VOL. No. 39

CISCO, EASTLAND COUNTY, FRIDAY, AUGUST 22, 1919.

NO. 16

EXALL GASSER IS HARNESSSED AT 1720 FEET

After Spouting Millions of Cubic Feet of Fuel for Weeks; Qualls is Underreaming at One Thousand One Hundred and Eighteen Feet

Albert Oil Co's. No. 2 Turner is drilling at 2050 feet.
Ardizzone et al's. No. 1 Kincaid underreaming at 1920 feet.
Ballentine et al's. No. 2 Pleasant Grove is drilling at 2250 feet.
Barney Carter et al's. No. 1 Pearce is drilling at 960 feet.
Caldwell Oil Co's. No. 1 Connellee is drilling at 1385 feet.
Chapman et al's. No. 1 Wright is underreaming at 800 feet; No. 1 Sue is drilling at 1900 feet.
Codsden Oil & Gas Co's. No. 1 Barker is drilling at 950 feet; No. 2 Holcomb is drilling at 250 feet.
Drillers Oil Co. No. 1 Barnes is drilling at 2800 feet.
Duke Dome Oil Co's. No. 1 Snodgrass is drilling at 1930 feet.
Eclipse Oil Co's. No. 2 Cotton is shut down at 1275 feet; No. 3 Cotton is drilling at 1500 feet.
Empire Gas & Fuel Co's. No. 1 Peebles is drilling at 2350 feet.
Fain et al's. No. 1 Hawk is drilling at 250 feet; No. 1 Pleasant Grove church lot is fishing at 335 feet.
Fulsom Petroleum Co's. No. 1 Hawk is drilling at 500 feet.
Dorsey et al's. No. 9 Harrison is drilling at 2830 feet; No. 10 Harrison is drilling at 260 feet.
Gillespie et al's. No. 2 Cotton is drilling at 250 feet.
Goode Oil Co's. No. 1 Sue is fishing at 1290 feet.
Sun Company's. No. 8 Rust is drilling at 2300 feet; No. 9 Rust is fishing at 1654 feet; No. 1 Lauderdale is shut down at 710 feet; No. 4 Lauderdale is shut down at 750 feet; No. 1 Maynard is drilling at 1,000 feet; No. 2 Maynard is drilling at 350 feet.
Harvey et al's. No. 5 Cotton is drilling at 250 feet.
Hercules Petroleum Co's. No. 1 Brooks is drilling at 250 feet; No. 2 Holleman is shut down at 240 feet.
Hogg Creek Oil Co. Jr., No. 1 Anderson is setting casing at 680 feet.
Hivik et al's. No. 1 Sue is drilling at 2,000 feet.
Porter Wertz Oil Syndicate's. No. 3 Perkins is drilling at 950 feet.
Sapulpa Oil & Refining Co's. No. 1 Pippin is drilling at 250 feet.
Leon Oil Co's. No. 3 Allen is underreaming at 850 feet; No. 4 Allen is drilling at 2050 feet; No. 8 Allen is drilling at 1,000 feet.
Lucky Boy Oil Co's. No. 1 Little is drilling at 350 feet; No. 1 Anderson is drilling at 250 feet.
McDonald Oil Co's. No. 1 Garrett is drilling at 600 feet.
McKinsey et al's. No. 2 Griffin is drilling at 2660 feet.
Mother Pool Oil Co's. No. 1 Miller is drilling at 400 feet; No. 2 Miller is drilling at 600 feet.
New Domain Oil & Gas Co's. No. 1 Ward is drilling at 900 feet.
North American Refining Co's. No. 1 Connellee is drilling at 1700 feet.
Ocean Oil Co's. No. 1 Brooks is drilling at 2990 feet.
Ohio Cities Oil & Gas Co's. No. 1 Herrington is drilling at 1870 feet.
Phillips Petroleum Co's. No. 1 Allen is shut down at 2000 feet.
Porter Wertz Oil Syndicate's. No. 2 Perkins is drilling at 1675 feet; No. 4 Perkins is shut down at 235 feet; No. 5 Perkins is drilling at 900 feet.
Ranger Rick Island Oil Co's. No. 1 Brock is drilling at 1500 feet.
Ranger Cisco Oil Co's. No. 1 Miller is drilling at 450 feet.
Ranger Texas Oil Co's. No. 1 Harrell is shutting off gas at 1733 feet.
Tex-Rickard Oil Co's. No. 2 Cotton is drilling at 250 feet.
Riley Drilling Co's. No. 1 Sue is drilling at 825 feet.
Root, Huff & Duff's. No. 2 Perkins is fishing at 700 feet; No. 4 Perkins is drilling at 400 feet; No. 1 Potet is drilling at 1275 feet; No. 2 Potet is drilling at 860 feet.
Royal Duke Oil Co's. No. 1 Hawk is shut down for rears at 800 feet.
Scranton et al's. No. 1 Sue is drilling at 2850 feet.

Simmons et al's. No. 1 Ward is shut down at 620 feet.
Sinclair Gulf Oil Corp's. No. 3 Barnes is drilling at 250 feet; No. 4 Barnes is drilling at 750 feet; No. 1 Danley is drilling at 2990 feet; No. 2 Danley is drilling at 1500 feet; No. 2 Hagaman is drilling at 2875 feet; No. 4 Hagaman is drilling at 250 feet; No. 3 Harpool is shut down at 600 feet; No. 6 Harpool is underreaming at 2000 feet; No. 1 McEllothlin is drilling at 2970 feet; No. 2 Thompson is fishing at 2335 feet.
Skelly & Shankley's. No. 1 Scott is drilling at 1100 feet.
Southwestern Oil Co's. No. 1 Brooks is drilling at 1420 feet.
Prairie Oil & Gas Co's. No. 1 Cotton is drilling at 500 feet; No. 1 Eastland Mining Co. is drilling at 2530 feet; No. 2 Howard is drilling at 2000 feet; No. 44 Howard is drilling at 1,000 feet; No. 6 Howard is drilling at 2130 feet; No. 6 Roper is drilling at 250 feet; No. 7 Roper is drilling at 1550 feet; No. 10 Roper is drilling at 250 feet; No. 11 Roper is drilling at 800 feet; No. 12 Roper is drilling at 1675 feet; No. 20 Roper is drilling at 300 feet; No. 7 Terrell is drilling at 1999 feet; No. 13 Terrell is drilling at 2100 feet; No. 5 Terry is drilling at 310 feet; No. 6 Terry is drilling at 250 feet; No. 7 Terry is drilling at 1810 feet.
Texas & Pacific Coal & Oil Co's. No. 2 Beideman is drilling at 2300 feet; No. 7 Butler is drilling at 1000 feet; No. 9 Butler is drilling at 1800 feet; No. 14 Butler is drilling at 2235 feet; No. 3 Clemmer is drilling at 700 feet; No. 6 Duncan is skidding the rig at 440 feet; No. 4 Fox is drilling at 1490 feet; No. 5 Fox is drilling at 1465 feet; No. 6 Hand is fishing at 450 feet; No. 3 Henson is drilling at 950 feet; No. 4 Hodges is drilling at 2000 feet; No. 5 Hodges is drilling at 2100 ft; No. 7 McCleskey is drilling at 2,000 feet; No. 5 McCleskey is drilling at 700 feet; No. 4 Norwood is drilling at 550 feet; No. 5 Norwood is fishing at 650 feet; No. 12 Norwood is shut down at 100 feet; No. 13 Norwood is drilling at 1275 feet; No. 14 Norwood is drilling at 370 feet; No. 18 Norwood is drilling at 300 feet; No. 1 Pool is drilling at 2130 feet; No. 1-A Terrell is drilling at 900 feet; No. 4 McCleskey is drilling at 2450 feet.
Stanton Oil Co's. No. 1 New Hope church is fishing at 1205 feet.
States Oil Corp's. No. 1 Barker is drilling at 250 feet; No. 1 Dab is drilling at 900 feet; No. 1 Earnest is fishing at 335 feet; No. 1 Hardin is drilling at 300 feet; No. 1 Summerall is drilling at 250 feet.
Steiner Oil Co's. No. 1 Butler is drilling at 2150 feet; No. 5 McCleskey is shut down at 726 feet.
Texas & Arkansas Oil Co's. No. 1 Brooks is drilling at 400 feet.
Texas Co's. No. 5 Boyd is fishing at 1695 feet; No. 1 Bowden is drilling at 1500 feet; No. 1 Exall is shut down at 1720 feet; No. 1 Hise is drilling at 2768 feet; No. 3 Littleton is drilling at 2050 feet; No. 5 Littleton is drilling at 1100 feet; No. 1 Maxwell is drilling at 1880 feet; No. 2 Stanley is fishing at 1629 feet; No. 3 Stanley is drilling at 500 feet; No. 1 Turner is drilling at 500 feet; No. 1 Sneed is underreaming at 1075 feet; No. 1 Lightfoot is drilling at 115 feet.
Texas Crude Oil Co's. No. 1 Sue is drilling at 2500 feet.
Texas Venture Oil Co's. No. 1 Niver is underreaming at 805 feet.
Tulsa Producing & Refining Co's. No. 1 Sue is drilling at 2265 feet.
Gulf Production Co's. No. 1 Perkins is underreaming at 2045 feet; No. 2 Perkins is drilling at 1780 feet; No. 3 Perkins is drilling at 1780 feet; No. 3 Perkins is drilling at 900 feet; No. 4 Perkins is drilling at 250 feet; No. 9 Stateland is drilling at 1550 feet.
Humble Oil & Refining Co's. No. 1 McCord is fishing at 1574 feet; No. 4 Parton is fishing at 1770 feet; No. 2 Scott is drilling at 500 feet; No. 1 Keaghey; Nos. 5 and 6 Keaghey, No. Qualls is underreaming at 1118 feet.
Magnolia Petroleum Co's. No. 4 Connellee is fishing at 2650 feet; No. 5 Connellee is shut down at 730 feet; No. 7 Connellee is drilling at 1,000 feet; No. 3 Davis is fishing at 2975 feet; No. 3 Harris is drilling at 250 feet; No. 3 P. O. Harris is drilling at 250 feet; No. 6 Naah is drilling at 2,000 feet; No. 9 Rock

Big Mass Meeting
NEXT SUNDAY (FOR MEN ONLY)
at the hour of three o'clock, afternoon, Dr. Norris will preach a sermon, answering the question: **"Why I Stayed in Fort Worth"**
Bring Your Gentlemen Friends and Come.
Committee on Invitation

DRILLS IN THE PAY AND THOSE NEAR THE SAND

Big and Little Productions Brought In During the Past Week; John Markham Making One Thousand Barrels.
Shepard Oil Co's. No. 1 Olden is making 150 bbls. at 3505 feet.
Texas & Pacific Coal & Oil Co's. No. 5 Hand is making 150 bbls. at 3304 feet. The No. 7 was reported last week making 200 bbls.
Prairie Oil Co's. No. 8 Howard is a 450 bbl. well at 3521 feet.
Wagner et al's. No. 1 McCleskey is a 450 bbl. well at 3521 feet.
Mid-Kansas Oil and Gas Co's. No. 1 E. Layne is going on the pump at 3460 feet.
Magnolia Petroleum Co's. No. 1 N. B. Harris is making 465 bbls. this week at 3395 feet.
Sinclair Gulf Oil Co's. No. 1 W. T. Davis is a 300 bbl. well, making some water at 3540 feet.
John Markham et al's. No. 14 Copeland is a 1000 bbl. well at 3550 feet.
Monitor Oil Co's. No. 1 Parton is making 40 bbls. 3460 feet.
State Oil Corporation's. No. 1 Turner is a 500 bbl. well at 3562 feet. No. 1 Buttler is making 200 bbls. at 3467 feet.
The Texas Co's. No. 1 Hogan is going on the pump and looks good for about 25 bbls. per day.
Magnolia Petroleum Co's. No. 6 T. W. Connellee in the Olden district is making 1500 bbls. per day at 3425 41 feet. No. 7 Rock is making 100 bbls. on the pump at 3548 feet.
Gulf Production Co's. No. 3 Barnes is a 250 bbl. well at 3388 feet.
Magnolia Petroleum Co's. No. 1 W. A. Harris is an 80 bbl. well at 3485

TWO BIG ONES MARK CLOSE OF BIG WEEK IN OIL

Saturday Ushers in 4,800 Barrel Gusher in Desdemonia Field; Several Big Producers Come In During the Week.
Ranger Times.
From Desdemonia a 4,800 bbl. gusher.
Out on the Norwood tract No. 2 is in.
These were the events in the oil field marking the close of the big week. Both came late Saturday.
Texas Company has completed No. 6 G. N. Grice, was the word for the wonder pool. The latest sensation of the Desdemonia district struck the black lime at 2,710 and was drilled to a depth of 2,745 feet. It is the third completion on the tract. No. 3 and No. 4 are also producers, hardly as big as this latest arrival.
Norkood No. 2 of the Texas and Pacific Coal and Oil Company which has been watched for over a week, came in with the close of day Saturday. Late Saturday night it was doing 100 bbls. an hour, and drilling had been suspended. The pay was struck at 3,387 feet and drilling continued to 3,418 feet. This may not be top production for the second completion on the tract which has produced Ranger's biggest and steadiest wells for the depth of the pay in Norwood. No. 1 has never been determined. It was not drilled through. No. 1 is still doing around 4,000 bbls., five months old.
No. 3 will probably be the next arrival. It is at 2,950 feet. No. 13 is drilling at 1,350 feet.
On the Butler tract which produced No. 10, a 2,500 bbl. well this week. No. 13 is due soon. It is at 3,180 feet. No. 9 is 3,460 and No. 14 at 2,995.
Norwood No. 2 was the Texas and Pacific Company's third well last week. Conner No. 2, a smaller completion, was the second. No. 2 is at the southeast corner of the 751 acre tract.
Texas and Pacific Coal and Oil Co. and Markham's No. 1 Copeland is a 2,000 barrel completion, with sand from 3,456 to 3520 feet. It is the twelfth well on that rich tract, all but one of which numbers are good producers. The other completions are: 2, 3, 4, 5, 6, 7, 8, 9, 11, 13 and 14. No. 1 is a hard luck well, which has been shut down for some time.
Mid-Kansas Oil and Gas Company has a 250 bbl. well in Stephens Co., in J. W. Hill No. 1, on section 20, block 2, S. P. R. R. survey. The sand was struck at 3,206 feet.
Emma Terrell of the Prairie Oil & Gas Company may be expected to be a completion soon. It is drilling at 3,443 feet in the black lime.
McLaughlin No. 1 of the Sinclair Gulf Oil Co. is at 3,418 feet in the black lime.
B. L. Danley is on top of the black lime also, at 3328 feet. Hagaman No. 2 is eight feet into the black lime, which was met at 3,375 feet, with no showing as yet.

— WE ARE NOW —

DRILLING

On our Reed No. 1 well at around 600 feet. The crew drilling this well just finished a good producer on the Moorehead tract near this location in a record-making time of 26 drilling days, and, being thoroughly familiar with the log of this part of the field, they promise us equally as good service on our well.

The progress of this well will determine the date on which we will withdraw from the market any unsold portion of Treasury Stock. Watch this space for announcement.

One party inspected our well and other Desdemonia tracts this week and handed us a \$4,000.00 check for 3200 shares. If you are expecting to get any at the present price don't delay beyond the last of next week.

TEXANA OIL CO.

OFFICERS

Jno. H. Garner, President J. T. Anderson, Vice-President
Judge D. K. Scott, Vice-President Alex. Spears, Treasurer
R. F. Davis, Vice-President E. P. Crawford, Secretary.

increase the good wholesome flavor of the Kentucky Burley tobacco. A regular man's smoke and delicious!

John Markham's et al's. No. 10 Copeland is swabbing at 3573 feet, and No. 17 Copeland is at the top of the pay at 3306 feet.
Phoenix Oil Co's. No. 1 Griffin is shut down for a liner at 3197 feet, having the top of the sand at 3095 feet.
Texas & Pacific Coal & Oil Co's. No. 2 Clemmer is making 165 bbls. at 3328 feet.
No. 1B Hoffman is making 50 bbl. on the pump at 3325 feet. No. 15 Brewer is abandoned at 3130 feet. No. 3 England is abandoned at 3475

Production in Ranger Field Still Over 60,000

The average daily production of the Ranger field is off about 1000 bbls. this week, the production for the field being distributed about as follows:

	Barrels
The Texas Co.	3,500
Prairie Oil & Gas Co.	7,550
Sun Co.	3,200
Magnolia	4,715
Gulf Production Co.	5,650
T. & P.	10,500
Sinclair Gulf	385
Humble	3,525
Mid-Kansas	275
Miscellaneous	21,000
Total	60,308

John H. Garner has returned home from New York City. Mr. Garner has been absent a month buying goods for fall and winter.

WHERE DRILLS HAVE REACHED OVER 3,000 FEET

Gulf Production Company's Ray No. 1 is shut down at 3,505 feet; Humbles Sut Cleaning After Shot, at 3,552 Feet.

Atlas Oil Cos. No. 2 Mann is cleaning at 3700 feet.

Caldwell Oil Co's. No. 1 Simer is drilling at 3265 feet.

Cotton States Oil Co. No. 1 Britton is shut down at 3180 feet.

