girls in lingerie and bathing suits than most revues boast. You understand what we mean by pretty when we say Lillian Roth heads the feminine talent.

This is the premise or the premises upon which the riot is fashioned—and the developments quarrel superlatives that Webster intended for even the most hilarious narratives.

In addition to the Marx Brothers, and Miss Roth, the cast presents Margaret Dumont, Louis Sorin, Hal Thompson, Margaret Irving, Kathryn Reece, Richard Gray, Edward Metcalf and the Music Masters.

About Cisco Today

LOUISE TRAMMELL, Society Editor Phone 535 or 80

The Merry Wives "42" club will be entertained today at 3 o'clock by Mrs. G. D. Ward, 707 avenue I.

W. M. Murray of Moran is spending today in Cisco.

Mrs. P. W. Campbell passed through Cisco yesterday en route home from a visit with her daughter, Mrs. Robert White, in Duncan, Okla.

Jack Cobley spent yesterday in Breckenridge.

W. H. Warner of Abilene was a visitor in Cisco yesterday.

Will St. John has returned from a business trip to Snyder.

W. M. Earnest transacted business in Breckenridge yesterday.

Mrs. Rex Moore and daughter, Julia Jane, are leaving in the morning to spend the weekend in Dallas.

New arrivals at the Brown sanatorium are: Mrs. J. T. Shadbolt of Rising Star; Mrs. Joe Adams of Abilene, Mrs. Barney Wright of Menard, Miss Johnnie McDonald of Albany, Mr. and Mrs. R. L. Alexander of Anson, and Mrs. M. A. Hibbs of May.

Jack Daniels has returned to his home in Spur after a visit in Cisco.

Dave Duncan of Cross Plains is a visitor in Cisco today.

Dr. R. G. Milling of Mineral Wells was the recent guest of his mother, Mrs. R. G. Milling, in Cisco.

Mrs. S. B. Parks, Mrs. Jack Duncan, Mrs. B. Montgomery, and Mrs. C. W. Graves spent Tuesday in Breckenridge.

Miss Mayme Estes, teacher in East Ward, has been ill this week with tonsillitis.

Miss Veina Harris of the Breckenridge Daily American is visiting relatives and friends in Cisco this week.

Miss Lois Grantham spent yesterday afternoon in Baird.

Mr. and Mrs. J. A. Bearman left recently for a week's visit in Tulsa, Okla.

Dr. W. E. Chaney of San Antonio was the guest yesterday of Dr. N. A. Brown.

Paul McBride has returned to Tyler after a short visit in Cisco.

Mrs. K. K. Greer and Mrs. Jack

Cabanes are spending today in Fort Worth.

C. A. Parker of Moran is transacting business in the city today.

Mrs. W. J. Leach and son, Jake, have returned from a visit in Snyder.

Mrs. C. E. Hickman and Mrs. Clarence Parrish were guests of friends in Ranger yesterday.

Byron Collier of Dallas was the guest Tuesday of his uncle, O. C. Lomax.

Mrs. J. M. Carter and Mrs. W. R. Simmons have returned from a visit with relatives in Waxahachie.

Mr. and Mrs. Richard Young spent Tuesday in Olney, guests of Mr. Young's father.

Miss Letha Estes, who has been visiting relatives and friends in Big Spring, Stanton and other points of West Texas for the past four weeks, has returned home.

Mrs. Richard Bearman and Mrs. Paul McBride were visitors in Ranger yesterday.

Oil Prices Cut

CONTINUED FROM PAGE ONE

posted price in the particular field must inevitably follow. We cannot continue to pay more for crude than others are paying.

In view of the fact that crude oil from north Texas and Panhandle fields is being sold below our posted price, we have no alternative but to meet such low price by posting in these two fields effective today the attached schedule.

New Postings

Effective 7 o'clock this morning we posted the following prices for north Texas crude in Wichita, Willbarger, Archer and northern Young counties, 34 to 34.9 gravity 80c increasing price 3c per degree. Gravity up to 44 and above making top price \$1.19 with differential. Below 34 gravity 4c per degree making bottom price below 29 gravity 65c for Carson and Hutchinson county crudes 34 to 34.9 gravity 79c increasing price 3c per degree gravity with top price \$1.09. For 44 and above and a differential below 34 gravity of 4c per degree making bottom price 55c. For below 29 gravity Gray county crude 34 gravity to 34.9 6c increasing 3c per degree gravity up to 44 and above making top price \$1.14 with differential of 4c. Below 34 gravity for each degree making bottom price 60c.

NEED OF RELIEF TO BE PRESSED

Shepard Calm as Last Hours on Earth Are Dwindling

MOODY NOT EXPECTED TO TAKE HAND

National Talk Follows Eerie Screams of Months

HUNTSVILLE, Oct. 16.—Joyce Shepard was calm today as his last hours on earth dwindled. Shepard, alias Bill Smith, is expected to die in the electric chair a few minutes after midnight.

Gov. Dan Moody today indicated that he would not interfere with the scheduled execution of Shepard.

Day after day for months the house has rung with ghastly screams issuing from his cell. Sometimes he would stalk about his cell muttering unintelligibly or strip clothing from his body and rub himself on the cold stone floor and lie there for hours at a time.

The eerie cry of "Jones, oh Jones," the substance of most of his screams. Authorities never discovered who he was crying for. It is that is thrilling New York newspaper editors.

Shepard was a cell-mate of Robert Blake on death row two years ago. Blake penned a story of life in the row, and it was printed after execution. From this story "The Mile" now showing in New York was taken, and in it Shepard's name was used.

After he was convicted two years ago for the murder of Deputy Sheriff Owens of Fisher county, Shepard's maniacal conduct in the death row won an insanity hearing for him. He was declared insane and placed in the state asylum at Huntsville.

He became rational soon after he was placed in the asylum, declared sane and sent back to death row, where his "insanity" returned.

Warden Waid today said that Shepard was calmer and that he was dying rationally.

MOOS STANDS WIN. Austin, Oct. 16.—Luz G. Arcos today does not return to Austin to be granted a reprieve. Arcos tonight already has been granted by the Medina county district court which will give him a sanity hearing Monday. Unless a new reprieve is issued there is no future of execution set in case Arcos should be sane.

Such a case has never risen before the governor after issuing reprieves extending at the time for sanity trials. No step had been taken this morning to halt the execution of Joyce Shepard tonight. Shepard, once declared insane, then held sane was taken back to Huntsville for electrocution. A second sanity trial can be held under the code of criminal procedure.

Aardon board report is on Governor Moody's desk in the case of Elton, negro, sentenced to die tonight as the slayer of E. C. Cornell at Simonton.

Arcos killed Luciano Barrientas whom he had an argument over that was claimed to have turned Shepard. Shepard was convicted of slaying Deputy Sheriff Jake Owens Fisher county.

Enough Starting New Well Near Here. Krouh was reported today to be digging cellar for a well on the tract in the East Cisco field within half a mile of the eastern limits of the city of Cisco. Rig of the well is expected to be started once it was stated.

The well will be located half a mile west of the Hickory Oil company's Terry No. 1 producer.

The World's Tiniest Train

Here we have the world's tiniest train—and, for its size, one of the world's costliest—made by J. Martin, a watchmaker of Waltham, England, who is shown here. It is constructed entirely of gold and silver, the engine is 1 1/2 inches long, the whole train is only eight inches long and it runs by clockwork on a track four feet six inches in length, taking 2 1/2 hours to cover the distance and traveling at a speed of about three miles a year.

LIVESTOCK SHIPMENT THIS WEEK RETURNS \$4,215 NET

HAINES AND LUCEY SPEAK TO ROTARIANS

Col. H. H. Haines and Capt. J. F. Lucey, who are here to speak in the interest of the campaign of Col. W. E. Talbot, republican candidate for governor, were the guests and principal speakers at the Rotary club luncheon today.

The two visiting speakers were introduced by Mayor Williamson before the luncheon.

Capt. Lucey spoke only a few words yielding his time to Col. Haines. He urged, however, that in this time of depression the citizens stand solidly behind the president and write him their appreciation of the efforts he is making toward a recovery from the depression.

Col. Haines seconded this request heartily, pointing out that the president is the president of all the people, not of a party.

He then launched into a discussion of depressed conditions, explaining how Port Arthur, through the issuance of bonds for needed public improvement, had solved its unemployment question; had stimulated the circulation of money and the benefits obtained therefrom. "There is plenty of money in the country," he declared. "Look at the savings accounts in your banks and you will find that there are growing."

The theme of his message which was optimistic in its outlook, was that Texas keep the increase of value in its manufacture of raw materials within Texas.

Before the two speakers were introduced Tom Foley told the club of a movement to stimulate a revival of building operations in Cisco through the making of improvements and repairs to real estate property that are needed. He stated that all the loan agencies have expressed a willingness to loan money for this work.

Woman Arrested on Forgery Charge

A young woman, wanted here on charges of attempting to pass a forged instrument, was arrested by Archer City authorities upon request of the Cisco police department yesterday and is being returned to this city to face complaint in the justice court.

The young woman is charged with having attempted to pass a check for \$50 forged on Dr. E. L. Graham, at the Red Front Drug store. She is said to have posed as a nurse employed at the Graham sanitarium.

FIRST REAL WINTER FELT OVER NORTH

Chilling Winds and Snow Are Sweeping Rocky Mountains

DENVER, Colo., Oct. 16.—Chilling winds, snow and sleet gave the entire Rocky mountain region its first real taste of winter today, crippled traffic on land and in the air, and sent the temperature in many cities below freezing.

The snow, churned into a blizzard in many sections, swept across Montana, Wyoming, Colorado, Idaho and Utah. In Denver it melted as it fell, but froze again, covering streets with a dangerous icy coating.

At Helena and Miles City, Mont., the storm drove the temperature down to 2 points below freezing.

SNOW FORECAST AT CHICAGO. CHICAGO, Oct. 16.—Forecast that rainfall in Chicago would be followed by snow were borne out in part early today when a light but chilling rain began.

The weather bureau predicted that storms raging through Canada and the Rocky mountain region would reach here by tonight.

TEMPERATURE DROP IN OKLAHOMA. OKLAHOMA CITY, Ok., Oct. 16.—Temperatures dropped steadily in Oklahoma today as a cold wave swept down across the panhandle regions from the northwest.

The mercury dropped 14 degrees in three hours early today and stood at 53 degrees at 10 a. m.

The government weather bureau forecast still lower temperatures tonight and Friday. Generally unsettled conditions were forecast for the state. Threat of floods in western Oklahoma had passed today.

WINTRY WINDS SWEEP NEBRASKA. LINCOLN, Neb., Oct. 16.—Wintry winds, blowing from the snow covered Rocky mountain range swept over Nebraska last night and today, carrying freezing temperatures and snow flurries from end to end of the state.

Increasing cold and more snow was forecast for tonight and tomorrow by the weather bureau. Temperatures in the 30's prevailed over most of Nebraska.

QUIET REIGNS AFTER THREAT OF MOB RULE

STE. GENEVIEVE, Mo., Oct. 16.—Quiet prevailed here today after threatened race riots which were averted by bringing national guardsmen here twice since Sunday, the result of the murder of two men on the highway near here by three negroes.

National guardsmen who patrolled this city yesterday after nine men were arrested suspected of being members of a mob which sought to kidnap or lynch Louis Ribeau, negro mail carrier, Tuesday night, departed for their homes last night.

Five of the nine men arrested confessed to participating in the mob activities and were fined \$300 and sentenced to 60 days in jail in court here yesterday. The fine and sentence were stayed, however.

Ribeau, who escaped from the mob after they had taken him from his home, returned yesterday but did not identify the men. He and his brother left town yesterday afternoon.

