Cooked 36-Cent Dinner for Hoovers

It probably was one of the cheapest White House dinners in history. For 36 cents was the total cost of a tasty meal which these Washington Girl Scouts cooked and served for the President and Mrs. Hoover at the White House the other day.

Left to right in the front row, are Shirley Schaefer, Louise Erk and Faith Shesong, who served the dinner, and in the second row are Betty Leake, Betty Jane Oswald and Helen Sheets, who were the cooks. In the rear is Mrs. Edmund F. Erk, wife of the Congressman from Pennsylvania, who supervised preparation of the meal.

HAMER PEEVED AT VIOLATION OF CONFIDENCE

AUSTIN, April 25.—Capt. Frank Hamer, of the Texas Rangers, expressed indignation here today that oil companies had made public confidential information given them for their own protection and refused to discuss his warning that communists have been stealing nitro-glycerin in Oklahoma warehouses to blow up Texas oil fields.

"That's a fine way for the oil companies to treat confidential information," said the noted Ranger officer.

Further than to admit the authenticity of the warning, Hamer refused comment. He would not reveal where the nitro-glycerin has been stolen nor upon what grounds the thefts are connected with communist activities.

Mrs. Schaefer in Guthrie Hospital

Mrs. Emma Schaefer, mother of Harry Schaefer, suffered a crushed pelvis bone in the accident in which she, her son, his bride and Mrs. F. D. Mellette were involved in Oklahoma a few days ago while en route from Kansas to Cisco. Mr. Schaefer reported to the Daily News Saturday, our house and furniture was burned Sunday and we were nearly killed Monday," he said.

Mr. Schaefer had placed about \$600 worth of new furniture in his home shortly before leaving for his bride. It was not insured.

American Citizen Slain in Honduras

WASHINGTON, April 25.—Murder of an American citizen, John E. Wright, 25, from Alto, Texas, at Lerida farm, Honduras, was reported to the state department today by the commander of the special surface squadron in Caribbean waters.

Investigation thus far, the report said, indicates that Wright was murdered by a private Honduran soldier in connection with the Honduran revolution.

Ex-Service Men to Be Given Preference

WASHINGTON, April 25.—President Hoover issued an executive order today changing the civil service law so as to give greater preference to disabled veterans.

HIGHWAY 23 TOPPING DUE IN 60 DAYS

County Judge C. L. Garrett and the members of the Eastland county commissioners court went to Abilene Friday where they had a conference regarding highway work in Eastland county with Highway Commissioner Ely. Judge Garrett said Saturday that Commissioner Ely stated the highway commission had always had the greatest cooperation from this county in the matter of highway work and appreciated it very much, and that the commission was anxious to do anything it could to better the roads in the county.

Judge Ely told Judge Garrett and the commissioners that at this time the highway commission could not undertake the widening of the base on the Bankhead highway which was one of the matters Judge Garrett wanted done. The trunk over the Bankhead, Commissioner Ely believes, does not at this time warrant widening on the basis of the road.

Commissioner Ely told the court, however, that the work of topping Highway No. 23 from Cisco north-west to Calahan county line would be done, that the proposition had already been before the commission and actual work on the road was awaiting an appropriation. He thought the work would be under way within 60 days.

The court was also assured by Commissioner Ely that highway department engineers would go over the road between Rising Star and Romney and from Rising Star west and make estimates as to the cost of the work the court wanted done and refer the estimate to the court.

The betterment work on the Cisco-Romney part of highway No. 23, the court was informed, would probably be reached first of all the projects discussed except the work from Rising Star west and it possibly would be done this summer.

Due to the fact that many counties have voted bond issues and are starting work which the state had agreed to help pay for, Commissioner Ely said the work the court wanted done on the Carbon-Gorman portion of highway No. 67 could not be done at this time.

2 PRISONERS ARE RETURNED TO CLEBURNE

Sheriff Joe Crawford, of Johnson county, and his deputy, Tobe Bratcher, passed through Cisco Saturday en route to Cleburne with two prisoners recaptured at Baird Friday afternoon escaping the Cleburne jail earlier in the week.

A total of eight made their escape from the jail, five of whom have been retaken.

Sheriff Crawford and Deputy Bratcher were guests of Chief of Police W. M. Miller and Mrs. Miller at noon Saturday on their way to Baird. Mr. Miller is a former sheriff of Johnson county and a personal friend of the two visiting officers. Mr. Bratcher was one of his deputies while he was sheriff at Cleburne.

