Pecos Draws Prospector For Gas Pay

Mobil Oil Corp. plans No. 11-D State-Sullivan as a 4,650-foot searcher for Wolfcamp gas in Pecos County, about 14 miles west of McCamey.

Third Strawn Well Seen In Lea Field

Third Strawn producer and a 1/2-mile west extension to that pay has been indicated in the Humble City multipay field of Lea County, N.M., with the flowing of 1.375 barrels of oil per day, in an unreported time on a drillstem test at Harding Oil Co., Dallas, No. 5 Shipp.

Tool was open an unreported time on the test taken from 11,375-11,435 feet, on which gas gauge not reported, surfaced in 20 minutes, and oil, flowing at the above daily rate, surfaced in 47 minutes, through a 1/2-inch choke. No shut-in or flowing pressures were reported.

Drilling continued below 11,435 feet on a scheduled 12,000-foot contract, which would be sufficient to test the Atoka formation in the area.

Location is 1,830 feet from south and 660 feet from east lines of section 19-17S-37E, three miles north of Humble City.

The field has one Atoka producer and recently was opened to Yeso production.

Offset Scheduled In Ward Oil Area

Mobil Oil Corp. will drill No. 5-66 George Sealy as a location southwest, offset to the two-well Magnolia-Sealy, Northwest (3,400 Yates) field of north Ward County.

Drillsite is 1,980 feet from south and 660 feet from west lines of section 66, block F, G&MMB&A survey, six miles northeast of Pyote. Planned depth is 3,550 feet.

Outpost Planned In Pecos Sector

Texas Pacific Oil Co., Inc. staked site for a one-mile west outpost to Ellenburger production in the Gomez (multipay gas) field of Pecos County. It is No. 1 Gulf-Baker.

Drillsite for the test, scheduled to 23,100 feet, is 1,980 feet from north and east lines of section 80, block OW, CCSD&RGNG survey, 11 miles northwest of Fort Stockton.

Canyon Oil Strike Finaled In Ector

Atlantic Richfield Co. has completed as a Canyon discovery in Ector County, its No. 47 J. L. Johnson. Ector County re-entry project, six miles northwest of Odessa.

On 24-hour pumping potential test, it pumped 30 barrels of 34.6-gravity oil and 20 barrels of water, with gas-oil ratio of 500-1.

Production was through per- (Continued On Page 6B)

No-Tax-Hike Budget Proposed

Enemy Shells Trap Viet Marines Document Axes Many Programs, Raises Military

STREET WITHOUT JOY, two companies were trapped in an area less than one mile square. He said the North Vietnamese had fired 1,000 artillery rounds and "thousands" of mortar shells since they launched the attack at 2 a.m. today. Twenty marines have been killed so far and 70 wounded, the general reported, and the men have lost four M48 tanks and three armored personnel carriers. Inspection teams of the International Commission of Control in Vietnam (AP) - Heavy shell fire trapped South Vietnamese marines today on a peninsula at the mouth of the Cua Viet River 28 hours after the cease-fire. Newsmen in helicopters overhead saw one South Vietnamese tank burning and shells bursting around 20 other tanks at the mouth of the estuary seven miles below the demilitarized zone. The marine commandant, Brig. Gen. Bui The Lan, said

Supervision were not due to start operating in South Vietnam's northernmost provinces until Tuesday, and Lan said he did not know when they would arrive. "We need them right now," he said. "The North Vietnamese are abusing the cease-fire all around the countryside." Lan said a marine force reached the mouth of the river two minutes before the cease-fire hour Sunday. They had made a swift rush up the beach in the area that the French, named the Street Without Joy because of the numerous ambushes they suffered there. The enemy kept fighting for 45 minutes beyond the cease-fire, Lan said, adding, "They want to get that position back at any cost." Lan said North Vietnamese troops mingled with about 200 civilians and herded them behind marine lines Sunday afternoon, almost isolating the marine forward unit. South Vietnamese tanks, ambulances and supply trucks chugged up and down the wet sand today as marines gathered men and armored vehicles for a relief force. U.S. Marine advisers, who have been pulled out of battalion-level headquarters since the cease-fire, said they did not know anything about the attack. "We're out of it now," said American officers at one brigade command post behind the front.

WASHINGTON (AP) - President Nixon demanded death for dozens of federal spending programs today, called on Congress for a rigid 1974 budget ceiling of \$268.7 billion, and cautioned that greater spending would mean "high taxes, higher interest rates, renewed inflation, or all three."

Viet Cong Delegates Stall Peace-Keeping Operations

SAIGON (AP) - The Viet Cong delegation refused to present its credentials to the four-party joint military commission, stalling the entire peace-keeping apparatus, a source close to the talks said. Hundreds more cease-fire violations were reported across South Vietnam. A third meeting was called for tonight in efforts to resolve the presentation of credentials and another diplomatic snag. Almost 150 additional North Vietnamese delegates flown from Hanoi to Saigon aboard two U.S. Air Force C-130 transports staged a plane sit-in at Tan Son Nhut air base, apparently refusing to fill out customs and immigration forms. Meetings Accomplish Nothing It was learned that U.S. Ambassador Ellsworth Bunker had personally intervened for the second time in two days in efforts to resolve the haggling. The four parties - the United States, South Vietnam, North Vietnam and the Viet Cong - met for a total of three hours in morning and afternoon sessions but accomplished "absolutely nothing," the source said. The United States, South Vietnam and North Vietnam presented their credentials at the first commission meeting attended by all parties in the morning, the source said, but the Viet Cong refused, without citing a reason. The protocol on the joint commission makes no mention of credentials. The stalled conference of the four parties marked the first time the United States, North Vietnam and the Viet Cong met face to face across a conference table in Saigon. Officials said the meeting of all four parties paved the way

PRESENTING THE BUDGET - Treasury Secretary George P. Shultz, left, talks with Casper W. Weinberger, director of the Office of Management and Budget, during a news briefing today to present President Nixon's \$268.7-billion budget for fiscal 1974. (AP Wirephoto.)

The document lived up to advance billing as an ax job on many social, health, housing, education, and anti-poverty programs of his Democratic predecessors - programs Nixon said had failed after a fair trial.

Despite the domestic cutbacks, the budget called for \$81.1 billion in military outlays, the second biggest defense budget in history even with the peace agreement in Vietnam. It provided no funds for reconstruction of South Vietnam.

Nixon turned his budget a turning point in national policy though still written in the familiar red ink - a \$24.8-billion deficit this year and a \$12.7-billion deficit in fiscal 1974.

But the President pointed to 113 program cutbacks and terminations, worth \$6.5 billion in savings in this fiscal year alone, and told the lawmakers: "The 1974 budget is the clear evidence of the kind of change in direction demanded by the great majority of the American people. No longer will power flow inexorably to Washington."

The figures - some of them leaked in advance by Nixon himself - were: For fiscal 1973: Outlays \$249.8 billion, receipts \$225 billion. For fiscal 1974: Outlays \$268.7 billion, receipts \$256 billion.

LATE NEWS FLASHES

NICOSIA, Cyprus (AP) - A Soviet-built Egyptian Airlines plane with 36 passengers aboard crashed late today while coming in for a landing here. There was no word of survivors.

WASHINGTON (AP) - The Defense Department said today 56 American servicemen previously carried by the United States as prisoners of war remain unaccounted for by North Vietnam in the "two lists we have received so far."

KEY BISCAYNE, Fla. (AP) - Dwight Chapin, President Nixon's appointments secretary, has decided to leave the White House staff, presidential spokesman reported today.

COLD KNIFES DEEP

Wintery weather sent subfreezing temperatures knifing West Texas cities. The high recorded at Midland Air Terminal was 43 degrees and the overnight low 24. The noon temperature today was 54 and the afternoon high is expected to peak near 60 degrees. The National Weather Service predicts a low tonight in the low 30s and a high on Tuesday near 70.

Little Damage Expected Although the mercury dropped to 27 at Brownsville and 28 at McAllen in the Lower Valley's citrus and winter vegetable belt, growers said damage could be expected. They looked for a warming sun to prevent harm. Among the regular reporting stations, only the resort island of Galveston on the Upper Texas Coast saw thermometers stay above freezing around and other equipment over a territory comprising much of the western U.S., with employees given service jobs throughout (See FIRM Page 2A)

Government Rests; Watergate Jurors May Get Case Tuesday

WASHINGTON (AP) - The government rested its case in the Watergate political espionage trial today. The government rested after calling 51 witnesses including seven members of President Nixon's White House and campaign staffs and two officials of the Democratic party. The case grew out of the break-in and alleged bugging of the Democratic headquarters in the Watergate building complex last June 17.

