City of Cisco Kas Phenominal Srowth **MILLIONS OF DOLLARS BEING SPENT** Number of New Enterprises Added Each Week: New Buildings Being Constructed.

The Home People are Prospering and Building a City with the Help of New Comers.

BY G. FISK

The world is moving fast, time Mich people have never dreamed. Columbus had dreams of a new world, and his dream came true when he discovered America, on the 12th day of October, 1492. Other men had dreams and they too discov ered a new world. Ponce De Leon and Lafayette made discoveries prompted by dreams, no doubt. Columbus knew nothing of America, so to speak, he knew nothing at all of Texas, or the territory now called His ancestors may have vis-Texas. ited America, they may have visited the Southland, but they learned city the demand has grown to such little of Texas. George Washington an extent that more buildings are knew nothing of the Lone Star State, and even to-day there are few men who have passed into the great beyond in years gone by who have learned of Texas and its people. But this cannot be said of the great men of o-day. Do you suppose that Culumbus ever dreamed of oil and automobiles, and such like? Do you imagine that Fulton thought that some day we would be riding in air. ward, even a quarter of a century ago had dreams of the great state of Texas and the most wonderful lots further out and are building ready to help build Cisco. things that have been taking place a housand barrels of fluid coming before us, no doubt, the building of good salary. out of this hole in Eastland county? a real city. Everything connected Geo. L. Huesties lives some few get his mail and ranch supplies, spread to all parts of this section of with all forward movements. when cattle raising was the only in- Texas, the result of which is that dustry the town thrived, but we had every own and village is taking on a a different class of citizens. We still building boom. But what of Cisco have some of them, but times have and her future? There must be "one changed them. When farming real city" in the oil belt. The buildcrowded out the ranchman and he ers of Cisco are planning to make moved further west, the cotton in- that city right here. They propose dustry took the place of cattle rais- to make this town so inviting that ing, we then called it diversifying, people will want to come here to that is cattle and cotton on the same make their homes. RANGER OIL FIELD Oil discovered at Ranger by the Texas & Pacific Coal and Oil Com-

Texas & Pacific Coal & Oil Co.'s pany in October, 1917: No. 1 P. Brown is still making about A total of 400 wells have . been

OUR HOLDINGS

Our holdings at present are: Six drilling sites in Ranger, Texas, surrounded by big gushing wells, and it is the intention of the Company to drill four wells thereon and when these four wells are complete the company should be

worth many times its capital stock. We also have 80 1-2 acres in the Famous Oil Field in Stephens County, surrounded by big gushing wells. This

holding alone is worth more than the stock issued for sale. We also have 84 acres three miles N. E. of Cisco, in Eastland County, and considered by the geologist to bd as good for oil production as any of the big oil fields, and there are at present several wells being drilled near this land by the big oil companes and we expect to get big results from this land.

We are confining our operations strictly to the proven oil fields and not doing any wildcat prospecting, at the same time our holdings should make every stockholder in the company many times his investment. Our capital stock is \$300,000, but we have issued only 75,000 shares for sale at \$1.25 per share. The stock is

offered for the purpose of developing the holdings, we have, which are in the proven field, and all the money we get for stock sales goes to push the drilling to get oil.

The Imperial has a reserve in treasury stock of One Hundred Thousand Shares, after these 75,000 shares are sold, and guarantees to hold these shares in reserve if oil is found in the above two wells drilled, to be used as the share buyers shall say, either to be killed and the Dividend basis to be on \$200,000.00 instead of the above \$300,000.00 capitalization, or to be pro-rated among the share holders of the Imperial without cost to them, or used to build a Refinery with. If pro-rated among the shareholders of the Imperial the share holders will receive 33

 1.3 per cent more stock issued to them than they bought in the Company. If a Refinery is built, the share holders will receive 33
 1.3 per cent more stock issued to them than they bought in the Company. If a Refinery is built, the share holders will receive dividends from this as well as from the Oil in the Pipe Lines of the Imperial. Not a single company has ever lost any money in the Ranger oil field and there have been millions made. Money will make money if you will put it into the oil industry When all the world is asking for more oil, can you think of an investment that will bring surer and larger profits? E. H. Harriman said: "One good investment is worth the savings of a lifetime

Each shareholder shall participate in all wells drilled on any of the company's holdings, or any holdings the company may acquire.

Our derrick is now completed at Ranger and we expect to begin drilling operations as soon as we can place material on the ground, which the Wagner Supply Co., Ranger, say will be by the 15th of March or as soon as possible

We desire to inform the public that we are not selling in only one well, our holdings are sufficient for the oper-ation of 50 wells, and the shareholders of the Imperial shall participate in each and every well. The Imperial guarantees to set aside 75 per cent of all money received from each and every well into a dividend fund to be paid to the shareholders in dividends every 30 days, and also to set aside the balance, 25 per cent of all money from each and every well, less the actual running expenses of the company into a development fund for the purpose of drilling other wells on our holdings free of any cost to the shareholders.

Imperial Oil and Development Co.

