

The Cisco Round-Up

CISCO BOASTS OF THE GOOD CLASS OF PEOPLE WHO ARE COMING HERE

The Conveniences in Cisco are Bringing Hundreds of People; They are Building Fine Homes and Handsome Business Houses

The Many New Enterprises Coming to Cisco Indicate Which Way the Wind is Blowing--Good Schools Churches and a Better Class of People are Making Cisco a Model Home Town

By G. FISK.

The Best People

Cisco citizens can conscientiously boast of the progress which has come to her during the past two years. She can boast of this because the population has been increased at such a rapid rate and by the very best people. It has never been the desire of the business men of Cisco to get people to come here just because they are men or women. It has been ever in the minds of our people to seek out the very best and to induce this class to come and make their homes with us. It is the slogan, and a good one, to make Cisco a real "Home town." To do this it requires to get the best people and people who not only control money but people who have a real purpose in life, men who desire to reach that point where their lives will help to build, will help to create a better feeling and a greater desire for men and women to help make a better world. The citizens of Cisco have realized that to do this they must first have the local conditions in such a condition that the surroundings will be pleasant and inviting to the better class of people. They have had this in mind. Take for instance the schools of our city. We have never been crowded because the board realized that if they did not keep the school ahead of the scholastics that many desirable people would be blocked and kept away from our city. The result has been that not only have our school facilities been adequate but the board is still looking ahead and in the election Tuesday bonds were voted to provide for the erection of another school building. This will be ready when school opens in September, so say the members of the board. Cisco has the best school in Central West Texas, and has plenty of room, and invites the people who have not been getting the best school to move to Cisco and share the best school in Texas with us. Parents who live in other towns where the educational sentiment is not what it should be had better get away from it, because the future of the child depends to a great extent on its public school advantages, and the father and mother who fail to take advantage of the good schools of the county are doing their children an injustice and will live to see the day when they will regret it.

Better Churches

The better class of people do not fail to realize and appreciate the fact that every town large or small is judged by the churches and the church people. If you fill a town with people who have no respect for the church, who have no regard for the Sabbath, and who tend to the lower morals, the time will soon come when such a town will not be a good "Home Town". Cisco has to offer the people the most consecrated people and the most loyal people to their churches of any town in Texas. There is a sentiment here that disapproves things that are not on a high moral plane. Some of the towns in this section of Texas are running their picture shows on Sunday, having Sunday base ball, selling goods on Sunday, in fact Sunday is little different from other days there. It is not so in Cisco. Go visit some of the other towns on Sunday and you may think that there is some life there, but it is only the stir of the riff raff, drifting class. The good substantial citizen realizes that Sunday is not for this kind of celebration, and every one knows that it is the honest, sober thinking citizen that is worth while any way. Cisco people are arranging to keep pace by having erected new and modern churches

where the better men and women will receive a hearty welcome. Cisco people both old and new are of the highest class. Come and join us.

Civic Improvements

Realizing that it is also necessary to have modern conveniences the citizens of Cisco are constantly at work with civic improvements. You may travel the state over and it is doubtful if the conveniences of any town can compare with those of our Cisco. In the first place the natural gas is the greatest thing, and this alone should bring hundreds of people of Cisco for the great labor that is saved to the housekeepers alone will amount to hundreds of dollars to every family every year, and no doubt saves many a doctor's bill for the women who are not very strong. Added to the gas the sewerage is the next most convenient thing, and there are few towns in this section that can have a sewer plant for it takes a large water supply to keep it in operation. Cisco has worlds of water which is another guarantee that your home here may be kept beautiful, that you may raise a garden if you like, and in fact these three things alone if properly presented to the people should make a city of Cisco. The gas, no ashes, no wood, no coal no starting of fires. Sewerage, no carrying out water, hot or cold as you like it. Plenty of water for any use, summer or winter. These things make a combination of great conveniences, and with the electric current makes it unnecessary for a housekeeper to leave the house for anything. It takes away the drudgery and makes the home happy and the surroundings pleasant. Then why not live in Cisco?

A Combination of Good Things

Cisco has more to offer the man who desires a pleasant and convenient city in which to live than does any city in Texas. If you should move to the larger cities where you get these things the taxes are sky high. Not only this but after you have moved there, as is the history of all large cities it is with difficulty that you get acquainted with your neighbor. You may live there a life time and know few people. Cisco has a low tax rate. We are now paying only 65 cents for city taxes, and 50 cents for school taxes. Go to some of the larger cities, where conveniences are not so good and the school no better and you will have to pay two and three times the taxes that now prevail in Cisco. The people in Cisco are ready to meet the stranger with a welcome and anxious to assist in both a social and business way. The good school, the modern churches, the natural gas, the sewerage, the water, and a big hearted people to greet you, then why not make Cisco your permanent home?

Cisco Building

The buildings now under construction and there are several hundred of them are real homes, and not shacks as are being erected by some of the other towns in this section. Cisco has an ordinance which forbids the erection of frame buildings in the business section of Cisco and this tends to make the people want to have nothing but first class buildings in this section. The results are that Cisco is getting better buildings for the business section than are the neighboring towns. Just here should be dropped a hint to the people who own business property in Cisco. The old awnings on Avenue D are antiquated and out of date. Some few modern awnings but most of them should be torn away and other ones to take their place. The walks are being made first class, and if the awnings were made uni-

Picture of the new Model "C" Intertype which was installed in the Round-Up office this week. A Majority of the advertisements in this issue of the Round-Up were set on this machine.

form and of modern models, the appearance of main street would be greatly improved. Also some of the store fronts should be replaced with modern ones. All the new buildings have modern fronts and awnings, it is the old buildings that need repairing. Cisco is building rapidly and the people are having erected homes of which we feel very proud. We extend a welcome to others who desire to get connected with a real live city and a progressive people.

Prosperity Unbounded

All over the state of Texas the people have promise of big crops. The rains have been over the entire state during the winter and spring. In some parts—east and south Texas—there has been too much rain, in fact in most of the territory the people think that the crops would have been better if the rainfall had been less, and even in Eastland county. But we have had plenty and everything is looking fine. The stock is fat, the grain is almost as high as a man's head, the gardens, the berries in fact nothing has suffered this year from want of rain. This condition would make Eastland county prosperous, but that is not all, not half of it. The development of oil in this county and Stephens has brought the great amount of prosperity to this county and to Cisco. The farmer was the first class to get the money. Some of them held their lands until the leases went high, but a large per cent leased when leases were cheap, but every man who owns land in this section of Texas has had an opportunity to sell his royalty at good figures. This has put a great deal of money in the country. It has enabled many of the farmers to pay accounts that had been past due. The recent drouths put the farmers behind, and as a matter of fact this caused other people to get behind. The oil money caused great prosperity in this section even before the present conditions of the crops existed. The people who have come here to develop the oil fields have brought money with them. Large salaries are being paid the men who work in the oil fields and to those who are at work in the offices. The many enterprises being located here because of the prosperous condition of the

country, because of the development of the oil fields and because of the other prosperous conditions now prevailing is bringing many people to Cisco, and with them come lots of money, and men who are seeking fields of activity where money is being spent are coming to Cisco. It would take too much space to enumerate the many new enterprises recently located in Cisco. But suffice it to say that Cisco is a hustling little city where big deals are made every day, the people crowd the streets from early morning to late at night, and in most of the retail stores it is with difficulty that the crowds are handled. Such a wave of prosperity was never dreamed of by the people here. Money is plentiful and \$50 and \$100 bills are now more common than were \$5 and \$10 bills twelve months ago. The people of Cisco are getting accustomed to paying high prices, and the people are getting acquainted with a crowd of money makers, and they are not all new comers. Our home people have joined the busy crowds and some of them fit in just like they were made for the job. The prosperity which Cisco is now enjoying is unbounded, and the people who desire to make money should come look the city over.

