South Plains Tests Slated

Wildcats have been planned in three South Plains Areas. BCT Associates, Inc. of Midland, will drill a 9,700-foot wildcat in Borden County, six miles northeast of Vealmoor. It is No. 1 Higginbotham.

Location is 660 feet from south and west lines of section 13, block 32, T-3-N, T&P survey, one location east of an 8,105-foot failure, and 1 1/4 mile northeast of the Vealmoor field.

Garza Try
The Garza prospector, a 7,600-foot test, is Amoco Production Co. No. 1-C John F. Lott, 15 miles southwest of Post.

Drill site is 1,320 feet from north and 1,420 feet from east lines of section 14, block 30, T-7-N, P. H. Hale survey, abstract 662, one mile southwest of the depleted Lazy JL (Pennsylvanian) field.

Dickens Test
Byers Engineering Co. of Lubbock plans No. 1 Cliff Bird, Estate, as a 2,650-foot probe in southwest Dickens.

It is 467 feet from south and east lines of section 291, block 1, H&GN survey, nine miles northwest of Spur and 1 1/4 mile northeast of a 2,550-foot duster. There is no nearby production.

Ward, Gaines Prospectors Are Planned

Wildcats are slated for Ward and Gaines Counties.

Gulf Oil Corp. has scheduled an 18,000-foot wildcat in Ward County, No. 1-18-29 University Gas Unit, 1 1/4 mile northeast of the firm's No. 2 P. Walker, indicated dual Fusselman and Ellenburger gas discovery.

No. 1-18-29 University spots 1,320 feet from south and west lines of section 29, block 18, ULS, nine miles west of Pyote.

No. 2 Walker, section 40, A. J. Wilson survey, indicated production in the Fusselman with the flowing of gas at the rate of 20 million cubic feet daily, on a drillstem test from 17,080 to 17,156 feet, and from the Ellenburger, flowing at the estimated, maximum daily rate of 15 million cubic feet on a test from 19,320-19,780 feet.

Operator installed a Christmas tree and was preparing to acidize through Fusselman perforations at 17,085-17,143 feet, and Ellenburger perforations at 19, 320-19,780 feet, and test.

Gaines Venture
Tex-Sin Oil & Gas, Inc. will drill No. 1 J. H. Crouch as a 12,600-foot venture in southeast Gaines, 1 1/4 mile southwest of the depleted one-well Randolph (Mississippian) field.

It spots 660 feet from north and east lines of labor 11, league 232, Lynn CSL survey, 24 miles southeast of Seminole and 1/2 mile east of a 13,791-foot failure.

The dry hole, Seaboard Oil Co. No. 1 Doss was plugged and abandoned in 1949. Top of the Mississippian was picked at 11,600, and Devonian at 12,176 feet, under ground elevation of 3,114 feet.

Pecos, Rannels Trys Scheduled

Try To Cut Road Fund Rejected

AS LONG AS CALLEY IS IN ARMY Beret Captain Won't Wear Uniform

OWEGO, N.Y. (AP) — A Green Beret captain says there's no room for him in the Army as long as Lt. William L. Calley Jr. "is wearing the uniform I am so proud of."

To protest his beliefs, Capt. Daniel J. Callaghan has missed two New York Army National Guard drills this month after announcing he would refuse to wear his uniform.

And although military officials have said Callaghan could face the loss of pay or even court-martial for being absent without leave, the 31-year-old officer said Tuesday he would persist "with the moral duty I think I have."

"I wouldn't call it a protest. A protest involves thinking that somehow things will be changed by what you do. I sincerely don't think anything I do will change it. I would call it acknowledgement that a

convicted murderer is still wearing the uniform of a U.S. Army officer."

Calley, found guilty by a military court of murdering at least 22 civilians at My Lai, South Vietnam, in 1968, is free on bail pending an appeal to a civilian court.

Callaghan is a member of the 19th Special Forces Group in Buffalo, N.Y., a unit he joined in 1971, while Calley was on trial.

"One of the major purposes of Special Forces is to work with the people of South Vietnam, to be with them and teach," Callaghan said.

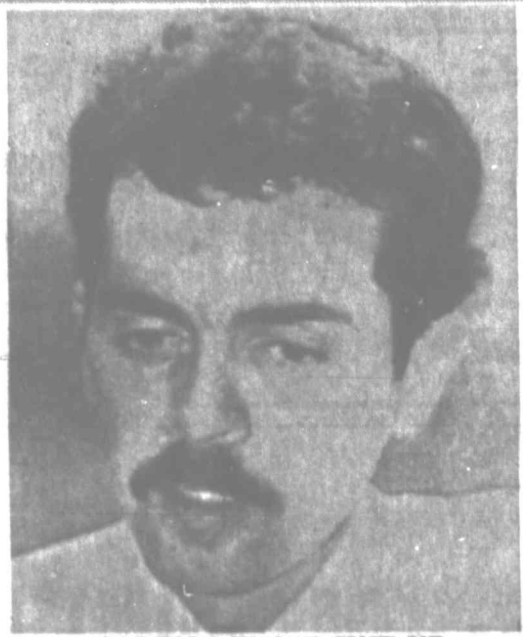

"Because I felt very strongly about what Calley had done, I thought it was especially fitting to be associated with a unit that works with the people," said Callaghan. He served with the U.S. Marine Corps from

1963-67, including five months in Vietnam.

Callaghan, a high school teacher, says he has not been threatened by superior officers with punitive measures for refusing to attend drills. But he said that if he is ordered to wear his uniform, he would refuse — "I'm prepared to accept the consequences."

Maj. Frank B. Brusino of the Special Forces Group said Callaghan was entitled to his opinions, "but his opinions are now having an adverse effect on the men he commands."

"If Calley is set free, one far-reaching effect might be that an American soldier will feel nobody punishes those doing atrocities during that war, so why should they be punished in future wars?" said Callaghan, who commands 12 Green Berets.

Callaghan Stages 'Protest'

11 More Proposals Pending

AUSTIN, Tex. (AP)—Constitutional Convention delegates rejected once again today an attempt to cut into Texas' \$750 million state highway fund. The vote was 115-60.

Eleven more proposed changes in the finance article were pending, including three on the highway fund, which already has survived numerous challenges.

Rep. Larry Bales' attempt to change the use of the fund was submitted to the convention as a separate proposal and not as part of the constitution. If it were adopted, however, it would become part either of the new constitution or the old document if a new one were defeated.

Bales proposed spending part of the fund on public transportation and said at least one-fourth should go to public education. The amount of money in the fund that goes to education is now limited to 25 per cent.

The delegates resumed work this morning after a dinner-time flareup over an attempt to close out prolonged debate.

Speaker Price Daniel Jr., the convention president, had sketched a schedule that called for the delegates to complete the finance article Tuesday.

But 23 amendments and conversational noise that prevented many delegates from hearing what was being said about the amendments slowed the work.

Daniel once had to urge the delegates to be quiet five times during a 30-second period. Several times he stopped the debate because of delegate complaints that they could not hear.

Just before 6 p.m. Rep. Tom Craddick, R-Midland, sought to limit debate to the half dozen or so amendments pending at that time, and Rep. E. L. Short, D-Tahoka, protested: "This is a rape on the people of Texas, and anybody who votes to limit amendments is a darn fool."

Amid cries of "no-no" Craddick's motion was rejected 122-42.

"Casting votes is not the only way to appear foolish," Daniel told the delegates.

They then voted to recess until today.

Soviets Postpone Talks With Kissinger

MOSCOW (AP) — The first round of talks today between Secretary of State Henry A. Kissinger and Communist party head Leonid I. Brezhnev was called off, but United States officials said the two leaders were expected to meet later in the day.

A U.S. spokesman said the Soviets called a half-hour before the discussions were scheduled to start to ask for a postponement.

He said the Soviets gave no explanation, but sources said the Politburo, the party's policy-making body, met this

morning and Brezhnev would have attended such a meeting. Kissinger met with Brezhnev twice a day Monday and Tuesday.

U.S. officials said the discussions had been going satisfactorily. They said Kissinger still planned to leave Thursday as scheduled.

Sources said Tuesday that Kissinger might stay in Moscow until the end of the week because of an apparent stalemate in nuclear weapons negotiations.

They said Kissinger and Brezhnev have been unable so far to achieve the "conceptual breakthrough" that would lead to a new treaty between the two countries.

Brezhnev is understood to have cautioned Kissinger during their first meeting Monday against stressing the massive U.S. advantage in missiles that carry multiple warheads. He is reported to have likened such talk to blackmail.

This could explain Kissinger's warning at a luncheon Monday that "if we attempt to blackmail each other," there can be no peace in the world.

While Kissinger and Brezhnev turned Tuesday to the Middle East and other problems, aides were trying to unravel the knots in the nuclear issue.

Kissinger hopes to work out a deal for a treaty limiting the development of missiles carrying multiple warheads, the MIRVs in which the United States has a big advantage, while balancing off the Soviets' edge in payload capacity.

Kissinger evidently has reminded Brezhnev that the U.S. government is fully aware of the implications of the Soviet missile tests conducted last August.

The United States is reported willing for the Soviets to do enough testing over the next few years to narrow the MIRV gap. But Kissinger is seeking

concessions to offset the Soviet day. A joint statement said West conferences on European security and cooperation and Brezhnev and Kissinger met constructive talks on the Middle East situation and the East-

Woman Realizes Her Dream... And Now She's A Mechanic

BOCA RATON, Fla. (AP) — Helen Hunter's love affair with a grease rack began as a teenager when she breezed through a high school course in auto mechanics.

But it wasn't until 15 years later, after she had three children and had washed out as a typist, that she realized her ambition and teamed up with her mechanic-husband to form Roy and Helen's Service Center.

"Roy would come home and talk about employ problems and problems with the oil company," says Mrs. Hunter, 33. "So finally, I just put the kids in a nursery, fired all the help and went to work."

"I used to work as a typist in a room with no windows. Those walls kept getting smaller and smaller. They finally fired me."

"But now I've got a whole new world with meeting people, seeing the sunshine and doing the work I enjoy."

Hunter, 44, handles the major repairs at the couple's garage-gas station while his wife takes care of the more routine jobs like installing brakes, water pumps, batteries and "all those little goodies."

Mrs. Hunter says for the first time in her life she feels like a real liberated woman — "Roy lets me work like a man" — but acknowledges that she still collects her share

of male chauvinist remarks. "The men usually say, 'You're gonna work on MY car?'" she says. "But I just let them watch me. Sometimes they come in again and ask for me."

Helen says she acquired her automotive skills as a high school student in Leicester, Mass.

"I hung around with the hot rod kids in high school," she says. "I drove in the powder puffs and drag races. But after the races, there wouldn't be anything to do. The guys would all be working on their cars. So I put on my dungarees and sweatshirt and watched them. I figured I could learn it."

Trustees Approve Pay Schedules, '74-'75 Pacts

By TOM MORAN
Midland Independent School District trustees Tuesday approved 1974-75 teacher contracts and passed new salary schedules.

Teachers with bachelor degrees will receive \$900 per year raises. Those with masters degrees will be given raises of \$950. The new salaries will cover the next school year.

Salaries will range from \$8,050 for new teachers with bachelors

degrees to \$13,235 for those with 18 years' experience.

Supt. Dr. James Malley said center board of directors asked the school board to assume full financial responsibility for the Texas. Average teacher salaries are more than \$1,450 above state imposed minimums. The average salary will be \$10,730.

Increased teachers salaries will cost \$792,820 — \$253,803 of which will be local funds.

In other business, the trustees were asked to assume full financial responsibility for the Midland and Lee youth centers, funds, Wilbur Yeager, a youth discussed pupil enrollment center board member, trends, and approved a YMCA request to use school facilities during summer vacation.

London's Stock Market Plunges

LONDON (AP) — The London stock market dropped to a seven-year low today following the Labor government's presentation of a budget raising taxes on corporations and wealthy citizens.

The austerity budget, designed to curb inflation and reverse Britain's deficit economy, was unveiled in Parliament on Tuesday, and Prime Minister Harold Wilson scheduled a meeting with union bosses today to urge voluntary restraint on wage demands.

Antibusing Amendment Gets Resounding Okay In House

WASHINGTON (AP) — By a bill predicted it would cause resounding 293-117 vote, the House has gone on record too

against busing of school children across district lines to overcome segregation.

It adopted an amendment that would permit busing only after all other remedies have been tried and failed, then limit it to the school closest or next closest to the pupil's home.

The amendment was added to a bill extending the Elementary and Secondary Education Act (ESEA), the largest federal school aid program. Senate action still is required.

Similar antibusing legislation was approved by the House in 1972 but died in a Senate filibuster. The managers of the

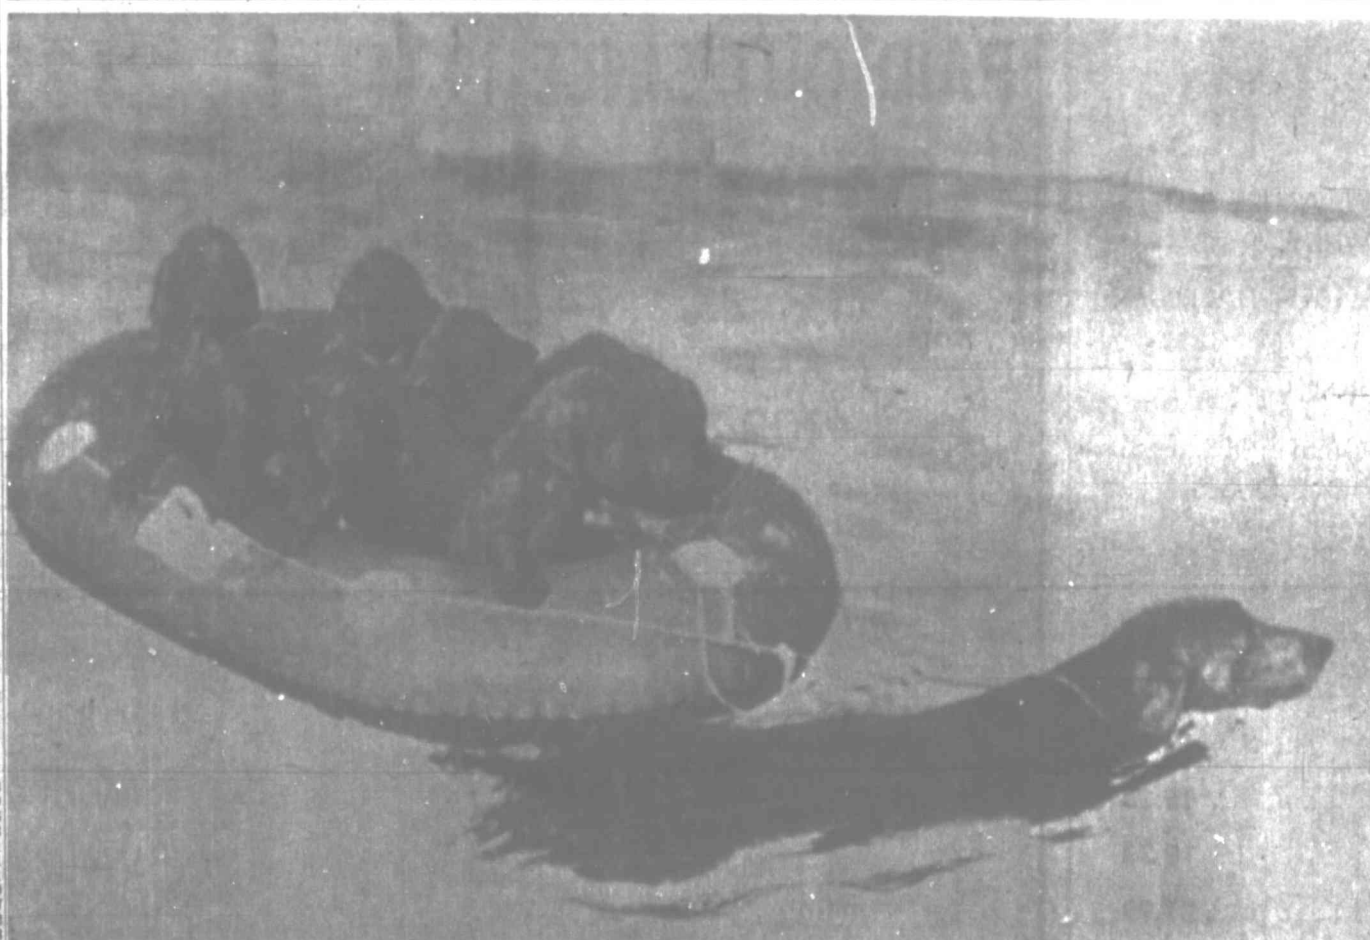

amendment was endorsed enthusiastically by most other members of the Michigan delegation, who clearly hoped the vote would be a message to the Supreme Court, which is considering a controversial busing plan involving Detroit and its suburbs.

Esch's amendment would prevent the federal courts from ordering any busing until such alternatives as assigning pupils to neighborhood schools, permitting voluntary transfers, revising attendance zones and building or closing schools have been tried and proven ineffective. And even then, no student could be bused farther than the next closest school.

But Rep. Marvin L. Esch, R-Mich., who offered the amendment, said it would show the clear intent of Congress that busing across school district lines should not be permitted.

Dunlop Confident Wage, Price Control Program Won't Die Completely

WASHINGTON (AP) — Director John T. Dunlop of the Cost of Living Council says he is confident the administration's wage and price control program won't completely die next month, although a Senate committee appears to have kicked the life out of it.

"The country needs continued action in the stabilization area," Dunlop said after the Senate Banking Committee voted 15-0 Tuesday to let the administration's authority for controls expire April 30.

Dunlop, head of the control program since early last year, said he has "every expectation" that some form of legislation will be reconsidered by the Senate prior to April 30.

Treasury Secretary George P. Shultz said, meanwhile, that health costs probably would increase sharply if controls are not continued, but that the impact in other areas of the economy would not be great.

"There is a reasonable basis for thinking that costs will go up quite sharply in this area," Shultz said about the health industry.

The administration has proposed continuing controls past April 30 over the health industry and possibly a few others, such as construction.

The Cost of Living Council estimates that without controls, per patient hospital charges would rise from 16 to 17 percent per year, compared to 10 percent to 11 percent under controls.

Physicians' fees would increase 9 percent compared to four percent with controls. And nursing home charges would rise 14 percent, compared to 6.5 percent, also according to council estimates.

Aside from health, Shultz said he doesn't think there would be a big surge in prices in other areas since controls already are being lifted from most other industries prior to April 30.

Major industries still under controls include food, steel and construction. Controls are being continued over the petroleum industry under separate legislation until next year at least.

But a number of industries, such as autos, which already have been decontrolled, have made certain price restraining commitments to the council, and the council would lack authority to enforce these commitments without some legislation.

Shultz said, "We expect people to keep commitments whether there is authority or not." But he added that legislative authority would serve as an insurance policy.

