## Lea Draws Probe, Two Field Tests

Anadarko Production Co., Houston, will attempt to re-open Seven Rivers production in the Querecho Plains (Queen) field of Lea County, N.M., with the scheduling of its No. 1-35 Querecho-Federal, 10 miles south of Matjamar.

Drill site for the test, scheduled to 3,500 feet, is 1,900 feet from south and 600 feet from west lines of section 35-18S-32E, one mile northeast of depleted Seven Rivers production in the field.

Penroc Oil Corp., Midland, plans to drill No. 1 Humble City-State, a West stepout to Strawn pool of Lea, three miles north of production in the Humble City west of Humble City.

It spots 700 feet from north and 2,900 feet from west lines of section 15-17S-37E. Scheduled depth is 11,700 feet.

The field has four Strawn wells.

Teal Petroleum Co., Houston, staked No. 1-A New Mexico-Federal as a 1/2-mile south offset to the six-well Morrow area of the Sall Lake, South field of Lea County.

Depth objective is 14,400 feet. It spots 650 feet from north and 600 feet from west lines of section 4-21S-32E, three miles southeast of Halfway.

## Eddy Gas Areas Draw Development

Development wells have been scheduled in three Eddy County, N.M., fields.

Inexco Oil Co., Midland, plans No. 1 Avalon Lake-Federal as a 2 1/4-mile southeast outcrop to the Morrow opener in the Avalon multiphase field of Eddy.

Drill site is 600 feet from south and 1,900 feet from east lines of section 12-21S-26E, four miles north of Carlsbad. It is scheduled to 11,500 feet.

The Burton, North (Morrow) field drew two development locations.

Texas Oil & Gas Corp. No. 2 Williamson-Federal, 1 1/2 mile southeast of production, spots 1,900 feet from south and east lines of section 16-20S-29E, nine miles northeast of Carlsbad.

It has a projected depth of 11,800 feet.

The Petroleum Corp., Dallas, intends to drill No. 4 Superior-Federal as a 1/2-mile north and west stepout to production.

It also is slated to 11,800 feet, and spots 600 feet from south and 1,900 feet from east lines of section 5-20S-29E.

## Pecos Gas Field Draws Extension

The Onlaw field of Pecos County gained its seventh Grayburg gas well and a location northwest extension to that pay with completion of C. F. Lawrence, Midland, No. 2-A Sun-Yates.

The calculated, absolute open flow was for 520,000 cubic feet of gas per day, producing from open hole at 1,201 feet, where 7-inch casing was seated, and 1,283 feet, total depth.

It spots 600 feet from south and 7,000 feet from west lines of section 50, block 1, I&GN survey, three miles south of Iran.

## Injunctions Are Threatened Against State Lotteries

WASHINGTON (AP) — Atty. Gen. William B. Saxbe today threatened to seek a court injunction against state lotteries unless Congress acts within 90 days to exempt states from federal antilottery laws.

"If Congress takes no action, it's our intention to ask the courts to decide the question, and if decided favorably to us, to seek injunctive relief," Saxbe said at a news conference following a private meeting with officials from the 13 states with lotteries.

The attorney general said federal prosecutors will take no civil or criminal action against lottery officials and participants during the interim.

He said he has written Senate Judiciary Committee Chairman James Eastland and House Judiciary Committee Chairman Peter Rodino to request speedy action on pending bills making

state lotteries legal under federal law.

"I want to assure you that we have no aim or wish to put your lotteries out of business," Saxbe told about 40 officials from the 13 states with lotteries.

But he said, "There is a serious legal question that cannot for much longer go unanswered. It ill behooves any of us, at this time when government is viewed with so much cynicism, to violate the law of fair to enforce it."

Saxbe said department officials still are considering "possible courses of legal action by the department if legislative relief does not materialize" to exempt the state lotteries from applicable federal statutes.

Saxbe, Asst. Atty. Gen. Henry E. Petersen and five other department officials met privately with the state delegates to

discuss the possible violations of federal antilottery laws. The department released Saxbe's written opening statement.

The session caps a three-month-long department review begun after a federal prosecutor threatened to file a lawsuit to halt the Maine lottery.

Department officials say the issue turns on the interstate aspects of state-operated lotteries, lucrative revenue producers that began in New Hampshire in 1964 and spread gradually from the East to the Midwest.

The government lawyers have been concerned about the distribution of lottery tickets into neighboring states where gambling is illegal.

Some department officials say Saxbe has been motivated in part by his insistence that the department enforce the laws fairly and without special favors. To ignore an apparent state violation of federal law could appear to be unfair, these officials suggest.

Saxbe's attention to the issue also was viewed as an effort to force Congress to decide whether the federal statutes should apply to state lotteries.

Legislation exempting state lotteries has been introduced in Congress, but there has been no push for quick action.

The department said last week that Saxbe is considering "civil action seeking a permanent injunction against the lotteries... unless remedial (See LOTTERIES Page 2A)

## LATE NEWS FLASHES

MIAMI, Fla. (AP)—A hurricane watch was called at noon today for a 600-mile stretch of the Gulf of Mexico coast from Grand Isle, La., to Cedar Key, Fla., as Hurricane Carmen charged northward with winds of 110 miles per hour.

MATAMOROS, Mexico (AP) — Two persons died and four were injured today in an explosion and fire at a popular restaurant in this Mexican border city, authorities said.

WASHINGTON (AP) — A post-election session of Congress to deal with the economy is likely, Senate Majority Leader Mike Mansfield said today.

# With Few Exceptions, Crime Up Almost Everywhere In U.S.

WASHINGTON (AP) — The FBI once again has told the nation crime is going up almost everywhere. But there are exceptions, and Coal Township, Pa., is one.

The small central Pennsylvania town emerged as one of the safest communities in America while most other places, small and large, city, suburban and rural, were plagued with rising crime rates.

Nationally, crime increased 6 percent in 1973, according to the full-year figures released on Thursday by the FBI. More than eight million serious

crimes were committed, one every 16 minutes. Murders were up 5 percent, assaults 7 percent, rape 10 percent, and on and on.

But the picture was considerably brighter in Coal Township, population 11,789, where there were no murders, no man-slaughters, no rapes, no assaults and no robberies.

But Coal Township was not entirely crime-free last year. There were a few burglaries, about one every two weeks, and a half-dozen cars were stolen. The town had a regular rash of shop thefts; something was stolen at least once a week.

## Four Die In Crash

ANDREWS — Three Andrews men and an Odessa were killed in a two-car head-on collision five miles south of Andrews on U.S. 385 at 12:25 a.m. today.

Among those killed was William F. Irvin, 50, an Odessa oilfield worker who was driver of one of the vehicles. The Andrews men were Daniel Littleton Tyre, 19, driver of the other vehicle; Wilbur J. Mulkey, 22, and Daniel E. Brinkley, 22, both passengers in the Tyre auto.

Irvin is pending at Hubbard Kelly Funeral Home in Odessa. Service arrangements for Tyre, Mulkey and Brinkley are pending at Singleton Funeral Home in Andrews.

Tyre is survived by his widow, Kathy Tyre of the home, a daughter of the home, his parents, four sisters and his grandparents.

Brinkley is survived by his parents, four sisters, two brothers and his grandparents.

# Session With Independents Begins Busy Day For Mahon

George Mahon of Lubbock, Texas, representative for the 19th District of Texas, started a busy day this morning as a special guest of the Permian Basin Petroleum Association in the Petroleum Club of Midland.

The congressman, chairman of the Appropriations Committee, met with the independent oilmen at 10 a.m. and following that appearance he spoke to the Jaycees at their noon meeting in the Roweday Inn.

At 3 p.m. Mahon was to be the dedicatory speaker for the formal opening of the huge Federal Building and U. S. Post Office complex.

At 2 p.m., the representative industry and other segments of the U.S. economy are experiencing the most confusing times of the last decade.

"And, it seems that the more confusing things get," the congressman said.

Mahon advised his audience that a bill now in the House Ways and Means Committee designed to produce two billion dollars to be used to give lower income bracket families a tax break.

## Weather

FORECAST: Fair and a little warmer this afternoon through Saturday. High this afternoon in the upper 80s with the low tonight in the lower 60s. High Saturday will be near 80 with winds from a southerly direction at 10-20 miles per hour.

National Weather Service Headings:  
Thursday's high 82 degrees  
Overnight low 60 degrees  
Tomorrow's high 77 degrees  
Lowest today 67 8:07 a.m.  
Sunrise Saturday 7:28 a.m.

Precipitation: This month to date 7.05 inches  
1974 to date 7.05 inches

The record high temperature recorded for a Sept. 6 was 104 degrees in 1948. The record low for a Sept. 6 was 56, set in 1970.

MAGIC WORLD OF MAKE-BELIEVE—The age-old art of face painting is ever-new to children in creating their own special and magic world of make-believe. Brent Childress, almost 3, is intrigued by his own face in the mirror as he prepares for "Kinderfest," a special entertainment section for children to be offered during Septemberfest Saturday night on the grounds of the Museum of the Southwest. The annual fund-raising event gets under way at 6 p.m. and continues until 11. Admission to the grounds will be free to the public.

## Further Increases Are Expected As Economy Falters

WASHINGTON (AP)—The nation's unemployment rate in August continued its slow upward climb, rising by one-tenth of a per cent to 5.4 per cent of the work force, the government reported today.

Although the change from the July rate of 5.3 per cent is not considered statistically significant, the Labor Department said the increase taken over the last two months represented a break from the 5.2 per cent plateau that had prevailed during the first half of the year.

The jobless rate now has risen by eight-tenths of a percentage point from last October's 6 1/2-year low of 4.6 per cent and is expected to continue climbing as the economy falters.

## Priest Says Carrasco 'Set Up'

SAN ANTONIO (AP) — The Rev. Joseph O'Brien, a Huntsville state prison chaplain, believes convict leader Fred Gomez Carrasco was "set up" for death by the underworld in his prison escape bid.

Father O'Brien, who was a hostage in the 11-day prison siege by Carrasco and two others which ended Aug. 3 said, "I think he was set up by whoever was the mastermind behind getting those weapons smuggled into the prison."

Light which is carrying a multi-part series on the Huntsville prison holdout in which Carrasco, another convict and two women hostages perished.

O'Brien previously has said Carrasco, because of his underworld reputation, may have had enemies among the prison inmates and it was feared he may have been a target for assassination.

Every convict knows that you're not going to get the prison gates open by using a hostage... Carrasco certainly did, and for him to go this route was suicidal."

O'Brien said, "I honestly and sincerely believe Carrasco was conned into making his attempt."

Authorities have said Carrasco used guns smuggled into the prison and several persons have been indicted on murder charges growing out of the rioting deaths.

O'Brien also disclosed in his comments appearing today that prison officials bugged the library where the convicts held the hostages.

He said he learned after the holdout that a spillover microphone "had been stealthily pushed up through the floor next to a pipe in the broom closet" where the convicts held their planning sessions.

# Continental Congress Reaffirms Individuals' Rights To Privacy

PHILADELPHIA (AP) — President's speech to the more than 1,000 persons expected at the 200th anniversary meeting of the Continental Congress today reaffirmed one of America's basic principles—the right of the individual citizen to privacy.

Approval by representatives of the first 13 states came during the "reconvening" of the first Congress, the start of the bicentennial celebration.

President Ford was scheduled to attend a dinner later today to conclude the two-day approval meeting.

White House aides said the President's speech to the more than 1,000 persons expected at the 200th anniversary meeting of the Continental Congress today reaffirmed one of America's basic principles—the right of the individual citizen to privacy.

of America's basic principles of freedom of press, speech, assembly and religion.

The delegates met at Carpenters Hall, a block from Independence Hall and in the heart of what the National Park Service calls "the most historic square mile in America."

It was here two centuries ago that Patrick Henry, George Washington, John Adams and other colonial dissidents began the revolutionary events that led to the Declaration of Independence on July 4, 1776, by the Second Continental Congress.

## Lotteries Face Threats Of Halt

(Continued From Page 1A)

Millions of dollars are at stake for the 12 states — Connecticut, Delaware, Illinois, Maryland, Maine, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania and Rhode Island.

The states have been turning

## Jesuit Order Ousts Priest For Baptism

NEW YORK (AP) — The Jesuit order has dismissed a Roman Catholic priest who baptized the son of a Marlboro, Mass., advocate of free choice on the question of abortion.

The dismissal of the Rev. Joseph O'Rourke was effected by mail Thursday, according to a statement of the Very Rev. Eamon G. Taylor, provincial of the Society of Jesus.

It removed Father O'Rourke from the Jesuit order, but not from the priesthood, the Rev. Joseph Novak, assistant to the provincial, said today.

Father O'Rourke baptized the infant in a widely publicized ceremony several weeks after baptism was denied by a Marlboro priest. The infant's mother, Carol Morrae, holds the view that women have a right to decide whether to have abortions.

## Pickup Truck Rams Into Nursing Home, Killing Woman, 38

WEATHERFORD, Tex. (AP) — A man drove a pickup truck through the front door of a nursing home here today, killing the home's director of nursing, police said.

Officers said the dead woman, Mrs. Barbara Dawson, 38, was standing in the hallway of the Keeneland Nursing Home when the truck crashed through the door and hit her.

Police said the driver, Frank Langston, 39, of Weatherford, was treated for shock at a Weatherford hospital.

Authorities said Langston was taken to the Parker County jail where he was being detained under protective custody by an order signed by County Judge Bill Ward.

A witness standing in the hallway at the time said she heard the impact and saw the truck go by her and stop about 100 feet down the hall.

The witness, Carol Mosley, said the driver sat behind the wheel until police arrived.

Officials said the truck barely missed several persons watching television in the nursing home lobby.

A witness said the truck apparently went out of control, ran across a football field and slammed through several fences before crashing into the nursing home.

Police said they were investigating the cause of the crash.

**LITTLE LOST BEAR**—Treed by neighborhood dogs, ogled by startled homeowners, shot with tranquilized darts and finally dropped 30 feet when animal control officers sawed off a tree limb, this black bear probably wonders why it strayed from the nearby mountains to a residential area of Albuquerque, N.M., Thursday. (AP Wirephoto.)

## Mahon Begins Busy Day

(Continued From Page 1A)

Mahon said there is very little chance that depletion allowance legislation will be passed at this session of Congress, "but this doesn't mean that you are going to go to sleep thinking such legislation won't be passed, because it will."

Mahon explained that legislation is likely to eliminate the depletion allowance by Jan. 1, 1974, but added that provision may be included that the small producer, 3,000 barrels of oil per day or less, would have the advantage of a 15 per cent depletion allowance until Jan. 1, 1979.

Mahon told his listeners that the inflation is an intolerable situation and must be stopped. He told the oilmen that one reason for inflation is energy.

"Our higher electric bills, the cost for the farmer to run his tractor and the overall cost of fuel is penetrating our way of living."

He said it would take from 6 to 10 years for the United States to become energy self-sufficient.

## Fulbright Quoted As Saying Chinese Push Taiwan Issue

TOKYO (AP) — Sen. J. W. Fulbright was quoted as saying today that Chinese leaders told him the United States must withdraw its ambassador from Taiwan if it wants to establish full diplomatic relations with Peking.

Japan's Kyodo news service, in a Peking dispatch, said the statement was made to newsmen after the Arkansas Democrat and other members of his congressional party attended a reception given by David K. E. Bruce, chief of the U.S. Liaison Mission in Peking.

The Japanese report said the Taiwan issue was taken up for discussion at Bruce's meeting with Chinese Vice Premier Teng Hsiao-ping and Vice Foreign Minister Chiao Kuan-hua.

The Taiwan issue must be solved by the U.S. side and China will wait patiently until it is, Fulbright quoted the Chinese as saying, Kyodo reported.

## Protesters Storm Japanese Embassy In Korean Capital

SEOUL, South Korea (AP) — Scores of demonstrators invaded the Japanese Embassy today, tore down the flag atop the six-story building, set an embassy car on fire and ransacked some of the offices.

Riot police drove the Koreans from the building after 15 minutes. No member of the embassy staff was reported injured, but the police inflicted minor cuts and bruises on some of the demonstrators.

It was the most violent of the daily anti-Japanese protests in Seoul since a Korean living in Japan tried to kill President Chung Hee Park on Aug. 15 and killed the president's wife instead.

Ambassador Torao Ushiroku was in his second-floor office when the embassy was invaded, but the intruders did not get to him.

## WTCC Members Think Government Too Active

ABILENE — In a recent survey of a cross section of politicians' jawboning about lack of federal government activity, many West Texans (93 per cent) members were asked to "rate how they feel they are getting a whole lot more national government activity than they want or feel statement in each category they feel."

For federal government, 94 per cent checked "too much," 4 per cent checked "about right" and 2 per cent checked "too little activity."

For state government, 50 per cent checked "about right," 40 per cent checked "too much activity" and 10 per cent checked "too little activity."

For city government, 67 per cent checked "about right activity," 17 per cent checked "too much activity" and 16 per cent checked "too little activity."

It would appear that in spite of the survey also asked that

## Teacher Strikes Continuing

By The Associated Press

Strikes by teachers kept hundreds of thousands of pupils at home again today as the 1974 school year got under way.

Most of the teacher strikes concerned wages, but union spokesmen said other issues included class size, disciplinary and grievance procedures, curriculum selection and extra classroom work requirements.

Almost 124,000 pupils and 5,804 teachers in Michigan alone were extending their summer vacation one more day because of an impasse where teachers asked for more money than was being offered.

Michigan teachers are asking hikes ranging from 7 to 23 per cent.

Other states affected by teacher actions include Pennsylvania, Delaware, Washington, California, Connecticut, Illinois, Ohio and Wisconsin.

In North Haven, Conn., however, teachers voted to end a three-day strike today and obey a court order to return to jobs.

Negotiations were to resume. Teachers are demanding 8.2 per cent higher wages while claiming the board offered 5 per cent. The teachers faced individual fines of \$300 if they did not return.

## Jobless—

(Continued From Page 1A)

practically unchanged in the last two months. Nonfarm payroll employment as measured by the survey of business establishments was unchanged in August at 77.2 million.

Looking at wages, average hourly earnings were reported up three cents in August, to \$4.24, a level 33 cents more than a year ago. Weekly earnings averaged \$157.73 in August, an increase of \$1.12 from July and \$11.10 from last August.

However, the Hourly Earnings Index in dollars of constant purchasing power declined three per cent over the past year, the government said.

The length of the average work week and factory overtime were essentially unchanged last month, both reflections of the sluggish economy.

## Police Check Five Reports Of Theft

Midland police investigated five theft reports today including an unusual report of a outside burglar alarm valued at \$160 that was taken from the Starlight Lounge at 1915 Garden City Highway.

Employees of T.G.&Y. store reported that five wrist watches valued at \$92.95 were taken from the store.

John Campbell of 2202 Western St. told police someone took a 16-foot boat and motor from his residence.

J. C. Crawford of 1400 S. Terrell St. reported the theft of a television set valued at \$35 and a lawn mower valued at \$20.

Jim Blevins of Stanton told police that a briefcase containing \$20 in cash and a calculator valued at \$70 were taken from a car parked on a lot at Baird and Texas streets.

## New Cyprus Battle Fails To Halt Talks

NICOSIA, Cyprus (AP) — Machine guns and mortars blazed across the cease-fire line in Nicosia on Thursday night, but there was no indication the shooting would block Greek and Turkish Cypriot talks today.

The Greek Cypriot government reported an "intense exchange of fire" for an hour and a half at three points along the so-called Green Line dividing the Greek and Turkish Cypriot sectors of the capital.

It was the heaviest firing in Nicosia since the cease-fire Aug. 15. The government said the shooting stopped after United Nations peace forces arranged a truce.

Thousands of Greek Cypriots fled from the city again in panic, filling the roads to the south with cars and tractors piled high with luggage.

Earlier on Thursday, Vice President Rauf Denktaş, the leader of the Turkish Cypriots, announced that he and President Glafcos Clerides, the head of the Greek Cypriots, would meet today to discuss ways to alleviate the plight of the estimated 234,000 refugees driven from their homes by the fighting on the island.

Weekly meetings between Denktaş and Clerides on "humanitarian problems" had been arranged by U.N. Secretary-General Kurt Waldheim. But Denktaş called off the meeting scheduled for last Monday because of the discovery of a mass grave containing remains of 84 men, women and children in the Turkish Cypriot village of Maratha.

## Billups Gasoline Drops Five Cents

HAMMOND, La. (AP) — A spokesman for Billups Western Petroleum Co. said today the price of gas at Billups stations has dropped a nickel.

The spokesman, Bill Krause, said Billups had lowered prices Thursday because of reduced costs from its supplier, Charter Oil Co. of Houston, Tex.

Federal regulations require petroleum companies to pass savings on to the consumer as well as allowing them to pass on cost increases, Krause said.

"When our cost went up, we passed the increased cost on to the consumer," Krause said. "Now that our costs are being reduced, we have to pass the reduction on too."

## Warming—

(Continued From Page 1A)

day afternoon, following an overnight low in the lower 60s. This afternoon's high was expected to reach the upper 80s. Thursday's high was 82, and this morning's low was 59.

Interest of persons living near the coast again focused on an aging tropical storm which regained strength as Hurricane Carmen with sustained winds up to 90 miles per hour after idling in the southern Gulf of Mexico for a couple of days.

Carmen was reported to be centered about 500 miles due south of New Orleans early in the day. Forecasters said it was expected to turn toward the north-northeast during the day and the indicated path could take it anywhere from Louisiana to the eastern Florida Panhandle.

Forecasters promised generally fair weather throughout the state along with the warming trend.

Temperatures near dawn ranged from 50 degrees at Nichogoches and 53 at Wichita Falls up to 69 at El Paso. The top marks Thursday afternoon went as high as 95 at El Paso and Texarkana was the coolest point with a maximum of 73, according to The Associated Press.

## Nixon Said Expecting Indictment, Ford Pardon

WASHINGTON (AP) — Former President Richard M. Nixon expects to be indicted in the Watergate cover-up case but is hopeful of a pardon from President Ford, the Washington Post said today in a story quoting friends and associates who have visited with Nixon in recent days.

The Post said they described the former President as a despondent man who spends much of his time looking through stacks of unanswered mail, playing the piano, walking on the beach.