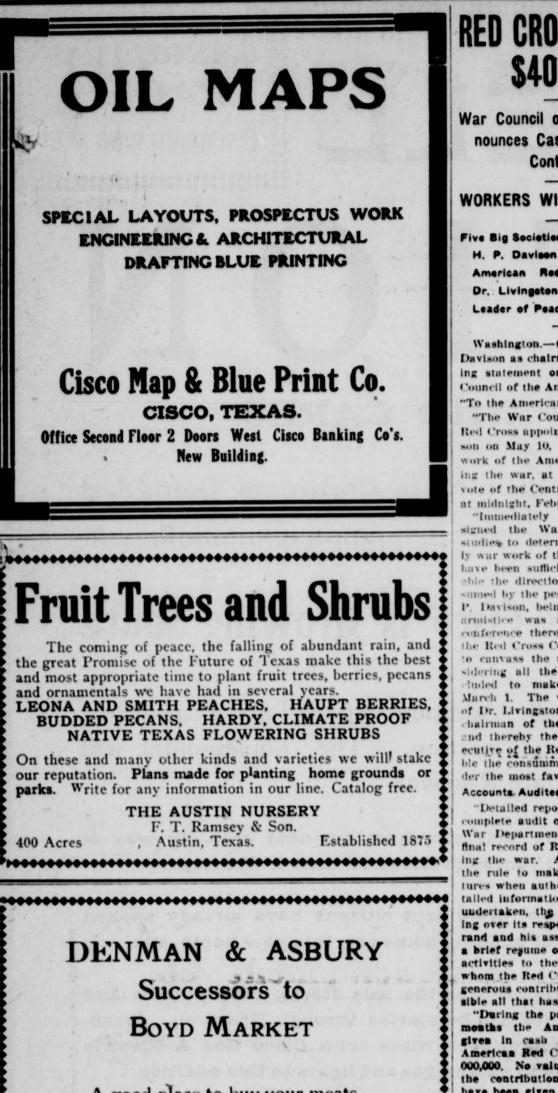

Box 296, Cisco, Texas.

for Enclosed find \$ understood that each shareholder of the Imperial shall participate in all the holdings of the company, and also receive dividends from each and every well owned by the company. That the stock of the Imperial is non-assessable and no demands can be made on any shareholder thereof.

Five Big Societies in World Wide Plan. H. P. Davison Heads International American Red Cross Commission. Dr. Livingston Farrand Permanent Leader of Peace Organization.

Washington .- (Special.) -Henry P. Davison as chairman issues the following statement on behalf of the War Council of the American Red Cross: "To the American People:

"The War Council of the American Red Cross appointed by President Wilson on May 10, 1917, to carry on the work of the American Red Cross during the war, at their request and by vote of the Central Committee, ceased at midnight, February 28.

"Immediately the armistice was signed the War Council instituted studies to determine when the strictly war work of the organization would have been sufficiently matured to enble the direction of affairs to be resumed by the permanent staff. Henry P. Davison, being in Paris when the irmistice was signed, summoned a conference there of the heads of all the Red Cross Commissions in Europe to canvass the situation. After considering all the factors it was conluded to make the transition on March 1. The very fortunate choice of Dr. Livingston Farrand as the new chairman of the Central Committee. and thereby the permanent chief executive of the Red Cross, makes possi-ble the consummation of this plan under the most favorable conditions.

Accounts Audited by War Department

"Detailed reports to Congress and a complete audit of its accounts by the War Department will constitute the final record of Red Cross activity during the war. Although it has been the rule to make public all expenditures when authorized and to give de tailed information relative to all work undertaken, the War Council in turning over its responsibilities to Dr. Farrand and his associates desire to give a brief resume of Red Cross war time activities to the American people, to whom the Red Cross belong, and whose generous contributions have made possible all that has been accomplished.

"During the past nearly twenty-one months the American people have given in cash and supplies to the American Red Cross more than \$400,-000,000. No value can be placed upon the contributions of service which have been given without stint and oftentimes at great sacrifice by millions of our people. "The effort of the American Red Cross in this war has constituted by far the largest voluntary gifts of money, of hand and heart, ever contributed purely for the relief of human suffering. Through the Red Cross the heart and spirit of the whole American people have been mobilized to take care of our own, to relieve the misery incident to the war, and also to reveal to the world the supreme ideals of our national life, "Everyone who has had any part in this war effort of the Red Cross is entitled to congratulate himself. No thanks from anyone could be equal in value to the self satisfaction everyone should feel for the part taken. Fully 8,000,000 American women have exerted themselves in Red Cross serv-Has Over 17,000,000 Adult Members. "When we entered the war the American Red Cross had about 500.000 members. Today, as the result of the recent Christmas membership Roll Call, there are upwards of 17,000,000 full paid members outside of the mempers of the junior Red Cross, numbering perhaps 9,000,000 school children additional "The chief effort of the Red Cross during the war has been to care for our men in service and to aid our army and navy wherever the Red may be called on to assist. As to this phase of the work Surgeon General Ireland of the U. S. Army recently said: "The Red Cross has been an enterprise as vast as the war itself. From the beginning it has done those things which the Army Medical Corps vanted done, but could not do itself.' "The Red Cross endeavor in France has naturally been upon an exceptionlarge scale where service has been rendered to the American Army and to the French Army and the French people as well, the latter particularly during the trying period when the Allied World was waiting for the American Army to arise in force and power. Hospital emergency service for our army in France has greatly diminished, but the Red Cross is still being called upon for service upon a large scale in the great base hospitals, where thousands of American sick and wounded are still receiving attention. At these hospitals the Red Cross supplies huts and facilities for the amusement and recreation of the men as they become convalescent. Our Army of Occupation in Germany was followed with Medical units prepared to render the same emergency ald and supply service which was the primary business of the Red Cross during nostilities. The Army Canteen service along the lines of travel has