Some Officials Admit Government Buying Beef May Boost Prices At Supermarkets

WASHINGTON (AP) — Agriculture Department officials admit that government plans to buy \$45 million worth of high quality hamburger to help prop up cattle prices also could boost beef prices at supermarkets.

"It will have an upward thrust in cattle prices, but it's impossible to say how much," John Larsen, a USDA livestock economist said. "But it will be a little shot in the arm for producers."

Other department officials said they could not estimate how much the spring beef-buying campaign, announced Tuesday, might add to consumer meat costs if cattle prices rise as planned.

"The amount to be bought is small, very small, and is more of a gesture than anything," one official said, asking not to be identified. "It could make 100,000 cattlemen feel better and 200 million other people mad."

Cattlemen spokesmen said the purchase represents about one day's slaughter in the industry.

The beef buying was disclosed by Agriculture Secretary Earl L. Butz at a White House meeting.

Later, USDA followed with an official statement saying the plan was designed to remove grain-fattened cattle "from normal marketing channels" and that the meat would be donated to schools.

Beef producers said the federal action will improve their situations somewhat but cautioned that it would not provide a long-range solution.

"I think we will see some price improvement, at least temporarily, because this action will put a little beef out of regular channels. I do feel there are other things the government can do that would be more helpful in the long term," said J. R. Ham of Garden City, Kan.

Claire Robinson, president of the Kansas Livestock Association, said, "This will certainly be a boost in the arm. However, I don't think this is the ultimate solution to get us out of trouble."

Production of total beef last year was 21.1 billion pounds, and the department predicts supplies will increase 3 to 4 percent in 1974.

Jerry Goodall, deputy director of livestock operations for the department's Agricultural Marketing Service, told a reporter the meat would be bought by June 30 and that it would begin to be shipped to schools in July.

Pardon Sought For Ex-Beatle

LONDON (AP) — A petition with 60,000 signatures asking the British government to pardon ex-Beatle John Lennon from his 1968 conviction on a drug charge has been delivered to Prime Minister Harold Wilson.

The petition requests a pardon so that Lennon, now living in the United States and threatened with deportation because of the 1968 conviction, can be free to travel.

In Beverly Hills, Calif., meanwhile, the district attorney's office dismissed Tuesday a citizen's complaint against Lennon for allegedly striking a woman photographer outside a West Hollywood club. Officials said there was insufficient evidence.

Thundershowers Drench Portions Of Northwest

By THE ASSOCIATED PRESS

Thundershowers accompanied by coastal gale warnings drenched the nation's Northwest today, while heavy rains and small hail pelted the central Gulf Coast states.

A Pacific cold front spread rain from Central California and western Nevada to the Canadian border.

Another front along the Gulf triggered thundershowers from East Texas into Alabama, and severe thunderstorm warnings were issued at many points. Hail the size of marbles struck Mobile, Ala., and New Orleans received more than 4 inches of rain during 24 hours.

In addition, heavy fog blanketed much of the Gulf coast, while drizzle spread to the Atlantic coast of Georgia.

Temperatures remained cold in the Northeast, and scattered snow flurried in parts of New England, New York and the upper Great Lakes.

Elsewhere, fair skies and milder weather were common. Temperatures before dawn ranged from -1 at Pellston, Mich., to 76 at Key West, Fla.

Textile Mills Affected By Energy Woes

MEMPHIS, Tenn. (AP) — The energy crisis has thrown some American textile mills into a spin because of a shortage of synthetic fiber. The cotton industry says it's ready to help bail them out.

"The rumors in the trade are that at least one major mill and a couple of smaller ones are scouring the gray market for synthetic fibers," said Ben Tipton, vice president for raw materials for Dan River Mills at Greenville, S. C.

Mills that cannot obtain synthetic fiber from their regular sources are paying top dollar to get it from other mills or anywhere else in an attempt to stay in production, Tipton said Tuesday.

Textile Prices May Rise
Tipton declined in a telephone interview to speculate on what may happen later in the year to the price tags on everything from clothing, underwear and carpeting to nylon hosiery.

He said the nation's textile mills were told last year by synthetic suppliers that there would be fiber reductions of up to 25 per cent from the year before because of the shortage of petroleum products that go into the manufacture of synthetics.

But Tipton said some mills — especially those that shopped from supplier to supplier simply on a price basis — are finding themselves without synthetic fibers.

More Synthetics Due
"Some time down the road, we are going to have more synthetics available, but whether it will be 1975 or 1976, we don't know, and we don't know at what price," he said.

Tipton said Dan River, which is one of the country's big spinners, weavers and knitters, has been increasing the amount of cotton in its fabrics.

The Department of Agriculture said last week that cotton farmers this season plan to increase their plantings by 18 per cent, to 4.8 million acres.

"This is the best assurance textile mills have for ample raw material in the months ahead," said Albert R. Russell of Memphis, executive vice president of the National Cotton Council. "By contrast, it may be at least a year and much longer before cotton's competitors can increase their supplies significantly."

Libel Suit Seeking \$25 Million Filed

EL PASO, Tex. (AP) — Narconon Inc. filed a \$25 million libel suit Tuesday against El Paso Times reporter Steve Hallock, Times Editor William Latham, Gannett Corp., owner of the Times, and El Paso County Atty. George Rodriguez Jr.

The suit, filed in the El Paso district clerk's office, alleges two articles written by Hallock about Narconon Oct. 7-8, 1973 were damaging to the organization, which is self-described as a rehabilitator of drug addicts.

Narconon is asking \$15 million from all defendants and a supplemental \$10 million from Rodriguez.

The suit was submitted by Danny Venzor, executive director of Narconon Inc., of El Paso, Ken Hawkins, establishment secretary of Narconon Inc., Texas, and Bart Cox, lawyer.

Oklahoma's Oil Production Up

OKLAHOMA CITY (AP) — Production of Oklahoma crude oil is rising slowly in response to higher prices and increased drilling activity, state officials said Tuesday.

Dan Dunnett, director of the oil and gas conservation division of the Oklahoma Corporation Commission, said production averaged 512,299 barrels a day during the first 16 days of March, up from the February average of 504,490 barrels per day.

POLLY'S POINTERS

Stamps More, But Glue-Less

By POLLY CRAMER
Newspaper Enterprise Association

Polly's Problem
DEAR POLLY — I have quite an assortment of materials left from my sewing. I find the cotton pieces are useful for quilts and the like but do not know how to use up other pieces (besides making doll clothes) such as corduroy, knits, tweeds, rayons, linen, flannel, brocades and various mixtures of man-made fibers. I cannot bring myself to throw anything away so would welcome some ideas for things that would utilize these "bits and pieces."
— LIZ.

DEAR POLLY — My Pet Peeve is with the Postal Service. It keeps raising the price of stamps but seems to put less glue on the backs of these high-priced stamps. I am always adding more glue to the backs so they will stick on letters.
— JANICE.

DEAR POLLY — and Thelma — I worked in a wholesale nursery for 13 years. To root plants we used a light soil mixture. Make your chrysanthemum cuttings from the top part of the stems and carefully pinch off the lower leaves leaving four at the top. Each cutting should be about four inches long. Insert pinched stem into soil about one quarter inch above the pinched off leaf. Press soil around cuttings which are placed about one inch apart. Be sure to keep the buds pinched off. Plants should take about two weeks to root. Keep soil damp but not soaked and in a warm place. A portable greenhouse can even be made with a plastic covered frame with small air holes cut in the plastic.
— PATRICIA.

DEAR POLLY — In answer to Thelma's question about starting chrysanthemum cuttings I want to tell her of my very easy and successful method. Take cutting with four or five leaves from the growing points of the plant. Cut stem just below a joint. Root cuttings in a container of water. When roots form (in 2 1/2 to three weeks) put plant in a pot or the garden. Give plant plenty of water after transplanting. When plant has become established and has grown to about six inches begin pinching the tops so the plants will branch out. I pinch the tops until the end of July and they bloom in the fall. Chrysanthemums can be planted in the spring after there is no danger of frost or in the early summer. — DONNA.

DEAR POLLY — The following pointer was used by a woman who did not have the use of a hand and hopefully it will help someone else similarly handicapped. To scrape vegetables she flattened one of those gold-colored scoring balls a little and attached it to a cutting board with four small fencing staples. The staples stood upright in the mesh so she could drive them in with a hammer. She draws the vegetables across the scrubber turning them when necessary. This does an excellent job scraping carrots, potatoes and so on. — TILLIE.

Midland Students Contest Winners

MONAHANS — Mrs. Sam Zweiger of Monahans, cultural arts chairman of District 17, Texas Congress of Parents and Teachers, has announced winners in the district cultural arts competition. "From Sea to Shining Sea."

Angela Estill of Midland won first place in the visual arts division with a watercolor painting of "Granny's Home." She is a sixth grade student at Fannin Elementary School, Midland.

Second place winner was Laurice Moore with a crayon painting of "The Beautiful Desert." She will represent Tatom Elementary School of Monahans, where she is a sixth grader.

These paintings will be the district's entries in state competition and will be displayed during the June seminar at The University of Texas-Austin.

Third place winner in the visual arts division was Antonio Santos, Rusk Elementary School, Midland.

First place winner in the music division was Anne Sellers, with original music and lyrics for "From Sea to Shining Sea." She attends Tatom Elementary School. Cynthia Ferguson, first place winner in literature with her prose expressing her love for her community, attends Tatom Elementary School.

New Officers Chosen By Area Doll Club

Mrs. E. L. Collins was elected president of the Doll Club of the Permian Basin during a recent meeting in Lancaster Garden Center-Museum of the Southwest.

Other officers named were Mrs. Don Barrett, first vice president; Mrs. Merle Hines of Odessa, second vice president; Judy Hodges, recording secretary; Mrs. Vernon L. Altman, corresponding secretary; Mrs. Bill Dawkins, treasurer; Mrs. Vern Martin, parliamentarian; Mrs. R. C. Hodges, historian, and Mrs. Bob Baker of Wink, sergeant-at-arms.

Meetings are held at 7 p.m. the first Thursday of each month in the center. Visitors are invited and may contact Mrs. Collins, 684-5380.

DOLL SHOW WINNER — Mrs. R. C. Hodges of Midland, left, member of the Doll Club of the Permian Basin, is pictured with Bill King, head of the Art Department of The University of Texas-Permian Basin, and Mrs. G'Anna Hayes, chairman of the Arts and Humanities Council of Odessa, who were judges for a doll show held recently in Odessa. Also shown is Mrs. Hodges' prize winning Civil War period china doll, which is 40 inches tall.

Dear Abby

How Changed Name Becomes Bloody Mess

—By Abigail van Buren

DEAR ABBY: It will not right, and so did I. How your surprise you to learn that my attention has been called to your column in which you answer a correspondent who quotes me at length. (It deals with the fact that man is the only animal that blushes — or needs to.)

Did you notice the amusing fact that I was given a new name? The alleged author was called "David Elton Fineblood."

Faithfully,
DAVID ELTON TRUEBLOOD
Earlham College
Richmond, Ind.

DEAR MR. TRUE (NOT FINE): BLOOD: The scholar Arthur Prince who sent me your brilliant quotation did not find it very amusing, and I don't blame him. He had your name

blood became "fine" from "true" also a developing sex drive in girls, too. This is a normal, biological function. Why must we suffer the frustration of restraint for society's sake? Remember, though, I'm talking purely sex and not condoning illegitimate pregnancy for there are many ways of prevention. I am not condoning the practice of sex with just anyone either. I'm talking about the enjoyment of a full, satisfactory relationship between a girl and guy who love each other.

DEAR ABBY: Thanks to you, we have made provisions for leaving our eyes, kidneys and pituitary glands. But what can be done about recovering the thousands of dollars in gold invested in crowns, bridges, inlays, etc.? At today's gold price, it seems too wasteful to be buried or cremated with all that gold in our mouths.

LOADED IN THOUSAND OAKS

DEAR LOADED: Eyes, kidneys and pituitary glands are of infinite value to the recipients, but few people have sufficient gold in their mouths to justify leaving it to their heirs. (It's the dentist's time and skill — not the cost of the gold — that runs up the dental bill.)

DEAR ABBY: Concerning the letter from the 16-year-old girl who made a pledge to save herself for marriage. You replied, "Lovely."

I'm a 16-year-old girl, too, and I'd like to know what is so "lovely" about saving yourself for marriage. A guy is expected to "show a few wild outs" and have some experience before marriage. This is somewhat of an accepted thing in society, but what about the girl he gets this experience from? She is considered a "loose" girl, looked down upon. What about the "loose" girls? Whether adults like to admit

Eagles' Auxiliary Holds Conference

The District 4 State Aerie and Auxiliary of the Fraternal Order of Eagles had a two-day conference recently in the Eagles Hall.

Business sessions and a dance, with music by "The Texas Plainsmen," were held Saturday. Mrs. Austin White, auxiliary president, conducted the auxiliary's meeting Sunday.

The Midland auxiliary's ritual team, composed of Mrs. Sam French, Mrs. Erle Robertson, Mrs. Freeman Yardley, Mrs. Don Twitchell and Mrs. Grady Brown, initiated five new members. Mrs. Robertson, state auxiliary president, spoke on the purpose of the auxiliary.

A Mexican dinner was served to the auxiliary and Aerie members.

Senior Students Party Honorees

Chris Hull and her mother, Mrs. J. W. Hull, were hostesses recently to a party in their home, 3402 Humble St., honoring graduating seniors, Carol Kollman, Heather McDonald and Laura Vasbinder.

Senior pictures of the honorees were displayed and spring floral arrangements were used.

Miss Kollman and Miss McDonald plan to attend Texas Tech University, and Miss Vasbinder will attend Lubbock Christian College.

DELTA GAMMA SALE—Active members of Delta Gamma sorority pictured with items for the Midland Delta Gamma Alumnae Association's sale April 5 are, from the left, Jana Cunningham, University of Oklahoma; Janet Webb, Texas Tech University, and Diane Naumann, Texas Tech, and, back, Tracye Lain, Kathy Gaddy and Sheila Herberger, all Texas Tech students. The sale of baked goods and paintings by Mrs. Ruth Starkey Duncan, San Antonio artist, will be held from 10 a.m. to 6 p.m. in the home of Mrs. L. Decker Dawson, 2000 Winfield Road.

Pottery Party Honors Bride-Elect

Nancy Cronenberg, bride-elect of Bruce Swanson, was honored with a pottery party and brunch Saturday in the home of Mrs. William B. Smith, 2301 Royd St.

Hostesses with Mrs. Smith were Mrs. L. M. Sellers, Mrs. J. W. Baulch Jr. and Mrs. Glen L. Pool.

Martha Baulch of Denton and Jeanie Pool of Lubbock assisted with the house party. The table, covered in yellow linen, had place settings of the honoree's chosen casual pottery. There were 20 guests.

The candy bar didn't become an American institution until World War I.

Woman Master Gun Engraver

SAN FRANCISCO (AP)—Denise Thirion, 34, has an unusual job: She is a master gun engraver.

Mrs. Thirion, who works for a Connecticut firm, recently demonstrated her skill at a sports and boat show here. "I haven't any idea who I have engraved guns for," she said. "I have fired a shot maybe twice in my life. And I hope most of my work goes into collectors' items that stay in a glass case and aren't used as firearms."

The bride Mrs. Thirion said she got into the gun engraving field at the age of 16 in her native city of Liege, Belgium.

Mrs. Gene Blex Named President

The Alpha Iota Delta Chapter of Beta Sigma Phi elected Mrs. Gene Blex president, when it met Monday in the home of Mrs. Monte Allison, 4303 Douglas St.

Other officers named were Mrs. Karl Reagan, vice president; Mrs. Richard Craft, recording secretary; Mrs. Mike Smith, corresponding secretary; Mrs. Joe Whittle, treasurer; Mrs. Allison, extension officer; Mrs. Smith, City Council representative; Irene Craig, first alternate; Mrs. Reagan, second alternate, and Mrs. Graham Bevel, adviser.

Mrs. Jim Hughes, president, presided. Plans were made to have a bake sale Saturday, beginning at 10 a.m., in Dellwood Plaza Mall. A ritual of jewels ceremony will be held at the April 8 meeting in the home of Mrs. Blex, 4822 Shadyland St.

The chapter's Girl of the Year was selected and will be announced at the Founder's Day observance April 27.

Linda Ables presented a program on "Action."

Stain Removal
To remove ink stains from your fingers, try rubbing them lightly with a cloth that has been dipped in ammonia. Rinse immediately under running water. Drain your hands carefully and the stains will be gone.

Woman Has Skill To Conserve Gas

TAYLORSVILLE, Utah (AP)—Mrs. Mary Cook's special skill could come in handy at this time of gas shortage.

Mrs. Cook, 91, won a silver cup back in 1972 as the leading woman driver in a local contest for driving the most miles on only one gallon of gas. She drove very slowly and went 44.6 miles.

She said the winner of the contest with just a few percentage miles better was a Salt Lake city police officer.

"I drove a full-sized Model T and he drove a coupe which was lighter," she explained.

Newtimers Club Luncheon Held

The Midland Newtimers Bridge Club met Tuesday in the Elks Club for card games and a luncheon.

Winners of games were Mrs. Lee Woods, high; Mrs. Phillip Barry, second, and Mrs. O. C. Boswell, third.

Guests were Mrs. Gene Conley, Mrs. Don Gaines, Mrs. James Kempf and Mrs. E. K. Browning.

Mrs. Jimmie Fitzgerald was announced as a new member.

Persons interested in playing bridge with this group are invited to contact Mrs. W. A. Gillett, 604-7136. The club meets the second and fourth Tuesdays of each month. Mrs. Don Neujahr, president, also is available for information at 694-5785.

Teacher Raises Okayed By Board

(Continued From Page 1A) Many differences between Midland and Lee high schools may have a bearing on the availability of some courses, including advanced language and science to MHS students. Currently Lee High has an enrollment of 2,986 — 396 more than Midland High. By October, Midland High is projected to have 481 fewer students than Lee.

Other enrollment problems in the school system include overcrowding at Burnet and Travis elementary schools, Mailey added. Bus students from the area around Midland Air Terminal attend Burnet, he explained, causing the enrollment there to rise to almost 600. Enrollment at nearby Henderson Elementary School is only 342.

Mailey suggested rerouting the buses to send the students to Henderson. Temporary buildings will be moved to Travis to eliminate the overcrowding there. However, the enrollment difference between the high schools monopolized the discussion. Retiring trustee Mrs. Margaret Cowden said there is little chance of population

growth in the Midland High attendance area. If enrollments are not equalized, the school district may have made a mistake in not already making one of the schools an academic high school and the other a vocational high school, she added. Trustee Gilbert Thompson said equal enrollments are not necessary to have schools of equal quality. "It does seem to me that we, as a board need to have some kind of idea what an optimum situation is," he added.

enrollment, the one with the larger enrollment may be able to offer a wider variety of courses. It may not be economically feasible to offer the same courses at both schools, he explained. Board vice president James Winget Jr. said the board had been discussing numbers. Achievement in the classroom is more important, he said. "I think we have to avoid the turmoil that is associated with a constant state of change," Winget added. Every boundary change except those ordered to achieve racial balance has moved students from Lee High to Midland, he said. Trustee Ted Kerr suggested moving elementary school districts in the southwest portion of the city from the Lee High to Midland High areas to balance enrollments.

