

U.S. Space Officials Say Now Russians Never Were In Moon Race

By HOWARD BENEDICT
WASHINGTON (AP) — During the 1960s, the United States conducted a crash program to beat the Russians in putting a man on the moon. Now, American space officials have evidence that the Soviets never

were in the race and that they trail this nation by several years in manned space technology. Their manned spaceship, the Soyuz, has less capability than the U.S. Gemini craft of a decade ago. It is almost totally

controlled from the ground and could not make a lunar trip. Cosmonauts play much more passive roles than American astronauts. They mainly go along for the ride. Pinpoint landings, common in the U.S. program, are unheard of in

Russia, the philosophy being "just so they land somewhere in the Soviet Union." Soviet rockets are far less powerful than America's. These facts have come to light during discussions between American and Russian

experts planning a joint manned flight next year. In their desire to promote this cooperative venture, the Soviets have revealed many of their long-guarded space secrets. Disclosure was necessary by both sides to assure there would be no hidden danger when the Soyuz and an American Apollo ship hook up in orbit.

U.S. officials don't downgrade the Soyuz; they say its fine for its purpose: Relatively brief orbital flights up to a week and for ferrying cosmonauts to a space station. But they were surprised at the lack of sophistication. "Through the early and mid-part of the 1960s we were sure the Soviets were in the moon race," one official said. "By 1967 or 1968 we had enough information that told us they didn't have the technical capability to make a lunar journey for several years."

Three astronauts and two cosmonauts are to make the joint flight, set to start July 15, 1975. The American spacecraft is designed to work only with a

more sophisticated and reliable: He said the Russian space program had no major overall goal like landing on the moon, other than those of being first. "Get the first iron ball in orbit. Get the first man there. Get the first woman. Get the first two people up there at the same time; the first multiman spacecraft. So, politically, they gained some significant firsts."

Nixon's Mideast Tour Will Represent Emerging New American Power In Area

By KENNETH J. FREED
WASHINGTON (AP) — President Nixon's Middle East tour is a major diplomatic act, not because of any expected agreements but rather for its symbolic representation of the emerging new American power in the area.

ally agree that the President's journey is important and will be effective. His presence will underline what Kissinger has described as the U.S. commitment "to bring about a just and permanent peace" between Arabs and Israelis.

both Arab capitals and Israel is an object lesson aimed at Moscow. Each step the President takes in the Middle East reflects a diminishing Russian influence. This will be particularly true, if, as is hoped by American officials, Nixon is welcomed enthusiastically.

From all indications, these hopes will be fulfilled. Egyptian Ambassador Asraf Ghorbal told a newsman this week the visit is of "tremendous importance" to his government. Syrian leaders have been more restrained, but they are ready to give Nixon a warm

welcome, if for no other reason than to create a friendly atmosphere that could help them obtain American economic aid. Jordan and Saudi Arabia are traditionally pro-American, and Nixon is expected to pledge them aid and cooperation for the future. For Israel, Nixon will be working to convince the Jewish state that the new U.S.-Arab relationship will not be at its expense.

If all goes as planned, Nixon will tour the Middle East in an act marking one of the most dramatic diplomatic transformations of recent years.

U.S. officials are satisfied that proper modifications have been made so there are no dangers in this area for next year's flight. Will the Soviets gain any of America's technological secrets? "Except for the common

There may be a few tangible results from the President's five-nation swing that starts next Monday—establishment of full diplomatic relations with Syria, for example. But the main purpose as stated by White House spokesman Gerald L. Warren this week is to "consolidate what has been achieved on the road to peace" by Secretary of State Henry A. Kissinger.

Left unstated by White House officials but clearly understood is that Nixon's visit means the United States is committed at the highest level to creating an entirely new status in the Middle East, not only among the Arabs and Israel but also on the part of the superpowers. That this can be done simply by Nixon visiting Egypt, Saudi Arabia, Syria, Israel and Jordan is not accepted universally. And some critics say the Watergate scandal at home is the real reason for the President's journey.

However, leaders of the nations involved in the trip have indicated Watergate has not affected their plans to welcome Nixon warmly. And American experts generally

San Angelo City Commission Hassle In Federal Court
SAN ANGELO, Tex. (AP) — The continued refusal of the San Angelo City Commission to seat an elected member has resulted in a federal court suit against the commission. The seven plaintiffs claimed in the suit filed Thursday their civil rights are being violated by the commission's action toward Kenneth L. McNease who was elected to a commission seat May 11.

The commission refused to seat McNease because of his employment with General Telephone Co. of the Southwest. The action was based on a provision of the city charter prohibiting employees of public utility shareholders from holding a commission seat. State District Judge Earl W. Smith held May 17 that McNease should be seated because the city raised no objection to his qualifications when his name was placed on the ballot. The commission voted to appeal Judge Smith's order May 21.

ASSISTANT UT PROFESSOR HOPES—

Huge Shrimp May Help In Cancer Fight

By JOHN LUMPKIN
SAN ANTONIO, Tex. (AP) — If a fisherman by chance snags an elusive giant freshwater variety of shrimp in the Texas Hill Country, Dr. Frederick Rommel wants the animal.

Rommel, a crewcut assistant professor at The University of Texas Health Science Center, has scouts in the Hill Country and also is being sent samples of the freshwater prawn from Ralston Purina Co.

He hopes he can find an anti-cancer mechanism in the shrimp or in other aquatic invertebrates he plans to use—freshwater and saltwater clams, crayfish and saltwater lobster.

"The reason is that almost all aquatic invertebrates do not develop cancer or we never see it," says Rommel.

"There are only six or seven reports in the entire body of scientific literature of any sort of cancer or abnormal growth in these animals and most were benign."

Model Airplane Contests Start Here On Saturday

The Midland Flying Chaparrals Model Club will sponsor the West Texas Regional Airplane Championship contests Saturday and Sunday on Simon Field at Hogan Park.

Events will include combat competition, in which two pilots operate from the same circle with eight-foot crepe paper streamers attached to their planes. Each pilot attempts to cut his opponent's streamer from his plane with his propeller. Cutting all of the streamer constitutes a "kill" which ends the match.

Several nationally known stunt fliers and plane designers are expected to compete in the two-day event.

The competition is for U-Control models, which are planes powered by two-cycle, methanol alcohol fueled engines and controlled by 50-60 foot steel cables. Engine displacement is from .15 to .40 cubic inch and the engine r.p.m. is from 15,000 to 26,000.

All flyers are welcome at the competition. Forty-two engraved trophies will be awarded for

first, second and third places in each of the 14 events.

Substantial Proportion Of Russians Inside U.S. Are Spies, Kelley Says

WASHINGTON (AP) — A substantial proportion of the 970 Soviet officials assigned inside the United States have been identified as intelligence operatives, FBI Director Clarence M. Kelley says.

And he said the two diplomatic missions operated inside the United States by the Peoples Republic of China "are potential bases of operation for intelligence officers."

As representatives of the Peoples Republic of China become more firmly entrenched and expand their contacts and influence in the United States, our work in this field is expected to increase, Kelley told the Senate Appropriations Committee Thursday.

Kelley said the Soviet Union continues to carry on an intensive political, military and economic intelligence gathering effort in the United States.

He said the FBI is reassigning more agents in an attempt to counter the work of intelligence operatives, who he said "operate under diplomatic cover from Soviet bases in Washington, San Francisco and New York."

Intelligence assignments also are carried out by Soviet citizens assigned to this country as newsmen, participants in exchange programs, commercial representatives and U.N. employees, he said.

In addition, Kelley said significant numbers of the 538 officials of Soviet-bloc nations in the United States have been identified by the FBI as intelligence agents.

He noted that the 970 Soviet officials in the United States on May 1 represent an increase of 132 over the year before and

Hill Urges More Respect For Law

IRVING, Tex. (AP) — Texas Atty. Gen. John Hill told the North and East Texas Judges and Commissioners Association convention he has no use for people who have no respect for the law.

He said Thursday the main problem in this country is the lack of respect for law and lack of faith in the government.

The association, made up of officers of more than 72 counties, continued its convention through today.

SEEKING \$35.5 MILLION— Roloff Files Six Suits

CORPUS CHRISTI, Tex. (AP) — Evangelist Lester Roloff, armed with a Texas Supreme Court decision favoring his operation of child care centers, seeks \$35.5 million in six libel suits against certain news media.

More suits may be filed, his lawyers indicated.

Roloff defeated an attempt by the State of Texas to force his homes for wayward boys and girls to be licensed by the state welfare department.

Miss Ivins wrote both articles for the Chicago Daily News and New Times.

Roloff and Roloff Evangelist Enterprises filed suits Wednesday and Thursday against: —The Houston Post and reporter Mimi Crossley, \$3.5 million, for three separate articles the Post published July 15-16 and Sept. 30, 1973.

The lawsuits claim portions of the published articles were "defamatory, false and malicious."

—The Texas Observer Publishing Co. and its writer Molly Ivins, \$5 million, for articles published Nov. 2, and Nov. 16, 1973.

"I'm tired of this kind of thing, so I'm going to let them have it," Roloff said Thursday. "It's not right to grind a preacher's ministry to powder through the press. They'll have to give an answer. They'll have to prove what they've been saying."

—National Broadcasting Co. (NBC) and its correspondent Royd Kalber, \$10 million, for portions of an evening news telecast Jan. 6, 1974.

The Texas Supreme Court ruled May 29 that Roloff did not have to obtain a state license to operate his Rebekah Home for Girls in Corpus Christi and the Anchor Home for Boys in Zapata, Tex.

—Beta Publications, publisher of the National Spotlight, which circulates in Canada and

State law requires any child care home with more than six children to have a license. However, the state law does not

define "child." The state welfare department had interpreted it to mean children up to age 18.

Texas Atty. Gen. John Hill stated in a legal opinion Oct. 14, 1973, however, that it applied to children to age 18.

In effect, the high court overturned Hill's opinion.

Roloff had been fined \$5,400 and sentenced to five days in jail by a state district court judge in Corpus Christi for failing to obtain licenses. The elderly evangelist spent one night in jail before being freed by a writ of habeas corpus and appealed to the Texas Supreme Court.

Roloff had contended the licensing law was unconstitutional as it applies to religious homes.

The homes came to public attention during a probe by a state legislative committee of child care facilities.

Roloff's homes are filled by youngsters brought there by their parents or referred by courts.

H. Allen Smith Writes For FW

An article by H. Allen Smith, noted Alpine author, appears in the current issue of Family Weekly, the magazine section included each Sunday with The Reporter-Telegram.

Written especially for Family Weekly, the article is titled, "Amos, Get UP! The Cat's Broke Every Dish in the House!"

Other features include: "Linda Blair of 'The Exorcist': What's A Nice Girl Like You Doing in a Film Like This?" "What Do You Know About Criminals — And Victims?" and "What in the World!"

Family Weekly's June Cookbook — "Try These Summer Dishes — Direct from the Dairy!" — also is featured in the current issue.

POLLY'S POINTERS

Drain Remedy Spots Counter

By POLLY CRAMER

Polly's Problem
DEAR POLLY — I used an acid to unclog my kitchen drain and some of the acid accidentally dropped on my new olive laminated plastic countertop. How can I remedy the resulting discoloration? — NAN-CY.

DEAR POLLY — My Pet Peeve is stores whose cash register tapes are so lightly printed it is impossible even to tell the name of the store much less the date or price when they are needed to make an exchange, return a purchase or even to check the bill. — LUCILLE.

DEAR POLLY — My answer is for Mrs. R. J. whose suitcase has a musty odor from being stored in the basement. I suggest that she fold a newspaper into a basket sort of shape, fill it with charcoal, put this in the suitcase, close it and leave for a week. The ink on the newspaper will absorb the musty smell and the charcoal will get rid of any mold. I used this in a closet that had mildew after it was suggested to me by our county home demonstrator and it worked. — BETTY ANN.

DEAR POLLY — After trying most everything for removing a crease from knitted fabrics, I finally succeeded. Cut strips of waxed paper, lay on the crease and press with the iron set at the proper temperature for that particular fabric. I have been able to lengthen several dresses after doing this. My bath brush never seemed to have a chance to dry as I take a bath before work and another after work. Mold that formed on the brush would not

wash off but bleach did away with it completely. Now my brush is white and clean. — GERDA.

DEAR POLLY — A little shampoo on the washcloth will help clean away body oil left in the bathtub or sink. — BONNIE.

DEAR POLLY — A tv tray on legs is most useful as it is so lightweight. I carry mine all over the house and use it to write letters on while watching television or by a window with sewing on it or when peeling vegetables, to put hair curlers on when doing my hair or for doing book work. Its uses are endless. I always put on rubber gloves when defrosting the refrigerator. Otherwise, the cold pains my arthritic hands. — MARY W.

DEAR POLLY — Prolong the life of overalls that are too short for a toddler by attaching sock-mocs to the bottoms with snaps. The snaps will keep the stocking part of the sock-mocs pulled up and cover the ankles and lower legs. Both can be put on at once when the child is dressed. — ELIZABETH.

Church Schedules Pancake Breakfast

The Our Lady of Guadalupe Catholic Church parish will sponsor a pancake breakfast starting at 6 a.m. Sunday in the Parish Hall. Joe Paiz is chairman of the event, which is open to the public. Tickets for a trip to Six Flags over Texas will be available.

PBX CLUB — Verdie Mize, left, is the new president of the PBX Club of Midland. She is shown with the new vice president, Mrs. Howard Williams. They and other officers were installed at a dinner meeting Tuesday of the club in Holiday Inn.

PBX Operators Install Officers

New officers of the Midland PBX Club were installed during a dinner meeting Tuesday in Holiday Inn. Mrs. Andy Bardin, outgoing president, presided. Those installed were Verdie Mize, president; Mrs. Howard Williams, vice president; Mrs. Leroy Stewart, secretary, and Suzanne Morris, treasurer. Mrs. Dean Hood of Odessa conducted the installation ceremony. The dinner was a highlight to PBX Operator Week in Texas, which was proclaimed by Gov. Dolph Briscoe. The week is designated in 50 states, Canada and Mexico to recognize the outstanding work of PBX operators. Also in conjunction with the week, Miss Mize installed officers of the Lubbock PBX Club Monday. Also attending the Lubbock installation dinner from Midland were Mrs. Ed Fischer and Mrs. Williams. Thursday, Mrs. Kenneth Morris installed officers of the PBX Club of Odessa. Attending from Midland with Mrs. Morris were Mrs. Walter Butler, Mrs. Dottie Smith, Mrs. Farris Benham and Mrs. O. H. Brittain.

HONORED AT PARTY — Mrs. Earl H. Burns, left, and Mrs. Ozie Hall, right, present Mrs. Sam Jordan, who is moving to Houston, with a plaque at a party given Tuesday in honor of Mrs. Jordan.