The story, by reporter Lou Cannon and dateline San Clemente, Calif., quoted one unidentified Nixon friend as saying, "He's terribly depressed, with much to be depressed about."

The friend continued, "Any one would be depressed in his situation. I don't mean he's going off the deep end. I just mean that everything happened to him, seemingly all at once, and he doesn't know what to do about it."

The Post said Nixon, living in near isolation at his seaside estate at San Clemente, has delayed any decisions about his life as a former president,

**PROUD PAINTER**—Despite a crippling disease which handicaps the use of his arms, Greg Burns of Tulsa has sold more than 3,000 of his drawings and paintings. He is shown with one of his works. (AP Wirephoto.)

## Gallons Of Cognac Go Up In Flames

COGNAC, France (AP) — Thousands of gallons of cognac went up in flames today in a fire in the aging cellars of the House of Martell, one of France's largest distillers.

No injuries were reported.

Flames dozens of feet high rose from the buildings, but firemen were unable to approach the scene because of the intense heat. Barrels of cognac exploded throughout the morning.

Workers at the distillery attempted to remove cognac stocks from adjoining buildings, fearing the fire would spread.

Flaming cognac flowed through the distillery's sewers, and manholes exploded in the heat.

A spokesman for Martell said the fire began when a tank was opened during maintenance operations and a spark apparently ignited escaping alcohol fumes.

## First Lady Plans Charity Junket

WASHINGTON (AP) — Betty Ford is setting out on her first trip as First Lady, a mission to help raise funds for St. Vincent's Hospital in Birmingham, Ala.

She is one of 10 prominent women being honored at a gala dinner Saturday night as part of the weekend festivities.

The President's wife leaves aboard a military Convair plane this afternoon, taking along a group of 16 reporters and cameramen, all of whom are paying their own way to cover the event.

# Inflation In Mexico May Mean Trouble For U.S. Plants

GARY GARRISON  
 AMOROS, Mexico (AP) — Inflation no longer stops at the border. U.S. plants on the Mexican side of the border are being hit by a steady 22 per cent increase for U.S. plants on the Mexican side of the border. Experts indicate that costs for U.S. manufacturers along the border have increased by as much as 60 per cent during the past two years. Mexican unions are now

negotiating for higher wages for all workers. A spokesman at an electronics plant in Matamoros said his plant and others like it along the border have been told that workers will strike Sept. 20 unless they receive a 35 per cent pay increase. The plant spokesman, who said he did not want to be identified for fear of being put un-

der pressure by the Mexican government and labor unions, said that although he believes the 35 per cent wage increase would hurt planned expansion in Mexico, "it wouldn't cause us to move out." Lindsey Rhodes of the industrial department of the neighboring Brownsville, Tex. Chamber of Commerce and retired Gen. Milton Adams, direc-

tor of the Greater Laredo, Tex. Development Foundation, agreed that the expected wage increase will diminish financial advantages obtained by U.S. firms in locating plants along the Mexican border. "Mexico has serious inflationary problems," Rhodes said. Adams said he believes the wage increase will mean a

slowdown in the establishment of new plants. He said the increase will likely make U.S. manufacturers worry that such wage increases may be repeated in the next few years. The estimated 4,500 assembly line workers in about 15 plants located in Nuevo Laredo cost the manufacturers an average of 85 cents each per hour in wages, social security pay-

## Fulbright Reported President's Choice for England Envoy

WASHINGTON (AP) — Sen. Fulbright, D-Ark., is reported to be President Ford's choice for ambassador to Great Britain.

In another pending diplomatic change, Peter M. Flanigan, a White House assistant for international economic affairs during the Nixon administration, is reported in line for the ambassadorship to Spain. Flanigan's nomination is awaiting approval by the Spanish government. The delay apparently has been caused by the recent illness of Gen. Francisco Franco, who resumed his post as chief of state only last week.

## Autopsy Reveals Young Couple Shot

HOUSTON (AP) — An autopsy Thursday revealed a young man and woman found dead in an apartment were shot three times each with a .38 caliber pistol. The decomposed bodies of Anna Janice Sims, 20, and Clay Bryanson Darling, 23, were found Wednesday. Homicide Lt. Frank Crittenden said there was no gun in the apartment but a holster was found and the telephone cord had been cut.

## Multimedia Pioneer B. H. Peace Dies

GREENVILLE, S.C. (AP) — Bony Hampton Peace Jr., 68, one of the founders of Multimedia, Inc., owner of newspapers, radio and television stations in several states, died on Thursday. He and his brother, Robert C. Peace, developed their father's printing company into the Greenville News-Piedmont Co., which later was merged into Multimedia.

## PETITION MADE TO SUPREME COURT—Haldeman Wants Cover-Up Indictment Dismissed

WASHINGTON (AP) — Former White House chief of staff H. R. Haldeman wants his indictment in the Watergate cover-up case dismissed. In a petition to the Supreme Court, attorneys for Haldeman argued on Thursday that the term of the grand jury that indicted him and five others was improperly extended and thus his charges are invalid. They requested a lower court review of the situation, which they hope will lead to dismissal of the charges.

for rejecting the appeal of Ehrlichman's lawyers, who earlier had been turned down by Chief Justice Warren E. Burger. They had cited pretrial publicity as grounds for seeking a delay. The Haldeman petition said the Watergate grand jury should have been allowed to expire once its normal term of 18 months had run out. The lawyers said that instead it was extended by Congress "in the name of expediency." They argued that the courts, not Congress, should decide on any extension of grand juries, if they should be extended at all. The indictment was returned on March 1, 1972, nearly 22 months after the grand jury was impaneled. Congress first gave it six months of new life

**Auto Sales Continuing Midsummer Resurgence**

DETROIT (AP) — The United States auto industry continued its midsummer resurgence last month, with sales the strongest of the 1974 model year. Domestic deliveries in August were the second best in history for the month, the last devoted exclusively to the 1974 models. Sales fell just 5 per cent below the August 1973 record level.

American Motors reported sales up a healthy 21.5 per cent. Ford said its deliveries were one per cent ahead of last August, while the Chevrolet and Cadillac divisions of General Motors set monthly sales records.

The domestic makers reported monthly sales of 667,237 cars, down 5.05 per cent from 682,660 last August. For the year, sales were 5.3 million cars, down 22 per cent from the 6.71 million of 1973.

# Speaker Says America Can Conquer Inflation, But Price Will Be High

An economics professor said here Thursday afternoon that any economist knows what to do about inflation, but added that what he doesn't know is how willing the people are to pay the price.

John Whittman, head of the Economics Department at Texas Tech, made the statement in addressing the Midland Downtown Rotary Club at its meeting in the American Legion Hall. He was introduced by Rotarian Spencer Blocker.

Inflation definitely can be curbed by continuing a tight money policy, reducing government spending at all levels and raising taxes, Whittman said. But the resulting consequences, such as increased unemployment, depressed stock market and cut-backs by business might not be to the liking of many Americans.

As a result, and due largely to the political process, he said he does not believe that the nation "will get the handle on inflation this year or next." A further increase in the rate of inflation even may be expected, he added.

He said there is a distinct possibility that within six months the nation again will be faced with controls, brought about by renewed demand caused by increased unemployment and the rising rate of inflation.

"Yet, controls never have

cured anything," the speaker said. "Reinstatement will be a desperation move to buy time."

He said there is a possibility the unemployment rate will exceed six per cent this year and could get as high as eight per cent next year.

The speaker said that when asked his opinion as to the possibility of a recession, "My answer is 'no' . . . because we have a recession going on right now."

Due to spiraling construction costs and the high cost of mortgage money, he said there is a possibility that "the American dream no longer may include home ownership. And this is not good."

"Somehow, however, we will get through this troubled period," he predicted, "but there is no short-term outlook for a rosy economic picture."

In launching his address, Whittman charted the nation's Consumer Price Index since 1913 to show that inflation is nothing new to the United States, and that in some past years the problem has been greater than at present. He said that since 1933, the nation has been dealing with continuous inflation. There was reasonable price stability in the early 1960s, with the big push upward starting in 1966.

Going back to his original premise, the speaker re-emphasized the fact that the big question in Washington today is whether or not to put an end to inflation.

## Exhibit Popular

# Official For EPA Doesn't Want To Give Du Pont Blanket Permission For Dumping Wastes Into Gulf

WASHINGTON (AP) — The Du Pont Co. should not be given blanket permission to dump its industrial wastes into the Gulf of Mexico, says a hearing officer for the U.S. Environmental Protection Agency.

The EPA hearing officer recommends instead that Du Pont be made to eliminate certain compounds from the waste or that the agency hold the whole matter in suspension for 90 days.

The recommendations were delivered in a letter Thursday to EPA Administrator Russell Train by Michael K. Glenn, who held two days of hearings in Pensacola, Fla., last July on Du Pont's request for a dumping permit.

Du Pont earlier was given a permit to dump 12,000 tons of waste monthly into the Gulf 230 miles south of Pensacola. The wastes, being stored in barges on the lower Mississippi River, are from the company's Belle W. Va. antifreeze plant.

Florida, other Gulf states and environmentalists challenged the permit on grounds that the chemicals and metallic compounds in the waste would harm the Gulf ecology.

"Taking into account all the findings and considerations set forth in the report, I cannot recommend that the disposal operation as proposed by Du Pont be permitted," Glenn said in the letter.

"In a word, a great deal is unknown about the potential effect of this waste on the Gulf marine ecological system and is perhaps unknowable in the immediate future."

Du Pont officials had no comment when asked for their reaction to Glenn's recommendation.

Florida Asst. Atty. Gen. Ken Hoffman, who coordinated the state's case at the July hearing, said, "I can't go whoopee or anything, but I think it's generally favorable."

"We will wait with bated breath" for Train's decision, he said, "then either go back to court or celebrate, depending on the results."

The waste is a mixture of benlate, sodium styrene sulphate and glycol. The latter includes antimony compounds, viewed by environmentalists as especially harmful to marine life.

Glenn said more studies are necessary to determine the effect of the compounds.

"They are, in my judgment, insufficiently described by Du Pont to evaluate their impact on the Gulf environment," he said.

He made his recommendations in the form of two alternatives.

The first would allow the dumping of benlates and sodium wastes but not glycol.

No permit would be issued for the dumping of mixed wastes and Du Pont would be told to separate the wastes in the future. EPA would take a close look at allowing a limited dumping of the mixed wastes for research purposes.

The second alternative would allow nothing to be dumped at present. A 90-day period would be set for comprehensive tests of the wastes.

# You Can Tell When Money Is Tight—Economy Hurts

WASHINGTON (AP) — The way to tell when money is tight is when the economy is hurting.

That's how it is now, with unemployment at 5.4 per cent and expected to edge upward to 6 or even 7 per cent. The prime rate, the interest banks charge their best customers, is at a record 12 per cent. Home loans are pushing 10 per cent, and the home building industry is in its steepest slide in history.

Such were the developments that prompted a recurring theme among the economists who advised President Ford Thursday to seek a looser money supply.

But the President, for all his power, can only persuade when it comes to regulating the money supply. That chore is entrusted to the Federal Reserve Board, known as the Fed. The Fed was created shortly before World War I and is now headed by Arthur F. Burns.

Burns and his seven fellow governors have tightened the money supply by keeping it from growing as fast as it has in recent years.

The money supply grew an average of about 4 per cent a year in the 1960s, then ballooned 8.7 per cent in the boom year of 1972 before the Fed applied the brakes. The board cut the growth rate to 6.1 per cent last year and is shooting for something between 3 and 7 per cent this year.

Tight money means lower demand for goods and a downward pull on rising prices.

The Fed has three tools for tightening the money supply.

One is to increase the amount of money banks must hold in reserve to back up their depositors' accounts. Currently, the Fed requires the nation's biggest banks to maintain reserves to 18 per cent of customers' checking account balances. That's up by half a percentage point since November 1972.

The second tool is the discount rate, or the interest the Fed charges member banks to borrow money. The discount currently is a record 8 per cent and a full 3 per cent above January 1973, when the Fed began tightening the money screws in earnest.

The Fed's third, and preferred, method is something called the "Open Market Committee," headed by Burns and composed of his fellow governors and four other members elected by the Federal Reserve banks around the country.

When the committee wants more money in circulation, it buys securities on the open market, thus pumping money into the economy. When the money supply is growing too fast, the Open Market Committee sells some of the securities it holds, siphoning money into its coffers.

The Fed, orchestrates the committee's operations as finely as possible by keeping a close watch on growth in the money supply and the effect of the growth on a key money market vehicle — the federal funds rate.

Federal funds are excess reserves that banks lend to each other. A high federal funds rate usually signifies tight money.

The rate had never hit 10 per cent before last year. It has already gone over 13 per cent and currently has receded to about 12 per cent.

# Carmen Moving To North

MIAMI, Fla. (AP) — Hurricane Carmen moved sluggishly north from the southern Gulf of Mexico today and forecasters advised residents of a wide swath of the Gulf Coast to keep aware of the storm's movements.

"A hurricane watch may be needed for a portion of this coastline Friday," forecaster Paul Hebert said late Thursday at the National Hurricane Center in Miami.

Carmen, with sustained winds of 90 miles per hour, was about 130 miles north-northwest of Merida, Mexico, early Friday.

It was expected to turn north-eastward during the day, gradually gaining in forward speed and strength.

The path could take it anywhere in an area ranging from Louisiana to the eastern Florida Panhandle, Hebert said.

Carmen had remained stationary off the coast of Campeche, Mexico, decreasing to tropical storm status, for several days before regaining strength on Thursday and beginning its slow northward drift.

Meanwhile, the hurricane center said a reconnaissance plane was to take a closer look at a new tropical depression churning through the Atlantic toward the Leeward Islands.

The depression early Friday was centered about 110 miles east of Antigua and 400 miles east-southeast of Puerto Rico.

It had winds of 25 m.p.h. and was moving west to west-northwest at about 15 m.p.h. on a path aiming it to the north of Antigua, the center said.

If sustained winds in the depression reach 30 m.p.h., it could become Elaine, the season's fifth tropical storm.

# Hurricane Center Chief Says Common Sense Required In Tracking Storms

MIAMI, Fla. (AP) — It takes about as much common sense as it does sophisticated equipment to track a hurricane accurately, says Dr. Neil Frank. He's the man responsible for the tracking.

"We have access to lots of equipment, but everything we do has to have that personal override," Frank said on Thursday. "Somebody has to evaluate all that information."

Frank, director of the National Hurricane Center here, has a staff of 85. But most of the evaluation is by five hurricane specialists who work in what they call the "war room" of the center.

The war room staff is surrounded by satellite pictures of half the world, plus charts, maps, graphs and several television screens capable of providing satellite pictures of almost any place in the world.

"The satellite is backbone of our whole information-gathering operation," Frank said. "With our present ability to take pictures of these storm systems, day or night, we stand a better chance of predicting where they're likely to go."

But satellite pictures aren't enough, he said. It's like seeing smoke. It doesn't give a clear indication of how big a fire is. That's where information gathered by airplanes which fly into the storms becomes essential.

The information is pumped into a computer in Washington, D.C., which uses mathematical models to predict probabilities.

"But there are limits to how much we can trust mathematical models," Frank said. "So someone has to weigh the probabilities in light of all we know before we make a prediction."

# Kissinger Says U.S. Will Support New Greece Government

WASHINGTON (AP) — Secretary of State Henry A. Kissinger says the United States "will do its utmost" to support the new government which put an end to seven years of military rule in Greece.

Kissinger said Thursday that in view of the Greeks' return to a system of government "with which we have profound sympathy," the United States aims to "restore and deepen" its traditional friendship with Greece.

The secretary's remarks, voiced after the swearing-in of Jack B. Kubicsh as the new ambassador to Greece, came as an apparent attempt to repair the serious damage done to U.S.-Greek relations over the Cyprus issue.

The Athens government has charged that U.S. policy tilted toward Turkey in the Cyprus strife. It has withdrawn Greek participation from military aspects of the North Atlantic Treaty Organization and threatened to terminate agreements covering U.S. military bases in Greece.

Kissinger acknowledged that the Cyprus crisis had led to problems with the Greek government, but said he is confident that the worst difficulties have been overcome.

Kubicsh, 53, is a career foreign service officer who has served most recently as assistant secretary of state for Latin American affairs. His prior service included positions in France as well as Mexico and other Southern Hemisphere assignments.

In Athens, Kubicsh succeeds Henry J. Tasca, who was ac-

## POLLY'S POINTERS

### Marked Up Doll Needs A Cleaning

By POLLY CRAMER  
Newspaper Enterprise Association

**Polly's Problem**  
DEAR POLLY — Do any of the readers know how to remove crayon marks from a doll's face? My Amy loves her "baby" no less but I am sure she would look better without those blue "bruises" on her face. Thank you. — JUANITA.

DEAR POLLY — My Pet Peeve is with the makers of rain boots that do not even have the shape of a shoe. It seems they could make nice looking, neat and sturdy ones that do not leak after the first few wearings. I do a lot of walking so this is quite important to me. — K.C.

DEAR POLLY — I want to tell Marsha who dyed a uniform purple but is still not satisfied with its appearance that when my wife needed a new dress in a hurry but had little time to shop she bought a uniform similar to the one Marsha described. She removed the sleeves and faced the armbands. A turquoise scarf was worn with it.

**Retired Teachers To Meet Sunday**  
The Midland Retired Teachers Association is an affiliate of the National Retired Teachers Association, a professional organization dedicated to providing practical solutions to the needs of retired teachers and to promote their welfare with solutions to problems of federal, state and municipal retirement programs.

Also financial security and retirement education, medical needs, travel, health and life and auto insurance protection. The NRTA is emphasizing the achievements of older persons and assists them in daily living. Retired teachers or administrators formerly employed in public, private or parochial schools are eligible for membership in the non-profit organization. Retired teachers also are eligible for membership in the Texas Retired Teachers Association and associate membership in the Texas State Teachers Association.

The MRTA will have a membership tea from 3 to 5 p.m. Sunday in the home of Mrs. Harry Douthitt, 2310 Seaboard St. Members of the association's executive board will be hostesses. All interested retired teachers are invited to attend.

It and later, when she had time, she added long full sleeves. Here in no way resembles a uniform. — NORMAN.

DEAR POLLY — Marsha can make her dyed uniform look even more like a regular dress by the addition of appliques or just sewing a decorative trim around the collar and pockets. — JUDY.

DEAR POLLY — I keep a list of the names of my family and friends close at hand. When I hear any one of them express a wish for something I make a note of this by his or her name. By doing this I am never at a loss for an idea for birthday, Christmas or anniversary gifts and am always sure my gift will be welcome. — PHYLLIS.

DEAR POLLY — For several years my husband has used the following car care idea for all our cars and we like it so well we want to share it with others. Using a hand-operated label making tool he makes separate strips showing vital car care information such as brand and size number of the oil filter, fuel filter and air filter, type and weight of motor oil, air pressure for the tires, etc. He sticks these informative strips on a flat piece of metal under the hood near the radiator. It is so reassuring to have this information conveniently at hand. It is convenient for us or anyone working on a car. — Avid Readers, JIM and MARTHA.

DEAR POLLY — If facial tissues are in a box you particularly like when the box is empty carefully trim off the bottom and then use this as a lid over the next box of tissues you buy. — RODNEY.

## Chapter Reports Recent Events

The Xi Epsilon Epsilon Chapter of Beta Sigma Phi had a "Beginning Day" swim party and attended a performance of the Summer Mummies recently.

The swimming party was held at the home of Mrs. Richard Schultz, 1710 N. A St. Mrs. James Beverley distributed yearbooks for the new year, and committee chairmen presented reports. Plans were announced for a garage sale to be held by the chapter Saturday.

Also attending were Mrs. George Brickey, Mrs. John Cruse, Mrs. Jack Derington, Mrs. Reg Hyer, Mrs. Birdie Lamkin, Mrs. Orin Russell, Mrs. Richard Wilson and Mrs. Herman York.

Prior to attending the Summer Mummies, chapter members and guests met for cocktails in the home of Mr. and Mrs. Cruse, 3410 Boyd St.

Attending were Mr. and Mrs. Brickey, Mr. and Mrs. Cruse, Mr. and Mrs. Hyer, Mr. and Mrs. Russell, Mr. and Mrs. Leonard Shepherd, Mr. and Mrs. Wilson, Mr. and Mrs. York, Mrs. Jack Nunan, Mr. and Mrs. Buddy York and Mr. and Mrs. Wayne Richardson.

Debra Kay Johnson And S. R. Davis Jr.

## Engaged Couple Honored At Party

Mrs. Dorothy Holt Kinsey entertained her daughter, Debra Kay Johnson, and her fiancé, Samuel Riker Davis Jr., with a garden party Thursday at her home.

Miss Johnson and Davis are sailing on the Queen Elizabeth II to the African continent and will spend a year conducting research for Hampshire College in Amherst, Mass., following their marriage.

Miss Johnson is the daughter of the late F. Kirk Johnson Jr. and granddaughter of Mrs. F. Kirk Johnson and the late Mr. Johnson of Fort Worth and Mr. and Mrs. Marion Flynn of Midland. Davis is the son of Samuel R. Davis of Bedford Hills, N.Y., and the late Mrs. Barbara Gould Davis, and grandson of Mr. and Mrs. William Shippen Davis of Fair Haven, N.J., and Mr. and Mrs. John H. P. Gould of Lenox, Mass., and Antigua, British West Indies.

Miss Johnson attended Stephens College and The University of Texas-Austin and now is a student at Hampshire College. She spent a year at the University of Grenoble in Grenoble, France, and was presented as a duchess at the Tyler Rose Festival in 1970. She also was presented as a duchess at the Order of the Alamo festival in San Antonio in 1971.

Davis attended St. Paul's School in Concord, N.H., and the University of Grenoble and Bournemouth, Poole College of Art in Bournemouth, England, and now attends Hampshire College. He is active in photographic cultural research and recently had a one-man show, "Reflections of Mesalero Apaches," at Hampshire College Gallery.

Guests at the garden party were seated on the terrace at round tables covered with black and white zebra cloths and centered with porcelain animals filled with ferns, ivy and votive lights. A parquet dance floor constructed over the swimming pool was used for dancing to the music of Walt Smith. There also was a summer house filled with smilax, hanging baskets of fern and firefly lights, forming a cupola over the dancers.