Chicago Cubs, Brewers To Play Here Next Year

The Chicago Cubs will play the Milwaukee Brewers in Midland Cubs Stadium April 5, 1975, according to an announcement by Midland Chamber of Commerce president K. M. Jastrow at a chamber board meeting today noon in Midland Petroleum Club. This is the first time professional baseball teams have played in Midland in recent memory. First word of the exhibition game came in Scottsdale, Ariz., Saturday night at a reception hosted by the chamber for Chicago Cubs management and player representatives.

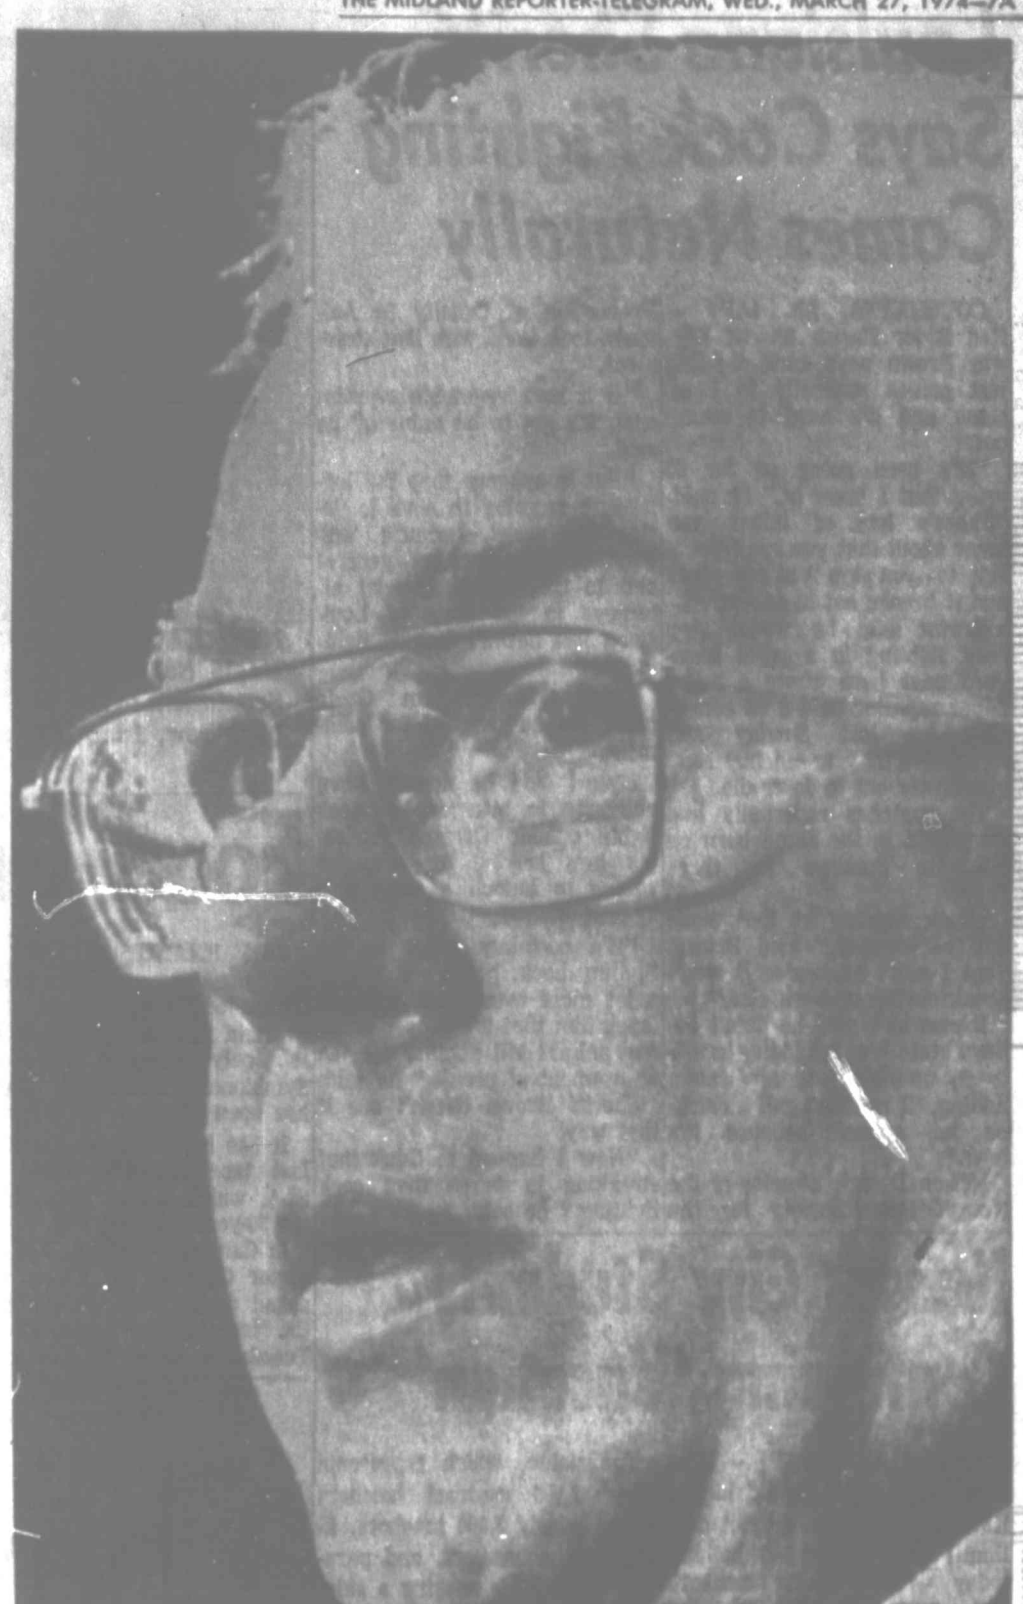

John Holland, executive vice president and general manager of the Chicago team, announced the game. Priority ticket sales will be to season box seat holders this year and those purchasing box seats by April 5, 1975. The game was arranged through the chamber sports committee, with work beginning during the 1971-1972 chamber year. Sports committee chairmen who have worked on the arrangements include Gary Wisner, Dave Widner and Harrell Feldt.

Weather—

(Continued From Page 1A) damage. The Associated Press reported. State police blamed heavy rain near Falfurrias for a collision of a car and a truck in which Mrs. James Smith of Hebronville died. Low clouds still blanketed the eastern half of the state this morning while the western sections enjoyed a day of fair weather. Aside from a little warming, forecasters promised little change. Temperatures near dawn ranged from 44 degrees at Dalhart in the Panhandle up to 60 at McAllen in the Lower Rio Grande Valley, with most readings in the 50s. Tuesday's top marks went as high as 81 at Wink in West Texas. Cloud-covered Houston was the coolest spot with a maximum of 54.

Judgment Issued Against Democratic Governor Hopeful

WACO, Tex. (AP) — Notice of a \$5,645 judgment against Steve S. Alexander of Waco, a candidate in the May Democratic gubernatorial primary, has been posted here by a Dallas district court. The 193rd District Court in Dallas entered the judgment last September in a dispute between Alexander and Harriston Produce Co. of Dallas concerning operations of a Waco Christmas tree lot in 1972. Alexander said Tuesday he was unaware of the posting of the judgment but contended he and Harriston Produce agreed no further legal action would be taken until April 15. The delay would allow settling of Alexander's father's estate, he added. Alexander contended the produce company delivered a large number of trees not ordered. Lawyers for the company refused to discuss the case.

UNHAPPY WITH COMMITTEE ACTION—Treasury Secretary George Shultz tells a Washington news conference he's not happy with the Senate Banking Committee for voting Tuesday to let wage and price controls die April 30. (AP Wirephoto.)

Senate Moves Toward Vote To Delete Public Funding From Reform Measure

WASHINGTON (AP) — The Senate is moving toward a vote to delete the public financing provisions from a campaign reform bill. Numerous amendments have been offered to these and other parts of the bill, but in the opening debate Tuesday the public financing section got most of the attention. Among those opposing the use of tax funds for political campaigns was a majority of the Senate Watergate committee.

Sen. Howard H. Baker Jr., R-Tenn., the committee's vice chairman, said it would lead to government regulation. Instead he proposed an amendment to permit a \$50 tax credit for an individual and \$100 for a couple for political contributions.

Baker said a majority of the Watergate committee, including Chairman Sam J. Ervin Jr., D-N.C., had joined in sponsoring the amendment. President Nixon recently said that public financing of campaigns not only would be a raid on the Treasury but would amount to taxation without representation.

Missing Family Discovered Safe

BROWNSVILLE, Tex. (AP) — The U.S. Coast Guard today called off a search for five missing members of a Brownsville family after learning the family was safe. An unidentified Brownsville man told the Coast Guard he found Mr. and Mrs. Michael Adams, their son, Nicholas, and two grandchildren on a beach south of Matamoros, Mexico, Sunday. The man said the trailer hitch for the Adams boat broke and they remained there because they did not want to leave the boat unattended. The Coast Guard had searched with a ship and planes since late Monday when the family failed to return Sunday. The Brownsville man said he was going to take Adams a new hitch for the boat trailer today.

Secret Grand Jury Report Under Heavy Guard By Panel

WASHINGTON (AP) — Grand jury material on President Nixon and Watergate, possibly including the disputed tape-recorded conversation on hush money, is under heavy guard at the House Judiciary Committee. Chairman Peter W. Rodino Jr., D-N.J., said Tuesday he will examine the grand jury's secret report and satchel full of material "sometime this week" to assess its importance to the House impeachment inquiry. Rodino refused to speculate with newsmen Tuesday on what the material is, but he accepted one reporter's assumption that it includes tape recordings. He said he intends to listen to any tapes. John J. Wilson, lawyer for former White House chief of staff H. R. Haldeman, has told newsmen and the U.S. Court of Appeals that he assumes the grand jury's evidence includes a tape recording of the disputed March 21, 1973, conversation on hush money. The grand jury indicted Haldeman on a charge of perjury for quoting the President as saying "it would be wrong" to pay hush money to keep the original Watergate burglars from letting the scandal reach higher. The President said at a news conference that the full conversation will show he said both hush money and a promise of presidential clemency to keep the burglars quiet would be wrong. The material also includes an index which lists events involving the President which may be important to the impeachment inquiry, a Watergate prosecutor said. The grand jury material was under heavy guard even from

How Texans Voted On Bus Amendment

WASHINGTON (AP) — Here is how Texas delegation voted Tuesday in the roll call vote by which the House approved an antibusing amendment to the elementary and secondary education act. X designates not voting.

Texas—Archer, R, yes; Brooks, D, yes; Burleson, D, yes; Casey, D, yes; Collins, R, yes; de la Garza, D, yes; Eckhardt, D, no; Fisher, D, yes; Gonzalez, D, no; Jordan, D, no; Kazen, D, yes; Mahon, D, yes; Milford, D, yes; Patman, D, X; Pickle, D, yes; Teague, D, X; White D, yes; Wilson, D, yes; Wright, D, yes; Young, D, yes.

SOLON TELLS HEARING—Joint Lease Bidding Encourages High Cost

WASHINGTON (AP) — Rep. John Dingell, D-Mich., said today the Interior Department has encouraged rising fuel prices through its reluctance to ban joint bidding on offshore oil and gas leases. He said he found it "curious" that the department was now drafting such a ban a full five years after the Justice Department recommended antitrust action to halt joint bidding. Even now, said Dingell, there is no assurance that the proposed restrictions on joint bidding announced in January ever would be allowed to take effect. "A number of years ago there were draft regulations to submit exploratory data to the government and these are still in draft," said Dingell. His comments opened a second day of hearings by a House panel on whether federal leasing policy discriminates against small oil and gas companies. He is the subcommittee's chairman. On Tuesday, Monte Canfield, deputy director of the Ford Foundation Energy Policy Project, testified that the administration acted arbitrarily when it ordered a tenfold increase in leasing by 1975. He said his interviews with government officials indicated the decision was made in the absence of supporting data and without consulting any of the agencies involved in leasing. He said the decision was made although the federal government sharply reduced its own estimate of how much oil and gas could be produced if the Atlantic is opened to drilling. Canfield said that neither he nor the agencies affected could find out how the administration arrived at the 10-million-acre figure. He was asked by the committee if he believed the administration had yielded to pressure applied by the major oil companies. "It has to have had an impact," he said. An earlier witness testified that existing leasing policy discourages small companies from bidding on tracts and encourages the big companies to allow oil and gas to remain in the ground while prices rise.

Allen told the Senate that if the public financing provisions could be pruned out, there is no reason why the rest of the bill could not be acted on quickly. He said it has much good in it, but he made plain he was prepared to lead a filibuster against the bill if his amendment is rejected. The bill would set the first limits on campaign spending by candidates for federal office, both in primary and general elections. It also would limit campaign contributions, tighten campaign finance reporting, and create

Judge Speeds Up Legal Preliminaries

AUSTIN (AP) — District Court Judge Herman Jones says he is trying to speed up legal preliminaries in the suit filed against Gov. Dolph Briscoe by his opponent, Frances Farenthold. Jones ordered today that the citation is left in his office to file an answer, which in effect cancels the original April 8 trial date set by Jones. A pre-trial date has never been set. Mrs. Farenthold's attorneys have complained that the Dallas County sheriff's office has been unable to serve the papers personally on Hay since Feb. 15 and now Hay is out of the country. Jones said the effect of his order would be that service "mudslinging in the courts."

Man Found Guilty In Murder Trial

EL RENO, Okla. (AP) — A 31-year-old New Mexico man was found guilty of murder Tuesday in the death of his partner in crime. John Edward Swift was found guilty of the shooting death of Robert Duran. According to testimony, Swift, Duran and another man killed H. C. Kelly, Kelly's wife and their 19-year-old daughter, all of Hearne, Tex., on May 17, 1972. Swift was convicted of shooting Duran three times in the head. Duran's body was found in far west Oklahoma City May 20, 1972.

Kenya To Deport Streakers In Nude

NAIROBI, Kenya (AP) — Foreigners caught streaking will be deported in the nude, the vice president of Kenya, Daniel Moi, said today. Last weekend European streakers twice in public places in Kenya. Moi said in the future any streaker will be arrested in the nude and put on the first available aircraft to his country of origin.

LINES FORMING — With the deadline for having 1974 license tags on Texas vehicles only days away, lines are getting long in the county tax office, 107 N. Main St. The new red-on-white plates must be in place by midnight April 1. The tax office is open from 8 a.m. to 5 p.m. through Saturday for the sale of the tags.

WTCC To Honor 40

ABILENE — More than 40 special recognition for his services to his state and region, and will be presented a parchment scroll naming him one of WTCC's Great West Texans for 1974. An interesting and informative program has been arranged for the three-day event which will feature addresses by Gov. Dolph Briscoe and Congressman George Mahon, chairman of the House Appropriations Committee. Outstanding authorities on various subjects will appear on panel discussions during the convention. Each honoree will be given

Non-alkali soap you buy in department stores, and use only on your face and hands. Come in and let Lillian Garrett help you decide which non-alkali soap you should currently be using with Peel O Matique, 100 Applications — \$20.00.

Louisiana Sheriff Says Cock Fighting Comes Naturally

COUSHATTA, La. (AP) — Prevention of Cruelty to Animals, took issue with that statement.

"If it isn't vegetable or mineral, it's got to be animal," he said.

"But it appears that the legislature is going to have to define the word, because 'animal' to the attorney general and to the various district attorneys in the state of Louisiana just doesn't include fighting cocks."

Atty. Gen. William Guste could not be reached for comment.

Dysert said he doesn't have authority to intervene in cock fights outside Orleans Parish, but he's looking for someone willing to launch a court suit against it.

"It's certainly cruel to the fighting cock, but it's a hell of a lot more cruel to a child to teach him that it's proper to let one animal kill another for the amusement of people," he said.

Sheriff Brown doesn't see it that way.

"Now I happen to think that streaking is worse than cock fighting," he said.

COUSHATTA, La. (AP) — Red River Parish Sheriff Kerwin Brown says cock fighting just comes naturally in Louisiana and it's hard to stamp out.

"It's been going on for 50 years that I know of," he said.

"There's lots of things you know about that you can't put a stop to—you stop it at one place and it breaks out in another."

Brown said he would stop cock fighting in a rural barnyard near here where a newspaper reporter paid a \$2 admission fee last Sunday and watched a 13-year-old boy send his rooster out to do or die.

The matches reportedly had been held in the same barn on alternate Sundays for three years.

"Cock fighting at that place will be stopped," said Brown, "but I can't guarantee it won't break out somewhere else."

Brown also said he didn't believe state law forbidding cruelty to animals was applicable, adding, "I wouldn't call a chicken an animal because it's a fowl."

Nelson Dysert, director of the New Orleans Society for the

NEW EAGLE SCOUTS — Five Scouts of Troop 270 Tuesday night received Eagle Badges at ceremonies in the Elks Club. From left, front row are Scoutmaster Ike McCarroll, Craig Scott, Pat White and Glen Pine. In the back row, from left, are Scoutmaster R. G. Davidson, Dale Land and Bucky Lively.

Food Giveaway Ends

SAN FRANCISCO (AP) — The massive food distribution demanded by the kidnapers of Patricia Hearst has ended, but the only response from the Symbionese Liberation Army has been silence.

It has been 17 days since the last tape recording from the SLA, which claims it abducted the 20-year-old coed Feb. 4.

In Cambridge, Mass., FBI Director Clarence M. Kelley was asked during an appearance at the Harvard Law School Forum Tuesday if he could give some specifics on when Miss Hearst might be freed. His reply: "Not a damned thing."

Meanwhile, Catherine Hearst said in New York that she was beginning to lose hope that her daughter will ever be freed.

"You try to keep your spirits up, but now I'm finally beginning to lose hope," she said in an interview. "I can't think of any way out of it for Patty now."

Her husband, Randolph A. Hearst, is editor and president of the San Francisco Examiner and chairman of the Hearst Corp.

The corporation has pledged \$4 million more to the food giveaway effort if Miss Hearst is released unharmed, but the SLA has not responded to the offer.

"It's like yelling down a railroad tunnel and waiting for an answer to come back," one member of the Hearst Corp. board said. "We don't know if there are five or a hundred, if they are sane or madmen."

Kansas City Students Continuing 'Vacation'

KANSAS CITY (AP) — The more than 60,000 pupils in the Kansas City school district continued an unscheduled holiday today while striking teachers and representatives of the school board resumed negotiations.

The teachers rejected a 5.5 per cent pay hike and negotiations were broken off on a new contract March 15. Members of Local 691 of the American Federation of Teachers went on strike March 18.

The district's 100 schools remained open, however, until attendance had fallen below 20,000 and fewer than 700 teachers reported for class room duty.

Dr. Robert Medcalf, superintendent, announced the closing of all the schools Monday until an adequate number of employees return to operate them.

