

NEXT WEEK IS NAMED THRIFT MESSAGE WEEK

By Proclamation the Governor of Texas Sets Apart June 29 to July 6 to Deliver Messages on Thrift Throughout Texas.

In conformity with the United States government, Texas will inaugurate her thrift campaign, beginning next week, with "Thrift Message Week," and it is urged at every public gathering messages of thrift be delivered to the people. Governor Hobby has set apart for this purpose the week beginning June 29 and ending July 6. His proclamation follows:

"The Government of the United States is endeavoring to disseminate principles of Thrift among the people of this nation, that they may learn to avoid waste, save wisely, spend wisely and invest their savings safely and judiciously.

"The Government is offering the people of the United States the opportunity of making safe and judicious investments through the medium of Thrift Stamps and War Saving Stamps, that they may have money invested for any future emergencies or opportunities which may arise.

"It has been decided to designate the eight days from June 29th to

July 6th, A. D. 1919, inclusive, as "Thrift Message Week" in the Eleventh Federal District, during which time Thrift Messages will be delivered and the benefits accruing from a life of Thrift pointed out:

"The entire State of Texas is within the boundary lines of the Eleventh Federal District:

"Therefore I, W. P. Hobby, Governor of the State of Texas, do hereby officially proclaim the eight days from June 29th to July 6th, both inclusive, as Thrift Message Week, and do call upon the citizens of the State of Texas to join in its observance.

"I urge that Thrift Messages be delivered at all public gatherings held in the State of Texas during Thrift Message Week, that Thrift Message Parades be held on Independence Day, July 4th and that all bells in the State of Texas be rung and that all whistles in the State of Texas be blown at 10 o'clock each morning and at 4 o'clock each afternoon during Thrift Message Week and that the purposes and objects of the Government's Saving Campaign be given earnest attention by all citizens of the State of Texas.

"In testimony whereof, I have hereunto signed my name and caused the seal of the State to be hereon impressed, at the city of Austin, Texas, this the 13th day of June, A. D. 1919."

By the Governor:

W. P. HOBBY, Governor,
GEO. F. HOWARD, Secretary State.

This will be the first time since

the signing of the armistice that all of the bells and whistles will shrill out their clarion call at the same time. It will be the first time in years since the bells and whistles will all have jangled forth their noisy warnings at the same time twice a day.

The Governor of Texas, Louisiana, Oklahoma and New Mexico all realize that Thriftlessness is the arch enemy of the Southwest. Each time the bells and whistles burst forth into their angry clamor it will be a notice that the fight to make Thrift a household habit in the Southwest is on and that it will be fought to a victorious finish. The best weapons available for each man, woman and child to use in helping win this battle are Thrift and War Saving Stamps. They can be purchased at postoffices, banks and of authorized sales agents every where in the district. War Saving Stamps bear good interest, compounded every three months. They can be redeemed at the postoffice with accrued interest at any time on ten day's written notice.

Thrift Message Week, June 29th to July 6th.

New Manager at Eastland.

Chas. Parker, manager for the telephone Exchange here for the past three years, has been transferred to Eastland and installed as manager of the Exchange at that place. Mrs. Parker is managing the local exchange until a relief manager arrives and qualifies.—Jacksonboro News.

BLANTON AFTER FEDERAL GRAFT

Our Tom Goes After The Grafters in Resolutions Introduced Favoring Investigation of Those Holding Dual Positions.

"In passing my eleven resolutions of inquiry, eliciting names of all Government employes holding dual positions and drawing big salaries from corporations I clearly showed that such information through my proposed questionnaire could be procured at the nominal expense of \$150. It involving the mere printing of a one page questionnaire, already set in type, the departments having ample idle clerks to assemble the data.

"I named one chief drawing \$4,800 from the Government who, at the same time, during the same seven hours, was drawing \$3,500 from the American Chemical Society, which private corporation was housed with its corps of private employes in the Bureau of Mines, receiving from the Government free its rent, water, furniture, lights, electric fans and janitor service and that last year from its 13,500 members it took \$137,000 in fees going into the coffers of this private corporation and that thousands of such cases existed among the Government employes of Washington.

"I showed that such graft and corruption had existed here for fifty

years, that we Democrats had inherited this vicious system from the Republicans, who would never abolish it, and that unless we Democrats cleaned house and wiped out this disgraceful graft and corruption we could never again expect success in elections or hope to retain the people's confidence.

"I regretted being forced to use Republican votes to pass good, whole some Democratic measures, but I always use for good the instrumentalities which the Almighty places in my hands, and since I couldn't get enough Democrats to pass them, I was thankful for the Republican assistance. Democratic mistakes during the Sixty-Fifth Congress are responsible for the Republicans now having control of both the House and Senate. The record shows that on test votes, I passed my resolution by 106 to 55, 180 to 109, 185 to 89 and so on.

"When my reform is proposed a fight ensues. A congressman on arriving in Washington is sopped with patronage, big mileage, cedar chests oak boxes and other mouth-closers. Naturally some members tried to stop my proposed reform by mentioning patronage given me. During the Sixty-Fifth Congress Democrats allotted me two patronage positions, one a page and the other a postoffice clerk. My young son filled the page-ship. I appointed Guy R. Holcomb of Brownwood as postoffice clerk, which he held some months and then voluntarily resigned. I then appointed Halbert Kiefer of Anson, who voluntarily resigned a few

months before adjournment. The Washington postoffice was short 100 clerks. I let my young son work there until adjournment. Not since congress adjourned March 4 have I had my son on Government pay roll. I am against the patronage system, against mileage more than actual expense and have consistently voted and fought against all graft of every kind. Every Democrat here enjoyed patronage.

"By expending this little \$150, the information which I am going to obtain from my eleven resolutions, passed, if properly used by Congress, will save the people of this Government fully \$200,000,000.

"THOMAS L. BLANTON."

HOUSE RATIFIES WOMAN SUFFRAGE

Vote Tuesday was 96 to 21: Recent Repudiation by Voters Ignored When Constitutional Amendment was Overwhelmingly Defeated.

The house of representatives lost no time in ratifying the Susan B. Anthony amendment to the federal constitution providing for woman suffrage. The resolution came to a vote Tuesday and the lone 21 representatives who opposed the resolution were smothered by an avalanche of votes when the resolution was declared adopted by a vote of 96 to 21.

THE GORMAN HOME REFINERY

GORMAN, TEXAS

Capital Stock \$375,000.00

(ALL COMMON STOCK)

The Gorman Home Refinery

Is a business institution, founded by business men to be conducted on business lines for the benefit of the stockholders. This, in brief, summarizes the plans and intentions of the men behind the Gorman Home Refining Company. The wonderful wealth of Texas oil has penetrated every nook and corner of the nation and even beyond. Yet the state realizes less than one-third of the real value of this magnificent contribution of its natural resources to the commerce of the world when it permits the oil to be pumped beyond its borders for refining. The Gorman Home Refinery does not intend to refine all of the oil of Texas, but it does intend to refine 3,000 barrels daily. Moreover, the Gorman Home Refinery proposes to be in operation and doing its bit before many weeks have passed.

May 1st should see construction work under way. Sixty to ninety days later the plant should be in operation. Once this point is attained the dividends from its operation will go out to the stockholders in regular sequence.

CAN YOU AFFORD TO NEGLECT THIS OPPORTUNITY TO INVEST IN AN INSTITUTION THAT WILL MAKE YOU MONEY? WE THINK NOT.

THE FOLLOWING ARE THE OFFICERS OF
THE GORMAN HOME REFINERY.

The Following Are the Officers of the Gorman Home Refinery

J. F. NEILL, President. Mr. Neill is vice-president of the Continental State Bank of Gorman, a large land owner and a citizen of stability. His past business record is an open book.

J. M. THOMAS, Vice-President and General Manager. Mr. Thomas is from Wichita Falls, a man of keen judgment in business affairs and a past record in refinery organization excelled by none.

MR. I. R. C. UNDERWOOD, Treas. Mr. Underwood is general manager of the Higginbotham stores in Gorman, a man of sterling qualities, and a capable financier.

JAY F. SMITH, Sales Manager. The south has produced no keener business man than Mr. Smith. He comes from Fort Worth, and is among the solid citizens of his home community.

W. A. HICKEY, General Superintendent. Mr. Hickey has a record of 25 years of successful refinery operation to refer back to. He is from Tulsa, Okla., and has few equals in the practical end of refining.

F. S. PERRY, Secretary. A successful business man of Gorman. Mr. Perry is of the caliber that cannot fail but to inspire confidence.

S. F. HOLMES, Auditor. Mr. Holmes comes from Vernon, Texas, where he enjoys the confidence of the community. Nine years of banking experience peculiarly fits him for his present responsibilities.

Does Oil Refining Pay?

Oil Refineries pay big dividends. The Standard Oil Co., started on a capital of a few hundred dollars. Today this company is rated in millions. The shares are listed at over \$600.00, and can't be had at that. No refinery has ever failed to make big profits, except when they were unable to secure crude oil. In the Healdton field where only 11 to 12 per cent of gasoline is obtainable, the refineries have operated successfully, netting as high as 200 per cent profits.

The Gorman Home Refinery will have its own pipe line direct to the crude supply in the fields, thereby assuring a saving in freight from \$15,000 to \$20,000 per month, assuring this advantage over other refineries not so fortunately situated.

Your money lying idle brings you nothing. The Gorman Home Refinery offers you a safe investment, conservative management, and assured profits. Low capitalization, non-assessable stock and a bounteous supply of crude oil are ideal in combination and a sure winner. The crude oil of this field yields from 40 to 51 per cent of high grade gasoline, to say nothing of the valuable naphthas, kerosenes and fuels that follow.

This company has nothing to hide, nothing to apologize for. Its directorate speaks for itself, its location is ideal. Par value of the stock is now \$25.00. It will in all probability be greater before January 1st.

The small investor is protected in the Gorman Home Refinery. The holder of a single share is just as much on the inside as the man who has 10,000 shares. We want every man and woman in Cisco and the surrounding country with us. Get in on the ground floor.

One Good Investment is Worth a Life-time of Saving

Look over the personnel of our directorate. Study the matter from every angle, then ask yourself "can I afford to neglect this opportunity to provide an income for the future." The Gorman Home Refinery is a permanent institution that will be paying you dividends when the drilling rigs have gone from Texas.

**AVENUE OF TREES FORMS
FALLEN HEROES' MEMORIAL**

The planting of trees as memorials to soldiers who gave their lives in the war has been adopted in other countries as well as the United States where the plan is advocated by the Secretary of Agriculture.

The principal of the Ardlethan public school, New South Wales, has written to the Australian Forestry Journal that in August 1917, an avenue was laid out in the school playground and a tree was planted for each Ardlethan soldier, an oxidized copper plate being attached to each

tree with a record of the name, rank, and community of each man. At the entrance to the playground trees were planted for soldiers who had fallen; then came those in honor of former pupils of the school, and finally those for others who enlisted locally. In this way an avenue of 125 trees has been made to form a complete roll of honor which will stand for centuries. The ground was prepared by the school pupils, but the trees were planted by relatives or friends of the soldiers honored.

The Queensland correspondent of the Australasian recently recorded

the planting of 30,000 trees in Anzac Park at the expense of a public-spirited citizen, 16,000 of them being in memory of soldiers who had died in the war.

**FIRST GOVERNMENT REPORT
ON WOOL PRICES ISSUED**

The first Government wool market report was recently issued by the Bureau of Markets, United States Department of Agriculture. It covers quotations on bright domestic fleece wool in all grades, also territory, California and Texas wools. Prices, based on actual sales in Philadelphia and Boston, are quoted on grease wool, showing the range and estimated shrinkage.

Fine Delaine grease wool is selling at 63 to 68 cents; one-half blood staple territory, 52 to 63 cents; California choice, 12 months, 49 to 54 cents; and Texas fine 12 months, 33 to 48 cents.

Government wool auction sales on May 23 were well attended, with interest of dealers and manufacturers centered on fine wools, medium and low wools receiving slightly more attention than at previous sales.

Special cables to the Bureau of Markets state that the second series of Government colonial wool auctions at London show a rise of 5 per cent for finer grades, compared with closing value at April sales. Medium descriptions were unchanged, while coarser wools ruled slightly lower.

The detailed wool market price report and succeeding monthly or semi-monthly issues will be sent to anyone interested upon application to the Bureau of Markets, Department of Agriculture, Washington, D. C.

**A big new discovery
in cigarette blending**

The big thing about Chesterfields is their unique blend. The *Chesterfield blend* is an entirely new combination of tobaccos. It is a most important development in cigarette making.

As a result, Chesterfields deliver a new kind of cigarette enjoyment — just like a "bite" before bedtime when you're hungry — they SATISFY!

It took the finest selections of TURKISH and DOMESTIC tobaccos and no end of skill and patient experiment to get this blend right.

Was it worth it? Say — just smoke a Chesterfield fresh from the moisture-proof package. You'll say it was worth it, all right!

**BUSINESS MEN BELIEVE
AGENTS MEAN PROSPERITY**

Additional proof that the bankers and business men in Arkansas believe that county agricultural agents promote general prosperity is shown by a report made by a crop reporter of the United States Department of Agriculture working in that state. He reports that one of the banks, in Batesville, Independence County, has secured a supply of good seed corn through the assistance of the local county agent and has agreed to distribute it among the first 100 corn-club boys who apply for it. Enough corn to plant 1 acre will be given each of the 100 boys, provided they sign an agreement to enter the boy's corn club and carry out the rules of the organization. Every effort is being made by the business men of Independence County, the agricultural agent, and the corn club to retain the State championship won by this county last year.

That Batesville business men are also interested in home demonstration work is shown by the fact that recently the agricultural committee and advertising committee of the Batesville Chamber of Commerce purchased an automobile and turned it over to the county home demonstration agent, to be used in her work among the girls' canning clubs. This will promote the work of the girls' clubs of the county, and also is an evidence of the benefit of a wide-awake commercial club, which stands for the best development of all the county's interests.

WILL ENTERTAIN AMERICAN LEGION

Eastland County Soldiers of the World War Invited to Attend First Annual Convention of American Legion July 3, 4 and 5.

The first annual convention of the American Legion of the 17th district will be held at San Saba July 3, 4 and 5th, when the Wiley B. Murray post will be host to the soldiers of the world war. Eastland County soldiers are extended a cordial invitation to be present, through the following formal invitation which has been received by the Round-Up:

"The Wiley B. Murray Post, American Legion, the Mayor, the Chamber of Commerce of San Saba, Texas cordially invites ex-soldiers, sailors, and marines of the world war of your county, to be present at the first annual convention of the post of the American Legion of the 17th district, to be held at San Saba July 3, 4 and 5, 1919. Lieut. J. E. Hall, post commandant; A. B. Riley, Mayor, R. A. Britte, president chamber of Commerce.

