

## Oil News Cisco-Eastland-Ranger Field

PRODUCERS IN  
RANGER FIELD  
ARE REPORTED

Many New Wells Added to the Producers in the Ranger Field.—but Widening of Territory is Not Apparent.

A number of new wells were annexed in the Ranger field the present week, adding to the production column, but making no extensions of territory.

The No. 2 Danley of Markham and the Oil Co. is 1250 bbl. well west of Ranger near the Colony School House, at 3406 feet.

The No. 9 Copeland of Markham and the Tidal Oil Co. in the western part of the field, is a 1000 bbl. well at 3322-32 feet. The No. 13 Copeland is a 1600 bbl. producer at 3500 feet.

Prairie Oil & Gas Co.'s No. 5 Earnest is a 1500 bbl. well at 3320 feet. Sinclair Gulf Oil Co.'s No. 1 Barnes is making 800 bbls. a day at 3670 feet.

Magnolia Petroleum Co.'s No. 5 Nash is going on the pump at 3473-84 feet.

Prairie Oil & Gas Co.'s No. 3-A Keaghey is good for 100 bbls after a shot at 3358 feet.

Humble Oil & Refining Co.'s No. 2 Dick Gray is a 400-bbl. well at 2670 feet in the Desdemona section, although it is in Eastland county. No. 1 Gray came in sometime ago for about the same amount.

Dorsey et al.'s No. 6 Harrison is a 350 bbl. well at 3456 feet.

Prairie Oil & Gas Co.'s No. 4-B Christmas is making 50 bbls. after a shot at 3390 feet.

Prairie Oil & Gas Co.'s No. 3 Meyers is a 940 bbls. producer this week at 3290-3327 feet.

Prairie Oil & Gas Co.'s No. 12 Terrell is making a showing at 3250 feet, drilled to 3285 feet, and is setting casing.

The Texas Co.'s No. 2 Boyd, in the York Survey, western Ranger field, is making about 5 million feet of gas and a spray of oil at 3350 feet.

Chapman et al.'s No. 1 Wright is a 600 bbl. well at 3419-95 feet.

Monitor Oil Co.'s No. 1 Parton was given 350 quarts of nitro and pulled up from 10 bbls. to 50 bbls. at 3265-3482 feet.

Texas & Pacific Coal & Oil Co.'s No. 4 Butler is shut down at the top of the pay at 3190 feet.

Prairie Oil & Gas Co.'s No. 8 Terrell, completed for 1500 bbls. in April, has gone the way of No. 1 and is practically dead this week. It was drilled 4 feet deeper with no results. Neither well has been put on the pump, and it is believed that they will show commercial production on the beam. No. 5 Terrell is making 130 bbls. and No. 9 is making 115 bbls. after a shot at 3468 feet.

Magnolia Petroleum Co.'s No. 4-B Christmas has been given a dose of 90 quarts at 3365-90 feet, and is making 50 bbls.

The Texas Co.'s No. 1 Hightower is a 15 million gas at 3200 feet, and is drilling at 3340 feet.

Great Southern Oil Co.'s No. 1 Baumgartner, north of Eastland, got the top of the black lime at 3165 ft., drilled to 3300 feet without a showing, and is drilling below that depth.

Sinclair Gulf Oil Co.'s No. 1 De Moss was shot 4 times and abandoned.

The Texas Co.'s No. 1 Hogan is making 15 bbls. on the pump at 1615 feet.

Westheimer Oil & Gas Co.'s No. 1 Brashear was shot with 420 quarts and has the rig burned at 3440 feet.

Prairie Oil & Gas Co.'s No. 1 Bransford is dry at 3950 feet.

Humble Oil & Refining Co.'s No. 1 Schor is cleaning out a bridge after a 170 quarts shot at 3120-90 feet.

Jake Hamon's No. 1 Christmas is making 35 bbls. after a shot of 120 quarts at 3443-75 feet. It was reported last week good for more than 900 bbls. a day.

Humble Oil & Refining Co.'s No. 1 Sue is waiting for a shot, after making several shows, at 3475-80 feet.

FEE NO. 2 SOON  
TO BE SPURRED  
IN, IS REPORTED

Fee No. 1 Probably Abandoned; Dismantling of Rig May Be Commenced; No. 2 Will Probably Be Drilled Half Mile Nearer Cisco.

The Sun Company's Fee well No. 1 is for the time being, abandoned, and it is reported that workmen were being sent out to dismantle the drill, preparatory to moving the apparatus half or three quarters of a mile nearer Cisco, where it is said the Fee No. 2 will be spurred in right away. Just when it is not stated, but probably as soon as the drill can be dismantled and moved.

The Sun Company has not abandoned that field, but still has confidence in finding oil in paying quantities.

Prairie Oil & Gas Co.'s No. 1 Parrish is dry at 3645 feet.

Magnolia Petroleum Co.'s No. 6 Rock is swabbing at 3552 feet, and is not completed.

Gulf Production Co.'s No. 9 Taylor is making 1150 bbls. this week at 3475 feet.

Mother Pool Oil Co.'s No. 1 Miller is still gasing and not completed at 1345 feet.

Ranger, Texas, Oil Co.'s No. 1 Harrell is making about 70 million feet of gas at 1733 feet, and efforts are being made to cap the well.

Producers Development Co.'s (formerly carried as West Virginia Coal & Oil Co.) No. 1 Cotton, is drilling at 2200 feet.

WALTER RAY IS  
LOOKING GOOD  
AS A PRODUCER

Fishing in This Well, Which is Standing in 700 or 800 Feet of Oil; Prospects the Best for This to Be a Good Producer. The optimistic feeling for the Wal-

ter Ray being a good producer is not diminished. Pay sand was struck several days ago, and fishing is now going on there. It is reported that the well is standing in 700 or 800 feet of oil, which is of a superior quality. This well is located five miles east of Cisco, and preparations are being made for bringing in a well of good proportions, as the oil showing is good, with a strong flow of gas.

The Walter Ray No. 1 is the property of the Gulf Production company, and the first showing of oil and gas was made at a depth 3440 feet.

The Walter Ray is new territory, being about seven miles west of the Perkins well on the western border of the Ranger pool.

Gulf Production Co.'s No. 1 Hagaman is cleaning after a shot of 90 quarts at 3383-3490 feet.

Gulf Production Co.'s No. 11 Taylor is making 40 bbls. after a shot of 180 quarts at 3409-25 feet.

Humble Oil & Refining Co.'s No. 1 Davis reported last week, is shut down for connections, good for 750 bbls. a day at 3370 feet.

Gillespie et al.'s No. 1 Cotton is making heads estimated at 100 bbls. a day, not completed, at 1140 feet.

SHOOR WELL MAY  
BE MYSTERY OF  
CISCO DISTRICT

Drilling Stopped on Account of Drillers Quitting Job; Big Things Still Expected from this Erratic Performer; Violent Eruptions.

Hope of the Humble's Shoor well being a good producer has not been abandoned by any means. Reports from there are to the effect that little progress has been made. For the fault of the deep hole for this suspended, but this was not for any fault of the deep hole, or this suspension was not for the reasons that indications were not good for the Shoor to be brought in at any time. This suspension was because of the drillers quitting the job.

The Shoor may prove a mystery well, and spurt in at any time, is the belief of those who have been watching the developments of this property. It is said that at intervals violent eruptions take place away down in the bowels of the earth, and the well spews forth quantities of black oil and mud, then quiets down again.

One of the watchers of the Shoor stated that it was the belief of the drillers were really uneasy about these eruptions, which is given as the probable reason of quitting the job.

While hauling the Shoor a few days ago the bailer became detached, at the time of one of the erratic spells of the Shoor, and it was then that the drillers went off the job, according to the information given the Round Up.

The heavy bridge which shut off the flow of gas and oil, has not been removed. The Shoor will be cleaned out and bailed and further efforts be made to bring in the Shoor as a producer, which it is confidently believed it will be.

DEEP HOLES  
PERFORATING  
EASTLAND CO.

Wells in Eastland County That Are Now Below Three Thousand Feet and the Drilling Goes Merrily On Day by Day.

The Prairie Oil & Gas Co.'s No. 4 Meyers is drilling at 3140 feet; No. 2 Roper is 3000 bbl at 3400 feet; No. 3 Roper is drilling at 3300 feet; No. 5 Roper is drilling at 3225 feet; No. 5 Earnest is drilling at 3100 feet; No. 1 Barnes is drilling at 3850 feet; No. 6 Slayden is fishing at 3400 feet; No. 2-A Keaghey is drilling at 3195 feet; No. 3 Howard is shut down at 3390 feet; No. 5 Howard is shut down at 3300 feet; No. 3-A Christmas is shut down at 3222 feet; No. 1 Johnson is shut down at 3175 feet.

Texas & Pacific Coal & Oil Co.'s No. 1 Beck is drilling at 3478 feet; No. 2 Williams is shut down at 3640 feet; No. 15 Brewer is shut fishing 3125 feet; No. 1 Reynolds is cleaning after a shot at 3432 feet; No. 1 Robertson County School Lands is drilling at 3850 feet; No. 5 Butler is drilling at 3230 feet; No. 1 Mancill is changing tools at 3305 feet; No. 2 Meyers is drilling at 3380 feet; No. 1 W. E. McCleskey is drilling at 3175 feet; No. 2 Steward is cleaning at 3225 feet; No. 1 Cook is shut down at 4355 feet; No. 1 Fee is drilling at 3140 feet; No. 2 Hodges is drilling at 3135 feet.

The Texas Co.'s No. 2 Hagaman is shut down at 3240 feet; No. 1 Hagaman is changing tools at 3720 feet. The Atlas Oil Co.'s No. 2 Mann is shut down at 3700 feet.

The Magnolia Petroleum Co.'s No. 2 Connelley is drilling at 3280 feet; No. 1 Davis is drilling at 4050 feet; No. 5 Nash is going on pump at 3484 feet; No. 1 Harris is shut down at 3225 feet.

Crosbie et al.'s No. 6 Crosbie is fishing at 3210 feet.

Gates Oil Co.'s No. 1 Barker T. & N. O. Ry. survey, is underreaming at 3255 feet.

Gilliland et al.'s No. 1 Bullock is fishing at 3450 feet.

Gladstone Oil & Refining Co.'s No. 7 Barton is drilling at 3450 feet; No. 4 Barton is having casing trouble at 3300 feet.

Gulf Production Co.'s No. 4 State land is pulling pipe at 3270 feet; No. 1 Parton is cleaning out at 3520 feet; No. 1 Downtain is pulling pipe at 3622 feet; No. 2 Rowland is cleaning for shot at 3335 feet; No. 2 Rowland is cleaning after shot at 3370 feet; No. 1 Kay is drilling at 3330 feet; No. 2 Parton is fishing at 3458 feet; No. 12 Taylor is fishing at 3425 feet; No. 1 Cantwell is drilling at 3400 feet.

Dunlap et al.'s No. 5 Rock is fishing at 3415 feet; No. 3 Rock is drilling at 3360 feet; No. 1 Barker is drilling at 3325 feet.

Jno. Markham's No. 8 Copeland is cleaning at 3525 feet; No. 10 Copeland is plugging off water at 3565 feet; No. 12 Copeland is shut down at 3465 feet.

The Mid-Kansas Oil & Gas Co.'s No. 2 Griffin is waiting for shot at 3340 feet; No. 3 Layne is fishing at 3425 feet; No. 1 Griffin is cleaning out at 3440 feet; No. 1 Taylor is fishing at 3240 feet; No. 2 McCleskey is fishing at 3485 feet; No. 10 Layne is cleaning after shot at 3495 feet.

The Sinclair Gulf Oil Co.'s No. 2 De Moss is drilling at 3135 feet; No. 1 Hagaman is shut down at 3780 feet; No. 4 Harpool is drilling at 3385 feet; No. 1 Harpool is changing tools to clean out at 3585 feet.

The Westheimer Oil & Gas Co.'s No. 2 Griffin is fishing at 3340 feet; No. 1 Griffin is pulling pipe at 3440 feet; No. 3 Griffin will give shot at 3550 feet; No. 1 Hamilton is cleaning at 3430 feet; No. 5 Griffin is drilling at 3315 feet; No. 6 Griffin is shut down at 3490 feet.

Hivick et al.'s No. 1 56 Strip is drilling at 3150 feet.

W. E. Jones et al.'s No. 1 Jones is drilling at 3300 feet.

J. L. Haman's No. 1 McCleskey is fishing at 3200 feet.

CISCO CITIZEN  
BRINGS GUSHER  
IN AT RANGER

Elisha Roper No. 2 Came in as Producer at a Depth of 3400 Feet; Owned by Cisco Citizen; Trades Royalties for Ranch.

Mr. Elisha Roper of Cisco, brought in the Elisha Roper No. 2 in the Ranger field last Friday. No. 2 proved to be a producer when the drillers had reached a depth of 3400 feet. This well is located on Mr. Roper's farm in the Pleasant Grove community, situated between Ranger and Eastland. It is said that this new well is making 3,000 barrels per day.

Mr. Roper has another big producer, whose initial production at the time it came in, was 6,000 barrels. Besides these there are five other holes being drilled on the Roper tract, two of which are down close to 3,000 feet, and three of the five are drilling at approximately 1500 feet, and one or both of the first two are expected to come in at any time.

Trades Royalties for Land.

Mr. Roper has just recently arrived here from Plainview, where he negotiated a deal for a 1400 acre irrigated farm and ranch in the Plainview country. In the deal Mr. Roper parts with the oil royalties on a tract of 27 acres in Eastland county, and becomes the owner of this farm and ranch, 1100 acres of which is in cultivation, 700 acres is planted to wheat alone. He was there to look after the harvesting of the wheat and seeing it threshed, the rent of this alone will amount to \$5,000.

Came Here from Eastland.

Mr. Roper is another good citizen for whom Cisco drew on Eastland to supply the metropolis. Several have seen the light and removed to the future metropolis of middle west Texas. Mr. J. O. Sue is another who prefers a city with modern improvements, and has cast his lot with Cisco, and like Mr. Roper is helping to make the greater Cisco. Both of these gentlemen have bought property here, built handsome homes, and both are largely interested in the American National Bank, and are among the larger stockholders in that financial institution. Both have other investments here which has already contributed materially to Cisco's prosperity.

