

### Winkler Test Assures Pay In Fusselman

A Fusselman discovery has been assured in Winkler County with the flowing gas at the estimated, daily rate of 10 million to 16 million cubic feet, during an unreported time at Ralph Lowe Estate, Midland, No. 1-31 University.

Flow was through a 3/4-inch choke and perforations at 17,784-17,895 feet, which had been acidized with 20,000 gallons. Operator was preparing to turn the well to the separator and continue testing.

Drilled to 18,145 feet, it has a 5-inch liner hung from 15,634-18,145 feet. During drilling operations, it flowed gas at the rate of 4.25 million cubic feet daily, and flowed gas and water by heads, and recovered 173 feet of condensate along with drilling water on a drillstem test from 17,948-19,978 feet.

Location is 1,320 feet from north and east lines of section 31, block 17, ULS, 12 miles southwest of Wink and 2 1/2 miles northeast of a recent dual Fusselman and Ellenburger gas pay-opener in Ward County, and six miles southwest of HNG Oil Co. No. 1-21-23 University, Winkler County Fusselman gas prospect.

### Belco Plans Dual Discovery In Eddy

Belco Petroleum Corp. of Midland, has submitted to the New Mexico Conservation Commission an application for dual completion as a Strawn pay-opener at its No. 3 James Ranch Unit. Morrow discovery in the Los Medanos (Atoka) gas field of Eddy County, N.M.

The interval at which Belco intends to test is not reported and the firm does not have any further information at the present time. It was completed May 9, 1972 from the Morrow for a calculated, absolute open flow of 6.5 million cubic feet of gas per day, through perforations at 13,862-14,266 feet. Top of the Strawn was picked at 12,552 feet, under ground elevation of 3,288 feet. No drillstem tests were reported in the Strawn formation.

Location is 1,980 feet from south and 1,657 feet from east lines of section 1-23-30e, 3/4 mile south of the Atoka opener and one well from that pay, which was completed in 1968. It also is about 3 1/2 miles northwest of the San Dunes multipay gas field.

### Pecos Prospector Testing Detrital

Exxon Corp. No. 1 South Howe Oil Unit, Pecos County Pennsylvania detrital prospect, 17 miles southwest of Monahans, flowed 121 barrels of oil and 60 barrels of load water in 24 hours, plus gas at the daily rate of 195,000 cubic feet.

Flow was through a 32-64-inch choke and perforations at 10,606-11,564 feet, with no treatment reported. Testing continued.

Location is 8,700 feet from south and 1,320 feet from east lines of section 22, block 6, H&G survey, 2 1/2 miles south of the Howe (Devonian) gas (Continued On Page 10A)

### Weather

FORECAST: Partly cloudy this afternoon. Mostly cloudy tonight and Tuesday. No important change in temperatures. High this afternoon in the low 50s. Low tonight near 30. High Tuesday in mid-50s. Northwesterly winds 10 to 20 miles per hour.

Table with 2 columns: National Weather Service Readings, and values for Sunday's high, Overcast low, Noon today, Sunset today, Sunrise Tuesday.

Precipitation: This month to date 20 inch 1972 to date 20 inch. The record high temperature recorded for a Jan. 31 was 77 degrees in 1907. The record low for a Jan. 31 was 2 set in 1906.

Table with 2 columns: LOCAL TEMPERATURES, and values for 11 p.m., 10 p.m., 9 p.m., 8 p.m., 7 p.m., 6 p.m., 5 p.m., 4 p.m., 3 p.m., 2 p.m., 1 p.m., Noon, 11 a.m., 10 a.m., 9 a.m., 8 a.m., 7 a.m., 6 a.m., 5 a.m., 4 a.m., 3 a.m., 2 a.m., 1 a.m., Midnight.

## ALMOST ALL KILLED— Jetliner With 202 Moslems Aboard Crashes In Nigeria

KANO, Nigeria (AP) — A Jordanian jetliner bringing 202 Moslems home from a pilgrimage to Mecca crashed on landing in a fog here today and burst into flames. Officials said almost aboard were killed. The death toll was variously reported as 162 and 191 as rescue teams went through the burned wreckage. Radio Nigeria reported about 40 survivors. Officials here said they have recovered 31 persons alive. A witness said the plane was engulfed in flames after it crashed on the runway about 10 a.m. The world's worst air disaster took the lives of 176 persons in the crash of a Soviet Aeroflot jet near Moscow last Oct. 14.

Mecca, the holiest place of Moslems, is in Saudi Arabia. The Royal Jordanian Airlines Boeing 707 left Saudi Arabia from Jidda, near Mecca, on the 2,100-mile flight to Kano. Officials in Lagos, 730 miles south of Kano, said it was not likely that a full report on the crash will be available before Tuesday.

## Court Strikes Down Texas Abortion Law

WASHINGTON (AP) — The Supreme Court today, barred the states from interfering with the decision of a woman and her doctor to end pregnancies within the first three months of a pregnancy. The court struck down the Texas abortion law, Justice Harry A. Blackmun said medical data indicates

abortion in the first three months, "although not without its risk, is now relatively safe." Therefore, he said, "any interference of the state in protecting her doctor to end pregnancies within the first three months of a pregnancy strikingly and largely disappeared." In other actions the court: Justice Harry A. Blackmun agreed to review a 1972 New York law providing vari-

### LATE NEWS FLASHES

AUSTIN, Tex. (AP) — Rep. Sarah Weddington of Austin, who submitted a bill Friday to repeal the Texas abortion law, now may drop it.

GENEVA (AP) — The World Council of Churches today blacklisted 650 companies from the United States, Britain, Holland and Switzerland for having links with South Africa and announced it has sold all its holdings in them.

WASHINGTON (AP) — Rep. Chet Holifield, D-Calif., chairman of the Government Operations Committee, said today he will fight an effort in the House Democratic Caucus to unseat him and will press for a public vote on the issue.

## Wind Topples Pine Tree, Killing Scout

NEW WAVERLY, Tex. (AP) — A co-ed group of Explorers gathered around the tree and lifted it off the youth. "I guess we just lifted it by faith. It had worth today after one of their to be faith. We knew we had to do it if there was any way to adult leader seriously injured save him. when a tree fell on their encampment late Saturday night.

Killed was Randy Shelton, 17. The adult leader A.B. Millett, 55, was in the intensive care unit at Hermann Hospital in Houston.

The group of scouts, 11 girls, 23 boys and four adult leaders, members of Fort Worth Explorer Post 425, had driven here Friday night and hiked along to Lone Star Trail to set up their campsite.

A windstorm Saturday night toppled a 100-foot tall pine onto a pup tent occupied by Shelton, and part of his tent pin then was thrown into another tent occupied by Millett, striking him in the chest.

Millett's son, John, 16, said heavy rain was falling "and then like the tree) came. It sounded like a loud car door slamming." Millett said all the scouts Fort Worth.

### ONE OF 58 IN TEXAS—

## Travis School Testing New Teaching Method

By CHARLES REINKEN — Barber — have been trying new Midland's Travis Elementary techniques of instruction that School is one of 58 schools selected by the Texas Education Agency to demonstrate for other educators ways of individualizing instruction.

Jack Hightower, principal of Travis, says all the school's classes are intended to provide as much individual attention as possible, but the most advanced experimentation is in the fifth and sixth grade language arts program can be gauged.

The experimental classes already have had some visiting teachers, but beginning in Judy Hodson and Mrs. Jeff (See TRAVIS Page 2A)

### Commuter Line Back On Schedule

NEW YORK (AP) — The Long Island Rail Road resumed full weekday schedules today after a seven-week strike of the nation's busiest commuter line. But only 70 per cent of its usual customers returned for the ride, and the president predicted a permanent drop in ridership.

Before the strike, the line carried 90,000 commuters and 80,000 others on a normal day.

BACK TO PARIS — Presidential adviser Henry A. Kissinger waves as he boards his plane at Andrews Air Force Base, near Washington, today en route to Paris to join allied and Communist representatives in what are expected to be the final steps in ending the Vietnam war. (AP Wirephoto.)

## FROM NEW MEXICO— More Snow, Cold Drift Into Texas

While Texas still was shaking off the effects of wild weekend storms, fresh snow and rain drifted into western areas of the state today from a new storm forming in New Mexico.

While skies cleared in most sections after a gloomy, cold and wind-whipped Sunday, the new disturbance sent a mixture of light rain and snow moving toward the east-northeast from near the Pecos River past Rankin and Odessa.

Clear skies and a high temperature of 32 degrees Sunday helped the Midland area shake off effects of a fast-moving cold front which brought rain and a heavy snowfall late Saturday and early Sunday.

Rain mixed with snow hit first Saturday afternoon and night and then a heavy, slushy snowfall began just before midnight and lasted until 3-30 a.m. Sunday. The snow covered the ground, but dawn brought clear skies and warmer temperatures and soon all vestiges of the storm were gone.

The National Weather Service at Midland Air Terminal gauged 43 inch of precipitation during the storm, but the downtown area had more than half an inch of moisture, causing streets to run full of water.

Windy And Mild The remainder of the day Sunday was windy with moderate temperatures. The low this morning was 30 degrees and the reading at noon today was 44.

The high today should be in the low 50s before another front moves into the area. The low tonight should be near 30 with a high Tuesday again in the mid-50s.

Clouds also were spreading over most of the rest of Southwest Texas.

Rain In North Texas There was some light rain over North Texas and occasional snow mixed with rain in the northwest Sunday as winds gusting up to 45 miles per hour whipped across the entire state. It was considerably milder, however, than the night before, when snow up to five inches deep around Seminole fell in West Texas and clusters of tornadoes inflicted damage in a number of spots from Central into East Texas.

It still was on the chilly side almost everywhere in the state this morning. Temperatures near dawn sagged to 28 degrees at Amarillo, 29 at Lubbock and (See SNOW Page 2A)

The council meeting begins at 8:30 p.m. Tuesday in the council chambers of City Hall.

## Captured Enemy Papers Indicate Peace Jan. 28

WASHINGTON (AP) — As captured enemy documents signaled a midweek initialing of a cease-fire accord, Henry A. Kissinger flew back to Paris today to join allied and Communist officials in the last steps toward ending the Vietnam war.

Before the presidential assistant left rain-swept Andrews Air Force Base at midmorning, he met with President Nixon for an hour at the White House to get last-minute instructions.

Officially, the White House continued to portray the purpose of Kissinger's return to the French capital as "completing the text of an agreement" to end the fight. But a flurry of developments Sunday bolstered the belief that an agreement soon will be signed, calling for a cease-fire, the return of prisoners of war and machinery to reshape the South Vietnamese government.

The major developments: —Senior South Vietnamese officials said captured documents from the Communist high command stated that an agreement will be initiated at 8 a.m. EST Wednesday that it will be formally signed on Saturday and that a cease-fire will go into effect on Sunday, Jan. 28.

White House officials said that Kissinger will be in Paris to sign the agreement. "This will give time for somebody to nitpick and figure out a way to put in loopholes where they can have closed meetings. If you are for letting them have closed meetings, go ahead and vote to postpone and let them jack it around all they want to," said Rep. Carl Parker of Port Aransas, sponsor of the bill.

White House said the bill would apply the open meetings requirement to legislative committees for the first time, with fines for lawmakers who participate in secret meetings. Conference committees appointed to resolve disagreements between the House and Senate over individual bills, often have met secretly.

Parker's bill also would require government bodies holding "gaily closed meetings" such as sessions dealing with land purchases or dismissal of employes.

White House maintained its lid and announced that an executive on official discussion of Vietnam negotiations. When asked taking part in illegal closed about reports that a pact would be raised from be initiated within days, a \$25-\$200 to \$100-\$500; jail sentences of one to six months would be added to the possible penalties.

Kissinger and Hanoi Politburo member Le Duc Tho interrupted their talks on Jan. 13, when the U.S. negotiator returned to Washington for consultation with Nixon. The next day Nixon dispatched Gen. Alexander M. Haig Jr., his chief liaison officer, with South-Viet (See TALKS Page 2A)

Agnew Travel Reports —South Vietnamese Foreign Minister Tran Van Lam told an interviewer as he departed for Paris that Vice President Spiro T. Agnew will be in Saigon on Jan. 28, presumably to demonstrate that Washington and Saigon were entering the post-war era shoulder-to-shoulder.

Agnew himself said he couldn't answer when asked whether he will be heading for Saigon, saying the President would have to make "that announcement."

Congressional sources reported that Nixon plans a meeting with Capitol Hill leaders within the next few days, providing him a forum to brief them on details of a peace accord.

The Viet Cong foreign minister, Mrs. Nguyen Thi Binh, arrived in Paris and said "do Communists are ready to do everything possible to achieve a quick settlement."

White House Silent Amid these developments, the White House maintained its lid and announced that an executive on official discussion of Vietnam negotiations. When asked taking part in illegal closed about reports that a pact would be raised from be initiated within days, a \$25-\$200 to \$100-\$500; jail sentences of one to six months would be added to the possible penalties.

## GM Recalls 3.7 Million Cars For Steering Fault

DETROIT (AP) — General Motors announced the recall to cars owners of 3.7 million 1971 and 1972 two-wheel cars for installation of a shield, GM said that cars for steering coupling to cars is driven over, 10,000 graves, prevent the possibility of flying at speeds which cause the car stones lodging between the coupling and the frame.

In making the announcement, GM said it had received reports of 96 incidents where stones were scooped up, resulting in 23 accidents in which 12 injuries were reported.

Involved in the recall were full-size 1971 and 1972 models of Chevrolets, Buicks, Oldsmobiles and Pontiacs.

The company said the shields would be installed at no charge.

GM said it had decided to ask (See GM Page 2A)

# Gunmen Surrender After Hostages Escape

NEW YORK (AP) — Four gunmen who had vowed to die for Muslim paradise in a hail of police bullets have surrendered peacefully after their nine remaining hostages made a dramatic escape to signal the end of a two-day siege in a Brooklyn sporting goods store.

The end came late Sunday afternoon, more than 47 hours after a silent robbery alarm alerted police, who surprised the young gunmen in the store. One patrolman was killed and two others wounded in a flurry of gunfire.

After the initial shootout subsided to a standoff, police ringed John & Al's Sports, Inc., in Brooklyn's Williamsburg section with sharpshooters. But fear for the hostages prevented any forced showdown and police concentrated on keeping communications with the gunmen.

The break came shortly before 1 p.m. Sunday when the hostages, led by a co-owner of the store, broke through plasterboard to a sealed off stairway and escaped to the

roof while the gunmen were diverted.

Four hours later, following more negotiations with police and pleas from some relatives, the gunmen walked out. Two carried a stretcher with a third who was wounded and the fourth walked ahead.

Police said preliminary reports indicated their marksmen had not fired a shot since the original gun battle, although the gunmen had fired volleys from time to time.

Brooklyn Dist. Atty. Eugene Gold said he would go before a

grand jury today with charges against the four that probably would include the murder of Patrolman Stephen R. Gilroy, the attempted murder of Patrolmen Jose Adorno and Frank Carpentier, kidnaping and weapons possession.

Police said they were searching for a fifth man who was said to have been driving a getaway car when the robbery began about 5:45 p.m. Friday. They said the motive for the robbery was to obtain guns, not money.

In a hand-written letter car-

ried out by a doctor who attended the wounded gunman, the four described themselves as "servants of Allah" and said they were "expressing solidarity with all Muslims and oppressed people of the world."

"We have nothing to lose and victory and paradise to gain," they declared. "We will not give in to your demands, but we will continue to hold the hostages who are being well treated and will not be harmed intentionally by us."

Earlier they had released three other hostages. The nine

remaining included Jerry Riccio, a co-owner of the store.

Their apparent concern for the hostages enabled Riccio to persuade the gunmen to allow the nine to move to the rear of the second floor of the three-story building to be out of police gunfire.

Riccio knew that behind a plasterboard wall there lay an escape route — a sealed-off stairway — if they could use it. The opportunity came when the gunmen heard noises against an outside wall and ran upstairs to investigate.

## Wallace Ready For 1976?

**By JULES LOH**  
AP Newsfeatures Writer

"They don't call him 'the fighting judge' for no reason," George Wallace's wife reminds audiences at every opportunity. Her husband, too, appearing in public ever more frequently, vows that he is not licked, that he'll be back on the national political scene in 1976.

Clearly the bullet that struck down Gov. Wallace May 15 at Laurel, Md., as he reached for just one more outstretched hand, did not wound his indomitable spirit. His determination shows in his daily regimen of weight lifting, therapy and work. His doctors say he likely will never walk unassisted again; others, who know him, feel that sheer grit might do what medical science cannot.

Wallace's spirit and his wit are intact if his body is not. Will that be enough in '76?

