26 Pages - 3 Parts

VOL. XLVI—NO. 15 Dial 682-5311 MIDLAND, TEXAS P.O. Box 79701, TUESDAY, MARCH 26, 1974 (AP) — Associated Press Daily 10c, Sunday 20c

Eddy Field Confirmer Is Finished

Gulf Oil Corp. has completed a second Wolfcamp producer and 3/4-mile northwest extension to that pay in the Carlsbad, South field of Eddy County, N.M., No. 1 Harold Olive Communitized, two miles south of Carlsbad.

It gauged a calculated, absolute open flow of 1,322 million cubic feet of dry gas per day, through perforations at 9,836-9,846 feet, which had been acidized with 2,000 gallons. Drilled to 11,708 feet, it has 7-inch casing set at 10,414 feet.

Earlier, it tested through Strawn perforations at 10,102-10,253 feet. A cast iron bridge plug was set at 9,986 feet. Top of the Strawn was picked at 10,160 feet.

Location is 660 feet from south and 1,980 feet from east lines of section 14-22s-26e.

The Wolfcamp strike, Pennzoll Co. No. 1 Moore Communitized, was completed Oct. 25, 1973, for 8,298 million cubic feet of gas per day, with gas-condensate ratio of 8,538-1, through perforations at 9,605-9,628 feet.

Mitchell, Pecos Get Sites For Explorers

Exploration has been set in Mitchell and Pecos counties.

J. Lee Youngblood, Dallas, will drill No. 1 Erwin as a 7,700-foot wildcat in Mitchell County, 14 miles northwest of Westbrook.

It is 2 1/4 miles northeast of the depleted Vincent, East (lower Canyon) field of Howard County and spots 1,980 feet from north and 660 feet from east lines of section 2, block 25, H&TC survey.

In Pecos County, No. 1 Virginia Wimberley, et al-State has been staked by Gulf Oil Corp. as a 3,800-foot wildcat, 35 miles southeast of Fort Stockton.

Drill site is 467 feet from north and west lines of section 12, block 12S, T&SL survey and 1 1/4 mile southeast of the depleted Windy Mesa (Wolfcamp) gas field.

Big Oil Discovery Finaled in Upton

Gulf Oil Corp. has completed No. 1-A A. B. McGill as a Pennsylvanian oil discovery in Upton County, 17 miles north of Rankin.

It gauged a calculated, daily flow of 626.6 barrels of 45.1-gravity oil, daily, with gas-oil ratio of 1,021-1.

Potential was based on an actual 12-hour potential test, making 313.3 barrels of oil, through a 12-64-inch choke and perforations at 9,905-9,929 feet, which had been acidized with 1,500 gallons.

Drilled to 9,981 feet, it has 5 1/2-inch casing set on bottom, and is plugged back to 9,961 feet.

Location is 660 feet from north and west lines of section 64, (Continued On Page 7B)

Weather

FORECAST: Clear to partly cloudy this afternoon and Wednesday. Warmer this afternoon and Wednesday. High in the 70s, about 70, overnight low, near 50. High Wednesday, in the 80s. Winds westerly 10 to 20 m.p.h. this afternoon and tonight.

National Weather Service Readings:
 Monday's high: 77 degrees
 Overnight low: 52 degrees
 Noon today: 68 degrees
 Sunset today: 7:04 p.m.
 Sunrise Wednesday: 5:44 a.m.

Precipitation:
 This month to date: .18 inch
 1974 to date: .1 inch

The record high temperature recorded for a March 25 was 94 degrees in 1923. The record low for a March 25 was 39, set in 1965.

Land Buyers Due Refunds

FTC Claims Advertising Deceptive

WASHINGTON (AP)—The Federal Trade Commission today announced a landmark agreement which could reimburse land buyers for more than \$17 million the commission estimates was the product of deceptive advertising.

The agreement was negotiated with GAC Corp. and two subsidiaries with one land development project in Arizona and nine in Florida.

The negotiated agreement between the FTC and the Miami-based company requires GAC to provide prominent warning statements in all future sales contracts and to offer refunds to eligible purchasers who default on payments in the Golden Gate Estates, River Ranch Acres and Remuda Ranch Grants subdivisions in Florida.

J. Thomas Rosch, head of the FTC's Bureau of Consumer Protection, estimated the refunds could cost GAC more than \$17 million.

Future sales contracts used by GAC would contain the statement: "The future value of this land, like all undeveloped real estate, is uncertain." The contract would also grant purchasers the unconditional right to cancel with no penalty within 10 days.

The order would also provide various measures to allow buyers since certain dates to swap useless land they might be holding for more valuable lots.

The government sources said that the commission has probed other large land development companies and plans to crack down on several more firms.

"The shock wave that will go through the industry is going to be enormous," the source said. Although GAC did not admit to violations of the law under the agreement, it has agreed to make restitution in the form of credits of other property to (See LAND Page 4A)

Warming Forecast For State

Spring appeared to be getting pretty well re-established across Texas today—even to the extent of kicking up some rough thunderstorms near the Upper Texas Coast.

Warming weather was promised all sections of the state, and examination of fruit trees and vegetable gardens indicated damage from a sudden weekend freeze was lighter than had been feared.

Midland will have continued warmer temperatures and clear to partly cloudy skies this afternoon and Wednesday, according to the National Weather Service at Midland Air Terminal.

High today will be near 80, with Wednesday's expected high (See WARMING Page 4A)

Kissinger, Brezhnev Discuss Middle East

MOSCOW (AP)—Secretary of State Henry A. Kissinger and Communist party secretary Leonid I. Brezhnev met 3 1/2 hours in the Kremlin today and opened discussions on the Middle East.

During eight hours together Monday, the Soviet Communist party leader and Kissinger focused on strategic arms limitations and the European security conference in Geneva.

It was presumed that those subjects were again taken up today, but U.S. officials said they had moved on to the Middle East situation before the end of the morning session.

In addition to Kissinger's advisers on nuclear weapons and European problems, the American delegation included Alfred Atherton, the assistant secretary of state for Near Eastern affairs. This indicated that Kissinger was urging Brezhnev to influence the Syrian government to accept a disengagement agreement with Israel.

The Soviet government announced today that President Hafez Assad of Syria would visit Moscow early next month. Western diplomats said he probably wants to consult with Brezhnev before the start of the disengagement negotiations in Washington.

Stung by Kissinger's success in arranging the Israeli withdrawal from the Suez Canal, the Russians have begun to claim a cardinal role in Middle East peacemaking. The Soviet press is declaring that no permanent settlement can be negotiated without Soviet participation.

This is coupled with press warnings of the dangers of a new war on the Golan Heights if an Israeli withdrawal is not achieved quickly. The newspaper Trud said today that "world public opinion" is "seriously concerned" about the recent intense artillery duels between the Israeli and Syrian forces. It said the Israelis "are playing with fire."

Soviet disenchantment with the new detente between President Anwar Sadat of Egypt and the United States was evidenced in a short Tass dispatch from Beirut published by Pravda, the Communist party newspaper.

It said the Lebanese press had published an appeal by a group of prominent Lebanese officials to Sadat calling on him to put an end to attacks on his predecessor, the late President Gamal Abdel Nasser.

"This appeal was published in connection with the appearance recently of a number of articles aimed at Nasser and the policies he carried out," Tass said.

It was Nasser who aligned Egypt with the Soviet Union and opened the Middle East to Soviet influence in exchange for Soviet arms and Soviet aid in building the Aswan High Dam.

Meanwhile, a Soviet spokesman voiced the possibility that Kissinger during his current visit might be unable to lay the groundwork for another arms (See MOSCOW Page 4A)

Safety Board Official Says Cargo Door Of DC10 Jumbo Jet Not Properly Locked

WASHINGTON (AP)—The first pieces separated from the DC10 jumbo jet which crashed near Paris earlier this month taking 346 lives had not undergone a key modification on a cargo door, a National Transportation Safety Board official said today.

C. O. Miller, director of the board's Bureau of Aviation Safety, told a Senate aviation subcommittee there was multiple evidence suggesting the cargo door was not locked properly and that one of the plane was in the air.

Although Miller testified the French have not determined the official cause of the crash, experts believe that sudden decompression of the cargo hole buckled the aircraft floor, jammed the rudder controls running through the floor, and caused the crash.

Miller said it was apparent that the modifications that McDonnell-Douglas, manufacturer of the plane, thought had been made on the door were in fact not made.

The panel, headed by Sen. Howard W. Cannon, D-Nev., opened hearings to look into the crash.

The National Transportation Safety Board on Monday said Federal Aviation Administration regulations aimed at preventing accidents involving the cargo door in DC10 jumbo jets do not go far enough.

John C. Brizendine, president of Douglas Aircraft Co., said company records show that the DC10 that crashed near Paris had been equipped with an improved cargo-door latch in 1972.

However, no evidence to confirm the company records was found at the scene, Brizendine said. "This is a circumstance for which we do not yet have an explanation," he said.

In 1972, the NTSB blamed the cargo door for forcing an emer- (See CARGO Page 4A)

Milk Group Leases Plane From Lady Bird's Family Corporation

By BROOKS JACKSON

WASHINGTON (AP)—The nation's largest dairy cooperative, focus of Watergate investigations, pays Lady Bird Johnson's family corporation \$94,000 a year for use of an airplane hangared at the LBJ, Ranch, The Associated Press has learned.

A spokesman for the Johnson interests said the arrangement is a bargain for the dairy group, Associated Milk Producers Inc. However, the cooperative's board of directors had tried to end the lease arrangement, which is scheduled to run until April 5, 1976.

The lease arrangement was initiated by the co-op's former general manager, Harold S. Nelson, before he was ousted by the board for mismanagement.

Nelson originally agreed to pay \$73,500 per year to lease a smaller, less expensive aircraft from the Texas Broadcasting Co., President Johnson's family corporation. That agreement was signed July 1, 1970, a year and a half after Johnson left office.

Details of the transactions between the milk producers and the Johnson interests are revealed in a report obtained from court records and confirmed independently by The Associated Press.

Donald S. Thomas, lawyer for the Johnson corporations, said in a telephone interview that he had negotiated both the original agreement and the present one with Nelson.

Thomas said the present agreement calls for one of the Johnson family corporations, Western Wildflower Corp., to pay for a pilot and hangar space for the \$765,000 Beechcraft King Air model 100, a 13-passenger turboprop aircraft.

He said two other Johnson had traveled personally on the aircraft on occasion.

The milk producers pay \$10,000 per year for the insurance and other intangible expenses, plus \$7,000 per month for a minimum 40 flying hours, at \$175 an hour. The dairy cooperative pays another \$175 for each flying hour over 40 hours per month, plus fuel and any extra expenses incurred by the pilot.

Thomas said the same aircraft under comparable conditions normally rents for \$275 per flying hour.

Delegates Reject Attempt to Place Floating Ceiling On Welfare Payments

AUSTIN, Tex. (AP)—An attempt to put a floating ceiling on state public welfare payments was rejected, 74-79, today by delegates to Texas' Constitutional Convention.

Speaker Price Daniel Jr., the convention president, told the delegates they should be able to finish work on the finance article today.

He outlined a schedule to carry them through nine of the

Rep. Dave Finney was expected to try once again today to restrict how much money state government can collect in taxes.

Finney, a Fort Worth Democrat who is a candidate for House speaker next year, proposed Monday to limit all state taxes to 6.75 per cent of the total personal income in the state.

This means state taxes could not be increased much over the present level because, said Finney, (See DELEGATES Page 4A)

Battle Seen On Campaign Reforms

WASHINGTON (AP)—The Senate is starting what promises to be a stormy, drawn-out battle over campaign reform legislation.

The most controversial part of a bill to be brought up for debate today provides for use of tax funds in financing presidential and congressional election campaigns.

It is under attack by President Nixon and others as a raid on the treasury for the benefit of politicians.

But supporters of public financing maintain it is the best way to eliminate the influence of big money in politics and are counting on the Watergate scandals to help them win votes.

Other parts of the bill would limit campaign contributions and expenditures, require annual financial disclosure statements by Congress members and all other top government officials.

Women

2A—TUESDAY, MARCH 26, 1974

Dear Abby

Moochers Provoke Her Energy Crisis

—By Abigail van Buren

DEAR ABBY: I play cards with several different groups of women. Everyone who owns a car leaves it home, and I always seem to be the one who has to pick up three or four women and drive them home. With the energy crisis, I feel this is unfair.

How about a comment on transportation moochers? CONSTANT READER

DEAR CONSTANT: Next time you have all the moochers in your car, try this: "Girls, this is your chauffeur speaking. Because of the energy crisis, we must all take turns driving. We'll start alphabetically. Mrs. Applebaum, you're first!"

DEAR ABBY: It's high time you published something in defense of smokers.