At Least 10 Die As Flames Destroy Home For Elderly PLEASANTVILLE, N.J. (AP) - At least 10 persons were killed early today in a fire that raced through Street's Nursing Home, a two-story, wood-frame home for the elderly. Six other persons were known to have escaped. Tenth Firm To Operate Unit In Industrial Park

Officials of the Midland Chamber of Commerce announced this morning that Worthington Service Corp., a subsidiary of Studabaker - Worthington, Inc., has completed plans for locating a new division headquarters in the Midland Industrial Park. Doyle Tapp, chairman of the Midland Area Sales Team, and John Grimland Jr., president of the Midland Industrial Foundation, said the principal function of the new division will be overhaul and service of compressors and related industrial equipment. The new plant - the 10th to be located in the professionally planned Midland Industrial Park - will include a \$60,000 building and approximately \$40,000 in equipment. The metal structure, built by Abbott Building Co., will be leased from the Midland Industrial Foundation. The building has 6,750 square feet on lot seven, block one of the park. The location was described as a 1.1-acre non-rail site. It is to include three 50-by-25-by-12-foot bays as well as two 50-by-20-by-20-foot bays, designed to support a five-ton bridge crane. Preliminary site work is already under way, with completion anticipated sometime in March. The new division will be

Midland Gives Thanks For Peace

A near-capacity crowd was where over the nation in solemn hand Sunday night in the yet joyous celebration of the official signing of the Vietnam peace accord in Paris last Saturday. The Rev. Robert Boynton Smith, minister of the host church, opened the service and led the prayers of confession. The invocation was voiced by Mrs. Severo Hinojosa Jr., parish worker at St. Andrews Center. Special music was presented by Robert E. Poer, organist-choralemaster of the host church, the Robert E. Lee High School Choral, under the direction of Don McCartney, director of the Methodist Church, and Joe Jackson, a Midland High School student. Judge Culver, looking out over the large audience, said, "You, the people of Midland who are here tonight, are the ones who have responded in magnificent style, and we are grateful." She said "Peace" is a wonderful and beautiful-sounding word, and the "prayers of the people for peace have been answered, and we come tonight to celebrate this joyous occasion." Discussing the real meaning of peace, Judge Culver said the general prayer for peace, the prayer of dedication and petition and the benediction.

Waiting Finally Over For Many POW Families

By LEE GOULD
Associated Press Writer

For many of the American families who waited, the final hours were the longest of their lives, ending in a gamut of emotion from jubilation to bitterness.

The relatives of American soldiers held prisoner by North Vietnam learned Saturday and Sunday whether their men were on the list released by Hanoi.

"Great, great relief," is the way Mrs. Richard Stratton, Palo Alto, Calif., put it after learning her POW husband's name was on the list.

"It was finally over," she said. "It was an emotion shared by those who did not celebrate. By those who learned their husbands or fathers or sons were not on the list."

Miracle Happens
"It's been seven years and I was told at the beginning it would have to be a miracle for him to return, that there was really no hope," said Carol Reitman, who was told that her husband, Air Force Maj. Thomas Reitman, was not included. "It's just like we finally really believe it."

Many talked of making new lives, of rebuilding old relationships. "I was in the sixth grade when he left and I'm a senior in high school now," said Robert Byron Fuller Jr., 17, of Jacksonville, Fla., after hearing that his Navy commander's father was returning. "It will here Tuesday."

U.S. Judge Dies
JACKSONVILLE, Fla. (AP)—U.S. Dist. Judge William A. McCrae, 63, who was once threatened with impeachment by former Gov. Claude Kirk over a school desegregation order, died Saturday of a heart seizure. He drew the governor's ire when he ruled Duval County was not trying to desegregate and drew up his own plan.

Lots Of Water
If the Antarctic ice cap melted at a uniform rate, it would produce about 6.5 million cubic miles of water, enough to flood the Mississippi River for more than 50,000 years.

Nixon Wants No New Taxes

(Continued From Page 1A)
come rental and sale housing will be broadened to apply to seven other housing programs—urban renewal, model cities, water and sewer grants, rehabilitation and public housing, neighborhood facilities grants, public facilities loans and open-space grants.

He added: "Should the Congress cause the total budgeted outlays to be exceeded, it would inescapably face the alternatives of higher taxes, higher interest rates, renewed inflation, or all three. I oppose these alternatives; with a firm rein on spending, none of them is necessary."

DEFENSE
Nixon said the budget "assures us of sufficient strength to preserve our security and to continue as a major force for peace," even without relying on a peacetime draft.

HEALTH
The President invited a tussle with Congress by calling for an end to federal hospital construction under the Hill-Burton program, but his budget calls for an over-all increase of 14 per cent in outlays for health programs, mostly on Medicare and Medicaid.

EDUCATION
Nixon proposed a \$1.7-billion special revenue-sharing program to combine a number of education programs, and called for a \$1.3-billion cutback in funds under the 1965 Elementary and Secondary Education Act.

Enchanted Lake Does Its Own Thing

SAN ANDRES, Mexico (AP)— Though Mexico has many lakes which dutifully follow the laws of nature, one persists in being the exception to the rule — it loses water during rainy periods and gains water during dry spells.

The Enchanted Lake, as it is called by inhabitants of this town 325 miles west of Mexico City, is set in the cone of an extinct volcano.

According to townspeople, the lake drops about two feet in heavy rain, and regains its level during droughts.

No concrete explanation has been found for the water's capricious behavior. The erratic rise and fall of the water, and an apparent high amount of sulfur which occasionally kills the fish, causes natives to believe that "there one becomes bewitched."

Welfare Reforms On Way Down

By JOHN STOWELL
Associated Press Writer
WASHINGTON (AP)— Conceding defeat in its four-year battle for welfare reform, the Nixon administration said today it will instead help states clean up their relief rolls and standardize many "unnecessary" complexities and inequities in welfare programs.

The fiscal 1974 budget sent to Congress anticipates a cutback of more than \$1.2 billion in state-federal public-assistance programs, for a total of \$12.7 billion.

Pentagon Names 55 POW Dead

WASHINGTON (AP) — The Pentagon Sunday night released a list of 55 American servicemen who, the North Vietnamese have reported, died while held captive during the Vietnam war.

The Pentagon said some of the deaths have been disclosed before but could not immediately identify which ones. However, unless noted, the following names did not appear on the latest Pentagon listing, issued Dec. 30, 1972, of military personnel held captive or missing in action.

The Pentagon provided only names, service and ranks of the men. Additional information such as home town or date of capture or death comes from a variety of sources, including antiwar groups, Radio Hanoi broadcasts and POW wives.

NO CEASE-FIRE FOR THEM—A South Vietnamese army medic rushes to aid a seriously wounded soldier, hit by enemy fire about 20 miles northeast of Saigon. In the foreground, a second casualty waits his turn for help. (AP Wirephoto by cable from Saigon.)

South Vietnamese, Communists Accuse Each Other As Bloody Fights Continue

SAIGON (AP) — The South Vietnamese government and its Communist opponents accused each other today of widespread violations of the cease-fire. Officials of the new international peacekeeping force expressed hope of getting teams of observers into the field by Tuesday.

An American soldier died today of wounds suffered Sunday, the first U.S. fatality since the cease-fire went into effect. In the four days prior to the truce, four American military men were killed, and 19 U.S. soldiers and 12 U.S. civilians were wounded.

The U.S. Command announced the withdrawal of another 400 troops today, the second contingent of 400 men to leave since the cease-fire agreement took effect Sunday.

The Command said the men were flown out of the country by commercial airliners. This dropped U.S. troop strength in Vietnam, to 22,700 men.

South Vietnamese officials reported that total casualties on both sides since the cease-fire was announced five days ago approached the bloodiest weeks of last year's Communist offensive. They said 6,133 were killed, including 3,322 enemy and 575 government troops. Of these, 1,055 enemy and 168 government men died in the 24 hours beginning at 6 a.m. Sunday, two hours before the cease-fire began.

South Vietnamese air force planes flew bombing missions in support of government troops although the number of sorties was omitted from the daily war communique. U.S. aircraft suspended operations over South Vietnam in accordance with the cease-fire but continued raids over Laos.

There were conflicting reports concerning Cambodia as U.S. officials in Phnom Penh said all bombing was suspended there with the cease-fire, but a Washington report said they continued.

List From Laos May Add To Number Of Prisoners

By ROBERT A. DOBKIN WASHINGTON (AP) — The United States is pinning hopes on an expected accounting of Americans lost in Laos to swell the total of 555 U.S. fighting men known to be prisoners of the Communists in Indochina.

In providing lists of U.S. captives in North and South Vietnam, the Communists failed to furnish information on Americans taken prisoner in Laos.

The Pentagon also said there are no clues to the fate of 1,315 Americans still missing in action in Southeast Asia.

Pentagon spokesman Jerry W. Friedheim said Sunday that the Laotian problem is being discussed with the North Vietnamese through diplomatic channels in Paris.

Expect List

"We do expect to receive a list," Friedheim said. "We hope to have it shortly."

If necessary, he said, Maj. Gen. Gilbert H. Woodward, chief U.S. representative to the temporary four-power joint military commission supervising the cease-fire, would raise the issue at the group's first meeting.

The question of the missing, Friedheim said, will be pursued in the coming months with the North Vietnamese and Viet Cong by going over the list of missing, name by name, to obtain information on their whereabouts.