ANOTHER BIG WELL IN  
RANGER FIELD NOW IN

Special Correspondence.

Eastland, July 1.—The Texas Pacific Coal and Oil company's J. E. Butler well came in Saturday at noon. According to the statements of Superintendent White the well came in with a flow of 100 barrels an hour. The new well is placed as a 5,000 barrel producer. Further drilling is expected to make it better than 2400. It is now down 3444 feet.

The same company's W. T. Parker well has a showing at 3653 feet.

The Sun Company's Suler well in the Desdemona field, which was completed Friday night, is reported producing 2,000 barrels at 2655 feet.

RANGER PRODUCTION

## CISCO SPIRIT FEATURED THE BANQUET TALK

The Annual Banquet of the Chamber of Commerce was Held Last Evening in the Willard Station; Many Out of Town Visitors.

The Chamber of Commerce banquet given at the Willard Station last evening was one of the most important events that has been staged in Cisco in many months. Too eager, perhaps, have most been chasing the elusive dollar, to think and act along lines of sociability. This served to bring the Ciscoites back to earth, and remind them that social ties are, after all, all that is worth while.

This coming together in social intercourse stimulates a better spirit among all, and works for a better and greater Cisco. We now have a better understanding, for we are better acquainted.

Too infrequent are such events, for every community cannot help but be benefited if we would see and know each other better. Men are not so bad, when we come to know them. This was manifested last evening when the genuine Cisco spirit prevailed.

The function is being staged just previous to the hour of going to press, hence the Round Up is unable to give a full account of the proceedings, so to do the subject justice, a more detailed story of the annual banquet of the Cisco Chamber of Commerce will appear in next week's paper.

Mr. and Mrs. Herbert Brandon departed Tuesday for their home in Fort Worth after a visit here.

## BERT DAVIS PLAYERS HERE ALL NEXT WEEK

In their big tent the Bert Davis players will open a week's engagement in Cisco next Monday night. The Bert Davis players have been playing to large audiences in nearby towns, where general satisfaction prevailed.

A troupe of talented artists are in this combination, three of the players being overseas soldiers, who are just back from France. They are able to entertain you with their talent, equally as well as they entertained the huns with their fighting. They will play in their own tent, which will be located on the XX Century lot opposite the Alexander hotel.

The Bert Davis players give you an evening's wholesome entertainment, spiced, yet free of low vulgarisms. Popular prices of 15 and 20 cents will be charged. The opening night will be "The Boy Who Came Back," and ladies will be admitted free, plus the war tax of 3 cents. Ladies, just put three pennies in your pocket Monday night, and see the cleanest entertainment you have witnessed in many days.

### Honoring Mrs. L. E. Brannin—

An informal noon luncheon was served at the home of Mr. and Mrs. G. B. Kelly Thursday, the event being in honor of Mrs. L. E. Brannin of Dallas. Those enjoying the hospitality of Mr. and Mrs. Kelly on this occasion, besides the honoree, were Mr. and Mrs. Alex Ward, Mrs. Edgar Butts, Misses Helen, Virginia and Mary Jane Butts, Elizabeth and Catharine Brannin. The occasion was most pleasant to the guests present, who had gathered there honoring the Dallas guest.

Mrs. T. L. Copelin of Austin, is the guest of Mrs. W. E. Spencer this week.

## GASER PROVES A GUSHER AT 1500

The well being drilled on the J. Z. Miller tract by the Mother Pool Oil Company caused quite a deal of interest and some comment among the oil fraternity of the week. This well is located two miles northeast of Eastland. Sunday morning it began flowing oil out of the ten-inch casing at a depth of fifteen hundred feet. The crew were taken by surprise, as the well started gushing without warning and no preparations had been made to take care of production at that depth, as none was expected. Oil is running in every direction this evening, at an estimated rate of 1500 barrels a day. This well was a gaser at 1100 feet. It was mud dried in and drilling was resumed. Its performance today is taken by oil men to prove a theory that there is a shallow oil pool a short distance from Eastland. This theory is based on the fact that oil sand has been struck in several wells in this vicinity at from 1400 to 1500 feet. Except in the Gillespie well on the O. J. Cotton tract, production at that depth has not exceeded fifty barrels heretofore and it has been cased off.—Eastland Chronicle.

### War Celebrity Here.—

Count von Maurik de Beaufort, the man who interviewed Marshal von Hindenburg, was a caller at the Round Up office yesterday. He is the author of a war book in which many things behind the scenes of the German army is reviewed. With him he has many scenes of world interest. These will be shown in an illustrated lecture at the Folly theatre Sunday afternoon and night.

Miss Mary Jane Butts of Cisco was the week end guest of Mrs. C. U. Connelley last week.—Eastland Chronicle.

## LITTLE FLORENCE PULLEY RUN DOWN BY AUTO

Little Florence Pulley, the little seven year old daughter of Mr. and Mrs. W. P. Pulley, was the victim of an auto accident last Tuesday about noon. The little girl, with a companion, was returning from her music lessons, and when at the corner of Fifth and Main streets she was struck by a car coming down the hill. Fortunately the little girl was more frightened than injured. She was picked up and carried to a physician's office, who examined her, and patched up her bruises, which were the only injury resultant.

The car, which was a service car, was driven by a man by the name of Peebles. He stated that both the brake and horn were in poor condition, and he could neither hold the machine or give the alarm.

The two little girls, on perceiving their dangerous predicament, separated, one on each side, and the driver stated that he could not avoid striking one or the other.

### New Manager for Nunn's—

Mr. C. D. Myers is the manager for the Nunn Electric Shop, Mr. Daniels having tendered his resignation to go into other work, but just what he has not definitely decided. He has several that he is considering but for the present he is still with the Electric Shop assisting the new manager in getting a line on the business here. Mr. Myers comes here from Dallas, where he left his wife, who will join him in this city as soon as he is able to procure apartments in which to live.

Peaches are now selling at \$1.00 per bushel, yet Cisco cafes continue to dish out the canned variety to the homeless wayfarer sojourning in our borders, at 15c per dish. Why not patronize the farmer who grows the fruit, and keep the money to build up Eastland county.

## THE HOMESTEADERS ENTERTAIN HEROES

Ever on the lookout for the entertainment of the returned soldier boys, the Fraternal Orders of Cisco have given many entertainments for them since they returned, the one given Saturday night by the members of Cisco Homestead No. 277, was one of the most enjoyable ones of the season. An invitation to every returned soldier was extended, and many came to share the hospitality of the members. A splendid program has been arranged, consisting of music, readings, and addresses, the principal speaker of the evening was Hon. Ben S. Baldwin, of Fort Worth, but now a resident of Cisco. His pleasing remarks, and cordial invitation to every returned soldier to make themselves one of us, and the hearty welcome extended him upon their return home, and expressing himself of the great fondness he has ever had for the boys, and of his high appreciation of what they had done, his whole address was listened

to with pleasure, receiving a hearty applause at its close. Hon. J. P. Tolley gave an interesting talk on fraternity and extended a welcome to the boys, and congratulated them upon their return home not disgraced, followed by Dr. Joseph Gregory, the boys were invited to feel they were indeed welcome home again. Mrs. J. D. Alexander gave a cordial welcome to all the boys, said she had known the parents of every boy there before they were married, and yet not old. Wiley Hitson gave the crowning speech of the evening, these were tears and laughter all through his forty minutes talk, and it is arranged for Wiley to give an hour at the next meeting the Fraternal Orders give.

After the program a splendid ice course with the home made cake was served, and the boys said the welcome they had received paid for all they had done for their home and country.

Miss Velma Leech is visiting friends in Albany.

**JACKSON JINGLES**

THEIR JULY 4th

By Elvie H. Jackson

Their July 4th popped gayly by, their boy put out his left hand eye, blistered his pert and round snub nose, blew out a tooth and two end toes. Father's coat was punched by sparks from pin wheels turned—with firey marks, his pate was singed; in chunks! but yes! he had his fun in hunks! Tho all of mother's top hair blazed it never had her courage faded; thru Roman candles showing for, she flung her hair down on the floor. What tho the cannon gouged sis' ear, one was left, she still could hear! The family fell in bed that night, wan but jubilant, o'er their 4th spent right!

**COUNTY SEAT HAPPENINGS**

Eastland News of Interest by Special Correspondence to The Round-Up

**Injured by Dam Site.**

J. Pettit, Secretary of Chamber of Commerce, is wondering if there aren't two ways of spelling a dam site. In company with Senator Brelsford, Tom Crutcher, W. B. Sutton, W. K. Jackson, Ward, the Prairie attorney, and a photographer, the party, in two cars, visited the proposed Dam Site, and watched with interest the birds-eye views secured of the locality from the some-time-to-be Country Club grounds, including one of Eastland. The opinion of T. & P. engineers, that sufficient water could be stored here to take care of fifty thousand people, in addition to the industrial factory activities and supply used by T. & P. round house, (when latter's division point is located here) made the men feel good and that dam site spelled big. But bigger yet when J. Pettit's head was thrust through the wind shield on the return trip, decorating him with cuts on the mouth, neck and head. A stump can do lots of things, sometimes, and this one did a plenty to the car. Mr. Pettit, the driver and photographer were in!

**\$100,000 Methodist Church.**

Methodists expressed themselves at the close of a sermon recently by request, and responded thus. "Should a \$100,000 church be built? \$10,000 will be given by Messrs. Roper, \$10,000 by Mr. Wolfe, Mrs. Connelley and Judge Cyrus Frost, each. Or, 10 per cent of any lesser amount." The revival, which was announced for all last week, was postponed for

lack of a speaker. Rev. Lee of Cisco, a great favorite here, and who had been expecting to conduct these services, assisted by local pastor Z. R. Fee, was unable to fulfill his engagement, owing to his appointment to the chair of Theology in the Texas University and necessity of immediate acceptance.

**S. O. C. Camp.**

The States Oil Company will soon have a little town all its own, on the Norwood tract, about one mile east of the court house on the Ranger road, called "States Oil Company Camp." Four pretty residences are completed and families of the men in authority neatly installed. Of these, Mrs. Colclough is now in Dallas on a purchasing trip for her home's furnishings. The office building is nearly ready for occupancy, and the streets are all laid out and graded. Joe Weaver, of the States, and his partner, J. G. McCaskey, will return today, Friday, from a visit to Pittsburg of three weeks. Mrs. Weaver went to Dallas Tuesday to meet her husband there and remain over Thursday.

**Roman Catholic to Build**

The Catholics will build a suitable edifice for church services in the near future. Several families of this faith are now in our midst, and a surprising number of men, drawn here by the oil activities. At present, the services are held each alternate Sunday morning, in the Woodmen's hall.

**Evolution of Music**

Music has come down through the centuries, ever demanding for its inspiration and setting, episodes of immortal significance.

World events, El Dorados of gold and oil, have furnished in their mad scramble the tragedy, love and comedy from which our music is conceived. Glorious symphonies, and operas are mirrored in perpetuity by their ever fresh charm to remind us of stirring times long dead.

Our more or less drab existence demands that we familiarize ourselves with the best that music has to offer. This can best be accomplished by owning

- Ed Duncan vs. O. E. Latslaw, et al, trespass to try title.

**Petit Jury, Second Week.**

The following is the petit jury drawn for the second week of the present term of the 88th district court. These will report for jury service July 14:

- J. E. James, Ranger; C. M. Woods, Sabano; Jasper Daniels, Cisco; J. G. Medford, Cisco; R. C. Outlaw, Ranger; A. J. Pippin, Cisco; R. A. Agnew, Cisco; L. E. Galley, Strawn; J. C. Duke, Sabano; N. J. Pounds, Carbon; J. W. Wallace, Cisco; Luther Harrington, Desdemona; W. W. Moore, Cisco; Jim Holloway, Carbon; G. A. Roberts, Cisco; T. M. Vick, Cisco; W. N. Warren, Carbon; S. L. Yeager, Cisco; J. T. Dougherty, Carbon; F. M. Hooks, Cisco; A. A. Webster, Cisco; J. H. Wyatt, Cisco; W. G. Bennett, Cisco; K. S. Duncan, Carbon; J. B. Bishop, Eastland; J. H. Pitman, Carbon; J. E. Foster, Gorman; E. B. Gude, Cisco; P. F. White, Desdemona; Elbert Ezell, Nimrod.

**The Faggs Are at Home**

Mr. and Mrs. Fagg and their son are now settled in their charming new home on South Seaman street, and Eastland's gain in these new citizens is Abilene's loss, as they had maintained their residence there some years, tho Mr. Fagg is of the Campbell-Fagg firm here. In the completeness of garage, with granitoid driveway and walks, one can scarcely realize that five weeks ago this site was but a weed grown plot. Sidewalks are going down rapidly on Seaman street, and sewer pipes stacked in readiness to be laid.

**New Officers Inducted**

Eastland has adopted the commission form of municipal government. The new officers have been inducted into office, and Eastland is under a city manager. Those taking over the city are Jos. W. Weaver, chairman board of commissioners; C. B. Frost, P. H. Wolfe, R. E. Sikes, and W. E. Hupp, commissioners; W. Lander, city manager; Frank Stobblefield, city secretary; W. M. McGough, chief of police.

**Organize Presbyterian Church.**

Dr. B. W. Webb of Dallas, state superintendent of Presbyterian Home Missions, was calling on Superintendent of Public Schools E. A. Ellis, this week, with a view of organizing a Presbyterian church here. They visited Messrs. Sutton, Madera, Rhea, Love, and W. K. Jackson, who will combine and buy a site suitable for such a church and start the project immediately.

**Miss Howard Is Librarian.**

Miss Howard, the county superintendent of schools, is now also librarian of the Woman's Club library. Over a thousand volumes are open to the public in her office in the court house. Every day except Sunday, seekers of books will be waited on cheerfully.

The Tennis club, located at extreme south end of Seaman, nearly floated away, during the recent downpour, one member ruefully exclaimed: "The new courts were submerged feet deep."