NOTICE OF SALE OF ASSETS OF GULF WELL MACHINERY MANUFACTURING COMPANY:

Notice is hereby given that acting under an order of sale of the Referee, in Bankruptcy, for the Abilene Division, of the District Court of the United States, for the Northern District of Texas, I am offering for sale to the highest bidder for cash, the following assets belonging to the Gulf Well Machinery Mfg. Co., of Abilene, Texas, formerly of Houston, Texas, now in Bankruptcy. The property herein offered for sale is all located in Abilene, Taylor County, Texas, and is of the estimated value of about \$15,000.00 more or less. The property offered is as follows:

(1) All the machinery of the said Gulf Well Mch. Mfg. Co., which is located at Abilene, Texas, consisting of lathes, planers, cranes, milling machines, drilling machines, blowers, trucks, presses, hammers, and such other machinery as completes the equipment of a machine shop and foundry. Practically all of this machinery is dismantled, having been removed from the shop of the said Company in Houston, Texas where formerly located, and shipped to Abilene, Texas, for the purpose of installment in the new plant in Abilene, Texas, now in process of construction, and has not yet been installed in the new plant. All the machinery comprising this plant as it now exists, and located in Abilene, Texas, and located on the ground and tracks near the new plant, will be offered for sale as an entirety. The sale will be made free of all liens and encumbrances. (2) Will also offer for sale all of the loose lumber, building materials, etc., not yet incorporated in the new plant, as it stands on the ground, free from liens and encumbrances. (3) Will also offer for sale all of the office fixtures, desks, adding machine, safes, typewriters, etc., belonging to said company, located in Abilene, Texas, free of all liens and encumbrances. (4) Will also offer for sale the equity of the Bankruptcy estate in the incomplete building and plant now in process of construction which was being built for said company on Lot No. 3, Block 121, Abilene, Taylor County, Texas, and also the equity of said estate in the contract of sale for the real estate upon which the said plant is located. This property now stands ready to be completed, but is unfinished as a building. Bids will be received upon all of the above described property separately and all together at any time up to Saturday, June 28th, 1919, and the final offer of sale will be made at public sale open bidding at the office of the Referee in Bankruptcy, in the City of Abilene, Taylor County, Texas, at 10 o'clock a. m. on the 28th day of June, A. D. 1919, being Saturday morning, at which time the highest bid made and received at that time and up to that time will be reported to the Court for approval. The sale will be made for cash on day of sale, subject to approval and confirmation by the Court. Detailed inventory can be seen at the office of the Referee in Bankruptcy, Abilene, Texas. For further information see R. W. Haynie, Trustee, Abilene, Texas.

THIS CAR DESERVES THE SERVICE MEDAL

Says Soldier who Witnessed Detroit Motor Overcame Big Obstacles in France; Beauty Marred by Shrapnel but still on Job.

Compelling evidence of the warm admiration held for Dodge Brothers motor car by numbers of the American Expeditionary Forces, is contained in an endless succession of letters received by the Detroit manufacturers from uniformed men of every rank. More than 14,000 Dodge Brothers motor cars served with the American army and the following letter is typical of the comments of those who saw the car in action:

"While reading some New York papers recently I noticed that while other cars were praised highly (in their advertisements) for the good work done in overseas service, nothing was said of the Dodge Car.

"I have been over here on active service for a year and have been driving a Dodge Brothers Sedan for the last eight months. This little car has made 27,000 miles and has never been laid up for motor, transmission or any other car trouble. Its work during this time can not be praised too highly. In all the big battles of the Third Division, namely, Chateau-Thierry, St. Mihiel and Argonne, the little Dodge has never once failed to respond. In the last American campaign I have driven it up hills and through roads where other cars of higher price were forced to detour. I have been through roads with mud right to the hub caps and places where only tanks and artillery tractors could make their way."

"I am sure if decorations were given to motor vehicles on their good work performed in war service, the Dodges that are on duty with the A. E. F. would receive the lion's share. Although her beauties were marred many times by shrapnel holes she is still on the job with the Army on the Rhine. Have used only two sets of tires in all the 27,000 miles and the roads of northern France are very different from River side Drive. As for oil, I have used from the thinnest grade to the heaviest transmission oil and have never been troubled with loose bearings. I am sure that is a wonderful record for a car that is so low in price.

"Hoping this letter gives the Dodge Manufacturers a little satisfaction for the valuable work of their car in the A. E. F. I am respectfully,

PVT. FRED W. DONLON,
Hdqrs. 4th U. S. Inf., 3rd Division"
The letter was written March 8, 1919, in Germany.

NAT. ASSEMBLY VOTES TO SIGN PEACE TREATY

Vote Was 237 to 138; Expected Terms of Peace Will be Signed Today; Allies Will Sign and Affix Seals, Then Germans.

WEIMER—The National Assembly Sunday by a vote of 237 to 138 voted to sign the peace terms by the Allies.

Following the vote to sign the treaty, the Assembly took a vote of confidence in the Cabinet which resulted as follows: For 236, against 89, plank 68.

Italy Authorized to Sign.

PARIS—The Italian delegates in Paris have been authorized to sign the treaty on behalf of Italy. This announcement removed one question which it was feared might delay the signing.

The German note of acceptance, it is said, is couched in such language that it maintains the German position that the peace conditions are "a peace of violence."

Peace to Reign Today.

Paris, June 24.—Unofficially, Friday afternoon has been set for the ceremony of signing the peace treaty of the allied and associated powers on behalf of Germany.

While the German plenipotentiaries have not yet been announced, advices received from Weimar are to the effect that

they will arrive in Versailles Friday morning.

M. Clemenceau will open the ceremonies with a brief introduction. No speech is expected from the Germans. William Martin of the French Foreign office, as master of ceremonies, will then carry the treaty to President Wilson and the Premiers, who will sign at their seats.

After the treaty is brought back to the legislature table, the names of the other delegates will be called and they will advance and sign.

Allies First, Then Germans.

It is expected that the signing will require two hours. The seals of all the delegates will be affixed in advance; many of them are already in the hands of the Foreign office.

President Wilson is using the President's seal, which is an eagle, with the words, "Seal of the President of the United States."

Some of the seals supplied by the delegates are merely monograms, unadorned, in striking contrast to the elaborate coats of arms supplied by Premier Paderewski of Poland and other European officials. The French treaty experts regard the Chinese and Japanese seals as the most artistic. These are chiefly the names of the delegates in Oriental letters, and are adorned with flowers and quaint figures.

The expectation was that strictly personal seals would be used but, like President Wilson, M. Vandervelde, representing Belgium, is using an official seal—the Belgian coat of arms incir-

led by the words, "Minister of Justice."

The German delegates will sign after the Allies.

The order in which the Allied delegates will sign after the signatures of the Presidents and Premiers are attached, will be according to alphabetical order of the names of the countries they represent. When the signatures are completed the entente party will emerge on the terrace at the side of the palace, where all the great fountains will be playing in the gardens.

Herman Mueller, the new German Foreign Secretary, will head the German delegation to sign the peace treaty, la Liberté says.

Nearly 50 Years Waiting.

"We have waited forty-nine years for this moment," exclaimed Premier Clemenceau as he opened the dispatch announcing that Germany would sign the treaty, at the meeting of the council of three yesterday afternoon.

"For forty-nine years," he continued, "the mailed fist of the reitre (German trooper) who has governed Germany, has menaced the world. Whether the man's name was Bismark or William II, it was still the same reitre of the Middle Ages surrounded by soldiery and drunk with pride."

"Be careful, keep your powder dry. Be careful. Remind the world that it is living on a barrel of that powder."

"This reitre's dogma is that might is right, that a State's only obligation is its own interest, that treaties do not exist when

The Cabinet That Women Have Always Wanted

The first complete service cabinet ever designed! Big, commodious, convenient! Beautiful as a piece of parlor furniture.

Has the famous automatic lowering Flour Bin and 14 other long wanted features! 75 per cent of your kitchen work can be done at the porcelain work table of this "Mastercraft" model.

SELLERS KITCHEN CABINET

"The Partrician of the Kitchen"

Here is real time saving, food saving and kitchen joy. The "Mastercraft" Model Sellers is the champion of kitchen efficiency. Organizes your kitchen work like a modern business office. The most advanced type on the market. Years ahead of all the others. Saves every needless move—every wasted moment.

Has room for 300 to 400 articles—all conveniently arranged. Holds everything you need. No overflow for the pantry. Has the famous Automatic Lowering Flour Bin, the Automatic Base Shelf Extender, the patented ant-proof casters—clear white sanitary Porcelain Work Table—and a dozen other long wanted features. Come and see the "Mastercraft" model today. Let us show you how you can cut an hour from your daily kitchen work and have it for recreation.

they clash with the interest of a State, and get rich by any means. We know from witnesses who were at the side of William II, that when he learned of the Sarajevo tragedy, he who posed as a conspirator of the peace cried: "The hour has struck. Now we shall see what an army is."

YOUNG-CROSSLEY

L. M. Young and Miss Maud Crossley of this city were married Sunday evening at eight o'clock. The wedding was a quiet one. None of their friends being notified that such was to happen. They drove to the home of Justice of the Peace H. B. Horn, who spoke the ceremony that bound them together as man and wife. The announcement later caused quite a stir among their many friends.

Mr. Young came to Eastland about two years ago, or about the time the first development was begun in the oil fields. He has since been engaged in the oil business here. He is a native of Ohio, but spent some time in the fields of California and Kansas before coming to Eastland. Mr. Young has made many friends since coming here, and has won a reputation as a successful business man.

Miss Crossley is possibly the best and most favorably known young lady in Eastland county. She is at present Clerk of the County Court, which office she was elected to last year by a safe majority. So far she has made the county a very efficient officer and will continue to serve the people in this position. Miss Crossley has spent most of her life in Eastland and Eastland county. She is the daughter of M. V. Crossley of Carbon and the niece of our townsmen, Ross and Arthur Crossley. Several years ago Miss Crossley began business activities in Eastland and at different times has been connected with some of the leading business institutions of the town. During Garrett's term of office as Clerk she was engaged as his deputy which place she filled for two years. She entered the race to succeed him to the office and now as county clerk holds possibly the most responsible position within the gift of the people.—Eastland Chronicle.

DE LEON TO VOTE \$750,000.00 BONDS

On June 17 there was presented a petition signed by B. J. Pittman and 459 other enterprising citizens of the De Leon country praying for an election to vote the sum of \$750,000 worth of road bonds, the money to be used in the construction of macadamized, gravel and paved roads in the De Leon, Roberson Springs, Rucker and Downing territory. The commissioners have or-

dered election to be held on Wednesday, July 16, and there is no doubt but that the proposition will carry almost unanimously. Hurrah for the De Leon section! Now for a similar bond issue for Comanche, Sidney, Beattie, Duster and Sipe Springs, and this will give us the roads all over the northern part of Comanche county, which is what we call the sandy section. Give Comanche and De Leon a perfect system of good roads and they will both develop into splendid large cities regardless of whether they ever get an oil well closer than the Duke or Sipe Springs field.

RANGER OPPORTUNITIES-----

Business lot for rent or sale; a five year lease on lot in the heart of the business district, half block of postoffice. Lot 30x75 feet, best location for any business, especially for rooming house. Will rent lot for \$200 per month or will sell lease for bonus of \$1,000.00 then rental will be only \$120.00 per month. Would consider a building proposition in partnership frame or brick. Inquire 316 Walnut St., Ranger, or write L. Dansker, Box 74, Cisco Texas.

FEDERAL AID HIGHWAY ACT EXPLANATION

Benefits Must Come Through the Recommendation of the State Highway Department; Fifty-Fifty Basis; Only for Post Roads.

That Eastland county has not been a beneficiary of the Federal aid road act is no one's fault except the people of Eastland county. The federal government has appropriated money to help build roads in every county in every state in the Union. Many counties have already voted bonds and built splendid highways, even before the federal aid act was passed and many of these enterprising counties are building more roads and receiving aid from the government. In the meantime, Cisco's business is largely handicapped by reason of the fact that the roads in Eastland county are practically impassable.

There is hardly a day that the business interest is not losing money because it is impossible to get their merchandise to inland points, and the further reason that these goods cannot be transported except at enormous cost. With good roads out of Cisco motor trucks could transport these goods at greatly reduced rates, thus making Cisco one of the best wholesale markets in the oil district. Right now there is not a road leading out of Cisco that can be traveled with any degree of certainty or comfort. The truck man don't know whether he will be able to deliver his freight or not, on any kind of schedule. He may drop in a chuck hole, break his car and have to get another machine to deliver the freight.

Motor truck transportation is a fixture. No town refused to put up its money for another railroad to better the transportation facilities, why hesitate to vote bonds or put up your money to build highways? Perhaps the town would receive far greater benefits from improved highways than railroads.

Motor freight and passenger transportation is a feeder to any town. Trucks don't have to have steel rails and a long train of cars, but trucks can go where ever there is a decent highway, and in some places where they are not decent, thus becoming the commercial arteries of the towns from whence they go.

Explains Federal Aid
J. D. Fauntleroy, United States District Engineer, whose headquarters are at Ft. Worth, has prepared the following statement, explaining the provisions of the Federal Aid Road Act:

Under the terms of the act the Secretary of Agriculture is only authorized to co-operate with the several States through their respective Highway Departments in the improvement of rural post roads. All applications for Federal aid, therefore, must necessarily reach this department through the Highway Department of the State in which the proposed improvement is located, and the State Highway Department is the proper channel through which local officials or others interested in securing aid on a road should undertake to have the matter considered.

The initial selection of particular projects to be improved with Federal aid in the several States, is vested in the respective State Highway Departments. After the Highway Department has selected a road for improvement, it makes application to this department for the desired aid. The application is required to be in the form of a project statement which is transmitted through the district engineer of the Bureau of Public Roads. If the Secretary of Agriculture approved the project statement the State Highway Department is so notified.

The Federal statute provides "that the Secretary of Agriculture shall approve only such projects as may be substantial in character and the expenditure of funds hereby authorized shall be applied only to such projects." Projects must also meet the post road requirements of the statute, which defines the term "rural post roads" to mean "any public road, major portion of which is now used, or can be used, or forms a connecting link not to exceed ten miles in length of any road now or hereafter used for the transportation of the

CISCO PIONEER VISITING HERE FIRST TEACHER

Mrs. Sallie Greer-Reid, Cisco's First Teacher, Visits the Scenes of Early Days When Present Greatness of City Was Laid.

guards, to drown him in his bath. The next obstacle in the path of the ambitious Princess is the Queen, herefore, when Marian sends a ceremonial cup of wine to Herod upon his departure for Rome, Salome disons it and arouses the King's suspicion against his wife. He gives e wine to the Queen's maid, oami, who drinks it and drops dead.

Salome deceitfully intercedes for Marian and saves her for the moment from execution. But later she tells the Queen that Herod caused Prince David's murder and conspires with her to kill him. Herod is awakened from his sleep by a scream rom Salome to find his Queen trying o stab him, and Salome holding ack the dagger. Marian is immediately beheaded by order of heroyal husband.

With her path to the throne apparently cleared, Salome is alarmed by the denunciations of one John the Baptist, who bitterly rebukes the ins of Herod and his court. Moved by curiosity and by a desire to win the strange preacher to her side, she goes to meet him and attempts to reduce him with her wiles. She isorned for her effort.

Yet strangely attracted by the tern ascetic, she again visits him in prison, where Herod has thrown im for stirring up sedition among the people, and using every passionate appeal known to her sex, entreats him to love. When he again enounces her, she vows to have im destroyed.

On the same night a greet thr

MURDER CHARGE AGAINST J. VARIN WAS A FIZZLE

(Clifton, Arizona Copper Era.)
The charges preferred against Joe Varin, who was brought back from Cisco, Texas, for the murder of the Chinaman "Sharkey" last February, while he was on duty as cook in the Eastern Safe, resulted in a complete fizzle.

The accused man was held in the county jail for a period of sixteen days without a preliminary hearing, on a warrant from the county attorney's office, and was finally released on habeas corpus proceedings without any criminal complaint ever having been preferred against him in open court.