George Wallace is the consummate campaigner. Campaigning, not governing, is what makes his juices flow. As one Alabamian put it, "Whenever he can get out on the stump it's like his own little personal Easter."

Anyone who has seen George Wallace on the stump knows the truth of that. Anyone who has seen his eyes glint and his temples throb when he hears the roar of his idolators, smells their sweat, touches their flesh, knows also that the brand of campaigning that is George Wallace's joy and his life is not the kind that can be done from an antiseptic tv studio with only the cold eye of a camera to talk to.

Will George Wallace, mentally and physically, be able to plunge into a crowd again, to reach for another outstretched hand?

That is the question for 1976, and it likely will remain unanswered — until 1976.

# Molten Rock Source Of Energy

**By WILLIAM N. OATIS**  
UNITED NATIONS, N.Y. (AP) — The heat of molten rock deep within the earth is being harnessed to help meet the energy needs of 18 nations. This source is called geothermal energy, from Greek words meaning earth-heat power.

"I believe that we are witnessing the birth of a vast new source of energy," says Joseph Barnea, U.N. director of resources and transport.

**Speaks At Seminar**

He addressed a seminar here on the development and use of geothermal energy, attended by 250 people from a dozen countries.

Barnea told newsmen the participants agreed that this type of energy was making a breakthrough and was widespread, clean and cheap.

Nobody really knows what keeps the rock molten. Scientists theorize that it is friction in the broken crust of the earth and the radioactive decay of materials underneath.

In most places the molten rock, or magma, is 15 to 25 miles underground. In some places, where there are fissures in the earth, it pushes closer to the surface.

**Heats Other Rocks**

The magma heats other rocks and these turn underground water into hot reservoirs, six miles or less from daylight.

If the hot water can find a way, it comes out in hot springs or geysers. If not, it can be tapped by a well drilled down to where it is.

The wells bring up steam or hot water, or both. The steam can be fed straight through a turbine to run an electric generator. The hot water can be used to boil some volatile liquid, like isobutane, into vapor, and the vapor will spin the turbine that runs the generator.

**Double Energy**

Tsvi Meidav of the U.N. Resources and Transport Division speculated that eventually hot underground rocks could be tapped for more than double the energy in all the world's estimated coal, oil and gas deposits.

Meidav listed 18 countries where geothermal energy is now being used or developed — the United States, Mexico, Nicaragua, El Salvador, Chile, Iceland, France, Italy, Bulgaria, Hungary, Turkey, the Soviet Union, China, Japan, the

Philippines, Indonesia, New Zealand and Kenya. Barnea said U.N. studies showed Ethiopia had enough geothermal energy potential to provide all Africa with electricity.

Italy has been producing electricity from underground heat since 1904 at the Larderello steam field, which helps light Rome.

San Francisco gets electricity from the Geysers, a 12-year-old steam field 85 miles north of there run by the Pacific Gas and Electric Co.

Near Niland in Southern California's Imperial Valley, the San Diego Gas and Electric Co. is building a hot-water electric plant, after investigations by the Bureau of Reclamation, on a design developed by the Magma Power Co. of Los Angeles.

Geothermal energy has other uses.

In the Imperial Valley, the hot water used to generate power will afterward be flashed into steam in low-pressure chambers and the steam will be condensed to fresh water.

This fresh water will be dumped into the Colorado River to lower its salinity and help the United States keep a treaty

pledge to Mexico to limit the salt content of the river.

Generation of electricity doesn't amount to a great deal yet. The installed geothermal electric generating capacity of the whole world is only about a million kilowatts.

But it is building up. Under a 1970 act of Congress, the U.S. government is about to issue leases for development on 58 million acres of federal land in 13 states.

**Energy Source**

An Interior Department panel estimated last year that geothermal energy in the United States could, by the year 2000, be supplying 395 million kilowatts, more than all the U.S. electric generating capacity today.

Barnea says it requires less capital investment than other power sources: \$100 to \$150 a kilowatt now, against estimates of \$200 to \$300 for a coal or oil-burning power station and \$500 for a nuclear power station in 1975.

A geothermal electric plant takes only two years to build.

Charles Baldwin, consultant to the California Senate, listed some problems: Geothermal

wells cause land to subside. They throw off some pollution in noise, heat, bad smells and harsh chemicals. Geothermal electricity cannot be built up to peak loads to meet varying needs through the day.

## Abortion—

(Continued From Page 1A)

history, with the lenity of the common law, and with the demands of the profound problems of the present day."

Some states prohibit abortions without the consent of the father. Since the Georgia and Texas laws do not have such provisions, the court's action today did not deal with that question.

Pending before the court are cases dealing with the abortion laws of Missouri, Illinois, North Carolina, Louisiana, Virginia, New Jersey, Utah, Ohio, Kentucky, Connecticut, South Dakota and New York.

**No Immediate Action**

The court took no immediate action on them.

Although the ruling dealt directly with only the Georgia and Texas laws, the Texas law is typical. Some 30 states, with often the same words, make it a crime to perform an abortion except "for the purpose of saving the life of the mother."

Therefore, the ruling presumably would have an impact on those laws very soon. The 30 states are:

Arizona, Connecticut, Idaho, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Dakota, Tennessee, Utah, Vermont, West Virginia, Wisconsin and Wyoming.

## Federal Grand Jury Will Be Empaneled

A federal grand jury was to be empaneled here at 2 p.m. today and was expected to go into session immediately thereafter.

There was no official word about what would be presented to the panel but it was expected to consider a recent gambling investigation conducted by the FBI.

Authorities would not say how many subpoenas were issued to witnesses in that case.

The room the grand jury uses in the chamber of commerce building has been reserved for most of this week, which is considerably longer than the one or two days the panel usually sits each session.

Fifty persons have been called for grand jury duty and the panel will consist of 23 persons. Sixteen persons constitute a federal grand jury quorum.

The FBI obtained 16 search warrants in December and served them in Midland, Odessa and Monahans.

Gambling paraphernalia, money, address books and drugs suspected of being illegal narcotics were confiscated in the raids but no arrests were made.

Part of the information which led authorities to obtain the search warrants was received from conversations overheard on tapped telephone lines.

Those warrants have been filed with the U.S. District Clerk's office in Midland.

Bill Sessions, U.S. attorney for the Western District of Texas — which includes Midland — was expected to be in Midland for the grand jury session.

However, one of his assistants, John Clark, in San Antonio, said today that Sessions is involved in a trial in San Antonio and it is uncertain whether he will be free to come to Midland.

San Antonio is the headquarters city for the Western District.

## TALKS—

(Continued From Page 1A)

namese President Nguyen Van Thieu, to Saigon and four other Asian capitals to outline terms of a tentative agreement.

Haig returned from his mission Sunday and went immediately into meetings with Kissinger and Nixon. They met for more than two hours in two separate sessions before and after private inaugural-weekend receptions for the President's relatives and political supporters.

Indications were that Haig brought Nixon a personal message from Thieu confirming the South Vietnamese leader's acceptance of major points of the tentative agreement negotiated by Kissinger and Thieu. There were signs too, that Nixon immediately dispatched a response to Thieu.

U.S. Ambassador Ellsworth Bunker paid an unusual late-night call on Thieu Sunday, staying at the presidential palace 10 minutes—just enough time perhaps to deliver a cable from Nixon.

## GM—

(Continued From Page 1A)

the owners of 3.7 million cars to bring them in for installation of the shields even though only a few cars might become involved.

GM said the decision followed investigations by the company and the National Highway Traffic Safety Administration.

GM's announcement came on the same day that the Center for Auto Safety in Washington urged the recall. The center, funded by Consumers Union, said it had reports of 15 crashes, with nine injuries, stemming from the steering loop.

The largest recall in automotive history involved 4.9 million GM vehicles in 1969.

## SNOW—

(Continued From Page 1A)

32 at Del Rio, and the range elsewhere was up to 50 at Galveston and Laredo.

Top marks Sunday afternoon hit 76 at Brownsville and 77 at McAllen in the Lower Rio Grande Valley but went no higher than 43 at Amarillo and 44 at Dalhart. The Associated Press reported.

**INDIVIDUALIZED INSTRUCTION**—Mrs. Jeff Barber, upper right, language arts teacher at Travis Elementary, gives pupils some of the individualized instruction that has helped the school win a U.S. Office of Education grant, in addition to bringing about its selection as one of a statewide network of 58 "demonstration schools" for individualized instruction.

## Travis Elementary Now 'Demonstration School'

(Continued From Page 1A)

February other educators from the area are expected. Visitors will be given a complete orientation plus an opportunity to watch teachers and students at work. All visitors will be scheduled to create a minimum of disruption in the school day.

At Travis, the fifth and sixth grades have been combined for language arts purposes. A large classroom has been created by removing a wall between two regular rooms. Indoor-outdoor carpeting, an effective noise reducer, has been installed, giving the room an open feeling without a chaotic atmosphere.

A variety of teaching materials give the students an opportunity to perfect both reading and writing skills. Each 90-minute class period begins with some instruction as a class unit

of about 60 pupils, followed by reorganizing the class into informal smaller groups to allow the children to pursue individual study.

With the help of two teacher's aides, Annabelle Cadena and Mrs. Jo Kirksey, the two teachers keep track of the students' progress both by direct observation and by keeping extensive records that include a thick file folder for each child showing what portions of the curriculum each student has completed satisfactorily.

This allows the teacher, in conference with the pupil, to review and evaluate his progress at regular intervals.

Hightower says one of the big advantages of this team teaching system is that it allows each teacher to specialize in certain teaching methods and skills much more intensely than would otherwise be possible. With conventional methods, each teacher would in effect have to take twice as many summer courses or other instruction in order to have the same amount of knowledge available to the students.

The small group technique, he adds, enhances both teacher-pupil interaction and pupil motivation. The private nature of the individual study removes pressure from the pupil that learns noticeably faster or slower than average. Thus an environment of enjoyable studying rather than threat is created.

Other West Texas schools included in the demonstration program network include 12 Brownfield schools and the adult learning center at Lubbock.

Charles Nix, Texas Education Agency associate commissioner of planning, says, "Instruction within these programs, which range from kindergarten through high school, may be paced to the needs of the individual student in a great many ways."

"It may involve teams of teachers, programmed materials, large open areas in place of classrooms, or other departures from traditional teaching programs will give other educators a good look at the full range of possibilities," he adds.

Each school now a part of the year-old demonstration network must have operated an individualized program for at least one school year, have strong staff and community support — and be willing to take time to tell others about it, Nix continued.

Double Energy

Tsvi Meidav of the U.N. Resources and Transport Division speculated that eventually hot underground rocks could be tapped for more than double the energy in all the world's estimated coal, oil and gas deposits.

Meidav listed 18 countries where geothermal energy is now being used or developed — the United States, Mexico, Nicaragua, El Salvador, Chile, Iceland, France, Italy, Bulgaria, Hungary, Turkey, the Soviet Union, China, Japan, the

Philippines, Indonesia, New Zealand and Kenya. Barnea said U.N. studies showed Ethiopia had enough geothermal energy potential to provide all Africa with electricity.

San Francisco gets electricity from the Geysers, a 12-year-old steam field 85 miles north of there run by the Pacific Gas and Electric Co.

Near Niland in Southern California's Imperial Valley, the San Diego Gas and Electric Co. is building a hot-water electric plant, after investigations by the Bureau of Reclamation, on a design developed by the Magma Power Co. of Los Angeles.

Geothermal energy has other uses.

In the Imperial Valley, the hot water used to generate power will afterward be flashed into steam in low-pressure chambers and the steam will be condensed to fresh water.

This fresh water will be dumped into the Colorado River to lower its salinity and help the United States keep a treaty

**James E. Wilson**  
**Wilson Speaker For WTGS Meet**

James E. Wilson, president of the American Association of Petroleum Geologists, will speak at the dinner meeting of the West Texas Geological Society Tuesday at Ranchland Hills Country Club.

The social hour will begin at 7 p.m., with dinner and the program slated for 7:30 p.m.

Wilson holds a degree from Texas A&M University and has been with Shell Oil Co. since 1938. He was elected vice president of exploration and production in 1960. He has held positions in Houston, New Orleans and Denver, Colo.

He joined AAPG in 1939 and became the association's president in 1972. Other industry affiliations include Geological Society of America, Society of Exploration Geophysicists, Society of Petroleum Engineers of AIME, American Petroleum Institute, American Society for Oceanography, Marine Technical Society and Rocky Mountain Oil & Gas Association.

## HOUSE—

(Continued From Page 1A)

added millions of dollars worth of expenditures that were not approved by either house and have totally rewritten tax bills.

House and Senate rules, as well as proposed joint rules, force this session's conference committees to limit themselves to resolving disputed points.

Speaker Price Daniel Jr. wanted the restriction locked into the statute books.

Daniel included the open meetings and conference committee bills in his backage of nine "reform" measures.

Senate Finance Committee hearings on the \$9.7 billion general appropriations bill start this afternoon with testimony on budgets for the state appellate courts.

## School Menu

**ST. ANN'S SCHOOL**  
TUESDAY—Beef stew, fruit Jello, crackers.  
WEDNESDAY—Hamburgers, lettuce salad, French fries, pork and beans.  
THURSDAY—Steak fingers, mashed potatoes, green peas, carrot sticks.  
FRIDAY—Grilled cheese sandwiches, vegetable soup, potato chips, banana pudding.

# South Viet Forces Suffer Major Defeat

SAIGON (AP) — South Vietnamese forces have suffered a major defeat in the past few days, with two army battalions overrun and cut to pieces and relief forces repeatedly ambushed northwest of Saigon.

Fields reports said at least 80 soldiers, some of them wounded, had drifted back to government lines in the past two days. Some had been given safe conduct passes by the Communists after agreeing to throw away their weapons.

It was not known how many more were trying to escape nor was there any accurate count of the dead and wounded from the two battalions of the 5th Division which apparently fell into an enemy trap six days ago. The government has admitted so far to 56 of its troops killed and 132 wounded since Friday.

**Reject Offer**

South Vietnamese commanders, after a series of emergency conferences, rejected a Viet Cong offer of a local cease-fire to allow wounded helicopters to pick up 130 wounded government soldiers. Officers said they thought the offer was a ruse to forestall air strikes and other attacks so the Communist forces could get away from the area 40 miles northwest of Saigon.

No new fighting was reported today in the area along the southern edge of the Michelin rubber plantation. Field reports indicated that both sides were

resting up after nearly a week of bitter combat.

While South Vietnamese commanders said their forces had killed more than 300 North Vietnamese and Viet Cong, the Communists claimed two battalions of Saigon's 5th Division were "wiped out" and three other battalions "heavily mauled" when they tried to go to the aid of the first two.

The Viet Cong's Liberation Radio claimed 500 government soldiers were captured.

One survivor was Capt. Phuong Van Tau, who commanded one of the battalions caught in the trap. Wounded in the leg, he straggled today and said he had escaped after his unit was ambushed and surrounded for several days. He said relief helicopters could not land because of heavy enemy fire and his troops eventually ran out of ammunition.

**Safe Conduct**

The commander of a ranger force trying to rescue stragglers confirmed that many of them had been given safe conduct passes by the Communists after agreeing to throw away their weapons.

In a broadcast heard in Saigon Sunday afternoon, the Viet Cong offered to release 130 wounded South Vietnamese prisoners as a "humanitarian" gesture during a cease-fire from 1 p.m. Sunday Saigon time until 6 p.m. Monday. The broadcast gave a map location and instructions for the South Vietnamese to fly unarmed

helicopters, into the area one at a time. The Viet Cong said the prisoners had been captured Friday in a "major battlefield victory" in the rubber plantation.

Senior South Vietnamese officials said the Viet Cong had sent a radio message earlier to government troops operating in the Michelin region saying the Viet Cong were holding prisoners and the South Vietnamese should "come and get them."

At dawn Sunday, six hours before the proposed cease-fire was to begin, South Vietnamese forces moved into the area to recover the prisoners and were ambushed, field commanders said. Ten South Vietnamese and 70 North Vietnamese and Viet Cong were reported killed and 16 South Vietnamese were wounded.

**Attacked Again**

Two hours later, the South Vietnamese said, government forces made a second attempt and were attacked again, suffering 10 men wounded. Enemy losses were not known.

The officials said the South Vietnamese were able to recover 20 prisoners who had been wounded in the battle Friday.

Today a small South Vietnamese reconnaissance plane was fired on as it flew over the area, officials said. And although the area specified by the Communists for the prisoner release was being spared by the allied planes, bombing raids were being carried out a few hundred yards away.

The South Vietnamese officials said they believed the Viet Cong proposal was a ruse to enable them to try to move an important command headquarters and substantial war stockpiles out of the region. Some South Vietnamese sources reported the enemy had more than 200 tons of supplies stockpiled there.