**Personal.**

Mrs. M. Luther Davenport, who was operated on ten days ago, at the Baptist Sanitarium, Dallas, for appendicitis, is making a steady recovery. Mr. Davenport will remain in Dallas until she is able to be brought home, in about two weeks. Their beautiful residence, usually the scene of social gaiety, has looked most

**FORMER TREASURY OFFICIAL LOCATES**

The Man Who Managed the War Exhibits in Liberty Loan Drives is Now a Citizen of Cisco; Will Engage in Real Estate Business.

Stopping over just to see the town, Mr. E. N. Kavanaugh soon became impressed with this section of the state. Cisco appealed to him strongly, as this city does to a large percentage of those who see this town, but he was in no hurry, and took in the entire section, visiting the whole of the oil district. In other places he of course, saw many things of interest—acres of oil derricks covering earth punctures from which flowed the liquid gold in endless streams, and was much impressed; he saw fertile lands upon which a most bountiful harvest had been garnered, wheat, oats and all manner of small grain. Besides the harvest of the bumper wheat and small grain, he was impressed with the splendid growing crops of cotton, melons, fruit, corn and all manner of feed. But he saw something else. To his clear vision there loomed in the center of all this wealth and prosperity a metropolis of middle west Texas—Cisco. And right here he decided to cast his anchor.

"I was just looking over the country for some place to locate, and saw in Cisco all that pleased me, and right here I will cast my lot. I think it will be a hard matter to induce me to ever leave this favored city, in which I see great possibilities," said Mr. Kavanaugh to a Round Up man.

Mr. Kavanaugh is the man who managed the great war exhibit during the Liberty Loan campaigns, and it was he who mapped out the routes and piloted the exhibits over the country, showing war trophies sent to America for the purpose.

Before taking up this work he was in the secret service, and comes to Cisco with the strongest letters of endorsement of him as a faithful official and a gentleman.

Mr. Kavanaugh will engage in the real estate business here, and is now negotiating for suitable offices.

**OIL ACTIVITY IN THE BRECKENRIDGE FIELD**

- Empire No. 1 still drilling by tools.
- Empire No. 2 waiting for under-rimmer.
- Texas Cushing, Proctor No. 1, 2-995 feet.
- Texas Cushing, Colbert No. 1, 980 feet; drilling.
- Arkansas Gas Co., Nail ranch, 925 feet.
- Sun, Reynolds No. 1, shut down at 2960 feet.
- Sun Matthews, drilling 1020.
- Phillips Petroleum, Jack Brown shut down at 3710.
- Texahoma, Blach ranch, waiting for 15-inch casing.

**Married in Waco Monday.**

On leaving here last week few of his friends knew that Mr. J. B. Holloway intended to return to Cisco a married man. His pleasant trip was for that very purpose, for in the city of Waco last Monday he was happily joined in the bonds of wedlock to Miss Annette Neathery, one of Waco's most popular young ladies. This happy pair will make Cisco their home as Mr. Holloway is one of the attaches of the First Guaranty Bank, where he holds a responsible position.

**Notice.**

The partnership heretofore existing between S. A. Owen and D. S. Lewis, carrying on the business known as the Owen Planing Mill, has been dissolved by mutual consent. S. A. Owen has bought the interest of D. S. Lewis, and will pay all debts of the concern. All accounts due said Owen Planing Mill are payable to S. A. Owen.

Cisco, Texas, June 21, 1919. 9-3c

lonesome, as the Davenport children have been with relatives in Paris some weeks.

Mrs. McMahan, wife of the Baptist pastor, is home, after a four weeks stay at the Baptist sanitarium in Dallas, where she underwent a major operation.

Court house officials and employees are much disgruntled over the coming reduction in salaries due to the recent enactment of the legislature.

Miss Rachel Hosea of Fordyce, Arkansas, left Tuesday for home, after a visit of several weeks with her aunt, Mrs. W. K. Jackson.

There will be no special feature of amusement here on the Fourth, outside of a ball game at the race track, and not sure about that.

Miss Harris, who is attending a Dallas business college, was the past week's guest of her sister, Mrs. Z. R. Fox.

### WILL PROHIBITION STILL BE BONE OF CONTENTION?

There is going to be only a partial settlement of the prohibition question by the adoption of the constitutional prohibition amendment. Already congress is besieged to exempt wine and beer. This will not suit the ultra drys, and without its exemption in the framing of the dry statute the conservatives, the labor and soldier element is liable to make a mighty change in the personnel of Congress. Verily, the representatives in close states are between the devil and the deep blue sea. If they adopt the Wilson policy they have the militant prohibition body barking at their heels, while if they do not the soldier and labor vote may go after their scalp, so there you are.

In days of delegated nominations bigger and better men were chosen to represent the people. It seems that the very means sought to correct the evil, which at times had defeated the popular choice, has been its own undoing. Men are in high places who could never have been elected under the convention system. In the primary or direct method of making nominations men vote for a candidate because he is a good fellow, or for various other reasons—rarely is his qualifications considered.

Often the man who is willing or able to spend the most money—his own or the money or special interest, are the men who receive the nomination, regardless of his fitness for the office. Ex-Governor Ferguson stated that he spent \$30,000 to be elected governor of Texas. It has been stated that not a dollar of this sum was from his private fortune but generously contributed by those who expected his administration to be advantageous to their business.

The brewers have been accused of furnishing this campaign fund, but one who supported Ferguson and managed his campaign in a limited way, is authority for the statement that the campaign expenses was defrayed by the foreign insurance companies. Whether this be true or false, subsequent events were significant, as it is a matter of record that Governor Ferguson strongly advocated their re-entry in Texas.

For the moment the country is concerned with the Wilson policy—lifting the war ban on wine and beer. The wets say that the passage of the amendment was sprung when half of the friends of "personal liberty" were in France, claiming snap judgment. The legislators had already been elected, and it was to the legislative bodies the amendment was presented—not to a popular vote.

In our zeal for a direct democracy, instead of the representative democracy of the fathers, we have overlooked one essential. There was a clamor for the election of United States Senators by the popular vote. This finally prevailed. There was no clamor for the ratification of the constitutional amendments by the people—this prerogative remained vested in the legislatures.

The framers of the constitution provided for the election of United States senators and the ratification of amendments to the constitution, should be by a two-thirds vote of the legislatures of the several states. These two were sister provisions, and no thought of their divorcement was contemplated by those who framed the organic law of the country. We are now seeing the effect of the repeal of the one, while the other remains as originally framed. With the adoption of the provision for the election of United States senators by direct vote should also have been included the ratification of constitutional amendments.

The legislature of Texas convened June 24th in extra session, and many rushed their measures to the clerk's desk that theirs might be the first to ask for the ratification of the Susan B. Anthony amendment providing for woman suffrage, and this in the face of the fact that the voters of the state have repudiated woman suffrage. Little heed was given to vox populi by those who mis-represent the people at Austin, yet they were nominated by the direct primary system, and are supposed to reflect the will of their constituents.

Verily, this is the day of little men in public life, and there be those who charge the primary system as being responsible.

### INCREASED RAIROAD RATES EXPECTED.

Already the railroad propaganda is beginning to work. Interviews are being sent out showing the necessity of increased freight and passenger rates as soon as the railroads are returned to their owners. Those wise birds who have been clamoring for the return of the roads are to get more than they bargained for. Surely there will be a limit of endurance some time for the exploitation of the people.

But this is no surprise to those who have read the signs of the times aught; those students of industrial economy have forecasted just such results, as all agree that the favored big four brotherhoods, who were granted increased wages, must be reckoned with, for it will not be without resistance that they will stand for a reduction in wages. Any attempt along this line will result in the most far-reaching industrial upheaval this country ever saw. The owners see this, hence the propaganda for increased rates.

But have the people no place in the consideration of industrial rates? Must they continually pay the bill that big business may fatten at their expense? Already the cost of living has reached a point where the people are taxed to the limit. The man who thinks the people will continually bear increased burdens, or presumes it is possible to lay further tribute upon the masses to avert industrial revolution, may find in the end that he has fostered a social revolution in his endeavors, and thereby amputated a pimple on the body of the government only to produce a cancer.

The personal liberty parade culminating in a demonstration on the capital steps, numbered 100,000 laborers and soldiers. Only Old Glory banners were displayed. The demonstration was in advocacy of the Wilson doctrine, for the removal of the bans on wine and beer. Something may happen, for they do say that the average congressman is mighty leary of the labor and soldier influence.

Houston has a municipal store to curb the graft of the local profiteers. The municipal establishment is causing the local dealers to lower prices. The example is one worthy of other towns to adopt. The greed of the grafter knows no law but force. When municipalities everywhere put in stores then these fellows will be content with legitimate profit.

While taking action on cleaning up the city it is well to call attention to the two lots on Sixth street between Avenues E and F. This property is grown up in weeds, high grass and brush. The Round-Up is informed that these lots are the property of the XX Century Club. If so this is not the shining example one would expect from a civic organization, but the coming tent show will be pitched on this lot and the weed nuisance will be abated.

Wonder if the days of patriotism will ever return to the United States—the days when congress and the legislatures will enact laws without holding their ear to the ground to catch the popular swell of public opinion, or factional approval?

All sorts of charges are being made about army inefficiency. The latest is that the majority of army surgeons were inefficient. Of course. It was generally understood that many of the doctors went into the service to become physicians and surgeons.

Officers in Eastland county are worrying somewhat regarding the recent laws affecting excess fees. Eastland's population has increased so rapidly that many of the county officials will find themselves in the Excess fee class, and if they are not prudent, will be compelled to "dig up" when their accounts are checked over.

While Texas has crowded her statute books with laws, she has evidently overlooked one in particular, that of making it a penitentiary offense to throw filth and other debris in the public highways of the state.

The City Council passed an ordinance recently compelling every property owner to clean up and cut the weeds on his property, and we are of the opinion that the Marshal will have to bring some of them to time. Fort Worth is prosecuting those thus delinquent.

A thorough washing of the windows of some of the business houses on main street would not be inappropriate. Clean up, Cisco is going to make a city of 20,000 by 1920.

Come on property owners, let's get out of the mud—build good roads, they are cheaper.

# Welding and Cutting

Don't throw that broken crank case, crank shaft, connecting rod, frame, or any other metal part away. We can weld it and make it as good as new.

No job too small or too large. Any metal, any time. ALL WORK GUARANTEED.

# Huey Motor Company

## INDEPENDENCE DAY

JULY 4th, 1919

In the tens of thousands of America's cities, villages and towns this Independence Day, the Children of Freedom, with hearts that beat anew with love and pride and patriotism will pay fitting honor to the anniversary of the birth of our nation.

This time last year our gallant boys were fighting for freedom on the shell-torn fields of Picardy and Flandres; near Amiens and St. Mihiel, or in the triumphant advance of Italy, giving their best that Liberty may never die. Now they're coming back to us, marching to the tune of victory. Their faces are flushed with the joy of their longed home-coming, filling our waiting hearts with a fuller spirit of love for them and pride in them and patriotism for the stary emblem of Freedom, beneath the folds of which they fought and won.

We have sheathed our swords of war to proclaim again our glorious independence; to pledge ourselves anew to live and love and strive for this, our native land; to shoulder to shoulder, freemen all; lovers of Liberty; dauntless soldiers of Freedom.

Let today our voices ring in glad new triumph for our independence, as on that day 143 years ago, the old bell rang its message round the world, still echoing in our hearts and minds.

"RING, RING FOR LIBERTY!"

# JUDIA OPERA HOUSE HERE UNEXCELLED

Most Modernly Constructed Theatre Between Fort Worth and El Paso; Formally Opened Last Monday; Vaudeville Today and Tomorrow.

One of the show places in Cisco is the Judia-Lauderdale theatre, a show place in more respects than a place where shows are seen, pictures, vaudeville and operas—but is a show place in the sense of being one of the beauty spots of the city. After months employed in construction, it was formally opened last Monday night, when an unusually strong feature picture was flashed on the screen for the first time.

Today and tomorrow a strong cast of vaudeville performers are holding the boards at the Judia, and a high class attraction is being given for the amusement of the Cisco public.

The Judia is a large three story building, the ground floors are the show places, so far as pictures and performers can be seen, but there are attractive and commodious apartments on the second floor, while the Cisco Athletic Club has leased the top or third floor as the home of this organization.

But the opera house proper is quite different from anything so far in this section, and more modern than any theatre between Fort Worth and El Paso. We know of no other theatre constructed on the plan of the Judia in the state.

There are finer buildings in Dallas and Fort Worth, also El Paso, perhaps—that is more expensively decorated, but if there is one on the plan of the Judia construction we are not informed.

The Judia is 30x105 feet, and three stories high. The front has vestibule entrance with tile floor, with the ticket office in the centre. Two rooms flank the vestibule, which will be valuable locations for appropriate merchandise. The stairway to the upper floors is situated on the south side of the building.

But the main features—wherein the Judia excels, is the theatre. Two compartments divides the building,

one of which will be exclusively for motion pictures, the other the legitimate stage, where performers will be staged. In fact, the Judia is two opera houses in one, and is indeed an ornament to the city. Cisco has reason to be proud of the Judia, and as soon as the fall season opens some high class attractions can be expected to be seen in this modern theatre.

## TEXAS COMPANY MAKES LOCATIONS

The Texas Company, whose offices and headquarters are located in this city, have recently made new locations on the W. T. Boyd tract, in the northeast part of the county, on which they will soon begin developments. It is understood that over a dozen locations have already been designated, and derricks will be erected at an early date. It is stated that the estimated possible worth of the productions from this tract will approximate \$50,000,000.

## WILL EXCHANGE STAMP ENVELOPES

Postmaster St. John requests the Round-Up to notify the public that the Cisco postoffice will take in exchange all unsoiled 3 cent stamped envelopes, provided same are returned during July. This also applies to all 2 cent postal cards now in the hands of any one. Two cent postage was revived on the first of July, and by returning these 3 cent stamped envelopes you save one-third, as you can get three for two, while on the postal cards your saving will be 100 per cent.

**Kenneson Named J. P.—** The commissioners court of Eastland county met Tuesday for the purpose of appointing a justice of the peace for the Desdemona district. Upon proper recommendation Mr. Ollie Kenneson was appointed to fill the office of chief executive of that district.

Mr. Kenneson is a very capable and popular citizen of that community and well qualified to maintain the peace and dignity of that vicinity. We are confident that the entire district heartily approves of the wisdom of this court's action.—Oil Belt News.