I am a smoker and I enjoy smoking. Smoking has long been one of life's pleasures, and to deny it is absurd.

In order to survive in the world today, one must learn how to give and take, and for a nonsmoker to make a smoker uncomfortable by depriving him of his smoking pleasure is just as selfish as it is for a smoker to make a nonsmoker uncomfortable by smoking in his presence.

If I sense that someone really objects to my smoking, I take myself and my cigarette into another room. I think the nonsmoker should have the same consideration for the smoker, and if the smoker bothers him, HE should move.

There should be a 50-50 compromise. The smokers have been made to feel guilty long enough, and it's time the nonsmokers learned to cope with a smoke-filled society. His nonsmoking righteousness makes me just as angry as my smoke makes him!

SICK OF NONSMOKERS IN CINCY

DEAR SICK: There's about as much substance to your argument as there is in a cloud of smoke. If one deliberately elects to pollute the air because of a habit he either will not or cannot control — let HIM move.

DEAR ABBY: My oldest two children attend public school in West Los Angeles, and also raced home to use the bathroom because of conditions in the restrooms at school. "Concerned Parent's" letter, printed Jan. 15, didn't mention off-limits restrooms in junior high schools due to knifings, fires in trashbaskets and violence. My

youngest son attends a private school and there are no restroom problems, so it is apparent that the problem can be solved if school administration wants to solve it.

I suggest that the teachers' restrooms be closed, and that teachers use the same restrooms students use. The inconvenience and lack of privacy for teachers would be more than compensated for by the safer and more sanitary conditions for students. The restroom conditions must be of great concern to competent teachers.

It seems to me that the only question is "are school restrooms unsafe for teachers?" If so, where does that leave our children?

MY PROBLEM SOLVED. HOW ABOUT YOURS??

CONFIDENTIAL TO J.W.G.: Better start looking around for another job. From too much of Yes Sir, No Sir, a man can get an UI-sir.

Problems: You'll feel better if you get it off your chest. For a personal reply, write to ABBY in care of this newspaper. Enclose stamped, self-addressed envelope, please.

Couple Married Twice In Day To Make It Legal

WYOMING, Ohio (AP) — Wanda Len McGuire and Emmett Cecil Anderson were married recently, not once but twice in one day.

The two separate ceremonies — less than three hours apart — were necessary because of a legal technicality discovered only hours before the formal wedding ceremony before 150 guests at a church here.

The problem arose because the couple had asked Dr. Fred Neal, head of the religion department of Southwestern at Memphis, to perform the ceremony because he was an old friend of both families. On the day of the wedding, however, they discovered that the marriage license had to be signed by either a minister or justice of the peace from Hamilton County, Ohio, and that the person who signed the license must also make the pronouncement of marriage. Dr. Neal was, therefore, not qualified.

So the couple hastily located a local minister and were married at his home first. Then they went ahead with a formal ceremony, with Dr. Neal officiating.

LHS CORONATION—Lee High School had its annual coronation ceremony Saturday in the LHS Auditorium. Members of the court included, from the left, front, Emily Armstrong, Scott Hammond, Mike Hill, Loretta Bybee, David Nail and Felicia Brookmole (crown bearers), Diana Lewis and Donna Lewis (train-bearers), Grant Standefer and Susan Cloyd, and, back, Melanie Francis, John Ellis, Sam Cox and Carla Tergerson (Mr. and Miss LHS), Leo Gonzalez, Janet Gieb, David Goolsby and Gloria Wallace. "Carrousel" was the theme of the coronation, which was followed with a dance in the Lee Youth Center.

Family Regular Mass Attenders In Alabama

MONTGOMERY, Ala. (AP) — Capt. and Mrs. Frank Wyborski of Gunter AFB and their three children regularly drive 100 miles to attend the Saturday evening mass at St. George Catholic Church in Birmingham, Ala.

"When we learned of being reassigned to Alabama (from Utah), we looked in a directory of Milkite churches and found this one," said the 15-year Air Force veteran.

He said in Utah they had attended the nearest Roman Catholic church, but "about three or four times a year we'd get down to Los Angeles to worship at a Melkite church there."

The Melkites are a branch of Catholicism that developed in the eastern Mediterranean area. There are about 30 Melkite congregations in the United States.

Organists Have Spaghetti Supper

The West Texas Chapter of the American Guild of Organists met recently in Hope Lutheran Church for a spaghetti supper, business session and program.

Mrs. E. F. Motter, dean, presided. Guests were Mrs.

Richard Turner, Mrs. Neale Jensen, Mrs. James Huddleston, Bruce Barthel, Loyd Sanders and E. F. Motter.

Mrs. Barthel presented the program, which included a skit she wrote, "A Professional Church Workers' Dilemma Carol." Participating were Mrs. W. B. Johnston, Mrs. Barthel and Larry Barthel.

Mrs. Harold Heckathorne received the Organist of the Month award. Assisting with arrangements for the meeting were Lotta Williams, hospitality chairman, and Mrs. Heckathorne.

Testing Candy

When you are making candy, always set the pan on the side of stove while you test it. For if it continues to boil while you are testing it, it might result in overcooking.

'TAPPED' AT TECH—Susie Frazier, left, daughter of Mr. and Mrs. Ernest R. Frazier of 2312 Seaboard St., has been "tapped" for membership in Mortar Board, national honorary for women who have made outstanding contributions to their universities. Miss Frazier, an elementary education major at Texas Tech University, is a member of the Junior Council, Sigma Delta Pi, Phi Kappa Phi and Baptist Student Union. At right is Debbie Funicella, vice president of Mortar Board, adjusting the new member's ceremonial collar at an orientation meeting.

Church Women Meet April 3

The United Methodist Women of the First United Methodist Church will meet April 3 in the church. The executive board will meet at 8:45 a.m. and the general meeting will be at 9:30 a.m.

A film, "Is It Always Right for Being Right?", will be shown.

Nickel Chrysler-Plymouth, Dodge is out to win you over.

Plymouth Duster. More miles per gallon than Nova, Comet, Maverick, Apollo and Ventura.

If you're concerned about gas mileage, the tests Popular Science magazine conducted should be of interest to you. The tests they conducted on '73 vehicles (and adjusted by them for 1974 models and the results of E.P.A. tests) show the "Slant Six" engine that's standard in our Duster can go farther on a gallon of gas than Maverick, Nova, Comet, Ventura and Apollo.

...Priced less than VW Super Bug.

The manufacturer's suggested sticker price for Plymouth Duster is actually less than Volkswagen's Super Bug. The price, naturally, don't include comparable destination charges, state and local taxes or dealer prep charges. Even though you pay less for Duster, you get a lot more. For example, Duster has room for five inside, VW—only four. Duster's got three times the trunk space of VW. And Duster's got an electronic ignition that virtually eliminates ignition tune-ups. VW doesn't even offer one. Duster gas mileage and price. Two ways we're out to win you over to Duster this year.

Nancy Jane Caussey

Nancy Caussey Outstanding Girl

The Midland Branch of the American Association of University Women has presented Nancy Jane Caussey, daughter of Mr. and Mrs. Donald E. Caussey, 2409 Sinclair St., with an Outstanding Girl Award.

Miss Caussey, a student at Midland High School, has a grade point average of 4.468 and is a member of the National Honor Society and "Who's Who Among American High School Students."

She is a cellist with the Permian Basin Chamber Music Society and Midland and Odessa Symphony Orchestra. She is a member of the Posse-ettes, Symphony Debs and SITCA and is vice president of the Spanish Club at MHS. She was a winner in the Pauline Slaton Sonatina Competition and received a superior rating in the National Piano Guild auditions. She received scholarships to the Southwestern Music and Art Camps at the University of Kansas during the summers of 1972 and 1973. She is a member of the First Baptist Church High School Choir and Bell Choir and is a youth advisory representative of the church.

Luncheon Held For MHS Senior

Mrs. Bill Cotner and her daughter, Teresa, honored Loretta Hammond, Midland High School senior, with a luncheon recently in the Garden Room of Midland Country Club.

Miss Hammond, daughter of Mrs. Ann Hammond, is planning a trip to Hawaii following graduation. She will accompany Mr. and Mrs. John L. Fox and their daughters, Cissy and Cindy.

POLLY'S POINTERS

Tall Full Glass Not Child's Play

By POLLY CRAMER
Newspaper Enterprise Association

Polly's Problem
DEAR POLLY — My Pet Peeve is with those restaurants that bring out a tall glass, full to the brim, when I order a drink for my two year old. Often the waitress gives me a look like I am crazy when I ask for an extra glass so I can pour out some and not have the child spill the drink all over the place. Once I was even asked to pay another 30 cents for the extra glass and it was paper at that. I do wish restaurants would have paper cups handy for children and not bring them glass ones. — MRS. H.

DEAR POLLY — The new bread board Mary bought may have varnish on it. If so I suggest that she lightly sand it to remove the varnish and then rub with a good salad oil. Leave this on for a day and then rinse off what is not absorbed by the wood. My husband made mine and that is the way I treated it. (Polly's note—I would not rinse off the board but just wipe away ALL the excess oil). — ELEANOR.

DEAR POLLY — Firewood has soared sky high since the energy crisis but I get mine for free. My neighbors save all their newspapers for me and I roll them tightly, soak in water for a few minutes and then put them out to dry. I have "wood burning logs" that are especially good for night. You can place an arm full in your fireplace and they will burn slowly and

keep the room nice and warm. Mine are all for free since I bind the rolls with ties that come around the hay I feed my cows. — MRS. V. M. S.

DEAR POLLY — Instead of using the flat end of a knife, as I used to do, to level off measurements for cooking and baking I now use popsicle sticks that I have saved and cleaned. They are kept in canisters and containers of baking supplies and I save myself time, steps and washing of knives. — DOROTHY.

DEAR POLLY — After reading how one reader made toys from old alarm clocks I must tell you how my husband made toy trains. He used wooden cheese boxes for the cars with windows of labels pasted on. The engine was a frozen orange juice can with a spool attached for a smoke stack. Checkers made the wheels and were put together with a screw eye and hook to form a set of an engine and three cars. After painting they were ready to go. The neighborhood children loved them and a child was always waiting for one and he even won an award for making trains from used materials. — MRS. B.F.W.

PAGEANT ENTRANTS — Midland Mayor Ernest Angelo Jr. is pictured with four of the entrants in the Our Little Miss and La Petite Pageant to be held at 7:30 p.m. Saturday in the Midland County Exhibits Building. The children are, from the left, Verna Conn, Stacie Ann-Marie Findley, Tammye Kaye McBride and Jena Michele Greer. The pageant is being sponsored by Iota Beta Chapter of Beta Sigma Phi.

Slide Program Presented Club

Mrs. Elaine Garrett presented a slide illustrated program on "There Have Been Some Changes Made," when the Business and Professional Women's Club met recently in the Midland Woman's Club.

The program showed the progress of the telephone from its invention to the present day.

Jackie Duncan, president, presided. Mrs. Margaret Huggins and Evelyn Heard discussed the Cordelia Taylor Memorial Trust Fund, which provides scholarships.

Candle decorations were furnished by Mrs. Clara Gabbert, member of the membership committee, which was in charge of the program. Guests were Mrs. Ila Beal Khory, Mrs. Una Roberts and Geraldine Padgett.

Hensley-Killough Wedding Date Set

COOKEVILLE, Tenn. — Mr. and Mrs. Herman Hensley of this city announce the engagement of their daughter, Sandra Elaine Hensley, to Ronald Clay Killough, son of Mr. and Mrs. Leonard G. Killough, 3709 Stanolind St., Midland, Tex.

The prospective bridegroom, staff minister to youth at the First Baptist Church, West Palm Beach, Fla., is a graduate of Baylor University, Waco, Tex., with B.A. degree in political science. He holds a master's degree in religious education from Southwestern Theological Seminary, Fort Worth. He was a member of the Political Science Fraternity at Baylor.

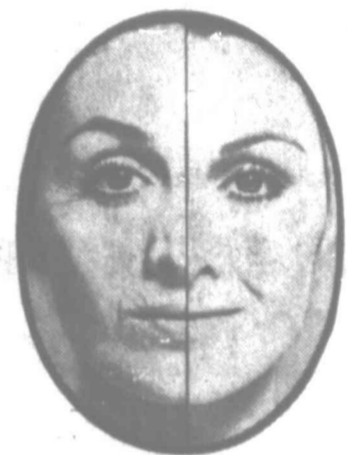

Miss Hensley holds a B.S. degree in home economics education from Tennessee Technological University, Cookeville. Her sorority is Kappa Omicron Phi, home

economics honorary. The wedding will be held at 7:30 p.m. April 27 in the First Baptist Church, West Palm Beach.