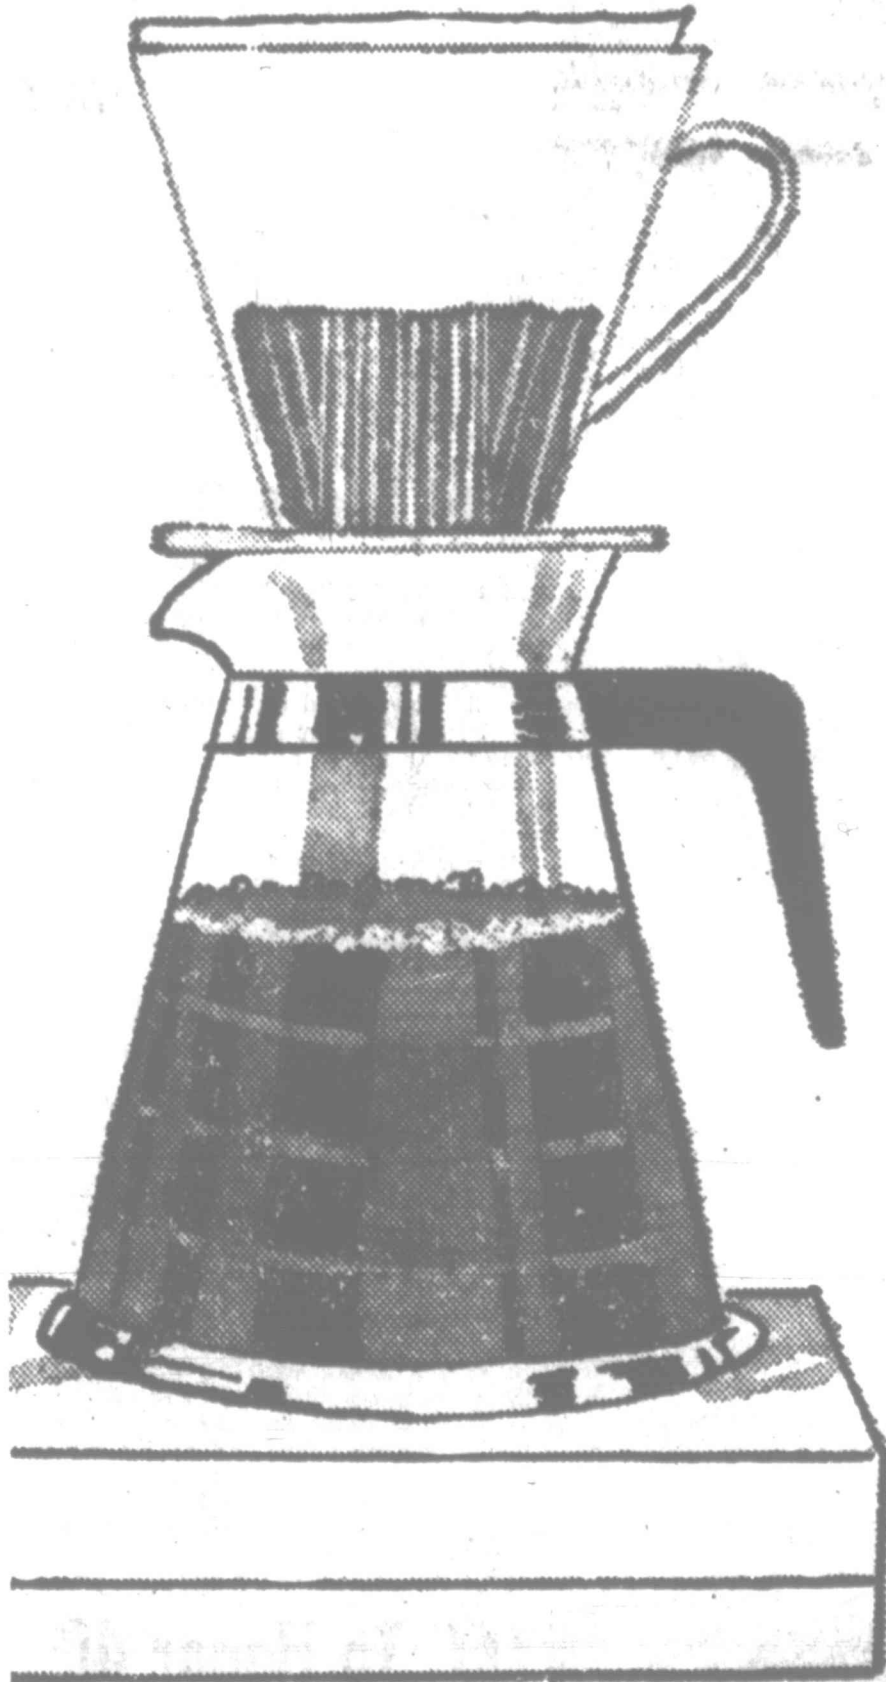

The union, which represents about 2,500 contract teachers out of nearly 3,500 teachers, librarians, counselors, and paraprofessionals, is seeking a salary increase of about 10 per cent. Starting teachers with bachelors' degrees now earn \$7,272 a year.

In addition, the union says the district has refused to bargain in good faith on about 40 other contract items, including grievance procedures and smaller classes.

Day Of Arrests

Nader Hits Churches' Inaction On Corruption In Government

HOUSTON (AP) — Consumer advocate Ralph Nader says churches have not been speaking out on government corruption.

Nader told a social action seminar of the Southern Baptist Convention's Christian Life Commission Tuesday night that there have been a number of impressive developments that have restored the moral authority of the church.

Among them he listed its approach to the war in Vietnam and its approach to hunger and to civil rights.

"Now in a very interesting way we are awaiting the churches' approach to government corruption," he said. "Why is it so tardy?"

Nader suggested that personal ethics should be applied "in

organizational terms." "We do not apply certain standards of behavior to organizations as we do to individuals," he said. "We should start from the viewpoint of the victim in all things."

Nader said a victim of pollution is as real a victim of violence as is a victim of crimes such as robbery and murder.

Nader repeated charges he made several months ago that the nation is not undergoing an energy crisis but is experiencing "a massive waste of energy."

He also said the public is not being informed of the potential danger of nuclear fission power plants that have been developed around the country.

Two speakers told delegates Tuesday that church leaders

are often guilty of not following the moral leadership they call for in economic matters.

The Rev. Elmer West, a member of the Christian Life Commission staff, criticized federal tax exemptions for ministers for housing allowances.

"Why should a minister be favored with a tax loophole on his housing expenses?" West asked.

West said the exemption allows a minister to declare part of his salary as a tax-free parsonage allowance to pay for his house, even if he is buying it himself.

Dr. Bill Pinson, a professor at Southern Baptist Theological Seminary in Fort Worth, told delegates that Christians must be sure they practice what they preach.

TO PERJURY CHARGE—

Former Milk Unit Official Pleads Innocent

LITTLE ROCK, Ark. (AP) — Harold S. Nelson, former general manager of Associated Milk Producers, Inc., pleaded innocent Tuesday to charges he perjured himself last year in testimony before a federal grand jury.

He asked for a jury trial on the charges and agreed to allow federal probation officers to complete a presentence investigation report.

Nelson's lawyer, William N. Carter, said, however, he first wanted to be certain that the presentence report would not be seen by personnel in the U.S. attorney's office.

The case will be tried before federal Judge G. Thomas Eisele probably in late May or early June.

Nelson is accused of having perjured himself Sept. 7, 1973, in testimony given to a grand jury that was probing illegal political campaign contributions.

The three-count indictment charges that Nelson gave false testimony before the grand jury when he was questioned by an assistant U.S. attorney about telling Keifer L. Howard of AMPI to issue a \$20,000 contribution check to the 1968 Democratic presidential campaign.

Howard testified that a telephone call from Nelson authorized him to issue the check. Nelson told the grand jury that he had not authorized the payment.

Howard and David L. Parr, former AMPI general manager, later pleaded guilty to having conspired to make illegal donations of AMPI funds to the campaign. Each was fined \$2,500 and placed on 18 months' probation.

Some of the political activities of AMPI while Nelson was general manager and thereafter are being investigated by a Watergate grand jury.

Nelson's name also has appeared in the record of the Justice Department's antitrust suit against AMPI. The suit contains a letter in which an AMPI lawyer says Nelson implemented a plan to use \$100,000 in corporate funds to avoid "problems" with a \$100,000 contribution to Nixon fund raiser Herbert Kalmbach in 1969.

Nelson was general manager of Milk Producers, Inc., in 1968 and by late 1969 had promoted mergers with other milk cooperatives for MPI to become Associated Milk Producers, Inc. Nelson is now general manager of American Grain & Cattle Corp., a relatively new grain and beef cooperative based in San Antonio, Tex.

Superport Still 'A Good Possibility'

ANGLETON, Tex. (AP) — However, James Cross said Tuesday there is a 75 per cent chance the planned \$400 million port will be built.

He said the major holdup is agreement in Washington on a bill to authorize construction of such ports in international waters.

Fort Worth To Fight Voter Decision

FORT WORTH, Tex. (AP) — City officials said Tuesday they will appeal a federal court ruling that non-property owners are eligible to vote in municipal bond elections.

A three-judge panel overturned Monday a provision in the Texas Constitution which allowed a 1972 library bond issue here to be scrapped although voters approved the measure.

City Atty. S. G. Johndroe said the decision would be appealed so that the value of the \$6,000,000 in bonds could be maintained.

Other city hall sources speculated, however, that the Supreme Court would decline to hear the case since there was no dissenting opinion from the federal court panel.

Cross spoke at a special meeting of the nine-member commission, one of several meetings the group is holding around the state for comment on the proposed facility.

He said the Freeport facility would be 12 miles offshore, using a system of floating buoys and a pipeline to shore.

Cross said another factor that might affect the proposed Freeport facility are plans by Corpus Christi to dredge a deep channel to allow supertankers to dock at on-shore terminals.

Daniel Bragg, a Texas A&M University professor, said there are only four ports in the United States that can accommodate ships that draw more than 45 feet of water when fully loaded. The Gulf of Mexico presently has no such ports.

Bragg said many ships draw 80 feet and others with 100-foot drafts are being planned.

Michael Huston of Arthur D. Little, Inc., a management consulting firm, said studies have been made to build a single port to serve both the Atlantic and Gulf coasts. He said that such a single port would severely affect the surrounding area, creating pollution and population problems.

Rebels, Bulldogs Capture Key 5-4A Victories

Frazier Halts Cooper

By BOB DILLON
Junior righthander Jay Frazier handcuffed the Abilene Cougars on four hits Tuesday to pitch the Midland Lee Rebels to a 7-1 victory in a District 5-4A baseball game on the Lee diamond.

The 165-pounder was highly effective in walking one and striking out eight Cougars in getting Coach Ernie Johnson's Rebels back into the thick of the 5-4A race.

While Lee was knocking Cooper out of first place, Odessa Permian was whipping Big Spring, 9-1, to move into undisputed first place with a 3-0 loop reading while Lee and Cooper are one step back of the Panthers with a 3-1 mark.

"We still didn't hit the cover off the ball, but our defense was good and we got timely hits when we needed them," said Johnson. Lee's defense backed up Johnson's statement in playing errorless ball.

Catcher Blain Murray paced the seven-hit Lee attack with a home run and pair of singles and the talented junior connected on one of starter Don Lawson's curve balls to lead off the bottom of the first, jumping on a one-and-one count for his homer, his second of the season. Centerfielder David Clingman also produced with a double and single and displayed some fifty base-running along with Murray.

Midland Runners In Odessa Meet

ODESSA — Midland's highly-touted freshman and junior high track squads take to the W. T. Barrett Stadium track today in the Odessa Junior High relays. Austin, winners of 15 consecutive track meets over the past 3 years, will carry the favorites role in the freshman division while cross-town rival Edison appears to be Austin's most formidable opponent.

San Jacinto, Goddard and Alamo will carry the Midland banner in the seventh and eighth grade competition. The San Jacinto eighth grade is undefeated this year.

Following Murray's solo homer in the first, Lee added two more runs off Lawson for a quick 3-0 lead. Brett Blackwell hit a fly ball into center which was dropped by Larry Martindale. Larry Tidwell followed with a double, moving Blackwell to third. Bobby Stevens lined a single over second to score both Blackwell and Tidwell.

Lawson, who got two of the four hits off Frazier, was safe on an infield single in the third inning, but was erased on a double play when teammate Bill Mears struck out swinging and Murray fired to second to get the sliding Lawson.

Tidwell started off the Lee third by getting hit by a Lawson pitch. Stevens forced Tidwell at second, however, but Clingman doubled Stevens all the way to third and Javier Torres laid down a bunt and the throw to third was not in time to get Stevens. Steve Koch then laid down a squeeze bunt, scoring Stevens and when Koch and Lawson collided down the first base line, Clingman alertly stole home for a 5-0 lead. Steve Hankinson hit a fly to left where Scott Ritchy dropped the ball, enabling Torres to score for a 6-0 advantage.

Frazier's only walk of the game wound up in the Cougars' run in the fifth inning. Ricky Lewis walked, went to second on a ground out to deep short and scored on Lawson's sharp single up the middle.

Lee added an insurance run in the fifth inning when Clingman singled, went to second on a sacrifice by Torres. On the play, first baseman Lawrence Crow's low throw got past Lawson who was playing third, and Clingman scored for the final 7-1 margin.

Frazier finished with a flourish in striking out the side in the seventh inning.

Lee takes a 12-3 season record into Saturday's game with the Big Spring Steers on the Lee diamond while Cooper stands 5-4 and 2-1 and entertains Permian in Abilene Saturday.

Lawson, who got two of the four hits off Frazier, was safe on an infield single in the third inning, but was erased on a double play when teammate Bill Mears struck out swinging and Murray fired to second to get the sliding Lawson.

Tidwell started off the Lee third by getting hit by a Lawson pitch. Stevens forced Tidwell at second, however, but Clingman doubled Stevens all the way to third and Javier Torres laid down a bunt and the throw to third was not in time to get Stevens. Steve Koch then laid down a squeeze bunt, scoring Stevens and when Koch and Lawson collided down the first base line, Clingman alertly stole home for a 5-0 lead. Steve Hankinson hit a fly to left where Scott Ritchy dropped the ball, enabling Torres to score for a 6-0 advantage.

Lee takes a 12-3 season record into Saturday's game with the Big Spring Steers on the Lee diamond while Cooper stands 5-4 and 2-1 and entertains Permian in Abilene Saturday.

Lawson, who got two of the four hits off Frazier, was safe on an infield single in the third inning, but was erased on a double play when teammate Bill Mears struck out swinging and Murray fired to second to get the sliding Lawson.

Tidwell started off the Lee third by getting hit by a Lawson pitch. Stevens forced Tidwell at second, however, but Clingman doubled Stevens all the way to third and Javier Torres laid down a bunt and the throw to third was not in time to get Stevens. Steve Koch then laid down a squeeze bunt, scoring Stevens and when Koch and Lawson collided down the first base line, Clingman alertly stole home for a 5-0 lead. Steve Hankinson hit a fly to left where Scott Ritchy dropped the ball, enabling Torres to score for a 6-0 advantage.

Frazier's only walk of the game wound up in the Cougars' run in the fifth inning. Ricky Lewis walked, went to second on a ground out to deep short and scored on Lawson's sharp single up the middle.

Lee added an insurance run in the fifth inning when Clingman singled, went to second on a sacrifice by Torres. On the play, first baseman Lawrence Crow's low throw got past Lawson who was playing third, and Clingman scored for the final 7-1 margin.

Frazier finished with a flourish in striking out the side in the seventh inning.

Lee takes a 12-3 season record into Saturday's game with the Big Spring Steers on the Lee diamond while Cooper stands 5-4 and 2-1 and entertains Permian in Abilene Saturday.

SPORTS

25—THE MIDLAND REPORTER-TELEGRAM, WED., MARCH 27, 1974

Lee's Clingman scores... tag by catcher too late

ABILENE — Jeff Cole pitched a gritty four-hitter and Coach Arlen Dickson's revamped batting order broke loose for 12 hits as Midland's Bulldogs pounded Abilene High, 10-2, here Tuesday afternoon for its first District 5-4A baseball victory in three starts.

The Purple Pack brought a microscopic .137 team batting average into the game, so Dickson figured he didn't have anything to lose by juggling some names and positions and it paid off better than he expected.

Brandon Battles, Alan Buonsera, Karl Brosig and Kenny Krawietz each had two hits and every Bulldog who batted, except Cole, collected at least one hit while catcher Terry Copeland and Brosig each knocked in three runs.

Cole issued seven walks and frequently found himself facing three ball situations, so it wasn't easy for the senior right-hander. But he was tough in the clutch and the result was the Bulldogs' most effective pitching performance of the season.

Abilene had runners on base in every inning but the third, "So I guess Terrell Littlejohn threw a complete game in the bullpen right along with Cole on the mound," said Dickson.

A four-run third gave Cole breathing room and a five-run seventh sealed it away.

Battles singled to left with one out in the first, took second when the ball got through, went to third when catcher Ron Maynard threw into center trying for a pickoff at second and scored on Copeland's grounder to second.

Midland's 1-0 lead didn't last long. Maynard hit a 3-2 pitch over the left field fence to open the second, but then the tie was also short-lived.

Ron Helm walked with one out in the third and Battles' chased three defenders into center for his Texas Leaguer that went for a double when no one was left to cover the bag. Copeland was walked purposely to load the bases, which didn't prove a wise decision.

Brosig drilled a two-out single for two runs to center and Bruce Smith tripled into the right field corner for two more runs.

"The Bulldogs" chased starter Bobby Lawson in the seventh with a five-run burst. Buonsera's double started it and Brosig singled home the first run, moving to second on Smith's infield out. Cole's bunt in front of the plate squeezed Eagle run.

The loss left Abilene like four other league teams, at 1-2 in the first half race.

BULLDOG BITES — Cole kept the Eagles hitting on the ground with Smith the only Bulldog outfielder recording a put out. The Abilene starting pitcher is the son of Shorty Lawson, Abilene Schools athletic director.

The Abilene Reporter-News noted in its program story that Midland was defending AAAA state champion, but hadn't shown a thing in two previous district starts, inferring it would be a lack for the Eagles. The Bulldogs, now 6-9, travel to San Angelo for a game Saturday.

Cole In Four-Hitter

ABILENE — Jeff Cole pitched a gritty four-hitter and Coach Arlen Dickson's revamped batting order broke loose for 12 hits as Midland's Bulldogs pounded Abilene High, 10-2, here Tuesday afternoon for its first District 5-4A baseball victory in three starts.

The Purple Pack brought a microscopic .137 team batting average into the game, so Dickson figured he didn't have anything to lose by juggling some names and positions and it paid off better than he expected.

Brandon Battles, Alan Buonsera, Karl Brosig and Kenny Krawietz each had two hits and every Bulldog who batted, except Cole, collected at least one hit while catcher Terry Copeland and Brosig each knocked in three runs.