## POPULARLY ACCLAIM DR. J. FRANK NORRIS

The Baptist Divine Who Will Commence Meeting Here August 4. Most Favorably Mentioned by Boston Magazine.

In the June issue of a popular Boston magazine is a large portrait of Dr. J. Frank Norris, with a write-up of this wonderful preacher. Among other things, the writer says:

"From the most universally disliked man in the town he has become the most beloved and popular. Even the newspapers which once refused to print his name except in connection with some disparaging item, acclaim him Fort Worth's most useful citizen. Gamblers, politicians, ex-saloon men and other enemies, who would gladly have contributed to his scalp fund, now repudiate their actions and honor the man whom they once all but crucified."

"He is courageous and knows he is morally right. He has been tested by fire, and the tragedy of it all has mellowed his nature and shamed his enemies, to the point of humility and admiration. None other than a great and sincere soul could have withstood the ordeal."

Dr. Norris will begin his only meeting in Texas for this year, in Cisco, on Monday, August 4.

Tomatoes are selling in Abilene this week for 30 cents per basket, while Cisco cafes are disposing of this toothsome vegetable at 15 cents for six slices. Funny how generous Cisco caterers are.

The summer dress goods at the store of E. B. Gude & Sons are the most attractive seen in this section. Nothing can be nicer. The ladies of Cisco are requested to look over this line.

**Secret Prayer for Revival.** At the Baptist church Tuesday afternoon, the Ladies Aid had their regular monthly business meeting. At this meeting it was decided to engage in secret prayer for one hour each day until the protracted services in August. They would appreciate the hearty co-operation of the churches of the town. The hour is from two to three o'clock.

his predecessor. This bond issue was never popular in Eastland, many of her citizens openly opposing it, and in preparing the district they excluded a great deal of Eastland territory. Most of the taxable property is situated in and around Cisco and Ranger. Around the latter place the territory was extended several miles but brought to a narrow strip

# "It's Better to Be Safe Than Sorry."

WHEN A 42 CENTEMETER SHELL CAME OVER AND HIT THE SAME SPOT A BOCHE OCCUPIED HE WAS DECIDEDLY "OUT OF LUCK"

When you are out 40 miles from nowhere in particular, and that old tire blows out, you are out of luck. Not in quite as bad a fix as the Boche, but you're are liable to show up in the pleasure casualty list if it should happen twice in a day.

Why not be on top of the board "in luck" all the time by keeping your auto equipped with Royal Cord Casings and the things that go with them.

Go over your car today and check over closely and see if you have everything for an emergency, such as

TUBES, COLD PATCHES, PUMPS, MUD CHAINS, WRENCHES, HAMMERS, PLYERS, SCREW DRIVERS, GASOLINE, OIL and AN AUTO JACK.

Two of the largest stocks of Automobile Accessories in the country to choose from. Pay us a friendly visit and be in luck.

GUY BERT DAVIS Sole Owner and Manager

MARGUERITE EBY, Sourette

## CALIFORNIA CAPITALISTS REACH HERE

Own Valuable Leases Near City and Development Work Will Soon Begin; Enthusiastic Boosters for Cisco Already.

Arriving in Cisco, unheralded, were six gentlemen from San Diego, Calif., whose coming here means the development of valuable oil holdings within a few miles of Cisco, where they have 320 acres on which a well will be drilled at an early day.

Just when this development will commence is not stated, but they said it would be within the near future, probably the preliminary work would commence in a few days.

The sextette composing this party are Messrs E. A. Perkins, E. Byron Siens, P. M. Johnson, H. B. Adsit, J. G. Baccus and E. Watson. Mr. Perkins will make this his permanent home, while the other gentlemen are interested in the property mentioned, or are here seeking investment.

The definite plans have not as yet been worked out, but in next week's Round Up full details of the plans will be given.

These gentlemen were guests of the Chamber of Commerce at the annual banquet last night, and their enthusiasm which was manifested for Cisco was most gratifying, and made all Ciscoite boosters glad that they were interested in that Greater Cisco which the boosters have planned and dreamed of.

### New Methodist Pastor—

Rev. Lewis of Abilene, is the new minister who will come to Cisco as pastor of the Methodist congregation. Mr. and Mrs. Stucky were here this week, and it is understood they will move to this city where Mr. Stucky will begin his pastorate about July 15.

At least ten lenial feet of Main street has been paved during the past week. The paving contractor is now making progress. Cisco people should take courage. The job will about be finished by the time the last soldier returns from overseas.

## POSTAL CLERKS ARE EXAMINED

Postal Examiner Wm. Swife was here last Tuesday night, and held an examination of the clerks in the local postoffice. Two made most creditable records in these examinations. E. J. Kiker made 99 per cent, which is practically perfect while Fred A. Stucker made a record only a little inferior to that of Kiker, his being 98 3-10 per cent. These were made in scheme B and C, which is for south Texas territory, and a remarkable record in a test of this character.

### Guests of Brother—

Cashier Van Deren of the American National Bank, has as his guests his two brothers, H. S. Van Deren of Nashville, Tenn., and W. W. Van Deren of Cynthia, Ky. They are prospecting, and there is a possibility of these gentlemen locating, as they are favorably impressed with the future metropolis.

Mrs. Guy Ward was hostess to the 42 club last Friday afternoon.

## U. D. C. CHAPTER WILL ENTERTAIN

The ladies of the U. D. C. chapter will entertain their friends next Saturday evening, from 6 to 8, at the park with a lawn picnic, provided rain does not interfere. On two occasions these ladies have

Fort Worth has no oil, but she is getting the industrial plants who supply the oil fields. Cisco has a field here, and instead of inviting industries and a better class of non-south Texas territory, and a remarkable record in a test of this character.

The members of the Cisco Chapter are truly grateful to everyone who contributed to the chapter house, and it is their desire that each and every person who were the instruments in making the possession of the building a reality, to consider himself personally invited, and to come out Saturday evening.

It is reported that Cisco will soon have pure clear water. May the day be speeded as the average citizen who has attempted a bath during the past two weeks has been taking the mud bath treatment.

## AMENDMENT IS RATIFIED BY TEXAS SENATE

Vote of May 24 When a Majority of 25,000 Was Polled Against Constitutional Amendment, Is Ignored; Texas Ninth State.

Texas falls in line with preceding states in ratifying the federal constitutional amendment. The will of the people as expressed in the election of May 24, when a majority of 25,000 was polled against woman suffrage in Texas, was not considered by the rush of the legislature—it cannot be truthfully said the deliberations of Texas' law making body, for those who assemble in Austin no longer deliberate, but with an ear ever to the ground to catch the swell of popular approval, each member who misrepresents his constituents, rush to be the first to introduce his bill for the enactment of a measure which, for the time being, is in the lime light of public opinion. The consequences never figure in calculations, for each puny member imagines himself to be of congressional proportions, and is laying his plans for future aggrandisement. But they are the children of the primary system, when vox populi is alleged to be the voice of God.

The session had barely convened before several measures were introduced in the lower house, and before the session was fairly organized woman suffrage had been ratified in the lower house. It was ready for the action of the senate the first day of the session.

The amendment came to a vote in the Senate Saturday, and the resolution passed that body by a decisive majority, thus making Texas the ninth state to ratify the federal amendment for woman suffrage.

**Fight Made in Senate.**  
"There was comparatively little debate on the resolution in the house, but the proposal to ratify met with considerable opposition in the senate which was overcome only after several substitute proposals had been defeated by close votes.

"Illinois was the first state to ratify the amendment, June 10, and was followed by similar action in Wisconsin and Michigan the same day. Other states that now have approved the amendments are: Kansas, Ohio, New York, Pennsylvania, Massachusetts and Texas in the order named.

"On the second reading, late Saturday, the vote on it was eighteen to nine, with one pair. It was passed finally in the house by a vote of 96 to 20.

"The question of ratification of the federal government was introduced in the legislature within two hours after it convened in special session here last Monday. Little opposition developed in the house and the measure was disposed of there with one day's debate.

"Anti-suffragettes concentrated their fight in the senate and there was a three-day struggle in committees and on the floor. Here suffrage gained strength with every vote and a determined effort to postpone action on the resolution was broken up. Opponents of the measure then attempted to break a quorum by resignations and six senators agreed to resign if ten, the number necessary to break the quorum, would agree to resign at once.

Chief opposition to ratification was based on the fact that at an election on May 24 a woman suffrage amendment to the Texas constitution was rejected by approximately 25,000 majority. Then, on voting to pass the ratification resolution to third reading, three senators—Alder die, Suitor and Wood—who had fought for postponement, voted for ratification, and the opposition was broken.

Proponents of the measure defended their position by saying that they were under obligations from the democratic primary of last year and the democratic state and national conventions to support ratification."

**Peaches for Sale.**  
I have some very fine peaches which I am offering for sale at \$1.00 per bushel in the orchard, seven miles south of Cisco, on Rural Route 2. Phone 9015-F12. Paul J. Wende. 9-15-pd

### Our Plumbing at Prices that will Interest You.

The cost is often an important factor in the problem of whether you shall have new plumbing placed in your home or not. The erroneous idea that the cost is excessive may deter some people from further consideration of new plumbing equipment.

It would be much better to consult us and let us show you how the great variety in designs of plumbing fixtures makes possible either a moderate priced, plain but serviceable bathroom or one as luxurious as can be desired.

We recommend the well known "Standard" guaranteed plumbing fixtures and will be pleased to show you illustrations of these fixtures of which there is a suitable design for any bathroom.

A little talk with us about your plumbing may quickly show you that a new plumbing equipment is well within your reach.

### JURY DISMISSED TO HARVEST WHEAT

County Court Transacted Little Business; Jurors Fined for Non-Attendance; Suspended Sentence to Young Negro.

Several cases appeared on docket for trial, but as the attorneys in the cases were not ready for trial the cases were continued and the jury excused. Immediately upon convening court Judge Rust excused all jurors who had grain crops to save, as he considered the harvesting of these crops of vital importance to the public. The Judge assessed fines against several jurors who were absent without excuse.

The case of the State vs. Bolliver Glover came up for trial. This was a negro boy and charged with raising his bank deposit check. He was found guilty and was given an indeterminate sentence as provided by the law. Upon recommendation of the county attorney Judge Rust suspended this sentence during good behavior after giving the boy an impressive lecture as to his demeanor.

The case of the State vs. Joe Miller charged with unlawfully carrying a pistol was continued by agreement.

### IN MEMORIAM.

On June 13, 1919, the death angel visited the home of Mr. Van Tichnor, and took from him his loving wife. She was born March 3, 1894, and died June 13, 1919, at 2 o'clock. Her mission on earth was short, but God knows best.

Oh, I know we will sadly miss her. Our grief is more than words can tell. But we must bow in meek submission To Him who doeth all things well.

Dearest Mae only left us For a brighter world than this; Left this world of pain and sorrow For a land of perfect bliss.

It is no wonder that the angels Bore her lovely soul away, On their beautiful snowy pinions, For she was as pure and fair as they

Yet we all do hope to meet her, When from earth our souls are free; When we meet in that city, What a joyful time 'twill be.

We all loved Mae, and while the parting is bitter and the anguish is great, she is better off as it is, the poor little pain-racked body is at rest; the pure sweet life is ended; the restless, longing spirit gone before, and will be at the beautiful gates, waiting and watching for loved ones.  
—Mrs. Oral Brown, Cisco Texas.

Wanted: We have several parties wishing to buy moderate priced houses in all parts of town. Can make from \$250.00 to \$1500.00 down payment, balance in monthly payments. If you wish to sell like this, list your property with us. Quick action is our motto.—Mayhew & Co. 2t

### ATTENEION, TYLER COMMERCIAL GRADUATES

During the period of the war so many of our young men, former students, were in the army, and so many of our young ladies in the Civil Service work in Washington and elsewhere, that it was not practical to keep up our usual method of revising our "Former Student File." But now, as most of the boys and girls are settling down to a peace-time basis, we want to get the correct address of as many of our twenty-five thousand former students as possible. Our Service Department, which is free to all graduates, often has something of interest to send out. Our Employment Department has more calls than we can fill. We can be of immediate service to T. C. C. discharged soldiers and sailors in seeking employment and there are many reasons why we like to know the whereabouts of every member of the big T. C. C. family.

In 1920 we hope to hold a big reunion that will bring together thousands of former T. C. C. students, their wives, husbands and children. In order that we may help to keep alive the big fraternal spirit that is in every T. C. C. student and assist them in securing employment if necessary. Kindly write us, giving your present address, also address of other former students you know. If there is any assistance we can render you in any way write or phone us.

**Good Tire Judgment**

Every time you buy United States Tires your judgment is backed by that of hundreds of thousands of experienced motorists;

—hundreds of thousands who use United States Tires continuously,

—hundreds of thousands who stand ready to endorse the economy and long, uninterrupted service of United States Tires.

We can provide you with United States Tires that will exactly meet your individual requirements.

There is a type for every need of price or use.

## United States Tires are Good Tires

## FORCE VACANT LOT OWNERS TO CUT WEEDS

Fort Worth Has Inaugurated a Campaign to Rid the Town of Breeding Places of Germ-Carrying Parasites; Cut the Weeds.

The city of Fort Worth has inaugurated a clean-up campaign—not a clean-up day. Every day should be a clean-up day in any town whose civic pride is not dormant. We hope to see the rule prevail in Cisco until the yards of every home is a beauty spot on the city beautiful.

It is regrettable to note the lethargy on the part of the ladies of this town in this respect. Necessarily this initiative must come from the ladies, as they wield a greater influence in such matters than men. Some are doing individual work, and are cutting the weeds themselves on their own premises, but there is no public movement on their part to make Cisco attractive.

We are inviting people here to make Cisco their homes, but are doing very little to make them citizens after they come. But Fort Worth is not appealing to property owners to clean their premises, they are putting forth municipal coercion to compel all premises to be cleared of weeds. As an initial step they are going after the owners of vacant lots, logically the proper ones to start on. Many people own vacant property on which little taxes are paid, and in some instances dudge the payment entirely. Their property is being enhanced in value by the more enterprising citizens who build on their lots, thus increasing the valuation of the property of these parasites despite of their slothfulness. Vacant property should be taxed at such a rate that it will be unprofitable to allow it to remain unimproved—penalize slothfulness rather than enterprise, as by the present system of taxation.

