Today In History

By The Associated Press Today is Tuesday, Sept. 10, the 253rd day of 1974. There are 112 days left in the year. Today's highlight in history:

On this date in 1813, an American naval force under Oliver Perry defeated the British in the Battle of Lake Erie in the War of 1812.

On this date -In 1608, John Smith was elected governor of the Jamestown colony in Virginia. In 1775, 5,000 Acadians were banished from Nova Scotia.

In 1846. Elias Howe of Spencer, Mass., received a patent on his sewing machine. In 1898, Empress Elizabeth of Austria-Hungary was assassinated by an anarchist In Geneva

In 1907, the British colony of New Zealand became a dominion

In 1939, Canada declared war against Germany. Ten years ago Foreign

ministers of the Organization of African Unity, at a meeting in Addis Ababa, approved a plan to end the rebellion and political strife in the Congo. Five years ago: \$900 million was bid for oil leases in Alaska by petroleum com-

One year ago: The Defense Department acknowledged 32-OZ. that U.S. fighter-bombers flew BOTTLE air strikes in Cambodia in 1970 and 1971, with the attacks kept secret through a system of dual reports

Today's birthdays: Golfer Arnold Palmer is 45 years old. Former baseball star Roger Maris is 40.

Dallasites Vote Today

cials predicted a large turnout of 38,000 voters today for a straw vote on a controversial DOVE "commuter tax" and a binding referendum on collective bargaining rights for Dallas police- 32-OZ. BOTTLE . . .

City Secretary Harold Shank forecast a strong voter turnout on the basis of 213 absentee votes cast, what he called unusually high

The commuter tax proposition, proposed and strongly advocated by Mayor Pro Tem George Allen, calls for a levy of a one per cent tax on the salaries on all persons employed in Dallas, with the first \$5,000 in income exempted.

Credits On Property Tax Credits would be returned to all Dallas residents on property

taxes or rents "No resident in Dallas will be taxed." said Allen. "The only reason Dallas residents are included in the assessment formula is to assure the ordinance is constitutional and non-discriminatory

Allen said he proposed the tax because he feels suburban citizens should pay a fair share for services they use in Dallas But there were still tough constitutional questions attached to such a proposal

whether its real intent is discriminatory and whether it constitutes taxation without representation since suburbanites cannot vote in city elections

Suburbanites Oppose Plan A number of suburban mayors have voiced opposition to the proposal since suburbanites

would carry the load Allen said the tax is levied in about 75 U.S. cities, none of them in the Southwest

If approved, the collective bargaining proposition would give the Dallas Police Association the right to negotiate for the department. Strikes and lockouts by police would still be

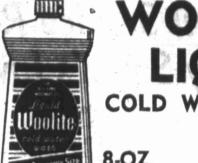

prohibited by law Opponents of collective bargaining say such bans have not stopped other departments from striking when negotiations. broke down.

SAIGON, South Vietnam (AP) - President Nguyen Van Thieu has dismissed two forer division commanders from the army for alleged corruption. and stripped them of their rank of brigadier general, military sources said today.

The government is investigating charges of "mismanagement" against the two, Le Van Tu and Tran Quoc Lich, the sources said.

Tu commanded the 25th Infantry Division and Lich the 5th Infantry Division, both of which operate in the Saigon region. They were relieved last year and given secondary staff posts in Saigon.

'Paper' Soldiers Sources said among the accusations is that they collected pay for soldiers who either existed only on paper or never reported for duty, a common practice in both the South Vietnamese and Cambodian armies that puts perhaps millions of U.S. aid dollars into the pockets