South Vietnamese infantrymen had been sweeping in the region to break up a major enemy base that could give them trouble after the signing of a cease-fire agreement.

Field reports from another source said that South Vietnamese rangers abandoned the Duc Co special forces camp, in the central highlands near the Cambodian border, under heavy pressure Sunday. The South Vietnamese command denied the reports, saying there had been a clash at one of the camp's outposts last Thursday but no major fighting. Spokesmen said a battalion of troops was sent in to reinforce the camp Sunday.

In the air war, the U.S. Command reported its fighter-bombers flew 306 strikes against North Vietnamese and Viet Cong positions in South Vietnam during the 24-hour period ending at 8 a.m. today. Monday, B52 bombers flew an additional 90 strikes, dropping some 2,700 tons of explosives.

In Laos, government troops and forces of the pro-Communist Pathet Lao clashed over the weekend.

# Julie Inspires Late Changes In Nixon's Inaugural Address

By PEGGY SIMPSON  
 WASHINGTON (AP) — In the early hours of Inauguration Day, President Nixon revised his inaugural address to include thoughts his younger daughter said "came to him in the night" about other presidents' dreams for America.

What he added amounted to a recognition that a president alone can't carry out his dreams.

He appealed for the prayers of the people for God's guidance and for their help so that, together, "we may be worthy of our challenge."

Julie Nixon Eisenhower said this was one of her favorite parts of the 1,800-word, 17-minute inaugural speech. The family had not read the text in advance, she told a reporter at a reception following Sunday's White House worship service.

## Two Women Die In Marshall Fire

MARSHALL, Tex. (AP) — An early morning fire today killed two elderly women.

Police identified them as Mrs. Charles Fry, 71, and her sister, Mrs. Blanche Boughman, 88.

They were found dead in their beds.

Charles Fry, owner of the house, escaped through a second floor window.

Neighbors reported smelling smoke about 11 p.m. Sunday. Firemen who responded to a call said the entire downstairs was in flames.

# Pet Pony Helps Pay Linda's Hospital Bills

HUGO, Okla. (AP) — An 11-year-old Hugo girl severely wounded by an accidental gunshot a month ago, decided to sell her pet pony Jacob to help pay her hospital bill, but she wanted to be sure his new owner would be good to him.

Little Linda Dean Melvin sold her pony for \$1,137, probably the largest sale price for any horse that has ever gone through the Hugo Sale Commission ring.

And Jacob's owner will be good to him. The many people who helped buy him decided to give him back to Linda.

Linda's spinal cord was damaged badly and doctors fear she may never walk again, nor ride her pony.

Aware that her parents, Mr. and Mrs. George Melvin of Hugo, had no hospitalization or accident insurance to relieve their financial burden, Linda decided last week to sell Jacob.

"Dear auctioneer," she wrote, "I am Linda Dean Melvin, 11 years old. I want to sell my pony to help pay on my hospital bill. I love him very much, so be good to him. His name is Jacob. I rode him some with my daddy holding him and he threw me once, but he is a good pony. Thank you, Linda Dean Melvin."

Grady Holton of Hugo paid \$73 for Jacob shortly after he went into the ring Friday. Then he asked auctioneer Wren Shaw to run him through again.

Jacob sold a second time and a third, and on and on. The price may go still higher because some people who didn't bid have said they want to contribute too.

When Linda was told about the success of her "sale," her mother said, "she was speechless."

Mrs. Melvin said Linda was sad when she first heard the pony was sold, and then she asked who got him. "I told her she got him," Mrs. Melvin said, and she forgot to ask the price.

**To Therapy Center**

Linda was entering Hillcrest Therapy Center in Tulsa today. She already has received treatment in three hospitals and specialists fear she may never walk again.

Other efforts to help the Melvins pay Linda's hospital bills are being made.

A drive headed by polio victim Lynn Campbell of Boswell, Okla., has raised \$1,182 for Linda.

The Bill Mack Fan Club, whose president, Mrs. Charlie Pettyjohn, lives in Hugo, is planning a benefit performance by the WBAP Radio personality Feb. 10.

And Hugo Junior High School pupils took up a collection for Linda at last weekend's basketball games.

**SURPRISE, SURPRISE!** — An unidentified woman was caught by the camera as she kissed President Nixon at Saturday night's Inaugural Ball in the Kennedy Center for the Performing Arts. (AP Wirephoto.)

# Chicago Family Starts Home, Happy Despite Fatigue, Costs

By LEE BYRD  
 WASHINGTON (AP) — John Diacou and family began a tiring drive home to Chicago today, happy to have been among "the chosen few" despite the winter chill, the long lines, the short nights and the checkbook drain of Richard Nixon's inauguration.

There, that's partly how the political game works," Diacou said. "Most people, whether they see and learn something they admit it or not, have some don't get every day."

Diacou, who also attended the 1969 inauguration, acknowledged that "the bloom was off the rose" this time around and there were plenty of noisome moments.

At the swearing-in ceremony on Capitol Hill, for example, his suitcoat buttons were ripped off accidentally, forcing him, wife Carol and daughters Joy, 10, and Constance, 7, to linger in a blustery wind until they were found.

Then there was the interminable waiting in ticket and reception lines, "enough to make any person feel it's not worth it," and a sufficient number of street bottlenecks to convince him that traffic control "is one thing that the Chicago police do better."

Diacou, who won his coveted inaugural invitations by contributing to the Nixon campaign with both time and money, says he economized this time.

**Economics Save Some**

He figures he saved \$350 in airfare by piling his wife and daughters and another couple, Mr. and Mrs. Roger Grabowski, into the family car for the 12-hour drive.

Slaying with friends in Elliott City, Md., saved a \$250 hotel bill, he said.

But there was still a matter of \$40 to attend an Agnew reception, \$160 for symphony seats, \$80 for parade tickets, \$200 for a concert, \$80 for the Saturday night ball, \$40 for an Illinois reception, and \$40 for the American Heritage exposition.

At rates like that, why does a man do it?

"One reason is to be able to say 'I went—I was one of the chosen few,'" said Diacou.

And "you go ... to meet those people, to say hello. It becomes a matter of them seeing you, seeing that you were

# Senate Will Consider More Nixon Nominations This Week

By CARL P. LEUBSDORF  
 WASHINGTON (AP) — The Senate takes up more of President Nixon's Cabinet nominations this week while the Democratic-controlled Congress awaits the two presidential messages expected to fill in details of his second-term program.

Nixon's 17-minute inaugural speech Saturday to a chilled crowd of 35,000 outside the Capitol and millions watching on television drew generally favorable congressional reaction.

But many Democrats echoed the reaction of Sen. Edward M. Kennedy, D-Mass., that "the real test will be in the policies and programs yet to come," in the State of the Union message expected later this week and the budget due on Jan. 29.

With reports of widespread budget reductions in domestic programs already rampant, Sen. Walter F. Mondale, D-Minn., cautioned that "if he intends to dismantle all the federal programs, there will be a major clash."

With two Cabinet choices already approved, the Senate plans to act Thursday on Nixon's nomination of Elliot L. Richardson as the new secretary of Defense.

Action is due Tuesday on William P. Clements, who is slated to become deputy Defense secretary, and James Schlesinger, to be director of the Central Intelligence Agency.

James Lynn's nomination as secretary of Housing and Urban Development may be acted on also during the week as may the choice of New York union leader Peter Brennan to be secretary of Labor.

Only one nomination, that of Caspar Weinberger to be secretary of Health, Education and Welfare, faces any major delay. Some Democrats are vowing to hold it up until they find out the size of anticipated budget cuts in its programs.

Most of the generally muted criticism of Nixon's second inaugural address fell on the domestic section.

House Speaker Carl Albert, noting Nixon's statement that America was built by work, not welfare, said no one believes welfare can solve everyone's problem but that "we do have people who can't do it all for themselves."

Sens. Edmund S. Muskie, D-Maine, Frank E. Moss, D-Utah, and William Hathaway, D-Maine, all focused on the lack of specifics in the President's inaugural address.

"It was appropriate to restore our commitment to peace and to a better America," Muskie said, "but he didn't tell us how to do it."

Hathaway called it "a nice speech" but added, "We're still waiting for details."

## Dallas Man Held In Co-Ed's Death

LOS ANGELES (AP) — A Texas man has been booked for investigation in the murder of a University of Southern California co-ed last month, authorities said.

Police said Los Angeles homicide detectives returned Sunday from Dallas with Johnny Lee Harbert, 23, who was arrested there Wednesday in connection with the fatal shooting of Elizabeth Shuler, 21.

The young woman's body was found Dec. 5 about 45 miles from El Centro, Calif. She disappeared while returning to her home from USC the night before, police said.

Mrs. Larry Zane Noble

### Miss Spire Wed To Larry Z. Noble

Connie Lois Spire, daughter of Dr. and Mrs. Truman E. Spire, 2204 Seaboard St., became the bride of Larry Zane Noble, son of Mr. and Mrs. Robert E. Noble of Lubbock, at 7:30 p.m. Saturday in the parlor of the First Baptist Church.

The Rev. Clyde Childers, uncle of the bride, performed the double ring ceremony.

Jean East of Midland was the maid of honor and Robert Noble was best man.

The wedding music was presented by Mrs. Gary Hall, pianist, and Mrs. John Greer, soloist.

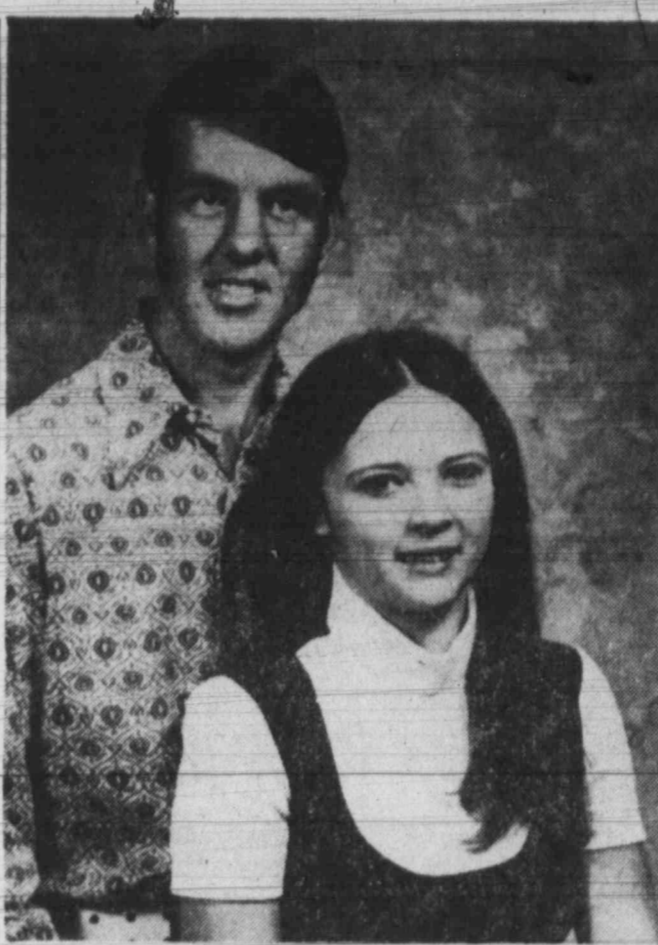

Given in marriage by her father, the bride wore a formal-length gown of ecru cotton, satin and lace. The Empire bodice featured a scoop neckline and long full sleeves. She also wore a double strand of pearls which belonged to her great-grandmother. She carried a bouquet of roses, baby's breath and foliage and a lace handkerchief carried by her mother at her wedding.

Miss East wore a sleeveless dress of brown taffeta with a stand-up ruffle at the neckline and ruffling repeated at the hem of the floor-length skirt. The Empire-waistline was caught with a candlelight grosgrain ribbon which formed a rose in the back.

A reception was held in the parlor following the ceremony. After a trip to Nevada and Arizona, the couple will live in Lubbock.

### Coming Events

### Junior Auxiliary Reports Meeting

The Junior Auxiliary of Parkview Hospital met recently in the hospital to discuss plans for a rummage sale and service projects.

The rummage sale will be a follow-up to a recent bake sale, which netted the auxiliary \$70.

Plans were made to make valentines for retarded children.

Lillie Davis was named chairman of a committee to prepare a new constitution. Serving with her will be Julie Rogers, Mella McEwen and Denise Beunzler.

### Children's Group To Meet Tuesday

The Midland Association of Retarded Children will meet at 7:30 p.m. Tuesday in the Opportunity Center, 2701 N. A St. A new slide show on citizen advocacy will be presented by Mrs. Cecil Aycock. Appreciation cards will be presented to the staff of the Aid to the Retarded. The public is invited to attend.

### Betty Canary Had Too Much Of

**By BETTY CANARY**  
Newspaper Editor-at-Large

Going Home From the North to the Old South, 3. Being Ill as a Child in the Old South, I'll cancel my subscriptions.

Other stories I hope not to read during the coming year:

Stories explaining the author's homosexual urges are caused by an alcoholic father. Stories explaining the author's homosexual urges were caused by an alcoholic mother. Stories blaming society for the murder of the main character. (Why not just blame the man who hit him with a lead pipe?) Stories where the dialogue consists of "Hey, man..." "Like, Wow, already!" "Let's split this scene."

Articles I hope to never see again:

Anybody's reflections on Howard Hughes, Princess Grace, Jackie O, Hemingway. Especially the reflections of such personages as the garage mechanic who removed Hughes' car from a garage late one night in February 1947 or the girl who washed the floors at the little restaurant where Princess Grace ate a sandwich during the filming of her first picture. "All-revealing" autobiographical works by priests and professors who experimented with glue-sniffing, hash, morning glory seeds, heroin, grass, etc.

Anything written by a male on the subject of the women's liberation movements, especially if it is a comparison of the 20s and women of the 70s.

**For Children**

Spread an old plastic table cloth on the floor and let the children finger-draw with glue an interesting design upon heavy paper, then sprinkle a colored detergent over the drawing. The detergent will cling to the glue, making an interesting raised design on the paper.

### Dear Abby Overseas But Not Underloved

**—By Abigail van Buren**

Courage to those who are separated from their loved ones.

**MRS. RONALD M. HAYES**  
**DEAR MRS. HAYES:** Thank you for a beautiful reminder. Many of us casually take for granted the blessings others are denied.

**DEAR ABBY:** That woman who wrote to you about having a mad-crush-on-her doctor has the same problem I had, only I didn't have sense enough to ask anybody's advice. I plunged right into a stupid affair with mine. All I can say is, if a woman has to have an affair, she should find herself a nice salesman. The last man in the world to pick is a doctor. He just doesn't have the time to carry on a decent affair. He has a hundred built-in excuses for not showing up, canceling out, or running away early.

Mine never did call me by my first name, or last name. Or even the number on my chart. Sign me.

**CURED IN ALBANY**  
**DEAR CURED:** According to my mail, (with few exceptions), the only woman a doctor has time for other than his wife is his nurse.

**DEAR ABBY:** Our daughter and her fiancé told us they would rather have \$1,000 in cash than a big wedding. Our stipulation was that she would tell us when it was to occur and we would give her the money.

They were married on a Saturday and we were not told until the following Monday (they sent us a brief note). Although they didn't honor their part of the agreement, we honored ours.

At Christmastime we gave our son a new car. He's a college student and needed reliable transportation. Our daughter immediately asked us where "her" car was. In other words, she felt that since we gave her brother a car for Christmas, she had one coming, too. Her husband makes a good living, but as an appeasement gesture, we told our daughter that when she was ready to buy a home, we would give her the price of the automobile toward a down payment.

These are the only children we have, but how much do you think parents owe their grown children?

**BAFFLED IN BALTIMORE**  
**DEAR BAFFLED:** They don't "owe" their grown children anything. I don't know much about your son, but your daughter appears to be taking you for all she can get, and she's getting plenty.

**DEAR ABBY:** That dentist who said the reason people lose their teeth is because of carelessness and neglect ought to meet my husband. He is 95 years old and he still has all his own teeth, and never had a filling in any one of them. He never had a toothbrush in his mouth and never even heard of dental floss. Besides that, his teeth are so white and pretty folks keep asking him what dentist made 'em. He must have kept his mouth sterilized with some of the hottest words a man could release between his teeth.

**PRE-SCHOOL CLUB** — Mrs. Ted Noel, left, newly installed president of the St. Ann's Pre-School Mothers Club, is pictured with the outgoing president, Mrs. Melvin Dunn.

## Pre-School Club Installs Officers

Mrs. Ted Noel was installed as president of St. Ann's Pre-School Mothers Club during a salad supper held recently in the home of Mrs. Larry Dorsey, 2512 Bedford Drive.

