CISCO, EASTLAND COUNTY, TEXAS, FRIDAY, APRIL 16, 1920.

FOUR PAGES

## ROY C. GRIFFIN WINS FIRST PLACE IN CONTEST, WITH THIRTEEN-YEAR-OLD BOY SECOND AND MOTOR MAN THIRD

"We Never Look Back" Gets Second Prize of \$35.00.

### THE CITY OF CERTAINTY Is Third Place Slogan of John O. Eldridge In Big Contest.

Roy C. Griffin, advertising manager of the Cisco Morning News, is the winner of the slogan contest held under the auspices of the Young Men's Business League and the Chamber of Commerce. His slogan was "The City That Teamwork Is Building".

Clyde Mancill, 13-year-old son of Mrs. Will Mancill and a pupil in the sixth grade of grammar school took second place in the competition with the slogan "We Never Look Back".

John O. Eldridge, of the Bannon Motor company, was awarded third prize for the slogan "The City of Certainty".

### TOURNAMENT WILL BE HELD DURING U OF T FOOTBALL PRACTICE

AUSTIN, April 13.—During the fifth week of spring, football training at the University of Texas, a tournament will be held in the different forms of football. It will consist of punting, field goals, passing, the ball from center forward passing, charging, among line-men and best blocking. It is designed to stimulate interest among the members of the squad, as well as to develop skill in the different forms of practice.

### PEOPLE WEAR OVERALLS AS A PROTEST AGAINST CLOTHES PROFITEERING

BIRMINGHAM, Ala., April 12.—The Birmingham Overall club, with a membership of 3000, was formally organized at a mass meeting tonight.

Alvin Douglas, well known attorney, was elected chairman and Theodore Lamar, business man and attorney, was made secretary.

### MOST POPULAR GIRL OF CISCO HI HONORED BY FAREWELL PARTY HERE

The sophomore class of the local high school honored Miss Mary Parks with a farewell surprise party at the home of Marion Olson Saturday night.

### OKLAHOMA SWITCHMEN TO VOTE ON STRIKE

OKLAHOMA CITY, April 13.—The switchmen employed by all the railroads entering Oklahoma City will vote tonight on whether they will join in a sympathetic strike, union officials announced.

### SPECIAL SESSION OF TEXAS LEGISLATURE FOR BOLL SITUATION

DALLAS, April 13.—Governor W. P. Hobby, who arrived here today from Washington, where he appeared before the horticultural board, declared that he would call a special session of the Texas legislature about the middle of May to deal with the boll worm situation.

### AGUTE FOOD AND FUEL SITUATION RESULT OF STRIKE IN NEW YORK

NEW YORK, April 13.—The strike of railroad workers here today presented the most menacing situation the city has faced since the unauthorized walk-out began. Freight service on the railroads over which come the bulk of the city's food and fuel virtually was paralyzed and passenger service, already seriously crippled, was still further impaired.

### SWEETWATER TO HAVE LARGE GYPSUM PLANT EMPLOYING THOUSAND

SWEETWATER, April 13.—Supplementing Sweetwater's employes' payroll by not less than \$300,000 the first year and adding property with a physical valuation of not less than \$1,000,000—this is what the United States Gypsum company is going to do for this city in the next 12 months, following the signing of a contract here a few days ago involving the purchase of 225 acres of virgin gypsum deposits.

### TO BRING DAIRY HERD TO CISCO, PROMISING TWO HUNDRED GALLONS

After Long Suffering From Shortage of Milk, Cisco is About to Have An Abundant Supply.

### GOVERNOR PROCLAIMS APRIL NINETEENTH TO START HEALTH WEEK

AUSTIN, April 10.—The week beginning April 19 is designated as "health week" in a proclamation issued by the governor, as follows:

### TO REVOLUTIONIZE GROWTH OF PLANTS BY LIGHT METHODS

Is plant growth to be revolutionized by the application of light influence rather than by temperature. And can this new theory of agricultural science be applied to every-day farm products— and how is the light for these to be regulated?

### THELMA FAIRLESS IS CHOSEN MAY QUEEN IN CISCO HIGH ELECTION

Will Reign on Dais of Throne to Be Erected on Seventh Street, Surrounded by Royal Retinue.

### FEDERAL RESERVE AGENT AT DALLAS COUNSELS PEOPLE TO ECONOMIZE

DALLAS, April 13.—The patriotism and intelligence of the American people will rise to the occasion as they have always risen and safely guide the country, through the present crisis, said William F. Ramsey, federal reserve agent for this district, who added that during 40 years he has been observing the trend of public affairs he has never seen more disturbances.

### TELLS CISCO GROGERS BEST ADVERTISING IS THROUGH NEWSPAPERS

At a meeting Friday evening, A. B. Hillman, state organizer of the Retail Merchants Association of Texas, addressed a large gathering of local merchants concerning the work of this association. He warned the local merchants against advertising schemes, fake newspaper advertising, and endorsed newspaper advertising.

### MATERIAL ARRIVES FOR NEW TELEPHONE PLANT TO BE INSTALLED HERE

A carload of telephone cable for the new telephone plant reached Cisco Friday. It is the first shipment of material to be used in rebuilding the system into a modern plant. It will be installed as soon as the poles that are to be erected in the business section.

### SWEETWATER TO HAVE LARGE GYPSUM PLANT EMPLOYING THOUSAND

SWEETWATER, April 13.—Supplementing Sweetwater's employes' payroll by not less than \$300,000 the first year and adding property with a physical valuation of not less than \$1,000,000—this is what the United States Gypsum company is going to do for this city in the next 12 months, following the signing of a contract here a few days ago involving the purchase of 225 acres of virgin gypsum deposits.

## NEW PUBLISHING MANAGER FOR CISCO MORNING NEWS.

BEGINNING with this morning's issue the Cisco Morning News is under new management.

J. J. Hutchison of Waco, a man of wide newspaper experience, will henceforward be the publisher and manager of this publication. Mr. Hutchison succeeds Arch M. Culmore, who is to become associated in the motor business with B. S. Huey.

"There is going to be one big, predominating city in Central West Texas. Cisco is going to be that city. That's why I came here."

This is the terse, prophetic statement with which Mr. Hutchison announces his entrance into this community, not only as a citizen but as a builder.