Guests were served fruit, wine and cheese from tables covered in zebra cloths and centered with life-size porcelain cheetas with headpieces of fresh fruits.

Out-of-city guests included Mrs. F. Kirk Johnson, Mr. and Mrs. William G. Mitsch and daughter, Cam, Mrs. Raymond Buck Jr., Mrs. Charles Rowan, Mr. and Mrs. Clayton Brants, Charles Meeker, Mr. and Mrs. Harry Tension, Mr. and Mrs.

Donald Bond Ehrhart and Mr. and Mrs. C. Daniel Walker, all of Fort Worth; Mrs. James Sowell, Mrs. Judy Carrigan and James Hooker, Dallas; Mr. and Mrs. Lloyd Davis Jr. and Mr. and Mrs. Ray Heid of Ruidoso, N.M.; Mr. and Mrs. Lee Caldwell of Abilene; Lynn Wilson of Denver, Colo., and F. Kirk Johnson III and DeMar Johnson, brother and sister of Miss Johnson.

## Beta Eta Chapter Holds Meeting In Martin Residence

The September meeting of the Beta Eta Chapter of Epsilon Sigma Alpha was held recently in the home of Mrs. O. D. Martin, president, who presided.

Mrs. Martin introduced Mrs. Frank Felts, educational director, who presented the program. Mrs. Martin presented the chapter yearbook to members, explaining various changes in keeping with state and international by-laws. Mrs. Don Robinson, social chairman, told of plans made for social events throughout the year.

Mrs. Felts then introduced the educational programs using the form of a beauty contest, in keeping with the educational theme, "Stairway to Beauty." Members who will present programs during the year appeared with appropriate props illustrating their segment of the overall program. Mrs. Martin was chosen beauty queen with Mrs. Robinson named as first runner-up.

Reports from standing committees showed that members have been working during the summer on ideas for philanthropic projects and ways and means ideas. Philanthropic projects to be under taken include Leisure Lodge, Park Place, the annual valentine party at the Opportunity Center and individual participation by members in fund-raising activities of the many volunteer aid programs conducting drives in Midland.

Members voted to support the Texas Love Fund, which assists ESA members across the state who need financial help in time of disasters.

Informal discussion was held concerning the success of the summer social events. The highlight of the summer was a family camping trip to Ft. Davis, in late August with 22 members and their families participating.

Mrs. Robert Connor was elected as chairman for a special fund raising project to benefit the Disaster Fund, a project of District 8. Monies collected from the project will be donated to the district fund later in the year.

Chaplain, Mrs. Clarence Grant, presented a closing devotional.

Next meeting will be a rush party Sept. 18 in the home of Mrs. Robinson, rush and social chairman.

## Auxiliary Slates Membership Tea

The Trinity Towers Auxiliary has scheduled a business meeting for 1:30 p.m. Monday, followed by a membership tea from 2:30 to 4 p.m., in the lounge.

## Dear Abby

—By Abigail van Buren

### 'Sir Or Madame' Looks Better All The Time

DEAR ABBY: A reader signed "Ms W." requests a non-sexist salutation for business letters.

Why is a salutation necessary at all? It should have been discarded years ago with such useless phrases as, "Beg leave to reply to your favor of the 13th instance," and "your most obedient servant."

"Dear Anybody" is both redundant and archaic, along with the traditional "Very truly yours," which, in a business letter, is the ultimate in hypocrisy. No?

MISS BRANIGAN

DEAR MISS B.: Yes. Many non-sexist salutations for business letters were submitted. For example: "Gentleperson," or the plural, "Gentlepeople."

Others suggested the bright and cheery, "Good morning!" (How about those who don't get around to reading their mail until 4 p.m.?)

Try, "Dear Person." (That's too impersonal, like "Occupant.")

Also, "Hi there," or would you believe, "Howdy!" Come to think of it, "Dear Sir or Madame," or "To whom it may concern" are beginning to look better to me.

DEAR ABBY: After 13 years of marriage, my husband and I were divorced for the age-old reason. Another woman. We have two children, 10 and 12, which made it a very painful ordeal for me.

My husband married the "other woman." He has visitation rights, which are fair enough, but when he comes to pick up the children, he and his wife and her eight-year-old son come right to my door. I feel I have to invite them in, and then I have to ask them, sit down. Once they are seated they stay and stay until I feel compelled to offer them some refreshments.

Meanwhile, making small talk with them is sheer torture because I feel so uncomfortable in this woman's presence. I can

hardly look at her at my husband's side without wanting to burst into tears. It seems an eternity until they take my children and leave. They sometimes come back "early," and again they are all at my door, expecting to be invited in. These visits are a terrible strain for me. I can't help how I feel, Abby. Am I wrong? How should I handle this?

STILL HURTING

DEAR STILL: Ask your lawyer to write your husband a letter suggesting that he either pick up the children alone, or leave his wife and stepchild in the car. You're not wrong. There's no reason why you should be cast in the role of an unwilling hostess.

DEAR ABBY: I was pleased to see that you view reading a spouse's mail as a violation of privacy, and place it in the same class with reading a child's diary or listening in on the extension telephone. Those are exactly my sentiments.

I don't want to see my wife's mail, and that means even after it has been opened and is in plain view. When my wife has had a telephone conversation, I never ask: "Who was that, dear?" I figure if she wants to tell me, she will volunteer the information.

I offer you free of charge my father's philosophy: "Don't ever put another person in the position of having to lie to you."

VALUES PRIVACY

DEAR VALUES: We agree — to a point. But no one "has to" lie. Simply say: "I prefer not to answer that question."

Everyone has a problem. What's yours? For a personal reply, write to ABBY in care of this newspaper. Enclose a stamped, self-addressed envelope, please.

## Debbie Patchell Has Scholarship To Music School

Debbie Patchell, daughter of Mr. and Mrs. George Patchell of 2100 W. Wadley St., Apartment 136, has been awarded a career scholarship to Sherwood Music School in Chicago, Ill.

Sherwood College, in association with the University of Chicago, provides intense training for performers of opera and oratorio. Miss Patchell is a graduate of Lee High School and attended Southwest Texas State University two years. While at STSU, she was soloist with the Corpus Christi Symphony Orchestra in the "Messiah." She also toured in Switzerland with the STSU Kantorei and East Switzerland Chamber Orchestra. She is a former student of Mrs. William H. Maitland and Hank Sellers of Midland and Carol Smith of STSU.

## Tennis Players Plan Luncheon

The Ladies Tennis Association of Midland Country Club will have a member-guest luncheon, starting at 9 a.m. Wednesday, in the clubhouse. Reservations should be made with the clubhouse, 682-0822.

## Mrs. Coleman To Review Book

The Book Review Unit of the Midland Woman's Club will present Mrs. D. L. Coleman at 11:30 a.m. Monday. She will review "A Tramp For The Lord," a sequel to the best seller, "The Hiding Place."

Mrs. Coleman is a popular Midland reviewer. She has taught Bible classes in the Methodist church as well as the public schools.

Mrs. James Henry will take reservations, 684-0137, or 683-8717.

## Midland Sorority Holds Initiation

The Beta Pi Conclave of Kappa Kappa Iota, teachers' sorority, met recently in the home of Mrs. William Southland, 2816 Stutz Drive, for its initiation and games night. Mrs. Tom Worley and Mrs. Scott Lewis were co-hostesses.

Mrs. Wayne Oulvhouse and Mrs. John Hyde were initiated as new members preceding the business session. Mrs. John V. Moore was reinstated as a member.

Officers for the year are: Mrs. Don Hunt, president; Mrs. Ray Schulze, vice president; Mrs. Don Hicks, secretary; Mrs. Ira Kirby, treasurer; Mrs. E. L. Hought, parliamentarian, and Mrs. Elton Rogers, historian.

## Mrs. Pat Coble Named Sweetheart

The Psi Phi Chapter of Beta Sigma Phi met recently in the home of Mrs. Steve Woods and selected Mrs. Pat Coble as its valentine sweetheart.

Presenting the programs, "Manners on Any Day" and "Poise Is Charming," were Mrs. Lyons Lockhart Jr. and Mrs. Cycle Peterson.

Mrs. Bill Perkins, formerly of Roswell, N.M., became a member of the chapter. It was announced the chapter received a three-star rating from the sorority's international office.

Gifts were presented to Mrs. Lon Bushnell and Mrs. Gilbert Simms, new mothers.

Plans were made for a rush party, a spaghetti supper, to be held Sept. 14 in the home of Mrs. Ron Thurston.

Guests were Mrs. Troy Cooley, Mrs. Bill Harris and Mrs. C. W. Gibson.

### Proud, Historic Occasion

This is a great and historic day for Midland marking as it does the official dedication of the new multi-million dollar U.S. Federal Building and Post Office complex in the central business district.

It is a long-awaited day, which makes it all the more appreciated by Tall City residents, who are as proud as can be of the new, beautiful, spacious and completely modern Federal Center.

It is a facility of which any city would be proud, not only of the buildings themselves, but of the many and varied services performed by the personnel of the various federal agencies occupying them.

The formal dedication ceremony was scheduled for mid-afternoon, with the Hon. George Mahon of Lubbock, member of Congress from Texas' 19th District, as the principal speaker.

It was fitting that the capable, highly respected and greatly admired congressman from this West Texas district should have been selected to deliver the dedicatory address, since he largely was responsible for the overall project. He also delivered the address at the groundbreaking ceremony for the new complex in April of 1972.

Midlanders join in welcoming him back to Midland on this particular occasion and in expressing sincere appreciation for his unsurpassed cooperation through the years.

A cordial, typically West Texas WELCOME also is extended to other dignitaries here for the special occasion. They include the Hon. Adrian A. Spears, chief judge of the U.S. District Court for the Western District of Texas, and the Hon. D. W. Suttle, a judge for the Western District who presides over the Midland court. Both are of San Antonio.

Another honored guest is Dwight Ink of Washington, D.C., deputy administrator for the General Services Administration, who was to serve as master of ceremonies at the dedication.

Other GSA officials, court personnel, Postal Service officials and representatives of other government agencies involved are in Midland for the historic event.

Midlanders also take this opportunity of saluting the scores of persons, good citizens all, who staff the various agencies having offices in the new buildings.

To the architects, building and equipment contractors, construction laborers and all others who had a part in planning and erecting the new facilities, thanks for a job well done.

Yes, Midlanders are proud of the new U.S. Federal Building and Post Office complex, which stands as a symbol of the enduring strength, justice, public service and stability of the nation which it represents — the United States of America.

### Congratulations!

### The Washington Merry-Go-Round

**Jack Anderson Says: Senator McGovern writes to President Ford.**

WASHINGTON — All but forgotten in the Watergate aftermath has been its chief victim, Sen. George McGovern, who was badly defeated after the dirtiest presidential campaign in American history.

Yet the South Dakota senator, betraying no bitterness, has written a stirring, private letter to the man who now has wound up in the White House in his place, without ever running for President.

The letter, intended for President Ford's eyes only, thanks him for his "constructive leadership" at this critical hour and declares eloquently: "No one can now fail to see what is right with America, even as we strive to repair what is wrong."

Although McGovern was the Democratic presidential candidate in 1972 and will oppose Ford's election in 1976, he wrote the new President on Aug. 30 to wish him well.

"No one who loves America has taken satisfaction from the crisis that put you in the nation's hardest job..." the letter allows. "But we can draw satisfaction from the underlying strength of our constitutional structure and the rule of law. For we have demonstrated that we take those principles seriously and that they can be made to work."

"For despite the serious challenges we have to face, despite the honest differences we are bound to have, we have taken the first and greatest step toward recovery. Our confidence is returning."

Citing what is right with America, McGovern tells Ford warmly: "One thing that is right is your approach to the presidency. Above all else the country needed healing. You have understood that need and met it."

**Spirit of Cooperation**  
"The spirit of excessive partisanship is gone from the White House. Instead you have summoned a spirit of cooperation from Democrats and Republicans alike. Instead of 'enemies lists,' there is a list of domestic and foreign priorities we share together."

"And with the sense of common purpose you have inspired, we face them with renewed strength and resolution — as one united people once again. We can hammer out the answers on the basis of mutual respect, and with a common vision of America as a great and decent land."

McGovern goes on to praise his political adversary. "You have the opportunity and the capacity to be a great President," writes the senator. "You

### TIMELY QUOTES

"Letting 300 sorry GIs come back can't affect America's war machine. Anyway, saying 'no' to war-making is the big idea in the world these days so were we so wrong?"  
— American draft resister who fled to Sweden commenting on President Ford's proposal of amnesty.

"I have found success wasn't as much fun as it was cracked up to be. It almost cracked me up. It was two years of awful loneliness."  
— Country & Western superstar Lynn Anderson during an interview discussing her 24-month road tour.

Then he stopped, saw that he just might need an extra tie to dummy and won in his own hand.  
"It was well that he did. As it was, dummy's entries lasted just long enough to bring the slam home."

reduced rates through the federally run House stationery store.  
Footnote: A spot check determined that other congressmen carefully keep their fund-raising activities away from Capitol Hill to avoid violating the law.

bring to the White House the same qualities of fundamental honesty and fairness those of us who served with you saw in Gerry Ford, our colleague in the House.  
"As President Ford, you have called upon civility among politicians. That alone would be an historic achievement. Knowing you as I have, I see every chance for equal achievements in meeting the challenge of inflation and other challenges still unforseen.  
"For my part, you can be assured that I will give all the help I can to a President doing all he can to find the best course for the country."

ILLEGAL LETTER: Feisty, fiery Rep. Charles Sandman, R-N.J., who kept the House impeachment hearing in turmoil with his outspoken defense of ex-President Nixon, apparently hasn't learned his Watergate lesson.  
It is against the law for congressmen to use federal office space to solicit or receive "any contribution of money or other thing of value for any political purpose."  
Yet Sandman utilized federal premises to print a two-page letter begging friends "to send \$100, \$75, \$50, \$25, \$10, \$5 or whatever you can afford" for his re-election campaign.  
A spokesman for Sandman conceded that the letter was printed in the congressional storage room assigned to the congressman. The spokesman stressed that the printing press belonged to Sandman personally and that the paper was purchased with campaign funds.  
However, the printing was done on federal property and the paper was purchased at

### RAY CROMLEY How Controls Led To Uncontrolled Inflation

WASHINGTON (NEA) — Usually calm President Ford reacts strongly whenever price controls are mentioned.

There's a reason. New industrial surveys show just how much of our trouble today dates back to Mr. Nixon's attempt to regulate what companies could charge for their products.

Price controls at home when prices were soaring abroad led producers to sell greater quantities of scarce materials in the world market. Especially serious were exports of chemicals; aluminum, iron and steel scrap; petrochemicals; steels; copper electrical equipment, and heat exchangers.

For imported materials the situation was equally bleak. Foreign producers of zinc, manganese and other important basics naturally sold where they could get premium prices. That was not the U.S. market.

Price controls, combined in some cases with stringent anti-pollution requirements, where costs could not be passed on, reduced profits to a point where numbers of marginal firms were forced out of business, further reducing supplies. The annual smelter production of zinc dropped from 1.4 million tons a few years back to 600,000.

Between 1970 and 1972, 300 small foundries went out of business. Shutdowns of aluminum, coke and glass plants have been reported.

The low profit margins, some again affected by anti-pollution regulations, led other firms to delay indefinitely expansion of their capacity. The range here reads like a roster of basic industry — caustic soda, chlorine, alloys, petrochemicals, titanium, tungsten, steel, aluminum, pulpwood, salt, soda ash, iron castings, manganese and on and on.

And finally, these controls led many companies to cut back or halt production of key items where profit margins were low and shift to heavier output of goods where more money could be made under the regulations.

There were cutbacks in titanium, in key specialty alloys, some structural steel shapes and bars and railroad wheels (which intensified the shortage of rail yard rolling stock, leading in turn to other shortages).

Overall, there were important shortages in 63 critical materials, shortages which fed one on another to hold back production throughout U.S. industry as demand increased sharply at home and abroad.

Static production and increased demand resulted in the agonizing inflation we now face. Economists call it demand-pull inflation.

Price controls were not the sole cause of shortages and inflation, to be sure. As noted above, the sudden-unrestrained financial demands of environmentalism (a most worthy cause) soaked up multimillions in scarce moneys and supplies required for industrial expansion — and boosted costs.

There was the worldwide explosion in petroleum prices, a global food shortage. There were power brownouts and an unusually heavy demand worldwide for scores of raw materials, combined with some declines in American resources as less-expensive and easily accessible reserves were mined out. There were transportation shortages — in shipping, and

in types of tank cars and other rolling stock — which affected supplies of chemicals, coke, phosphates, potash, sulfur, tin and other materials.  
But price controls seemingly were the hefty straws which broke the camel's back.

The waiting lines may be gone at the neighborhood gas station but there is a "hidden" part of the energy crisis we are not too conscious of until we discover a product we once took for granted is no longer available or has soared in cost.

This is the portion of the energy spectrum that concerns the small amount of the nation's oil and natural gas that is not used for fuel but as raw material for making the petrochemicals that have become so essential to modern life. How essential?

"From the time we get up in the morning and brush our teeth with a plastic toothbrush and wash our faces with man-made detergent, until we go to bed at night and pull our permanent press sheets and synthetic blankets, we are surrounded by petrochemicals."

The quote is by Richard C. Perry who is in charge of Feedstock and Energy for Union Carbide Corp.

Although the percentage of oil and natural gas that goes to make petrochemicals is extremely small compared to the amount that goes to fuel uses — about five per cent of the oil and 10 per cent of gas — our dependence upon them is much greater than we realize, says Perry.

Consider the family car. If we were to remove everything based on petrochemicals from today's automobile, gone would not only be such essentials as antifreeze but radiator hoses themselves, also tires, brake fluid, steering wheel, dashboard, upholstery and carpeting. Gone, too, would be the windshield because the resins that hold safety glass together are derived from petrochemicals. And also gone, the grille and even the paint.

In and around the home we come in contact with petrochemicals in paints and finishes for walls, furniture and appliances, vinyl wall coverings and floor tile, kitchen countertops, refrigerator air conditioners, refrigerators and freezers.

Even the family medicine chest depends upon petrochemicals. Common aspirin is a petrochemical derivative. In the garden shed: Garbage and leaf bags, fertilizers, bug sprays, weed killers — all petrochemicals.

Okay. But do we really need all these man-made materials? Why not go back to the naturally occurring materials we used before synthetics came along? The answer is simple, says

### The Country Parson By Frank A. Clark

### DON OAKLEY As Necessary As Water But Dwindling

WASHINGTON (NEA) — The Perry: Natural products are in extremely short supply and getting shorter. There are too many people in the world today to be supported by natural products. There aren't enough trees and we couldn't raise enough sheep.

Even if natural materials were available, in many cases they cannot do the job as well or as inexpensively as synthetics with their unique properties of light weight combined with strength, wrinkle resistance, long wear, etc.

Then, too, any massive shift back to natural materials would cause severe economic dislocations. It might seem a simple matter, for instance, to go back to cotton for all the things we now make from synthetic fibers. But how do we come by the 16 to 20 million additional acres of cropland?

To add 16 million acres of cotton would mean reducing the nation's soybean crop by 30 per cent. A reduction that size in soybean production would send the cost of animal feed skyrocketing worse than it is already.

In sum, like it or not, we are dependent upon petrochemicals. From no other single natural resource do we get four of the fundamental needs of life: Food, through fertilizers and pesticides; shelter, through structural materials, coatings and adhesives; clothing, through fibers and health care, through drugs.

The thing that is really hard to understand is why we continue to send most of this precious resource up in flames.

Consider the family car. If we were to remove everything based on petrochemicals from today's automobile, gone would not only be such essentials as antifreeze but radiator hoses themselves, also tires, brake fluid, steering wheel, dashboard, upholstery and carpeting. Gone, too, would be the windshield because the resins that hold safety glass together are derived from petrochemicals. And also gone, the grille and even the paint.

In and around the home we come in contact with petrochemicals in paints and finishes for walls, furniture and appliances, vinyl wall coverings and floor tile, kitchen countertops, refrigerator air conditioners, refrigerators and freezers.

Even the family medicine chest depends upon petrochemicals. Common aspirin is a petrochemical derivative. In the garden shed: Garbage and leaf bags, fertilizers, bug sprays, weed killers — all petrochemicals.

Okay. But do we really need all these man-made materials? Why not go back to the naturally occurring materials we used before synthetics came along? The answer is simple, says

South drew trumps with three led and continued with the ace and five of clubs. Dummy's queen lost to East's king and a spade came back.

The trick was won by the queen which South had been careful to keep in dummy. Now he ruffed a third club; entered dummy with the ace of diamonds and ruffed the fourth club to set up the last club as a winner. He discarded dummy's three of diamonds on the last spade; ruffed a diamond with dummy's last trump; discarded his last diamond on the last club and was home with the bacon.

Then he stopped, saw that he just might need an extra tie to dummy and won in his own hand.  
"It was well that he did. As it was, dummy's entries lasted just long enough to bring the slam home."

### The BIBLE Can You Quote It?

By LAVINA BOSS FOWLER

1. Considering the limited mode of traveling, the Lord, during His short life, really "got around." The distances were not great, but if one walks or rides a donkey, Jericho, Samaria, Capernaum, Jerusalem and the Decapolis were not easily reached. Where was the first place He went? Matthew 2:13
  2. What Biblical city had the shortest name? Joshua 7:2
  3. Who was the first city builder? Genesis 4:17
  4. Give the name for "the holy city." Nehemiah 11:1-18
  5. What city on the north side of the Sea of Galilee, did Jesus choose for His headquarters? Matthew 4:12, John 2:12
- Four correct... excellent. Three correct... good.

Charles A. Johnson Named Distinguished Student At A&M COLLEGE STATION — Charles A. Johnson, son of Mr. and Mrs. Jack W. Johnson of 2909 W. Illinois St. in Midland, has been named a distinguished student in veterinary medicine at Texas A&M University. The status is awarded to students who earn a 2.25 or better grade point during the summer trimester.

FOR ADVERTISING—

# Army Reopening Bidding On Pact

WASHINGTON (AP) — Seeking to dispel suspicions of official misconduct in the awarding of the present contract, the Army has decided to reopen the bidding on its \$40 million recruitment advertising contract.

