## SCHEDULE ALSO SET—

### School Trustees Authorize Purchase of New Bus

In keeping with a policy of replacing one bus at least every two years, members of Hico School Board voted Tuesday night at a called meeting to place an order for one new 36-passenger unit. Delivery of the new bus is expected in four to six weeks.

Last year the local system operated six buses, and kept an additional bus in readiness as a spare. Upon acceptance of the new unit, one bus will be sold.

First order of business at the Tuesday meeting was election of a president to replace Charles G. Lightly, who moved to Tyler several weeks ago. E. V. Meador, 7-year member of the board, was elected to the office. Other officers are Bobby Needham, vice president, and Ralph Turner, secretary.

#### Start of School Set.

Board members also authorized the start of the 1964-65 school term on Monday, August 31.

Tentative schedule for the term is as follows:

- August 31, School starts.
- Monday, Sept. 7, Labor Day holiday.
- Nov. 26-27, Thanksgiving holidays.
- Dec. 23-Jan. 4, Christmas holidays.
- Two other holidays are scheduled later in the year, one for Easter and one for the State Teachers Meeting.
- Other information as to bus routes, etc., will be given at a later date.

#### Other Improvements

Three major improvement plans were authorized at the meeting. Foremost of the three is replacing the roof on the gymnasium, work on which will start soon.

The homemaking cottage will undergo improvements, including refinishing floors, laying covering on portions of the floors and some painting.

Third of the projects calls for reconditioning the dressing rooms at the football stadium, and addition of two public rest rooms. The latter might not be completed in time for the start of the football season.

Only one teacher vacancy exists in the local system at present, that of band director. Prospects are being contacted and a replacement for Mr. Mike Morton will be selected between now and start of school if possible. Mr. Morton submitted his resignation at the end of the last school term to concentrate on college studies.

#### TELEPHONE COMPANY OFFICIALS VISIT

Bill Rafferty and Ben Fox of Gulf States Telephone Co. officials, Glen Byrd of Stephenville, district manager, and Ken May, area special representative for Gulf States, were Tuesday morning visitors at the News Review office.

## Travis King Family Going to Viet Nam, Visiting Here Now

(Ed Note: Following is a story about the Travis King family, who recently returned from seven years with the State Department in Guatemala. King is the son of Mr. and Mrs. Cyrus King of Hico. The story is a reprint from the Houston Chronicle, written by Hoyt Purvis.)

The Travis A. King family is vacationing in Houston now, but in six weeks they will be on their way to South Viet Nam, one of the world's hottest trouble spots.

"We'll be there a minimum of two years," says King, a rural advisor with the Department of State's Agency for International Development. "It will be mostly counter-insurgency, and I'm sure we'll be working directly with the Vietnamese people."

King left Guatemala, where he served seven years, on June 26 and went to Washington for State Department orientation sessions before going to Hico and Houston.

#### One Main Purpose

He expects to work in rural areas in Viet Nam, as he did in Guatemala. A former county agent in Texas, says one of the basic purposes of the Viet Nam mission "is to build up some nationalistic feeling."

"We've got to get into the isolated villages and help the people develop a sense of stronger communication between the villages and national government."

His work will be part of the "strategic hamlet" concept, advocated by Defense Secretary Robert S. McNamara. Under this strategy, rural communities would develop self-sufficiency against Viet Cong terrorists and stronger ties with the South Vietnamese government.

The four King children will accompany their parents to Saigon. In Guatemala, James 16, and Damon 11, attended an American school, while M. Cherie 6, and Travis Jr., 4, attended a French-Spanish school.

#### 4-H Club Approved

Working with villagers and against the Communists will not be a new experience to King. The Guatemalan rural population, he says "is definitely anti-Communist."

speaking, one man's thoughts, but a sampling of unsolicited opinions reveals to me that people as a whole want to see the Reunion continued.

What do you think?

## T-Sgt. Richard Linch Retires From Air Force After 20 Years' Service

Williams AFB, Arizona. — With 20 years and four months service in the Air Force behind him, aircraft technician T-Sgt. Richard A. Linch, 40, picked up his discharge papers last week and left for Valley Mills, where he has a retirement job in an electronics repair shop.

Sgt. Linch is the son of Maron Linch of Hico.

The prematurely gray-haired sergeant attended high school in Iredell, his hometown.