actually increased since the armistice. "As for work among the French people, now that hostilities have ceased. the French themselves naturally prefer as far as possible to provide for their own. It has accordingly been determined that the guiding principle of **Red Cross policy in France henceforth** shall be to have punctilious regard to its every responsibility, but to direct its efforts primarily to assisting French relief societies. The liberated and devastated regions of France have been divided by the government into small districts, each officially assigned to a designated French relief organization "The American Red Cross work m France was initiated by a commission of eighteen men who landed on French

THE CISCO ROUND-UP

shores June 13, 1917. Since then some 9,000 persons have been upon the rolls in France, of whom 7,000 were actively engaged when the armistice was signed. An indication of the present scale of the work will be obtained from the fact that the services of 6,000 persons are still required. "Our American Expeditionary Force having largely evacuated England, the

activities of the Red Cross Commission there are naturally upon a diminishing scale period. Active operations are still in progress in Archangel and Siberia. "The work in Italy has been almost entirely on behalf of the civilian pop-

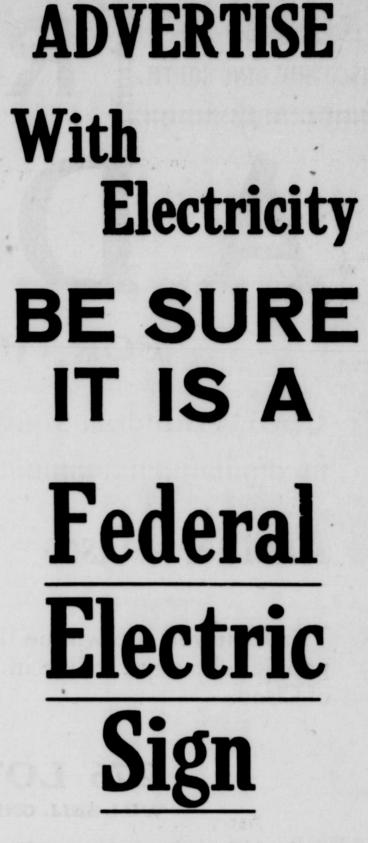

ulation of that country. In the critical hours of Italy's struggle the American people, through their Red Cross, sent a practical message of sympathy and relief, for which the government and people of Italy have never ceased to express their gratitude.

Supplies and Personnel to Near East.

"The occasion for such concentration of effort in Italy, England, Belgium and even in France having naturally and normally diminished, it has been possible to divert supplies and personnel in large measure to the aid of those people in the Near East who have hitherto been inaccessible to outside assistance, bu. whose sufferings have been upon an appalling scale. The needs of these peoples are so vast that government alone can meet them. but the American Red Cross is making an effort to relieve immediately the more acute distress.

"An extensive group of American workers has been dispatched to carry vitally needed supplies, and to work this winter in the various Balkan countries. In order to co-ordinate their activities, a Balkan commission has been established, with headquarters at Rome, Italy, from which point alone all the Balkan centers can be reached promptly.

"A commission has just reached Po. land with doctors and nurses, medical supplies, and food for sick children and invalids. An American Red Cross Commission has also been appointed to aid in relieving the suffering of Russian prisoners still confined in German prison camps.

Many of the live merchants of Cisco have already placed an order with us.

'An important commission is still working in Palestine. Through the war special co-operation has been given to the Armenian and Syrian Relief Commission, which was the only agency able to carry relief in the interior of Turkish dominions.

Red Cross Will Continue. "Red Cross effort is thus far flung. It will continue to be so. But the movement represented by this work has likewise assumed an intimate place in the daily life of our people at home. The army of workers which has been recruited and trained during the war must not be demobilized. All our experience in the war shows clearly that! there is an unlimited field for service of the kind which can be performed

with peculiar effectiveness by the Red Cross. What its future tasks may be it is yet impossible to forecast. We know that so long as there is an Amer-Ican army in the field the Red Cross will have a special function to perform. "Nothing could be of greater impor-tance to the American Red Cross than the plans just set in motion by the five great Red Cross societies of the world to develop a program of extended activities in the interest of humanity. The conception involves not alone efforts to relieve human suffering, but

to prevent it; not alone a movement

by the people of an individual nation, but an attempt to arouse all people to a sense of their responsibility for the welfare of their fellow beings throughout the world. It is a program both ideal and practical. Ideal in that its supreme aim is nothing less than ver-Itable "Peace on earth good will to men," and practical in that it seeks to take means and measures which are actually available and make them ef. fective in meeting without delay the crisis which is daily recurrent in the lives of all peoples. "For accomplishing its mission in

the years of peace which must lie ahead of us the Red Cross will require the ablest possible leadership, and must enjoy the continued support, sympathy, and participation in its work of the whole American people. It is particularly fortunate that such a man as Dr. Livingston Farrand should have been selected as the permanent head of the organization. The unstinted fashion in which all our people gave of themselves throughout the war is the best assurance that our Red Cross will continue to receive that co-operation which will make its work a source of pride and inspiration to every American."