In identifying by name the 555 American POWs in North and South Vietnam to be released by the Communists with the cease-fire, the Pentagon

Fate Of 1,300-Plus Missing Americans Remains In Doubt

WASHINGTON (AP) — U.S. officials long have acknowledged and their crews were seen g- edged privately that perhaps down in deep jungle, often most of the missing were dead far removed from roads and because American airplanes villages.

Washington officials long have acknowledged that perhaps down in deep jungle, often most of the missing were dead far removed from roads and because American airplanes villages.

American representatives will go over the list of unaccounted-for U.S. servicemen with North Vietnamese and Viet Cong authorities, name by name, seeking information on their whereabouts.

The Vietnam peace agreement, signed in Paris last Saturday, commits all parties to cooperate in locating missing men and graves.

But the language in the various documents is general and the provisions for carrying out such responsibilities are sketchy.

It is clear that much will depend on the willingness of the North Vietnamese to permit search teams on their soil. Pentagon officials say they cannot tell how far Hanoi's cooperation will extend.

High hopes that many of the 1,300-plus missing men would turn out to be enemy prisoners were shattered over the weekend when the North Vietnamese reported they and their Viet Cong allies held 555 Americans captive. Under the cease-fire agreement, prisoners are to be returned within 60 days.

POLLY'S POINTERS

How Can Kids, Cats Use Same Sandbox?

By POLLY CRAMER
Newspaper Enterprise Association

Polly's Problem
DEAR POLLY — I live on a farm with three pre-school children, a sandbox and five cats. Unfortunately the cats are "using" the sandbox so I am afraid to let the kids play in it for fear of worms. Please, someone tell me what I can do about this problem. The kids love the sand and we want to keep the cats as they keep the mice and rats under control. — KAY

DEAR POLLY — My Pet Peeve is with the people who make "invisible" zippers. I do wish they would come up with a neutral-colored tab so a single zipper could be used on practically any garment. The zipper itself is invisible so the colored tab is the only reason one is unable to reuse a perfectly good zipper. — MAY

DEAR POLLY — Regarding Ruby's letter concerning locked churches — I agree this is a deplorable situation that they have to be kept locked. I am a church secretary and also am interested in visiting different churches and cathedrals. In past years our church was always open during the daytime, but because of vandalism, petty stealing and just plain mischief causing extensive damage, we have been forced to lock our doors. Our church is kept open during the morning hours when the custodians are there but otherwise we are forced to lock the doors. Most of the trouble is caused by teen-agers and even younger boys. Until this type of thing stops I can see no other answer to the problem. It would, indeed, be a wonderful thing to be known as a nation of churches so we should all try to help with our influence on our own children. — RUTH

DEAR GIRLS — Among the many letters received concerning the necessity for locking church doors one from Mrs. R. L. C. ended as follows: "Until we have better behaviour from some of our citizens and more respect for the property of others this situation will remain." — POLLY

DEAR POLLY — At one time or another we are all confronted with the problem of what to do with wet soiled facial tissues when no waste basket is convenient and we are out in public. I always carry a plastic sandwich bag in my purse and used tissues are slipped into the bag. This is great for church, etc. — GENEVA

DEAR POLLY — For over 50 years I saved so much

darning of socks by rubbing a piece of paraffin wax over the toes and heels of all socks just after each washing. The shoes rub the wax instead of the socks and my husband wore socks for a year or two without getting holes. — MRS. S. E.

PRESIDENTS — Mrs. Kenneth W. Nordeman, left, is the new president of the Tall City Democratic Women's Club, and Mrs. Robert E. Steward, the immediate past president of the organization, which met Thursday at Midland Country Club for installation ceremonies.

Artist Gives Alumnae Program

The Zeta Tau Alpha Alumnae Chapter met recently in the home of Mrs. Austin Allison, 3100 Gulf St., with Mrs. Bryant Burk Jr. as co-hostess.

Perry Holley, Midland artist, presented a program on wood carvings of birds. Slides were shown and pieces displayed.

Mrs. Louis Michaelson announced election of officers will be held at the Feb. 22 meeting. Correspondence was read from Clarion State College, where the chapter's adopted college chapter is located, by Mrs. Kenneth G. Megarity, treasurer.

Mrs. J. G. Jenkins announced a wine tasting party for couples will be held Feb. 8 in the home of Mrs. Michaelson.

Mrs. Ralph G. Preston was welcomed as a new member.

Tasty Potatoes

Wash and dry eight small potatoes and rub with salad oil. Place on a rack in a shallow pan in an oven that has been preheated to 425 F. Bake 25 minutes or until soft when pressed. When cool enough to handle, rub with a little margarine and sprinkle generously with salt. Serve hot. Very tasty.

Volunteers Speak To Club

IRAAN — Two volunteer workers at the San Angelo Center were guests of the Mildred Parker Garden Club during a recent meeting in the Community Center.

Mrs. Mary Kenemer and Mrs. Mildred Douglas described the work at the center and showed slide pictures.

Mrs. Ken Peacock presented a program on Arbor Day. It was announced the club will sponsor the Mother's March this month, with Mrs. Louis Elliott, president, as chairman.

Mrs. Peacock provided the arrangement, a white sprayed limb with two white quail and red bird seed container.

Mrs. Ned Daniels was hostess to the social hour. Mrs. Kermit Sorrells also was a guest.

SICKLE CELL MONTH — Mayor Ernest Angelo Jr., who has designated February as Sickle Cell Month in Midland, is pictured with members of the Oregena's Club, from the left, Carolyn Gilbert, reporter for the club; Marie Holloway, club president; and Wanda McGrew, chairman of the club's sickle cell fund raising activities.

Mobil Club Names Winners

Mobil Wives Club met recently for bridge and a luncheon at Ranchland Hills Country Club, with 30 members attending.

Hostesses were Mrs. Jacques Stoltz and Mrs. Oscar Person. Bridge winners were Mrs. Person, high, and Mrs. L. W. Randerson, second high.

There will be a couples' party in February, it was announced.

The novice-flight pairings are: Mrs. John Moffitt, Mrs. E. W. Heckathorne and Mrs. E. H. Furrey.

Sickle Cell Month To Be Observed

The Oregena's Club of Midland has planned various fund-raising projects to raise funds for the Sickle Cell Disease Research Foundation of Texas, Inc. in Houston during the month of February, which has been designated Sickle Cell Month by Midland Mayor Ernest Angelo Jr.

The foundation is engaged in research in the field of sickle cell and related blood diseases. No cure has yet been discovered for sickle cell anemia; however a national spotlight has been turned on, with Congress appropriating funds over a three-year period, during which public education, medical research, genetic counseling and health care will be intensified.

The proclamation also states sickle cell is a blood disease which is inherited and is found principally in Negro persons or persons of a dark race. In mild form, it is known as sickle cell trait and is found in one out of 10 Negro Americans, while its severe form, sickle cell anemia, is evidenced in some 50,000 persons in the United States.

Dear Abby

No Hand Holding Until A Doctor's At Hand

—By Abigail van Buren

DEAR ABBY: I have never seen a problem like mine in your column. I am a 15-year-old girl and I never let a boy hold my hand because I have ugly warts on my fingers and I am so ashamed of them. My family can't afford to send me to a doctor to have them removed and I have tried every kind of compound and even rubbing potato on them, but they don't go away. Please help me.

LOVE FROM
FT. MYERS, FLA.

DEAR LOVE: Ask your school nurse if there is a free clinic in your area. Some doctors donate their services, and perhaps one would agree to remove your warts and solve your problem. (P.S. Write to tell me if you have any luck.)

DEAR ABBY: I am a blind and partially paralyzed veteran who has been home from Vietnam since 1968, and one of my biggest pleasures was listening to you on CBS radio. It was only about five minutes a day, but I never missed it, and it sure cheered me up. Lately I can't find it. Did they take you off or what?

DISAPPOINTED IN N.Y.

DEAR DISAPPOINTED: No! I am still on CBS radio six days a week, but they changed the time of my program all over the U.S. Telephone your local CBS radio station and ask them what time Dear Abby is now on. And God bless!

DEAR ABBY: Years ago when one received an R.S.V.P. invitation to a wedding, no response was taken to mean the answer was negative. Who has changed all that?

About a month ago, I received a wedding invitation from out of state. The groom is my cousin, and I never met the bride. Well, I didn't respond one way or the other because I had no intentions of going.

Yesterday, I received a very formal-type letter from the bride asking to please let her know if at my "earliest convenience" whether I am coming or not. Several other members of my

family received the identical letter. We all think this is very peculiar to get such a letter from a total stranger. Have things changed?

ANONYMOUS

DEAR ANONYMOUS: Nothing has changed. All R.S.V.P. invitations should be acknowledged promptly with either an acceptance or a decline. (Wherever did you get the idea that to ignore an invitation was to decline it?)

DEAR ABBY: I never thought I'd be writing a letter to Dear Abby, but maybe if I put this down on paper it will strengthen my resolve.

A woman who objected to dirty jokes wrote and asked you what to do when someone told one in her presence, and I think your answer to her was so good. I am cutting it out and taping it up on my mirror where I will see it often. You said: "Don't permit ANYTHING which offends you to be said in your presence without challenging it. Silence implies tacit approval. Respectable people will respect you, and don't worry about what the others think."