Mrs. Sam Jordan Honored At Party

Mrs. Sam Jordan, who is moving to Houston, was the honoree at a farewell party Tuesday in the home of Mrs. Ozie Hall, 1301 E. Jax St. Mrs. Jordan is a member of the Neighborhood Association Policy Advisory Committee and the Midland Community Action Agency board of directors. A plaque was presented to Mrs. Jordan for her hours of service. Other guests were Mr. and Mrs. Billy Freeman, Mr. and Mrs. Thomas A. Jackson, Mrs. and Mrs. Earl H. Burns, Mrs. Edgar Cook, Mrs. Orea Lee Gary, Mrs. Hazel Griffin, Mrs. Annie Lathon, Mrs. William H. Wright and Mrs. Joe L. Williams.

Area Chapter Installation Held

McCAMEY — The Rho Delta Chapter of Epsilon Sigma Alpha had an installation ceremony for new officers recently in the Security State Bank. Mrs. R. T. Woodrow, outgoing president, installed the following: Mrs. Mack Dawkins, president; Mrs. Woodrow, vice president; Mrs. R. L. Prudner, recording secretary; Mrs. H. M. Shirley, corresponding secretary; Mrs. Jack Garner, treasurer; Mrs. Bruce Ego, educational director, and Mrs. L. O. Eagan, parliamentarian.

Graduates Feted At Western Party

Spring graduates of Midland high schools were entertained recently with a hayride and dinner.

The host couples were Mr. and Mrs. Marion Flynt, who honored their granddaughter, DeMar Johnson, daughter of Mrs. Holt Kimsey; Mr. and Mrs. Buddy Branum, who honored their daughter, Kay Kennedy; Mr. and Mrs. Ted Lacass, who honored their daughter, Becky; and Mr. and Mrs. W. W. Griffith, who honored their daughter, Ann.

Seventy-five couples were taken to the Flynt ranch north of Midland in a truck filled with hay and were entertained

Auxiliary Plans Mexican Fiesta

The Permian Basin Geological-Geophysical Auxiliary will entertain members and their husbands with a Mexican fiesta couples' party at 7 p.m. Thursday in the backyard of the home of Mr. and Mrs. Donald Wambaugh, 2608 Lockheed St.

A mariachi band will provide music for the dinner.

Co-chairmen in charge of preparations are Mrs. W. L. Saultz and Mrs. Herbert Stanley Jr.

The hostesses will be Mrs. Richard Blackwell, Mrs. Frank Drury, Mrs. Billy Finch, Mrs. Robert Frazier, Mrs. Charles Johnson, Mrs. Fred Meyer, Mrs. John Ryan, Mrs. J. Keith Somerville and Mrs. Wayne Woodside.

Reservations may be made with Mrs. John Gibburne, 682-7235, or Mrs. William Henry Smiley Jr., 684-1944, by 5 p.m. Tuesday.

DRT PLANNING SESSION - Pictured at a recent planning session for the 1975 state convention of the Daughters of the Republic of Texas are, from the left, Mrs. Frances M. White of San Angelo; Mrs. Evelyn Estes Melear, president of the Aaron Estes Chapter of Midland; Mrs. Raymond Teller of San Angelo, president of the Ft. Concho Chapter; Mrs. Sarah Miltia Hill of San Angelo, past DRT president general, and Mrs. John P. McKinley, general chairman for the convention. The convention will be held May 14-16 in San Angelo, with District I chapters as hostess groups. These include Ft. Concho; Hally Bryan Perry, Alpine; Paseo del Norte, El Paso; Tunas Creek, Ft. Stockton, and Aaron Estes Chapters.

Midlanders' Kin Receives Honors

Kim Krist, daughter of Mr. and Mrs. Stanley Krist of Houston and granddaughter of Mr. and Mrs. Harry Krist, 2504 Guthbert St., and Mrs. Lester Brown and the late Mr. Brown, was graduated recently from Clear Creek High School in Houston.

Miss Krist, who plans to attend The University of Texas-Austin, was named queen and most beautiful member of her graduating class. She was a member of the National Honor Society. She will be a princess in the Lunac Festival to be held in Houston in July.

Kirk Krist, Miss Krist's brother, was named Freshman Favorite of Clear Creek High School this year.

Register Inventor

The cash register was invented by James Ritty, an Ohio saloon keeper, to keep his bartenders honest.

Kim Krist

No Heavy Skin

To prevent the heavy skin from forming on cooked desserts, place a sheet of wax paper over the serving dish immediately after pouring. The heat will cause a suction which holds the paper tightly to the dish.

Mrs. Hermann Williams Teacher Of Year By Midland Music Teachers' Group

Mrs. Hermann Williams has been named Teacher of the Year by the Midland Music Teachers' Association and will represent the Midland group at the Texas Music Teachers' Association convention in Amarillo today through Wednesday.

Mrs. Williams is a certified piano teacher and has taught private piano lessons approximately 30 years. She has studied with Pat Naione of Abilene Christian College, Martin Reed Jr. of the Cincinnati Conservatory, Elsie Willis of Big Spring, Hubert Renison of Sherwood School of Music and Jack Hendrix of Odessa College. She has attended the Hans Barth workshop in Denver, Colo., Leo Pololsky Workshop in Dallas and Verna Harper Workshop in Midland. She has served many times as judge for Student Festivals for the National Federation of Music Clubs and for local and area Student Affiliate competitions.

Mrs. Williams is a charter member of the MMTA and has been president, program chairman and vice president, workshop chairman, ensemble chairman, nominating committee chairman and Student Affiliates chairman. She has held district offices in the Texas Federation of Music Clubs and was state chairman of choral

music. She also has been chairman of the National Guild of Piano Teachers in Midland more than 18 years.

Many of Mrs. Williams' students have placed in Midland Concerto and Sonata-Sonatina yearly competitions, have made high ratings in the state theory exam and have performed at several state conventions. She has had one contestant compete at the Solo State Convention Contest.

LHS Graduate Complimented

A recent punch and snack party complimented Kristi Finley, spring graduate of Lee High School.

Hostesses for the party were Mrs. Glenn Niles and daughters, Lavon and Cindy, in the Niles' home, 4415 Tarrifan St., and Mrs. Harold Stewart.

Miss Finley plans to attend Hardin-Simmons University. The university's colors of purple and gold were used in decorations.

The honoree and her mother, Mrs. James Finley, received courtesies.

Camp Program Planned By Y

The Central YMCA will have a day camp program, Camp Wheelomp, for boys and girls ages 6 to 12, Mondays through Fridays from 9 a.m. to 3 p.m. in Hogan Park. Session 1 is scheduled for June 17-28 and Session 2 will be July 1-12.

Activities such as archery, hiking, camp crafts, nature study and swimming will be available. The highlight of each camping session will be a campfire and overnight, followed with a "Flap Jack" breakfast the morning after the final day.

There will be a trained staff of college and high school students under the supervision of John McVicker, YMCA community program director. Each counselor will work with a group of 16 children.

Parents may enroll their children for either session at the Central Y during the week of June 10. Bus service is available to pick up children at various schools.

It's 'On To Vienna'

The famed Robert E. Lee High School Choir of Midland, which has won top honors whenever and wherever it has performed, is all set to perform July 10-24 as the official United States representative at the Youth and Music in Vienna — 1974.

This is one of the greatest honors ever. The LHS Choir, directed by Henry Sellers, was selected as No. 1 from among 15 outstanding high school choirs of the nation, entitling it to participate in the fantastic music festival at Vienna, Austria.

A Midland Community Theatre group won two first places in the play competition held recently at Dundalk, Ireland, and now the LHS Choir is prepared to spread the Tall City's fame and glory in Austria. This, indeed, is a great summer for Midland and Midlanders.

There is only one little cloud hovering overhead as the choir members pack their suitcases... and this is the matter of money.

Sponsors say that approximately \$17,000 yet is needed to finance the trip. Total cost is approximately \$80,000.

Members of the choir and their parents have raised \$28,000 of the funds now in hand. One of the trip requirements was for each member to raise \$100 outside of family circle in order to qualify. All 68 choirsters qualified.

The young Midlanders didn't quit there, however. They have labored hard and long in producing funds in varied ways. They gathered grain in the fields on a 50-50 profit basis. They picked up mesquite stumps, selling them at \$45 a cord. They also have staged bake sales, garage sales, chili suppers, along with anything else which would net a few pennies or dollars. They are not afraid of work. Concerts by The Origin of LHS netted almost \$2,500.

The choir's next performance will be a nationally televised halftime appearance at the 14th annual Coaches All-American football game at Lubbock June 22.

The choir also will share in the proceeds from tickets to the game sold in advance by choir members and the Midland Chamber of Commerce.

A number of sizeable contributions have added to the fund, but others are needed, urgently. It is down to the point where any and all donations are needed and will be appreciated. Eugene E. Branson, 3509 Andrews Highway, or W. Cecil Bybee, 620 Commercial Bank Tower, will be delighted to receive your contributions.

This is a community-wide project! Let's all join wholeheartedly in showing the Lee High School Choir — No. 1 in the nation — just how proud we are of it! Act now, please — and generously!

Stonewall

The Washington Merry-Go-Round

Jack Anderson Says: Sen. Ted Kennedy was Watergate target.

WASHINGTON—The real target of the Watergate break-in, it now appears from confidential White House documents, was Sen. Ted Kennedy, D-Mass.

Sources close to President Nixon confirm that he regarded Kennedy as his most dangerous political foe. The President also expected former Democratic national chairman Larry O'Brien to manipulate the party machinery in 1972 to bestow the presidential nomination upon Kennedy.

Up to the eve of the Democratic convention, say our sources, the President believed Sen. George McGovern, D-S.D., would step aside at the last minute to make way for Kennedy, with O'Brien pulling the strings behind the scenes.

Nixon scarcely had settled into the White House in 1969 before he began seeking political ammunition to use against Kennedy and O'Brien. The orders were transmitted through staff chief H. R. Haldeman.

A host of colorful super-snoopers were recruited to investigate Kennedy and O'Brien. Among them were a Rynonesque ex-New York flatfoot, Anthony Ulasevic; a flashy, fast-faced ex-New York detective, Jack Caulfield; the bewigged former CIA agent and incurable romanticist, E. Howard Hunt; and a young, pedantic security specialist who kept a red scrambler telephone in his White House desk drawer, Tom Charles Huston.

Less than six hours after Kennedy ran off the bridge at Chapquiddick on July 18, 1969, Caulfield had a man at the scene searching for evidence that could be used to embarrass Kennedy.

Two years later, Hunt again tried to put together a Chapquiddick scandal that would destroy Kennedy. But the gumshoes came up with little that the press hadn't already uncovered.

The White House crowd apparently was obsessed with the idea that Kennedy had a weakness for wild parties and promiscuous women. But repeated investigations by Caulfield and Ulasevic failed to produce any evidence.

As a typical example, Caulfield kept Kennedy under surveillance during a three-day visit to Honolulu on Aug. 17-19, 1971. A secret surveillance report which referred to the senator as EMK, was rushed to the White House.

"EMK made no public appearances during his stay in Honolulu," reported Caulfield. "Inquiry ascertained that he occupied the private estate of one J. Ontani, located at Diamond Head Road, Honolulu."

"Discreet inquiry determined that Kennedy used the estate solely for sleeping purposes, took only his breakfast meal at that location and quietly visited friends at other locations on the island."

"It is known that he played tennis on August 18 at the estate of one Lloyd Martin identified as a wealthy Honolulu contractor."

"An extensive survey of hotels, discreet cocktail lounges

RAY CROMLEY Pedalling Through Life's Bright Spots

WASHINGTON (NEA) — I've joined the ranks of those who daily pedal bicycles back and forth to work. My life never will be the same.

Behind the wheel of a car, the world is an impersonal noisy blur save for the muttered curses of fellow motorists as they cut in and out and your own responding epithets. Other drivers get in your way, upset your equanimity and threaten your fenders and your 30-minute timetable.

On a bicycle, it's a new world. The boy fishing on the river wades with recognition of a shared experience. The housewife carrying out the trash and the janitor dumping rubbish remark on the weather. Pretty girls along the route smile or grin — depending on their age. You see trees, creeks and gardens unmoiled in years of hurried driving. And study the faces of men and women who have been no more than flickering blobs as your car sped by.

You see youngsters playing ball and have time to notice whether it's a strike or a hit, young couples sitting on bridges, determined but paunchy middle-aged men running for their lives. You meet columns of teen-aged boys and girls on 10-speeds racing to some objective. Almost all take time to acknowledge your presence in an unobtrusive way or another. Bicyclists, unlike motorists, move to the side to let fellow riders pass.

I am told by specialists that 100 miles a week is very good for the heart, the liver and what else might ail you. This may or may not be; but it certainly makes you feel better all day long. And you sleep like a top.

There's a value in persistence. The first day out, 11 miles up the river took two and a half hours and was sheer agony. The wind blew so hard it was necessary to pedal vigorously to make headway even when going down hill, or so it seemed. In the evening, the return trip was easier. Finally, on the night wore on and my bike light (and legs) failed. I finally finished ignorantly on foot and after bedtime to the worry of my children.

My second venture was even more discouraging. Flashedly I started out with my Scout troop over a 20-mile course. It was cold and I pedaled vigorously, only to strain a ligament on some hill and fizzle out at the end of eight miles. The troop went on and I limped gloomily the long route home.

That taught some sort of a lesson and I began with short stints around the block, followed by 10-mile runs with my children on level stretches. Now an old pro with 700 miles in seven weeks, and doing in less than 55 minutes what once took two and a half hours, I look forward to the morning and evening rides, feel let down when rain forces me to abandon my one-speed and use my car.

The biking idea was born for me during the big gasoline crunch, when few of us knew from one day to the next whether we would have enough gas to get to the office, the grocery store or the barber shop. But now that the immediate crisis is over, this convert is not about to go back to driving. My children are proud of dad.

TIMELY QUOTES

"People don't realize this is a high-wage industry, yet, where's the technology? Young grocery clerks still load shelves by hand."
—Dr. Gordon F. Bloom, marketing professor at Massachusetts Institute of Technology discussing outdated supermarket operations.

"If I stay around a few more days, I'll be eligible for Israeli citizenship under the Law of Return and they'll draft me."
—Secretary of State Henry Kissinger, joking with reporters in Jerusalem just prior to his return to the United States.

The Country Parson

By Frank A. Clark

The bidding has been: 7 West North East South 10 Double 24 Pass Double Pass?

You, South, hold: ♠ 5 ♣ 7 ♣ 4 3 2 + A ♣ 9 7 + 8 5 3

What do you do now?

A—Three hearts is an underbid. Four hearts dangerous. Take your choice and hope you are right.

TODAY'S QUESTION

Instead of doubling a second time your partner has bid three clubs. What do you do now?

Answer Tomorrow

Dear Editor: My people-expert neighbor says he has come to a scientific conclusion on the matter of whether President Nixon is a bum, as ferociously advertised.

He says the most reliable assessment of a man's character can be made by noting not who likes him but who hates him.

And he finds that Mr. Nixon has hit the jackpot here. A man who has made the enemies list of such a vast array of Grade A, self-ordained world-fixing (with somebody else's money) liberals can't be all bad.

D. E. SCOTT
Crossroads, U.S.A.

DON OAKLEY India's Future Gets Shot In Arm—Or Something!