Mr. Davison, as chairman of the International Commission of the American Red Cross, has undertaken to represent the American Red Cross in the preparation of the program for extended Red Cross activities, and will spend the next several months in Europe in consultation with other Red Cross societies for that purpose THE WAR COUNCIL OF THE AMER-

ICAN RED CROSS. Henry P. Davison, Chairman. is a FEDERAL, and speaks for itself.

CISCO BUILDING SOUTH

Rosewell Addition opens up a desirable residential section. The homebuilder will appreciate Rosewell.

Pavement will run from business area, by way of Avanue H, through Rosewell then to the loop.

Numbers of prominent citizens have already spoken for lots for building homes on this new home site.

Almost by the time the sale starts, water mains and sewer lines will be started through Rosowell. Arrangements have been made with Cisco Gas & Eleatric Company to extend gas and lights to this addition.

No lots on sale before or after the above stated time. The site is surveyed, showing the price. Only lots that are staked will be sold. Prospective buyers, who plan to build homes, by acting promptly may get choice corner lots. All lots will be sold for price marked on stakes and for cash only.

25 to 50 Percent Cheaper

Than you can buy lots in any other part of the city, simularily located.

Abstract with the opinion of reliable attorneys, will be at our office, enabling us to give deed with each lot, as soon as purchase is made.

CISCO BUILDING SOUTH

You can buy a lot within three blocks of the high school building. Six new homes will be built on this new addition this month.

There will be no refineries or factories in this part of Cisco, because it is to be the choicest resident section of the city.

Remember only 73 home sites are to be sold at this time beginning 8:00 a. m., March 17 and lasting until 8:00 p. m., March 31, 1919.

A Brief Statement About Hudson Leadership.

Automobile History That Motor car **Buyers Should Remember.**

Note these facts which prove Hudson Super-Six leadership. They are convincing reasons for its preference among all fine cars.

An exclusive type motor which so minimizes vebration that automobile endurance has been increased beyond previously known limits.

That was proven on the speedways, in hill climbing and in trans-continental touring. Official records accord the Hudson Super.Six first honor in nearly all worth-while events.

For three years the Hudson Super Six has led all fine cars in number of sales.

Its body types forecast the trend of motor car design. Note how cars at this year's auto shows reveal the influence of last year's Hudson. Look for the new square lines of present Hudson models to be the generally accepted standard of the cars next fall.

Then think of the service your neighbor has had from his Hudson Super-Six. You must know many who own Hudsons. More than 50.000 are in use.

And don't forget that thousands have been disappointed each spring because there were not enough Hudsons to meet the demand. Open car production is off while closed cars to meet present demnds is coming through. A few dealers have some open cars. Get one now, if you can, if that is the type you prefer. Otherwise you may have to wait longer than you want to.

Camp Coetquidan, France, 2-10

For several weeks I have been thinking of writing to the Round-Up. So I now take this opportunity and write a few lines. Since leaving Scranton on the 27th ed into us ell at an early age, side by side the doctrines and cat-echismes our especial religious sect. recognition of the Monroe doctrine like myself they have been experiences worth while.

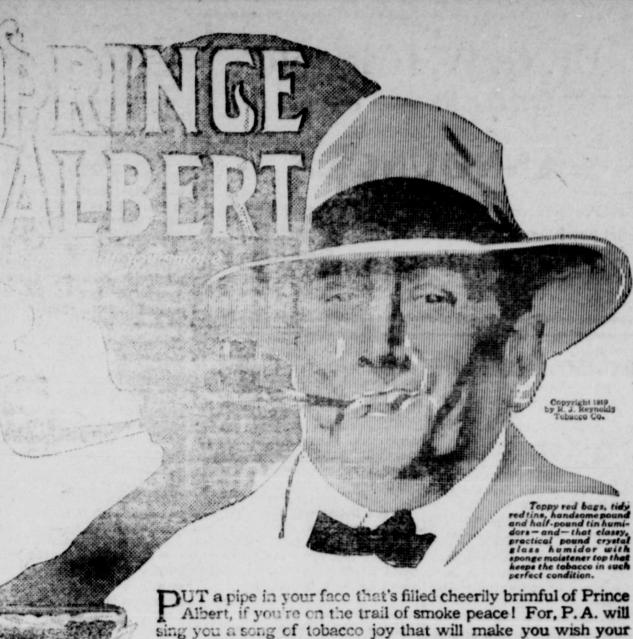

> The first twenty one days of my army life was spent in the Detention Camp, and Contact Ward of Camp Bowie, Texas. From there I was assigned to Battery E 131st Field Artillery. The F. A. is one of the best branches of service, and also one that perhaps cannot be ap: preciated by one out side of it.

The trip from Texas to the port of embargo was certainly a wonderful trip to me. Lots of fine beauti ful country with its acres of growing crops, corn, wheat, oats, clover etc. with its acres of apple orchards and vineyards. The scenery was very beautiful all along the way, and especially through Missouri and New York.

At Buffalo, N. Y. we stopped for rest and a bath. We only had the privilege of seeing the switch yards of the city, but they were great to a Texas boy like my-self.

Our stay at New York for rest and supplies was a pleasant one. Although the camp was not as convenient as we had been accustomed to, and was very dusty. But while there I had the opportunity of visiting in the City of New York. Seeing many things there that I have often heard so much about.