INVESTIGATION ORDERED. ST. LOUIS, Oct. 16.—Operatives of the department of justice here were ordered to investigate the attempted kidnaping of Louis Ribeau, negro mail carrier at Ste. Genevieve, Mo. Tuesday night.

Assistant United States District Attorney Claude M. Crooks, said they were to investigate the activities of the mob which attempted to kidnap Ribeau in accordance with a federal law guaranteeing negroes' constitutional rights.

RESOLUTIONS ADOPTED BY BUSINESS MEN AND BANKERS SUGGEST PLAN FOR DROUTH RELIEF

The resolutions adopted by the meeting of bankers and business men at Eastland yesterday, called by the Eastland County Bankers' association to adopt a suggested program for drouth relief in this area are printed below. The resolutions urge an immediate session of the state legislature to take steps that will place the plan embodied in the resolutions, or some other plan of the character which the legislators may deem wiser, into effect:

1. It is the sense of this meeting that any plan in order to be feasible must be a self supporting plan from each county's standpoint.

2. The commissioners' courts of the counties desiring to avail themselves of this plan will issue legal warrants to the extent of the total amount of money needed to relieve and assist the distress of the farmers in each of said counties in making the 1931 crop.

3. The state of Texas will provide funds and purchase the said warrants from the various counties desiring to avail themselves of this relief.

4. Said warrants to bear interest at a low rate and to be payable in one to two years from date.

5. Said counties will be authorized by proper statute to advance to the individual farmers in said distressed circumstances an amount of money that will take care of all actual necessities as may be

determined after investigation by proper authorities.

6. Said amount of money advanced to be secured and a lien to be prescribed on the crops grown by said farmers. The lien herein mentioned shall be a superior lien.

7. It is further the sense of this meeting that the plans and suggestions above made represent the best thoughts of this meeting, but that we are willing to accede to a more feasible or a more workable plan, as the legislature may, in its wisdom determine.

Therefore, Be It Resolved, by the representative business men, bankers and farmers here assembled, that this resolution be presented to our governor, with the urgent request that he at once convene a special session of the forty-first legislature for the purpose of carrying out this or some other feasible relief plan that may be determined upon by the said legislature assembled.

W. E. Lowe, DeLeon, W. E. Tyler, Rising Star, W. N. McCallough, Coleman, Mrs. P. P. Shepard, Cisco, Alex. Spears, Cisco, Committee on Resolutions.

HUMBLE CUTS OIL PRICES IN THREE AREAS

Reductions in the posted prices of crude in the north Texas counties of Wichita, Wilbarger, Archer and northern Young and in certain Panhandle areas, were announced by the Humble Oil and Refining company today. In the north Texas district the price at the differential point is reduced from \$1.22 to 89 cents, in the Hutchinson and Carson districts the price at differential point is reduced from 92.5 cents to 79 cents, and in Gray county district the price at differential point is reduced from \$1.05 to 84 cents. The reductions do not affect this district.

The company announced the reductions with the following statement: "Proration involves co-operative effort between the industry and conservation authorities, state and national to prevent waste in the production of oil and gas, and, when successfully attained, results in bringing production in all areas into balance with the demand therefore."

"The practice of proration in new fields and unit pool operation alike make for reduction of producing costs, and when progress is made along these lines and supply and demand are balanced with producing costs reduced, it is manifest that both the public and the industry must benefit."

"In no sense, however, does proration freeze prices or otherwise interfere with the free play of competitive forces. Competition will always exist between oils of different grades from different pools and in different localities."

"When any considerable amount of oil is being sold from any field at less than the posted price, as is now the case in certain areas, the lower price establishes the market and readjustment of the

NEW YORK, Oct. 16.—Board of managers of the New York cotton exchange have voted to set the maximum limit of interest by any member, firm or corporation, and his or its affiliations, at 1,000,000 bales for delivery in October 1930, and in all months up to and including September, 1931.

New Structure for Cattle Market

DALLAS, Oct. 16.—A new market structure for cattlemen of Texas was raised here today according to plans made by the Texas Livestock Marketing association which met Wednesday. Under the new system, cattle men applying for membership have but to agree to ship their marketable livestock to the association or its affiliated agencies at terminal livestock markets. The plan is further liberalized by allowing the stock raiser to break the contract at will.

Applications for stock loans may be made at the Fort Worth office any time, it was announced. The interest rate has been fixed at from 5 1/2 to 6 per cent, depending on the amount borrowed.

Toast Will Culminate Bet

EL PASO, Oct. 16.—An election bet involving a trip from Fort Worth to El Paso in a little red wagon will be culminated tonight with the drinking of a toast to Ross S. Sterling in a beer parlor across the border.

Lloyd Hayes executed a losing party of the wager by furnishing locomotion to the wagon in which Hubert Stinson rode. They arrived here yesterday. Tonight he will finish the job by financing Stinson's stand at the brass rail.

The two men will remain for a bull fight at Juarez on Sunday.

Tickets for Game Friday Are On Sale

Tickets for the Cisco - Big Spring game are now on sale at the Elliott, City and Dean drug stores, it was announced today by E. H. Varnell.

Mr. Varnell said that the tickets for the Breckenridge game at Breckenridge next week will be placed on sale at the Corner, Red Front and Moore drug stores early in the week.

Mother of "Little Jake" Finds Note of Consolation in Deathbed Cry of Son

GARDEN CITY, Kans., Oct. 16.—The grey haired mother of the notorious Fleagle boys found today one note of consolation in the series of tragic events that had befallen her family—the last words of her youngest son, "Little Jake," had been for her.

The body of "Little Jake" will be brought here tomorrow to be buried beside that of his brother, Ralph, who recently was hanged at the Colorado state penitentiary.

"Little Jake" died in a Springfield, Mo., hospital, yesterday of a bullet wound received when he tried to fight his way through a group of police who surrounded him as he boarded a train at Branson. A fugitive for several years, he carried out his threat to die fighting rather than face death. Ralph had faced it.

A death bed confession by "Little Jake" that it was he who robbed a bank at Larned, Kansas, caused a jury last night to acquit another of the Fleagle boys, Fred. Fred had thought him dead and refused at first to believe it was he who had been shot at Branson.

COMMITTEE WILL CALL ON GOV. MOODY

Business Men and Bankers Adopt Plan of Action

Forty business men and bankers of the drouth stricken area in west Texas, men who are closely in touch with the real conditions that have resulted from the drouth, will form the committee to call on Governor Dan Moody at once to press the need of immediate action in the relief of the stricken section. It was announced today by Guy Dabney, Cisco banker, who was elected president of a relief organization formed yesterday at Eastland.

Mr. Dabney is today getting in touch with Governor Moody to agree upon a date for the conference.

The session which took place at Eastland yesterday at the instance of the Eastland County Bankers' association was attended by about 50 bankers, legislators and business men. It approved a plan of relief which is based upon the premise that relief must be self-supporting from each county's standpoint, and passed resolutions calling upon the legislative agencies of the state to take action that will enable the plan to be put into effect. An immediate special session of the legislature is asked.

Gratifying. The results of the meeting, the interest aroused and plans for action were termed highly satisfactory by the bankers today. The plan adopted is set forth concisely in the resolutions which were passed and which are published in today's issue of the Daily News. Briefly it is that the commissioners' courts of each affected county will be asked to issue legal warrants for the total amount of money needed to relieve the distress and assist the farmers in making the next crop and that the state of Texas provide funds to purchase these warrants at a low interest rate.

The administration of these funds would be carried out according to the best business principles.

Men Who Know. The committee will consist of men who are in contact with conditions as they actually exist so that in the discussions with the governor an authentic picture of the agricultural situation in the stricken area may be presented. The response to the program as advanced during the Eastland meeting was spontaneous and its adoption entered into seriously. "Conditions in the drouth area are such that immediate relief is essential," the session declared. Garland Eubanks, of Throckmorton, expressed the interest which the business men and bankers feel in the situation when he declared that 12 representatives of the counties in his section will attend the conference with Moody when it is arranged.

Guy Dabney, of Cisco, president of the Eastland Bankers' association presided over the meeting, and was elected president of the organization. Garland Eubanks, of Throckmorton was named secretary.

Representatives Present. Representatives Victor B. Gilbert of Cisco, O. F. Chastain of Eastland, A. H. King of Throckmorton, were present and each expressed himself as being favorable to the calling of a special session of the legislature and of the plans for relief adopted by the meeting. Rep. King submitted a question to the convention on

WOMAN IS FACING CHARGE OF PERJURY

EASTLAND, Oct. 16.—Madalyn Day, convicted in the 88th district court here this week on a charge of possessing intoxicating liquor for the purpose of sale and given a 3 years suspended sentence, was arrested Wednesday afternoon as she sat in the courtroom listening to the trial of D. C. Day, her husband, who was being tried for violating the state liquor laws in connection with the same transaction in which she was tried.

The complaint, filed by members of the county attorneys' department, charges that she made affidavit for the purpose of securing a suspended sentence in which she swore that she was under 25 years of age and that she had never been convicted of a felony within the state of Texas. The complaint further states that on March 26, 1930 Madalyn Day was convicted in the district court of Palo Pinto county on a charge of driving a car while under the influence of intoxicating liquor.

D. C. Day was found guilty by the jury and his punishment was assessed at confinement in the state penitentiary for two years.

The Days were arrested by Sheriff Virge Foster and Deputy Sheriff Steele Hill on July 25 last, at a residence just north of Eastland when the officers found a car standing in front of the house in which they found a large quantity of liquor.

Fred's acquittal did not, however, and his difficulties with the law. Finney county authorities held him on a tax evasion charge. Jacob "Big Jake" Fleagle, the father, was in Larned today attempting to obtain Fred's release on bond.

A fourth son, Walter, is serving a term in the Finney county jail for failure to pay taxes on money stolen by his brothers in their numerous bank and mail train thefts. Banditry escapades which made them the most feared and notorious outlaws in the west.

WEATHER

By United Press. West Texas: Fair and colder in northern portion; frost in panhandle tonight; Friday fair.

East Texas: Increasing cloudiness, colder in northwest portion tonight; Friday, partly cloudy and colder in north portion.

Flying Weather Forecast: Partly cloudy; thunder showers extreme north portion; light to moderate southerly winds in southern portion; fresh to strong westerly to northerly winds extreme north portion up to 3,000 feet; fresh to strong winds at higher levels.

DAILY BIBLE READING

2 Kings 14:17-19

17 And Elshaz prayed, and said, Lord, I pray thee, open its eyes, that it may see. And the Lord opened the eyes of the young man, and he saw; and he beheld, the mountain was full of horses and chariots of five round about Elshaz.
18 And when they came down to him, Elshaz prayed unto the Lord, and said, Smite this people, I pray thee, with blindness. And he smote them with blindness according to the word of Elshaz.
19 And Elshaz said unto them, This is not the way, neither is this the city; follow me, and I will bring you to the man whom ye seek. But he led them to Samaria.

NORMALITY RETURNING.

The Fisher Body company's plant at Cleveland, Ohio, has resumed operation of its assembly plant, giving employment to hundreds of men after a long period of idleness. Officials of the company stated that a general resumption of employment is underway and is expected to continue for some time.

There is good news in that. During the past two months numerous manufacturing concerns have been gradually returning to conditions of normal operation. It is an indication that the buying public is stirring itself, putting money back into circulation that has been hoarded, stimulating the blood stream of commerce that has been halted in a tourniquet of fear and lack of confidence.

SUCCESS FORMULA.

James Augustine Farrell, president and chief executive officer of the United States Steel corporation, gives his formula for success in three words in Nation's Business. It is: Work, temperance, thrift.

