Funeral Services Conducted Saturday for S. E. Jake Blair

Funeral services for one of Hico's first prominent businessmen, S. E. (Jake) Blair, were conducted last Saturday afternoon at 4 o'clock in First Methodist Church. Rev. Hubert Taylor, pastor, officiated. Mr. Blair passed away at 6:10 a.m. Friday, September 15, in Stephenville Hospital where he had been a patient three days.

He was born April 5, 1892 at Duffau, and was the son of the late S. E. and Betty Elizabeth Lindsey Blair.

Jake began his business career between Duffau and Chalk Mountain at the age of 15, with a capital stock of fifteen cents. On July 22, 1914, he was married to Abbe W. Burks, and to this union, three children were born, S. E. Jr., Morris and Louise. Morris died at the age of 16, and S. E. Jr. lost his life in an automobile accident in 1954. Mrs. Blair passed away in August, 1956.

The Blairs moved to Hico in 1915 and for the next nine years Jake operated the first exclusive automobile accessory store in Hico. In 1924 he entered the Chevrolet business, operating for the next ten years with "Kash is King" as his slogan.

In the early 1930's, flying caught Jake's interest and he built Hico's first airport, Blair Field. He owned the first airplane and made the first solo flight off the new field.

Through the years he was duly proud of his "First in Hico" accomplishments. He operated the first independent wholesale oil and gas company in Hico; he put in the first modern cafe; operated the first bonded warehouse here; and also erected the first neon sign in Hico.

In the late 1930's, Blair entered the tin and plumbing business, and

a few years later branched out into hardware and electrical merchandise. He was joined in this business the early part of 1946 by his son and daughter, S. E. Jr. and Louise, operating as a partnership. After 42 years in business, Mr. Blair sold his interest in the store to his daughter in August, 1957, and retired, but he had remained active in assisting his daughter at the store until his death.

Mr. Blair is survived by his daughter, Louise Blair of Hico; two sisters, Mrs. Inez Reed of Hico and Mrs. Gertrude Morris of Matador; and two granddaughters, Ellen and Catherine Blair of Waco.

Serving as pallbearers were W. C. Howard, Tyrus King, O. L. Davis, Paul Neel, Harold Walker and Jim Jameson.

Burial was in Hico Cemetery.

3-Day Beef Cattle Short Course Slated at Hamilton

A three-day Beef Cattle Short Course is slated September 25, 26 and 27 in the District Courtroom at Hamilton, with the program beginning at 8 p.m. each evening.

The short course is sponsored by the Hamilton County Livestock Committee, and Agricultural Extension Service, and will be directed toward local beef cattle problems. The Livestock Committee, composed of Frank Courtney, Bill Manning, Bill Stearman, Paul Gromatzky, Ed Perkins, E. D. Dittrich, A. M. Abernathy and Hubert Viertel, discussed the local problems at length and decided upon the material to be covered. The programs will be of interest and use to all producers whether small, large, commercial or registered operators.

The committee's goal, to which this short course is aimed, is to increase income from livestock production. The beef cattle income alone totals approximately \$2,100,000 annually in the county, and is by far the largest income producer in the county. Even though this figure seems quite respectable, it can be raised significantly with improved practices.

There will be a different specialist presenting the program each night of the course. James Denton, Area Farm Management Specialist will be speaker the 25th; Uel

Hico to Godley Friday Night

Hico hits the road Friday night for the first time this year, going to Godley for an 8 p.m. encounter with a good Wildcat team.

The two schools traditionally play one of the better games of the year and this game should be no exception.

Hico and Godley have met the past five years, and this game could be the rubber match. Right now, Hico has two wins in the series, Godley two, and the teams have played one tie. In 1962 the Tigers downed the Wildcats 26-0, won a thriller 24-22 in 1963, played to a 14-14 tie in 1964, before Godley started a two-game winning

streak. The Wildcats prevailed 13-6 in 1965, and 21-13 last year.

Godley is reported to have another strong team this year, and have been tabbed favorites in the game. However, the Tigers are expected to make a contest and fans will probably see another good game.