Cole issued seven walks and frequently found himself facing three ball situations, so it wasn't easy for the senior right-hander. But he was tough in the clutch and the result was the Bulldogs' most effective pitching performance of the season.

Abilene had runners on base in every inning but the third, "So I guess Terrell Littlejohn threw a complete game in the bullpen right along with Cole on the mound," said Dickson.

A four-run third gave Cole breathing room and a five-run seventh sealed it away.

Battles singled to left with one out in the first, took second when the ball got through, went to third when catcher Ron Maynard threw into center trying for a pickoff at second and scored on Copeland's grounder to second.

Midland's 1-0 lead didn't last long. Maynard hit a 3-2 pitch over the left field fence to open the second, but then the tie was also short-lived.

Ron Helm walked with one out in the third and Battles' chased three defenders into center for his Texas Leaguer that went for a double when no one was left to cover the bag. Copeland was walked purposely to load the bases, which didn't prove a wise decision.

Brosig drilled a two-out single for two runs to center and Bruce Smith tripled into the right field corner for two more runs.

"The Bulldogs" chased starter Bobby Lawson in the seventh with a five-run burst. Buonsera's double started it and Brosig singled home the first run, moving to second on Smith's infield out. Cole's bunt in front of the plate squeezed Eagle run.

The loss left Abilene like four other league teams, at 1-2 in the first half race.

BULLDOG BITES — Cole kept the Eagles hitting on the ground with Smith the only Bulldog outfielder recording a put out. The Abilene starting pitcher is the son of Shorty Lawson, Abilene Schools athletic director.

The Abilene Reporter-News noted in its program story that Midland was defending AAAA state champion, but hadn't shown a thing in two previous district starts, inferring it would be a lack for the Eagles. The Bulldogs, now 6-9, travel to San Angelo for a game Saturday.

MCC Golf Tournament

Pairings are set for Thursday's round in the Women's Midland Country Club Golf Association Tourney with first tee-off set for 9:30 a.m.

A total of 38 ladies will play their first round Thursday as the second day of play gets under way.

HPMGA Sets Meet

The Hogan Park Men's Golf Association will hold a Blind Draw Partnership Golf Tournament at Hogan Park Saturday.

Those wishing to enter are asked to arrange their own foursomes, and the tourney will use a unique point system. Players may sign up at the pro shop, and there is no entry deadline.

Nunez Throws No-Hitter For Odessa Permian

ODESSA — Coach Gil Bartosh stuck close to home in signing 23 football recruits for his first UT-El Paso squad with six players coming from District 5-4A, where he coached Odessa Permian, two from Andrews and another from Snyder.

Bartosh's four out-of-state players were all from nearby New Mexico.

Odessa Topples Angelo, 10-6

ODESSA — Ray Nunez, Odessa Permian righthander, threw a no-hitter Tuesday at Big Spring to guide the Panthers into first place in the District 5-4A baseball race with a 9-1 win and Odessa came from behind to topple San Angelo, 10-6.

Nunez walked four and struck out eight in recording his gem and his teammates pounded out nine hits with first baseman Greg Austin slugging a pair of homers.

John Thomas Smith was the losing hurler for Big Spring which is now 3-12 on the year and 1-2 in district play. Permian, meanwhile, is 9-1 and 3-0.

San Angelo took a 5-0 lead in the first inning against OHS, but the Bronchos battled back to tie the game, 5-5, in the bottom of the first and went on to its first loop win of the year. OHS is now 8-5 and 1-2 while San Angelo is 4-4 and 1-2.

Allen Johnson's double and a triple by Mike Sterling paced the Odessa attack.

In games Saturday, Midland Lee (3-1), entertains Big Spring while Midland (1-2), travels to San Angelo. Odessa Permian plays Cooper in Abilene and Abilene is at Odessa.

Bullpups Topple Odessa JV, 8-6

ODESSA — Coach Dave Rutherford's Midland Bullpup junior varsity downed the Odessa JV, 8-6, Tuesday afternoon on the Memorial Stadium diamond.

James Zachery was the winning pitcher with Joe Carr saving the win in relief for the Pups. Carr had a double while teammate Harold King had a pair of hits.

Midland is now 2-3 on the year and entertains the Kermit JV at 1 p.m. Saturday in its next outing.

Foreman Halts Norton In Second

By WILL GRIMSLEY
CARACAS, Venezuela (AP) — Call him the "Lightning Destroyer"—big George Foreman is a heavyweight champion who works as if he left the car running outside.

He floored Joe Frazier six times in Kingston, Jamaica, and won the heavyweight title in 4 minutes, 43 seconds. On Aug. 31 in Tokyo he stopped Joe "King" Roman in two min-

utes flat. Norton lasted five. It is a series of triumphs reminiscent of the blinking eye triumphs of the great Joe Louis, the Brown Bomber, in the period before World War II. "Joe had a lot to do with my winning so easily tonight,"

Foreman said in the dressing room. "When he was introduced in the ring, he reached over and whispered in my ear, 'Remember you're the champ—stay cool.' That's what I did."

Muhammad Ali, whose very appearance often sends fight fans into a screaming frenzy, was at ringside as closed circuit tv commentator, and he couldn't have been comforted by what befell his big brown eyes.

Earlier, in picking Norton, Ali had said Foreman was little more than an awkward amateur. "He's slow and sluggish and can't move—he's an easy target for a pro," Ali said, "but I still think I can beat him. He hits harder than I do, but I am a better boxer. I'll dance and sting him to death."

All got an echo from his trainer, the veteran Angelo Dundee of Miami, Fla. "I hope to God Foreman fights us like he did Norton," said Dundee. "All will move, stick him and pick him to pieces with straight punches. All will be the new champion."

Foreman, the young man from the Houston ghetto whose childhood thrills came from busting window panes and playing hide-and-seek with the police, was overpowering in his swift victory over Norton.

The first round was rather uneventful, although Foreman pushed forward as the aggressor, looking for an opening, and Norton appeared to be frozen.

"I was tight," said Norton, the 6-foot-3 one-time Marine who at 212½ pounds was 12 pounds lighter than the champion. "My battle plan was to go out and box him. I changed at the last minute."

In the first round, the on-pressing Foreman scored with telling body punches and stunned Norton once with a long right.

The first minute of the second round was furious. Then Foreman went to work like a butcher with a cleaver in both hands. Lashing out with jolting right hands, he slammed Norton into the ropes. A moment later, he sent the challenger sprawling against another side of the ropes and then he moved in for the kill.

A slashing left hook caught Norton on the jaw and Foreman then threw a series of punches ending with a left that spilled the challenger on his back, looking glazedly at the overhead lights.

Norton rose unsteadily as the referee counted. Then it was all over.

LEE BAT GIRLS — These six beauties make watching high school baseball more pleasant at Midland Lee High School. From left, back row: Debra Nipp, Linda Ewa; and Karen Haskell. Front row from left: Jackie Smith, Laura Hughes and Diane Smith. They work all the home games and plan to be on hand in Odessa Tuesday when the Rebels tangle with Permian.

CEPEDA, APARICIO GONE— Bosox Release Two

By HERSHEL NISSENSEN
AP Sports Writer
Luis Aparicio wasn't mad while Orlando Cepeda was stunned, but neither one was a member of the Boston Red Sox today.

The two veterans were unconditionally released by the Red Sox Tuesday. So were their combined \$200,000 salaries. "I'm not mad at anybody," said Aparicio, a nine-time Gold

Glove winner who'll be 40 next month and has played more games—2,599—than any shortstop in major league history.

"This was something that had to come sooner or later. I've been suspecting something would happen."

Cepeda, 36, didn't take his release quite so calmly. In fact, he took a blast at Darrell Johnson, the Red Sox' new manager.

"I'm really shocked and disappointed," he said. "I really didn't expect it because it was only a couple of weeks ago that he Johnson told me I was going to be his designated hitter."

"Somebody told me not to trust Johnson because he was two-faced. I told him I knew he didn't want me right along and he kept saying that was wrong."

Despite gimpy knees that prevented him from playing in the field, Cepeda hit .289 with 20 home runs and 86 runs batted in last year as the Red Sox' designated hitter.

Another famous baseball name was released when the Los Angeles Dodgers dropped outfielder Tommie Agee, 31, a World Series hero in 1969 with the miracle New York Mets.

Juan Beniquez doubled across two tying runs in the ninth inning and then scored the winner on Bob Montgomery's single, lifting Boston to an 8-7 victory over the Kansas City Royals.

Los Angeles pounded Baltimore's Ross Grimsley for six runs in the fourth inning on Jim Wynn's homer, Bill Russell's double and Dave Lopes' double and defeated the Orioles 9-5.

Al Santorini, Aurelio Montegudo and Mike Wallace limited the New York Mets to seven hits in pitching the Philadelphia Phillies to a 4-0 triumph.

Rich Gossage apparently nailed down a spot as the Chicago White Sox' No. 4 starter when he pitched five hitless innings in a 4-0 victory over the St. Louis Cardinals.

Angel Mangual's run-scoring double in the 10th inning enabled the Oakland A's to defeat the Chicago Cubs 8-7.

A two-run homer by Willie McCovey and a solo shot by Leon Lee powered the San Diego Padres to a 4-1 victory over the Milwaukee Brewers.

The Cincinnati Reds got sixth hit pitching from Pat Osburn, Dick Bane and Pedro Borbon and defeated the Minnesota Twins 5-1.

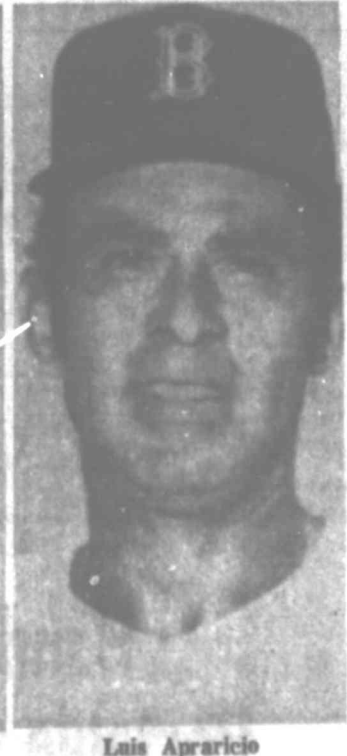

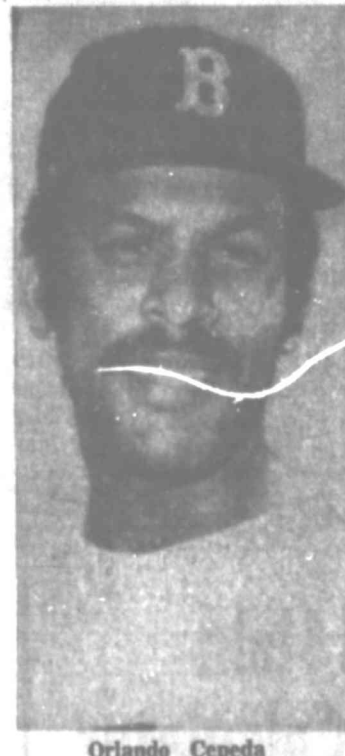

Al Kaline and Ed Brinkman drove in two runs apiece as the Detroit Tigers blanked the Pittsburgh Pirates 5-0 and Tom Griffin allowed four hits in seven innings and pitched the Houston Astros past Montreal 5-1.

Lee Stanton's single drove in the winning run as the California Angels beat the Cleveland Indians 5-4 in 11 innings.

Atlanta's Carl Morton and New York's Pat Dobson each hurled seven scoreless frames as the Braves and Yankees struggled to a 0-0 tie in a game halted after 14 innings.

FINAL CAGE POLL— Wolfpack No. 1 Outfit In Nation

BY THE ASSOCIATED PRESS
North Carolina State, which won the National Collegiate Athletic Association basketball tournament, was officially crowned the No. 1 team in America by The Associated Press today.

Coach Norm Sloan's Wolfpack was the unanimous choice in voting by the nationwide panel of sports writers and broadcasters. N.C. State was named No. 1 on all 47 ballots for 940 points.

Kayode in the tournament's semifinal round by the Wolfpack, defending national champion UCLA took second place on the AP poll with 832 points, easily outdistancing Marquette, which finished No. 3 with 694.

Maryland was fourth with 591 points and Notre Dame finished fifth with 508. Those top five teams retained the same position in the final poll that they had held a week earlier in the midst of the NCAA, National Invitation and Collegiate Commissioner's Tournaments.

Michigan, Kansas and Providence, all knocked off in the NCAA playoff, held the next three spots, Indiana, which won the Commissioner's tourney, used that victory to move up two notches from a tie for 11th place last week to No. 9. Long Beach State completed the Top 10 teams.

Purdue, which captured the

TOPS MHS IN VOLLEYBALL—

Lee Wears Crown

Coach Linda Welkel's Midland Lee girls captured the District 5-4A volleyball title Tuesday night by defeating Midland High, 14-11, 6-15 and 15-13 in the Lee Gymnasium.

"It didn't come easy for us, but the girls came through in the clutch after being down 10-4 in the final match," said an elated Miss Welkel.

Trisha Kubik, Willie Lane and Karen Johnson stood out for the Rebels while Sara Moore played an outstanding game for MHS, probably her best of the season. Teammates Brenda Ray and Sandy Howard also played well as the Bulldogs played much better than in the first meeting between the two Tall City rivals.

While Lee was beating Midland, Snyder gave the Rebs a helping hand by polishing off Big Spring.

Midland's junior varsity took an impressive 13-4, 15-3 win over the Lee JV in the opener.

Lee winds up 8-2 in the final 5-4A standings while Big Spring finishes with a 7-3 mark followed by Midland with a 6-4 record and Snyder, the real spoiler, 5-5.

Officials were to meet sometime today to determine the site of the bi-district playoff which most likely will be played on Tuesday, according to Miss Welkel.

A large crowd was on hand for the championship game. Rounding out the championship team for the Rebels are Anne Higgins, Cindy Hudgens, Janice Goodley, Leslie Frith and Tana Hill. "All eight of those girls contributed to the championship," said Miss Welkel.

MHS' Sara Moore, right
... Trisha Kubik of Lee, left

Andrews Pounds Ector Nine

ANDREWS — The Andrews Mustangs opened the District 2-AAA baseball race here Tuesday with a 13-3 victory over the Odessa Ector Eagles.

Johnny Guelker went the distance for the Mustangs, limiting Ector to only four hits. Morris Roberts' three-run homer and K. B. Benson's double ignited an eight run outburst for the Mustangs in the sixth inning.

Andrews is now 1-0 in district play while the Eagles start off with a 0-1 mark.

In other 2-AAA action, Pecos, behind the superb pitching of Donald Walker, beat Kermit, 2-1, in Pecos while Fort Stockton nipped Monahans, 2-1, in loop play. Brownfield blasted Seminole, 20-3, in a non-district battle.

Score by Innings:
Ector 0 0 0 0 0 0 0 0 0
Andrews 1 2 3 4 5 6 7 8 9
Andrews: Almondo, Alvarez, Lerry, Smith (4), Johnson, Yarnes (4) and Perrin (3).
Ector: Johnny Goodley and Tom Anderson (2) — Anderson, E. B. Benson (2) — Morris Roberts, WF — Guelker (4), LF — Almondo.

NBA Meeting Set For Today

BEVERLY HILLS, Calif. (AP) — A flip of a 1946-vintage half dollar was scheduled today to decide which National Basketball Association team will get the chance to draft UCLA's Bill Walton.

The coin toss follows a meeting of NBA governors who are meeting to discuss adding a 19th franchise to the league for next season, with two groups bidding to put a team in San Diego.

Walton, the Bruins' dominating center, is expected to be the top player sought and the Portland Trail Blazers and Philadelphia 76ers, with the worst records in the league, will decide by the coin flip who will draft first.

Portland has a .526 record in the West and East bottom dweller Philadelphia is .300.

Commissioner Walter Kennedy picked an uncirculated coin from 1946 because that was the year the league was founded.

The NBA board met in Chicago earlier this month and voted to sell a franchise for New Orleans at around \$4.1 million.

Sports Scoreboard

ABA			
East	West	West	W.L. Pct.
Indy	San Diego	Utah	42-27 .607
Kentucky	San Antonio	Indiana	41-27 .603

Memphis	San Antonio	San Antonio	41-27 .603

Midland Tops Giants

Haglund, Tyrone Poke Doubles

By ED PRELL
CASA GRANDE, Ariz. — There were some encouraging performances Tuesday when the group representing the Midland Cubs, whipped the Amarillo Giants, 6-3, in this minor league home of the San Francisco Giants.

The Cubs in fact, were in command from the start, pushing off with a pair of runs in each of the first two innings and adding one in the third to make the final decision a decisive one.

But the pitching wasn't as impressive as the score indicated. Four young men yielded 15 hits and walked six. A 20th Giant reached base on an error, but clutch pitching and sharp fielding reduced the damage. The Cubs pulled off three double plays. Four of the winner's nine hits were for extra bases. Steve Haglund and Wayne Tyrone hit successive doubles for two runs in the opening inning after Greg Collins led off with a walk. Greg is a lanky catcher from Vanderbilt University, who apparently will contest Steve Clancy from the University of Texas, for the top catching job. Tyrone, who hit 276 for Quincy in the Midwest League, is a first base candidate. The 19-year-old Haglund, 6-1, 178, is trying to make it at third base. After starring at Wheatland High School in Resedea, Calif., Steve was signed by the Cubs and batted .208 in 57 trips last season.

for Bradenton in the Gulf Coast Rookie League.

Two youthful outfielders Joe Wallis and Doug Carvalho, also connected for extra bases. Carvalho, playing right, tripled and singled. Wallis, who socked a triple and double in Monday's 5-3 loss to Birmingham, drove in two runs with a double and single. He's stationed in center field.

The Cubs from the top to the bottom of their organization are looking for speed. The dividend paid off in the second inning. Wallis, after hitting a single, stole second and it developed into a double theft when Tyrone sped home from third on the late throw to second.

In today's action, Midland will meet the Key West Conchs of the Florida State Class A League. In recent years the Cubs' Class A Club was based in Quincy. Jack Mull, former Midland catcher and coach, manages Key West.

This Week's Sports Schedule

Today
BASEBALL — Permian JV at Lee JV, 4 p.m.
Friday
BASEBALL — Lee JV at Big Spring JV, 4 p.m.
GOLF — District 5-4A Golf Tournament at Hogan Park

DeBusschere Has Special Night

By THE ASSOCIATED PRESS
Dave DeBusschere was given a night in New York; Oscar Robertson was given a night in Milwaukee, and Rick Barry

gave himself a night in Oakland.

Barry fired in a personal-high and National Basketball Association season-high of 64 points Tuesday night in leading the Golden State Warriors over the Portland Trail Blazers 143-120.

DeBusschere, an eight-time All-Star forward, who is retiring after the season. DeBusschere was honored by fans before the game and responded by keying a third-quarter spurt and the New York Knicks ran off the first 23 points of the fourth quarter, whipping the Philadelphia 76ers 117-90.