Sources said on Thursday that the decision has been made against automatic extension of the contract now held by N. W. Ayer & Son Inc., a New York ad agency, for the 1976 fiscal year.

An Army spokesman acknowledged that such a move has been under consideration but refused to comment further. The sources said, however, that an announcement would be forthcoming soon outlining procedures under which the bidding will be opened to all agencies.

Ayer, which has held Army advertising contracts for a number of years, won the bidding to promote the all-volunteer Army program in 1972, with the Army holding an option to renew the agreement automatically for the next two years.

It was extended once, for the current fiscal year.

Since then, a probe by the Army's Criminal Investigation Division turned up what field investigators considered to be evidence of possible criminal misconduct by senior Pentagon officials in the awarding of the contract to Ayer.

However, their recommendation that the matter be turned over to the Justice Department was rejected. The case was referred instead to the Army's own Inspector General for what officials have called a continuing inquiry aimed at "improving management procedures."

Some members of the CID investigating team complained to

superiors that this was an effort to cover up the original findings by keeping the matter within Pentagon channels, sources said.

The Associated Press reported Aug. 19 that in a report dated April 29, the probe had said there was evidence that the Ayer contract might have been wrongfully influenced at high levels and that there were "certain unusual relationships" between parties concerned that merited further investigation by the Justice Department.

The Army at first denied there had been any such findings or recommendation, but later acknowledged the existence of the April 29 report. It said the decision to reject it followed consultations between a senior CID officer and Army lawyers.

Among those named in the report were Robert M. Froehle, who was secretary of the Army at the time of the contract award in October 1972, and William H. Kraus, a Froehle associate who as a member of the bid evaluation board cast the decisive vote for Ayer over six other competing agencies.

Kraus and Ayer have denied there was any favoritism in the report. Neel W. O'Connor, chairman of the ad firm, said the complaints suggested to him "a plan to discredit Ayer so we'd lose the contract," but he declined to say who he thought was responsible.

By some accounts, the original CID inquiry was prompted by disgruntled officials of other agencies who lost out in the 1972 bidding.

The Army sources said Ayer will be eligible to compete with all other agencies on an equal basis in the reopened bidding.

## U.N. Chief Says Countries Must Solve Problems Soon

UNITED NATIONS, N.Y. (AP) — Secretary-General Kurt Waldheim has warned the members of the United Nations their civilization may be destroyed unless they muster the effort and will soon to solve their common problems.

"Many great civilizations have collapsed at the very height of their achievement because they were unable to adjust to and cope with their basic problems, the U.N. secretary-general said in his annual report, issued on Thursday in preparation for the 1974 General Assembly opening Sept. 17.

"Today, the civilization which is facing such a trial is not just one small part of mankind, it is mankind as a whole....

"We have to change course and make some of our stated objectives into realities," Waldheim said mankind faces "a series of global problems from which no nation, however rich and powerful, can remain immune, and which no nation can hope to confront and resolve successfully on its own."

Inflation and other recent

## Several Area Residents Log Wins At Grandfalls

GRANDFALLS — Several area residents garnered high honors Saturday during the Grandfalls 4-H Club annual horse show in the Grandfalls arena.

Dana Milner of Midland took first place for registered mares under 5 and saw her horse, Fejona's Pina, named grand champion mare.

She also brought home first place honors in junior barrels, as well as second prizes in junior western pleasure, junior poles and junior western riding.

Midland's Patty Williams took third for registered mares under 5, first in junior western pleasure and third in junior western riding.

Midland resident Linda Meroney earned a second place rating for registered geldings 5 and over.

Clay Holcomb of Stanton snagged first prize for grade geldings under five as well as a third in junior western pleasure.

Kevin Newman of Stanton won a third place rating in junior riding and his Vee Bars Red was "titled" second champion gelding.

Stantonites Pat Holcomb and Kendall Newman took second for grade geldings under 5 and first for peewee western pleasure, respectively.

MIDLANDERS AT TESCO PLANT—Six members of a Midland delegation who Thursday toured the huge new generating unit at Texas Electric Service Co.'s Permian Basin plant near Monahans, inspect a special piece of equipment. They are, from left, City Manager James Brown, C. Winston Barclay, TESCO's Western Division manager; Dr. James Mailey, superintendent of schools; Dr. Al Langford, president of Midland College; Mayor Ernest Angelo Jr., and C. Ronald Schwisow, president of Teraco, Inc., and chairman of the Midland Area Sales Team. A public open house is scheduled Saturday at the plant.

## Bonuses, Higher Salaries Relieve Inflation Sting For Executives

NEW YORK (AP) — The sting of inflation was greatly relieved last year for the top executives of America's leading corporations through the application of higher salaries, bonuses and other contractual amounts of cash or stock.

A survey by a management consultant firm shows that the chief executives of 581 of the largest U.S. corporations received total compensation averaging 8.5 per cent higher than the previous year.

No less than 76 per cent of the 504 chief executives in office during both 1972 and 1973 received pay increases, said McKinsey & Co., which has conducted the survey for 20 years. Fourteen per cent took pay cuts. Ten per cent received the same pay.

McKinsey attributed the glittering figures to "the heftiest profit increases in more than 20 years." Profits of the 581 companies soared 29.1 per cent and sales rose 20.7 per cent over the previous year.

But the survey revealed also that companies reporting profit declines were reluctant to lower the compensation of their chief executives. Among 82 showing lower profits, only 31 reduced the top man's compensation, and 37 awarded increases.

The highest average salaries for the biggest companies—those with more than \$1 billion in sales—were in the pharmaceutical industry, where total compensation averaged \$316,000.

Following in order were soaps and cosmetics, \$309,000; alcoholic beverages \$294,000; diversified companies \$268,000 and tobacco \$266,000.

The lowest average compensation for chief executives was found in the meat products industry, at \$132,000, retail food chains, \$144,000 and apparel makers, \$167,000. The average for all billion-dollar-plus industries was \$223,000.

The word compensation was used by surveyors because executive pay comes in many forms besides salary. Most of the companies involved in the survey have long-term stock

programs under which executives are awarded bonuses or provided with the opportunity to exercise options.

Options, which permit the executive to buy the company's shares at a reduced price, provided some of the heftiest compensation gains.

The survey showed that five executives had pretax options gains for one year in excess of \$1 million, on paper at least. Sixteen showed gains in excess of \$500,000, and 73 had gains of more than \$100,000.

The survey showed that 422 executives had pretax options gains for one year in excess of \$1 million, on paper at least. Sixteen showed gains in excess of \$500,000, and 73 had gains of more than \$100,000.

The survey showed that 422 executives had pretax options gains for one year in excess of \$1 million, on paper at least. Sixteen showed gains in excess of \$500,000, and 73 had gains of more than \$100,000.

## Mail By Satellite To Get Under Way

LOS ANGELES (AP) — Satellite transmission of public mail between New York and Los Angeles will begin this month, Western Union and the Postal Service have announced.

Postal Service and Western Union officials disclosed at the same time on Thursday that space mail traffic linking the East Coast with Texas and other parts of the West is planned for the end of the year.

Announcement of the planned schedule came in ceremonies marking the first domestic space transmission of a letter from New York to Los Angeles via the satellite Westar I. The letter traveled 47,000 miles at the speed of light.

The first message, signed by Postmaster Gen. E. T. Klausen and R. W. McFall, chairman of Western Union Corp., was addressed to guests at the ceremonies at a local hotel.

"Mail by satellite has been a much discussed, much dreamed-of possibility for years," Asst. Postmaster Gen. William Dunlap told guests. "It is one of the most reliable, efficient and economic ways of moving mail ever developed."

Within a year, he said, the Postal Service plans to test additional satellite electronic message services.

The National Aeronautics and Space Administration launched Westar I last April 13 and plans to send up a second such satellite in October.

The Westar satellite network includes five earth stations serving the metropolitan areas of New York, Atlanta, Chicago, Los Angeles and Dallas, with connecting links to Washington, D.C., and San Francisco.

Western Union and the Postal Service established Mailgram service in 1970. Rates are lower than for telegrams and the Postal Service provides next-day delivery.

## Glasscock Jury Indicts Four Men

GARDEN CITY — Six indictments were returned against four persons Wednesday during a 7½-hour Glasscock County Grand Jury session.

Indicted twice each on felony theft charges in connection with theft of oilfield equipment were Jerry Weatherford and Jim Bob Weatherford.

Ray Hillbrunner was indicted for felony theft, with Mark Embury receiving a burglary indictment.

## Natural Gas Firms Face Antitrust Charges

NEW ORLEANS (AP) — Charging breach of contract and violation of state antitrust laws, Louisiana Power & Light Co. has filed a \$548.7 million suit against two natural gas firms.

LP&L said Thursday it seeks triple damages from United Gas Pipeline Co. and its parent firm, Pennzoil, as permitted under Louisiana antitrust statutes.

"Since 1965, United Gas Pipeline Company and Pennzoil Company have engaged in the creation of artificial shortage gas shortages to enhance prices and maximize profits," LP&L President E. A. Rodrigue alleged.

"The creation of these short-

ages has resulted in severe damage to LP&L and to its customers, as well as the public generally."

Last fall the Federal Power Commission ordered interstate

**Woman Becomes Toastmaster**

Elaine Zambon today became the first woman toastmaster in Midland at the regular meeting of the Fall Town Toasters at Sambo's Terri Carson was named best speaker, Bud Wilson best evaluator, Don Eckerty most improved and Ray Laird best table-top speaker.

LP&L filed suit in civil district court here Thursday, saying it lost \$182.9 million converting station boilers and purchasing the more expensive fuel oil when United broke its contract.

The suit states LP&L passed along \$55.6 million of the additional costs to its customers in the form of monthly fuel adjustments.

But Rodrigue said the monthly fuel adjustments will be returned to consumers if the utility recovers the damages it is seeking.

## President Of Gulf Denies Allegations Made In Indictment

HOUSTON (AP) — The president of Gulf Oil Co. U.S. has "categorically and emphatically" denied restraint of competition allegations contained in indictments returned in New York against Gulf and six other companies.

Z. D. Bonner also said Thursday early press publication of details of the indictments "raises strong speculation of an unlawful leak of this information."

Bonner said if such leakage occurred it is inexcusable and totally unfair for such unproven allegations to be reported in the press before Gulf knew what it had been charged.

He said Gulf had been aware a New York state grand jury had been meeting several months.

"Although the indictments were dated July 1, Gulf was not notified of such indictments until a telephone call was received from the assistant state attorney general on Tuesday, Sept. 3 to appear for arraignment on Sept. 5," Bonner said.

"We were not advised of what the specific charges might be against us although they were widely reported in great detail in the New York City press on Wednesday, Sept. 4."

"The detail and accuracy with which the stories were reported in the press raises strong speculation of an unlawful leak of this information."

"The background of publicity and the publication of the charges against Gulf and the other defendants prior to the indictments being officially released have seriously prejudiced the rights of Gulf and the other defendants to a fair trial."

Bonner said the New York attorney general has not completed the prosecution of civil cases filed against Gulf and six other firms in December alleging substantially the same charges contained in the indictments returned Thursday.

Bonner said "it appears we are being harassed by the attorney general in his pursuit of both civil and criminal proceedings simultaneously."

## Capitalism: moving target

The list of things wrong with business in this country is almost endless. Nearly as long, in fact, as the list of what's right with it.

Perhaps the most frustrating thing about business, for those who keep trying to shoot it down, is this: Corporations are so tenacious that they will even do good in order to survive. This tenacity goes beyond the old maxim that man, in his greed for profit, often unavoidably serves the public interest. In times of crisis, business will even do good consciously and deliberately.

Nothing could be better calculated to confound business's critics than this underhanded tactic. The Marxist dialectic has it that capitalism must inevitably founder in its own inherent contradictions; that it contains the seeds of its own destruction. But business also contains the seeds of its own adaptation and survival.

Businessmen are pragmatists, and with their daily feedback from the marketplace, they readily abandon dogma whenever their survival instinct tells them to. It has become less and less a question of what they want to do or might like to do, but of what their common sense and survival instinct tell them they have to do.

Remember the Edsel? That was one of the fastest plebs in history. But it wasn't the American public that took the loss; it was the shareholders of Ford Motor Company. (Then, you'll recall,

Ford changed course and bounced back with the Mustang, which quickly showed its tailpipe to the competition by breaking all sales records for a new make of car.)

Because it is keyed so closely to the marketplace and so responsive to it, private business is necessarily the most effective instrument of change. Some would call it revolutionary. Many of those who attack business fail to comprehend its constructive contributions to responsive change. And this sort of change is one of the basic reasons business managers to survive.

Not all businesses survive, of course. The record is replete with companies that expired because they didn't adapt rapidly enough to a new milieu.

While businessmen as a whole are not exactly social reformers, they do respond to criticism and to sustained social pressures. The alert businessman regards such pressures as a useful early warning system. The danger is that criticism can become a mindless reflex action that persists long after the basis for it has been dissipated.

Partly because of its ability to adapt—which is simply another word for responsive change—private business remains the most productive element in our society and on balance the best allocator of resources. If you decide to draw a bead on it, remember you're aiming at a moving target. Because, as we've said here before, business is bound to change.

## Lee Hosts Lubbock At Memorial Stadium

Midland Reporter-Telegram

### SPORTS

8A-FRIDAY, SEPTEMBER 6, 1974

Unlike last year when a half-dozen polls were conducted before the District 5-4A football race and there was a different winner for each one, Odessa Permian seems to be the consensus choice this year over the protests of Coach John Wilkins that the Panthers may not be as good as a year ago on the basis of evidence to date.

Still, the Panthers have won or shared the last four titles, and like Texas in the Southwest Conference, someone is going to have to convince the pollsters otherwise before they start picking against them.

However, tonight the balloting ends, except maybe for one final predistrict tabulation at the end of the month, and the teams themselves start casting ballots where they carry the most weight, in the won-lost column.

Midland Lee and Midland High, both open with optimistic outlooks, with the Rebels hosting old traditional rival Lubbock High while Midland journeys into the Panhandle to play Tascosa's Rebels at Amarillo's Dick Bivins Stadium.

Lee, rebounding from a 3-7 season in 1973, will be a slight favorite over a Lubbock squad that is rebuilding from a 4-5-1 season. The Rebels nudged the Westerners 13-7 last year to take a 7-4 edge in the series.

Midland High escaped with a harrowing 23-21 win over Tascosa last year when a two-point attempt in the waning seconds failed and this could be a repeat of that one.

Odessa Permian, co-champion last year with San Angelo, invades El Paso to face Coach Jack Quarles Thunderbirds. The Panthers are a heavy favorite, more on past performance than reality. Coronado went to the state quarterfinals a year ago and claims to be stronger this year.

Odessa High hosts Amarillo in W. T. Barrett Stadium and Dub Farris succeeds Dick Winder at the helm. Despite the loss of quarterback Rodney Allison and 34 other seniors, the Red Hoses aren't destitute and inherit the best JV squad in the district.

San Angelo beefed up its predistrict schedule and will have to contain South Oak Cliff's speed to win in Bobcat Stadium tonight, and an improved defense is expected to be up to the task.

Bob Burris takes his second Big Spring Steer edition to Andrews for its opener and the 5-4A squad is expected to equal its 1973 victory production in its first start.

Quarterback Tom Sorley and receiver John Thomas Smith are gone, but Burris may have a more balanced running-passing attack this year.

Bill Shipman follows Jerry (Continued On Page 12A)

## Area Play Begins

### Andrews '11' Hosts Steers

The 1974 grid season opens on all fronts tonight with the big question in the balance. Will the teams play according to pre-season form?

In District 2-AAA, the Andrews Mustangs host Big Spring in a key battle while district favorites Monahans and Pecos take on Snyder and El Paso Irvin, respectively. Alpine is at Kermit while Crane visits Fort Stockton. Seminole and Odessa Ector travel to Denver City and Amarillo Caprock respectively.

In District 3-AAA, defending champion Lamesa travels to Carlsbad, N.M., while Sweetwater tries Abilene High. Lake View's Chiefs host Kerrville Tivy and Lubbock Dunbar takes on El Paso Bowie at home. Brownfield travels to Levelland and Snyder, of course, is at Monahans. Plainview downed Lubbock Estacado, 16-7, Thursday in the only high school action thus far.

Defending champion Reagan County will kick off the 7-AA season at home against state ranked Coahoma while league favorite Crane travels to Fort Stockton. Iraan hosts McCamey while Ozona hosts Junction. Sonora will take on Coleman at home also.

Stanton opens their first (Continued On Page 12A)

# Sun Devils, Cougars Use 1st Game To Search For QB

PHOENIX, Ariz. (AP) — The Houston Cougars and Arizona State's Sun Devils open their 1974 football seasons Saturday night but neither of the nationally ranked teams has decided upon a quarterback.

ASU Coach Frank Kush told the Phoenix Press Box Association Wednesday that either freshman Dennis Sprad or junior Ray Alexander probably will start at quarterback.

"Sprad has done a very fine job in the past few days," said Kush, whose 15th-ranked Sun Devils are in one of their biggest rebuilding campaigns in years.

But, Kush said, Alexander also has come along well in recent practice sessions. Kush said he needed a few more days to decide who was having the most success with the offensive attack.

Houston sports information director Ted Nance acknowledged that with 16 starters back, the quarterback spot was still up for grabs.

Nance said junior David Husman was expected to be given the nod but added that Chuck Fairbanks Jr. has come on strongly.

Nance said that when he left Houston, head Coach Bill Yeo-

man was still undecided who would be given the starting quarterback role for the game, expected to attract a sellout crowd of 50,000.

Nance characterized the 11th-ranked Cougars as one of the best Houston teams ever, especially on defense.

"We are counting on the defense this year to do the job for us," he said.

Nance said the only weakness of the defensive unit is in the safety spots, where neither man has starting experience.

Kush, praising his defensive players, said his biggest problem will be the offensive back-

"We have quality kids back there, but they don't have the size or speed that we'd like them to have," he said. "We don't have anyone who can break and go the distance."

"Houston has a super defensive football team. I'm hoping that we don't fall apart, that is, from a physical standpoint. I don't want us to take a physical beating."

Members of the Press Box Association, mainly local sportswriters and sportscasters, picked Houston as the favorite. Twenty-eight members thought Houston will win. Only seven supported Arizona State.

## NAIA CHAMPS WITHOUT LONGLEY—

# ACC Back In Business

SAN MARCOS — Defending champion Abilene Christian College and Tarleton State get a jump on the rest of the Lone Star Conference Saturday as the 19-team loop starts its 48th football season.

ACC, also the National Association of Intercollegiate Athletics (NAIA) champ last year, will open its second season in the LSC in Little Rock, Ark., against State College of Arkansas-Conway in a game that will be played

in War Memorial Stadium. Wally Bullington's Wildcats also started the 1973 season in Arkansas, losing to Arkansas State, 56-46, before rolling to 11 straight wins with one of the best offensive teams the LSC has seen.

Tarleton will host highly-regarded Texas Lutheran in the other opener.

Here's a preview of the first two games:

ACC vs. State College of Arkansas-Conway, 7:30 p.m.,

Little Rock, Ark., War Memorial Stadium. All-America QB Clint Longley is gone, but Wilbert Montgomery is back at halfback to see if he can match last year's mark of 37 TDs and 224 points. ACC averaged 487 yards a game last year and should be strong again under the guidance of either Toby York or Jim Reese. Besides eight starters on offense, ACC plans to be better defensively with seven regulars back.

Arkansas-Conway was 6-5 last year in the Arkansas Intercollegiate Conference and with 38 lettermen and 15 starters back the Bears are considered AIC contenders. QB Sam Coleman is back after making all-conference as a freshman.

Texas Lutheran at Tarleton State, 7:30 p.m. Coach Buddy Fornes will probably start 17 freshmen against a veteran TLC team. DB Danny Russell will be the only senior in the Texas lineup and just four upperclassmen will start on offense. Sophomore Mike Perry will handle the QB duties. While Tarleton was 1-9 last year, TLC returns 16 starters from last year's 7-3 team and the Bulldogs have visions of taking the NAIA Division 2 title. FB David Wehmer is the offensive leader.

High escaped with wing 22-21 win over last year when a t attempt in the wands failed and this a repeat of that one. Permain, co-champ year with San Anrades El Paso to face ack Charles Thunder-

# Jefferson Street Joe Wins Steelers Starting QB Post

ON WAY TO UPSET—Roscoe Tanner of Lookout Mountain, Tenn., storms net on way to 7-6, 6-2, 3-6, 6-1 conquest of third seeded Stan Smith in the U.S. Open Tennis Tournament at Forest Hills, N.Y. (AP Wirephoto.)

## Tanner Upsets Smith

### Connors, Newcombe, Rosewall In Net Wins

By KAROL STONGER — U.S. Open Tennis Champion Mrs. King defaulted to her American foe last year in the Forest Hills, N.Y. — At the U.S. Open, the big question is, what's happened to tennis crowds, anyhow? Don't move. Hold your breath. Stifle that sneeze. It's hard on the sensitive athletes. Except when Bille Jean King plays. Then it is okay. No holds barred. "The trouble with tennis," says Bille Jean, who has been in the front of the let-'em-ally campaign, "is that it is too stuffy. I think noise is good for the game."

The Australians advanced when Rosewall defeated Indian Vijay Amritraj, 2-6, 6-3, 6-3, 6-2, and Newcombe ousted No. 8 seed Arthur Ashe, 4-6, 6-3, 3-6, 7-6, 6-4.

### AT FOREST HILLS—

## Nice Tennis Crowds Of Past Now Boisterous

By WILL GRIMSLEY — FOREST HILLS, N.Y. (AP) — At the U.S. Open, the big question is, what's happened to tennis crowds, anyhow? Don't move. Hold your breath. Stifle that sneeze. It's hard on the sensitive athletes. Except when Bille Jean King plays. Then it is okay. No holds barred. "The trouble with tennis," says Bille Jean, who has been in the front of the let-'em-ally campaign, "is that it is too stuffy. I think noise is good for the game."

## Gilliam's Aerials Dazzle Dallas

By DENNE H. FREEMAN — DALLAS (AP) — Jefferson Street Joe has finally made it to the big top. Joe Gilliam, the third-year Pittsburgh quarterback from Tennessee State who has dwelled in Terry Bradshaw's shadow, got the official word Thursday night after a 41-15 National Football League pre-season blitz of the Dallas Cowboys.