Eclipse Oil Co's. No. 1 Sue is setting casing at 3306 feet.

Gates Oil Co's. No. 1 Barker is fishing at 3515 feet.

Gates Extension Oil Co's. No. 1 Townsite is shut down at 3175 feet

Dorsey et al's No. 1 Harrison was shot with 60 quarts at 3420-3447 feet.

Gilliespie et al's No. 1 Cotton is having casing trouble at 3375 feet.

Gladstone Oil & Refining Co's. No. 4 Barton is having casing trouble at 3260 feet; No. 6 Barton is drilling at 3640 feet.

Great Southern Oil Co's. No. 1 Baumgartner is fishing at 3500 feet.

Hamon's No. 1 McCleskey is drilling at 3218 feet.

Harwell et al's. No. 1 Moss is drilling at 3490 feet.

Dunlap et al's No. 3 Rock is shut down at 3610 feet.

Imperial Petroleum Co's. No. 1 Parrish is preparing to make a shot at 3300 feet.

Leon Oil Co's No. 2 Allen is drilling at 3210 feet.

Magnolia Petroleum Co's. No. 6 Connellee is drilling at 3240 feet.

No. 1 Davis is preparing to shoot at 4010 ft.; No. 8 Nash is plugging off water at 3570 feet; No. 7 Rock is drilling at 3515 feet; No. 8 Rock is drilling at 3310 feet.

Markham's No. 1 Copeland is shut down at 3535 feet; No. 12 Copeland is fishing at 3465 feet.

Mid-Kansas Oil & Gas Co's No. 2 Griffin is preparing to shoot at 3365 feet; No. 2 McCleskey is fishing at 3485 feet; No. 1 Taylor is fishing at 3240 feet.

Ranger Rock Island Oil Co's. No. 1 Wright is drilling at 3299 feet.

Ranger Hudson Oil Co's. No. 1 Miller is drilling at 3565 feet.

Tex-Rickard's No. 2 DeMoss is shut down at 3615 feet.

Roger et al's No. 1 Stateland is shut down at 3480 feet.

Root, Huff, & Duff's No. 1 Connellee is drilling at 3340 feet; No. 4 Poteet is drilling at 3135 feet.

Sinclair Oil Corp'n. No. 2 DeMoss is fishing at 3422 feet; No. 1 Hagaman is shut down at 3780 feet. No. 1 Harpool is cleaning at 3592 feet; No. 2 Harpool is drilling at 3345 feet; No. 5 Harpool is shut down at 3271 feet.

Texas & Pacific Coal & Oil Co's. No. 1 Bradford is drilling at 3299 feet; No. 10 Butler is drilling at 3236 feet; No. 12 Butler is shut down at 3012 feet. No. 2 Conner is set-

ting casing at 3365 feet; No. 3 Cook is shut down at 4355 feet; No. 3 Davenport is pulling casing at 3250 feet; No. 1 Duncan is drilling at 3415 feet; No. 2 Hodges is fishing at 3885 feet; No. 1 Mancill is fishing 3305 feet; No. 1 Meador is drilling at 3265 feet; No. 2 Norwood is pulling pipe at 3270 feet; No. 3 Norwood is drilling at 3228 feet; No. 2 Steward is fishing at 3223 feet; No. 1 Robertson school land is drilling at 4037 feet; No. 2 Rust is shut down at 3432 feet; No. 3 Walker is cleaning after shot at 3450 feet.

State Oil Corporation No. 1 Butler is drilling at 3390 feet; No. 3 Morton is drilling at 3295 feet.

Strab Oil Co's. No. 2 Pearce is drilling at 3220 feet.

Texas Company's No. 1 Hagaman is shut down at 3720 feet.

No. 3 Hagaman is drilling at 3380 feet.

Prairie Oil and Gas Co's. No. 3A Christmas is shut down at 3223 feet; No. 5-A Christmas is fishing at 3240 feet; No. 6-B Christmas is drilling at 3235 feet; No. 3 Earnest is shutting off water at 3114 feet; No. 3 Howard is drilling at 3358 feet; No. 8 Howard is drilling at 3284 feet; No. 4 Meyers is cleaning after 80 qt. shot at 3325 ft; No. 4 Roper is shut down at 3490 feet. No. 5 Roper is drilling at 3552 feet; No. 8 Roper is drilling at 3040 feet; No. 1 Roper is cleaning after shot at 3580 feet; No. 2 Terrell is fishing at 3240 feet; No. 10 Terrell is drilling at 3253 feet; No. 1 Whiston is fishing at 3292 feet.

Westheimer Oil & Gas Co's. No. 1 Brashear is shut down at 3665 feet; No. 1 Griffin is cleaning at 3380 feet

No. 2 Griffin is changing tools at 3332 feet; No. 3 Griffin is fishing at 3585 feet. No. 5 Griffin is drilling at 3345 feet. No. 6 Griffin is fishing at 3340 feet.

Humble Oil & Refining Co's. No. 2 Davis is pulling casing at 3360 feet

No. 2 Sue is cleaning after shot at 3552 feet.

Mrs. Mingus Sells Cliff House Hotel

Mrs. Dolly Mingus last week sold the Cliff House hotel to Breckinridge parties, but whose names were not given. The Round-Up is informed that the hotel will be operated by Judge Greenwood of that place, while Mrs. Mingus will develop other property, so it is stated.

Mrs. Mingus came here from Abilene nearly two years ago and opened the Central cafe, which she later sold and bought the Cliff House. Previous to her coming here she had resided in Abilene for thirteen years, but by good management has built this hotel to one of the most popular apartment houses in Cisco. The consideration is said to be \$16,000.

Just Arrived—
I have taken over the agency of the famous Detroit Jewel Gas Ranges. Stock is beginning to arrive now, and I would be pleased to have you examine the line before you make other purchases. John Sherman. 16 tlc.

Just A Ride Makes

A Hundred New Owners Are Added Daily --Each a Warm Supporter of the Essex

Men Want The Essex

Surely no car has ever equaled the Essex in the way it has been endorsed by the public. From the very first it has been advertised just as we said it would be, by what people had to say for it.

You remember we announced the Essex would have to speak for itself. Its fate was left with the people. And now you can judge what the verdict has been.

One Hundred Owners Added Daily

Deliveries at this writing exceed 10,000 cars. An average of 100 new buyers are getting their Essex cars every day.

Such a production would be large for many older organizations. But it is not half equal to the demand that there is for the Essex.

Sweden Ordered 5 Then Cabled for 75

The first shipment of Essex cars reached Sweden a few days ago. The initial order was for five. But on the day they were unloaded the dealer cabled for 75 to be shipped immediately.

That is significant, for Sweden is one of the countries where gasoline costs nearly a dollar a gallon. Even before the war European people did not take readily to American cars. Only the light, small, inexpensive cars had a market then.

Cost of operation was the big item. Gasoline and oil prices made large cars impractical.

But the Essex just met the needs. It has the sturdiness and dependability Europeans had never attributed to moderate priced American cars. The Essex met their demands for economy and low operating cost.

And Those Advantages Are Important Here

Americans, rather than put up with the customary objections of light low priced cars, more willingly paid the

price that obtained the degree of elegance, comfort and performance they wanted.

But the Essex seems to have filled the need as we expected it would. It answers the demand for moderate first cost. It meets the inexpensive cost and maintenance situation and, of course, it gratifies the taste in appearance and performance.

Now Everyone Talks For The Essex

They tell their friends what they have learned about it. Any dealer can tell you of person after person who has placed orders with him as a result of a ride they have had with some friend. As a test of how it stands in the opinion of motorists in general, or even the man in the street, mention the Essex anywhere you might be in such a way as to provoke a discussion of it.

The result will be interesting. You aren't likely to hear a single adverse criticism. But you will probably conclude everyone is interested in selling you an Essex

That is the Essex Selling Force

It is just what you will hear from any group of motorists. Everyone seems bent on telling everyone else what a fine car the Essex is

Note the manner in which they praise it. People judge it in comparison with other cars of merit that they know.

That probably explains why Essex performance and quality is compared with large, high priced automobiles. There is no other measure by which Essex can be described.

When will you take your ride in an Essex?

Your enthusiasm will be as great as it now is with close to a million others.

Essex boosters grow daily—and thus they swell Essex sales.

LUMBER, SHINGLES AND A COMPLETE STOCK OF BUILDING MATERIAL. LET US SAVE YOU MONEY. YOU WILL LOSE MONEY IF YOU FAIL TO LET US FIGURE YOUR BILL.

BURTON-LINGO COMPANY

We can furnish Oil Certificates, Round-Up

Our Repair Policy

Recharging, repairs, testing—these are part of our service. We have the training and equipment to do this work well, at the least price consistent with good work.

Cheap work isn't cheap at any price, and would only lose us customers.

But we regard this service as a part of our obligation to make Willard Batteries last as long as possible at least expense.

Another of our obligations is to distribute for Willard a battery that will last longer and doesn't need so many repairs—the Willard Battery with Threaded Rubber Insulation.

It gives longer life with fewer troubles just as a cord tire does. Drop in and let us tell you its remarkable performance record after four years of service.

BEAUTIFY YOUR HOMES

Have decided to make Cisco my home for an indefinite period. Am still cutting weeds, and mowing lawns. There are many other things I can do that will add to the beauty of the town. Next spring I am going to be prepared to do some real yard work, ornamental, as well as practical. My rates for work are 50 cents per hour. No work considered that does not directly help the looks of Cisco.

MEXICO WILL EXHIBIT AT THE VICTORY FAIR

INVITATION EXTENDED BY DIRECTORS THRU CONSUL FLORES ACCEPTED BY PRES. CARRANZA

The Republic of Mexico, for the first time in history, will make an official Government exhibition at the Victory Fair.

Mexican Consul Flores, of Ft. Worth and Dallas and W. H. Stratton, Secretary State Fair of Texas, originated the idea. Signor Albino R. Nuncio, of the Mexican Industrial, Commercial & Labor Department, made a trip all the way from the City of Mexico to Dallas, a few days ago to complete arrangements. Signor Nuncio is an expert in preparing displays for exhibitions. He had charge of the Mexican Government's exhibition at the Pan American Exposition at Buffalo, N. Y. and at the Panama-Pacific Exposition at San Francisco, California.

The display at the Victory Fair will consist of agricultural, industrial, official, and artistic exhibits. Pottery, Indian Blankets and wicker-ware are among the commodities, in many different sizes, color combinations and unique designs that are made by the Mexicans and the Indians of Mexico, that will be shown.

The Dallas Trade Trippers, who visited Mexico recently, inspected their national museum of commercial and industrial arts. They are filled with admiration for the many interesting and handsome articles they saw there. Many of these, together with a famous Mexican art loan collection, it is planned, will be shown at the Victory Fair at Dallas in October.

One, or more, of their excellent Police, or Army Bands, may come. Secretary Stratton has sent a special request of this nature to President Carranza.

Twenty thousand square feet of floor space have been set aside for the Mexican Government exhibition. Advances have been received that thousands of representative Mexicans will attend the Fair. At this time an immense amount of business can be transacted between Mexicans and Texans and many cordial personal friendships will then be made.

HORACE GOLDIN, MAGICIAN STAR FOR VICTORY FAIR

WITH COMPANY OF ORIENTAL MYSTICS WILL MYSTIFY COLISEUM AUDIENCES.

Horace Goldin, Master Magician, Illusionist, and Inventor of Legerdemain, with his company of Oriental Mystics, will be a star coliseum attraction at the Victory Fair at Dallas in October.

Goldin presents some of the most mystifying spectacular illusions ever seen anywhere. He himself is a "whole show of whirlwind magic."

A beautiful maiden walks through a big plate glass mirror—Goldin disappears from a wicker basket suspended from an airplane—a dainty damsel appears to be torn to shreds by a raging tiger, only to walk forth presently unharmed. Goldin climbs a rope dangling from nowhere, until he disappears into—nowhere. These, and many other tricks which appear to defy all the laws of nature and of mechanics, will be presented by Goldin, the Royal Russian Magician & Company.

GIANT SEARCHLIGHTS WILL ILLUMINATE VICTORY FAIR

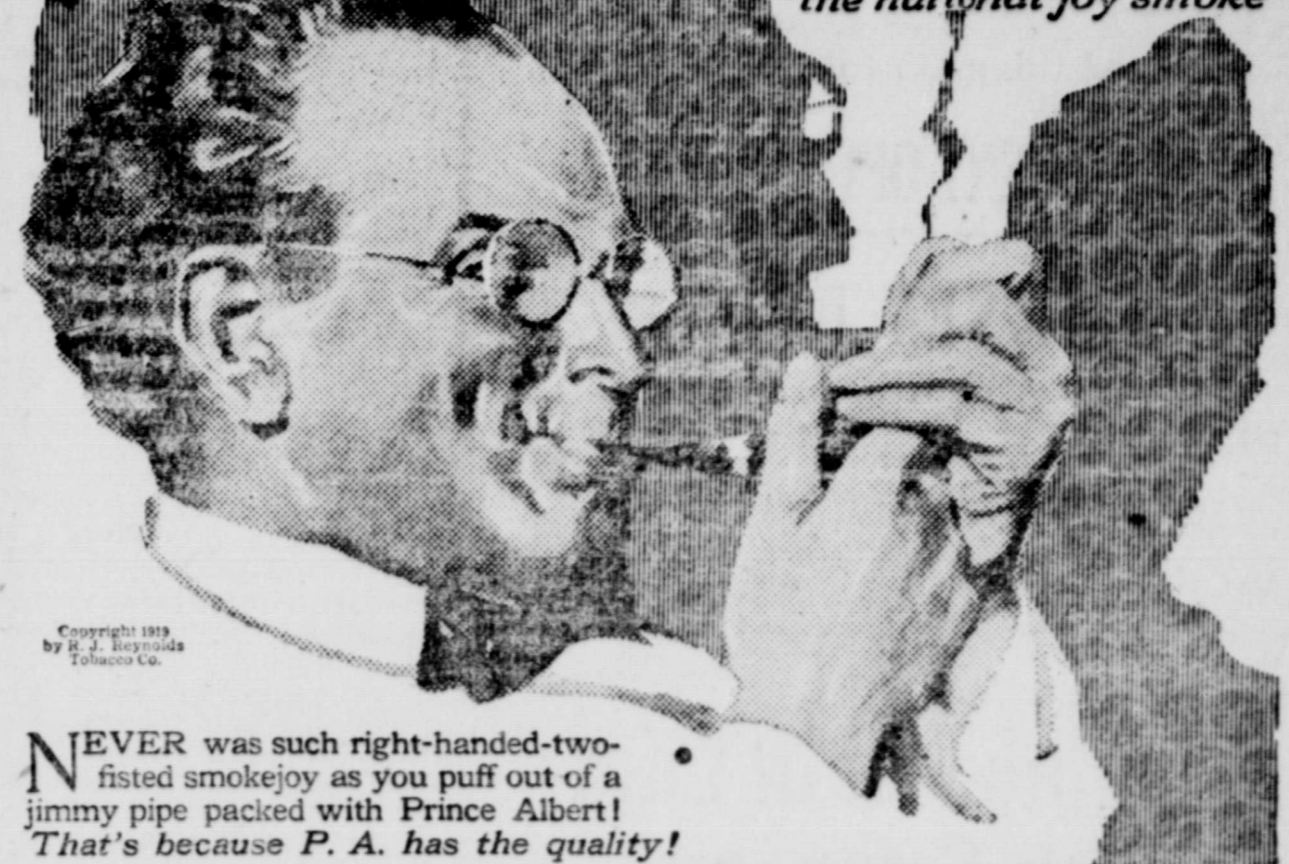

THREE HIGH POWERED LIGHTS MADE FOR RUSSIAN GOVERNMENT SECURED.

Three immense electric Searchlights, that will prove a revelation in illuminating possibilities, have been secured for the Victory Fair. These were obtained through the co-operation of J. F. Strickland, President, and J. W. Carpenter, Vice President, Dallas Light & Power Company.

The combined strength of these searchlights is 6,500,000 candlepower. They were procured in Chicago where they were originally made for the Russian Government prior to the revolution in that country, but were never shipped there. The additional light will be found a great convenience and protection to the visitors. Light is emblematic of progress and knowledge and these giant searchlights will be especially appropriate for the Victory Fair at Dallas in October.

PRINCE ALBERT

the national joy smoke

NEVER was such right-handed-two-fisted smokejoy as you puff out of a jimmy pipe packed with Prince Albert! That's because P. A. has the quality!

You can't fool your taste apparatus any more than you can get five aces out of a family deck! So, when you hit Prince Albert, coming and going, and get up half an hour earlier just to start stoking your pipe or rolling cigarettes, you know you've got the big prize on the end of your line!

Prince Albert's quality alone puts it in a class of its own, but when you figure that P. A. is made by our exclusive patented process that cuts out bite and parch—well—you feel like getting a flock of dictionaries to find enough words to express your happy days sentiments!

Tippy red bags, tidy red tins, handsome pound and half-pound tin humidors—and—that classy, practical pound crystal glass humidor with sponge moisture top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

**Commissioners and Overseers Are
 Blamed for Deplorable Condition
 of Public Roads: Many Officers
 Wink at Law Violations.**

The grand jury made its final report Tuesday to Judge Burkett, 88th district court. The report, in many respects has teeth in it, but final action against officers for failure to perform their functions left, in some cases, to a future grand jury.