Mr. Farrell is one of those captains of industry who fought his way up from the ranks. He started out as a helper at a pittance a week. His route to the top of the ladder was one of blood and iron, figuratively speaking. He learned in the stern school of experience those things that are essential to success. He can tell younger men many things. They will not heed. But that is no reason to discountenance the young men. Character is not something that can be pre-digested and poured into the human hide. It is something that is built up slowly by grueling contracts.

Nevertheless, Mr. Farrell's formula speaks volumes. He might have added a word, Straight thinking. The horse works, is temperate by instinct. He fails to get above being a horse because he can't think. One of the greatest lessons that the young man can learn is to be certain of where he puts his hand and to be thorough in the execution of what he undertakes.

COERCION.

A questionnaire upon the preferences of radio audiences sent out by the Columbia Broadcasting system has brought back some interesting information. For instance it was discovered that children like history better than literary or musical programs. Shades of the little red school house!

But there is some food for earnest thought there, speaking pedagogically. It brings up the question of just how far coercion acts in shaping the antipathies of the student, to what extent it interferes with what would otherwise be a spontaneous interest in the curricula. The human being is a peculiar animal. He dislikes to be driven. He wants to be attracted, impelled, not dragged.

In the days when the long hickory withe reposed upon two pegs behind the master's elevated seat, the symbol of an authority as absolute as tyranny, there was, according to the force of the character of him who wielded it, a dogged application to the problem and the page. There were merits in that long withe, merits that soaked through the hide of the recalcitrant student and became a disciplinary part of his system. But so far as learning went the most of those time-honored merits remained in the hide.

OTHER OPINIONS

PROGRATION WINS.

In upholding the constitutionality of the state laws relating to oil conservation, with special emphasis on the prohibition of production in the major oil fields of the state, the Oklahoma supreme court has put fresh impetus on the movement to cut down the production of crude oil in the interest of fairer prices.

The decision of the court appears to be a complete and sweeping victory for the conservation movement. Whether its decision will be carried on the United States supreme court remains to be seen.

Curfowlment of production has worked very well in Texas and has found favor among most of the producing concerns of Oklahoma. The legal status of the conservation commission's efforts to control the output of the various fields in Oklahoma was clouded for months, but now that the supreme court's decision has been rendered, it is expected that the task of putting the law into effect will be simple.

production there has been a very considerable quantity of oil imported, and all efforts to shut it out by tariff enactment failed.

If prosperity could be restored to the oil industry, you would see its almost immediate effect on the prosperity of west Texas. The depression in the oil industry has been reflected in the general sluggishness of business in all lines throughout west Texas where oil and the search for oil has been a major factor in our development.

Did You Ever Stop to Think?

By EDSON R. WAITE
Shawnee, Oklahoma.

That the gentle art of "passing the buck" is practiced too much in some cities.

Many of the so-called "leading citizens" are long on talk and short on doing any real constructive work. When it comes to work, they "pass the buck."

"Buck passing" is on the increase.

If some cities took a census of their "buck passers," the result would be astonishing. They would find enough citizens to build another city—provided they could be turned into community workers. If they worked as hard in building their home city as they do in "passing the buck" their city would soon be twice its present size.

The "buck passers" believe in a fifty-fifty proposition. They will do the talking for their part and the other fellows can spend their money and do the work.

SHOWERS GIVE TEXAS RELIEF FROM DROUGHT

Scattered showers during September gave some relief from the prolonged drought. On October 1, however, a general rain was needed to facilitate plowing, sowing wheat, fall oats, barley and rye, and to replenish stock water which was short in many sections. During the first week of October, heavy soaking rains fell over the entire state, and now tanks are full, grass and weeds are starting, fall rains are springing up and a good season is in the ground. These rains were of untold benefit to stockmen and grain farmers. All crop except cotton, oats and sugar cane promise a lower yield per acre this year than last year. The crop conditions reported on October 1 do not portray the effect of the general rains which fell immediately after the first of October.

A cotton crop of 4,275,000 bales is the forecast for this season compared with 3,940,000 bales last year, which was the first time in seven years that the production had fallen below 4,000,000 bales. In the area south of a line drawn from Gillespie county easterly to Shelby county, and east of a line drawn from Gillespie county south to Kleberg county, the production will be nearly twice as large as last year's production. The combined production of Grayson, Fannin, Lamar, Red River, Collin, year's production, on the whole, the remaining area will fall about of last year. The lower valley is sure to fall short as is the area between the large producing areas mentioned above. The northwest is still in doubt, however, it is unlikely that it will reach last year's production.

Corn: Indications point to a production of 88,128,000 bushels and an average yield of 18.0 bushels per acre. Only 1924 and 1925 in recent years have had a lower yield. Last year, 85,127,000 bushels were produced. All except the late planted corn has been ripe for some time and a large proportion has been gathered. The central portion of the state produced a good corn crop, as much of the corn was nearing maturity before the drought became severe. In the remainder of the state, the crop was gathered from fair to a near failure. The United States production is estimated at 2,646,000 bushels compared with 2,614,307,000 in 1929, and a 5-year average of 2,699,809,000.

Grain Sorghum: Grain sorghums were benefited by the scattering September rains, but the crop is still far from good. With only 47 per cent condition on October 1, a crop of 27,674,000 bushels for all purposes was indicated. The indicated yield is 13 bushels compared with 17 last year. The rains in early October will probably prove beneficial to the late crop. The grain sorghum crop is generally poor in all portions of the state, excepting in the central and extreme northwest.

Rice: A production of 8,200,000 bushels is indicated by the October 1 condition of 85 per cent. Last year 7,524,000 bushels were produced. The yield per acre this year is 40 bushels compared with 44 last year. For the United States a production of 38,564,000 bushels is estimated as compared with 40,217,000 bushels last year.

Sirup: Sorghum and sugar cane sirup are now being made. The yield of sorghum sirup is running lower than a year ago, but the yield of sugar cane sirup is much higher. The sorghum cane was damaged seriously by the drought. The September rains were of some benefit in scattering areas.

Sweet Potatoes: The condition on October 1 was reported at 94 per cent compared with 60 a year ago and 69 the 10-year average. The indicated yield per acre is 60 bushels, which promises a production of 6,780,000 bushels as compared with 7,384,000 bushels last year. The yield this year promises to be the lowest since 1924 when the output was 57 bushels per acre.

Broccoli: The Texas broccoli production this year is estimated at 1,300 tons against 1,200 tons last year. In the south the harvest is practically over; in the northwest the September rains

were beneficial. The United States crop of 49,700 tons is estimated compared with 43,800 tons in 1929. Peanuts: Peanuts have been benefited by the September rains, and the indicated yield has advanced from 440 pounds on September 1 to 460 pounds on October 1. The indicated yield of 460 pounds applied to the estimated acreage of 106,000 indicates total production for all purposes of 76,360,000 pounds as compared with 91,080,000 pounds last year. The long drought did serious damage to the crop this year. For the United States a production of 693,123,000 pounds is forecast compared with 1,260,277,000 pounds last year.

Hay: All tame hay promises a yield of 1.05 tons per acre, and a total production of 715,000 tons compared with a yield of 1.13 tons per acre, and 744,000 tons production last year. Only a few counties in the central portion of the state, and a few scattering areas in West Texas have any surplus of hay this year. The yield of alfalfa hay was about 9 per cent less than last year.

Pecans: The condition of pecans on October 1, this year, was 32 per cent of normal compared with 40 per cent last year. Drouth's case bearer have done serious injury to the crop this year. Conditions are very spotted. Some of the heavy producing areas have prospects for a very small crop, while in some few counties prospects are good. For the state as a whole it is very unlikely that the crop will be much more than half of last year's crop. When 17,456,000 pounds were produced. On October 1 conditions for other states follow: Illinois 65 per cent; Missouri 55; North Carolina 54; South Carolina 50; Georgia 44; Florida 52; Alabama 58; Mississippi 57; Arkansas 46; Louisiana 66; and Oklahoma 44.

Fruits: Apples promise 149,000 bushels against 230,000 bushels last year.

PORTLAND, Ore., Oct. 16.—The first winter "weather" was experienced in the Pacific northwest today.

Furries of snow were reported at Spokane, Washington, Victoria, B. C., and other points along the border.

Moscow, Idaho, experienced a storm, with snow blanketing the ground for two or three hours. Along the coast it was cold and blustery.

Gained in Vivaciousness
Gained in Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves must have to function properly. When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideous. Take half a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning exercise regularly—do not overeat—and—in 3 weeks get on the scales and note how many pounds of fat have vanished. Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give any fat person a joyous surprise. Get an 85c bottle of KRUSCHEN SALTS at Moore Drug Co. or Dean Drug Co. (disc 4 weeks). If even this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—gloriously energetic—vigorously alive—your money gladly returned.—Adv.

HeavyWeight Has String of Calamity

CHICAGO, Oct. 16.—Tom King, Boston heavyweight, has been knocked out, suffered a dislocated vertebra and been operated on for appendicitis all in less than 24 hours.

He was knocked out in the second round by King Levinsky, of Chicago Tuesday night, after later collapsed in his dressing room. An examination revealed a dislocated vertebra and he was sent to a hospital where the bone was snapped into place.

He was back in the hospital yesterday morning with an acute attack of appendicitis and had to be operated on.

Work may start soon on making highway No. 24 an all-weather road from Wolfe City to Ladonia.

Says Facts About Texas Not Told

STAMFORD, Oct. 16.—That Texas is the largest state in the United States and that it leads in the value of agricultural production, number of cattle and in the production of oil and sulphur is not told to the students of the fourth and fifth grades of the public schools by the geographies adopted and furnished them by the state, declares Chas. E. Combes, president of the West Texas Chamber of Commerce.

According to a survey made by the West Texas chamber, no mention is made of any of the above facts in "Elementary Geography" by McMurry & Perkins, published by the McMillan company, the state adopted book for the fourth and fifth grades.

White Deer.—Wild gusher has recently been brought in on Robt. Sullivan land with estimated production of from 1,000 to 5,000 barrels of oil and 50,000,000 cubic feet of gas.

TEXANS WORK DILIGENTLY TO DOWN SOONERS

AUSTIN, Oct. 16.—Presented with a golden opportunity to gain national recognition and at the same time raise the lagging prestige of the southwest, the Texas Longhorns have hearkened to the words of Marty Karow about the powerful Sooners of Oklahoma University, and settled down to work with the idea of repeating their victory of a year ago over their Big Six rivals.

The victory over Nebraska, conquerors of the Texas Aggies by a 13-0 score, established the Sooners as overwhelming favorites to take the Big Six title, and with the Longhorns just beginning to develop their real power, Steer followers are hoping that the game will be a fight between champions.

The game with Howard Payne last Saturday did much to clear up the mystery and indecision that has hung over the Longhorns since the beginning of the season.