Twenty-five years of newspaper work throughout the State of Texas, the latter 20 years of which was with the Waco Times-Herald, is the record which the new publisher brings with him to the News. This is a voucher sufficient that he is not only well versed in every stage and angle of the business from the editorial end to the last bolt and screw of the "back shop," but likewise intimately familiar with conditions throughout the state generally, and in this section of the country in particular.

During more than 20 years of newspaper work in Waco alone, Mr. Hutchison has held, at various times, practically every position in the editorial end of the business, from reporter to managing editor. In addition to this work, he has been active in civic affairs of every kind and nature. He was president of the Young Men's Business League of Waco, comprising 1800 members; a director of the Texas Cotton Palace, an annual state exposition held at Waco; served as secretary for three county-wide Liberty Loan campaigns, and was closely associated with the Chamber of Commerce and Red Cross chapter of Waco.

With all his years of experience Mr. Hutchison is neither an old man in years, appearance nor ideas. He has a reputation for pushing the times forward rather than moving forward with them.

His injunction to the people here in regard to the Cisco Morning News is:

"The only way you can keep a big, live newspaper here is to boost it with every breath you have and support it with everything you have. A newspaper can never be very much bigger than the town which supports it, and the Cisco Morning News is the gauge by which Cisco is being judged by the outside world."

A significant thought that of all the big business and manufacturing enterprises locating in Cisco, there are no wild-cat or blue sky schemes seeking to domicile here. This is the City of Certainty, that "Teamwork is Building."

## CISCO SCORES AGAIN.

DAIRYING is one of the most important factors that can enter into the development of a community or city. Good, pure milk means the life of the infants and children, and is a health-giving nourishment for the older ones. It is gratifying to note that a dairy of a daily capacity of 200 gallons is to be established near Cisco at an early date. At Cisco's rapid rate of growth, there should be several dairies in this vicinity. The present Cisco alone would consume a thousand gallons of milk per day, and it should have pure milk instead of the manufactured substitute now being extensively manufactured and consumed in this city. With good dairy cows there is a fine margin of profit in dairying at the present producers' price of milk—20 cents per quart. Many dairy cows give from four to six gallons of milk per day, or 16 to 24 quarts. This would mean a daily gross revenue of from \$3.20 to \$4.80 per day for the cow. Placing the feed for each cow and caring for the herd at \$2.50 per day for each cow would show a handsome profit. Dairying is a good business, but a neglected one in this supposed stock country. There is not too much oil, but too little milk in this part of Texas. Dairy opportunity is being overlooked in the lure of oil.

IF in doubt at all about the advisability of you and your family taking an active part in CLEANING UP CISCO, for preventing diseases and sickness, just ask your family physician for his advice and see what he says. He's a judge of such matters. You believe in your family physician. He will do all he can for cleaning Cisco and keeping her clean.

## CISCO SHOULD PLAN FOR PARK SYSTEM.

FUTURE citizenship would look backward and pronounce the 1920 teamworkers of Cisco, "The City That Teamwork Is Building," as derelicts if they should make no provision for a park system for the coming generations. Parks are the lungs of a congested city, and without them there is no healthy breathing. They are places of recreation, inspiration and beauty. They make home pleasant, and they attract visitors and strangers. In the formative period of a city is the time to plan a system and to secure park sites. Delays are both dangerous and expensive as applied to a city's park system or play grounds. Dangerous because without them city residents do not get the proper recreation and fresh air tonic that invigorates health; expensive, because delays mean difficulty in securing proper sites, and an added cost when they are purchased. So it behooves the teamworkers of Cisco today to take up this part of the city building—and do it without unnecessary procrastination. It should be one of their early discussed and formulated plans.

ANOTHER inning has been scored for newspaper publishers. The publisher is the judge of news, and his paper may publish whatever he considers as such and discard that which is not within the news category. This opinion has been held by the appellate court at Chicago, in rendering a decision in a case wherein the Tribune was sued for \$100,000 for omitting mention of one candidate and publishing the names of others in a political campaign. The opinion holds:

"The defendant owed no duty to either the plaintiff or the public to publish anything which for any reason it did not see fit to publish. The defendant is the sole judge of the value of news. As such, a newspaper must remain free to publish such matters as it regards as possessing news value and to refrain from publishing such matters as it may determine does not possess news value."

SUPERINTENDENT J. J. Godbey of the Cisco schools voiced the sentiment of our entire citizenship, in an address at the city hall Tuesday night, when he urged the importance of giving constant and undivided thought and attention to schools matters. Throughout the country thoughtful citizens are interesting themselves in improving the condition of our school systems wherever possible. Better pay and more efficiency is receiving the attention so much deserved. A community cannot afford to prosper unless the schools are made to grow and keep pace with that prosperity. Let's all get behind Superintendent Godbey and make the Cisco schools the equal of any in the land.

## RESOURCES OF STATE TO BE CATALOGUED BY COMMERCIAL BODY

DALLAS, April 15.—The resources and raw products of this state are being catalogued by the Texas chamber of commerce, so N. H. Clark, the manager of the research department, announces, so that information may be supplied to outside capital.

Iron ore, lignite coal, clay products, silica sand, cement, cotton mills, wool mills, corn products, farm implements and machinery, rice mills, canning and preserving fruits and vegetables, crops and developed farm lands, cheap agricultural lands, gulf coast lands and irrigated lands, have been surveyed by the Texas chamber of commerce.

The announced purpose is "to develop Texas' manufacturing and mining industries just as rapidly as feasible. As soon as connection can be made with organizations that might become interested in establishing plants in Texas, information will be passed on to the 246 local commercial bodies of this state, thus giving each community opportunity to get more factories."

Many attractive industrial opportunities are afforded in the development and utilization of the natural resources and the raw materials produced in the state of Texas. Practically every kind of farm and garden crop common to the United States is grown here about every known mineral of commercial value is found in workable deposits in some part of this, the Empire State.

### Iron Ore.

There are in this state millions of tons of good grade brown iron ore contained in a total area of about 1200 square miles. The principal deposits are in 14 counties in East Texas, associated with enormous quantities of lignite. These ores occur largely in limestone and hematite. In the Llano country are magnetite deposits, averaging 60 per cent metallic iron while the brown ores of East Texas will average 50 per cent. During 1919 one of the 10 companies owning iron ore property produced some ore, sending it to Alabama. New methods and processes for the reduction of this ore open up an attractive field of development.