In its report the grand jury finds that "parents are negligent in the caring and training of their children by reason of carelessness with whom they permit their daughters to associate, who are, in many instances brought to shame, and in many instances are deceived by married men."

The automobile is blamed for the downfall of both girls and boys, in the report, due to parents permitting indiscriminate driving by their children.

Text of the Report.
 Eastland, Texas, Aug. 18, 1919.
 To the Hon. Joe Burkett,
 Judge of the 88th District
 of Texas.

We, the members of the Grand jury for the July term of the District Court of Eastland county, Texas, beg leave to make the following report:

We have been in session—days have examined 223 witnesses and have found 129 bills of indictment, 41 felonies and 88 misdemeanors.

During our deliberations we have been very diligent in the investigations of the violations of the law in Eastland county, and we could not help being impressed with the fact that the conditions in this county have grown worse, and is now in a condition that is to be regretted.

Recently thousands of people have come to this county, caused by the oil developments. Among these people, which is only natural, are included many persons who have little regard for law and order. A great deal of money is being spent which is attracting the people. A great deal of money is being realized by our local people as well as many others coming from all points of the compass. The abundance of money is tending to cause all classes to forget the many things that contribute very materially to the betterment of man. We fear that many of our people who have so long been law abiding citizens are now forgetting themselves and are lending their influences to the people who care nothing for the law. A public sentiment is being formed in some sections of Eastland county that smacks of danger. Let our people be careful lest they go astray. Commercialism is carrying the people off their feet, so to speak. Money making seems to dominate our people. We fear that they are forgetting the great fundamental principles that characterizes and makes real men and women.

There has come to our attention one thing that is deplorable in reference to our young people. The girls are prone to take up with strangers, many times to the sorrow of themselves and their parents. We find that the parents are too lax with their children, and especially their daughters, let them keep company with men whom they do not know, and in many instances we find that they have been brought to shame by imprudence on their part and carelessness on the parts of their parents, and in many instances they are deceived by married men. We have seen parents heart broken over their troubles when more than likely their indiscretion was the beginning of the trouble and could have been easily prevented. Too easy to get acquainted and automobile driving is causing many broken hearts and is proving to be the downfall of many girls in Eastland county. The young men are being permitted to run wild, so to speak, and the parents allowing them to drive automobiles indiscriminately is causing many of them to steal and commit burglary, their great desire to speed which in many instances places them in circumstances where they deem it necessary to take things which does not belong to them, which naturally results in getting them into trouble. Parents should keep in closer touch with their children.

Commissioners on the Carpet.
 While we realize that each succeeding grand jury in the past has given a report on the condition of the roads in Eastland county with

recommendations, and that it has extended over such a long period of time that the people have begun to treat it as a mere joke, yet we desire to give some facts which have been brought to our attention while we have been in session. We have had each member of the Commissioners' Court before us and have found the following:

That the Commissioners are not complying with the law as they should. The law requires that each commissioner go over his roads in his precinct at least every three months; that he make a written report to the court each three months. We find that the Commissioners are not requiring enough from the road overseers; that the road overseers are not giving the matter of keeping the roads in condition sufficient attention. We find that the road overseers are not seeking the co-operation of the Commissioners, and that the Commissioners are not using the power given them, the result of which is that very little work is being done on our public roads which at the present time are in a deplorable condition, and in some parts of the county can hardly be passed over. We find that many of the road overseers have never received their commissions, many of them still remain in the sheriff's office undelivered. The entire county is disorganized as to our road system and the road working. What other result may we expect than the present existing conditions under these circumstances? In view of the fact that these conditions have been existing for years, and that members of the commissioners' court have been practicing this system for years, and while we do not feel prone to criticize too severely on account of this fact, yet we recommend that the next grand jury again take up this matter and if a great improvement has not been brought about that all persons responsible for the condition of roads in Eastland county be dealt with severely.

In view of the fact that at an early date that the voters will be called upon to vote for road bonds, and as the people will be inclined to put off the working of the roads to await the money realized therefrom, and as for voting and selling the bonds will require a period covering several months, we insist that the work on the public roads of Eastland county be started at once to make them at least passable temporarily. Owing to the fact that Eastland county has a great traffic over her roads, and realizing that the old system of road working has proven a failure, we suggest that our representatives and senators be asked to introduce and ask for its passage, a special road law in the next legislature for Eastland county.

Some Officers Wink at Violations.
 We find that the increase in violations of the law in this county is on the increase. We find that the great influx of people to Eastland county is making it difficult to enforce the law. We find that our peace officers, a large per cent of them, are doing their duty, but a small per cent of them are winking at the law. We recommend that the voters retire these and all other officers who are not doing their duty at the first opportunity. We find that it is with some difficulty that the Sunday laws are being enforced, and that some of our officers are in sympathy of the violators. We find that some of our officers advocate the running of picture shows on Sunday which is a violation of the law. These officers should resign or help enforce the law.

We find that many misdemeanors that should have been investigated by the county attorney and the Justices of the Peace come before the grand jury. This should never be. The work for the grand jury is getting to be so great until felonies alone consume sufficient time. We recommend that courts of inquiry will be held in each Justice precinct so that these misdemeanors may be prosecuted without having to wait for a bill from the grand jury.

We recommend that our representative and senator be asked to have a bill passed by the next legislative providing a stenographer's services for the grand jury while it is in session. The work is getting so heavy that this is badly needed.

It is with deep regret that the members of this Grand Jury learn of the resignation of the Hon. Joe Burkett as judge of this judicial district. We greatly appreciate the efforts he has made in the discharge of his official duties, and although he has labored under many difficulties he has done his duty without fear or favor, and we feel that had he received the proper support from the officers and people he would not have resigned.

We ask that we be finally discharged.

J. R. SKINNER, Foreman.

A MUCH NEEDED INDUSTRY!

The Cisco Oil Fields are expanding to vast proportions and new fields are coming in to justify the anticipations of the most optimistic investor. It would be the height of folly to transport this oil to other points for refining when it can be refined at home at the same cost and on the same basis of profit. **The Union National Oil & Refining Company** plant immediately west of the City of Cisco, will be the largest refining plant in the Cisco Oil Fields. With a site large enough to accommodate a large plant and being conveniently located to an adequate water supply and railway facilities, this plant can not help but be one of the most profitable and soundest investments anywhere.

If you have not bought some stock in this Company already, do not put it off any longer, as construction will begin soon and you want to have a part in an industry that will pay you a good substantial dividend.

Union National Oil & Refining Co.,

SUGAR SITUATION BECOMES ALARMING

For several days there has been a scarcity of sugar in this market, and to alleviate the situation, which is most acute at this time, when the preserving season is on, Mayor Wil-

iamson and Secretary Downing have taken the matter up. They have been corresponding with proper officials with the view of securing a shipment here, but so far have met with very little success. A telegram received Friday morn. informed them that none was to be had, as the refineries have oversold.

WILL HISTORY REPEAT ITSELF UNDER WILSON

Mr. Bryan's Domination Proved as Baleful to the Party of Jefferson as Did that of Mr. Cleveland: What of the Present?

(Henry Watterson in the Saturday Evening Post.)
 He (President Cleveland) was in truth a strong man, who, sufficiently mindful of his limitations in the beginning, grew by unexampled and continued success overconfident and overconscious of his own conceit. He had a real desire to serve the country. But he was apt to think that he alone could effectively serve it. In one of our spats I remember saying to him, "You seem Mr. President to think that you are the only pebble on the beach—the only honest and brave man in the party—but let me assure you of my own knowledge there are others."
 His answer was, "Oh, you go to..."

He split his party wide open. The ostensible cause was the money issue. But underlying this there was a deal of personal embitterment. Had he been a man of foresight—or even of ordinary discernment—he might have held it together and with it behind him have carried the gold standard. I had contended for a sound currency from the beginning of the fiscal contention, fighting first the green back craze and then the free silver craze against an overwhelming majority in the west and south, nowhere more radically relentless than in Kentucky. Both movements had their origin on economic fallacies and found their backing in dishonest purpose to escape honest indebtedness.

Through Mr. Cleveland the party of Jefferson, Jackson and Tilden was converted from a democratic into a populist, falling into the arms of Mr. Bryan, whose domination proved as baleful in one way as Mr. Cleveland's had been in another, the final result shipwreck, with the extinguishment of all but the label.

Mr. Bryan was a young man of notable gifts of speech and boundless self assertion. When he found

If ever men are "Tom" and "Bill" to each other, it's when good pipes are a-going. If ever good pipes go their best, 'tis when Velvet's in the bowl.

For Velvet is a mighty friendly smoke. Kentucky Burley is the leaf that Nature made for pipes. Wholesome and hearty, honest as the day. And Velvet is that same good Burley leaf, brought to mellow middle age.

For eight long seasons Velvet "meditates" in wooden hogsheads, throwing off the rawness of "young" tobacco—truly "ageing in the wood." Out Velvet comes—cool, calm and generous—the tobacco Nature made good, kept good and made better.

Velvet's sweetness is the sweetness of good tobacco, not "put on" like "frosting" on a cake. Its mildness comes from natural ageing, not from having the life baked out. Its fragrance is true tobacco fragrance, not a perfume. And Velvet makes an A Number One cigarette. Roll one.

As good old Velvet Joe says:

"Fill yo' heart with friendly thoughts,
 Yo' mouth with friendly smoke—
 An' let the old world wag."

Liggett & Myers Tobacco Co.

—the friendly tobacco

COLLEGE OF INDUSTRIAL ARTS

STATE COLLEGE FOR WOMEN

Denton, Texas

Next Session Opens Tuesday, Sept. 16th

Denton, Texas, August 10.—The College of Industrial Arts at Denton, Tex., is the largest educational institution of first rank in Texas except one, which is co-educational, the largest college for women in the Southwest and the third largest college for women in the United States. Its phenomenal growth and remarkable record are due to the fact that its courses of study represent in content and method the very best in the education of the young womanhood of this country. Their mastery of the courses of study gives intellectual discipline, culture and development of character, and social and economic efficiency. There is no proper phase of the education of a young woman which is not adequately provided for at the College of Industrial Arts. With a faculty of more than ninety (90) members, with twenty (20) buildings located on a beautiful campus of seventy-five (75) acres, and with every modern convenience and comfort this College is unquestionably better prepared to educate the young women of Texas than any other educational institution of the United States. Why should the young women of Texas attend colleges and universities in the North and the East, when the College of Industrial Arts offers a better and more wholesome environment, a more thorough, comprehensive, and adaptable training, larger opportunities for growth and achievement, all for less money, near home? Parents, guardians, and girls interested in what the College of Industrial Arts offers in the way of education and training to the girls of this country and who desire a catalogue, should write President F. M. Bralley, College of Industrial Arts, Denton, Texas.

SOUTHERNERS PLAN RECONSTRUCTION

IN EUROPE—WORK IS TO BE OPENED IN BELGIUM AT ONCE.

Commission Abroad To Study the Situation.—Extensive Program Is Planned—Church Busy In Other Lands.

Nashville Tenn. (Special Correspondence)—On August 29th a commission composed of Bishop James Atkins, of North Carolina, John R. Pepper, of Tennessee, Dr. Belle H. Bennett, of Kentucky, and Mrs. Luke S. Johnson, of Georgia, sails for Europe to arrange for the opening of extensive religious and philanthropic work in Belgium, France and other war-torn countries.

They represent the Centenary Commission and the Board of Missions of the Methodist Episcopal Church, South, which have set aside \$5,000,000 of Centenary funds for religious reconstruction in Europe.

They go with authority to purchase property and open work at once in Belgium and to make a careful survey of the needs in other countries and recommend an adequate program. Orphanages, schools, social centers, religious literature and direct evangelism will be the methods employed.

In some of the countries to be entered the work will be conducted in co-operation with the Methodist Episcopal Church, which is already operating in France, Italy and the Balkans, and is planning to expand its work greatly as a result of the Centenary, which in the two churches brought missionary pledges aggregating more than \$150,000,000.

METHODISTS REVIVE ANCIENT CUSTOMS

TWO AND ONE-HALF MILLION MEMBERS TO OBSERVE DAY OF FASTING AND PRAYER.

Centenary Commission Starts Movement To Establish 100,000 Family Altars—Following the Plan of Old Circuit Riders.

Nashville Tenn.—The Centenary Commission of the Methodist Episcopal Church, South, has named August 29th as a special day of fasting and prayer for the two and a half million members of the church. The Commission has also started a movement to establish 100,000 Family Altars, having that many homes pledged to observe daily devotions.

This is the revival of ancient customs in the church. It is the part of an intensive campaign which the church has launched in connection with the spiritual side of the Centenary program of the Centenary Movement, through which the Methodists raised \$53,000,000 in an eight-day drive last May.

The object of the present campaign, as stated by Rev. S. A. Neblett, Secretary of the Department of Spiritual Resources, is to enroll at least 40% of the church members in the prayer league known as the Fellowship of Intercession, to establish 100,000 Family Altars, and to assist in finding a thousand young people to go abroad as missionaries.

August 24-31 is known as Enlistment Week. During this period the seven thousand pastors will urge their members to join the Fellowship of Intercession, to establish Family Altars, and to observe the day of fasting and prayer.

JAPAN TO MODIFY KOREAN RULE.

Dr. Predicts Dr. S. E. Hager, 25 Years a Southern Methodist Missionary in The Orient.

Nashville, Tenn.—That Japan will moderate her rule in Korea is the prediction of Dr. S. T. Hager, recently returned missionary of the Methodist Episcopal Church, South. Dr. Hager has spent more than a quarter of a century in Japan doing religious work.

"Japan is learning that her success in giving good government to Korea is fraught with difficulties, and that tolerance and good will must take the place of harsh and severe methods.

"The military leaders aim mainly at making their rule thorough and permanent, and naturally there is great temptation to the man of the sword to make his rule severe.

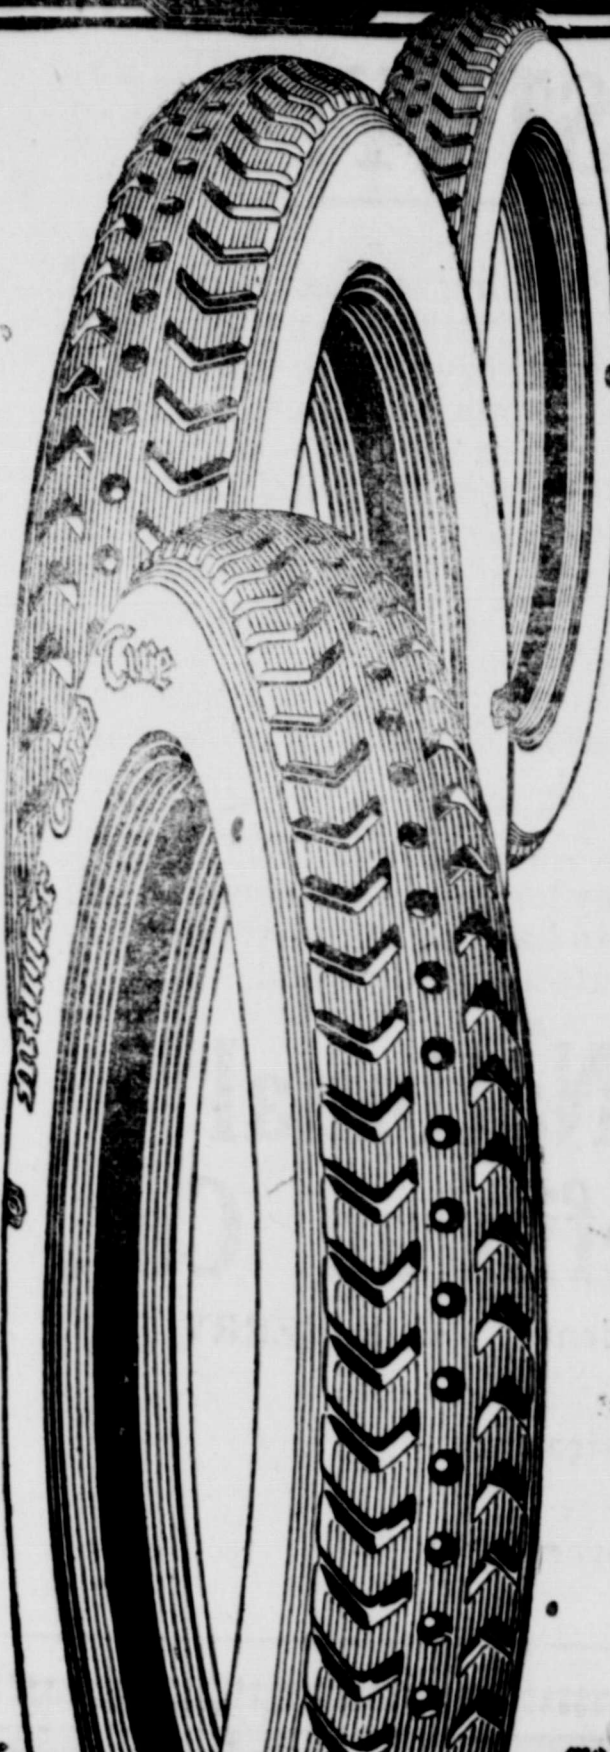

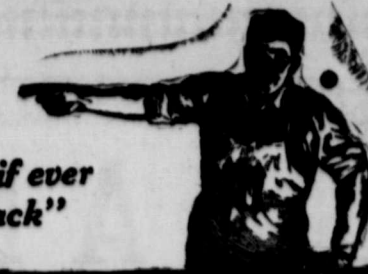

"But democratic ideas are growing in Japan, and more temperate treatment of the subject race will come about."