WASHINGTON (NEA) — Few peoples are more self-righteous than the Indians (the India Indians, that is). Few countries are more adept at lecturing the big powers about their amorality while remaining oblivious to their own "Realpolitik" behavior, as in the seizure of Portuguese Goa a few years ago.

Even so, there was a certain element of hypocrisy, even of condescension, in the shock expressed by this country and others in the West at India's announcement that it had joined the not-so-exclusive nuclear club as member No. 6 by exploding its own underground "device."

Why, India was supposed to be poor, always asking for loans and food aid, always on the verge of mass starvation. What business does a poor country like that have spending millions on nuclear bangles? Better to use that money to feed its people.

"This same argument was advanced when we established our steel mills and machine-building plants," Prime Minister Indira Gandhi effectively lashed back at the critics. "They are necessary for development, for it is only through acquisition of high technology that we can overcome poverty and economic backwardness."

To be sure, some of the old self-righteousness showed through Mrs. Gandhi's further statement that India's test was designed to see if the power of the atom could be used for constructive purposes — cracking underground oil reserves, etc. — while the rich countries had used nuclear energy for destruction. One strongly suspects that India's goal was first to find peace a bomb and second to find peaceful reasons for doing so.

The BIBLE Can You Quote It?

By LAVINA ROSS FOWLER

- The island of Cyprus, noted for large forests and copper, exported much of this metal to Syria, Egypt and Europe. This island belonged to many countries. What important Christian and martyr was a native of Cyprus? Acts 4:36
- What enduring hero of the Exodus asked as his reward, — a mountain? Joshua 14:1
- What day is described as "a thief in the night"? Luke 12:36-39
- Tell the distinguishing mark of Israelites' home on the first Passover? Exodus 12:7
- "If a house be divided against itself, that house — " Mark 3:25

BUT HAS ONLY CLOUDS OF SUSPICION--

Sheriff Suspects Officers Took Bribes

DALLAS (AP) — Although Sheriff Clarence Jones said he suspects some of his officers have taken bribes, he acknowledged Thursday that "all we have is rumors."

Testifying at a court of inquiry after suspending five of his deputies without pay the night before, Jones added, "I think that it (bribery) happened... but all we have is gossip in the street. I can't get names, dates, places—only clouds of suspicion."

Former bail bondsman Martin Turnbow followed Jones to the witness stand and refused to testify, invoking his constitutional right to avoid possible self-incrimination.

District Court Judge Dee Brown Walker then recessed the inquiry into bail bond practices at the sheriff's office until June 28.

The sheriff denied that he signed a contract giving his approval to a plan for another former bondsman, Wayne Parsons, to transfer some of his property to former bondsman Bobby Woods, with Woods then to assume bond forfeiture liabilities of Woods.

While he said he had several conversations with Parsons and Parsons told the court Wednesday that Jones and other county officials discussed the property transfer with him and the sheriff gave his "blessing" to the transaction. It was designed to keep the sheriff's office from attaching the property, Parsons said, to pay off forfeitures of bonds written by Parsons.

Jones also said he did not believe "bounty hunting" for persons who jumped bond was a widespread practice in his department, despite testimony from Parsons.

The sheriff said he heard of bounty hunting but met with deputies "and told them we were paying them an awfully good salary and we shouldn't get involved in that."

In suspending five of his de-

puties, including the head of the bonds collection division—Capt. Ralph Walters—Jones said their past activities regarding bail bonds would be investigated.

A recent report from County Auditor George Smith estimated Dallas County has \$3 million in outstanding bond forfeitures.

Dist. Atty. Henry Wade moved to recover a portion of that outstanding amount Wednesday when he filed \$149,000 suit against Parsons.

Parsons, who refused to testify until granted immunity from grand jury proceedings which are to follow the court of inquiry, has made several allegations about bonding operations in Dallas, Rockwall and Hunt counties.

GOOD MEASURE

Workers measure the length of toilet paper at the Fair Trade Commission offices in Tokyo. Similar checks were made throughout Japan to verify complaints that the rolls were undersized and of bad quality. Commission officials said that 10 per cent of the 423 rolls checked in the Tokyo offices had fewer sheets than specified on the label. (AP Wirephoto.)

Volunteers Build Chapel So Children Won't Have To Attend Church In Casino

JACKPOT, Nev. (AP) — Volunteers from North and South Carolina wind up work today on a new chapel they built so children in this gambling town of 500 won't have to learn about the Bible in a local casino.

Nearly two dozen Baptists from the South spent their vacations along with five Southern Baptist ministers building a 30 by 35-foot chapel with a 25-foot redwood tower.

The Rev. Robert C. Schreckenberg, pastor of the Eastside Baptist Church, Twin Falls, Idaho, has been holding Sunday School for about 45 children every Tuesday evening next to the long bar at the Horseshu Casino. The sessions began last winter, with the children perched atop high cocktail stools.

The Rev. Mr. Schreckenberg says the last casino meeting will be next Tuesday since the group expects to put its finishing touches on the chapel today and leave for home. The construction crew, including three women, has been living in tents at the chapel site.

The Rev. E. J. Jenkins, Mars Hill, N.C., superintendent of missions for the French Broad Baptist Association, said the chapel had to be finished today because the volunteers have to return to work. The first arrived here May 22.

The 2½-acre chapel site was donated by Cactus Petes-Horseshu Co., which owns the casino where services have been held, the Rev. Mr. Jenkins said.

He said each of the Carolinas parishioners paid \$150 for transportation to Jackpot. They also raised \$11,000 for materials to build the chapel, he said. Jackpot women also have been

Midland's 'House Of Friends' Initiates Summer Activities

Casa de Amigos, Midland's "House of Friends," has initiated its program of summer activities.

The activities are centered at Casa headquarters, 921 N. Dallas St., and at the Casa de Ninos, 906 N. Dallas St., and the St. Andrews Center.

Among the activities are sewing classes each Wednesday morning; dancing classes for youngsters, also on Wednesday mornings; pre-school classes each Tuesday, Wednesday and Thursday mornings, and art and crafts classes on Tuesday and Thursday mornings.

Beginning June 19, a "Kid's Klub" will be held on Wednesday mornings, offering crafts and non-denominational Bible classes.

Other children involved in the Casa de Amigos summer program will be visiting residents of a nursing home each week.

Special youth programs will be offered through the Boys Club and Girls Club at Casa de Amigos, which will offer

TEA Announces Planning Grants

AUSTIN, Tex. (AP) — The Texas Education Agency said Thursday it will award \$270,000 in grants to help school districts develop modern planning, budgeting and evaluation techniques.

The grants will be made between July 1 and Oct. 31 and will range from \$3,000 to more than \$20,000.

"Specifically, schools should be able to assess how well their students are learning, know how to develop long-range program plans and budgets and then follow up with a detailed evaluation of their effectiveness," said Charles Nix, associate education commissioner.

Grants For Elderly

AUSTIN, Tex. (AP) — The Governor's Committee on Aging meets Monday to consider \$2.2 million in grants for programs for the elderly and to conduct a public hearing on its statewide plan for the coming fiscal year.

raising additional money through rummage sales and other projects.

The Rev. Mr. Schreckenberg acknowledges that the casino church has not been entirely satisfactory. The bar where services are held is closed on Tuesday nights, but the jangle of slot machine levers, the ringing of bells and the fall of jackpots can be heard from adjoining rooms.

Mrs. Jenkins said Jackpot children helped with the construction, but at least one child was not too enthusiastic about it.

"What are you building here?" she says the child asked.

"A church," she replied.

"We don't need that," she quoted the child as saying. "We've already got one over at the Horseshu."

Church Affiliation Least On West Coast

By GEORGE W. CORNELL
NEW YORK (AP) — The people of Utah, Rhode Island and North Dakota are more extensively affiliated with churches than the populations of any other states of the nation.

In contrast, the smallest degree of church affiliation is in the West Coast states of Washington, Oregon and California.

These are among conditions turned up in the first compilation in 20 years of religious

statistics by denomination in each region, state and county in this country.

"The West Coast seems to be attracting a non-church sort of population," observed Douglas Johnson, of New York, one of an interdenominational research team that collected the figures.

"This doesn't necessarily mean that the West Coast is irreligious, since many of the new religious movements spring from there," he added.

"But it does indicate that the migrations to the West involve some sort of tacit rejection of affiliation with the organized churches."

Heavily Mormon Utah tops the list of states in the proportion of church affiliation, with 83.6 per cent of its people belonging to churches. North Dakota is second at 76.6 per cent and Rhode Island third, with 75.3 per cent.

The scantiest percentage of church affiliation is in Washington State, where only 32.5 per cent belong. Next, in small degree of membership, is Oregon, with 33 per cent, and California, with 33.5 per cent.

Regionally, that same pattern holds true, with the all-time segment of church-belonging—33.5 per cent—in the Pacific coast region. The heaviest affiliation is in the New England states, where 60.4 per cent belong.

The 237-page statistical report was a joint project of the Glenmary Research Center, a Catholic agency in Washington, D.C., and research sections of the interdenominational National Council of Churches and the Lutheran Church-Missouri Synod.

Here is how the 50 states rank in percentage of people belonging to churches:

Utah, 83.6; North Dakota, 76.6; Rhode Island, 75.3; South Dakota, 69.2; Wisconsin, 67.3; Minnesota, 66.3; New Mexico, 63.3; Massachusetts, 63.2; Iowa, 62.4; Nebraska, 60.4; Connecticut, 59.4; Louisiana, 59.2; Texas, 56.2; Illinois, 55.2; Oklahoma, 55.1; Kentucky, 54.8; Idaho, 53.6; Kansas, 52.7; South Carolina, 52.4; Montana, 52.3; Vermont, 52.1; New Jersey, 51.8; Mississippi, 51.1; Missouri, 51.1; North Carolina, 50.7; New Hampshire, 50.3; Tennessee, 50.1; Alabama, 47.8; Wyoming, 47.6; Arizona and Ohio, 47.4; New York, 47; Georgia, 46.2; Michigan, 45.9; Arkansas, 45.8; Maine, 44.8; Indiana, 44.5; Virginia, 43.3; Delaware, 43.3; Maryland, 42.3; Colorado, 41.5; Florida, 41.2; West Virginia, 40.5; Hawaii, 37.9; Nevada, 37.8; Alaska, 37; California, 33.5; Oregon, 33; Washington, 32.5.

Methodist Pastoral Changes Announced At Annual Meeting

AMARILLO — Pastoral changes for Methodist churches at Midland, Lamesa, Andrews and Serrano were among those announced Thursday at the close of the annual meeting of the Northwest Texas Conference of the United Methodist Church.

Dr. Albie H. Carleton, bishop of the New Mexico Area, Northwest Texas conference of the U.M.C., presided at the meeting here and announced pastoral appointments for the coming year.

Among the pastoral changes within the Big Spring District of the Northwest Texas Conference were the following:

St. Paul U.M.C., Midland: The Rev. Thomas Nelson, transferred from First United Methodist Church at Memphis, to succeed the Rev. Samuel Anslam, who goes to Forest Heights Church at Lubbock.

St. Luke's U.M.C., Midland: The Rev. William M. Wilkinson, pastor of Andrews' Means Memorial United Methodist Church, to replace the late Dr. Burgin Watkins.

Means Memorial U.M.C., Andrews: The Rev. Jarrett Sharp, from the United Methodist Church at Stamford, to succeed the Rev. William M. Wilkinson.

First U.M.C., Lamesa: The Rev. Alvin Cooley, pastor of Sweetwater's First U.M.C. the last six years, to succeed the Rev. Newton Starves, appointed to First U.M.C. at Sweetwater.

Northridge U.M.C., Lamesa: The Rev. Julius Early, from Amarillo's Wesley U.M.C., to succeed the Rev. James Smith who goes to the Hamlin U.M.C.

First U.M.C., Serrano: The Rev. Henry Bailey, from Crosbyton U.M.C., to succeed the Rev. Rodney Williams, named pastor of First U.M.C. at Carlsbad, N.M., in the New Mexico Conference.

Coahoma-Westbrook churches: The Rev. Homer Stanton — The Great Plains-Caprock Singing Convention will be a weekend event here.

Gospel music groups from a wide sector of West Texas and New Mexico will be featured at the gathering, scheduled to begin at 7:30 p.m. Saturday in the Cap Rock Auditorium here. A second session will begin at 10 a.m. Sunday.

Leaders of the gospel singing organization include Woodson Campbell of Lubbock, president; Grady Standefer of Stanton, vice president, and Verla Doggett, secretary.

Salley, from Surray U.M.C., to succeed the Rev. Ray A. Elmore, appointed to Silverton, Trinity and Tulsa Methodist churches.

O'Donnell-Draw churches: The Rev. Cecil Hardway, transferred from the New Mexico U.M.C. Conference, to succeed the Rev. Olaf Butler, transferred to the Paducah U.M.C.

Welch church: The Rev. Wayne Norman, from Blackwell-Sheep churches, who will serve during the summer. He succeeds the Rev. Harvey L. Whittenburg, who goes to the Hartley U.M.C.

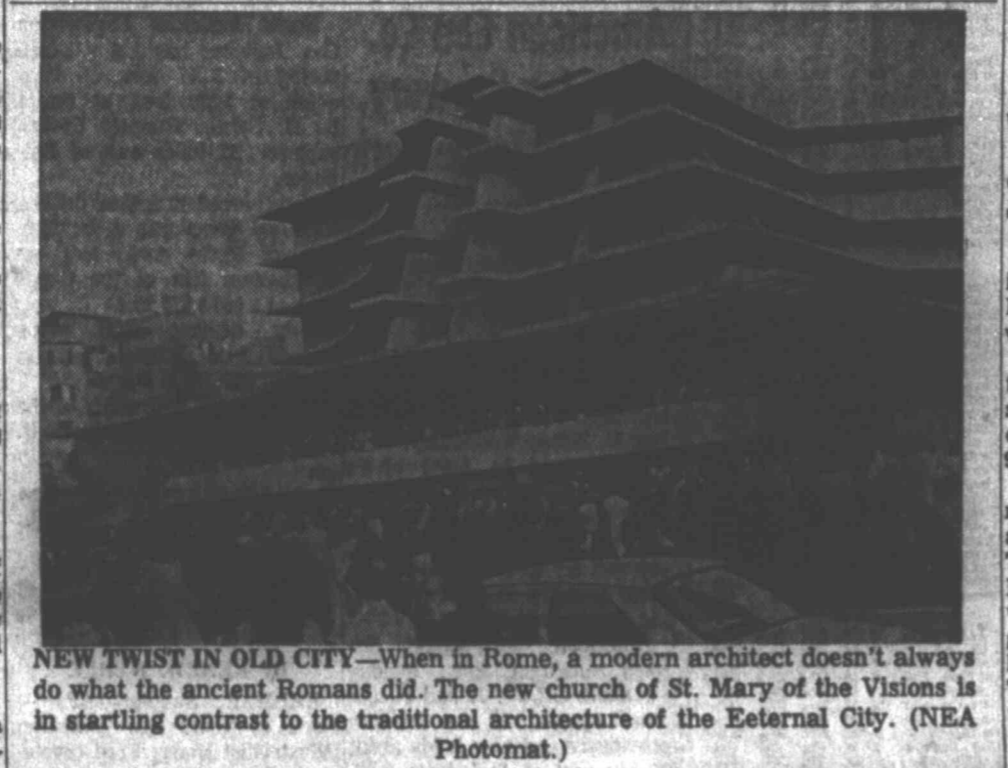

In addition to the Big Spring District, the Northwest Texas Conference also includes the Abilene, Plainview, Lubbock, Amarillo, Pampa and Seymour districts, pastoral appointments for which also were announced at the conclusion of the annual meeting this week.