Hico has an open date next week and will meet Lometa here on Oct. 6.

Tigers Drop Stephenville B Team 12-0

Hico's Tigers broke into the win column for the first time this year with a 12-0 victory over the Stephenville B team in a game played here last Saturday night.

The Tigers scored on their first possession of the night, and then hung on for the win.

Howard Strader started the attack when he romped 61 yards on the first play from scrimmage, and then followed with a 25-yard scamper on the very next possession.

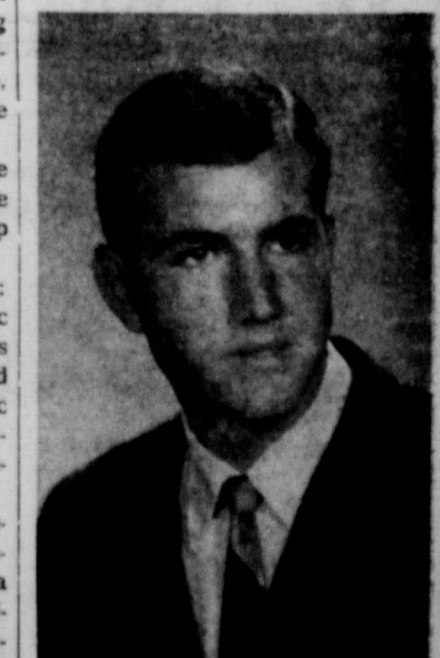

The Tigers missed markers on two other occasions in the first quarter, once being halted at the Stephenville 13, and another time at the 14 yard line.

No serious threats were made in the second period by either team, with Stephenville getting nearest to the goal at the Tiger 29.

The remainder of the game was played pretty much to a stalemate with both teams threatening, but neither able to move consistently enough to get on the scoreboard.

'68s Top Secrets are here 1968 Chevrolets

The 1968 Chevrolets are the very essence of modern design. Every line, every curve is in close harmony. It's a smooth, uncluttered look with roof lines compatible with body lines, grilles and bumpers that blend gracefully into long, rounded fenders. Clean, flowing, beautiful in their simplicity, these '68 Chevrolets are rich and advanced in styling beyond any you've ever seen.

A MORE SILENT RIDE
And for 1968, we've gone to every length to give you more peace and quiet inside. The most sophisticated computers have been used to strategically place body mounts and successfully isolate noise and vibration. Shock absorbers have been improved. The wheel stance on many models is wider for greater smoothness. Exhaust systems have been redesigned to make them whisper-quiet. Even the clocks tick more softly. A sound car is a silent car. The '68 Chevrolets are the most silent, highest quality cars we've ever built.

BETTER PERFORMANCE
There are new engines, a bigger standard Six and V8. There's a new 250-hp V8 you can order that runs on regular fuel. Many new engine components increase dependability and keep your new Chevrolet running stronger. There's a new rear axle ratio you can add for greater economy. On most engines equipped with automatic transmissions, there's a special heater for the carburetor which gives you more efficient performance in cold weather. And with every engine, you get the new GM exhaust emission control.

UNIQUE ASTRO VENTILATION
There's a whole new idea in ventilation, called Astro Ventilation, for Camaro, Corvette and the elegant Caprice Coupe. It's also available on many other models. By opening two new vent-ports on the instrument panel, you bring in outside air that can be directed where you want it. This way, you can leave your windows rolled up and add still more to your peace and quiet.

PROVED SAFETY FEATURES
You get the proved GM-developed energy absorbing steering column, folding front seat back latches, dual master cylinder brake system with warning light, plus many more new features. Among them: energy absorbing front seat backs, and safety armrests that shield the door handles.

MUCH MORE THAT'S NEW
There are new roof lines, some formal and graceful, others sporty and quick. There are new instrument panels, richly designed and all controls within easy reach. There are new interiors, new vinyls, new fabrics, new colors. There are models with Hide-A-Way windshield wipers and headlights that disappear behind grilles. There are new side marker lamps, new recessed taillights. There's even a new ignition alarm buzzer that reminds you not to walk away and leave your keys in the car.