July 31st we set sail across the mighty "Atlantic" to parts unknown The trip was both pleasant and unpleasant to me. Most of the time unpleasant owing to the fact that I was sick most of the time. But regardless of that, it was a beautiful scene to stand on deck as the sun was setting in the west and see the

life job was to see how much of the national joy smoke you could get away with every twenty-four hours! You can "carry on" with Prince Albert through thick and thin.

You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclutive patented process that cuts out bite and parch-assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

R. J. Reynelds Tobacco Company, Winston-Salem, N. C.

glow of it in the evening sky as it ; reflected its beauty on the waters of the deep blue sea.

We sailed in the beautiful harbor of Brest on the morning of the 12 and here we landed in a strange country, also in a great country with a wonderful history, with a splendid record that the French people have cause to be proud of. Of course, after landing in the far away country of France, we formed an impresion of the people here. We would like to have gone back home, but as we already knew the noblest sacrifice that a peaceful country can demand of its citizens is that they go to war in the time of need. We must remember that during the year of 1776 we fought for the liberty of our own country, and now we are fighting for the freedom of the world. When we were fighting for our independence it was the French who gave us every sort of assistance It was French money that bought shoes for our soldiers. French ships which helped us at sea, and French troops which made possible our victory at Yorktown. France is a beautiful country, their farms here in this section of the country are but mere gardens to us, and are separated by dirt hedges most of them, and most of the hedges are covered with black-berry vines. The hills are covered with different trees such as pines, chesnuts etc. Most of the towns are small and are very old. The peasant class of people is now a poor class of people. The dress and costumes are quite different from our own. Most all of them wear wooden shoes. The vehicles are mostly two wheeled, and are drawn by one or two horses. We boys from America think they are a hundred years behind us. For five long months have we lingered here in this camp, and you may know that we are real enxious to get back to our homes. We love France, but we love America better. So we are waiting patiently for the time to come home when we shall ride the old ship back across the deep blue sea, to our homes which we all love so well.

The Cisco Planing Mill Co

Wishes to announce that they are now in operation, and are prepared to do all kinds of mili work, Cabinet and Fixtures.

Their Medicine Chest For 20 Years

T is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers-what was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

and Bowel Complaints. For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intes-tines, while others would act only on the lower or large intestines, and that they almost invariably produced a habit re-quiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimen-tary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I traly believe goes further

and does more than any laxative on the market today. The thousands of letters from users have convinced me I was right, and that the user of **Nature's Remody** as a family medicine, even though he may have used it for twenty-five years, never has to increase the dose.

My knowledge of medicine and t sults of its use in my own fami among my friends, before I ever off Nature's Remedy from the very first.

And now as I find myself nearing the a when I must bow to the inevitable and to another life, my greatest pleasure is sit each day and read the letters that ea mail brings from people as old than I, who tell of having user Remedy for ten, fifteen and twen

It is a consoling thought, man at my age to feel that his own success, one has done for his fellow man. My greate tion, my greatest happiness tod knowledge that tonight more million people will take a **Natur** (NR Tablet) and will be better, happier people for it. I hope be one of them.

And many other propositions in Cisco property.

We have many leases and royalties for sale in choice locations. Suppose you talk to us today.

Remember its too late when the well comes in.

CISCO LAND COMPANY H. E. Carter, Mgr. Phone No. 282,

The new Revenue law places the Income Tax duty on citizens and residents. The Internal Revenue Bureau is sending its men to work right with the public to get the tax and the returns in. With active co-operation, every tax due March 15 will be paid and every return required by law will be in the Revenue offices on time.

Exemptions Allowed.

A single person is allowed a personal exemption of \$1,000. If he is supporting in his household relatives who are dependent upon him, he may claim the status of the head of a family who has the same exemption as if married. A married person, who lives with wife or husband, is allowed a personal exemption of \$2,000. The head of a family is entitled to claim a similar personal exemption.

An additional exemption of \$200 is allowed for each person under eighteen or incapable of self support, who was dependent upon and received his chief support from the taxpaver.

A husband and wife living together are entitled to but one personal exarate returns, the exemption may be claimed by either or divided.

Accuracy Required.

Absolute accuracy is necessary in making up income figures. Any person who is working for wages should find out exactly how much he received during the whole year 1918. Fees, bank interest, bond interest, dividends, rents received, and all other items must be reported correctly. Mere guesses are not accepted, for they are unjust allke to the taxpaver and the Government, and defeat the proper administration of the law.

INCOME TAX IS TRULY POPULAR.

"The payment of Income taxes takes on a new significance * which should be understood by * ★ every citizen. The taxation sys- ★ tem of this country is truly pop- * * ular, of the people, by the peo- * ple and for the people. Every * citizen is liable to tax, and the * * amount of the tax is graduated * * according to the success and for-* tune attained by each individual * * in availing himself of the oppor- * * tunities created and preserved * * by our free institutions. The * * method and degree of the tax is * * determined by no favored class, * * but by the representatives of the * * people. The proceeds of the tax * * should be regarded as a national * * investment."-Daniel C. Roper, * Commissioner of Internal Reve # * nue.