Hostesses were the outgoing officers and committee chairmen, Mrs. Melvin Dunn, Mrs. Bernard Lednicki, Mrs. Merrill Witt, Mrs. Jerry McHugh, Mrs. Bill Stelzer, Mrs. Dorsey, Mrs. Martin McCarroll, Mrs. Patrick Ryan, Mrs. Jim Yakshaw, Mrs. Bill Baute and Mrs. Lynn Hunt. Other officers installed were Mrs. Dallas Pickett, first vice president; Mrs. Joseph Dominguez, second vice president; Mrs. J. B. Fitzmorris, secretary; Mrs. Jim Samples, treasurer; Mrs. Robert Gray, historian, and Mrs. Rusty Buckingham, parliamentarian.

New committee chairmen are Mrs. Carl Fisher, membership; Mrs. McHugh, yearbook; Mrs. Joseph Reese, courtesy; Mrs. Mike Higgins, baby-sitting, and Mrs. Kenneth Simpson, telephone.

## Sergeant Johnson Speaks To Club

"Measures for Home Protection" was the title of a program given by Sgt. Fred Johnson for a recent meeting of Modern Study Club in Midland Woman's Club. Mrs. Harrie A. Smith was hostess for the social hour.

The speaker, a member of the Midland Police Department, discussed crime prevention with emphasis on "home security." He suggested keeping a list of the manufacturers' serial numbers on articles likely to be stolen, such as television sets, guns, tools, cameras and other such easy to sell items. Engraving the owner's drivers license number on the item also provides excellent identification, he told the group. Sergeant Johnson displayed a number of locks available for home use. He explained the safety value of each and said there were locks on the market that were almost impossible to open. He also suggested that outdoor lights be left on all the time by residents.

**ARBOR DAY PLANTING** — The Midland Garden Club planted a tree at the Alamo Center YMCA as an Arbor Day project. Pictured are, from the left, Mrs. L. H. Humphrey, Arbor Day chairman; Mrs. C. E. Bissell, club president; Dave Maddox, Alamo Center Y director, and Mrs. A. P. Shirey, horticulture chairman of the club. Also assisting was another club member, Mrs. Virginia Summers.

## David Johnson, Midland Student Is Guest Pianist

## POLLY'S POINTERS

Get Fair Treatment In Public Places

By POLLY CRAMER  
Newspaper Enterprise Association

**DEAR POLLY** — I am answering Mrs. T. R. who wanted to know about a proper approach in restaurants, grocery store lines, etc., for "getting a fair shake without resorting to boorish behaviour." She and her husband "both believe in the undemanding and genteel approach to all situations but are realizing the nice guy is usually the fall guy." My husband and I have also been victimized by ill-mannered and thoughtless people. Without lowering yourself to their level, simply speak up firmly but never rudely. When you make a reservation in a restaurant and are then seated near the kitchen just say, "I am sorry but this table simply will not do. We prefer a table by the window" (or piano or whatever). When someone pushes ahead of you in a line say, "I beg your pardon, I am sure you did not notice but I was here first. The end of the line is behind me." And when a waitress bypasses you for someone who has come in later quietly and politely notify her of that fact and say you would like to be taken care of in turn or you will go some place else. Delivered in a firm tone, but with a smile, this will almost always bring good results. Most rude people either know nothing about good manners or are so preoccupied they actually don't see you or they intend to take

**DEAR POLLY** — Does anyone know if any type of eraser (and if so what kind) can be used to remove some pencil scribbling from the front of a nice portrait that has a dull finished surface? The marks are quite deep. — MARY LEE

**DEAR POLLY** — I guess I have a lot of Pet Peeves but one has angered me about 10 times this morning. It is with paper towel manufacturers who run them about one quarter inch too narrow so when you make a grab for one the roll falls out of the holder and unrolls itself across the counter top and sometimes falls on the floor — and also I am peeved with husbands who never pick up a towel (and the roll, too) off the holder. Thanks for listening. — LUCILE

## From The Easy Chair

by  
Hines

Conscience is that nagging voice that tells you not to do something after you've done it. Fashion experts say men need more color in their clothing. Most men would get it for the lovely green that folds. Politician: a fellow who works his gums before the election, and gums up the works afterwards. Our nation's economy seems to be based on the belief that we shouldn't practice it. At Hines Wood Upholstery Company, 5109 Andrews Hwy., you can practice good economy and have beautiful living room furniture, just call OX 4-8891 and let our decorator consultant show you how easy one can practice economy.

## Mrs. Ferguson Receives Award At State Hospital

**BIG SPRING** — Mrs. Theo Ferguson of the Midland Volunteers to the Big Spring State Hospital was presented a service pin for 8,000 hours of volunteer service to the hospital at the Volunteer Council's quarterly luncheon held recently in the Allred Building at the hospital. Other top service awards included Mrs. Ernest Nelson of Midland, 4,500; Mrs. E. M. Braselton of Midland, 3,500, and Mrs. John Caldwell of Midland, 2,500. Special honorees at the luncheon were the outgoing executive officers of the council, including Dr. Harold Smith, Mrs. Caldwell, Mrs. J. R. Petty and Mrs. H. W. Smith. The incoming officers are Jim Baum, chairman; Ted Ferrell, vice chairman; Mrs. Jewell Richter, secretary, and Mrs. Dale Smith, treasurer. Dr. Preston Harrison, hospital superintendent, presented the awards. Dr. Smith presided. The Rev. Earl Price of the First Presbyterian Church gave the invocation, and Chaplain Lee Butler gave the benediction.

## Former Resident Married In Temple

**TEMPLE** — Karen Ann Stermer became the bride of Billy Glynn Patton, son of Mr. and Mrs. J. S. Patton, formerly of Midland, in a double ring ceremony Jan. 6 in St. Luke's Catholic Church.

Mr. and Mrs. B. J. Stermer are the parents of the bride. The bridegroom is the grandson of Mrs. Maggie Patton, longtime Midland resident.

The Rev. John Driscoll officiated, assisted by the Rev. Guinn Williams, pastor of Immanuel Baptist Church. Given in marriage by her father, the bride wore a gown she designed and created of peau de sole overlaid in organza. The full sleeves were enhanced with wide cuffs and a double circle of French Alencon lace. A scoop neckline bordered with appliques of lace complemented the Empire silhouette. Lace also encircled the full skirt. Her chapel-length veil of English illusion fell from a headpiece encrusted with appliques. She carried a colonial bouquet of white roses.

Susie Stermer, sister of the bride, was the maid of honor. Also attending the bride were Diane Green and Mrs. Gary Smithwick of Austin.

Gary Hill of Waco was the best man. The groomsmen were Jerry Patton, brother of the bridegroom, and Gary Smithwick of Austin.

Wedding guests were seated by Bruce Stermer and Curtis Stermer of Austin, brothers of the bride, and Mark Miller of Austin, Craig Stermer and Brian Stermer, brothers of the bride, served the wedding Mass.

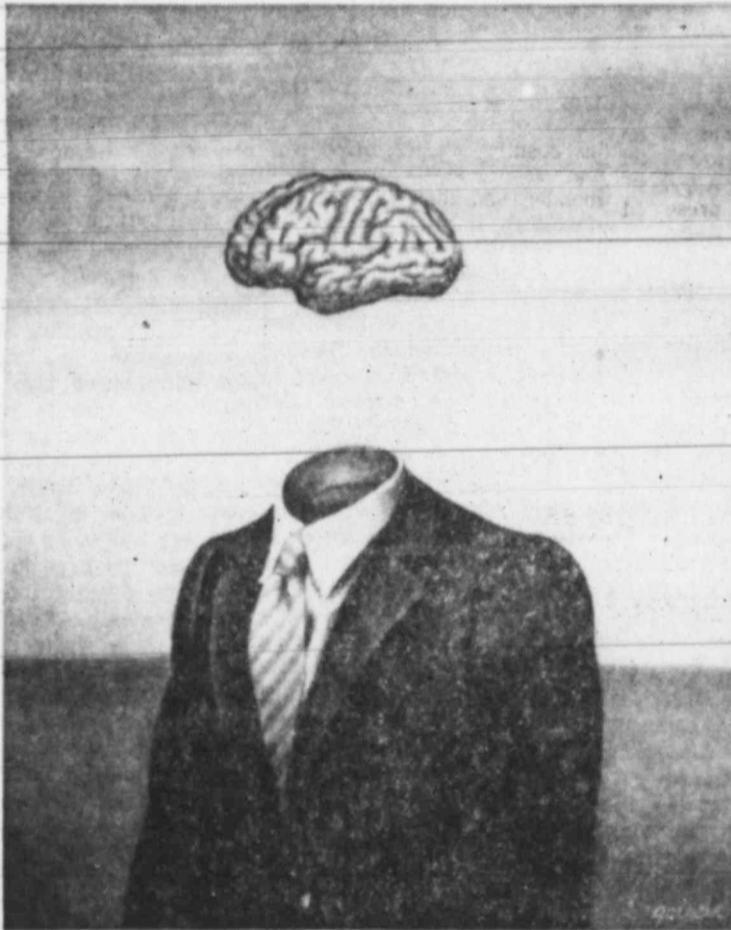

After the ceremony, a reception was held in the Parish Hall. The bride is a 1972 honor graduate of Temple Junior College, where she was a member of Phi Theta Kappa. She attended Southwest Texas State University and is enrolled at The University of Texas-Austin, where she is majoring in elementary education. The bridegroom attended TJC and is a psychology major at UT-Austin. He is employed by the Texas Department of Public Safety in Austin.

Following a trip to the Texas coast, the couple is living in Austin.

## Makes It Moist

Place a small tin of water in the oven when baking bread to help keep the crust from getting too hard. Water placed in an oven this way when baking an applesauce cake will also help to make it moist.

**The new M.I.T. specials, presented by Shell, deal with how science is trying to solve social problems. You will be required to use something that television rarely asks you to use.**

Science is changing. And so is technology. Today's scientists are less and less dispassionate experts. And more and more involved human beings.

Trying to solve social problems that can help make a better world.

The new science and the new technology is what this upcoming series of television specials is all about. M.I.T., in association with A.B.C. News, has put it together.

To give you just a few examples of what kinds of shows these are, consider: You'll see why today's scientific minds are throwing accepted theories out the window. How children are learning by teaching computers. Why former Boston Mayor now Professor,

John Collins, is a staunch convert to Professor Jay Forrester's urban dynamics theory. How patients helping doctors can be as important as doctors helping patients if our country's future health care is going to get healthier.

These programs are going to ask questions—a lot of them—and suggest possible answers. Which will get a lot of people to use their brains in a whole new way.

It's a very involving series. An exciting series. A series to look forward to.

We at Shell are both privileged and pleased to be its sponsor.

January 22, 1973—"On the Side of Man"  
This film deals with research into how computers are being developed to accommodate more to man's needs—to free our hands and minds without enslaving our spirits.

February 10, 1973—"Cities: Our Next Frontier"  
A look at how science and technology might improve life in our chaotic cities—based on what the people who live in our cities really need.

March 16, 1973—"Medicine For People"  
How can we take the quality of determination, dedication and expertise in basic research and use it to improve the quality of health care for the people?

April 13, 1973—"Basic Research"  
What makes investigative science so attractive to so many scientists? And what value does it have to society?

May 14, 1973—"Thinking Ahead"  
What new technology will we face during the next quarter century? What will its impact be on all of us?

June 15, 1973—"Educational Research"  
How can education best pass along all our knowledge to future generations?

We're trying to make things better.

# St. Louis Teachers Walk Out

By THE ASSOCIATED PRESS  
A strike by public school teachers in St. Louis — the first in the city's history — was called for today as similar walkouts continued in Philadelphia and Chicago.

Members of St. Louis Teachers Union Local 420 and the St. Louis Teachers Association, with both groups representing 2,800 members, authorized the strike in separate votes Sunday.

Despite a walkout, a spokesman for the school board said classes would be held for the system's 103,000 pupils attending 165 elementary and high schools.

### Pay Raises Key Issue

In all three cities, pay raises are a key issue. The St. Louis teachers have been demanding raises in bargaining sessions which have been under way since November. Their demands include a raise in the starting salary from \$7,200 to \$8,200. They also want a paid hospitalization program and a collective bargaining agreement.

Elsewhere, court proceedings were to begin today against 24 officials of the Philadelphia Federation of Teachers, the group leading a walkout which has started into its third week. The union officials were named in criminal contempt proceedings for refusing to obey a court order to end the walkout.

### Other Demands, Too

Negotiators for teachers in Chicago, who have been on strike since Jan. 10, say three major issues remain unsettled in that walkout and that the school board can not "buy us off with a salary increase alone."

The Chicago Teachers Union rejected a 2 1/2 per cent pay increase because the board's latest offer did not include demands for smaller class size, more preparation periods for elementary instructors and a shorter school year with no cut in pay.

### Geology Course Planned By MC

A five-week course in petroleum geology is scheduled to begin at 7 p.m. today in Room 612 of Lee High School.

The introductory course is offered by Midland College and will be taught by Cyril J. Perusek, a geologist and instructor in the adult education program.

The course is designed for persons who have no geological background and will emphasize the geology, structure, stratigraphy and oil accumulation in the Permian Basin.

Classes will meet Monday and Wednesday of each week for three hours. The fee for the course is \$30 per person.

Perusek is a reservoir engineer with 25 years experience in the Permian Basin. He has taught at Texas Tech University and Odessa College.

Registration will be conducted prior to tonight's class. Additional information is available by contacting the Midland College administrative offices, 1801 W. Wall St.

### ABDUCTOR SOUGHT—

## Rabbit Hunters Rescue Boy Captive Eight Days

NANSEMOND, Va. (AP) — Police in two states today sought a man with a history of sex crimes after a 13-year-old boy who was held eight days in a wooden box was found by rabbit hunters.

"If it hadn't been for four rabbit hunters, I doubt if anyone ever would have found the boy," said Police Sgt. S. B. Chapman.

The boy was discovered Friday in a large wooden box buried in the ground. Police said he had been kept chained and had been sexually assaulted.

Richard W. Ausley, 32, a Portsmouth carpenter and a prison parolee, was named in warrants charging him with abduction and sexual assault. Ausley was being sought in southeastern Virginia and northeastern North Carolina, but had not been found early today.

Police said Ausley, paroled in 1971 after serving a prison term on a similar charge, was an "accomplished woodsman" and might have fled into the vast Dismal Swamp, a 300-square-mile area of heavily wooded swampland in the two states.

**LIKES AEROBATICS**—Mrs. Jeanne Munns, 57, stands beside her open-cockpit biplane. When she feels restless, she says, she jumps in and takes off for a few spins and rolls. (AP Wirephoto.)

## She Goes In For Spins, Rolls

By BILL WINTER

OXFORD, Ohio (AP) — When 57-year-old Jeanne Munns feels restless, she jumps in her tiny open-cockpit airplane, roars into the sky and does a few turns and rolls.

"My hair's getting some gray in it, but I'm not looking for a rocking chair," said Mrs. Munns, a devoted aerobat.

Mrs. Munns, widowed in 1954, grew up afraid of flying. But she set aside that fear when she had to hurry to the side of her sick mother in Georgia eight years ago.

### Enroll For Lessons

Flown to Georgia by a friend in a private plane, she instantly fell in love with air travel.

She enrolled for flying lessons and earned a license.

In 1971, an acquaintance introduced her to the tiny Pitts Special, a 1,500-pound dual-wing aerobatic plane which Mrs. Munns says "looks like you could put it in the palm of your hand."

"The first time I rode that plane I just flipped," said the 5-foot-4, 140-pound pilot. "I just had to have it."

Mrs. Munns shelled out \$26,000 for one of the tiny two-seat planes and traveled to Wyoming to pick it up at the manufacturer's plant.

"Boy, that was something to get the call that it was ready," she said. "But when I got out there and saw those mountains, I had other ideas."

"About all I could do (flying home) was follow the roads through the mountains. It got a wee bit cold up there."

Mrs. Munns, who'll travel to Miami, Fla., this week for advanced instruction in aerobatics, recalls with laughter her introduction to the sport three years ago.

She cringed, she said, when the pilot announced he would "do a couple of spins."

"I told him to wait, that I was in no hurry," she said.

"But six months later, I could do 19 turns at a time in a spin. I was scared at first, but I wanted to do it."

"I don't get dizzy and I don't get sick, if you know what I mean," Mrs. Munns, a Tulsa, Okla.,

native who's been a participant in several air shows, recommends aerobatic flying to any healthy 57-year-old woman, or man.

"It's probably the safest flying in the world," she claimed. "You're on top of it. You're with it. You don't just sit back and let things happen."