### Lignite.

It has been estimated that Texas has from twenty to twenty-five billion tons of lignite, with an average heating value of 7000 to 8000 B. T. U. per lb. General location of the lignite belt, according to bulletin 1814 of the Texas University, is on a central line extending from Marshall to Laredo, the belt widens out markedly towards the west and narrows towards the east. This lignite is in the state a source of comparatively cheap fuel, to be had in more extensive industrial development. We now have 28 lignite mines, operating 37 shafts.

### Coal.

The workable area of bituminous coal in Texas is 8200 square miles and includes the counties of Eastland, Erath, Maverick, Palo Pinto, Wells, Wise, and Young. There are in this state nine coal mines, operating 12 shafts. The heating value varies from 10,420 to 13,421 B. T. U. per pound.

### Clay Products.

There are now in the state 115 brick, tile and pottery plants. The 1918 production was \$2,926,558, the 12th largest for any state in the union. Clays suitable for the manufacture of clay products are distributed over the entire state, some of the finest pottery and brick clay in the country is to be had in Texas. The rapidly decreasing supply of available timber suitable for lumber and the increased building operations, provide a market for a large portion of the state's clay products.

### Silica Sand.

There are in this state but two companies manufacturing glass, and two engaged in the production of silica sand of glass making qualities. One of the sand deposits being developed is at Santa Anna and the other is at Andrews. High grade sand, very pure and of most soft enough to be termed beach sand, is to be had from these deposits.

### Cement.

Only seven cement companies are known to be producing in the state of Texas. Five of these are Portland cement plants. The estimated annual production is between four and five million barrels. Some of the highest grade cement in the country is produced in this state. Considerable amount of road building and construction work goes under way and consequently the available raw materials for manufacture, a ready market for a largely increased production of Texas cement is assured.

Other materials and minerals that occur in workable deposits are fuller's earth, Texas sandstone, in production of this material limestone, marble and granite, quarried in Texas on an increasing scale; shale, found in the Llano district and in the Panhandle; gold, silver, copper, zinc, tin and lead, occurring mostly in the mountains in the western part of the state; quicksilver, found in Brewster county where it is being mined; sulphur is extensively mined in Texas; this state and Louisiana produce 59 per cent of America's sulphur.

### Cotton Mills.

Although we produce more than one-fifth of the cotton of the United States there are in this state only 17 cotton mills, with 149,654 spindles, as compared with a total of 24,956,324 spindles for the United States. Labor conditions for the industry in this state are reported just as satisfactory, comparatively, as those in other sections. With a population of approximately five million people, cotton mills and associated industries, such as the manufacture of spinning, auto tires, wire insulating materials, etc., offer exceptionally attractive opportunities.

### Wool Mills.

This state produces more than 50 per cent of the mohair produced in the United States, and, in round numbers, 15,000,000 pounds of wool. All this is shipped to eastern manufacturers, where it is made into cloth and returned in part for our five million people. There is not a single wool mill in Texas, and only one mill utilizing our mohair.

### Corn Products.

So far as we have been able to determine our survey has been an ex-

haustive one, there are no plants in Texas manufacturing corn products, such as glucose and starch, yet in 1919 this state ranked third in corn production, the yield for that year being more than 200,000,000 bushels.

### Farm Implements and Machinery.

By far the greater part of the farm machinery used in Texas is purchased from out of the state manufacturers. With the establishment of steel mills for utilizing the Texas iron ore deposits, an attractive field for machinery manufacture will be opened.

### Rice Mills.

Our records indicate that there are 17 Texas rice mills. The 1919 production of rice in this state was more than 6,998,000 bushels, more than one-seventh of the total production in the United States.

### Canning and Preserving.

More than 13,000 carloads of produce were shipped from Texas to out of state markets in 1919. Canning and preserving the enormous crops of vegetables and fruits produced in this state afford an exceedingly attractive opportunity for food products organizations. A ample opportunity is afforded for the establishment of additional plants for the manufacture of chemicals, electrical machinery and apparatus, fertilizers, kaff goods, paints and varnishes, soap, turpentine and resin, wood distillation and boots and shoes.

### Agriculture.

More than one billion dollars worth of agricultural crops were produced in Texas in 1919. Diversification of crops has become firmly established. The last census report indicates more than 47 per cent of Texas farms are operated by farm owners and that there were in the state at that time approximately 80 million acres of unimproved farm lands.

### Developed Farm Lands.

North and Central Texas are well developed agriculturally; all farms are well improved. There are, however, many attractive opportunities for large-scale development in reclaiming overflow lands along the Trinity and Brazos rivers. When protected by levees, these lands are among the most productive areas in the world. Farmers with capital and experience will find rare opportunities for livestock and dairy farming in the well populated areas in North and Central Texas. The Central Western region offers an inviting field to general farmers. Some sections are also well adapted to fruit growing and truck gardening. West and Northwest Texas are attractive fields for livestock farming and the production of feedstuffs and cotton.

### Open Agricultural Lands.

There are many hundreds of thousands of acres of hardwood and cut-over pine lands in East and Southeast Texas for sale at very low prices. In many cases the standing timber will pay the cost of clearing. This land is adapted to general farming, but is best suited to fruit, vegetable and livestock raising. Railroad transportation is adequate and good roads are being rapidly constructed.

### Gulf Coast Lands.

Yard areas of land along the gulf coast from Beaumont to Brownsville are available at reasonable prices. Much of this land is heavy, black clay, and loam and yields abundant crops of cotton, rice, vegetables and feedstuffs and this is an excellent section for

dairying and general livestock farming. Large areas in need of drainage offer attractive big-scale development opportunities.

### Irrigated Lands.

The valleys of West Texas streams offer many opportunities for irrigation on both large and small scales. The land is exceedingly fertile and yields fine crops of cotton, alfalfa, broom corn

and other staples. Long staple cotton, yielding in value the famous Sea Island varieties, can be grown successfully.