School Bonds Voted

In the election Tuesday held for the purpose of voting \$35,000.00 for bonds for the purpose of erecting another school building not a single vote was cast against the bonds. When the voters are unanimously in favor of a proposition there is a feeling that no fear of the proposition losing and the result is that a small is cast, so it was in Tuesday's election. There were 129 men who were interested enough to vote and every vote polled was for the bonds. This evidently proves that Cisco is together on the school proposition, and this unanimous vote for the bonds give new life to the board and to all others interested in the school work in Cisco. The work on a new building for a ward school in east Cisco is to begin just as soon as the details can be arranged by the board, and we have members on this board who will give it their undivided attention.

Big Oil Company Locates Here

On Wednesday of this week the

trade was closed which was mentioned in the Round-Up last week, where Messrs. Judia, Oldham and Hartman sold 31 acres of land in the city limits for \$18,000.00. At that time the name of the purchaser was withheld, but as the trade was finally closed we can make the announcement. The Humble Oil and Refining Co. are the purchasers. Immediately the materials for the erection of large buildings will be shipped here, and it is estimated that this company will spend half million dollars on buildings alone. The handling of vast supplies of materials to be used in the fields where this company has its activities make it necessary for a large plant here. Large warehouses and residences for the families of the men who will be employed by this company will mean that great sums of money will be expended. Cisco extends a welcome to the Humble Company and the Round-Up calls the attention of the people to the fact that this is another straw proving which way the wind is blowing.

Two Other Companies Here

The Bavard Supply Co. will begin at once the erection of a ware house on the lots where the old compress used to stand. This will mean another great big enterprise for Cisco, and the straws are still blowing.

The Frick-Reid Supply Co. are now ready to let contracts for their large buildings to be constructed on their lots on the Katy railroad near the Liberty Refinery. Another straw.

Postoffice Building

Congressman Blanton has introduced a bill in Congress asking for an appropriation for \$45,000.00 for a Federal building and \$5,000.00 for a site on which to put the building. It is thought this bill has a good chance of passing, and the people of Cisco should feel under obligations to Congressman Blanton for his interest in the bill. It is thought that within less than a year that the work can be started on this building, if Congress makes the appropriation. Postmaster, R. A. St. John has been working for this building and for sufficient funds with which to hire help, and the result is that he has been allowed \$200.00 additional for this quarter.

About the New Railroad

Details connected with the new railroad have just about been worked out, and R. Q. Lee who has been the most active in the matter stated to a Round-Up reporter Tuesday that work was to begin on the grading of the roadbed within a short time. The matter was gone into fully and he states that the plan is now to build the road to Caddo. He explains it in this way, that definite plans to build the road to Breckenridge had failed to be worked out and that the money subscribed by the people at Caddo and the oil companies interested in that field would amount to more than the amount offered by the citizens of Breckenridge. Of course the road will be extended on north, but at the present time the Caddo oil field will be the destination at present. Mr. Lee states that getting the money to finance the project will be an easy matter, in fact he and his associates have the matter worked out. Mr. Lee further states that the delay of two months was caused by the Texas & Pacific promising its co-operation in the matter, but that failed. The details have been worked out now and the work is to begin at once. So the people may be assured that a new railroad from Cisco into the oil fields is assured.

Equalization Board

The equalization board for the school and city is planning to get the tax renditions equalized properly, and some members of the board have indicated that a fair valuation to put on Cisco property, real estate, would be 300 per cent over that of last year, or three times the price given on last year. This will put the valuation of Cisco property over \$6,000,000.00 and will supply both the school and city officials with sufficient funds with which to carry on improvements now necessary, the property is easily worth three times as much as it was on the basis of last year's taxes. By doing this the school and city will not suffer for improvements and then the funds will be prorated according to the property owned the only just and fair way and the people should not object to this, and it is believed that most of them will offer no objections. The real estate has become

very valuable and there is no reason why we should object to paying taxes in a city like Cisco where we receive big money from investments.

Will Vote On New Charter

On June the 23rd Cisco will vote on the adoption of a new charter, and if it carries will adopt a commission form of government. Cisco has been too long under the out-of-date kind of government. Cisco has passed from the small town to the class of the city, and if we are to keep up with the progressive world we must get out of the old way of doing things, get hold of the new things that come along. The world is making wonderful progress and the people should desire to keep the step, and the town that does not move along with the procession is losing and cannot compete with the other towns and cities. If the new charter is adopted three commissioners will be elected instead of a mayor and five aldermen, and they will be given a greater opportunity to push the public utilities and will be provided with sufficient salaries to enable them to devote all of their time to the duties of the office.

Theater Building

The building now being constructed by Judia and Lauderdale known as the Theatre Building will be the best and prettiest show building in this section of Texas. Mr. Judia takes a great pride in showing and explaining the plans of this building. It is three stories and is a double show building on the first floor and on the second floor will be offices while on the third floor will be used by an athletic club which has recently been organized in Cisco. The furniture and fixtures in this building are to be the most handsome and modern, most of which has been purchased by Mr. Judia. This will include the latest in machinery for the picture shows, the electrical instruments, etc. Mr. Judia has in mind the best to be had and when completed and furnished he says that he feels sure that Cisco will have just reasons to be proud of this show house and the services given them.

BRICK FACTORY FOR CISCO

E. D. Griffiths of Cleveland, Ohio, has been spending some time in the city in the interest of himself and other parties testing the clay in this section as to its quality for making brick. Quite a good deal of the clay has been sent to St. Louis where it was thoroughly tested and pressed and the samples returned to Mr. Griffiths and he was showing them to Cisco people Monday.

The report given him by experts was that the clay was one of the best in the world for making brick, so Mr. Griffiths at once decided that he would put in the kiln. It will be located on the Caldwell farm, two miles west of Cisco on the Texas & Pacific railroad. The plant when completed will have a capacity of 50,000 bricks per day and can be furnished, Mr. Griffiths says, \$4 per thousand brick cheaper than the brick now being used in the buildings and it is claimed that the Cisco brick will be a much better grade.

This is good news to the people in this section. It means another big enterprise for Cisco, and it also means that the people who want to build here can do so with a great deal less expense, and at the same time get better material.

Mr. Griffiths says that the making of these brick will be by the dry process which of course means that it will be at a great saving.

MEXICAN BABY INJURED

Saturday afternoon a little baby at the section house was run over by a train, its arm cut off and in other ways injured. The little fellow was playing on the track when the train came along and not being old enough to realize the danger did not move from the track. It will recover.

NOTICE!

On June 23rd, 1919 an election will be held for the purpose of voting on the adoption of the Charter submitted by the Commission of fifteen citizens elected February 24th, 1919, to frame such charter, and J. H. McDonald has been appointed to hold said election.

By order of the City Council, May 12th, 1919. J. M. WILLIAMSON, Mayor.