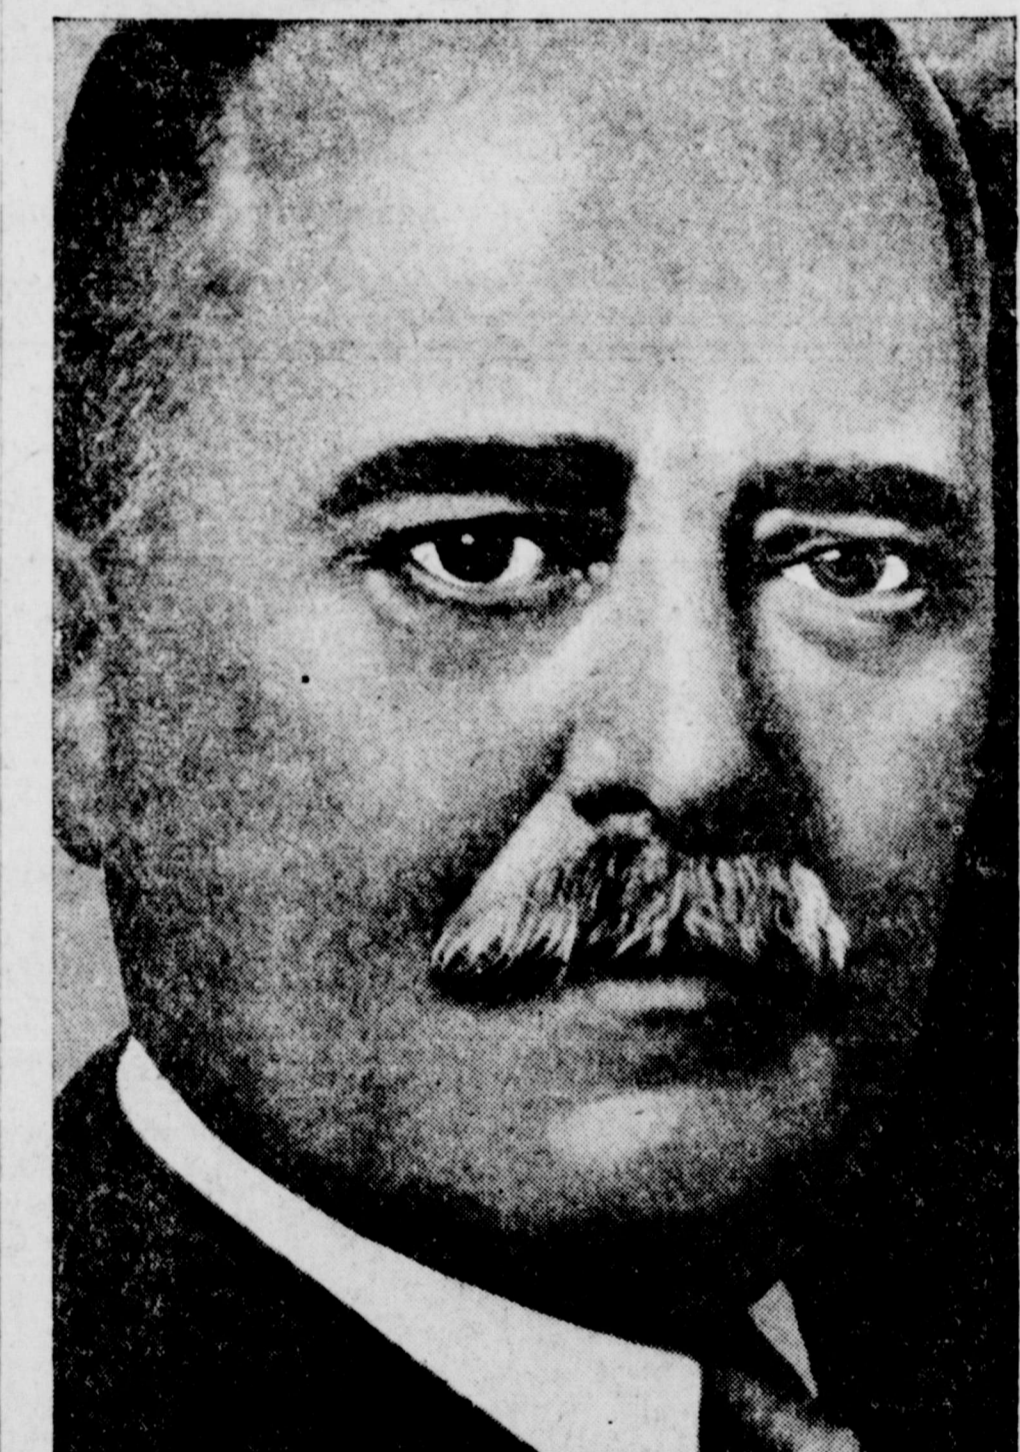

To Fight Revision of Fruit Tariffs

SAN BENITO, Oct. 16.—An organized movement to combat revision of the protective tariff schedule affecting fruits and vegetables is being worked out in the lower Rio Grande valley in co-operation with the growers and shippers league of Florida.

San Antonio.—Construction started on new \$150,000 Woodmen of World Chapel and Bird Sanctuary to be built at W. O. W. Memorial Hospital grounds at this city.

"SCIENCE INTELLIGENTLY APPLIED"

Says
CLARK HOWELL
 Editor Atlanta Constitution
 Many years Member Democratic National Committee
 Member United States Coal Commission
 Former Member and President Georgia Senate
 Former Member and Speaker of Georgia House of Representatives
 And long Trustee University of Georgia

"Science is revolutionizing all forms of manufacture. The manufacturers of LUCKY STRIKE cigarettes have extended me the courtesy of an invitation to their factories. I was not able to accept but have taken the opportunity to read the reports of scientific men as to the achievements in their factories.

"It is clear that in no line has science been more intelligently applied than in the making of cigarettes."

Clark Howell

LUCKY STRIKE—the finest cigarette you ever smoked, made of the finest tobaccos—the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray.

"It's toasted"

Your Throat Protection—against irritation—against cough
 Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. Clark Howell to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Howell appears on this page.

What They Do at Brown's Sanatorium

August 9, 1930.

TO WHOM IT MAY CONCERN:
 Two years ago I came to the Brown Douglas Sanatorium with gall bladder trouble. I only took six treatments and have never been bothered since. Then I came this spring to take treatment for a goitre that had bothered me over a year. I stayed four weeks—went home perfectly well and feel better every day.
 I certainly recommend Dr. N. A. Brown for gall bladder and goitre.

MRS. R. O. KELLER,
 Route No. 3,
 Rising Star, Texas.

Mr. and Mrs. L. L. Williams and son, Leroy, were visitors in Cisco on Thursday this week.

Mr. and Mrs. Jack Bowman were visitors in Cisco Wednesday.

Mr. and Mrs. Elliott Sublett, of the Dathan community, were shopping in Putnam Saturday.

Judge and Mrs. Clyde White, of Baird, were in Putnam for awhile on Monday afternoon.

Doc Isenhower, W. A. Ramsey, J. W. Pearce, George Biggerstaff and S. M. Eubank attended county court in Baird Monday.

Mesdames W. O. Lawson and J. H. Cunningham were visitors in Baird Saturday.

S. E. Eubank left Tuesday for Rogers, New Mexico where he will work for a while.

The P. T. A. will meet at the school building on Thursday afternoon of this week. All parents are urged to be present.

Miss Maymie Coppelinger is able to be back at work in The Farmers State bank after an illness of several days.

Mr. and Mrs. Marvin Eubank attended the ball game at Gorman Friday and while there visited their daughter, Miss Velma Eubank, who is a teacher in the Gorman high school.

Mrs. J. A. Neumann, of Abilene, was a visitor in Putnam last of the week.

Mr. and Mrs. Bill Ribbeck and J. H. Cunningham were guests in the home of Mr. and Mrs. Oscar Lawson, of the Hart community on Thursday.

Mr. and Mrs. J. A. Drake of Bell county left for Abilene Wednesday after a visit in the home of Mrs. Drake's sister, Mrs. R. E. Clark and Mr. Clark.

Chester and Albert Weed, of the Hart community, spent Sunday night with their cousins Clinton and Keith King.

Mr. and Mrs. S. E. Vance, of Tulsa, Okla., were guests in the home of Mr. and Mrs. W. A. Wallace this past week. They were accompanied home by Mrs. Wallace's mother, Mrs. Jennie Johnston, who will make an extended visit in Tulsa.

Mesdames Tex Herring and C. C. Russell and children were visitors in Fort Worth this week.

Mrs. John Heyser, of the Zion Hill community was the guest of Mrs. Luke Cathey Monday night.

Supt. R. P. Webb and Coach Willie Hodges, of the Putnam schools, were visitors in Abilene Saturday.

A letter from Miss Mildred Yeager who is teaching in the Comfort school in South Texas states that she is highly pleased with her new location. Miss Yeager is teacher of English in the grades and also expression in the Comfort schools.

O. W. Hampton, accompanied by J. D. Yardley, is in New Mexico this week looking for a new location for his cafe Ben Boutwell is in charge of the business here during his absence.

Mr. and Mrs. R. C. Speegle and children, of the Dan Horn community, were guests in the home of Mr. and Mrs. Claude King Sunday night.

Mesdames John Thorpe and Oscar Lawson were guests in the home of Mr. and Mrs. H. C. Asherbranner, of the Hart community on Friday of this week.

Pete King returned Friday night from a stay of several days on business in Houston.

Mr. and Mrs. John Kelley and baby have returned from an extended stay of several months in North West Texas.

Mr. and Mrs. Lawson Yeager and Mrs. A. E. Yeager, of O'Donnell, Texas stopped off in Putnam for a short visit Friday. They were en route home from Houston where Mrs. A. E. Yeager left her little daughter, Lois Faye, in a hospital for treatment.

A. W. Beasley, of Belle Plain was in Putnam Monday en route to Dallas. He stated that his community has received about five inches of rain since Saturday.

The many friends of D. C. Matthews who is in a hospital at El Paso for medical treatment, will be glad to learn that the doctors have

found him to be suffering from a clot of blood on the brain. This has been removed and Mr. Matthews is now on the way to a rapid recovery.

The C. F. Pratt Grocery company who have been in business in Putnam for the past three years, made over an assignment to the C. D. Hardnett company of Ranger on Saturday of the past week.

The people of Putnam are rejoicing over another fine rain which commenced on Saturday afternoon and continued until Monday afternoon, raising the water supply in the city lake about four feet.

A meeting of the Boy Scouts was held in Putnam on Thursday evening at the Methodist church where a court of honor was held. Ed Slumway, district executive of Boy Scouts and James P. Stinson, both of Abilene, made important talks along the line of Scout work. The local Scouts went on a hike to Deep Creek Friday night with Loyd Butler, assistant Scout master, in charge.

Miss Maymie Coppelinger, of the Farmers State bank, spent the week end in Abilene where she was the guest of relatives.

A "42" party honoring Mr. and Mrs. Virgil Wagley, newly weds, was given in the home of Mr. and Mrs. A. H. Wagley on Friday evening. A merry time was had in the diversion of the game until a late hour. Prizes for high score went to Mrs. Arch Snotout of the ladies and to Clyde Thorpe of the gentlemen. Those present were Mr. and Mrs. S. E. Eubank, Mr. and Mrs. John Thorpe, Mr. and Mrs. Albert Wagley, Mr. and Mrs. W. O. Lawson, Clyde Thorpe and E. H. Johnson.

The Night Hawk Bridge club met with Mrs. J. F. Cunningham Friday evening, October 10. A very enjoyable evening was reported by those present. Miss Willie Kennedy won high score and Mrs. A. B. Allen the high score for the guests. Delicious refreshments were served the following: Mesdames A. J. Frazier, L. B. Williams, E. H. Williams, J. F. Cunningham, W. A. Wallace, E. C. Waddell, A. B. Allen, Misses Lois Reese, Frances McIntosh, Vella Sandlin, Willie Kennedy and Lois Kennedy.

The Womens Study club met Monday in regular meeting in the home of Mrs. E. C. Waddell. The club was to have been favored with an address by Mrs. William Reagan, of Cisco, but on account of the inclement weather Mrs. Reagan was unable to get here. The president called for the business session, however, and in absence of the secretary the reading of the minutes was omitted. The chairman of the program committee reported some changes in the year's program and the corresponding secretary, Mrs. John Cook, gave a report from Mrs. Lindsey thanking the club for a copy of the year book. It was then voted to make a change in the next regular meeting from a social to a regular program, on November 10. The president read an article from the Texas Federation News by Mrs. Fisk urging each club of the Sixth District to send a delegate to Houston to the state meeting in November. After the roll call the club was favored with piano numbers by Miss McIntosh. After delicious refreshments of charlotte russe in pink, blue food squares in green, and hot tea the club adjourned to meet on October 27 in the home of Mrs. B. L. Mitchell. Those present were: Mesdames F. P. Shackelford, S. B. Miller, John Cook, Fred Cook, L. B. Williams, R. D. Williams, Marvin Eubank, E. C. Waddell, R. L. Clinton, Wiley Clinton, members. Guests were Misses Lois Reese, Rena Ball and Frances McIntosh.