Following his enlistment he was sent to an Air Force technical training school to prepare him for his job in aircraft radio repair.

While in service he married the former Bernice E. Warren of Mosheim. Mrs. Linch and Cathie Sue, 9, their daughter, departed Williams AFB a few weeks ago to visit her parents in Mosheim before joining the Sergeant in Valley Mills.

Sergeant Linch served in Japan for three years (1956-59) and has also been on temporary duty in Viet Nam and Korea.

"I have always been in electronics work, even before I entered the service, but I was an amateur at it until the Air Force made me a pro," he said.

Although his new job will keep him busy, he expects to find time for his hobbies—fishing, hunting, and boating.

#### ENJOYS VACATION

Mrs. Opal Cole returned to her duties this week at Howard Drug following a two-week vacation. She visited in the home of her sister, Mrs. J. D. Golden in Snyder, who accompanied her on a tour of Carlsbad Caverns. They also visited in Corsicana in the home of their mother, Mrs. S. L. Brewer.

#### BAND MEETINGS SET JULY 27-28

Two special band meetings have been called by Mike Morton for July 27 and 28 at 5 p.m. at the Band Hall. Mr. Morton urged all band students and former band students to be present. Preparations will get underway for the Reunion Parade to be staged July 29.

CRASH SCENES—Shown at left is the heavy butane truck which overturned and burned near Hico City limits two weeks ago. In the upper photo the blazing truck is barely visible due to the heavy smoke. These are the two pictures which were scheduled for last week's publication, but failed to arrive from Hamilton until Saturday morning. Driver of the truck received severe burns and a crushed shoulder in the accident.

## Surprise Valley Ranch Purchases Austin Santa Gertrudis Herd

The entire herd of purebred Santa Gertrudis cattle owned by the late Dr. Z. T. Scott of Austin has been sold to John R. Penn Jr. of Surprise Valley Ranch.

The transaction was concluded July 20, and involved 95 breeding age females with 45 calves at side, and 20 bulls. Included were four herd bulls, three bred by the King Ranch, originator of the breed, and one from the John Martin herd near Alice.

The Scott herd, Number 96 in the Santa Gertrudis Breeders International herd book, was established by Dr. Scott in 1940. Two years ago Penn purchased the entire herd of some 200 purebred Santa Gertrudis from the estate of the late Matthew Cartwright Jr. at Terrell, another pioneer operation.

Penn is owner of Surprise Valley. The addition of the Scott cattle makes Penn's herd one of the largest Santa Gertrudis purebred breeding establishments in North

Sisters, The Medical Co-Eds, Bertice Barnett Jr., Ronnie Fellers, Junior Fields of Cranfills Gap, and Claud Richards of Clifton.

Friday night the Lone Star Playboys of DeLeon, featuring Ben Maroney of Dublin on the fiddle, will provide entertainment with their western string band.

For the men, Von Scott's 490 series was high. P. W. Hamilton followed with 484, Ray Cheek had 477, Buck Meador 462, and Wayne Rutledge rounded out the top five with 435.

Only three matches were played, with Hico Motor Darts and the Bowl Weevils having games to make up.

The following item was clipped from the Port Clinton, Oregon, Daily News. It concerns parallels between the assassination of two of our presidents. I wonder if you will be amazed when you read it:

1. Both Lincoln and Kennedy were concerned with Civil Rights issues.
2. Lincoln was elected president in 1860 and Kennedy elected in 1960.
3. Both were slain on Friday and in the presence of their wives.
4. Their successors, both named Johnson, were southern Democrats and previously had served in the U.S. Senate.
5. Andrew Johnson was born in 1808, and Lyndon Johnson was born in 1908.
6. John Wilkes Booth, the assassin of Lincoln, was born in 1839 and Lee Harvey Oswald was born in 1939.
7. Both Booth and Oswald were Southerners, both favoring unpopular causes.
8. Both Booth and Oswald were murdered before trials could be arranged.
9. Both presidents lost children through death while living in the White House.
10. Both were shot in the head.
11. Kennedy had a secretary named Lincoln; Lincoln had a secretary named Kennedy.

Skin Divers Drowned In Underground Well

Kenneth Hamilton, 23, son of Rev. and Mrs. S. Ward Hamilton, was drowned Saturday while skin diving in an underground well near San Marcos. Rev. Hamilton is interim pastor of Iredell Baptist Church, and is a brother of P. W. Hamilton Sr. of Hico. They have many friends and acquaintances here.