Pittsburgh Coach Chuck Noll said, "We'll go with Joe in the (regular season) opener with Baltimore. I'm not displeased with anybody but Joe has just

been tremendous. "Nobody on this team is No. 1 or No. 2. All 47 players contribute." Gilliam, who got his nickname from the street he lived on where he grew up in Nashville, Tenn., was euphoric in the Steelers' dressing room after his spectacular performance, which included touchdown passes of 56 and 31 yards. "Great, just great," said Gilliam when he heard what Noll had to say. "All I've ever wanted was the opportunity to be the starter." Gilliam completed 10 of 18 passes for 187 yards in the first half of the nationally televised game and then turned the helm over to Bradshaw. Bradshaw threw a 20-yard touchdown pass and yet a third Steeler quarterback, Terry

Hanratty, completed a 20-yard scoring pass. The victory gave Pittsburgh a perfect 6-0 preseason—the first time that's ever happened to the Steelers franchise. Dallas finished with a 3-3 mark. Gilliam has sizzled during the exhibition season, completing 11 touchdown passes, an NFL high. He came out smoking. On the fifth play of the game, he mailed a 56-yard shot to Ron Shanklin and later nailed rookie John Stallworth with a 31-yarder. Bradshaw's scoring pass went to Larry Brown and Hanratty's found the hands of Dave Davis. Rookie Clint Longley was all Dallas had to brag about, completing touchdown passes of 44

yards to Les Strayhorn and 47 yards to Jean Fugett. The Texas Stadium crowd of 41,321 booed starter Craig Morton off the field in the third quarter. Regular Cowboys quarterback Roger Staubach sat out the game with rib injuries. A disgusted Dallas Coach Tom Landry had warm praise for Gilliam, saying, "He came into camp early and is throwing the ball well. He won himself a job tonight." Landry was concerned whether his team's performance would carry over to next week's opener with Atlanta. "We just weren't ready," Landry said. "We've got to find out who's ready to play now. It counts from here on out." That's just what Jefferson Street Joe is thinking.

Oakland's Jim (Catfish) Hunter . . . 2-4 shutout may have been best game of year

## Hunter Tames Texas For 22nd Conquest

OAKLAND (AP) — "It may have been my best game of the season," said Oakland A's pitcher Catfish Hunter after he blanked the Texas Rangers 2-0 for his 22nd victory of the season. Thursday's four-hit triumph was a personal high for Hunter, who has won 21 games in each of the previous three seasons. "He's the best pitcher in baseball right now," said Oakland Manager Alvin Dark. "When you have to win a game, he's the pitcher you want to pitch it."

Hunter retired 15 batters in a row starting in the fourth inning and he faced only 29 in all. The righthander said he threw fast balls almost exclusively. "It was my best pitch, so I just kept throwing it," he said. The A's got only six hits off losing pitcher Jackie Brown, now 11-11.

Oakland scored two runs in the third inning on a single by Ray Fosse, a sacrifice and consecutive singles by Bill North, Bert Campaneris and Reggie Jackson. The final run came in the fifth inning on a triple by Campaneris and a wild pitch. Manager Billy Martin of the Rangers gave Hunter credit for pitching a fine game, but felt his pitcher did a better job. "They scored their runs on a checked swing, a wild pitch and a ball off the glove of our second baseman," Martin said.

## '74 District Champions Have Serious Mission

Another West Texas football season gets under way tonight and before anyone wins a district title out this way, they'd better think twice about it, and that goes from AAAA down to Class A. Responsibility will weigh heavy on the shoulders of the champions. This isn't just another season. It's a year of retribution. West Texas football has been beset, dragged in the mud if you will, not to mention shutout completely. Closest thing WT had to a 1973 state final was Vega. And can anybody remember when that last happened? In fact, the coach of the Class A state championship Troup team rubbed our noses in defeat by declaring that "West Texas football is dead, and buried never to be heard from again. Long live East Texas," or words to that effect. The only thing that spared us was "decadent."

Battle Scene

By Ted Battles — translation as will sometimes happen in conversing with those strangers to the east, although we'll admit their hominy grits with maple syrup is something we look forward to. Less has remained silent. Therefore, we must conclude he sincerely feels WT football programs a part of the pages of history like William Booney, Wyatt Earp and Doc Holliday. Apparently, Dee isn't alone in his thoughts. According to Texas Football a second by Plains in Class A, a third by Coahoma in AA, and a ninth by Odessa Permian in AAAA is about the best we can hope for this year. So it's evident that each West Texas champion this year will be a team a mission, that of redeeming a reputation from football's skid row. It's a responsibility that shouldn't be taken lightly. The forecast: Midland Lee 21, Lubbock 0—Rebels get off on the right foot. Midland 23, Amarillo Tascosa 18—Bulldogs get by a toughie. San Angelo 20, South Oak Cliff 14—If Bobcats are state title caliber, they oughta win this one. Odessa Permian 19, El Paso Coronado 7—Thunderbirds may be pretty good, but El Paso schools always are slow starters, which is no way to start against Panthers. Big Spring 16, Andrews 7—Steers stir the curiosity this year. Abilene 27, Sweetwater 6—Eagles on way back. Brownwood 14, Cooper 13—home field edge

## Yanks In First

By DAVE O'HARA — AP Sports Writer — Gorman Thomas checked in with the Milwaukee Brewers, took one look at Fenway Park's famed left field wall and fence-breakers, belting a two-run homer to provide the Brewers with a 4-3 victory over the reeling Red Sox. Just recalled from the Pacific Coast League where he capitalized on Sacramento's 23-foot left field fence for 51 homers, the 23-year-old slugger took American League East lead for the first time since July 14. The idle New York Yankees moved one-half game in front. Third baseman Baltimore, also idle, re-

mained two games off the pace. In the other American League games, the Minnesota Twins trimmed the Kansas City Royals 4-1, the Oakland A's blanked the Texas Rangers 3-0, and the Chicago White Sox nipped the California Angels 1-0. The Philadelphia Phillies judged the Chicago Cubs 6-5 in 11 innings in the only National League game Thursday. After watching Mike Hegan and Pedro Garcia hit solo homers in the seventh, tying the score, Thomas got the idea. With Darrell Porter on first

## Gorman Thomas Home Run Knocks Sox Out Of Lead

with a walk, he looked at two balls thrown by Boston reliever Diego Segui. Then he unloaded. Twins 4, Royals 1 — Steve Busby's throwing error on a bases-loaded pickoff attempt in the sixth inning let in two runs and triggered Minnesota over stumping Kansas City. It was the eighth straight loss for the Royals, who now have dropped 10 of 11 on the current homestand. White Sox 1, Angels 0 — Ken Henderson's sixth-inning double drove in Jorge Orta with

## Grandfalls Bombs Reagan JV, 43-8

BIG LAKE — The Grandfalls Cowboys bombed the Reagan County junior varsity, 43-8, Thursday in an opening football game. Dennis Andrews started the scoring for the Cowboys on one-yard plunge and Johnny Santiago booted the PAT for a 7-0 lead. The Owls came back on a 73-yard TD scamper by Mitch Kiser and then Kiser passed to Jody Garbor for the two-point conversion and an 8-7 lead. Robbie Carson scored two quick TDs for Grandfalls and Rodney Posey tallied another with Santiago adding the PATs for a 28-8 lead. In the second half, Santiago and Andrews scored one TD each for the final 43-8 margin.

## Flag Football Deadline Extended

Deadline for the Parks and Recreation Department's Boys Flag Football registration has been moved back to 5 p.m. Wednesday, it was announced by Dave Maddox of the P&R Dept. Maddox said that entry forms should be turned in to the P&R at 300 Baldwin St.

### HEARING AID SPECIALIST

To Hold Free Hearing Aid Consultation

Saturday, September 7th

8:00 to 3:00

Beltone Office

# Dolphins Are Team To Beat

By FRANK BROWN  
AP Sports Writer

It will be no surprise if the American Football Conference race is decided early this season. The AFC presents: the Miami Dolphins... followed by everyone else.

All five coaches are optimistic for improvement in 1974. One, Miami's Don Shula, would be hard-pressed to find an area to improve. The others, Buffalo's Lou Saban, New York rookie Charley Winner, Baltimore's Howard Schnellenberger and New England's Chuck Fairbanks, don't have to look far for problems.

The Dolphins have amassed 26 victories in 28 regular-season games over the last two years and have lost only one game to an AFC competitor during that time. Their schedule should help keep Miami near that record this year, as the teams the Dolphins play had a combined record of 87-106-2 last season.

But Miami doesn't need a

boost from the schedule maker. The Dolphins have all the talent necessary for another easy AFC East title.

The others, less fortunate and facing difficult agendas in 1974, will have their hands full. Buffalo shows promise of an offense that won't depend on O.J. Simpson as heavily as last year, but the Jets, Colts and Patriots are rebuilding and must be considered pretenders — at best — to the Dolphins' National Football League throne.

**Miami Dolphins**  
No, the Dolphins have not yet made their hotel reservations for Super Bowl IX. But for sheer depth, ability and poise, the Dolphins remain the team of the decade.

Coach Shula will worry when the time comes about the losses to the World Football League of runner Larry Csonka and receiver Paul Warfield. The duo, responsible for 16 touchdowns and 1,617 yards between them, still are the major offensive threats for Miami's 1974 entry.

They aren't the only threats, though. Quarterback Bob Griese can run when necessary and threw last year for 1,422 yards by completing 116 of his 218 passes. When Warfield was drawing double and triple coverage, Marlin Briscoe and tight end Jim Mandich were easy targets.

Csonka anchored the rushing game with 1,003 yards, marking his third consecutive 1,000-plus season, while Mercury Morris — held out of the last regular season game due to an injury — compiled 964.

Add to the attack one of the game's strongest offensive lines — Dolphin quarterbacks were sacked only 13 times for 93 yards in losses and intercepted just 12 times — a topnotch defensive line, linebacking corps and defensive secondary; what do you get?

You get Miami's fourth consecutive division title. That's what.

**Buffalo Bills**  
The Bills could come into their own this season. The defense jelled at the end of last year; and since Orenthal James Simpson scored the winning points in only two of Buffalo's nine victories, there obviously were others making contributions on offense.

Quarterback Joe Ferguson will be more than "the man who gives the ball to O.J." He'll attempt to balance the attack which depended so heavily on a certain rusher last season.

He has good receivers in J.D. Hill, Bob Chandler and Ahmad Rashad, and talented running backs Jim Braxton and Larry Watkins. The offensive line, which "turned The Juice loose" last season will return with the goal of improving Ferguson's pass protection.

Buffalo's pass rush had a creditable 32 quarterback sacks and the secondary picked off 14 passes. Should those numbers improve and the offense become more of a unit, the Bills might make things interesting.

Still, a lot will depend on Ferguson's success as a passer. Should Buffalo's air game fizzle, opposing defenses can stack against the run.

**New York Jets**  
There are a lot of "ifs" about the New York Jets this year. If quarterback Joe Namath can stay healthy, if the pass rush improves, if the special teams can provide better field position...

That isn't a lot to go on, but the "iffy" pass rush may well improve with the play of first-round draft choice Carl Barzilauskas — a 6-foot-6, 265-pound defensive tackle from Boston College.

Namath's brittle body will be helped by the addition of 6-foot-5, 265-pound offensive tackle Gordie Browne, New York's second draft selection, who will start the season behind Robert Woods but will beef up the pass protection when needed. Veteran Winston Hill will be the other tackle. Wayne Mulligan will center with John Schmitt having been traded to Green Bay, while Randy Rasmussen and Gary Puetz will be the guards assigned to protect Namath.

**FLORAL STOLE TO ALL AMERICAN WINNER** — Easy Date shows off her floral stole and winner's blanket after her upset victory in the All American Futurity, the world's richest horse race, held on Labor Day at Ruidoso Downs, N.M. The stole and blanket were presented by the Koeglers of Midland Floral, Midland, Tex., who have been making the Futurity blankets since 1968. Pictured, from left, are Joe Koegler, Midland; Rush Neff, Colorado City florist; Trainer James McArthur, Mrs. McArthur.

## LIONS MAY FACE EASTERN CHALLENGE—

# Penn State Not Invincible

By HERSCHEL NISSENSON

NEW YORK (AP) — Last fall, Penn State capped a 12-0 season, the school's best ever, with a 16-9 triumph over Louisiana State in the Orange Bowl.

What are the Nittany Lions going to do for an encore?

"We are not going to be anywhere close to being as good as we were last year," says Coach Joe Paterno, whose 1973 club finished fifth in The Associated Press college football rankings.

A glance at Penn State's graduation losses—Heisman Trophy winner John Cappelletti, and 12 other starters—provides the reason for Paterno's pessimism. But a glance at Paterno's eight-year head coaching record—a scintillating 75-13-1—is the reason his words are being taken with a grain of salt in places like Pitt, West Virginia, Boston College and Temple, the challengers considered most likely to succeed should Penn State falter in its quest for a seventh Eastern championship in nine years.

The Ivy League is looking for another wild race as Dartmouth bids for a sixth consecutive crown. The Big Green is among the favorites again, along with Yale, Penn and Brown. Harvard and Cornell are the dark horses while Princeton and Columbia are expected to bring up the rear.

"If you think last year was competitive, just wait until this fall," says Harvard's Joe Restic, whose team finished in a three-way tie with Penn and Yale, one game behind Dartmouth.

Defending champion Connecticut and Massachusetts are favored in the Yankee Conference. Cappelletti's replacement as Penn State's tailback probably will be Walt Addie, a 200-pound senior who gained 324 yards last season—1,268 fewer than Cappelletti. He'll team up with fullback Tom Donchez to provide what should be capable ground game.

The only other offensive starters returning are quarterback Tom Shuman, tight end Dan Natale, guard John Nessel and center Jack Barounos. The defense returns halfback Jim Bradley, linebacker Chris Devlin, tackle Mike Hartenstein and ends Dave Graf and Greg Murphy, plus some experienced reserves.

Pitt rejoiced last year in its

first winning season—6-5-1—in a decade, but the Panthers are expecting much more this time, even though the schedule features the likes of Notre Dame, Southern Cal and Penn State.

Coach Johnny Majors, who was named Coach of the Year by the Football Writers Association of America, has his top runner back—Tony Dorsett, who romped for 1,586 yards and became the first freshman in 29 years to make The AP's All-American team.

Returning with Dorsett are 14 other regulars, including starters at all the skill positions. The offensive line and the receiving corps could use some bolstering, but 265-pound middle guard Gary Burley heads eight returning defensive veterans.

The key man at West Virginia is junior quarterback Ben Williams, who must get the ball to the Mountaineers' superb wide receivers, Danny Buggs and Marshall Mills. If he does, a total of 17 returning starters should make the hills of West Virginia a happy place.

Amy has a new coach and all Homer Smith must do is bring the Cadets back from an 0-10 record, their worst ever. The task of directing Smith's wishbone offense will fall to either converted running back Greg McGlasker or converted

defensive back Scott Gilgoly, neither of whom has much experience at the job.

Navy won the Commander-In-Chief's Trophy last season by routing Army and Air Force. The Middies' strength will be the defense since the offense must be rebuilt, except for record-breaking tailback Cleveland Cooper and wingback Ike Owens.

Dartmouth made off with 1973 Ivy laurels in what was supposed to be a rebuilding season. The Big Green should be in the thick of things again, with quarterback Tom Snickenberger and split end Tom Fleming easing the loss of 12 starters.

Yale's Wishbone should pile up yardage on the ground with 250-pound tackle Al Moras clearing the way for Rudy Green, the Ivy's top 1973 ground-gainer. The key man is quarterback Tom Doyle, who must perk up his passing.

Harvard is looking to lefty passer Milt Holt; the new No. 1 signal-caller, to get the ball to towering 6-foot-7 split end Pat McNally. The rest of the backfield returns intact. Brown, a contender for the first time in ages, returns 13 starters plus accurate placekicker Jose Violante.

## Mixed V-ball Loop Formed

The Midland Parks and Recreation Department is now in the process of organizing a Mixed Volleyball League. At the first organizational meeting, it was determined that six teams have already been formed.

Any other individuals or organizations interested in forming a team should contact Dave Maddox at the P&R Dept. There is no team fee or player fee for participating, however, league officials may assess a small-player's fee in order to buy championship trophies.

Initial plans are to play games on Thursday evenings at the P&R gym. The league is for men and women, with seven players on the court at all times. Since the objective of the mixed league is to provide men and women an opportunity to play volleyball and enjoy themselves, both the novice and good players are invited.

## Area Football—

(Continued From Page 8A)  
season in Class A against AA Tahoka. Plains meets Morton, Seagraves tries Eunice, N.M., and Shallowater entertains Ropes in other games involving District 5-A teams.

Defending Class A regional champion Rankin hosts Eldorado in the key game involving District 6-A squads. Clint travels to Dell City, Imperial hosts Maria, Wink goes to Van Horn and Belmoreha takes on Sanderson in other action.

**LEGGY WITNESSES** — Courtroom decorum may be upset by these waitresses' outfits, but a Philadelphia magistrate wanted the girls to testify in costume in a sex-discrimination suit. Harry Katz, a Philadelphia nightclub owner, left, advertised for "beautiful girls only" to serve as waitresses, but the Human Relations Committee protested against his advertisement. He was fined \$300 and ordered to advertise for "beautiful women and men." (NEA Photomat)

## Billboard Cowboy's Wife Herds Goats Some Nights

BURKBURNETT, Tex. (AP) — What does the wife of one of the nation's most noted cowboys—newspaper, billboard and magazine ad type—do while he is away?

What does she herd? Herding goats is a minor part of the work of this busy woman.

Now goat herding is not quite on the glamor level of professional modeling, useful as goat herding is.

And Mrs. Dean Myers, wife of Burk Burnett's most noted cowboy, doesn't relish it much. It is forced upon her.

While Dean is chasing wild horses down the canyon or riding off into the sunset, I often herd goats. It's not that I plan to do it—but someone has to.

Myers owns a couple of ranches and also is in the welding business.

The welding shop is on a small bit of acreage, and where the goats are penned.

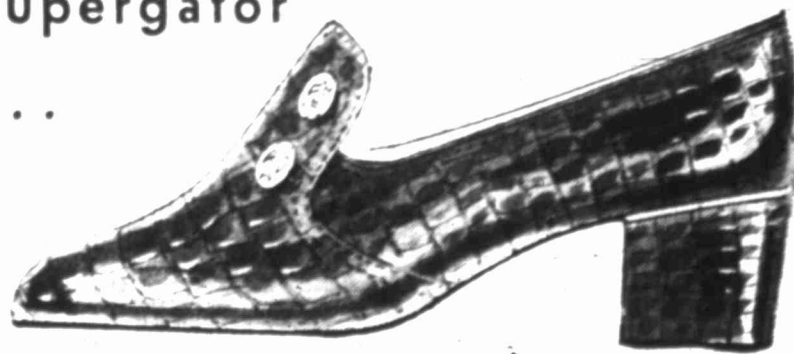

There are pens and fences around the land, but sometimes those goats get through and it's almost always when Dean is gone. If I'm lucky, one of Mike, their oldest son, gets the goats always get out at night.

One night the police said the goats were out market and I got up and dressed and got the goats in come back and buy another Mike, always quiet and re- served said "Mom, if you'll

# New Arab Terrorism Wave Sweeping Israel

**WET HEAD IS DEAD** — Anyway, it is as far as this San Francisco deliveryman is concerned. Avoiding an unexpected summer shower, this industrious gentleman fashioned temporary headgear from a cardboard box, complete with eyes and grinning mouth. Not much to look at, but it does keep a fellow dry. (NEA Photomat)

By MARCUS ELIASON  
**JERUSALEM (AP)** — A new wave of Arab violence emanating from within and outside Israel is sweeping across the Jewish state.  
 By Israeli count, at least five bands of guerrillas banded on terror missions were intercepted since Aug. 24 after crossing neighboring Arab borders.  
 Bombs have exploded or been discovered before going off in Jerusalem and two other large Jewish towns—Netanya and Kfar Sava.  
 Suspected terrorists have been rounded up in Netanya and Jerusalem. The Greek Catholic archbishop of Jerusalem, Hilarion Capaldi, is under arrest, accused of gun-running for Al Fatah guerrillas.

Israeli authorities concede that what concerns them most is that unlike past upsurges in terrorist activity, some of the latest wave seems deeply rooted in the west bank, which Israel has occupied for more than seven years.  
 Past bombing waves have usually been traceable to guerrilla groups based in Beirut and Damascus. But now a new crop called the Palestine National Front—PNF—has surfaced. It is a Communist-affiliated movement, and native to the west bank, say Arab affairs experts.  
 Judging by figures provided by Israel's prison authority, at least 300 Arabs have been arrested in the west bank since the Mideast war of 1973. "Several scores" among them are

Communists and PNF supporters, Israeli sources say.  
 Israeli officials see three possible reasons for an upsurge in west bank clandestine activity: —The October war, which shattered the image of military invincibility.  
 —The diplomacy of U.S. Secretary of State Henry A. Kissinger which may result in an Israeli withdrawal from at least a part of the west bank, seized from Jordan in the 1967 Arab-Israeli war.  
 —Soviet overtures to the established Arab guerrilla organizations, which may have encouraged the outlawed west bank Communists to move to the forefront.  
 The latest bombings appear minor compared with the spectacular and bloody attacks by

guerrillas earlier this year on such Israeli towns as Maalot and Kiryat Shmonah.  
 But the bombs also chalk up successes for the Palestinians. An armed guard is now posted at every Israeli school fortress. Police field dozens of bomb scares a day. Roadblocks crop up on highways at random, snarling traffic.  
 An armed guard is now posted at every Israeli school.