The two recaptured prisoners, Enis Temple and E. J. Jack Ward, were taken Friday night at Baird by Sheriff R. L. Edwards, of Calahan, and his deputies. Their apprehension followed information of the theft of gasoline from the Hughes filling station on the highway 10 miles east of Baird. The pair were arrested as they drove into Baird.

The officers were not aware of the identity of the two men and released Ward upon Temple's statement that he was not implicated in the gasoline theft. Subsequent information enlightened the Calahan officers and they immediately set out in pursuit of the released man, taking him into custody again after a lively chase, in which several shots were fired, near Clyde.

Mr. Tucker extends a special invitation to the Cisco people to hear Dr. McCarty in his message this morning.

Hoover Uses Work Boat for Cruise

WASHINGTON, April 25.—A government work boat instead of the \$1,000,000 yacht Mayflower awaited President Hoover at the navy yard today for a weekend cruise down the Patomac river.

District Judge Denounces Texas Laws on Insanity in Upholding County Court

GREENVILLE, April 25.—Judge L. L. Bowman, of the Eighth judicial district today denounced Texas laws on insanity in affirming the action of the Rains county court in declaring Miss Beulah Ailed, 42, picturesque anti-liquor fighter, insane.

Judge Bowman refused her application for a habeas corpus writ and her attorney J. Benton Morgan, announced that he would appeal the case to the sixth court of civil appeals at Texarkana.

Miss Ailed was jailed here April 16 because there are no women's quarters in the Rains county jail.

On April 21 she was declared insane in Rains county. Attorney Morgan based his plea today on the fact that she had not been present at the trial at which she was declared insane. Judge Bowman ruled that proceedings in this manner are legal under Texas law.

"I've never found a law so summary, so meager or so barren," said Judge Bowman in making his ruling. "The present Texas law would permit a jury to pick me or you or anybody else up, stick us in jail and declare us insane before we knew it."

"It is the law of the state, however, and I have to uphold it. In my study of this case, I have found records of persons declared insane in Texas when the persons were entirely outside of the state."

GEN. BUTLER IS ACCUSER IN NEW FURORE

WASHINGTON, April 25.—Controversy and investigation centered again today around Maj. Gen. Smedley D. Butler as they have many times before during his career in the United States marine corps.

Butler, which naval records say captured earning the Congressional medal, did not exist. The minister asking to investigate an alleged aspersion by Haitian Minister Dantes Bellegarde on the marine general's capture of Fort Riviere in Haiti. The letter was sent to state department and Secretary of State Lansing promised an investigation beginning Monday.

Meanwhile Bellegarde, a diplomat and writer of international renown, gave his version of the alleged affront to Butler, who himself was excused but lately by the navy department for calling Premier Masland a "hit and run driver."

Bellegarde was quoted in a Washington newspaper as saying Fort Riviere, which naval records say Butler captured earning the Congressional medal, did not exist. The minister asking to investigate an alleged aspersion by Haitian Minister Dantes Bellegarde on the marine general's capture of Fort Riviere in Haiti. The letter was sent to state department and Secretary of State Lansing promised an investigation beginning Monday.

"I said no person in Haiti knew of the existence of Fort Riviere," he explained. "I did not say that the Fort did not exist but that no one in Haiti knew about the fort and no one knew where to find it."

"General Butler said that after it was captured it was destroyed."

"M. Numa Rigaud, secretary of the Haitian legation said: General Butler is a very imaginative man, he says he took a fort which so far as is known in Haiti never existed—Fort Riviere. He says he blew it up afterwards and that is why we cannot find it today. He says he took it by crawling through a hole. It is very amusing."

Aged Labor Leader Beaten at Wichita

WICHITA FALLS, April 25.—Luring police guards momentarily from their posts at the Marlow free food distribution center where 500 men and women formed a bread line, two men late today forced their way into the building, kicked O. B. Kelly, aged and crippled labor leader out of the door and stamped his face in the mud before bystanders and guards could interfere.

Kelly, who ran for mayor on the labor ticket last year, was beaten by members of the same group which yesterday attacked J. B. Marlow, originator and distributor of the food fund for unemployed.

Aggravated assault charges will be filed against the pair, County Attorney L. V. Abernathy said. Guards around the food center were doubled after the attack.