Robertson, a 12-time All-Star performer, who indicated this might be his final season, was honored at halftime. Robertson tossed in two long jumpers in the second period to help Milwaukee take charge and the Bucks battered the Kansas City-Oaha Kings 118-98.

Elsewhere in the NBA, the Houston Rockets pounded the Buffalo Braves 119-96; the Chicago Bulls trimmed the Cleveland Cavaliers 104-98; the Seattle SuperSonics downed the Los Angeles Lakers 121-115; the Capital Bullets crushed the Boston Celtics 126-108, and the

Lee Battles Irving Next In Volleyball

The Midland Lee girls volleyball team battles Irving High's Tigers at 4:30 p.m. Tuesday in the state playoff bi-district game in the Abilene Cooper Gymnasium, according to Tugboat Jones, Athletic Director.

Pampa and El Paso High tangle Monday in the Midland Lee Gym in the other bi-district playoff with the winner taking on the Lee-Irving winner in the regional finals later in the week.

BALTIMORE — Son O' Fanc \$4.40, raced past Border Swift in the Restless Cloud Purse Pimlico.

NEW YORK — Midway Mandragal, \$11.20, nosed off Piker Night in the \$20,000 Mab's Purse at Aqueduct.

BLOOMINGTON, Minn. (AP) — Right winger Bill Goldworthy was named the Most Valuable Player by his Minnesota North Star teammates.

Courtroom Flak Flies Around Giant Airport

By JIM BRIGANCE
 DALLAS (AP) — The world's biggest airport finally got off the ground in January only to find itself now in a sky filled with courtroom flak from the airlines.
 Apparently, airport planners never figured their airport jewel out on the horizon would be spurned, as it has, by short-hop intrastate commuters who prefer the old Dallas Love Field located near the downtown district.
 Love Field is on the fringe of downtown Dallas, much easier to reach than the huge, new airport with the bigger airlines for commuter passengers.
 Its decision had a snowball effect.
 Braniff International moved its operations to the new airport but kept a commuter service at Love Field, too. Then Texas International got in line, announcing it would begin commuter service from Love Field in mid-April.
 The situation became even more murky for the new airport when American Airlines refused to move its operations from Love Field, claiming it could not compete at the new payments, a major source of revenue to pay off construction bonds, in an effort to get Dallas and Fort Worth to force Braniff and Texas International back into the fold.
 American followed up with a cross-action when the two cities named it as a party to the cities' suit against Braniff and Texas International.
 Delta Airlines has since filed an intervention suit to force Braniff and Texas International out of Love Field.
 Meanwhile, the 5th U.S. Circuit Court of Appeals in New Orleans is studying appeal of a lower court decision which permits Southwest Airlines to remain at Love Field.
 During the appeals hearing, Fort Worth City Atty. S. G. Johndroe Jr. argued Southwest Airlines sees itself as a giant battling with giants. In reality, he said, the airline is a termite undermining the new airport.
 Earlier this week, the cities withdrew their suit against Braniff and Texas International, citing jurisdiction problems and complications caused by cross-actions and interventions.

"I did not listen to the voice of my teachers or incline my ear to my instructors. I was at the point of utter ruin in the assembled congregation." — Proverbs 5:13, 14.

Time For Action!

The new federal court-post office center is nearing completion, and what an impressive and attractive addition to the central business district of the Tall City.

The paving and landscaping project now is under way, adding materially to the overall appearance of the imposing structures.

It will be time for dedication and open house ceremonies before you know it, marking the realization of a dream come true for Midland residents.

And this brings to mind the urgent need for a general clean-up, fix-up and paint-up project in the immediate vicinity of the new federal center.

It would be a shame to dedicate the new facilities before the surrounding properties are placed in order, in keeping with the "new look" of the downtown area.

Some of the adjacent properties already have been cleared and improved, and this has helped a great deal. It should be a signal for other property owners in the vicinity to follow suit.

Midland County owns some property in the area and it undoubtedly will undergo some beautification work promptly.

It is understood that an organization has been formed by civic-minded citizens to acquire and improve certain properties in the vicinity. This is marvelous, and all Midlanders should be grateful for such cooperation.

This very well could be the signal for an overall program of downtown renewal. Let's get with it, NOW!

New Speed Limit Holds

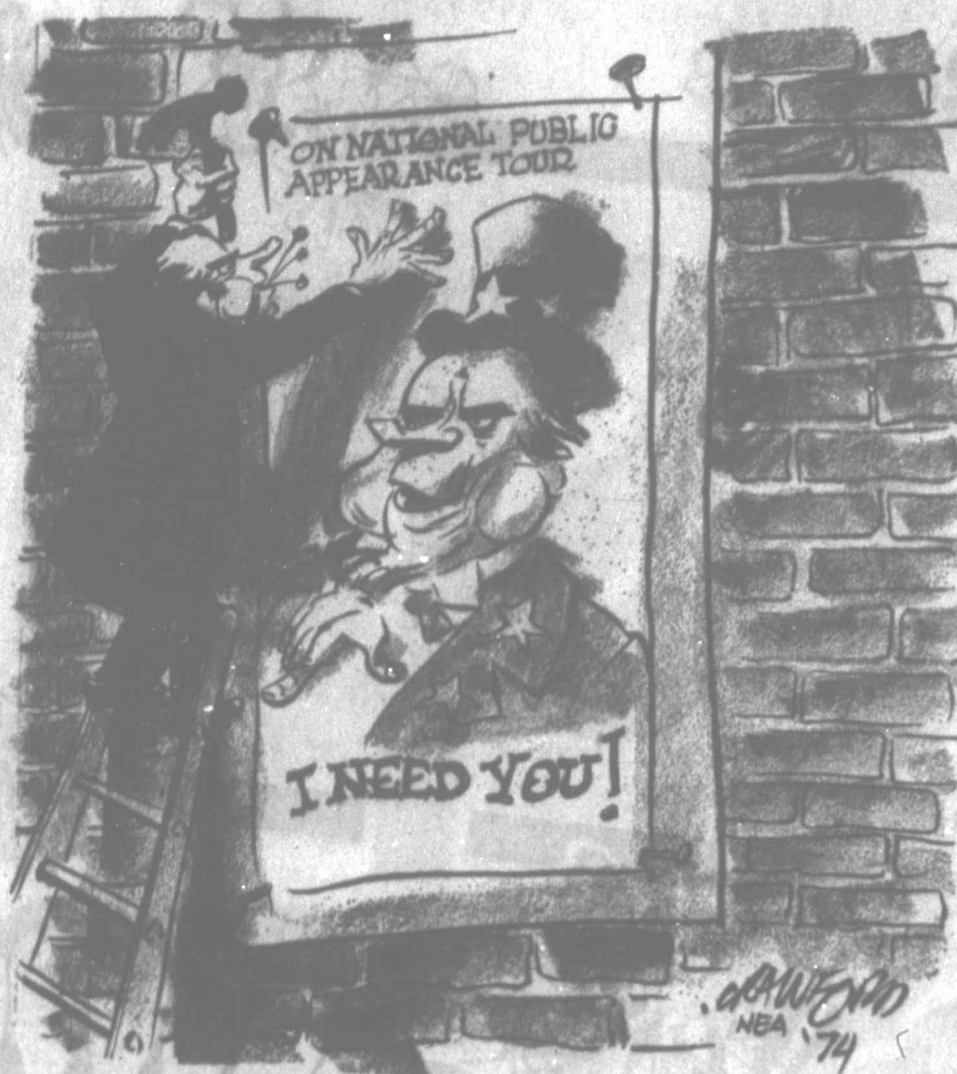

The gasoline shortage seems to have eased somewhat, but the speed limit in Texas still is 55-miles per hour, as some motorists are finding out the hard way.

Col. Wilson Speer of the Texas Department of Public Safety said in a Dallas address Monday that compliance with the new speed limit "has not been as good as we had hoped for."

He went on to say that highway patrolmen last month issued 39,742 speeding citations, 24,630 more than in February 1973. That's a lot of speeding tickets. This represents an increase of — now get this — 61 per cent.

But the good part of it all is that it also was the energy crisis which helped give the Lone Star State the lowest death rate per 100 million vehicle miles in the state's history in 1973. The rate was 4.6.

The energy crisis at least is saving lives. Fatalities in Texas traffic accidents so far this year are down 31 per cent from the same period last year. This is great!

The Washington Merry-Go-Round

Jack Anderson Says: Secret FCC report raps children's tv.

WASHINGTON — An explosive Federal Communications Commission study which would reform the inane world of children's television, has been stuffed in a government safe. Meanwhile, its supporters on the commission have been replaced by bosom pals of big broadcasters.

The report demands an end to hard-sell ads to kids, cutbacks in witless cartoons and more decent children's shows scheduled at appropriate hours. Violators, no matter how powerful, would risk loss of their licenses.

Had the study been accepted by the FCC, it would have cost the broadcast industry tens of millions of dollars a year. The broadcasters would have been compelled to produce more programs for children and to slice their 33 commercials per hour to no more than 18. This is the generous allotment currently allowed to adult shows.

These and other dramatic changes were envisioned by former FCC Chairman Dean Burch.

Outraged at what he had personally seen of children's programming, he set up a special Children's Television Unit in September 1971. At its head was tough-minded Dr. Elizabeth Roberts, an ex-coordinator of the White House Conference on Children and Youth. For months, the Roberts team studied the puerile world of children's tv.

Four months ago, she delivered the stinging document to Burch, who forthwith locked it up in his office. Since then, Burch has moved to the White House and his two staunchest allies in the matter, Commissioners Nick Johnson and Rex Lee, have left the FCC.

We now have obtained a bootleg copy of the suppressed document from under the nose of the new chairman, Richard Wiley. As general counsel and commissioner, Wiley, according to FCC sources, was kinder to network treasurers than to children's welfare. The report's recommendations, therefore, are now in jeopardy.

The 45-page document condemns out of hand the "noise, violence, or frantic activity" that broadcasters use to keep children mesmerized before tv sets.

Years ago, says the report, the networks aired imaginative, decent children's programs on weekdays. But now, cheap cartoons and other movies keep the broadcast coffers full while good shows have dwindled to extinction "with the notable exception of Captain Kangaroo."

The FCC study is even tougher on advertising. Children are "inundated with numerous commercial messages that may be misleading or false to the literal and immature mind of a child."

The broadcasters "manipulate his needs" in a manner "destructive to the child's development." Observes the report acidly: "Common sense tells us that commercials presented to sell products to three-, four- and five-year-olds are improper under any civilized public interest standard."

The Roberts report asks for an end to all advertising on shows for pre-school children, saying it is "inherently deceptive." The study would also ban mention of advertised products by "hosts" on children's pro-

grams. Kids tend to build a "special relationship" with their hosts, some of whom seem only intent on gulling them.

Finally, the study drastically would cut back advertising on kid's shows from the present 16 minutes per hour to a still generous nine minutes and thirty seconds, the current voluntary maximum for adult shows.

At the FCC, Chairman Wiley gave us a ringing declaration of independence from the past. He insisted that children's programming was "on the front burner" with him and pointed out that he had only been chairman with power to change things for 16 days.

At the White House, a spokesman for Dean Burch said the ex-FCC chairman planned to keep an eye on progress. He insisted there was no intentional stalling on the report, saying it took time to consolidate several studies on the subject.

FORGOTTEN MEMORIAL: Eisenhower College was founded with high hopes and ambitions eight years ago in honor of the 33rd President and World War II leader. Its students and faculty were well above the national average and growing rapidly when disaster struck in 1972.

JACOBY ON BRIDGE

By OSWALD AND JAMES JACOBY

Here is another hand from the Culbertson-Sims match of 1955. The bidding in the box is how the hand might be bid.

Bridge bidding table showing North-South and East-West bids for a hand with a diamond suit and a spade suit.

CARD Sense

The bidding has been: West North East South Pass 14 Pass 7 You South, hold: 108854 VA K Q 9 8 7 6 5 4 3 2 A — What do you do now? A — Bid one spade. This shows a very good hand and you have one.

BRUCE BLOSSAT Japanese People Learn To 'Roll With Punches'

TOKYO (NEA) — No matter how much the oil flow to Japan moves back toward 1973 levels or higher, its higher cost — still tantalizingly uncertain — lays upon the country the stiffest challenge since it rose from the ashes of World War II.

The Japanese I've talked to here so far think they can meet the test, even if it calls for major shifts away from heavy electric power users like the aluminum and steel industries. The aluminum process particularly demands extraordinary amounts of electricity in its refining stage.

Japanese government officials and top businessmen recognize that such shifts mean serious dislocations, development of new industries to absorb displaced workers, ingenuity in devising newly salable products for both domestic and foreign consumption. Yet, as I indicated in my opening report, confidence runs strong and gloom is a scarce commodity.

This can be said fairly even though inflation generally is still rampant, there has been some modest slowdown in business, the projected "optimistic" growth rate for the nation is only about one-third of the old "miracle pace" of 10 per cent per year, and polls show that nearly two-thirds of the Japanese people see no improvement in their lives in recent years and 12 per cent think they are worse off.

Why, then, is there such faith the heavy new challenge can be met?

Charming, thoughtful Muzo Kuroda, director-general of the Foreign Ministry's Public Information Bureau, supplies one key. Success encourages success. At many levels, the Japanese are at once astounded and proud of their incredible rebound from the war — and most especially their leap forward to high world rank in the handling pace from 1967 forward.

The Japanese, widely literate and well-educated, are great learners — flexible, open-minded to the achievements of others, alert to opportunity. Their great lesson came in the period of American military occupation after the war. They watched keenly the evidence of advanced American skills in management, organization, use of technology.

They followed the U.S. model when it was perhaps most exemplary. It had been honed to fine sharpness by war's demands, although not without hobbling confusion along the way. Today the evidence is that U.S. management has slipped, that it is less imaginative, less sensible in the use of capital resources to improve both its products and its productivity, complacently bound in old ways of doing and thinking.

Japan did more than just observe and learn from the U.S. model seen here in occupation days. It embarked upon a sweeping program under which it swiftly acquired, through countless licensing arrangements, huge elements of the U.S. technology. In this bold stroke, it vastly outdid recovering Western Europe, except West Germany, which itself was well advanced. Meantime, our old allies, Britain and France, stayed mired in old ways, as did our weakest ex-enemy, Italy.

Before the war, the Japanese were widely thought of mainly as copiers from the West, the people who could not invent or innovate on their own. The postwar licensing of U.S. technology and the observing of the occupation model seemed to suggest the same. But the impression is wrong and is being proved so.

Historians find deep in Japan's past that what Japan takes from others it quickly imprints with its own special stamp — whether technical, cultural, or religious.

It cannot be forgotten that in 1974 it has the only important functioning democracy in Asia, that it is Asia's only truly modern, powerful industrial state, that it has achieved third rank world economic status in a land almost totally devoid of material resources and it is smaller than California.

What it offers up, then, are human resources, incredibly marshaled in common productive and trading endeavors, bent today upon beating Japan's Pakistan Polo Rough. The game of polo as played in Pakistan is rough. The field is a long, narrow one and the ball may be caught in flight and carried by hand. Opponents try to knock the players from their horses or in any way force them to drop the ball.

Dear Editor: I see where numerous congressmen recently have been screaming about "windfall profits" allegedly being made by people in the oil business.

My figuring neighbor says many people are getting more for their work and services these days, especially now that money tends to buy less.

But he figures something had ought to be done, also, about congressmen-type people, who now get 425 per cent more base pay than they once did, which puts them away out ahead of the oil price increasers in the profiteering league.

D. E. SCOTT Crossroads, U.S.A.

DON OAKLEY No Two Voiceprints Are Alike, Consultant Says

NEW YORK (NEA) — For a family in Connecticut was proved innocent when his voiceprint was compared with those made from tape recordings of the calls.

Voiceprint identification was used to substantiate the claim of the Israeli government that it had intercepted a radiotelephone conversation between President Nasser of Egypt and King Hussein of Jordan during the 1967 Six Day War, in which Nasser asked Hussein to back his claim that U.S. and British planes had assisted the Israelis.

Voiceprinting also has been used in reconstructing unintelligible messages, says Kersta, including several from aircraft in distress.

In one case, the crash of a flight between Las Vegas and San Francisco, the deciphered message revealed that the pilot and copilot had been shot. Subsequent investigation supported the message when a gun was found in the wreckage and traced to a passenger who had lost heavily at the gambling tables and had taken out a large flight insurance policy.

More recently, voiceprints played a prominent role in Howard Hughes' refutation of Clifford Irving's purported "autobiography" of Hughes.

Voiceprinting may have applications in other areas besides criminal investigation. Research indicates it can be used in diagnosing body sounds, such as heart rhythms, and in treating speech defects.

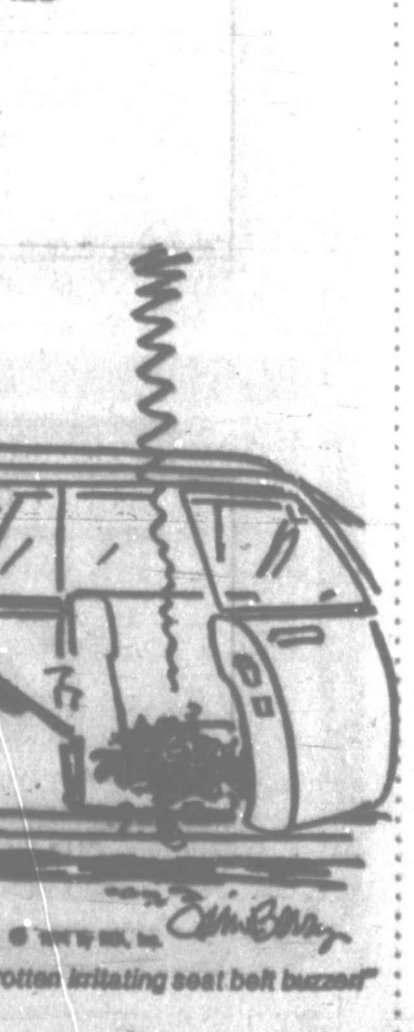

Kersta is now a special consultant with Base Ten Systems, Inc., of Trenton, N.J., which expects to market about 100 voiceprint machines in 1974 and reach annual sales of 500 within a few years.

NEW YORK (AP) — It was the first time in a century that a former lawyer for former Commerce Secretary H. Stans have had White House tapes transcriptions with the President.

Transcripts from tapes were used in court-examination ousted White House John W. Dean, a strategy trial Stans. So was a summary of a trial.

Dean was scheduled to appear today.

Mitchell and Stans were accused of impeding a fraud investigation and a bribery trial against financial Vesco. In return for \$200,000 cash for President Nixon's 1972 campaign.

At one point Tu testified that he had seen President Nixon a year from Mitchell by Mitchell's successor, Gen. Richard G. Cheney, against the federal trial that eventually indicted defendants.

The testimony was given in a White House trial.

President's Tapes Used In Mitchell Stans Trial

NEW YORK (AP) — For the first time in a criminal trial, lawyers for former Atty. Gen. John N. Mitchell and one-time Commerce secretary Maurice H. Stans have had recourse to White House tapes of conversations with the President.