Conference delegates voted to accept the invitation of the First United Methodist Church of Lubbock to host next year's meeting.

Deacons ordained during the final day of the conference included Stephen E. Adcock and Denny B. Whitehead, both of Lamesa.

Here is how the 50 states rank in percentage of people belonging to churches:

Utah, 83.6; North Dakota, 76.6; Rhode Island, 75.3; South Dakota, 69.2; Wisconsin, 67.3; Minnesota, 66.3; New Mexico, 63.3; Massachusetts, 63.2; Iowa, 62.4; Nebraska, 60.4; Connecticut, 59.4; Louisiana, 59.2; Texas, 56.2; Illinois, 55.2; Oklahoma, 55.1; Kentucky, 54.8; Idaho, 53.6; Kansas, 52.7; South Carolina, 52.4; Montana, 52.3; Vermont, 52.1; New Jersey, 51.8; Mississippi, 51.1; Missouri, 51.1; North Carolina, 50.7; New Hampshire, 50.3; Tennessee, 50.1; Alabama, 47.8; Wyoming, 47.6; Arizona and Ohio, 47.4; New York, 47; Georgia, 46.2; Michigan, 45.9; Arkansas, 45.8; Maine, 44.8; Indiana, 44.5; Virginia, 43.3; Delaware, 43.3; Maryland, 42.3; Colorado, 41.5; Florida, 41.2; West Virginia, 40.5; Hawaii, 37.9; Nevada, 37.8; Alaska, 37; California, 33.5; Oregon, 33; Washington, 32.5.

NEW TWIST IN OLD CITY—When in Rome, a modern architect doesn't always do what the ancient Romans did. The new church of St. Mary of the Visions is in startling contrast to the traditional architecture of the Eternal City. (NEA Photomat.)

Biggest Stories Often Religious

NEW YORK (AP) — Hindright puts events in clearer perspective and points up the really decisive occurrences, the news that shapes history. From that long-range view, some experts have found that the biggest stories often have been religious.

"It came as a great surprise," says Will H. Yolen, chairman of the publishing committee of the Overseas Press Club. The club recently tapped the seasoned news judgment of members in compiling a list of the greatest news happenings of all time.

Of 140 suggestions, he says at least a third of them fell in the religious category. The club's board, made up of veteran correspondents, whittled the list to 23 top events for a book to be called "Newsbreak."

Eight of those prime occurrences were of a religious nature, making the subject loom larger than any other over the long stretch of time in the making of really big news.

Those in the religious category are:

"The Creation," "The Tower of Babel," "Cain Kills Abel—Homicide I," "Moses and Law and Order," "Buddha—Asia's Light of the World," "Christ and the Resurrection," "The Popes" and "The Children's Crusade" to the Holy Land in the Middle Ages.

The other biggest newsmakers of history which are included, some of them also containing religious elements, are: "The First Word," "The Invention of the Wheel," "Discovery of the Circulation of Blood," "The Invention of Money," "Helen and the Fall of Troy" and "Genghis Khan and the Huns Turn Back."

Also "Gutenberg and the Invention of the Printing Press," "Christopher Columbus Discovers America," "The First Constitutional Convention," "A Word of Truth — Peter Zenger," "Gettysburg Address and the Civil War," "Beginning of Powered Flight," "The Russian Revolution," "Hitler — The Rise and Fall of Germany" and "Men Walk on the Moon."

Memorial Christian Schedules Its VBS

Memorial Christian Church will hold its annual vacation church school next week.

Monday through Friday classes are scheduled for 9:30 to 11:30 a.m. daily in the church fellowship hall.

Theme for the school is to be "God's People Must Choose," with class sessions offered daily for children of kindergarten age through 6th grade level.

An ice cream social for the entire church membership on Sunday evening, June 16, will officially conclude the church school.

Bible School Begins Next Week

Travis Baptist Church, 1000 E. 6th St., will hold vacation Bible school classes next week.

The Monday through Friday classes will be conducted between 9 and 11 a.m. There will be classes for children 4 through 12 years of age. Commencement exercises will be held the evening of June 14, said the Rev. O. N. Reed, pastor. All children in the community are invited to attend the school.

Crane Bible School Concludes Tonight

CRANE — First Baptist Church of Crane will conclude its vacation Bible school with special exercises at 7:30 p.m. today.

The school began Monday for children 3 years of age through 6th grade level. The Rev. A. D. Klyn, pastor, has served as principal.

Proceeding tonight's closing ceremonies, an open house for parents to view their children's work will be held beginning at 6:45 p.m.

Peter Marshall's Son To Preach At Lamesa

LAMESA — A special church before becoming pastor of the East Dennis Community Church at East Dennis, Mass. As a gifted speaker and teacher, he is in great demand for personal appearances throughout the nation and his taped sermons are widely circulated. He will be making his first visit to West Texas next week.

Mr. Marshall, son of the late Peter Marshall and of Catherine Marshall, who wrote the best-selling book on her husband's life and work, will preach at services at 8 p.m. Monday and Tuesday in the Lamesa High School auditorium. He will conduct teaching sessions at 10 a.m. and 2 p.m. Tuesday in the Forest Park Community Center. His visit here is sponsored by Christian laymen in Lamesa, and all preaching and teaching events will be open to the public.

Mr. Marshall is a graduate of Yale University and the Princeton Theological Seminary. He was ordained in 1965 and first served as pastor of a West Hartford, Conn., Presbyterian

Emory Bellard To Be Featured At Aggie Dinner

Texas A&M head football coach and athletic director Emory Bellard will be the featured speaker at the Permian Basin Texas Aggie dinner, June 19, at the Restaurant and Poolside, in the Villa del Sol Motel on IS-20 in Odessa.

Bellard will discuss prospects for the upcoming season and the Aggies changing athletic program.

The evening will start with a 7 p.m. reception followed by dinner at 8 p.m. Cost will be \$5.50 per person.

Ticket information can be obtained by calling either Mike Butler at 683-1281, ext. 369 or Ron Tonne at 684-6651 before 5 p.m. on weekdays. On weekends and after 5 p.m. contact Butler at 687-2339.

Vacation Bible School Scheduled

First Baptist Church will hold its 1974 vacation Bible school Monday through Friday next week.

Children four years old to those in sixth grade level of school are eligible to attend classes, which will be held from 9 a.m. to 12 noon daily.

Bible study, mission study, music, crafts and recreational activities are planned each day. The school will conclude with Parent's Night next Friday, which will include a special program in the sanctuary and open house in the various classrooms. The Bible school will be open to all children of the community.

Paisano Baptist Encampment Set

MARFA — Youth from throughout Central and West Texas will gather at Paisano Baptist Encampment June 17-21 for the 1974 West Texas Youth Congress.

Program personalities for the 11th annual congress will include the Rev. Bobby Eklund, pastor of Hurst's First Baptist Church, as camp pastor; Lynn Garrett, music and youth director at First Baptist Church, Seminole, as music leader; Carlton Dillard, music-youth director at Crane's First Baptist Church, as camp pianist, and the Rev. Alvin Hillbrunner, pastor of Pleasant Grove Baptist Church at Dallas, as Bible teacher.

Among activities to be offered at the congress are Bible study, discussions, special inspirational and worship services, and a variety of recreational activities.

The congress is open to young people 13 through 21 years of age. Pre-registration blanks are available at most Baptist churches in the region, or additional information and registration forms may be obtained from the Rev. A. D. Kyle, in care of First Baptist Church, Crane 79731.

Midland young people are invited to contact the Belview Baptist Church at 1710 N. Big Spring St. The Midland church's telephone number is 682-0468.

Christian Scientists Attend Boston Meet

BOSTON, Mass. — More than 6,500 Christian Scientists from many parts of the world, including those from West Texas, have been in attendance at the denomination's annual meeting in Boston this week.

DeWitt John, a longtime member of The Mother Church, The First Church of Christ, Scientist, and a former editor of the widely-read Christian Science Monitor, was announced as the new chairman of the Christian Science board of directors.

Theme of the meeting was "Spirituality — The Need For Today," and the new chairman told members in attendance that today's need for moral integrity is "one of the most obvious urgencies in our society." He pointed out that "no nation could long prosper while drifting into a miasma of moral blindness, public and private . . . At the heart of all of today's needs is the need for spiritualization of thought, which reveals a new heaven and new earth, present here and now, in which man is armed with spiritual power, dominion and intelligence."

Mr. John was editor of the Christian Science Monitor for six years prior to joining the denomination's five-member board of directors in 1970. A

Vocal Ensemble To Sing Here At Sunday Service

The Midland Foursquare Church, 415 W. Alta St., will be host Sunday evening to "His Song," a vocal ensemble from the West Coast.

The multi-media presentation of sacred music will begin at 8 p.m. and will be open to the public at no charge, said the Rev. Pete Adcock, pastor of the host church.

The vocal group is from L.I.F.E. Bible College at Los Angeles, Bible training center of the International Church of the Foursquare Gospel. The eight members of "His Song" are among the more than 650 students at L.I.F.E. College preparing for the ministry.

Accompanying the singers on their current tour to many parts of the nation are Dr. Donald McGregor, executive director of the college, and Steve Cauble, director of the college's conservatory of music. In addition to the program scheduled in the Sunday evening service, a message will be delivered by Dr. McGregor, Mr. Adcock said.

Reduction In Prime Rate Keeps Market Rally Alive

NEW YORK (AP) — The stock market continued its week-long rally today, spurred by a prime-rate reduction at New York's First National City Bank.

The noon Dow Jones average of 30 industrials was up 7.7 at 853.10, and gainers maintained a 4-to-1 edge on losers on the New York Stock Exchange.

First National City touched off an early burst of buying when it posted a quarter-point drop to 2 3/4 per cent in its prime — the short-term interest rate charged on loans to big business. About a half-hour into the session activity quieted down as the market seemed to pause for breath after its sharp rise since the start of the week.

NL Industries, the Big Board volume leader, rose 1/4 to 14 in a 200,000-share block trade.

On the American Stock Exchange, the market value index was up .87 at 26.40.

Other Big Board issues on the active list included Procter & Gamble, up 1/4 at 101 1/2, and Xerox, up 1/4 at 124 1/4, with both stocks hitting 1974 highs during the session.

The indications of a downturn in interest rates spurred buying in a wide range of financial issues. Citicorp, parent holding company of First National City, was up 1/4 at 40 1/4, for example, and MGIC Investment added 1/4 to 40 1/4.

Also strong were consumer-staple company issues and many real estate investment trusts.

Sydex, down 1/4 at 67 1/2, was the most-active Amerex issue.

The NYSE's noon composite index of all its listed common stocks was up .37 at 49.75.

Open Meetings Violation Trial Ends In Acquittal

EL PASO, Tex. (AP) — Mayor Fred Harvey and alderman Ruben Schaeffer were found innocent Thursday on charges of conspiring to violate the Texas open meetings law, and Harvey said he thinks justice prevailed.

After the trial, Harvey said, "I have to say that I think justice prevailed. Of course I'm pleased with the verdict."

Schaeffer said, "The evidence pretty much speaks for itself. I'm pleased with the verdict, and now we can get back to work."

Former El Paso broadcast newsman Richard Wheatley, who brought the complaint against the two officials, said, "I am not unhappy about the outcome... I got my day in court."

Wheatley contended Harvey and Schaeffer met Jan. 4 with U.S. transportation official Ed Foreman in numbers less than a quorum to bar the press from the meeting.

The five-woman, one-man jury deliberated 75 minutes before returning the innocent verdict in County Court at Law No. 3.

The case was believed to be the first test of the new Texas open meetings law.

Pernian Basin OIL & GAS LOG

(Continued From Page 1A)

Wilson survey 1, thence 197 feet west to location in Mrs. A. C. Andrews survey 739.

Through Morrow perforations at 11,144-11,158 feet, it flowed the following per day gauges: 45 minutes on an 11-64-inch choke, 1,850 million cubic feet; 30 minutes on a 12-64-inch choke, 2.3 million cubic feet; 45 minutes on a 14-64-inch choke, 3.55 million cubic feet, and 45 minutes on a 16.5-64-inch, 4.8 million cubic feet.

It flowed a trace of distillate and water at the daily rate of 23 barrels, along with the gas.

The well, drilled as a wildcard to 11,523 feet, has 5 1/2-inch casing set on bottom, and is plugged back to 11,461 feet.

It is shut in for pipeline connection and for calculation of absolute, open flow.

Location is 860 feet from south and 1,980 feet from west lines of section 22-20-28, nine miles northeast of Carlsbad.

Outpost In Eddy Flows Morrow Gas

Hanagan Petroleum Corp., Roswell, No. 1 Ocotillo Hills, one-mile east outpost to Morrow production in the Catchaw Draw field of Eddy County, N.M., flowed gas at the rate of 9.5 million cubic feet per day from the Morrow.

Flow was through a 3/4-inch choke and perforations at 10,929-10,978 feet, which had been acidized with 3,000 gallons. Testing continued.

Location is 1,650 feet from north and west lines of section 21-21-29, three miles northeast of Carlsbad.

Judge Reinstates Chavez Probation

Marco Chavez, 28, of 1207 E. Estes St., pleaded guilty today to four charges filed against him at a probation revocation hearing in 142nd District Court. He received a reprimand and reinstatement to his five-year probation.

Chavez was charged on three past offenses involving forged instruments and one new charge of purchasing a firearm under false pretext while on probation for a felony offense.

Chavez was represented by court-appointed attorney Woody Weir while the state's case was presented by Asst. Dist. Atty. Jerry Buckner.

Judge Perry Pickett made a ruling of leniency in the case after hearing arguments from both attorneys.

Completion Set At Rannels Test

North American Exploration Co., Abilene, has set 4 1/2-inch casing at 3,287 feet, on total depth of 3,310 feet, at No. 1 B. C. Sykes, Rannels County explorer, 12 miles east of Ballinger.

It recovered 10 feet of drilling mud and flowed gas at the daily rate of 50,000 cubic feet, on a drillstem test of the Cappel lime at 3,060-3,076 feet.

Only drilling mud was recovered on drillstem tests in the Fry and Goheen zones.

It spots 407 feet north of the northeast corner of William F.

American Can Co. Buys Jax Brewery, May Sell Trademark

NEW ORLEANS (AP) — The American Can Co. has decided to sell the Jax beer trademark to Pearl Brewing Co. of San Antonio, Tex., the New Orleans States-Item reports.