The warrant for the arrest of Joe Varin in Cisco was placed in the hands of Justice of the Peace Dave Anders, who went to Texas after the accused man. In order to avoid the trouble of extradition proceedings a representation was made to Varin that he was wanted in Greenlee county on a charge of uttering a worthless check. Before leaving Cisco, however, Varin was informed by an official of the law in Cisco that he was being taken back to Clifton on a charge of murdering a Chinaman and Varin states that, upon learning this, he made up his mind to come back and face his accusers.

It appears that the prosecution based their charges on a statement alleged to have been made by Erich Moder, a transfer driver in Clifton, which alleged statement was printed in the Copper Era last week.

Mr. Moder states that he never made any such statement to anyone and has sent to the Copper Era the following communication:

Editor Copper Era:—I beg to state in regard to the article published in the Copper Era of June 6th, pertaining to the arrest of Joe Varin, that I did not make the statements contained in that article. I did not see Varin and Shelton, or either of them engaged in making false statements from a woman's wig, and there was no proposition made to me

(Continued on Page 8.)

UNIVERSAL IS ALL RIGHT, SO SAYS LETTERS

Many Men Strongly Endorse Universal Joint Pipe; Mayor Williamson Receives Letters From Many Cities Using Universal Pipe.

In a recent story appearing in the Round-Up there was some criticism of the universal pipe, which was said to be of inferior quality. This criticism was made by the president of the Chamber of Commerce, and the same appeared in, the resume of the proceedings of that body when President Morris presided for the first time. Mr. Morris stated that his criticism was only for the interest of Cisco, to which it was his purpose to devote his best energies.

At a recent meeting of the City Council the matter was discussed, and Mayor Williamson instructed the city secretary to get in communication with cities which have used the universal, to the end that the public might learn the facts; stating that personally "he was convinced the pipe were alright."

The Round-Up has no interest in the matter other than the good of Cisco, and as promised, gladly gives space to both sides of the matter, and below we publish letters recently received by the Mayor and city secretary.

Central Foundry to Mayor.
Dallas, Texas, June 19-19.

"We have a letter from Mr. W. B. Statham, city secretary of Cisco, conveying your request that we furnish letters from Tulsa and Dallas regarding their experience with universal pipe.

"None of this pipe has ever been used in Dallas, but we are requesting the water commissioner to write you on this subject.

"Also we are requesting the water commissioner of Tulsa to write you regarding universal pipe, and no doubt you will hear from him by the latter part of the week.

"Of course you recognize this as propaganda started by our competitors. Possibly Mr. Morris does not know that he is being used in that manner, but such is the case."

THE CENTRAL FOUNDRY
By S. R. Edwards.

No Universal Pipe in Dallas.

"Dallas, Texas, June 19.—In regard to an article recently appearing in one of your local papers in which a statement is made concerning the unsatisfactory use of universal cast iron pipe in Dallas, I desire to state that there is not a foot of universal pipe in the streets of this city, and so far as we know the quality of universal pipe is as good as that of any other make of cast iron pipe.

"FRED APPEL,
"Water and Sewerage Commissioner"

A Voluntary Statement.

The following letter is voluntarily sent by J. V. Smith, who signs himself "ex-supt. Cisco Water Works," which is addressed to the mayor and city council:

"I see in the Cisco Round-Up that the universal pipe is being cursed and discussed, and as I am a well wisher for my old home town, will say that you did not make any mistake by selecting universal, as I put in something over three miles of 4, 6 and 8 inch of universal pipe in Hamlin, Jones County, in 1909, and some of it has been taken up out of Main street and laid in the alleys and it has stood the test.

"I gave it a 200 pound test with the stand pipe cut off, held 200 pounds for 25 minutes and did not burst or spring a joint in any of the line, but blew out a joint on a Bell & Spigot line."

Satisfactory in Oklahoma.

Writing to the Superintendent of water works at Miami, Okla., J. W. Bennett, superintendent of water department of Oklahoma City, says: "We have been requested to write you relative to our knowledge of universal pipe. We have used some 6 inch universal pipe, and have found it very satisfactory, and so far I have not heard of any dissatisfaction from those who have used it."

Tulsa Endorses Universal
L. H. Reece, superintendent of the

(Continued on Page 8.)

BETTER ROADS FEATURED THE C. OF C. MEET

Nearly Full Board Present; Chairman Lee of Railroad Committee, Reported Progress on Caddo Road; \$130,000 Unsold Bonds.

There was nearly a full board present at the meeting of the Chamber of Commerce Monday night, which convened at the mayor's offices, though the inclement weather promised only a small attendance at the beginning.

Chairman Lee of the railroad committee, who has been devoting most of his time on the Caddo road, reported progress being made on the line leading out to the oil fields. Little business was transacted other than discussing several matters of interest to Cisco. Upon motion of Mr. Williamson the chair appointed the banquet committee, consisting of Messrs. Wm. Reagan, J. O. Sue and C. B. Lancaster to take charge of the arrangements for the annual banquet.

At this juncture both President Morris and Lee announced they were compelled to leave the meeting, President Morris to go to Fort Worth, while Mr. Lee stated he was just from the road work, and came by the meeting before going to supper, the meeting informally adjourned.

Informal Division of Roads.

However there was an informal meeting later—or rather continuance. Several members and the secretary of the chamber remaining.

Mr. D. W. Dutton and Mr. J. V. Carroll, of the Cisco Truck & Transfer company, were present, representing the truck men of Cisco, and a general discussion of building better roads featured the informal meeting. Mr. Dutton stated that the truck men were doing all that was possible towards repairing the worst places in the Breckenridge road by hauling rock, breaking them and putting in the chuck holes. He stated if there could be placed a rock crusher at some point on the road that the trucks would haul the rock to the crusher free of charge, and haul it out again on the road. This could be done when the trucks were returning light after having discharged their freight.

\$130,000 Unsold Bonds.

While the fact was known to the older citizens, yet many were told something new when informed that there were \$130,000 unsold bonds safely molding somewhere in some bank's vault, issued in 1917, and which had never been sold, and which could have been utilized to great advantage in putting the roads in better shape. Just why these bonds were never sold was not apparent, however there was a disposition on the part of those present to learn the reason, and mandamus proceedings were discussed. No definite action was taken in the premises.

Those who seemed to be familiar with the voting and issuance of this block of bonds stated that it was stipulated that the amount derived from their sale should be equally distributed in work on the east and west road along its entire length. This being the conditions under which they were voted and issued, the speaker stated it was not thought the amount would be sufficient to do any material good, and the money would be wasted.

It was pointed out that the conditions, however, specified that there should be constructed concrete culverts over the drains in this highway, and this work alone, if done would be of lasting and material benefit.

A proposition was advanced to induce the powers that be to dispose of the bonds and segregate the amounts to the different districts participating in the bond election, and let Cisco spend her allotment on the roads in this district in the manner provided in the specifications. This idea was favorably received, but there being no attorney in the party, it was not decided that this could be done. Cases were cited where commissioners' courts had segregated road tax under the general provisions, and it was believed to be lawful in this instance.

But nothing beyond discussion was accomplished. This was some, as no road building is ever accom-

(Continued on page 8.)

C. OF C. BANQUET ON EVE OF JULY 3 COMING EVENT

Arrangements Now Being Perfected for Elaborate Affair; Fully Hundred Guests Be Present; Invitation Will Be Sent Neighbors.

EVENT MOTOR LAWS ARE NOW IN EFFECT

Several state laws of interest to motor car owners are now in effect, among the number are the automobile protective measure, which was published in full in last week's issue of the Round-Up, and the following regulating traffic, glaring headlights

"No time" has been lost by the committee, for Secretary Lancaster and Mr. Sue were on the job Tuesday morning, lining up matters, such as selecting the place of meeting, having the invitations printed, and other preliminary matters essential to the success of the annual banquet of the Cisco Chamber of Commerce.

At the meeting Monday a course menu was favored, though this may be changed before the final arrangements are complete.

Preparations are being made for at least 100 plates, and many from sister towns will be invited to partake of Cisco hospitality on this annual occasion, when a most palatable menu will be served in a manner befitting the occasion.

Mrs. Robert Mancill was hostess to the Bridge club on Wednesday of last week. The afternoon was pleasantly spent with games. The hostess served delicious chocolate and vanilla ice cream with devil's food and angel food cake.

OIL PILGRIMS FROM ARIZONA RETURN HOME

Messrs. Pringle and Juelg After Touring the Cisco Oil Field Have Reached Clifton; Carry Good News of Cisco to the Baby State.

R. H. Pringle and M. W. Juelg returned from the Texas Oil Fields Tuesday evening. These gentlemen report much activity in the scramble for the liquid gold. Millions and millions of dollars are being expended for material, labor and acreage, it being almost impossible to buy any acreage around the northwest part of the Burk Burnett field under \$25,000 per acre.

Wichita Falls, the center of the big boom, is one mad mass of struggling humanity. It is out of the question to get sleeping accommodations; as fast as one man gets up another is ready to take his place. You see people from every part of the globe looking for locations either in business or the oil game, and as Barnum said there is one born every minute and two ready to take them.

Freight congestion is so bad that you must have a permit for anything shipped to the oil fields. The tracks are crowded for miles with lumber and casing and other material that goes with the oil game.

The farmers are going to lose their wheat crop, being unable to secure help to harvest the crops. They are offering seven dollars a day, room and board, for eight hours, and there are hundreds and hundreds of men walking the streets of Wichita Falls doing nothing but grafting on the public.

Thirty thousand people are in and out of Fort Worth every day and this city has grown from a population of 100,000 to 200,000 within a year.

Building operations in Fort Worth, Dallas, Ranger, Wichita Falls, Eastland and Cisco are booming. The Prairie Oil and Gas Company paid \$126,000 for a corner lot in Eastland and will build a large office building immediately. Cisco has several five story buildings un-

CISCO HEROES RETURNING TO NATIVE HOMES

Three Popular Cisco Boys Welcomed Home; All Were Over Year in Overseas Service; Lieut. Scott Will Report to Superior Officer Now.

KNOCKED IN HEAD

Supposed Friend Decoyed W. C. Carter to Alley and After Administering Beating Divorces Him of Over \$1,400.00; Police Have Case

W. C. Carter, of Ranger, was knocked in the head with a pistol and robbed of fourteen hundred dollars on last Wednesday afternoon. He was taken to the Ranger Hospital, where at last reports he was resting well.

It came to our notice during the present week that one of the Cisco boys had returned, all shot to pieces and literally covered with decorations for valor, yet the most diligent inquiry has failed to reveal his name. There is an interesting story in that hero, but up to the present his name is obscured, so far as the Round Up is concerned.

J. W. Wilson Reaches Home.

Perhaps the happiest woman in Cisco is Mrs. J. W. Wilson, mother of Corporal J. W., who reached home Tuesday night. The daylight saving law was inoperative in the Wilson household on the night of J. W.'s return and the morning thereafter. No one sought his couch till the wee sma' hours of the morning, and the rising of the sun, nor the daylight saving were observed as to the hour of arising the next day. It was a love feast in that household, and the happy mother was simply overjoyed on account of the return of her son to his home, after a year's service overseas, sound in body and mind, and without a wound.

But that is no reason why J. W. has not been through the mill. His splendid constitution and wonderful physique, with the manual training of the army life, has made him fit as a fiddle.

He was discharged from Camp Bowie last Tuesday, and immediately proceeded home where loved ones gave him the warmest welcome he ever received. Besides his splendid physical condition J. W. comes back with two service stars for having participated in two major offensives, having seen service where fiercest fighting reigned, though he was not in the trenches, being attached to the supply department, which at times was about as perilous as the front.

J. W. was a member of Co. E., 315th Supply Train. He was inducted into the service October 8, 1917, and entrained for Camp Travis, where he was made a soldier. He sailed for France June 1918, being in overseas service for one year. (Continued on Page 8.)

der way. Fort Worth has four new bank buildings and a \$2,000,000 hotel under construction. Cisco and Eastland are paving and laying sewer and water pipes. A thirty-mile railroad is under construction from Eastland to Breckenridge. The only thing that is not receiving any attention in the way of public improvements is the roads, and until this obstacle is remedied, improvements will be retarded.

Boost for Greenlee.

The good roads for Greenlee county are becoming well advertised. While enroute to Fort Worth four gentlemen were discussing good roads in Texas, New Mexico and Arizona and one of the party spoke up and said: "Boys, if you want to see some good roads take a trip to Greenlee county, Arizona, and you will have the pleasure of riding over the best dirt roads in the great Southwest, and, furthermore, they are kept in first-class condition."

Mr. R. H. Pringle, who was one of the local investors in WWestern Star, confirmed the report that the first well drilled by the company encountered salt water instead of oil at a depth of 1650 feet. Two more wells are to be sunk immediately and are kept in first class condition."—Clifton, Ariz., Copper Era.

TREASURY DEPARTMENT

Office of
Comptroller of the Currency

Washington, D. C., May 20th, 1919
WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that

"THE AMERICAN NATIONAL BANK"
of Cisco

in the City of Cisco, in the County of Eastland and State of Texas, has complied with all provisions of the Statutes of the

United States, passed in advance; many of them are already in the hands of the

Foreign office.

PARIS—The Italian delegates in Paris have been authorized to sign the treaty on behalf of Italy. This announcement removed one question which it was feared might delay the signing.

The German note of acceptance, it is said, is couched in such language that it maintains the German position that the

conditions are to be accepted as provided in Section Fifty one hundred and Sixty nine of the Revised Statutes of the United States.

IN TESTIMONY WHEREOF witness my hand and seal of office this 20th day of May, 1919.

JOHN SHELTON WILLIAMS,
Comptroller of the Currency

LETTER TO PARENTS OF PRIVATE GRAVES

Delayed Letter Announcing Death of Roy Graves of Cisco, Who Made the Supreme Sacrifice in Giving His Life for His Country.

The following letter from the chaplain of the evacuation camp in which Roy Graves, died from wounds received in battle. Roy and Clyde Aycock are the two golden stars in Cisco's service flag.

The letter is to Mrs. Graves, and was written October 4. The notation stated that it was delayed by reason of mislaid address:

"It is with the deepest sympathy that I write to tell you personally of the death of your son Roy, who passed away in perfect peace at twenty-five minutes after eight this evening.

"Since his coming here a week ago yesterday, he has had the very best of care, and has been made comfortable with clean sheets and blankets. But today he became very much worse, and although everything possible was done for him he died this evening. I saw him for half an hour before he passed away, and he asked me to say a prayer for him, and was with him when he passed away. After reading St. John 16 we had a prayer together, and he joined me in the Lord's prayer.

"I am sure you will be glad to know this, for the two things he thought of last was God and home. Both were very dear to him.

"I asked him if he wanted to send you and Mr. Graves any word, and he said tell them I am doing fine. He was thinking of you and wanting most to keep you from worry.

"His spirit was like the best of all the men we had with us in the hospital—fine and brave to the end. I am sure he lived a good soldier, for nothing but fine character could meet the supreme test with such unselfishness and peace of mind. It is through the glad sacrifice of men like Roy that God will bring lasting peace among the nations. And the faith that sees that all like your son have been called to share with Christ in the building of His Kingdom is the faith that belongs to our men over here, for they, many of them, like Christ, have laid down their lives for their friends."

"Roy will be buried with a simple service tomorrow morning in the American cemetery. His place has been consecrated and set apart for those who die here at the hospital.

"With sympathy and may God strengthen you in your sorrow.

"Faithfully yours,
"Perry G. M. Austin, Chaplain."