These are the newest, the most different, the most dramatically changed Chevrolets ever. And they're at your Chevrolet dealer's now. You'll thoroughly enjoy slipping behind the wheel, experiencing the smooth new handling and library-quiet ride and, more than anything, seeing and feeling the even greater quality built into every new Chevrolet for 1968.

Be smart! Be sure! Buy now at your Chevrolet dealer's.

There's more quality and value built into Chevrolets than ever before, making every new 1968 model an even better buy!

HICO, TEXAS

WASHINGTON—

As It Looks From Here

By OMAR BUKLESON, M.C.
17th District, Texas

Washington, D.C.—Recently, the House of Representatives passed the Civil Rights Act of 1967.

It seems now that any session of Congress is not complete unless something under the guise of "Civil Rights" is enacted into law.

As has been said many times in this space, there must be very few people who would not be willing to give everyone his "rights," regardless of color, creed, religion, or any other circumstance. The sad part of it is that so-called "rights" are so often confused with some special privilege. There is no such thing as conferring by law special privilege on any citizen or any group of citizens.

As a matter of fact, if the law simply said "Anybody can do anything they want as long as they don't hurt anybody else," it would just about cover our inalienable rights. The truth of the matter is that these gestures towards Civil Rights amount to a political football. With some, there seems a strange desire to impose a will upon society and reconstruct false relationship which causes them to actually despise the greatest of all instruments of justice—the Constitution of the United States.

The bill passed by the House not only concerns itself with the selection of juries in Federal Courts but also the selection of juries in State Courts. Proponents contend that the problem and prerogatives of the Congress are the same in both instances.

Fundamentally, they are completely different. Congress does not have the power to regulate and prescribe regulations for the selection of juries in State Courts. Selection procedures are laid down by the States. If objectivity is not completely lost, the only power Congress has in this instance is the negative power granted by the 14th Amendment to the Constitution. The Federal Code already provides a fine of \$5,000 for any State official who disqualifies a juror on grounds of race, color, or previous condition of servitude. This negative prohibition is plainly the extent of action which Congress can legally take, but now it goes further.

The action of the legislation approved this past week amends the Equal Employment Opportunities Act to take away the right of a court trial for employers charged under the Act. Instead of having the employers guilt or innocence adjudged in the Federal Courts of his locality, under the legislation the case would be decided within the bureaucratic maze of a Federal Commission. It is difficult to understand how those who profess to be worried about justice in the jury systems of our courts could turn around and attempt to deprive the courts of the opportunity to act

Too Late To Classify—

HUNTING by permission on Hedges farms. 22-2tp.

and, hence, deprive citizens of his "day in court."

Title III of the Civil Rights Act of 1967 would empower the Equal Opportunity Commission to issue cease and desist orders and other decrees. Henceforth, the bureaucrats would bring charges (acting in the role of prosecutor) find of fact, (the role of juror) and issue and enforce their orders as would a judge of duly constituted Court of Law. For instance, the Federal Commission, under the new powers granted it in this legislation, would be enabled to demand the reinstatement of former employees with back pay, and govern the hiring of new employees.

Incidentally, the new legislation also provides for the "open housing" provision which, in effect, deprives the individual of his right under our Constitutional processes to hold, use and enjoy his own property.

The clincher in the bill passed recently, with the erroneous title of the Civil Rights Act of 1967, contains a special criminal provision against any person who "interferes" with other individuals who claim to be engaged in certain Civil Rights activities. This provision carves out a special group of people, not by who they are, but by the type of action in which they claim to be engaged, for special protection of Federal Law. This is assumed to mean the protection of those lawfully and peacefully engaged in demonstrations or meetings of any kind, but will also further tie the hands of legal authority to control disturbances.

The vote: 326 for, 93 against, 14 not voting, 2 vacancies.

Of 237 Democrats voting, 168 voted for. Of 182 Republicans voting, 158 voted for.

Based on the total number of Democrats and Republicans in the House, the percentage of Democrats voting for the bill was 68 percent and that of the Republicans 85 percent.

NEW FREEDOM SHARES

What are they? Who may buy them?