Sandra Hensley

GRAMMER-MURPHY

"DOES ROSEWATER AND WITCH HAZEL REMOVE CLEANSERS?"

No, rosewater and witch hazel combined with water cannot dissolve cleansers. Instead, they leave a film of grease on the face that cannot be seen or felt. This film attracts bacteria from the air, which in turn cause blackheads. The only product that dissolves cleanser is an astringent or toner.

Come in and consult Lennie Koen, for the proper astringent to use with Peel O Matique. 100 Applications — \$20.00.

"The Choraliers"

Woman's Club Musical Program Set Thursday

The executive board of the Midland Woman's Club met Monday in the clubhouse for a regular meeting with Mrs. Jack Samples presiding.

Ten new members approved were Mrs. Sam T. Allega, Mrs. A. D. Barry, Mrs. Keys A. Curry, Mrs. Earl K. Moore Jr., Mrs. J. H. Ripley, Mrs. Wesley C. May, Mrs. M. R. Weatherall, Mrs. L. H. Humphrey, Mrs. Robert M. Turner and Mrs. Herbert H. Lanford.

Mrs. Jess Williamson and Mrs. R. H. Wilson, ways and means committee, announced final plans for the "Spring Matinee" program to be presented during a 12 noon luncheon Thursday under the direction of Mrs. Mary Skalicky, head of the Fine Arts Department of Howard County Junior College. The program will feature "The Choraliers," select campus vocal organization of HCCJ, and Mrs. Skalicky and Harlen Thornton, who will play duo-piano selections. Members of the college's Drama Department will give readings.

The program is open to members and their guests. Separate tables for either six or eight persons will be set in the club and will be decorated under the direction of Mrs. William L. Kerr and Mrs. I. W. Hynd.

Members may make reservations with the clubhouse or Mrs. Taylor Bowers, 682-3595. Only 250 tickets will be sold.

Elegant Touch
Add a touch of elegance to your bathroom through the use of monogrammed bath towels. They will be just as easy to launder as other towels, and will fluff up in the drier, ready to use again in no time.

Free Carpool Medallions.

If you're in a carpool now, or have plans to start one, you've got a right to be proud of your contribution to gasoline conservation. Exxon would be pleased to send you an attractive, colorful window medallion, shown above in actual size for each car in your pool.

Just send a postcard noting the number of cars in your pool, and your name and address to: Exxon, P.O. Box 1298, Trenton, New Jersey 08607.

Carpools can play a big part in helping our nation resolve its energy problems. You're doing your part. So give yourself credit, and take pride in pooling!

Tectonics Symposium Scheduled April 4-6

The Permian Basin Graduate Center's Third Annual Global Tectonics Symposium will begin April 4 in the Community Theatre and continue through April 6.

Registration information is available at the Graduate Center office, 104 Gulf Building.

Fee for the event is \$100, with students to be admitted for \$15.

This symposium will be a teaching function to update the working petroleum geologist. The new discoveries and different approaches to be presented on global tectonics will be of interest to all geologists, Dr. Jack G. Elam, president of the Graduate Center, said.

"We have an outstanding array of lecturers for the three-day symposium," Dr. Elam said.

They include Dr. John Dewey, State University of New York at Albany; Dr. W. R. Dickinson, Stanford University; Dr. John K. Sales, State University of New York at Oneonta; Dr. Richard Lee Armstrong, the University of British Columbia, and Dr. Clark Burchfiel of Rice University.

Dr. Elam will give a short introduction on "Deformation on The Craton - Permian Basin Example."

Judge Rules Boy, 5, With Long Hair Can Stay In Kindergarten

HOUSTON (AP) — A 5-year-old boy expelled from kindergarten because of long hair used to cover a birth defect will be able to stay in school with his present haircut until the end of the scholastic year, a federal judge ruled today.

U.S. District Court Judge Woodrow Seals acted after attorneys for Billy Epperson and the school district agreed to extend Judge Seals' temporary order which readmitted Billy to the school district.

Judge Seals ruled last Wednesday the district must readmit Billy pending outcome of an April 15 hearing on the case.

Today's action eliminates the hearing. The case will be decided in a trial sometime this summer.

Billy's parents, Mr. and Mrs. William Epperson of suburban Pasadena, filed the suit after the city's school system said the child was violating their dress code and could not attend class.

Young Epperson wears his hair cut full and slightly over his ears to cover the birth defect.

The district requires male pupils to cut their hair so it does not cover the ears or touch the collar. They also have rules about the dress of female pupils, forbidding pants suits and regulating the length of skirts.

The Eppersons maintain if their son cuts his hair in compliance with the district hair code his fellow pupils would ridicule the birth defect and ridicule him.

The Pasadena school board in a hearing unanimously upheld the action of suspending the youth. Voters in Pasadena have several times voted overwhelmingly for school board candidates who campaigned for retention of the dress code.

The Epperson suit is a class action filed on behalf of all male pupils in the Pasadena district. Several other such suits against the district have met with failure in the federal court system.

Cambodian Forces Advance On Town

PHNOM PENH, Cambodia (AP) — Government forces advanced from two sides today on Oudong, the historic town 23 miles north of Phnom Penh captured by Khmer Rouge insurgents on March 18.

The government command said its forces north of the town, after a week of little progress, advanced over a series of insurgent strongholds about one mile from Oudong.

More reinforcements were being shipped up the Tonle Sap river to land east of Oudong.

Another task force which advanced from the river beachhead last weekend was consolidating its position near the Tep Pranam pagoda, half a mile from Oudong, military sources said.

An estimated 600 troops from the garrison that was driven out of Oudong and about 1,000 civilians were reported holed up in the pagoda and under heavy insurgent pressure. The government task force was reported spreading out on a broad front in preparation for an attempt to push the rebels back and lift the siege of the pagoda.

Oudong, now a provincial capital, was the royal capital in the 17th century.

In South Vietnam, President Nguyen Van Thieu announced that his government will expand its land reform program and grant land free to anyone who is willing to farm it. The program was previously limited to tenant farmers.

Thieu said the offer was an attempt to revive some 1.25 million acres of rice paddies deserted because of the war and to put into production another 2.5 million acres of unused arable land.

Thieu spoke at Peasants' Day ceremonies broadcast from Vung Tau. The holiday celebrates the enactment of the Land to the Tiller Law on March 26, 1970. Under this program more than 3.5 million acres of rice land have been distributed among about one million farmers.

Thieu said his goal is to double exports of agricultural, forestry, fishery and domestic animal products to \$90 million this year. He said he hoped to reach \$400 million in exports by 1979.

Public Confidence In Ford Remain High, Pollster Says

NEW YORK (AP) — Public confidence in Vice President Gerald R. Ford's qualifications for the presidency remains high, pollster Louis Harris says.

But the former House Republican leader who was sworn in as Vice President Dec. 6 fares less impressively on the question of his vice presidential performance, the pollster said Monday.

The survey of 1,407 households between March 3 and March 7 showed that Americans believed, 52 per cent to 22 per cent, that Ford would be qualified to succeed to the presidency if President Nixon were impeached.

The same question had produced a 50-19 vote of confidence for Ford last November and a 47-17 positive response last October.

But when asked to rate Ford on his Vice Presidential performance, only 37 per cent gave him positive marks, with 32 per cent disapproving and 31 per cent unsure.

Those who liked Ford's performance said he was doing well in spite of Watergate and used such phrases as "tries hard" and "has the confidence of the Congress," the survey said.

Those disapproving described him as too much of a "yes man" to Nixon, making such comments as "he has not done anything" and "he seems weak."

MADRID (AP) — Henry Ford II, president of the Ford Motor Co., is visiting Spain in connection with his firm's plans to build an assembly plant in eastern Spain. He will be received by Gen. Francisco Franco and his chosen successor, Prince Juan Carlos de Borbon.

CHARGED—A third suspect in the March 15 kidnaping of Eunice Kronholm of Lino Lakes, Minn., was arrested and charged in Minneapolis Monday. Thomas Gary Hodgman, 31, center, is held in lieu of \$100,000 bond on a federal extortion charge. (AP Wirephoto.)

County Tax Equalization Hearings Set June 19-20

By D'EVA LUTHRINGER

Midland County commissioners Monday set June 19 and 20 as the dates the court will sit as the county board of equalization.

They will hear disagreements concerning real and personal property on the first day and will hear oil and gas property value discrepancies June 20.

The oil and gas hearing date was set for June 20 at request of Pritchard and Abbott, the firm which evaluates this county's oil and gas properties.

In other business conducted during the short meeting Monday, commissioners:

- Accepted the \$764.75 bid from Bro-Dart Co. of Pennsylvania for providing shelving for Midland County Library. It was the lowest of the two bids received.
- Authorized the advertising for bids for two electric typewriters for county offices.
- Approved the use of county-owned voting machines in the May 4 primary. The county has 80 machines and allocated 49 for Democrat voting and 31 for Republican ballots. Each of the political parties will be required to hold one of its machines from use so that it can be used if another one breaks down.
- Briefly discussed a new employee pension plan but no action was taken.

According to the plan, a county employe would be able to have amounts no less than \$25 per month deducted from his salary and put into the fund.

He would not pay taxes on it until he withdrew his money.

Several companies offering this type insurance have spoken with County Judge Barbara Culver and she related what they said to the court.

Authorized the hiring of Roy Merket, formerly a captain with the Midland Police Department, and Alvin Lee "Jack" Hill as deputies in the sheriff's office. They also accepted the resignation of Deputy Sheriff Robert L. Orr.

Summer Session Dates Revamped By UT-Permian

ODESSA — Summer session dates at The University of Texas of the Permian Basin have been revamped to accommodate schedules of area teachers who will be returning to school jobs in mid-August, university officials announced.

First term registration will be May 31, with classes to run from June 3 through July 10.

The second term registration will be July 9, with classes going from July 11 through Aug. 16.

"We have been in communication with most of the superintendents in the Permian Basin," said Dr. B. H. Amstead, university president. "They have assured us that although their teachers will be expected to report for preschool in-service training about Aug. 13 or 14, most teachers will be able to attend the second summer session through Aug. 16."

Most three-semester hour courses will meet for one hour and twenty minute periods five days a week, with class periods beginning as early as 8 a.m. and as late as 8 p.m., observed Dr. V. R. Cardozer, vice president for academic affairs.

Some courses offered at night will be on an 11-week schedule, meeting twice weekly, Cardozer said, to make the summer program available to as many persons as possible.

Police Search For Holdup Men

Midland police today continued their investigation into the Monday morning armed robbery of E-Z Way grocery, 1101 E. Scharbauer Drive, from which two masked men escaped with \$185.

Police said this morning there were no suspects.

During the robbery, which occurred about 8 a.m., a shot was fired, but no one was injured. The bullet struck the wall behind the employe and the men fled.

Sierra Club Meets

The Midland-Odessa chapter of the Sierra Club will see slides of Glacier National Park at its monthly meeting at 7:30 p.m. today in the Coors Distributor building 10 miles west of Midland on U.S. 80. Plans for an outing at the end of the month also will be made.

Police Theorize 'Highly Intelligent' Boy, 11, Killed Family, Then Himself

RICHARDSON, Tex. (AP) — An 11-year-old boy, described by neighbors as "highly intelligent," killed his mother, father and sister and then turned a revolver on himself to die, police believed today.

The four persons killed were Robert L. Nickols, 47, editor of a trade publication; his wife, Jennie Nickols, 51; their daughter, Debra Nickols, 12, and the son, Kevin Nickols, 11.

"It's really strange," said a police sergeant. "We don't have a motive of any kind. Neighbors all say the boy was highly intelligent."

The sergeant said the position of the bodies and the location of a .22 caliber revolver in the house indicated that the boy shot his parents and sister and then killed himself.

Condition of the bodies, the sergeant said, indicated all four persons had been dead three or four days. Officers were called to the house Monday after members of the family had not been seen for several days.

Police described the weapon used as "an ordinary, seven-shot .22 revolver."

Nichols, who was regional editor of a farm magazine, lay on the den floor, clad in a jumpsuit. His wife, in night clothing, was on the bed in the master bedroom. Bodies of the children were on the floor in a back bedroom.

Police said the pistol was underneath the dead boy.

Pending completion of autopsies, medical examiners withheld verdicts. Officers said there was no sign that any outsider had entered or left the house.

Neighbors described Robert Nichols as an active worker in the Arapaho Methodist Church and a Boy Scout leader. His wife was a piano teacher.

Principal Bill Malcolm of Mohawk Elementary School said Kevin, a sixth grader, was a good pupil. He described the boy as well adjusted, slow to anger and popular with classmates.

Deborah was in the seventh grade at North Junior High School.

Take pride in pooling!

If you're in a carpool now, or have plans to start one, you've got a right to be proud of your contribution to gasoline conservation. Exxon would be pleased to send you an attractive, colorful window medallion, shown above in actual size for each car in your pool.