EXPRESSION OF CITIZENS IS SOUGHT

A mass meeting of Eastland county citizens has been called for Monday night at 8:30 o'clock at the county courthouse at Eastland for the purpose of discussing the proposed statewide bond issue which comes up for a vote in the house of representatives at Austin next Wednesday.

This meeting was called by a group of citizens of the county who had received communication from Eastland county representatives in the legislature asking for an expression of the people on the matter, in the belief that it perhaps afforded the best opportunity to ascertain the desires of the taxpayers of the county in regard to the proposed measure before the legislature.

Eastland county is interested in the legislation since it has approximately \$4,000,000 in highway bonds outstanding. The measure, which has already passed the senate and which is due a vote in the house next Wednesday, proposes to refund the amount which Eastland county had paid out on state highways which totals approximately \$750,000, and in addition assume the payment of the balance of highway bonds outstanding against state highways.

Also it is pointed out the funds with which this is to be paid are to come from the tax on gasoline and not from taxes levied against homes, farmers and any other property either real or personal.

It is the opinion of many that there has been so many state wide bond plans proposed and discussed that most people have become confused about what is actually proposed and it is for the purpose of putting the matter before the people in an effort to get an expression from them as to what they want that the mass meeting was called.

Cole Will Recover J. T. Elliott Says

J. T. Elliott, who returned from Odessa Friday where he had visited Paul Cole, former Lobo star tackle, who was critically injured in a highway accident, said that young Cole will recover.

One of Paul's ribs, several of which were broken in the accident, punctured a lung and for a time his recovery was despaired of.

"He has a marvelous constitution," said Mr. Elliott.

Harrassed Husband Kills Baby and Self

DALLAS, April 25.—P. J. Cook, 25, harassed by a divorce suit, filed by his young wife and by loss of his job, went to the home of his estranged wife late today, poisoned their 18-month-old son and then drank a fatal portion of the liquid himself. Both died in a few minutes.

Mrs. Cook returned home from town to find her husband who she had not seen since April 4 sitting on the porch.

"I'm going to kill the baby and myself," he told her.

Mrs. Cook ran screaming to the home of a neighbor and called police. When she returned her husband was staggering from the house.

"I've done it," he told her. He fell dead.

The woman ran inside the house to find her baby dead.

Cook formerly lived at Marshall. He was a brakeman for the Texas and Pacific railway but had been unemployed for some time. His wife was reported to have filed suit for divorce at Marshall recently. The couple separated last November, and the child had been living with its mother.

NEW YORK MEDICS FAVOR BIRTH CONTROL.

This is a fast moving age. Just the other day the house of commons of Great Britain passed a measure repealing all the blue laws which had been on the statute books since 1725. This in the face of the protest of important clericals and religious bodies in England and North Ireland and Scotland and Wales. Many of these laws had been obsolete for years but the church organizations demanded that the breath of life should be blown into the statutes and that they should function from this time on. Party lines were obliterated. Prime Min. MacDonald of the labor government and former Prime Min. Chamberlain of the Tory government were found on the side of the repealers. Many Scotch and Welsh laborites voted against their chieftains. Many Tories followed the leadership of Chamberlain.

On this side of the ocean the Texas legislature passed a local option movie measure. "De Sun Do Move," Brother Jasper.

Now the New York Academy of Medicine, after months of consideration, has passed resolutions asking a change in federal and state laws to exempt physicians from "existing prohibitions in statutes" concerning birth control information. Indeed, the Academy described as medieval the failure of physicians to educate the public in sex matters. It said efforts should be made to change their attitude. It also recommended the teaching of contraceptive methods in medical colleges and hospital clinics and the organization of birth control clinics in hospitals and dispensaries wherever needed.

PUSHING THE TRINITY CANALIZATION BILL.

Backers of the Trinity river conservation and reclamation district in Dallas and Tarrant counties moved a step forward Wednesday when the house passed a bill for the creation of the district by a vote of 78 to 44. Now it goes to the senate. As passed, the bill would not become effective until 90 days after adjournment of the legislature. Representative Harry Graves of Georgetown, Williamson county, characterized the project as "monstrous" and said "it should have its head cut off and thrown out the window."

Representative Graves is reminded that the people concerned the most, the property owners of Tarrant and Dallas counties, are to foot the bills. Representative Graves is a Thomas Jefferson democrat. His slogan has ever been, "Let the people rule." An amendment should be added to the slogan, "Let the people rule—if they are willing to pay the price."