Americans have put their savings to work for freedom through U.S. Savings Bonds for many years. New Freedom Shares do the same job . . . plus. Read how.

Freedom Shares are U.S. Savings Notes. They pay a higher return than Savings Bonds, 4.74% when held to maturity. And they mature in just four-and-a-half years.

For regular Bond buyers only

These new Freedom Shares—which are not redeemable for the first year—are offered on a one-for-one basis with E Bonds, but only to people who belong to the Payroll Savings Plan where they work or the Bond-a-Month Plan where they bank.

There are four denominations of Freedom Shares, each of which may be paired with a Series E Bond of the same or larger denomination, as "package." For instance, for

\$39 total, you can purchase a Savings Bond that matures at \$25 and a Freedom Share that matures at \$25.

America needs your help

When you buy Savings Bonds and Freedom Shares you do an important job for freedom, backing our men in Vietnam and helping to keep the country economically strong. The need is urgent. What you do counts.

Sign up

Tell your supervisor or the Payroll Department where you work (or any officer where you bank) that you'd like to join a Bond purchase plan. Decide how much you'll save . . . whether you want Freedom Shares as well as Bonds . . . and

just sign the authorization card.

You'll be helping your country as you help yourself; the country needs your help.

HICO, TEXAS

Fairy Community News

By MRS. EUNICE DANIEL

Friends and acquaintances here of Mr. Ben Wright of Hico were sorry to learn of his passing Saturday night, yet we know he is now at rest and free from pain which he had suffered for several years. The Wright family resided at Fairy for a number of years and were very close friends of our family. Their farm home here is now owned by the Winifred Gardner family. They also resided in Fairy for several years where Mr. Wright operated the present Grady Hooper station. Mr. Wright was a man of many friends. In his business dealings with his fellowman he was always friendly and courteous, as well as to visitors in his home. In our many visits to the home since he had been in the hospital and nursing home, we always missed his smiling face and greeting of welcome. He will be greatly missed, but to his dear companion and family we would say: Think of him yonder in the great Beyond; Free from all sorrow and pain; Where he will awaken as at break of dawn; And they will meet him again.

Our sincere sympathy is extended to the family at this time of deep sorrow.

Those from here attending the funeral service were Mr. and Mrs. E. M. Hoover, Mrs. Charles Price, Mr. and Mrs. Walter Abel and Bill, Mrs. W. E. Cunningham, H. O. Richardson, and the writer.

We received 1.2 inches of rain during the weekend. Although this amount will help, we need more. Some stock tanks are low and in some parts are dry.

Visitors in the W. E. Goynes home during the weekend were their daughter and husband, Mr. and Mrs. Gene Overton, Michael and

Patty, and Robert McDowell, Mr. A. J. Crouch and son, Billy Wayne of DeSota.

We were sorry to learn that Vernon Jackson of Grand Prairie underwent surgery in the Methodist Hospital in Dallas last Friday for removal of a small tumor of the sinus. He is doing fairly well. His room number is 207, and we feel sure he would be glad to hear from friends and relatives who may see this. He is the son of Mr. and Mrs. J. T. Jackson.

Sorry we failed to get a few items of new last week, which were: Rev. and Mrs. Jim Varnes were luncheon guests of Mr. and Mrs. C. A. Bullard on Sunday, and the other was: Mr. and Mrs. W. E. Davis and two sons, and their daughter, Mr. and Mrs. James McDonald of Lubbock were guests during the weekend of Mr. and Mrs. J. H. Davis.

Mr. and Mrs. Milton Reeves and her mother, Mrs. Sid Graves of Fort Worth visited in the J. H. Davis home the past weekend.

Mr. and Mrs. Willie Turner had the following children and families with them during the weekend: Mr. and Mrs. Billy Turner, Kurtis and Rhonda, Mr. and Mrs. Ray Botkin, Tammy and Patsy, Mr. and Mrs. Ray Turner, Keith and Kimberly, and Miss Bernice, all of Killeen.