Wanted—We have several parties wishing to buy moderate priced houses in all parts of town. Can make from \$250.00 to \$1500.00 down payment, balance in monthly payments. If you wish to sell like this, list your property with us. Quick action is our motto.—Mayhew & Co. 8 1tc

NEGRO ISN'T WANTED BY GORMAN CITIZENS

At a massmeeting Monday night by representative farmers, business men and the laboring class, held on the wharf of the National Supply company, the "Negro coming to Gorman" question was pretty thoroughly threshed, especially by the anti-negro men.

At a meeting of the Chamber of Commerce on Friday night before, it was voted by that body to allow negroes in Gorman; and when this report was circulated the anti-negro population rose up in its might, and therefore the meeting. Quite a few speeches were made by Gorman citizens and farmers and when the vote was taken as to how many present were in favor of letting the negroes come to Gorman, two stood up in favor of bringing them and forty-four stood up against bringing them or allowing them in Gorman.

This is thought to be the last of the negro question in Gorman, as it is the consensus of opinion that none will sanction the bringing of them here when such a large majority of her citizenship is against it.—Gorman Progress.

MRS. DENMAN DIES IN TULAROSA NEW MEX.

L. H. Denman, formerly superintendent of the Cisco public schools but now of Tularosa, New Mexico, wired Sunday that his wife had died. Mrs. Denman had been in poor health for several years. She was being taken to Louisiana for burial. A number of friends and pupils met the train with floral offerings and the entire town sympathizes with Mr. Denman in his great loss.

We buy, sell or trade all kinds of oil stocks—Mayhew & Co. 3tc

NEW SECRETARY OF CISCO C. OF C.

Secretary Lancaster Tenders Resignation as Secretary of Chamber of Commerce; Walter Downey, of Tulsa, Oklahoma Will Arrive on July 1.

Mr. C. B. Lancaster, who has been secretary of the Cisco Chamber of Commerce, has tendered his resignation to take effect on July 1. To fill the vacancy Mr. Walter Downey has been elected.

Mr. Lancaster has been commercial secretary here for more than a year, and during his incumbency of this office much of the material prosperity of Cisco has been made—the foundation laid for Greater Cisco. He is a man of resources, diplomacy and always kept the good of Cisco in mind. He has had many warm friends here who regret to lose him from the position he has so ably filled. He will take up other lines of work, and this action on his part was necessary in order to devote his time in this field of labor.

Mr. Downey, the incoming secretary, is a live wire, having held the position of assistant to the secretary of the chamber of commerce of Tulsa, Oklahoma, and is a man of wide experience in the line of work he assumes as secretary of Cisco Chamber of Commerce.

Mr. Downey will reach here July 1 to assume his duties.

Wanted—We have several parties wishing to buy moderate priced houses in all parts of town. Can make from \$250.00 to \$1500.00 down payment, balance in monthly payments. If you wish to sell like this, list your property with us. Quick action is our motto.—Mayhew & Co. 2tc

INTERNED SHIPS SUNK BY GERMANS

Crews Opened Seacocks and Vessels Sank Rapidly; Armistice Commission Blamed for Not Putting Allied Guards Aboard.

LONDON — Announcement that certain of the interned German warships at Scapa Flow were sunk and abandoned by their crews was made by the British Admiralty Saturday afternoon.

The German crews have been detained in safe custody.

The German ships sunk had not been manned since their internment. It is believed they were sunk by opening the seacocks.

The Exchange Telegraph Company's report, which was cancelled later, said that, according to farmers in the vicinity, the German flag was hoisted on the German ships at Scapa Flow as the crews prepared to sink them.

With regard to the sinking of the German warships in the Scapa Flow, the Sunday Observer says that while naval opinion at Portsmouth holds it would have been better to have had British guards on the German man ships, their sinking may be considered as removing a difficulty which might have led to heart-burning among the allies concerning their disposition.

The German skeleton crews were relieved monthly and returned to Germany. They were fed such provisions as they would have obtained in their own country.

Three Will Be Saved.

LONDON, June 24.—Three of the German warships which their crews attempted to sink at Scapa Flow Friday have been reached and the Baden is moored in readiness for beehching, it was announced officially today. There is every prospect of saving the ships in good condition if the bad weather sets in. The necessary apparatus arrives before bad weather sets in. The ships beached are the cruisers Emden, Frankfurt and Nuremberg.

Two destroyers are afloat and eighteen have been reached. It is added that there is no prospect of saving the other destroyers without elaborate operations.

THEDA BARA WILL STAR IN "SALOME"

Sketch of the Sensational Feature Which Will be Shown at the City Hall Theatre July 2 and 3; Scenes of Ancient Jerusalem.

Perhaps few play houses in Texas owns no larger than Cisco book such high class attractions as are seen at the City Hall Theatre. Manager Williams is ever alert for high class features. Recently three very high class attractions have been shown at the City Hall Theatre—"Tarzan of the Apes," "The Romance of Tarzan" and "Theda Bara in Cleopatra."

Now comes Theda Bara in "Salome." This latter feature shows Bara at her best, and is the first time ever shown in Cisco. Following is a synopsis of the story of "Salome," dealing with events and scenes of the period of 40 years before Christ:

Herod Antipas, tyrannical Tetrarch of Judea, is hated by his people, cowardly, cruel, and vacillating, he clings to power by currying favor with the Roman Ceasars; but the oppressed Judeans, constantly clamor for a return of the old Hyrcanian dynasty. The direct heir of this rival line, and chief candidate for the office of High Priest, is Prince David, brother of Queen Marian.

Herod is completely under the sway of the sinister Salome, beautiful Princess of the Herodian dynasty, who hopes some day to wield imperial power. Salome fears the growing influence of Prince David, and after he is created High Priest,

prevails upon Sejanus, Captain of the Guards, to drown him in his bath.

The next obstacle in the path of the ambitious Princess is the Queen. Therefore, when Marian sends a ceremonial cup of wine to Herod upon his departure for Rome, Salome poisons it and arouses the King's suspicion against his wife. He gives the wine to the Queen's maid, Naomi, who drinks it and drops dead.

Salome deceitfully intercedes for Marian and saves her for the moment from execution. But later she tells the Queen that Herod caused Prince David's murder and conspires with her to kill him. Herod is awakened from his sleep by a scream from Salome to find his Queen trying to stab him, and Salome holding back the dagger. Marian is immediately beheaded by order of her royal husband.

With her path to the throne apparently cleared, Salome is alarmed by the denunciations of one John the Baptist, who bitterly rebukes the sins of Herod and his court. Moved by curiosity and by a desire to win the strange preacher to her side, she goes to meet him and attempts to seduce him with her wiles. She is scorned for her effort.

Yet strangely attracted by the stern ascetic, she again visits him in prison, where Herod has thrown him for stirring up sedition among the people, and using every passionate appeal known to her sex, entreats him to love. When he again denounces her, she vows to have him destroyed.

On the same night a great throng

is gathered in the palace to partake of the King's birthday feast. Salome appears before Herod and begins a wild, sensuous, fascinating dance, which so inflames the dotting Monarch that he exclaims: "Ask of me what thou wilt, and it shall be gathered—even unto the half of my Kingdom."

Salome calls for the head of John the Baptist on a charger. While she is gloating over her horrid prize a terrific storm of wind, lightning and hail strikes the palace and the guests flee in fear. Hereod, in superstitious terror, cites to his soldiers, "Kill that woman!" and Salome's evil life is ended under sharp spiked Roman shields.

JOBLESS SOLDIERS WORRYING HOUSTON

Houston, June 25.—The number of soldiers who have married Houston girls and now are here seeking work is surprisingly large, according to R. L. Jetton, reconstruction secretary of the Y. M. C. A. The majority of these men have had no acquaintances in Houston prior to the war, Mr. Jetton said, and are finding it hard to secure employment. This applies especially to those who are not highly skilled in some particular line.

The problem of securing employment for these men is a serious one, Mr. Jetton said, as they cannot take their wives to the oil fields and the farms, where there is plenty of work for single men.

Houston business men must have jobs for the returning men of the 36th and 90th Divisions, unless they

RECENT MOTOR LAWS ARE NOW IN EFFECT

Automobile Protective Law, Traffic Regulation, Glaring Headlights And Full top Requirements' Embraced in Recent Statutes.

Several state laws of interest to motor car owners are now in effect. Among the number are the auto owners protective measure, which was published in full in last week's issue of the Round-Up, and the following regulating traffic, glaring headlights and the full stop requirements for crossing street car or railroad trains. These laws became effective last week and are as follows:

Enforcement of Traffic Laws.

Section 1 of Senate bill No. 229, to which became effective June 16, 1919, is as follows: Section 1. To insure the adequate enforcement of the traffic laws of this State and especially the laws relating to the use of motor vehicles on the public highways, contained in acts of the Thirty-third Legislature, also the acts regulating the use of the public highways, motor vehicle and all other laws, hereinafter enacted, the Commission of the State is hereby conferred on the Commissioners' Court of each county to employ one or more special Deputies for that purpose, who shall be whenever practicable, motorcycle riders, and shall be assigned to work under the direction of the Sheriff of the county.

Definition of Glaring Lights.

Senate bill No. 206, which became law June 16, prohibits the use of "glaring" automobile headlights, which is defined to be one so bright as to "seriously interfere with the vision of or temporarily blind the driver of a vehicle approach-

FLASHED HIS ROLL KNOCKED IN HEAD

Supposed Friend Decoyed W. C. Carter to Alley and After Administering Beating Divorces Him of Over \$1,400.00; Police Have Case

W. C. Carter, of Ranger, was knocked in the head with a pistol and robbed of fourteen hundred dollars on last Wednesday afternoon. He was taken to the Ranger Hospital, where at last reports he was resting well.

He came to Ranger Sunday night and on Monday afternoon met a man whom he thought to be a good companion. That night, both were in the best frame of mind, and Carter showed the stranger a roll of money which he claims amounted to more than \$1,400. Later Carter's supposed friend led the way down the street and into an alley, where with the help of several friends he knocked Carter in the head with a pistol. Carter tried to protect himself but received a severe beating from the holdups' fists while a thug from behind put on the finishing touches when he struck Carter in the back of the head. After beating him the gang robbed him.

Mr. Carter was later found in a dazed condition and removed to the hospital where several stitches were necessary to close the gashes on his head and lips. He is 36 years old and has been a merchant in several towns. He came to Ranger with the intention of opening a popcorn stand.

The Ranger police department are working on the case and are running down several clues which are likely to result in arrests.—Eastland Chronicle.

HERO OF TODAY AND NOT HOBO OF THE MORROW

War Department Will Present Citation to Employers Reinstating Honorably Discharged Soldiers to Former Positions.

The war department with the cooperation of the welfare boards, are working to secure employment for discharged soldiers and sailors. In a communication sent out by Arthur Woods, assistant to the secretary of war, he says:

"All over the United States the War Department is securing the hearty cooperation of all the welfare services, chamber of commerce, labor unions, employers associations, and many national, state and civic bodies all of whom are at liberty to use the machinery of the United States Employment Service towards hooking up the discharged man of the Army and Navy with a good job.

"We have also had the patriotic assistance of employers, corporations firms, and individuals, in the matter of reinstating their old men in the jobs they held before they went to war. I may add that between 70 and 80 per cent of our honorably discharged soldiers and sailors have the offer of their pre-war jobs. The hero of today is not to become the hobo of tomorrow.

"In return for this the War and Navy Department have prepared a handsome citation which is issued to all those employers who have assured the departments that they will gladly re-employ everybody who formerly worked with them and left to serve in the Army or Navy during the war. This citation carries with it permission for the holder to display on his firm's service flag the shield of the United States as a symbol that he will fulfill his obligations to the men who went to the defense of the country at the time of its great peril.

"As yet I do not think that employers generally throughout the United States know about this citation and I am writing to you to ask if you will give this letter space in your valuable columns in order that the manufacturers, merchants, professional men, and employers generally in your community may know that they are entitled to this interesting official document.

"The citation is signed by the Secretary of War, the Secretary of the Navy and myself, assistant to the Secretary of War. It is handsomely engraved and engrossed with the name of the recipient. There are no strings to it. All we ask is that the employer write an application for such a citation, stating that he will re-employ his old service men, and address me in care of the War Department, Washington, D. C.

"The newspapers of many cities at the outbreak of the war published the names of those patriotic employers who agreed to retain their places for their men who enlisted or were drafted. It occurs to me now that it would be a very fine and patriotic act if at this time, with victory won, the newspapers publish the names of those firms and individuals in their neighborhood who are taking back honorably discharged service men, whether they agreed to or not when the war began."

Mrs. W. A. Glenn and sister, Miss Zonnie McDonald, arrived in Cisco last Wednesday from their home in Roseburg, Ore., for a visit to their father, Judge J. H. McDonald.

Mr. and Mrs. Homer McDonald have returned to their home in Fort Worth after a pleasant visit at the home of their father, Judge J. H. McDonald.

Mrs. Webster and daughter, who have been the guests of their son and brother, Capt. Webster, have returned to their home.

Mr. and Mrs. Alfred Kirkland have returned from a pleasant visit to Tulsa.

Mr. and Mrs. John Ward and Robert Rush departed Tuesday for California for the summer.

Mr. and Mrs. Joe Ward of Waco, are the guests of relatives here.

Mr. Tom Bacon of Wills Point, is visiting his sister near Cisco.

Miss Lizzie Roberts of Crystal Falls is the pleasant guest of Mrs. Grover Williams.

Mrs. J. J. Butts has as her guest this week Mrs. C. U. Connelley of Eastland.

N. F. Payne is now most comfortably located in the Judia building, on the second floor.

LT. ALFRED SCOTT WEDS PARSONS GIRL

The marriage of Lieutenant Alfred Scott, son of J. T. Scott of this city, to Miss Laurine Hinkle, of Parsons, Kansas, in Fort Worth, Tuesday, at the home of Rev. Anderson, pastor of the first Christian church in that city, came as a surprise to his friends, but not to his family.

Lieutenant Scott is one of three brothers who volunteered their services to their country and went overseas; has not only proven himself a soldier and warrior to his country, but he has proven he is capable of caring for the one he has loved several years. Lieutenant Scott's acquaintance with the woman he married did not come from an introduction on the "camp ground" of Camp Bowie, where he was trained for service, but while he was attending school in Fort Worth.

Many will remember Mrs. Scott as Miss Hinkle, who visited the family of her husband a few months ago. In many vocations, she has proven herself worthy of the man who offered his life for his country.

Alfred Scott lived in Cisco when a young man, with his two brothers, Kinsey Scott, now a practicing physician in this city, and Edward Scott, a druggist, in Fort Worth. They embarked to make their mark in life several years ago, and have proven that they are capable of mastering the vocations which they have adopted.

After a brief visit home with his parents for a week, Lieutenant Scott and wife departed Wednesday night for a short visit in Parsons, Kansas, with the parents of his bride, after which they will return to Texas to make their home. We trust they will decide to locate in Cisco, where Lieutenant Scott has a host of friends, and with her amiable disposition Mrs. Scott would prove to be a most popular young matron. On their return they will first go to Fort Worth, where Lieutenant Scott will report to Camp Bowie until receiving his discharge, and it is possible the pair may locate in that city.

Bible school at ten o'clock followed by preaching.
The evening service begins at 8:45.

We are always glad to meet visitors. Persons from many sections of the country worship with us every Sunday. We want all such to feel thoroughly at home.