A GREAT PROSECUTOR

W. J. Cunningham is no longer district attorney of Eastland county, that is to say he will cease to be district attorney for this county after June 19th, when the law creating a district court for Eastland county becomes effective and will therefore appear no more in the district court in this county as district attorney. His home being in Abilene he will remain with the district now composed of Taylor, Callahan, Shackelford and Stephens counties.

W. J. Cunningham stands out conspicuously as one of the ablest district attorneys the state has ever had. It is doubtful if another prosecutor in the state has so great a record for successful prosecutions. Such was his record when he served the district several years ago and such has been his record from the time of his last election to the present. He is not a persecutor, either in the securing of indictments nor in the prosecution of cases. He is a fair man in all things; an able lawyer, an eloquent pleader, a tireless worker and a power with the jury. It is doubtful if there is another lawyer who can prosecute so strong and leave so little sting in the memory of the person prosecuted. If there is nothing in a case he doesn't fool with it, if there is he develops every phase of it. He takes no mean advantage and sees to it that no defendant or lawyer takes any such advantage of him. The county will lose a great asset as a prosecutor, one whose place would be hard to fill anywhere in the United States.

Mr. Green Hazel, county attorney automatically succeeds Mr. Cunningham as district attorney, the county and district attorney's office now becoming as one in this county. Mr. Hazel will necessarily have much more work on his hands than if he merely held either the office of county or district attorney. He must take care of all cases in the justice courts, the county court and the district court, which will necessitate at least two assistants, who have not as yet been named, but who will probably be named in time for mention elsewhere in this issue. Mr. Hazel is an excellent, highminded gentleman and an able lawyer, and it is certainly fortunate that he will succeed Mr. Cunningham. Through Mr. Hazel and the men whom he will select as assistants the cause of the state and the interest of society will be in every way properly safeguarded. In so far as the criminal court is concerned Eastland county is now on a par with Tarrant, Dallas, Bexar, McLennan, Harris and a few other of the biggest counties in the state. As a general thing people are too indifferent in the matter of electing a lieutenant governor and county attorneys, but in this case they selected perhaps the best man in the county for county attorney.

During the term of district court which closed Saturday, twenty-nine cases were disposed of. There were twenty convictions, five dismissals and four acquittals a remarkable record. But a fair showing of the work of Mr. Cunningham. The grand jury returned seventeen felony indictments.

CISCO LOSES GAME

Cisco loses to Scranton. Cisco lost to Scranton on the local diamond here Tuesday afternoon, the score reading 3 to 2. The score stood 2 to 0 until the sixth inning, when Wood, who began the game for the locals lost control and gave up two hits and a walk and on a fielders choice in the sixth netting 2 runs, Muns then relieved Wood with the bases full and nobody out and made a wild pitch, and what proved to be the winning run came in. The wild pitch seemed to make Muns mad and he proceeded to strike out the next three batters.

Batteries for Cisco: Wood, Muns, and Baucom.

Batteries for Scranton: Butler and Ray.

Cisco will play Eastland here Sunday on Britton Hill at 3 p. m.

HOW ABOUT SOME GOOD ROADS

We all believe Cisco is going to be the real oil town and that there are wonderful opportunities in Cisco, and she is rapidly becoming one of the richest cities in the west. But

gentlemen it's a shame that with all the wealth that Cisco and Eastland County possess that the county roads remain in such condition that they are impassable in a number of places after a light rain. Only today (Saturday) the roads being perfectly dry

places four and five miles out on the public road leading to Abilene were almost impassable have remained in bad condition so long without work. On a place four miles west from town it costs the driver of each car passing fifty cents to be allowed to drive across the fence on an individual's land in order to get by one mud hole. We don't blame the owner of this land in the least for charging the public for driving over his land he is not entitled to furnish a pass way for the general public, but lets make this suggestion, that the commissioner in that precinct, if he hasn't sufficient funds to work this road take a private subscription for funds to have this work done. If he will only make the statement in this paper that he desires subscriptions for this fund we believe that there are enough people even away from Cisco that would voluntarily subscribe to same to an amount sufficient at least to have some of the worst places in this road worked. Every person between Abilene and Cisco who travel over this road any at all we believe would gladly subscribe to this fund in an amount at least that he has to pay the man on the side of the road to get by.—A SUBSCRIBER.

Would you call the airplane voyage plane sailing?

Germany does not appear to consider the treaty a treat.

If Germany were in a position to fight anything she would probably fight the peace treaty.

The man for the job and the job for the man seems to be two difficult things to get in America just now.

No thank you, Mr. Trotsky! The world in general at present prefers spring green to revolutionary red.

Will the luxury tax on sodas and ice cream and chocolates oblige the young man to give up the crowning luxury of a best girl?

If Paderewski's cabinet disagrees, he will probably only have to play them a soothing nocturne to bring about harmony.

The world is now probably safe for democracy, but it remains to be seen how safe it may be for Bolshevism.

If members of the Sixty-Sixth congress realize all that the nation expects of them they are probably shaking in their shoes.

Almost the only things that have not gone up in price are thrift stamps and war savings stamps. Take note that they are still to be had at the same old figures.

The Tribune-Ford trial at Mount Clemens, Michigan, will probably make clear to the world just what are the mental processes or a conscientious objector.

Circumstances alter cases. When the naval airplanes had covered half the distance on their voyage to the Azores, it was all right for them to be half seas over. But it would have been wrong for the aviators to be so.

Wages have to go up because prices are higher, and then prices have to go up because labor involved costs more, and then wages—what are we getting anyhow? An endless chain?

President Wilson announces that under no circumstances will he accept a third term. Perhaps if it were styled a semester he might modify his objections.

We are informed that yeast has nutritive qualities and will be one of the foods of the future. In that case we trust that its price will not rise as fast as the yeast itself does.

We can name one trade at least which does not partake of labor's general unrest. The plumber is still willing to rest as long as anybody will allow him—at \$1 an hour.

The populace of Germany has long been accustomed to hearing the word "verboten". Now the peace conference has provided that her government and aristocracy shall hear it too. It will ring in their ears for a long time.

If you think making the Versailles peace treaty was a simple matter, just try your hand at composing some little neighborhood difference. You will come out of it with a new sense of the complications of peace.

The Prince of Wales has looped the loop over London in an airplane seven times. If after his accession his throne should suddenly be overturned he would know exactly how to deal with that dizzy sensation.

Mexico is very short-sighted. First she was unable to recognize the rights of American property-holders, and now she does not recognize the Monroe doctrine. Uncle Sam may have to furnish her with the spectacles of the U. S. Army and the U. S. Navy.

Be thankful that your income does not amount to \$1,000,000. If it did you would have to pay \$700,000 income tax. And you would probably worry so much about this that you could not enjoy the remaining \$300,000.

The Moran News came to our exchange table this week with Roy C. Griffin and E. C. Hendrix at the helm. These two young fellows are live wires and will give Moran a good paper if they get the proper support. Both these young men have been connected with the Round Up and they proved to be capable and full of energy.

As a rule the average person is too prone to resent a friendly criticism. It is human nature to resent rather than appreciate a suggestion. It is natural for the average man to be your friend so long as you see things as he sees them and you do not get in his way. The average business man is selfish, and although he has friends stretching over a period of a life time he will let some little differences lose to him the best friend that he has, and it is usually selfishness that prompts the differences. Befriend a man, time after time, do him kindness month in and month out, then let some little something come along that hinders his progress in a business or political way, then he is lost to friendship forever. No all men are not this way we are thankful to say but there are men. A man's selfishness ruins his life sometimes.