We believe that in establishing ourselves in Cisco, we fill an actual need and contribute to the growth of Cisco into a real city. A business to live and prosper must render a distinct service in the interest of the community in which it exists. In soliciting your business we do so on the basis of service and quality, and submit our reasons for making this claim.

FIRST: We handle honest merchandise and materials, the best obtainable, which is a point of extreme importance in electrical work which remains installed for years without attention.

SECOND: We maintain a store with a stock sufficient that you can pick out fixtures and appliances to suit your taste and not be disappointed in getting what you pay as cheap or equal price for if selected from a catalogue or inferior stock.

THIRD: We can give sound advise as to the number of lights and outlets needed in every room, home or store building, and are competent to advise correctly on the most complicated electrical problems.

FOURTH: We follow conscientiously the safety rules of the Underwriters, giving a generous protection against fire.

FIFTH: We carry an ample stock of material so that the job is never delayed.

SIXTH: We employ careful and competent workmen who work efficiently.

SEVENTH: We guarantee our work and materials, and this guarantee is worth something.

EIGHTH: We have a place of business where we can be reached at all times and in case anything goes wrong or additional work is required on the job.

A PRETTY SENTIMENT

6.2

私

E

No matter how rough, how ragged or how sin-stained a man may become, he was once a little child; bosor of a loving mother, and the dimpled darling asleep in her tender of the mud. his head nestled on the soft, white acrifice of pain she made when life was ushered in cannot have been in vain. There is always somewhere in the recesses of his heart, a spark of manhood left that can be fanned into a flame. Some- Shaltzer, farmer ran across an old where, in the memory of the heart, copy of a weekly newspaper printed recollections of dead mother, still here in 1886. Chickens were 2 cts. faintly linger; and the benediction a pound against 32 cents a pound of her prayers and her holy adora- in Saycamore on the day the paper tion for the little miniature man, all was unearthed. Corn was 45 cents way, pure and pink and free from stain, a bushel and wheat was selling at has not been entirely forgotten, for the princely price of 63 cents a buit has kinship with Almighty God'shel. In the same issue the newshimself. If there were no derelicts, paper gave a half column of news upon the sea of life, no stumblers about one of the "local boys" who where the road is rought, no gaunt had become so famous that he was the amount now authorized. and hungry faces, no worn and going to Kansas where he was to weary bodies no souls depressed receive \$2 a day.

to spare which they have not, should EASTLAND JUDGE FAVORS BUILDING CONCRETE ROAD ACROSS COUNTY

terest, do our best to bring to pass the mother's hope, her sweet dream Eastland, Texas, March 8 .--- Eastas she crooned a lullaby over her land County is going to be lifted out

A concrete highway, costing \$100, 000, will be built from the eastern border to western border, if the 1836 SEEM LIKE MYTH plans just announced by County Judge R. L. Rust of Eastland prevail.

> Eastland County already has voted \$130,000 to improve the Fort Worth to El Paso Highway. This can be applied on the concrete high-

> The Texas and Pacific Coal and Oil Company has offered to buy at par \$180,000 worth of road bonds. This offer will be accepted by the County for \$130,000, the extent of

> Judge Rust proposes that the balance of the \$1000,000 be secured through donations. Both individuals and oil companies would be soli-

> Offers aplenty have already been ing up of transportation would recompense them for all the expense involved.

> Judge Rust proposed also to construct a hard-surface highway north and south in Eastland County touching the Stephens County fields on the north and the Comanche County fields on the south.

> However, no County funds are now available for this work and it will be necessary first to secure action by the Commissioners' Court and promise of aid from the oil companies before proceeding further with the plans.

GOOD ROADS.

FOUR AMENDMENTS

There will be four constitutional

amendments submitted to the people

in the special elections called for

May 24. There can be no others

submitted on that date by the pres-

ent legislature, because of the lim-

ied time for complying with the

law's requirements in the matter of

Governor Hobby has said that he

advertising.

The State Highway Commission voted last week to aid Eastland county in the construction of its roads to the amount of \$254,000.00 This, with the money we already have, should enable the Commissioners to give us miles and miles of first class roads. And in addition to this the people should vote additional bonds to add to these funds, which no doubt will be done.

C. S. Fowler, a member of the will call the Legislature in special State Highway Commission, was in session about June 17 to vitalize Cisco Tuesday in the interest of good the amendments which may be adroads in Eastland county, and has opted on May 24. The amendments visited other parts of the county. By are embraced in the following joint all means lets us begin on the con. resolutions:

The policy of the Ford Motor Company to sell its cars for the lowest possible

struction of these roads.

THE LUMBER BILL THAT SATISFIED WAS BOUGHT AT

House joint resolution No. 1: To make Texas dry by prohibiting the manufacture, sale, barter, exchange and transportation of intoxicating liquors

House joint resolution No. 18: Em powering the Legislature to enact laws permitting the State to lend money to heads of families to acquire and improve rural homes for farming and stock raising. It is the Governor's land for the landless platform.

Senate joint resolution No. 7. To permit women to vote in elections held in Texas. It is the equal suffrage amendment. It imposes the obligation of American citizenship to vote and requires women to otherwise be qualified electors.

Senate joint resolution No. 13: Increasing the salary of the Governor's from \$4,000 to \$10,000 each At this time there are several State officials who draw more salary than the chief executive of the State

Because of the increased business due to the oil boom a new District Court was provided for in Mr. Cox's bill, passed by the House today, and is located in Eastland County. The bill creates the Eighty-Eight Judicial District.

