#### Dabney Will Seek Sterling's Assent to Session

AUSTIN, Oct. 21 .- An appeal to Ross Sterling, democratic nominee for governor, to get his assent to a special session of the legislature will be made as the result of a drouth reief conference held here today by West Texas bankers and farmers with Gov. Dan Moody. Guy Dabney of Cisco, chairman of the committee that visited Gov.

Moody, is to confer with Sterling. Sterling's assent would remove an obstacle to a call of the legislature after November 4, Governor Moody said.

Doubt that a quorum of the old legislature would attend a session called before that time was expressed by Governor Moody. The committee offered to get out a questionnaire to the members and ee if a quorum will pledge attendance.

Lack of state available funds was advanced by Governor Moody TULSA, Okla., Oct. 21.-A sudden as another obstacle. His visitors

Gal. 5:22-26

- 22. But the fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith
- 23. Meekness temperance: against such there is no law. 24. And they that are Christ's have crucified the flesh with the affections and lusts.
- 25. If we live in the Spirit, let us also walk in the Spirit. \*26. Let us not be desirous of vainglory, provoking one another, envying one another

#### TOO MANY LAWS.

Crime in America, both major and minor offenses, has increased coincident with the passage of restrictive and oppressive laws by both the states and the federal government, says the Manufacturer's Record.

That is an interesting observation when most of us were beginning to feel that the law-making machinery needs to be speeded up a couple of notches to take care of the situation. The Record points out that when America was a "free country" the crime problem took care of itself to a large extent. but that now our prisons are filled to overflowing, due in great part to offenses that twenty or so years ago were not Independence (Kansas) Daffy Reillegal.

There is food for thought for those of us who are con- the automobile manufacturing bus sidering new and more restrictive laws as an antidote for the iness followed crime wave. Referring back to the legal machinery of a generation or more ago it might be well to point out that in those though it was supported by income days the course of justice was straight compared to the devi- nationally known a. ous windings of the blind lady among the embarrassing tech- the first big program nicalities of today. The reason that horse-thieving was purchased as an advertising stamped out in the cattle country when horses were almost ment. This campaign was a priceless as a means of transportation was because justice in those strenuous days paid less attention to the constitutional pletely by another manufacture. rights of the accused and more to his guilt or innocence.

Now since we have so many restrictive laws there is a automobile manufacturers question, even in the face of conclusive evidence that the law persistently into the radio has been broken, whether or not the accused is guilty of anything more than disrespect for the statute. Thus by the very effsetting this expense and the harrassing multitude of regulations respect for law is weak- with this adventure the sh ened and most of us made criminals unaware. the sale of new cars was p

### THE SCOUT METHOD.

The Boy Scout method of developing character is not by create the normal buying des preachment. It is through the Scout oath and law, the daily good turn and the system of "learning by doing." Scouting is gives the boy opportunities to express himself through di- advertising medium. rected activity, responsibility, and a program that appeals to From time immemorial the man in him. It develops a high regard for integrity by chasing desire has been created reason of its appeal to his imagination. This is done through the Scout oath and the Scout law. The Scout feels he is a yet it is taking no small period successor to the high-principled knights of chivalry, to the of time for the business pioneer scout who made our country's early history.

The Boy Scouts of America creates and maintains conditions so that boys intensely desire to be Scouts. In proportion to the intensity of this desire of the boy to be a Scout does he, by self-expression, by self-discipline, impose upon himself the obligation to be true to those principles which are involved in his right to think of and call himself a Scout.

to the fold of advertising cer Cisco parents and citizens should consider carefully the merits of the Scout organization before they turn a deaf ear lustration and by means of the to the appeal that is being made this week. press, which is the educationa

### VIEWPOINT OF AN AMERICAN BANKER.

of Atlanta. He appeared before the convention of the investof Atlanta. He appeared before the city of New Orleans and bluntly told the delegates that "business courage to dispell fear was needed in America rather than confidence." He said he believed we need in America business courage; that confidence is not all that is required; that confidence speaks timidity and there is not so much timidity in America as fear Lady Says She Was Stronger, in America. In other words courage to face the so-called depression was urged by the governor of the board. An extract from the address is to the point

"I believe other things are needed in America and in the world than confidence. I believe first we have to be just. I tut for about four months, and it believe we have to pay our debts. To do that I know we have to economize. We have admittedly a 13-month recession in business. It is farther back than that.

