Time To Move Ahead

Economic Plans To Be Revealed On Tv Tuesday

WASHINGTON (AP) - President Ford is reported ready to recommend an income tax surcharge on corporations and upper income individuals as part of his anti-inflation program.

The President spent much of Sunday working on the package of proposals he will outline to Congress

and the nation in a nationally televised and broadcast address from Capitol Hill at 3 p.m. CDT Tuesday.

White House spokesmen said Ford has settled on more than a dozen specific proposals, cen-tering on problems with food and energy prices, the depressed housing industry and my; the fight against inflation ger said "there will be no con-WASHINGTON (AP) - Sec- and U.S. ability to meet other crete agreements or dramatic record high interest rates: retary of State Henry A. 6A-THE MIDLAND REPORTER-TELEGRAM, MONDAY, OCT. 7, 1974 MEMBER OF THE ASSOCIATED PRESS The Associated Press is entitled exclusively to the use for republication of all the local news printed in this newspaper, as well as

all AP news dispatches. Rights of publication of all other matters herein also reserved.

ADVERTISING RATES: Display advertising and legal notice rates on application. Classified word rate 10 cents per word per day for each of the first two days; 5 cents per word per day for each subsequent day. Minimum charge \$1.50, 15 words.

Any erroneous reflection upon the character, standing or reputa-tion of any person, firm or corporation which may occur in the The Reporter-Telegram will be gladly corrected upon being brought to the attention of the editor.

The publisher is not responsible for copy omissions or typographical errors which may occur other than to correct them in the next issue after it is brought to his attention and in no case does the publisher hold himself liable for damages further than the amount received by him for actual space covering the error. The right is reserved to reject or edit all advertising copy. Advertising orders are accepted on this basis only

Let the word of Christ dwell in you richly, as you teach and admonish one another in all wisdom, and as you sing psalms and hymns and spiritual songs with thankfulness in your hearts to God. - Colossians 3:16.

'Freedom's Watchdogs'

Newspapers of the United States from revolutionary times have been observing and shaping history in their own inimitable style.

And they still are attuned to the pulsebeat of the nation and of the world, recording events and trends of the day, keeping an eye on government, and advertising needed goods and services.

Yet the press, nationwide, has come in for considerable criticism in recent months, some deserved and some not. This is well and good and the press can benefit from criticism.

Newspaper Week, now being observed, affords Americans a chance to reappraise this important guardian of a free society, the constitutionally guaranteed free press.

Someone has said that unlike many other countries, the United States possesses a highly-vocal, inquisitive press. This is so true, and whether or not one agrees with the philosophies or methods used in news gathering and writing, one point must be acknowledged: The

expressing opinion nor in their efforts to bring all the news to the people.

The senate of the senate of the senate of the senate of the news to the people.

The senate of the senate

At the same time, as a speaker before a Midland At the same time, as a speaker before a Midland as famous for its tobacco leaf service club said recently, "A free press is essential as its blue grass, might be expected to support the tobacco for a free nation, but this press must accept the responsibility for fairness and truth that goes with its authorical support the tobacco. But Cook positively left next the end of the year."

Much More Secure'

There has been much talk on getting Congress to put restrictions on the press.

"Just back from Tahiti, also the thief of fun and continuation in his pleasure. "The days are prospected to support the tobacco leaf that his organization is now will concentrate its efforts on getting Congress to put restrictions on the press.

sibility for fairness and truth that goes with its authority under our Constitution."

Alluding to the battle which has raged between the government and the press in recent years, Tom Wicker, New York newspaper editor, said in a recent Lubbock

WHAT IS

Most of the people in our community profess to have faith in God and in his Son, Jesus Christ. Most claim to be the followers of Jesus. Yet, I wonder how many of us God counts as his faithful children. The reason I wonder this is that many who profess faith in God live without regard for him.

Real faith produces obedience. We fool ourselves when we talk about our faith in Jesus Christ and then deny him by the lives we live. True faith leads us to complete obedience of our

This is the message of James 2:14-26. "So faith by itself, if it has no works, is dead. . . . For as the body apart from the spirit is dead, so faith apart from works is dead". God intends that we believe in him and that this faith be expressed in lives

How is your faith - working or dead?

Increase your knowledge of God's will for your life by en-rolling in a free Bible correspondence course. Send your name and address to Bible Correspondence Course, Box 1222, Midland." Presented by the Church that meets at Ft. Worth & Jax Sts.

Cattle graze on reclaimed land near TESCO's lignite coal operation near Fairfield, Texas. The dragline used for recovering the lignite can be seen just over the hill.

Ten months ago this peaceful Texas pasture was a coal mine.

The lignite coal found here is being used to generate electricity for Texas Electric Service Company in our Big Brown plant near Fairfield, Texas.

Our main fuels are natural gas and oil, and they will continue to be for several years. But new supplies of these fuels are increasingly difficult to

Using lignite, and by the 1980's nuclear fuel, will help us reduce our dependence on natural gas and oil.

One advantage of using lignite is that it isn't being used extensively for any purpose other than the generation of electricity.

After removing coal from the land you see here, it was reclaimed — the soil was replaced, tilled, fertilized and a variety of grasses planted — to make its productivity equal to or better than before. Now it is used for raising crops or cattle.

At Texas Electric, we're continuing the orderly development of our power system so that you'll continue having the electricity you need.

And we're doing it with full concern for the environment.

