# Texas is full of surprises. Like coal.

In certain areas of Texas there are sizeable deposits of a soft coal called lignite.

Several years ago Texas Electric, along with two other companies, began acquiring rights to some of this lignite because we saw that new supplies of natural gas and oil, our basic fuels, could become increasingly expensive and difficult

Today, Texas Electric is using this lignite to generate electricity in our Big Brown plant near Fairfield: Two more lignite plants are under construction.

Using this lignite will help reduce our depen-dence on natural gas and oil. And one other advantage of using lignite for the generation of electricity is that it isn't being used extensively any other way.

But plants that use lignite cost a lot more than gas/oil plants.

While this means electricity will have to cost more in the future, the cost won't be as much with lignite as it would be with natural gas and oil, even if we could get adequate new supplies.

At Texas Electric, we're continuing the orderly development of our power system so that you'll continue having the electricity you need.

### McCarthy Eyeing **Presidential Try**

CHICAGO (AP) - Former Senator Eugene McCarthy says that he may be a candidate for president in 1976 on an independent ticket backed by The Committee For A Constitutional Presidency.

McCarthy said on Sunday that the Washington-based group, Committee for a Constitutional Presidency, is an outgrowth of the 1968 Democratic National Convention at which he lost a bid for the presidential nomination to then-Vice Presient Hubert H. Humphrey

McCarthy said erosion of constitutional limits on the presidency and failure of either the Democratic or Republican parties to adequately represent the people were two of the primary reasons for the formation of the new organization.

Has it ever occurred to you the amount of money American taxpayers must shell out per minute just to pay interest charges on the soaring national debt, which will pass the \$500 billion mark for the first time this fiscal year?

Well, just in case you are interested, get set for a shocker

The cost is \$55,000 per minute! Yes, this is correct . . . almost \$1,000 per second.

It is estimated the debt will reach \$508 billion by next June 30

The Chamber of Commerce of the United States says that the interest on all this borrowed money will cost a \$29.1 billion, equal to 65 per cent of all the corporate taxes collected this year.

The Texas Rangers only need 12,861 fans for Tuesday night's game against Baltimore to surpass one million

fans in Arlington Stadium. And with Ferguson Jenkins going for his 19th win and the Rangers still with pennant hopes, Texas officials figure they are cinch to do it and have a "Thanks A Million" key-ring night planned for the occasion.

Fred Martin, Chicago Cubs' roving pitching coach, says Jenkins could have been a 30game winner while with the National League club, "If he'd just come inside." In other words, brush back the hitters.

FOR WORLD SWIMMING SUPREMACY—

### U.S. Challenges East Germany

By GREGORY A. GROSS CONCORD, Calif. (AP) --The Amateur Athletic Union National Swimming Championships has produced a team of record-setting performers to challenge East Germany for world supremacy.
U.S. swimmers splashed to

seven of eight world record times clocked in the four-day meet which ended Sunday. They also set 16 American

Tim Shaw, a Long Beach,

stroked to his third world mark in the meet Sunday in 15 minutes, 31.75 seconds in the 1,500-meter freestyle. He erased the world mark that Stephen Holland of Australia set last September in Beigrade.

Shaw also shattered world records in the 200-meter and 400-meter freestyle events as he set a world mark on each of the three days that he awam in the Concord Community Park pool.

Australia's Jenny Turrall and

women's 1,500-meter freestyle.

Miss Harshbarger charged away from the field to do the first 800 meters in a world record 8:47.66. Miss Turrall overtook the Bellevue, Wash-girl in the second half of the long race and won in world

record time — 16:33.94.

CARPET TALK By Edd Tucker

LIGHT IS RIGHT in many home decorating situations including the choice of a carpet. It used to be that careful homeowners steered clear of light carnets for fear of showing soil and staining too soon. Not so today.

For one thing, today's miracle fibers resist soiling and stain-ing. The fibers do not absorb isture or alien chemicals so they can be sponged up easily. Some carpet fibers are now treated with a stainshedding process like that used on furniture fabrics. Spills bead up on the surface instead of penetrating. Result: easy care in any color.

In fact, light colors show less dirt of many kinds than darker colors. Dust and lint stan out more on deep colors than

Light colored carpeting enlarges a room, since the pale hues recede visually instead of umping at you. They also provide a perfect foil for the bold colors and patterns so popular today in furniture fa-prics, draperies, art and ac-