Reuben Short was crushed to death under a locomotive engine on Sunday afternoon, October 12, near Eagle Ford. Mr. Short was fireman on train No. 10 of the T&P railroad, travelling eastward. The engine turned over piping him underneath and killing him instantly.

He was the son of E. A. Short, formerly of this place, but now of Weatherford. He was reared near Putnam and lived here after reaching the years of maturity. Mr. Short was married to Miss Inez Purvis in Putnam and moved to Arizona where he made his home for several years, recently moving to Big Spring.

This was his second trip out as fireman on the T. & P. fast passenger train. His wife and one child survive him. Interment was in Cisco on Thursday afternoon.

ADMIRAL

Jackie Street left Friday morning for a visit with relatives in Abilene.

Mrs. Lawkins spent Friday with her daughter, Mrs. Emma Hargood of Cross Plains.

Reuben Sanders from near Putnam visited with his grandmother, Mrs. Julia Sanders, last Friday.

The new school building is nearing completion. It is thought it will be ready for school Monday.

Mr. and Mrs. Edgar Smith left Monday night for Cisco to attend the funeral of their brother-in-law, R. A. Short, the fireman who was killed in the T. P. wreck near Dallas, Sunday afternoon.

Walter Williams and sons, Loy and Ollis, have returned from a three weeks trip in New Mexico.

SABANNO

Rain! Rain! Rain! yes we have had plenty. Everyone is very glad though, to have it.

There was no Sunday school or church here Sunday on account of the rain.

Mr. and Mrs. J. L. King visited school at Sabanno Wednesday afternoon. They are very pleased

with the work both teachers and pupils are doing.

Mr. and Mrs. B. B. Huntington were the Wednesday guests of Mrs. Huntington's parents, Mr. and Mrs. L. M. Barron.

The Sabanno school started on Monday the sixth and is doing nicely. It is being taught by Miss Coppelinger of Cottonwood.

Mrs. J. R. Poplin left Saturday to visit her children who are in the Old Fellows Orphan home at Corsicana.

Miss Donna Matthews and brother, Walter West of Cisco spent last Wednesday night with their sister Mrs. J. L. King.

Mr. and Mrs. Z. W. Green were visiting their son and his wife Mr. and Mrs. Zed Green of Cisco Thursday.

Sunday is Rev. S. P. Collins of Cross Plains appointment here. Let's everyone be there.

SCRANTON

On the account of the rain very few people attended the singing convention at Atwell Saturday and Sunday.

Mr. and Mrs. Rich Holder entertained with a party for the young people Friday night.

Mrs. Joe Brown and Mrs. Leo Clinton were guests of Mrs. John Brown and family Friday afternoon. John Leveridge of Cisco is visiting friends and relatives here.

Lone Reed and family, who have been on an extended trip picking cotton, returned home Saturday.

DAN HORN

The continued rainy weather is appreciated by the farmers as it will benefit the fall crops and gardens.

Mr. and Mrs. Cecil Barnhill and little son of Cisco, have moved to our community.

G. L. Bailey and family recently left for west Texas.

Mr. and Mrs. Claude McCollum and son, Edgar, of Okra, spent Tuesday night with J. G. Stuteville and son, Mahlon.

The Dan Horn school building is being repaired and it is reported that school will begin Oct. 20.

Mr. and Mrs. Emmett Johnson and Mrs. Don Rupe of Cisco, were recent guests of Mr. and Mrs. J. J. Livingston.

Mr. and Mrs. P. C. King and children, Loraine and Mrs. W. A. Laster and daughters, Jonnie Lee and Evelyn, of Snyder, recently visited their parents, Mr. and Mrs. J. D. Speegle.

Edgar Rupe was a visitor in the J. G. Hepler home Monday.

Edgar Hazlewood of Loraine spent the week end there with relatives and friends.

Joe Doneway of Dathan, had business here last week.

Mr. Kilgore of Cisco is doing concrete work for W. B. Starr.

Mr. and Mrs. Benham Hull were Sunday guests of Mr. and Mrs. S. W. Hull.

Mr. and Mrs. R. C. Speegle and children spent Sunday at Union with Mr. and Mrs. Marvin Weed and Mrs. Claude King at Putnam.

Mrs. W. M. Weed and Mrs. M. Lee Hill spent Tuesday with Mrs. Sam Hill.

Mr. and Mrs. R. D. Maxwell of Okra, spent Saturday in the J. G. Stuteville home.

Lewis Weed and W. T. Horn had business in Cisco Tuesday.

Mrs. Carl Bailey spent Sunday night with Miss Laura McMullen.

REICH

This community has had another fine rain which will be good for the fall sowing that is to be done.

The Reich school started Monday morning.

Mrs. C. H. O'Brien of Eastland is visiting her daughter, Mrs. Clara Bisbee this week.

Audwell Reich of the Pleasant Hill community visited his parents, Mr. and Mrs. A. Reich of this community.

Mrs. W. B. Bennett and daughters, Lottie and Lois Bennett of Eastland spent Sunday in the J. L. Bisbee home.

A. Reich shipped two fat calves with the Cisco Shipping club Tuesday.

The R. D. Vanderford Lake is reported nearly full after the recent rains.

Miss Stella Grace Hazelwood visited Miss Kera Nix in the Dan Horn community Saturday night and Sunday.

There was no Sunday school or singing at Reich Sunday owing to the bad weather.

DOTHAN

Most of the farmers are planning on sowing grain as soon as the fields get dry enough. Some of them have already sown their fields.

Mr. and Mrs. Allen Carey of Colorado City have been visiting Mr. and Mrs. J. P. Jones and other relatives here.

Reuben Short, who was born and reared in this community and has many relatives and friends here, was killed in a train wreck Sunday near Dallas.

Joe Donaway and mother, Mrs. L. D. Donaway and Misses Pearl and Loraine were in Ranger Saturday.

Messrs. Reagan of Rising Star and Sam Short of DeLeon were in Dothan Thursday.

Mrs. Cleaman Boskers of Cisco visited her parents, Mr. and Mrs. J. F. Jones Tuesday.

Mr. and Mrs. Harvey Thurman of Cisco announced the arrival of a baby girl, Betty Jo. Mrs. Thurman will be remembered as Miss Velma Clark, formerly of this place.

Miss Pearl Donaway, one of the teachers here has been appointed as director of music memory at the interscholastic meet which will be held at Gorman this year.

Several of the 4-H club members were prize winners at the Eastland county fair.

Mr. and Mrs. Ralph Butler and

UNION HILL

Rain! Rain! we have certainly had our share of the rain, and are glad to see the sunshine again. The roads are in very bad condition.

Mr. and Mrs. Everett Wright were Sunday guests of Mr. and Mrs. Homer Clark.

Mr. and Mrs. J. Y. Robinson of Energy spent the weekend here with relatives.

Cecil and Albert Atwood were the Sunday guests of Cecil and Elva Phillips.

Mr. and Mrs. Cloris Webb spent Saturday night and Sunday with Mr. and Mrs. S. B. Webb.

"Grandmother" Tension visited Mrs. Ira Tension Friday.

Thurman Armstrong spent Sunday afternoon with Howell Marshall.

Eulah Johnson spent Saturday night with Pete Findrick.

Revis Tension visited Mr. Johnson Monday.

BEDFORD

We have had another nice rain this weekend.

The Sprull family spent the weekend in San Saba where they attended the funeral of a cousin who was killed.

Boyce Archer was ill Monday morning and was not able to attend school.

Miss Dora Matthews, accompanied by her mother and brother, Walter left Friday for Courtney where she will teach school this winter. They spent Friday night and Saturday in Colorado with two sisters, Mrs. A. A. Herrington and Miss Bessie Matthews.

Mr. and Mrs. Muston Simmons spent last Thursday night with Mrs. Archer, before they left for Jonesboro to make their home.

HASKELL

We are having more rain. Joe Coleman has returned home from Oklahoma where he has been working.

J. M. Perdue and Hiram McClesky went to Cross Plains Saturday.

Mr. and Mrs. Poplin and baby, Mr. Barron and son and Mrs. Perdue and children were among those at Cisco Saturday.

Mr. and Mrs. J. A. Trigg were the guests of her parents Sunday.

CROSS CUT

The high school basket ball boys played Cottonwood Friday night. The score was 23 to 10 in our favor.

Mr. and Mrs. W. T. Hughes and Mrs. Russel and two daughters, Anna Mae and Athalee were visitors in Brownwood Saturday.

Miss Nona Prater spent the weekend in Brownwood.

Mrs. Deoma Triplett is visiting relatives in Baird this weekend.

Mrs. S. M. Gregg, Nelda Gregg and Coy Ellison were in Brownwood Saturday shopping.

Laurence Newton of Abilene is visiting Ruel Gafford this week.

The rain that fell Saturday and Sunday was very nice.

Mrs. Henry Gaines of Luling is visiting relatives here this weekend.

A large number attended prayer meeting Thursday night.

Linden Newton was a visitor in Brownwood Thursday.

Rex Clark of Eastland is spending the weekend with Jack Arledge.

Mr. and Mrs. Jimmie Brown and son, Jimmie Earl, visited in Merkel last week.

THROCKMORTON

Mrs. Jewel Condon and two children visited her mother in Abilene last weekend.

Mr. and Mrs. S. D. Liles visited relatives in Breckenridge Wednesday.

Gary Webb visited friends in the city Tuesday.

Mr. and Mrs. Gee Parrott visited his mother in Abilene Wednesday.

Mr. Pierce of Albany was a visitor in Throckmorton Wednesday.

Miss Mozelle Lily spent the weekend here with her father, Bert Lily.

The "Greyhounds" played the Knox City Greyhounds here Friday and beat them 18 to 6.

Mr. and Mrs. Price spent the week end in DeLeon.

Mr. and Mrs. Martin Heins left Wednesday for El Paso.

The P. T. A. gave an entertaining play Friday evening at the high school auditorium entitled "Red Acre Farm."

The Baptist congregation has had a B. Y. P. U. study class this week.

Sam Donnell and Collin Cochran went to Abilene Friday.

CARBON

Carbon Trading company was the scene of activities all last week while the cooking school was in progress.

Rev. and Mrs. Hollis attended the Cisco Baptists association held at Breckenridge last week.

Relief From Curse Of Constipation

A Battle Creek physician says "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowels called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store.—Dean Drug Co.—Adv.

GRAPEVINE

Speaking of rain, we have had plenty of it lately. We have a much better season in the ground now than we have had for the last two years which sounds good to the farmers of this community.

Bob Walker says he doesn't know how he will spend his money for the next several months as he will not have to have his water hauled since his new cistern was almost filled by the recent rains.

Grapevine is losing two families this week and gaining one. L. A. Kelly and family are moving to Tyler where he will again take up his work as truck driver, and W. L. Bian and family are moving to Littlefield for Mrs. Bian's health. John Patterson and family have moved on the "old Nicholas place" We are glad to have them and hope to make them glad to be here.

Our Home Demonstration club ladies met at the school house last Thursday evening for the purpose of electing a secretary and treasurer. Miss Donna Matthews our former secretary is moving to Courtney. Miss Della Matthews was elected to carry out this year's work. Our

PUEBLO

This rainy weather is fine on the grain and late gardens.