Funeral services were tentatively scheduled for 2 p.m. Tuesday at Houston, pending the arrival of a brother of the victim, Charles Hamilton, stationed with the army in England. Survivors other than the parents and brother mentioned above is one sister, who lives in California. Mr. and Mrs. P. W. Hamilton accompanied his brother and wife to Houston after learning of the tragedy.

Following is an Associated Press account of the drowning:

Two skin divers were drowned Saturday while exploring deep underground in a huge natural well not far from President Johnson's Central Texas ranch.

Searchers found the bodies more than six hours later in a big water-filled chamber about 100 feet below the surface.

The spring-fed artesian type well is known as Jacob's Well and is known to be 2,300 feet deep. It is about 30 miles southeast of the LBJ Ranch.

The bodies of the victims were brought to the surface shortly before dusk. The pair were identified as Ken Hamilton, 23, and Eddie R. Cantrell, about 22, of Houston.

Col. Richard Harwell, who lives on a farm close by and is one of the owners of Jacob's Well, said the victims began their descent about 11 a.m.

Other divers found their log books left at the surface and a search began at the failure of the pair to surface after a reasonable time. Each carried a tank with about an hour's oxygen supply.

The bodies were discovered by two San Marcos divers, Don Brod and Chuck Laeler. First they spotted a light carried by the victims. After being forced to surface for more oxygen, Brod and Laeler returned to locate the dead men.

Although the well shaft—actually a fault in the earth—is about 8 feet wide on average, rescuers found the entrance to the underground room is only two feet across. It was necessary for Brod and Laeler to take off their tanks.

push these through the aperture, crawl inside and then don the tanks again.

Hayes County Sheriff Jack Gary and state police summoned other divers to help remove the bodies.

The well is at the head of Cypress Creek and flows about six million gallons of water a day. Explorers have found several sharp turns in descending the crooked shaft.

While divers frequently enter the well, experts say only experienced men should make the descent and all should follow a rope secured at the surface. Searchers found no indication the drowned men used a rope.

IT'S THE LAW—

The Lawyer's Role

There was a time when the method of trying lawsuits was so technical and strange to the average layman that the lawyer was considered a behind-the-scenes manipulator.

Now, since the public has come to know more about trial procedure, this erroneous conception largely has been corrected. The attorney is pictured for what he really is—a hard-working fellow who presents a case in a manner designed to fully and legitimately protect his client's interests.

The lawyer's duty starts with his first contact with his client. When advised of the controversy, he usually questions his client thoroughly to determine all of the facts involved. His first duty is to objectively evaluate the facts involved. He immediately advises his client to tell everything. Facts and circumstances which may seem trivial to the client can be of great value to the lawyer in the trial of the cause.

The attorney then fits the law to the facts involved, and determines the theory under which lawsuit or controversy must be approached. It is surprising to the layman to learn that no two cases are alike, and that nearly always it is necessary for a lawyer to "hit the books" to find a case or decision which governs the particular principle involved. This is sometimes a long and arduous task depending, of course, upon the intricacies of the factual and legal situation. Quite frequently the lawyer will find it necessary to take statements of opposing parties or of witnesses to determine what facts they know that will confront him later in the trial. He is permitted to do this under rules at any time before the trial. He also immediately starts planning his strategy, and determining the main points, factual and legal, upon which he will reply.

The next step in nearly every instance is negotiations between the parties which may or may not lead to a settlement. This usually takes considerable time, ingenuity and diplomacy. As a result many cases are settled out of court. If the case is not settled, the attorney then prepares for trial. The case may be won or lost in trial preparation. One of the most important aspects of a trial is the jury. The fate of the lawsuit is determined by 12 persons drawn from different walks of life, of different race, sex, nationality. The lawyer pre-

sents his client's case to the jury through examination of witnesses and the introduction of other evidence. Based on this evidence the jury decides what are the facts of the case and renders its verdict in accordance with their findings.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Teen Topics around town

By CHERYL BAILEY

Excitement is beginning to grow because the Hico Reunion will start very soon. There are also several girls that are beginning to get nervous, for they are going to be in the Miss Reunion contest.

Marilyn and Sharon Baley from Hobbs, New Mexico have been visiting Cheryl and Jeannie Baley. Mike Flowers, try drinking your Cokes instead of throwing them on people.