Dr. Hager says the Christian missionaries in the Orient are elated at the success of the Centenary movement, through which the church raised \$53,000,000.00 for missionary work in all lands.

Millions of this will be spent in the Orient. Hundreds of new missionaries will be sent and there will be a great advance movement in medical work, education and evangelism.

Miller GEARED-TO-THE ROAD UNIFORM MILEAGE Tires

"I am penalized if ever one comes back"

Drive Up or Call Up

We're Always at Your Service

We are making good in our business by making good with the motorists. Good tires, quick service and moderate charges, form the combination that is winning us bigger trade each week.

By good tires we mean Miller Tires—famed for uniform mileage. Uniform Millers mean no "second bests." That is because they are built by a system of uniform workmanship—by training all Miller Tire makers to a single standard.

Why trust to luck in buying tires when Miller offers you mileage certainty?

One point more—the quick, obliging service that we are rendering is something that, once tried, men always come back.

Give us a chance to earn your patronage and you'll like to trade here.

Turner Tire & Rubber Co

GEARED-TO-THE ROAD

Some Corn—

As an evidence of what can be and is being produced in the Cisco county besides oil, the Round-Up was presented with two samples of corn which was distinguished by reason of its extreme height. Though having two well developed ears of grain, the stalk measured fifteen feet in height, and was large in diameter recently. Both were splendid specimens, but from different angles. Mr. J. W. Williams brought in a sample

lives—miles south. These ears weighed 3 1/2 pounds, and contained 2180 grains. Mr. Lockhart says he has about 12 acres of this corn, and is not worrying about the price of bread.

Lend your support to the new band now being organized.

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes; or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply, or when you travel.

R. J. REYNOLDS TOBACCO COMPANY Winston-Salem, N. C.

CAMELS' expert blend of choice Turkish and choice Domestic tobaccos answers every cigarette desire you ever had! Camels give such universal delight, such unusual enjoyment and satisfaction you'll call them a cigarette revolution!

If you'd like a cigarette that does not leave any unpleasant cigarettey aftertaste or unpleasant cigarettey odor, *smoke* Camels! If you hunger for a rich, mellow-mild cigarette that has all that desirable cigarette "body"—well, you get some Camels as quickly as you can!

Camels' expert blend makes all this delightful quality possible. Your personal test will prove that Camel Cigarettes are the only cigarettes you ever smoked that just seem made to meet your taste! You will prefer them to either kind of tobacco smoked straight!

Compare Camels for quality and satisfaction with any cigarette in the world at any price!

Cigarettes

The Way to Get Delivery of a Hudson Super-Six

The Automobile Which Men Said Would Have No Rival, Still Outsells All Other Fine Cars

First announcement of the new Hudson Super-Six promised prompt deliveries.

We had arranged a large production, but had underestimated the force of Hudson prestige.

In the interim between writing the announcement and their publication, some four or five weeks, dealers booked orders faster than we could produce cars.

Repetition of Each Previous Year

The Super-Six, from the first, has outsold all other fine cars. The present situation is but a repetition of what has happened each of the past four years.

Up to the time the present model was offered 60,000 Super-Sixes were in service. We are building 20,000 this year—one-third as many as had been delivered in the previous years.

Why This Demand For Hudsons?

The answer is found in any locality in any group of motorists.

The reliability and endurance Hudsons have proved in every test and to every owner is a matter of official record and common talk. Read the records for speed, ac-

celeration and hill climbing for the past four years. You will find the part the Super-Six played excels that of any other stock car or other car of stock materials and designs.

Observe Hudson performance on any city street or country highway. Super-Sixes are everywhere. They belong to people who demand the most of their cars. They are the favorite of the hard, fast drivers and of those who demand comfort and reliability.

There are more Hudson closed and chauffeur driven cars than of any other fine grade. They are the choice of those who want elegance and distinction.

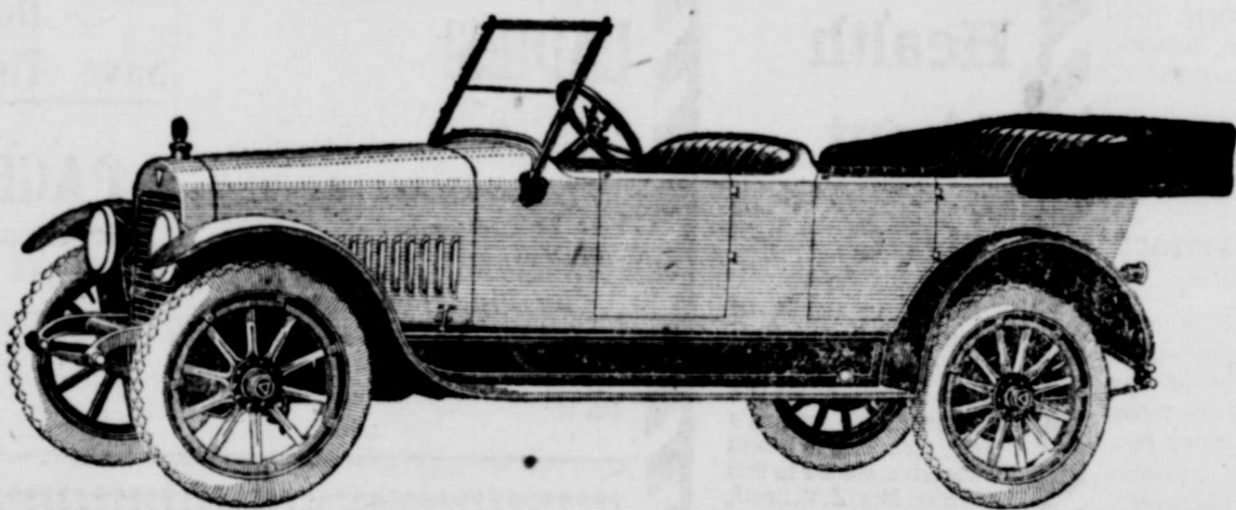

The service of these 60,000 earlier Super-Sixes accounts for today's demand.

How to Get a Hudson Super-Six

Place your order now. Don't delay even if you can't obtain immediate delivery of the model you want.

There is a great demand for all good cars. There never was such a shortage. Eagerness for prompt delivery has caused many to accept makes that were not even second choice to Hudson. Avoid the possibility of disappointment by ordering your Hudson now. Accept the earliest delivery you can obtain. Remember that the car you buy must serve you a long time and that a slight inconvenience in delivery now will be offset by the satisfaction your Hudson will give.

Eastlanders Not Pikers—

Eastland county will soon vote on a bond issue of \$5,000,000 for good roads. Evidently those Eastlanders are not pikers.—Rockdale Reporter.

STREET FIGHT IS SENSATION OF THE SEASON

Four Pugilists Engage in an Exhibi- tion of the Manly Art in Front of Post Office and Roll in the Slush That is Allowed to Drain There.

The morality and quietude of Cisco is well known all over the oil district. In fact we are so moral that one of our citizens would hard- ly think of violating the Sunday law by selling a cigar, or pulling the ox out of the ditch by supply- ing an auto tourist with a few gal- lons of gasoline on Sunday. That would be wicked, and the law would likely haul the offender up before a court of justice (?) and divorce him of some of his hard earned coin of the realm. Yes, Cisco is the one moral place in middle west Texas.

True, we are living under the same laws here that the other towns operate under. The Sunday law is a state law, and all towns are suppo- sed to be amenable to the same stat- utes, but then Cisco is not responsi- ble for the lack of vigilance of the officers of other towns. We are run- ning Cisco, and our purity squad are right on the job, especially when it is a matter of any infractions upon the state statutes, which say thou shall not. We are strong on thou shall not, especially all manner of entertainment on the Sabbath.

Thou shall not buy a cigar on Sun- day, thou shall not buy or sell that which soothes the senses to help pass off a lonesome day in a strange city, nor purchase a gallon of gas to en- able your tin lizzie to reach your destination; yea, even though you be a physician and was so careless as to neglect to fill your tank (auto tank) on Saturday, even though thy patient dieth for the lack of professional services.

Above all thou shall not fight. This latter injunction has heretofore been entirely superfluous, but on Tuesday last the law was violated. There was a two-three and finally de- veloped into a four cornered fight. And that right in the heart of peace- ful and law-abiding Cisco. Such an occurrence has not been known in such a time that the minds of the oldest inhabitants runneth not to the contrary. Which custom has been so long and rigidly observed that it can be styled as one of the common law statutes.

But when it became known that a fight was actually being pulled off in Cisco there was a stampede to see such an unusual event. There were those sojourning in our midst who hailed from less law-abiding communities, and these at once be- came home sick. They rushed to the impromptu "arena" where the fist event was being staged, and soon all the rest of the town was deserted. That block where the manly art was being demonstrated became the congested portion of the city, and the combattants were sur- rounded by a sea of humanity.

They knocked, bit and pawed, and rolled into the mud and slush on the street where the paving contractor is taking up the concrete foundation on that part where the previous pave- ment was put down, preparatory to correcting the grade which was not observed in the beginning.

It must have been great fun to roll around in this mud and slush, which has been standing in front of the postoffice for the past years, evidently from some drain pipe or leaky water main in that block, emptying into the street, and which the officers have not caused to be stopped.

Yes, this is nice slushy, stinky water, which has the appearance of coming from the drain of some bath tub or kitchen sink. And this is right in front of the post office, where most of the population breath its misasmatic odors every time they come for their mail. Just why the officers allowed this to remain deponent sayth not.

But there is where the fight start- ed, and it proved the sensation of the week. There were four in the mix-up. Just what precipitated the affray is not known, nor was there any advance announcement. Had there been the gate receipts would have been sufficient to pay the fines and costs which were assessed by the magistrate after Constable Loon- ey, who appeared on the scene at the stenth round, and took the victors and vanquished into custody.

This was really a good clean all- around match.

We know such an insignificant event would have been a matter un- noticed in some of our sister cities, where such are daily occurrences, yet in moral and law-abiding Cisco it was really an event, and no doubt will be discussed for months to come, so rare are fights in Cisco.

Excavations Made For New City Nat'l. Bank

Eastland, Aug. 18.—Dirt was broken here Saturday for the build- ing of the new City National Bank of Eastland, which is to be completed about January 1st, at a cost of about \$200,000.

Forms have been completed on the new Connellee hotel and the walls of the building were started up Mon- day and the building will be comple- ted as rapidly as men can do the work.

Quite a few contracts were also let last week for the building of new homes in Eastland.

Mr. C. Scarbrough and Miss Verna Owen were quietly married at Abilene, August 11th. Miss Verna is one of Cisco's most charming young ladies and Mr. Scarbrough, who has lately returned from the army, has been a resident of this place for several years. They will make Cisco their future home. This couple have the congratulations of their many friends.

Meats in Storage Not "Hoarded"

Live stock is a seasonal crop—like cereals and grains.

It is "ripe" and is marketed in larger quantities in certain months. This causes a natural oversupply at one time and a natural shortage at another.

During the time of oversupply Swift & Company places some of the meat in cold storage, against the season of short production.

This is a necessity in order that the nation's ration of meat—58,000,000 pounds every day in the year—may be forthcoming as the consumer requires it.

This is not hoarding, not price manipulation, not market control. It is mere common sense.

United States Bureau of Markets' figures of stocks of frozen and cured meats July 1 are being used as a basis for Department of Justice investigations in many cities. When properly analyzed, based on Swift & Company's stocks, these figures show:

62 per cent (approximate) is pork and beef cuts, etc., cured and in process of curing. It takes 30 to 90 days in pickle or salt to complete the curing process.

12 per cent is frozen pork, of which more than three-quarters is to be cured in the next few months.

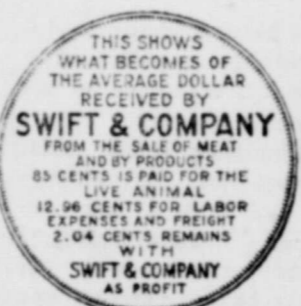

7 per cent is lard. This is a normal supply and only four-fifths of a pound per capita, and much of it will have to go to supply European needs.

19 per cent is frozen beef and lamb, and miscellaneous meats, part of which is owned by the Government and was intended chiefly for over-seas shipment. If this were all diverted to domestic trade channels it would be only 2½ lbs. per capita—a 5 days' supply, 100%.

From this it will be seen that "meats in storage" represent unfinished goods in process of curing and the working supply necessary to assure the consumer a steady flow of finished product.

Young Folk Guests Mrs. Jack Winston

The young folk of the Christian church enjoyed another of their delightful socials last Wednesday evening, August 13, at the home of Mr. and Mrs. Jack Winston.

This affair was given in honor of the following recently married young people: Mr. and Mrs. Jess Sessions, Mr. and Mrs. Corridor Rominger, Mr. and Mrs. Elmer Jobe.

Electrically illuminated was the beautiful lawn, in one corner of which was a table with the punch bowl, presided over by Miss Lola Tune, who served the invigorating beverage to each of the guests as they arrived.

When the last of the guests had arrived all were invited into the house, where music and various games were enjoyed until a late hour, after which they returned to the lawn where water melons were served.

Those enjoying the hospitality of their charming hostess and genial host, were Mr. and Mrs. Jess Sessions, Mr. and Mrs. Corridor Rominger, Mr. and Mrs. Elmer Jobe, Mr. and Mrs. Ben Anthony, Mr. and Mrs. Oscar Cliett, Rev. and Mrs. E. Buford Isaacs, Mr. and Mrs. Floyd Moon, Mrs. Tony Coker, Misses Gladys Finley, Vida Walker, Theresa Weddington, Lella Stamps, Elizabeth Webb, Mozell Hooks, Lola Tune, Nellie May Tune, Hester Tune, Johnnie Montgomery; Messrs. August Frick, B. Morris and Virgil Hall.

Humble's 4000 Barrel Well in New Territory

On the Forgason tract in the northwest corner of the Robinson survey, and just southwest of the Olden, the Humble Oil and Refining Co. got a 4000 bbl. well at 3462 feet making an extension to the proven field about a mile to the southwest.

This tract lies south of the R. S. Harris tract of the Magnolia Petroleum Co., and about two miles south of the production on the Cotton leases. It is just north of the T. & P. railroad, and is an important extension of the Ranger field in the Olden district.

The bringing in of this well in practically new territory, the well the same company has on the Moor-man tract in the Sipe Springs district, the Harris well in Stephens Co. and some good productions in the Desdemonia field make things look good for the Humble in west Texas.

Living Cost Nearly Doubled in Four Years

Washington, Aug. 20—Figures made public by the Department of Labor show general increase of about 80 per cent in the cost of living during the period of December 1914 to June 1919.

The investigations were in the representative cities over the United States. In every instance the greatest increase were recorded on clothing and house furnishings.

From December 1917 to June last, the figures show average increases of 20 per cent.

Food advances were the third in importance.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health... can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

MERIDIAN COLLEGE

Meridian, Texas

IF YOU ARE GOING TO SCHOOL THIS FALL CONSIDER THE FOLLOWING ADVANTAGES OFFERED AT MERIDIAN COLLEGE

1. Meridian College is an A-Plus junior college. Graduates enter the junior class at the State University.
2. Fine Arts Department very strong. Glee and Choral Club work given without tuition charge.
3. Commercial Department does standard work in bookkeeping, typewriting, shorthand and banking. Office work made a specialty. Graduates of this department assured positions.
4. A four year State Teachers' Certificate granted to students completing fifteen hours college work, three of which must be in the Department of Education.
5. Athletics both for young ladies and young men headed by the best physical trainers in the state.
6. Young ladies will live in Higgins Hall, a beautifully furnished building. Each room has single beds. This building will be in charge of an experienced matron and Mr. and Mrs. Boutwell.
7. Every faculty member will live on the campus or in one of the dormitories. This personal touch with the teachers means much to the students.
8. Young men will live in the Bosque Hall which is well equipped, hot and cold water showers, sewerage connections and electric lights. This building will be in charge of two professors and their wives. The first year away from home is a critical year in the life of a boy or girl. Meridian college looks after the students.
9. Most of our patronage comes from the non-affiliated schools. Our faculty makes special efforts to fit the students for college as soon as possible.
10. The place is healthful, has pure artesian water, is a cleaner town and our rates are low.

For further information write for catalogue. School opens September 29th.

Woodstock is the Typewriter you'll buy

CONTRACT HAS BEEN LET FOR NEW C. & C. ROAD

Rails, Ties and Spikes for the First Thirteen Miles of the Cisco-Caddo Road Has Been Bought. Grading Is Now Well Under Way.

There has been very little fuss made concerning Cisco's new road. Unlike some other towns in this section no publicity has been employed to boost this road, to keep it before the public, for the reason that meritorious projects of this character, where builders are in earnest and mean business, needs very little publicity. In this instance it has been a case of "still waters run deep."