A Message to the High School and College Age Students of Midland... (and those who love them)

From the President of West Texas State University

You are standing on the threshold... perhaps the threshold of greatness, but at least on the threshold of what can be a rewarding career. West Texas State University is also on the threshold... we think it is the threshold of greatness.

There is a new excitement on our campus. Everyone associated with the University tells me they feel it, students, faculty, alumni and our many boosters throughout the Panhandle.

The excitement started ten years ago when we achieved University status. We began getting many new facilities including a new library, science building, research center, classroom and administration buildings and a new Student Activities Center which is second to none in the United States. We have new programs of a dozen different kinds... even one for horsemanship.

Much of the money for these programs and facilities has come from individual citizens, companies and foundations. These benefactors say, in effect, that our area should be the site of a significant university... a university with facilities and programs which attract outstanding faculty and students from all over the nation, even the world.

WTSU is growing but it is not so big but that our teachers can take a personal interest in each student and relate to him as the individual he is. Though we have a higher percentage of Ph.D.'s on our faculty than most universities, (over 30%) our classes average fewer students than most, (under 20).

Our students are very much a part of making things happen at WTSU. They are interested, involved and excited. Their learning experience is bigger than the classroom... it is as big as life itself.

Tell us which of these areas of study interests you and we will tell you more about that program at WTSU. Clip this coupon and mail it to me personally. I'll see that you get the whole exciting story without obligating you in any way.

Lloyd D. Watkins
Dr. Lloyd Watkins, President
West Texas State University

P.S. Don't let financial considerations keep you from exploring the idea of coming to WTSU this summer or fall. Scholarships and other financial assistance are readily available.

(Paid for from private funds.)

DELLWOOD PLAZA

PROJECT PLANNERS—Don Soholt, center, chairman of the Midland Association for Retarded Children's Hike-Bike-Ride fund-raising event, plans the April 6 project with Jo Ann Ellis and Joe Lynch.

Wide Participation Expected In Hike-Bike-Ride On April 6

"That Midland is a city of volunteers is well known," Don Soholt, chairman for the Midland Association for Retarded Children's Hike-Bike-Ride, stated. "We are confident we will have numerous volunteer participants in the April 6 event."

"Any individual, club or service organization wishing to participate should call 682-9771 as soon as possible to enter in the competition," Soholt explained. There will be three categories — hiking, biking and horseback riding. Ten-speed bicycles have been donated and will be awarded to the top money raisers in the event. Other prizes including at least one award in each category will also be awarded.

Pledges Based On Mileage

Businesses and individuals will be asked to pledge an amount of money per mile for each mile walked or ridden by participants. The route will be 20 miles long for walkers and bikers and 10 miles for horse riders. Check points will be set up at intervals along the route to accurately clock miles ridden or walked.

Co-sponsoring the event are MARC and Midland Teens Aid the Retarded. Purpose for the project in addition to raising money is to promote public awareness and community involvement in the local organization.

"Of the total amount raised, 70 per cent of the money will be kept in Midland to operate the Pop Bottle summer recreation program, various Opportunity Center programs and other MARC and TARS activities," Soholt said.

Assisting with this community project are the Midland Jaycees who will man the rest stops provided along the route. "We appreciate the Jaycees' help and encourage other civic minded organizations to join us in making this the most successful Hike-Bike-Ride ever held in Texas," Soholt said. "Our goal is 500 participants who will raise \$10,000," he continued.

Entry and sponsor details are available in most junior high and high schools or from Soholt at 682-9771 or 683-6751.

Fledges Based On Mileage

Afraid You're Going Deaf?

Chicago, Ill.—A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of the smallest Beltone aid ever made will be given absolutely free to anyone requesting it.

This is not a real hearing aid, but it will show you how tiny hearing help can be. It's yours to keep, free. The actual aid weighs less than a third of an ounce, and it's all at ear level, in one unit. No wires lead from body to head.

These models are free, so write for yours now. Thousands have already been mailed, so write today to Dept. 9410, Beltone Electronics Corp., 4201 W. Victoria St., Chicago, Ill., 60646.

Hill 'Solves Problem' In Open Records Ruling

By LEE JONES

AUSTIN, Tex. (AP)—Police chiefs and sheriffs cannot close previously open arrest and offense records and then blame the attorney general when newsmen get mad.

Atty. Gen. John Hill issued an opinion Monday that he said "solved the problem" raised by his Jan. 15 opinion denying the Houston Post access to offense records of the Houston airport police.

Hill said the 1973 Open Records Act exempted records dealing with the detection and investigation of crime from compulsory disclosure.

That opinion had been interpreted widely as shutting off the traditional means by which reporters and the public have learned of crimes and arrests.

Hill's new opinion says, "Law enforcement agencies that followed the practice, prior to the enactment of the Open Records Act, of providing the press information concerning the detection and investigation of crime, are not prohibited . . . from continuing that practice. It was not the intention of the legislature . . . to close to the press sources of information to which it had access under prior agency policies."

One exception to this, however, would be information whose disclosure might violate a right of privacy or confidentiality declared by the U.S. Constitution, the courts or other valid laws, Hill said.

Hill's Jan. 15 opinion dealt with the Houston Post's request for the name, age, address, offense and disposition of case in each arrest made by the airport police.

The Houston city attorney sent Hill a copy of the airport police's standard offense report as typical of the records involved. Hill said this contained "much detailed information concerning the detection of crime" and was, therefore, exempt from mandatory disclosure under the Open Records Act.

The new opinion said the airport police should extract from the complete offense reports the information sought by the Post and furnish it to the newspaper.

Hill explained his intent at a 30-minute news conference.

"You cannot invoke the Open Records Act and obtain a report such as was presented to us by the Houston city attorney. . . If that kind of report was given to you by prior practice, we are saying you are entitled to it because that is what the legislature intended," Hill said.

But, he added, "we can't make them do it."

Oak Cliff Raid Bags Marijuana

DALLAS, Tex. (AP)—Police raided the Oak Cliff quarters of a drug wholesaler Monday, arrested four persons and seized \$21,600 worth of marijuana.

Detectives waging Police Chief Don Byrd's crackdown on narcotics-related burglaries, went to the house to climax a four-week investigation.

They recovered electronic equipment believed taken in residence burglaries and found 90 pounds of marijuana compressed into brick-sized bales and wrapped in brown paper.

A detective described the operation as one of the major suppliers of marijuana in the Dallas area. He said the marijuana would retail for \$21,600 if it had been sold in one-ounce bags on the underworld market.

Competition Is Dwindling In Energy Production, FTC Study Shows

WASHINGTON (AP)—A Federal Trade Commission staff study said today that energy production is apparently no more monopolistic than any other industry, but competition is dwindling.

The study said one federal agency should monitor the situation by gathering information on the reserves of oil, natural gas, coal and uranium and verifying the reports independently.

Second Phase Of Probe

Petroleum company acquisitions of coal and uranium companies should be reviewed by the government as the mergers occur, the study said.

The study by the commission Bureau of Economics is the second phase of a congressionally ordered probe into the trend toward diversification by companies into the four sources of energy.

The latest study concluded that "production concentration in a national energy market appears to be quite moderate, especially compared to many other industries. On the other hand, energy concentration rose significantly between 1955 and 1970."

Milder Than Oil Report

The report was milder than the report on the petroleum industry alone prepared by the commission's Bureau of Competition just before the commission launched a case aimed at breaking up the nation's eight largest oil companies.

The report found that measuring production of all four fuels on a dollar basis for 1970 showed the top four companies control 23 per cent of production, the top eight 38 per cent and the top twenty 57 per cent.

The same figures for 1955 were: Top four 16 per cent of production, the top eight 27 per cent and the top twenty 43 per cent.

The top petroleum producers generally ranked as the top natural gas producers. In addition, Gulf Oil, the third-ranking petroleum producer and fourth-ranking natural gas producer, also was the 13th largest coal producer.

Continental Oil, Occidental Petroleum and Standard Oil of Ohio ranked among the top 10 coal producers as of 1970. Kerr McGee Co. was the top-ranking uranium producer in addition to ranking 23rd in oil production and 24th in natural gas.

Man, Wife, Two Boys Murdered

PORTLAND, Ore. (AP)—A Portland couple and two boys they were babysitting were bludgeoned to death Monday.

The victims were identified as Howard A. Weeks, 30; his wife, Arlene, 28; Kevin Wiebe, 8, and Todd Wiebe, 10.

They were found Monday afternoon in the Weeks' southeast Portland home.

Officials said the murders probably occurred Monday morning. One officer called the slayings "the most violent crime I have ever seen in many years of police work."

The parents of the boys are Donald and Eloise Wiebe of Portland. The victims were found by Mrs. Wiebe when she came to pick up her sons after work. Mrs. Weeks' body was found in the living room and the other three victims were in a bedroom. Their hands and feet were bound, Dentler said.

Brant Weeks, an infant recently adopted by the Weeks couple, was found in a crib unharmed.

Weeks worked for the Oregon State Employment Office. No arrests had been made late Monday night.

Lee Youth Center Chatter

Howdy Rebels!

It's now officially spring, but the Rebs have been too busy to get spring fever!

Friday night the volleyball team defeated Abilene with scores of 15-8 and 15-6. The Rebs now share first-place with Big Spring High. Tonight, our girls play MHS in our gym and they really could use your support! This is the last game of the season, so make sure that you are there! Our JV beat Abilene 15-8 and 15-12 and they also have a chance of finishing first. Good luck to both of these teams!

Track Team Winners

This last weekend our track team participated in the Canyon Reef Relays in Snyder and brought home third place honors. The weather was cold but our Rebs still pulled through, with Mike Hill taking first-place in high jump; Milton Jones placed second in the shot put; David Shelton finishing third in the 880; Randy Lewis took second in the 120 high hurdles and a fourth in the 330 intermediate hurdles, and Russell Kellner placed third in the 120 high and sixth in the 330 hurdles. This week, our Rebels travel to Amarillo for the Sandie Relays. Good luck! Baseball, Too

Saturday, our Baseball team traveled to San Angelo to take on the Bobcats but were defeated by a 9-8 score. The Rebs are now 11-2 on the year and 1-1 in district play. Today, we take on the Cooper Cougars of Abilene on our home field, so be sure to come out and support our team. Saturday, we have another home game against Big Spring. Good luck to our Rebels.

Our Coronation was held last week and the Rebelee Court and their titles were announced. They were Mr. and Miss H.S. — Sam Cox and Carla Tergerson; Mr. and Miss Congenial — Grant Standefer and Susan Cloyd; Mr. and Miss Courteous — David Goolbsy and Gloria Wallace; Mr. and Miss Valuable — Scott Hammond and Emily Armstrong; Mr. and Miss Talented — Mike Hill and Loretta Bybee; Mr. and Miss Academic — John Ellis and Melanie Francis; and Mr. and Miss Integrity — Leo Gonzalez and Janet Gieb.

Congratulations to all!

Thanks To All

The Student Council also thanks everyone involved with Coronation. We had more people helping with decorations, refreshments, hostess, ushers, etc., than ever before, and your work is really appreciated. Thanks go to Mr. Woods for all of his time and hard work! THIS IS THE WEEK! Yes, this is the week that the 1974 Senior Class play is presented. For your enjoyment we present an all-star cast featuring the Seniors of LHS! The play is this Thursday night, starting at 7:30 p.m. Prices for the tickets are 74 cents for seniors 75 cents for juniors, and 76 cents for sophomores. Adults also invited at the 75-cent rate. This is one play you won't want to miss! Besides, if you go to Lee, you may be in it! So, be sure to come and bring your friends!

This note to all cast members: DO NOT FORGET practice at 7 p.m. Wednesday in the auditorium. Everyone must attend!

A senior girl's party meeting will be held at 2 p.m. Sunday. It will be brief, to discuss where the party will be held and also to turn in your money if you have not already done so. Thank you!

Challenge Issued

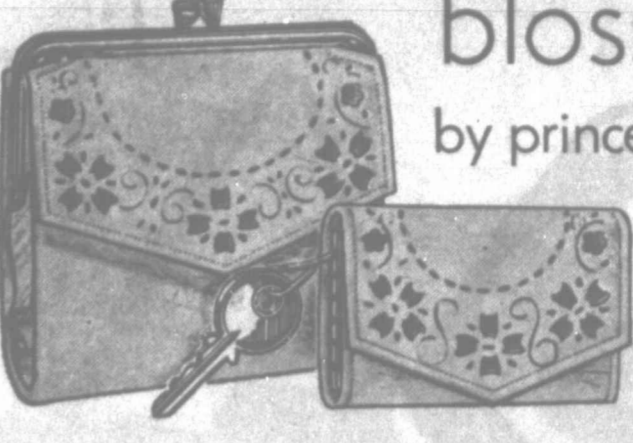

Last Sunday, at Grafia Park, the senior girls played the junior girls in a softball game. After a few innings, the teams changed over to the boys against the girls. Even though the boys put up a hard fight, the girls found their weak spots and soon took over the game. Since there was some dispute over the final score, the girls challenge the boys to another game at 3:30 p.m. Sunday. If the boys do not show up, it will be considered a forfeit.