## Today In History

By The Associated Press  
 Today is Friday, Sept. 6, the 249th day of 1974. There are 116 days left in the year.  
 Today's highlight in history:  
 On this date in 1620, the Pilgrims sailed on the Mayflower from Plymouth, England, to settle in the New World.  
 On this date —  
 In 1899, the United States proposed an Open Door policy to give foreign powers equal trade rights in China.  
 In 1901, President William McKinley was shot by an anarchist in Buffalo, N.Y. He died eight days later.  
 In 1909, explorer Robert Peary sent word that he had reached the North Pole five months earlier.  
 In 1914, the first battle of the Marne began in World War I.  
 In 1940, in World War II, King Carol of Romania abdicated as the Germans prepared to occupy his country.  
 In 1966, Prime Minister Hendrik Verwoerd was stabbed to death during a Parliament session in Capetown, South Africa.  
 Five years ago: The United States formally recognized the Revolutionary Command Council which seized power in Libya.  
 One year ago: Former United Mine Workers president W. A. "Tony" Boyle was charged with murder in the 1969 slayings of union insurgent Joseph Yablonski, his wife and daughter.  
 Thought for today: There's an element of truth in every idea that lasts long enough to be called corny — songwriter Irving Berlin.

## Landrieu Stresses Government Need For Citizens' Help

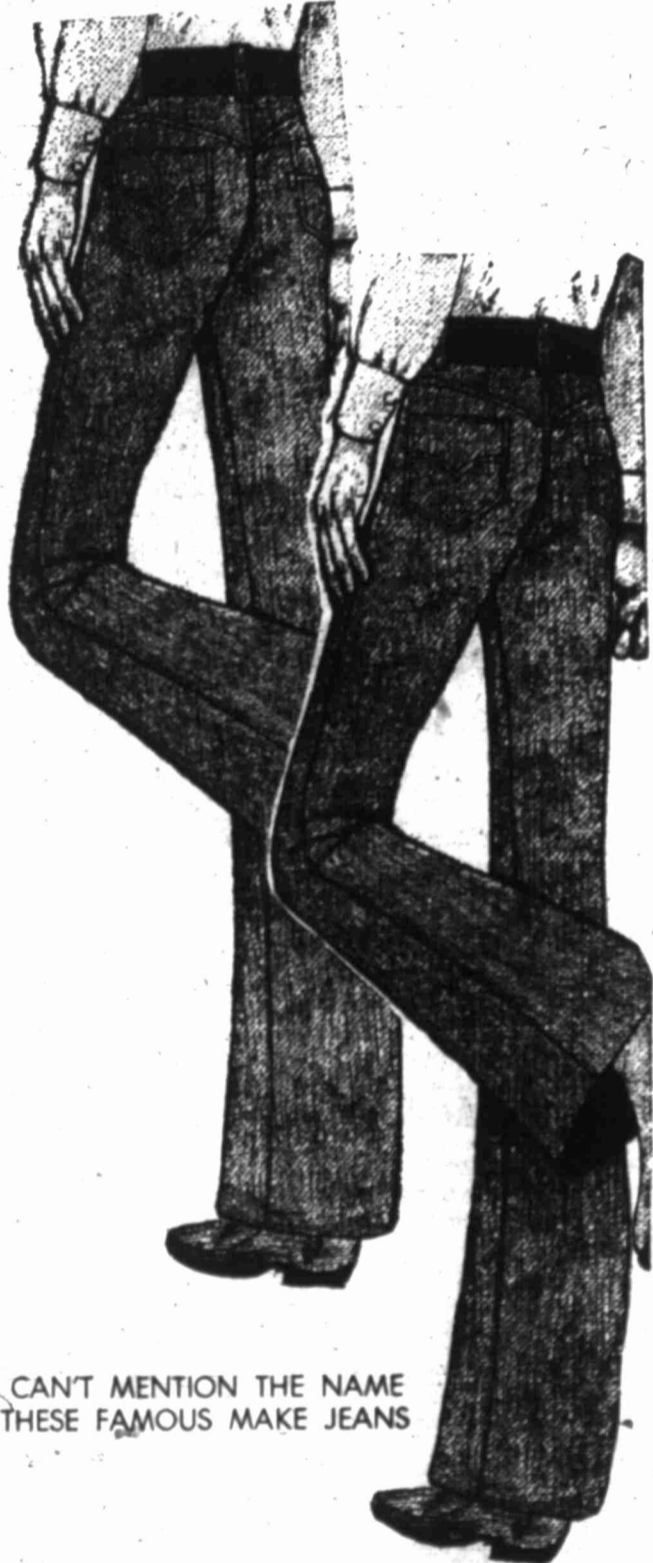

**DALLAS (AP)** — Local governments should not become merely a "hired hand" of citizens, the mayor of New Orleans has told a conference of officials from 27 cities meeting here.  
 Mayor Moon Landrieu spoke before the group Thursday stressing that citizen participation in the affairs of government is needed.  
 "The more government becomes a hired hand the more people remove themselves from government," Landrieu told the conference on "Cities and their Citizens."  
 "Citizens are needed to help the government officials make the proper decisions," Landrieu said. "We need to utilize citizens so that a greater use of participation is created."  
 He told his audience that citizens should not look upon elected officials as something distant.

# Religious Leaders Register Warm Support For President

## Lutheran Head Says Ford 'Takes The Churches Seriously'

By GEORGE CORNELL  
NEW YORK (AP) — Religious leaders are registering warm support for the new man in the White House, President Ford, including his moves toward some sort of amnesty for Vietnam draft resisters.

Major religious groups have urged such action.

There also were tentative gestures toward more direct communication between U.S. church leadership and the presidency, a channel that largely had been shut off under former

President Richard M. Nixon. President Ford is a "sincerely religious person himself" who "takes the churches seriously," observes the Rev. Dr. Robert J. Marshall, head of the Lutheran Church in America.

Recalling that Ford twice met with denominational executives, while a member of Congress, Dr. Marshall suggests in a letter to him that he hold similar meetings in his new capacity, adding:

"All of us can benefit from understanding each other in this time when both govern-

ment officials and leaders in the churches have reason to be concerned with morality, justice and the welfare of people."

Give-and-take meetings with church leaders had been a common custom in past administrations, including those of Presidents Harry S. Truman, Dwight D. Eisenhower and John F. Kennedy, but lapsed under President Lyndon B. Johnson and church criticism of the Vietnam war.

Nixon shunned such confrontations, except for the cere-

monial White House services over which he presided and which were dropped in the latter part of his administration. They didn't allow for discussion, however.

Ford has said he won't revive them. An Episcopalian, he plans to continue worshipping at Immanuel Church on the Hill in Alexandria, Va. As a congressman, he also has been active in Capitol prayer groups, but this probably will be limited in his present role.

Recalling his meetings with church leaders at congressional

prayer breakfasts, the Rev. Dr. Robert V. Moss, president of the United Church of Christ commended him in a letter for his "devotion to high moral standards."

Concerning his stand favoring some form of amnesty for draft evaders, in contrast to Nixon's opposition to it, Dr. Moss told the President:

"Your compassionate concern for the welfare of our youth... is especially welcome. Your initiation of a process under which they may be reunited

with their homes and homeland is a first step toward justice."

Bishop James Rausch, general secretary of the National Conference of Catholic Bishops, called it a "constructive step," suggesting that unconditional amnesty should be considered in view of the need for national healing.

The President has said amnesty should be conditioned on some kind of alternative service, and is now consulting various groups on the matter.

## Edwards To Be Installed

The Rev. Steve A. Edwards will be formally installed as senior minister of First Christian Church at ceremonies scheduled for 8 p.m. Sunday in the church sanctuary, 1300 W. Louisiana St. The public is invited to attend the event.

Mr. Edwards was named minister earlier this summer to succeed Dr. Ray Bristol who became executive director of Midland's Pastoral Counseling Center last January. Mr. Edwards had served as associate minister of First Christian Church since 1971.

Dr. Jim Oglesby of Fort Worth, associate minister of the Christian Church (Disciples of Christ) in Texas, will preach the installation sermon. His topic is to be "Fiddling on Roof-tops," with text from 2 Tim. 1: 8-14.

Also to participate in the installation rites are Dr. Bristol; the Rev. George Gibbs, minister of Brookhollow Christian Church at Abilene, and the Rev. Gene Lamb, minister of Coleman's First Christian Church.

Representing the First Christian congregation in the ceremonies will be Fred Faulkner, chairman of the church board; George Cooper, a deacon, and Jay Disney, an elder, as well as Mrs. Clarence Sloan, president of the Christian Women's Fellowship of the church.

Special vocal music at the service will be presented by Charles Dixon. The organist will be Mary Sue McAllen.

Following the installation ceremony, Mr. Edwards, his wife Janet and the couple's two children, Dawn Allison, 7, and Shannon Nicole, 4, will be honor guests at a congregational dinner in the church fellowship hall.

Mr. Edwards, a native of Dallas, holds a B.A. degree in finance from Texas Christian University and the master of divinity degree from Christian Theological Seminary. He has done additional work on the graduate level at Butler University. During his undergraduate days at TCU, Mr. Edwards was on an athletic scholarship, lettering in baseball for three years.

Rev. Steve Edwards

HOLY CITY OF ISLAM—This aerial view of Mecca looks down on the Holy of Holies, the Great Holy Mosque, with thousands of pilgrims thronging its courtyard. The small structure in the center is the Kaaba, housing Islam's Black Stone, which the faithful believe was given to Abraham by Gabriel. When Moslems kneel to pray they face toward Kaaba, wherever in the world they may be. (NEA Photomat.)

## Webb Air Base Slates Revival For Next Week

BIG SPRING — Webb Air Force Base will hold Protestant revival services next week in the base chapel. Services will begin at 7 p.m. daily through Wednesday, said Chaplain Jimmie D. Baggett, installation chaplain.

The revival will actually begin Saturday with a men's prayer breakfast at 8 a.m. that day. The evangelist will be the Rev. Bill Foll of Canyon, who has worked with young people for many years. He is a very popular speaker and conference leader, and is in great demand as a banquet speaker for youth and athletes. He has conducted many youth revivals, and recently conducted a preaching mission at Cannon AFB near Clovis, N.M.

Mrs. Jackie Peters of Dallas, Tex., will be the guest vocalist for the revival. She has presented concerts, played leading roles in musicals, sung at conventions and revivals, and is a member of the choir of the First Baptist Church in Dallas. She is the wife of retired U.S. Air Force Lt. Col. Ralph Peters.

Residents of Big Spring, Midland and other area communities are invited to attend the revival.

## Ford Seeks Funds

WASHINGTON (AP) — President Ford has asked for a supplemental appropriation of \$16,222,000 for the construction of an extension to the new Senate Office Building.

Advertise Or Be Forgotten!

## White Woman Joins Black Church

HARTFORD (AP) — Barbara Ritsley Kingston, a white woman tired of sitting in white churches listening to how to relate to black people, joined a black church. Now she has been licensed to preach in a black church in Charleston, S.C., and hopes soon to be ordained a minister in a predominantly black denomination.

"They've been perfectly delighted," Mrs. Kingston said of her congregation at the Morris Brown AME church in Charleston.

"I feel pretty secure in a black community. They were really good about it."

She says she hopes to become one of the first white women in the nation to become an African Methodist Episcopal (AME) minister.

In a telephone interview, Mrs. Kingston said she was "dissatisfied with her white Congregational church's approach to race relations, and sought something more relevant."

"I met people and groups I didn't know existed," she said. "I don't like black people any better than white." But in the white church she says she never

came into contact with black people. "This just seems to be where the broken relationship is."

AME churches have a few white ministers and several black women ministers, but Mrs. Kingston is believed to be the first white woman to seek ordination, according to a Hartford minister.

"She would probably be the first white woman to be ordained," said the Rev. W. Melvin Campbell, pastor of the Bethel AME Church in Hartford.

She said her interests led her

to AME churches, a Civil War breakaway faith from the white Methodist churches.

Theologically, she said she sees no problems in becoming an AME minister.

"I don't see very much difference theologically. Basically, they are United Methodists, and I don't see much difference."

Rev. Campbell said of the AME church, "We broke away from the white Methodists because they segregated us, but we have never segregated them."

## Ford Issues Statement On Jewish Holy Days

WASHINGTON (AP) — Upcoming Jewish holy days are an invitation to all Americans to "return to righteousness and truth and to a rebirth in the spirit and neighborliness and brotherhood," says President Ford.

"At a time which urgently tests our will as a people to put humanity's interest above self-interest, we can be greatly sustained and guided by the

traditions of valor and resilience that mark the history of the Jewish people," the President said in special greetings on Thursday to Americans of Jewish faith.

The traditional statement was issued in connection with Rosh Hashanah, the Jewish New Year, on Sept. 17, and Yom Kippur, Sept. 26, the Day of Atonement in the Jewish religion.

## Panel Discussions On Death Scheduled

Three Midland churches are making plans for a series of Sunday evening panel discussions concerning the Christian attitude toward death and the making of arrangements in anticipation of death.

Panelists will include ministers, physicians, estate planning professionals, insurance agents and a funeral director. They will lead the

discussions each Sunday evening in October. Churches participating in the series are St. Luke's United Methodist, St. Nicholas Episcopal and Covenant Presbyterian.

Each session will begin at 7 p.m., at the sponsoring church, and will last approximately 90 minutes. Tentative topics include "Death and the Funeral," "Legal and Financial Aspects of Death on the Family," "How to Prepare Financially for Death" and "Physical Fitness, Health, and Gifts of the Body for Research and Transplants."

The first session will be held at St. Luke's UMC on Oct. 6. St. Nicholas Episcopal will host the Oct. 13 session, and Covenant Presbyterian will host the Oct. 20 meeting. The final session will be at St. Luke's on October 27.

Rev. Paul Cox

## 'Family Month' Slated At Gardens Assembly

September is "Family Month" at Gardens Assembly of God, with special services and events planned throughout the month. All will be open to the public.

The Rev. Paul Cox, pastor, said that special services each Sunday night during September will focus on the family and the relationship of family members to each other and to the church. Pastor Cox will be preaching at each of these services. Special music will be provided by the Gardens Assembly choir.

Another highlight of "Family Month" will be a special revival to be held Sept. 18-22. Pastor Cox announced. The revival will be led by the Rev. Dave Laughlin and members of his family.

This week's television ministry of Garden Assembly of God at 12:30 p.m. Saturday on KMD-TV will feature a special patriotic program. The program will feature patriotic music by the Gardens choir, and special prayer for the nation's new President and the Vice Presidential nominee. Pastor Cox's tv message will be concerned with the nation's new leaders.

How does Christian Science heal? Listen to first-hand experiences. This week's program:

HONORED BY CONGREGATION—The Rev. and Mrs. Donald Hafemann, left, recently were honored by the congregation of Grace Lutheran Church at a reception marking the couple's 25th wedding anniversary. Members of the congregation and friends joined in presenting the couple with a gift of \$3,000 for a Holy Land trip. Shown with them above are Bruce Barthel, right, chairman of the congregation, and Donald Neujahr, chairman of the board of elders, who made the check presentation to the couple. Mr. Hafemann has been pastor of Grace Lutheran Church for more than eight years, coming here from a pastorate in Lawton, Okla.

## Retreat Opens At Brownwood

BROWNWOOD — The annual state retreat of the Christian Men's Fellowship of the Christian Church (Disciples of Christ) in Texas opens today and continues until Sunday at Lake Brownwood.

One of the highlights of the retreat, at which an estimated 400 to 500 CMF members from across the state will be in attendance, will be the honoring of seven outstanding laymen from various points in Texas.

The retreat is to begin with the evening meal today and conclude with the noon meal Sunday.

Dr. W. A. Welsh, president of the Christian Board of Publications at St. Louis, who formerly was president of Lexington Theological Seminary in Kentucky, and the Rev. William E. Pannell of Detroit, Mich., are to be principal speakers at the gathering.

## Guest Speaker Due For Service

The Rev. Jack Baskin of San Demas, Calif., will be guest speaker Sunday morning at Kelview Heights Baptist Church, 407 W. Alta St.

Mr. Baskin is executive vice president of Pacific Coast Baptist Bible College at San Demas. A former missionary to Korea, he also was a church pastor before entering the educational field.

The Rev. Frank Johnson, pastor of Kelview Heights Church, has invited the public to hear the guest speaker at the 10 a.m. Sunday service. The church is located one block west of North Big Spring Street near Scharbauer Drive.

Rev. Jack Baskin

**GARDENS ASSEMBLY OF GOD**

# Can Saudi Arabia's King Faisal Prevent The Next War?

LONDON (LENS) — Look a couple of hundred miles southeastwards from Cyprus, and you might think another war was on the brink of breaking out.

Israel's leaders have been saying over the past few weeks that the Syrians could be about to reopen the fighting on the Golan Heights, using the piles of new weapons they have been getting from Russia. The Israeli warnings have been backed by a selective call-up of reservists and plans for a 24-hour mobilization exercise.

Arabs Gloomy  
The instinctive Arab reply is that it must be the Israelis who are planning the attack; and anyway the Arabs, who often get into difficulties because they tend to see politics in personal terms, have been excessively gloomy about the prospects of peace since Nixon resigned and was replaced by the supposedly more pro-Israel Ford.

It all looks remarkably ominous. But there may in fact be a way out of the apparent danger of a fifth Arab-Israeli war, and this way out depends

largely on the powers of persuasion of King Faisal of Saudi Arabia.

The flicker of light amid all the pessimism lies in the fact that the Israeli government seems to be seriously exploring a new stage in the peacemaking business. The prime minister has been eased away from his earlier insistence that the next round of negotiations should just be another haggle with the Egyptians, in which Israel might give up a bit more of Sinai in return for some more assurances that Egypt accepts the existence of Israel.

He is now willing to take a look, instead, at the much more complicated problem of the Israeli-occupied West Bank. He does not like Kissinger's haste to jostle him into negotiations, and he has said that Israel's aim was still a general peace settlement with all its neighbors.

But it is right to look next in the direction of the West Bank: after all, the West Bank, unlike Sinai, is where the Arabs who have been under Israeli occupation since 1967 mostly

live. The question is whom the Israelis should negotiate with about this central part of the whole problem.

The obvious answer seems to be King Hussein of Jordan. The Israelis refuse to talk to the Palestine Liberation Organization (which now includes some leading West Bank personalities as well as the guerrillas based in Lebanon and Syria) and the

This could break up any hopes of moving forward. Nobody can argue that a solution for the West Bank, let alone a solution to the statelessness of the Palestinian people, can be reached in one swoop; this possible pre-negotiation about a very small scale movement can do no more than open the door. But if the Palestinians block the whole operation — by pro-

comparable authority with Egypt's leader.

His decision, during the October war, to use Saudi Arabia's oil as a weapon on the Arab side dramatically changed all that. So did the fact that, having once unhesitatingly used it with great skill and even a certain forbearance, he used it with determination and yet with Islamic solidarity, once dismissed as irrelevant to power politics in the Arab world, is now accorded serious attention. The trend towards taking a new look at traditional Islamic values — as opposed to western materialist ones — is apparent today in several leading Arab states, including Egypt. King Faisal is a figure to be reckoned with.

One of the results is that these traditional opponents, Egypt's president and Saudi Arabia's monarch, are now close partners. King Faisal's long visit to Egypt at the beginning of the month sealed the partnership; the Saudi king brought with him the gifts of praise and money — both commodities that Sadat is plainly in need of at the moment.

The two leaders have the sort of influence that could get King Hussein to spell out very clearly the difference between negotiating with Israel for the return of the land west of the Jordan river and resuming indefinite and full control of it. The Jordanian king is committed to granting the West Bankers self-determination — when it is in his power to do so.

Not Believed  
For a number of reasons, preservation of his Hashemite dynasty being high among them, he is not fully believed by the Palestinians. He shares with Israel's leaders a very keen awareness of the danger of an independent Palestinian neighbor? And without any supervision such a state would indeed be a danger — for Jordan first, and for Israel later.

King Faisal can speak with authority to both King Hussein and President Sadat. He is in a position to explain to Jordan's king why any recovery by Jordan of the Israeli-held West Bank, or a part of it, has to be followed by an opportunity for the Palestinians who live

there to express their wishes about the future. He is also in a position to persuade President Sadat that, if this can be done, the West Bank negotiation is worth pursuing.

And then between them the king and the president may be able to persuade the guerrilla organizations not to oppose negotiations along these lines. To be sure, the Marxists among the guerrillas have never owed King Faisal any allegiance; and now even Yasser Arafat's group, Fatah, is expressing its disillusion, with its deputy leader bitterly comparing the support that King Faisal gives Egypt with the lack of support, material and moral, given to Fatah.

But if King Faisal and President Sadat were to be seen breaking through their own ambiguities about the future relationship between King Hussein and the West Bank, the more responsible Palestinian leaders, guerrillas as well as non-guerrillas, might well respond.

After all, King Faisal's hopes of praying again in Jerusalem lead through the West Bank. It is worth a try.

## Mid-East Commentary

PLO, indeed, is far too disorganized to talk to Israel.

The trouble is that this seems to decide in advance who will control the tiny slice of territory west of the Jordan river, probably including the town of Jericho but excluding the Israeli security settlements dotted along the river bank, that Israel may be prepared to relinquish. King Hussein wants to resume control over this area, and the Israelis support him. But the Palestinian guerrillas oppose him, because they want this territory as the beginning of a new Palestinian state.

testing that there is nothing in store for them except a very limited exchange of Israeli rule for Jordanian rule — the door will not be opened at all.

King Faisal of Saudi Arabia, in conjunction with President Sadat of Egypt, may be able to steer developments away from this dead end. King Faisal's influence in such matters is a relatively new development; in earlier times his huge wealth from his country's oil, plus the religious seniority he derives from being guardian of Islam's most holy places, did not by any calculation give him

# Miss Texas Wins Competition In 2-Year-Old Swimsuit

ATLANTIC CITY, N.J. (AP) — Shirley Cochran's pink swimsuit has a few holes in it, but the Texas beauty doesn't have any complaints. She wore the two-year-old suit in competition at the Miss America Pageant preliminaries Thursday night, and for her fifth straight appearance in the suit, she ran off with the swimsuit prize. The other occasions were local and state pageants where the 36-23-36 brunette also swept swimsuit laurels.

Miss Kentucky, Darlene Compton, garnered Thursday night's talent award by singing "Mira" from the musical "Car, Nite, and the City."

Karen Diane Smith, and Miss Tennessee, Deborah Humphreys Kincaid, who won the swimsuit and talent awards, respectively Wednesday in the preliminary winners' circle. The duo joined Miss Kansas, tonight, and afterward 10 semi-finalists will be picked to compete in Saturday night's finals.