**Notified to Clean Up.**  
The manner in which Fort Worth is going about the matter of ridding the city of those germ parasites which have their breeding places in rank weeds and other vegetation, is stated in the Fort Worth Record of a recent issue.

"Owners of vacant lots in Fort Worth are rapidly being located and served with notices to clean up immediately. Four of the commissioners of the health department are giving this problem their entire attention, and so far they are meeting with fair success. Fort Worth is a big city and it is a tedious matter to unearth owners of some two hundred lots, some of whom may be hiding out to avoid the payment of taxes—owners, it would seem, who have no civic pride in their town, say the officers.

"The situation has become aggravating. Not only do vacant lots covered with weeds mar the civic beauty of any location; but they harbor untold numbers of mosquitoes and red bugs. Both of these insects breed malaria; so that the weed covered lots is a real menace to the health of the neighboring peoples."

## AWAY QUARTER CENTURY; RETURNS

Mr. F. V. McMurray is visiting his brother, C. F. McMurray of this city. The two brothers have been separated for nearly twenty-five years.

Mr. F. V. McMurray is a veteran of the Spanish-American war, in fact, served two enlistments in that little brush in which the old dynasties of Europe suffered their first defeat at the hands of democracy. He was in the artillery branch of the service.

Since then he has visited many countries of Europe and has only recently returned from a tour of France and Belgium.

He will be remembered by many of the older settlers of Cisco, with whom he is renewing acquaintances, and says he is regaled by the happy reminiscences revived by talking with friends of former days.

He notes, of course, many changes and improvements in Cisco, which were never dreamed of when he chased the long-horn across the prairies in Eastland county.

Mr. McMurray's home is now in New York City.

## CONTRACT LET FOR \$75,000.00 M. E. CHURCH

Messrs. Page & Mood Successful Bidders; Work Began on Clearing of Lot for Excavations Monday; Total Cost About \$75,000.

The contract has been let for the new Methodist church, on the corner of Broadway and Ave. H, where that denomination owns a beautiful site. The new church will be erected on the old site, and will cost when complete, approximately \$75,000, including the seating, lighting and interior furnishings.

The contract was signed by the board of stewards and Messrs. Page & Mood last Friday, and no time was lost in beginning the work of construction. Their part of the construction calls for the building of the edifice, and carries a cash consideration of \$51,000, together with the material, which has already been purchased, and this alone represents an expenditure of between \$30,000 and \$35,000 for this magnificent house of worship.

Later the Round Up will be able to reproduce a picture of this building, together with all of its modern appointments. The plans were drawn by a Dallas church architect, and embrace the latest things in church construction.

## AGENCY HERE OF SOUTHERN RUBBER CO.

The Southern Rubber and Belting company has entered the Cisco oil field, and established an agency in this city, to supply this district. Representing this company, Mr. E. B. Goldschmidt, traveling this territory from the Fort Worth house, was in Cisco last week, and went all over the district. After sizing up the situation he stated that he was convinced that Cisco was the logical place to establish their agency, and to this end designated the H. L. Hutchinson & Company store as the headquarters for this territory.

H. L. Hutchinson & Co. will carry a full line of supplies of the Southern Rubber and Belting Company, which caters to the oil trade from whom Cisco oil operators can be assured of getting all supplies needed, such as swabbing rubbers, belting, rotary hoses, pump valves, hydraulic and sheet packing, as well as the various accessories manufactured by other plants needful in the oil game.

The Southern Rubber and Belting company is the largest of its kind south of St. Louis, and carries \$175,000 stock in its Houston house, and \$100,000 stock in its Fort Worth warehouse.

John L. Keith, president of the E. L. Wilson Hardware company of Beaumont, is president of the Southern.

In stating the reason for selecting Cisco as the headquarters of the Southern in this territory, Mr. Goldschmidt said:

"Cisco is the natural distributing point for the entire oil district, easy of access, by reason of having the best railroad facilities in the oil section.

"Cisco has splendid water and natural gas, and its future is the most flattering of any town I know. Only one thing prevents Cisco from being the ideal distributing point for this entire section, and that is the deplorable condition of the highways of Eastland county. Of course this condition obtains with the other towns of the district, but Cisco would grow by leaps and bounds with better highways. At this time there is practically a railroad embargo on freight to other towns of Eastland and Ranger and goods will be shipped here and freighted by trucks to those places.

"I am delighted with Cisco and am confident our business out of here will be perfectly satisfactory."

Mr. Goldschmidt will make this territory every fifteen days, seeing the oil trade, and his orders will be filled from their Cisco representatives, thus assuring immediate delivery instead of having to wait for these goods to be shipped from the Fort Worth house.

## A RAY OF HOPE FOR ROAD WORK TO BE STARTED

Judge Rust States Matters Which Have Held Up Proceeds of Road Bonds About Cleared Away for Commencement of Road Work.

At last there is a ray of hope for the commencement of road work in Eastland county. This matter has been delayed until every county in the state, with a few possible exceptions, has forged ahead of Eastland and built roads by voting bonds, and receiving state and federal aid to supplement the bond fund.

Judge Rust, in an interview in the Eastland Chronicle, states that matters which have held up the proceeds of sale of bonds have about cleared away, so that the money can be paid into the county treasury for work on the special road districts. Judge Rust does not indicate what are the special road districts, but in 1917 an election was held, in a district embracing Cisco, Eastland and Ranger, at which an issue of bonds were voted and the bonds issued. The Round Up has been informed that these bonds were never sold, but it is possible that they are included in the special road districts mentioned by Judge Rust. If so there is a ray of hope that road work will commence before a great while, as it is stated that the required information has been furnished to the bond buyers. In conversation with a gentleman of Cisco regarding the bonds for the east and west road, this gentleman stated:

"The east and west road matter was inherited by Judge Rust from his predecessor. This bond issue was never popular in Eastland, many of her citizens openly opposing it, and in preparing the district they excluded a great deal of Eastland territory. Most of the taxable property is situated in and around Cisco and Ranger. Around the latter places the territory was extended several miles, but brought to a narrow strip around Eastland.

"Cisco people used every means possible except mandamus proceedings, to get these bonds sold soon after they were voted, but it was impossible to get the county judge to act. He claimed that he could get no buyers. Mayor Williamson offered to guarantee to sell the bonds if the commissioners court would give its consent. This proposition was avoided by the judge leaving the audience and not returning as long as the delegation were present."

In view of the fact that very little of Eastland's territory is embraced in the special district voting these bonds, by all rules of justice the proceeds from the sale of the bonds should be segregated that the districts which pay the larger proportion of the tax might have the greater benefits in road improvement.

The amount voted for road improvement, while at the time was ample to do a great deal of work, would amount to very little at this time, but there is enough of this fund, when received, to put in concrete culverts on the entire road. This work must be done sooner or later before permanent roads can be built, and the sooner the better, for concrete culverts are badly needed on the east and west road right now. The matter is passed up to the Chamber of Commerce for solution.

**Judge Rust's Statement.**  
Following is the interview as given out by Judge Rust on the matter to the Chronicle:

"A representative of this paper called on County Judge R. L. Rust recently for the purpose of ascertaining, if possible, the reasons for the holding up of work on the roads in special road districts in Eastland county for which bonds were voted several months ago.

"Judge Rust was found to be very anxious to have the work started and rushed to completion as he fully realizes the great need of better roads. We also found that the company buying the bonds had asked for additional information concerning them and that it had been impossible to furnish this information as the records here did not disclose it.

"Yesterday Judge Rust received a letter from a consulting engineer for an Austin engineering firm stating that the desired information, or most of it, had been found there and that

## RELIEF DRIVE IS PUT OVER BY EASTLAND

Final Report of Committee Chairmen to County Chairman Mrs. W. K. Jackson, Only \$343 Short of Quota of \$3,600.

The following list of chairmen throughout Eastland county, who were appointed by the county chairman, Mrs. W. K. Jackson, to, through each committee, secure funds for above relief campaign on foot some weeks ago, will be of general interest to each town named. Despite the efforts of each committee the quota assigned Eastland county by the Dallas office, \$3,600.00, fell short.

### Report of Chairmen

Mrs. P. Pettit, Cisco	\$ 405.00
W. T. Connelly, Nimrod	1.75
Seacom Morton, Scranton	104.50
J. T. Butler, Staff	3.00
Mrs. D. W. Switzer, Mangum	27.00
G. L. Huestis, Dothan	68.51
Mrs. Axtel, Olden	20.00
Mrs. H. Moorman, Gorman	162.15
Rev. R. O. Sory, Rising Star	190.39
Mrs. Ledger, Desdemona	21.75
Mrs. W. K. Jackson visited Carbon	72.20
Rev. Van Zandt, Pioneer (no report)	
Mrs. H. Gholson and Rev. Wisdom, chairmen, Ranger	806.03
Mrs. Gholson, Merriam Baptist church	103.65
J. Wilson Rudd, Bear Spr. Church	15.00
Rev. Van Zandt, Sabeno, (no report)	
Mrs. Blackburn, principal Triumph School, Gorman	3.53
J. T. Morgan, principal Rural school, Cisco	4.00
Miss Maggie Barnett, principal Oak Grove School, Carbon	4.00
Montie Paschall, principal Shady Grove school, Cisco	3.35
Miss Dee Bacon, principal R. B. school, Cisco	3.00
Miss Josie Thurman, principal, R. F. D. No. 2, Cisco	4.00
Miss Mauda Tate, principal Center Point school, Carbon	7.15
American National Bank Mesdames W. K. Jackson, Earl Conner, E. Wood, J. Reed, Chairman and Committee, Eastland	1,222.02
Total	\$3257.95

Cashier's check for this amount was sent by Walter Gray, of American National Bank, to the Dallas office this week. The county chairman stated that had it not been for the incessant rains and consequent difficulty met by the chairmen in getting out to obtain contributions the full quota would have been secured.

### STREETS ARE BEING MADE PASSABLE AGAIN

The street commissioner has been doing some good work on the streets the past week. The first act was to close Sixth street, between Main and Avenue E, where the ugly mud hole had been a menace to travel, as well as hauling, and the water drained. Later loads of gravel was hauled and placed in this part of the street, greatly improving that section, where teams have bogged down.

The rough places where the paving workers had put down concrete sewers across the street, leaving the sides abrupt, have been cut down so as to make them passable. The work, while only temporary, has greatly improved the deplorable condition of Main street, which is highly appreciated by a suffering citizenry. Much could be done, but all are thankful that this much has been accomplished.

In his opinion the matter could be closed up. In such event work will be started on the roads as soon as practicable. Mr. Rust says:

"As the matter stands the county has not received any money on the bonds and have no funds with which to begin the work."

## FRANK COMPANY WILL COMMENCE DRILLING SOON

Simultaneous Drilling Proposed on Three Different Tracts Owned by This Company, one of Which is Three Miles of Cisco.

The Frank Company, according to their statements, will soon commence drilling on leases owned within three miles of Cisco. This well will be put down in the district where the shallow well was sunk some time ago, and while declared to be a dry hole, all acknowledge that only slight test was made. Even at the shallow depth it is said this hole would have produced a limited quantity of oil, even at that depth, had it been properly managed. At the location where the Frank people propose to drill, oil men state that there is a pool, which can be tapped at less than 2900 feet. The Frank people own 8 lots in Desdemona, five acres northwest of Burkburnett in the Lucinda Meadows survey, 3000 feet northwest of the Texas Chief, and their leases here are 520 acres in the J. F. Penn tract, on which the shallow pool is located. It is said.

Mr. I. Lamb left this week for a visit to Jackson, Miss. to meet again many of his relatives, some of whom he has not seen for fifty-four years. Doubtless this renewal of ties of blood and friendship will be very pleasant to all concerned, especially to Mr. Lamb.

## POSTHUMOUS DECORATION CISCO HERO

Clyde Aycock, who paid the supreme sacrifice on the world war front, is posthumously honored by being awarded the French Croix de Guerre, which was sent to his mother, Mrs. Mollie Aycock of this city. The following letters received by Mrs. Mollie Aycock will be self explanatory:

Clyde Aycock was a Cisco lad, having been reared here. He enlisted in the army for border service when only eighteen years of age and was stationed there for six months. When war was declared he was sent to Camp Bowie where he spent nine months in intensive training in the 36th Division, after which they were sent overseas and Clyde was killed in action Oct. 8, 1918 near St. Etienne. One of his comrades wrote his mother that Clyde died fighting bravely and he told them that he was ready to die fighting for his mother and his country.

As a reward for his valor Mrs. Aycock has just received from the French Government a croix de guerre with a gold star in it. Clyde was one of millions who was ready to make the supreme sacrifice for the sake of humanity and it is just such boys as this one that composed the American army.

There is no higher praise that can be bestowed upon a soldier of this country than to say that he served his country faithfully and this can be said of Clyde Aycock.

Mrs. Aycock is in receipt of the following letters from the adjutant general of the United States army, and from Gen. Petain, commander in chief of the French armies, in which is awarded this honor for distinguished bravery in going over exposed terrain and aiding in the capture of machine gun nests:

War Department: Adjutant General's Office: Washington, D. C., June 18, 1919.—

Mrs. Mollie Aycock, Cisco, Texas.

Dear Madam:—

There is forwarded herewith registered mail a French Croix de Guerre with gilt star, citation certificate and translation of the same, awarded to your son, Clyde A. Aycock, late Private first class, Company B, 143d Infantry, and which are sent to you as next of kin.

It is requested that you furnish this office with a receipt for the Croix de Guerre and citation, using inclosed blank.

Very truly yours, P. C. Harris, The Adjutant General.

Order No. 15,339 "D" (Extract).

With the approbation of the Commander in Chief of the American Expeditionary Forces in France, the Marshal of France, Commander in Chief of the French Armies of the East, cites in the Order of the Army Corps:

First Class Private Clyde A. Aycock, No. 1497464, Co. B., 143 Reg. Inf., "Displayed great courage during the engagements of October 8, 1918, near St. Etienne. Unhesitatingly went over exposed terrain and aided in the capture of several nests of machine guns as well as numerous prisoners. Killed at his post in action."