CHICAGO WILL BID FOR MAJOR CONVENTION.

Chicago is the most ambitious of all American cities. Now that "Big Bill" Thompson has been put away, politically speaking, the Chicago Association of Commerce is speeding plans for an attempt to bring one or both of the 1932 national party conventions to the Windy City. They believe they are nearly sure to capture the democratic convention while the opportunity to win the republican convention has been greatly enhanced by the overthrow of Thompson and his white and black legionnaires.

San Francisco has a chamber of commerce and many multi-millionaires who are willing to foot the bills. They are going to make a bid for the two big conventions. Herbert Hoover is a Californian. California gained eight congressmen and eight electoral votes in 1910 years. California has been a very reelected republican state since the grape growers changed from wet to dry. They were democrats in the old days. After prohibition came in wine grapes jumped in price from \$12 to \$75 per ton. Manufacture of grape concentrates did it. Then the wine growers who were democrats became republicans and prohibitionists. In point of hospitality to visitors, San Francisco leads all American cities. If there are doubting ones they are invited to get in touch with the delegates who attended the national convention of the democrats in the Golden Gate city in 1920. Nothing like it had ever happened before in the history of political conventions.

BUILDING PERMITS TELL THE STORY.

Building permits are said to tell the story of business activities the country over. Now the labor department at Washington makes the important announcement that building permits issued during March increased 50 per cent over February and that new non-residential buildings authorized jumped approximately 75 per cent. This was a tabulation of reports from 347 cities throughout the country. Is prosperity on the way?

OTHER OPINIONS

THE 'I. Q.' TEST FAILS

It isn't any secret that we live in a changing world. We are rather well accustomed to the collapse of old standards, and we have learned how to adapt ourselves to the disappearance of the pet theories of our grandfathers. But when one of our new scientific formulas show signs of cracking, we are apt to feel rather badly puzzled.

For a good many years the "I. Q." test has been an article of faith in the modern credo. This test, you know, is supposed to grade a person's intellectual capacity as precisely as a fruit packer grades to many changes. Psychologists and their converts swear by it. It has been used on school children, soldiers, industrial workers, criminals and other people who can't defend themselves from the onslaught of the faddists, and its proponents have neatly classified thousands of human beings as "brilliant," "normal" or "below par" and

LADIES' NIGHT!

have slept soundly in the serene belief that the last word had been said. But the "I. Q." doesn't always seem to work out right. R. G. Jones, superintendent of schools in Cleveland, points to an experience in a certain Cleveland high school recently. An "I. Q." test was given there not long ago. One boy got a high mark of 145, which meant that he was very brilliant. Another got a low of 70 which means that he was right down on the edge of feeble-mindedness. Then the pupils were given an examination in geometry. The exceptionally brilliant pupil and the utterly dumbbell both got the same mark — 75, a passing grade. Nor is that all. Two students whose "I. Q." ratings were less than 100 — and any psychologist will tell you that means they aren't over-bright — got grades of 90 in the examination. None of the four highest "I. Q." pupils got a better grade than 80; one of them wound up with a 65. The two lowest grades given in the examination were received by pupils with intelligence ratings of 105 and 107, respectively. The average grade for the 10 dullest pupils — based on their "I. Q." ratings — was 82; the average for the 10 brightest, based on the same ratings, was 76. All of this seems to indicate pretty conclusively that the "I. Q." test doesn't even come close to being as accurate a gauge of a person's intelligence as it is supposed to. And perhaps it is about time that we stopped paying very much attention to it. — Waco News-Tribune.

refuse to swallow another large dose of Hoover-republican prosperity. It is very early in the game for the selection of a standard bearer or the drafting of platform planks for 1932. A lot of political grist will go through the mill in the coming 12 months. Democrats who have been prominent in national as well as state councils continue to fill in and out of the state capital National Com. Jed Adams is here. Col. Adams is a regular but he is a harmonizer. He would not make prohibition or anti-prohibition the test of the democracy of an American voter who professes allegiance to the party of the Out. He is for a united party next year, a platform that will deal with economic problems and perhaps the rights of the state, a solid front to the hereditary enemy of democracy and in this platform he forecasts a victory for the democrats and the progressives of the north and the middle-west and the northwest who have grown weary of conditions which have existed since the departure of Wilson from the white house in 1921. Col. Adams is not at Austin on a political mission. He is a lawyer and the lawyers of Texas are very busy nowadays. Walter Collins of Hillsboro, Hill county, was very busy in state and national councils when Cesar B. Colquhoun was governor. He served as state chairman a term or two. He is a regular. He is a lawyer. He is for a united democracy. He would like to see the wets and the drys, including the left-wingers and the right-wingers, under one big political circus tent in 1932. He would bury the past and go out for control of the government which includes thousands of fat plums for the victors. Snyder Carlton of Houston and Dallas is at the capital. He was one of the backers of William P. Hobby for the office of governor. He was for years a liberal contributor to democratic campaign chests. He served as state chairman and he was ambitious to be a member of the national committee. He has not been active in politics since the passing of Hobby. He is for democratic harmony and peace and plenty should his party win in the nation in 1932. A. C. Stuart of Texasarkana is another fighter in and out. He never pees as a leader. He never cared for office holding. He has been