That's all for this week, Rebs. Chat with ya later!

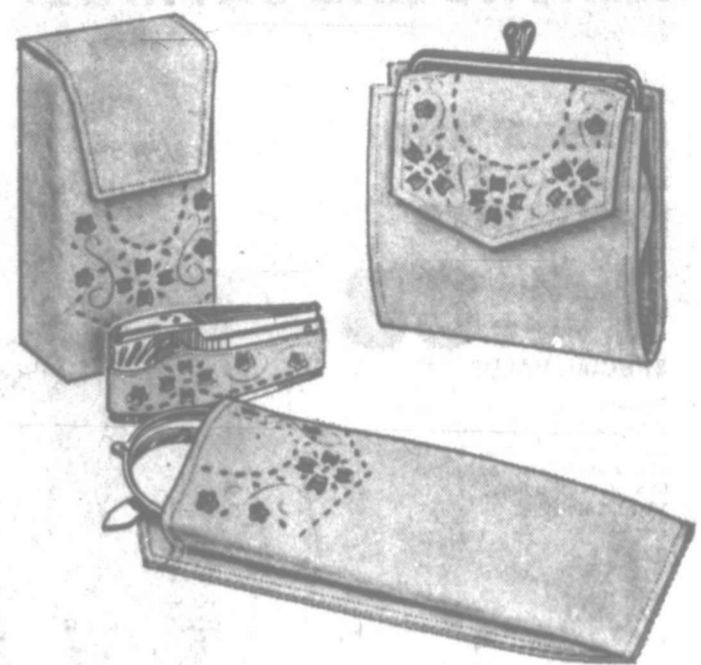

L.B.J.

P.S. Belated happy birthday to Troy Hoffacker. Sorry to hear you are sick, and we hope you are feeling better real soon.

Wolfpack's Next Year Is Finally This Year

NO. 1 — North Carolina State's David Thompson, left, and Monte Towe whoop it up after winning NCAA championship over Marquette Monday night. (AP Wirephoto.)

McGuire Technicals Ignite State's Surge

By KEN ALYTA
GREENSBORO, N. C. (AP) — The cry of "Wait 'Til Next Year" no longer resounds across Wolfpack Country. Next year is now. The souped-up North Carolina State basketball team clinched its right to the No. 1 place with a convincing 78-64 conquest of third-ranked Marquette Monday night in the finals of the NCAA championship tournament. A year ago, Coach Norman Sloan and his troops finished 27-0 but had to settle for nothing header than the Atlantic

Coast Conference championship because the NCAA slapped them with a year's probation for alleged recruiting irregularities. The Wolfpack was burned in the scramble for a budding superstar from Shelby, N.C. named David Thompson. Post-season competition was forbidden. So, while mighty UCLA added a seventh straight jewel to its championship collection last year, North Carolina State watched on television at home—and waited.

For better than 17 minutes, the Wolfpack and Warriors met on even terms. Marquette led by a point, 28-27. Then, in 53 blazing seconds, aided by two technical fouls against wily Marquette Coach Al McGuire, North Carolina State scored 10 straight points to zoom into a nine-point lead. McGuire was later to say, "I cost us a game with those two technicals. That gave them two five-point plays."

The 10 points included two layups by 7-foot-4 Tom Burleson, a basket by Phil Spence, and four Thompson free throws. It was 39-30 at the half and 54-33 after less than six minutes of the second half. Marquette never got closer than nine points after that and the suspense was gone.

All that remained was the final score and North Carolina State's 28th straight victory in a 30-1 season. The Wolfpack, which figured to have the better bench, used only seven players, Thompson and guard Mo Rivers going the full 40 minutes. Sloan explained, "We called upon a very few for a great deal. It wasn't that we lacked confidence in the others." Shooting statistics graphically told the story Monday night—56.5 per cent for the Wolfpack and a chilly 36 for the Warriors. Thompson's 21 points, 16 by the 5-foot-7 Monte Towe, and 14 each by Burleson and Rivers led North Carolina State. Burleson also blocked seven shots and had 11 rebounds. Marquette, 26-5, got a super game from Maurice Lucas, 21 points and 13 rebounds and 12 points and 11 rebounds from freshman Bo Ellis. North Carolina State's quickness brought 12 steals, three each by Thompson, Rivers, and sturdy Tim Stoddard, who added eight points and seven rebounds. They put him, Burleson and Towe on the All-Tournament team along with Bill Walton of UCLA and Marquette's Lucas.

Advice For Blass

Torre Tells Struggling Buc Hurler To Shun Well-Wishers

By HERSCHEL NISSENSON
AP Sports Writer
Joe Torre has some advice for Steve Blass: Stop taking advice. "Blass should stop being a nice guy," Torre said Monday after Blass handed the St. Louis Cardinals five first-inning runs with an incredible streak of wildness. The Cards then held on for a 5-4 exhibition baseball victory over the Pittsburgh Pirates. Elsewhere on the exhibition trail, Hank Aaron, who needs only two regular season home runs to surpass Babe Ruth's mark of 714, socked his second

spring training homer. It was a two-run shot off an 0-2 fast ball from Texas' Pete Broberg in the ninth inning, too little and too late, though, to prevent the Atlanta Braves from losing to the Rangers 4-3. Mickey Stanley led a 17-hit Detroit attack against Jon Matlack, Hank Webb and Buzz Capra with four singles, a double and three runs batted in as the Tigers battered the New York Mets 14-0. Bill Freehan homered for the Tigers while Woodie Fryman and Bill Slaback teamed up to pitch a six-hitter. The Los Angeles Dodgers ran their winning streak to nine games, edging the Minnesota Twins 5-4 on Willie Crawford's run-scoring two-out double in the 10th inning. The Dodgers rallied for four runs in the eighth to tie the game on an RBI triple by Jerry Royster, a double by Dave Lopes and three walks off Tom Burgeimer. Turning from winning streaks to losing streaks, the Montreal Expos dropped their seventh in a row, bowing to the Boston Red Sox 5-4 on Juan Beniquez' run-scoring pinch single in the eighth inning. Bobby Valentine, still running with a limp after breaking his leg last season, singled twice, drove in a run and stole two bases, leading the California Angels to a 4-2 victory over the Oakland A's. Valentine lifted his spring batting average to .444 as the Angels won their fourth straight game and sent the world champions to their fourth successive loss. Dave McNally pitched eight impressive innings in the Baltimore Orioles' 3-2 triumph over the Chicago White Sox. Dave Campbell's run-scoring single in the eighth inning lifted the Houston Astros past the Cincinnati Reds 2-1. Fritz Peterson continued to be an enigma to the New York Yankees. The veteran left-hander hurled four scoreless innings against Kansas City, only to be tagged for fifth-inning home runs by Fernando Gonzalez and Fred Patek in the Royals' 4-1 victory. Fred Kendall tagged 20-game winner Jim Colborn for a three-run homer as the San Diego Padres edged the Milwaukee Brewers 5-4. Jerry Morales laced four hits and Billy Williams drove in three runs to lead the Chicago Cubs to an 8-4 victory over the Cleveland Indians.

DOWN WITH THE REBOUND — North Carolina State's Tommy Burleson (24) hauls in a rebound Monday night during his team's victory over Marquette for the National Collegiate Basketball Championship. Left is State's Tim Stoddard (42). The Marquette player is Maurice Ellis (31). (AP Wirephoto.)

MCC Team Play

The Midland Country Club Women's Golf Assn. Team Play Tournament will begin Wednesday with golfers teeing off at 9:30 a.m. The pairings: 9:30 a.m.—Sewell and Bullard, Cooch and Ruyman; 9:30—Lynch and Nelson, Hansen and McBride; 9:34—Ormond and Page, Money and Wisland; 9:34—Tope and Caray, Kelson and Stahl; 10:02 a.m.—Yost and Kern, Wyatt and Chesworth; 10:10—E. Locker and Giles, Gray and Wilderpin; 10:18—Sears and Hardin; P. Locker and Upland; 10:26—Pittman and Abby, Lauffer and Walsh; 10:34—Taylor and Colner, Roberts and Hall; 10:42—Juman and Sappington.

IN TITLE BOUT TONIGHT—

Foreman 3-1 Favorite

By WILL GRIMSLEY
CARACAS (AP) — Ken Norton, a fighting philosopher girded with the power of positive thinking, carries a 3-1 underdog role into the 15-round heavy-weight title bout tonight against bull-strong George Foreman. "I am a thinking fighter—not old, one-time marine from San Diego, Calif., said as he approached the most important ring test of his life. "I believe it takes positive thoughts to win."

McGuire Reads Riot Act To Swing Tide To NCS

When Coach Al McGuire went into his act along the sidelines at Greensboro, N.C., Monday night, his Marquette Warriors were in front of favored North Carolina State 28-27. That wasn't a bad position to be in, considering that the Wisconsin Warriors had trailed 10-3 early in this NCAA championship game. In fact, a lot of folks were just plain surprised that they were even there. But the Warriors could thank the luck of the draw which matched North Carolina State and UCLA in the semifinals for that. At any rate, they were still in the running until McGuire had his say, the officials called a technical and the Wolfpack not only converted three free throws but made the possession pay off in a basket.

Battle Scene

By Ted Battles

Before Marquette recovered sometime in the second half, it was 51-32 and the Warriors after that never got closer than nine points. It was obviously the game's turning point, but chances are State just had too much Rick Burleson, David Thompson and Monte Towe in any event. The omnipresent seven-foot, four-inch Burleson was particularly intimidating especially after he blocked four shots in the game's early moments. The hesitancy and indecision was apparent the remainder of the night. Even in winning, the Wolfpack at times looked understandably ragged after Saturday's heralded rematch with UCLA. The Wolfpack was guilty of enough turnovers and blown layups to get beaten, but Marquette wasn't up to it, not with McGuire's histrionics on the sidelines. So NC State, which easily traveled the

rockiest road to the title deserved it. In fact, a lot of folks figure the Pack had a rougher time getting to the NCAA tournament than they did in winning it. Not only did they beat everybody in the toughest conference in the nation both at home and abroad during the regular season, but had to repeat their supremacy in the league's tournament on "neutral" grounds.

Say what you will about the injustice of Atlantic Coast Conference's tournament arrangement, NC State emerged a pressure-immune campaigner that even UCLA, when it led 74-67 in the second overtime Saturday, couldn't faze. So who knows, if State hadn't been sidelined from NCAA tournament play, for a recruiting violation last year, it might have a dynasty of its own in the making. State didn't lose a game last year and returns everybody but Burleson next year.

The only game that NC State has lost in the last two seasons was that December game to UCLA in St. Louis. And, of course, there had to be a reason for that. Most folks think it was all UCLA's doing, but they conveniently seem to have forgotten that the Wolfpack had played the University of Vermont the game before and it was quite obvious to a former Catamount that State hadn't fully recovered from the ordeal.

It may be our life insurance, but it's your life. Who's going to make sure one fits the other?

A professional.

Abilene Picks Lewisville's Shipman As Grid Coach

ABILENE — Bill Shipman has been named head football coach at Abilene High School at a starting salary of \$16,000. Shipman, now at Lewisville High School, will coach the North Squad this summer in the North-South football game in the Astrodome. Tommy Shields, an assistant with Shipman at Lewisville, has been named to join him. Shipman replaces Jerry Thormahlen who is line coach at Lubbock Coronado High School.

The 48-year-old Shipman received his BA degree from the College of the Ozarks and his Masters Degree from North Texas State University. He was an assistant coach at Irving, Denton and Andrews before moving to Lewisville in 1966. Lewisville went all the way to the Class AAA finals in 1972, losing to Uvalde, 33-28 in the championship game.

Birmingham Spoils Cubs' Exhibition Opener, 5-3

By ED PRELL
MESA, Ariz. — There wasn't anything unusual about Monday's opening of the exhibition season by the Midland Cubs. There was erratic pitching, faulty fielding, which was costly, and an offense that was halted three times by double plays.

Birmingham of the Southern League, the Cubs' opponent, was far from flawless, but made off with a 5-3 victory in the world champion Oakland A's complex here.

The A's unveiled their "streaker" Herb Washington, the world's fastest human from Michigan State, who is being groomed by the A's as a base running specialist.

Yes, Herb wears a uniform. Maury Wills, who broke stealing records with the Dodgers a few years ago, is here teaching Herb the art of a reported \$5,000 weekly fee.