Mr. and Mrs. Ted Arrant and Mrs. Ruth Cunningham spent Sunday in the home of their children, Mr. and Mrs. Glenn Arrant and family. Mrs. Arrant had prepared a birthday dinner for her father-in-law. Also visiting in the home for the occasion was another of Mrs. Cunningham's daughter, Mr. and Mrs. Walter Prinz and Karol.

Mr. Billy McKenzie of Ft. Worth stopped a few minutes at Mrs. W. E. Cunningham's Tuesday morning. He was enroute to Georgetown on a business trip. He is an old acquaintance of the Cunningham family, and nephew of Lesley New.

Mrs. T. R. Parks has been suffering of a sprained ankle the past week or more, which she received while visiting in Abilene recently. We hope she will soon be much better.

Mrs. Fred Rainwater of Hico called us last Saturday, stating that she had received a letter of inquiry regarding the William S. Bill Miller family, who was thought to have lived in the Fairy or Hico area. We could not remember the family. The W. E. Goynes were home for the weekend and since Mr. Goynes was postmaster here for a number of years, we asked him but he too could not remember the family. The party stated Mrs. Miller's given name was Josie. If anyone reading this should know of the Millers or any of their family, please call or write the Fred Rainwaters at Hico.

Some time back we made inquiry through our news letter regarding some clothing that blew from a pickup truck as the family was returning from a washateria, probably Hico. We still have these articles and would like for the owner to have them. They include a pair of khaki pants, a ladies' blouse and several articles of clothing for small children six to eight. We made inquiry at both Hico laundries but no one had made inquiry of the clothing. Seems someone might have heard of this at the time and may have known the parties. We hope yet to find the owner.

Work was started at the cemetery Monday, although the hands were stopped by showers about 4 o'clock they did get about two-thirds of the lots worked. Since much rain is predicted for the week and the ground was full wet to work, we had hoped to beat the rain and get it worked off again, and since we have one more fair day reported, maybe we'll make it yet.

Some of our telephone lines are out and we were unable to contact some who might have news.

Mr. and Mrs. Jimmie Don Sellers of Grand Prairie and Mr. and Mrs. Ray Turner, Keith and Kimberly of Killeen visited during the weekend with their parents, Mr. and Mrs. Carl Ray Sellers and Janice. Other visitors were her sister, Mr. and Mrs. D. E. Allison of Stephenville, and the writer. The Allisons had visited in Waco with his mother, Mrs. Ed Allison, and the Dellis Seagos.

Mr. and Mrs. Delbert Pack and sons of Stephenville visited Sunday in the home of her mother and brother, Mrs. M. E. Parks and Audie.

Rev. and Mrs. Bob Ray and family were luncheon guests of Mr. and Mrs. T. R. Parks Sunday.

Mr. and Mrs. Albert Mason attended singing at Stephenville Sunday. They reported a large crowd and lots of singers.

Truett New of Fort Worth visited Saturday in the home of his parents, Mr. and Mrs. Lesley New.

Mr. and Mrs. C. A. Bullard and family spent the weekend in Arlington with their son and family, Mr. and Mrs. Don Bullard. Clifford Bullard was also visiting in the home. He has received his discharge from the Navy and will enter college at Arlington.

Birthdates for October which we have are: Janice Sellers, Oct. 7; W. E. Goynes, Oct. 9; Mrs. Wilma Grace Overton, Oct. 12; Steven

Wayne Dowdy, Oct. 13; Carl Ray Sellers, Oct. 15; Mrs. Esther Allison, Oct. 23.

Mrs. Marie Turner and Sam of Carlton were Tuesday morning visitors with Mrs. Eunice Daniel.

Mrs. James Perry of Waco returned home Monday after a few days visit with her parents, Mr.

and Mrs. Oran Willeford and Delia. Delia was ill with a virus and unable to attend school.

The Busy Housewife . . .

YOUR HOMETOWN NEWSPAPER IS A REAL CONVENIENCE!