Transcripts from two of the tapes were used in a searching cross-examination Tuesday of ousted White House counsel John W. Dean III at the conspiracy trial of Mitchell and Stans. So was a White House summary of a third tape.

Dean was scheduled to testify again today. Mitchell and Stans are accused of impeding a massive fraud investigation by the Securities and Exchange Commission against financier Robert L. Vesco, in return for his secret \$200,000 cash contribution to President Nixon's 1972 re-election campaign.

At one point Tuesday, Dean testified that he concealed from President Nixon a request last year from Mitchell for "action" by Mitchell's successor, Atty. Gen. Richard G. Kleindienst, against the federal grand jury that eventually indicted the two defendants.

The testimony was based on a White House tape, as was the testimony of Mitchell and Stans. The tapes were used in a searching cross-examination Tuesday of ousted White House counsel John W. Dean III at the conspiracy trial of Mitchell and Stans.

subsequent testimony relating to Stans. The government charges that Stans tried to conceal Vesco's contribution by failing to report it under a new law that became effective April 7, 1972, three days before the money changed hands.

Stans then was chairman of the Finance Committee to Re-Elect the President. It is his claim that he acted in accord with legal advice that Vesco's pledge of the money before the reporting deadline made the concealment legal.

Referring to a White House conversation of Feb. 28, 1973, Dean was asked on cross examination: "On that date, didn't you inform the President of the United States, 'I think we have a good strong case that the donor of the money, Robert Vesco, had relinquished control of the money and constructive possession of the money was in the hands of the finance committee'?"

"Yes, I did," Dean replied. "But the government later asked: 'Wasn't the basis of your statement to the President at that time what Mr. Stans told you?'"

"That is correct," replied Dean. Also at issue in the trial is whether Stans demanded that the \$200,000 be in cash, so it could be traced less easily. One count of perjury against him is based on Stans' testimony before the grand jury that he never made such a demand.

President Nixon's brother, Edward, was described in prosecution testimony as a go-between in trying to pin down whether Stans wanted cash or checks.

Dean was asked under cross examination, "Didn't you inform the President that the long and short of it was that Vesco was after the President's brother to find out from Mr. Stans whether he wanted the contribution in cash or checks and Edward Nixon said Mr. Stans replied: 'I really don't care whether it is in cash or checks?'"

"Yes, sir," replied Dean. Park Center Y Available To Rent An arrangement for public rentals of Park Center YMCA has been announced by the Y's board of managers.

The Park Center facility at 1500 Orchard Lane includes a regulation size gymnasium and two meeting rooms. The gymnasium is open for rentals every Saturday after 3 p.m. and all day Sunday. Meeting rooms may be available during the week by special arrangement.

Rates vary as to commercial groups, churches and other non-profit organizations, and individuals. For further information, telephone the Park Center YMCA at 682-0533.

Israeli, Syrian Tanks Duel For 16th Day BY THE ASSOCIATED PRESS Israeli and Syrian tank guns and artillery duelled today along the Golan Heights for the 16th straight day.

The Israeli command said two of its soldiers were wounded. There was no early casualty report from Damascus.

Israel claimed the Syrians opened fire on Israeli positions in the southern sector of the plateau and said Syrian shells damaged a United Nations observation post and set fire to a U.N. vehicle.

Israeli correspondents said settlers in 17 villages scurried for shelter in underground bunkers.

Damascus Radio said the Israeli forces opened fire in the central sector of the 40-mile front, and fighting quickly spread to the northern sector — the 300-square-mile bulge that Israel captured in the October war.

"Our artillery is dealing severe blows to enemy positions," the Syrian command said. "Our tanks also are engaged with the enemy and are inflicting increasing losses on him."

In fighting Tuesday on the Heights, Syria accused Israel of shelling a village and killing two soldiers, two adult civilians and two children.

Israel said the Syrian fire wounded an Israeli soldier and killed an Arab civilian at the village of Hafra, in the northern part of the Heights.

Israeli newspapers reported today that Israel in the disengagement negotiations in Washington with Syria will offer to withdraw from all but a three-mile strip of the Syrian territory it took last October.

The Israelis will also propose that U.N. soldiers man a six-mile-wide buffer zone separating the two armies.

Israel will demand the exchange of all prisoners of war before any troop withdrawal, the reports added. Israel says it holds 402 Arabs captured on the Syrian front, while the Syrians say they have 65 Israeli captives.

Syrian Vice President Abdul Halim Khaddam, however, told the Arab League meeting in Tunis Tuesday that the disengagement agreement must provide for the return of the town of Kuneitra, which Israel captured in the 1967 war.

both teacher groups accepted it and ended the strike. The strike began March 8 when AFT members walked off their jobs in the midst of a crippling city employees strike. The CTA joined the strike Monday.

A slight gain was reported Tuesday in teacher and pupil attendance, with 57 per cent of all teachers in their classrooms, compared with 50.8 per cent Monday. About one-third of the city's 78,000 pupils came to school Tuesday, compared to 22 per cent Monday.

Vote Set In School Strike SAN FRANCISCO (AP) — Striking teachers were scheduled to vote today on a proposed settlement of their 20-day walkout, and their leaders were divided on whether to accept the offer.

The executive board of the AFL-CIO American Federation of Teachers recommended Tuesday night that its 2,600 members reject the latest proposal and remain on strike.

However, the executive board of the 2,400-member Classroom Teachers Association liked the proposal and urged its members to accept. CTA leaders instructed members to return to their classrooms this morning, pending a ratification vote after school.

Although details of the proposal were not made public, the offer was believed to be a compromise plan drafted by John Crowley, San Francisco Labor Council secretary. That plan, under discussion since last Saturday, offered a \$1,000-a-year raise for all teachers. Salaries for teachers with bachelor's degrees now range from \$8,265 to \$14,180 annually.

Lucy Cannarozzi, the school board's chief negotiator, said she would recommend the package to the board only if Publisher Dies JOHNSTOWN, Pa. (AP) — Walter W. Krebs, 80, president of the Johnstown Tribune Publishing Co., died Tuesday in Naples, Fla. Krebs became publisher, editor and president of the Johnstown Tribune-Democrat in 1967 and was president of the company until his death. He retired as publisher in 1963 and as editor in 1973.

Market Continues Aimless Wandering; Prices Decline

NEW YORK (AP) — Stock prices edged lower today as the market continued the aimless wandering it began last week.

The noon Dow Jones average of 30 industrials was off 54 at 833.14, and losers outpaced gainers by close to 3-to-2 in light trading on the New York Stock Exchange.

Analysts said the market appeared unable to find any cause for either enthusiasm or anxiety. Many investors seemed simply to be waiting to see whether interest rates would continue their recent upswing, or if the downturn in money rates earlier in the year would reassert itself.

Pittston Co., up 1/4 at 33 1/2, was the Big Board volume leader. Analysts said the company appeared to be attracting buyers because of its coal interests.

On the American Stock Exchange, the market-value index was up .04 at 98.30.

Other Big Board issues on the active list included Chase Manhattan, down 1/4 at 51. On Tuesday the bank holding company forecast "only a modest gain in first-quarter earnings."

Sony, buoyed by a gain in quarterly earnings, was up 1/2 to 28 1/2 in active trading.

Simplex Wire & Cable was up 3/4 at 22 1/2, at the top of the Amex' most-active list. Tyco Laboratories said Tuesday it planned to acquire Simplex for cash, paying \$24.25 a share.

Tyco traded today at 11 1/2, up 1/2 on the NYSE.

Woolworth, which reported higher earnings for the year ended Jan. 31, gained a point to 18 1/2.

The NYSE's noon composite index of all its listed common stocks was down .17 at 82.13.

Permian Basin Dry Holes

ANDREWS — Barnes Exploration Co. No. 1 Phillips, et al., in the B.F.M. (Ellenburger) field, 1,800 feet from south and 600 feet from east lines of section 22, block A-48, PSL survey, 20 miles west of Andrews, td 9,850 feet.

Permian Basin OIL & GAS LOG

Continued From Page 1A) Drillsite is 900 feet from north and 500 feet from west lines of section 11-248-230, 4 1/2 miles southwest of the depleted Bandana Point (Pennsylvanian) gas field and 10 miles northwest of the Washington Ranch field.

Bone Springs Try

Penroc Oil Corp. of Midland has scheduled a 5,600-foot Bone Springs wildcat, No. 1 Fassen-State, 3/4 mile southeast of the firm's No. 1 Allied-Communitized, a deep prospect, which indicated production in the Bone Springs.

Drillsite is 600 feet from north and west lines of section 26-202-270, 10 miles north of Carlsbad.

The No. 1 Allied Flowed gas rated at 214,000 cubic feet daily, on a drillsite test in the Bone Springs from 4,450-4,735 feet.

It is in section 27-205-270.

EDDY — Cities Service Oil

Co. No. 1-A South Caverns Unit, in the Washington Ranch (Morrow) field, 1,900 feet from south and west lines of section 21-252-240, five miles southwest of White City, 7,200.

Stepout Planned In King Sector

Taubert, Steed, Gunn & Medders, Wichita Falls, has staked site for No. 8-C S. B. Burnett as a 3/4-mile stepout to Strawn production in the Big N (Tannehill and Strawn) field of King County, 12 miles southeast of Guthrie.

Location for the test, slated to 5,400 feet, is 1,900 feet from north and 600 feet from west lines of section 10, block F, H&TC survey.

GLASSCOCK — Jack N. Blair

and Tom Metcalfe No. 1 McDowell, wildcat, 467 feet from north and west lines of section 30, block 33, T-3-S, T&P survey, 12 miles north of Garden City, td 8,400 feet.

Eddy Field Gets Wolfcamp Opener

Midwest Oil Corp. of Midland has completed No. 4 South Empire Deep Unit to open Wolfcamp oil production, 1 1/2 mile northeast of the three-well Empire, South (multiphase Morrow) gas field of Eddy County, N.M.

Woolworth, which reported

higher earnings for the year ended Jan. 31, gained a point to 18 1/2.

6,700-Foot Test Set In Stonewall

O. P. Leonard of Abilene stated No. 1 Mullis, a 6,700-foot exploratory test in Stonewall County, one mile northeast of Swenson.

Drillsite is 1,900 feet from south and 600 feet from west lines of section 173, block D, H&TC survey, 3/4 mile southeast of a 6,450-foot failure.

CITGO Slates Eddy Pool Test

Cities Service Oil Co. plans No. 1-A Elizondo-Federal as a 1/2-mile north stepout to the three-well La Huerta (Morrow) field of Eddy County, N.M.

Queen Gas Tests Slated In Chaves

Two Queen projects have been planned in Chaves County, N.M., about 10 miles northwest of Maljamar.

McClellan Oil Corp., Roswell, staked a 2,200-foot cable tool Queen wildcat No. 2 Hope-Federal one mile southwest of a Queen gas producer in the Southeast Chaves Queen Gas Area.

Pay Is Re-Opened In Fisher Sector

Mercury & Texland Petroleum Inc. of Fort Worth has re-completed No. 2 Bert Rushing to re-open Canyon reef oil production in the Paul Hunter field of Fisher County, about 10 miles southeast of Rotan.

Iron, Coke Draw Sites For Probes

Operators have made plans to drill wildcats in Iron and Amoco counties.

Amoco Production Co. plans No. 1 H. R. Wardlaw III as a 7,800-foot venture in northeast Iron, 21 miles northeast of Merton.

Delaware Ventures Planned For Eddy

Coquina Oil Corp., Midland, plans two Delaware tests in Eddy County, N.M., about 10 miles southwest of Carlsbad townsite.

Deep Probes Set In Eddy Sectors

Three deep prospectors have been scheduled in Eddy County, N.M.

Coquina Oil Corp. of Midland has staked No. 1 Flag-State, an 11,600-foot wildcat, three miles northeast of Morrow gas production in the Burton, North field, and separated by a failure.

Police Search Without Warrant Divides High Court

THE MIDLAND REPORTER-TELEGRAM, WED., MARCH 27, 1974-1D

WASHINGTON (AP) — In split, decided such a case Tuesday. It was the latest in a series of searches conducted without a warrant, members of the Supreme Court could not disagree more—with each other.

Justice Byron R. White, writing for the majority, said the question was whether to "extend" the Fourth Amendment's requirement for a search warrant.

Justice Potter Stewart said the question was whether "the Fourth Amendment is to be ignored."

Town Hopes To Have A Few More Surprises For Winged Intruders

GRACEHAM, Md. (AP) — Officials have decided to give the remaining birds of Graceham a night off from their sound and light shows, but hope to have a few more surprises for the grackles, starlings and assorted other black birds.

They called off tonight's attempt to get rid of the winged intruders after assistance from the Army failed Tuesday night to discourage the birds from settling into the 60-acre pine grove which many of them have called home since last year. Officials now hope to rout the birds by thinning the grove.

The Army sent ultraviolet floodlights and infrared detection equipment from its Night Visitation Laboratory at Ft. Belvoir, Va. The lights were designed for helicopter use and were not readily adaptable to the terrain surrounding the grove.

It was hoped the light would cause the birds to think it was day and fly off for another day of foraging over Western Maryland.

Rating the equipment less useful than hoped, officials called a halt to the first phase of "Operation Sanity," as Dr. Kenneth Crawford, chief state veterinarian, has dubbed the campaign.

The first phase featured air blasts of special shotgun shells, fireworks, propane gas explosions, sound trucks playing bird distress calls and ultrasonic noises designed to disrupt the birds' communication system.

Speaking for the dissenters, Justice Potter Stewart said the question was whether "the Fourth Amendment is to be ignored."

The case involved an instance in which police held a suspect 10 hours and then took his clothing for inspection. They found paint chips that linked the suspect to a burglary.

The U.S. Circuit Court in Cincinnati said police should have gotten a search warrant.

The high court majority said no.

Police were entitled to search

the suspect at the time of arrest, White said.

The 10-hour delay was caused by a wait for replacement clothing.

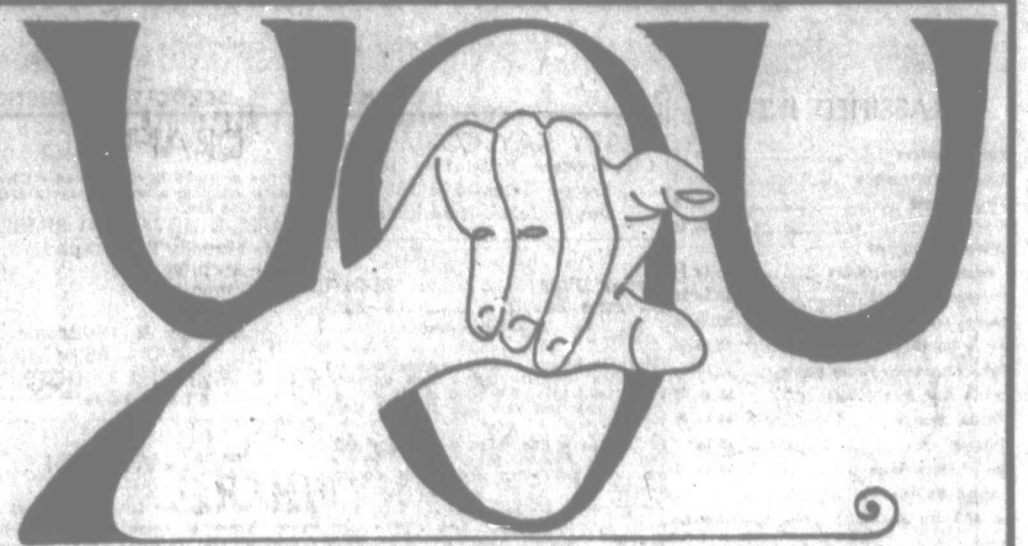

"The police did no more than they were entitled to do incident to the usual custodial arrest and incarceration," White said.

The "custodial arrest" was a key factor.

Earlier this term, with Stewart in the six-member majority, the court gave blanket approval to all searches conducted at the time of a lawful arrest when persons are being placed in custody.

While acknowledging the authority of the earlier decision, Stewart Tuesday saw the ma-

Nixon's Order Model For Tax Return Snooping, Panel Says

WASHINGTON (AP) — President Nixon's order giving the Agriculture Department access to tax files on farmers was a model for snooping into tax returns throughout the government, according to a congressional committee.

The order, issued in January 1973, was revoked last week. It permitted the department to inspect more than three million federal income tax returns of farmers to compile mailing lists for statistical surveys.

According to the House foreign operations and government information subcommittee, which held hearings last summer on the plan, "the first executive order had been drawn up as a model for future executive orders opening tax returns for similar statistical uses by other federal agencies."

The panel said in its report that the Justice Department, confining this, wrote: "The original order was prepared by the Department of the Treasury in language designed to serve as a prototype for future tax return inspection orders."

Rep. Bill Alexander, D-Ark., a member of the parent committee on Government Operations, asked rhetorically in a separate report whether the first order would allow the Department of Commerce to inspect businessmen's tax returns.

"Is this evidence of a master plan of the federal government to oversee the private affairs of every group of citizens?" he asked. "We were shocked at

what we eventually uncovered. A committee hearing confirmed our worst fears."

"I for one am not going to stand idly by while the first waves from 1984 wash over me," he said.

The 1973 order was announced in a notice in the Federal Register but was not published by the Agriculture Department. Critics on Capitol Hill voiced fears that the government would not restrict itself to information for statistical surveys.

Dr. Don Paarlberg, the Agriculture Department's director of economics, told the committee that the IRS and his department were ready to design safeguards to prevent the abuse of the information.

But one observer said, "you wonder why this wasn't publicized from the beginning, especially if it was for the glorious purpose they said it was for."

Although the order was revoked last week, Rep. Abraham Kazen Jr., D-Tex., introduced a bill Monday amending the Internal Revenue Code to restrict the authority for inspection of tax returns and the disclosure of information in the returns.

Libyan Oil Leakage Helped U.S. Survive Ban, Official Says

DALLAS (AP) — A government official says oil "leakage" from Libya enabled this country to survive the Arab oil embargo without serious damage, the Dallas News reported today.

The newspaper, in a copyrighted story, quotes Duke Ligon, assistant administrator of the Federal Energy Office, as relating in an interview here that the leakage was discovered when the FEO tried to trace oil coming out of all Arab nations during the October to March embargo.

These details were given by the News: Ligon said that even during the embargo the United States could not and did not get along

Amtrak Still Plans To Increase Fares

WASHINGTON (AP) — Amtrak is going ahead with plans to raise rail passenger fares by 20 per cent for trips west of Chicago during the summer months.

Amtrak Vice President Edwin Edel said Tuesday the increase is to take effect June 9 but fares will be reduced again in September.

Fire Extinguished

THE EVERGLADES, Fla. (AP) — Forestry Service firefighters relaxed for the first time in weeks today after extinguishing the last of a rash of arson-set Everglades fires.

Garrison Acquitted Of Evading Taxes

NEW ORLEANS, La. (AP) — New Orleans Dist. Atty. Jim Garrison was found innocent of an income tax evasion charge that he failed to report \$60,000 in income for 1965-67.