Another word from Dr. Norris, dated the 24th. "I am leaving for New York in a few days, but will get back in time to be with you August 4th. I have cancelled all other engagements for this year. I am given plenty of time to make it a success."—A. E. Eaton, Pastor.

Mr. and Mrs. M. E. Spencer have returned from a brief visit to Kansas City.

Mr. and Mrs. Fred Bostaph have moved to Ranger to reside. Mr. Bostaph was formerly manager of the Frick-Reid Supply company, but recently resigned and has accepted a position with the T. & P. Coal company as purchasing agent, thus making it necessary for him to move to Ranger to be near his headquarters.

THE U. D. C. WILL RECEIVE TODAY

The New Home Will Be Thrown Open to Friends Who Made It Possible That This Building Should Adorn Park, This Evening.

The Cisco Chapter U. D. C. are rejoicing in the completing of the new U. D. C. building. It is situated in the U. D. C. park, which will be cut off from the park, the building rented and the proceeds go to improving and beautifying this playground.

The Chapter was assisted by many friends in the erection of this building. About \$800 in money and material was contributed, and union mechanics contributed approximately \$500 in labor. For these generous contributions the Chapter is deeply grateful.

As an evidence of this appreciation the ladies of the Chapter will receive this evening, and everyone who helped to make this building a reality will be their guests from 6 to 8. Remember, your welcome is cordial, and there will be no disappointment if you fail to come. You are not only invited, but urged to be there, as this is a pleasure the ladies have reserved for themselves—to entertain you this evening.

OLD SCORE SETTLED IN GORILLA DEFEAT

Remembering the Terrible Drubbing in Past Game Cisco Comes Back and Makes Ancient Enemy Bite the Dust; Double Victory.

...said "tell them I am doing fine. He was thinking of you and wanted most to keep you from worry."

"His spirit was like the best all the men we had with us in hospital—fine and brave to the end. I am sure he lived a good soldier for nothing but fine character to meet the supreme test with such selfishness and peace of mind. It is through the glad sacrifice of a man like Roy that God will bring lasting peace among the nations. And faith that sees that all like yours have been called to share with Christ in the building of His Kingdom the faith that belongs to our God over here, for they, many of the like Christ, have "laid down their lives for their friends."

"Roy will be buried with a simple service tomorrow morning in the American cemetery. His place has been consecrated and set apart for those who die here at the hospital."

"With sympathy and may God strengthen you in your sorrow."
"Faithfully yours,
"Perry G. M. Austin, Chaplain.

Wanted—We have several parties wishing to buy moderate priced homes in all parts of town. Can make from \$250.00 to \$1500.00 down payment, balance in monthly payments. If you wish to sell like this, list your property with us. Quick action our motto.—Mayhew & Co. 81

NEGRO ISN'T WANTED BY GORMAN CITIZEN

At a mass meeting Monday night by representative farmers, businessmen and the laboring class, held at the wharf of the National Supply company, the "Negro coming to Gorman" question was pretty thoroughly threshed, especially by the anti-negro men.

At a meeting of the Chamber of Commerce on Friday night before, was voted by that body to allow negroes in Gorman; and when the report was circulated the anti-negro population rose up in its might, and therefore the meeting. Quite a few speeches were made by Gorman citizens and farmers and when the vote was taken as to how many present were in favor of letting the negroes come to Gorman, two stood up in favor of bringing them and forty-four stood up against bringing them or allowing them in Gorman.

This is thought to be the last of the negro question in Gorman, as it is the consensus of opinion that none will sanction the bringing of them here when such a large majority of her citizenship is against it.—Gorman Progress.

Marfa Editor Visits Cisco.
Mr. A. M. Avant, editor and publisher of the Marfa News, was in Cisco this week the guest of Mr. Carl Williams. The Round Up was favored by a pleasant visit from Mr. Avant, who stated that Marfa was enjoying a season of prosperity due to the large number of troops maintained there. The government is building quite a cantonment at that place. The Deming camp is being moved there, said Mr. Avant.

Mrs. Mary E. Murry of Arkadelphia, Ark., is the guest of her daughter, Mrs. L. B. Webster.

Roy Griffin has disposed of his interest in the Moran News and arrived in Cisco yesterday.

Mr. and Mrs. Fred Bostaph are visiting in the city.

CISCO MUST BE CLEAN TO DRAW BETTER PEOPLE

Many Beauty Spots Adorn Cisco's Residence District, but Weeds in Others Obscure Beauty; Business District Breeding Flies.

Cisco is attracting people all over the oil district, who are looking for the most desirable town in which to make their homes. It has come to the Round Up that many from other places are contemplating moving here. This would be more apparent, and many more would seek homes here, if there was a bit more civic pride manifested by our people—more efforts made to make Cisco the city beautiful. We have natural conditions, but some of the streets and residence lots are in such deplorable condition that they would drive people from us, if only these festering sores on the healthy body were seen. Fortunately there are many beauty spots in Cisco. When one walks through the well kept district—where civic pride prevails, then get down where the weeds are taller than the shade trees struggling for an existence, it is hard to believe the two districts are in the same municipality.

An unfortunate condition is that these beauty spots are not in the business district. Main street or Avenue D is in such a condition that it would be a disgrace to a black land town in the Brazos bottoms. (Right here the Round-Up wants to apologize to Ranger for making any allusions to the conditions of the streets of that city.)

People Have Been Patient.
But returning to Main street. The people have been most patient with the paving enterprise that is now under way, for the reason that many obstacles have beset those who are doing this work, but patience is worn threadbare. Merchants are losing money because of the debris that obstructs the streets, making it nearly impossible to walk the sidewalks. Besides the debris, mud is everywhere when a shower comes. Great pools of slush make it impossible to cross sixth street except by stepping on slippery stones from which one is liable to slide into the slime beneath.

The writer is told that the present contract of paving is now going into its sixth month. Surely that is sufficient time to pave the whole city. There are contractors who would undertake to complete the job in less time under forfeiture. The people who pay for the job are entitled to some consideration. If the present contractor cannot finish the job it would be better to get another who would.

Debris Everywhere.
It may be advertising Cisco the wrong way, but the Round-Up is of and for Cisco. This paper wants a cleaner and more decent town, and the policy adopted is to continually call attention to these matters until the clean-up is accomplished.

The Round Up office was visited by the city marshal a day or two after the council passed the order to instruct that officer to notify every resident of the city to clean up their premises and cut the weeds. The occasion of the marshal's visit to this office was the appearance of a few sheets of paper at the back of the office. We took the marshal's visit as a most welcome indication that he had started on his campaign of inspection, and warmly thanked him for calling attention to the rubbish which was instantly moved. Had Mr. Carmichael inspected the alley in the rear of the building more closely he would have found much. There is a pile of old iron, wire, pipe, and other debris there piled waiting for the city wagon, and has been there for months. The Round-Up would like to see it moved. A fee is charged to pay the scavenger to cart away this debris. We have burned everything combustible.

The rear of the Round-Up is no exception. A like condition prevails in many sections of the business district. Even on Cisco's principal residence street—Broadway, right next to the residence of the Methodist minister, there is a pile of rubbish where the old Methodist church was wrecked that is not only an eye sore, but a positive menace to pedestrians. Large spikes in the lumber which litter the sidewalk would prove a dangerous wound should one step on these rusty projectiles. Tetanus would, in all probability follow.

Around this lumber and debris, the weeds and sunflowers are higher than a man's head, and the struggling rose bushes underneath are entirely obscured.

It is hardly a reasonable excuse to plead excessive rains and scarcity of help in accounting for weeds. The writer knows of one small boy, probably 10 or 11 years old living on the corner of Avenue G and Broadway, who has cut the weeds in front of the home, and cleared the way on most of the quarter of block on which the home stands. Most every home has a small boy. He would be glad to tackle the job for a small wage.

Flies Taking the Alleys.
But these matters are more scars on the beauty of the city, rather than a menace to health. There is a far greater menace which the city mar-

shal should have seen had he gone on an inspection tour of the alley between Main street and the Katy road.

Behind the restaurants are chicken coops, without rain proof roofs, with dirt floors, where fowls are kept; nearby are open receptacles in which garbage from the restaurants is dumped, over which mill 4 of flies swarm, and in which they breed and thrive.

These are the transmitters of typhoid and other disease germs. From these breeding places the fly wings its way to different parts of the city, carrying its filth and germs as they crawl on innocent baby lips which are kissed by fond parents. What is, or will be the result—an epidemic of typhoid unless the nuisance is abated.

Closed Garbage Cans.
The city should procure a number of closed garbage cans and compel those accumulating garbage to place the garbage in these, and keep fly proof until it could be carted away. It is too late to clean up after an epidemic strikes the town—too late to prevent, but necessary to check the epidemic in its toll of human life which would follow.

The Round-Up has no spleen in this matter—simply calling attention to nuisances which should be abated. We would much prefer this notice would not be necessary, but for fear that the general condition is not known to the powers that be, and being of and for Cisco, the matter is given publicity.

If there be a city health officer his attention should be called to these matters, and if there be none the people should ask the administration to appoint some active physician to the job.
Better be clean than sick.

ORGANIZATION OF TRUCK AND TRANSFER OWNERS

The truck owners of Cisco have perfected an organization, under the name of the Cisco Truck & Transfer Co. They have offices in the Masonic building, where orders may be booked for freight transfer, as well as the handling of all loads.

At present there are nine owners in the company, each putting his machine in the pool, and the proceeds will be divided. This is the nucleus of what may be expected to become a great motor freight moving combination. By this pooling of interests business is facilitated, and much waste eliminated.

Entertains with Dance.

Mrs. Guy Ward entertained the young people with a very enjoyable dance last Monday night at her hospitable home.

"HOW TO KILL AN ASSOCIATION"

- 1—Don't come.
- 2—If you come, come late.
- 3—If too wet or too dry, too hot or too cold don't think of coming.
- 4—Kick if you are not appointed to a committee, and if you are appointed never attend committee meetings.
- 5—Don't have anything to say when you are called upon.
- 6—If you attend a meeting, find fault with the proceedings and the work done by other members.
- 7—Hold back your dues or don't pay them at all.
- 8—Never bring a friend you think might join the association
- 9—Don't do anything more than you can possibly help to further the association's interests then when a few take off their coats and do things, howl that the association is run by a clique.

D. C. WILL RECEIVE TODAY

Main Home Will Be Thrown to Friends Who Made It. The Adorn Park. This Evening.

The Cisco Chapter U. D. C. are rejoicing in the completing of the new U. D. C. building. It is situated in the U. D. C. park, which will be cut off from the park, the building erected and the proceeds go to improving and beautifying this playground.

The Chapter was assisted by Mr. Hazel, by reason of the duties incumbent upon him and require assistants in the prosecution of cases in the two courts. He pronounced the names of those who will be his assistants. They are given out are J. E. Ingram, Chapter 1, and W. H. Sewell of Chapter 2. Mr. Ingram will have charge of the criminal cases at Ranger, while Sewell will have charge of the civil cases in the district court, according to the Eastland Chronicle.

The first term of court in the new 88th judicial district will convene in Eastland July 7th, and will be in continuous session. Because of the rapid growth of the litigation has increased, and an effort is being made for the creation of another district in the county.

The writer is not familiar with the law governing such matters in Oklahoma and Arkansas. If this be possible under the constitution, should a new district be created, Cisco would be a logical place to have it. We hope the sessions of the court will be held here which is adequate for the little expense would be no.

REICH READING

C. E. Dillon and family returned to their home in Dallas on Sunday. Mr. and Mrs. J. P. Dillon, Mr. and Mrs. Watkins visited her mother, Mrs. Snelson here Sunday.

Charlie McConnell had a very busy day at the Cisco Monday.

We are having plenty of weeds. We would like to have the warm sun on them.

Next Sunday being the day, which is the 29th, will be here at 11 o'clock for us. We will have a ground. Everybody is come and spend the day worship together.

Ed Callarman and mother and sisters returned home from a visit with his brother, Clarence, at Carbon.

Threshing is the order of the day in this community at present, and the grain is yielding a good harvest.

Mrs. T. R. Fry's sister and little daughter, Miss Mary, are visiting her this week from Eastland.

Lester Horn of Mitchell attended church here last Sunday evening.

We are always glad to have the Mitchell people with us.

Gertrude Jones, wife and mother, Mrs. Bill Jones, attended church here last Sunday afternoon.

Mr. and Mrs. R. B. Abbott and little daughter, Verlois, of Mitchell were in our community Wednesday.

Mrs. L. E. Clark and children of Pisgab visited at the home of her sister, Mrs. R. N. Jackson, Tuesday.

A. Reich and sons went to the Brown well Sunday to see the sights.

SECOND ATTEMPT TO ROB BANK AT CARBON

Burglars made an unsuccessful attempt to rob the First State Bank of Carbon Monday night. This is the second attempt that has been made to rob this bank within the past few weeks.

Walter Gilbert, who was sleeping in the rear of the bank building, was awakened by voices at the rear door of the bank. Listening he heard them remove the screen from the door. At this juncture he jumped up and got his gun, but by the time he could get the door open and get on the outside the burglars disappeared.—Eastland Chronicle.

CISCOITES IN EASTLAND

Eastland Chronicle: County Supt. Ulala Howard visited homefolk in Cisco Thursday night.

C. S. Looney, constable of Cisco, was in the city Friday. Mr. Looney is a very busy man these days, and a frequent visitor at the county site. He has an excellent record as a peace officer.

Judge D. K. Scott was in the "Capital City" Wednesday from Cisco. He was returning from Ranger, where he had been on legal business. Judge Scott is a member of the law firm of Scott, Brelsford & Smith, of Eastland

CISCO MUST BE CLEAN TO DRAW BETTER PEOPLE

Many Beauty Spots Adorn Cisco's Residence District, but Weeds in Others Obscure Beauty; Business District Breeding Flies.

Cisco is attracting people all over the oil district, who are looking for the most desirable town in which to make their homes. It has come to the Round Up that many from Other places are contemplating moving here. This would be more apparent, and many more would seek homes here, if there was a bit more civic pride manifested by our people—more efforts made to make Cisco the city beautiful. We have natural conditions, but some of the streets and residence lots are in such deplorable condition that they would drive people from us, if only these festering sores on the healthy body were seen.

Fortunately there are many beauty spots in Cisco. When one walks through the well kept district—where civic pride prevails, then get down where the weeds are taller than the shade trees struggling for an existence, it is hard to believe the two districts are in the same municipality.

An unfortunate condition is that these beauty spots are not in the business district. Main street or Avenue D is in such a condition that it would be a disgrace to a black land town in the Brazos bottoms. (Right here the Round-Up wants to apologize to Ranger for making any allusions to the conditions of the streets of that city.)

People Have Been Patient.

But returning to Main street. The people have been most patient with the paving enterprise that is now under way, for the reason that many obstacles have beset those who are doing this work, but patience is worn threadbare. Merchants are losing money because of the debris that obstructs the streets, making it nearly impossible to walk the sidewalks.

Besides the debris, mud is everywhere when a shower comes. Great pools of slush make it impossible to cross sixth street except by stepping on slippery stones from which one is liable to slide into the slime beneath.

The writer is told that the present contract of paving is now going into its sixth month. Surely that is sufficient time to pave the whole city. There are contractors who would undertake to complete the job in less time under forfeiture. The people who pay for the job are entitled to some consideration. If the present contractor cannot finish the job it would be better to get another who would.

Debris Everywhere.

It may be advertising Cisco the wrong way, but the Round-Up is of and for Cisco. This paper wants a cleaner and more decent town, and the policy adopted is to continually call attention to these matters until the clean-up is accomplished.