American Can, which recently bought the floundering brewery, ousted former owner Ben D. Sisson Wednesday.

Sisson said in April that after eight years of declining sales and two years in the red, Jax would shut down its brewery and try to arrange with another brewery to continue making Jax at its plant.

American Can bought Sisson's remaining stock Monday for about \$32,000. It had bought other claims on the brewery previously and now holds about 95 per cent of Jax' debts, estimated at \$9 million.

Enrollment Drops In Summer School

High school summer school enrollment experienced a large dropoff from last year, Principal Henry Kitman said Friday.

Kitman said 190 students, not including those taking drivers education had enrolled for the summer term compared to 299 last summer.

One section of mathematics had to be dropped because of the low enrollment figure.

"This has been a trend for some schools to have a drop in enrollment for summer school in the last few years," Kitman said. "I don't have any other idea why this is true unless students are just tired of school."

Burglars Steal Candy, Tear Up Concession Stand

Burglars struck the Redfern Field concession stand at Hogan Park Thursday. They made away with \$40 in assorted candy and caused more than \$100 worth of damage to the concession stand.

According to Midland police, a 15-20 inch hole was chopped in the roof of the concession stand to gain entry. The burglars then took candy and threw several pieces of concession equipment into a nearby swimming pool. No arrests have been made, police said.

Tower To Grace Midland Skyline

(Continued From Page 1A)

last 71 years and currently is a major regional bank.

It came into existence on July 3, 1903, when the stockholders of the Odessa National Bank voted to change the name to The Midland National Bank and moved the facility 20 miles east.

The bank was first located at the corner of Wall and Main Streets. In April 1909, the bank, the Llano Hotel in which it was housed and several other buildings were destroyed by fire and Midland National was rebuilt on the same location.

The bank building underwent a number of remodelings and expansions over the next 44 years, until February 1963, when a new building at 401 W. Texas St. was occupied. The building was expanded two stories in 1956 and seven more floors were added in 1958.

On June 29, 1963, the Bank of the Southwest, located across the street, merged with Midland National Bank of the Southwest president and board chairman Tony A. Martin became Midland National's senior executive vice president and vice chairman of the board. A short time later, Martin was elected president. Murray Fasken, who has been associated with MNB all his career, serves as chairman of the board.

In September 1969, The Midland National Bank became part of the Midland National Corporation. Then on March 31, 1972, the bank became a member of the First City Bancorporation of Texas, Inc., in an exchange of stock, making it part of one of the largest bank holding companies in the Southwest.

SPECTACULAR COLLAPSE—The camera of Stanton Reporter publisher Terry Neill catches the dramatic collapse of the dome of the old Martin County Courthouse. The building which had stood since 1910 is being torn down to make room for a new \$616,000 courthouse.

Kissinger Backs Aid Bill

(Continued From Page 1A)

new American role in the Middle East.

As part of that effort, he gave a news conference Thursday, in which he said there was "some validity to the criticism" that his intensive efforts in the Middle East may have been costly in other areas of foreign affairs.

But he said, in response to questions, that his role in arranging military disengagement between Israel and Egypt and later Syria will "not become the normal pattern of diplomacy."

During the 50-minute news conference, Kissinger also said:—The United States does not seek to "expel the Soviet Union" from the Middle East and "indeed has no capability" to do so.

—He did not commit the

United States to giving Syria \$100 million in economic aid as a price for a cease-fire with Israel. However, Syria and other Middle Eastern countries could be eligible for reconstruction aid with the approval of Congress.

Kissinger was brought to the point of visible anger by reporters who insisted on questioning his role in government wiretaps on administration officials and newsmen.

Although he tried several times to cut off such questions, he was pushed hard on the issue. Nevertheless, he refused to go beyond statements saying his testimony last fall before the Senate Foreign Relations Committee covered the issue.

In that testimony, Kissinger said he did not order wiretaps and he had no knowledge of the existence or operation of the so-called plumbers group used by the White House to search out alleged national security-endangering leaks.

The secretary also said that there is little chance President Nixon and Soviet leaders will sign a new strategic arms-limitation treaty during the chief executive's summit meeting in Moscow later this month.

Concerning the problems of Soviet restrictions on Russian Jews, Kissinger said he is continuing efforts to work out a compromise with congressional leaders and that some progress has been made.

Joan Kennedy Attends Services

WASHINGTON (AP) — Sen. Edward M. Kennedy's wife, Joan, joined members of her family at memorial services for her brother-in-law in her first public appearance in weeks.

Mrs. Kennedy, who has been hospitalized for fatigue and mental strain, attended services Thursday at Arlington National Cemetery marking the sixth anniversary of the assassination of Sen. Robert F. Kennedy. She was reported looking well and rested.

Other Costello children, ages 5 and 2, were in the house during the attack but managed to escape and alert an aunt, who called police. The younger children were not harmed.

Investigators said 5-year-old Gloria gave them the first name of a man she named as her mother's and sister's attacker.

Mrs. Costello's neck was almost severed and Teresa suffered multiple stab wounds in the chest. No weapon was found.

Church Bingo Wins Nod By Constitution Group

AUSTIN, Tex. (AP) — Prime interest rates are over 11 percent, and rates on short-term, small loans go up into the hundreds, but not if Rep. Jim Nugent, D-Kerrville, can help it.

Nugent proposes a constitutional ceiling of 10 percent interest in Texas.

His is the first of 18 amendments to the usury section of a proposed constitution that delegates grappled with today.

The convention voted 87-72 Thursday to prohibit lotteries or gift enterprises, except for such things as church bingo, and left it up to the voters whether to outlaw pari-mutuel wagering on horse races.

Two Days of Debate

A total of 18 proposals on gambling were considered over two days of debate.

The version finally accepted gives Catholics and veterans groups, among others, constitutional status for their games, which are illegal today but are not prosecuted.

It gives Baptists and others opposed to horse-race betting a chance to prohibit it in the constitution. The present constitution is silent on pari-mutuel wagering, meaning the legislature has the authority to allow it, as was done in the 1930s.

Sen. Jim Wallace, D-Houston, said Texans have voted against horse-race proposals eight times in 34 years. They should be allowed a chance to speak finally upon the subject, he said.

If the proposed constitution is defeated, the separate submission on pari-mutuel wagering is approved, it will become a part of the 1978 constitution.

The convention rejected attempts by Rep. Richard Reynolds, R-Richardson, to require the judicial retirement system to be "actuarially sound," as are all other state employee retirement systems.

Rep. James Kaster, D-E Paso, supported the Reynolds amendments, asking why "judges in air-conditioned offices, with briefing clerks" should be treated differently than "some guy cutting weeds out in the sun or a teacher surrounded with unruly children."

Judges get half of their salary upon retirement, much better retirement pay than any other state employe gets.

Supporters of different treatment for judges argue that special benefits must be offered to get qualified lawyers to take pay cuts to sit on the bench.

The first Reynolds amendment, which would require identical handling of all retirement systems, was defeated on an overwhelming, non-record vote.

The second, which would require the legislature to bring the judicial retirement system into line with all the others within three years, was rejected by a 114-27 vote.

Woman, Girl, 12, Brutally Murdered

SAN ANTONIO (AP) — A 29-year-old woman and her 12-year-old daughter were brutally slain early today in their mobile home but a medical examiner said police were in error when they presumed the victims were raped.

Officers said the assailant almost beheaded Guadalupe Costello and stabbed her daughter Teresa to death.

The bodies were discovered shortly after 2 a.m. in a mobile home into which the Costello family moved only Thursday night. The dead woman was separated from her husband.

Stanton Landmark Almost Demolished

STANTON — Demolition of the old Martin County Courthouse was continuing this week, following the spectacular collapse Saturday of the structure's picturesque dome.

Wilson Salvage Co. of Lubbock has been tearing out interior walls since early April and on Saturday workmen pulled down the dome which had been Stanton's centerpiece since 1910.

Demolition is expected to be complete by July 6 and then Pace Construction Co. of Midland will take over. Pace

will construct a new \$616,000 courthouse, designed by the Andrews architectural firm of Riberd and Hucikabee.

Completion of the modern structure is expected by the summer of 1975.

The courthouse being torn down was the pride of the entire area in 1910 when it was constructed for \$40,000. It was Martin County's second courthouse — the first was built in 1887 at a cost of \$24,000.

The second structure stood until the 1950s, when \$80,000 was spent to remodel it.

Kleindienst—

(Continued From Page 1A)

have begun preliminary moves to decide if he should be disbarred.

Kleindienst had testified in 1972 before a Senate committee that President Nixon had not interfered with an antitrust case against International Telephone & Telegraph Corp., a giant conglomerate.

Later, he acknowledged that Nixon had ordered him to drop the pending antitrust suit against ITT. Kleindienst said he was able to persuade the President to change his mind.

"I was wrong in not having been more candid with the committee and I sincerely regret it," he said the day he pleaded guilty.

Ford's Performance Rating Improves

NEW YORK (AP) — Vice President Gerald R. Ford has gotten a 43-33 per cent positive rating on performance in the latest Harris poll. That's six points better than he did in March, but 14 points under his rating when he was named vice president last November.

Suspect Jailed, Charged With Theft Of Mementoes

STANTON — Sheriff Dan Saunders ran across one of his most unusual arrests Thursday when he took custody of Leroy Gregory, 49, of Lubbock.

Gregory was picked up by Midland police detectives at a scrap metal yard after being accused of taking a box of mementoes from the cornerstone of the old Martin County Courthouse which is being torn down.

According to Saunders, Gregory had been working on the demolition crew for about a month when the cornerstone of the courthouse was raised last Wednesday. The sheriff said that Gregory took the metal box from the courthouse and put it in his pickup. Gregory later opened the box with a screwdriver at a motel where he was staying.

Saunders said the box was noticed missing Thursday and the alert was put out for Gregory after some employes said they thought he had taken the cornerstone box.

Gregory remains in custody in the jail annex to the old courthouse at the very site where he once was working.

He was charged with felony theft in Peace Justice M. L. Gibson's court, where bond was set at \$2,000.

Sheriff Saunders reported that as far as he knew all contents of the cornerstone box were recovered, and that future ceremonies centering around the old documents and coins contained in the box could now be rescheduled.

Where's The Fire?

STANTON — Sheriff Dan Saunders reported that as far as he knew all contents of the cornerstone box were recovered, and that future ceremonies centering around the old documents and coins contained in the box could now be rescheduled.

Dallas Baptist College Head Quits

DALLAS (AP) — Dr. Charles P. Pitts, president of Dallas Baptist College, announced his resignation today.

He made the announcement during a meeting of the faculty, staff and trustees.

Abrams Recovering

WASHINGTON (AP) — Gen. Creighton W. Abrams, the Army chief of staff, is recuperating from four hours of surgery to remove his cancerous left lung.

Middendorf Wins Senate Confirmation

WASHINGTON (AP) — J. William Middendorf II has been confirmed by the Senate to be secretary of the Navy. Middendorf's confirmation Thursday promotes him from Navy undersecretary, a post he's held since last year. A former New York banker, Middendorf also served as ambassador to the Netherlands.

Illegal Restriction

WASHINGTON (AP) — The Food and Drug Administration acted illegally when it restricted the distribution of the heroin-substitute drug methadone to clinics and hospitals, U.S. District Judge John H. Pratt has ruled.

Contempt Count Threatens Nixon

(Continued From Page 1A)

needed for Ehrlichman's defense in an upcoming trial in connection with a burglary at the office of the psychiatrist of Pentagon Papers figure Daniel Ellsberg.

In his letter, Nixon said he would make the final decision on what material would actually be made available as evidence.

Gesell accepted the agreement to allow Ehrlichman and his lawyer to review the material but said he—Gesell, not the President—would make the final decision on what material would be used as evidence.

Gesell reiterated that stand today.

The judge then began a hearing on who has legal custody of the material and to determine whether sufficient cause exists to hold a contempt of court hearing.

Gesell ordered the hearing after asking St. Clair: "You are saying he (the President) will not comply with the court's order."

"I think that's a fair reading," St. Clair responded.

Gesell, who had said earlier that unless Ehrlichman gets all the material from his own White House files that he deems necessary for his defense, he might have to dismiss the conspiracy case against Ehrlichman, then said: "I propose to have a hearing into who has custody and control . . . so I can take appropriate action under the contempt statute."

Takes Stand

"The dismissal the President's action seems to be pointing for is a course I should not follow until I have exhausted every other opportunity."

Ehrlichman, Nixon's former domestic counselor, immediately took the stand as a witness.

Ehrlichman is one of six defendants in a case charging a civil rights conspiracy against Dr. Lewis Fielding, a Beverly Hills psychiatrist who had been treating Pentagon Papers figure Daniel Ellsberg.

Ehrlichman has subpoenaed all his personal papers from January 1971 through April 30, 1973, and the White House had agreed to give him and his lawyer access to the documents.

But President Nixon had told the judge in a letter that he, the President, would make the final determination of what Ehrlichman could use as his trial. Gesell said that decision was up to the court alone.

Bail—

(Continued From Page 1A)

officers "in the immediate area of the drop. The whole thing, roughly, took place within 15 minutes."

The woman had been released about 10 blocks away minutes earlier.

Wyatt was charged with kidnapping, extortion, theft by extortion and weapons violations.

Municipal Court Judge John J. Poserina set the \$1 million bail during a 30-minute hearing early today and scheduled a preliminary hearing for June 12.

Philadelphia Asst. Dist. Atty. William T. Cannon said there were no federal charges because there was no interstate transportation and the abduction did not last longer than seven hours.

After being questioned for several hours by FBI agents, Mrs. Friedland, mother of four, returned late Thursday night to the sprawling \$200,000 estate in Gladwyne, in a suburban section known as the Main Line.

The Friedlands are prominent socially and culturally in Philadelphia.

Sen. Gardener Bound

Early Thursday afternoon, as Mrs. Friedland was working in a small garden, three men, two wearing stocking masks, forced her into the house and bound Mrs. Friedland's 5-year-old son Roger and an elderly gardener with wire rope, police said. She was forced into a brown Ford and driven away.

FBI agent Kent said the kidnapers telephoned her husband shortly after 2 p.m. at his downtown office and told him his wife was being held for ransom. They instructed him to go to a phone booth several blocks away and wait for a call.

The FBI said Friedland did as instructed and received a call at the telephone booth an hour later. He was told to get \$60,000, drive to a nearby location in South Philadelphia, leave the money in the car and then leave the car for 30 minutes.

Kent said Friedland got the money "in \$100 bills and less" and drove his Mercedes-Benz to the location. He said Mrs. Friedland was released shortly later and called her husband's office.

Nixon, Kissinger Allegedly Given Wiretap Reports

DETROIT, Mich. (AP) — Secret documents show that President Nixon and Henry A. Kissinger received regular summaries of spying and wiretapping conducted by the FBI on White House subordinates and supporters, the Detroit Free Press says.

The documents, given Thursday to the House Judiciary Committee, indicated that Nixon, Kissinger and former White House Chief of Staff H. R. Haldeman were actively involved in domestic spying, the newspaper said in its morning edition today.