Never again, I hope, will I sit in my white, suburban living room politely acquiescing to statements like these.

"I'd like to sell my house to a Negro family, but I'm afraid of what the neighbors will say."

"What else can you expect of him? Look at the family he comes from!"

"All Jews are alike."

"All the Irish are big drinkers."

"Don't ever trust an Italian."

The list could go on—and on. If you don't mind my taking your answer out of context in this instance, sign me

Vienna Talks Scheduled

BRUSSELS, Belgium (AP) — The United States and 11 of its North Atlantic allies decided today to go to Vienna for the opening of talks with the Communist bloc on mutual and balanced force reductions in central Europe.

The talks in the Austrian capital begin Wednesday.

The decision of the NATO group was announced in a statement after a meeting of the North Atlantic Council, where all 15 members of the alliance are represented. France, Portugal and Iceland will not take part in the talks.

The Western countries had invited East Germany, Poland, Hungary and Czechoslovakia to take part in the talks. The Soviet Union has said it is also bringing along Romania and Bulgaria.

NATO officials said the West would not object so long as the same status as their own members of the flanks of the

Texas Counts Fewer Violent Deaths During Last Weekend

By THE ASSOCIATED PRESS

Texas counted far fewer violent deaths than usual during the weekend.

One reason may have been a wintry cold spell, which presumably tended to cut down on motor travel.

A late tabulation for the period from 6 p.m. Friday to midnight Sunday included half a dozen traffic fatalities, five shootings, two fire deaths, a stabbing, a drowning and a fatal beating—a total of 16.

These were among the victims:

Three members of a Mexia family died and two persons suffered serious injuries Sunday when a car and a pickup truck collided on a farm road near Teague. The crash killed

Jerry Burleson, 37, and his wife Dorothy Jean, 18, and their son Jerry Gene, 3. Another son of the Mexia couple and the driver of the pickup, Leslie Steen of Teague, were injured.

Rodriguez Rubio, 22, of Houston was fatally shot late Saturday night on a city street. Officers said Rubio, a laborer, was hit three times. He died Sunday.

A pistol shot killed Herbert Ray Doss, 13, Sunday evening in West Dallas. Companions told police he had found the 38-caliber revolver and was examining it when the weapon fired.

Frank W. Diggle, 24, critically burned Saturday in a three-alarm blaze that struck an apartment complex, died Sunday in Dallas' Parkland Hospital.

A little Fort Worth girl, Paige Applegate, 5, was kidnapped Friday, held prisoner 18 hours and then killed by what police described as a blow like "a karate chop." The body was found Saturday. Police mounted a massive search for the killer.

Gary H. Fitzgerald, 24, was killed Sunday when his car went out of control on a Houston street and hit a parked truck, police said.

Vivian T. Robinson, 34, was shot to death in Houston Saturday night when a bullet aimed at a straying husband hit her in the chest. Police said they

Death Claims Widely Known Philanthropist J. K. Wadley

TEXARKANA, Tex. (AP) — J. K. Wadley, an Arkansas native who made a fortune in the lumber business and became widely known as a philanthropist and sportsman, died Sunday. He was 95.

He also had engaged in assorted other business ventures and was identified in the Southwest for contributions to the J. K. and Susy L. Wadley Research and Institute and Blood Bank in Dallas; Baylor Hospital in Dallas and Wadley Hospital in this city.

Wadley had been in poor health for two years. Death came at the hospital in Texarkana which was named for him and for his late wife.

Born at Arkadelphia, Ark., he was the son of William Garrett Wadley and Emily Allen Wadley, who moved to Texarkana when he was one year old.

His education was received in Arkansas, Texas and Louisiana in public schools, and he grew up observing the manufacture of lumber in Southwest Arkansas, East Texas and Northwest Louisiana. He also attended Southwestern University at Georgetown, Tex.

Wadley's first job was telegrapher and office assistant with the Louisiana and Arkansas Railroad and the William Buchanan lumber interests. While still just 20 years old, he became auditor and assistant treasurer of the Buchanan companies, and after four years struck out in the lumber business on his own.

With the late E. E. Porter he established the Porter-Wadley Lumber Co. at Cotton Valley, La., in 1904.

Fifteen years later he began extensive oil and gas operations in Northwest Louisiana and up to his last illness had engaged in wide oil development in all producing states. His principal holdings were in Louisiana, East Texas, West Texas, New Mexico and California.

His business interests also included various hotels. He was former owner of the Washington-Youree Hotel in Shreveport, La., and was interested in the Hilton Hotel chain.

Draft Card Still 'Must'

WASHINGTON (AP) — The draft that raised armies and drove hundreds to flee their country has been retired.

But the Selective Service System which monthly sent "Greetings" to thousands of young men is still intact.

The nation's 18-year-old men will still have to register for the draft—and carry their credit-card-size draft cards. Stand-by by lotteries still will be held every year.

Only inductions have ended, and the Nixon administration retains authority to resume them until June 30. On that date, the administration's draft in whole and in part will expire unless Congress with greases renews it.

Time and date to be set. Burial here will follow the church since 1948; men between 18 and 35 don't face induction.

Junior Achiever Companies Plan Open House Events

Those meeting Tuesday are Jasco, Texas Electric Service Co.; Ti-Forp, Continental Oil Co.; Drikey, Drilon Oil Tools; Gojac, Gulf Oil Corp.; Tues-A-Getty, Getty Oil Co., and Exco, Exxon Co.

Companies meeting Wednesday are Tlorp, El Paso Natural Gas; Jacryl, Shell Oil Co.; Bluja, Atlantic-Richfield; Texaco, Texaco Inc.; Unico-78, Union Oil of California; and Nojaco, Northern Natural Gas Co.

The J. A. Bank, counseled by the First National Bank and The Midland National Bank, has sections meeting each evening.

The company having the most adult visitors will receive a wall plaque.

Woman Charged With Shooting

GINAVE CRUZ, 58, of 604 S. Atlanta-St. was charged Saturday afternoon with assault with intent to commit murder in connection with the Friday afternoon shooting of Placido Villanueva, 55.

Justice of the Peace Robert Pine took the charge about 1 p.m. and she was released on a \$5,000 bond about an hour later.

Police said Saturday morning that they did not expect to file the complaint until today but her attorney, Bill Smith of Midland, requested that if a charge were going to be filed, that it be filed Saturday so that a bond could be set and she could be released.

Villanueva was wounded in the head, abdomen, groin and left arm and remained in satisfactory condition this morning in the intensive care unit at Midland Memorial Hospital.

Copter Pilot Becomes First GI Killed Since Cease-Fire

SAIGON (AP) — A U.S. helicopter pilot, wounded while flying a couriering aircraft reported to bear mission 10 miles southwest of Can Tho, capital of the Mekong delta, died today. He was the first American killed in Vietnam since the cease-fire went into effect Sunday morning.

The U.S. Command identified the pilot as WO Anthony Dal Pozzo, 22, of Santa Barbara, Calif. It said he was wounded

Corona Attorney Questions Juror

FARFIELD, Calif. (AP) — Juan Corona's lawyer says he would call the lone holdout juror as a witness today as he made a plea for a new trial for Corona, who was convicted 10 days ago on 25 counts of first-degree murder.

Defense lawyer Richard Hawk said before the courtings for aircraft that it would be hearing that he planned to call use on field missions. Naont Underwood to the witness stand to support his claim that jury tampering took place down on the deck so anyone Jan. 17, the night before the guilty verdict was delivered. "There was no way they (the enemy) could have missed it."

Oklahoma Nabs Trio, Seizes Pot

LAWTON, Okla. (AP) — An informer's telephone call has led to the arrests of three persons and confiscation of marijuana valued at \$10,000.

Two men and a woman were taken into custody Sunday after their car was stopped by authorities on the outskirts of Lawton in southwestern Oklahoma.

Police said they were part of a three-state drug operation involving the transportation of marijuana from El Paso, Texas, to St. Louis, Mo.

Instead of telling us not to smoke, maybe they should tell us what to smoke.

For years, a lot of people have been telling the smoking public not to smoke cigarettes, especially cigarettes with high 'tar' and nicotine. But the simple fact is that now more Americans are smoking than ever before. Evidently many people like to smoke and will keep on liking to smoke no matter what anyone says or how many times they say it.

Since the cigarette critics are concerned about high 'tar' and nicotine, we would like to offer a constructive proposal. Perhaps, instead of telling us not to smoke cigarettes, they can tell us what to smoke. For instance, perhaps they ought to recommend that the American public smoke Vantage cigarettes.

Vantage has a unique filter that allows rich flavor to come through it yet substantially cuts down on 'tar' and nicotine. We want to be straightforward. Vantage is not the lowest 'tar' and nicotine cigarette. But it will be the lowest 'tar' and nicotine cigarette a smoker will enjoy smoking. It has only 12 milligrams 'tar' and 0.9 milligrams nicotine. The truth is that smoke has to come through a filter if taste is to come through a filter. And where there is taste there has to be some 'tar'.