The Round Up office was visited by the city marshal a day or two after the council passed the order to instruct that officer to notify every resident of the city to clean up their premises and cut the weeds. The occasion of the marshal's visit to this office was the appearance of a few sheets of paper at the back of the office. We took the marshal's visit as a most welcome indication that he had started on his campaign of inspection, and warmly thanked him for calling attention to the rubbish which was instantly moved.

Had Mr. Carmichael inspected the alley in the rear of the building more closely he would have found much. There is a pile of old iron, wire, pipe, and other debris there piled waiting for the city wagon, and has been there for months. The Round-Up would like to see it moved. A fee is charged to pay the scavenger to cart away this debris. We have burned everything combustible.

The rear of the Round-Up is no exception. A like condition prevails in many sections of the business district. Even on Cisco's principal residence street—Broadway, right next to the residence of the Methodist minister, there is a pile of rubbish where the old Methodist church was wrecked that is not only an eyesore, but a positive menace to pedestrians. Large spikes in the lumber which litter the sidewalk would prove a dangerous wound should one step on these rusty projectiles. Tetanus would, in all probability follow.

Around this lumber and debris, the weeds and sunflowers are higher than a man's head, and the struggling rose bushes underneath are entirely obscured.

It is hardly a reasonable excuse to plead excessive rains and scarcity of help in accounting for weeds. The writer knows of one small boy, probably 10 or 11 years old living on the corner of Avenue G and Broadway, who has cut the weeds in front of the home, and cleared the way on most of the quarter of block on which the home stands. Most every home has a small boy. He would be glad to tackle the job for a small wage.

Flies Taking the Alleys.

But these matters are more scars on the beauty of the city, rather than a menace to health. There is a far greater menace which the city marshal should have seen had he gone on an inspection tour of the alley between Main street and the Katy road.

Behind the restaurants are chicken coops, without rain proof roofs, with dirt floors, where fowls are kept; nearby are open receptacles in which garbage from the restaurants is dumped, over which millions of flies swarm, and in which they breed and thrive.

These are the transmitters of typhoid and other disease germs. From these breeding places the fly wings its way to different parts of the city, carrying its filth and germs as they crawl on innocent baby lips which are kissed by fond parents. What is, or will be the result—an epidemic of typhoid unless the nuisance is abated.

Closed Garbage Cans.

The city should procure a number of closed garbage cans and compel those accumulating garbage to place the garbage in these, and keep fly proof until it could be carted away. It is too late to clean up after an epidemic strikes the town—too late to prevent, but necessary to check the epidemic in its toll of human life which would follow.

The Round-Up has no spleen in this matter—simply calling attention to nuisances which should be abated. We would much prefer this notice would not be necessary, but for fear that the general condition is not known to the powers that be, and being of and for Cisco, the matter is given publicity.

If there be a city health officer his attention should be called to these matters, and if there be none the people should ask the administration to appoint some active physician to the job.

Better be clean than sick.

ORGANIZATION OF TRUCK AND TRANSFER OWNERS

The truck owners of Cisco have perfected an organization, under the name of the Cisco Truck & Transfer Co. They have offices in the Masonic building, where orders may be booked for freight transfer, as well as the handling of all loads.

At present there are nine owners in the company, each putting his machine in the pool, and the proceeds will be divided. This is the nucleus of what may be expected to become a great motor freight moving combination. By this pooling of interests business is facilitated, and much waste eliminated.

Entertains with Dance.

Mrs. Guy Ward entertained the young people with a very enjoyable dance last Monday night at her hospitable home.

**Do You Pay 66¢
for Sirloin Steak?
—or 33 Cents?**

We serve all tastes

A recent Government bulletin quoted sirloin steak in different cities at prices ranging from 33 to 66 cents!

We buy live to quality, all the way to \$20.00 per live weight. Sirloins from these cattle vary greatly in quality.

Some retailers sell 33 cent sirloins. These steaks come from cheaper cattle.

Customers of other retailers demand choice sirloins at 66 cents. These retailers buy meat from higher-priced cattle.

Also, the retailer who carries complete stocks, delivers to your door, and lets you run a charge account, has to get higher prices than the retailer who carries "cash and carry."

We sell beef sirloins at practically the same price all over the country—except for slight differences due to freight rates.

And our profit hardly affects the price at all—only a fraction of a cent per pound.

**Famous Health Resort
Treatment at Home**

Nervous and Run-Down People Can Now Obtain Relief Without Going to Health Resort.

People used to travel to a popular health resort when they were nervous, thin, weak, run-down and felt tired all the time. There they found a physician whose fame had spread far and wide for the remarkable success that he had in treating just that kind of people.

And the secret of his success was a tonic that he prepared for his patients according to his own formula, which taken according to his directions gained for him his popularity.

This same tonic is now obtainable by the public generally under the name of RICH-TONE, with full directions on each bottle. If you suffer from bad health and need a building tonic, you need not travel to the health resort, for you can take this treatment at home.

One well-known lady who was under the care of three eminent physicians, and who had been in a sanitarium on several occasions and had been operated on without benefiting her general health, found it necessary to take only one bottle of Rich-Tone to find full relief.

There is POWER and PUNCH in GOOD HEALTH,—it means a bright eye,—alert look,—snappy gait,—that reliable step,—that general make good appearance so different from the mien of one on the ragged edge of a declining constitution.

Men and women who wish to gain vigor and strength should commence this famous health resort treatment at once. It's only a dollar at CISCO DRUG CO.

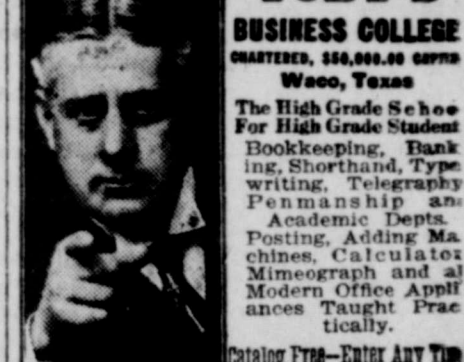

We buy, sell or trade all kinds of Oil stocks.—Mayhew & Co. 7-21

CISCO HEROES RETURNING TO NATIVE HOMES
(Continued from page 1.)

and nearly two years in the army. "While there has been many changes in Cisco since I last saw it," he said after his arrival, "yet the town is the prettiest place, to me, that I have seen since I became a soldier."

Two Other Cisco Heroes Arrive.
Two other Cisco heroes whose arrivals caused rejoicing in the household of their parents, were that of Alfred and Edward Scott, sons of Mr. and Mrs. J. T. Scott of this city. They came in last Friday.

But they are not plain Alfred and Edward now. Insignias of office are deservedly worn by each. Alfred comes back a first lieutenant, while Edward returns a sergeant.

Edward Scott entered the service July 1917 with the national guard troops, 1st Texas Cavalry, which was later made Co. A, 133d machine gun battalion, 36th division. Edward was made a corporal soon after being in the service, and was later made a sergeant. He received his preliminary training at Hillsboro, Texas, before being sent to Camp Bowie, where he remained until he was entrained for the port of sailing with the 36th in July 1918. He was on the Champagne front for 23 days and saw some of the real fighting in that terrible campaign.

He received his discharge last week, and arrived here to spend some time with his parents, and later will go to Dallas where he expects to engage in the grocery business.

Lt. Scott Will Change Commanders.

Although not yet in possession of his discharge from the United States army, Lieut. Alfred Scott is already reporting to a superior now. He was recently united in marriage to Miss Laurine Hinkle, and it is from her he will take orders exclusively after his discharge is in his possession. After a brief visit here to his parents with his bride, the pair left this week for Parsons, Kansas, to visit the parents of Mrs. Scott. From there they will go to Fort Worth where they will remain until he is finally discharged, when he will go into business in some Texas city, possibly Cisco or Fort Worth.

Lieut. Scott is quite a veteran in the service now. He entered the service May 9, 1916, and was eleven months on the border, protecting the lives of Texans from bandit bullets, being a corporal in Co. E, 4th Texas infantry, while stationed at San Benito. Later he was made sergeant after which his promotion was rapid, passing through the grades of Sergeant major, second lieutenant to first lieutenant, which rank he still holds. He was transferred to the Co. C, 131st machine gun battalion, 36th division October 15, 1917; to Co. D, 132d machine gun battalion April 1, 1918, and was made battalion adjutant August 1st of last year on his landing in France; and was made 1st lieutenant last November. He was eleven months on the fighting front, and like his brother, Sergt. Edward Scott, was in the 23 days campaign on the Champagne sector.

His visit was made possible by obtaining a fifteen days furlough, which was utilized for the dual purpose of getting married and visiting his parents.

MURDER CHARGE AGAINST JOE VARIN WAS A FIZZLE
(Continued from Page 1)

to drive them to Lordsburg to hold up a Chinaman. Varin or Shelton made no threats against me and nothing was said about divulging anything to me.—Erich Moder.

So far as the Copper Era is concerned, the statement appearing in our last issue was printed verbatim as it was given to us.

The fact remains, however, that Varin was taken away from his business in Cisco and brought to Arizona on a charge for which he was never prosecuted, not even to the extent of a preliminary hearing. He was confined in jail for sixteen days and was compelled to telegraph to Cisco for funds to defray his expense shome.

Varin was released from jail on Saturday afternoon after the prosecution failed to present any case against him, although the time set for the preliminary hearing had been fixed for 1:30 p. m.

The accused man left Clifton on Monday morning and before leaving wrote the following letter:
Editor Copper Era—

Would you please be kind enough to print the following in the Cooper Era? I am not going to comb anyone down or set them on hot coals as it is evident enough that these people have a hard enough time to flee from the fumes of their own enterprises. In other words it is an ill wind that blows nobody good.

I am not going to say much on this arrest and the sixteen days of imprisonment I have undergone. Just enough to let the public know that the statements made about me are false—a mere joke as it were. Funny, isn't it, for me to be taken away from my business in Cisco and hold me in jail until they are tired of me, then fail to bring me into court so I could face the charges, and turn me loose without a cent offered me to go back. This is some expensive joke on a man who had no cash in his pocket and this distance dividing him from his business and from his investments. But even at that I am satisfied, even if I am forced out of business and lose my leases.

The way I look at it is this: What do I want land for, or a business of any kind, in the land of Uncle Sam without a reputation? How long would one last? We can obtain nothing without a clean and honorable character and this is what I claim and what I was ready to fight for till the last.

They have tried to job me in the most dangerous manner in existence. I will not say anything now but all this dirty work will leak out some day.

I have been told both by Mr. W. T. Mawbey and Mr. Erich Moder that they were put through the sweating process by those who caused my arrest. I understand that Mr. Mawbey was restrained of his liberty for several days in an effort to get him to incriminate me in this murder. If they could have made them tell a lie, where would he be? A scaffold or a rock pile for the remainder of my days, an innocent man in the eyes of God, but a guilty man in the eyes of man.

Joseph Varin.

BETTER ROADS FEATURED THE C. OF C. MEET
(Continued from Page 1)

plished without first discussing the matter, and the friends of better highways, and therefore friends of Cisco, are becoming aroused at the miserable condition of the roads leading out of Cisco, and something must be done. The business interest—those who are losing most by the inability of people to come here to trade seem lukewarm on the subject. When they are thoroughly aroused it is believed the matter will assume tangible shape.

It is almost inconceivable that these bonds which have been approved and issued should be allowed to remain unsold for over two years, when there is not a decent road in Eastland county. Every day the roads remain in their miserable condition Cisco's business interest suffers. Every interest is the victim of this laxity on the part of some one whose duty it is to attend to these matters. Of course it is the duty and the power of the commissioners' court to look after such affairs, but if they are recreant to the trust reposed in them, or fail to perform their duty as their oath of office prescribes, any taxpaying citizen has the right to bring mandamus proceedings and force them to a compliance of the duties prescribed. The wonder is that Cisco business men have suffered in silence this long.

Mrs. R. Q. Lee and daughter Miss Julia, are in Breckenridges this week, attending the Truett meeting.

UNIVERSAL IS ALL RIGHT SO SAYS LETTERS
(Continued from Page 1)

Mountain Park, Okla.—"Good.—A. J. Beardain."

Arlington, Texas.—"Several years I used universal pipe in my plant line, and while it was the light weight I never had any trouble with it. They are making heavy pipe now and I am sure it will give you satisfaction. I consider it all right in every respect.—W. C. Weeks."

* Thomas, Okla.—"We have been using universal pipe for about 11 years, and have had good success with it. It has given good service. If I was contemplating extensions I would use the same kind again.—G. A. Shaw, Clerk."

Sallisaw, Okla.—"The universal pipe used in this city has proven to be most satisfactory. If you contemplate purchasing pipe you will make no mistake in purchasing universal 'best on earth.'—W. Garrett"

Huntsville, Texas.—"Universal pipe is O. K. It is much cheaper than regular C. I. pipe. No lead, no brimstone necessary. All you have to do is to fasten bolts.—T. E. Humphrey, Mayor."

Oifton, Okla.—"Universal pipe is giving absolute satisfaction. We would use it again were we to put in an extension of the pipe were in accordance with market.—James Harris, ex-mayor."

Wellington, Texas.—"In answer to the above will say we have a sandy land here with a clay foundation, and the universal pipe is giving good satisfaction, but can't say how it would do on black land. I think any pipe would settle better on any land than sand.—R. A. Williams."

Nacona, Texas.—"We are using universal cast iron pipe for our water system, and have been for seven years, and have never had any trouble with it. It has been very satisfactory."

"We can conscientiously recommend universal cast iron pipe to any one that is anticipating building a water works system. Any information that can be of any use to you, regarding water works I'm at your command.—J. L. Biter, mayor."

Free Press Editor Calls.

Goldthwaite, Texas.—"We made a thorough investigation before we purchased our piping for water system, and decided the universal pipe the best; and have as yet no objection to change our mind."

(The above is addressed to Mayor Will H. Trent, but is unsigned.)

Athens, Texas.—"I was mayor of Athens about 8 or 10 years and bought universal pipe for our water works system, and I have never heard any complaint whatever from any one of its service. I believe it to be as good pipe as there is on the market, and at this time when labor is very high and scarce there should be quite a saving in installation of universal.—C. H. Coleman."

Garvin, Okla.—"The universal pipe has given excellent satisfaction. I would buy this again.—W. A. Goforth."

Spur, Texas.—"Will say that the universal pipe has given us entire satisfaction. We would buy it again if we were needing pipe. We haven't had more than two joints to repair in 6 years.—Geo. S. Link."

FEDERAL AID HIGHWAY ACT EXPLANATION
(Continued from Page 1)

United States mails, excluding every street and road in a place having a population, as shown by the latest available Federal census of 2,500 or more, except that portion of any such street or road along which the houses average more than 200 feet apart."

After a project statement is approved, the State Highway Department must submit the necessary plans, specifications and estimates. When they are found to be suitable for approval, a formal certificate, approving them and setting aside the allotted amount of Federal aid in the United States Treasury, is issued by the Secretary of Agriculture to the Secretary of the Treasury and to the State Highway Department, and a formal contract, called the project agreement, is entered into between the Secretary of Agriculture and the State Highway Department under which the Highway Department undertakes to accomplish the satisfactory completion of the entire project.