"GARDEN SASS"

The national war garden commission reports that \$525,000,000 worth of food was produced on back yard lots last year.

This means a reduction in the cost of food which the families cultivating these gardens would otherwise have purchased. Not only that, but the vegetables raised in these gardens came to the table fresher and of better quality than vegetables purchased at a market or store could possibly have done. Many people who made gardens last year because the government reguested it found pleasure enough in the garden work and profit en-

ough in the results to encourage them in keeping up the garden hab-We welcome the Back-yard Gar-

den as a permanent national institution.

MISSION STUDY CLASS

A most interesting hour was spent by the Mission Study Class of the Womans Missionary Society of the Methodist church Tuesday afternoon a tenement house district in a large American city was given by Mrs. R. M. Ryder, "Opportunities which the Italian immigrant faces in America" were given by Mrs. Umphrey Lee and Mrs. Bowman: "Disadvantage which the Italian immigrant faces in America," were told by Mrs. T. B. Webster: "Italian patriotic and religions societies in America," Mrs. Wm. Reagan; "Italian criminal societies Mafia and Comorra", Mrs. T. J. Dean. A discussion of the Burnett bill, was briefly given by the leader. The study period was closed with the reading of I Cor. 12 chapter, 12 and 13 verses and a prayer by the superintendent of Mission Study.

Chapter five in the Sons of Italy will be the next lesson, which will be held the second Tuesday in April. A short business session followed

the program, when the vice president announced the committees for the St. Patrick's Tea to be given Saturday, March 15 at the Daniels Hotel in the lunch room beginning at 2:30 p. m. Tea, coffee, sandwiches and home made candy will be on sale joyed and added to the success of lowed by three fairy children, lit- A liberal patronage will be appreciated .- Publicity Supt.

AN AFTERNOON PARTY.

DOTHAN WINS AGAIN.

A. Bint was in the Round-Up of fice Saturday and reported that Dothan basket ball teams had won a game from Putnam, both the boys and the girls. The game between the girls resulted in a score of 12 to 21, while the boys won by a score of 23 to 7. The Dothan team is winning quite a reputation.

W. W. EDDLEMAN PASSES AWAY THURSDAY

Yesterday morning at five o'clock W. W. Eddleman who had been ill for weeks died at the home of his sister, Mrs. N. W. Turner. The funeral services will be held this morning at the Presbyterian church. An appropriate abituary will appear in next meek's issue of this paper.

Woman's Duty to **Dress** Correctly

Woman's desire for attractive dress is not vanity; it is one of the highest instincts of her sex. Her mission is to please, and she owes it to her nature to make herself as attractive as possible.

Our Spring Dress Goods

Combine the two cardinal virtues of attractiveness and utility. In fabric they are all that can be desired for utility, while the color schemes and tonal effects are a delight to the eye.

Every woman in this community who wishes to look her "best" should see this superb line, at once, before the stock is broken.

Schuttler West Texas Oil Gear. It's The Up-keep That Makes The Cheap Wagon Expensive,

You take no chances when you buy Peter Schuttler Wagons because they are guaranteed quality wagons. Don't let a cheap price influence you. A cheaply built wagon gets mighty expensive before you have used it very long, and the "saving" you thought you was making is quickly lost.

Peter Schuttler Wagons are built for SERVICE. They are built STRONG. They are built so that they run LIGHT. Get one and you'll make money with it. We especially recommend the pipe-reach construction for strength.

MELVIN WELL SPRAYS OIL

Melvin No. 1 of the Beaver Valley Oil & Refining Co., on the townsite of Ranger, began spraying oil Tuesday night before the sand was entered. The well was drilled right geologieally, in other words, it was drilled at what was considered the proper point on the structure. Some experienced oil men outside the Company predict the well will make 500 barrels and better. We think its' a good well.

We have it from good source that the Empire Gas & Fuel Co. has a well near the bank of Red River in Jefferson County, Oklahoma. We haven't verified the information but believe it is true. What we do know is that we have a sand at 325 feet in our deep test on our block of nearly 12000 acres in Montague County. This block is just over the River from the Empire well. We are arranging to develop the shallow sand. It is high-grade oil and may produce up to 20 barrels.

Refinery Plans Approved

Members of our Board of Directors this week approved plans for our refinery at Cisco and inspected the company's other properties. They were enthusiastic over the prospects. Probably we don't need to say so, but there are no better gentlemen or more conservative business men than these directors. The refinery's a sure go. It will add much to the progress of Cisco. It means good dividends to our stockholders. By the way, if you don't know the possible net returns from a Refinery, ask us to show you a refinery experts figures.

We Don't Need Much Money

In fact, we may not need any money from stock if the Melvin well comes up to our expectations. Until it is proven, however, we shall continue the Refinery stock offer at \$1.25 a share. Every net dollar of this goes into the refinery. Our producing department will develop our leases. But the investor will draw dividends based on everything the company owns or ever will own.

If you contemplate taking some of this refinery issue, we advise that you don't delay a single day.