In the seventh inning, the speed boy was inserted on second with first occupied and two out. He never had a chance to flash his swiftness, but in the eighth hustling Herb had a second chance as a base runner at first. But he was overran and was picked off by Dave Gesel, a southpaw who was the fourth and last Midland pitcher.

Today the Cubs travel to Casa Grande for the first of four games this spring against Amarillo, the Giants Texas League club.

Chunky Joe Wallis, lefty-striking centerfielder, led Midland's eight-hit attack against Birmingham with a tri-

ple and double. He also drew one of the nine walks charged against A's pitchers.

Steve Clancy, 5-10, 180-pound 22-year-old catcher from Tulsa, Okla., also had two hits for Midland. In his pro debut last year, Steve batted .332 in the Gulf Coast Rookie League. He was a star last year at the U. of Texas.

Walt Dixon, Midland skipper, said four pitchers will be used in each of the next few games. Competition for staff jobs is expected to be more intense than in recent years because of a large group of promising youngsters.

Midland (AP) — The A's unveiled their "streaker" Herb Washington, the world's fastest human from Michigan State, who is being groomed by the A's as a base running specialist.

Yes, Herb wears a uniform. Maury Wills, who broke stealing records with the Dodgers a few years ago, is here teaching Herb the art of a reported \$5,000 weekly fee.

In the seventh inning, the speed boy was inserted on second with first occupied and two out. He never had a chance to flash his swiftness, but in the eighth hustling Herb had a second chance as a base runner at first. EAGLES SWOOP IN LATE FOR WIN—

Pecos' McLain Decks Rebels

By BOB DILLON
Rightfielder Wade McLain was a one-man wrecking crew on the Lee diamond Monday afternoon as he hammered out a pair of homers, a double and single, to pace the Class AAA Pecos Eagles to a 6-3 victory over the Midland Lee Rebels.

The victory gives Pecos a 9-7 mark on the year while Lee is now 11-3 and has lost two straight games.

McLain scored four runs for the Eagles, but a two-run triple by first baseman Mark Jackson with two out in the top of the seventh inning, iced the game.

Pecos tied the game, 3-3, in the top of the sixth inning and like Saturday's game in which Lee lost to San Angelo, 9-8, an error opened the gates for three unearned runs off Keith Bishop in the fatal seventh inning.

Lee Coach Ernie Johnson is still hoping that his Rebels start hitting again and they face a tough outfit today in Abilene Cooper as the Cougars play here at 4 p.m. in a key District 5-4 game.

Maurice Bolton scattered five hits in pitching Pecos to its win and gives the Eagles a split with the Rebs. Lee beat Pecos, 3-1, in Pecos earlier this season.

Bishop absorbed his first loss of the year and the 6-3, 210-pound junior pitched well enough to win in walking only one and striking out eight.

Pecos took a 1-0 lead off Bishop in the first inning when McLain rapped a homer into left at the 360-foot sign.

The Rebels came back to tie the game, 1-1, in the bottom of the first inning after two were out. Larry Tidwell walked, stole second and third and scored on a single by first baseman Bobby Stevens.

Lee bunched together three hits in the bottom of the third to take a 3-1 lead off Bolton when Blain Murray and David Clingman collected a single and double with Murray winding up at third. Stevens rapped a shot over shortstop Donald Walker's

head for two runs. Once again it was Mr. McLain that came through, this time with his second homer of the game in the top of the fourth to cut the lead to 3-2.

In the sixth inning, Pecos tied the game when McLain singled, went to second and third on consecutive passed balls by

Murray and scored on Don Herod's sacrifice fly to right. Robert Abila started off the Pecos seventh with an infield hit to deep short. Bishop then made a throwing error on center with Abila holding at

Bolton's bunt attempt, bouncing the ball into the dirt at first with both runners being safe. Walker struck out swinging, but

Fernando Hernandez' fielder's choice, forcing Bolton at second, scored Abila who had alertly stolen third. McLain bounced a double over the fence in right-center with Abila holding at

third and Jackson, who had been held hitless, poked a triple up the power alley in right-center for two more runs.

Murray walked after one was in the bottom of the seventh inning. Clingman popped out to catcher and Tidwell grounded to third to end the game.

REBEL NOTES: Shortstop Brett Blackwell missed the Pecos game, going home with the flu so Coach Ernie Johnson moved Steve Koch from second to short and put sophomore Rusty Laughlin at second and started Robert Dodson in right field.

Jay Frazier (4-0), will be on the mound today against Abilene Cooper with either Don Lawson or Alan Lakatta throwing first place with Odessa Permian with a 2-0 loop reading.

Minnesota's Youth Push Begins To Pay Dividends

ORLANDO, Fla. (AP) — shoulder in spring training and his comeback is in jeopardy. Oliva missed most of the 1972 season with knee miseries, but came back in 1973 with a .291 average as the team's designated hitter. His gimpy knees restrict his movement on the bases when he does get on.

Minnesota's strength is its hitting. Rod Carew won his third American League batting championship last year with a .350 average. With others such as Jim Holt's .297, Oliva's .291 and Steve Braun's .283, the Twins led the majors in hitting. Quilici would like his hitters this year to cut down on their strikeouts and provide more clutch hits. Outfielder Bob Darwin has struck out almost 300 times in his two years with the club.

The Twins should be steadier on defense this year with Brye in center, Soderholm at third and Randy Hundley, acquired from the Chicago Cubs during the offseason for George Mittelewald, as catcher.

Danny Thompson will be trying to come back from assorted injuries at shortstop. If not, the Twins are looking closely at rookie Sergio Ferrer. Jerry Terrell is a .265 hitter.

Austin Wins Cinder Meet

MONAHANS — Clarence Johnson's Midland Austin thin-clads rolled to their 15th consecutive track championship here over the weekend by amassing 157 points in the Monahans Junior High Track Meet.

Midland Edison finished second in the meet with 119 points. Austin's Larry Sutton won two firsts in the meet and set a record in the 120 highs with a 16.3. Bobby Payne's 5:01.2 was a record in the mile.

Austin Results:
Shot Put — L. Bobby Humble, 55.1;
3. Donald Salinas, 28-10.4; High Jump — Larry Sutton, 5-4; 4. Dicky Lynch, 5-4.
Discus — S. Donald Salinas, 115.2;
1. Bobby Humble, 111-9.6; Long Jump — Larry Sutton, 19.3; 4. Clyde Gary, 17-1.
400 Relay — S. Austin, 6.7 (Vernon White, Clyde Gary, Ricky Shaw, Samuel Dennis), 89.0; 2. Monte Wright, 2:05.4;
1. Dicky Lynch, 5:10.7; 100 High Hurdles — Larry Sutton, 2:21.3; 4. Mike Kerley, 2:41.1; 4. Mike Kerley, 44.4; 200 — Samuel Dennis, 51.1; Mike Run — 1. Bobby Payne, 5:01.2 (New record); 2. Chris Pray, 5:11.7; Mike Relay — 4. Austin, (Dicky Shaw, Thomas Anderson, Dicky Lynch, Monte Wright).

Bi-Rite Takes Men's Bowling

Bi-Rite Auto Sales, led by Jack Francis' 279 game and 707 series, won the 34th annual Men's Bowling Tournament at Super Bowl Lanes over the weekend. Bi-Rite rolled a total of 3163 to take top honors with the Skelly Oil Co. second with a 3124.

Rounding out the winning team with Francis were Eddie Krupa, Tommy Miller, Emmitt Hyman and Bill Thorsen. In third place with a 3067 score was Sohio Petroleum Co.

Eddie Woods won the singles crown with a 684 followed by Ross Graham and A. D. Tarver with 683 and 681, respectively.

The doubles crown went to Tommy Miller and Bob Howard, who combined to roll a winning total of 1375. Runnersup were Graham and Woods with a 1336 while in third place were Sharol Whitman and Lonnie Nuss with a 1314.

Graham recorded a 1957 to walk off with the all-events title with Melton Post runnerup with a 1946 along with Tarver who also scored a 1946.

Ken Baker won the scratch singles crown with a 663 while the scratch doubles title went to the twosome of Graham and Woods with an 1192.

Super Bowl carried off the team scratch title with a 2847 while Baker also won the all-events scratch championship with an 1837.

The awards presentation will be held at Super Bowl Friday at 7:30 p.m. with refreshments being served. Patches will be awarded to all scratch winners.

City Tournament

Rangers Up For Sale

Texans May Take Over AL Club

FORT WORTH, Tex. (AP) — The Texas Rangers may soon become a Texas-owned team.

A group of Fort Worth businessmen headed by industrialist Bradford G. Corbett announced here Monday it has entered an agreement to buy the American League team that moved to Texas two years ago

from Washington. The Rangers play their games at Arlington, a city in the midst of the Dallas-Fort Worth Metroplex.

"Our hope is to make this a home-owned team. We think Dallas, Fort Worth and Arlington all should have pride of ownership in the Rangers. It

surely would be a Metroplex team," said Bill Harvey, one of the members interested in buying the team from owner Bob Short.

Harvey said the sale, involving approximately \$10 million may be completed within the next ten days. Corbett was in New York Monday and Harvey said they were hopeful the American League owners would approve the sale before the Rangers' opening game in Arlington next April 4.

Harvey said the group includes some Dallas residents. Corbett is president and chief executive officer of the Robinson Inc., a plastic pipe and copper tubing firm with offices in several Texas cities. Others in the group are Harvey, Dr. Kemble, Dr. Bobby Brown and Star ram publisher Amon G. C. Jr.

Report

WASHINGTON (AP) — Small Business Administration has delivered a report to Congress that shows serious lemons in almost one-fourth of offices.

A copy of the report by The Associated Press problems ranging from rates of bad loans to bank out to what is called conflicts of interest.

The report was a 94-page document deleted from a city-audit made public last day.

Rep. Lawrence Williams, Pa., said Monday that Small Business Administration Administrator Thomas Kleppe misled the news media that report because the pages were deleted.

Kleppe was unavailable for comment, but a top deputy disputed Williams' claims.

At the time the 59-city was made public, Kleppe declared that "SBA has more Richmonds" — a reference to scandals at the office in Virginia, whose office had been fired.

He said the intensive, ranging internal probe "unearthed no serious problems other than the previously mentioned situation."

The 94-page section of the full report contains auditors' comments that offices in 13 cities showed evidence of "immediate" problems. Only seven of cities were said to have problems.

Williams, ranking Republican on the House Banking subcommittee that received the report said that Kleppe "to press and what he told

Report Shows Serious Problems In Many SBA Offices

WASHINGTON (AP) — The Small Business Administration has delivered a report to Congress that shows serious problems in almost one-fourth of its offices.

A copy of the report obtained by The Associated Press shows problems ranging from high rates of bad loans to bank bailouts to what is called serious conflicts of interest.

The report was a 94-page section deleted from a city-by-city audit made public last Thursday.

Rep. Lawrence Williams, R-Pa., said Monday that SBA Administrator Thomas Kleppe had misled the news media with that report because the 94 pages were deleted.

Kleppe was unavailable for comment, but a top deputy disputed Williams' claims.

At the time the 59-city audit was made public, Kleppe had declared that "SBA has no more Richmonds" — a reference to scandals at the state office in Virginia, whose director had been fired.

He said the intensive, wide-ranging internal probe has "unearthed no serious problems other than the previously mentioned situation."

The 94-page section deleted from the full report contains auditors' comments that SBA offices in 13 cities showed evidence of "immediate serious problems. Only seven of the 59 cities were said to have no problems."

Williams, ranking Republican on the House Banking subcommittee that received the report, said that what Kleppe "told the press and what he told the

Small Business subcommittee are not the same.

"In fact, the whole SBA handling of the report was designed to withhold the truth from the press," Williams said.

Assistant SBA Administrator Randall L. Woods said that when the full report was released "we indicated to the press, as well as the committee members, that the section on the mini-reviews was being extracted because it contained un-

substantiated, raw hand-written notations by our reviewers ... To release this unsubstantiated material would have done grave and serious harm, we felt, to the small business involved," Woods said. "We are

presently going into each and every case thoroughly ... and we will take corrective actions where warranted."

The auditors had listed these 13 cities with having "immediate serious problems:" Cincinnati; Detroit; Helena, Mont.; Jacksonville, Fla.; Madison, Wis.; Marquette, Wis.; Milwaukee; New Orleans, Okla.; New York; San Antonio; San Diego; St. Louis and the District of Columbia.

Coal Gasoline Powers Car For Spin In Chicago

CHICAGO (AP) — Illinois Gov. Daniel Walker took a car for a spin in downtown Chicago using gasoline refined from coal. He said the fuel process is a partial answer to the energy crisis.

"No stall, no sputter, no ping," Walker said after the drive with the experimental fuel Monday.