In the election last Saturday two of the amendments were lost and the Round-Up believes that the voters of Texas made mistakes by turning them down, however, the Round-Up editor is shedding no tears over the result. Texas people are controlled entirely too much by personal matters. No doubt there are thousands of voters who were against the amendment to increase the governor's salary because Hobby is now governor, and they of course were against him in his race last July. This is folly. Hobby is to serve only a short time and this will affect him very little, anyway. In the defeat of woman suffrage not so much personality was involved, but the Texas voters need some education along this line. There was a great deal of prejudice along this line. As a rule people can safely vote for all amendments, and the Round-Up does not believe that there have ever been an amendment presented to the people of Texas that was not a good one. The editor of this paper has voted against one or two in his life time, but later realized that it was a mistake, which no doubt thousands and thousands of voters will finally learn of the recent election. Texas voters, I believe, have made a mistake by not adopting the amendment voted on last Saturday.

If we compare life upon the farm now to what it was fifty years ago we shall find a wonderful increase in its conveniences and comfort to the farmer. Improvements in farming machinery have made the work somewhat less strenuous, and improved methods of farming enable better results to be produced with less effort. But the greatest amelioration in conditions comes from the rural free delivery, the telephone and the automobile. These have put an end to the farmer's isolation. He is now a member of the community and a prominent one. Whatever the weather conditions, news of the world comes to him regularly, and he is in immediate touch with neighbors and friends.

Willard SERVICE STATION

We test, repair and recharge storage batteries and always carry a full supply of battery parts, new batteries and rental batteries.
Your Battery's Different
 There is one part of your new car that is different from all the rest—your battery.
 For storage batteries are chemical—not mechanical.
 The time to begin taking care of that battery is the first day that you get your new car. If you do this, your battery will not only last longer, but it will give you better service as long as it is in use.
 So when you buy your new car, the very first thing to do is to come to us for full instructions. We will register your battery, and at the same time will be glad to give you a copy of the booklet, "Willard Service and You."

A Subtle Thing—Music

A subtle thing—music. It makes you sad—you cannot understand why; it brings laughter mingled with the tears, and yet you cannot explain its power over you. Unconsciously, inevitably, music sways at will the emotions of all who hear it. It is subtle—it is irresistible, and yet always its influence is for good.

All the subtleties of music, all the delicate gradations and nuances of the finest musical performances will exert their influence over you if you have in your home

The NEW EDISON

"The Phonograph with a Soul"

The Re-CREATED music of this, the world's most perfect musical instrument, is indistinguishable from the same music created by living performers.

Come into our store today and hear The New Edison.

Red Front Drug Store, Dealer

TOTE YOUR OWN

A certain party in the state of Massachusetts did what he should not have done, and was accordingly pinched. In court his guilt was proved and the judge fined him \$50. He tendered a Liberty Bond in payment and it was refused and its market value was about \$2.50 below face value. He was obliged, therefore, to add \$2.50, cash to the bond in payment of the fine.

The judge's position was right. Many people throughout the country who have Liberty bonds—and most of us have—are trying to get easy terms in discharging obligations by offering them as cash. And when creditors insist on receiving them at market and not at face value the debtors accuse them of insulting the good name of Uncle Sam, and impeaching his solvency.

There will always be imitation patriotism with a mercenary motive. We shall often see the stars and stripes used to cloak dishonesty. A Liberty bond of the 2nd and 3rd and 4th loans cannot be sold much above 95 per cent though as the bonds approach maturity they are sure to rise, and will, of course, be worth face value at maturity.

The plain, unemotional truth about a Liberty bond is this. Each purchaser, on buying, knew that in return for \$100 he was getting something which, as soon as he had got it, would be unsalable at more than \$95. Whatever patriotism was contained in the purchase was represented by that fact. It amounted to \$5 worth of patriotism. And the sacrifice was not great in comparison with the abnegation of those who waged their bodies for a principle in France.

Any man who has bought a \$100 Liberty bond has made a gift of \$5 to Uncle Sam. His \$100 would have produced 7 per cent instead of 4 per cent in solid securities at low denominations. But it is cheaper to give Uncle Sam \$5 than to pay tribute to Germany.

When a man has made a gift of \$5 \$10 or \$20 to Uncle Sam, let him stand the gaff—unless his need is great. Let him stick. Let him not whine to some one else to pay his \$5 for him—to receipt his bond at par. Let every man carry his own load. God hates a quitter.

THE SIDEWALK AND THE SLUM

The farms of the United States furnished two and a half million men to the army. Needless to say, they have not all come back.

According to a report issued by the state of Nebraska, 136,000 men will be needed by that state alone to help in harvesting the wheat crop.

The work of demobilization is very far advanced. A large proportion of the farm boys should be back on the farms. They are not. In the state of New York 19,000 men left farms to join the colors, and 3000 of them have gone back.

Many more have been freed from the army, but they have stayed in New York City. And that city reports graver conditions due to unemployment than any other city in the union. Conditions in Cleveland are bad enough, but they are worse in New York than anywhere.

Farm boys have decided to be city boys, and join the ranks of the unemployed. If they obtain employment, the expense of living in the city will leave them in the same position financially at the end of each month as if they had gone back to the farm. Wages may be higher in New York—at all events if you are a member of a union, which most farm boys are not—but that fact is discounted by the increased cost of living in the city.

But why should a farm boy want to be a union member in a city? He has more bosses there than he can count. His employer is one, his foreman is another, and each of half-a-dozen union officers is another. Even his pals are his bosses. He never knows if they are going to get him in wrong with his employer, or with the union officials.

On a farm he is closer to being his own boss than any city employee, and if he takes up land he can bring that desirable condition to realization—a dream which rarely comes true in the city. Also, he is the one man between the blue sky and the pit that Uncle Sam cannot do without.

WHENEVER TALK TURNS TO MOTORS

The New Light Weight (\$1395 Detroit) Car that Also has the Qualities of Performance, Comfort, Endurance and Elegance of large costly Automobiles.

You will hear about the Essex

From the start we purposely avoided making claims for the Essex. Our restraint was that of absolute confidence.

We knew it was certain to become popular, and that public favor would carry its fame further and with more effect than anything that could be written about it.

Therefore, we decided to let those who tried the Essex advertise it.

Today a rapidly multiplying army of friends is giving it the most powerful advertising known—disinterested but enthusiastic praise from living lips. From some one of them you probably already have heard about the Essex; enough to make you curious and eager to examine and ride in it.

It is interesting to hear the Essex discussed from the view-points of widely diverging types of people.

What the Users of Small Cars Has to Say.

For instance, the man who has always owned a small car. He is the most enthusiastic of Essex admirers. It gives him a new sensation of power and stability. He likes its complete, comfortable atmosphere. He does

not hesitate to drive it over cobbled streets or rough roads. Squeaks and rattles are not annoyingly present in the Essex. He is proud of the easy way it passes more costly and more powerful cars in traffic because of its acceleration. The big, roomy seats, the fine finish, the handsome appointments—all appeal to his pride of ownership.

Owners of Large Cars Admire Essex Economy.