in the telephone world as a fixture for many years. He is a stalwart democrat. He is another of the sons of Jefferson who is ready for harmony all along the line, and not bitterly hostile to the Jacksonian slogan: "To the victors belong the spoils." Ever active in political affairs he is more of a business man than a politician; but he loves the game as a side issue. He hails from the home of Sen. Morris Sheppard, and Sheppard, the staunchness of pro leaders, is a regular who never deserts the reservation.

Cisco Red Sox Meet Undeclared Team Here at 3:30 P. M.

DUBLIN NINE IS COMING TO LOCAL PARK

The Cisco Red Sox, undecleared for this season will endeavor to win their state clean today when they meet another undecleared team. They will play the Dublin team in the afternoon at 3:30 p. m. at the local park. The Dublin team is one of the best in the state. Dublin has defeated most of the towns in their neighborhood and wish to add Cisco to their collection.

The manager of the Red Sox is Charlie Bryan on the mound. Bryan has not twirled since he left the House of David team in 1928 for eleven innings and but for a very tough luck would have been credited with a win over this team which has not lost a game in the state. Some of the best pitchers in the state have also made some very notable showings against some of the Texas League ball clubs. An effort is being made to bring the Dublin boys back for a return engagement.

Prox Anderson writing in the State Reporter has the following to say: "Members of the House of David team which visited Abilene last week told Manager T. J. Bailey the Aces that they encountered the toughest brand of pitching and opposition in general here that they had run up against anywhere this season except in their games with professional units. The whiskered ace however struck a harder ball at Cisco the following evening. The game in Lobtown was called at eleven and ending with the count 5 to 3."

The Red Sox have one of the best pitcher teams in this section of the state and are fast becoming a draw card in their weekly games. They have been matched with some of the best teams in this section of the state and Manager Perry is endeavoring to give the Red Sox the best.

The game today will be called at 3:30 p. m. at the local park. The Red Sox pitcher will probably be Van Horn, a champion of Piquen, Okla. Clemm, Thornton, B. Hill, G. Coleman, J. Frye and Bryan p.

CHAP TO LOOK LUBBOCK GRID TIMBER OVER

Coach W. B. Chapman will leave Monday for Lubbock to give the 1931 prospects at Lubbock high school the double-O.

He has not yet seen his next year's candidates and has no idea what he can expect of them. He assured of a large squad—probably 100 to 125 men—but among them will be few lettermen. The lettermen lost practically their entire backfield by graduation this year as well as several of their outstanding linemen.

Coach Henry Frnka, who leaves Lubbock for Greenville high school at the end of the year, will assist Chapman in a spring training. As will McDermott, assistant coach for next year at Lubbock.

When he returns to Cisco Chapman and Coach Hill will put the Red Sox through two weeks of intensive spring training.

There is a possibility that Cisco and Lubbock will play next fall. Coach Chapman said, provided a satisfactory date can be arranged Chapman said that he is not averse to bringing his Lubbock team to Cisco for such an engagement.

SUNDAY SCHOOL LESSON HOW TO PRAY

Text: Luke 18:1-14.

And he spake a parable unto them to this end, that men ought always to pray, and not to faint.

Saying, There was in a city a judge, which feared not God, neither regarded man.

And there was a widow in that city and she came unto him, saying, Avenge me of mine adversary.

And he would not for a while; but afterward he said within himself, Though I fear not God, nor regard man,

Yet because this widow troubleth me, I will avenge her, lest by her continual coming she weary me.

And the Lord said, Hear what the unjust judge saith.