"If we are to solve the energy problem, working toward a self-sufficient nation; if we are to protect our air, keeping it safe, then we will have to develop the technology and build

plants to convert coal to oil and natural gas and gasoline," he said.

The gasoline Walker used cost \$266 a gallon to produce and his brief spin in heavy traffic used about \$66 worth.

It was 92 octane—the equivalent of premium gasoline.

The demonstration kicked off a conference on developing Illinois' estimated 148 billion tons of unmined coal.

The governor said he learned recently that gasoline could be derived from coal, so he ordered 15 gallons for demonstra-

tions.

Oil officials estimated that it would take 7 to 10 years to build a refinery in Illinois that would produce 100,000 barrels of fuel a day from coal. They said a potential 120 gallons of gasoline could be refined from one ton of coal.

They estimated the cost of setting up such a project would be about \$500 million, with a gallon of coal-gasoline selling for about 70 cents.

"That might look pretty cheap 10 years from now," said Ted Tom of the Amoco Oil Co.

laboratory in Whiting, Ind. Experimental processes on a very limited scale were why Walker's 15 gallons of gasoline cost about \$4,000 to produce.

The southern Illinois coal was processed into crude oil at Hydrocarbon Research at Trenton, N.J. The gasoline was refined at Amoco's Whiting lab with small scale processing equipment.

Walker said he believes it was the first time a passenger car has been run in the United States on gasoline derived from coal.

Drug Cache Offered As Evidence In Narcotics Agents' Trial

ALTON, Ill. (AP) — Attorneys defending 10 narcotics agents accused of violating the civil rights of residents in six homes raided last year have offered in evidence a narcotics cache they value at more than \$1 million.

The defense opened its case Monday after U.S. District Court Judge Ormer Poos threw out two counts against each of two defendants but denied defense motions for acquittal of

all 10 defendants.

Poos dismissed two counts each against Ronald J. Olive and Donald W. Spicer, St. Louis detectives. He let conspiracy charges against them stand.

Poos said the prosecution had failed to prove that Olive and Spicer took part in the raids.

The first two defense witnesses testified they were along on one of the raids and dis-

puted claims by a prosecution witness who testified of threats and beer drinking by some of the raiding officers.

The seven federal officers and three St. Louis policemen, all former undercover drug agents, are accused of illegally raiding six Collinsville area homes without warrants last April.

The agents contend the raids capped a seven-month investigation in which they purchased

75 ounces of almost pure cocaine, a half pound of nearly pure amphetamine powder, 9,000 ten-milligram amphetamine tablets and smaller quantities of heroin, marijuana and hashish, the drugs brought to court Monday.

The agents said the targets of the raids were pushers who sold them the drugs. However, no arrests or discoveries of drugs, including those displayed in court, resulted directly from the raids, two of which the agents admit were made on wrong addresses.

The drug purchases and the investigation gave the agents sufficient probable cause to enter the homes without warrants regardless of what the raids produced, defense counsel attempted to show.

Hearst Food Program Ending

SAN FRANCISCO (AP) — Randolph A. Hearst's \$2 million food program has handed out about 35,000 cartons packed with prime meats and produce in a giveaway a spokesman says "appears to be the last one."

The newspaper executive hopes the food giveaway will lead to negotiations for the release of his kidnapped daughter, Patricia, who was abducted Feb. 4.

Hearst, who funded People in Need with \$500,000 of his own money and \$1.5 million from a family foundation, said a coalition that has run the program would announce today whether it will continue.

When Lee Ross, information officer for the program, was asked Monday how long the giveaways would continue he replied, "This appears to be the last one."

The Symbionese Liberation Army, a terrorist group which claims it kidnaped Miss Hearst, has demanded another \$4 million for the program. Hearst said he couldn't afford the extra money, but the Hearst Corp. offered to meet the demand on Miss Hearst's release.

Murder charges were to be presented today to the Alameda County grand jury against two alleged SLA members who want to make a televised statement they claim could help free Miss Hearst.

Joseph Remiro, 27, and Russell Little, 24, whom the SLA refers to as SLA "soldiers," are charged with the Nov. 6 assassination of Oakland School Supt. Marcus Foster. They also are charged with attempted murder in Contra Costa County.

Oakland Municipal Judge Stafford Buckley declined comment Monday when he refused to permit the televised appearance. Contra Costa County Superior Judge Sam Hall rejected the proposal last week, saying it might prevent Remiro and Little from getting a fair trial.

The FBI has described the SLA as a terrorist group consisting of some 25 heavily armed members.

Car Pooling Now Used At Houston

HOUSTON (AP) — Many downtown Houston workers are in their first full week of organized car pooling and sponsors of the project say it is too early to determine how effective it is.

The plan is sponsored by the city of Houston and the Houston Chamber of Commerce.

From this point on what do you know about building a building?

You've got your lot, now what? Well, there are clearances, permits, rights-of-way, planning, budgeting, designing, contracting, clearing, excavating, constructing, roofing, finishing, interior finishing, grounds work, landscaping, etc., etc. You can learn about all these things yourself. Or you can get in touch with us. We take care of every detail—from the first steps to the last. As much as you want us to handle, we'll handle. So give us a call when you're ready to build. Even if you don't have your lot yet.

Six point caps or black face type 16 cents per word for each of the first two days; 8 cents per word for each subsequent day. Minimum charge \$1.04, 12 words.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may occur in the columns of the Reporter-Telegram will be gladly corrected upon being brought to the attention of the editor.

The publisher is not responsible for copy omissions or typographical errors which may occur other than to correct them in the next issue after it is brought to his attention and in no case does the publisher hold himself liable for damages further than the amount received by him for actual space covering the error. The right is reserved to reject or edit all advertising copy. Advertising orders are accepted on this basis only.

"For there shall be a sowing of peace and prosperity; and the vine shall yield its fruit, and the ground shall give its increase, and the heavens shall give their dew; and I will cause the remnant of this people to possess all these things."—Zachariah 8:12.

Amnesty Issue: No Change

The amnesty question still is a very hot and highly controversial issue... as Congress learned all over again in three days of congressional hearings last week. It was the House's first official hearing into the issue.

Of course it is still a hot potato, and it will be for a long time to come! What else could be expected? Proponents of amnesty for Vietnam war resisters said they generally were encouraged at the outcome of the hearing. But opponents had an entirely different opinion. "We would be inclined to go along with the opponents' opinion."

Rep. Robert Kastenmeier, D-Wis., panel chairman, said the hearings "have shown grave differences over the issue. I just don't think we're close to resolving it, that's all."

In other words, the situation hasn't changed.

The military viewpoint is that amnesty for Vietnam war deserters and draft evaders would be unfair to those who served and would set a dangerous precedent for the future.

This is a fair and just evaluation of the problem and is in line perhaps with the majority viewpoint.

Some proponents of amnesty call for automatic and unconditional blanket amnesty, pointing out that exile or underground existence has caused suffering enough.

What they overlook is the fact that the deserters and draft dodgers brought this on themselves. No one forced them to act as they did. They selected their own course.

This undoubtedly is why the Nixon administration is so dead set against any form of amnesty.

There seems to be some doubt also that Congress has the constitutional power to legislate amnesty. A Justice Department official doesn't believe it does. It likely will take quite a while to settle this one issue.

Numerous bills on the subject have been introduced in Congress.

One of the proposals, introduced by Rep. Edward Koch, D-N.Y., involves granting amnesty to draft dodgers in return for two years of alternative civilian service.

Koch's bill is similar to one introduced by Sen. Robert Taft Jr., R-Ohio.

But after three days of testimony, the outlook for passage of any of the bills certainly didn't appear too bright.

Congress has to test these matters every now and then to keep in touch. It didn't take long to find out what it wanted to know in this particular regard.

It is just as well that the matter be tabled for the time being.

The Washington Merry-Go-Round

Jack Anderson Says: Nixon tailors programs to suit die-hard supporters.

WASHINGTON—President Nixon's total legislative-public relations strategy reportedly now is geared to defending himself from impeachment and conviction.

Sources privy to the inner councils say the White House has compiled a list of 34 to 39 hard-core conservative senators whose votes the President is counting upon to save himself from removal.

All he needs are 34 votes to prevent the Senate from throwing him out of office.

The President is partly tailoring his legislative program, say our sources, to appeal to the die-hard senators. Since they are all strong conservatives, he will take a stand against certain consumer, environmental, and social programs they despise.

Already he has backed away from the Consumer Protection Agency which his consumer adviser, Virginia Knauer, has been pushing. He also has let oil-and-gas senators know that he is fighting to exempt refineries from the environmental laws and to lift the regulation of natural gas.

At the same time, the President carefully has selected friendly, conservative audiences for his public appearances. As a veteran politician, he knows the trigger lines that will evoke applause. He wants conservative senators to hear the applause their supporters are giving the President.

Politicians Cautious
He also is using psychological, political warfare, say our sources, in his fight against impeachment. He knows most politicians are cautious, and some are downright timid. They would rather avoid a confrontation; they almost always prefer to work out an amicable compromise in the backrooms.

This explains the growing clamor from the leaders on Capitol Hill for him to resign. They would like him to go away quietly and, thereby, avoid a nasty impeachment fight. Rep. Wilbur Mills, D-Ark., probably the most powerful member of Congress, has even offered to introduce legislation granting Nixon immunity from prosecution if he will resign.

But the President is throwing down the gauntlet and threatening a bruising battle. Our sources say he is counting on the Capitol Hill crowd, out of normal political caution, to back off.

But the members of Congress have an even greater political urge to be re-elected. So, in the end, they probably will do what they think the voters wish.

Footnote: A White House spokesman denied that President Nixon is tailoring his legislation to impeachment, calling the charges ridiculous.

FOOD PRICES: Prices at the supermarket are continuing a steady climb. Yet the wholesale prices of many foods are dropping.

It's not too difficult to discover where the housewives' extra dollars are going.

Beef on the hoof, for example, has dropped almost \$8 per hundred weight and pork has gone down \$8 since January.

Yet Missouri Beef, one of the nation's largest meat packers, has seen profits zoom a fan-

then pocketing the difference. The prices that the shoppers pay remain high, therefore, while the prices the farmers receive are low.

The reasons aren't too difficult to figure out. Often two or three major chain stores dominate more than 50 per cent of food sales in a given area. There have been charges of an unspoken "gentlemen's agreement" in some situations to keep prices and profits high.

The Federal Trade Commission is investigating some of the most blatant offenders.

WORLD ALMANAC FACTS

Between 1963-1972, 786 U.S. law enforcement officers were killed in line of duty. The World Almanac notes. Interrupting a theft in progress resulted in 215 police deaths; attempting other arrests, 199; responding to disturbance calls, 103; ambush, 70; traffic stops, 60; investigating suspicious persons, 55; handling of prisoners, 37; unprovoked mentally deranged, 36; and civil disorders, 10 deaths.

Says another former colleague, "He doesn't give you any of that 'I'll see what I can do' stuff like so many men here on the Hill do when they know they can't, or won't do anything. He will tell you right off, 'I can't buy that, but here's what I can do.' And then he does it."

RAY CROMLEY Veep Ford's Weaknesses, Or Are They Strengths?

WASHINGTON (NEA) — How badly have we misjudged Vice President Gerald Ford?

One of the more curious features of this city is the manner in which a man gets a reputation—as a penetrating constitutional authority, as a discerning expert on foreign affairs, or as a plodding, unimaginative congressional minority leader.

An anecdote can move with a man for years — as has President Johnson's story about Ford's having played football too often with his helmet off.

Men get a reputation for brains in this capital city when they are good with words to wit, "Ask not what your country can do for you..."

Ford's literary style, by comparison, is more limited, his voice is a little flat.

Other men become admired for their wit, charm and charisma, qualities sometimes confused with intelligence.

Ford is lacking in these virtues too. A friend says "Gerry's unadventurous, unimaginative, even pedestrian in his thinking."

Presidents, senators and congressmen have gained prestige and intellectual stature when they or their speech writers enunciate innovative concepts — which may or may not work.

Even Ford's admirers don't claim originality is his trademark. As a result, in one way or another, Ford has been described as a seat warmer without visible signs of leadership. But the qualities outlined above are not those most required of a president.

What then about Gerald Ford? Says an old college friend, "He's slow to embrace new ideas; but no one has to tell him anything twice. He doesn't try to change the system. He sees his job as trying to make it work."

A legislator who worked with Ford on Capitol Hill for a decade says, "I don't know about his brightness or his originality. But as an administrator he's tops. You come to him for a decision. He asks sharp questions — brings in other people, asks them about some gaps in what you've said, and seeks confirmation or objections. Then makes his decision. It's usually the right one, well-reasoned and to the point — not wishy-washy. He's tops in this business."