Garrison was acquitted Tuesday. The government had alleged that part of the \$60,000 came from bribes. He had earlier been acquitted of bribery charges.

Garrison leaves office in four days, having been defeated for re-election last December.

Nine Astronauts Honored

CHICAGO (AP) — The nine Skylab astronauts and their wives were made honorary citizens of Chicago after a parade

before a cheering crowd of 150,000 along State Street.

"This is a day we are privileged to show our admiration and affection for nine gallant men and their equally gallant wives," Mayor Richard J. Daley said Tuesday as he presented the medals of citizenship in noon ceremonies at the Civic Center.

"We in the Chicago area are greatly honored because this is the first time that all nine Skylab astronauts and their wives have visited any city together."

The men later spoke to high school pupils and met with Chicago area scientists at the Museum of Science and Industry.

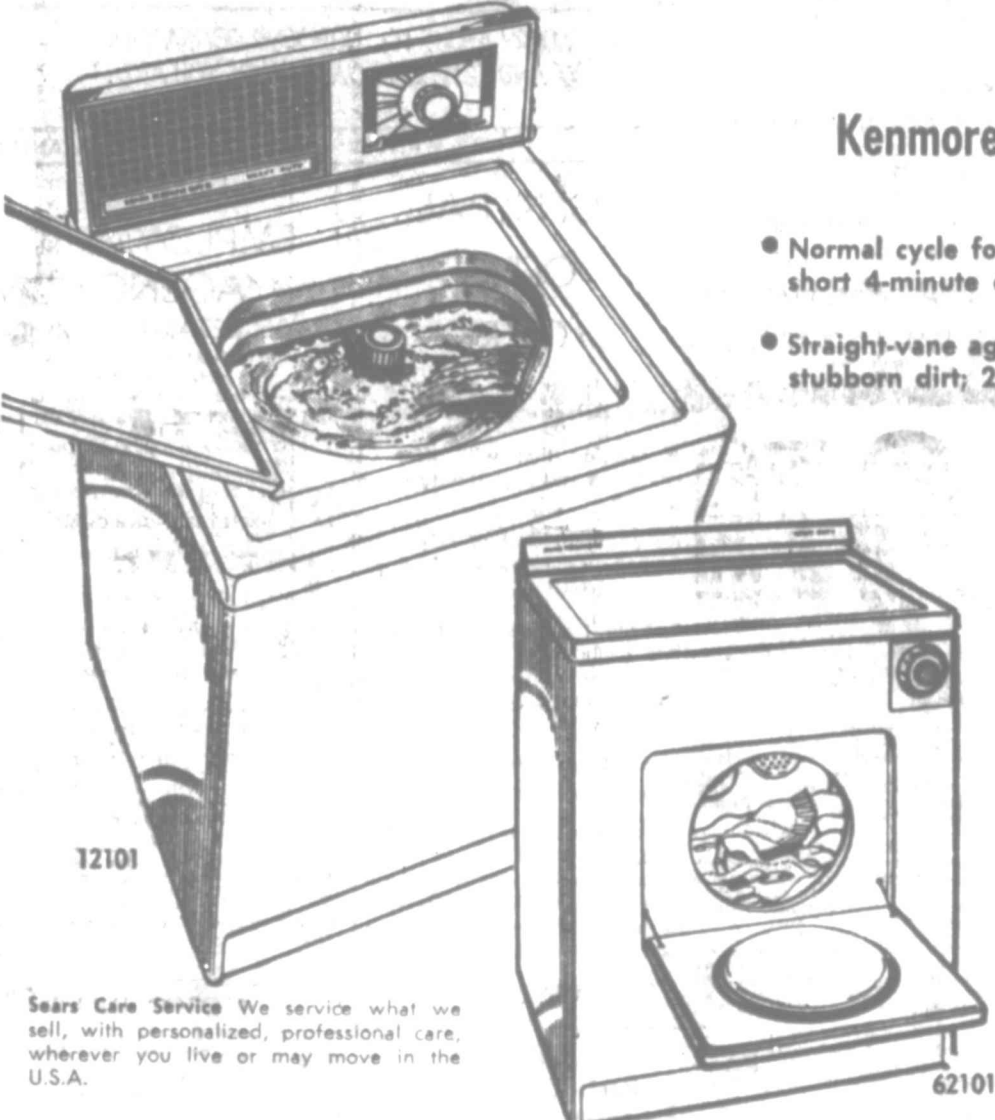

The visitors were Charles Conrad, Dr. Joseph Kerwin and Paul Weitz, the Skylab 1 crew which spent 28 days in space; Alan Bean, Dr. Owen Garriott and Jack Lousma, of Skylab 2 which was in orbit 59 days, and Gerald Carr, Dr. Edward Gibson and William Pogue, the Skylab 3 crew which spent 84 days in space.

Candidates Speak At NAR Meeting

Candidates for the commissioners court and city council addressed a Tuesday luncheon meeting in the Bonanza Strain Pit of the Midland Chapter of the Women's Council of the National Association of Realtors.

Candidates speaking were Warren L. Faller, Place 5 city council; Ciro Sanchez, Pct. 2 commissioners court, and Preston Bridgewater Jr., Pct. 4 commissioners court.

Crashed Jet Left Factory Without Key Modification

WASHINGTON (AP) — A Senate subcommittee investigating the world's worst airline crash is turning to the question of how the DC10 jumbo jet left the factory without a key modification to a cargo door.

The panel heard testimony Tuesday that an investigation of the crash, which killed 346 people, showed that the aircraft apparently lacked a small plate on the door-latching system that had been recommended by federal officials in mid-1972 after a DC10 was involved in a near accident.

The crash of the Turkish airline jumbo jet near Paris earlier this month came after the rear cargo door apparently blew off, causing explosive depressurization of the craft, buckling the floor of the cabin and damaging controls to the rudder, federal safety officials testified before the panel.

Former Federal Aviation Administrator John Shaffer said the door latch was the apparent cause of the crash.

Shaffer heatedly challenged testimony that he in effect vetoed a recommendation calling for a mandatory order directing corrections in the latching system.

The official, Arvin Basnight, testified that he proposed a mandatory order only to find his recommendation rebuffed. The recommendation was made after a similar incident at Detroit in mid-1972, causing a forced landing.

Shaffer told reporters he ordered a service bulletin sent to all airlines telling them how to make necessary design changes. Although this order is voluntary, Shaffer said that under the circumstances it was just as strong as an airworthiness directive, which would have grounded all DC10s until the recommended changes were made.

But that didn't matter, he said, because the DC10 involved in the Paris crash was still on the production line at the time

and it was up to the manufacturer, McDonnell-Douglas, to make the modification.

"The real question is how the plane got away from the factory," Shaffer said.

The transportation safety board, through aviation director C. O. Miller, testified that the board's investigation of the crash indicated that only two of three recommended changes had been made. One was installation of the small plate designed to make the door more difficult to close, thus preventing it from being shut without being it properly locked.

"You better go straight home, Davy Bigger! Your folks tore the trash compactor apart looking for you!"

Woman Occupies Tree To Save It

BRANFORD, Conn. (AP) — A woman who spent two days sitting in an old copper beech tree to save it from chain saws says a broken promise is behind her protest.

Penny Stebbins said the former owner of the land verbally promised her family first option to buy the property around the tree but then sold it to another buyer who plans to take the tree down and build a home.

"The slipping of morality today gives you kind of a fuzzy feeling. I believe promises are to be kept," said Mrs. Stebbins.

After climbing down from the tree Tuesday night, Mrs. Stebbins said she had not talked with the owners since Sunday and no efforts had been made to settle the issue.

She said, however, she would keep up her vigil and was prepared to climb back up if any attempt was made to destroy the tree.

Junked Vehicle Auction Thursday
The city is offering about 45 abandoned and junked vehicles for sale at public auction, beginning at 2 p.m. Thursday at the city pound, 1601 Orchard Lane.

Included are two pickup trucks, several station wagons. Sgt. Dale Carleton said some of the vehicles "seem to be in pretty good condition."

The pound will be opened at 1 p.m. so bidders may inspect the vehicles before the auction begins.

The police department, which runs the auction, accepts cash sales only and it is the purchaser's responsibility to move his vehicle within two weeks of the sale.

There are two or three of these sales held each year. This is the first for 1974.

Graphologist Talks To Evening Lions
Dolores Gaines, a certified graphologist, was the speaker Tuesday at the meeting of the Midland Evening Lions Club at the Regal 6 Motor Inn.

"Handwriting Analysis" was the subject of the speaker, who is an employee relations representative of Texaco Inc.

The program was arranged and introduced by Leon Ralph Nelson, program chairman.

Star-Telegram To Drop Sunday Home Delivery
Delivery of the Sunday Fort Worth Star-Telegram will be discontinued here after next Sunday, Pete Buntin, agent, announced today.

Home delivery of the daily Star-Telegram was discontinued several weeks ago.

Adobe Starts Louisiana Sales
Adobe Oil & Gas Corp. of Midland announces that its 1972 drilling program has agreed to sell gas from its Terrebonne Parish, La. discovery well for \$1.05 per thousand cubic feet of gas, with an escalation over five years to \$1.30 per thousand cubic feet. The gas will be contracted to Louisiana Intrastate Gas Corp. A second well is now drilling below 9,300 feet.

The discovery well was dually completed in January 1973. It flowed 4.6 million cubic feet of gas and 50 barrels of condensate per day from a Miocene sand at 12,400 feet. It flowed 396 barrels of condensate and 1,075 million cubic feet of gas per day from another Miocene formation at 13,700 feet.

The Adobe 1973 drilling program has a 20 per cent working interest in the first well until its costs are recovered. It then has a 10 per cent interest in the well and the remainder of the 4,600-acre block. Adobe Oil & Gas Corp. will own 50 per cent of the program's interest and the limited partners will own the remaining 50 per cent.

Atchison Rites Slated Saturday

Services for Henry Lee Atchison Jr., 21, of Midland, who died of injuries suffered in an oil field accident Monday, will be at 2 p.m. Saturday in the New Jerusalem Baptist Church, with the Rev. John Campbell, pastor, officiating.

Interment will be in Fairview Cemetery under direction of the Thomas Funeral Home.

A resident of Midland 10 years, Atchison was injured Monday morning when a load of pipe fell on him at a derrick site near Merton in Iron County. Rushed to a San Angelo hospital, he was pronounced dead on arrival.

He was an employe of Tom Brown Inc.

Survivors include his parents, Mr. and Mrs. Henry Lee Atchison Sr. of Midland; six brothers, all of Midland, Melvin Atchison, David Atchison, Robert Atchison, Calvin Atchison, Elysson Atchison and Donny Atchison; and grandparents, Walter Burns of Caldwell, Ireson Atchison of Midland and Mrs. Lula Mae Vaughan of Hearne.

Lions Club Goes On 'Camera Safari'
Members of the Midland Downtown Lions Club went on a "Camera Safari to East Africa" at their meeting today noon in the American Legion Hall.

The lecture-slide presentation was given by Lion Glen M. Ford of Texaco Inc., who took the pictures.

The program was arranged and introduced by Lion George Wels, program chairman for March.

Duchess of Bedford Writes Book About Her Love Affairs

LONDON (AP) — The Duchess of Bedford says she is 26 years old and had been married eight years when a strange man in a Manchester hotel room taught her "a kind of sensuous, animal loving" that she didn't know existed.

The French commoner the Duke of Bedford married in 1960 tells about it — and other affairs she had — in an autobiography titled "Nicole Nobody" published today.

Born Nicole Schneider in Paris 53 years ago, she writes that she was 18 and "did not even know the difference between a man and a woman" when her well-to-do parents arranged her first marriage to a Frenchman, Henri Millinaire, in 1938. The marriage lasted 18

years and produced a daughter. The stranger in Manchester forced his way into her hotel room one day in 1946, locked the door and stopped her from telephoning for help.

"I tried to scream, but I was so horrified that the cry died in my throat," she wrote.

"Not once did the smile leave his face — even when he pushed me gently onto the bed. And that's the last thing I can remember of that particular evening. . . . He was a superb lover. . . . I am not ashamed."

The three-day affair was "an awakening that every woman should experience," said the duchess, "I became aware that I was attractive to men."

She also took up judo. Other men in her life included Michael Bompard, who was with her in the French underground during World War II, and American television producer Sheldon Reynolds, in the 1950s when she was a film and tv producer.

Bompard was tortured to death in a Nazi concentration camp. She says the affair with Reynolds ended the day he snarled at her, "Get lost!"

She met the duke, who has made his ancestral home Woburn Abbey into one of Britain's most publicized tourist attractions, when she was working on a tv series. They were married three years later in 1966. It was his third marriage and her second.

Survivors include the widow, two sisters, Mrs. Stella Redman of Tulsa and Mrs. Louise Cox of San Antonio, and two brothers, P. M. Porter of Lubbock and C. A. Porter of Slaton.

Government Lawyers Scolded By Judge In Carr-Osorio Case

DALLAS (AP) — U.S. District Court Judge William M. Taylor Jr. has scolded government lawyers for introducing evidence which he said violated his order.

Taylor told Justice Department lawyer Robert Mahony, "I want you to know I am not very happy about the posture the government has put on this case."

The jurist's rebuke Tuesday was voiced on the 15th day of testimony in the fraud trial of former Texas Atty. Gen. Warrigoner Carr, former state Insurance Commissioner John Osorio and Dallas businessman David Hoover.

Carr and Osorio are charged with four counts of fraud and conspiracy in connection with the 1971 scandals surrounding the collapse of the financial empire of Houston promoter Frank Sharp. Hoover is charged with one count of fraud.

This is the third trial for Osorio, who was convicted of embezzlement in 1972 at Amarillo and acquitted on charges of fraud in 1973 at Dallas. It is

the second trial for Carr, who also was acquitted on charges of fraud.

Taylor had ordered no evidence from the previous trials be introduced in the current proceedings.

Mahony, however, sought to question Osorio about his previous conviction Tuesday. Osorio's lawyer, Emmett Calvin, objected and said if the government was going to violate Taylor's order then mention should be made of the acquittal, too.

Travis Shelton, a lawyer for Carr, asked for a mistrial. Taylor turned him down but told Mahony he was very concerned about the matter.

In earlier testimony, Hoover said he had never discussed any of the loans in question with Carr.

The three are charged with misrepresenting stock in RIC International, Inc., to get loans for the cash-poor company. Carr has maintained he had nothing to do with the negotiations.

In response to repeated questioning from Carr, Hoover vowed, "Mr. Carr, I never discussed anything with you."

Joe T. Bishop, 60, Dies; Rites Today
ODESSA — Joe Thomas Bishop, 60, died of a heart seizure in his home here Monday.

He was a brother-in-law of Mrs. E. B. Richardson and a nephew of Mrs. Ruby Daugherty, both of Midland.

Funeral services were to be held at 2 p.m. today in the First United Methodist Church, with interment following in Sunset Memorial Gardens.

Bishop was born April 27, 1913, at Bonham and was married to Hazel D. McKenzie on March 9, 1934, at Sweetwater. They moved to Odessa. From Sweetwater in 1937.

Survivors, in addition to the Midland relatives, include the widow; a son, Joe Tom Bishop of Dallas; two sisters, Mrs. Frankie Gibson and Mrs. Helen Bennett, both of Odessa; a brother, Charles W. Bishop of Yuma, Ariz., and several nephews and nieces.

T. O. Porter Dies At Lamesa; Rites Thursday
LAMESA — Thomas Owen Porter, 67, of Lamesa died about 4 p.m. Tuesday in a Lamesa hospital after a long illness.

Services will be at 10 a.m. Thursday in the First United Methodist Church of Lamesa. Officiating will be the Rev. Newton Starnes, pastor; the Rev. Walter Horn, pastor of First Presbyterian Church of Lamesa, and Allen Hahn, minister of Lamesa Downtown Church of Christ.

Interment will be in Lamesa Memorial Park under direction of Brasen Funeral Home.

A resident of Lamesa 24 years, Porter owned Porter Lumber Co. He was a Methodist and a Mason. Porter was a native of Hamilton County.

Survivors include the widow; two sisters, Mrs. Stella Redman of Tulsa and Mrs. Louise Cox of San Antonio, and two brothers, P. M. Porter of Lubbock and C. A. Porter of Slaton.

World War II Pilot Finally Comes Home

BAIRD (AP)—First Lt. Billy Hollingshead of the World War II Army Air Corps, has arrived home from the jungles of New Guinea. He will be buried Thursday.

A burial team from Ft. Hood will participate in the services at which Hollingshead will be buried with full military honors.

Hollingshead was piloting his Martin A20 Havoc on a combat mission over New Guinea June 29, 1944, when he vanished.

The wreckage of the fighter-bomber was not located so the War Department declared Hollingshead dead.

Last May, authorities stumbled onto the rusted hulk of the plane, scattered over a remote mountain gully infested with vines and other jungle growth.

The two skeletons found with the wreckage were flown to Japan where specialists identified them as Hollingshead and his gunner, Sgt. Leonard H. Tilden Jr. of Florida.

Hollingshead, who would have been 53 April 15, was a junior at North Texas State University when Pearl Harbor was bombed. He enlisted in the Air Corps and subsequently won the Air Medal, Silver Star and Purple Heart.

He will be buried in the Potosi Cemetery next to his parents, Mr. and Mrs. Fred Hollingshead.

Oilfield Worker Injured In Mishap

RANKIN — Grady Mitchell of Odessa, an employe of Cactus Drilling Co., was injured this morning in an accident on the drilling site on the A. B. McGill Ranch about 16 miles north of here near the Midland Highway.

Medical Center Hospital spokesmen said Mitchell had a back injury but it did not appear to be serious. He was being x-rayed shortly before noon today and was expected to be admitted to the hospital for treatment.

Upton County Sheriff's Deputy Jerry Hefflin said Mitchell was jettisoned a pit when the pressure hose lifted him off the ground.

He dropped the hose and the pressure caused it to flop around, striking him in the back. The accident occurred about 8:30 a.m. and an ambulance was dispatched from Rankin.

Council Eyes Taxi Problem
DALLAS (AP) — City councilmen are considering suspending rules that have left some air travelers unable about taxicab service at the new Dallas-Fort Worth Airport.

The rules allow taxis in Dallas to take passengers to the airport but prohibit return fares.

Surtran Taxicab Inc. is permitted to take passengers from the airport to either Dallas or Fort Worth, but may not pick up passengers headed for the airport.

Named For 'Pieces Of Eight'
The expression "two bits" for the American quarter comes from the division of the Spanish-American peso into eight reals, or pieces of eight, bitten by traders testing their authenticity.

Equipment Stolen From Lee High

Someone stole \$430 in equipment from Lee High School Tuesday, police reported.

There was no evidence of forced entry, according to Patrolmen F. L. Bartlett and David Shearor.

The theft occurred between 4:30-7:30 a.m.

Missing items include a tape recorder and microphone still in their cartons taken from room 604, an extension telephone taken from the Midland College office at the high school and a \$300 camera taken from room 404.