### AFTER CEASE-FIRE—

## Terror Tactics Seen In Vietnam

By FRED S. HOFFMAN  
WASHINGTON (AP) — U.S. military officers predict Communist forces in South Vietnam will revert to guerrilla tactics, terror and assassination after a cease-fire.

Influenced by intelligence reports and past history, these

### Police Vehicle Involved In Wreck

A police car was involved in a wreck at Texas Street and Lamesa Road about 5:30 p.m. Sunday.

Driver of the police car was Det. Sgt. Jim McFadden and driver of the other car was identified as J. D. Robinson, 35, of 1009 N. Colorado St.

The detective's car was stopped facing east on Texas Street waiting for Lamesa Road traffic to pass before crossing the intersection. Patrolman B. W. Morgan reported.

Robinson's car was traveling south on Lamesa Road and the collision occurred when it made a turn onto Texas.

### Primitive Mammals

The most primitive mammals are the egg-laying echidna and the duck billed platypus.

American officers expect a cease-fire at best to be only a pause in the long war between the Vietnamese for control of the South.

They doubt that an international supervisory organization will be able to prevent this happening, even with a policing force of thousands.

Henry Kissinger, who returned to Paris today in hopes of completing a peace agreement with North Vietnamese diplomats, said recently that the United States aims to avoid ending the war "in such a way that it is just a beginning of another round of conflict."

But outgoing Secretary of Defense Melvin R. Laird sounded pessimistic about a lasting peace in Vietnam when he told his final news conference last

Friday: "I hope and pray there will not be any killing in Vietnam, or Laos, or Cambodia, or in Southeast Asia, but as a practical man I cannot assure you of that."

"I am not promising anybody that, under any kind of agreement, because I know the history of Southeast Asia... I am talking about every possible kind of agreement," Laird said.

In private, American military officers are even more skeptical. They view the continued presence of North Vietnamese troops in South Vietnam during the formal cease-fire as potentially fatal to peace.

There is nagging worry too about the quality of some South Vietnamese leadership, particularly in certain divisional and regimental commands. And

there is no way of telling how the South Vietnamese army will stand up without the support of U.S. air power and American advisers.

While these doubts about the South Vietnamese persist, American military officers say they have no doubts the Communists are preparing for a long-haul military effort, probably involving a switch in tactics from large-unit battles to guerrilla-type warfare.

As recently as last week, these officers learned of orders from the Central Office for South Vietnam, which directs Viet Cong activities, calling for increased efforts to interfere with pacification and to develop underground agents in government-controlled hamlets.

In recent weeks, the North Vietnamese were said to be moving to set up a logistics command and headquarters in northern Tay Ninh Province from which Saigon and the heavily populated area around the capital could be threatened.

South Vietnamese troops in recent days appear to have been attempting to checkmate this move by driving North Vietnamese regiments back from the base area.

Maintenance costs tend to increase with time.

So a maintenance contract on communications equipment should never run out.

After all, machines are only human. As they get older, they usually need more care.

So it's no bargain to get a short-term maintenance contract on communications equipment you expect to last for ten years or more.

That's something to remember when you compare our monthly rate with purchasing or leasing a communications system.

With Southwestern Bell, maintenance is included in the rate. No time limit. And there's no limit to the components and systems covered either. For minor repairs. Or catastrophies like fires, floods, storms.

We may also offer significant advantages in other areas, including taxes, insurance, attendant training, rearranging lines and changing your system to meet your needs. When it comes to communications, you haven't heard the whole story until you've talked to us.

We work for your business.

# Texas Continues To Set Pace In Cattle Feeding

WASHINGTON (AP) — Feedlots will turn out seven per cent more cattle during the first three months of 1973 than a year ago, the Agriculture Department says.

## Paper Says Hughes Has Heart Seizure

LONDON (AP) — Billionaire Howard Hughes has suffered an apparent heart attack, the Daily Mirror reported today.

The mass-circulation tabloid said the 68-year-old Hughes has been confined to bed in his ninth-floor suite at the plush "Inn at the Park" hotel and ordered to stop work.

The paper reported Hughes aides as believing the American had suffered a heart attack, but also quoted a spokesman as saying: "It is true that Mr. Hughes has not been too well. But he is now fit and well. During the past week Mr. Hughes has been confined to bed."

The Mirror, which also reported that an American heart specialist had been called in last week, reported that special smooth plastic-coated matting had been laid over the thick carpets in Hughes' suite so he could move around more easily in a wheelchair which was delivered last week.

Meanwhile, the hotel still insisted that Hughes was not in the hotel.

As of Jan. 1, according to USDA surveys, feeders in 23 major beef states said they intend to market 6.9 million head during the January-March quarter, compared with fewer than 6.5 million a year earlier. Most of the gain is expected in Texas.

Texas, which has led the nation in production of feed cattle the last year or two, continues to outrank Iowa, which historically has been the top beef state.

The survey showed Texas expects to market 1.26 million cattle by March 31, compared with 947,000 in the first quarter of 1972. That would be a 33 per cent increase.

By comparison, Iowa feeders say they hope to sell 890,000 head, up three per cent from 868,000 a year earlier.

Nebraska will be the second-ranked producer during the first quarter with an estimated 1.05 million head for market, up six per cent from 994,000 last year, according to the survey.

Kansas, with 700,000 head expected to be sold, was ranked fourth. That would be a 15 per cent increase in feedlot marketings from January-March last year, when 610,000 were marketed.

There was almost a tie for fifth-place feedlot sales. Colorado showed 545,000 head for market, a decline of four per cent from last year, while California feeders reported they expect to sell 540,000, or a gain of three per cent from early 1972.

**NEW MEMBERS**—Four of 29 members of the youth communicant class received into membership of the First Presbyterian Church are greeted by the minister, the Rev. Robert B. Smith, left, and associate minister, the Rev. Forrest K. Whitworth, at a reception following worship services Sunday. The youths from left are Brian Whiteley, Kim Wood, Craig Aldridge and Clare Thompson.

# House Hearing Set Thursday On Bill To Protect Newsmen

WASHINGTON (AP) — A House subcommittee plans hearings Thursday on legislation to protect the confidentiality of newsmen's sources and notes, Rep. Bob Kastenmeier said today.

The Wisconsin Democrat, chairman of the judiciary subcommittee, said the first day of hearings will be devoted to congressional testimony. He said subsequent hearing dates are tentatively set during the first week of February to solicit views from newsmen, their organizations, administration witnesses and other interested groups and individuals.

Kastenmeier said Rep. Peter Rodino Jr., D-N.J., chairman of the Judiciary Committee, is to be the leadoff witness Thursday.

The subcommittee will examine further the question of

whether or not a newsmen's privilege should be created, and if it is created, whether or not it should be qualified or absolute, and applicable to state as well as federal proceedings," Kastenmeier said.

There currently are 21 measures in the House intended to protect newsmen's sources. Five measures have been introduced in the Senate.

# House Roll Call Soon To Join Rebel Yell In Limbo Of Past

By EDMOND Le BRETON WASHINGTON (AP) — Within the week, the tradition-loving House will take a long step into the new world of instant mathematics and electronic memories. The members will begin voting through a computer.

The sonorous, and time-eating, call of the 435-name roll — "Baskin," "Aye," "Ay-uh," "Butterfield," "No," "Nooo," — will join the cavalry's bugle call, the rebel yell and the other sounds of history.

Beside sparing the larynxes of clerks, electronic voting will almost halve the time consumed, saving some 90 hours of lawmaking time a year, provide practically instantaneous written records of votes, break them down by parties or states as required and, perhaps, end the need for embarrassing corrections previously made when absent members were found to have been recorded as voting.

The House's million-dollar installation, touted as the first fully electronic system of its kind in the world, can run rings around the simple electric voting setups common in state legislatures.

Each member has been issued a plastic oblong that looks much like a credit card. It bears the member's photograph, in color, and perforations that give the computer the identifying information.

Voting stations have been installed at 49 strategic locations on the House floor. Any member can vote at any of these by inserting his card and pushing the appropriate button.

Suppose he left the card in his other pants? He can go to the master station at the rostrum, execute a written ballot, and have the clerk record his vote with an all-purpose device.

On the gallery wall behind and above the speaker's desk, a scoreboard will flash the names of all members and their votes. Running and ultimately final totals will be displayed on panels at each side of the chamber.

The old-fashioned roll call took a minimum of half an hour. This was time enough for members to get to the floor from their offices or committee rooms in three buildings, or from the House restaurant, gymnasium or swimming pool.

The long roll call also was a final opportunity for party leaders to round up votes and cajole waverers.

The computer has some benefits for party leaders, too. Installed at the tables used by the Democratic and Republican leaders is a readout device, similar to a small television screen. On command, at any time during a roll call, the computer will flash a list of how party members voted or of members who have not yet voted.

So some of the persuasion time lost by the computer's speed could be made up by its ability to pinpoint persuadees.

Sgt. Fred Johnson, head of the Midland police crime prevention program, spoke about narcotics to sixth graders at Jane Long Elementary School this morning.

He gave the children an introduction into drugs, talked about drug abuse and discussed reasons young people often give for starting to use drugs. Johnson gave similar talks to students at Austin Freshman School last week.

# Jewels Recovered By Church Shrine

NEW YORK (AP) — An FBI official says organized crime doesn't mean that organized crime was responsible for stealing the return of almost all of the rare jewels stolen less than two weeks ago from a Roman Catholic shrine in Brooklyn.

Two diamond-studded gold crowns, four diamond stars and a cluster of diamonds were found Sunday afternoon in a coin locker at the East Side Airlines Terminal in Manhattan.

The tip came from an anonymous "gruff-speaking" man who called the FBI office in Manhattan, asking by name for the agent working on the best of jewels Jan. 10 from the Regina Pacis Votive Shrine of St. Rosalia's Church. "We believe organized crime may have been instrumental in recovering the jewels," said John F. Maline, director of the

That doesn't mean that organized crime was responsible for stealing the return of almost all of the rare jewels stolen less than two weeks ago from a Roman Catholic shrine in Brooklyn.

A diamond earring, a diamond necklace and a diamond bracelet were still missing. The jewels are insured for \$100,000 but parishioners say they are worth many times that amount.

City police four days earlier had arrested and charged two unemployed construction workers and a 17-year-old girl with grand larceny and burglary in the theft. No organized crime help was received, police said. Many reputed underworld figures are parishioners of the church in the Borough Park section of Brooklyn, including Don Carlos Gambino, described by authorities as the "boss of bosses."

## Midlanders Hurt In Car Collision

Levi Johnson, 44, of 2300 E. California St. received a badly cut chin about 11:45 p.m. Sunday when his automobile and another vehicle collided in the 1900 block of East Indiana Street.

He was admitted to Midland Memorial Hospital and his condition this morning was listed as satisfactory.

Driver of the other car was identified as Royce Elbert Hopes, 34, who police said lives at 206 E. Dormard St.

A passenger in Hopes' car, Willie Mae Nelson, 42, of 2407 California St., was treated at Midland Memorial and released.

## Adm. McManes Dies

BETHESDA, Md. (AP) — Rear Adm. Kenmore McManes, 72, former commandant of the 6th Naval District and Charleston Naval Base, died Saturday.

## Songwriter Dies

SANTA MONICA, Calif. (AP) — Songwriter Ted Koehler, 78, composer of "Stormy Weather," "Between the Devil and the Deep Blue Sea," and many other songs, died Wednesday.

# Midland Students Named All-State Band Members

Nine Midland students were selected Saturday as all-state band, choir or orchestra members for 1973.

Chosen for the all-state band were Tim Thomas, trumpet, and Alan Lawrence, timpani, both of Lee High; as well as Mark Basicsek, tuba, and Peggy Rittenhouse, bass clarinet, both of Midland High.

Representing Midland in the all-state choir will be Carry McCallum, soprano; Barron Frith, bass; and Mike Hester, tenor, all students at LHS.

Picked for the all-state orchestra were Russ Standefor, tuba, and Mike Hankinson, trombone, both from LHS.

The regional band and orchestra tryouts were held in Lubbock, while the choral auditions were in Odessa. Also competing were students from the Amarillo, Lubbock and El Paso regions.

Among other students selected from the Midland area were Blaz Bailon Jr., baritone saxophone, from the Big Spring High School Band; and all-state choir designates Randy Taylor, tenor; Carrie Wheeler, alto; Joel Dyer, tenor; Bobby Loyd, bass; Dick Conley, baritone; and Melanie Hayworth, soprano; all of

Big Spring High School.

The all-state band, choir and orchestra will perform for the annual meeting of the Texas Music Educators Association, meeting Feb. 7-11 in San Antonio.

Dr. Lata Hoggard, former conductor of the Midland-Odessa Symphony will direct the all-state choir, making him the only conductor ever selected for the honor four times. Dr. Hoggard is now professor of music at the University of North Carolina.

# Midland Livestock Judging Under Way

The first major wins in the annual Midland County Livestock Show Sunday went to Linda Maroney and Tim Wallace.

Miss Maroney's entry, Fleet's Polly, was named grand champion gelding, and Sunset Five, shown by Wallace, was judged grand champion mare.

Tim Clark's Funny Face Five mare, and Granger Buck, shown by Cindy Carnes, was reserve champion gelding.

The show, which got under way Saturday, ends Tuesday with the annual auctioning of show animals.

Linda Hancock picked up a pair of first places with her entries in the 1972 mare and 1969 and before mare divisions.

In the 1971 mares competition, Miss Carnes' entry was first and the mare shown by Dana Milner was second.

Wallace's Sunset Five was first in 1970 mares. Clark took second with his mare, Miss Hancock's entry was third and Miss Carnes' mare took fourth.

In the 1969 and before mares, Jay Harris showed the second place entry, Jeff Conner the third and Zeb Harris the fourth.

Randy Bomar showed the top 1971 gelding.

In the 1969 and before gelding division, Miss Maroney's horse was first and one owned by Miss Carnes was second. The third best gelding in this division was shown by Kim Clark, while the first place award went to Ken Woodruff.

Reports from satisfied users show  
**exclusive formula helps reduce swelling of hemorrhoidal tissues**  
... caused by edema, inflammation and infection.  
And gives quick temporary relief  
in many cases from burning itch and pain.

The edema, inflammation and infection in hemorrhoidal tissues may cause much agony and suffering. But now the Menothium people have developed M.P.O. (Medicated Pile Ointment). This exclusive doctor-tested formulation in many cases gives fast, soothing relief that lasts hours from the burning itch, the pain and discomfort of swollen hemorrhoidal tissues.

M.P.O. works quickly but gently with a soothing action to help shrink the sore, inflamed swelling of such tissues caused by infection. M.P.O. also lubricates to protect and allow for more comfortable bowel movements. M.P.O. is temperature-stable, thus stays in place for such temporary relief in many cases. Be sure you get M.P.O. in Ointment or Suppository form.

# Buckley Lubbock Speaker

LUBBOCK — Author, editor, lecturer, television host and political pundit William F. Buckley Jr. will speak in Lubbock Municipal Auditorium at 7:15 p.m. today under auspices of The Texas Tech University Speakers Series.

Buckley's column, "On the Right," appears in more than 300 newspapers across the country. His weekly television talk show, "Firing Line," is seen on more than 200 Public Broadcast Service network stations.

Buckley received his early education in England and France. He later studied at the University of Mexico and was graduated from Yale with honors in political science, economics and history. At one time he served on the faculty of Yale and then was associate editor of the old American Mercury magazine. Buckley founded the National Review in 1955.

The author of nine books, Buckley is best known for "Up From Liberalism," "The Jeweler's Eye: A Book of Irresistible Political Reflections," and the recently published "Inveighing We Will Go."

Buckley's lecture here will be open to the public at no charge; however, admission passes must be obtained and these are available at the ticket booth in the University Center on the Tech campus.

### Science Series Premier Tonight

By JAY SHARBUTT  
NEW YORK (AP) — The ABC Television network is starting a new science series tonight called "What About Tomorrow?" They announced it by mental telepathy, so they may really be on to something big.

Actually, they didn't tout it that way. They used the phone. But if the shows prove a success, it wouldn't surprise me to see the series out probing the

### Professor Gives Books To UTPB

ODESSA — Dr. C. Aubrey Smith, recently retired accounting professor at The University of Texas at Austin, has presented his personal library valued at over \$16,000 to the University of Texas at the Permian Basin in Odessa.

Prof. Smith, with 48 years on the UT-Austin faculty, holds the record for the longest teaching career in the College of Business Administration. The scholarly books, journals, and masters' and doctoral theses Dr. Smith donated to UTPB comprise a comprehensive library in business and accounting amassed during his lifetime of teaching.

Included in the valuable collection received from Dr. Smith are a number of complete bound sets of scholarly journals as well as many original masters' theses and doctoral dissertations written under his direction.