W. L. Yeager spent Monday with Rev. and Mrs. R. H. Yeager.

Mr. and Mrs. Henry Farmer visited her parents, Mr. and Mrs. J. M. Pence Tuesday.

There was no Sunday school nor prayer meeting Sunday on account of the rain.

Mrs. W. A. Marshall and son, W. A. Jr., Mr. and Mrs. G. R. Pence and Mr. and Mrs. Charlie Pence spent Monday with Mr. and Mrs. G. W. Pence.

Mr. and Mrs. Fowler White returned to their home after a few days visit with her mother, Mrs. W. A. Marshall.

Travis Farmer was the Sunday guest of Bill Cleveland.

Miss Lillie Pence is on the sick list.

Earl Kellough made a business trip to Sedwick Tuesday.

We are very sorry to hear about Mr. and Mrs. Bob Callaway's little daughter getting her arm broken.

Miss Eunice Pence spent Tuesday night with Miss Ollie Pence.

Mr. and Mrs. Cecil Lamb and little daughter, Dorothy Sue, made a short call in the home of Mr. and Mrs. G. W. Pence Tuesday night.

Mrs. L. R. Cole is on the sick list.

Arlington Races to Open Nov. 1

PORT WORTH, Oct. 16.—"Bet- less" racing will enter its second year in Texas at Arlington Down, the scene of a thoroughbred classic, Nov. 1 to 11. The Down, \$3,000,000 memorial to the future breeding of good horses in Texas, is recognized as the finest course in this section of the country.

W. T. Waggner, Fort Worth, has put up a purse of \$35,000 for events

in which east and west Texas be well represented. Prof. Turfmen from all over the country will be on hand the opening with their favorite mounts.

One Vessel Sunk in Collision

HAVANA, Oct. 16.—The freighter Hallmore collided with the Cuban vessel Antolin Del Lido and sank it early today miles off Mariel, Cuba.

The Antolin Del Colado of 28 and two passengers rescued by the Hallmore, proceeded immediately to the province of Pinar Del Rio nearest port. The sunken vessel was a year-old sidewheeler of the pressa Naviera de Cuba of 977 tons, carrying a cargo at \$80,000.

Heart Hungry

LAURA LOU BROOKMAN
AUTHOR OF "GAGS FOR WOMEN"

BEGIN HERE TODAY

Adventure enters the life of Celia Mitchell, 17, when she learns her father has supposed dead and wealthy. She leaves her unpretentious home in Baltimore for a home in New York for her father, John Mitchell, and aristocratic grandmother, Margaret Rogers. Celia's mother, divorced Mitchell and remarried, and is now a widow. Barney Gold, young newspaper photographer, is in love with the girl and she is leaving Baltimore. Celia is lonely in her new home. Mitchell asks Evelyn Parsons, a widow, to introduce the young people. Mrs. Parsons invites Celia to her home and agrees to invite the girl to her home for a week-end and to take her to the party at her father's 18th birthday. The party is a dinner dance. Jordan sues Celia to leave early.

W GOES ON WITH THE STORY

CHAPTER XXVIII
Celia's heart was pounding as she ran up the steps of the old house. It must be very late, she thought. Her father was angry, she remembered. After Evelyn had explained, she tried to open the door. It would not move. For a minute she stood terrified. She had been locked out!

Helplessly she looked up and down the street. There was no one to tell her what to do. But then, she would there be? This was her home. She must find a way to get someone inside. Then she remembered that she was acting ridiculously. The bell, of course! She rang it firmly. "Someone was coming. She could hear the footsteps. The lock was clicking now." "Celia!" John Mitchell stood in the hallway looking out at her. "The girl tried to muster a smile, held her velvet cloak about her. "Oh, sorry, father," she began, "you haven't worried about Mrs. Parsons promised—" "Celia, come inside!" Mitchell's voice was harsh and stern. "Celia, I can't understand your manner. Celia, come inside!" He held aside so the girl could enter. The atmosphere told her at that something was wrong. Celia hesitated. Her father went into the drawing room, and followed.

"Do you know what time it is?" her father demanded. He was angry. "I could tell that from the way you walked, the way he snapped the door." Her eyes darted to the clock on the mantle. Two-thirty-five was at the dial said. "I didn't know," she answered. "I know it was so late, didn't Mrs. Parsons tell you I was coming home?" "Mrs. Parsons? Don't try to get her into this! A nice time for a young girl to be getting home! Celia, I can't understand your never expected such a thing could happen! I thought this thing I was doing something to you. Why do you suppose you came to the party at the hotel? Is your birthday present—the dress—is this the way you show it?"

The girl was almost crying. "But, father," she begged, "don't you listen to me? I didn't mean to be ungrateful! I—oh, I know what I can say! Mrs. Parsons said it would be all right. I know you'd feel like this!" "Celia," Mitchell said sternly, "warn you not to falsify! Mrs. Parsons had nothing to do with it. I know that very well, and I warn you not to try to deceive me!"

"But I'm not! I'm not trying to deceive you. I told Mrs. Parsons she was leaving and she said it would be all right—" "Stop! I'll not listen to anything of the sort! Will you please come, young lady, where you've been for the last two hours?" Celia was crying now. The my handkerchief of chiffon and she was a limp wad. She tried to brush the tears away, but they would not stop. One velvet cuff was moist and spotted. "Stop crying," her father yelled, "and tell me where you've been!" "I'm trying to—" Mitchell waited, unmoved by

Piles Go Quick

Piles are caused by bad circulation of the blood in the lower bowel. A weakening of the parts. Only internal medicine can remove the cause. That's why external remedies and cutting fail. Dr. Leonard's HEM-ROID, succeeds, because it relieves this congestion and strengthens the affected parts. Dr. Leonard's prescription has such a powerful effect on the internal remedy, that Dean Drug Co., and other stores, carry HEM-ROID at my expense. My pile suffering must end or my back—Adv.

able apartment, stepped into the elevator, and a minute later Rose was ushering her into Mrs. Parsons' boudoir.

"Darling! You've been crying!" The older woman's sympathetic tone broke down barriers of restraint. Celia told her all that had happened. Would Mrs. Parsons tell her how she could ever gain her father's respect again? How could she ever undo this tangle?

Evelyn comforted her. She declared that she herself would talk to John Mitchell. Celia was not to worry. Everything would right itself. As for never seeing Tod again, that was nonsense! She would tell Mitchell what a fine young man Jordan was.

The girl returned home feeling her burdens lightened. When she saw her father that evening he was cordial as usual. Celia began to believe her clouds were banished. And then Friday morning she went again with her grandmother to Charlotte's shop.

Mrs. Mitchell had decided she needed a new tea gown. She stood on the fitting block as a seamstress smoothed down folds of lavender crepe. The seamstress dropped her ball of pins. It rolled within an inch of Celia's toe.

"Let me get it for you," the girl said. She picked up the object and returned it smiling.

Her grandmother stiffened. She made no comment until they were in the car again. Then she said: "Celia, your conduct speaking to that sewing woman was outrageous. Don't you know you can't treat tradespeople as equals?"

"I didn't," the girl began. "That's enough!" snapped Mrs. Mitchell. "You are not to be familiar with common working people!"

The girl's eyes blazed. "Don't you say that!" she cried. "My mother works, and she's not common!"

(To Be Continued)

NOT ASSURED OF SELECTION SAYS WALLACE

By RAYMOND BROOKS
AUSTIN, Oct. 16.—Rep. John F. Wallace of Texarkana has denied that his resignation last week from the next legislature was in prospect of his appointment on the board of control to succeed R. B. Walthall as had been believed here.

"I have no information," he replied to inquiries, "that would cause me to think that I will be appointed to fill the vacancy on the board of control."

Mr. Wallace did not announce his plans of reasons for resigning. His answer at once turned speculation to the prospect of his being called into the Sterling administration in January, as one of the appointive state officials.

He resigned his nomination for the legislature in time to permit his county committee to put a successor on by the general election ballot.

Mr. Wallace is chairman of the present house appropriations committee, and a leader in the financial and economic legislative programs of past sessions. He was offered the post of state comptroller by Gov. Dan Moody this year, but declined it.

He organized several Sterling-for-governor clubs, and led an active campaign in his section for the nomination.

NEW CRUISER WILL BE SEEN AT HOUSTON

HOUSTON, Oct. 16.—Visitors and Houstonians will have opportunity to board and inspect a modern man-of-war during the port celebration to be held here October 23 to November 1. The U. S. S. Houston, Uncle Sam's newest fighting vessel, will arrive in port October 23 and remain here for a week.

Three years were required in the construction of this new cruiser which cost more than \$17,000,000. The vessel has a length of 601 feet, including fuel and fresh water weighs 13,000 tons. The ship can attain a maximum speed of 33 knots an hour.

The ship's armaments comprise 5-8 inch guns, augmented by 4-5 inch anti-aircraft guns. She mounts six torpedo tubes effective at a range of 20,000 yards. The cruiser can fire over 3,000 pounds of solid steel at a single broadside effective at a range of 15 miles.

A tour of inspection over this magnificent craft will reveal all the modern facilities of steamizing and electrical refrigeration. There are barber shops, a canteen, bakery shop, carpenter and machine shops, laundry, printing shop, pay officers' quarters, drug store, first-aid station, hospital, the crew has a large recreation hall and ships, with modern writing desks and reading lamps. Besides the officers there are 330 enlisted men aboard the vessel.

In addition to a fully equipped library, the crew has a large recreation hall and ships, with modern writing desks and reading lamps. Besides the officers there are 330 enlisted men aboard the vessel.

NOT A CANDIDATE

WACO, Oct. 16.—Mrs. F. S. Davis of Dallas, for 24 years president of the Baptist Missionary Union of Texas, will not be a candidate for re-election when the annual state convention is held at Amarillo early in November. She announced such intentions at the executive board meeting of that body here yesterday.

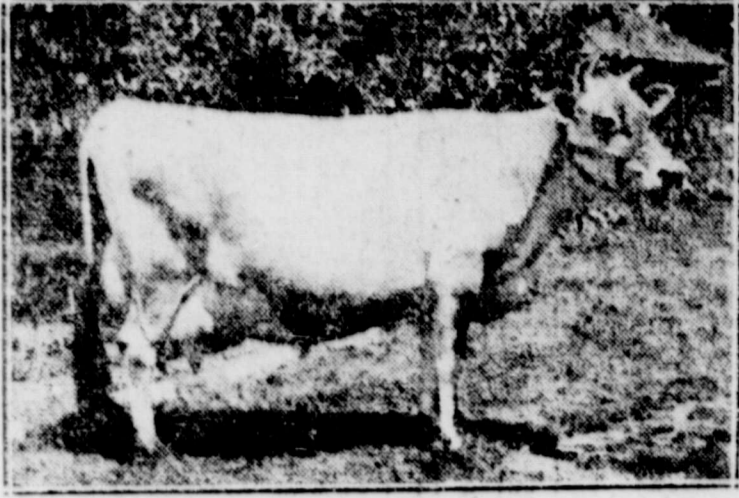

APPLICATION

FORT WORTH, Oct. 16.—Operation of the Burlington-Rock Island railroad from Houston into Galveston over the Southern Pacific tracks is sought in a petition of the Rock Island and Burlington systems, according to John A. Hulien, vice president of the Fort Worth and Denver, a Burlington subsidiary.

TAKES OFF

WICHITA, Kan., Oct. 16.—Laura Ingalls, St. Louis aviatrix who is setting a woman's record for the flight from Los Angeles to New York, took off from the Wichita Municipal airport at 8:22 a. m. today for Kansas City. A propeller was secured here to replace the one cracked yesterday when a gust of wind caught Miss Ingalls' plane just as she landed and nosed it over.