Mr. R. Q. Lee, chairman of the railroad committee of the chamber of commerce, while not saying a great deal, has been on the job every day and most every night, for the past three months, putting this enterprise over, and that without the aid of a publicity man. In fact he has been impossible for the Round Up to secure an interview. But the announcement was authoritatively made at the meeting of the Chamber of Commerce last Monday night that the contract has been let for the road, and the material purchased for the first thirteen miles.

Several miles of the grading has already been done, and contractors are now out from the city, having commenced just north of the city limits, grading the road bed. Nothing will be allowed to interfere with the completion of the road at the earliest date possible, and it is pro-

posed to have the trains hauling freight over the C. & N. road to and from the oil fields, and the territory north of Cisco before the winter rains set in to make the highways impassable.

Since it became definitely certain that the road was assured there has been a marked activity in real estate in Cisco, and many lots have recently changed hands. But those on the inside have never felt any doubt about the road being put through, as the money has been subscribed for some time, and it was only a matter of securing material for its early completion that was holding the enterprise back.

Mr. Lee is now in Houston, where he goes to accept a large consignment of the ties which the C. & N. has purchased, and these will be on the ground when enough of the grading has been complete to commence laying the ties.

The C. & N. leaves the city just east of the crossing of the Breckenridge road, and runs almost due north, and will penetrate the richest section of the oil fields of the Cisco district.

This road will receive a great amount of freight when in operation. There are now hundreds of trucks going each day into the oil fields in Stephens county, taking the supplies to these oil fields, and as the roads are in very bad condition it is with diffidence that the freight gets into the oil fields.

CHRISTIAN SCIENCE

Christian Science services are held regularly at the Odd Fellows Hall every Sunday 11 a. m. and Wednesday 8:30 p. m. The public is cordially invited to attend.

PLAN TO REPEAT ATTACK OF 1916

Railway Employees' Chiefs Appear at Washington With New Threat to Congress.

ASK \$1,000,000,000 MORE PAY.

Also Demand Nationalization of Other Industries, Following Example of Russian Soviets.

Washington.—It is just three years since the four leaders of the railway brotherhoods, having refused arbitration of their demands, sat in the gallery of the United States Senate and held their watches on the Senators while the memorable vote was being taken on the Adamson Law that gave them \$60,000,000 additional wages a year. When the vote was counted and announced the four labor chiefs rushed out to the telegraph office and withdrew the order for a nation-wide strike.

That such a scene may be again enacted on a much greater scale is indicated by the startling developments at the nation's capital in the past few days. Now the 350,000 men in the brotherhoods have been joined by more than a million other railroad workers—shopmen, trackmen, telegraphers, clerks, station agents—and the demands are many times what they were three years ago.

A Thousand Million Dollars.

On top of a thousand million dollars of added wages granted by the Government in the past year and a half, the allied workers are asking for another increase of a thousand million dollars.

But more than this, this great body of railroad employees has served an ultimatum on the Government that all the railroads of the country must be taken away from their owners and turned over to the employees to be operated by them on a communistic profit-sharing plan.

The plan is as daring as any conceived by the Russian Bolsheviks, and behind it is the threat of a nation-wide strike, with the leaders of the men sitting in the Senate gallery, watches in hand, counting the vote.

To Tie Up All Transportation.

"We will tie up the railroads so that they will never run again if we do not get what we want," announced one of the labor spokesmen, standing within a stone's throw of the Capitol, and this amazing announcement, like an ultimatum from a leader of the Russian Soviet, was instantly flashed over the telegraph wires to every part of the country.

Since the first Brotherhood bombshell exploded in Washington at the end of July, the fact has leaked out that the brotherhoods are gathering a propaganda fund of \$10,000,000 for an intensive drive on Congress. Three million dollars, it is announced, has already been collected from the members of the unions. This will be used in campaign work in the Congressional districts, with the purpose of enlisting the votes of the members of Congress, or of defeating them for re-election if they do not vote as the brotherhoods dictate. Money will also be lavishly spent, it is stated, in sending speakers throughout the country to stir up the enthusiasm of organized labor for the brotherhood plan of communistic railroad operation.

"Nationalizing" All Industry

"If we don't get what we want out of this Congress we will put this Congress out and put another one in that will give us what we want," is the matter-of-fact announcement of the central propaganda office of the brotherhoods in Washington.

Back of the immediate purpose to gain control of the railroads is an even deeper scheme to gain control of all great industries, taking them from their owners and putting them under the direct management of the organized workers, as has been done in Russia, and as they are attempting to do in Germany and Austria.

The reports of the United States Railroad administration show that the Government, since it took over the roads in December, 1917, has increased railroad wages by considerably more than a thousand million dollars, and about \$500,000,000 a year is being taken out of the National Treasury to meet the deficit caused by the great increase in labor cost.

Big Wage Increases.

The principal advances in wages have been: To shopmen, \$360,000,000; to unskilled labor, \$225,000,000; to the train brotherhoods, \$200,000,000; to clerks, \$125,000,000; to telegraph and station agents, \$100,000,000; to miscellaneous classes, \$110,000,000.

All of these groups are now demanding additional increases of from 30 to 50 per cent. When the Government took control of the roads the average earnings of all railroad workers, including several hundred thousand unskilled workers, was \$1,000 a year. The average is now more than \$1,500 and the new demands would raise it to \$2,000.

AGAIN IN BUSINESS

Pass & Son

SUCCESSORS TO

Gude & Sons Grocery Department AFTER SEPTEMBER 1ST

Having purchased the Grocery Business of Gude & Sons we will continue the business in the same stand

Everything that is best will be carried in stock, and we ask the continued patronage of those who have always found just what they wanted at this stand.

Gude & Sons

EXCLUSIVELY

Dry Goods, Notions, Boots and Shoes

On and after September 1st we will devote our entire time to the Dry Goods department, having sold the Grocery department to Messrs. Pass & Son, who will conduct the business on and after the above date. The Grocery department will not be moved but remain in the present stand—only it will be under a new management.

We thank those who have given us their grocery trade in the past and ask that you favor Messrs. Pass & Son with the same liberal patronage. They will keep at all times a fresh and carefully selected stock of groceries, produce and all that's good to eat.

Our ever increasing dry goods business has made it advisable that we devote our time exclusively to this branch of our business, and it is our purpose to handle the best and most up to date stock of Dry Goods, Notions, Boots, Shoes, Clothing and Ladies' Ready-to-wear that has ever been shown in the city.

NORTON GRAY

Let Me Figure on Your Next Job

Methodist Minister Victim of Accident

A serious accident occurred on Avenue I, near Seventh street last Saturday, when the car driven by Dr. Lee ran over Rev. Gardner, a Methodist minister, living on Fifth street. Mr. Gardner had stopped his car, and was cranking a lady's car, as Dr. Lee approached and was going to his car when struck. Dr. Lee saw him, and slowed down his machine to almost stopping point, but it seems that Mr. Gardner never heard the approaching auto. When his attention was attracted, instead of stepping out of the way stepped right in front of the approaching machine, stated Dr. Lee to the Round Up.

The fender caught him, and dragged him under the auto, bruising the side of his face, an ear and one leg. Dr. Lee picked up the injured man and drove him to his home, where he rendered surgical attention. Mr. Gardner has sufficiently recovered to be able to be up.

Missionary Ladies Take Outing—

A number of ladies of the Woman's Missionary Society of the M. E. church, had a pleasant outing at Lake Bernie Tuesday evening. The husbands were invited and several out of town guests, and it was a delightful occasion. The ladies entertaining were Mesdames Hawkins, Pettit, Ricks, Cheney, Foxworth and Anderson. Delicious ice cream and cake were served.

A Fountain of Youth

Let your body grow old, if it will—but keep young in spirit with the mental refreshment obtained from

The NEW EDISON

"The Phonograph with a Soul"

Whatever your mood, the New Edison will be your faithful companion. It will not "sit on your nerves" It will soothe and satisfy, because it brings to you the real art of great artists, just as real as if they themselves came to sing and play for you.

The mere statement that a record is the same as the artist means nothing. The fact that critics of two thousand representative American newspapers have heard Edison artists sing or play in direct comparison with the New Edison's RE-CREATION of their art—and the fact that they have admitted in writing that the New Edison's RE-CREATION did not deviate in the slightest from the singing or playing of the artists themselves, means volumes to the music lover.

Hear the new Edison at our store and you will be convinced that these critics have told the truth.

SECOND VISIT OF INSPECTORS GET NEW PLEAS

Restaurants Meat Market, Ice Cream Factory Proprietors Plead Guilty to Pure Food Violations: Product Low in Fat Contents.

The pure food inspectors again visited Cisco this week. Messrs. Jayne and Johnson of the Pure Food department of the state, were in Cisco about ten days ago, and on that occasion filed complaints against three proprietors of cafes for violation of the pure food regulations. Each plead guilty and paid their fines. On that visit the inspectors carried away with them samples of milk and meats which were to be analyzed, the result of which would determine their action upon their return to Cisco. They came back the first of the week, and as a result other complaints were filed, pleas of guilty entered, and fines paid when arraigned in Judge Taylor's court.

It would be more gratifying to the Round Up to be able to write this story differently. We would like to have published to the world that the pure food inspectors here found nothing upon which to base a complaint. True, practically all the defendants were fined for selling products whose content were below the regulations in fat content, but all were warned that better sanitation must be observed.

The Round Up is for Cisco and her people, but as the health of the people is more important than the success of anybody's business, the paper has not been backward in preaching sanitation, and the observance of pure food regulations. Yet, the Round Up has also preached home patronage. Recently it came to the knowledge of the editor of this paper that some ice cream establishments were buying cream in other towns, when Cisco has two ice cream factories. The paper had reference to no person as the informant gave no names, but simply wanted to see Cisco enterprises prosper. The proprietor of one establishment seemed to think the home enterprise story was a direct slam at his business, but stated that he could not get the products here that his trade demanded. The Round Up presumed that the Cisco products were as good as those of any other factory, hence this paper advocated buy it made in Cisco.

Those Who Paid Fines.

This paper also intended to refrain from publishing the names of those who entered their pleas of guilty for violating the pure food regulations, but as some names have been published as those who escaped the penalties of the law, and in some instances we were in error, we have decided to give the names of those who entered pleas of guilty in Judge Taylor's court, from the record. There were eight pleas of guilty, and the following names appear on Judge Taylor's docket as having plead guilty and paid their fines for violating the pure food regulations of the State of Texas:

- D. M. Looney, plea of guilty, fine \$25 and costs.
- S. G. & S. O. Blount, plea of guilty, fined \$25 and costs.
- C. L. Hallock, plea of guilty, fined \$25 and costs.
- J. R. Butler, plea of guilty, fined \$25 and costs.
- Louis S. Frith, plea of guilty, fined \$25 and costs.
- Peter Kahagas, plea of guilty, fined \$25 and costs.
- S. G. Blount, plea of guilty, fined \$5 and costs.
- J. T. Paul, plea of guilty, fined \$25 and costs.

The best tires are those which will last the most miles. We sell the best. Turner Tire and Vulcanizing Co. Rear Masonic Building. 12-tfc. Co.

tions is 8 per cent.

Judge Taylor stated that he gave all the defendants warning that the second offence against the pure food laws would draw a fine of \$200, so it will prove a little expensive for these to follow the practice of not abiding by the regulations.

The Round Up wants to see pure, clean food sold in Cisco; wants the city cleaned up before disease epidemic cleans up the population.

This paper has no enemies to punish, but will publish the news, and work for the best interests of Cisco and her people, regardless of who is in the way. And the paper would rather scatter roses than thorns.

MISS PERRY WILL TEACH PIANO HERE

Miss L. May Perry of Abilene spent this week in the city with the view of opening a school of pianoforte in Cisco. After canvassing the situation Miss Perry decided to come here and secured apartments in which to conduct the school. Suitable and amicable arrangements and understanding were reached with the school board for the opening of her school September 15. It is not the intention to convey the impression that Miss Perry will teach in the school building, as it is understood another has been selected as the music teacher of the school. However, it is realized that one teacher cannot take care of the number of music pupils who will take lesson on the piano, and more than one teacher will be necessary. Miss Perry informed the Round Up that those who have enrolled as her patrons are very satisfactory to her, and is well pleased with the encouragement given her.

Miss Perry is a graduate in music, and has a number of years experience in teaching large and successful classes. In another column she has an advertisement, and will be glad to confer with parents who desire to have her teach their children.

B. M. Motor Company Is In Williams Building

The B. M. Motor company is the name of the new garage which has just commenced business in Cisco, and are now located in the Williams building on Sixth street and Katy right of way. The M. B. company is under the management of Messrs. R. E. Brookshire and R. P. Morgan, and will conduct a general garage business, handle trucks and automobiles.

It was the purpose of the Round Up to give an extended description of the Williams building this week, but the lack of space made it necessary to defer this until next week. The Williams building is one of the handsomest and most conveniently appointed garages now in the city, and deserves especial mention.

War Savings Committee Put On Thrift Drive

Mr. J. H. Aury of the Treasury department, is in Cisco and Eastland county this week putting on the W. S. S. drive. Many of the new certificates have been disposed of, and much interest has been displayed.

Judge Bullock is county chairman and the following ladies compose the ladies who are working Cisco: Messdames A. A. Webster, R. Q. Lee, Hawkins, Wm. Reagan, and John H. Garner. The gentlemen are Messrs. Alex Spears and J. W. Mitchell.

Allotment of Eastland and the four adjacent counties in which the drive is put on is \$1,000,000 in the treasury saving certificates.

Installs Dictaphone—

Modern methods feature the business of the American Petroleum company's office equipment here. Owing to the increased volume of their correspondence, and the inability to secure adequate clerical force, the company has installed a dictaphone in their office, perhaps the first to be put in in Cisco.

Mr. J. B. Nime was in Dallas this week in the interest of the Nime Dry Goods company, returning home last night.

THE WOMEN OF THE OLD SOUTH.

The following beautiful tribute to the womanhood of the Old South is taken from an address by Dr. R. A. Webb, of Mississippi:

"I plead for the old order which is passing away; for the old society which is fading; for that womanhood which created the gallantry and crowned the chivalry of the land of the South. I hate to see the woman of the Old South go. She was my mother, my sister, my sweetheart. She had the form which the Grecian chisel traced in marble, and the character which the Roman orator framed in sentences.

She had a face like an opal that had sipped red wine; lips that had been touched by the brush of a pink dipped in the blood of a rose; hands softer than velvet, smoother than satin, and truer than steel. She had the princely graces of a maiden and the royal virtues of a matron—the star of her lover, the pride of her husband, the idol of her children, the model of her slaves. The crimson tides which flowed through her veins were full and bounding, nothing languorous nor lackadaisical, nothing bold or brazen; not a mere mollusk fattening upon the banks of life for the fishery of death.

"The ideas which possessed her mind were forceful and intelligent, never stupid, insipid, and insane. The feelings which throbbled in her heart were queenly and radiant, rich and luxuriant. Her speech was clean as the face of the stream, and her words were like jewels on a purple tray. Refinement and culture, elegance and modesty, charity and kindness, sweetness and courage, piety and devotion waited at the altar where she made the offering of the best that was in her. The tone of her life was as pure as the liquid note of the woodlark's evening song when she charms her mate in the fragrant gloaming. She loved poetry, music, and art, dancing and laughter and song, riding and boating and frolic and play; but pleasure unsoiled its shoe and whitened its lip when it crossed the threshold where she stood. To her womanhood each morning emptied a golden goblet, and each evening hymned a sacred lay.

"She glorified that land where she lived, the home where she dwelt, the land of poetry and pathos, of suffering and heroism, of chivalry and love, of blooming flowers and leafy woods, of sunny fields and laughing meadows, and singing birds; where the tall pines shook their emerald crests in the angry face of the Northern war storm, where the moss-draped oaks are the symbols of her strength hung with the crepe of defeat. If, as we are told, the Bard of Avon was created by the witchery of the scenery in which he lived, perhaps the charm of the Southland threw a spell upon the daughter of Dixie like a bridal veil falling upon the maid at the marriage altar. But, however, she came she was like an "apple of gold in a picture of silver."

"I hate to see her go, this woman of the Old South, who mothered the sons that followed Lee and Jackson, and who brought back from Appomattox an honor stainless enough even for her lips, a fame like that untracked snow on the Alpine mountain tops. She laid her hands upon the pots and kettles and sang the song of hope and cheer, while his brave hand made wealth out of poverty and built homes out of ashes, and reconstructed society out of chaos. In the halcyon days, before the cannon's broad strokes had trenched the land, she won the brightest star in the Southern sky, in the days of battle and blood she was the inspiration of courage and the angel of mercy, and in the days of defeat and desolation she was the spirit of hope and the helpmate of man.

"Conditions are changing, and men and women are changing with them. But I hate to see her go, the woman of the Old South. Before she is entirely gone, before her presence fades from the earth and the luster of her name be committed to the golden urn of history and story, poetry and song, music and art, morituri salutamus—"We, who are about to salute you," queen of your sex and the glory of your race."

The million dollar libel suit filed by Henry Ford against the Chicago Tribune, came to a close last week, when the jury trying the case rendered a verdict, giving the plaintiff judgment in the sum of six cents. Both sides ex-

pressed themselves as pleased with the verdict, which stamps the jury as one without a precedent—both litigants are satisfied. Contrary to what would have been the case, had the case been tried in Texas, the cost is correspondingly light. Under a Michigan law it is said, where there is a nominal verdict under \$50, the successful party cannot recover costs above a like amount. Wonder how much the costs would have been had this case been tried in Texas? Perhaps to remedy such is the court reforms designated by those who have been asking reforms of the courts for years past.