**Business Booming**  
There are about 50,000 thatched cottages in England and 600 master thatchers. The skilled craftsmen have more work than they can handle.

world of extrasensory perception some day.

The basic theme of the series is the effect of science and technology on our daily lives. It's a broad, difficult assignment, but the producers have some fair academic help.

The Massachusetts Institute of Technology is collaborating with ABC on all the six half-hour shows now planned, providing both on- and off-camera assistance for each program.

The first show — airing at 9:30 p.m. CST today — deals with new computer technology and its potential for good. It's titled "On the Side of Man."

The producers get off to a good start, particularly with a segment about MIT scientists trying to broaden the language of the computer.

Oddly enough, the segment sharply illustrates how imprecisely we convey our thoughts; it should be shown to students for whom three grunts and a shrug constitutes a sentence.

Another good episode involves children "teaching" computers to form geometric shapes and in the process getting what an MIT scientist calls "a taste of the beauty and power of mathematics."

The new series, which will appear once a month, comes none too late, according to Dr. Jerome Wiesner, president of MIT and former science advisor to the late President John F. Kennedy.

"In my own view, there is a desperate need for people to get a better understanding of the things now going on in science and hopefully learn a little bit about how science works," he said.

"There's a growing anti-science, anti-technology movement at the moment that I think can be very damaging to society if we don't bring it under control."

**FIRST CHECK** — Ten-month-old Kevin Forwith of Cincinnati, Ohio, displays his first paycheck. Kevin, son of Mr. and Mrs. Donald Forwith, received the check from a laboratory for taking a bath daily using a test soap. His father says Kevin would rather eat the check than cash it. (AP Wirephoto.)

### 'Jonathan Livingston Seagull' Will Be Classic, Producer Says

By DICK KLEINER  
HOLLYWOOD (NEA) — By now, practically everyone has read the biggest bestseller in years, Richard Bach's "Jonathan Livingston Seagull." Everyone who has read it believed that there was one book which would never — could never — be made into a movie. (Most thought this of "Everything You Always Wanted to Know About Sex . . .")

Wrong again. Meet Hall Bartlett, the intrepid producer who has bought Seagull and is in the process of filming it. Bartlett is a Hollywood veteran. His latest film is "The Wild Pack," which originally bore the more descriptive and appropriate title, "The Sandpit Generals."

He feels that "Jonathan Livingston Seagull" will be a classic film, as he similarly feels the book is already a classic book. But he realizes there may be problems ahead.

"I'm flying in the face of everything," he says. "In this era of violent, sexy pictures this is one which preaches love and goodness."

You might expect, if somebody decided to make a movie out of a bunch of seagulls and their philosophical adventures, it would be done either with animation or else with people dressed up in seagull suits.

Wrong again. Bartlett is using real seagulls. The birds are being trained by Hollywood's foremost birdman, Ray Berwick, who made Hitchcock's "The Birds" what it was. They have found 13 "star" birds, 55 "supporting" birds and 150 "extra" birds.

There is a curious story behind how they found the bird who will play the lead. Bartlett and Berwick were having dinner at a restaurant in Carmel. They were seated by a window which had louvers at the bottom and there was a platform out side. The patrons would throw bits of rolls onto the platform and the seagulls would flock down to have a snack.

"I noticed one bird," Bartlett says, "who was very aggressive. He'd keep all the others away. Both Ray and I felt he was a special bird. But there seemed to be no way to catch him until Berwick got an idea. He put his hand through the

louvers, palm up, with a piece of fish in his hand.

"The bird came right to him and Berwick grabbed it by the beak and pulled him through the louvers. He was squawking and fighting but Berwick knows how to handle birds. He borrowed my jacket, wrapped him up in it and we took him outside to the station wagon.

"Then we had to come back and explain to the other patrons who were about to call the police, that we had a license from the state to catch gulls for the film."

That incident is an example of Bartlett's feelings that this is a "watched-over" project. He says he thinks the book was watched over and so far the film has been, too.

Richard Bach basically had been an unsuccessful author — a few published books, nothing exceptional. One day he was walking along a deserted beach and there was a voice in his

ear, saying three words: "Jonathan Livingston Seagull."

He was frightened. He had never been a particularly religious or spiritual man. But the voice was strong, so he went home and sat at his typewriter. And the first of the book's three parts came to him. He wrote them down.

But nothing happened. He couldn't sell it. Eight years dragged by and by now Bach had a wife and six children. And then he heard the voice again, the same voice, the same three words.

He went home and this time the second and final parts of the book came into his head and he typed them quickly. It took him the better part of a day, rummaging through old cartons and trunks, until he found the first part. The three parts matched perfectly.

Still, he couldn't sell it for a long time until, eventually, a small aviation magazine bought the story — for \$200. It was one of the magazine's readers who suggested that it should be published as a book. So Bach sent it to many publishers, who rejected it.

Finally, Macmillan bought it. But they wanted many photos of seagulls to go with the text. Bach went to a photographer friend and asked if he knew anybody who could take some pictures of seagulls.

The friend smiled and went to a shelf and dragged down a box. It was full of reagent pictures. He had once gotten a commission from some foundation to take pictures of seagulls but nothing had ever happened.

Again, you see, the project was watched over.

Bartlett's part in it has a strange feature, too. A girl friend who read the book — even after it was published, it didn't make the best-seller list for 18 months — and suggested he read it. But he dallied and didn't read it for weeks. When he finally did, he knew he wanted to film it.

He called Bach who said he was just about to sign a deal with David Wolper to do it — and he would have already signed, but somebody was ill so the deal was delayed.

Bach wanted to do it with Bartlett because he felt Bartlett saw it as he did — with live seagulls and a voice-over narration. So he signed with Bartlett. Maybe somebody up there likes the idea of "Jonathan Livingston Seagull" becoming a Hall Bartlett movie. It could be a very wise old seagull.

### Jane Fonda, War Activist Marry

LOS ANGELES (AP) — Jane Fonda, the actress and antiwar activist, has married Tom Hayden, one of the Chicago 7 defendants.

A spokesman said Sunday that they were married Friday night at ceremonies which included Vietnamese songs and Irish jigs. He said they plan to work together for the Medical Aid Fund for Indochina.

### Rudolf Is Selected By Dallas Symphony

DALLAS — Max Rudolf, whose name is one of the best-known in the music world, has been appointed artistic adviser for the Dallas Symphony Orchestra, according to announcement by J. L. Vandagriff, DSO president.

Rudolf, formerly artistic administrator for the Metropolitan Opera as well as music director of the Cincinnati Symphony for 12 years, is considered by many to be the dean of musical directors in the nation.

"Mr. Rudolf will serve as artistic adviser to the Dallas Symphony, effective immediately," Vandagriff said in making his announcement, and will be responsible for the artistic guidance of the Symphony, during the period we are without a musical director. These responsibilities will include the over-all development of the subscription season, the handling of all personnel matters of the orchestra, consultation on such matters as guest artist and conductors and other matters of artistic significance. In addition, Mr. Rudolf will be a guest conductor of the Symphony during the 1973-74 season."

Rudolf, born in Germany in 1902, is best-known for his work at the Metropolitan Opera. He joined the company's music staff in 1945, then, in 1950, the first season of the Met under Rudolf Bing, he became its artistic administrator. In 1958, Rudolf left the Met to become musical director of the Cincinnati Symphony, a post he retained for 12 years. Rudolf now makes his home in Philadelphia where he is on the faculty of the Curtis Institute of Music. He will rejoin the staff of Metropolitan's staff of conductors in the fall of 1973.

Rudolf has been a guest conductor for almost every major Symphony in the United States, including the New York Philharmonic, Boston Symphony, Philadelphia Symphony, the National Orchestra of Washington, Cleveland Symphony, Minnesota Symphony, Rochester Symphony, Montreal Symphony and many others.

### Anne, Phillips Go Fox Hunting

LONDON (AP) — Princess Anne spent the weekend fox hunting with the man who some gossips report she will marry.

Lt. Mark Phillips, the army officer who is serving with the Queen's Dragoon Guards in Germany, took a weekend furlough to join the 22-year-old princess at the southern English estate of Comte Guy de Pléte.

The princess and Phillips rode to the hounds with the Blackmore and Sparksford Vale Hunt in Somerset.

# Late Deaths Boost Texas Violence Toll

By THE ASSOCIATED PRESS  
A late upsurge in violent deaths offset what had promised to be an unusually calm weekend in Texas.

The toll mounted to at least 22 fatalities, including 13 in traffic accidents, between 6 p.m. Friday and midnight Sunday.

There also were half a dozen homicides, one death under a falling tree and one in a plane crash.

These were among the victims:

A man about 21, who had been shot and beaten, was found dead Sunday night on Waco's east side near Paul Quinn College, police reported.

Justice of the Peace Joe Johnson said he carried no identification but there was a matchbox containing drug capsules in one pocket. The dead man had been shot three times.

Officers held a man for questioning.

Pete Lopez, 25, of Thorndale and Floyd Wallace Mersiovsky, 18, of Jarrell were killed Sunday as their cars collided on Texas 95. Officers placed the scene of the crash near Bartlett in Williamson County.

Sam Thomas Wiley, 59, of Austin was killed Saturday when two cars collided on Interstate 35 near Round Rock. A. L. W. Sheppard, 59, of Waco was killed Sunday when he was

hit by an automobile on Interstate 35 north of Waco near Bellmead. State police said Sheppard apparently walked in front of the car.

Three pedestrians were killed in a highway accident just outside Houston Sunday morning. Officers said Billy Joe Norman, 17, Thelma Mays, 17, and Esther Phillips, 21, were struck and killed by a pickup truck along Farm Road 149.

John T. Ferguson, 35, was killed early Sunday in a two-car head-on collision on U.S. Highway 59 just outside of Houston. The driver of the other car was injured slightly.

Douglas Headrick, 31, died Saturday when his light plane crashed in a freezing rain storm near Whiteface, west of Lubbock. Headrick, a Lubbock

construction man, was en route home from Roswell, N.M.

Roy Walker, 63, of Dallas was killed and seven persons injured Sunday when two cars collided on U.S. 259. The accident occurred about two miles south of Mount Enterprise in East Texas.

Isaac Edward Blalock, 27, of a Tyler rural route was killed late Saturday night when his automobile ran off a rural road. The accident occurred about three miles south of Tyler.

Randy Shelton, 17, an Explorer Scout from Fort Worth was fatally injured Saturday night when a tall pine tree crashed onto a pup tent. A Fort Worth Scout leader, A. B. Millet, 55, was injured. The driver of the truck escaped injury.

It occurred during a storm in the

Sam Houston National Forest near New Waverly.

Johnny Coe, 46, of Brownfield was stabbed to death Sunday. Brownfield officers said Coe's body was found in his car. They questioned a suspect.

Clayton Lynn Clark, 2, was struck and killed by a pickup truck Saturday when he ran onto a farm road about 2 miles from Copperas Cove. Officers said the child was chasing a toy balloon.

A car-truck collision near Henderson in East Texas Saturday killed one person and left another in critical condition. Mary McCarter Brown of Henderson was killed and L.W. Ainsworth, also of Henderson, was injured. The driver of the truck escaped injury.

Houston police arrested a 25-

year-old man in connection with the slaying of Nicholas Amaya, 26, who was shot after an argument over a key chain on a street in downtown Houston.

Police sought the person or persons who shot and killed a man tentatively identified as Roger Robinson early Saturday in Houston. The victim was found in a yard Saturday with a gunshot wound in the back.

Neighbors said they heard four shots during the night.

Garland police held a man in connection with the killing of another man and woman Saturday in the parking lot of a grocery store. Witnesses said the man walked up to Richard Head, 35, and Nancy Page, 43, both of Garland, and shot them. Kimberly Kroboth, 6, of

Houston was fatally injured Saturday when she roller skated into the path of an automobile near home. She died a few hours after the accident.

David Ramirez, 18, of Houston died of a gunshot wound he suffered Saturday while he and a friend were playing with a .45 caliber revolver, police said. The friend was charged with negligent homicide.

## Helps Solve 3 Biggest FALSE TEETH Worries and Problems

Consider a denture adhesive. FAS-TEETH® Powder does all of this: 1. Holds loose dentures and lowers longer, firmer, steadier. 2. Holds them more comfortably. 3. Helps you eat more naturally. Why worry? Use FAS-TEETH® Denture Adhesive Powder. Dentures that fit are essential to health. See your dentist regularly.

Amilcar Cabral . . . killed by assassins.

## Rebel Leader Slain; Portuguese Blamed

LAGOS, Nigeria (AP) — Reports from Guinea accuse Portuguese agents of the assassination of Amilcar Cabral, the leader of the rebellion in Portuguese Guinea.

Cabral was killed Saturday night by "Portuguese agents," according to an emotional broadcast Sunday by President Sekou Toure of Guinea, a country bordering the Portuguese province on the western bulge of Africa.

Toure said Cabral, 47, was assassinated by "paid killers" outside his home in Conakry, the capital of Guinea. He said the "principal killers" had been arrested.

Leadership Speculation  
The Portuguese government declined to comment.

There was speculation that the leadership of Cabral's independence movement — the African Independence Party of Guinea and Cape Verde, or PAIGC — would pass to his half brother Luis or to Aristides Pereira. Luis runs the PAIGC office in Dakar and Pereira the Conakry headquarters.

Foreign Minister John Malecela of Tanzania said the liberation struggle in the Portuguese province would continue despite Cabral's death. He recalled the assassination in 1969 of Eduardo Mondlane, the leader of the liberation movement in Portuguese Mozambique, and said his movement is stronger today than ever before.

U.N. Observer States  
Cabral, soft-spoken and easy-going in manner, was the first leader of a rebel movement to be granted official observer status at the United Nations. He said in a speech last fall at U.N. headquarters that he planned to proclaim a new nation in the rebel-controlled parts of Portuguese Guinea.

He had run a guerrilla war of independence in Portuguese Guinea from his Conakry headquarters for the last nine years. His movement claims control of two-thirds of the rural areas of Portuguese Guinea, a territory slightly larger than Maryland and Delaware that is sand-

wiched between Senegal and Guinea.

It is an impoverished land of swamps and grasslands with a population of about 800,000 plus 30,000 Portuguese troops.

Cabral, backed by Soviet arms and supplies, established jungle schools and hospitals and a judicial system in the "liberated zones."

Despite his Marxist views, Western diplomats in Africa generally agreed that he was not a Soviet puppet. He himself often complained because one but the Russians would give him aid.

## Winter Delivers Mighty Blow To U.S. Midlands

By THE ASSOCIATED PRESS  
With a mighty wallop, winter reasserted its hold over the nation's midsection early today, spreading snow and freezing rain from Nebraska and Arkansas to the Great Lakes.

Scores of motorists were stranded in Oklahoma Sunday when snow drifted 3 feet deep at places.

Blizzard conditions in the northwestern part of the state closed all roads in some counties. A bus with 18 persons aboard was bogged down in drifts south of Woodward, Okla.

Heavy Snow Warnings  
During the night, 2 to 4 inches of snow fell from south central Kansas to central Iowa. Heavy snow warnings for 4 inches or more were issued for today from southeast Nebraska to northwest Missouri to Illinois and upper and lower Michigan.

A five-mile string of trucks and cars was jammed from the Missouri River Bridge into Iowa Sunday night after the collision of a car and two semi-trailer trucks on Interstate 80 near Council Bluffs. Although there were no serious injuries, 10 trucks stalled or jack-knifed behind the collision scene as 6 to 8 inches of snow accumulated in the area.

A flash flood watch was called in Illinois and parts of Indiana and Kentucky.

Meanwhile, warm, moist air spread northward over the eastern third of the nation.

Rain dampened areas from northern Florida across the central Appalachians to the Ohio Valley. Columbus, Ga., registered 1.3 inches of rain, and Albany, Ga., and Crossville, Tenn., took on an inch around midnight Sunday.

While most of the nation had cloudy skies, the western third of the continent, parts of the southern Plains and lower Mississippi Valley and New England had fair skies. Temperatures before dawn ranged from -2 at Grand Junction, Colo., to 77 at Key West, Fla.

## Heavy Snow Deals Misery To Oklahoma

OKLAHOMA CITY (AP) — Swirling, blinding snow—measuring more than a foot—swamped parts of northwestern Oklahoma Sunday, stranding scores of motorists.

The blizzard conditions closed all roads through Buffalo in Harper County due to blowing snow and drifts as high as three feet.

Both Woodward and Vici, in the western part of the state, reported 15 inches of snow.

A Woodward police dispatcher said "a tremendous number" of motorists had been stranded by the winter storm.

Highway patrolmen reported at least two dozen vehicles, including a bus with 18 passengers on board, were bogged down in drafts south of Woodward on Oklahoma 270. East To Bartlesville

The snowfall began early Sunday in the northwest and north central areas of the state and moved as far east as Bartlesville by late Sunday night.