We have been living in an automobile and radio era. We cannot have any permanent prosperity when there is a load ally if I took cold. of debt around our neck. A mortgage on the home destroys did not seem to get any better. the peace of the fireside. If the mortgages on our farms in America were paid there would be no farm problem. If my condition. American business had a second area reserve, as the banks of America have, there would be very little business problem. I believe we have to do a second thing. I believe we have to assert our character in America. I am afraid that in the last me a good appetite. My nerves two years some of us have forgotten that a good name is were better. I was much stronger, two years some of us have forgotten that a good name is rather to be desired than great riches and public favor rather and I was much relieved from pain. than gold and silver. It is not confidence we need in Amer-

ica. It is certainty we need in America.' ported that they began taking Car-dui on the advice of older mem-bers of their family, for this medi-cine has been in use so long its All the wise men of finance and business are telling just how it happened. All the wise men of the newspapers are telling just how it could have been avoided. All the wise politicians on the democratic side blame it on the republican tariff. All the wise politicians on the republican side place the blame on the democratic senators and representatives. All the wise chieftains of organized labor agree that a five day a week schedule will make the bread winners of America prosperous, their standards of living the highest and their purchasing power what it should be. Banker Eugene R. Black, governor of the federal reserve board of Atlanta, advises "first we pay our debts and then live within our means." If Moses, the Law Giver, walked in the footsteps of men of today he would be as dumb as an oyster-after reading the government bulletins, the surveys of experts and com-

missions, the prophecies and predictions of statesmen and tee named to present the amendnear-statesmen and the lamentations of those who have been pinched since the so-called republican prosperity reign was smashed by the bears of Wall street and the bulls of the street given the surprise of their lives.

Says

## **AUGUST** HECKSCHER

Noted Philanthropist

Chairman of the Heckscher Foundation for Children; President Child Welfare Committee of America

> Director: Empire Trust Company Crucible Steel Company

"The most laudable service that any industry can render is the attempt to benefit its patrons. That is the cardinal principle of philanthropy. And so, interested as I always am in modern developments, I consider that your use of the Ultra Violet Ray in your Toasting of LUCKY STRIKE is a distinct contribution of which the public will wholeheartedly approve."

LUCKY STRIKE — the finest cigarette you ever smoked, made of the finest tobaccos —the Cream of the Crop—THEN—"IT'S TOASTED." Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows that's why TOASTING includes the use of the Ultra Violet Ray.

# It's toasted

Your Throat Protection - against irritation - against cough

Consistent with its policy of laying the facts before the public, The American Tobacco Company has invited Mr. August Heckscher to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of Mr. Heckscher appears on this page.

1930, The American Tobacco Co., Mirs.

CROSS-SECTION OF CURRENT CONVERSATIONS IN CONOCOLAND 30

**\_ET ME TELL YOU:** I CAN NOTICE A REAL DIFFERENCE SINCE I STARTED USING THIS GERM-PROCESSED OIL"

Following the Pike's Peak Tests, where Conoco Germ-Processed Motor Oil was tested side by side with three other popular, nationally known oils, the Contest Board of the American Automobile Association issued Certificate of Performance number 2268, comprising 14 points, of which the point below is one.

### POINT NO. 6

"That using the subject oil and during each test, greater gasoline mileage for economy was obtained than during the use of the comparables."

The recent Pike's Peak tests disclosed some startling facts about motor oil . . . Free booklet at all CONOCO stations.

around the bridge table, people are talking about the new CONOCO Germ-Processed Motor Oil. Their comments are invariably friendly, and should you take a stand on some other lubricant, you will soon find a tinge of evangelism in the arguments that face you. For how can the use of any other oil be justified?

Conoco Germ-Processed oil is the first really new oil of this century. The first oil conceived to overcome the failings of all mineral oils. The first regular stock motor oil, under the Supervision of the Contest Board of the American Automobile Association, to prove its superiority in the Pike's Peak Tests against three other nationally known oils. And again, in the Indianapolis and Altoona Races first to "place" in the money where no other stock oil had previously placed, at speeds of from 92 to 120 miles per hour ... and the only motor lubricant that provides "penetrative lubricity" for your motor.

Conoco Germ-Processed Motor Oil will serve you better, protect your motor more surely, and save you money withal. So why use a feebler lubricant, when this test-proven, sturdiest of all motor oils awaits you . . . at the Sign of the Red Triangle?