TWO WORLD'S RECORDS ARE BROKEN BY OREGON COW

Golden Chief's Lady May 681637

Breaking at one time two world records, one for milk, the other for butterfat production, Golden Chief's Lady May, a purebred Jersey cow owned by Lloyd A. Hulbert of Independence, Oregon, recently yielded 19,222 pounds of milk, 393.19 pounds of butterfat in an official production test of 395 days, the first which she has completed.

Her milk yield in this test exceeds by almost a ton of milk the existing 305-day world record of 18,047 pounds for Jersey milk production, all ages, established in 1923 by T. H. Hester's Nancy May, a cow owned by E. M. Sherman, Charles City, Iowa, and her butterfat yield breaks the existing world butterfat record of the Jersey breed for mature cows, 395-day tests, completed in 1927 by Post's Mabel Mowat, owned by Karl Hanne man of Portland, Oregon.

The amount of milk and butterfat produced by Golden Chief's Lady May during her test is the equivalent of 9,266 quarts of milk, 1,117 pounds of butter, or enough milk to supply a family with a quart a day for more than twenty-five years. Valuing the milk at 12¢ a quart Golden Chief's Lady May earned \$1,582.25 for Mr. Hulbert in the 395 days. During this time, according to records kept by Mr. Hulbert, she consumed approximately \$219 worth of feed.

Golden Chief's Lady May was 6 years and 7 months of age when started on test and while making her remarkable records received only the usual care given a profitable dairy cow. Eight different supervisors from the Oregon State Agricultural college checked her production during the 395 days of test. On four different occasions she yielded more than a ton of milk in a single month, during her highest month producing 2,164 pounds of butterfat.

Mr. Hulbert had not officially tested his cows for production previous to September, 1929, at which time Golden Chief's Lady May and three of her stablemates were started on test. When these four cows, three of

which were under 4 years of age, finished their tests at the end of ten months they had produced a total of 55,504 pounds of milk, 2,884.19 pounds of butterfat, the equivalent of 23,913 quarts of milk, 3,696.48 pounds of butter. In addition to the two world records broken by Golden Chief's Lady May, this quartet of purebred Jersey cows, pending calving, have qualified for two Medal of Merit, three Gold Medals and three Silver Medals awards of the American Jersey Cattle club for their outstanding performance as producers.

Reduction in U. S. Debt to Be Less

WASHINGTON, Oct. 16.—The amount of reduction on the \$16,000,000,000 (16 billion) United States public debt is likely this year to be about half the amount paid off annually in recent years, it was indicated at the treasury today.

For some years, the treasury has been reducing the public debt at an average annual rate of \$800,000,000. In the last fiscal year, \$740,000,000 was cut off the debt, but this fiscal year debt retirement probably will not exceed the legal minimum of \$455,000,000.

The treasury is required by law to place in the sinking fund for best retirement each year an increasing amount bearing a definite relation to the debt outstanding. The treasury this fiscal year must retire \$455,000,000. Slow progress has been made to date, only \$25,000,000 having been placed in the sinking fund since July 1.

In the many years of large surpluses since the World War, it has been the treasury's policy to utilize the surplus at close of each fiscal year for debt retirement. This was \$18,900,000,000 last year.

SLOW RIDERS TOO SLOW

LUTON.—So slow were the only two competitors in a slow bicycle race, that they were ordered to dismount and toes to decide the issue.

IMPROMPTU PERFORMANCE IS SUPERIOR

DALLAS, Oct. 16.—An entirely impromptu performance in the rodeo arena at the State Fair grounds last night was judged by some patrons to be far superior to the anticipated program. Others taking advantage of a technicality asked for their money back.

As the trite phrase goes, a good time was had by all, with the possible exception of one Bill Till, strapping cowboy, and a few coppers.

Bill asserted rights over the rules to enter the arena by the spectators' gate, with which a policeman differed. Antagonism arose, and was aggravated by officers' orders to enforce a loose rule to clear the ring of non-performing cowboys.

In the ensuing melee Bill was whacked over the head. Officers and cowboys engaged in hand-to-hand conflict. Ranger Captain Tom Hickman vainly tried to restore order. The leader of the Simmons University Cowboy band drew a couple of wicked looking guns, allegedly unloaded but looking wild and woolly nevertheless. The cowhands turned a herd of wild steers into the arena.

In short, pandemonium reigned. Bill was escorted to the city hall, docketed to appear in corporation court today and released.

PLAN TO FLY COLUMBIA TO U. S. IN NOV.

Airplane Bears Jap Ratification

CHEYENNE, Wyo., Oct. 16.—Lieut. Irvin A. Woodring took off from the airport here today for Omaha, Nebraska, bearing with him a copy of the Japanese ratification of the London naval treaty.

The army flier was forced down at Cheyenne last night by a heavy snowstorm. The ship had cleared today and flying conditions were reported excellent for his flight to Omaha, where he will refuel and continue on to Washington.

Woodring's flying mate, Lieut. William Caldwell, who left Victoria, B. C., at the same time yesterday with a duplicate copy of the treaty still was lost today in the region near Laramie.

The Boeing Air Corporation sent two planes out early today to search for the lost aviator.

NIGHT STICKS TO COME BACK

LINCOLN, Neb.—Lincoln police soon will be wielding the "big stick" again, according to Acting Chief of Police Walter Anderson. For some time, patrolmen have not carried night sticks. Recently a patrolman was injured in a scuffle with a drunk. As a result Anderson has ordered night sticks.

CENTENARIAN DEAD

NORRAHAMMAR, Sweden.—Mrs. Stina Great Abrahamson, 105, believed to be Sweden's oldest inhabitant, has died here.

PLAN TO FLY COLUMBIA TO U. S. IN NOV.

LONDON, Oct. 16.—Capt. J. Errol Boyd and Lieut. Harry Connor intend to fly the monoplane Columbia from Croydon to Baldoon, Ireland, to North America in November, Boyd told the United Press today.

The fliers crossed the North Atlantic from Harbor Grace, Newfoundland, to Presco, in the Scilly Isles, last week, making a forced landing when a gasoline feed pipe broke.

Boyd did not appear at all concerned about the dangers of an east to west crossing late in the year when weather conditions are likely to add greatly to the hazards of the flight. "I intend to take every precaution for safety," he said, "and I am therefore certain of making it."

I am not worrying the slightest. I am confident, and why shouldn't I be when I am accompanied by a skilled navigator like Harry Connor?"

The actual destination of the fliers after crossing the Atlantic was as much in doubt as the starting point for their journey, Boyd indicated.

"We have not decided where we will land on the American continent," he said. "If we have sufficient fuel left when we reach Canada, we may continue to New York." He added laughingly, "we might go on to South America."

After all, the American continent is a big place. Fuel consumption will finally determine both the starting point and the length of the flight. "We will not take any chances like we did on the last trip," Boyd said. "We are out for conservation of an extra fuel tank for any emergency. Anyway, you can say that we are flying back unless we get killed by a taxi or something in meantime."

Steer Team Has Some of Best Material in District

HERE IS THE STEER SQUAD WHICH WILL FURNISH LOBOES OPPOSITION FRIDAY

Above is seen the crew from which Coaches Bill Stevens and George Brown draw their strength this year. Forty-four aspirants are on the squad which will meet Cisco here Friday evening. Reading from left to right, top row—Coach Brown, Reed, Sanders, Hopper, Huitt, Johnson, Fardue, Maxwell, F. Coburn, Gray Brook, C. Coburn, Thompson, Craigilton, Coach Stevens; second row, Vines, Yates, Yarbrough, N. Orr, Hebbson, Glover, F. Orr, Atkins, Hildreth, Wood, Dutton, Morris, Martin, Savage, Collins; third row, Flowers, Richberough, Coats, Neel, Yater, Mims, Rogers, Kidwell, E. Smith, Schwartzbach, Phillips, Pickle, Smith, Patterson; fourth row, Hammock, Conway.

ETS CISCO LOBOES HERE FRIDAY NIGHT

Fast Aggregation Has Improved With Each Game

This page today appears a picture of the Big Spring Steer football team of 44 members. According to observers the Steer eleven has a collection of material as any in the district. The team started out slowly but in each game has played to date the boys have improved rapidly. At the first of the season after having hardly gotten started, the Steers succumbed to the cruelest team of the district, the Austin college Kangaroos. Later the team met Mineral and eleven that has since proved it is nothing to be sneezed at. The Big Spring team showed improvement to upset the district and down the Mountain. Last week the Steers met the co-champions of 1929 and won by a margin of two touchdowns.

Different Story

The Big Spring team met the Austin college Kangaroos at the time to develop into something resembling a football aggregation there would have been a difficulty to tell about the contest.

Lobos face the Steers here Friday evening at 8 o'clock on Chesley. They will face a squad as good as themselves, with speed in their offense. They will try to break up one of the best passing attacks in the district by the stop the running attack of the Swift backs led by the Flowers. Flowers was the star in a walkover 32 yards through the center of the Buckaroos, whom they defeated last week for a down from kickoff. Steers are coming to Cisco for a battle that will be even fiercer than that which they put up at Breckenridge last week. The game offers the opportunity of the season for the return of the Lobo strength of the Buckaroos, whom they meet next week.

Emphasis Is Threat to Football

NETON N. J., Oct. 16.—The over-emphasis of college football threatens to kill it as a sport in five years, according to a report head coach at Princeton University. "Who is completing his last year of college," he said, "is not completing his last year of college." Roper said, "The place of football in the university is merely an adjunct to the college education." "It is on the verge of being killed in colleges, and that is the danger of spring football practice," he said. "The early drill takes the boys from all other spring athletic terms. It is a threat to the health and the life of the student." Roper said, "The strain upon the players is enormous, and their whole professional training is in the afternoon, when studying at night is reversed."

TRICK SHOTS

CLAS, Oct. 16.—Ralph Guidici, promising young golfer here, has his impressions of Joe Boggs' trick shots at the Bob's driving range here tonight. "I recently leaped to a prominent place in goldform by leading the round of play in the St. Louis championship."

He Must Die Man Finds Life In Crazy Water

City Sheriff Wants World To Know His Crazy Story

The year of 1923 I was living at Okla. I was confined to my bed with a complication of diseases. I was diagnosed by different ones as having Paralysis, Neuritis, Rheumatism and a dead liver. It was decided to take me to Mineral Wells the doctors did not think that I would live to get there. The doctors in Mineral Wells arrived did not think that I had any chance for me to recover. Crazy Water for four weeks and was, so far as I can remember, completely well. I gained 94 pounds in weight, and took a job as a sheriff which necessitated working on my feet from eight to ten hours every day, and often during a lot of night work. Water certainly pulled me from the grave. GEO. HENSLEY, Granite, Okla.

Unbeaten Teams Are Few Now

NEW YORK, Oct. 16.—Present day football schedules being what they are, the list of major eleven unbeaten and untied is small indeed. In the east, Yale and Princeton have been defeated. Three of the far west's big teams—California, Southern California, and St. Mary's—have been defeated, while Stanford, mightiest of them all, has been tied. In the mid-west, six members of the Big Ten have been beaten and one tied. After Saturday the list will be much smaller, for six of the day's games are between unbeaten and untied eleven. The games are as follows: Georgia vs. North Carolina, Notre Dame vs. Carnegie Tech, Harvard vs. Army, Alabama vs. Tennessee, Illinois vs. Northwestern, Pennsylvania vs. Wisconsin.

SPORT SHOTS

PALO ALTO, Cal., Oct. 16.—An important east conference game will be played here Saturday when Stanford meets the strong Oregon state aggregation, expected to arrive tomorrow. The Cardinals will have their hands full against the Seters, who have a line averaging 197 pounds and a backfield averaging 171.