### Other Resources.

Texas is the only state in the union which has the native resources of food, clothing, building material, fuel, iron, water, stone, lumber and oil sufficient to support itself.

Eight acts upon the brain, and those who sleep with their blinds up find that in summer time when so few hours are really dark, their sleep is not refreshing.

### The Swiftest Dog in the World.

The Russian wolfhound, has made a record run that shows 24 yards to the second.

# Yes Sir-ee!

We made this cigarette to meet your taste!

# Camel CIGARETTES

CAMELS have wonderful full-bodied mellowness and a flavor as refreshing as it is new.

Camel's quality and Camel's expert blend of choice Turkish and choice Domestic tobaccos win you on merits. Camels blend never tires your taste. And, Camels leave no unpleasant cigarettey aftertaste nor unpleasant cigarettey odor!

What Camels quality and expert blend can mean to your satisfaction you should find out at once! It will prove our say-so when you compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glass-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

## For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

# TAKE CARDUI

## The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help.

"I was taken sick, seemed to be . . ." writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

## Protect Your Property With Certain-teed Roofing

Certain-teed Roofing shelters your property against the severest storms. Driving rain will develop no leaks. Melting snow and ice will find no cracks or crevices through which to enter.

Certain-teed keeps the interiors of your barns and other buildings dry. It protects their contents from damage by water.

For when Certain-teed is properly laid, it is firmly cemented together. It makes an impervious one-piece roof.

And Certain-teed has other advantages. It is fire-retarding and spark-proof. It is guaranteed for 5, 10 or 15 years, according to weight.

Yet Certain-teed Roofing costs less to buy, less to lay and less to maintain, than any other type of good roofing.

See your dealer about Certain-teed. He either has it or can get it quickly from a nearby Certain-teed distributing center.

PAINT-VARNISH-ROOFING & RELATED-BUILDING-PRODUCTS

SONORA ARMY CLASHES WITH FEDERAL TROOPS IN FIRST ENGAGEMENT

Officials Believe That Only a Civil War Can Settle Doctrine of States Rights Between Contenders.

AGUA PRIETA, Sonora, April 14.—Troops of the new republic of Sonora have had their first battle with Carranza soldiers on the Sonora-Sinaloa boundary, according to a report received today apparently verifying an earlier report from Nogales. Military authorities said the battle meant war between the Carranza government and Sonora. No details of the battle were received here. Sonora army officers, acting on orders from General Calles, commander-in-chief, are fortifying the Sinaloa-Sonora frontier, and also the mountain passes leading from Chihuahua. Carranza troops already are en route from Casas Grandes, Chihuahua, toward Agua Prieta. It was said, Calles is said to have dispatched a large force to the pass, through which the Carranza soldiers must come in marching toward Agua Prieta. To reach Agua Prieta the Carranza soldiers must march overland 800 miles through a mountainous and a desert country. All saloons were ordered closed in the state today by General Calles. He ordered renewed efforts in recruiting soldiers. Four thousand recruits had joined the Sonora army in less than sixty hours, it was announced at military headquarters here. All officials of the new republic here now believe a civil war must settle the doctrine of state's rights between Sonora and the central government of Mexico.

Question of state's rights caused Calles to order when state authorities declared President Carranza had no right to send troops into Sonora against the wishes of the state. Sonora before sending said sending of troops into the state would mean civil war. Immediately after the session last Saturday, steps were taken to repel any Carranza invasion. The Yaqui Indians who have been at war for months against the Mexican government, have made peace with Sonora authorities and between four and five thousand warriors will be mobilized against Carranza, it was said here today. The military authorities here claimed an army of more than 25,000 would be enrolled within a week. When Sonora accepted Carranza last one of his greatest revenue producers, the rich agricultural and mining district of the state and adjacent territory paying a large part of the Mexican federal revenue. Through Sonora ports of entry more customs house fees were collected than on all the boundary points between the United States and Mexico.

NOGALES, ARIZ., April 14.—Federal troops under General Carrasco are in battle with a part of the Army of General Flores at El Fuerte on the border of Sinaloa, according to a dispatch received in Nogales, Sonora, this afternoon. General Angel Flores came from Sinaloa to join forces with General Elias Calles, commander-in-chief of the Sonora forces, and 15 other high Mexican commanders have aligned themselves with the secession movement. General Rios and General Plank, formerly with the federal government, have announced their intention of joining the Calles forces.

EL PASO, TEXAS, April 14.—Information from the Mexican consulate here identified General Angel Flores as a former governor of the state of Sinaloa. El Fuerte, information from the consulate said, is in Sinaloa, between San Blas and Cuicatan.

HOME ECONOMICS WEEK TO BE HELD AT U OF T

AUSTIN, April 13.—The annual Home Economics week will be held at the university of Texas in cooperation with the state department of education from June 2 to 5 inclusive. The object of this meeting is to discuss from the platform and in round table conferences the most pertinent social, economic and educational topics of the day as they relate to family life and to the interrelation of the home, school and community.

Each year one special phase of these subjects is especially emphasized because of its immediate bearing upon some vital problem of the day, and it has formed the keynote of the conference. This year the central theme will be the relation of the teacher to the school, to the family and to the community life. Men and women who are recognized authorities and leaders in national development along educational, social, economic and health lines have been engaged to lecture during the week. Leading women's organizations of the state have, through their officers, endorsed the policy of the program. Home economics teachers are urged to attend this meeting. In addition to the general program, the state department of education is arranging for an intensive teacher training course for home economics teachers.

TO DEEPEN AND WIDEN HOUSTON SHIP CHANNEL

GALVESTON, Texas, April 13.—Two bids for the deepening and widening of the Houston ship channel from Morgan's Point to Galveston bay were accepted by the chief of the United States engineers at Washington on April 10, according to advices reaching the local engineer's office today. The successful bidders were the United Dredging company on section two at \$2 cents per cubic yard, and the Atlantic Gulf and Pacific company on sections 1 and 3, at 8.3 cents. These companies were the lowest bidders. The Lapp frequently sleeps upon the mountain plateaus with no other covering than the snow and the clothes he wears.

LEADERS OF STRIKING MINERS ARE REMOVED FROM CRAWFORD JAIL

Officials Declare Place Unfit for the Incarceration of Prisoners; Fear Aliens Might Rescue.