Psychiatrist Suggests Delay **Before Breast Cancer Surgery**

CHICAGO (AP) - A psy-choligically. chiatrist says it would be helpsurgery to remove a breast was delayed a few days after cancer is diagnosed.

"Facing the possibility of having cancer is in itself such a severe stress that it would be much better not to combine it with the fact of having lost a breast," says Dr. Arthur Peck, a psychiatrist at Mount Sinai Medical Center in New York. "To be anesthetized without

knowing whether surgery will be minor or major and disfiguring precludes an effort to prepare for mastectomy in ad vance," he said. Medical Journal Topic

The question is discussed in the Oct. 7 issue of the Journal of the American Medical Asso-

An unidentified Florida physician submitted the question saving, "I am concerned about the traumatic effect on the patient who may not have received adequate psychological preparation, and who awakens to discover she has lost a breast."

He asked whether there would be a risk to the patient to wait a few days between the biopsy confirming cancer and the surgery.

Two surgeons answered that the patient can be prepared psychologically before going under anesthesia for the biopsy which is followed by surgery if tissue tested is malignant. No 'Significant Risk'

Dr. Jerome Urban of Me morial Sloan-Kettering Cancer entail "any significant risk."

But he said he is not certain chological preparation, Urban initial surgical

How To Hold FALSE TEETH

Do false teeth embarrass you by coming loose when you eat, laugh, or talk? A denture adhesive can help. FASTEETH* gives dentures a longer, firmer, steadier hold. Makes eating more enjoyable. For more security and comfort, use FASTEETH Denture Adhesive Powder. Dentures that fit are essential to health. See your dentist regularly.

Youth Center Opens At Odessa

ODESSA - The Ector County Youth Center was opened here today.

Guided tours of the \$435,000 facility, which can house up to 20 juveniles, were held. The facility is on a 13.2-acre tract of land near the Ector County Airport.

The center has a staff of 12 persons and is directed by Morris Petty, chief juvenile probation officer for Ector County. Residents are housed in 20 individual rooms. It also has an apartment for house parents, two special education classrooms, indoor and outdoor recreational areas, kitchen, dining room, library, groom room and laundry.

It also has administrative office space, courtroom, jury room and judge's chambers.

Midland Firemen Present Programs

Midland firemen began giving fire prevention programs today at Midland schools and they will continue each day this week.

This afternoon, students a Bonham Elementary School were to be shown a film and fire fighting equipment.

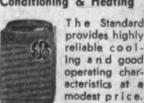

Tuesday's schedule calls for a program at Jane Long Elementary School.

Where's The Fire!

EFFICIENCY

you get it all with

NATURAL ENERGY

Fresh, warm air gently circulating from floor to ceiling.

And that dependable comfort is such a bargain here in West Texas. Though gas energy costs a little more than it use to, gas furnaces still cost less than one-third as much to operate as similar electric furnaces.

And at the same time you're saving money with gas heating, you can also have a warm feeling knowing that you're helping conserve energy. Gas heating uses only half as much energy as an electric system doing the same job.

Comfort, efficiency, and economy . . . you get it all with natural energy gas heating.

Reddell Praises Team's Efforts

Perhaps lost in the confusion and disappointment of Midland's 6-3 loss to Odessa Permian on a blocked punt in the last six seconds Friday night was what ranks as one of the outstanding efforts in Bulldog football history.

That's the way Coach John Reddell feels about it and

no one who saw the game will argue. 'Although we didn't score a touchdown," Reddell said, 'We moved the ball against the finest defense we've seen this year. In fact, it was the finest exhibition of outplaying a superior opponent that I've ever been connected with in my coaching career.'

For 47 minutes and 46 seconds, Midland dominated the game to such an extent that it took a handy-poll roster to be sure which team was ranked No. 3 in state AAAA foot-

'We mashed them in every respect and I really couldn't be prouder of the players or the job the assistant coaches did in preparing them for the game if we had won."

Terrill Littlejohn's field goal with 8:38 to go from 30 yards out gave Midland a 3-0 lead in the last period and the way the Bulldogs played defense, it looked substantial enough until the blocked punt.

'I feel the same way about our decision to punt as I did Friday night," Reddell said, "If I had known it was going to be blocked, I'd have gone for the safety and free kick, but movies show we missed just one block, even a shoulder brush would have done the job, or we would have

gotten the punt away." 'Before the punt, we were trying for the first down," Reddell added, "We ran a rollout in an attempt to get outside their 10-man line and Permian stopped us for a fiveyard loss. Their defense is so good they can overload like

that and still recover to make the play." Going into this week's District 5-4A game at Big Spring, the primary concern is that an eight-second lapse will overshadow what otherwise was a brilliant defensive job.

While the fluke nature of the loss makes it a hard pill to swallow, it's really not as important as the establishing of the Bulldog's capability of playing with anyone. Despite the setback, Reddell pointed out, the Bulldogs are far from out of it. And after Friday's performance,

he could make the statement with considerably more confi-

dence than he could before the game.

HIS SHOE IS SOLD - World walker David Kunst and auctioneer Larry Born hold Kunst's left shoe aloft for auction in Waseca, Minn., after Kunst completed a 17,000-mile walk around the world Saturday. The walk required 41/2 years. The shoe brought \$170, the right shoe \$150 and the mule that accompanied Kunst from Waseca to New York sold for \$140. Proceeds went to charity. (AP Wirephoto.)