BERKLEY, Cal., Oct. 16.—Coach "Ned" Price of California showed doubt today over his original intention of using second string players in the game Saturday with the San Francisco Olympic club. Although it is important for the Bears to save their strength for the coming battle with Washington university, all are agreed that the clubmen are not lacking in strength.

PEORIA, Ill., Oct. 16.—Allen Whitlow, Phoenix, Ariz., featherweight, won a close 10-round decision over Eddie Shea, Chicago veteran, here last night. The referee and one judge gave the decision to Whitlow, while the other judge voted for Shea.

OAKLAND, Cal., Oct. 16.—Jimmy Duffy, 149, Oakland, won a decision over Paul Aubertain, 147, France in a ten round main event here last night.

FAYETTEVILLE, Ark., Oct. 16.—As the Pikers went about the red and white camp today straightening out miscues which the Horned Frogs unveiled for them, they determined that the Rice Owls should no longer be the "unknown X" of the Southwest conference after Saturday's game. Whatever the score may be, the Razorbacks are determined that the fray shall uncover all the tricks the feathered tribe may carry under its wing.

Oliver "Chicken" Holmes, veteran signal caller, will be back in the line-up, Coach Fred Thomsen announced. The game will be broadcast by station K-U-O-A.

COLLEGE STATION, Oct. 16.—With the exception of Byron Magrill, veteran tackle who suffered a broken wrist bone in the clash with the Nebraska Cornhuskers, all members of the Texas Aggie grid machine are groomed for the fight in their own back-yard Saturday. Magrill will not oppose the Frogs. Coach Matty Bell has definitely announced.

Joel Hunt, former stellar quarterback for the Farmers, ran with his former mates this week, giving backfield men what pointers he could. Regardless of weather conditions, the Farmer-Prog tilt will be played on dry turf protected by a field cover.

AUSTIN, Oct. 16.—"Beat the Sooners" was the rallying cry of the University of Texas campus today that reached the ears of the Texas Longhorns down on the practice field where final touches were being put on the Steer grid machine.

The Longhorns will enter the Sooner scrap with an appreciable weight advantage. The greatest contrast lies in the two backfields. On the Sooner squad, a 140 pound player pulls the average down to 164 pounds, while Shelley and Koy on the Steer team send the Texas average to 177 pounds. The Longhorn team average is 183 pounds, for Oklahoma 175 pounds. The Oklahomaans have flashed a wide open running attack in their previous games, while the Longhorns have made their greatest gains by the "power-house" style of play.

DALLAS, Oct. 16.—Out on the hilltop today the Ponies of S. M. U. were being poked at a hard clip, smarting under the accusation of their coach and trainer Ray Morrison who declared his men were over confident in regard to the green and gold spot on their conference schedule. With Mason and Powell out, Morrison

BIG DAM CHATTER

Tomorrow evening at Chesley field the Cisco Lobos are due for some exciting moments if you ask us. There has been a considerable amount of "chatter" evident among the members of the squad of late and we are interested in determining to what extent that will affect the score tomorrow evening. So far this season the team has been working with scientific precision and effectiveness. We may expect a let-down along about now. And personally speaking we are on edge for fear that this slump will occur during this week and next.

Those who have watched the Lobos sweep impressively through opposition so far may have gotten the idea that the team is unbeatable. In a district like the oil belt, with a schedule like the oil belt schedule no team is unbeatable. It will take just a little change in the attitude of the boys tomorrow night to give Big Spring a victory over the Lobos. You may not believe that, but it is true. Ask any coach. The difference between a winning and losing team is after all a slight thing.

The Lobos enter the contest without the services of Turknett. Cole is nursing an injured knee. Beyond that the squad is in excellent condition. But the loss of the first string quarter will be felt. Turknett is playing a brand of football this season far superior to that of last year. He has not only run his team creditably but he has done some excellent punting and passing and running of his own.

Breckenridge, Cisco's foe of next week, meets Eastland Saturday afternoon at Breckenridge, according to the schedule. Thus the two opposing elevens of a major battle are polishing off for each other upon teams that have been defeated by the other. Cisco downed the Eastland eleven 26 to 0 here earlier in the season while the Buckaroos defeated Big Spring 19 to 6 at Big Spring last week.

There is much comment going about the district of late to the effect that the Buckaroos will be just a gentle breeze for other major elevens in the district. The comment recalls the "prayer" that the green wave had last year. It stands to reason that this attitude is vastly gratifying to the Buckaroos. It gives them the advantage of working under cover while the pitiless light of public interest is centered upon other fields where apparently more dangerous contenders grind. In a district like the oil belt there are more things to coaching a team than teaching the boys how to block and tackle, and run and pass and punt and function as a team. You have heard college coaches stress psychological factors, recalling the numerous expedients which have been resorted to in taking advantage of this elusive but powerful influence.

It is not improbable, by any means, that high school coaches in a district so hard-fought, so difficult of survival, would resort to similar purposes. Canyon.—Floodlights with capacity of 72,000 watts will be installed for night playing at West Texas Teachers College football field.

CHICAGO, Oct. 16.—Court convened as usual today for Judge Walter P. Steffen but it wasn't law or lawsuits that occupied his mind. The judge's main concern was whether Leitham Flanagan, Carnegie Tech's great end, would catch one of those long passes from quarterback Harry McCurdy against Notre Dame of South Bend Saturday—or thoughts to that effect.

Five days a week Steffen is a judge in a Chicago superior court, hearing personal injury suits and such. The other two days he's coach of the Carnegie Tech football team which invades South Bend this week hopeful of inflicting the second defeat in 25 years on a Notre Dame eleven playing at home.

Carnegie Tech conquered the Irish 27-7, on Cartier field in 1928 and Judge Steffen offended to the United Press today that he had a team good enough to turn the trick again—"if they have one of their good days."

"Rockne has a great team," said Steffen, "but I have a good team capable of winning and we are not going to South Bend to lose. "It looks like Notre Dame is getting better and I know they'll be plenty tough no matter how bad they are."

ROCKNE DISPLEASED WITH SHOWING SOUTH BEND, Oct. 16.—Displeased with the showing of his players in practice this week, Coach Rockne planned to send the Notre Dame squad through another scrimmage today in preparation for the Carnegie Tech game Saturday. After yesterday's two hour scrimmage, in which the freshman offense all but disrupted the varsity defense, Rockne said: "You were terrible. They'll beat us by eight touchdowns instead of three if we don't get any better than this."

Austin.—State highway commission during recent week awarded highway betterment contracts amounting to \$1,381,272 calling for improvement of 174 miles of roads.

Two Highlights in Texas Conference

BROWNSWOOD, Oct. 16.—Two highlights in the Texas conference contest stood out prominently today in Sherman Friday afternoon the Yellow Jackets of Howard Payne

and the Austin college Kangaroos tie up in what is expected to be one of the toughest tussles on the calendar. That night the Saints of St. Edwards and Southwestern will clash at Georgetown in a game that will likewise have an important bearing on the race. News want ads bring results. Baird—Red Chain—Feed changes hands.

Here's the Protection You Need—It's Bad News to Get

Spray your nose and throat often during the fall and winter and you are avoiding the attack of bad colds. Use one of your children each morning before they start school and a safe safeguard their health. Ask your doctor what he thinks about it and he will say the same thing. It will keep your head clear and is the best thing known for catarrh.

We join with Firestone in PRE-INVENTORY SALE

Prior to Closing of Fiscal Year October 31

WE ARE overstocked on some types and sizes of tires and tubes, also accessories—we want to clear our shelves and racks and get ready for the renewal of our franchise with Firestone.

WE HAVE marked down prices to the very bottom. Every tire is a most unusual bargain because every tire is made by Firestone and bears the Firestone name for your protection.

NEVER before has Firestone quality been available for so little cost. Practically every tire is new—fresh from the Firestone Factory.

DURING this pre-inventory sale, we will give you a special allowance for your old tires in trade for new, safe Firestone tires. Come in today and find out how little it costs to equip your car with these sturdy, dependable, non-skid Firestone tires.

THE PRICE of rubber and cotton is low—Firestone quality is the highest it has ever been and at these greatly reduced prices you will want to replace your worn tires at once and have your car equipped for the wet, slippery weather of fall and winter.

Come in while we have your size at these unusual bargains

CRIME COMM'N TO MEET AGAIN ON NOVEMBER 5

By LYLE C. WILSON
United Press Staff Correspondent
WASHINGTON, Oct. 16.—Another meeting of the Hoover crime commission was tentatively scheduled today for November 5, the day after voters in half a dozen states have expressed themselves on various phases of the prohibition problem.

The commission now is in the midst of the longest of its sessions in an effort to prepare a prohibition report for the president by early December. Another meeting probably will be held tomorrow, although at least four of the 11 commissioners are absent.

Appointment until after the election is contemplated with the prospect of still another session late in November and one early in December when the prohibition report, if ready, would be submitted.

The extent to which election results will influence the commission is not clear. Chairman, Wickersham has said the commission cares nothing about elections, but at the same time he admitted that popular opinion had to be considered in connection with enforcement of any law.

Marx Brothers Score Big Hit

Buttons anchored to home-ports with anything less than the best grade of brass rivets or steel cable, have a delicate tenure of office Sunday at the Palace theatre, where The Four Famous and Furiously, Funny Marx Brothers, something fifty million ribbed lovers of comedy believed impossible. They've made a talking and musical picture that takes up where "The Cocoanuts" left off, and ends with the last survivor being carried up the aisle by force, three strong ushers, and well—who is your favorite escort to the "booby-hatch?"

The story is something about a stately and socially proper hostess, with a house-party on her hands at a palatial country estate. A big game hunter, just back from an African expedition, his secretary and two vagabond musicians engaged to attend to the musical appetite of the guests is the business assigned Groucho, Zeppo, Harpo and Chico Marx, respectively.

They arrive simultaneously and with their usual hurricane momentum at a time when the festive gathering is being diverted by a butler weighing just a fraction less than a half ton, a feud between the hostess and a rival matron over the authenticity of a fine painting, and more pretty girls in lingerie and bathing suits than most revues boast. You understand what we mean by pretty when we say Lillian Roth heads the feminine talent.

This is the promise or the premises, upon which the riot is fashioned—and the developments dwarf superlatives that Webster intended for even the most hilarious narratives.

In addition to the Marx Brothers, and Miss Roth, the cast presents Margaret Dumont, Louis Sorin, Hal Thompson, Margaret Irving, Kathryn Reece, Richard Greig, Edward Metcalf and the Music Masters.

Oil Prices Cut

CONTINUED FROM PAGE ONE

posted price in the particular field must inevitably follow. We cannot continue to pay more for crude than others are paying.

"In view of the fact that crude oil from north Texas and Panhandle fields is being sold below our posted price, we have no alternative but to meet such low price by posting in these two fields effective today the attached schedule.

New Postings

Effective 7 o'clock this morning we posted the following prices for north Texas crude in Wichita, Willbarger, Archer and northern Young counties, 34 to 34.9 gravity 38¢ increasing price 3¢ per degree. Gravity up to 44 and above making top price \$1.19 with differential. Below 34 gravity 4¢ per degree making bottom price below 29 gravity 65¢ for Carson and Hutchinson county crudes 34 to 34.9 gravity 70¢ increasing price 3¢ per degree gravity with top price \$1.09. For 44 and above and a differential below 34 gravity of 4¢ per degree making bottom price 55¢. For below 29 gravity Gray county crude 34 gravity to 34.9 4¢ increasing 3¢ per degree gravity up to 44 and above making top price \$1.14 with differential of 4¢. Below 34 gravity for each degree making bottom price 60¢.