But what good is a low 'tar' cigarette if the smoker has to work so hard trying to pull the flavor through, he feels like he's sucking on a pencil?

Vantage gives the smoker flavor like a full-flavor cigarette. But it's the only cigarette that gives him so much flavor with so little 'tar' and nicotine.

A statement of simple fact we believe all of us can endorse. And that you can experience in your next pack of cigarettes.

Filter and Menthol. 12 mg. 'tar', 0.9 mg. nicotine—av. per cigarette. FTC Report Aug. 72.

Economists Say Budget Headed In Right Direction

By JOHN DORFMAN
(An AP News Analysis)

NEW YORK (AP) — President Nixon's proposed budget for fiscal 1974 is headed in the right direction, though it does not go far enough, some economists say.

The budget calls for federal spending of \$268.7 billion in fiscal 1974, with a deficit of about \$12 billion. That compares with a projected \$25 billion spending total in 1973 and a deficit for the current fiscal year.

Approves Intention
Professional economists contacted by The Associated Press said the President's intention apparently was to reduce stimulation of the economy by cutting back the amount of money pumped into it through deficit spending. They indicated general approval of this intention.

However, four economists said Nixon had not gone far enough in the right direction. "We should really be running a surplus next year," said James O'Leary, executive vice president and economist for U.S. Trust Co.

"Just to have a smaller deficit isn't enough."

Sees Booming Economy
O'Leary sees a booming economy ahead, with the danger of inflation fueled by consumer demands. Of the two major government weapons for controlling the economy — tax policy and monetary policy — the latter will be burdened with the entire task of fighting this inflation, O'Leary fears.

"All this budget represents is kind of a holding action," he said. "It puts a big pressure on the Federal Reserve to be restrictive in the credit area, and poses the danger of another credit crunch like that of 1969-70."

If the Fed doesn't tighten the money supply enough to cause a crunch, O'Leary and others worry that the pace of inflation will increase.

Inflation Factor Small
Albert T. Sommers, chief economist for the Conference Board, said a \$12-billion deficit would not be much of an inflation factor, but added, "If anybody says this budget means there will be no inflation, that's wrong."

Elton Janeway, a syndicated investment columnist and au-

thor, said President Nixon is misinformed if he believes a \$268.7-billion budget would create only a \$12-billion deficit, and predicted "an inflationary crisis."

Others, however, believe Nixon had struck exactly the right balance.

"It is obvious the administration's determination to hold down the growth of government spending is very real," said

William Wolman, chief economist for Argus Research.

"There is no doubt this will strike a blow against inflation."

Richard W. Everett, domestic economist for the Chase Manhattan Bank, said the proposed fiscal '74 totals were "moving toward good budgetary policy."

Professor Paul Samuelson, a Nobel prize-winning economist usually regarded as a liberal in economic theory, described the

proposal as "a strong attempt to fight inflation by fiscal contraction."

Except for Social Security, most areas in the fiscal '74 budget were receiving reduced allotments, Samuelson said.

"Whether Congress can live with this, I don't know," he added.

One thing the Nixon budget proposal makes clear is that federal budget deficits have be-

come routine for the United States. Fiscal 1974 would be the 13th year out of the last 14 in which the government has spent more than it takes in through taxes.

Can the government go on running deficits indefinitely without harm?

"One should keep in mind," said Francis Schott, vice presi-

dent of Life Assurance Society,

"that budget deficits of this order of magnitude are a very small influence on a \$1.2-trillion economy."

Irwin Kellner, vice president and economist at Manufacturers Hanover Trust, said the amount of federal debt in relation to the entire economy has been shrinking, and he termed a moderate addition to the debt "not worrisome."

Still, Kellner and others be-

lieve that when full employment is reached, the budget should show a surplus to avoid overstimulating the economy and aggravating inflation which takes away the purchasing powers of consumers.

Others say chronic deficits felt by President Nixon might be bad because they saddle the government with a large uncontrollable item in the form of annual interest on the national debt — an item which has been run-

ning at about 8 per cent of the budget total.

Such untouchable chunks deprive the government of ability to manipulate the budget as a tool of economic policy.

But while many economists are glad to see the tool he did bring into the fiscal arena, they

pruning shears.

Midlanders Hurt In Vehicle Wrecks

Two persons hurt in separate auto accidents were admitted to Midland Memorial Hospital Sunday after their vehicles struck fixed objects, authorities said.

Ross Sanford Green, 18, of 2008 N. Keith St. was treated for a cut forehead and multiple scrape wounds and was released later Sunday.

Condell Wright, 45, of 1909 E. Wall St. was listed this morning in satisfactory condition. He is being treated for left arm and lower lip injuries.

Green's accident occurred shortly before 3 a.m. at the intersection of Michigan and A streets.

His car was headed north on A Street and went out of control as it was making a left turn onto Michigan. It jumped the curb, hit a concrete sign post and a large tree, Patrolman Don Aldridge reported.

Wright's pickup truck knocked down a utility pole at Illinois and Adams streets about 7:45 a.m., according to Patrolman Jack Holbrook.

The truck was headed east on Illinois when it struck the curb and went out of control, Holbrook said.

Langdon Speaker At Fort Stockton

FORT STOCKTON — Jim C. Langdon, chairman of the Texas Railroad Commission, will be the featured speaker Friday night at the 29th annual Fort Stockton Chamber of Commerce banquet.

The dinner will be held at 7:30 p.m. in the new junior high school cafeteria.

Langdon, who will discuss the future of the oil and gas industry, was appointed to the commission in 1963 by Texas Gov. John Connally.

He is a former FBI agent and district judge in McCombe and former chief justice of the court of civil appeals in El Paso.

Budget Second Biggest In History

WASHINGTON (AP) — The first peacetime national-defense budget in 12 years will be nearly the biggest in history. President Nixon today outlined a \$81.1-billion spending program for national defense in the next fiscal year starting July 1. This will rank second only to the record \$81.6 billion for fighting around the globe and developing the first atomic bomb in 1945, the last year of World War II. The fiscal 1974 spending plan marks a jump of \$4.7 billion over the current year even though the United States will be out of the Vietnam war and the 2.2 million Americans in uniform will be the smallest number in 24 years. Personnel costs—including pay, housing, medical care, education and other services—account for about 56 per cent of the defense budget, Nixon said. Nixon said that despite various reductions in over all weapons economies the spending curve will go up next year because of pay boosts for an all volunteer force and what he called "normal price increases."

Rufus Arp, 81, Dies At Odessa

ODESSA — Rufus Arp, 81, died Saturday morning in an Odessa hospital. Services were held at 10 a.m. today in the Rix Funeral Home Chapel, with interment in Sunset Memorial Gardens. 7,000 Visit LBJ Grave

STONEWALL, Tex. (AP) — More than 7,000 persons visited the grave site of former President Lyndon B. Johnson during the last weekend, Alex Gould, National Parks Service superintendent of the LBJ Historic Site, said today. Gould said park rangers counted 3,000 persons stopping by the Johnson family cemetery on Saturday and 4,000 on Sunday. Visitors are not allowed to enter the small family cemetery but may walk around and look over the low stone wall that surrounds it. Park rangers are on duty at all times to answer questions and make explanations, Gould said.

COLLEGE BASKETBALL ROUNDUP—

UCLA Rolls; Wolfpack Too

By GORDON D.S. PETERSON
Associated Press Sports Writer

The Atlantic Coast Conference Basketball Tournament is still over a month away, but if the play in the ACC so far is any indication of things to come, someone is likely to walk in the back door and claim the title and an NCAA playoff berth.

The ACC remains the foremost proponent of championship-by-tournament play, throwing regular season records out the window.

While top-ranked UCLA was breaking records, ACC coaches agreed that the season that matters for them is the one from March 8-10 this year at Greensboro, N.C.

The ACC's North Carolina State, North Carolina and Maryland were ranked No. 2, 3 and 4, respectively, in last week's Associated Press poll. North Carolina's Tar Heels most certainly will skip after last week's results, which saw them fall to Maryland 94-88 on Saturday, after being ambushed by Virginia 84-78 Thurs-

28-MONDAY, JAN. 29, 1973

day night. North Carolina State blasted Furman 98-73 in non-conference action and should keep its stranglehold on No. 2.

The headline story in college basketball over the weekend was the record-setting performance by UCLA in breaking San Francisco's consecutive victory streak with their 61st, 82-63 over Notre Dame.

In the dog-eat-dog ACC, North Carolina State plays Maryland on Wednesday and still must play North Carolina twice. Maryland, which as last earlier to North Carolina State, has to travel to Chapel Hill next month for a rematch with North Carolina.

North Carolina State used a 27-point performance from super-sophomore David Thomp-

son to bury Furman. The Wolfpack, the highest scoring team in the country, piled up a 51-29 halftime lead.

Maryland's Jim O'Brien, bearded earlier in the week by Coach Lefty Driesell for not shooting, overcame his bashfulness and scored a career high 38 points in leading the Terrapins over North Carolina.