You will hear other men compare the fine performance of the Essex with that of large, high-priced automobiles. Certain features of Essex performance remind them of such-and-such fine car. Other points recall the gratifying behavior of other costly machines. And all are delighted with the low operating and upkeep costs.

It is because the Essex appeals to this universal love of comfort, beauty, power and pride of ownership, and brings them within reasonable economy, that it has won more friends, perhaps, than any other car ever did within the same length of time.

You will find much to admire and desire in the Essex, too. When are you coming for your demonstration?

GERMANY'S PAY DAY

It is Pay-Day for Germany. It is to pay the greatest penalty ever paid in history for the wickedest crime recorded against civilization.

The desperation of Germany is disclosed by the tardy confessions of some of its leaders. Its purpose was to march through Belgium into Paris and end the war in ninety days. It failed utterly when Great Britain entered the contest. From that hour Germany knew that its fate was sealed. In its desperation it cast aside all laws of God and man and entered upon a ruthless campaign of destruction, hoping to drive its opponents into some kind of a settlement that might still save its face.

Germany from the start did not intend to be a fair fighter, but to gouge, kick, bite and strike foul blows whenever and wherever it could. Its desperation accounts for its bitterness over its defeat and its failure to show a sign of repentance. Fair play is not a part of its being. It is a foul fighter and very properly has been ruled out of the ring of nations until it is repentant and regenerated.

Marshal Foch knew Germany. It is too bad that he was not left to finish the job. In its extremity Germany was not a warrior, but a murderer, a robber, an assassin and a degenerate. When the United States came into the struggle, Germany saw defeat impending. It was as desperate as a rat cornered by a terrier. It knew that its end had come. This desperation accounts for the brutal murder of Edith Cavell, the driving of young women from their homes in Belgium and France into lives of unspeakable horror; the exile of old men and children from Belgium to work in the fields until they dropped in their tracks.

Germany's desperation accounts for the rapine and plunder and the ruthless destruction of industries in France and Belgium, with the dastardly purpose of crippling the industrial life of these countries, and to incapacitate men, women and children for any service. No such atrocities have ever been perpetrated before against the industrial life of any nation. In all the sanguinary history of barbaric warfare, nothing more inhuman has ever been recorded than Germany's conduct.

The sinking of the Lusitania, the widespread propaganda to destroy American industries to spread contagion in our camps and to draw Mexico and Japan into conflict with us, were all in pursuit of the remorseless policy of a defeated and criminal nation. It was a campaign of frightfulness, such as the world had never dreamed of before.

Now we are warned by the Hon. Francis P. Garvan, Allen Property Custodian, that Germany's ambitions are the same in peace as in war; that her methods are the same, that she will seek to destroy our competition "by State aid, cartel combination, dumping, full-line forcing bribery, theft, of patents or inventions, espionage and propaganda."

Mr. Garvan reminds us that while Germany has not expressed one word of regret or shame, "at this moment, "the four men best fitted to conduct a ruthless economic war upon this country, the four men who planned, instigated and paid for all the black history of lawlessness under which we suffered for two and a half years—Albert, Dernburg, Boy-Ed and Bernstorff—are the 'helmens of the present German Government.'"

This warning comes in due time. The war has taught us what Germany has been and what she still is.—Leslie's.

Free trip to picturesque San Antonio. Owner of a beautiful addition to San Antonio will give free, round trip ticket, including sight-seeing tours of city, to limited number of men and women in your community to acquaint them with the wonderful development now taking place and thus extensively advertise the resort, industrial and other highly attractive features of the addition. BIGGER DIVIDENDS THAN STOCK IN AN OIL GUSHER

The banker, the merchant, the lawyer, the physician, the teacher, the minister, the farmer all agree that every man should be better fitted for his sphere in life, were he possessed of a Good Business Education.

No doubt you have often realized the truthfulness of this statement; but perhaps circumstances will not permit you to attend a Business College.

You are ambitious. You feel, keenly, the need of better preparation, but the duties of life claim the larger portion of your time. Fortunately, however, there is an opportunity which is yours. Toby's Business College, Waco, Texas, has arranged special courses in Arithmetic, English, Penmanship, Bookkeeping, Shorthand and Typewriting to be taught by mail, and a moderate amount of money, together with a few spare hours a day, invested by you, will give you that knowledge which you so much desire.

A business man, Mr. W. T. Watley, of Rogers, Texas, who completed the course in Bookkeeping, last fall, wrote Mr. Edward Toby a short time ago, "I am getting along fine with my bookkeeping and, as bad as I need the money, I would not take \$1,000 for what I learned through your course by mail."

This gentleman invested \$36.00 in cash and the odds and ends of time which he could spare from his duties. Do you know of an investment in which the dividends are larger or more satisfactory?

Why not follow his example? Employ the time, which perhaps you are now wasting in acquiring knowledge which you know will prove so beneficial to you.

Write today for free catalogue.

CISCO SCHOOL CLOSURES

The Cisco Public Schools came to a close last Friday, and at night the seventh grade promotion exercises were held in the City Hall auditorium when the following program was rendered:

Song, patriotic selection—Audience.
Prayer—Dr. J. D. Leslie.
"Our School Life"—Bettie Mae Rominger, representative Class B.
Piano Duet—Marie Winston and Hazel Preston.
Reading—Pearl Barker.
Music—Ina Ray.
Reading—Bess Shelton.
"A Voice From A Far Country"—Revie Milling, Class A, representative Class Address—Rev. E. Buford Isaacks.
Presentation of certificates of promotion—Judge J. H. Bullock.
Class memories—Flora Mae Stockard

Members Of The Grade

Girls: Ruth McCannies, Pernecia Sparks, Bernice Key, Marie Winston, Ottie Pore, Joyce Myrick, Bess Shelton, Thelma Brown, Freda Mae Abbott, Hazel Preston, Lorena Murray, Edna Malone, Merle Pass, Iris Moore Conneye Huddleston, Revie Mae Milling, Marjory Carragher, Sallie Belle Penn.

Boys: James Ravenscraft, Howard Mitchell, Boyce Strickland, Barto Ramsey, Harrell Reagan, Eugene Smith, Francis Leslie, Marcos Hart, John Loving, Bert Waters, Elroy McCannies.

Class B.

Girls: Lizzie Pearl Barker, Etta Wilson, Lillie Mae Wisdom, Emmig Reeves, Edna Mae Westerfeldt, Bessie Lucile Key, Willie Hester Tune, Mary Grace Price, Leona Althea Dean, Mintora Mayhew, Lula Price, Ethyle Mahaney, Blanche Norvell, Frances Mitchel, Ina Ray, Minnie Eleanor Pettit, Flora Mae Stockard, Bettie Mae Rominger.

Boys: Earnest Wilson, Dudley Lee, Jonah Mack Lawrence, Porter Myrick, Wallace Johnson, Luther Foreman, Paul Daniels, Edward Lee, Buster Mobley, Phil Berry.

Sunday Morning

On Sunday morning at eleven o'clock Rev. Umphrey Lee, pastor of the Methodist church delivered the commencement sermon. The City Hall auditorium was crowded and the class had reserved seats, all the churches calling in their services for this hour. The sermon was delivered in an impressive manner and was splendid.

Tuesday Night

With Tuesday night's exercises the commencement closed. The address to the class was delivered by Dr. H. K. Dennis of the Rice Institute of Houston. This was good and was appreciated by the large crowd present. The program for this hour was as follows. Opening Prayer—Rev. E. Buford Isaacks.