Under the regulations of the Department construction work may commence on a project after the district engineer of the Bureau of Public Roads has recommended approval of the plans, specifications and estimates, but payment for such work will not be made until, or unless, the project agreement above referred to is finally entered upon. Construction may be carried on by force, account or contract, and must be under the direct supervision of the State Highway Department, subject to the inspection and approval of the secretary of Agriculture, who is represented by the Bureau of Public Roads. After the project agreement has been entered into payments may be made as the work progresses, or upon its completion, as stipulated in the project agreement. However, the payments that may be made are limited by Section 6 of the Federal aid road act, as amended to 50 per cent of the actual cost, not to exceed \$20,000 per mile, exclusive of the cost of bridges of more than twenty feet clear span. Under this requirement, the Government furnishes not to exceed 50 per cent of the cost, and the State must furnish the necessary balance from such funds as it may have available.

F. A. VAN DEREN, Cashier

GORMAN-DESDEMONA FIELD SHOWS LIFE

Eppler No. 2 Continues Freak Well; Tears Up Piping, Again Flowing After Dry Spell; New Locations Made and Derricks Going Up.

Gorman Progress.

Rig builders are busy this week. Rig builders are busy this week erecting a rig on the Elec Clemens tract some five and one-half miles north of town. This particular section will be watched with much interest.

Work was resumed this week on Mann No. 2. The owners of this well having given out the information that they intended to make it a producer, notwithstanding the many unfavorable reports given out about it.

The Union Oil and Refining Company's well on the Desdemona town-site first of the week touched the sand and predictions are to the effect that it will prove one of the good ones of the field. This is the well that has been drilling just back of the Bank building.

The Echols well just this side of Desdemona, on the Gorman-Desdemona road, which came in the latter part of last week, is declared to be one of the best wells in the field, and last reports give that it was flowing three thousand and five hundred barrels. There is not a doubt but what there has been brought in a large per cent of wet wells in this great Desdemona-Gorman field than in any other known.

Eppler No. 1 of Conlee Aeguirre, tore loose Monday night in such force that piping leading to the flow tank was torn loose and oil flowed all over that part of the country. It has since quieted down. This has ever since it was spudded in, been the mystery well of the field. At times flowing all over the country and then closing up like a clam. It is a good big bet however, that she will eventually be one of the largest producers of the field.

The M. J. Eppler tract of land is now picking up in the way of locations and actual constructions of rigs. The Hogg Oil Co. are this week erecting a derrick and will start drilling at once on their Eppler acreage; the Black Diamond Co., we understand have made a location on the same tract of land. According to reports inside of the next thirty days there will be three new wells drilling on this acreage. The Eppler No. 1 is having fits at regular intervals and flowing an extra grade of oil.

Diamonds Galore.

More people are wearing diamonds in Cisco just now than ever before and people who were never able before to own a diamond. The introduction of the new stone, the Radium diamond, has created a fad in the city which is having a run.

The attractive window display of the sparkling gems at Dean Drug Co. is very beautiful. It is a fad, but a fad that has taken among all classes. A radium diamond has not been secured according to the best obtainable information, but it has given surprising satisfaction.

An incident during the second business day of the introduction of the Radium diamonds in the city was a challenge passed between two popular young men of the city when one of the two ordered the other a scarf pin from the selection, if he could discover the true stone from the Radium. To prove the challenge the challenger took a diamond pin from his scarf in the absence of his companion, put in a tray with several similar radium pins and then the companion was asked to select the real diamond on the proposition that if he did so he could keep the pin. The companion is wearing Radium now, and the real stone is in the scarf of its original possessor. This display spoken of is to be seen in the window at Dean Drug Co. where Radium Diamond Co. are holding a demonstrating sale.

METHODIST LADIES IN WORK AND SOCIAL MEET

Mrs. G. D. Remer was the gracious hostess to the Woman's Missionary Society of the Methodist church on Tuesday afternoon, from three to six o'clock, in a social and work session. Quite a number were present, including many strangers. A most enjoyable and interesting session was this, and the strangers who were guests of the society, were cordially welcomed.

Mrs. Remer, assisted by Mesdames Roy Keathley, Neal Turner, Earnest Fairless and Will Triplett, served

GORMAN HOME HAS AGENCY IN CISCO

The attention of our readers is called to the advertisement in this issue of the Gorman Home Refinery, which is offering a limited amount of its stock for a short while.

The Gorman Home was organized by men of the highest business integrity, many of whom are well-known in Cisco and is known they would not allow their names to be connected with any but the most honest enterprise. Read their advertisement and you will be assured of the truthfulness of this statement.

This refinery is capitalized at \$375,000, and the shares are now being offered at \$25 per share. That this price will remain for any definite time is not guaranteed, as they are expected to advance at an early date.

According to the prospectus it is proposed to build a pipe line from the oil field to their refinery at Gorman, where there is an abundance of pure cold well water, by which they can get the better results from the crude.

The Gorman Home has established an agency in this city, room 5 in the Winston building, which is in charge of Messrs. N. W. Noel of this city, and W. P. Pledger, formerly of Bell county. Mr. Noel is too well known as a gentleman of business integrity to need any introduction, while Mr. Pledger comes from a near-by county, and can hardly be classed as a stranger. Either of these gentlemen will be glad to give you particulars concerning the Gorman-Home, and after a thorough investigation it is no hazardous statement to say you will be convinced of the soundness of the investment.

State Bank Given License.

Austin, Texas, June 24.—Certificate of authority to do business was issued by the State Banking Board today to the Guaranty State Bank of Cotton Plant, Stephens County, capital stock of \$25,000. The guaranty fund plan for protection of depositors was adopted.

Ice cream and cake to the guests on this happy occasion.

The society will meet in business session next Tuesday afternoon at the ladies' rest room at the city hall.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

**THERE IS A WELCOME
FOR UNCLE SAM'S BOYS IN
THE BUSINESS OFFICE**

Business will move faster in the next five years than ever before as a result of Peace. Business is going forward now at a rapid rate. There is an unlimited demand for properly trained help. The want columns of every daily paper in every city and town prove this. Large Commercial Organizations of every kind are advertising for additional help that has the proper commercial training. The training received by our soldiers and sailors is exerting its influence in business. The young man who has been discharged from military service and who has received a practical business training is now bound to carry with him into the business office the snap and vigorous actions which distinguish the work of the American forces at the front and which the American Business men demand today.

The business world is demanding the service of young men who have advantages of thorough discipline and training and whose physical fitness, good spirit and work has won the admiration of the world. Every discharged soldier or sailor should take advantage of this opportunity and prepare to answer the call of

business. The Tyler Commercial College is one of the few schools patronized by disabled soldiers and sailors.

With our practical and thorough courses of Bookkeeping, Shorthand, Telegraphy, Cotton Classing and Business Administration and Finance, we can prepare you in the shortest possible time, at the least expense, to take your place in the business world. Hundreds of ambitious and energetic soldiers and sailors are now with us, preparing for this service. Others are entering every day. Make a start now, fill in and mail for free catalogue.

YOU MIGHT LIKE TO KNOW

There are many things which you might like to know; there are many things which each of us would like to know; there are many things which you and I will never know; but there is one thing which we all do know, namely,—today, alone, is ours; yesterday has gone into the discard and tomorrow is a long way off. Just what tomorrow may mean to you and to me, depends largely on what we do with today.

After all, time is our most valuable asset and he who wastes money

is not so hopeless as the time waster. Time used in careful preparation is not wasted and definite knowledge on a subject is the surest road to confidence and confidence is the greatest little success winner under the sun.

Commerce is the prime factor in the industrial life of our nation; therefore the Commercial World is seeking the trained mind. The brain stored with definite, practical knowledge along commercial lines is in demand.

Toby's Business College makes a specialty of training young men and women for commercial positions. Its courses in Bookkeeping, Banking, Telegraphy, Penmanship, Commercial Law, Shorthand, Typewriting, the Adding and Posting Machines are thorough and practical; its graduates are possessed of knowledge which inspires confidence and gives commercial value.

Many of the most successful business men and women of your community are either former students of this school or have employed its students and can tell you of the remarkable opportunity it offers you to become an efficient man or woman in the commercial world.

Would you like to know more about a course which will increase your earning power and make you independent? Then write today, for free illustrated catalogue, address Edward Toby, President, Toby's Business College, Waco, Texas.

**GAULT HOUSE OF LOUISVILLE
IS SOON TO BE DEMOLISHED**

A dispatch from Louisville, Ky., says that "the historian old Gault house" has passed forever as a hotel and will end its days as a warehouse. The Galt house was a "Dickens hotel", one of the "American notes". Of it he wrote: "We were as handsomely lodged as though we were in Paris". Dickens was generous in praise of the American hotels at which he stopped on his first visit to this country. Some of these were Barnum's of Baltimore, the Tremont of Boston, the Carlton of New York and the Planters of Saint Louis. These have all disappeared, although the name of the last is still preserved. The only Dickens hotel of which the buildings remain are, perhaps, the Galt house and the West Point Hotel.

**WORK ON RAILROAD IS
MOVING ALONG NICELY**

The grading crew on the Eastland Wichita Falls and Gulf Railroad, that started in between Eastland and Mangum, has reached the city limits east of town.

Other crews working between Mangum and Stephens county are making good time and the grade to the Parks field in Stephens county will be completed at no distant date.—Eastland Chronicle.

**WORK HAS COMMENCED
ON EASTLAND'S HOTEL**

Eastland, June 25—Work has commenced on the erection of Eastland's new hotel and theatre. Both will be known as the Connellee. It is estimated that the structures will cost approximately \$300,000 for the hotel and \$75,000 for the theatre.

Besides these excavations are now under way for the First State bank building to be erected at a cost of more than \$170,000 is being pushed with all possible haste.

Several other smaller buildings were started this week.

**STREAMS OF DARTMOOR
HAVE THEIR OWN SONG**

In his "Reminiscences of an Old West Country Clergyman", William Henry Thornton says that all the Dartmoor (Devonshire, England) streams have their own distinctive songs. "To experience the full truth of this remark would require the long and intimate acquaintance with the district that the old gentleman undoubtedly possessed.

"He held his parish of North Bovey (on the edge of the moor) for more than fifty years, and many a long day did he spend on foot or horseback in traversing its lanes and byways. What with visiting the farmers and cottagers of his large domain, fishing along the lonely moorland streams, searching out the wild birds of the region with his much loved dogs, or following the hounds often half across the county, there were plenty who held that what Mr. Thornton did not know about Dartmoor was not worth knowing.

"The streams to him were like familiar friends, and indeed to any visitor it is plain how full of character and distinctive charm they are. The Bovey Brook that wandered past his home tells especially of peace. Its gentle, insistent murmur is heard through all the sounds of rustic life along its ferny banks—a lowly diapason. Some splashing over its stony bed must come, it is true, when rain storms have fallen about its hidden misty sources in the moor, but as soon as the storm is over the level falls and all is quiet again. The color, too is alluring. Recall the depths of brightness and love that shine in a terrier's eyes when he looks up in his master's face, with the confidence born of long experience, and you have the tint of the cool, clear water. This limpid brown is always to be noted here and there like flashes of amber light. Among the shallows the little spotted trout dart back and forth and the white-throated dipper may sometimes be seen flying swiftly along its course or perching on the boulders, if the watcher is quiet and still."—Christian Science Monitor.

HAS NOTHING ON AMERICA

It is reported that there is a great demand throughout Scandinavia for American motor truck chassis, three to five tons, immediate delivery, price about \$3,000.

**TO INSTALL NEW ICE
PLANT AT BRECKENRIDGE**

Paul A. Moss and associates of Lake Charles, La., have contracted for a twenty-five ton ice factory to be installed in Breckenridge. They have secured a site, and are making preparations to go ahead with the installation.

Wanted—We have several parties wishing to buy moderate priced houses in all parts of town. Can make from \$250.00 to \$1500.00 down payment, balance in monthly payments. If you wish to sell like this, list your property with us. Quick action is our motto.—Mayhew & Co. 2tc

OIL SPECIAL WILL TOUR OIL FIELDS

Will Leave Oklahoma City July 20, And Will Spend Six Days On Tour Cisco Invited to Participate in Enterprise.

Secretary Lancaster has received a communication notifying him of the fact that a special Pullman de luxe train will be run through the oil fields and prospective fields of north Texas and Oklahoma. Cisco is invited to participate in the enterprise and have the train stop in this city. The plan contemplates bringing men of means into the oil fields, men who have had experience in oil enterprises of every character, both as developers and those engaged in the supply business. Probably more men interested in the oil development will be in this party than ever went on a tour of this character.

Just what the Chamber of Commerce will do is not known yet, but the matter will likely be discussed at the next meeting of the body.

But whether Cisco participates or not it is hardly possible that this aggregation can come to the Cisco oil district without Cisco receiving some benefit from their visit. Men here interested in the oil industry will meet the capitalist on this special and discuss the advantages of the Cisco district, especially as to its fitness as the base of supply to the entire district, being centrally located to every producing field and the beauty of its natural surroundings and advantages as the residence city for all operating in this field. This is another opportunity for Cisco to show to men of means the possibilities of this field as a field of investment.

HIGHWAY BUILDINGS IN UNIVERSITIES

Should Be Taught; Improved Highways for Motor Freight and Passenger Transportation Spell Opportunity; Build Roads.

That colleges and higher institutions of learning generally should provide more extensively for research and teaching in the highly important matters of highway location, construction and maintenance and highway transportation, is urged by F. T. Moore, manager of the B. F. Goodrich Rubber Company's Boston house. Throughout the country there is a remarkable development in road construction and with it comes a great extension of road transportation by motor vehicle. And in the face of this movement there is little scientific data to guide road builders and those who are undertaking the use of the highways on a large scale. Regarding this matter Mr. Moore says:

"Improved highways of a permanent type providing motor express and passenger transportation facilities spell opportunity. For, if we but admit that hope lies in a more even distribution of the population then we are committed to the task of arranging facilities to permit that adjustment to take place in a natural way. Improved highways that make possible rapid motor transportation 365 days out of every year will stimulate our people to move out to the surrounding country.

"Throughout the land legislators are at a loss for scientific data on which this great development of motor transportation can be guided to the ultimate good of all.

"For this reason it becomes increasingly important that the colleges, should provide instruction on highways, location, construction and maintenance, and on every aspect of highway transportation. The effort made during the war by the highway transport committee of the Council of National Defense should not stop, but should be incorporated as a definite part of the new Federal Highway Commission. And in addition to classes for instruction in our colleges there should be research groups at work. From such study made, both in the field and in the laboratory will come not only textbooks, teachers and workers, but gradually will be evolved the progressive science of transportation and communication."

HOME LOAN BANKS FOR HOME OWNING

Senator Calder's Bill Creates A Home Loan Board In The Treasury Department; Make Available Two Billion Assets.

Washington.—William M. Calder, Senator from New York, introduced in the Senate recently a bill from the Department of Labor providing for the establishment of a Federal home loan board and home banks, for the purpose of encouraging home building.

Under the terms of the bill, home loan banks would be established by licensing building and loan associations with a view to make it easier for prospective home builders to borrow the necessary funds from them at the lowest possible rate and at the same time to provide the highest class of security to the investors.

The bill was drafted following conferences of representatives of the building and loan associations with the Department of Labor, and it is designed to give impetus to the Nation-wide movement to "own your home."

A broadening of the scope of real estate banking is sought in the bill, which would make almost immediately available for building a large part of the \$2,000,000,000 of good assets held by the building and loan associations of the country.

The Calder bill creates a home loan board in the Treasury Department, which would have supervision over the building and loan associations and which would establish the home loan banks throughout the country by licensing the building and loan associations, making them branches of the central home bank to be established in Washington. The measure was referred to the Senate Committee on Banking and Currency, and it is probable that public hearings will be held on the bill.