The documents show that between May 1969 and February 1971, then-FBI Director J. Edgar Hoover sent the President, Kissinger and Haldeman frequent memos on the White House surveillance program, the paper said.

The article said the wiretaps never led to incriminating information, but netted data on personal habits, a few minor vices and private political beliefs.

Mutschers Report Reconciliation Bid

AUSTIN, Tex. (AP) — A court hearing over preliminary child custody and property issues in the Gus Mutschers divorce case was scratched today, and Mutschers' lawyer spoke of reconciliation efforts.

Donna Axum Mutschers, Miss America of 1964, filed suit Monday for divorce from the convicted ex-speaker of the Texas House. Today was the couple's fifth wedding anniversary.

On the motion of Mrs. Mutschers, Judge Mace Thurman Jr. vacated a temporary restraining order to preserve the couple's property intact and canceled today's hearing.

When asked what agreement had been made, Mutschers' lawyer, Frank Maloney of Austin, said: "That's a trade secret. I'm not trying to be coy with you. We are trying to hold things down. What you do in a divorce case is try for a reconciliation. These people have been under a lot of pressure."

"We are trying to maintain the status quo with an effort toward reconciliation," Maloney said in a telephone interview.

Before Thursday's action to halt the hearing set for today, Mrs. Mutschers had sought a temporary injunction to keep Mutschers from disposing of any of their property pending a final judgment in her divorce suit. She also sought custody of their 3-year-old son, Gus Hurley Mutschers, who she said in her petition was living in Brenham with his father.

Mrs. Mutschers, 32, said in her petition that their marriage had become "insupportable because of discord or conflict of personalities" — a standard ground under Texas' no-fault divorce law.

DURING 1971 HUNT FOR SECURITY LEAKS— Nixon Reportedly Eyed Widespread Lie Test Use

WASHINGTON (AP) — Presidential Intelligence Agency and the National Security Council, the source said. There is no evidence they were ever administered.

The source quoted Nixon as saying about the polygraph tests, "I don't know much about these things, but it scares the (expensive) deleted out of them."

The July 24, 1971, tape was played at the committee, conducting its impeachment inquiry, received evidence relating to the domestic surveillance activities of the Nixon administration.

It also received details about

White House-ordered wiretaps on 13 government officials and 4 newsmen, and about the "Huston Plan" for gathering domestic intelligence that contemplated the use of burglary and other illegal acts.

The late FBI Director J. Edgar Hoover vigorously opposed the plan, named for its chief drafter, Tom Charles Huston, and Nixon has said he withdrew approval July 26, 1970, five days after granting it.

Chairman Peter W. Rodino Jr., D-N.J., declined to answer when asked whether the committee received evidence the plan was terminated.

The administration justified all the activities examined by the committee on grounds of national security.

Rep. Robert F. Drinan, D-Mass., called the national security justification "totally unwarranted" in the case of the 17 wiretaps. He said nothing involving national security was picked up by any of the taps and that several of them remained for months after it was clear they were producing nothing.

Another member said the information was given to former White House aide H. R. Haldeman, who used it for political

purposes.

Drinan said at least one person also was kept under physical surveillance and the White House was told what he did when his family was out of town. None of the individuals was identified.

At its next session Tuesday, the committee will look into the break-in of the office of Daniel Ellsberg's psychiatrist by the special White House investigative unit—the plumbers.

Rodino said presentation of evidence can be completed in about five more sessions, or by June 19. It then will consider calling any witnesses that

might be needed, he said.

Republican committee members are demanding that witnesses be heard, but many Democrats feel the committee will have enough evidence by then to permit consideration of articles of impeachment.

Rodino said the committee may meet next week to consider issuing another subpoena for White House tapes relating to the dairy industry and International Telephone & Telegraph Corp., matters that the committee examined earlier in the week. It requested 94 taped conversations, but Nixon has refused to provide them.

Before Thursday's action to halt the hearing set for today, Mrs. Mutschers had sought a temporary injunction to keep Mutschers from disposing of any of their property pending a final judgment in her divorce suit. She also sought custody of their 3-year-old son, Gus Hurley Mutschers, who she said in her petition was living in Brenham with his father.

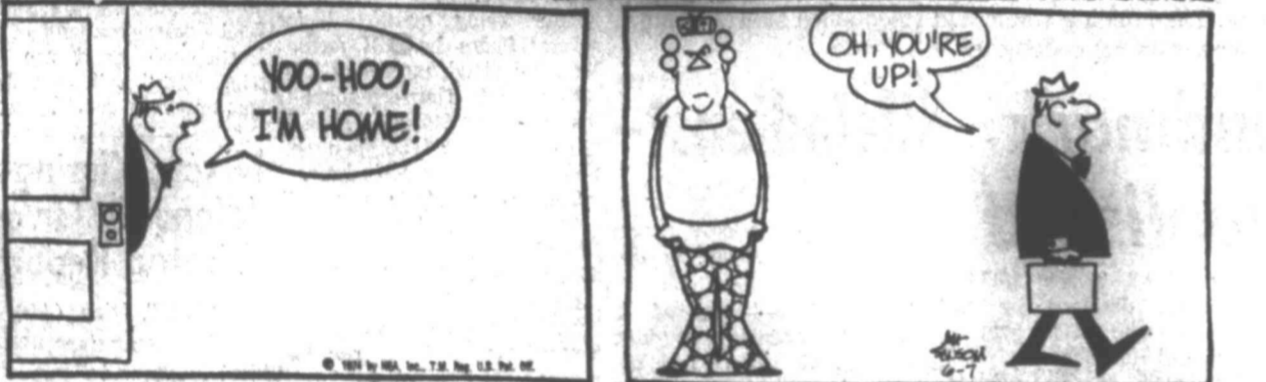

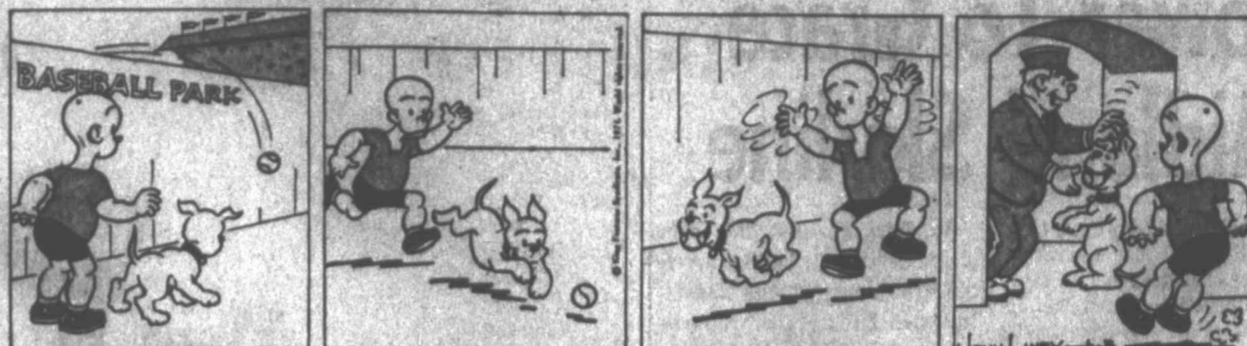

Mrs. Mutschers, 32, said in her petition that their marriage had become "insupportable because of discord or conflict of personalities" — a standard ground under Texas' no-fault divorce law.

Nixon Wants Court To Disclose Jury's Linking Him To Cover-Up

WASHINGTON (AP) — Now that the secret is out, President Nixon wants formal court disclosure that a federal grand jury linked him with the Watergate cover-up.

The matter was to be argued today before U.S. District Judge John J. Sirica, who barred such disclosure originally.

After it was reported Thursday that the Watergate grand jury voted 19 to 0 to include the President among indicted co-conspirators, Nixon asked Sirica to lift the protective order.

There was no indication whether special prosecutor Leon Jaworski would agree or contest the matter. The motion was filed by White House lawyer James D. St. Clair minutes before the court closed Thursday.

"The reasons for the continuation of the protective order are no longer compelling," St. Clair said.

He referred to "the grand jury's naming of certain individuals as co-conspirators," indicating that Nixon was not the only person on the list.

The names were expected to be made public eventually when prosecutors file a "bill of particulars" for the former Nixon aides and campaign workers scheduled to go on trial Sept. 9.

Such a bill insures that defendants are aware of allegations against them and is almost routinely requested before trial.

Legal experts said the grand jury's inclusion of the President weakens his legal argument for continuing to withhold subpoenaed tapes and documents.

Jaworski's attempt to pry 64 tape recordings from the White House is to be heard by the Supreme Court next month, focusing on whether executive privilege entitles the President not to release evidence requested for the cover-up trial.

"The argument that Mr. Jaworski will make will be essentially that executive privilege does not and cannot cover criminal activities by any member of the executive branch of the government," Supreme Court expert Philip Kurland told NBC News.

He added: "What the grand jury action does is to document the fact that the activities were criminal activities and therefore that the tapes should be produced as outside whatever executive privilege might exist."

Constitutional authority Alexander M. Bickel said that naming the President in the case puts before the court "a finding of probable cause that the staff involves criminal activity."

Jaworski undoubtedly would have disclosed the grand jury's action to the court, possibly in a sealed filing, so the public knowledge probably made little difference.

In deciding a previous tapes case last year, the U.S. Court of Appeals ruled that executive privilege was a question of competing interests—between the President's need for confidentiality in his official duties and "a strong showing of need" by another institution of government.

The disclosure added a potentially explosive element to the

House impeachment inquiry. "I think it's a matter members will view rather seriously," said Rep. Peter W. Rodino Jr., chairman of the Judiciary Committee.

Committee Republicans generally urged that its decision on whether the President's role in Watergate was grounds for impeachment be based on the evidence rather than on what the grand jury has concluded.

St. Clair said, "The grand jury allegation which is based on partial evidence produced only by the prosecutor does not automatically mean any individual is guilty. We have many examples of people charged by grand juries found to be innocent when all the evidence is in—as will be the case as far as the President is concerned."

Vice President Gerald R.

Ford said he is not sure the grand jury "has heard all the evidence." He said he probably has heard more evidence than the grand jury and repeated that he believes the President is innocent of any involvement in the Watergate break-in.

In other Watergate-related developments: —Kenneth E. Cole Jr., Nixon's chief domestic adviser, said the intent of the President during taped conversations with top aides about Watergate "was entirely proper and right."

—Atty. Gen. William B. French said the Watergate scandal has become the greatest cloud in the nation's history. It was his strongest condemnation of the scandal since he took office five months ago.

—A Judiciary Committee member, Rep. Elizabeth Holtz-Comstock . . . He wanted to see possible impeachment because hard, that he identified his of a suspicion that he "could not take with the country's."

Suspense Drama Opens Tonight On MCT Stage

The curtain goes up at 8:30 p.m. today on Midland Community Theatre's fourth production of its current season.

The production is a suspense drama, "Dr. Cook's Garden," by playwright Ira Levin, who also wrote "Rosemary Baby."

MCT assistant director Tom Mikotowicz has designed and directed production, which has Marvin Weiss and David Barlow in pivotal roles, supported by Patti Lankford, Helen Weiss and John Chais.

Some seats are still available for tonight's opening performance and will be for sale at the Theatre Centre box office before curtain time. Seats also may be reserved for the five additional performances of the drama scheduled through June 22.

Bentsen, Tower Agree On Troops

WASHINGTON (AP) — Texas Sens. Lloyd Bentsen, Democrat, and John Tower, Republican, voted against an amendment Thursday to force withdrawal of 125,000 U.S. troops overseas.

The measure, by Senate Majority Leader Mike Mansfield, D-Mont., was rejected by a 53-35 roll call vote.

Tower and Bentsen then voted against a Mansfield amendment to force the withdrawal of 76,000 U.S. troops overseas. It also was rejected, 46-44.

WAITS FOR RETURN OF HUSBAND—Ingeborg Niedermayer, shown with her daughter Gabrielle, hopes for the return of her husband, Thomas, who vanished in Northern Ireland more than five months ago. Niedermayer, a 45-year-old West German industrialist, was kidnaped outside his Belfast home last December. (AP Wirephoto.)

FBI Now Hunts Patricia As Bank Robber Suspect

SAN FRANCISCO (AP) — The FBI hunted fugitive heiress Patricia Hearst today as a suspected bank robber after her indictment in the April 15 holdup from material witness to suspected felon.

Miss Hearst, 30, also was charged with use of firearms in the \$10,000 Hibernia Bank branch robbery. The two charges carry a combined maximum prison sentence of 35 years.

Miss Hearst, daughter of newspaper executive Randolph A. Hearst, initially was not charged with robbery because of the possibility she was coerced into the crime by the SLA which kidnaped her Feb. 4. Four persons previously charged with the robbery were among the six SLA members killed in a May 17 shootout with police in Los Angeles.

Security camera photographs of a smiling Miss Hearst toting a carbine inside the bank were among the evidence considered by the grand jury in determining she willingly participated.

Two passersby were shot and seriously wounded during the holdup.

In an April 3 taped communique, Miss Hearst pledged herself to the revolutionary struggle of her captors. In a taped message a week after the holdup she declared she had joined in the robbery of her

dictment returned by a federal grand jury Thursday in U.S. District Court charged Miss Hearst's status in the April 15 holdup from material witness to suspected felon.

Miss Hearst, 30, also was charged with use of firearms in the \$10,000 Hibernia Bank branch robbery. The two charges carry a combined maximum prison sentence of 35 years.

Miss Hearst is wanted in Los Angeles on kidnapping and robbery charges with SLA members Emily and Bill Harris in connection with a bungled stoplight attempt.

On recommendation of U.S. Atty. James L. Browning Jr., Judge Oliver J. Carter dismissed the material witness warrant against Miss Hearst and continued her bail at \$500,000.

Midland Attorneys Named Fellows

AUSTIN — Three Midland attorneys have been selected Fellows of the Texas Bar Foundation.

They are Robert W. Fuller, Thomas P. Ingram and William B. Smith.

Their invitations to fellowship by the board of directors are recognition of lawyers "whose professional, public and private careers have demonstrated outstanding dedication to the welfare of the community, the traditions of the profession and the maintenance and advancement of the objectives of the State Bar of Texas," the foundation said.

On recommendation of U.S. Atty. James L. Browning Jr., Judge Oliver J. Carter dismissed the material witness warrant against Miss Hearst and continued her bail at \$500,000.

ODESSA — Sarah Crowe of Midland has been named director of news and information at UTPB.

Mrs. Crowe, 28, has been informational writer with the university's news and information service since October 1972.

Formerly a teacher in the Ector County Independent School District, she received her bachelor's degree in English from Southwest Texas State University.

First Graduate Students At UTPB Earn Degrees

Larry Turpen, 2811 Shandon St., joined four others recently in marking a milestone in the history of The University of Texas of the Permian Basin by becoming the first students to earn graduate degrees.

Turpen, the only Midlander in the group, received his Masters in Business Administration. He along with the other members of the pioneer class also received honorary life membership to the UTPB Ex-Students Association.