Salutatory—Miss Mae Jensen.
Vocal Solo—Mrs. R. E. Doty.
Class History—Miss Jaunita St. John
Piano Solo—Miss Mae Jensen.
Class Phrophecy—Miss Grace Myrick.
Reading—Miss Lucile Brown, Valedictorian.
Vocal Solo—Mr. R. G. Baucom.
Class Address—Dr. H. K. Dennis.
Presentation of Diplomas—Supt. L. H. Denman.
Presentation of Scholarships and closing remarks—Dr. J. D. Leslie.

Class Roll

Lucile Brown, Valedictorian, Mae Jensen, Salutatorian, Grace Myrick, Third Honor, Nannie Hall, Gladys Stafford, Juanita St. John, Clyde Lewis, Truman McCord, Ruby Maxwell, Maurine Mancill, Theresa Weddington, Mary Hall.

Deferred Diplomas allowed by 1918 School Board:
Julia Lee, John Leslie, Sammie Mae Trigg.

COTTONWOOD CUES

We sure are having some pretty weather which is highly appreciated. The health of this community is fine at present.

Mrs. Edgar and children left Friday for Albany where she will visit her parents, Mr. and Mrs. C. R. Ball. Miss Emma Ball, who has been visiting in this community returned to her home in Albany Friday afternoon.

Mr. Wesley Boatman was shopping in Cisco Saturday.
Jonah Queenstone was in Cisco Saturday.

Miss Myrtle Boatman was sight seeing in Cisco Saturday.
Glenn Calloway was shopping in Cisco Saturday.

Miss Myrtle Boatman left Saturday for Pleasant Hill where she will visit Mr. and Mrs. Edgar Allen. Mutt and Jeff.

We offer the best and make prompt delivery. We try to please you, try us. Phone 14.—Stokes & Winston.

METHODIST CHURCH RAISES LARGE QUOTA

The Methodist Episcopal church, South, closed an eight day campaign last Sunday in which it was attempted to raise a sum of \$35,000,000.00 and the amount, it is thought will go over \$50,000,000.00. Texas did her part and raised more than the quota in each district and conference some of them doubling the quota. The local church here, with all credits is ahead the average church. The quota for the Cisco church was \$7,897.00. Counting credits, the church raised over \$12,000.00. The ten teams who had the work in charge for the church were handicapped because of the inclement weather but the results were very gratifying.

The campaign closed Sunday night when the final reports were received from the teams. At this service Rev. S. J. Vaughan, presiding elder of the Cisco district, reported for the district and gave the information that a good showing would be made. Rev. J. E. Crawford of Waco, missionary secretary of Central Texas Conference of which Cisco is a part reported for the conference and his report was that the amount raised would put the entire conference "over the top."

After these reports Judge J. E. Hickman of Dublin delivered an address speaking of the Centenary drive and the results that we may expect. Although the crowd was small, caused by the rain, Judge Hickman's talk was well received and appreciated by those present.

Cisco Methodists are proud of the manner in which a majority of the people responded to the call of the church, and because the local church was able to reach its quota.

Schlitz FAMO

A Builder of Health

Aside from the essential compounds necessary to life that are present in Schlitz Famo—protein and carbohydrates—the organic acids, aromatic compounds of the hop content and carbonic acid gas, exert a very beneficial action.

They have a specific antiseptic property to suppress the development of harmful bacteria that may be lodged in the intestinal tract.

They stimulate—refresh—and assist digestion by replacing to a certain extent the hydrochloric acid of the stomach—cause it to flow more freely—increasing the secretion of the digestive juices.

Drink Schlitz Famo freely—it is a worth-while cereal beverage, non-intoxicating, healthful and satisfying. Good and good for you.

On sale wherever soft drinks are sold. Order a case from

COMMENCEMENT AT THE COLLEGE OF INDUSTRIAL ARTS, MAY 31 TO JUNE 3, WHEN MORE THAN TWO HUNDRED GIRLS WILL RECEIVE COLLEGE CREDENTIALS. A PHENOMENAL RECORD ACHIEVED IN SIXTEEN YEARS BY THIS WONDERFUL STATE-SUPPORTED COLLEGE FOR TEXAS GIRLS.

Denton, Texas, May 29, 1919.—The College of Industrial Arts at Denton, Texas, the largest college for women in the United States, with the exception of two and an ideal place where Texas girls receive practical and cultural training that fit and qualify them for usefulness and for efficient service in all of the more important vocations open to women in this country, including especially that of homemaking, will close its sixteenth session June 3 at which time certificates, diplomas, and degrees will be awarded to more than two hundred of the most attractive, cultured and thoroughly trained young women of the State from an equal number of the best homes of Texas.

The College opened its first session in September 1903, and has grown just as rapidly as the Texas Legislature has provided facilities to accommodate the constantly increasing number of girls who have annually applied for admission. The attendance during last session reached 1919 (1260 girls during the regular session and 679 during the summer session) and when the record for the present academic year has been completed, August 31, 1919, a marked increase in the number of students over that of last session will be shown. The College gives that type of education that produces the most valuable results when applied to the every-day concerns of real life, and that at the same time gives mental discipline, social culture, and spiritual vision and outlook. Experience has demonstrated that the College of Industrial Arts is correct in its belief that a right combination of literary and industrial education stands the test and meets every demand of the present progressive civilization. A summary of the different kinds of work done by the College follows: 1. Literary; 2. Manual Arts; 3. Kindergarten; 4. Household Arts; 5. Homemaking; 6. Public School Music; 7. Reading or Expression; 8. Industry and Vocations; 9. Rural Arts and Science; 10. Fine and Applied Art; 11. Music—Piano, Voice, Violin; 12. Commercial Arts—Typewriting, Shorthand, Bookkeeping; 13. Teacher-Training in Vocation Home Economics; and for the satisfactory completion of the prescribed work of the several kinds the following college credentials are awarded and conferred:—1. Vocational Certificates; 2. Homemakers' Certificates; 3. Public School Music Certificates; 4. Teachers' Certificates; 5. Commercial Arts Certificates; 6. Degree of Bachelor of Arts; 7. Degree of Bachelor of Music; 8. Degree of Bachelor of Science; 9. Degree of Bachelor of Business Administration.

The College gives instruction and training in the literary subjects of high quality as may be obtained at any other college or university of the first rank, and also gives instruction and training in the technical, vocational and industrial subjects as effectively as those subjects are taught in any other college or university of the whole country. The Vocational Counselor of the College is prepared and ready at all times, to give students helpful advice and assistance in selecting their courses of study and in making preparation for the various vocations open to women in Texas and the Southwest.

All parts of Texas are represented by the student body of the College and all of the honorable professions and vocations of life are represented by the parents and the guardians of the students, the largest percentage of the students, however, are the daughters of farmers and ranchmen. The atmosphere of the College is distinctly moral, religious and democratic. Wholesome recreational activities are furnished by various college organizations, such as the Athletics Association, the Literary Clubs, the Glee Club and Orchestra and the Y. W. C. A. and various other student organizations that promote a truly democratic spirit and are educational and uplifting in their results.