PITTSBURG, Kan., April 14.—Alexander M. Howat, president of District No. 14, United Mine Workers of America and three other officials who have been incarcerated in the Crawford county jail at Girard for refusing to testify before the Kansas court of industrial relations, today were removed from jail and taken to other cities. Howat and Robert Foster, auditor, were taken to Ottawa and placed in the Franklin county jail, while August Dorch, vice-president, and Thomas Harvey, secretary-treasurer, were taken to Jola and placed in the Allen county jail. The order for their removal, issued by the district court on petition of the sheriff, charges that the reason for the removal is that the Crawford county jail has been deemed unfit for the safe keeping of the incarcerated officials. They will be kept in the Allen and Franklin jails until the further order of the court. In his petition, the sheriff stated that the events of the last few days in Crawford county have shown that attempts to affect and procure the release of the officials might be made by crowds of aliens who do not understand the American system of government and who think the prisoners were being wrongfully persecuted. A demonstration that was expected to surpass in extent all previous mass meetings in behalf of the officials was planned to be held in Girard tomorrow. Pittsburg union labor has been asked to take a holiday and take part in the event, and the shop employees of the Kansas City Southern have announced their intention to take a full day's off. Circulars were issued today by the allied unions requesting a large attendance.

LACK OF RAIL EQUIPMENT AT FLOYDADA HINDERS SHIPMENTS

FLOYDADA, April 13.—More than a thousand tons of sorghum grain heads and over 25 carloads of threshed grain lie in grain dealers' yards in this city because of lack of equipment to handle it, according to a report made to the West Texas chamber of commerce today. Only about 15 cars a week are being allocated for grain shipments from here; whereas, dealers say, 21 cars a week were provided before the owners took the roads out of the hands of the government. In case of continued bad weather, the loss would be very heavy. It appears at present that another crop of grain will have been harvested before all that tendered the railroads here will have been handled. Thousands of bushels of grain are under contract to be delivered at Floydada within the next 30 to 60 days. Considerable quantities of wheat are still coming in.

Concentrated Lye in Whiskey

DALLAS, April 13.—Whiskey seized by local police officers found its way to the city chemist who announced that an analysis of the fluid showed that it contained concentrated lye. The liquor described as "white mule," would have meant almost certain death to a person drinking it, the chemist declared. "Bootleggers living in the country have evidently not been content with the slow process of distillation but have added concentrated lye to their wash, in order to hurry it up," a doctor declared in warning the people against the poisoned liquor. "By using the lye liquor can be turned out overnight since it eats the corn mash and dissolves it far more quickly than by the natural process."

Did You Ever Think About This?

DALLAS, April 13.—"The color scheme in our rooms has a tremendous influence on us," Henry J. Davidson, recognized as an authority on interior decoration, told a local art association. "We react to any room in which we remain any length of time, whether it be a hospital, an office or in our own home," Mr. Davidson declared. "Some rooms give us an air of contentment and ease, while others are prone to produce restlessness and discomfort. "Blue is the color favored by thinking men, while red often causes irritation and anger."

Freshman Girls Serve Meals

AUSTIN, April 13.—For the spring term's work, freshman girls in the school of home economics are working on the problem of serving meals. Each girl is assigned a waitress, who assists her in the preparation of one meal, which is limited to 45¢ a plate. Later each student prepares a meal by herself with a cost limit of 55¢ for each plate. Plates are prepared for at least four guests and the amount of time used is limited to one and one-half hours.

Urges Mexican Labor Be Imported

WACO, April 13.—Forest Goodman, in an address before the Young Men's Business League, urged that steps be taken to import Mexican labor to work on McLennan county farms. Goodman had just returned from a trip to El Paso and declares that there are plenty of Mexicans willing to accept work in the interior of Texas.

Banker Plays Wildcat

DALLAS, April 13.—A campaign of educational advertising by banking institutions in Texas, to fight the vicious wildcat promotion concerns which fool the people by promising large dividends, said Nathan Adams, vice-president of the American Exchange National bank, here recently, would save the public millions of dollars every year.

The South Sea Islanders have a curious method of salubrious, which is to fling a jar of water over the head of a friend.

A curious fact has been noticed by Arctic travelers—snow, when at a very low temperature, absorbs moisture and dries garments.

KATY OFFICIALS HERE ON INSPECTION TRIP OF WEST TEXAS LINE

A party of Katy officials, Texas central division, spent Tuesday in Cisco, being on an inspection trip of the line with Rotan as their destination.

In the party were W. M. Hoop, Dallas, representing the chief operating officer; Wm. A. Morrow, Waco, division passenger agent; J. E. Callahan, DeLeon, trainmaster; H. W. Davidson, Waco, watch inspector; C. H. Duering, Waco, watch inspector; C. H. Duering, Denison, traveling storekeeper. According to Hoop, the trip has no special significance so far as improvements are concerned. He stated that the party was merely making a survey of the company's properties after the return to private ownership. At the same time cognizance is being taken of the rapidly increasing business in the Central West Texas territory with a view to meeting the new conditions in the most satisfactory manner possible. Both Hoop and Morrow spoke enthusiastically of the numerous and permanent improvements in Cisco.

MAINLY ABOUT PEOPLE

The former German Kaiser can talk fluently in six languages. Underdone beef is said to be the favorite dish of the King of Spain. Ferdinand of Bulgaria is the only sovereign of Europe who speaks Yiddish. Sir James Barrie is reputed to have made over \$100,000 out of one play alone.

The King of Italy was the first of the European royalties to learn to drive his own motor car.

Jose R. Capablanca, the famous Cuban chess expert, started to play chess at the age of four.

Robert L. Owen of Oklahoma is said to be one of the best Greek scholars in the United States senate.

Before King Albert ascended the Belgian throne, he was regarded as too bashful to be a successful monarch.

Lord Glanely, who today is one of the largest ship owners in the world and the possessor of a fortune estimated at many millions, began life as a "chain boy."

Sir Arthur Finlay, the most successful of present-day English dramatists, began his career as an actor, and, according to his own account, he was a very poor one.

Paul Deschanel, the president-elect of the French Republic, was once reported to wed Miss Terry, step-daughter of Sybil Sanderson, the celebrated American singer.