W. A. DOWNING NEW SECRETARY C. OF C. ARRIVES

The New Secretary is No Stranger in Texas. Nor is He a Novice in the Work Which He Enters Upon in This Field; Comes from Tulsa.

Mr. W. A. Downing, the new secretary of the Cisco Chamber of Commerce, reached this city Monday night, and is now officially installed in the headquarters of Cisco's commercial organization. His official connection dates from July 1.

Mr. Downing comes to Cisco from Tulsa, where big things are done and accomplished, and where he had a hand in their accomplishment. He was assistant secretary of the Tulsa Chamber of Commerce, and has results to show what he has done and can do in town building.

This is one of the real live towns of the southwest, and has perhaps builded better than most towns, becoming a city of magnificent proportions within the time it requires villages to grow into towns.

In securing Mr. Downing as the working force—the interior of Cisco's Chamber of Commerce, we have indeed secured an asset. His services will be invaluable in building that greater Cisco which is the hope of every patriotic citizen. But we must not depend on the secretary to do all the work, as no one man can build a town—it requires team work. The province of the secretary is organization, but even this cannot be accomplished without co-operation on the part of the members. Perhaps the lack of co-operation is that which has been responsible for Cisco not being a large city at the present time.

Mr. Downing comes to Cisco not as a transient person, as he stated when considering the acceptance of the offer, that he would come to stay if he accepted the position—that Cisco would be his last stand. Since his arrival he stated that he would buy property and build a home here. The natural beauty of Cisco as a residence city, as much as anything else, was a deciding factor in inducing him to accept the offer of the secretaryship of Cisco's commercial body. Mrs. Downing and his son are still in Tulsa, but their coming is only a matter of a few days, as Mr. Downing has already procured a home, and will move his family at once.

The new secretary was formally introduced to Cisco last night at the Chamber of Commerce banquet, and the Round Up bespeaks for him that hearty welcome by all of the citizenry of Cisco, which was manifested at the meeting last night by those present at the festive board.

He Speaks the Language. But Mr. Downing's fitness for the position of commercial secretary is not limited to his connection with the Tulsa Chamber of Commerce, all will admit that such is good training, but Mr. Downing has been in the newspaper game practically all his life, and the best secretaries are drafted from the ranks of the press.

Some communities make the mistake of sending east for their commercial secretaries. It is always preferable that your city worker should be familiar with local and state affairs. Mr. Downing has these qualifications, as he has lived many years in Texas before going to Oklahoma, and this section of the state is familiar to him. He knows the natural conditions and the people—he speaks the language. So he is eminently the right man on the right job.

It is always pleasant to have letters commendatory when one leaves for a new field of labor, especially when voluntarily given. But such is of secondary importance unless the recipient is going into a field where his work entitles those with whom he is associated to know something of his past. Mr. Downing comes with letters of the most commendatory character, voluntarily tendered him on the eve of his departure from Tulsa, and these letters bear the signatures of business men in the highest walks of Tulsa's business circles. Not for any glorification of Mr. Downing, but these letters are reproduced that Cisco may know and appreciate the asset she has secured in annexing this gentleman as secretary of our Chamber of Commerce.

Read them, and you will see that we have secured a man for this position who enjoys the esteem of those whose signatures mean something: Mr. W. A. Downing.
Tulsa, Okla.
Dear Mr. Downing:—
At a meeting of the Board of Directors of the Tulsa Chamber of Commerce held this date, a motion by

Have Music In Your Home

We now have on display in our new music store at Cisco and Comanche largest and most complete stock of VICTROLAS and PHONOGRAPHS that has ever been displayed in Central Texas.

NEW RECORDS--COME HEAR THEM

We now have on display the AUTO PLAYER PIANO, which has been known as the world's finest player piano since the very beginning of player pianos.

DENMAN MUSIC CO.

Our Other Store—South Side Square
Comanche, Tex.

Director Vandever unanimously prevailed directing me to officially express to you the appreciation of the Directors of this organization for the services you have rendered the Tulsa Chamber of Commerce during the past two and one-half years as Assistant Secretary, and to extend to you the very best wishes of the organization in your new work at Cisco, Texas.

You have faithfully and efficiently discharged your duties here and I desire to add my personal commendation and personal good wishes to that of the Directors of this organization. We all wish for you in your new home unqualified success and congratulate the Chamber of Commerce at Cisco, Texas, on securing your services as secretary, believing that you will bring to them a fund of information and a capacity as Secretary which will be of great benefit to that enterprising city.

Very truly yours,
Clarence D. Douglas,
General Secretary.

The Liberty National Bank,
Tulsa, Oklahoma.

To whom it may concern:
This will serve to introduce Mr. Walter A. Downing of this city whom we have known for the past few years. Mr. Downing is taking up his permanent residence in Cisco, Texas.

We regard Mr. Downing as a man of his word, and capable and will carry out any contract he may make. Any consideration shown Mr. Downing will be appreciated both by himself and this bank.

Yours truly,
W. L. Lewis,
Vice-President.

Union National Bank,
Tulsa, Oklahoma.

To whom it may concern:
This letter will introduce Mr. W. A. Downing, assistant secretary of the Chamber of Commerce of this city.

Mr. Downing, whom we have known for some time, is one of our most successful citizens, and as far as we are able to determine, his word is as good as his bond.

Any courtesies extended Mr. Downing will be appreciated by
Yours truly,
J. P. Byrd,
Cashier.

Popular Reich Couple Married Last Sunday

Married at the home of the bride's parents, Mr. and Mrs. G. W. Horn, last Sunday. Mr. Floyd Rains and Miss Eunice Horn, Rev. Martin officiated. Mr. Rains once lived in this community, but now resides in Hamilton, where he is engaged in farming. The bride is the eldest daughter of Mr. and Mrs. Horn, who has ever been most popular here. She will be missed in Reich social circles.

Something unusual happened one day last week. Mr. G. H. Kinsey purchased a new wagon while in Cisco, but from some manner the new vehicle was lost in returning home, and the discovery of his loss was not until he reached home.

Charley Reich and son spent Monday here with home folk.
G. H. Kinsey and wife, Mr. Connor and family, motored to Rising Star Sunday.

Rev. Marten preached here Sunday last, morning and evening. Both sermons were enjoyed by a large congregation, and there was a late dinner spread, which completed a perfect day.

Ray Tyre visited with his grandparents at Nimrod last week.

Mr. and Mrs. Bill Jones were called to Abilene last week to attend the bedside of his brother, Bob Jones.

GULF COMPANY GETS BIG WELL ON DAVIS LEASE

The Breckenridge district has another good well in the Davis No. 3 of the Gulf Company, which is showing for 2600 barrels, which is three feet in the top of the pay. This well is just south of the town of Breckenridge.

This completion, together with the late bringing in of the Stoker No. 2 of the Texas Company, will add between 4,000 and 5,000 barrels daily to the production of the Breckenridge pool.

The Davis No. 3 got the top of the sand at about 3280 feet. This makes the third completion for the Gulf on the Davis lease.

Mr. and Mrs. Sam Jones of Abilene were the guests of Mr. and Mrs. Ward Monday.

Willard SERVICE STATION

We test, repair and recharge storage batteries and always carry a full supply of battery parts, new batteries and rental batteries.

Neighbors

This is more than a place where you can get your battery charged.
It is more than a store where you can buy a new battery.
As we look at it we are neighbors of yours, and we want you to feel the same way about it. A good way to get acquainted is to drive around and have us test your battery with a hydrometer. If you like, we'll show you how to do it, and tell you the few simple tests that ought to be followed to keep the charge up to 125, where it belongs.
If yours is a new one with a Willard Battery, be sure to drive right away so that we can register the battery and give you the benefit of Willard 90-day battery insurance.

NOTE

Moisture-proof package keeps them firm and fresh, whatever the weather.

CAMP OF AMERICAN LEGION FOR GORMAN

A movement is under way among the World War veterans living in Gorman to organize a local Post of the American Legion. The American Legion is the national organization of veterans which was organized at the recent convention of veterans at St. Louis, at which Colonel Lindsey, formerly mayor of Dallas, and Colonel Theodore Roosevelt, son of the ex-president, were the central figures.

All persons are eligible to membership who were in the army or navy of the United States for any length of time between April 6 1917 and November 11 1918, whether they served in the United States or over seas. Citizens of the United States who served in the armies or navies of any of the countries allied with the United States are also eligible. Membership is open to women who served as army nurses or as yeomen in the navy.

A meeting will be held at the Gorman Chamber of Commerce at 9:00

p. m. Tuesday, July 1, to complete the organization of the local Post. All persons living in or near Gorman or elsewhere who are eligible to membership are urged to attend this meeting and help give the local Post a good start. Information may be secured from Mr. Hughes, Secretary of the Chamber of Commerce of Mr. McCormack, telephone 111.

The Legion has received a great deal of attention in newspapers and magazines throughout the country and it is believed that it will exert a great deal of influence as have the United Confederate Veterans or any of the other veteran organizations in the past.—Gorman Progress.

JULY FOURTH BARBECUE POSTPONED UNTIL LATER

Eastland, July 1.—On account of being unable to make the necessary arrangements for the free barbecue for returned soldiers on July 4th, which had been planned by the Eastland County Red Cross, the barbecue will be postponed until a later date, to be decided upon by the Red Cross which date will be announced later. Clyde L. Garrett, Chairman.

RANGER COUPLES LEAD IN MARRIAGE LICENSES

Special correspondence.

Eastland, July 1.—The county clerk reports the following having been granted licenses to wed:

C. W. Bailey and Clara Phillips, Eastland.

L. M. Young and Maud Crossley, Eastland.

Claude A. Lamprich and Gayle Howard, Ranger.

H. Hutchinson and Artie Maxwell, Ranger.

W. C. Kimbrough and Edna Bush, Wm. C. McGlothlin and Roman L. Darling, Ranger.

M. G. Wilson and Bessie Brown, Ranger.

Sidney Franklin and Eva Stacy, Ranger.

C. A. Warren and Bertha Harrington, Ranger.

ASSESSMENTS BEING MADE ON RANGER PROPERTY

Ranger, Texas, June 26.—From the passenger station to Marston street, on Main street, a distance of two blocks, the taxable valuation is \$1,000,000, according to the assessments of City Tax Assessor E. A. Ringgold today. This is four blocks of business houses.

Pine street from the railway two blocks is assessed \$400,000 and Walnut street property has been assessed \$253,000.

It will require thirty days for Assessor Ringgold to complete assessments in Ranger, he said today.

Rev. Lewis Stuckey and wife of Abilene spent Thursday of last week in the city. Rev. Stuckey will be the new pastor of the Methodist church and will take charge about the 15th.

PLACED HIS POKE FOR BABY BONDS

Klondike Miner Invests \$6,214 in Gold Dust in W. S. S.; Carries the Tidings Back to the Woods That Other Miners Might Buy.

Dawson, Yukon, June 25.—With a poke of gold dust as big as a cabbage, a buckskin shirt clad miner from the creeks of the northwest stalked into the postoffice here a few days ago. He placed the bag of glittering mineral on the counter and called to the postmaster.

"I've got \$6,214 worth of dust here," he said. "I want some registered War Savings Stamps instead. They're easier to tote around, nobody can steal them, and besides, I see by your sign that they bring a good rate of interest. Then they're to help the Government, so they're the investment for me. I know that when I want my money I can get it back with the interest it has earned on ten days' written notice."

The postmaster did not have that many war savings stamps on hand at the moment, so the miner waited in town for a few days until they could be sent for, bought them, registered them, and deposited them with one of the local banks. In the United States, only \$1,000 worth of War Savings Stamps may be held by one person, but the rule in Canada is different.

"They look good to me as an investment," he said. "When I get back to the woods I'll tell the boys about them."

Have you bought your War Savings Stamp today?

Thrift Message week, June 29th to July 6th.

W. S. S.

CISCO FIRM PUTS IN BRANCH IN EASTLAND

J. C. Sherman, who has been engaged in the plumbing business in Cisco for the past several years is opening a branch house here. He has secured temporary quarters just north of East Main street near the Phillips residence, where he will carry a complete line of plumbing, gas and electrical supplies. He will be prepared to do plumbing and gas fitting.

R. L. Williams will have charge of the Eastland house and will move his family here as soon as he can secure a house in which to live.

Mr. Williams and Mr. Sherman were both here Monday. They expect to get ready for business in Eastland by the first of next week.—Eastland Chronicle.

STATE SUNDAY SCHOOLS ENDORSE THRIFT MOVE

Galveston, Texas, July 3.—The Texas State Sunday School Convention in session here, Monday, June 23rd, unanimously went on record endorsing the Government's Saving Campaign and urging pastors, Sunday school superintendents and teachers to do all in their power to promote the movement. Following a talk by Captain Ray Holder, educational adviser for the Savings Division, Eleventh Federal District, most of those present agreed to form Savings Societies on either the first or second Sunday of Thrift Message Week, June 29th to July 6th.

Buy War Savings Stamps every day of Thrift Message Week.

CONTRACT LET FOR TWO SCHOOL HOUSES

Special Correspondence.

Eastland, July 1.—The Eastland school board has let the contract for two new graded school buildings. It is understood that the work of construction will begin at once, these buildings may be ready for full term.

The sites selected are the six on Seaman street, near the residence of Mr. W. A. Martin's home; another building will occupy five other blocks west of the square.

RAILROAD PROGRESSES DESPITE RAINY WEATHER

Notwithstanding the great amount of rain the grading of the railroad from Mangum to the Stephens line will be completed ahead of contract limit, which was July 15th. There will be a conference here within the coming week and the matter of locating the new townsite at Wayland will be finally agreed upon and the work will then proceed to Stephens county. The work of laying the steel and putting the completed road into operation will be rushed right along.—Oil Belt News.

CISCO MINISTER TAKES BIBLE CHAIR AT TEX. U.

Rev. Umphrey, present pastor of the Methodist church, will leave for Austin, July 15th, where he has been appointed by Bishop Ainsworth to occupy the Methodist Bible chair at the state university. The Cisco church regrets very much to lose this beloved and able minister and his charming wife. Their departure will be a loss, not only to the church but to the entire town.

Col. Walters, of Moran, was in the city on business Monday.

LARGE TANK COMPANY LOCATED IN GORMAN

Black-Sivills and Bryson, with headquarters at Bertlesville, Okla., are another large tank company who have picked Gorman out for their home. These people are located in the west part of town, and are already busy building tanks and taking orders for others. They are a large concern and the progress extends them the glad hand on behalf of Gorman.—Gorman Progress.

Doubtless this company might have located in Cisco, had the proper inducements been offered. Land owning profiteers frighten many away who would come here and help to develop the property, some of which is held at fictitious value.

The River of Life

Say what you will of whatever part of the human anatomy you please, the river of life is the BLOOD. It is either the swift running stream of health or the gum-laden channel of disease, one or the other.

The new remedy for the blood is

RICH-TONE, The Famous Blood Purifier

the kind that freshens and quickens circulation, energizes the food that fights the battles of life for you.

RICH-TONE, the famous blood purifier, works differently. It reaches through and down till it penetrates the seat of the disease and springs very throat of the cause of it.

It's the only remedy that do And doing this it gets results and cures that no other can.

Mr. Winnett says: "I bought a bottle of Rich-Tone for my mother. She has many other kinds, but nothing has her like Rich-Tone."

This famous tonic is for sale at our store at only \$1.00 per bottle.