The instructional buildings, the equipment of the laboratories, the convenience and comfort of the residential buildings and the other facilities of the College conform to the best standards, and make practicable the rendering of the safest the most efficient and the most satisfactory service. The best indorsement and strongest commendation of the College are the thousands of Texas girls who have received inspiration, education, and training at the College, and have gone out over Texas to bless the State and make it a better, safer place in which to love. According to announcement the next regular session of the College will open Tuesday, September 18, at which time it is probable that some 1500 Texas girls will matriculate in the College they love because of the opportunities it affords and the service it renders. Parents and friends who are interested in the College may obtain a catalogue by addressing President F. M. Bralley, College of Industrial Arts, Denton, Texas.

MRS. MOLLIE ST. JOHN WALLER

The subject of this sketch was born July the 17th, 1883. She came to Cisco with her parents, Mr and Mrs. ... some twenty years ago. Mrs. Waller was converted at the age of seventeen and united with the Baptist church. On June the 26th, 1907, she was married to Edwin Waller of Austin. After a spell of sickness covering a period of two weeks she passed away at her home in San Marcos, Texas, on May 22, 1919. She realized that she was soon to pass away and her last statement was that she did not fear or dread death.

Mrs. Waller was of an affectionate disposition, bright and winning in her ways, so that friendship's circle to her was a large one. Indeed, it may be said of her, that "none knew her but to love her". In Cisco she played as a child, developed into beautiful girlhood, here she married and in this dearest of all places to her, she lies down at length to sleep and rest. Beautifully appropriate such a resting place where her dear friends and loved ones may see her tomb and be constantly reminded that she has gone before, here she was laid away tenderly in the narrow house with its curtains of fadeless green.

To the deceased the struggle and burden bearing of earth are ended and we confidently believe that like one who awakes from a troubled dream she has awakened to see life's endless morning break and knows herself at home with all the vast throng of loved ones, missed from earth, safe about her. Her home instincts were strong here in this fevered world of disappointment. Her affection for friends and kindred was tender and abiding.

Gone from our sight! because life and love are stronger than death she is ours still. She is still the child of her fond parents, she is still the wife of a devoted husband, she is still the sister of loving sisters and brothers, and may she not by this very transition wield over them a stronger force for goodness and truth than before.

The funeral services were held at the home of her parents, Mr. and Mrs. R. A. St. John Saturday afternoon at 3 o'clock, conducted by Revs. Vaughan and Lee after which the remains were followed to the cemetery by a long procession of devoted friends. The floral offerings

were profuse. The relatives have the sympathy of hundreds of friends.

THE ELECTION

On last Saturday in the State election there were four amendments voted on, and it seems that two carried and two lost. The prohibition amendments seems to have carried by a small majority, and also the amendment to allow citizens to improve their homes or acquire homes seems to have carried by a good majority. The amendment to allow women to vote which seemed safe for several days has been finally lost by a good majority, as was the amendment to increase the salary of the governor from \$4,000 to \$10,000 per year.

The following vote in Cisco was recorded:

West Cisco:
For Prohibition, 133
Against prohibition, 62.
For Suffrage, 117
Against Suffrage, 71.
For Governor's salary, 105.
Against Governor's salary, 87.
For Home Amendment, 122.
Against Home Amendment, 66.

East Cisco:
For Prohibition, 36.
Against prohibition, 38.
For Suffrage, 37.
Against suffrage, 40.
For Governor's Salary, 19.
Against Governor's Salary, 53.
For Home Amendment, 33.
Against Home Amendment, 41

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes:
"From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . ."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

FOLKS are a heap like tobacco. Thar's hot-headed, bitey folks. Thar's flat, uninterestin' folks. An' then thar's folks like Velvet—mild, but hearty an' fren'ly, too.

Velvet Joe

Velvet

THE FRIENDLY TOBACCO

"Friendly" is a very good word to describe the positively pleasing quality that sets VELVET tobacco apart.

There is that indescribable something about VELVET that is associated in men's minds with the thought of a friend.

It is a satisfying smoke—never harsh; without a bite. Like a friend it "agrees" with you no matter how much you use it.

Long, patient ageing—in wooden hogsheads—does it. Friendship must ripen slowly. Good tobacco the same way. An army of men have learned this through VELVET.

Today is a good time to get a lot of comfort out of a pipeful of friendly VELVET.

Liggett & Myers Tobacco Co.

Roll a **VELVET** Cigarette
VELVET'S nature-aged mildness and smoothness make it just right for cigarettes.

DEPARTMENT

Office of

Comptroller of the Currency

Washington, D. C., May 20th, 1919
WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that

"THE AMERICAN NATIONAL BANK" of Cisco

in the City of Cisco, in the County of Eastland and State of Texas, has complied with all provisions of the Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of Banking.

NOW THEREFORE, I, John Shelton Williams, Comptroller of the Currency, do hereby certify that

"THE AMERICAN NATIONAL BANK" of Cisco

in the City of Cisco, in the County of Eastland and State of Texas, is authorized to commence the business of Banking as provided in Section Fifty one hundred and Sixty nine of the Revised Statutes of the United States.

IN TESTIMONY WHEREOF witness my hand and seal of office this 20th day of May, 1919.

JOHN SHELTON WILLIAMS,
Comptroller of the Currency

Quit Laxatives, Purges; Try NR

NR Tonight—Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary. Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so. NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best. Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist. RED FRONT DRUG STORE

WOMAN'S MISSIONARY SOCIETY

SOCIAL AND WORK MEETING
Mrs. J. W. Hartman was hostess for a most pleasant meeting of the Woman's Missionary Society of the Methodist church on Tuesday afternoon.

Bazaar work occupied the hour and during a short social while, ice cream and cake was served to those present by Mrs. Hartman's daughter and niece, Mrs. W. A. McCall and Mrs. Edwyne Hollingsworth. Victrola music was enjoyed at this time.

Two new members, were present and several visitors.

Next Tuesday the regular monthly business meeting will be held at the City Hall rest room and the president urges a full attendance of the members.

Mrs. R. R. Gracey had as guests last week for a short visit Mr. and Mrs. J. E. Curry and Mr. and Mrs. J. J. Hobson of Breckenridge, who were enroute to points in Tennessee their old home, which they had not visited for many years. Mrs. Curry is a sister and Mrs. Hobson, an aunt of Mrs. Gracey's.

MISS DOSSETT HOSTESS

On Thursday evening of last week Miss Opal Dossett entertained the young people of the Christian church at the home of her parents, Mr. and Mrs. Henry Dossett on West Broadway.

Music and games furnished pleasure and a refreshment course was served. At the close of the evening a Christian Endeavor organization was perfected with twenty-four members present.

MISSIONARY SOCIETY

The Woman's Missionary Society of the Christian church met with Mrs. A. H. Darnell on Tuesday on Tuesday afternoon with seventeen members present. A special feature was the excellent report of the state meeting held at Paris by the delegate, Mrs. J. B. Cate. Victrola music and piano numbers by Mrs. E. B. Isaacks were also enjoyed. An ice course was served while spent in social chat.

FIRST INDUSTRIAL ART CLUB

The final meeting for the club year of the First Industrial Art Club at the City Hall rest room Thursday was attended by a goodly number of the club members.

Roll call response were "Some Evils in our Community". A splendid paper on "Community Obligations of American Women" was given by Mrs. Moon.

During the business session all unfinished business was disposed of and records completed for the benefit of the incoming officers.

The club wishes to take this means of thanking Mr. Williams for past courtesies to the club for the benefit shown at the City Hall. A nice sum has been added to the club treasury by this means and will be applied to civic improvements.