And shall not God avenge his own elect, which cry day and night unto him, though he bear long with them?

I tell you that he will avenge them speedily. Nevertheless when the Son of man cometh, shall he find faith on the earth?

And he spake this parable unto certain which trusted in themselves that they were righteous, and despised others.

Two men went up into the temple to pray; the one a Pharisee, and the other a publican.

The Pharisee stood and prayed thus with himself, God, I thank thee, that I am not as other men are, extortioners, unjust, adulterers, or even as this publican.

I fast twice in the week, I give tithes of all that I possess.

And the publican, standing afar off, would not lift up so much as his eyes unto heaven, but smote upon his breast, saying, God be merciful to me a sinner.

I tell you, this man went down to his house justified rather than the other; for every one that exalteth himself shall be abased; and he that humbleth himself shall be exalted.

The International Uniform Sunday School Lesson for April 26. How to Pray. Luke 18:1-14.

By WM. E. GILROY, D. D., Editor of The Congregationalist.

Jesus has given us many lessons in prayer. Greatest of all I suppose would be the model that has come down to us, the ageless, ever vital, Lord's Prayer, in which all who are conscious of the deepest need voice their aspirations to God and enter into the communion that that great prayer has established.

Jesus has taught us, also, how to pray in his example. It is instructive to remember that at the time when his popularity seemed greatest, and his earthly success assured, he went into the mountain and continued all night in prayer. Prayer was not merely an incident of troubled and anxious times. It was a discipline of life to bring him near to God and to train him in obedience to the Father's will. Therefore, Jesus felt the need of prayer quite as much when multitudes were thronging him with zealous adulation as when the tide of human enthusiasm had turned and he was passing through the tragic experiences of Gethsemane and the lone way to Calvary.

But the full teaching of Jesus concerning prayer is not found either in a model or in an example. Along with these is the full record of the life of Jesus, with the teaching concerning prayer direct or implied that we find in many incidents and utterances.

Here in our lesson in the form of a parable is one of the profound passages in which Jesus leads us with him to explore the depths of prayer and its meaning. First of all is the parable of the importunate widow and the unjust judge—the judge who hears the woman's cause and avenges her against injustice not because he is a just man but because the woman is so importunate in her pleading. It is a strange parable which

seems at first only to confirm one of the greatest and commonest fallacies concerning prayer manifest both in theory and in practice—namely, the fallacy that God hears us for our much pleading, and may that of the man who approaches God with self-assurance and with the confidence that he is worthy of all that the Almighty can bestow. The true spirit of prayer is found rather in the Publican, whom the Pharisee despised, who has only one request to make of God—the request for mercy, that springs from a sense of his own sinfulness and unworthiness.

The record is that the man, who smote upon his breast crying "God be merciful to me a sinner," went down to his house justified rather than the other. Surely that must always be the case. The man who approaches God in humility leaves his soul open to divine influence and blessing, whereas the man who comes in prayer with the consciousness of his own worthiness, thanking God for what he is, and especially that he is not as other men are, inevitably shuts himself off from becoming the man that God would have him to be.

To learn to pray in the spirit of the Publican is not as easy as it seems, but the man who truly learns the lesson has found the secret of the art of life.

Ex-Lobos Leading Point Makers

Former Lobos of Cisco were prominent point makers in the dual track meet between Abilene Christian college and Simmons university held in Abilene Friday. Levi Andrews won high point honors with 16 points winning first in both the hurdle races with seconds in the broad jump and high jump. Brit Pappert blossomed into a sprint star by winning both the 100 and 220 yards dashes, and running a lap on the winning relay team to make 11 1-4 points and place third in the individual scoring. "Goober" Keyes, one of Cisco's football heroes of former days won second in the pole vault despite a lame leg which had not healed since being broken last fall.

6 o'Clock Dinner Honors Congressman and Artists

Mrs. R. Q. Lee entertained Thursday evening with a 6 o'clock dinner at her home honoring Mrs. Alfred Irby and her guests, Congressman Fritz Latham, Madame Helen Potts Cahoon, and Miss Adeline Boyd. Mrs. Secti Key and Mrs. C. U. Connelley of Eastland and Mrs. Edward Lee were also members of the party. Poppies, snapdragons, and ferns artistically arranged made a very beautiful setting for the party. The table was very attractively spread with a lovely madras cloth. A delectable six course dinner was served.