Kay Tooley seems to be enjoying Mike's car as much as he does. Sharon Howard has decided to play soda jerk at her dad's drug store. I don't think that would be too bad with all that ice cream and other goodies around.

If you see a watermelon seed flying through the air, Ronnie Mayfield must be around somewhere. A few song dedications are the following: Charles Erick, Lonely Boy; Kay Tooley, Loving You; Lynn Redden, Problems; Glenda Ogle, Wishing and Hoping; Dwain Fall, Punish Her; Ed Reed, Handy Man; Frances Lepard, She Loves You; Barbara Casey, For You; Denna Meador, Party Girl; Linda Cronk, That's the Way Boys Are; Alan Royal, Walking With My Angel; Jeannie Baley, More Than I Can Say; Bill Rutledge, No Particular Place to Go; Paula Lane, Baby, It's You; Cherry Ramage, I'm Sorry; Donnie Elliott, I Wanna Go Home; Dennis Tressler, Promises; Frankie Phillips, Romeo and Juliet.

Well that's it for another week. Mr. and Mrs. J. E. McArdle and Mrs. Annie Orand of Houston were visitors last week in the home of their daughter and sister, Mr. and Mrs. A. H. Lackey.

Mrs. W. E. East, cashier-bookkeeper for Community Public Service Co., enjoyed a vacation last week, and she and Ronnie visited relatives in Fort Worth.

### CONSERVATION IN THE HOME . . .

What do you think of when you hear the word conservation? I lot of people think of the soil, others water and many the natural resources such as wildlife, forest and recreational areas.

But conservation can and does apply to many areas. Let's look at some of the areas where conservation applies to family living. When is the last time your family had a complete physical examination? Is this not a step to conserve health? And what about your recreation plan for wholesome family living—is this not a conservation measure to conserve a harmonious family unit?

What has your family done to use and conserve the resources of time and energy? And how does your family plan for spending its income? Do you have a conservation plan in order to make ends meet?

And you have methods for conservation of clothing for your family; laundry, cleaning, renovation and storage. Are you getting the most for your clothing dollar because of conservation practices?

How does your family provide (select, purchase, produce, prepare, preserve, and store) foods to meet the nutritional needs of your family members? Do you have a food conservation plan?

Think about what you have done to conserve your house, and keep it up to date (repair, remodeling and upkeep). Have you changed your house and furnishings to conserve labor in housekeeping?

As family members we have a responsibility to leadership and community life. What community improvements have you helped with such as: improvements in schools, churches, health facilities, roads, telephones and others? Without your help, can they be conserved for future use?

To achieve these goals in family living, study and work must take place. Conservation in family life doesn't just happen; it is planned and worked for just as it is in conserving our soil, water and natural resources.

By MRS. EUNICE DANIEL

We have had threatening weather the past few days but thus far no showers have developed.

We were sorry to learn of the passing of Mrs. L. D. Pittman of near Dublin who died about 8:15 p.m. Sunday in the Stephenville Hospital. She had been ill since around Jan. 9 when she suffered a cerebral hemorrhage and also suffered a stroke. She was hospitalized at this time for a month or more, but was able to be up and about her home again until about two weeks prior to her death, when she returned to the hospital. Mary Scott Pittman was born on Dec. 26, 1905. She was married to L. D. Pittman and to this marriage two children were born, a son, Wayne Pittman of near Stephenville and Mrs. Wanda Pack also of near Stephenville. Besides her husband and the above she also survived by two grandsons and two granddaughters; a sister, also of near Stephenville. Funeral services were held at the Greens Creek Baptist Church with her pastor, Rev. Tom Bloxam and Rev. Harry Hanes officiating. Burial was in the Erath Garden of Memories. Mrs. Pittman possessed a very sweet personality and to know her was to love her. She was the mother of our grandson-in-law, Wayne Pittman. Our deepest sympathy is extended to the bereaved husband, children and the other relatives at this time of deep sorrow. May God bless and comfort them.

at Houston at 4:45 July 11 after an illness of 18 months. Mrs. Kemp was the former Mildred Hazel Raibourn, and was born April 23, 1918 in Hamilton County, being the daughter of Edgar and Lula McClintock Raibourn. She was a granddaughter of the late Mr. and Mrs. C. L. McClintock of Hamilton who resided for a number of years in the Age community. Funeral services for Mrs. Kemp were held at Hamilton Monday, July 13 at 10 a.m. with Rev. George Dixon and Rev. Ray Burchette Jr. officiating. Burial was in the New IOOF Cemetery. She is survived by her husband; one son, Tommy of Fort Hood; and two daughters, Sharon and Deborah of the home. Also surviving are her parents, Mr. and Mrs. Edgar Raibourn; 3 sisters, Mrs. Edna Riley of Bangs, Mrs. Charlie Dee Draper of McGregor and Mrs. Vada West of Waco; three brothers, Charnie, A. D. and Clyde Raibourn all of Hamilton. Our deepest sympathy is extended to the bereaved family and other relatives.