Meanwhile, moderate to heavy rains dotted the central and eastern portions ahead of the storm.

Only the Panhandle appeared to escape the onslaught of precipitation, but reported winds as high as 30 miles an hour.

Visibility in Woodward fell to less than a city block at one point. A Woodward County deputy sheriff said he could barely see across the street.

"It's bad here, really bad. It's blinding snow; if the wind gets stronger, it's going to be pitiful," he said.

## Balky Officer May Be Court-Martialed

MANILA (AP) — A U.S. Air Force spokesman said today that Lt. Dwight J. Evans Jr., who may be court-martialed for refusing to fly a combat mission over North Vietnam, has been assigned to the 465th Combat Support Group at Clark Air Force Base north of Manila.

The spokesman said Evans was a lieutenant, not a captain as previously reported, and was a navigator for F4 Phantom fighter-bombers, not a pilot.

He said Evans was not under detention, but newsmen could not interview him because of a

policy previously announced in Washington forbidding Air Force personnel from giving press interviews until a Vietnam peace settlement is reached.

Evans, 26, had been assigned to the 34th Tactical Fighter Squadron in Thailand. He has been at Clark several weeks, the spokesman said.

Evans is one of two airmen who the Air Force has charged with refusing to fly combat missions over North Vietnam late last year. The other is Capt. Michael Heck, 30, of Chula Vista, Calif., who is confined to his base in Thailand while the Air Force decides whether to put him on trial.

The Air Force previously said Evans balked at bombing North Vietnam on Dec. 18, the day the Hanoi-Haiphong blitz began.

# AFC Cops Pro Bowl Tilt

## O. J. Simpson Paces Win

By DENNE H. FREEMAN

DALLAS (AP) — The American Football Conference, which formed a fiery merger with the old National Football League, had every right to be chesty to day—at least for a year.

The AFC made it a historic clean sweep over the National Football Conference in Sunday's 33-28 Pro Bowl victory. Previously, the AFC had cap-

tured the exhibition season 27-25-4 and the regular season 20-19-1 from their older rivals and Miami dropped NFC member Washington 14-7 in the Super Bowl.

Sunday was the clincher in the collision of All-Stars between the two leagues.

"Last year the NFC got the most ink—we wanted to prove something," said running back O. J. Simpson of Buffalo, the game's Most Valuable Player.

Simpson, who led the NFL in rushing with 1,336 yards, scored one touchdown and caught three passes for 53 yards.

"O. J. made us look kinda funny at times," admitted Atlanta linebacker Tommy Nobis of the NFC.

"This was a fun game. I haven't had many fun games in my pro career," said Simpson, a four-year veteran who was in-

son, the regular season and the Super Bowl and this topped it off.

After seven months of toil beginning in June, the AFC couldn't have had a sweeter topping.

John Brockington of Green Bay scored three touchdowns and quarterback Norm Snead of the New York Giants hit tight end Ted Kwalick of San Francisco with a 12-yard scoring pass but it wasn't enough.

Marv Hubbard of Oakland scored on an 11-yard run. Bobby Bell of Kansas City intercepted a Snead pass and returned it 12 yards for a touchdown and Pittsburgh's Roy Gerela kicked field goals of 18 and 22 yards for the AFC which overcame a 14-0 first quarter deficit.

Simpson said "I felt we could beat them. We won the pre-season, the regular season and the Super Bowl and this topped it off."

Noll said "It may be getting old to the media but from our standpoint it means something."

INDIVIDUAL LEADERS

| RUSHING   | AFC: Simpson 16-112 | NFC: Brockington 16-112 |
| PASSING   | AFC: Snead 3-38     | NFC: Taylor 3-38        |
| RECEIVING | AFC: Hubbard 3-38   | NFC: Kwalick 3-38       |
| DEFENSE   | AFC: Bell 1-12      | NFC: Taylor 1-12        |
| KICKING   | AFC: Gerela 2-30    | NFC: Kwalick 2-30       |

**SWARMED UNDER** — Norm Snead of the New York Giants and NFC all-stars, takes his lumps during Pro Bowl tilt in Irving Sunday. Elvin Bethea (65), Houston end along with Bill Stanfill (84) of Miami and Mike Reid (74) of Cincinnati swarm the quarterback. The AFC took a 33-28 victory. (AP Wirephoto.)

## IN TUCSON OPEN GOLF—

### Crampton Breezes

By BOB GREEN  
TUCSON, Ariz. (AP) — Bruce Crampton has taken two in a row, but the Australian veteran harbors no illusions about winning three consecutive events on the tough American pro golf tour.

"No, I don't think so," Crampton said with an almost sad smile when asked if he planned to make this week's Bing Crosby National Pro-Am his third successive triumph.

"This one took a lot out of me," Crampton said Sunday after his easy, front-running victory in the Dean Martin-Tucson Open, a decision that was tarnished just a trifle by a meaningless triple bogey seven on Crampton's finishing hole.

"I'm pretty tired," he said. "I didn't sleep very well all week. I came in here knowing I was playing well. I was keyed up, ready to get on with it."

"Now that it's over, I'm really tired."

Crampton's victory, following his triumph at the Phoenix Open just the week before.

## Rockets Post NBA Victory

By THE ASSOCIATED PRESS  
Buffalo 104-97, Baltimore beat Johnny Egan found a job the hapless Philadelphia 76ers

Walt Frazier lost his shoe and the Los Angeles Lakers crushed the Kansas City-Omaha Kings 123-102.

The three events happened in Milwaukee Sunday when Johnny Egan was made head coach of the Houston Rockets, Walt Frazier lost his sneaker with five seconds left in the game and the Knicks lost the game 107-103 in National Basketball Association play.

Egan said he hadn't thought too much about being named coach and beating the Knicks in his first game. "If it had been for the championship or something, maybe so, but we've got to play more games next week."

Mike Newlin scored the winning basket with five seconds left after Frazier lost his sneaker.

Newlin said, "It was just our turn to win that's all. It's a funny thing in basketball, sometimes you win and it has nothing to do with talent, like a guy falls down or loses his shoe."

## Jordanians Hold Bowling Lead

The Carlsbad Jordanians of Carlsbad, N.M., continued to hold the team lead in the Men's Invitation Bowling Tournament at the Midland Lanes through the second weekend of play.

The Jordanians hold the team score of 3213 for first place while Basin Welding of Odessa captured second place with a 3190 total. Burger Chef of Midland moved into third with a 3188 score.

The tournament ends competition next weekend at the Midland Lanes.

# Frazier Favored Tonight

KINGSTON, Jamaica (AP) — Joe Frazier makes the fifth defense of his world heavyweight title tonight against young, bull-strong George Foreman with the shadow of Muhammad Ali still haunting him from the wings.

It is a definite crisis in the three-year reign of the savage, swarming champion, who was born on a South Carolina plantation, reared in a Philadelphia ghetto and prepared for his profession by work as a butcher in a slaughterhouse.

Should Frazier lose, the heavyweight division could be thrown into temporary turmoil and all the wind would be knocked out of the awaited Frazier-Ali rematch, which has the records. Most heavyweight champions don't last more than two or three years. Frazier has had his day. Now it's my turn, I will win."

Las Vegas oddsmakers have made the 29-year-old champion a 3-1 favorite over the 24-year-old challenger, who, like Frazier, is a former Olympic gold medalist and is unbeaten in his pro career.

Still, nobody knows for sure. Foreman is an enigma. As a pro, he has never been floored and ringsiders wonder if he has the fiber to come off the deck and keep fighting.

It's certain to be a rough-and-tumble physical brawl, unlikely to go the 15-round limit. Frazier is a punishing, bore-in-sluggish, a black Rocky Marciano, who disdains personal injury to mete out punishment to his foes. Foreman is a powerful giant with none of Ali's grace and speed. He doesn't swing arms, he swings wagon tongues.

Fight time is 9:15 p.m., CST, and the place is the outdoor National Stadium, an oval built for soccer and cycling.

The fight will not be on home television but will be beamed by cable to 225 sites in the United States and Canada and by satellite to special theaters in Britain, France, Japan and a half-dozen other countries.

Son of a railroad construction worker, Foreman, at 24 is five years younger than Frazier yet has more pro fights under his belt. His record is 37-0, with 34 knockout victims. Frazier has had 29 pro fights and won them all, 25 by knockout.

A strapping, handsome athlete, Foreman is 6-foot-3, has a five-inch-longer reach than Frazier and probably will carry a 10-pound weight advantage into the ring. He is expected to weigh in at around 220 pounds, with Frazier between 208 and 210.

## COLLEGE CAGE ROUNDUP—

### Bruins Near Mark

By KEN RAPPOPORT  
Associated Press Sports Writer

Who's No. 1 in college basketball? Why—UCLA, of course.

Who's nervous? UCLA Coach John Wooden, naturally.

Despite winning their 59th straight victory with a convincing 101-77 decision over ninth-ranked Providence Saturday night, the Bruins were still a matter of concern for their constantly uneasy leader.

"I expect a tough weekend in the Midwest," said Wooden as his team zeroed in on the all-time winning streak.

After beating two Top Ten teams over the weekend—they mashed No. 10 San Francisco the night before—it would seem that the record of 60 straight is within easy grasp of the defending national champions.

The Bruins will play Loyola of Chicago this Thursday night and Notre Dame on Saturday. Both are theoretically not in UCLA's class but nevertheless weigh heavily in Wooden's thoughts as his team tries to break San Francisco's great record of the 1950s.

"Every team is out to break our winning streak," said Wooden. "They know they can make their season by doing it."

The Pacific-8 Conference powerhouse had some fidgety moments in the first half Saturday night, holding a 44-36 halftime advantage. Then center Bill Walton came back from a

first-half ankle injury and took charge of the rebounding war to spearhead a Bruin blitz. In other games involving ranked teams, second-ranked North Carolina State notched an 86-76 decision over Clemson; No. 3 Maryland trimmed Navy 76-67; No. 4 North Carolina ninth-ranked Providence Saturday night, the Bruins were still a matter of concern for their constantly uneasy leader.

In the UCLA-Providence match, Walton hurt his ankle in the first half and had to be carried from the court. However, he returned to start the second half and terrorized the Friars with his board play. The big redhead cleared 24 rebounds in the second Ten, No. 11 Alabama defeated Auburn 76-64, No. 13 Southwestern Louisiana beat Louisiana Tech 74-64; Oklahoma beat No. 14 Kansas State 81-69; No. 15 Jacksonville took a 70-66 decision over cross-state rival Florida State; St. John's, N.Y., the country's No. 17 team, turned back Temple 93-84; No. 18 Vanderbilt victimized Mississippi 75-69 and St. Louis scored an upset, 61-51 triumph over 20th-ranked Louisville.

In the UCLA-Providence match, Walton hurt his ankle in the first half and had to be carried from the court. However, he returned to start the second half and terrorized the Friars with his board play. The big redhead cleared 24 rebounds in the second Ten, No. 11 Alabama defeated Auburn 76-64, No. 13 Southwestern Louisiana beat Louisiana Tech 74-64; Oklahoma beat No. 14 Kansas State 81-69; No. 15 Jacksonville took a 70-66 decision over cross-state rival Florida State; St. John's, N.Y., the country's No. 17 team, turned back Temple 93-84; No. 18 Vanderbilt victimized Mississippi 75-69 and St. Louis scored an upset, 61-51 triumph over 20th-ranked Louisville.

### Colonels Cop 10th In Row

By THE ASSOCIATED PRESS

The Kentucky Colonels played without two key men but managed to beat the Denver Rockets anyway Sunday night.

With their long jinx over the Rockets, you might expect the Colonels to win without any men.

Despite the absence of guard Rick Mount and forward Claude Virdon, the Colonels defeated Denver 118-111 for their 10th straight victory over the Rockets in two years.

Mike Gale, subbing for Mount, scored 10 points as the Colonels came up with 37 points in the third period. Gale finished with 19.

In the other ABA games Sunday, the Dallas Chaparrals defeated the New York Nets 105-98 and the San Diego Conquistadors scored a 97-92 decision over the Utah Stars.

With Gale showing the way in Kentucky's hot third period, the Colonels took a 91-76 lead into the final period. The cushion helped the Colonels withstand a late charge by the Rockets, who pulled to within three points late in the game.

Joe Hamilton's three-point play early in the fourth quarter broke a tie and triggered Dallas to victory over New York.

Hamilton hit his key field goal and added a free throw with turned nine strikes into a 258-8:36 remaining to snap a 79-79 for a 30 pin triumph over Don Johnson of Akron, Ohio in the finals of the \$77,750 Showboat Invitational Tourney.

Rich Jones led the winners with 29 points.

### Philadelphia In NHL Win

By THE ASSOCIATED PRESS

Bill Flett offers this bit of advice for hockey players who'd like to score three goals in a single game.

"If you keep working, they come sometimes," said Flett, who turned the hat trick for the fifth time in his National Hockey League career Sunday night, helping Philadelphia beat Buffalo 4-3. "But you've got to have a little luck too."

Wayne Cashman of Boston would have to agree with that last part.

Cashman's three goals—two of them all but gift-wrapped—led the Bruins to a 5-2 victory over California.

In other NHL action Sunday, Montreal trimmed Atlanta 3-2, Minnesota whipped Detroit 5-3 and Chicago blasted Pittsburgh 9-3.

Flett scored two goals in the first period and another in the second against the Sabres, converting passes from Bobby Clarke for each of the goals. The three scores gave him 25 for the season.

### HOCKEY

LOS ANGELES — The Los Angeles Kings of the National Hockey League traded defenseman Paul Curtis to the St. Louis Blues in exchange for forward Frank St. Marseille.

# Rebel-Bulldog Basketball Showdown On Tap Tuesday

## City Series Is Even; 1st Half Title Match

By BOB DILLON

The stage is set for Tuesday's big District 5-4A basketball showdown between the Midland Bulldogs and Midland Lee Rebels in ancient Midland High Gymnasium as the two Tall City rivals battle for the first half championship.

Coach Paul Stueckler's Rebels will be seeking their 22nd victory in a row and a perfect 7-0 mark in loop play while Coach James Cagle's Bulldogs, defending district champions, face a must situation. A win by the Purple Pack would find the two sharing the first half crown with 6-1 marks. Midland stubbed its toe against Odessa Permian, 53-51 in the loop opener three weeks ago which still has basketball fans in the area puzzled.

### Lee-MHS Series

1962: MHS 61, Lee 38; MHS 54, Lee 35; 1963: Lee 66, MHS 63; Lee 61, MHS 59; 1964: MHS 53, Lee 49; MHS 61, Lee 60; 1965: Lee 81, MHS 67; Lee 80, MHS 64; 1966: Lee 81, MHS 61; MHS 76, Lee 74; 1967: MHS 75, Lee 73; Lee 69, MHS 64; 1968: Lee 82, MHS 70; MHS 76, Lee 64; 1969: Lee 84, MHS 61; Lee 78, MHS 59; 1970: Lee 80, MHS 77; Lee 78, MHS 76; 1971: MHS 64, Lee 67; MHS 71, Lee 65; 1972: MHS 68, Lee 56; MHS 54, Lee 46. Series: Midland 11, Lee 11.

flow crowd expected in tiny MHS Gymnasium which only seats 1,600 fans. If the facilities were available, it could draw as many as 6,000 fans.

### Good Records

Lee brings a 23-1 season record into the game while Midland is 20-2 and it shapes up as a great game. Midland has won the last four played between the two schools and two district crowns in the process, but the overall city series is tied, 11-11. Lee's last victory came in the MHS Gymnasium three years ago in a 78-76 overtime victory. Last season, Midland won both games, 68-56 in the Lee Gymnasium and 54-46 on its home floor. The year before the Bulldogs swept the Rebels. The Pack won by scores of 64-47 and 77-65.

The series started back in 1962, actually the 1961-62 season and Stueckler was at the helm of the Rebels then.

Midland won both games the first year by scores of 61-39 and 54-35. It has been a heated one ever since and basketball fans will not be disappointed this time around.

A junior varsity game will get things under way at 6:15 p.m. with the doors to the gym opening to the public at 5:45 p.m. and as soon as it is filled, will be locked.

The Midland and Lee sophomores were set to do battle at 7 p.m. today to get the big series under way. Don Bradley, 6-2 senior, paces the Lee attack and is the No. 1 scorer in the district following a 34-point performance against Abilene Friday night in the Lee Gymnasium. Bradley has scored 440 points in 24 games for an 18.3 average and has a 21.8 average in loop play with 131 points in six games. Midland's Ronald Taylor, a 6-10 senior, is the No. 2 scorer in the loop with 128 points and a 21.3 mean and is averaging 23.9 points per game in 22 outings for the Pack with 527 points.