Birthday Party For Lucile McCall

The subject of this sketch was born July 17th, 1883. She came to Cisco with her parents, Mr. and Mrs. B. W. Waller, some twenty years ago. Mrs. Waller was converted at the age of seventeen and united with the Baptist church. On June the 26th, 1907, she was married to Edwin Waller of Austin. After a spell of sickness covering a period of two weeks she passed away at her home in San Marcos, Texas, on May 22, 1919. She realized that she was soon to pass away and her last statement was that she did not fear or dread death.

Mrs. Waller was of an affectionate disposition, bright and winning in other ways, so that friendship's circle and visitors reports occupied the business session. The committee appointed to collect the fifty books to be sent to the soldiers overseas, reported that about twenty volumes had been donated and the remaining number would be given in time to ship the quota this week to the American Library Association for distribution. The committee on jellies for the canteen work at Ft. Worth, reported that the shipment would be sent this week, tho the call had not met with the response that had been anticipated by the committee. The officers reports were deferred until a later date, with the exception of the corresponding secretary, who gave a detailed report of her years work.

The program for the day was a continuation of the study of Japan and consisted of two very interesting and instructive papers, "Customs" by Mrs. le Veaux and "Religious Conditions" by Mrs. Butts. A called meeting of the club will be held Friday, June 6th to complete all unfinished business.

BRIDGE CLUB

Mrs. C. G. Gray was the charming hostess for the Wednesday Bridge club on Wednesday afternoon of last week at her lovely new home on Seventh Street, when club members and visitors were her guests.

There were three tables for the bridge players and after a series of games, a delicious salad and ice course was enjoyed.

Playing substitute hands were Mrs. W. E. Spencer, Mrs. Richard Hughes, Mrs. Truex of Graham and Miss Gee of Arkansas.

BIRTHDAY PARTY

Charles Morrison the young son of Mr. and Mrs. D. L. Morrison, invited a number of his playmates to help celebrated his eight birthday on last Saturday afternoon at the family home on Seventh Street.

Games, dear to childhood were played and ice cream cones and cookies were enjoyed.

Charles was the recipient of a number of nice gifts.

Present were Herbert Brandon, O. C. McDermott, J. L. Shae, Earl Mayhew, J. T. Stamps Jr., Carl Stockard, Walter Stockard, Ray McWhorter, Donald Morrison, Robert Morrison, Robert Morrison, Billy Morrison, Hazel Shae and the small host.

STUDIO RECITAL

The recital given at the High School Library on last Friday afternoon by Miss Lucille Brown, of Miss Gates, when she gave an interpretation of the well known drama, "Polly of the Circus", was a most enjoyable and delightful affair.

Misses Gates and Brown received the invited guests, Miss Ida Lee Shelton distributed the dainty programs, tied with blue and pink ribbons and Miss Mable Tucker gave lovely pink and white carnations.

The library was decorated with growing plants and tall vases of flowers, great bunches of Dorothy Perkins roses forming an artistic background for the green reed library suite. Miss Brown wore a pink organdie frock with clusters of narrow ruffles and blue ribbon bows and carried an arm bouquet of pink roses and ferns and never was prettier or more charming than on this occasion.

Miss Lucile not only completed the course in expression this term, but finished in the High School department, winning first honors.

Phonograph music was given before Miss Gates presented her pupil and at the close of the interesting program, an ice course in the pink and white colors was served by Misses Ada Lee, Ruth Williamson, Thelma Fairless and Thelma Brown to the fifty guests in attendance.

The program was as follows.

- Music.
- Act. I.—The Commotion caused by the little circus rider being left in the parsonage.
- Music.
- Act II.—"Entreat Me Not To Leave Thee."
- Act II, Scene II. "The Lord Do So To Me and More Also if Aught But Death Part Thee and Me."

T. & P. Coal and Oil Co. vs. W. Howard, et al, injunction.—Oil Belt News.

SHIP BY TRUCK BUREAU AIDS SHIPPERS, TRUCK OPERATORS

Firestone Organizes Suburban and Inter-City Trucking

"Motor Truck Express is getting so big that it has to be arranged in some sort of convenient form," said H. D. Fulwiler of Fulwiler Electric. "The ship by Truck schedule that 'The Ship by Truck' idea launched by Harvy S. Firestone has brought to the attention of business men the speed, economy and dependability of truck transportation. People knew about trucks, but they did not realize the universal scope of truck transportation."

"The number of inquiries for facts regarding truck lines has prompted the organization of the Firestone Ship by Truck Bureau which will benefit both shippers and motor truck express lines."

"The Ship by Truck schedule that is appearing in Texas newspapers is the beginning of this work."

"By publishing the various truck routes out of Texas cities and the motor truck companies, the shipping public is given definite knowledge of what motor truck shipment offers in the region hereabouts."

"The Firestone Ship by Truck Bureau offers to act as a clearing house for information for both shippers and truck operators without charge."

"At the Bureau the routes, schedules, tonnage capacity of trucks, rates, etc., are filed for the benefit of the shipping public."

"Our fund of information has already reached large proportions and is growing day by day."

"We hope that it will be used by shippers. We are at their service in aiding them to the best understanding and use of the new transportation principle, 'Ship by Truck'."

BABB'S

IS THERE AN OPPORTUNITY

For young men and women who learn the cotton business, there is great opportunity. In the South there are from twelve to fourteen million bales of cotton raised annually. Every bale has to be classed from one to four times, seldom by the same man twice. Until the last fifty years there have been on training schools in this line, consequently the supply of men and women for this work is limited. Again, there are being erected in this country, thousands of warehouses, and every warehouse requires two or three men to handle the cotton. Commission-er F. C. Weiner of the Market and warehouse department has appointed a Board of Examiners to examine applicants for license, as Public Cotton classifiers. The license will be issued to any one passing this examination and he or she will have the right to engage in the business of Public Cotton Classing at any place in the State of Texas and to charge for his or her services. These examinations are open to both men and women. Practically every town and village where cotton is sold will employ one or more licensed Cotton

Classifiers. The young man or woman trained in the cotton classing department of our school is in a much better position to accept one of these places than one who has learned by guess.

Every young man of the South should know the classification, preservation and handling of cotton. It is our leading product and will continue to be. Of the world's production, about sixteen million bales annually, Texas, Oklahoma, Mississippi, Alabama, Louisiana and Georgia supply eighty-five per cent of this total. More money is lost each year by the farmers on the market-
ing of this product than all other crops combined. The man raising it often knows nothing about marketing it, and is therefore wholly at the mercy of the man who is buying. The facts are we lose thousands of dollars each year for lack of trained men. Some buyers will grade your cotton strict low middle, and pay you accordingly, when in reality, your cotton is middling and you are entitled to the higher price, which is no small gain, you see the necessity of knowing how to grade your own cotton. In four weeks time, we can prepare you to

HOT WATER AS YOU WANT IT

Don't Waste Gas.

The **RUUD-HUMPHREY** Automatic Water Heater connects with your water line. No storage tank necessary.

Here's How It Operates

You open the faucet, which may be in any part of the house. The Ruud-Humphrey lights itself and heats the water as fast as you use it. Close the faucet and the Ruud-Humphrey shuts off the gas.

So it is, you have hot water instantly, night or day without keeping a supply on hand.