At General Headquarters, April 2, 1919: The Marshal of France, Commander in Chief of the French Armies of the East. PETAIN.

## PREPARING TO TAKE CARE OF NEW CITIZENS

Fort Worth Will Welcome New Comers by Furnishing Homes; Cisco's Population Would Double by Similar Arrangements.

Cisco's population would double in an incredibly short time if we would put into practice a plan that will soon be inaugurated in Fort Worth. The town proposes to house its new comers by selling them homes at terms and prices within the reach of salaried men. In fact, to take care of the men of salaries from \$150 to \$250, is the object of the association just formed.

N. H. Lassiter offered to lease the association a section of property, well located, for a period of ten years, WITHOUT COST. Wonder how many patriotic citizens of Cisco would make a similar offer?

But Fort Worth is more interested in building a town than some of the land owners here, who are evidently trying to get their while times are good. Fort Worth realizes that it takes something besides prospective oil wells to make a city, and that town is offering inducements to get industrial enterprises to locate there, for the reason they know that an increased population means greater values eventually, than profiteering now. Cisco will sell a man a home if he has enough money; will also sell land on which to build an industrial plant, which will give employment to hundreds of men, but the price charged will be perfectly satisfactory to the owner, and has nothing to do with the cost price, or any patriotic sentiment. Cisco's future is not considered. The only thing that matters is "how much can I enrich myself?" A mighty good way to kill a town.

The conditions in Cisco and Fort Worth are similar, in certain respects. Fort Worth is building a city by the coming of industrial and supply houses whose interests are largely in the oil fields—Ranger, Cisco, Eastland and other districts. Cisco is in the center of the Cisco-Ranger field, and if the proper inducements were held out Cisco would become the supply base of this entire district, as well as the resident city for the operators and employees.

Fort Worth has no oil, but she is getting the industrial plants who supply the oil fields. Cisco has a field here, and instead of inviting industries and a better class of people, we are running them away because we are not offering them inducements to locate among us. The Round Up is not knocking, but telling some truths, in an endeavor to correct an evil that is doing more to kill Cisco than all other agencies. The Round Up wants to see Cisco come into its own. For this reason we are trying to make the ugly practice of profiteering unpopular by exposing it to the public. Everyone knows that profiteering and incivility will kill a town quicker than all other means; will do more harm than boosters can do good. It is the worst kind of knocking.

### The Fort Worth Plan.

The following is the Fort Worth plan. Read it, and see if you do not think it a good plan for Cisco to adopt:

"Fort Worth business men are to organize a company to take care of the constantly increasing number of people that are coming to this city. The capital stock probably will be \$300,000.

"This was decided Thursday afternoon following a luncheon at the Metropolitan Hotel, given by the Chamber of Commerce and attended by about 100 business men.

"Securing a charter and subscriptions will be rushed and if possible the company will be building houses before two weeks pass.

"It was stated at the luncheon that it will not be difficult to quickly raise the \$300,000, or the amount that will be needed.

"Although there are several hundred homes under construction at the present time, the new companies that are to soon locate here will demand several hundred more, according to statements made at the luncheon. It will be the purpose of this

## PEACE TREATY SIGNING ENDS WAR FORMALLY

Impressive Scenes Attended the Signing of the Terms of Peace in the Hall of Mirrors Sunday, Near Where William I Was Crowned. Foreign Minister Mueller and

Colonial Minister Bell, German plenipotentiaries, made the following exclusive statement to the United Press after they had signed the peace terms. "We are signing without mental reservation. What we are signing will be carried out. The German people will use every means to meet the terms. "We believe the entente will, in its own interests, find it necessary to change some of the terms, or they will see the treaty is impossible of execution.

"We believe the Entente will not insist on delivery of the kaiser and other high officers.

"The central government will not assist in any attack on Poland.

"Germany will make every effort to prove herself worthy to enter the league of nations."

Germany and the allied and associated powers signed the treaty of peace Saturday, bringing to a formal end the mightiest war of all

time. Signatures were affixed to the great document in the hall of mirrors, within a few yards of the spot, in the same hall, where William I. had himself crowned emperor of Germany, and where the German empire was proclaimed.

The hall was crowded when the German delegates, foreign minister Mueller and Colonial Minister Bell, entered and took their seat at 3:08 o'clock. Mueller was first to sign at 3:12 o'clock. Bell was next. President Wilson signed at 3:14 o'clock, then Premier Lloyd George two minutes later. Entire delegations then signed in this order:

#### Chinese Delegation Absent.

United States, Great Britain, France, Italy, Japan and the smaller powers. Chinese delegates absent themselves, refusing to participate on account of the Shantung settlement, and it was reported they had cabled Peking for instruction. In refusing to sign the peace treaty the Chinese delegation issued a statement in which they said:

"The peace conference having denied China justice in the settlement of the Shantung question and in effect preventing the Chinese delegates today from signing the treaty without sacrificing their sense of right and justice and patriotic duty, the Chinese submit their case to the impartial judgment of the world."

At noon Saturday the Chinese sent word to the conference of their intention not to sign.

General Smuts, signing for South Africa, did so under protest and issued a statement setting forth his reasons.

**Clemenceau Signs for France.**  
Clemenceau came forward at the head of the French delegates, in a sprightly manner, despite his great age, and with apparent enthusiasm affixed his signature to the document at 3:23 o'clock.

The protocol, establishing the fate of the Rhineland, was also signed, as well as an agreement between the United States, Great Britain and France under which the United States and Britain will aid France in case of an unprovoked assault by Germany.

This was in treaty form and must be submitted to the executive bodies of the interested nations for ratification.

#### Vast Crowds Assembled.

Hours before the time of signing, vast crowds assembled in the streets and open spaces about the palace of Versailles. Flags of the allied and associated powers waved in the sunlight. Seats for distinguished visitors and for the press, in salons, adjoining the hall of mirrors, filled early. At times the throngs almost stormed the gates. Wealthy Frenchmen were reported offering \$20,000 for tickets of admission.

#### Germans Invited to Sign.

Clemenceau said: "The session is open. The allied and associated powers on one side and the German-Reich on the other side have come to an agreement on the condition of peace.

"The text has been completed, drafted, and the president of the conference has stated in writing, that the text that is about to be signed now is identical with the 290 copies that have been delivered to the Ger-

man delegation. "The signatures will be given now and they amount to a solemn undertaking faithfully and loyally to execute the conditions embodied by this treaty of peace.

I now invite the delegates of the German Reich to sign the treaty."

**Signing Table Elevated.**  
In signing the representatives stepped upon the dais, on which the horseshoe table was elevated. In the middle of the U formed by the horseshoe was a smaller table, on which the treaty lay. Snow white quill and amber handled gold pens were used. Clemenceau's pen was presented by the people of Alsace-Lorraine. A brown tapestry carpet, very old and valuable, covered the floor and the table was covered with brown tapestry.

Forty-one minutes after the ceremony began, Clemenceau announced, "the conditions of peace are now accomplished fact; the proceedings are closed."

#### Germans Left in Silence.

It was over. The Germans left, in dead silence, at 3:52. As the allied representatives stepped out upon the terrace, there was a booming of guns, and the famous fountains of Versailles sent sparkling streams high into the air, while the tremendous crowd burst into wild cheering. Surging against the police lines, the multitude swarmed around the commissioners, bombarding them with flowers. President Wilson and the others were pushed the full length of the terrace in the midst of this joyous throng.

Then the soldiers opened a path through the crowd to the waiting automobiles, and, as the noise of the demonstration spread, the cars moved slowly away.

#### Sign Without Mental Reservation.

The Germans returned quietly to the Hotel Des Reservoir. Mueller, tall and striking of diplomatic appearance; Bell, black moustached and bespectacled—excitable politician of radical type. At 8:20 they left Versailles with the utmost secrecy.

## JURIES FOR 88TH DISTRICT COURT

Special Correspondence.  
Eastland, July 1.—The following personnel of the grand jury for the first session of the 88th district court, and the petit jury for the first week of the session. The court will convene in Eastland next Monday:

**Grand Jurors.**  
E. H. Mills, J. F. Drienhoffer, S. J. Dean, John Ghoison, Elzo Been, G. Fisk, John Gardner, R. L. Poe, J. R. Skinner, W. E. Spencer, I. N. Hart, W. N. Compton, W. E. Bradshaw, J. A. Beard, W. O. Russell, J. R. Snooty.

**Petit Jurors.**  
W. H. Mayhew, Cisco; J. M. Gooch, Pioneer; W. W. Speer, Carbon; W. M. Hoard, Carbon; I. L. Gattis, Eastland; J. M. Winsett, Ranger; T. W. Tennison, Carbon; R. E. Thurman, Carbon; Hosea Lanier, Carbon; R. E. Thurman, Carbon; John L. Wilson, Carbon; Walter Wyatt, Carbon; B. B. Poe, Carbon; Eugene Wood, Eastland; S. Boyd, Eastland, Rt. 2; Loo Randel, Ranger; J. P. McCannies, Cisco; J. E. Sowell, Gorman; T. J. Hale, Carbon; T. T. Souter, Carbon; M. H. Canlies, Cisco; G. H. Neill, Gorman; M. A. Milam, Gorman; D. S. Campbell, Carbon; J. W. Blackwell, Gorman; H. S. Stubblefield, Cisco; O. C. Holcomb, Eastland; Eugene Day Eastland; J. J. Smith, Ranger.

**Brandon Goes to Fort Worth**  
Mr. H. L. Brandon, who has been superintendent of the National Supply company in this field for about one year, maintaining headquarters in Cisco, has been transferred to Fort Worth by his company. It is understood the transfer carries a substantial increase in salary. Mr. Brandon is succeeded here by Mr. Ed McCawley, who comes to Cisco direct from Tampico, Mex.

Ciscoans Visit Eastland.—Eastland Chronicle.

W. P. Wilson of Cisco was transacting business in the city Thursday.

H. M. Vernon of Denman Music Company of Cisco and Comanche, was a business visitor in the city Wednesday.

Charlie Smith and wife of Cisco were in the city this week. They are moving here, Mr. Smith having a position with the Eastland Light & Power Company.

**MERRY HOUSE PARTY  
WELCOME HERO HOME**

Like other homes, when their soldier son is restored to his parents safe and sound, after having faced the deadly gas on Mahiel's bloody field, and fought back the heartless and brutal Hun in the terrible Argonne forest fighting, there was great rejoicing in the home of Mr. and Mrs. M. D. Paschall last week when their soldier son, Grigler, was restored to them.

Grigler came back with the famous 90th division, which was in the thickest of the little unpleasantness which engaged the world for three years until Uncle Sam sent his boys, such as Grigler, over to put a stop to the carnage prevailing across the sea.

This is another Cisco hero who came in last week, having received his discharge at Camp Bowie, and was accompanied home by his mother and sister, who went to Fort Worth to meet him.

Besides being engaged in some of the hot fights of the war, Grigler was part of the army of occupation, which was in Coblenz for a great while.

Celebrating his home coming a house party welcomed him, consisting of the following: Mrs. Elephane Berry of Dawson, Frank Gaston of Granbury, Miss Sophia Young of Fort Worth, and Lieutenant K. C. Young of Fort Worth, formerly with the 28th division.

**MAYHEW OPERA HOUSE  
LEASED TO L. SANTIKOS**

Mr. A. L. Mayhew last week closed a deal with Louis Santikos for a five year lease on the new opera house on Broadway, now in the course of construction. It is understood the consideration was a rental of \$500 per month.

Mr. Santikos lives in Waco, where he owns two confectionery establishments, besides owning picture shows in several different towns. It is stated that he will operate houses in Eastland, Ranger, and two other towns besides Cisco, and will put on some high class attractions.

LOST—A pin made from a British \$5 gold piece. If found please notify Mrs. E. Burford Isaacs, phone 297. 9-11c

**Health  
About  
Gone**

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. . . . had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

**TAKE**

**CARDUI**  
The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

**REVIVAL SERVICES  
ON EAST BROADWAY**

The revival services under the large tent, on east Broadway, are well attended, considering the heavy rains. The attention and interest have been good. The plain facts of the Bible are being taught, and are getting the attention of the people. Several have requested prayer, and we are expecting a great revival of religion. Come, join in with your presence and prayers. All are invited to attend these services.

Rev. J. Walter Hall, district superintendent of the Hamlin district of the Nazarene church, evangelist, and Rev. Thomas Ashern, pastor. "Holiness becometh Thine House, O Lord, forever."—Psalm 93-5. "Sin is a reproach to any people."—Proverbs 14-34.

Dorothy Garner returned from St. Louis where she has been attending school.

**NEWS FROM GUNSIGHT  
IS RAIN, OIL AND RAILROAD**

An interesting letter from Gunsight came to the Round Up this week, but as it was not signed, it is not produced as written, as the universal rule is not to print communications which are not signed by the writer's correct name.

However, the Gunsight correspondent reports some activity in railroad circles; the danger of wheat rotting in the stacks, and activity in oil, which is only common in that community. Many report the wheat already sprouting, says the correspondent, and there is great danger of a heavy loss before it gets dry enough for threshing. We hope next time Gunsight writes he will sign his correct name, as neighborhood news is desired, but we must insist on knowing who is writing.

Miss Elizabeth Rodgers of De Leon, visited her aunt, Mrs. J. T. Gardner, Saturday and Sunday.

### PREPARING TO TAKE CARE OF NEW CITIZENS

(Continued from Page 1.)

company to see that the overflow is properly met.

"Another meeting at which all business men and capitalists will be invited will be held at the Chamber of Commerce Saturday at 7 p. m.

"At the luncheon Thursday William Monnig, president of the Chamber of Commerce, stated that every new house means an increase of from five to six in this city's population.

"Louis J. Wortham declared that the time is here for concerted action to expedite the home-building program. He predicted a population of 300,000 within five years.

"N. H. Lassiter offered to lease one section of property, well located, to the home-building company for a period of ten years without cost.

"Although subscriptions have not really been opened, practically every person present pledged to subscribe.

"The company will endeavor to take care of men on salaries from \$150 to \$250, who will be connected with new companies that are locating here. The houses will be from five to six rooms. It was stated that men of higher salary in many cases are buying houses and will not have to be cared for by the home-builders.