We were also sorry to learn of the death of Frank (Jack) Joiner of Fort Worth. He resided in this community during his boyhood days. Our sympathy is extended to his wife, the former Bell Crow and a schoolmate of the writer, and other relatives who mourn his passing.

### Industrial Development

Texas Industrial Commission 1: boasting in the July issue of Texas Parade Magazine that 27 new plants were announced in Texas in May. Map used to illustrate the new industry points out quite prominently the fact that while the Dallas-Fort Worth area gained 12 of these new plants, seven were located in Panhandle towns and six others were in other small towns.

Commission announced that Patrick J. Ryan of the Lamesa Chamber of Commerce and Sylvan R. Lange of Greater Marshall Industries have been approved for the first year class at the Industrial Development Institute in Norman, Okla.

### Veterans' Commission

State Auditor C. H. Caviness reports that the Veterans' Affairs Commission helped Texas veterans and their dependents and survivors obtain \$93,591,000 in benefits during the year which ended August 31, 1963.

Mr. and Mrs. Ray Turner and Keith of Killen spent the weekend with their parents, Mr. and Mrs. Willie Turner and Bernice and Mr. and Mrs. Carl Ray Sellers, Jimmie and Janice.

Mrs. Thelma Zeikie and her daughter and two children, and Mrs. Zeikie's sister, Mrs. Willie Pittman of Stephenville were visitors at the Fairy Cemetery Monday.

Jerry Richardson has most of the cemetery mowed, but despite this dry weather a few weeds and some grass is showing up again on lots, which we will have worked as soon as the need arises. Let us again stress the need of work on a few un-supported lots. Grass-turfs and Johnson grass are seedling on these lots. If hoed and burned before the seed shatters it will save much work in the future. We will work all average size lots for \$1 or \$2 for double and triple family lots. We would appreciate your cooperation in either working them or sending in the money to have them worked.

All who have relatives buried in Fairy Cemetery who were Civil War Veterans, and who want a government marker for their graves, and can produce their record of service, please contact the

writer. Mr. Lusk Randalls of Hico was asked to help secure the names and records, and has asked me to help with those at the Fairy Cemetery.

Mr. and Mrs. W. E. Goyné and their daughter, Mrs. Ben D. Dowdy of Fort Worth returned a few days ago from a trip to several West Texas cities. They visited Mrs. Catherine Osborn in Pampa, Mr. and Mrs. Furman Goyné in Amarillo, the Frank Lisemby in Lubbock, the Robert Roy family in Colorado City, and Mrs. Rillie Luckie in Weatherford. In Canyon they visited West Texas Museum which is on the campus of

West Texas University, and a few families from town they saw the famous Palo Duro Canyon. The last night they spent with their daughter, Mrs. Wilma Grace McDowell of Fort Worth. Little Derek Dowdy accompanied his grandparents home to Fairy for a few days while his home was being remodeled. His parents came for him Friday and took him home after a happy little visit.

It happens in the best of families! Mom or Dad, quite without thinking, tosses aside a bit of trash. And here's how that one litter bit—like every litter bit—hurts! The street or sidewalk takes on a trashy look that gets worse and worse as bit after bit adds to the litter mess. The youngster sees the oldster and follows suit. How can a child know you

didn't mean to? How can you expect your children to be good citizens if you don't set the example? ■ So, Mom—lead the way to the litter basket. Carry a litterbag in your car and use it. When you picnic far from a litter basket, please carry trash out with you. Make it a family project to Keep America Beautiful!

**THIS WEEK IN AUSTIN—**

**Highlights and Sidelights**

By VERN SANFORD  
Texas Press Association

A costly plan for "catching up" with other states in the field of higher education has been outlined by Texans by the Governor's Committee on Education Beyond the High School.