BRUTAL MAJORITIES BREED CORRUPTION

Good is bound to come through the agitation of a return to democratic principles, now being agitated in Texas, started by ex-Senator Bailey. Even Me-Too Ferguson will work some weal to the common good. The movement inaugurated by Senator Bailey will serve to put the leaders of the democratic party on notice that the rank and file will not blindly swallow any doctrine that may be prescribed just because it has the democratic label. There be those who will insist on an analysis of the contents of the package before they take it into their political system.

The proposition of those who are supporting Senator Bailey's views is to work within the party. This is the proper spirit. No units in the democratic party of Texas have a better right to the party name than those who think along the lines outlined by the ex-senator, for they were the ones who established the party in Texas, and they and those who came after learned in the same school.

But the good will come from the determination of those who are democrats and can tell the reason why. They will work for the elimination of many of the isms that has crept into the party's creed, and because it bears the label, many take it as unadulterated medicine. But there is another angle of party politics in Texas. Me-Too Ferguson has jumped the fence and taken his bunch of mavericks out of the fold. Were it possible that the deflection could be taken seriously it too, would mean much to the purity of politics in Texas. The democratic party has had unlimited sway in this state for such a long period, that corruption in administration affairs is becoming notorious. If Ferguson could muster enough strength to give the party a close call, it would be one of the best things that could happen. Were republicans strong enough to elect a state ticket in the event Ferguson and his crew could approximately evenly divide the party, and elect their ticket one time in Texas, the people could look for an era of cleaner politics in the Lone Star State, and a more economical administration of the state government. Brutal majorities breed corruption, even among democrats.

The opposition to democracy in Texas has been so insignificant in the past to command no respect, and very little notice. Should there be a breach in the democratic ranks, and the republicans once get in control, it would cause the leaders of the party stop and think something they have not done in the past twenty years. Anything would do, so long as the candidate represented a popular measure, regardless of the fact whether that measure was good democracy, or stood for economical administration.

Of course, should the republicans win their tenure of office would be one term affair, as the democrats then would begin to think, and perfect a reorganization along safe and sane lines of economy, and again put representatives of the people in power. Unfortunately little hope can be expected for the cleansing of the party, and the administration of the state through republican ascendancy to power, for Ferguson is a pee wee, and cannot turn the trick.

President Wilson has again vetoed the law repealing daylight saving. His reasons stated that he "reluctantly returned the measure without his approval on account of the pressing need of the country for production by industry, yet recognizing the considerable inconvenience which the daylight saving law subjects the farmers." This new fangled and non-sensical idea has been relegated to the scrap heap, as both branches of congress has repealed the law, passing it over the President's veto. Yes, we tallow dippers are well pleased with the old time, thank you.

There is another punitive expedition of American troops in Mexico seeking the bandits who captured and held the American aviators for ransom. We hope this expedition will have better luck than Pershing's junketing expedition after Villa.

Good Scores Made At Rod and Gun Shoot

Cisco Rod and Gun Club regular shoot, Tuesday, the 19th, was not attended by as many as usual, but those attending had a nice shoot and added a few doubles to the regular program. Several members would have been out but did not know that Tuesday was regular day, so now please remember that every Tuesday the club will shoot so come out.

Below are the scores made last Tuesday.

Out of a Possible 25	
W. E. Fairless	24
L. B. Webster	21
C. B. Powell	20
Harry Gray	20
N. F. Payne	15
B. S. Greer	14
Guy Dabney	14
Fred Cook	12
Singleton	12

Score at 5 Pair Doubles

Out of a possible 10.	
W. E. Fairless	10
L. B. Webster	6
C. B. Powell	5

Some of the boys are showing wonderful improvement and in a few more shoots should be breaking them all.

Harry Gray broke 20 and is gradually getting more and more each time he shoots.

Guy Dabney was not shooting up to form for he can break more than 13 any old day.

Ben Greer says they look easier to hit than they are. You are right Ben, there is more space around them than where they are.

Burl Powell said shooting doubles was a little too fast work for him but at that he broke more than lots of beginners. Webster is shooting good and will soon be hitting them all. Payne will be doing fine with little more practice. He shoots in good time and is doing fine for first time at trap. Fred Cook said he could hit them better if they would stop up there in the air, come on Fred, you are doing fine all the ex-army boys are hitting them. Ask Crigler Paschall or Dr. Griswold.

Now all remember that we shoot every Tuesday evening 5:30. Come out and have a good time.

We will have a big shoot labor day, September 1, several prizes.

Died in Marlin

Mr. P. T. Fartner, late of the Weyland community died at Marlin Monday night, to which place he had gone seeking to recuperate his health. The remains were shipped here Tuesday night and taken to his former home for burial.

CISCO'S CHAMBER OF COMMERCE BAND

There are few villages or towns in which a local band organization has not existed at one time or another. It might be said that nearly every village in the county has either had its band, has one now, or is looking forward to having one. In a large number of cases the band has existed, flourished, has been abandoned and has revived. The so-called "town band" is subject to many influences. Sometimes there is in the community just the right kind of material among the young men; just the right kind of enterprise among the residents. Then the band is supplied with instruments and uniforms, has its own hall and can afford to employ an instructor. It is more often the case, however, that the "town band" is expected to furnish not only the music but the enthusiasm and the expense fund. In the latter circumstances it cannot be expected that the band shall excel either in its selections or in its execution of them. There are always the critics, the subscribers are more difficult to find. In the former circumstances it is possible to have a real "up to the minute" band organization. The Chamber of Commerce has agreed to support a town

band, agreeing to furnish the necessary money, equipment and upkeep. They have also secured Lt. Harry P. Schaefer to direct this band. Lt. Schaefer has directed two different military bands in the U. S. service and has had years of experience directing bands and orchestras in civil life. Here is the proposition: We have the funds to maintain a band, we have a capable director, we now want as many musicians as possible to enlist with the Chamber of Commerce band and make it a band really worth while. It does not cost the band member one penny. There will be a meeting at the city hall, in Chamber of Commerce room, Friday evening promptly at eight o'clock. If you play an instrument or are interested in any way in a band for Cisco, we ask you to be present at this meeting. We have already enrolled twenty-two members, but we want more, we want to make this a band that Cisco will be proud of. A band is a good thing for any community, because the influence of such organizations is not only a big boost for Cisco but entertaining, elevating and enlivening. Lend your presence Friday evening and help make the Chamber of Commerce Band a big success.—Contributed.

STREET FIGHT NOT DUE TO ROWDYISM

In the mention of the street fight in last week's issue of the Round-Up some seem to be laboring under the impression that the paper conveyed the impression that those engaged in the fight were new comers, and might be classed as rowdies. No such intention was in the minds of the writer, as the combatants were unknown. The point the Round-Up tried to make was the fact that fights were a rarity in Cisco, and the accentuation of the mud hole in the street.

The Round-Up stated that fights were so rare in Cisco, that those coming here from less orderly communities, were made homesick when they saw a fight staged. At least that is the substance, and there was no intention to convey the impressions that those engaged in the difficulty were rowdies or new comers, either. In fact the Round-Up editor did not know the parties to the difficulty.

But even misunderstandings will come up in the best regulated families and often a difficulty is provoked, or one party, or the other fancies himself injured and seeks to redress his wrongs by a fistic encounter. There is no particular odium attached because of an affray. We have known some very excellent gentlemen who have at times, resorted to this method of settling grievances, and the parties thereto afterward became warm friends, in fact we have been through the mill ourselves.

The writer did not see the difficulty, but those who saw it say it was a clean cut fistic encounter, the only part that might be adversely criticised was the fact that two were on one, according to those who saw the affray, but this was finally equalized by the appearance of the fourth party, who made it a man to man affair.

New Fall Skirts and Woolens

Gathered here are the richest of silks; materials that are beautiful and luxurious, are practical and useful—as you choose them. We present for your inspection many, many wonderful fabrics that have been collected to meet the wishes and needs of you who are served. **Business Change Which
Will Interest Readers**

There was consummated a business change in Cisco last week of some importance, for it means an entirely reorganization of a popular and old established firm. This change brings back into the business circles of Cisco a former well known business man, Mr. R. C. Pass, who was formerly a member of the firm of Gude & Pass.

By this change the firm of Gude & Sons doing a general mercantile business, relinquishes their grocery business to Messrs. Pass & Son, who will conduct the department at the same old stand, on the corner of Avenue D and Broadway.

Mr. Pass is well known in business circles, and is one of the most capable grocery men Cisco has ever known. He understands this line of the business thoroughly and will keep a well selected stock of the choicest groceries, produce and every thing to eat, that the market affords.

Mr. Pass states that he proposes to make it possible for Cisco people to live well, and at a reasonable outlay of cash, as he is opposed to the profiteer in every respect.

Every merchant who sells his goods on credit—whether thirty days or longer, has a certain amount of bad accounts—accounts not paid, or collected at considerable expense. This is part of the overhead, and is charged as such. Those who pay their bills have their proportion of bad accounts to carry. To obviate this Pass & Son will do a spot cash business, and there will be no bad accounts for the good one to pay. You pay the cash and get what you want. That will be the policy under which the grocery establishment of Pass & Son will be conducted.

This change will become effective Monday, September 1, when Pass & Son will be in complete charge of the grocery department at the store of Gude & Sons.

Gude & Sons Dry Goods Exclusively.
The reason for disposing of their grocery line Messrs. Gude & Sons desire to devote their entire business to the dry goods line. In this department, which will occupy the entire space of the Gude corner except that occupied by the grocery department, will be devoted to the line of dry goods. By dry goods it is meant all that is usually kept in the most modern and up-to-date establishment; general line of dry goods, clothing, ladies ready to wear, notions, dress goods, boots, shoes, hats, caps, etc.

Associated with Mr. Ernest Gude, who is the senior member of the firm, are his two sons, Roy L., and Leslie Gude, and it is through these youngsters that new pep will be injected into the firm, such pep and progress that will stamp the firm of Gude & Sons as one of the leading

and most modern dry goods establishments of the city.

Already new features have been installed of a modern nature, the office has been moved down in the center of the building where it will be more convenient and accessible to the employees and employers. This office is now modernly fitted up and adds materially to the appearance of this popular establishment.

But this is just the commencement of all that which will be added to keep this establishment abreast with the progress of Cisco. The main features will be the stock this firm proposes to carry, which will be the most up-to-date in the latest styles of every description.

Gude & Sons asks the public to call and inspect their stock, see that every word of this statement is absolutely true, and when the public is told the prices prevailing all will admit that Cisco people can get what they desire in the dry goods line at reasonable prices.

**ILLICIT DISTILLERY
LOCATED NEAR RANGER**

Ranger, Texas, Aug. 28.—Federal authorities today took charge of three alleged illicit dealers in whiskey, arrested by local police in the thickets two miles from this city, where a five-gallon still was found. The men, who claim they are from Arizona, gave their names as R. A. Wood, B. H. Wood and J. H. Timpson. They will be taken to Abilene late today.

The Methodist Church—

Sunday morning at nine forty-five o'clock the Sunday school will assemble in the City Hall auditorium. The school will be dismissed at ten forty-five and the members will attend the Baptist meeting under the tabernacle. Teachers interested in the Sunday school work should be present at least fifteen minutes before the time for opening the school. Let every officer, teacher and pupil be on time with a good lesson Sunday.—Lewis H. Stuckey, pastor.

BEAUTIFY YOUR HOMES

Have decided to make Cisco my home for an indefinite period. Am still cutting weeds, and mowing lawns. There are many other things I can do that will add to the beauty of the town. Next spring I am going to be prepared to do some real yard work, ornamental, as well as practical. My rates for work are 50 cents per hour. No work considered that does not directly help the looks of Cisco.

G. HUGH CHILTON,
General Delivery. 13-1mp

G. E. Berry, manager of the Western Union sold his home on 9th street, the first of the week. The deal was made through the Cisco Land Company. 15 tf. c.

Water In Main Street Due To Seeping Above

The Round-Up has criticised the standing water in front of the post office, and said the nuisance should be abated. In conversation with Secretary Statham he stated that this water was due to seepage from the hill above the street, and has caused the commissioners quite a bit of trouble. Just how it will be abated remains an unsolved question, though Mr. Statham says the commissioners have the matter under consideration, and will stop this seepage if it can be stopped.

The Round-Up has no desire to adversely criticise the administration, rather this paper wants to uphold the body of men who have the destiny of the city in their hands. We knew this stagnant water in Main street was a menace to the health and comfort of the citizens, and if the seepage was from preventable causes should have attention. This paper calls attention to these matters not to criticise, but to point out matters needing correction. We hope the commissioners will find some means to abate this nuisance, as it is really a menace to the health of the city.

C. U. CONNELLEE COMMITTEEMAN FROM EASTLAND

Of Bailey Wing of Democratic Party Other Members Embrace Former Prominent Party Workers; Plan to Be Perfected Tomorrow.

There will be a gathering of democratic war horses in Dallas tomorrow Saturday, when representative democrats of all sections of the state will meet for the perfection of a state organization of those believing in the principles of democracy as taught by the founders of the party, as expressed in the twelve planks of the platform as laid down by ex-Senator Bailey in his Covington speech. This gathering is the outgrowth of the Fort Worth meeting, where the reconstruction of the party, under the leadership of Senator Joseph W. Bailey. Committeemen have been appointed, and they represent many of the former prominent party workers of the state, men who have made the democratic party stand for a principal in former years. The committeeman from Eastland county is C. U. Connellee, of Eastland.

These plans will be formulated by "a state Democratic advisory committee" of thirty-four members, appointed by Judge C. F. Greenwood, of Dallas, chairman of the Fort Worth meeting, who stated that Mr. Bailey would attend the Saturday conference.

The statement issued by Judge Greenwood in announcing the committee's personnel follows:

"Acting under and by virtue of a resolution adopted by the state Democratic meeting held in the opera house in the city of Fort Worth, Aug. 14, 1919, and attended by Senator Bailey. I have appointed a state Democratic advisory committee whose names appear below, and now issue this call for a meeting of the committee in Dallas next Saturday, August 30. The session will be held at the Adolphus hotel.

"A hundred thousand petitions, each containing the declaration of principles adopted at the Fort Worth meeting, are being printed and will be completed by next Saturday. The committee will determine at the coming meeting the most effective and systematic method to be pursued in getting these petitions circulated and signed in each precinct in the state.

"The committee will also consider the most practical plan for the appointment of a county chairman in each county, whose duty will be to appoint county committees who will see to it that the petitions are properly circulated.

"There are a number of other important matters coming before the committee, but especially the question of intelligent organization to the end that our platform of principles may be effectively carried before all genuine Democrats. I urge

the members of the committee to attend this important meeting and will appreciate the courtesy of the press in giving publicity to this call.

"Senator Bailey will attend the meeting of the committee."

Members of the committee appointed by Judge Greenwood are: Oscar Callaway of Comanche, Richard Mayes of Corsicana, John H. Kirby of Houston, C. U. Connellee of Eastland, John A. Stevens of Covington, A. B. Honeycutt of Cleburne, C. L. Bell of Karnes City, Judge W. H. Masterson of Houston, J. H. Gaddy of Beaumont, W. A. Morrison of Cameron, R. T. Jones of Henderson, Judge Don A. Bliss of San Antonio, Cecil H. Smith of Sherman, Henry E. Webb of Odessa, Steve Bennett of Hallettsville, R. H. Ward of San Antonio, N. A. Shaw of Texarkana, Clint Giddings Jr., of Brenham, J.

Give Me a Friendly, Natural Hand-shake

an' a friendly natural tobacco. Keep yo' put-on airs an' "sauced-up" tobaccos for the fellow that likes nut sundaes better than home made pie—

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

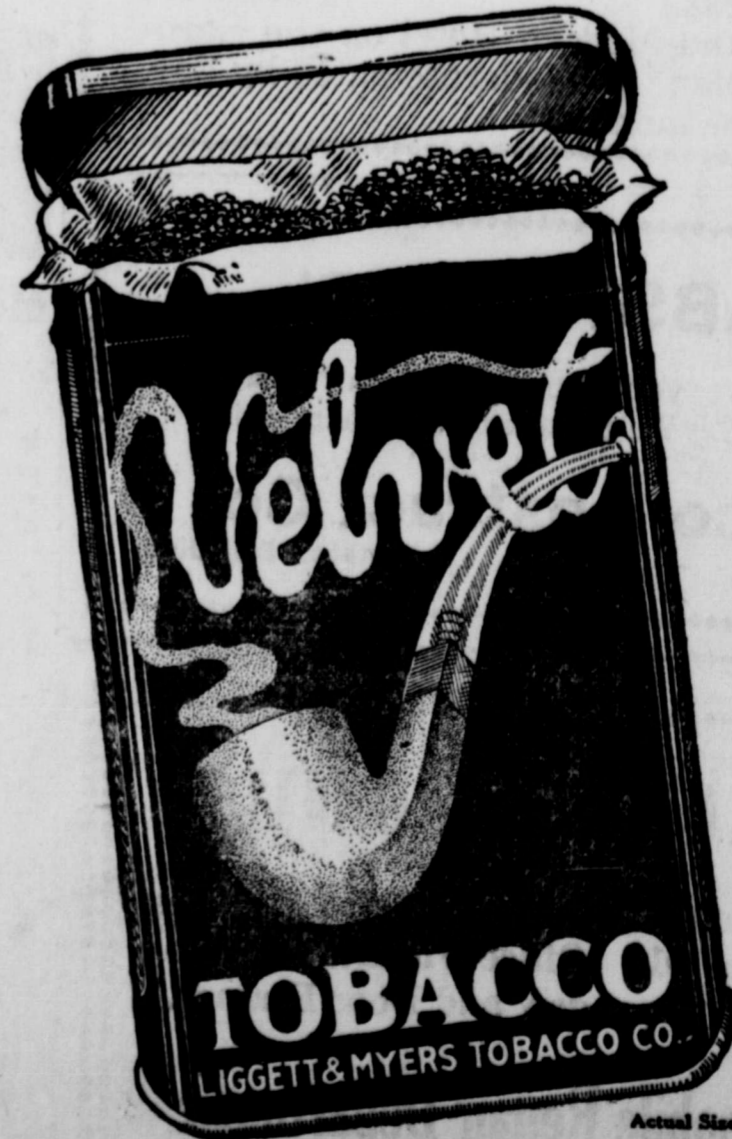

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velvet's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco—nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

Liggett & Myers Tobacco Co.