"Organizing the company is a guarantee to the Empire Gas and Fuel Company that its employees will be provided with plenty of homes. The Empire recently announced that it will locate its headquarters here, providing housing facility and office space is furnished. With the co-operation of the business interests the Chamber of Commerce is practically assured of securing sufficient office room for the company, which ranks among the largest of its kind in the field."

A. P. Slater on West Sixth Street, has added very much to the appearance of his home by putting in side walks.

## FIRST TERM OF 88TH DISTRICT COURT MONDAY

Many New Cases Filed Since June First; First Term of 88th District Court Has Many Litigants, Besides the Criminal Docket.

A large number of litigants have filed causes of action in the 88th District Court since June 1st and the first session of the new court promises to be a busy one. The civil docket is unusually large, and there is the criminal docket to be considered. However, court will be in continuous session, and if the presiding judge will choke off the usual dilatory tactics of attorneys, much business can be dispatched.

Following are the cases filed since June 1:

Cordie Lee Harrell vs. M. T. Harrell et al. to cancel lease; R. H. Gambell vs. J. H. Moates; C. R. Murphy et al. vs. A. H. White et al. to cancel lease and remove cloud; J. H. Wilson vs. County School Trustees of Eastland county, Texas; Ione McCary vs. Hugh McCary, divorce; O. R. Smith vs. John Jones, et al; H. H. Murray vs. C. F. Morris et al; Invincible Oil Company vs. J. W. Ward et al. for subrogation and cancellation of judgment; A. L. Stiles vs. John H. Markham Jr. et al, damages; Wm. Menzell vs. Minnie Menzell, divorce; Henry Sparks vs. Irene Bernice Sparks, divorce; Arthur Marroitz vs. R. E. Racien, damages; exparte Mrs. M. E. Love, to change name; H. S. Hobbs et ux vs. Magnolia Petroleum Company et al; J. E. Butler vs. James Carrigan et al, injunction (Settled); A. C. Brown vs. Abraham Johnson et al, trespass to try title; S. H. Snodgrass vs. Skelly Sanky Oil Company, trespass to try title; Frank Kirk vs. A. J. Ervin et al, to cancel lease and remove cloud, etc; T. S. Jackson vs. Elmo Helton et al, trespass to try title; I. Rudman vs. J. W. Munday et al, trespass to try title; Margirle I. Lynch vs. Thos. L. Lynch, divorce; Basham et al vs. Gulf Production Co., W. T. Griffin et al vs. Ralph Raney et al, injunction; Ray Whitesides vs. J. A. Brown et al, to try title and for damages; C. E. Ferrell vs. Glenn J. Smith, to foreclose lien, etc.; R. E. Franklin et al vs. G. W. Daniels et al, debt; Lois Salman vs. W. P. Salman, divorce and custody of child; W. T. Ingram vs. Humble Oil and Refining Co., to cancel lease, etc.; Mary A. ### Christian Ladies in Social Session.

The Ladies Aid of the Christian church, met in social session in the home of Mrs. Bob Winston Tuesday afternoon. It was a very enjoyable meeting. Sherbet and cake were served by Mrs. Winston, assisted by Misses Vida Walker and Gladys Finley and Mrs. R. H. Finley.

Out of town guests were Mesdames L. E. Brannin, of Dallas, and Mrs. R. H. Finley of Waco.

Mrs. Tom M. Neill, nee Miss Ruth Nichols, is rejoicing over the arrival of her husband from overseas. Mr. Neill was with the 90th Division. They left Wednesday for Gorman, their future home.

### Methodist Aid Meeting.

The Woman's Missionary society of the Methodist church met in their monthly business session Tuesday afternoon with Mrs. Remer, the president, in the chair. The ladies voted to pay one-fourth of the amount pledged to the new church. Their pledge is for \$2,000.00.

### Presbyterian Ladies Aid Meet.

The Ladies Aid of the Presbyterian church met in their regular monthly business and work session Tuesday afternoon at the home of Mrs. Alex Spears. The hostess, assisted by her mother, Mrs. C. E. Fee and Mrs. Hohen served a fruit salad course.

Miss Ruth Bridge, St. Louis Division, Red Cross, met with this Auxiliary last week and gave them quite an interesting talk. She was one of the first nurses to go overseas, going with the John Hopkins Unit. Miss Bridge had charge of one of the base hospitals near the front.

Mr. and Mrs. D. Roach had for their guests last week, Mrs. Wm. Roach, mother of Dr. Roach and his sister, Mrs. Munn and daughter, Miss Katherine Beatty, of Goodnight, Texas.

The contract for the new Methodist church was let to Page & Mood who will begin at once the erection of a \$50,000 church.

## The Right Firestone Tire For Every Truck

No Road Too Rough, No Test Too Tough For Firestone Truck Tire Equipment

YOU will find the right type in the Firestone line for every hauling condition, from heavy duty trucking to fast delivery work, and we have a complete stock.

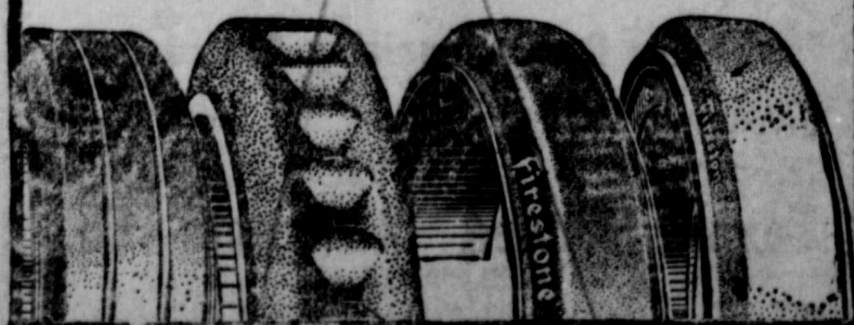

Let us recommend the truck tire that will give you greatest service at the least cost. Whether you do country or city work, or both; long or short hauls; light or heavy loads; few or frequent stops, will be taken into consideration.

Having no one type of tire to push, our recommendations are unbiased.

Call us. Let us show you how to lengthen the life of your truck, reduce truck and tire repairs, get tire mileage and traction, reduce skidding and spinning, lower gasoline bills.

Our service is unequalled in this city for truck tires and all lines of motoring aids. It pays to consult us.

## FULWILER ELECTRIC Co

**EXTRA TEST for Rubber Fitness**

All rubber used in Racine Extra Tested tires is blended and rebled in a laboratory mixing mill until the supreme degree of toughness is attained.

**RACINE TIRES**

RACINE tires are tires of quality. The fact that they are Extra Tested means much to the tire buyer. Extra Tested reflects all of the extra care in the factory that means extra wear on the road.

**RACINE COUNTRY ROAD TIRES** are fabric tires designed for precisely such road conditions as we have around here. 5000-mile guarantee. Let us show you the "Country Road." It's a wonderful tire.

HUEY MOTOR CO.

For your own protection be certain every Racine Tire you buy bears the name Racine Rubber Company

**STEPHENS CO. WILL BUILD GOOD ROADS**

Plans Outlined for Complete Road System; Applications to Be Made for State and Federal Aid; Eastland County Still Inactive.

Stephens county is going after good roads. Not content to be isolated by impassable highways, the Breckenridge board of trade has outlined a plan for a complete system of highways in Stephens county. This plan embraces state aid, which when secured, amounts to getting the government to do as much for you as you are doing for yourself.

Wonder if Eastland county is in danger of losing the Bankhead highway, by the reason of this county's failure to build good roads? Such might be possible. Eastland county is simply sleeping, and if she doesn't wake up she will find herself high and dry, with several good things going to other places.

The following from the Breckenridge Democrat is interesting:

At a meeting of the Chamber of Commerce Monday morning plans were outlined for building a complete system of good roads in Stephens county. Application was made to the State Highway commission for state aid in the construction of such roads as are necessary to stand the heavy traffic in this section. Also Federal aid will be asked.

There will be no difficulty in securing state and federal aid for road work in case a bond issue carries in the county. The money is on hand to be used by such counties as will comply with the government requirements. All the counties must contribute to this fund, but only those that are willing to help themselves can secure any part of the general fund for road work.

No county is so badly in need of good roads as Stephens. No county has lost more on account of bad roads than has Stephens. The excessive damage to teams during rainy months here would pay the cost of building the roads. The time lost by teamsters would pay the cost of the roads. The loss caused by retarded oil development would pay over again the cost of building the roads. It is a very unwise thing to pay the cost of the roads several times and still not have any roads.

The plan is to employ a competent firm to make a complete map of the roads to be built, to furnish estimate of the cost of construction, to make application for state and federal aid and to put the issues squarely before the people of Stephens county. It will not be necessary to issue the entire two and a half million of bonds at one time in case they are voted. The commissioners court could issue and sell any amount needed at any particular time. If such a plan is carried out, it will be a great thing for our oil field.

**Hostess to Merry Wives**

Mrs. Guy Ward was hostess to the Merry Wives Club Friday afternoon from four until six o'clock and the diversion was forty-two, consisting of five tables.

A business meeting was held and the following officers were elected: Mrs. G. C. Lingle, President; Mrs. Frank Harrell, Vice President; and Mrs. G. Fisk, Secretary and Treasurer.

A delicious salad course was served by Mrs. Ward, assisted by Mesdames Rochelle Daniels, Butts and A. J. Ward.

Mr. and Mrs. J. W. Hartman departed Tuesday for Denver, where they will spend the heated term.

**NOTICE!**

On July 28th, 1919 an election will be held for the purpose of voting on the adoption of the Charter submitted by the Commission of fifteen citizens elected February 24th, 1919, to frame such charter, and J. H. McDonald has been appointed to hold said election.

By order of the City Council, June 12th, 1919. J. M. WILLIAMSON, 7-4tc Mayor

CISCO LODGE NO. 196 KNIGHT OF PYTHIAS will meet in regular session at 8:45 o'clock Friday night. Work in rank of Esquire. Visiting members are cordially invited. Wm. H. MAYHEW, C. C. J. C. EPPLE, K. R. & S.

**CISCO COUNTRY IS A FINE TRUCK DISTRICT**

While many are seeking wealth in the oil fields, and wishing for a gusher to make Cisco come into her own, they are overlooking the fact that there are other sources of wealth besides oil. As a truck producing section the Cisco country rivals that of the famous Rio Grande valley.

Mr. A. H. Carlton brought to this office this week a few samples of the truck grown by him. Nothing could be finer. There were in the lot a huge cabbage as hard as the knocker's head, and weighed 9 pounds, and as firm as the foundation on which Cisco is built. Other specimens were three large onions weighing approximately 3-4 of a pound each, and some very fine specimens of green peppers. What do we care for oil when such truck can be grown here. For after all we must look to these to raise the food stuffs before we can live. Oil can hardly be classed as a palatable dish, though an oil well is not a bad institution.

**IS THIS PROPAGANDA?**

Governor Brough of Arkansas, is touring many states and making speeches before legislatures. The press quotes the Arkansas gentles as saying when addressing the Texas legislature:

"If the mistake is made of separating the League of Nations covenants from the peace treaty Woodrow Wilson will be named for a third term and will sweep every state before him."

It is said "wild applause" greeted this statement from the prophet of the Ozarks. But then the governor is not much of a prophet in his own state. He is an avowed candidate for the United States senate, but there be those who say there is rough sledding ahead before he will be able to don the toga.

But to return to the subject. The common people wants to know whether this is League or third term propaganda? There is no question but that the league and treaty of peace should be considered separately. But it is President Wilson's ambition to put his pet measure over, even if he has to run for a third term. It is doubtful if a living man could be elected president for a third term, of this Mr. Wilson will be convinced should he attempt it. But he has already put out feelers, but very little enthusiasm was aroused. Perhaps the itinerary of Brough and others are for the purpose of spreading third term propaganda. This method has done much in the past.

**Build Now!**

Lumber and Building Material will not be any cheaper for a long time. Don't waste valuable time waiting for old-time prices to come back—but build NOW!

Get your lumber at this yard. You can be sure of the quality, for we carry only high-grade Lumber and Building Materials.

Lumber that will endure all weather conditions without warping, twisting or rotting. Easy to work and every board will stay where you put it.

Come in and get an estimate on any building you intend putting up.

Cisco

but this is going a little strong for the adherents of the unwritten law of presidential tenure.

**Mrs. Lankford Arrives.**

Mrs. Eugene Lankford and children arrived in Cisco last Sunday to join Judge Lankford, who has been in this city for the past five months building a home for his family. Judge Lankford and his interesting family come to Cisco from DeVall's Bluff, Ark., and are welcome additions to Cisco's profession and social circles. Judge Lankford comes here to practice law, but since his coming has been engaged in building a home on property bought in the Rosewell addition. Such people are always welcome, as they first build a home, then move into it. Home owners are the best citizens, as there is something stable about them.

**AMERICAN NATIONAL STARTS INNOVATION**

"Nothing new under the sun", but push and enterprise sometimes go out of the beaten paths to produce favorable notice. The stunt now being staged by the American National Bank is not a new feature, so far as the subject is concerned, but it is the first time a banking institution in Cisco has attempted anything of this character.

In front of the bank will be displayed the Pictorial Review, showing pictures of recent events with an explanatory note. These pictures will be changed daily.

The scene Monday was "America's Welcome to Brazil", picturing the president elect of Brazil taking his first view of New York city from the S. S. Imperator, which rescued him at midnight in mid-ocean from the disabled French war ship Jeanne d'Arc.

**PATRIOTIC SPIRIT OF MEXICAN MANIFESTED**

Laredo, Texas, July 3.—A Mexican came into the postoffice here a few days ago and said he wanted to give something to the Government by buying War Savings Stamps. Postmaster J. N. Worsham explained to him that this would not be a donation, but that the Mexican would be loaning his money to the Government, which would pay him interest. He bought \$100

worth of W. S. S. and told Mr. Worsham that he was going to interest other Mexicans in investing the same way and promised that he would be a thrift messenger among his people during Thrift Message Week, June 29th to July 6th.

Buy War Savings Stamps every day of Thrift Message Week. W. S. S.

Little Miss Lucile McCall is spending the week with relatives in Abilene.