It will take considerable money to accomplish just one of the major tests of excellence in education—bringing Texas faculty salaries up to the national average. More is needed for libraries and research facilities.

To help achieve goals in those three fields, the committee recommended that further college construction be delayed. By using present classrooms and laboratories more hours of a day and more days a year, this saving can be accomplished, the committee felt.

Gov. John Connally conceded that it will take new taxes to finance the program which he has termed his No. 1 interest. Neither he nor the committee recommended a financing plan. Committee did say the Legislature should double college tuition, so students and their parents would share more of the cost of education.

Plan calls for expansion of the junior college system, and wide use of vocational training to prepare students for skilled and semi-

skilled technical jobs in industry. Coordination, to eliminate duplication between state colleges, would be placed in the hands of an 18-member board appointed by the governor. Board would take over duties of the present junior college division of the Texas Education Agency and the Commission on Higher Education. This would put junior and senior college and university supervision in a single group.

Goal would be to make junior college training available to all, and to raise its level of excellence so all junior college credits would be immediately transferable to senior colleges.

Committee, headed by H. B. Zachary, San Antonio construction executive, is taking its case to the public in a series of meetings with business leaders in their communities.

**Cut Again**

Another 28,602 barrel cut in daily oil allowances was ordered by the Texas Railroad Commission as it held August production to 26.5 per cent of the capability of the wells. Two large purchasers complained they are over-supplied with oil and unable to sell it.

**Making Way for 1990**

A large number of Texas cities with populations of less than 50,000 are planning now for the year 1990 by developing a blueprint for progress under a Federal-local program being administered by the State Health Department.

Under this program, a city can obtain studies of current facilities and projections of future needs in every area from economic and sociological needs to budgeting for capital improvements. The Housing and Home Finance agency makes grants for the master plans and the city pays one-third the

cost, while the Federal agency pays two-thirds.

A typical town under study is the West Texas city of Winters, which has a population of 3,200 and will spend \$4,845 toward a \$13,365 master plan.

So far, 109 cities have enrolled in the planning project to see where they can go and how they can get there over the next 25 years.

**Animal Health Head Change Due**

Texas Animal Health Commission will decide on July 27 on a new commission director to replace Dr. R. G. Garrett of Taylor who plans to resign.

Decision will be made at a meeting to be hosted by Chairman Ed Knolle of Sandia at his Knolle Jersey Farm in Jim Wells County. Knolle said there have been several "well-qualified" applicants for the post, but declined to list them. However, it has been rumored that a staff veterinarian with the commission, Dr. S. E. Walker, will be favored.

**Attorney General Rulings**

Atty. Gen. Waggoner Carr ruled that a county election board must furnish voting booths for all polling places within each city of 10,000 or more inhabitants.

Carr also ruled that a county clerk does not have authority to charge the fee for releasing of a chattel mortgage or lien on personal property at the time such mortgage is filed.

**Farm Safety Week In Spotlight Through Saturday, July 25th**

Austin, July 22—The Texas Safety Association this week urged all urban residents to join farmers and ranchers throughout the state in observing National Farm Safety Week, July 19-25.

Theme for the observance is "Safer American Families Everywhere."

"You can be a part of National Farm Safety Week by putting safety first—at home, at work and at play," J. O. Musick, TSA General Manager, said.

The safety director reported the primary concentration of the 1964 Farm Safety Campaign will be on safety with farm chemicals, farm tractors and home poisoning.

He suggested urban residents as well as rural residents give their homes a safety check-up for poisonous products and dangerous mechanical equipment.

"Keep pesticides only in their original containers and tightly closed. Never put them in unlabeled gallon jugs, pop bottles, buckets, cups, paper bags or other common food containers," Musick said.

"Also, make sure all mechanical equipment in your home is in proper working order and that electrical circuits are not being overloaded."

**A NEWSPAPER WAS A RARITY IN MANY AMERICAN COMMUNITIES!**

Then—a newspaper was a thing to be marveled at —for memories of the Press' fight for freedom were fresh in mind. Although newspapers are common in our country today, their existence should not be taken for granted. It is a wonderful fact that almost all of our modern communities have their own hometown newspapers, freely edited by members of their own communities—spreading the news, stimulating the business of the community, and keeping their readers informed of important events elsewhere. It is well to keep in mind that a free press and a free people are an unbeatable team.