More Good News

The Texas & Pacific well on the Williams tract, which is an offset to our 25acre Hindman tract, a few miles northwest of Ranger, has oiled the derrick and shows for a big well. Just east of it is the big Whitson well. Producing wells and derricks are on all sides of the Hindman. We have made an

Consider the Possibilities

In addition to what has been said about particular tracts of our holdings, you are reminded that we have two forty-acre tracts near Cisco and near the Sun and Gulf wells. One of these may make us a huge fortune. You are

offset location to the T. & P. well.

If nothing else decides the prospective investor, possibilities of the Hindman

pert's figures.

reminded that we have 50 acres a few miles southeast of Burkburnett, away from the thick wells, in a region that should produce oil for several years. Near this fifty are producing wells. That tract, if good, is enought to make us big rich.

FINALLY MR. PROBABLE INVESTOR

We invite you to take stock in a well established oil producing Company, apioneer of the Ranger field; one that is honestly and conservatively conducted; one that has the prospects of becoming as big as the biggest independent producing Companies of Texas. Use the coupon below-

CITY PARK

Sub division of blocks No. 128 129-134-135 original townsite. This beautiful property lies on the high ground in the South part of the city. Every lot lies high, dry and level, overlooking the entire city. Now, right now is the time to invest in Cisco real estate.

The West Texas oil fields need a great city, and Cisco will supply that need. Cisco has not yet commenced to grow. There is nothing that can keep her from becoming a large.city. Cisco is on the eve of a most marvelous growth-a growth that is going to increase her real estate values greatly. You can buy real estate cheap today, but in six months it will be different. Prices will soon begin to go up by leaps and bounds and to the small investor real estate will be out of reach. What is possible today, will not be possible to-morrow.

Take advantage of this phenominal growth and now and buy real estate while you can buy it cheaply.

Get in now and participate in the great growth of Cisco. ... Real estate has . doubled thribled and quadrupled in value in Cisco during the past year. It will do the same again this year. NOW is the time to invest.

It is an accepted fact that all those who have bought lots in The OIL TOWNS, did not have long to wait to reap rich rewards on their investment.

The foundation of Cisco is a big and substantial one .-- OII .--.

Wherever large deposits of oil have been discovered, there a large city has been built, industry manufacturing and population have come rapidly-real estate values doubled and trebled, and prosperity has been continuous.

Fortunes have been made in every new oil city in the past. Its your chance NOWif you want it.

The population of Cisco will increase by leaps and bounds, and real estate values will naturally increase immensiey in values.

WINS HONORS

Owen D. Barker, son of Judge and Mrs. J. D. Barker won high honors in the State University. He is one of the debating squad for 1919, who will represent the State of Texas in debates with the Universities of other states. Among other states to be bated this year are Oblahoms and Wyoming. The Barkers are resident ritizens of Cisco, Their former home for many years that EMber County. Look what oil did for Tulsa, Muskogee, Ardmore, Bartlesville and Okmulgee.

The chances are that it will do the same for Cisco.

This is the greatest oil field in the world and some where in this oil section. there will probably be in the next ten years a city of from 50,000 to 100,000 population and at present it looks as if CISCO WOULD BE THAT CITY!

Cisco is the most talked of city in West Texas to-day and every where you go they are talking CISCO and her wonderful PROSPECTS.

Cisco is on the eve of a great growth and development that will rapidly enhance real estate values

No place in Texas is as prosperous or is attracting as much outside attention as CISCO.

The big oil companies are opening their offices here. The largest supply house are locating here. Three large oil well machine plants have selected Cisco for their plants. CISCO WILL BE THE CENTRAL DISTRIBUTING CITY FOR ALL THIS OIL SECTION.

You couldn't if you were to try, keep Cisco from becoming a large city; and you couldn't if you were to try keep from making money on Cisco real estate.

Cisco is growing daily; real estate is advancing rapidly in value. The investor can make no mistake in Cisco real estate.

The whole United States is beginning to "wake up" to the fact that this is the greatest field in America, and millions of dollars will be spent in this locality drilling oil wells. Don't you think this means prosperity for Cisco? Don't you think real estate values will double within one year? Don't you think today is the time to invest? Success lies always in the magic of TO-DAY. Don't be among the wailers of lost opportunities. . Do not procrastinate any longer-there will never be another opportunity in Cisco like this one today-not to-morrow, bat TO-DAY.

There is not a vacant house in Cisco to-day and at least 200 residences could be rented before completed.

A great era of development is just commencing in Cisco and now, right now, b the time to buy real estate. Never were Cisco's prospects as bright as they are to-day.

When a village changes into a town, every one makes money on real estate, but when a town changes into a city, as Cisco is doing to-day, is the time big mondy in made on real estate.

I challenge the world to produce a city with better prospects than Cisco.

Here are the natural environment for a vast industrial, manufacturing and commercial city in the center of the largest oil field in the world.

I want to go on record as saying that I consider Cisco the greatest city of on portunity in America to-day.

There is not even a remote possibility that Cisco will not become at an 'early date, the largest city in West Texas.

Will you buy real estate now, or wait one year and pay double prices?

Get in line before the procession starts. Don't be like the man who rides backward on the train, "never sees anything until after it has passed"

These are the cheapest lots in Cisco. No where else in the city can you purchas a good desirable, well located lot for \$150.

\$150.00 A LOT

One-Third cash, balance 8 and 6 months with 8 percent interest. Remember the date of the opening sale, Monday, March 24.