King Gustave of Sweden is one of the best tennis players in Europe. One room in the royal palace at Stockholm is devoted to his trophies as such, many of them won against all comers.

Secretary of State Robert Lansing is one of the foremost Biblical students in America, and articles from his pen on Biblical and religious subjects have often appeared in the periodical press. The Prince of Wales enjoys one privilege from which King George is debarred. The former may take a seat in the gallery of the House of Commons and hear the debates. The King is not supposed to do so.

Prominent persons have their hobbies the same as small folks, but few probably indulge in the same pastime as J. R. Clynes, member of parliament and former cabinet official, who is an expert clog-dancer and takes great pleasure in exercising his art.

Alexandre Millerand, the new French premier, is like his predecessor, Georges Clemenceau, a reconstructed socialist. Thirty-five years ago he began his public career as a radical socialist member of the Chamber of Deputies, and for years he led the extreme left wing of the so-called party of reform.

CLEAN-UP

Ex-Service Men Desire Harvest Wheat. AUSTIN, April 13.—Ex-service men attending the New York university, have written Commissioner of Agriculture Fred W. Davis, asking for work this summer in the Texas wheat fields. Mr. Davis says he will endeavor to find places for them.

PRESIDENT OF LITTLE MOTOR CAR JAILED ON MAIL FRAUD CHARGES

DALLAS, April 13.—William S. Livezey, president, and two other officers and two employees of the Little Motor Car company, of Grand Prairie, Texas, were remanded to jail here today to await preliminary hearing next Friday on charges of fraudulent use of the mails and conspiracy to defraud in connection with sales of the company's stock. They were sent to jail in default of \$25,000 bail demanded of each by United States Commissioner R. V. Davidson, Jr. The company was placed in receivership last week.

Federal intervention in the affairs of the company came early today when formal charges were filed by postoffice inspectors and the five men were taken into custody. Besides President Livezey, the men under arrest are E. L. McCoy, vice-president of the Little Motor Car company; George Stricker, secretary-treasurer, and Herman Stricker and J. H. Crow, employees of the company. In the recent receivership proceedings on the part of certain stockholders mismanagement of the company's affairs was charged. Petitioners alleged that stock sales had netted the company about \$1,000,000, but that the concern's assets at present were only about \$300,000. Everett S. Owens was appointed receiver.

The company was organized about a year ago for the purpose of building a motor car plant at Grand Prairie, near Dallas. Its original capital stock of \$1,000,000 was later increased to \$1,600,000 and still more recently to \$3,000,000. Petitioners for a receiver declared there were about 30,000 stockholders in Texas, Oklahoma, Missouri, Illinois and Pennsylvania.

President Livezey today declared the company is solvent, has started construction on motor cars, and that the present proceedings "is all a spite case" on the part of certain stockholders.

AERIAL PASSENGER SERVICE FORT WORTH-DENVER, MAYBE

AMARILLO, April 13.—An aerial passenger and express line between Fort Worth and Denver, having as its stations points along the Denver railroad, is proposed by W. K. Whipple, manager of the Panhandle Aerial Tramway company, which this summer will advertise West Texas throughout the north and southeast under the auspices of the West Texas chamber of commerce.

Considerable support has already been pledged to Mr. Whipple. Towns along the route are enthusiastic over the scheme and declare that such a line should be a paying investment. It is proposed to operate a number of planes which will carry 16 passengers to the "ship." Mr. Whipple points out that under ordinary care, flying at usual altitudes and eliminating "stunt" aerial voyaging is much more safe and comfortable than riding in a slow, creeping passenger train.

Considering 90 Street Name Changes

DALLAS, April 13.—The city commission will act on the suggestion that names of 90 streets in Dallas be changed. The streets changed would be those whose names are confusing with those of other streets.

The committee drawing up the plan suggested that many of the new names be taken after Dallas soldiers who were killed in the world war.

DALLAS.—Fifteen hundred trees have been planted in Dallas by the forestry department since February 1, so Alfred MacDonald, city forester, has announced.

Max Weight, Little Money. MARSHALL, TEX., April 13.—A boy who is alleged to have stolen a bag of money weighing 79 pounds here recently, was probably disappointed when he completed the count of his alleged booty, for the bag contained only pennies and the owner of the bundle from which they were stolen said that the 79 pounds of pennies amounted to slightly more than \$20. In addition to the pennies \$80 in silver was lost.

NEW CHAIRMAN FOR NATIONAL BASEBALL BODY TO BE CHOSEN

NEW YORK, April 13.—Appointment of a new chairman for the National Baseball Commission will be announced this week, Ban Johnson, president of the American league declared tonight. Mr. Johnson held a brief conference with John Heydler, president of the National league today and said he would confer with him again soon. Mr. Heydler will attend the opening game in Philadelphia. "We never had any real difficulty in deciding on a chairman," said Johnson. "In fact, Heydler and I had been working smoothly together. Men whom we approached have put up conditions and stipulations which required our thought and consideration. These conditions held us up more than any differences over individuals." Mr. Johnson conferred today with Umpires Connolly, Dineen, Morarity and Nallin on the new rules. He said he already had discussed them with Umpires Evans and Chill in Cleveland. The new rules will be strictly enforced in the American league, he declared.

Texas Ball Players Signed

AUSTIN, April 13.—Chester Fortier and Roy Fruth, local amateur baseball players, have been signed to play with the Drumwright, Okla., Western association team, this year. The Drumwright manager has also made offers to Jim Sheffield, coach of the St. Edward's college team. Fortier and Fruth are infielders and Sheffield plays in the outfield.

College Professor Will Try to Signal Mars From Balloon

OMAHA, Neb., April 13.—A. Leo Stevens, physics expert at Fort Omaha, announced today that the effort of Professor David Todd, of Amherst college, to signal Mars from Stevens' balloon will be made April 23.

Turns Deaf Ear on Hunger Strike Plea

LONDON, April 13.—Acting Lord Mayor O'Neill, of Dublin, and High Sheriff McWalter appealed ineffectually today to John W. Davis, the American ambassador, after they had failed to persuade the American consul at Dublin to intervene for the Irish hunger strikers.