"Earlier GOP House leaders ran one-man shows," says an old timer on the Hill, now retired. "Ford expanded the leadership to a nine-man team and never made important decisions alone. As President, I think he'd operate with a cabinet-type administration, rather than with an elite White House staff."

Says another former colleague, "He doesn't give you any of that 'I'll see what I can do' stuff like so many men here on the Hill do when they know they can't, or won't do anything. He will tell you right off, 'I can't buy that, but here's what I can do.' And then he does it."

Other men use these words in describing Ford: comfortable, reassuring, honest, sensible, normal, a feeling for tradition, not slipshod — and, every so often, "not very bright."

Another aspect of Gerry Ford, mentioned by many men and women in Washington, was stated succinctly by one: "When Gerry looks at you out of those soft eyes, you can't say 'no'."

There obviously are strengths as well as weaknesses in the vice-president.

Dear Editor:
I see where a hereticulous news spreader says the milk lobby gave \$600,000 to the Democrats in 1972 and only \$400,000 to the Republicans.

It is not clear whether the cow juicers find Republican gratitude is worth less than Democrat gratitude or if it is just worth less.

But my hedger neighbor says he gives \$10 apiece to all national candidates in his area, which assures him — like the milk lobby — that regardless of who gets the job, he has got a place on the winner's non-enemy list.

Crossroads, U.S.A.

BUSINESS MIRROR — Inflation: If You Can't Beat It... Live With It

By JOHN CUNIFF
AP Business Analyst
NEW YORK (AP) — As inflation envelops the entire industrialized world and resists the determined efforts of governments to push it back, a mood of resignation has developed: If you can't beat it, learn to live with it.

From a most unlikely source, Boston's State Street Bank & Trust Co., came the latest suggestion that, like Brazil, we consider adjusting interest rates, wages, rents, contracts and the like to reduce inflation's impact.

If the buying power of the dollar declined 5 per cent in a year, for example, then wages and the like would be increased by that amount so that buying power would be maintained.

The concept isn't new. B. Nowlin Keener Jr., a Pensacola, Fla., lawyer, has spent years working out the technicalities of escalator buying-power clauses. Some academicians have been fascinated with the possibilities.

But to the conventional world of businessmen and economists, the idea doesn't seem entirely practical. Arthur Okun of the Brookings Institution, chief economic adviser in the Johnson administration, sums up the opposition:

"I'm rather skeptical of the general line that you start learning to live with inflation. The corollary is that you tend to stop fighting it and you wind up with more."

Albert H. Cox, Jr., chief economist of Lionel Edie & Co., consultants, and former Nixon administration adviser, feels much the same way:

"Once you put in an official assumption about inflation people accept it and then accelerate it. I just don't think it would work in the United States."

Instead, he said, an attempt to "index inflation away means it might get worse and head the country toward political, economic and social chaos. Brazil's success, he said, "I would suspect is temporary."

The fact is that Brazil has managed with such a system to reduce inflation over a decade from more than 90 per cent to a current range of about 15 or 20 per cent, while growing swiftly. But Brazil may be a special situation.

Okun observes that Brazil's Secretary of State Henry A. Kissinger.

The Country Parson

"Great persons aren't necessarily folks who've had great success."

Massive Snowstorm Hits Virginia Area

NORFOLK, Va. (AP) — But only two inches were measured in nearby Newport News and Hampton, and Cape Charles on the Eastern Shore received only a trace.
Schools were closed in the Hampton Roads area today in the wake of a spring storm that covered Virginia's normally warmer southeastern tip with more than seven inches of snow.
Police reported two storm-related deaths. They said a truck collided with a car on the Hampton Roads Bridge Tunnel, crashed through a railing and went into the icy Chesapeake Bay.
Monday's storm snarled traffic, closed early school and office closings and halted activity for about two hours at Norfolk Regional Airport.
Officials canceled classes today, fearing icy roads.
The storm dumped 7.4 inches of snow on Norfolk, the heaviest ever for this area on that date. Accumulations of almost 7 inches were reported at Oceana, 6 inches at Emporia about 100 miles to the west and around 5 inches at Suffolk.
Another passenger, James R. McCrea, 25, of Suffolk, also was rescued. Dodge and McCrea were treated for exposure.
Ralph C. Wilson Jr., 21, of Chesapeake, driver of the car, was treated for a knee injury and facial cuts.

H. W. Forbess Dies At Andrews

ANDREWS — Herbert William Forbess, 76, a former Midlander died Sunday in an Andrews hospital following a long illness.
Services were held at 4:30 p.m. Monday in the Downtown Church of Christ. Interment was in Andrews Cemetery under the direction of the Singleton Funeral Home.
Forbess was a native of Moran. He had lived in Midland, Sundown and Breckenridge before moving to Andrews several years ago. Prior to his retirement he was a roustabout and gang pusher in oil field construction work.
Survivors include the widow, Lorene Forbess; two sons, Robert Forbess of Odessa and E. W. Forbess of Andrews; two daughters, Mrs. Charley Boyd of Strawn and Mrs. Sarah Willey of Andrews; a sister, Mrs. Annie Lumpkin of Three Rivers; two brothers, Marion Forbess of Odessa and Earl Forbess of Breckenridge; eight grandchildren and six great-grandchildren.

Wagon Accident Injures Prince

LONDON (AP) — Prince Philip was thrown to the ground when a horse-drawn light wagon he was driving overturned on the grounds of Windsor Castle just west of London.
The 33-year-old prince, husband of Queen Elizabeth II, was kicked Monday by one of the four horses.
"Nothing was broken, but he was very badly shaken and bruised," said a spokesman at Buckingham Palace.
The prince's accident occurred shortly after his daughter, Princess Anne, visited Windsor to brief her parents on the attempt to kidnap her last Tuesday.

Dallas Man Found Slain, Believed Prowler Victim

DALLAS, Tex. (AP) — Police here theorized today that a man found shot to death in his home may have been the victim of a surprised burglar seen earlier in the Northeast Dallas neighborhood.
James W. Pond, 47, a freelance photographer, was found with at least one bullet hole in his head by his twin sons as they returned from J. L. Long Junior High late Monday afternoon.

Odessa Burned At Notrees Flown To Brooke Center

ODESSA — Ralph Holmquist, 31, of Odessa, the victim of a Saturday fire at Notrees, Monday was transferred to Brooke Army Hospital Burn Center.
A second man injured in the fire, Floyd Pixley, 44, also of Odessa, remains in serious condition in Medical Center Hospital.

Young Kennedy Takes Up Skiing

VAIL, Colo. (AP) — Ted Kennedy Jr. has taken up skiing, despite the amputation of his right leg.
The 12-year-old boy, whose leg was amputated Nov. 17 because of bone cancer, is in the middle of a six-day holiday here with his father, Sen. Edward M. Kennedy, D-Mass., and other members of the family.

KEEP TAXES DOWN!

City Hall is lucky! It does not have to make a profit. It just needs to break even. To do this, it sets a new tax rate each year. If we stunt growth, we have the same old properties to tax. During inflationary times, UP goes YOUR tax rate. Growth spreads the load!

No Foolin'!

FORT LAUDERDALE, Fla. (AP) — Police rushed to a suburban home to find a man and his wife handcuffed together in the nude.
Patrolman Fred Hansen said the embarrassed couple told him they were "fooling around" with a pair of handcuffs Sunday and locked each other to a ceiling-high bookcase.
The husband said he accidentally dropped the key and his dog promptly swallowed it.

Baptist Seminar Told Church Has Stake In Welfare Of Aged

HOUSTON (AP) — An authority on aging says the church has a big stake in the welfare of the elderly because many of its members are elderly.
"The church ought to join with others of us who are working in Washington and state capitals to see that legislation is passed that helps the elderly get their fair share of the world's goods and attention," said John Martin, a former U.S. Commissioner on Aging.
Martin, who works in Washington, D.C., as consultant to the American Association of Retired Persons and the National Retired Teachers Association, expressed his views Monday in an interview and in a speech at a seminar on economics sponsored by the Southern Baptist Convention.
Martin, 64, who has worked with the nation's senior citizens for 20 years, said 22 per cent of the elderly are categorized as poor and another 18 per cent as almost poor.
"Here are two million elderly persons on welfare and another two million who might qualify for assistance," he said.
He said the elderly, growing in numbers, comprise 10 per cent of the nation's population compared to only 4 per cent in 1900.
"There is a heavy drop in income for persons who retire," he said. "The average income for the retired persons 65 years of age and older is \$3,800. The average income of persons 55 to 64 is \$9,300."

Third Suspect Charged In Kronholm Kidnaping

MINNEAPOLIS, Minn. (AP) — The FBI says the kidnaping of a banker's wife was planned by three men during a night-long beer-drinking session.
In an affidavit attached to a complaint filed against Thomas Gary Hodgman on his arrest Monday, the FBI said the three men charged in the abduction of Eunice Kronholm drove to suburban Lino Lakes early March 15 after the drinking session in a Minneapolis bar.
Two of the kidnapers crept through a wooded area to the Kronholm house and hid in a shed until Mrs. Kronholm emerged from her home that morning to keep a beauty salon appointment, according to the FBI affidavit.

Appaloosa Club Slates Playday

The West Texas Appaloosa Club will hold an open playday Saturday at the club's arena on the Garden City Highway.
The round of events will begin at 10 a.m.
Competition will be held in showmanship at halter, Western pleasure, Western riding, reining, barrel racing, poles and flags.
Entry fee is \$1.

Federal Grand Jury To Meet Thursday In Vocal Contest

The federal grand jury for the Midland area will report at 10:30 a.m. Thursday to consider cases to be presented by the U.S. attorney's office.
The grand jury meets in the conference room of the Midland Chamber of Commerce, 211 N. Colorado St.
A federal grand jury is composed of 23 persons and if persons constitute a quorum.

Maryland Village Still Waging Battle On Birds

GRACEHAM, Md. (AP) — A spokesman for the Maryland Department of Health admits there are contingency plans for killing on a mass scale the thousands of birds which have plagued the community of Graceham.
But John McAnivue declined Monday to talk any further about the plans, saying they hadn't been approved by Graceham's 400 residents.
Dr. Kenneth L. Crawford, state veterinarian in charge of an operation to rid Graceham of the birds, said the next step involves thinning and cutting of trees where the starlings, grackles and blackbirds roost.
The thinning and cutting operation in farmer Edgar Emrich's pine tree grove begins Wednesday. Wildlife officials say the birds don't like thinned out groves.
Fireworks, amplified birdcalls and shotgun blasts were used for three more hours Monday night in an effort to persuade the birds to move on.
They have thinned out somewhat from the estimated millions which roosted in the Western Maryland pine grove before the eviction campaign started Friday, but the extent of their migration is debatable.
Dr. Crawford said 90 per cent of the birds have gone, but some townspeople say 30 to 50 per cent of the birds remain.

Midland County Judge Fills New Office In Group

Midland County Judge Barbara Culver has been elected secretary-treasurer of the West Texas County Judges and Commissioners Association.
She served as vice president of the group last year.
According to procedure of the organization, officers serve as vice president, then secretary-treasurer and then as president, each a one-year term.

N. A. Wallace, 72, Dies; Rites Pend

ATHENS, Tex. — N. A. Wallace, 72, long-time Athens resident and father of Mack Wallace of Austin, member of the Texas Railroad Commission, died unexpectedly Monday night in his home here.
Funeral arrangements are incomplete, but services probably will be held here Wednesday. Arrangements are in charge of Foster and Brown Funeral Home.

Three Midlanders Make University Honor List

GEORGETOWN — Three students from Midland who attend Southwestern University have been named to the 1973 fall semester University Distinction List.
Ann Christine Thomas, daughter of Mr. and Mrs. J. W. Thomas Jr. of 2000 W. Holloway, John Wood Foster Jr., son of Dr. and Mrs. John W. Foster of 2103 Winfield, and Linda Kay Faulk, daughter of Mr. and Mrs. George N. Faulk of 2411 Pagnin, are among the 142 Southwestern students included on the list.

Long Blames Government Policy, Environmentalists

NEW ORLEANS (AP) — Sen. Russell Long, D-La., blames the oil crisis, on shortsighted government policies and environmentalists.
Long told the American Petroleum Institute spring committee conference Monday that government policies made it more profitable for oil companies to drill overseas. He said environmentalists had moved to put oil installations under strict antipollution measures.
He said it was a policy which "imported more and more of our oil supply and exported more and more of our oil industry."

Odessa Burned At Notrees Flown To Brooke Center

ODESSA — Ralph Holmquist, 31, of Odessa, the victim of a Saturday fire at Notrees, Monday was transferred to Brooke Army Hospital Burn Center.
A second man injured in the fire, Floyd Pixley, 44, also of Odessa, remains in serious condition in Medical Center Hospital.