The ballad Miss Kentucky sang is about a small town girl who joins a carnival, but longs for "a street that I can know, and places I can go where everybody knows my name."

### 'That's My Mamma' Not Funniest Ever

By JAY SHARBUTT  
I am man who really was the look at the bar, the husband of the lady involved and the father of the child. He sighs when with "That's My Mamma" a sitcom about a young black bachelor swinger and his widowed mother in Washington, D.C. seemed so right for this kind of work, you know? Maybe so, but not without a commencement exercise, concerning issues of paternity and matrimony, wasn't the funniest Mama cast deserves it and effort ever rolled out for in-quickly, lest the show's ratings sputter, but at least it wasn't fall so low divers have to phone signs of life.

Linda Ann Searcy  
... One of talented artisans in show

### Invitational Showcase' Set At Museum Of Southwest

Weavers, puzzle makers, glass blowers, knife makers, potters and ceramists, flutemakers and painters—these are among the artists and craftsmen who will be demonstrating their talents in the "Invitational Showcase" at Midland's Museum of the Southwest this weekend. The artisans from throughout the state and from neighboring states will demonstrate their particular skills during the big "Septemberfest" fun festival Saturday night. Then, Sunday afternoon they will be back at their booths inside the museum's Turner Memorial Gallery, providing the public with yet another opportunity to view the creative process in action and to purchase the finished products of such creativity.

### 'Trade Fair' Set Saturday

A "Trade Fair" offering treasures, trinkets and what-have-you to the public and profits to the sellers as well as to the Training Center of the Permian Basin Centers for Mental Health and Mental Retardation, will be a Saturday event in the Tall City. The giant flea market will be held between 9 a.m. and 8 p.m. at the old Williams Feed Store location at 1403 E. U.S. 80. It will be free to the public. On sale will be items made by mentally retarded adults as well as typical "garage sale" items, such as art and decorative objects, furniture, books, clothing items and more. Persons selling goods at the market will pay 10 per cent of their gross sales to the Training Center of the Mental Health and Mental Retardation organization for its operational fund.

### Johnny Cash Show Canceled

The Johnny Cash show scheduled for Saturday, Sept. 14, in Odessa's Ector County Coliseum has been canceled, according to announcement here this morning. Planners hope to reschedule the show for early 1975. Persons who have purchased tickets for the concert may get refunds at the coliseum box office in Odessa, or at the Record Center in Midland and Tape Town in Big Spring.

### Scot Is Charged With Stealing Stone Of Scone

LONDON (AP) — A 24-year-old Scot was charged in court today with stealing the Stone of Scone, an ancient symbol of Scottish sovereignty, from London's historic Westminster Abbey. David Carmichael-Stewart, described as an unemployed laborer, was ordered held for a further preliminary hearing. He made no plea at this stage. Carmichael-Stewart was arrested Thursday when an alarm triggered by removal of the stone from under England's Coronation Chair brought more than 100 police officers to the abbey. The stone was found beside the chair on a trolley that had collapsed under the 48-pound weight.

### Three Of Spanish Quintuplets Die

MADRID, Spain (AP) — Four of the quintuplets born prematurely on Wednesday to 29-year-old Julia Gomez Solis have died, and the surviving girl is in critical condition, doctors said today. The dead were a boy and three girls. The babies were born two months premature and weighed an average of 1 1/4 pounds. It was the first recorded quintuplet birth in Spain.

### More Funds Sought

WASHINGTON (AP) — President Ford has asked Congress to consider a \$1 million supplemental appropriation for salaries and expenses of the Council on Wage and Price Stability.

### Meaning

The lessons of this century have taught millions to believe that the universe is fundamentally absurd — and so, therefore, is their existence. Some seek escape from this awareness in new or ancient cults of mindlessness — violence, drugs, witchcraft. Others fall back on the leap of faith — clutching closed systems of traditional belief despite the evidence. Most members of the Unitarian Universalist religious community feel that closing one's eyes is not the answer to darkness. Instead they join together to seek enlightenment and comfort with the best tools at hand: our human intellect, our common impulse to decency, our capacity for love.

### Wayne, Hepburn Working On Movie

GRANTS PASS, Ore. (AP) — John Wayne and Katharine Hepburn, who hadn't worked together before, spent the first day of filming for Hal Wallis' new movie at Hawk Creek Landing. Wayne returned somewhat sunburned on Wednesday from the site on the Rogue River, six miles west of Grants Pass, where the temperature under sunny skies was 87 degrees. They worked us hard today, and Katharine was wonderful," he said.

## Cadillac Elegance

DETROIT — Cadillac, incorporating designed front-end refinements and novelties, offering elegance and convenience. "Nine models our three distinct Calais, DeVille — and will officiate in our dealer at 19," according to Land, general manager of Cadillac Motor Co. vice president Motors.

"We have included exciting in-design and engineering make this 1975 Cadillac," Land said. "The 1975 Cadillac is the General Motors converter unit, to reducing pollutants, also improvements in drivability and "In the area grilles, hoods, front lights are year on our standard. "The feature a bold vertical cross emphasizing a h accomplished in face of the hood, and hood design a lower, more dis front end appear 1975 Cadillacs.

"Our new exciting!" Land said of our finishes are the Cadillac buy blend of metallic and firemist color plemented by a padded vinyl top vertible top.

Land commented Cadillac Fleetw lineup includes a convertible, with signed grille and "Turning to the commented, "Our has placed special easily perceived blended with design themes placed on interior cloth and leather been designed for "Our engineers dedicated itself ding issues of performance, en tion, safety and operation in economy. "This reflected in our Land added.

## San Antonio Conduct Of Gas Co

SAN ANTONIO City councilmen ized the hiring investigate the Service's 20-year contract with A ply Co.

They voted Thursday to con investigation of der the director Maloney.

This was a c Mayor Charles I hire Maloney to the defunct Alar

Alamo receiv contract in 1961 ral gas for 20 1982. The firm sorbed by Coas Corp.

The council the mayor to r Texas officials statewide energy

Dope Def Chooses Brownsville — A South Te faced a three-ye by his own cho Manuel R. I Combes, was g of three years in years probation guilty to a cha of heroin.

# Cadillac Offers Elegance

DETROIT — The 1975 Cadillac, incorporating a newly designed front end with many refinements and engineering innovations, offers automotive elegance and customer value and convenience.

"Nine models are offered in our three distinctive series — Calais, De Ville and Fleetwood — and will officially go on sale in our dealer showrooms Sept. 19," according to Robert D. Lund, general manager of the Cadillac Motor Car Division and vice president of General Motors.

"We have initiated and included exciting additions, both in design and engineering, which make this 1975 model our finest Cadillac," Lund said.

He pointed out all domestic 1975 Cadillacs are equipped with the General Motors catalytic converter unit, which in addition to reducing emission of pollutants, also will help permit improvements to Cadillac drivability and fuel economy.

"In the area of design, the grilles, hoods, front fenders and front lights are all new this year on our standard models," Lund said.

"Our new exterior colors are exciting!" Lund said. "Fourteen of our finishes are new, offering the Cadillac buyer an excellent blend of metallic, non-metallic and firemist colors, complemented by a selection of 14 padded vinyl tops and 8 convertible tops."

Lund commented that the 1975 Cadillac Fleetwood Eldorado lineup includes a coupe and a convertible, with a newly designed grille and front bumper. Turning to the interior Lund commented, "Our design staff has placed special emphasis on easily perceived customer value blended with contemporary design themes, with emphasis placed on interior comfort. New cloth and leather trims have been designed for each series."

"Our engineering staff has dedicated itself to the demanding issues of quality, performance, emissions reduction, safety and efficiency of operation including fuel economy. This dedication is reflected in our new models," Lund added.

## San Antonio Will Conduct Own Probe Of Gas Contracts

SAN ANTONIO, Tex. (AP) — City councilmen have authorized the hiring of a lawyer to investigate the City Public Service's 20-year gas supply contract with Alamo Gas Supply Co.

They voted unanimously Thursday to conduct their own investigation of the contract under the direction of lawyer Pat Maloney.

This was a compromise on Mayor Charles Becker's plan to hire Maloney to file suit against the defunct Alamo Gas.

Alamo received the city's contract in 1961 to supply natural gas for 20 years ending in 1982. The firm later was absorbed by Coastal States Gas Corp.

The council also authorized the mayor to meet with other Texas officials to discuss the statewide energy shortage.

## Dope Defendant Chooses Prison

BROWNSVILLE, Tex. (AP) — A South Texas man today faced a three-year prison term by his own choice.

Mantel R. Vasquez, 27, of Combes, was given his choice of three years in prison or eight years probation after he pleaded guilty to a charge of possession of heroin.

Vasquez gave no reason when he chose the prison term after District Court Judge Darrell Hester gave him his choice.

# Fort Worth Eyes Offer On Southwest Airport

FORT WORTH, Tex. (AP) — The city pondered a multimillion dollar proposal today to convert the 1,200-acre Southwest Airport property into a vast development project.

A newly created and little known firm, Airport Properties Inc., submitted the lone bid for the land, appraised privately at \$50 million.

The firm, proposed a 99-year lease at \$5.5 million per year with an option to purchase the entire property for \$108 million. Payment would be over a 20-year period at 9 per cent interest.

City council members, who will make the ultimate decision, indicated previously they

avored selling the property outright.

The proposal by airport properties outlined plans for a permanent world's fair pavilion, a dome-shaped amusement park and cultural center, a transit system, a sports coliseum, a world trade distribution complex and industrial park, a "new world financial exchange

center" and office facilities.

As spelled out by Rick Williamson, president of Airport Properties, more than a billion dollars would be poured into the development over the term of the lease.

At the end of the lease period the improvements would be owned by the city.

Williamson, 29, former communications director at Dallas-Fort Worth Airport, offered only sketchy details of his proposal and financing.

He said other pertinent information will be disclosed at a news conference sometime next week.

He did say Airport Properties Inc. is two months old, has three salaried employees and is

headquartered in the Airport Marina Hotel at D-FW.

The corporation was basically formed, he said, for accounting and managing of property around the new airport, which lies just north of the Southwest Airport property.

Williamson called his proposal "innovative and imaginative" and said the proposed terms were "fair and equitable" to both parties.

"The entire package goes to over a billion dollars worth of improvements of the property and we have every reason to believe it can be done," he said.

There was no indication at once when the city would act on the proposal.

# U.S. Attorney To Investigate Jack Brooks' Campaign Gifts

GALVESTON, Tex. (AP) — A federal attorney in Tyler said there will be an investigation of charges that U.S. Rep. Jack Brooks, D-Tex., accepted illegal campaign contributions.

U.S. Atty. Roby Hadden said Asst. U.S. Atty. Dennis Lewis will investigate the claims made Wednesday at a Galveston news conference by Brooks' Republican opponent, Coleman Ferguson of Beaumont, a Texas refinery engineer.

Hadden said Ferguson turned over to him evidence of what showed Brooks sponsored Ferguson believes is Brook's legislation to eliminate acceptance of \$11,400 of illegal campaign contributions.

Brooks responded to the charges by issuing a statement from his Washington office saying all contributions to his campaign are carefully screened and those appearing questionable refused.

Ferguson listed the following which he said were contributions to Brooks' campaign:

A \$10,000 contribution in 1972 from Political Committee of Design Professionals, which he called a lobby group.

A \$900 contribution from Associated Milk Producers, Inc., the San Antonio-based dairy cooperative that has already pleaded guilty to other illegal campaign contributions.

A \$500 contribution from Credit Factoring Inc., a subsidiary of Galveston millionaire Shearn Moody's Empire Life Insurance Co.

An unspecified contribution from the Austin architectural firm of Brooks, Barr, Graever, and White, which is now working on a \$70-million project in Washington.

## Dallas Deputies Kill One Robber, Capture Another

DALLAS (AP) — Sheriff's deputies captured one man and killed another in a downtown liquor store robbery Thursday, officials said.

They identified the dead man as Danny Henry Daniels, 27, of North Hollywood, Calif.

Liquor dealer Sam Banks was taken to Parkland Hospital in serious condition after being shot in the abdomen by one of the robbers, officials said.

Capt. Jack Faulkner of the criminal investigation division said deputies Ray Abner and Pat Beck ran from the county courthouse after being tipped the holdup was in progress at the liquor store nearby.

Witnesses told police two holdup men separated and walked back toward the courthouse, and then reappeared at another nearby store, where they were pointed out to the pursuing deputies.

The officers collared one outside the store.

They said Daniels attempted to take a clerk hostage inside and the deputies three times told Daniels to stop before shooting.

WASHINGTON (AP) — The Federal Communications Commission Thursday announced receiving the following applications for construction permits for new stations: Rockport, Tex.-James H. Bolute FM. Dallas, Tex.-National Business Network-The Foundation for Free Enterprise.

# Church Plans To Repeat Its Social Action Fair

DALLAS (AP) — The First Unitarian Church has announced it will hold its second annual Social Action Fair Oct. 6 in spite of a Department of Public Safety report that labeled last year's fair a gathering of "major subversive groups."

First Unitarian was characterized in the report as a "sponsor of radical left groups." The report described the first fair as a "social workshop... where all major subversive groups in the North Texas area set up information booths."

Bob Bailey, corresponding secretary of the church and director of the 1974 fair, said Thursday at least 30 of the 50 organizations represented last year have indicated they will participate in this year's fair.

The intelligence report came to light in late July when a member of the church, Robert Pomeroy, publicly opposed proposed nuclear power plant construction at Glen Rose.

The report by DPS agent David A. Dimick was made public. The DPS subsequently apologized to Pomeroy and the church.

Bailey said he believes the publicity will work in the church's favor. He said the Texas Department of Public Welfare and the Dallas Police Department are among organizations represented last year who have already said they will participate this year.

# \$9.1 BILLION MORE— Inflation To Make Health Costs Soar

WASHINGTON (AP) — Inflation will add more than \$9.1 billion to the price American consumers pay for medical care over the next two years, says Health, Education and Welfare Secretary Casper Weinberger.

Weinberger said on Thursday that skyrocketing medical costs are increasing 50 per cent faster than prices in the rest of the economy and are fueling inflation.

In a speech before the American Association of Medical Clinics, he urged the health care industry to cool down its inflationary spiral or face the prospect of an outraged public demanding federal intervention.

He said that if voluntary cooperation fails, "the American people are in real trouble on the health care front."

Rising health care costs now threaten to add another billion dollars to the federal budget, doubling the estimate for this year that he delivered to Congress this spring, he said.

At that time he argued unsuccessfully for extension of federal wage-price controls on health care, which expired April 30.

The American Medical Association and the American Hospital Association have said their price increases were an expected budget after nearly three years of profit limitations.

"Since price controls were lifted, the cost of medical care has increased 50 per cent faster than the economy as a whole — and this we must and will moderate," Weinberger said.

He said physician fees have jumped at an annual rate of 19.1 per cent and hospital charges at an annual rate of 17.7 per cent, compared with an over-all inflation rate of 12.5 per cent.

## Poll Shows Most Americans Don't Want Phones Tapped Without Court Order

NEW YORK (AP) — Americans surveyed in a Harris poll are 81 to 13 per cent against having their phones tapped without a court order.

By 68 to 27 per cent, the respondents opposed letting the government wiretap citizens suspected of crimes without a court order.

"The Watergate disclosure left an indelible impression on American public opinion that extreme care must be taken in the future against invasion of privacy," Harris said.

The poll also showed those results on Thursday on a survey of 1,486 households:

- Americans are 77 to 14 per cent against letting the government open their mail without court orders.
- They are 80 to 12 per cent against being spied on by any kind of electronic device, except with a court order.
- By 80 to 12 per cent they oppose allowing the telephone company to give out records of long distance phone calls, except by court order.

On each of the questions, a few of those questioned had no responses.

## Police Nab Man For Auto Burglary

MIDLAND police were on their toes last night and had a 32-year-old man in custody today after nabbing him for the burglary of a car in the Midland Country Club parking lot.

Police recovered a CB radio valued at \$189 that belongs to LeRoy Cagle, 3207 W. Storey St., when they made their arrest.

Cagle was given custody of his property following the police investigation.

## DEMOCRATS ASSURE PRESIDENT— Congress To Stay In Session For Inflation Bills

WASHINGTON (AP) — President Ford has launched his public search for a way out of the nation's economic woes and has received assurances from the Democratic Congress that it will stay in session as long as he has proposals for it to consider.

Senate Majority Leader Mike Mansfield, D-Mont., concurred with the observation that Congress alone cannot act on the economic problem.

At the end of the day-long, televised session, about half of which he attended in person, Ford told the economists, "I couldn't agree more that we have to act... on sound and responsible recommendations."

He made no commitments on the suggestion that the Federal Reserve Board be urged to ease its tight money policy or on any other specifics.

These included suggestions from individual economists for renewal of mandatory wage-price controls, for avoiding even the suggestion of such controls and for intermediate steps such as giving the new Council on Wage Price Stability standby nullback powers or concentrating on big industries and big unions whose policies were relatively immune from competition.

But Ford dropped a hint that he would avoid extreme measures.

"As in the political arena, there is a wide area of agreement, and a few in both parties fall on the far ends. Most of the American people fall in the middle, and they want us to take those actions, I believe, that fall within the middle ground of the spectrum."

While they differed widely on particular proposals, the economists generally agreed that the way out of what has been called stagflation — simultaneous inflation and sluggishness in the economy — would not be simple, quick or painless.

Speakers emphasized that the economic malady has no single cause but a variety, both national and international, that would have to be attacked separately.

And, Arthur M. Okun, a former presidential economic adviser now on the staff of the Brookings Institution, said his colleagues, while not agreeing on a number, generally saw inflation, now running higher than 10 per cent a year, dropping below 10 per cent next year and falling somewhat more in 1976.

The White House meeting is the first in a planned schedule of public sessions with spokesmen for various interests, in Washington and elsewhere in the country. These are to culminate in a summit conference Sept. 27 and 28 in Washington to formulate specific recommendations.

## Butte Residents Say Overtime Juvenile Delinquent Evel Put Hometown On Map

By STEVE GRAMAN

BUTTE, Mont. (AP) — Just mention Bobby Knievel's name in Butte, and residents will say the onetime juvenile delinquent, known to the rest of the world as Evel, has put this mining city on the map.

Sunday the home town here, with thousands watching in person and on closed-circuit television, will witness Evel Knievel's 1,500-foot Snake River Canyon in a rock-given attempt to gain his freedom.

Eisenbart, like much of Butte, thinks Knievel is one of the greatest guys alive.

"He's put Butte on the map," Eisenbart said.

Knievel has been shuttling back and forth between Butte and Twin Falls, Idaho, in one of a pair of Lear jets leased for the occasion.

Crowds have worn a trail in the earth behind the airport fence where the planes await the stuntman's pleasure. Al Eisenbart, a local pilot, said the grapevine spreads word of Knievel's arrivals and departures and crowds press to the airport fence to gain his freely given autograph.

Eisenbart, like much of Butte, thinks Knievel is one of the greatest guys alive.

"He's put Butte on the map," Eisenbart said.

It wasn't always that way. Knievel, 34, gained fame in the rest of the country before he was recognized in his hometown. To many citizens, he was a problem youth who would never amount to anything.

Butte High Vice Principal Frank Semansky said Knievel, who did not graduate, was an outstanding athlete who competed in hockey and the pole vault.

But, said Semansky, he was always interested in making a buck.

Knievel, who has drawn a \$6 million advance for the Snake River leap, still owes the school \$3.82 in fines for overdue books, Semansky noted.

Knievel also is remembered by Sheriff Kenneth "Rock" Cunningham.

Cunningham said he arrested Knievel for kidnaping in 1969 after the youth, then 18, grabbed a 17-year-old girl from an ice skating rink and disappeared. Cunningham said he found the couple huddled in a car the next morning—stuck in a snowbank where it had been all night.

The charge was reduced to a misdemeanor and the girl was freed. Knievel's wife for 15 years, Cunningham already has his ticket to the Snake River jump.

## Kniewel Jump Area Lessee No Folk Hero To Woodstock Set

By JIM WILLSE

TWIN FALLS, Idaho (AP) — Tin Qualls squints his eyes behind his sunglasses and surveys his domain: 254 acres of dust and pasture occupied at this moment by a motorized Levittown of campers and cars.

"I've got a reputation for looking mean and ornery, and I intend to keep it up," he said.

Tin Qualls is not likely to replace Max Yasgur as the folk hero of the Woodstock set.

Max Yasgur was the farmer who in 1969 played host to about 400,000 young people at history's largest rock festival. Yasgur, who died last year in Florida at 53, became well known for his interest in the shirtless thousands and his defense of what some considered their wretched excesses.

**Woodstock On Wheels**

Qualls, with his father and brother, leased the land for what many here are hoping will be a kind of Woodstock on wheels—Evel Knievel's jump over the Snake River Canyon Sunday.

Thirty-eight acres of the canyon-view property went to Knievel and his merry band of promoters for use as a combination launch pad, motorcycle track and carnival-style midway of beer stands and souvenir counters.

The Qualls family kept the remaining 216 acres to rent out to campers at \$25 for the week, and sometimes \$35 or \$45.

**Slipping In By Night**

"There are some here I know haven't paid," Qualls said as his father Cliff, 65, patrolled the parking area adjacent to Knievel's property on horseback.

Many park by day and slip over into the camping areas by night.

Qualls, 45, won't say how much he stands to make from the presence of the onlookers or how much Knievel paid for use of the land. But it appeared that about 150 vehicles were on the Qualls property by early today, which would put the take at well under \$10,000.

Qualls, chief of detectives on the Twin Falls police force, has a number of off-duty policemen joining his father, brother Keith, 40, and other members of the family in riding herd on the campers.

"I blew my top at a few places," Qualls snorted. "They were roaring back and forth in cars and screaming and yelling and so forth."

**Some Clients Unhappy**

The detective said, however, he has visited just about every camp and has concluded the crowd is "pretty good."

Some of his clients are less than pleased.

## Las Vegas Odds Grow Confusing

LAS VEGAS, Nev. (AP) — Sometimes the odds making business gets a little confusing. Witness the mixup over the odds given by Jimmy "The Greek" Snyder for Evel Knievel's jump over the Snake River Canyon.

Snyder said Wednesday the odds were 3-1 in favor of Knievel personally completing the 4,871-foot ride over the canyon in his steam-powered "Sky-cycle."