Junior Week

AUSTIN, April 13.—Junior girls of the University of Texas are making plans for the annual junior week. The principal feature of the celebration is the junior "prom," which is an entertainment of senior girls by junior girls. Junior week will come during the latter part of April. Besides the "prom" for the girls there is usually a smoker for the senior men, a trolley ride, picnic and dance.

MISSIONARY TO MAKE CISCO HIS HOME AND COUNTY HEADQUARTERS

The Reverend M. P. Wheeler, of McKinney, Texas, one of the missionaries recently elected by the Baptist association was in Cisco Tuesday.

Dr. Wheeler will probably make Cisco both his headquarters and his home, he said, and will work his territory out of this city. For 14 years he was missionary of Collier county, Texas, during which time thousands joined the church at his meetings and many new houses of worship were constructed under his direction. Dr. Wheeler advises the people here that he is ready to be of help in any practical way and is ready to hold meetings when and where they may be desired. His present address is Cisco, in care of Dr. Baton.

It is the privilege of the grantees of Spain to stand in the presence of their sovereign with their hats on.

AGUA PRIETA READY TO REPEL FEDERAL TROOPS

AGUA PRIETA, Sonora, April 13.—Agua Prieta was little disturbed by the change in government and the assumption of federal governmental functions by the state government. Business is proceeding as usual, while General J. M. Rios is preparing the town to meet a possible invasion of federal troops from Chihuahua. A proclamation from President Fruto of Agua Prieta, calling upon the citizens to arm themselves and be prepared for a summons to military service, was the principal development of the day. Customs receipts are being taken to Hermosillo, state capital, under the direction of Francisco Elias, a close friend of General Calles.

State troops, relieved recently of the duty of patrolling the Sinaloa-Sonora border, have been ordered to return to duty. In the earliest colonial days in America, musket balls passed for change and were legal tender for sums under a shilling.

DISCLOSE THAT STEEL STRIKE INCITER IS BEHIND BIG PLOT FOR OVERTHROW RAIL UNION

President Calls Meeting of Cabinet to Hear Controversy.

AWAIT EXPOSE REACTION

Palmer Declares Foster Planned One Great Pan-Union.

WASHINGTON, April 14.—Department of justice investigators report that evidence in their possession proves that William Z. Foster, leader of the ill-fated steel strike, is a prime mover behind the "outlines" railroad strike.

The government let this be known to night, feeling that when the strikers learn what influences are behind the movement they will align themselves with their recognized organizations.

The evidence in the hands of Attorney General Palmer shows that Foster was present at union meetings which were adjourned to meet in other halls, not as organizations, but as individuals.

Mr. Palmer said that Carl Pierson and A. E. Reese, both of whom the department's investigators have placed in the category with Foster, were all engaged in attempts to expand the strike and were directly connected with planning it.

President Meets Cabinet. As the process of the steel strike became known, President Wilson met his cabinet for the first time since last August.

Mr. Palmer made public at the same time a letter from A. V. Butgers, who presided at the third communist international, to Ludwig C. A. K. Martens, chief of the Russian soviet government.

Mr. Palmer said that the steel strike was a part of a general plan to overthrow the government and to establish a dictatorship like that in chaotic Russia.

Mr. Palmer said that the steel strike was a part of a general plan to overthrow the government and to establish a dictatorship like that in chaotic Russia.

Mr. Palmer said that the steel strike was a part of a general plan to overthrow the government and to establish a dictatorship like that in chaotic Russia.

Mr. Palmer said that the steel strike was a part of a general plan to overthrow the government and to establish a dictatorship like that in chaotic Russia.

WANTS AMERICA TO ASK THE BRITISH TO TRY IRISH AT ONCE

WASHINGTON, April 14.—A resolution requesting the secretary of state, with the approval of the president, to cause representations to be made to the British government for the immediate trial of citizens of Ireland arrested and locked up because of their fight in "behalf of freedom and independence," was introduced today by Representative Tague, democrat, of Massachusetts.

The resolution set forth that "a considerable number of Irishmen had been arrested as political offenders, that they were entitled to arraignment and trial and pending arraignment to be accorded that treatment which the principles of the law of nations accords to those arrested for political crimes as distinguished from felonies."

ONE NEGRO AND ONE WHITE WOMAN AMONG DELEGATES-AT-LARGE

CHATTANOOGA, Tenn., April 14.—Eight delegates-at-large to the republican national convention with a half vote each, instructed to vote for the nomination of Major General Leonard Wood for president, were elected at the state convention of the party here today.

The delegates include Mrs. Marshall Priest of Huntington, daughter of Federal Judge John McCall, of Memphis, and Rev. J. C. Martin, negro, of Jackson. Most of the district delegates, it was said, also are instructed to support General Wood's candidacy.

FIFTY MILLION DOLLAR RAILROAD IS IN HANDS TELEGRAPH OPERATOR

NOGALES, Ariz., April 14.—James H. Hittman, general superintendent of the Southern Pacific of Mexico, seized by government authorities in Sonora and being operated by striking trainmen, arrived here today with the report that he had been succeeded by a telegrapher and that Harry Lawton, general agent and passenger agent, has given up to a clerk in the general office at Empalme, under the rule of Governor Adolfo de La Huerta, of Sonora.

Finley declared the road was worth \$50,000,000 and that the company will not stand for retention by the Sonora government.

17,000 POUNDS WOOL TO BE MARKED AT BROWNWOOD

BROWNWOOD, April 13.—The wool growers of Brown county have figured that they will have about 17,000 pounds of wool ready for market about June 1, at which time it is proposed to have buyers here from the great centers to look over the wool with the view of purchasing it.

LOWDEN GETS STRONG PLURALITY AT HOME

CHICAGO, April 14.—Governor Frank O. Lowden's plurality over General Leonard Wood in yesterday's presidential preference primary tonight stood at 74,813, with 61 out of 102 counties complete and with only 249 precincts out of 5,690 in the state missing.

Senator Hiram W. Johnson, of California, whose name was written in on the ballots, polled 46,990 votes, of which 40,881 were cast in Cook county. Johnson votes were recorded in 1,056 precincts outside of Cook county.