UCLA became the most powerful dynasty in college basketball history by defeating Notre Dame behind Bill Walton, of whom Coach Digger Phelps of the Irish said, "What can you say about him, he does everything well."

In other Saturday action involving teams in the Top Ten, No. 5 Long Beach State stopped Northern Illinois 101-86; sixth-ranked Indiana beat Michigan 79-73; seventh-ranked Missouri blasted Nebraska 78-65; No. 8 Minnesota clobbered Michigan State 93-77; ninth-ranked Alabama edged toward the Southeastern Conference crown by beating Tennessee 72-56 and No. 10 Marquette stomped Loyola of Chicago 73-54.

TOP PROSPECTS — Bert Jones, left of LSU and Dave Butz of Purdue are the two college players likely to be grabbed in the first round of the National Football League draft Tuesday. Butz is a 6-foot-7, 280-pound tackle while Jones is a 6-3, 200-pound quarterback.

Red Wings Post 4-2 Triumph

By BRUCE LOWITT

Associated Press Sports Writer
New York Rangers Coach Emile Francis may have found a new secret to success—get the rest of the National Hockey League teams angry just before they play Montreal.

On Saturday, the Rangers ventured into Detroit and came away with a 6-3 victory. So on Sunday, the aroused Red Wings sailed into Montreal and, before a national television audience, chalked up a 4-2 victory that snapped the Canadiens' unbeaten string at 13 games.

The Rangers, meanwhile, returned home Sunday night and, sparked by a pair of Jean Ratelle goals, polished off Toronto 5-3 to move within five points of front-running Montreal in the East Division.

"The key game in our push on Montreal was yesterday," Francis said of the Red Wings' game. "By beating them there, we helped ourselves and got them mad enough so they helped us again today."

If the Red Wings were angry, then Henry Boucha was livid. He simply couldn't wait to get at Canadiens' goalie Wayne Thomas—and he didn't.

Picking up a pass following the opening faceoff, Boucha barreled into the Montreal zone and rifled home a goal just six seconds into the game. It was the fastest goal in the history of the league, shaving a second off the record set nearly 41 years ago by the late Charlie Conacher of Toronto.

In Sunday's other NHL games, Atlanta shelled Buffalo 6-5, Boston edged Los Angeles 6-5, Philadelphia nipped California 4-3 and Chicago mauled Minnesota 5-1. In Saturday's other action, Chicago beat Boston 4-2, St. Louis whipped Vancouver 3-1 and Philadelphia turned back Pittsburgh 5-3.

In the World Hockey Association Sunday it was Lps Agfeles 9, Chicago 2; Winnipeg 5, Ottawa 4; Houston 4, Chicago 3, and Alberta 4, Philadelphia 2.

Gilles Villeneuve yielded only power play goals by Toronto's Dave Keon and Paul Henderson and stopped three breakaways in only his second start since Dec. 27 in place of Ed Giacomin. They'll be the two East Division goalies in Tuesday night's NHL All-Star Game.

After Boucha's goal, Guy Lapointe tied it for Montreal—but from then on it was just about all Detroit. Marcel Dionne set up Nick Libbett's goal, then scored his 23rd, and Guy Charron clicked before the Canadiens had another good shot at a score.

The shot was a rare penalty shot by Jacques Lemaire—but it wound up as a dull thud, ricocheting off the goalpost behind Denis DeJordy and bouncing harmlessly away.

Raiders For Real

Play Aggies On Road Tuesday

By DENNE H. FREEMAN

Associated Press Sports Writer
Texas Tech, which has been unreal at home, finds out if the Red Raiders are for real on the road this week with five teams waiting in the wings should the smooth crew from Lubbock stumble.

Tech remained unbeaten in SWC play Saturday night with its second overtime victory in as many weeks—this time 73-64 over Texas.

The Red Raiders play at Texas A&M Tuesday night and at Baylor Saturday night.

Tech seems to come up with a new hero every night. It was underrated Ed Wakefield who poured in 10 of Tech's 14 points in overtime to buy Texas.

Coach Gerald Myers says the hometown fans contributed heavily to the victory.

"Our fans really exploded," Myers says. "They put us over the hump and picked us up—which is the first time I can re-

member that happening in two or three years." Texas, the defending SWC champion, threw a changing 1-3-1 zone and man-to-man defense at Tech that confused the Red Raiders.

Myers says "We didn't attack Texas' defense real well, but Texas is deceiving. They played a fine game and deserve to win some games. Someone had to be a loser and I'm glad it wasn't us."

SMU beat Baylor in its own "Bear Pit" 81-69, Arkansas drubbed TCU 90-75, and Rice started Texas A&M 81-75 to set the stage for another round of dramatics Tuesday night.

Tech is 4-0 with Arkansas and SMU, each 3-1, in hot pursuit.

Texas A&M, Baylor and Rice are 2-2 and still in the race.

Texas and TCU are tied for the cellar with 0-4 records.

SMU showed signs of regaining the form that led the experts to select the Mustangs as pre-season SWC favorites.

The Mustangs played tremendous defense and freshman Ira Terrell went on a rampage as SMU bumped off the Bears in "The Pit" at Rena Marrs Gymnasium. Baylor is playing all of its games in the comfy old gym until Heart O' Texas Coliseum is repaired because of storm damage.

"When you have a player who hits 12 field goals on 17 shots (Terrell) that team is in pretty good shape," said Baylor Coach Bill Menefee.

Terrell was also tough on the board, hauling down 10 caroms. In other games Tuesday night, Arkansas is at SMU in a game that will break the second place deadlock, Baylor is at TCU and Rice is at Texas.

Three Enter Hall Of Fame

NEW YORK (AP) — They called him "High Pockets," but George Kelly was more than just a colorful appellation.

To Frankie Frisch, he was one of the finest first basemen who ever lived. To Waite Hoyt, he was a dangerous man in the clutch.

And to the people who vote for such things, he is a perfect choice for the Baseball Hall of Fame.

Kelly, the power-armed infielder of the New York Giants in the 1920s, was elected to the Hall Sunday along with two others by the Oldtimers Committee.

Also selected were pitcher Mickey Welch, a 300-game winner with the Giants prior to the turn of the century, and Billy Evans, a top-flight American League umpire in the 1920s.

Nicklaus Wins

PEBBLE BEACH, Calif. (AP) — Jack Nicklaus lifted his eyes to the skies and murmured: "How in the world did I ever win this one?"

He's just picked up his 42nd tour triumph and his first of the young season in Bing Crosby's National Pro-Am Golf Tournament and he got it in a fashion that Nicklaus described as "one of the most unusual I've ever won."

He and Ray Floyd were given a second chance when Orville Moody three-putted for a bogey on the 72nd hole and set up a three-way playoff for the \$36,000 first prize.

Nicklaus won it, just as he did in a playoff with young Johnny Miller for this title a year ago.

Moody and Floyd both had missed their birdie tries when the Golden Bear stepped up to a 12-foot putt for a three on the par four 15th hole, the first playoff hole.

Nicklaus surveyed the situation, then glared at the hole in characteristic fashion—as if daring the cup to refuse his putt. He stroked solidly and a smile broke out. He began walking after the ball before the ball got to the hole.

"As soon as I hit it, I knew the putt was going in," he said. It did and the Golden Bear was a winner again.

He and Floyd played the wind-whipped final round in one-under-par 71s and Moody, who held a four-stroke lead starting the day's play, blew to a 76 for a tie at 282.

Moody, who won only \$13,000 last season, and Floyd each collected \$16,650. So that putt from some 18 inches, that Moody missed on the 72nd hole carried a value of over \$1,000 an inch.

"I hit a good putt," the heartbroken O' Sarge said. "It was going right at the hole and it

hit something and just squirted away. Just squirted away."

Dave Marr took fourth alone with a 72-285, three strokes back of the three-man race for the top spot. Rod Funseth, the surprise winner of the Los Angeles Open, had a fourth consecutive top 10 finish with the day's best round, 69. He tied for fifth with Lee Elder, 73-286.

Lanny Wadkins and Don Iverson, the young men tied for second starting the final round, fell back in the winds that reached 35 miles per hour in gusts. Each had one string of five consecutive bogeys, most on the ocean holes. Wadkins had an 82-292 and Iverson 77-287.

Billy Casper, the leader for the first two rounds, had a 76-287. Lee Trevino was 71-288, Arnold Palmer 76-297 with a fourth putt on the 11th hole and Australian Bruce Crampton, the winner of the last two tour events, was well back at 77-294.

The New York Knicks had it when they needed it. The Philadelphia 76ers needed it just as badly and, as they've been doing all season, they simply couldn't find it.

The Knicks, who went into the weekend's National Basketball Association action trailing Boston by 2½ games in the Atlantic Division, came out of it just half a game behind the Celtics. They beat the Celtics 111-108 in New York Saturday, then ventured into enemy territory and did it again, this time 96-93 Sunday on national television.

They pulled off their twin triumphs in ways that were both very different and very similar.