A check to see if the odds were the same Tuesday drew the response from a secretary that they stood at 50-50.

But a later check showed the secretary was talking about yet another set of odds, those Snyder was given that Knievel would even attempt the jump. The odds for his completing it remained the same.

"The Arabs and Us: A New Feeling of Getting to Know Each Other" is the title of a timely article of general interest appearing in the current issue of Family Weekly, the magazine section included each Sunday with The Reporter-Telegram.

Other articles include: "In Which Ways are Men and Women Unequal?" "How to Make Up to Fall's Fabulous Clothes" (a "Beauty & You" feature); "Demond Wilson: Sanford's Son Talks About Everything But Sanford," and a Sports Mini-Profile of Cookie Rojas.

"Summer Supper in Germany" is the Smart Cooking topic.

## Reform Committee Creation Sought

WASHINGTON (AP) — Sen. Joseph R. Biden Jr. has called for creation of a special Senate House committee to study a broad array of proposed post-Watergate governmental reforms.

In a Senate speech, the Delaware Democrat suggested the panel study repeal of the two-term limit for presidents, provisions for a special presidential election in case of a vacancy, broadcast coverage of the House and Senate, and a question period for members of Congress to quiz top executive branch officials.

## Free Tape Library Donations Listed

The Midland Free Tape-Lending Library announces memorial gifts received during August.

These include: In memory of John S. Powell, given by Mr. and Mrs. J. T. Baker; in memory of Charles E. Clark, given by Mr. and Mrs. Frank Ritter; in memory of Leslie C. Green, given by Mr. and Mrs. Ritter; in memory of Bart W. Mann and Kenneth L. McGill, given by Mr. and Mrs. E. R. Filley; in memory of Dorothy Perkins, given by the library and Mrs. Peter Crain; in memory of J. W. Pace, given by The Midland National Bank; in memory of Mrs. Claude Fendester Farham, given by Mrs. Crain and Mr. and Mrs. Phil M. Adams.

## Large Watershed Enroute to the Sea, the Amazon River is fed by more than 200 tributaries, some of which are more than 1,000 miles long.

## Reports On Chou's Health Create Flurry Of Concern

By The Associated Press

Reports that a Chinese official had told Americans visiting Peking that the condition of Premier Chou En-lai has worsened in the last two months caused a flurry of concern for the 76-year-old leader. But one of the Americans was quoted today as saying the reports were inaccurate.

Sen. Hubert H. Humphrey, D-Minn., was quoted in a Mutual Broadcasting System interview as saying, "The vice premier told us Chou's condition was worse."

The New York Times said today that Humphrey said in a telephone interview from Peking that Deputy Premier Teng Hsiao-ping had told the visiting seven-member congressional group that "Chou's condition was worse than it was when Sen. Jackson saw him."

Sen. Henry M. Jackson, D-Wash., met with Chou while on a trip to Peking in early July. It was disclosed at that time that the Chinese premier had suffered a heart attack.

Sen. J. W. Fulbright, D-Ark., who is leading the congressional delegation on a 13-day tour, was reached by phone at his Peking hotel and told The Associated Press, "All I know is that he (Chou) is not well enough to receive foreign visitors. He was unable to receive us and he was unable to receive the president of Togo yesterday."

Fulbright said Humphrey had denied saying that Chou's condition was worse or anything similar because the Americans had no information to that effect.

Humphrey could not be contacted.

But Humphrey, reached by The Associated Press, said he had not been misquoted by Mutual. He said, "The vice premier told us Chou's condition was worse than it was when Sen. Jackson saw him. This was why the premier was unable to see us. This was a fact but it didn't mean that his condition was critical or that it had worsened."

Chou last appeared in public about five weeks ago at an Army Day reception.

There was speculation that Chou's condition had deteriorated when two Chinese officials left a banquet hall Thursday evening during a dinner for the visiting Americans.

However, sources in Peking said later that the departure of the two officials were not related to the premier's condition.

Another member of the delegation, Rep. Barbara Jordan, D-Tex., said the Americans had been told in advance that the two officials would be leaving early. She added, "They told us it was not intended as a slap."

Miss Jordan said, "Chou's illness is graver than it was even two months ago." She speculated the departure "had something to do with Chou's health, but of course, they would not say. People here are very open, very friendly, but they draw a line in terms of communication with us and the line they draw is what is actually happening in terms of Chou's health."

She said the delegation was assured that regardless of what D-Tex. said the Americans had no change in China's relationship with the United States.

"They said it could have no effect because our relationship is a constant one that is part of their constitution, part of the Shanghai communiques."

She said Chinese officials want assurances that American relations with China will remain unchanged "even though Richard Nixon is no longer president."

## State Of Texas Wants Option To Prosecute Jacobsen Despite Deal

DALLAS (AP)—The State of Texas still wants to have the option to prosecute Austin lobbyist Jake Jacobsen regardless of any deal he may have made with federal prosecutors in a case involving former Gov. John Connally.

Federal prosecutors have asked a federal judge here to drop state charges against Jacobsen for the misapplication of San Angelo savings and loan firm funds. The federal prosecutors request came after Jacobsen reportedly agreed to testify against Connally in exchange for the dropping of the Texas charge and a bribery charge in Washington.

Connally has been indicted on charges of taking money from a Texas-based milk cooperative. Jacobsen, a lobbyist for

the milk firm, agreed to be a witness against Connally.

State prosecutors Thursday filed a brief with U.S. District Court Judge Robert Hill asking that charges not be dropped.

Hill is expected to rule on the case today.

The state prosecutors said the investigation leading to the indictment was made by the Texas Savings and Loan Department and the Federal Home Loan Bank Board.

"Such investigative material was later turned over to the federal government, with the understanding between the Federal Home Loan Bank Board and the Texas Savings and Loan Department that any federal criminal action would be initiated and fully prosecuted," the Texas brief said.

## Bristol To Fill Pulpit Here Sunday

Dr. Ray Bristol, executive director of the Midland Pastoral Counseling Center, will fill the pulpit at the 10:50 a.m. worship service Sunday in the First Presbyterian Church.

Dr. Bristol formerly was senior minister of the First Christian Church of Midland.

The Rev. Robert Boynton Smith, First Presbyterian minister, is on retreat at Moor Ranch this weekend with members and advisers of the church's Senior High Fellowship.

## Lewis Arrested On Forgery Charge

Oscar Lewis, 33, of 801 S. Jefferson St. remained in custody at city jail today in lieu of \$5,000 bond on charges of forgery by passing.

Lewis was arrested by police Thursday on a warrant issued by Justice of the Peace Bob Pine. Charges stem from the passing of a forged check at the Sundown Market, 211 E. Front St., on Aug. 19.

Charges against Lewis and bond were set in Judge Pine's court.

## Where's The Fire?

1:00-2:00 p.m. Thursday, August 15, at the 200 block of Moody Street. Open to men leaving trash in the area.

# St. Clair Defends Labor Shakeup

By LEE JONES  
AUSTIN, Tex. (AP) — State Labor Commissioner Jackie St. Clair denied Thursday that the president of the Texas AFL-CIO influenced the promotion of his son to St. Clair's No. 2 man.

Bob Hubbard, son of AFL-CIO President Harry Hubbard, was named assistant commissioner in a shake-up in which 16 employees of the Texas Department of Labor and Standards lost their jobs.

St. Clair, an appointee of Gov. Dolph Briscoe, said the promotion of Bob Hubbard had nothing to do with Briscoe's re-election campaign and his detente with organized labor.

Without ceremony or public announcement, St. Clair fired a fourth of the agency's employees last Friday. These included assistant commissioner Tommy V. Smith, boxing and wrestling director Leonard Booth and the director of the employment and labor agencies division, Simmie Ward.

Hubbard, 28, who had been with the agency three months as administrative assistant, replaced Smith. Hubbard's new job pays \$16,000, compared with \$13,500 in his old one.

St. Clair said Bob Hubbard was working as administrative assistant to Texas Adjutant General Thomas Bishop when he learned that the comparable job in the labor agency was available.

Hubbard had nothing

to do with his son's promotion, and "I haven't even seen Mr. Hubbard lately," St. Clair said. Smith's father was Chester Smith, a Texas AFL-CIO president in the 1950s.

St. Clair brought Tommy Smith, a former commissioner, back into the agency as assistant

when Briscoe appointed St. Clair to the top job in May 1973.

Last month in El Paso, Smith was elected president of the North American Boxing Federation, and Booth was chosen executive secretary. Smith also was named as the federation's representative to the World Boxing Council.

Booth said he and Smith were involved at the time they were fired in negotiations to bring the world light heavyweight boxing championship fight to

Houston. They also were working on plans to update the state's 1938 boxing and wrestling laws and on a health and welfare plan for boxers and wrestlers, he said.

St. Clair would say only that the firings resulted from his conclusion after 15 months' evaluation that the individuals involved were not performing their jobs satisfactorily.

Booth's wife, Joannie, was fired as an accounting clerk. She said several of those who were dismissed were filing a grievance with the Texas Public Employees Association.

"It was definitely politics. We think somebody else was behind it, but we don't know who," she said. While the TPEA can't get their jobs back, "they can investigate and help us find out why," she said.

Mrs. Booth said she, Ward and some of the others had received letters of commendation from St. Clair a few days before the firings. "I don't know what they are referring to," St. Clair said.

VIEW FROM THE TANK—It's not like the long lines and limits of a few months ago, as the sign in the background indicates. To get the gas tank's point of view, Longview Daily News photographer David Fox didn't really get inside. He slipped a long lens shade on a wide angle lens to simulate the view. The attendant is Bob Reynolds, an employe of a Longview gas station. (AP Wirephoto.)

## Bentzen Opposes Nixon Immunity

SAN ANTONIO, Tex. (AP) — Texas' Democratic senator says he can not support immunity from prosecution for former President Richard Nixon.

"The idea of a former President of the United States being behind bars is personally repugnant to me, but I can't see how any one man can be placed above the law," said Bentzen in an appearance here.

Bentzen's response on immunity came after a reporter's question Wednesday, when Bentzen stopped to campaign for Democratic congressional candidate Bob Krueger.

Bentzen said President Ford were held now, but Ford will not be elected President in 1976 if he continues the economic policies of the Nixon administration.

The Nile River in Africa is 4,146 miles long.

## ON JOINT 10-DAY TOUR— Harlan Challenges Krueger To Debate

SAN ANTONIO, Tex. (AP) — Republican congressional candidate Doug Harlan wants his Democratic opponent to tour the 21st Congressional District with him, but he says his opponent will have to pay for his own meals and lodging.

Harlan proposed a joint 10-day tour in a news conference Thursday.

He said he would borrow an airplane for the tour, even though he believes his opponent, Democratic nominee Bob Krueger of New Braunfels, is wealthy enough to afford charter aircraft.

Harlan said the joint appearances could be similar to the Lincoln-Douglas debate.

Krueger earlier this week disputed Harlan's claims about his wealth, of which Harlan is making an issue along with claims that Krueger favors federal land use program and supported George McGovern in 1972.

Harlan said Krueger is the beneficiary of a \$26 million for-

ture. The information, Harlan said, came from Krueger's staff.

Krueger said earlier this week he is not a millionaire and a staff member to which Harlan alluded denied she furnished the \$28 million figure to Harlan.

Krueger said he is against a federal land use program.

Krueger also termed as "sheer fabrication" Harlan's claim that he first supported Terry Sanford of North Carolina for the Democratic presidential nomination and then switched to McGovern.

Krueger said he voted for the Democratic ticket in 1972, including McGovern, although he had reservations about McGovern. He said he had graver reservations about the integrity of President Nixon.

Harlan and Krueger are fighting in the district, which runs from north San Antonio to San Angelo, to succeed retiring U.S. Rep. O. C. Fisher, D-Tex.

## Showers Spot Southern Atlantic Coastal States

By The Associated Press  
Showers and thunderstorms dotted the southern Atlantic coastal states today and fanned out into Tennessee and Alabama.

Heavy rains soaked parts of the Southeast as Hurricane Carmen drifted northward through the Gulf of Mexico. Residents of the north central and northeastern Gulf Coast areas were advised to keep in touch with future advisories on the storm.

Rainfall at McDill Air Force Base in Florida reached 2 1/2 inches before dawn, and nearby Tampa, Fla., measured almost 2 inches.

Other thunderstorms drifted out of the central Rockies into the High Plains. Thunderstorms

also rumbled across the northern Plains from the eastern Dakotas into western Minnesota. A few showers lingered in the southern Plateau region.

Skies were clear from the upper Great Lakes to Texas and in much of the Far West. Some locally dense fog settled in the Appalachians.

Temperatures over the central states returned to seasonal levels after several days of record lows.

Readings before dawn ranged from 36 at Houlton, Maine, to 92 at Needles, Calif.

Some other reports: Anchorage 48 clear, Atlanta 61 drizzle, Boston 57 cloudy, Buffalo 53 clear, Chicago 53 clear, Cincinnati 56 clear, Cleveland 50 clear, Dallas 59 clear, Denver 60 clear, Detroit 54 clear, Honolulu 77 clear, Indianapolis 56 clear, Kansas City 53 clear, Los Angeles 66 smoke, Louisville 58 clear, Miami 82 partly cloudy, Minneapolis-St. Paul 52 partly cloudy, Nashville 66, thunderstorms, New York 82 partly cloudy, Philadelphia 65 cloudy, Phoenix 91 clear, Pittsburgh 52 cloudy, St. Louis 55 clear, San Francisco 62 clear, Seattle 61 partly cloudy, Washington 67 rain.

## AT HOME AND ABROAD News Of Area Servicemen

Robert G. Toombs

navigator, airborne electronics warfare operator or tactical air control officer.  
He received a B.A. degree from Texas Tech in 1973.

Three area youths have entered their freshman year at the U.S. Air Force Academy in Colorado. They are Bonard D. Drake, Stephen R. Gist, both of Midland, and Michael D. Payne of Stanton.

Drake, a 1974 graduate of Lee High School, is the son of Mr. and Mrs. William L. Drake.

Gist, also a 1974 Lee graduate, is the son of Mr. and Mrs. Monty J. Gist.

Payne, a 1974 graduate of San Manuel, Ariz., High School, is the son of Mr. and Mrs. Darrell Payne.

Pfc. Robert G. Toombs, son of Mr. and Mrs. Zane Toombs of Odessa, recently graduated from recruit training at the Marine Corps Depot in San Diego.

Navy Fireman Apprentice Robert B. Riordan, son of Mr. and Mrs. W. N. Orson of Andrews, recently participated in Pagasa III, a military exercise in the Philippines. Riordan is a crew member aboard the guided missile destroyer USS Jouett.

A 1972 graduate of Andrews High School, he joined the Navy in April 1973.

Michael R. McWilliams, son of Mr. and Mrs. Bill H. McWilliams of Midland, was commissioned a second lieutenant in the U.S. Air Force after his recent graduation from Texas Tech University.

He is a 1970 graduate of Lee High School.

Jack R. Abbott

Navy Fireman Recruit Jack R. Abbott, son of Mr. and Mrs. H. E. Abbott of Midland, recently graduated from recruit training at the Naval Training Center in San Diego.

He is scheduled to report to boiler technician school at Great Lakes Naval Station, Ill.

Mark C. Bivens

Navy Seaman Recruit Mark C. Bivens, son of Mr. and Mrs. James M. Bradford of Midland, recently graduated from recruit training at the Naval Training Center in San Diego.

He is scheduled to report to yeoman school in Orlando, Fla.

Navy Electricians Mate 3C Mark A. Rackley, son of Mr. and Mrs. Buford G. Rackley of Midland, is a member of the aircraft carrier USS Midway's "Flying Squad," a highly trained volunteer firefighting team.

The Midway is homeported at Yokosuka, Japan.

A 1972 graduate of Reagan County High School, Rackley joined the Navy in June 1972.

2nd Lt. Anthony E. Rogers, son of Mr. and Mrs. Earl A. Rogers of Midland, has completed the basic Marine flight officer training at Pensacola Naval Air Station, Fla.

He will now begin final phases of instruction leading to his qualification as a radar intercept officer, bombardier-

Robert D. Withrow

Pvt. Robert D. Withrow, son of Mrs. Marie Withrow of Midland, recently graduated from recruit training at the Marine Corps Depot in San Diego.

Lance Cpl. David E. Pate, son of Mr. and Mrs. Joe E. Pate of Midland, has reported for duty with the 2nd Field Artillery Group at Camp Lejeune, N.C. His wife, Josie, is the daughter of Mrs. Mary Rarick, also of Midland.

A former student at Austin High School in Decatur, Ala., he joined the Marine Corps in 1970.

Sidney M. Quattrini, son of Mrs. E. J. Hogan of Midland, recently attended a U.S. Air Force ROTC field training encampment at Wright-Patterson AFB, Ohio.

A student at Texas Tech, Quattrini is a 1970 graduate of Lee High School.

Joseph R. Daskevich

U.S. Air Force Capt. Joseph R. Daskevich, son of J. W. Daskevich of Midland, has been named aide de camp to Maj. Gen. Edmund A. Rafalko, headquarters commander of the Ogden Air Logistics Center at Hill AFB, Utah.

Daskevich served as a flight test pilot at Hill prior to his new assignment.

A 1961 graduate of Ranger High School, he received his B.S. degree and commission in 1966 upon graduation from the U.S. Air Force Academy. He earned his M.B.A. degree in 1967 at UCLA.

Edward A. Lentner

Pfc. Edward A. Lentner, son of Mr. and Mrs. William T. Lentner of Midland, recently graduated from recruit training at the Marine Corps Depot in San Diego.

Franklin A. Fisher

Pfc. Franklin A. Fisher, son of Mrs. Alice M. Fisher of Midland, recently completed infantry training school at Camp Pendleton, Calif.

A 1973 graduate of Midland High School, he joined the Marine Corps in February 1974.

# State To Appeal Closure Of Reform Schools

AUSTIN, Tex. (AP) — Atty. Gen. John Hill and the Texas Youth Council have decided to appeal a federal judge's order that would force the state to close two reform schools for boys at Gatesville.

The appeal will be taken to the U.S. 5th Circuit Court of Appeals at New Orleans, Hill said after a 1½-hour meeting with the three-man council in his office Thursday.

U.S. District Court Judge William Wayne Justice of Tyler issued a sweeping 200-page order Tuesday that mandates an overhaul of the state's system for dealing with juvenile delinquents. At its core is a requirement that the Gatesville and Mountain View state schools, much criticized for alleged brutality to inmates, be shut down.

Hill said the basic issue in the appeal would be whether a single federal judge has the "authority to mandate a specific, detailed, rigid program" of treatment for delinquent youngsters.

There also is an issue of whether such a case should have been decided not by one judge but by a three-judge federal court, since sweeping changes and massive state expenditures were involved. Also at stake, he said, is whether the mechanics of a plan of treatment must comply in every particular with court-mandated standards and timetables.

Hill said the council already had "shown a deep commitment to improvement" and should be allowed to carry out its own plans.

Ron Jackson, the council's executive director, said earlier that the two reform schools at Gatesville would continue to operate for the time being.

"Specifically concerning the proposed closing of the Gatesville State Schools, I am in favor of closing any institution at this point. We have determined that although they should not be the sole form of treatment for the juvenile offender, institutions are a necessary form of treatment for many," said Ron Jackson, the

council's executive director. Jackson said the legislature had funded the Gatesville State School and the nearby maximum security Mountain View State School through Sept. 1, 1975, and said the council would comply with that authorization.

"Should this order be determined final, and disrupt that original intention, we will certainly comply; however, at this time, I have no plans to close any TYC institution," Jackson said.

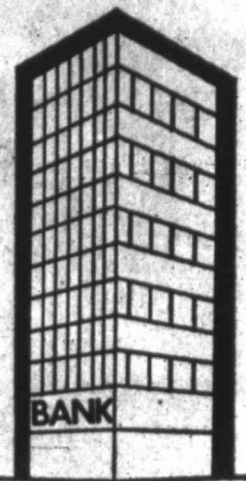

Justice's order calls for local handling of juvenile problems in place of the large rural reform schools.

Jackson said the court order failed to take into account major revisions in the council's

programs since major disturbances at Gatesville a year ago forced a change in the composition of the council and the TYC administration.

The council has developed "new approaches not conducive in any to abuse or ill-treatment of wards, contrary to facts contained" in Justice's order, Jackson said.

## If you owned a bank, what would you do for people on tight budgets? (and who isn't)

## No Service Charge Checking Accounts would help.

We offer every customer a service charge free checking account. That's right, no service charge on any checking account at First National.

There are no gimmicks either. You are not required to maintain a minimum balance... as long as it covers the checks you write... and there is no activity charge.

We try to run our bank the way you would, and this is just one example. Open your checking account at First National and discover more.

## 15-Pound Rooster Now Helps Many Kidney Disease Victims

ST. LOUIS (AP) — A unique 15-pound rooster named El Macho has given researchers at Washington University here a way to combat a bone condition that often accompanies kidney failure.

El Macho's body produces an extremely sensitive antibody doctors can use to monitor and control a bone disease that often develops in patients who depend on dialysis of their blood to stay alive.

Dialysis machines are used to cleanse the blood of patients whose kidneys have stopped functioning. But they often leave a deficiency of calcium in

the patient's blood, and soon bones become brittle and are easily broken.

El Macho — the name translated from Spanish means "much man" — is "one tough bird," says Dr. Eduardo Slatopolsky, director of the dialysis unit at Barnes Hospital here.

"Of all the roosters we tested, only one, El Macho, produced an antibody that was so sensitive that it could be used effectively."

Slatopolsky explained how researchers discovered El Macho's usefulness:

"Without the kidney, the

blood does not get the calcium it needs and the content of phosphorus in the bloodstream begins to rise.

"This buildup in turn triggers the parathyroid glands in the neck and parathyroid hormones are emitted to tell the body that more calcium is needed in the blood.

"Unfortunately, the blood picks up the calcium from the most available source, the bones. Over a period of time the stripping of calcium from the bones makes them brittle."

He said researchers found that roosters injected with parathyroid hormones from cows sometimes develop antibodies which react to human hormones. The result was a method of measuring hormone content in the blood of patients.

An increase in the amount of parathyroid hormone in the blood indicates a deficiency of calcium, he said.