### Double Figures

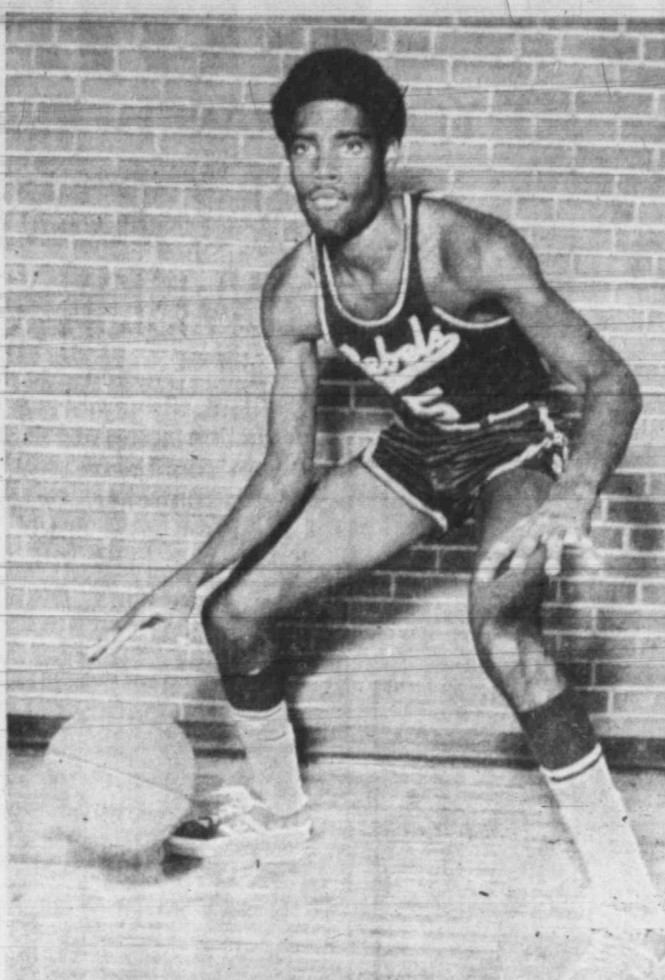

Lee has two more players — Steve Cromwell and Melvin Jackson, in the double figures on the season. Cromwell, a 6-6 senior has been scoring at a 16.4 clip while Jackson, a 6-3 junior, has a 10.5 scoring average. In district play, Cromwell is averaging 15.7 and Jackson 10.0.

Kenneth Ray, 6-4 senior, is the only other Bulldog in the double figures on the year with a 12.8 average, but Mike Tillman and Eddie Herring are right behind with 9.5 and 9.5 averages. Midland has Taylor along with Tillman and Randall Hunt in the double figures in district competition. Tillman is averaging 12.0 per outing and Hunt 10.0.

In other 5-4A games, Odessa Permian plays OHS in the Permian Fieldhouse while San Angelo entertains the Big Spring Steers and the Abilene-Abilene Cooper battle is set for Moody Coliseum on the Abilene Christian College campus.

Permian is 13-9 and 2-3 while OHS stands 13-10 and 3-3. San Angelo stands 10-12 and 4-2 while the Steers are 12-12 and 1-4. Cooper and Abilene both have 1-5 loop marks while the Cougars stand 13-9 on the year and the Eagles are 11-11 on the season.

The second half of the district race opens on Friday with Midland entertaining Permian; Lee at OHS; Cooper at San Angelo and Big Spring at Abilene.

Rebel's Don Bradley ... top 5-4A scorer

## Whalers Cop WHA Win

By THE ASSOCIATED PRESS

Coach Jack Kelly of the New England Whalers wasn't going to let Winnipeg's No. 1 line of Bobby Hull, Chris Bordeleau and Norm Beaudin beat him again. And his solution worked—offensively as well as defensively.

Kelly assembled a checking line of Kevin Ahearn, John Danby and Mike Hyndman to handle the Hull trio. Not only did the defensive specialists keep Hull and his linemates off the scoreboard, but they scored three goals of their own in New England's 7-2 World Hockey Association romp over Winnipeg.

Elsewhere in WHA games Sunday, Houston whipped Ottawa 5-2 and Los Angeles shaded Cleveland 3-2.

In the National Hockey League, Montreal edged Atlanta 3-2, Boston rapped California 5-2, Minnesota took Detroit 5-3, Philadelphia shaded Buffalo 4-3 and Chicago walloped Pittsburgh 3-3.

Ahearn had two goals and Danby one to pace New England's victory over Winnipeg. John French, Larry Pleat, Tom Webster and Tim Sheehy had the other Whaler goals.

Don Grierson scored two goals and assisted on another in the second period, leading the Houston to a comeback victory over Ottawa.

The Aeros spotted Ottawa two goals before Grierson sparked the rally. He scored two goals in less than a minute fastest among 40 starters—just and then set up Ted Taylor's go-ahead score as Houston moved within eight points of first place Winnipeg in the West.

# Donohue Nabs Easy Victory

By BLOYS BRITT

RIVERSIDE, Calif. (AP)—Mark Donohue, a member of Philadelphia's social set, has officially joined the exclusive club that belongs to the "good old boys" of Southern stock car racing.

He acquired his membership Sunday when he drove a box-like American Motors Matador to an easy victory in the \$100,000 Winston-Western 500 at Riverside International Raceway.

The race opened a 31-event schedule for the National Association for Stock Car Auto Racing and it drew 51,000 persons into the sprawling road course grounds.

Donohue, 35, who lives in the Philadelphia suburb of Newtown Square, Pa., didn't become involved in NASCAR doings until last year, when he made his debut in Roger Penske's untried Matador in the traditional Riverside opener.

His Matador wasn't reliable or strong enough to cause the stock car boys even mild concern last year, but the moon-faced Pennsylvanian was hot as a pistol elsewhere. He won the Indianapolis 500, among other racing plums.

This year he came back to Riverside and qualified the red, white and blue machine fourth two goals in less than a minute fastest among 40 starters—just and then set up Ted Taylor's go-ahead score as Houston moved within eight points of first place Winnipeg in the West.

## Sunday's Sunland Park Results

FIRST RACE (6 1/2 furlongs) — Joe Goode 3.80, 2.80, 3.00, Redford Bird 4.30, 3.60, Luminous 3.60. Time — 1:20.4.

SECOND RACE (6 furlongs) — Jolly Little 3.60, 3.90, 5.00, 3.00, Sunbath Prince 3.40, 3.90, Bertala 3.40. Time — 1:14.4.

DAILY DOUBLE — \$4.00

QUINELLA — 14.00

THIRD RACE (130 yards) — Jet Thistle 11.00, 1.00, 2.00, Petite Rockette 3.40, 3.00, Micki Chick 3.30. Time — 1:17.8.

TWELFTH RACE (one mile and 1 1/4) — Glendale Flash 17.00, 8.00, 4.00, Gyrock 20.90, 10.40, Supersteel 7.40. Time — 40.2.

QUINELLA — 164.90

## Tech, Porkers Lead Both Sport 2-0 SWC Marks

By DENNE H. FREEMAN

Associated Press Sports Writer Arkansas and Texas Tech have bolted to the head of the pack in the Southwest Conference basketball chase and if you believe in the homecourt advantage the Razorbacks and Red Raiders should still be on their perch at the end of this week.

Of course, in the wild-wild SWC you can sometimes get indigestion from that home cooking—just ask Texas and Texas Christian.

Arkansas and Tech both won on the road Saturday to carry the only unblemished SWC records at 2-0. Arkansas outlasted Texas 76-72 and the Red Raiders roughed up the Horned Frogs 87-65.

Tuesday night and entertain TCU Saturday while Tech hosts Rice on Tuesday and Texas on Saturday.

In other games Saturday night, Southern Methodist kept its title hopes alive with a 79-77 shaving of the Rice Owls and the Texas Aggies sounded a note they are to be contended with by outmuscling Baylor 91-80.

Martin Terry was again Arkansas' man of the hour as he poured home 29 points against the Longhorns. Although Arkansas committed 32 turnovers, the Razorbacks made up for it by outbounding Texas 51-30.

"We collapsed completely in the execution," moaned Texas Coach Leon Black. "We lost our rebounding strength, saying 'We haven't been an out-

standing board team, but once our kids found they could go to the boards it gave them confidence."

It was the same story in the Tech-TCU game with the Red Raiders bounding the boards behind Richard Little's 22 points.

"I can't remember us ever getting over two shots... the ball just seemed to go to them all the time," said TCU Coach Johnny Swaim.

Texas A&M's Jeff Overhouse hauled down 18 caroms and added 28 points in the Cadet blitz over the Bears.

"This was our best game of the year and our best team effort," said Aggie Coach Shelby Metcalf.

The flurry of action Saturday left Tech and Arkansas alone at 2-0 followed by A&M, SMU, Baylor, and Rice at 1-1, and Texas and TCU at 0-2.

SMU snapped a four-game losing streak in its victory over Rice. Sammy Hervey netted 28 points.

Mustang Coach Bob Prewitt said "We missed four or five layups in the first half...but gosh, I'm tickled to win."

And he added "There just ain't no easy ones, men."

## Hunter Inks 1973 Contract

NORFOLK, Va. (AP)—Jim "Catfish" Hunter, the ace right-hander of the world champion Oakland Athletics, says he'd "like to get \$165,000" like pitcher Steve Carlton of the Philadelphia Phillies.

Instead, Hunter said Sunday, he's signed a 1973 contract at a "substantial salary boost."

by Carol Ripper
(Jan. 23)
GENERAL TENDENCIES: A beautiful day to make your New Year's resolutions. Everyone is in a truly cooperative frame of mind and will coordinate their efforts with you for mutual benefit.

ARIES (Mar. 21 to Apr. 19) If you and associates have had any misunderstandings, this is a good day to reconcile. A civic announcement can also be handled properly now and with ease. Entertain clients at home tonight.

TAURUS (Apr. 20 to May 20) There is some special work you want to do and this is a fine day to do it. This can be done with precision and flourish. Get the cooperation of co-workers. State clearly what you have in mind.

GEMINI (May 21 to June 21) You have an opportunity now to get into the amount of money you have missed out on recently and really enjoy yourself. Closest tie to the favor is now. You can also profit from this. Be sure to stand up for your rights, but don't argue.

SCORPIO (Oct. 23 to Nov. 21) If you investigate whatever has been puzzling you of late, you will find you can get the right answers and make your life easier in the evening enjoy the company of the one you love.

SAGITTARIUS (Nov. 22 to Dec. 21) Take time to be with friends who understand you and regain that composure you usually have. Getting into group activities can now be to your advantage. Try not to get too hot too late.

CAPRICORN (Dec. 22 to Jan. 19) Doing whatever you should be discussed with those who have been successful with you. You have time to discuss with those who have been successful with you. You have time to discuss with those who have been successful with you.

AQUARIUS (Jan. 20 to Feb. 19) You have time to discuss with those who have been successful with you. You have time to discuss with those who have been successful with you. You have time to discuss with those who have been successful with you.

PICES (Feb. 20 to Mar. 20) Use more time with debtors and creditors instead of being so belligerent. Your bunches of bills and papers can also profit from this. Arrive on time for an important appointment you have tonight.

VIRGO (Aug. 22 to Sept. 22) See what you can do to make your assets more productive. (For 1972, MENAUBI Syndicate, Inc.)

# "If you think Blue Cross pays all your hospital bills, you haven't been in the hospital lately."

—Burl Ives

Get cash to help pay the bills your Blue Cross won't. The Academy Plan will pay you \$33.33 a day tax-free cash when you're in the hospital.

Blue Cross has been a great help to many Americans, but even the best hospitalization plans can have gaps in their coverage.

Don't wait until you're hospitalized to find out about the coverage gaps in your hospitalization plan.

Most will probably not pay the whole cost of an operation, nor all the hospital costs.

And there's a whole list of medical bills that they probably won't pay.

What's more, they won't pay anything *except* hospital and medical bills. So if you're in the hospital a few weeks and your salary stops, who'll pay the rent or the mortgage? The food bills? The car payments? And what if your wife becomes ill? You'll have extra household expenses.

What you clearly need for your family's protection is a plan that pays you cash when you go to the hospital.

us the application, you can be sure no salesman will call. But you'll still get prompt and courteous attention directly from us.

## 5 We will never cancel your policy.

We will never refuse to renew your policy. Your coverage is guaranteed, no matter how long you live or how many times you're hospitalized. In addition, your premium will never change, even though you pass from one age bracket to another, unless there's a rate adjustment on all policies of your form and class throughout your state.

## 6 You can cover yourself alone or your entire family. And you have two plans to choose from.

You may choose to receive \$1000 a month (\$33.33 a day) or \$500 a month (\$16.67 a day). These are the rates for both plans, for each adult enrolled. (Compare them with any similar plan.)

| Age at Enrollment | Monthly rate for each adult enrolled |               |
|-------------------|--------------------------------------|---------------|
|                   | \$1000 a month                       | \$500 a month |
| 16-39             | \$6.90                               | \$3.45        |
| 40-54             | 8.70                                 | 4.35          |
| 55-74             | 9.80                                 | 4.90          |
| 75 and over       | 10.80                                | 5.40          |

All your dependent children under age 19 can be covered for just \$3.50 a month under the \$1000 a month plan or for just \$1.75 a month under the \$500 a month plan.

Note: Your rates do not go up when you pass from one age bracket to another.

**Benefits for children (coverage optional).** Children receive 50% of the basic monthly benefit. If you choose to get children's coverage, any additional children you have after you've signed up for the policy will be covered automatically at the age of one month. At age 19, children get their own policies at the lowest adult rate, and they get credit for continuous coverage.

**Benefits for people over 65.** The policy provides that people over 65 will get \$600 or \$300 per month, depending upon the plan selected, for the first three months (during this period you are also eligible for hospitalization benefits under Medicare). After that (and when Medicare cuts back), you will receive the full benefits for as long as you remain hospitalized, even for life. By designing it this way, we are able to keep your premiums lower—an important consideration to people no longer in their peak earning years.

## 7 These are the only exceptions and limitations in the policy. We urge you to compare them with any similar plan.

Sickness and injuries you had before your policy takes effect will be covered after *one* year, but not before. In addition, we don't cover hospitalization due to war, mental disorder, pregnancy, miscarriage, childbirth, or time spent in a U.S. Government hospital. Everything else is covered immediately. Benefits begin on the first day for accidents and after three days for sickness.

## 8 Academy Life is a respected Legal Reserve Life Insurance Company.

The Company's administrative offices are located near historic Valley Forge, Pa. It is a member of the Unicom Insurance Group and is licensed by the Department of Insurance of your state.

## 9 Tomorrow may be too late.

Today you may be the picture of health, but who knows when you may get sick or have an accident. It happens to all of us. And many of us end up in the hospital. You and your family need this protection and every day you wait is a day you're not covered. So act today. You don't know what's going to happen tomorrow.

## 10 Act today. Your first month's premium is only \$1. See Paragraph 6 for renewal rates.

Academy's policy-examination program allows your family to be protected for the first month for \$1. Here's all you do. Fill out the application and mail it in an envelope with \$1 to Academy Life Insurance Co., Valley Forge, Pa. 19481. You will be covered the same day we receive your application. We'll mail you your policy. Examine it at your leisure. If you decide, for any reason, that you don't want it, return it within 15 days and we'll refund your dollar.

## 1 Academy Life will pay you \$33.33 a day—that's \$1,000 a month tax-free cash for as long as you're in the hospital.

There is no limit to the period of time you can collect benefits or to the number of times you can use the policy. Benefits start the first day if you're in an accident or after three days if you're ill. (A few days in the hospital are never a strain, and by paying you after the third day for sickness, we can keep our rates way down.)

## 2 The money is paid directly to you on top of any other insurance.

Checks are sent directly to you or wherever you specify. The money is tax-free and will be paid no matter what coverage you may have from Blue Cross, Medicare, or any other plan with any other company. It is yours to use as you see fit.

## 3 There are no age limitations for joining.

Everyone is eligible for the Academy Plan. If you apply, you will be covered—even if you're over 100. In fact, the Academy Plan has been particularly helpful to people over 65—people for whom a lengthy hospitalization could wipe out their savings. See Paragraph 6 for benefits for people over 65.

## 4 You always deal directly with us. No salesman will call.

One reason that helps keep our premiums so low is that you are buying directly. There are no middlemen. If you mail

Dear Friend,

"Academy offers high-quality insurance at a price the average person can afford. Why don't you look into this simple, reliable method of providing protection for yourself and for your family."

*Burl Ives*

Burl Ives is a member of the Board of Directors of the Academy Life Insurance Company and is compensated for his services on its behalf.