Turpen maintained a 3.6 grade point average at UTPB. At the same time he worked as a free lance anesthetist in this area. He plans to become an administrator of a small town hospital where he can combine his talent in anesthesiology with his business administration degree.

Larry Turpen

Turpen praised UTPB for the educational opportunity it provides and for its personal atmosphere. "There is that personal touch at UTPB which does not prevail at so many other schools," he said. "There is not the distinct differentiation between the students and the professors. It's a good school, a real good school. I'd encourage these kids around here to take full advantage of it."

Area 4-H Members Win State Honors

Several area 4-H members won honors at the State 4-H roundup, Tuesday and Wednesday at Texas A&M University.

In the dairy demonstration, Midlanders Nancy McDaniel and Frances Etheridge took top honors while Howard County's Kayla Gaskins and Kaye Hunt finished second.

Leah Dennis and Shara Gay Airhart, both of Dawson County, were the runnerup on the field crops demonstration, while Tranee Argo of Ector County finished first in the money management educational activity.

In the natural resources demonstration, Lynn Chamberlain and Theresa Gallagher, both of Midland, finished second in Division A while Vicki Calhoun was the runnerup in Division B.

The Orange County team of Todd Woodward, Jim Smithman, Dan Rasmell and Ted J. Whitmore won the rifle contest. Woodward took the top individual prize.

Midlanders Prissy Kall and Melinda Scott came in second in vegetable production and marketing demonstration.

Historical Society Will Meet Sunday

The Midland County Historical Society and Survey Committee will meet at 3 p.m. Sunday in the 1st National Room of the First National Bank.

Howard Redding of Midland will speak on telephone pioneers.

Midlander Named UTPB News Chief

Schlee Takes Lead

Fires 66 In First Round Of Philly

By RALPH BERNSTEIN
PHILADELPHIA (AP) — Curly haired John Schlee wasn't surprised that he shot a six-under-par 66 to take the lead after one round of the \$150,000 Philadelphia Golf Classic. It was in the stars.

Schlee, 35, an avid student of astrology, hasn't been playing too well this year on the pro golf tour. He is 68th on the money winning list at \$30,119 and his best has been a tie for 11th at San Diego.

"I had a bad astrological aspect between Neptune and my rising sign, Aquarius. Neptune is a very slow moving planet. It

kind of boggles the mind. It makes it very hard to concentrate," Schlee explained.

The 6-foot-3 Schlee, who describes himself as "the defending runner-up" in next week's U.S. Open, said he has been bored, lackadaisical, unable to concentrate. "At the Masters for example I was eight under on the front side for the tournament and eight over on the backside," Schlee said.

So what's different now at Whitemarsh Valley Country Club? The bad astrological aspects are gone now, Schlee explained. "It left two weeks ago. June has always been a good month for me. I'm a Gemini."

It was in June last year that Schlee started the final round of the U.S. Open at Oakmont tied for the lead. He finished second when Johnny Miller fired a course record 63 to win.

While Schlee ambled stary-eyed around the 5,700-yard, par-72 Whitemarsh course claiming eight birdies and two bogeys, 26-year-old Tom Jenkins and veteran Charley Sifford carded five-under-par 67s to trail by one stroke.

Another stroke back at 69 were Jim Colbert, Bob Alford, Victor Regalado, Wally Armstrong and Tom Kite.

There were 11 grouped at 69, including Bob Menne, upset winner last week at the Kemper Open. Defending champion, Tom Weiskopf was at 71 with 14 others.

Masters' champion Gary Player also scored a one-under 71, and U.S. Open king Johnny Miller, a five time winner on the tour this year, carded a par-72.

BROWN WINS AGAIN—

Rangers Whip Tribe

By RICHARD BILOTTI CLEVELAND (AP) — Jackie Brown is a man with lots of perseverance and faith. Brown has been throwing baseballs for a living the past 12 years and 99.9 per cent of that time has been spent in the minors.

Thursday night he pitched a seven-hitter for the Texas Rangers and gained his fourth victory of the year as the Cleveland Indians downed the Cleveland Rangers 6-2.

It's been for 60 days and then I'd get sent back down again," the 31-year-old righthander continued.

"My dad always told me, 'As long as you have a couple of pitches that you can throw for strikes somebody will always want you,'" stated Brown, who was not on the Texas roster at the start of this season.

"Every time I've gotten a chance to come to the majors, it's been for 60 days and then I'd get sent back down again."

"My dad always wanted to be a ball player, but never made it because he had eight kids and couldn't make enough money."

Rangers Manager Billy Martin said he kept Brown around to do some batting practice pitching early in the season, and then brought him back to work in the bullpen.

Since Brown has been starting he has kept his ERA down to just over two.

He has beaten the Cleveland Indians twice in a row this year, shutting out the Tribe 3-0 last week in Texas.

"I don't think I have anything special over the Indians," Brown said. "It's just a coincidence. They're a fast ball hitting club and my best pitch is a curve."

"Brown has a little jinx on us," said Indians Manager Ken Aspromonte. "He throws slow stuff and we're a fast ball-hitting club. And the trouble with a guy like Brown is that he throws his curve, slider and changeup for strikes."

Brown was backed by Alex Johnson, who collected four hits—two singles and two doubles—and four RBI.

Jim Fregosi singled home Toby Harrah in the sixth inning and Mike Hargrove hit his third homer of the season in the seventh for the Rangers.

Podolak 1st In JC Golf

LEHIGH ACRES, Fla. (AP) — Mike Podolak shot his third consecutive sub-par round Thursday and maintained his lead in the National Junior College Golf Championships.

Podolak, who carded consecutive 6s in the first two rounds of the tourney, came in with a one-under-par 71 Thursday to go into the final with a 208, seven under par for the tournament.

Podolak, a sophomore from Odessa College, Tex., has a three-stroke lead over Mike Donald of Broward Community College in Ft. Lauderdale, Fla.

Ted for fifth are John Stinson, Odessa and John Adams from Midland, Tex., and Brewster Community College in Ocoee, Fla. with even par totals of 210.

ALL-STAR GAME'S FORGOTTEN MAN—Steve Garvey, a slugging and fielding success in his first season as a first baseman, has been left off the All-Star Game ballot. Garvey is hitting well over .300, has 12 homers and 49 RBI. (AP Wirephoto.)

Giants Rip Cardinals

By KEN RAPPOPORT AP Sports Writer

The San Francisco Giants won in a breeze Thursday. Literally.

Aided by the well-known Candlestick Park wind, the Giants scored seven runs in the fourth inning and went on to beat the St. Louis Cardinals 9-5.

"Candlestick is by far the toughest park to play outfield in the National League," said St. Louis center fielder Luis Melendez.

He lost a fly ball in the wild during that wild fourth inning and it cost the Cardinals three runs. Frustrated over Gary Matthews' wind-blown double with the bases loaded, Melendez noted: "All you can go by is the sound of the ball hitting the bat. It sounded hard hit, so I started back. But the wind held it up and I run as hard as I could but couldn't get to it."

The wind also pestered St. Louis starter Lynn McGlothen, who held a 3-0 lead until he was blown out in the fourth.

"I had great stuff and when I got that 3-0 lead, I thought I was in control," said McGlothen, a former American League pitcher making his first appearance in Candlestick's wind cavern. "But I just couldn't adjust to the wind. I felt like I had a good, live fastball, but the wind was moving it two or three feet."

In the other National League games, the New York Mets nudged the Cincinnati Reds 4-3; the Houston Astros beat the Montreal Expos 4-0; the Los Angeles Dodgers blanked the Pittsburgh Pirates 6-0 and the Chicago Cubs beat the San Diego Padres 5-1.

Mets 4, Reds 3

John Milner hit a tremendous leadoff home run against reliever Pedro Borbon in the eighth inning, lifting New York over Cincinnati.

Dodgers 6, Pirates 0

Andy Messersmith pitched his second straight shutout with a five-hitter and Ron Oey blasted a two-run homer, leading Los Angeles over Pittsburgh.

Messersmith, 3-1, permitted only five singles while running

his scoreless inning streak to day each knocked in two runs to help Chicago and left-hander Don Kessinger and Rick Monday.

DIERKER IN SHUTOUT—

May Ignites With Foamer

HOUSTON (AP) — Houston first baseman Lee May got his first "foamer" of the season Thursday night and in addition to delighting the fans, it helped the Astros break a three-game losing streak with a 4-0 shutout of Montreal.

May blasted solo home runs in the fourth and sixth innings to fuel the Astros' victory.

The other two runs in support of Larry Dierker's three-hitter came in the second inning when Doug Rader doubled home one run and then scored on a wild pitch by Steve Renko.

The twin blasts gave May nine home runs and one "foamer" this season.

A "foamer" in the Astrodome is a home run hit when the big electric clock by the scoreboard is on an even number. Any home run hit on an even time means free beer for the rest of the game.

May's foamer came in the fourth inning at 8:42. His second however was at 9:17.

"I didn't know where everyone was going," May said of his foamer. "It's been awhile since my last home run. I didn't know anything about the promotion."

STICKING AROUND—Texas Ranger pitcher Jackie Brown, who spent most of his 12 years in baseball in the minor leagues, collected his second consecutive victory off the Cleveland Indians Thursday night in Cleveland. It was his fourth victory of the year. (AP Wirephoto.)

Townsend Selected Twice In Pro Draft

By FRANK BROWN NEW YORK (AP) — Marvin Townsend, 21, already in a veteran of baseball's free agent draft. In 1972, he was selected by the California Angels. In 1973, the Pittsburgh Pirates drafted him.

And in the two-day 1974 draft, which ended Thursday after 46 rounds and 726 selections, Townsend was drafted again twice.

The Baltimore Orioles selected the rangy 6-foot-3, 170-pound shortstop Wednesday in the primary phase of the draft, but the choice was invalidated by a complicated by-law. Because Townsend had transferred from a junior college to a four-year school, he was eligible only for Thursday's secondary phase.

After the Orioles passed up their second chance at him, the Boston Red Sox selected and signed Townsend, who hit .356 this season at Campbell College.

Five players chosen in Wednesday's first round signed with the clubs that drafted them.

The Pittsburgh Pirates announced signing left-hander Rod Scurry, 18; the Philadelphia Phillies agreed to terms with Lonnie Smith, an outfielder; Claude Edge, a pitcher, signed with the Milwaukee Brewers; the California Angels inked shortstop Mike Milroy, and third baseman Ronald Sorey agreed to terms with the Montreal Expos.

Two Texans were picked Thursday in the secondary phase of the free agent baseball draft.

Kansas City tapped left-handed pitcher Mike Williams, listed as a resident of Clute, and Atlanta named Scott McGlamory, a pitcher from Dallas.

The secondary phase is for free agents previously drafted but not signed.

Also picked in that phase

were outfielder Ronald Hancock of Seffern, Fla., by the Texas Rangers and Gilbert Patterson, an outfielder-pitcher for North Miami Beach, Fla., by the Houston Astros.

Houston picked Charles Baker a shortstop from Loyola University in the second round of the secondary phase.

In that same round, Texas picked Robert Carroll of Gardena, Calif., a pitcher for East Los Angeles Junior College.

Once the secondary phase was complete, the clubs resumed the first phase, starting with round 18.

Detroit picked pitcher Steven Harris of West, Tex., in that round.

Cincinnati got Randy Walraven, a pitcher from Alvarado, Tex., in the 17th round and then chose outfielder William Baggett of Houston in the 20th. The Reds also grabbed pitcher John Barron of Cameron, Tex., in the 22nd. Keith Lloyd, also a pitcher from Houston joined the Reds in the 32nd.

Montreal also went for Texas, taking Joseph Gonzales, outfielder-first baseman of Corpus Christi who played for Blinn JC, in the 17th. Lawrence Kalmus a pitcher from Gonzalez went to the Expos in the 23rd round and Gary Horstmann, a pitcher from Hallettsville who played at Blinn, in the 24th.

Brewer Pinch Hitter Dumps Angels, 9-7

By FRED ROTHENBERG AP Sports Writer

In Milwaukee pinch hitters are as popular as prostitutes ... and about as successful.

But that was before Mike Hegan.

Hegan, a newcomer to the Milwaukee bench, laced a two-run pinch single Thursday, the first successful Brewer pinch hit in 24 attempts this season, and the Brewers dumped the California Angels 9-7.

Elsewhere in an abbreviated American League schedule, the Texas Rangers dropped the Cleveland Indians 6-3 and the New York Yankees downed the Chicago White Sox 5-1.

In a pinch, the last person you'd call on would be a Milwaukee pinch hitter. But California Manager Bobby Wickles left the Brewers little choice.

"I knew they didn't have any right-handed hitters left on the bench but (Bob) Coluccio," said Wickles, explaining why he replaced right-hand pitcher Skip Lockwood for lefty John Cumberland in the seventh inning. "I knew Coluccio had been hurt and I wasn't sure he was able to hit."

Milwaukee Manager Del Crandall, who later confirmed that Coluccio was unable to hit, was forced to send up the left-hand hitting Hegan.

He said his teammates "told

me he has a big breaking ball, so I tried to lean up to the plate," said Hegan, recently acquired from the New York Yankees. With their advice, he got his hit.

Yankees 5, White Sox 1

George Medich scattered 10 hits and the Yankees deprived former teammate Stan Balaram of his 100th major league victory in his fifth straight unsuccessful bid.

Eubanks Wins, 11-3

The Eubanks Pistons blasted the Optimist Club 11-3 in a Western Sophomore game Wednesday night.

Craig Van Horn led the 11-hit Piston attack with two singles and a double while Joe Mowles contributed a single, double, two RBI and three stolen bases.

David Reddell drove in two runs with two hits and struck out 10 in his 4 2-3 innings of relief. Van Horn had three strike outs in his one inning of relief.

Optimist Club 11-3 Eubanks

WINDFALL PROFITS— Full House May Write Bill Hiking Oil Taxes

WASHINGTON (AP) — For the first time since the 1920s, the full House of Representatives may write a major tax bill—a bill increasing taxes on the oil industry.

The possibility arose Thursday when Chairman Wilbur D. Mills of the Ways and Means Committee announced he intends to bring an energy windfall tax bill to the floor next week under procedures allowing unlimited amendments.

With rare exceptions, the construction of major tax bills has been left to the Ways and Means Committee under procedures dating back to tariff battles in the 1920s.

The full House traditionally has only accepted or rejected the committee's product.

However, some congressmen predicted that no legislation on oil industry taxes would result from open amendment on the floor.

Rep. Richard Bolling, D-Mo., questioned whether a wide-open debate and amending session

Welch Scholarship Goes To Midland High Valedictorian

Midland High valedictorian John Edward Bishop has been named a recipient of a Robert Welch Foundation Scholarship, awarded through the Texas Interscholastic League Foundation.

The scholarship, \$1,000 per year for four years, is awarded on the basis of participation in University Interscholastic League Contests, other school activities, financial need and scholastic ability. Recipients must major in chemistry and show a desire for chemistry research at the graduate level in Texas.