The "Sweetheart" of Sweetwater

There's the old axiom that you can't mix business with pleasure, but that's just exactly the assignment given Miss Orlean Sanger, assistant secretary of the Sweetwater Board of City Development. She has been chosen to represent Sweetwater in the historic pageant to be given at Lubbock during the West Texas Chamber of Commerce convention. Besides that, Miss Sanger is to attend the social affairs of the convention as Sweetwater's official representative.

RENO LAWYERS JUBILANT OVER "DIVORCE WAR"

By EARL H. LEIF
United Press Staff Correspondent
RENO, Nev., April 25.—Reno lawyers are almost jubilant today over Nevada's recent victory in the "divorce war" among the legislatures of several western states for the title of "the divorce capital of America."

They now almost entirely discount the competition of Idaho and Arkansas, although the latter still holds a menace and a threat. The legal lights of Reno are earnestly vying for success to the Arkansas Ministerial association in its attempt to refer to the 90-day divorce law to the voters of that state.

The Reno Chamber of commerce triumphantly displays letters received from two very much discouraged lawyers of Arkansas who want to come to Nevada. On the corner of Hot Springs, Ark., wants to hang out his shingle in Reno and a lawyer in Little Rock wants to come to western Nevada to engage in teaching.

Interest in Nevada's divorce laws was greatly stimulated with passage of the six-weeks divorce bill by the 1931 legislature. The Reno chamber of commerce received 101 inquiries from prospective divorce seekers during March as compared with 21 in January and 17 in February. This is in addition to the hundreds received by the lawyers and bar association on which no tabulation was made.

The chamber's records show that 42 per cent of the inquiries came from the Atlantic seaboard, including New York, New Jersey, Pennsylvania and adjacent states, 18 per cent came from the Pacific coast states, eight per cent from the New England states, four per cent from the intermountain states, four per cent from the southwest-ern states, and two per cent from Canada.

The proximity of Arkansas to New York whence comes nearly half of the divorcees, would prove extremely dangerous to Reno's business.

All in all, the Reno lawyers are well satisfied with the results. Contracts amounting to \$70,000 awarded Watson and Son, Opelika, Ala., and J. J. Shred, Cheyenne, Wyo., for installation of 39 beacons on El Paso-Fort Worth air route.

U. S. HOLDS GOLD RATING
NEW YORK, April 25.—Up to the close of last year, the total value of gold mined in America, totaled \$4,500,000, more than half of which has been recovered since the beginning of the century. You give it a lot of bumps, jolts, jars and grinding. A periodic overhauling will put it back on its energy and efficiency.

MAD MARRIAGE

LAURA LOU BROOKMAN Author of HEART HUNGRY, etc.

BEGIN HERE TODAY

Gypsy McBride, 19-year-old New York typist, marries Jim Wallace the day after she meets him at the home of her wealthy cousin, Ann. Gypsy, who has been jilted by Alan Crosby, just returned from a year and a half in Paris studying art. Wallace's fiancée has broken their engagement to marry a richer man.

Jim and Gypsy go to Forest City where Jim has a thriving law practice. His relatives snub Gypsy. Alan Crosby writes to her but she returns the letter unopened. Marjorie Loring, Jim's former fiancée, marries Brock Phillips, millionaire's son.

Months pass and Brock Phillips is killed in a fall from a horse. Gypsy consults Jim about financial affairs and later tells him her marriage to Phillips was a mistake. She declares she cares only for Jim. Hurt because she believes Jim has taken her for a fool, Gypsy accepts Frank Gibson's invitation to drive her home from a shopping trip. There is a collision and Gypsy's ankle is strained. Jim is attentive during the days while the ankle is healing. Alan Crosby comes to Gypsy and tells her he loves her. Gypsy promises to meet him Monday afternoon. She keeps her appointment.

GO ON WITH THE STORY CHAPTER XIV

Gypsy paused on the threshold of the large room and surveyed the place. She could not have told what she had seen there. The room was decorated in a style that she had never seen before. Perhaps it was Alan's taste in art. The room was used for exhibiting collections of paintings. Gypsy had been there before to see the work of a Mexican artist.

The place had been almost deserted then. Now several couples were studying the pictures, standing close leaning back in the row of chairs down the center of the room.

She saw Alan and her heart seared his beat. His back was toward her. Alan appeared to be absorbed in a canvas. He stood in the center of the room, a slender and well built figure in the gray suit.

"Well, I've come," she said in a low voice.