VLADIVOSTOK NOW IS QUIET AFTER FIGHTING

TOKIO, April 14.—Japanese casualties in the fighting between Russian and Japanese forces on April 5 at Khabarovsk in the Amur region, totaled 84 killed and 182 wounded, according to an official statement issued today.

Reports from Vladivostok say that city is quiet. The Japanese having returned everything seized when they took possession April 5, with the exception of arms and ammunition. Communication between Vladivostok and Japan was cut off last night.

PERSHING NOT SEEKING PRESIDENCY BUT WON'T REFUSE IT IF OFFERED

WASHINGTON, April 14.—While General Pershing is not seeking a presidential nomination, he told Nebraska tonight at a reception in honor of his return from Europe, he could refuse to serve if called "by the people."

The statement followed references by other speakers to a movement in Nebraska to name General Pershing as the "favorite son" candidate for that state for the republican nomination.

KATY SWITCHMEN AT FORT WORTH RETURN TO THE JOB TO-DAY

FORT WORTH, April 14.—Officials of the Missouri, Kansas & Texas railroad here tonight announced they had been informed by a committee from the striking switchmen that the men have voted to return to work in the morning.

The orders of plants reside in different parts of them—sometimes in the roots, as in the iris and vitivert; the leaves in mist and thyme, the stem or wood in cedar and santal, the flower in the roses and violets, the seeds in the tosquain bean and caraway, the bark in cinnamon, etc.

MOTOR OFFICIALS TO BRING FAMILIES HERE

Jack Carter, secretary of the Bannan Rotary Motor company, who has been a live stock commissioner in Fort Worth for several years, and also an independent oil operator, will bring his family to Cisco shortly, he says.

J. O. Martin, who has been connected with E. V. Cole & company, of Breckenridge, Ranger and DeWidena, will be with the same motor concern, and will bring his family to Cisco within a week.

MEXICAN PRESIDENTIAL CANDIDATE FLEES THE CAPITOL IN FAST AUTO

MEXICO CITY, April 14.—Lieutenant Colonel Alvaro Obregon, candidate for the presidency of the republic, and General Benjamin Hill, his campaign manager, fled from the capitol yesterday noon in a powerful automobile, presumably in the direction of Iguala, state of Guerrero.

The movements of the followers of Obregon are not hampered by the authorities and Obregon himself was allowed to leave the capitol unhindered despite the fact that it was known to the authorities he was preparing to flee.

In 2000 Counties This Month

The Forces of the Church of Christ Will Gather To Face the Facts

IN 2000 counties in the United States the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that has never before a critical engagement; that has never held before entering a new contest. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admit For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the situation, fields, and of America county by county.

The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a Nation Wide Cooperative Campaign

Each of the thirty denominations has its own "Forward Movement" organized and officered. The Interchurch World Movement is the clearing house for all of these.

It is the agency which the churches have created to avoid duplication, to foster cooperation and make sure that every man and dollar render the utmost service possible.

The month of April will be devoted to making the facts of the survey known to America; in the week of April 25th-May 2nd, will come a united simultaneous financial campaign.

Whether You Are Inside the Church or Out To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the

INTERCHURCH WORLD MOVEMENT

40 WEST 14th STREET, NEW YORK CITY The publication of this advertisement is made possible through the cooperation of 30 denominations.

DECLARES GARRANZA SACRIFICED MEXICO TO PERSONAL GREED

NOGALES, Ariz., April 14.—In an address here this afternoon, General Salvador Alvarado, former governor of Yucatan, declared the chaotic condition of Mexico today has been brought about by the maladministration of President Carranza.

The president, declared General Alvarado, had neglected the interests of the nation to pursue his own personal pleasures and ambitions. Foreign nations, the speaker said, were intensely weary of the long standing unsettled conditions in Mexico.

General Alvarado is rated as worth \$20,000,000, gained from investments in Yucatan. He is expected to finance a large part of the revolution in Sonora.

GENERAL THINKS HE DID EXCELLENT JOB IN PARIS BRIG WORK

WASHINGTON, April 14.—Brigadier General Harts, former commandant of American troops in the Paris district, told the house investigating committee today, that General Pershing gave him full responsibility to cope with conditions arising from misdeeds of the American officers and enlisted men.

General Harts said he had not sought command of Paris but it was given him by General Pershing who declared that "officers and men in Paris were behaving in such a way as to give the American army a bad name."

"I think I improved conditions and did it well," the witness said.

ONE KILLED AND ONE WOUNDED IN RAID ON THURBER MOONSHINERS

STRAWN, Tex., April 14.—Zebina Davando was killed and Frank Pastorek seriously wounded in a pitched battle near Thurber today when federal prohibition officers working out of Ft. Worth ran to earth three nests of moonshiners and raided them.

The raid resulted in the destruction of 1600 gallons of mash, 400 gallons of completed moonshine whiskey and a copper still with a 45-gallon a day capacity.

One of the most curious wedding ceremonies in the world is that in vogue among a certain race of dwarfs inhabiting the Andaman Islands.

The bride and groom are seated on a platform and the bride is held in the arms of the groom. The bride is held in the arms of the groom.

BRECKWALKER THE NEWEST AND BEST RAILROAD TOWN IN THE GREAT WEST TEXAS OIL FIELDS

—on the line of the Wichita Falls, Ranger & Fort Worth Railroad that will soon be operating 70 miles of its line from Dublin north to Breckwalker, in Stephens County.

WILL BE OPENED MAY 10

Breckwalker is nine miles north of Frankell and about the same distance south of Breckenridge. It is in the very heart of the best part of the Stephens County oil fields, the amazingly productive and enduring petroleum district of West Texas.

Breckwalker was selected as the best place in all of Stephens County in which to establish a great oil field marketing and distributing center.

The town was named for Breckenridge Stephens Walker, one of the wealthiest and most successful men of Texas, a native of the vicinity whose colossal fortune was all made in the neighborhood of this new town.

Breckwalker offers one of the infrequent opportunities to invest or engage in business in the beginning of a town that is destined by all the circumstances to become a large city where values will increase a thousand fold in a few months.

The sale of lots will open Monday, May 10, and continue from day to day. Plats showing the lots and the price of each will be available on the townsite on the opening day of the sale.

Ten per cent of the purchase price of each lot is payable at the time of purchase, the remainder in nine equal monthly installments.