Bishop became eligible for the scholarship by placing second in the Regional UIL informative speaking competition in Lubbock. He also was selected as MHS' outstanding science student his senior year.

He is the son of Mr. and Mrs. William W. Bishop, 2615 W. Golf Course Road. Bishop plans to major in chemistry at The University of Texas.

About 2.3 million barrels of crude oil move daily on Canadian pipelines.

ON 20TH ANNIVERSARY OF GAS PRICE DECISION—

700 Oil Employees Wear Black Armbands

HOUSTON (AP) — The more than 700 Houston employees of Standard Oil Co. of Indiana and five of its subsidiaries were asked to wear black armbands today because of a 1954 U.S. Supreme Court decision.

A black-bordered bulletin distributed to the employees Thursday reminded them today is the 20th anniversary of the decision which many oilmen say quite probably did more to bring about the current energy shortage than any other action by the courts, government, or industry.

On June 7, 1954, a 5-3 Supreme Court ruling held that wellhead prices of natural gas sold into interstate commerce must be controlled by the Federal Power Commission.

The bulletin distributed Thursday said black armbands were to be available this morning at headquarters for an eight-state division of Indiana Standard, Amoco Production, Amoco Chemicals, Amoco Pipeline, Amoco Oil, and Amoco Gas.

"Would you please wear it on your left arm all day to dramatize that sorrowful decision of 20 years ago?" the bulletin asked.

What followed is 20 years of confusion and chaos as FPC bureaucrats attempted the impossible task of fixing prices for some 2,300 natural gas producers.

Texas Oil, Gas Exploration Active In West, South Areas

AUSTIN, Tex. (AP) — Wildcatting, scoring well in West Texas and the Corpus Christi area, drilled 16 oil and 16 gas wells in the last half of May, the Texas Railroad Commission reported Thursday.

The exploration activity brought the year's totals to 112 oil and 122 gas discoveries. The oil finds are well above the 87 reported during the comparable period of 1973 but the gas discoveries were down by two.

Five oil discoveries were in the Wichita Falls district, four in the Lubbock district, two in the Abilene district and one each in the Midland, Kilgore No. 8, Corpus Christi, San Antonio No. 1 and San Antonio No. 2 districts.

ing the decision, government controls kept natural gas prices from rising to their natural supply-demand economic curve, expansion through exploration

Program Continued

AUSTIN, Tex. (AP) — Sen. John Tower announced Thursday a \$1-million federal grant to the Texas Department of Mental Health and Mental Retardation to continue the "foster grandparents" program at seven schools for the retarded.

Eight gas fields were located in the Corpus Christi district, four in the Midland district and two each in the San Antonio No. 2 and Houston districts.

The commission said 194 oil wells and 108 gas wells were completed during the May 15-31 period. That brought the year's total completions to 1,988 oil and 1,138 gas wells. The oil well completions were up from 1,739 during this period of 1973 and the gas well completions with 951 a year ago.

and drilling slowed for lack of incentive and reinvestment capital, and exploratory drilling dropped more than 50 per cent between 1966 and 1972.

"Meanwhile, because this 'beefsteak' fuel was selling for 'hamburger' prices, demand soared," the bulletin continued.

"Where energy users couldn't get gas they usually substituted oil. Thus, where a plentiful supply of gas unhampered by government control would have taken up much of the energy slack, rigid controls caused a gas shortfall. This, in turn, cut deeply into total energy supply."

The bulletin recalled that the FPC controls had prompted Supreme Court Justice Tom Clark, now retired, to predict in 1963 "that in the end the consumer will find himself to be the biggest goose of the hunt and the small producer the dead duck."

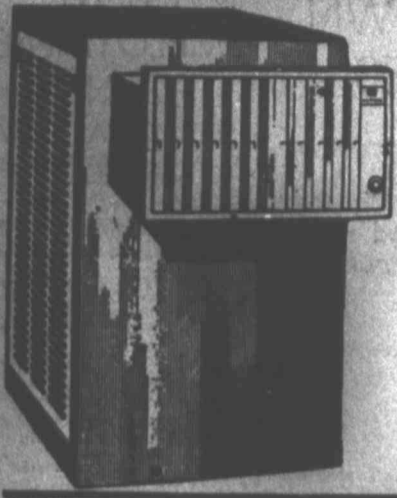

Nine bills that would deregulate natural gas field prices now are before Congress and the Thursday bulletin suggested the employees write their congressmen urging deregulation.

MANGLED STORE—Only twisted wreckage remains of a department store in Forrest City, Ark., after a tornado hit the city Thursday.

Consumer Group To Picket Eight Companies Saturday

WASHINGTON (AP) - The Consumer Federation of America, which claims 30 million members, disclosed plans today to picket eight companies that it said are lobbying against the Consumer Protection Agency bill.

The CFA said pickets will be posted in 21 cities Saturday outside the headquarters and outlets of Ford Motor Co., General Motors, American Cyanamid, Sears Roebuck & Co., J. C. Penney, Sunoco, Greyhound and Western Union.

The federation presented so-called "sting" awards to the eight firms, and anticongress awards to the National Association of Manufacturers, Grocery Manufacturers Association, U.S. Chamber of Commerce and the National Association of Food Chains also accused of opposing the bill.

Special citations for supporting the legislation were awarded Montgomery Ward, Zenith and Motorola.

CFA executive director Carol Tucker Foreman said of the eight target firms: "Their advertising slogans portray a mixture of benevolence, friendship and tender loving care for their customers."

Odessans Arrested On Drug Charges

ODESSA - Three young Odessans remained in Ector County Jail Friday in lieu of \$5,000 bond each on charges of possession of marijuana in a quantity of more than four ounces.

Sheriff's deputies arrested the men Thursday night following a stake-out of a suspected "dealer's" residence in the city.

Thomas Eloy Semarripa, 17, 1624 Glendale; Leslie Allen Hubbard, 17, 2619 N. Adams; and Robert G. Kitchens, 17, of 2811 Henderson, were charged with possession of a controlled substance in excess of four ounces.

Deputies Don Stout and Bobby Hernandez handled the arrests, and said that some 15 lbs of the substance believed to be marijuana was in the men's possession at the time of arrest.

piece of consumer legislation to come before Congress in many years.

The Consumer Protection Agency bill, passed by the House in April and expected to come up for a Senate vote later this month, would create an ombudsman to represent citizens' interests proceedings before federal regulatory agencies.

Mrs. Foreman said the federation has documented evidence to show that the eight companies and four associations have one or more lobbyists working to get weakening amendments attached to the bill, urging senators to support a filibuster and rounding up votes to support a presidential veto if that occurs.

She said the firms were informed Wednesday of the anti-consumer awards.

The cities where picketing is planned are New York, San Francisco, Atlanta, Chicago, Washington, Los Angeles, Philadelphia, Tucson, Ariz.; Birmingham, Ala.; Portland, Ore.; Austin, Tex.; New Orleans, Rallich, N.C.; Syracuse, N.Y.; Milwaukee, Wis.; Minneapolis, Minn.; Little Rock, Ark.; Fort Worth, Tex.; Miami, Fla.; Rochester, N.Y., and Hartford, Conn.

DIPPING INTO PROFITS—Most Major Oil Firms Hike Employee Salaries

By The Associated Press... Most of the nation's major oil companies are dipping into their record profits to boost employee salaries.

An Associated Press survey shows that Exxon, Mobil, Standard of California, Continental, Standard of Indiana, Shell, Atlantic Richfield, Union and Mobil are raising the paychecks of nonunion U.S. employees.

Some are offering the bonus to union employees as well.

Most of the increases by these oil companies were 6 per cent or less.

The new site, which will receive 12,000 tons of chemical wastes monthly, is in international waters off the Florida coast—230 miles directly south of Pensacola and 200 miles south-southeast from the mouth of the Mississippi River in Louisiana.

Louisiana officials were not informed by the Environmental Protection Agency of its decision Thursday.

Earlier, the House rejected a similar measure that would have created a new federal commission to issue the license and

give public agencies first option to obtain them. It also would have provided for a special fund for cleaning up oil spills.

The approved measure contains no provision fixing liability for oil spills, but it does provide that supertanker operators would be liable under other laws for cleanup costs.

It also bars issuance of a license if a proposed port would not comply with an adjoining state's land of water use plans.

Several Eastern states already have plans prohibiting supertankers off their coasts.

Backers of both bills said that with the continuing dependence of the United States on imported oil, crude oil trans-

portation should be made as cheap as possible.

Supertankers, which carry up to five million barrels of oil at a time, are the most economical form of transportation available for oil.

The proposed ports would be established up to 30 miles offshore. Tankers would tie up at anchored, buoy-like terminals and pump their oil into pipelines leading to shore.

Environmentalists have contended that the size of the supertankers and the possibility of the pipelines rupturing posed the hazard of large oil spills.

House Passes Administration-Backed Supertanker Ports Construction Bill

WASHINGTON (AP) - Construction of supertanker ports in international waters off the United States has moved a step closer with approval of an administration-backed bill in the House.

The House passed legislation 174-158 Thursday night to establish the Interior Department as the licensing authority for the construction of the ports and the Transportation Department as the agency to issue operating permits.

Earlier, the House rejected a similar measure that would have created a new federal commission to issue the license and

amendments attached to the bill, urging senators to support a filibuster and rounding up votes to support a presidential veto if that occurs.

She said the firms were informed Wednesday of the anti-consumer awards.

The cities where picketing is planned are New York, San Francisco, Atlanta, Chicago, Washington, Los Angeles, Philadelphia, Tucson, Ariz.; Birmingham, Ala.; Portland, Ore.; Austin, Tex.; New Orleans, Rallich, N.C.; Syracuse, N.Y.; Milwaukee, Wis.; Minneapolis, Minn.; Little Rock, Ark.; Fort Worth, Tex.; Miami, Fla.; Rochester, N.Y., and Hartford, Conn.

Rites Saturday For Mrs. Baker

Services for Mrs. Katie Loraine Baker, 64, will be held at 2 p.m. Saturday in the Antioch Baptist Church, with the Rev. G. T. Curry, pastor, officiating.

Mrs. Baker died Wednesday of an apparent heart seizure. She was born April 29, 1910 at Carthage and had lived in Midland 14 years.

Survivors include five sons, Joe Stephens, Bezell Baker, Marvin Baker, all of Midland, Charles Clark of Dallas and Robert Baker of Longview; three daughters, Mrs. Ruby Jackson of Midland, Mrs. Erma Fagan of Longview and Mrs. Willie Fay Thomas of Tref, Fla., 28 grandchildren and six great-grandchildren.

Elmo R. Loffin Dies; Rites Today

BIG LAKE - Elmo R. Loffin, 91, of Big Lake died Wednesday in a San Angelo hospital.

Funeral services were to be held at 2:30 p.m. today in the First Baptist Church of Big Lake with interment in Rankin Cemetery.

He was born April 30, 1883, in Eastland County, Loffin married Verba Ormand in Karnes County in 1904, moved to the Meerton-Sherwood area in 1907 and to Big Lake in 1927.

He was a trapper for Rengan and Upton counties during the 1890s and 1900s.

Survivors include a son, Paul H. Loffin of Midland; three daughters, Mrs. Lena Gilbert of Long Beach, Calif., Olene Mirns Loffin and Lovell Loffin, both of Big Lake, a grandson and four great-grandchildren.

Midlanders' Mother Dies At San Angelo

SAN ANGELO - Mrs. Edie Miller, 74, whose five sons all live in Midland, died Thursday afternoon in a San Angelo hospital after a sudden illness.

Dear Abby

Keep Cool, No More Punishment Needed

—By Abigail van Buren

DEAR ABBY: My husband and I have been married for 18 years, and I always thought we had a great marriage.

Having once been his secretary, I sometimes fill in at his office when one of his girls is on vacation.

Last week while I was working there, a man phoned, and in a very gruff and angry tone, he asked to speak to my husband. Since my husband happened to be standing right beside my desk at the time, I handed him the telephone.

Then I heard this booming voice say: "My wife just told me everything, even though I have a loaded gun, you're not worth going to prison for and neither is she, but if I ever catch you near her again, don't say I didn't warn you!" Then he hung up.

Abby, I nearly fell apart. I went home immediately, and my husband followed me. We had a long talk, and he told me who she was. (She and her husband belong to our club, and she certainly doesn't look the part.) My husband said he'd seen her only a few times, she meant nothing to him, and he'd never see her again.

I forgave him, and believe him when he says he'll never see her again, but I'm bound to run into her at the club, and I'm not sure I can handle it. I want her to know that I know. Should I tell her?

This dentist sees anywhere from 50 to 60 patients daily. Besides a secretary who answers his telephone, he has three people working for him who he calls "technicians" although none of them has ever had any formal training for the job. They take X-rays, impressions, and even clean and scale teeth. One pulled a suture out of my mouth on the doctor's day off!

Isn't there a law to protect the public against unqualified people doing dental work? Where should I write to complain.

CONCERNED

DEAR CONCERNED: There ARE laws, and they are well-defined. Write to your county or state Dental Association. But before you make any accusations, be sure of your facts.

DEAR ABBY: Can you think of a nice, simple way for me to ask my parents if I can have a guy spend the night with me? I'm a 21-year-old liberated woman who lives at home.

This guy I'm dating lives about an hour's drive from my house, but he works only ten minutes from here. On Friday nights he works until 10 p.m., and he has to be at work at 9 a.m. on Saturday, so you can see how much more convenient it would be for him if he slept over.

My folks are on the old-fashioned side. Got any ideas?

LIBERATED

DEAR LIB: If you have an extra room for an overnight guest, ask your folks if the fellow can use it. If you're considering inviting the guy to share your bed, forget it.

Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY in care of this newspaper. Enclose stamped, self-addressed envelope, please.

San Antonio Council Hikes Utility Rates 19 Per Cent

SAN ANTONIO, Tex. (AP) — San Antonio's municipally-owned utility began immediately charging customers an average of 19 per cent more for services after being granted a rate hike Thursday by the city council.

By a vote of 6 to 3, the council ordered the increase to fi-

nance bonds which the City Public Service will sell for new power plant construction.

The council then authorized the sale of \$85 million in bonds which will go toward planning and construction of coal and nuclear power plants as alternative manufacturers of electricity to natural gas now in short supply.

San Antonio has experienced numerous curtailments in natural gas supplies due to shortages in the Lo-Vaca Gas Gathering Co. system. Lo-Vaca, a subsidiary of Coastal States Gas Corp., is the city's sole supplier of natural gas.

The rate hike averaged 19 per cent for all users. However, the utility said the average residential user's annual bill would increase about 15.5 per cent.

Three Midlanders To Attend VICA National Meeting

Three Midlanders will be attending the Vocational Industrial Cooperative Association (VICA) national leadership conference in San Antonio beginning Saturday.

Attending will be VICA state officers, vice president Cecil Ady and parliamentarian Vicki Snow, both seniors at Lee High School, and past state president Gloria Wallace, a recent Lee graduate. All three were VICA students at Lee.

Some 3,500 students are expected to attend the conference which concludes June 14.