Get Your Money's Worth

Hearing the New Edison for the first time is like opening the blinds to the sunlight.

You expect to hear the familiar talking machine "tone." You are agreeably surprised to hear something different—something that you did not expect to hear from a phonograph. You hear the human voice and the music of human-played instruments in all their natural beauty—positively indistinguishable from the performances of the artists themselves.

When we sell you an Edison RE-CREATION we sell you the actual voice of the artist, or his instrumental performance—nothing more, nothing less.

If we sold you an Edison RE-CREATION, knowing that it was not 100% true to the actual recording of the artist, we would be guilty of not giving you your full money's worth. We know that when we sell you an Edison RE-CREATION we are giving you your full money's worth because we have proof.

Two thousand music critics have endorsed our claim that

The NEW EDISON "The Phonograph with a Soul"

RE-CREATES the human voice and the music of human played instruments without the slightest deviation from the original.

"What the Critics Say" tells the story better than we can tell it here. May we send you a copy?

ADMISSION - - - 15c and 25c

G. S. WILLIAMS GARAGE HOME NEW MOTOR CO.

Handsomely Apointed and Conveniently Arranged, Best Lighted Garage Building in the City; M. B. Motor Company Now Installed.

The Gomer Williams Garage building is now complete, and is one of the handsomest garage buildings in the city.

The Round-Up gave a description of this building at the time it was under construction, the plans having been drawn by Architect Snodgrass, who was assisted by Mr. Littleton Williams, son of Mr. Gomer Williams who had just returned home from the army. The young man worked out many of the interior features, which add much to the convenience of the garage.

The M. B. Motor company are the new tenants of the Williams garage, which is under the management of Messrs. R. E. Brookshire and R. B. Morgan, who have come to Cisco to make their home. The M. B. company will handle trucks and automobiles, furnish auto storage, but at this time they have not got their line up. Messrs. Brookshire and Williams will be joined here by their families just as soon as they can procure homes.

The Williams garage is most conveniently located, fronting on sixth street, which is in the pavement district, and the alley between Avenue D and Katy right-of-way. Its east frontage is on the Katy right-of-way, which makes it most convenient to that railroad. The building contains 6,325 square feet of floor space, and is practically fire proof. The joists being the only timber used in the building. Large windows on every side, and the entire frontage on Sixth street being of plate glass makes it one of the best lighted garages in Cisco.

The building was designed and built especially for a garage, and has most of the conveniences found in a modern automobile repository, having many conveniences not usually found in the average motor workshop. A feature of this building which will be appreciated by all workmen, especially, is the shower bath and wash room, which with the gentlemen's toilet are conveniently located where easily accessible. While not yet put in, but the plans provide for reservations for a ladies toilet and rest room, also.

The Williams building occupies all of the quarter block except the S. E. corner lot, which is owned by Judge D. K. Scott, who will soon commence the erection of a building, so we are informed. When this building is erected it will give an entire quarter of a block, which can be used as one establishment if desired.

Garbage Must Be Placed In Covered Receptacles

Chief Hitson is going after those who violate the sanitary ordinances, but as all have been very lax in observing the sanitary code, it is deemed advisable to give some warning before applying the penalties. The following is the warning, and those who fail to comply with the provisions of the ordinance will feel the heavy hand of the law:

"Your attention is hereby called to Article 220 in the Revised ordinance of the city of Cisco requiring the occupants of all buildings within the corporate limits of the city of Cisco, shall at all times, keep in a place convenient for, and accessible to the employe of the city of Cisco, whose duty it is, or shall be made, to gather, remove and dispose of garbage, refuse and trash, a covered receptacle, in which shall be placed and put all garbage, refuse and empty cans.

Article No. 225. Any person violating any provisions of this chapter shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by fine of not less than \$1.00 nor more than \$50.

This ordinance is in effect now, but after September 1st we are going to give this matter very close and strict attention.

Signed W. C. HITSON, Chief of Police.

Mrs. James Evans, who has been visiting in the homes of J. T. Anderson and Judge Calhoun, returned to her home in Dallas Sunday.

PRINCE ALBERT

the national joy smoke

Copyright 1919 by R. J. Reynolds Tobacco Co.

Topsy red bags, tidy red line, handsome pennant and half-pound tin holders—and that classy, practical, porous crystal glass humidifier with sponge moisture top that keeps the tobacco in such perfect condition.

PUT a pipe in your face that's filled cheerily brimful of Prince Albert, if you're on the trail of smoke peace! For, P. A. will sing you a song of tobacco joy that will make you wish your life job was to see how much of the national joy smoke you could get away with every twenty-four hours!

You can "carry on" with Prince Albert through thick and thin. You'll be after laying down a smoke barrage that'll make the boys think of the old front line in France!

P. A. never tires your taste because it has the quality! And, let it slip into your think-tank that P. A. is made by our exclusive patented process that cuts out bite and parch—assurance that you can hit smoke-record-high-spots seven days out of every week without any comeback but real smoke joy!

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

DYNAMITERS ATTEMPT TO BLOW UP CAMP

Chief of Police Hittson and Patrollman Stamps Arrest Taylor, Carlisle and Williams; Released Under \$1,000 Bail to Grand Jury.

Sunday Mr. McCutcheon, of the construction department of the Cisco Northern Railway company came into town and reported that some parties were molesting the negroes employed in the construction work of his camp, and requested that officers be detailed to apprehend them. A night or two previous some one had fired shots into the house in which some of the employes were sleeping, and Saturday night a stick of dynamite had been thrown into one of the negro's tents, around which was wrapped a crudely hand printed warning for the negroes to leave camp.

Chief Hittson and Patrollman Stamps were detailed for the job, and Sunday night succeeded in getting a clew to parties implicated, and by some pretty nice detective work had rounded up three of those alleged to be the ring leaders of these would-be toughs, who were arraigned before Judge Taylor, where they were bound over to the grand jury in the sum of \$1,000 each. Their examining trial was set for last Monday, but the defendants waived, and their cases will be investigated at the next regular term of the grand jury.

Chief Hittson says he has the goods on the young toughs, who were seeking some notoriety, evidently, as there was no moral or industrial issue involved, and the negroes are doing work that is badly needed, and which it is impossible to get white men to perform.

Messrs. Hittson and Stamps arrested three whose names are Taylor, Joe Carlisle and Bob Williams.

When they are finished with this job of being tough, it is believed they will be content to be law abiding citizens, and will be lucky if they escape penitentiary sentences.

Heretofore this method of intimidating laborers has been put through, and the perpetrators got away with it, but the officers say it is time to call a halt, and these would-be toughs will be vigorously prosecuted.

Mr. L. M. Fields, former manager of the Pickering Lumber company at this place, returned last week from Hico. Mr. Fields' mission to Hico, his parental home, was a sad one, as the death of his mother called him there on this occasion.

Upon his return here he was transferred to the company's yard at Olden, where he was made manager, which is a promotion. Mr. Fields is succeeded as manager of the local yard here by Mr. Frank Divall, an affable gentleman of splendid business ability.

Water Bottles, Five Gallons— are being used for many other purposes. When you are unable to get jars or buckets for putting up fruits and juices and syrups, see John C. Sherman for your supply. 17 tfe

New Method Gas Stoves

It is with joy and a degree of pride we are constantly reminded of the wonderful success we are having with the famous **NEW METHOD GAS STOVES and RANGES**. Every week adds to our list of satisfied customers who are all enthusiastic boosters for us. The New Method has many exclusive features that are the envy of stove makers and while these economical conveniences do not add to the cost of the stoves they go to make up more value for your money than any other one on the market. We are prepared to furnish any style or size and while the present stock lasts the prices will be less than the present market, as the prices are advancing all the while on everything.

Furniture at Prices Below the Market

Every one is acquainted with the fact that the market prices are advancing on all lines and while furniture has not advanced in proportion to some other lines, it is some higher. This store made very heavy purchases early in the season and now we are receiving goods almost daily that was bought far below the present market price, and our savings in prices will be your saving in the purchase of any thing you buy of us.

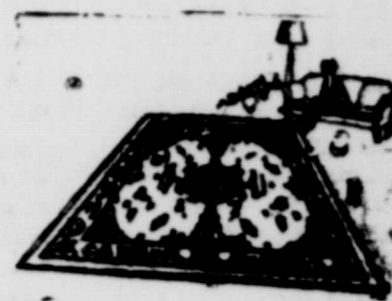

Bed Room Furniture

The items of special value that are shown on our floor are numbered by the scores and there are values to the full extent of the price mark on every piece of furniture of any kind, but this space is given for special attention to our line of bed room furniture which is at this time some better and more varied than usual. Every suit is patterned along the most congenial lines of period designs and any suit you buy of us will add much to the environment and happy influence of your home and will be largely to your interest and very much to our joy to have you thoroughly examine every suit we are showing.

We are in receipt of new price lists on all the rocker factories announcing a very heavy advance in prices which are new in effect, but as luck would have it, we secured very heavy stocks in all lines early in the season before the advance and now we are selling rocking chairs of all kinds very much below the present market. Our high grade line is the Phoenix, which is considered to be the greatest line ever shown.

IT WILL PAY YOU TO BUY NOW

One of the biggest chapters in the furniture book is floor coverings and to tell the whole story it would require too much space, but we can state with impunity that all floor covering is very scarce, and will be more so, and that we will make it to your gain to buy now while our stock is better than it ever was and our prices very low.

Late Wells Reported In Desdemona Field

Desdemona, Tex., Aug. 28.—A number of important completions are reported in this field. The Texas-Oklahoma Drilling Company reports that its well on the Carruth tract is making 3,000 barrels, and is free of water.

J. G. Hamme's No. 1 Ayers well, four and a half miles north of Desdemona, reached the top of the sand at 2,942 feet and drilled itself in for a showing of 1,000 barrels.

The Humble Oil & Refining company's No. 3 well on the E. V. Ellison tract, is reported making 2,500 barrels. It is the company's second producer there.

The Ellison No. 1 was completed July 15 and was estimated as high as 5,000 to 8,000 barrels. Its present production is 1,800 barrels.

The Humble Oil & Refining company's operations on that tract; No. 2 at 2,200 feet, in black shale; No. 5 at 1,020 feet, in gravel and shale; No. 7 at 2,255 feet, in sandy shale; No. 9 at 395 feet, in gray slate; No. 8 rigging up; No. 6 a rig; and No. 10 timbers and No. 4 a location.

In the extreme west field of the Texas company has indications for a good well in the Henry Exall, which is showing for a hundred barrels of oil and three million feet of gas. It was reported a gasser several weeks ago. The sand in this well runs from 1,900 to 1,912 feet.

YOUNG CHRISTIAN GIRL MADE SLAVE FOR 85 CTS

Aurora Mardiganian, the seventeen-year-old Armenian girl, who takes a leading part in the film production of "Auction of Souls," which will be shown beginning Monday at the Judia theatre, was once sold for 85 cents in a street corner slave market at Bayzid, where she was stood up in company with other naked Christian captives for sale. She was purchased for the harem of the notorious Djvedet Bey, and went through frightful experiences before she finally escaped. All these things are actually reproduced in "Auction of Souls." "Auction of Souls" will be shown for the first time in Cisco, Monday, Tuesday and Wednesday, matinee and night. The price of admission is 25c, 35c and 50 cents. This picture shows in the big cities for \$50c, \$1.00 and \$1.50.

CARAVAN OF 1500 SHEEP FEATURE OF BIG PICTURE

A caravan of 42 camels and 1,500 sheep were used in the reproduction of the scenes of Armenian deportation and massacre which occur in the tremendous photo-drama, "Auction of Souls" which will be presented at the Judia Theatre Monday, Tuesday and Wednesday, matinee and night. Prices of admission, 25c 35c and 50 cents.

FREIGHT EMBARGO IS LAID ON EASTLAND

ous to note the rapid growth which is going forward on the Rosewell Site which lays high and dry and cool out Avenue H.

A great feature with this site is the homes which are being built, beautiful cottages and bungalows, which speak the general tone of the Rosewell homebuilders. Block after block of cement walks and curbing have been laid, streets have been opened, and eighteenth street will be opened and graded from Avenue D to the loop, which will open a pretty driveway for Cisco. Prominent architects and contractors are erecting homes out this way and it seems that it is a fact that this part of the city is looked upon as the favored home section of Cisco. 17 ltc

New Fall Hats

Now off with the old straw hat! The season is over, summer has gone all is here and it's time for a new Fall Hat. We suggest that you decide to wear one of our new fall styles in

Mallory Hats

or

Stetson Hats

When it comes to style there is nothing smarter than a "MALLORY" or "STETSON", and as for quality--there is more of it than is necessary, but that is Mallory and Stetson way of making hats. They lend a mark of distinction to the appearance of their wearers.

The finest felt, all silk trimming, and skillful workmanship give these hats their superior quality.

Our Policy:
"The Public Be Pleased"

A Store that Guarantees Satisfaction

such as radiators, boilers and heavy machinery of every description. Placing the same in position shall be under the direct supervision of the steam-fitter or working boss.

Section 12
Fitters shall be allowed equal rights with plumbers to do gas work, also install water supply pipe where no plumber is available.

Section 13
It is further agreed that should members of this local be needed at any time by a master, he shall first notify shop steward or business agent of such need.

Section 14
It is further agreed that a conference board shall be appointed consisting of three masters and three journeymen, and that said conference board shall meet as occasion demands, or subject to call. Upon call they shall meet within forty-eight (48) hours. All differences between journeymen and masters shall be submitted to this board for adjustment. It is also agreed that in case the board shall at any time fail to agree on any matter before them, an additional member to the board shall be elected by said board to act as arbitrator or referee in deciding said question, whose decision shall be final and binding. It is expressly understood and mutually agreed that work shall continue during arbitration.

Section 15
Parties to this agreement may alter or amend it by mutual consent. They shall meet thirty days prior to the expiration of this agreement, to alter, amend or renew the same. On failure to agree on renewal or extension of this agreement, it is mutually agreed that all differences shall be submitted to arbitration, which must commence within five days from date of agreed difference. An pending agreement there shall be no cessation of labor, the decision of board of arbitration to date from date of expiration of this agreement.

Working Rules Journeymen Demand
The foregoing agreement, which if agreed to by the master plumbers, will be supplemented by the following working rules, which the journeymen insist upon. Sections 8, 10, 11, 16 and 22, were considered especially objectionable by the master plumbers. Since promulgation the journeymen have withdrawn section 22, which is the only concession made.

Working Rules for Local 782
Section 1
Eight hours shall constitute a day's work, between the hours of 8 a. m. and 5 p. m. Members shall receive their wages in United States Currency not later than 5:15 p. m. every Saturday. Scale of wages shall be \$10 per day.
(b). All work done before 8 a. m. and after 5 p. m. shall be considered overtime, and paid for as double time. Double time shall be paid for all work done on the following holidays: Sunday, July 4th, Christmas Day, Thanksgiving Day and Labor Day.

Section 2
Any member when requested to show his wages must comply with the request.

Section 3
No member will be allowed to do any sub-contracting or lumping for an employing plumber or fitter, nor work for anyone who has taken such services are not needed longer.

Section 4
Laborers shall not be allowed to handle tools, such as stock, cutters, dies or wrenches on any job.

Section 5
Only one member of a firm will be allowed to handle tools, or do any work controlled by this organization. He must be a bona fide member of the firm and conform to all working rules in force in this jurisdiction.

Section 6
It is expressly understood that apprentice can work in any shop where there are not one or more journeymen employed. Apprentice shall be registered in this local union. All plumbing and gasfitting subject to an inspection and all steam-fitting shall be classed as new work. On steam-fitters helpers already members of the U. A. will be recognized.

Section 7
All steam-fitting tools shall be furnished by Master Plumber or fitter. The journeyman fitter in charge of the work shall be responsible for their safekeeping.

Section 8
No member shall be permitted to make any agreements with an employer in regard to wages that will conflict with these rules.