A wonderful way for a busy young mother to save countless hours is by shopping the ads in her hometown newspaper. By knowing, before she goes to town, which products she wants and where to buy them, she can do an efficient job of marketing. While the housewife spends her time becoming an expert nurse, laundress, cook, playmate, and bookkeeper, the local newspaper is bringing her the shopping news. It tells her about the latest products and services that will help her accomplish her work most efficiently. It tells her where to find the best prices offered on items she needs. It saves her many long hours of "shopping around".

BUILDING A BERMUDA ROOF — A workman cements into place one of the finely-cut slices of Bermuda limestone which compose Bermuda's distinctive roofs. When completed the roof will be whitewashed and fitted with a drain which will funnel rain-water into a storage tank, providing the owner with his supply of fresh water. All Bermuda houses are required, by law, to have a sloping white roof to catch drinking water. This gives the Bermuda landscape a quaint, harmonious charm almost unique. F.N.S.

"Grizzly Hunt"

Not too many years ago, a friend of mine invited me to accompany him on his annual big game hunt. This particular year he had planned to hunt the great Northern grizzly, so I was quite thrilled to have the opportunity to go along. We planned to hunt the area where white man had rarely ever been, which appealed to me immensely.

With all the gear we could even imagine we would need, we reached our destination, and began to inquire about securing the best guide available. Every inquiry gave the name of the same famous old Indian, who had led hunting parties for many years. This old Indian was hired, and he stressed the fact we could not hunt the local grizzlies with conventional methods. He insisted the grizzly bears in this section of the country were so tough that no rifle was sufficient to take them, and we would only be inviting disaster if we attempted to shoot our quarry. This we found hard to believe, but the old man refused to guide our hunt if we held out to use our expensive, high-powered rifles rather than follow his suggestion of snaring our big bear and allowing him to hang himself.

The method of snaring the grizzlies was simple. After scouting about for the most likely place, two heavy posts, with a fork on top, were well set in the ground approximately ten feet apart. Across the top of these posts, resting on the forks, a large log was laid horizontally, with a steel snare attached in a way to force the big bears to stick their head through the noose of the snare to get at the bait. We killed a moose to use for bait, and after two days of hard labor we had our trap ready. The rest was only a matter of waiting and watching, until a trophy grizzly came along to get the bait. If any bears that were too small to suit the hunters came, they were frightened away to leave the snare trap unmolested for bigger game.

It was three days before we were rewarded with the approach of a giant of a grizzly. He spent very little time in succeeding to get himself caught in the strong steel noose. The howl this great bruin set up trembled the whole countryside for miles around. The terrific capers he cut in battling the hateful steel cable about his neck

was a spectacle we shall never forget. He plunged his great weight again and again against the posts; he turned somersaults; he gnawed the cable, the posts, and the log across the top, but he was too strong to be choked by the pressure of the noose. Finally the giant grizzly up-rooted the posts that were set into the firm earth, and taking up the big log in his arms, as though it was no more than a small chunk, he made off toward the top of a high mountain cliff about a mile away. It was amazing how easily this giant of a bear could carry the log that had required

four strong men to get upon the forks of the posts. We were not able to keep pace with the speed of the bear as he hastened toward the cliff. We followed as rapidly as we could, and when we reached the wall of the cliff that rose more than a hundred feet, we saw the old bear throw the log over the edge. The great jerk of the big log pulled the bear off over the cliff too, and when he struck the rocky bottom, he got up, shook himself, and looked about as though he may have been slightly dazed, but he proceeded to again pick up the log that was still fastened about his neck, and climbed back to the top of the cliff. Once on top, he repeated the same tossing of the log over the cliff's 100-foot drop. Again the weight of the log jerked the bear over, and he caught a very hard fall. This process kept up until the big bear had worn, splintered and beaten the log down until it was not much larger than a chunk of firewood, and at last the snare became loosened up around the bear's neck. He discovered his freedom, and with an ear-shattering roar, he left the much despised thing that had belonged to his greatest enemy, and fled the scene of capture. Apparently the big bruin was not too badly damaged in the many falls he had taken off the cliff, for he hurried away, and we were not able to detect anything but some hair scrubs and bruises. These big

grizzlies are truly tough.

We did not get any of those great giants of the grizzly tribe, but we did have some very unusual experiences to tell back at home.