He turned, smiling. "And I've been waiting since before three."

Two young women who looked though they might be school girls passed in front of them, almost near by.

Crosby glanced down at Gypsy. "Where some place," he asked, here we might have a little privacy."

She nodded. "We'll try to find a place. This won't do."

They left the exhibition room, beside a broad balcony looked over the central office of the firm. At the far end of the balcony there was a bench. Gypsy and Alan walked toward this bench and sat down.

"Now before you begin," Crosby said, trying to keep his voice low, "I want to tell you that the day you left New York—the day you were married, I tried to find you to tell you I was sorry for what had happened. I telephoned and Mrs. Langley told me you'd gone away. I wouldn't say where. It was after I went back there—after I lost my job—that she told me the real truth, Gypsy, whatever made you do that?"

"I ran away from me the way you did. Without even saying why."

"But, Alan, I didn't think you'd be interested. There was your new friend, Mrs. Langley—"

"Are you trying to remind me of a fool I've been? I admitted I didn't love you, Alan. I was the worst of the lot, Gypsy. It was her fault I lost my job. She was the one who told me running around to parties all night was the way to get ahead in New York. I didn't want to go before she told me that."

"I don't want to go before she told me that," Crosby said, looking up at her. "I don't want to go before she told me that."

"But I'm never going to let you go again! Gypsy, if you'll come with me there isn't anything I can't do in the whole world. I'll work hard. I'll make you proud of me. You can't have forgotten the wonderful days we used to have together! You can't say no to me. Your heart won't let you."

"Still she was avoiding his eyes. "You don't understand, Alan," she told him. "You see—it is my heart."

Crosby stared at her. "You mean," he said slowly, "that you're going to marry me? You mean you love me?"

"I don't know," she said, "if you'd love me all this everything would be different. I cared so much for you then! I thought it was love. When you talked to me about Mrs. Langley—I told me how beautiful she was—I was terribly jealous. That night I was with you. I thought I didn't even want to see you. I was miserable—"

her seat. She had hoped to ride home with Jim. If he had gone all ready she ought to be on her way. She paid the check, stepped out on the street and hailed a taxi.

Excitedly she began to plan for the evening. She would put on the printed chiffon dress. Jim had complimented her the first time she wore it. They would have dinner served by candlelight. Afterward when she and Jim were alone together they would sit on the davenport and talk.

Gypsy straightened. It occurred to her suddenly that there was only one way to let Jim know how much she cared for him. She would tell him the truth. She would tell him who Alan really was and that what she had mistaken for love was only infatuation, quickly killed.

When the cab stopped Gypsy gave the driver a bill and, without waiting for change, ran up the walk to the house.

"Mrs. Wallace came in a while ago and went out again," Matilda informed her. "No, he didn't leave any message."

Gypsy was waiting for him, wearing the becoming chiffon frock and smiling, when Jim entered the house. It was after six o'clock.

"You look tired, dear," she told him.

Jim sank into a chair facing her. "Gypsy," he said in an oddly unnatural voice, "I want you to free me."

Yes, This is a Collateral Bank

This is the BANK that SERVICE is Building

We do require ample collateral or a justifying financial statement on practically all loans we make. In the final analysis most of the money we lend belongs to our depositors and we most certainly expect to get it back for them when they come to get it.

If the borrower expects to pay the loan he does not object to giving collateral if he has it. If he does not expect to pay it we are not looking for his kind.

The safety of our depositors money is our first thought and comes first ahead of everything else.

If your bank asks for collateral or a financial statement in making you a loan give it cheerfully. Remember they are entitled to it and that they are only trying to run a safe bank and to protect you as well as other depositors.

ONE FOR ALL-- ALL FOR ONE--

Everywhere people are coming to realize more and more how inter-dependent we are upon each other. The only individual who is self sufficient is a hermit.

The keynote --- the foundation of civilization --- is the family. We all concede that. And we're rapidly coming to realize that our own home town . . . is a home town family --- simply the family unit a little bit extended through neighborly cordiality, friendship and pleasant social intercourse.

Common good will and recognition of our human obligation is a deeper currency than any money system ever invented. But it is also to our advantage on the material side of life --- it rebounds in better practices, living conditions, more generous impulses. It makes Cisco a better place to live. Let's make our home town unit closer knit. Let's be generous with our good will --- realizing that the prosperity of the individual is directly reflected in an added prosperity to our community.