Section 9
No member of this local shall install unsanitary work or set fixtures on any work that is not properly installed.

Section 10
Clerical work or other work done by the members of this local for their employers shall be paid for at the regular rate of wages.

Section 11
Members reporting for work in the morning or afternoon not having been laid off previously, shall receive one-half a day's pay. No fraction of a half day shall be allowed.

Section 12
Journemen plumbers can use laborers on any kind of common labor work, such as digging, cutting concrete, carrying material, etc., placed in charge of a certain member of the church cabinet who will collect all pledged as they come due.

Section 13
One feature of the standard plan is that the local church will be responsible for collecting the full amount of its subscription. If any subscriber dies or meets with misfortune such as to render it impossible for him to pay his pledge, it will be the duty of the church cabinet to secure another person to take the place of the one thus become delinquent.

Section 14
It is also proposed that every new member who comes into the church shall also be asked to make a contribution to the Centenary fund.

Section 15
The Centenary fund of \$35,000,000 will be used for the church in an extension of its missionary work throughout the world. Several millions will be spent in the devastated regions of France, Belgium, Poland and Russia. Other millions will go to the seven foreign fields occupied by the church—Mexico, Brazil, Cuba, Africa, China, Japan and Korea. Other millions will be spent in the industrial sections of the great cities, in the mountains, among the immigrants, the negroes and the Indians and in building churches in the missionary territory of the United States.

THE MIDDLE MAN FILLS A PROPER PLACE IN WORLD

John C. Sherman Gives Fair Resume Of Causes and Status of Plumbers Strike in Cisco; Journeymen Demands and Working Rules.

In every walk in the business world there is the middle man to be found. Often times you have heard it said and advertised that the consumer has the right to buy his goods direct and save money, but there was never a more false statement made to deceive the public. This is seen by the utter disregard the public pays to it.

The legitimate middleman or retailer merchant has his place to fill just the same as any other man in any other vocation in life. How would it sound if Mr. B. went over to Mr. C's store and plainly said that he would trade with him no more if he bought his goods from Mr. D.? If one of your employees came into your store some morning and stated that he would not work for you any longer, what would you most probably say? If things are not agreeable that is your business.

Again he comes and states his new terms which are: that his demands be met, or you are to discharge all old employees who have worked formerly side by side with him. Would you not still be inclined to tell him to go to work where it suited him better?

Again he calls to inform your mechanics and helpers to leave town. Where would you place such a man?

Would you put him on the pay roll at \$10.00 for 8 hours work, and have him tell you whether he would stay on one job whether it took that long or not, the public would pay for it? Also how he would work, how he would come and go from different jobs, and how other employees should work, what they could do, and what they could not do. We have read of these conditions throughout the whole country over, but it is no longer a hear say. That condition exists in our own little city.

August 1st the journeymen plumbers, on short notice placed the following agreement and set of working rules before their employers.
"An agreement between the master plumbers and journeymen plumbers, also rules governing plumbers, steamfitters and gasfitters, members of local 782, on and after August 1st, 1919.

Section 1
Eight hours shall constitute a day's work, beginning from eight a. m. until twelve noon, and from one p. m. until five p. m.
Journeymen shall be on their respective jobs performing work during working hours, except when called to the shop for consultation material.

Section 2
All overtime shall be paid at the rate of double time, including Sunday, and the following holiday: July 4th, Labor Day, Thanksgiving Day, Christmas Day.

Section 3
The wages of journeymen Local 782 shall be Ten Dollars per day, to be paid in cash in shop or on Saturday of each week. No member of Local 782 will engage in work with any employer for less than 4 hours time, or accept pay for a fractional part of an hours time for

work performed between the hours of 8 a. m. and 5 p. m.

Section 4
Any member sent out of town for work shall be paid his board and transportation while on that work. Transportation as used here shall mean railroad and any other fare paid for conveyance necessary going and coming from the job, once

hereinafter provided for.

Section 5
All journeymen needing material for the next day must notify his shop before 5 p. m. if possible. All journeymen nearing completion of their job shall notify their employer either before 12 noon or 5 p. m. Employers shall notify, if possible, all journeymen the night before if their services are not needed longer.

Section 6
Laborers shall not be allowed to handle tools, such as stock, cutters, dies or wrenches on any job.
Section 7
Only one member of a firm will be allowed to handle tools, or do any work controlled by this organization. He must be a bona fide member of the firm and conform to all working rules in force in this jurisdiction.

Section 8
It is expressly understood that apprentice can work in any shop where there are not one or more journeymen employed. Apprentice shall be registered in this local union. All plumbing and gasfitting subject to an inspection and all steam-fitting shall be classed as new work. On steam-fitters helpers already members of the U. A. will be recognized.

Section 9
All steam-fitting tools shall be furnished by Master Plumber or fitter. The journeyman fitter in charge of the work shall be responsible for their safekeeping.

Section 10
No member shall be permitted to make any agreements with an employer in regard to wages that will conflict with these rules.
Section 11
No member of this local shall install unsanitary work or set fixtures on any work that is not properly installed.

TRUCKS, TRAILERS AND TRAILERS WILL ALSO BE SHOWN IN GREAT PROFUSION.

A Palace of Pleasure Cars, fleets of sturdy Trucks, and trainload of Tractors and Trailers will be exhibited at the Victory Fair at Dallas in October.

The 1920 models, in many makes of sedans, touring cars, limousines, sport models, and runabouts, evidencing all the latest ideas in speed, endurance, beauty and comfort, will be shown.

Trucks, hundreds of makes, in many sizes, and suitable for all hauling needs on the farm, in the city or town, or anywhere else that time and labor-saving transportation is needed, will be there.

Tractors—the farm power-plant on wheels—that make all farm tasks easy, will be demonstrated.

So many trucks will be shown that a new building had to be erected to house them. This will be a substantial frame building 60x400 feet, and will cost \$7,000.00. In the center will be a beautiful art-fountain. Both the automobile and trucks building will be artistically decorated and the lighting effects provided at an additional cost of \$3,500.00, will be very novel.

It is proposed to make the new truck building a community social center where you can come and meet your friends and have a real good time. An orchestra will be provided, and there will be dancing every day and every evening. The Dallas Automobile Trades Association is co-operating with the State Fair management to make the Auto Show at the Victory Fair an event long to be remembered.

Just A Ride Makes

A Hundred New Owners Are Added Daily
--Each a Warm Supporter of the Essex

Men Want The Essex

Surely no car has ever equaled the Essex in the way it has been endorsed by the public. From the very first it has been advertised just as we said it would be, by what people had to say for it.

You remember we announced the Essex would have to speak for itself. Its fate was left with the people. And now you can judge what the verdict has been.

One Hundred Owners Added Daily

Deliveries at this writing exceed 10,000 cars. An average of 100 new buyers are getting their Essex cars every day.

Such a production would be large for many other organizations. But it is not half equal to the demand that there is for the Essex.

Sweden Ordered 5 Then Cabled for 75

The first shipment of Essex cars reached Sweden a few days ago. The initial order was for five. But on the day they were unloaded the dealer cabled for 75 to be shipped immediately.

That is significant, for Sweden is one of the countries where gasoline costs nearly a dollar a gallon. Even before the war European people did not take readily to American cars. Only the light, small, inexpensive cars had a market then.

Cost of operation was the big item. Gasoline and oil prices made large cars impractical.

But the Essex just met the needs. It has the sturdiness and dependability Europeans had never attributed to moderate priced American cars. The Essex met their demands for economy and low operating cost.

And Those Advantages Are Important Here

Americans, rather than put up with the customary objections of light low priced cars, more willingly paid the

price that obtained the degree of elegance, comfort and performance they wanted.

But the Essex seems to have filled the need as we expected it would. It answers the demand for moderate first cost. It meets the inexpensive cost and maintenance situation and, of course, it gratifies the taste in appearance and performance.

Now Everyone Talks For The Essex

They tell their friends what they have learned about it. Any dealer can tell you of person after person who has placed orders with him as a result of a ride they have had with some friend. As a test of how it stands in the opinion of motorists in general, or even the man in the street, mention the Essex anywhere you might be in such a way as to provoke a discussion of it.

The result will be interesting. You aren't likely to hear a single adverse criticism. But you will probably conclude everyone is interested in selling you an Essex.

That is the Essex Selling Force

It is just what you will hear from any group of motorists. Everyone seems bent on telling everyone else what a fine car the Essex is.

Note the manner in which they praise it. People judge it in comparison with other cars of merit that they know.

That probably explains why Essex performance and quality is compared with large, high priced automobiles.

There is no other measure by which Essex can be described.

When will you take your ride in an Essex? Your enthusiasm will be as great as it now is with close to a million others.

Essex boosters grow daily—and thus they swell Essex sales.

LIVE STOCK SPECIALS NUMEROUS THIS YEAR

PRESIDENT SIMPSON GRATIFIED AT WIDESPREAD INTEREST SHOWN IN STATE FAIR AT DALLAS.

President Jno. N. Simpson, of the State Fair of Texas, has received advice that a number of new special premiums will be awarded to Live Stock raisers at the Victory Fair at Dallas in October.

These will be in addition to the \$60,000.00 in cash premiums offered by the State Fair itself, and will make the aggregate cash premiums available for the Victory Fair the largest ever offered by any Fair in the country.

Swift & Company, as evidence of their desire to promote live stock improvement in Texas, have donated \$1,000.00 for special premiums. This amount will be divided as follows: Champion Hereford Steer \$150.00; Champion Shorthorn Steer \$150.00; Champion Aberdeen-Angus Steer \$150.00; Champion Red Polled Steer \$150.00; Grand Champion Steer \$150.00; Barrows, all breeds \$125.00; Mutton Sheep, \$125.00.

All entries competing for the Swift swine premiums are to be fed sixty days before the opening of the Fair, Oct. 6th, on rations balanced with Swift's Digestor Tankage.

Armstrong Packing Company, "The Pioneer Packers of Texas," Dallas, offers \$120.00 in cash premiums for Champion Barrows.

J. J. McLain, Anna, Texas, offers \$200.00 in cash premiums for Duroc Jerseys, as follows: For Boars \$57.50; sows \$57.50; litters of pigs \$85.00.

The Flowerdale Farm, offers \$50.00 for the Grand Champion Barrow, (any breed) of the Show.

"THE GARDEN OF FOLLIES" HEADLINER AT VICTORY FAIR

MAGNIFICENT NEW YORK MUSICAL REVIEW SECURED BY SECRETARY STRATTON.

"The Garden of Follies," New York's last word in scintillating, spectacular, Musical Extravaganza, will be a headliner amusement attraction in the coliseum at the Victory Fair at Dallas in October.

This was secured in person by Secretary Stratton during his recent visit to the East. Visions of the Winter Garden, or of Broadway in 1919, will float before the eyes of the beholder of this beautiful production.

Oodles of pretty girls, captivating music, magnificent scenery, "dreamy" costumes, and a "cobwebby" plot, delightfully intertwined, make up the production.

Grace, beauty and wit will abound in "The Garden of Follies."

VICTORY FAIR AUTO SHOW WILL BE BRILLIANT EVENT

TRUCKS, TRAILERS AND TRACTORS WILL ALSO BE SHOWN IN GREAT PROFUSION.

A Palace of Pleasure Cars, vast fleets of sturdy Trucks, and trainloads of Tractors and Trailers will be exhibited at the Victory Fair at Dallas in October.

The 1920 models, in many makes of sedans, touring cars, limousines, sport models, and runabouts, evidencing all the latest ideas in speed, endurance, beauty and comfort, will be shown.

Trucks, hundreds of makes, in many sizes, and suitable for all hauling needs on the farm, in the city or town, or anywhere else that time and labor-saving transportation is needed, will be there.

Tractors—the farm power-plant on wheels—that make all farm tasks easy, will be demonstrated.

So many trucks will be shown that a new building had to be erected to house them. This will be a substantial frame building 60x400 feet, and will cost \$7,000.00. In the center will be a beautiful art-fountain. Both the automobile and trucks building will be artistically decorated and the lighting effects provided at an additional cost of \$3,500.00, will be very novel.

It is proposed to make the new truck building a community social center where you can come and meet your friends and have a real good time. An orchestra will be provided, and there will be dancing every day and every evening. The Dallas Automobile Trades Association is co-operating with the State Fair management to make the Auto Show at the Victory Fair an event long to be remembered.

EXPECT TO COLLECT SUM OF \$53,000,000

SOUTHERN METHODISTS OUTLINE PLANS FOR HANDLING GREAT CENTENARY FUND.

Organization Will Collect Largest Amount Ever Handled By Any Religious Denomination Anywhere.

The Centenary Commission of the Methodist Episcopal Church, South, has announced its plan for collecting the \$53,000,000.00 which was pledged for the missionary work of the church in the recent eight-day drive. The plan was prepared and will be directed by Colonel John E. Edgerton, of Tennessee, the general centenary treasurer and the director of the department of finance for the Centenary Commission.

Colonel Edgerton is a well known business man. He is president and manager of the Lebanon Woolen Mills, president of the Tennessee State Manufacturers Association, and, during the war he was a member of the executive committee of the war industry board appointed by President Wilson.

"Our slogan is no shrinkage, but an increase," said Colonel Edgerton recently. "Just as the Southern Methodist church has surpassed all records in securing pledges for benevolent purposes and has raised the largest sum ever given to any church at one time in the history of the world, so we expect to set a new record in the collection of these pledges."

An Extensive Organization.

The organization through which these pledges will be collected has four centers of responsibility. The first is a general finance commission with headquarters at Nashville, headed by Colonel Edgerton. This commission has prepared the standard plan and will direct the entire movement, handing down to the various bodies throughout the church detailed plans for their guidance.

There will also be a conference cabinet in each annual conference of the church, about forty in number. These conference cabinets will be composed of the Conference Missionary Secretary, Conference Campaign Director, the Lay leader, and the Conference Centenary Treasurer. Each of these officials have certain specific duties, and will direct the work of collecting all the pledges in each annual conference.

In each of the four hundred districts of the church there is a similar cabinet composed of the Presiding Elder, the Lay leaders, Campaign Directors and the Chairman of the Methodist Minute Men. The Conference Missionary Secretary is an ex-officio member of all district cabinets. The work of collecting in the districts will be supervised by this district cabinet.

Twenty Thousand Churches.

In each of the 20,000 local churches, there will be local cabinets composed of the pastor, the centenary treasurer, the campaign director, the lay leader, the chairman of the minute men, the Sunday school superintendent and the president of the Woman's Missionary Society. This cabinet will do all the actual work of collecting the individual pledges.

The persons who made subscriptions will be divided into lists of twenty-five and the lists will be placed in charge of a certain member of the church cabinet who will collect all pledges as they come due.

One feature of the standard plan is that the local church will be responsible for collecting the full amount of its subscription. If any subscriber dies or meets with misfortune such as to render it impossible for him to pay his pledge, it will be the duty of the church cabinet to secure another person to take the place of the one thus become delinquent.

It is also proposed that every new member who comes into the church shall also be asked to make a contribution to the Centenary fund.

The Centenary fund of \$53,000,000 will be used for the church in an extension of its missionary work throughout the world. Several millions will be spent in the devastated regions of France, Belgium, Poland and Russia. Other millions will go to the seven foreign fields occupied by the church—Mexico, Brazil, Cuba, Africa, China, Japan and Korea. Other millions will be spent in the industrial sections of the great cities, in the mountains, among the immigrants, the negroes and the Indians, and in building churches in the missionary territory of the United States.

"The World Aflame"

FRANK KEENAN, the Masterly in

GREAT PROBLEM OF CAPITAL AND LABOR

at the

Judia Theatre TUESDAY AND WEDNESDAY AUGUST 26TH and 27TH

This great Sensational Picture has Just Been Released and will be Shown for the First time in this Section at
JUDIA THEATRE, AUGUST 26 and 27.

The Sinister figures of Unrest and Discontent abroad in the world; a new conception of Wrights and Wrongs has bitten into the minds of many men, many peoples. The old time relations between Capital and Labor has been disturnde, and the disturbance grows. Mr. Keenan has created a triumph production which offers a simple, sensible solution to the question which agitates the wisest men—every working man and his family will want to see it, for it not only shows how, but it's a whale of a picture.

Admission: Matinee 25 and 35c, Night 25, 35 and 50

ly prohibited. No slip joint connections shall be used on sewer side of trap.

As a citizen of Cisco I feel that the above statements are infringing on the rights and privileges of the employer. I am paying the \$10 scale asked for, but beyond that I cannot meet their demands.

I have received the news, second handed however, though reliable, that unless I yield to every demand I will be put out of business. I have had customers intimidated into not buying and I have had my employees called upon and notified to leave town. I do not publish this to stir up any undue prejudice for the living conditions are such that the lab-

oring man is entitled to a living wage with opportunity to lay by for a rainy day, but I do feel that I should also have the privilege of running my own business. I only ask that past patrons please bear in mind that it is the policy of my business to give you value received for every job or sale, large or small, and I cannot continue to carry out that policy if forced to be dictated to by my would be employer.

Respectfully submitting this for your consideration and that you may know the real facts.

JOHN C. SHERMAN,
Cisco, Texas.

Will Establish Office Here.

Mr. C. A. Lamb as in the city, preparatory to establishing an office of the Oklahoma Producing and Refining company in Cisco, which will make this place the headquarters of this company.
