Hamilton County Agent Bill McCutchen

The pecan crop in Hamilton County is potentially good. I have checked several groves the past two weeks and the crop looks quite encouraging.

A good farmer never counts his crop until it is in the barn. Several hurdles must be overcome to make a good pecan crop, the first hurdle being the "pecan nut casebearer." This insect is considered by most to be the number one insect of pecans, and he will probably live up to this billing this year. The female casebearer moth lays one egg to the cluster and after hatching this little fellow often destroys the entire cluster.

Every year many people get overzealous and spray too early for this insect. They may get spray dates over a distant radio station or newspaper or guess at the right dates. Correct timing is all important and I would venture to say that sprayings in Hamilton County prior to this date have been worthless as far as pecan nut casebearer control is concerned.

Spray dates for the pecan nut casebearer in Hamilton County are Wednesday May 27 through Monday June 1. These dates were projected following insect activity surveys by B. G. Hancock, Extension Horticulturist, Johnny Harris, and myself.

The optimum spray date should be about Saturday, May 30. If you have a large orchard that may take several days to cover you might want to start as early as Wednesday with a long residual insecticide such as Sevin.

Recommended insecticides for the pecan nut casebearer control are Sevin, Guthion, and Malathion. Remember to include zinc sulphate in your spray material for control of rosette and be sure to use a sprayer with enough pressure to cover the nutlets thoroughly.

8th Grade Class Honored Thursday

Members of the eighth grade class, their parents and guests were honored at a reception in the school cafeteria following graduation exercises last Thursday night.

The class colors of blue and white were used in the decor of the serving table covered with a white cut-work cloth over blue. The centerpiece of blue and white carnations was centered with miniature grad-

uates. Refreshments of cake squares and punch were served. Hostesses were room mothers, Mrs. Ralph Turner, Mrs. Bobby Needham and Mrs. W. E. East assisted by Mrs. Vernon Hyles.

Following the reception, the class members and guests were feted with a party at the home of Mr. and Mrs. George Kilgo.

This scribe spent Thursday to Friday of last week in Gatesville with Mrs. M. G. Pruitt. While there we visited at the Rotunda Rest Home with Mrs. Lou Homan and Mrs. Lula (Basham) Holder, who formerly resided at Fairy. Mrs. Holder most always asks about the Fairy folks, although not many are left that were here when she lived here. She asked about W. E. Goyne and we told her he lived just across the street from us and when those passing through wanted to know something about some of the old-timers of Fairy, if we can't tell them we send them across the street to Mr. Goyne. We are the only ones left here who can remember much about the happenings of the early days of this century.

We found Mrs. Homan doing pretty well at the time; however, she had fallen again at the home and cut her head.

some of the history of many favorite
dishes from other countries, as well
as basic nutrition information. Julie's
dish will represent Italy by her
preparing an "Italian Easter
Bread."

In cooking, "simmer" means to
cook in liquid just below the boiling
point, at temperatures of 185 to 210
degrees F. Bubbles form slowly at
these temperatures and break below
the surface.

If you like broiled meat well
done, place it farther from the heat
source than for medium or rare
meat - to avoid burning on the
outside before the center is cooked.
Place thicker cuts farther from the
heat source than thin ones for the
same reason.

Dr. Joe Bryan Harris of Tacoma, Washington, nephew of Mrs. W.F. O'Reilly and cousin of Mrs. Jimmie Ramage passed away Monday, May 18 with a heart attack. Funeral services were held Wednesday, May 20, in Tacoma. He was survived by his wife, one son, one daughter and two grandchildren, all of Tacoma.

Card of Thanks

I would like to express my thanks to the Hico Volunteer Fire Department, and the Hamilton and Stephenville Departments for their excellent work in extinguishing the fire in my building last Thursday night. Your quick response and efficiency stopped a fire that otherwise could have done far greater damage.
D. E. Bullock

WAVING IN THE BREEZE - Curtains waving in the breeze show that something is amiss in this picture. And there definitely was a reason. Seems that brakes on a Lone Star Gas Co. truck failed and the vehicle crashed through this window at the Steak House last Friday morning. Clyde Owens, owner of the cafe, estimated damage at around \$1,000. The mishap could have been much worse had it occurred at the busy lunch hour, but there were no injuries. Business continued as usual throughout the day.

Social Security Questions and Answers

Q - I am now receiving monthly social security payments. Recently I inherited some land and livestock. If I sell this inheritance, will it count as earned income and disqualify me from receiving my monthly benefits?

A - No, it will not. However, if you operate as a farmer and rancher by raising, fattening, grazing, and selling your livestock, you would be a self-employed farmer. Your net profit from this operation would affect your monthly social security benefits if you are under age 72 and your net profit for the year from your livestock operation is more than \$1680. But, if you sell off your entire herd of livestock and have not been operating as a self-employed person, it would not.

Q - I am 67 years old now and plan to retire on May 1, 1970. I applied for benefits back before I was 65 to get my Medicare insurance, but I haven't been getting any cash monthly benefits because of my earnings. When should I report that I have stopped work, and where do I do this?

A - Make this report to us just as soon as you stop working. You can do this by completing and mailing us the postcard form given to you when you filed your claim with us. If you can't find the card, see our representative when he next visits Hamilton. Your notice should be sent to your nearest social security district office. For this area, that's your Temple office.

Q - I get my monthly social security benefit check on the third day of every month. Is this check for the month in which I receive it, for the last month, or what?

A - All monthly social security benefit checks are dated the 3rd day of the month - unless the 3rd day of the month is a Sunday or national holiday, then they are dated the 2nd day of that month. These checks are for the month that just ended. For example, the social security benefit check dated April 3 is payment for the month of March.

Selective Service Questions

Editor's Note: Below are questions now being asked at draft boards. The answers are by Colonel Morris S. Schwartz, State Selective Service Director, 209 W. Ninth St., Austin, Texas 78701. He will welcome your questions.

Q - I have been informed that my appeal for an occupational deferment was denied. Is this final, or can I take other action to get the deferment?

A - Check the card you got, called a Notice of Classification (SSS Form 110). If the vote on your classification was not unanimous by the appeal board members, you have a right to appeal to the President. You take this action by filing a written request with your draft board within 30 days after the Form 110 was mailed to you.

Q - My classification is now I-A, and I want to appeal. I want to see the government appeal agent, but I work at night. I'd like his phone number and address so I can get in touch with him. What should I do?

A - See, write or phone the executive secretary of your draft board and request an interview with the government appeal agent. She will arrange a meeting. The name of your government appeal agent is posted at your board.

Q - I am a college student with a class II-S deferment for my activity in study. I have a chance to enlist in the Army Reserve. If I should do this, will I keep my student deferment?

A - No. You will be deferred on the basis of your activity as a member of a reserve component of the Army when your board receives evidence from you or the reserve unit that you have enlisted. This evidence is normally furnished on Department of Defense Form 44. You will be placed in class I-D.

Q - I'm a farmer who's been ordered for induction. I'll suffer a big financial loss, as it's harvest time, and no labor's available. Can somebody give me time to gather the crops?

A - Yes. Your draft board can postpone your induction 60 days for this emergency, and if more time is needed, has authority to grant a second 60 days.