They were different because, in New York, they did it with a come-from-behind effort while in the Sunday squeaker, they built up a massive lead, then had to withstand a furious rush by the Celtics which all but obliterated it.

And they were similar because, in both instances, it was Walt Frazier to the rescue for the Knicks. On Saturday night he sank a jump shot, then stole Boston's inbounds pass and flipped in a layup and finally hit two free throws, all in the closing minute, to key the vic-

And on Sunday, Frazier clicked for 13 of his team-high 63 points in the final six minutes as the Knicks, whose 17-point third-quarter lead was whittled to just one point, staved off the Celtics' charge.

Elsewhere, Chris Bordeleau set up four goals, including Bobby Hull's game-winner with 6½ minutes left, as the Winnipeg Jets edged the Ottawa Nationals 5-4 and the Alberta Oilers downed the Philadelphia Blazers 4-2.

Saturday, it was Philadelphia 1, Alberta 0 in overtime; Quebec 3, New England 1; Cleveland 2, Chicago 1.

No Energy Crisis!?!?

How in the world can a man brilliant enough to serve as a researcher for the Ford Foundation come up with the idea that "we have no energy crisis" ... and then be so bold as to blame this winter's fuel shortages on President Nixon.

What in the world can he be thinking about? If it isn't an energy crisis, what is it?

And the worst part about it is that he made his statements and charges in an address before the Consumer Federation of America's consumer assembly, most members of which readily will swallow such misinformation without further investigation.

It is misinformation which has caused the crisis.

The Foundation researcher, one David Freeman, did admit to the consumer group that "there are problems galore." There is no doubt about that.

He blames the fuel shortage on President Nixon's refusal to end present oil import restrictions, and said the shortage may be setting up consumers for a fleecing.

"This winter's so-called energy crisis was manufactured right here in Washington," Freeman said. "It could have been averted with the stroke of a pen."

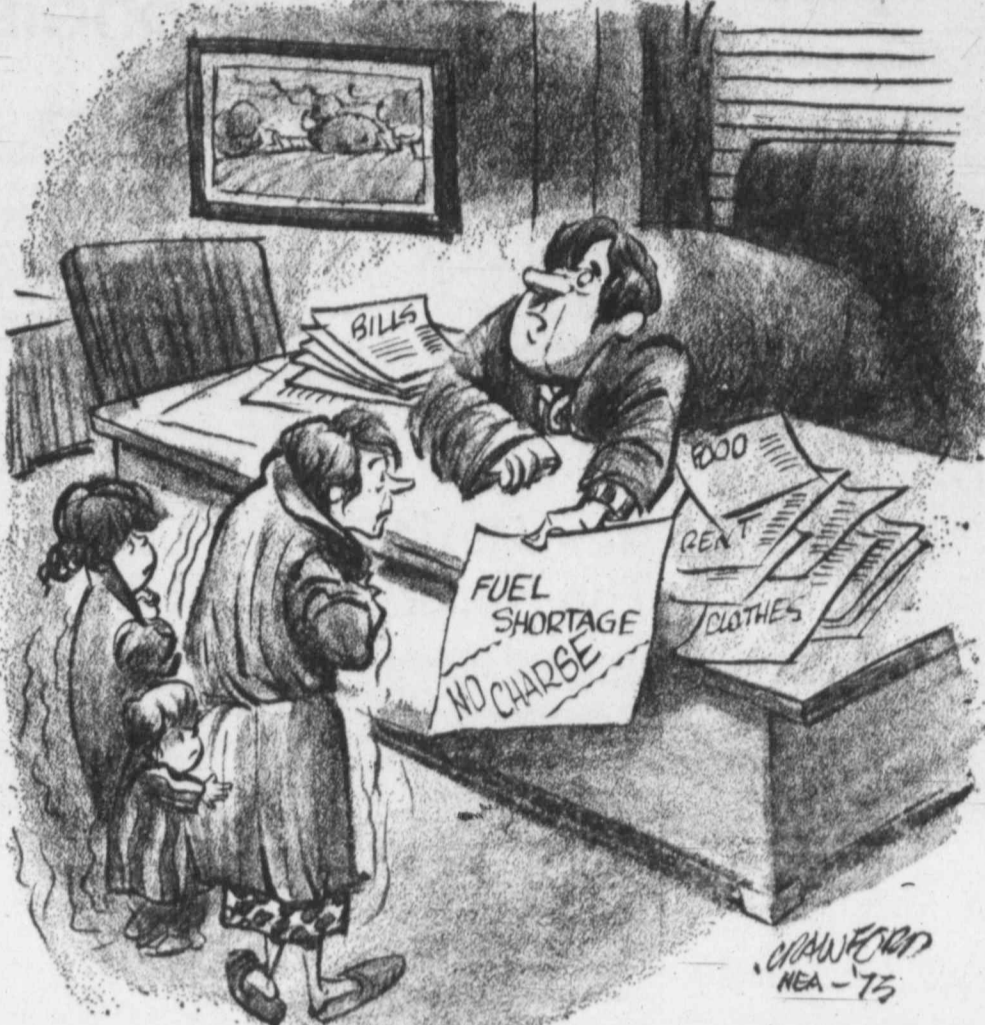

Truth of the matter is the crisis would not have developed in the first place had persons of influence in and out of government listened to the warnings of oil and gas producers and others. It isn't difficult to trace the steps leading to crisis. As price controls, federal regulations, inflation and higher taxes came into being, the incentive to explore for new oil and gas fields diminished, as did the search. Meanwhile, demands for oil and gas continued to spiral. Energy crisis is the answer.

Somehow the true facts must be gotten across to the public before it is too late. There are those persons and groups who seemingly are out to get the oil and gas industry one way or the other, and the public be damned.

Freeman said industry and government proposals for ending the crisis would prompt higher prices. What does he think will happen if the proposals are not adopted, and if the nation becomes more and more dependent on foreign oil. This would bring prices higher than anyone has even dreamed ... and Freeman is bound to know this.

It is time for persons in the know to use every means possible in putting the record straight. The stroke of a pen, in the proper direction, will help.

The Washington Merry-Go-Round

Jack Anderson Says: The lesson of Vietnam—no more land wars.

WASHINGTON — Now that the fighting is over in Vietnam, the military strategists quietly are shifting their attention from land wars to sea wars.

President Nixon in his secret guidelines to the National Security Council had emphasized the lesson of Vietnam. Hereafter, the United States may furnish military aid but not combat troops to help an ally fight off a Communist takeover.

In keeping with the new strategy, he has decreed that the Army should be streamlined into a compact, modern force trained to meet the demands of the nuclear age.

But the Navy, sensing the reversion to ground wars that has grown out of the Vietnam experience, has been suggesting that the next war may be fought entirely at sea.

In the past, these vessels have been designed and deployed largely to protect the Soviet coastline. But Russia now is building a large aircraft carrier, capable of operating around the world.

As the admirals envision it, the two superpowers, neither willing to risk nuclear catastrophe by being the first to strike on land, will begin maneuvering for supremacy at sea.

In answer to the Navy's argument that carriers are mobile, the Air Force contends that a prefabricated airfield can be flown into an area and set up within three days.

The energy crisis also has increased U.S. dependence on overseas fuel sources. The strategists have called for greater seapower, therefore, to protect the fuel shipments.

The "sea war" concept was raised as early as 1971 by the Center for Naval Analyses. In a paper circulated among naval strategists, Dr. Desmond Wilson and Cmr. Nicholas Brown contend:

"Though war is never an attractive option, especially for a democratic state, the possibility of armed conflict with the Soviet Union cannot realistically be discounted. The qualities of a war at sea may permit our government to retain more public support than would be accorded another land war of attrition."

The strategists have had some difficulty, however, portraying the Soviet fleet as a global menace. While it's true that Soviet warships are beginning to show up on all seven seas and missile-carrying submarines have been tracked in U.S. waters, the secret estimates still depict the Soviet Navy essen-

tially as a defensive force. Even the new aircraft carriers, if many are built, won't be a match for American carriers for years to come. It will take long training and experience for them to equal U.S. carrier operations.

The U.S. negotiators will argue that the carrier-based planes are intended strictly to support a conventional ground war. But even as they make this argument in Geneva, the thinking inside the Pentagon is changing.

This post-Vietnam military planning is almost sure to touch off another interservice feud, as the rival services squabble for the declining defense dollars. The Air Force already is spreading the word that seabased planes, taking into account the cost of their support, cost four times as much as land-based planes.

In answer to the Navy's argument that carriers are mobile, the Air Force contends that a prefabricated airfield can be flown into an area and set up within three days. The taxpayers can buy dozens of these prefab fields for the price of a single carrier.

The Army, because of the demobilization on ground troops, is also eager to grow more wings. Indeed, the generals used Vietnam as a testing ground to demonstrate how effective their gunships and armed helicopters could be.

We have seen classified Pentagon reports suggesting that lives were sometimes risked to test new air-ground battle tactics. One purpose of the tests was to justify more planes and helicopters for the Army.

With the war over in Vietnam, scare stories also can be expected to justify high military spending. Already, the outgoing CIA director, Richard Helms, has warned the Senate Armed Services Committee behind closed doors that China is on the verge of becoming a superpower in intercontinental missiles.