WHAT ONE CLASS IS DOING

Percent of the weekly collection of the Loyal Men's Class of the 4th Dallas Christian Sunday School is put into a sinking fund by investing in War Savings Stamps. The accompanying picture of the Class was taken last Sunday in celebration of the winning of an attendance contest over every other class in the school.

The Class has an active War Savings Society and meets every other Tuesday night. The Class also pays a regular amount toward the support of a Home for Aged Persons and is active in all lines of church work.

What this Class has done, others can do. The Sunday School Class which is also a War Savings Society is laying up money which may be needed any time and which can always be secured—with interest—on ten days notice to the postmaster.

Have you bought your Thrift Stamp today?

—W.S.S.

NATIONAL BUYS REFINERY SITE NEAR THE CITY

Another Big Plum Falls in Cisco's Lap; Forty Acres Purchased One Mile West of Union Station; 5,000 Barrel Capacity.

There has been very little noise made about the matter, but another nice juicy plum has fallen in the lap of the west Texas metropolis. The Union National Oil & Refining company will soon commence the erection of a refinery just outside the city limits. The company has recently purchased forty acres of land one mile west of the union passenger station, as a site for the new refinery. This new enterprise will have a capacity of 5000 barrels, and will be built in two 2500 units.

With the completion of the Union National Cisco will have two refineries in operation, with a combined capacity of 3500 barrels.

It is not stated just when work will begin on the building of this plant, but it is stated construction will begin just as soon as practicable.

Col. Walters, of Moran, was in the city on business Monday.

TWO CISCO TEAMS WILL PLAY SUNDAY

The two Cisco teams will play the third and final game of ball Sunday afternoon when the local championship will be decided. The game will be played on Britton Hill diamond, and the fans are assured of real sport as both teams are going after the gore, and there will be no fluking on either side. League pitchers have been secured, so it is stated, and classy ball is promised.

The two locals who will contest for the championship Sunday are the Ciscos and Texas Company teams. Two of the three game series have been played, and the honors so far are 50-50, with the third and last game to be played Sunday to say who can carry off the bunting.

Christian Pastor Resigns—

Last Sunday Rev. E. Burford Isaacs, pastor of the Christian church tendered his resignation to the congregation, to take effect upon the call of the church for his successor. Mr. Isaacs has recently been elected principal of the Cisco high school, and his action Sunday was for the purpose of permitting the church to call another minister by the time the fall term of school opens. Mr. Isaacs has been the pastor of this church for the past year, and his ministerial work has greatly endeared him to his flock, who accepted his resignation with reluctance.

KINSEY WRITES FROM GERMANY

Montabam, June 8, 1919.

Glad to hear that boys are so good in Texas and that everything looks good for this year. I was out with the truck driver all day yesterday and saw a lot of country. Crops look good here. Vegetation is much richer over here than in Texas but their little fields look like gardens. See very little farm machinery except plows, which are of the crudest kind.

Reminds me of the pictures of the 12th century. All the women work in the fields. You see very few horses in Germany. A team of horses is as rare a sight as an ox team is in the states. They work their cows to the wagons and plows. It looks like a shame to work milch cows to heavy wagons, but they have no horses so it is the only thing they can do. I guess it's only the lucky ones who can have a team, even of cows, for cattle of all kinds are very scarce.

The American Food Commission is beginning now to sell food to the Germans, and are shipping flour, coffee, meat, etc., in here to sell them, and they run over themselves to buy it.

German women and children are at our kitchen door every meal to beg us for the scraps we have left on our mess kits. Cruel old world, isn't it? It will take a long time for it to right itself if it ever does.

That old cry of "make the world safe for Democracy" still rings in my ears but I fail to see where it has been made safe. We have shown our spirit of Democracy in the things we have done over here but have we taught the European nations the meaning of Democracy? No, siree, you couldn't bear it into their heads in a hundred years. By relieving them of their monarchies and giving them the right of self government, we have only made Bolsheviks and I. W. W.'s of them, a menace to the whole world.

You read the papers and read what is going on over in this crazy part of the world but you can't realize it like we who are over here and know what kind of people this part of the world is composed of. The more I see of them the less convinced I am that we can ever hope to convert them to the higher understanding of self government. They haven't the brains to handle the affairs of their nations.

You failed to send me the newspaper clipping about the 1st Division going home in July. Would like to see it in print for I've never yet seen anything in our papers about the 1st Division going home any time. Can hear lots of rumors but nothing official. They keep delay-

ing the signing of peace and we know we aren't going home until after peace is signed, so until it is signed it is useless to say when we are going home. If it is signed this month it is probable that we may come in July, but if it isn't we won't. I haven't any idea how much more time we've got to do in the army. I am tired of it and want to get back but guess I can stand it awhile longer.

Write me often and tell me all the news. Your boy, OTTO.

Mr. Denman, of the Denman Music Store, spent last week with his family in Comanche. Upon his return he

stated that a fine looking ten pound boy had come to abide in his family circle while he was away.

MANY TEXAS OIL WELLS DRILLING

There are 1675 wells being drilled in North Central and West Texas, according to drilling reports received by Roscoe Adv. publicity director of the Chamber of Commerce. The wells are in sixty-three counties.

Among the counties leading in drilling operations are Wichita with 763 wells, Eastland with 529, Stephens with 360, Comanche with 73,

Wilbarger with 47, Coleman with 36, Erath with 29, Clay with 27, Archer with 21, and Brown with 20.

It is estimated that the average cost of drilling the 1675 wells will be \$30,000. This means that about \$5,000,000.00 is being spent now in drilling operations in the sixty-three counties—Star Telegram.

**NEW RAIL PLANS ON SOUND BASIS**

Congress Determined to Make Certain Future Growth of Transportation Facilities.

PLANS AGREE ON PRINCIPLES.

Return of Roads to Owners With Assurance of Adequate Revenues.

Washington.—One of the big problems before the new Congress is getting the railroads back on a peace basis. These 260,000 miles of steel highways were taken over by the Government as an indispensable arm of the national defense; but now that their war service is over, there is a country-wide demand that the Government restore them to their owners to be operated on normal American business standards of efficiency. But, as has been pointed out by President Wilson as well as by many men in public life who have given this subject years of careful study, it is not enough simply to say to the railroad companies, "Take these railroads and give the country the best transportation service that money and brains can provide."

**Old Laws Obstruct Growth.**

The President recently said that it would be a serious mistake to return to the old conditions of railroad regulation without reforming the antiquated laws that were obstructing the free development of transportation facilities. The Director General of Railroads has recently made an inspection trip from coast to coast, and he has been telling the people that the time has now come to put the railroads on a sound foundation.

The plans for a better system of national control of railroads are as varied as were the plans for banking and currency reform when Congress received a mandate from the people to provide insurance against financial panics. The public now demands insurance against a breakdown of railroad transportation, and the new Congress is undertaking this work as secondary only to insurance against international warfare. Congress solved the banking problem seven years ago as a non-partisan issue, in which all the people had a common interest, and Congress evidently is tackling the railroad problem with the same spirit.

While the many plans that have been proposed differ in the methods to be adopted in reaching the desired goal, it has been pointed out by Senator Cummins of Iowa that all these plans have really very much in common—so much so that he is confident that Congress will have little difficulty in framing a bill that will meet with popular approval, and that will take the railroad question out of politics for many years to come.

**Many Plans With One Aim.**

The Iowa Senator has a commanding position in this Congress because he is the ranking member of the Interstate Commerce Committee of the United States Senate, and it is in this committee that the new railroad bill will take final form. In an address before a national meeting of business men at St. Louis Senator Cummins stated that since the close of the war fully thirty complete plans for new railroad legislation had been submitted to him by business men, economists, bankers, railroad officials and owners, Government officials, railroad workers and just plain citizens.

The basic principles upon which all of these plans, with one exception, agree are as follows:

1. Private operation is more efficient and more economical than Government operation, and the public interest will therefore be served by a return of the roads to private management.
2. To make certain that new capital will be attracted to the expansion of railroad facilities, there ought to be greater certainty that a fair return will be earned on the investment.
3. The merging of weak and strong roads into large competing systems should be encouraged.

The making of a formula to provide a fair return on railroad capital seems likely to be the phase of the problem most thoroughly debated in Congress. The Director General has been urging that the Government ought to guarantee a certain return and share in any excess earnings. Leading bankers, especially some of the international bankers in Wall street, who have in the past marketed many hundreds of millions of railroad securities, also look favorably on the suggestion of a Government guarantee, which will make it easier to sell new securities, and will also stabilize the market for the old bonds and stocks.

**Government Guarantee Opposed.**  
But the proposal that the Government shall guarantee the interest and dividends on private capital invested in railroads will undoubtedly meet with very vigorous opposition in many quarters. Even railroad executives, who might be supposed to take kindly to the idea of a Government guarantee against failure, have frankly stated that they do not want it, because they believe it is un-American in principle, would tend to lessen efficiency, and would involve the roads in a Government partnership that would inevitably lead to Government ownership.

**SUPERINTENDENT OF SCHOOLS HERE**

Lining Up School Matters for Opening of Fall Session; Bids to Be Considered for New Ward School Next Thursday.

The new superintendent of Cisco public schools, Mr. J. J. Godbey, arrived here last week, and is lining up school matters preparatory for the opening of the fall session. Mrs. Godbey and children, will not reach here before the first of August.

Mr. Godbey stated that the fall session would open about September 1, the exact has not been set.

The inadequacy of school buildings for the Cisco schools will be to a certain extent overcome by the building of the additional ward school, bids for which are now in the hands of the secretary of the school board, which will meet Thursday next, when these bids will be considered, and the contract let. This will give Cisco two ward or graded schools and the high school. While relieving the crowded conditions considerably, more building than those contemplated will have to be erected before the next school year.

Mr. Godbey stated that teachers' salaries had been materially raised in Cisco, but there were yet several vacancies to fill, possibly eight or ten in the high school and approximately fifteen or eighteen in the ward schools.

**Olin Lancaster Returns.**

Olin Lancaster, son of Mr. and Mrs. C. R. Lancaster, arrived in Cisco Tuesday from Chicago, where he has been attending school. Olin comes home with the highest reports of his school work, having been exempted from all his examinations, and passed with grades practically perfect in his studies. He will spend his summer vacation with his parents, and return to Chicago for the fall term.

**Artists Concert at City Hall.**

Next Tuesday night at the City Hall, there will be a concert by Miss Davies, reader, and Miss Schick, soloist. This recital will be given under the auspices of the Sunday school of the Christian church. Miss Davies frequently appeared in recital before the soldiers at Camp Bowie and was on the committee of entertainment. Miss Schick is an excellent soloist, having traveled with a lyceum company. Both come highly recommended.

larger with 47, Coleman with 36, with 29, Clay with 27, Archer with 21, and Brown with 20. It is estimated that the average cost of drilling the 1657 wells will \$30,000. This means that about 300,000.00 is being spent now in drilling operations in the sixty-three counties—Star Telegram.

**PROSPERITY AND PLENTY PREVAILS**

Yellow Legged Chicken is a Reality, and Not a Memory, in Nimrod; Items of Interest Gathered in That Community; Fruit a Plenty.

The prevailing dry weather of the last few days was welcomed by farmers who are eager, and rushing to thresh their grain, which has been largely harvested, but many feared the major portion would rot in the stack.

Mrs. J. N. Broyles and daughter, Miss Edith, are visiting Mrs. E. A. Warner of Dallas.

Fred Holt, Nimrod's overseas soldier, has received his honorable discharge from the army, and returned to his home. Fred, was in the army for two years, spending about one year on the fighting front overseas.

Turner Plummer and wife of Fort Worth, are the guests of his parents, Mr. and Mrs. T. W. Plummer.

Mr. Bill Simpson, who has been in Stephens county the past two weeks, came home Tuesday.

Mr. and Mrs. John Broyles of Healdton, Okla., are visiting their parents, Mr. and Mrs. J. N. Broyles. They will locate in Eastland where John will go into business soon.

Mrs. Luther Hall of Putnam, is spending the week with Mrs. A. B. Hall.

Another Nimrod hero is home for good. John Munn, who has been serving his country, received his discharge last week, and is visiting his sister, Mrs. L. C. Meadows, other relatives and friends in this community.

Several from this community attended the entertainment at Haskell, which was given at the home of Mr. Perdue last Saturday night.

Misses Mabel and Ima Baird were the guests of their sister, Mrs. Ross Marchman of Cisco, Saturday and Sunday.

There is no indication of starva-

tion in prosperous Nimrod, where peace and prosperity reign. Fruit and vegetables are abundant. Plenty to supply the local needs and much to sell. Loads go to market daily. But we are thankful that we are thus blessed, for with the toothsome roasting ears in abundance, and the palatable yellow legged chicken, fried to tempt the palate of an epicure starvation nor high price of living, has any terrors for those thus fortunately situated, and such is Nimrod.

**Nimrod's Sailor Weds.**

Bailey Hutton, Nimrod's sailor boy, who has been on a furlough, was quietly married to Miss Essie Ford, and created the surprise event of the week when he and his bride arrived here. Their honeymoon was of short duration, for Bailey's furlough was about expiring, and he departed the first of the week for New York, to report to his ship, and again take up his work in the navy, where he enlisted some time ago. Until his enlistment expires his wife will remain here with his sister, Mrs. Ben Westerman. They were married in Cisco Tuesday.

**ANOTHER NUISANCE IS BEING ABATED**

At last the debris at the corner of Avenue H and Broadway has been cleared away. The contractors for the new Methodist church commenced work Monday morning, and the first work was to remove the piles of old shingles and lumber which has been a menace to pedestrians for the past three months. All will be glad to know they can walk Cisco's principal residence street without fear of running a rusty nail in their pedal extremities, or breaking their neck from a fall over this debris that has menaced the limbs of people so long.

For insurance of all kinds see Lee Owen. He represents none but Old Line Companies. Also notary work solicited. tf 46 c

Remember that when you bring your Ford car to us for mechanical attention that you get the genuine Ford service—materials, experienced workmen and Ford factory prices. Your Ford is too useful, too valuable to take chances with poor mechanics, with equally poor quality materials. Bring it to us and save both time and money. We are authorized Ford dealers, trusted by the Ford Motor Company to look after the wants of Ford owners—that's the assurance we offer. We are getting a few Ford cars and first come first to get delivery.