It's true that China has built about a dozen nuclear missiles. The first few already have been targeted against Soviet cities. Helms didn't mention, however, that the United States has developed a defense against Chinese warheads.

BRUCE BISSAT—Modern Press Conference Not Like The 'Old Days'

By BRUCE BISSAT WASHINGTON (NEA) — Presidential communications aide Herbert Klein says some things about President Nixon's reasons for not holding recent press conferences which just have to be challenged. One is that it's not a good idea to see the press while "delicate" negotiations over ending a war, in this case the Vietnam conflict, are in progress.

The other is that such a press conference held under these circumstances is more perilous than it would have been in earlier years because these conferences today are "large and formalized" events. Klein is trying to say that makes them tougher than they used to be.

Though you can have a lot of fun documenting all the occasions, and there are many, when Presidents Roosevelt, Truman, Eisenhower, Kennedy and even Johnson met the press while "delicate" talks were going on or about to happen, I'll leave that one to others.

What interests me is this notion that the smaller conferences of Roosevelt's time, and probably Truman's first years, were easier for a president to get through than today's mob sessions. I happen to have attended a few of Franklin D. Roosevelt's press conferences in World War II. It wasn't like that at all.

Most of the time when he was in town, no matter what was going on or coming up, he met the press twice a week — one day in the morning and one day in the afternoon.

As I recall it, somewhere around 60 to 75 newsmen crowded into the oval office right around the President's desk (Johnson and Mr. Nixon have done that sort of thing a few times for a limited number of reporters, on an impromptu, unscheduled basis).

The times I went, in 1942 and 1943, we were in the thick of it in the Pacific and, as a prelude to Europe, in North Africa. I remember a particularly interesting sequence. In 1943, Roosevelt delivered his State of the Union message on Jan. 7, met the press openly the next day and on Jan. 9, on a background basis, patiently sat with newsmen for two solid hours and gave his own major budget briefing.

The time was "delicate" enough. That night the President left unannounced on a secret railroad siding on a long train-journey that took him to Africa and his first meeting ever (at Casablanca) with Winston Churchill. It was only the second flight of his life.

He was the first president to fly, the first to leave this country in wartime, the first since Lincoln to visit an active war theater. From that parley, of course, issued the famous allied call upon the axis enemies for "unconditional surrender."

I attended the long budget session the day he left. Though attendance was a bit larger than at a regular press conference, it was otherwise typical. Roosevelt was bombarded with hard questions, with good follow-up, from men within finger-shaking distance. He had to defend a "total war" budget asking for outlay of \$100 billion, an unheard-of sum in those days.

There was no tougher interrogator than the late William H. Lawrence, then of the New York Times. He always stood up close, and he never let up. Other reporters didn't break in when he was in hot pursuit.

And he had some counterparts, too, like Raymond Brandt of the St. Louis Post-Dispatch. Questioning was pointed and persistent.

That was the pattern then. Today's "large and formalized" sessions are, by contrast, usually exercises in press futility. You're lucky if back-to-back questions deal with the same continent.

PERSONAL FINANCE—Remember, Stale Date Can Bounce Your Check

By CARLTON SMITH NEW YORK (NEA) — A "stale check," in banker lingo, is something like stale bread. It was made too long ago; the dough is no good any more.

A check dated six months or more prior to its arrival in a bank ordinarily will not be paid, but returned to the depositor. Every bank makes its own rule about the age at which a check becomes "stale." It's generally from 90 days to six months.

And this is the season for a flood of artificially-aged stale checks in the nation's banks. Every time you forget, and date a check 1972 instead of 1973, you're writing a year-old check that may come hobbling back to you, unpaid, in its premature old age.

How many thousand check writers experience this inconvenience every year is unknown, but the Continental Bank in Chicago reports an average of 200 to 300 a day — a figure which, on past experience, will hold up through January.

They don't begin to taper off until mid-February, says Fred H. Remmert, vice-president and cashier, and even as late as March a few will still come trickling in. The Continental, among the country's largest banks, processes about a quarter of a million checks daily — which means that about one in every thousand is misdated.

But don't count on that. You may have a payment embarrassingly delayed because your bank wants to play it safe and double-check with its customer before processing the check.

It's a wise precaution to go through your checkbook and put a 1973 date on enough checks to carry you into March, by which time most of us will have the figure 1973 firmly enough implanted in our minds that we'll date our checks that way for

Remember, Stale Date Can Bounce Your Check

the rest of the year — and on into 1974.

Finally, if you do have any trouble about an artificially-aged stale check, you might find some consolation in the knowledge that even bankers do it.

One bank, which prefers to remain anonymous, made out all the checks for a customer company's large payroll, and when they were all neatly stacked up ... you guessed it. All dated 1972.

Somebody forgot to reprogram the computer.

"If you think Blue Cross pays all your hospital bills, you haven't been in the hospital lately."

—Burl Ives

Get cash to help pay the bills your Blue Cross won't. The Academy Plan will pay you \$33.33 a day tax-free cash when you're in the hospital.

Blue Cross has been a great help to many Americans, but even the best hospitalization plans can have gaps in their coverage.

Don't wait until you're hospitalized to find out about the coverage gaps in your hospitalization plan.

Most will probably not pay the whole cost of an operation, nor all the hospital costs.

And there's a whole list of medical bills that they probably won't pay.

What's more, they won't pay anything *except* hospital and medical bills. So if you're in the hospital a few weeks and your salary stops, who'll pay the rent or the mortgage? The food bills? The car payments? And what if your wife becomes ill? You'll have extra household expenses.

What you clearly need for your family's protection is a plan that pays you cash when you go to the hospital.

us the application, you can be sure no salesman will call. But you'll still get prompt and courteous attention directly from us.

5 We will never cancel your policy.

We will never refuse to renew your policy. Your coverage is guaranteed, no matter how long you live or how many times you're hospitalized. In addition, your premium will never change, even though you pass from one age bracket to another, unless there's a rate adjustment on all policies of your form and class throughout your state.

6 You can cover yourself alone or your entire family. And you have two plans to choose from.

You may choose to receive \$1000 a month (\$33.33 a day) or \$500 a month (\$16.67 a day). These are the rates for both plans, for each adult enrolled. (Compare them with any similar plan.)

Age at Enrollment	Monthly rate for each adult enrolled	
	\$1000 a month	\$500 a month
16-39	\$6.90	\$3.45
40-54	8.70	4.35
55-74	9.80	4.90
75 and over	10.80	5.40

1 Academy Life will pay you \$33.33 a day—that's \$1,000 a month tax-free cash for as long as you're in the hospital.

There is no limit to the period of time you can collect benefits or to the number of times you can use the policy. Benefits start the first day if you're in an accident or after three days if you're ill. (A few days in the hospital are never a strain, and by paying you after the third day for sickness, we can keep our rates way down.)

2 The money is paid directly to you on top of any other insurance.

Checks are sent directly to you or wherever you specify. The money is tax-free and will be paid no matter what coverage you may have from Blue Cross, Medicare, or any other plan with any other company. It is yours to use as you see fit.

3 There are no age limitations for joining.

Everyone is eligible for the Academy Plan. If you apply, you will be covered—even if you're over 100. In fact, the Academy Plan has been particularly helpful to people over 65—people for whom a lengthy hospitalization could wipe out their savings. See Paragraph 6 for benefits for people over 65.

4 You always deal directly with us. No salesman will call.

One reason that helps keep our premiums so low is that you are buying directly. There are no middlemen. If you mail

7 These are the only exceptions and limitations in the policy. We urge you to compare them with any similar plan.

Sickness and injuries you had before your policy takes effect will be covered after one year, but not before. In addition, we don't cover hospitalization due to war, mental disorder, pregnancy, miscarriage, childbirth, or time spent in a U.S. Government hospital. Everything else is covered immediately. Benefits begin on the first day for accidents and after three days for sickness.

8 Academy Life is a respected Legal Reserve Life Insurance Company.

The Company's administrative offices are located near historic Valley Forge, Pa. It is a member of the Unicom Insurance Group and is licensed by the Department of Insurance of your state.

9 Tomorrow may be too late.

Today you may be the picture of health, but who knows when you may get sick or have an accident. It happens to all of us. And many of us end up in the hospital. You and your family need this protection and every day you wait is a day you're not covered. So act today. You don't know what's going to happen tomorrow.

10 Act today. Your first month's premium is only \$1. See Paragraph 6 for renewal rates.

Academy's policy-examination program allows your family to be protected for the first month for \$1. Here's all you do. Fill out the application and mail it in an envelope with \$1 to Academy Life Insurance Co., Valley Forge, Pa. 19481. You will be covered the same day we receive your application. We'll mail you your policy. Examine it at your leisure. If you decide, for any reason, that you don't want it, return it within 15 days and we'll refund your dollar.

Dear Friend,
 "Academy offers high-quality insurance at a price the average person can afford. Why don't you look into this simple, reliable method of providing protection for yourself and for your family."
