

Round-Up

EASTLAND COUNTY, TEXAS, FRIDAY, JUNE 18, 1920.

LEERAY C. OF C. ELECTS FRASER ITS SECRETARY

NORMA LEERAY GUNTER OIL TOWN'S FIRST NATIVE-BORN CHILD.

200 CARS OF FREIGHT

C. & N. E. Passenger and Freight Service Is a Boon to Leeray.

LEERAY, Tex., June 17.—At the last regular meeting of Leeray Chamber of Commerce, Malcolm Fraser of El Paso was elected to take charge of the publicity work of the new organization. The meeting discussed publicly plans fully, determining to issue maps showing the considerable and daily increasing development in this field.

Fraser was recently state immigration commissioner of Arizona, and is a newspaper man of ten years active experience. He was successively secretary of the chamber of commerce at Prescott and Tucson, Arizona, and El Paso, Texas, having left that field in 1916 to act as private secretary for Governor Tom Campbell of Arizona.

Rigs are being erected daily in sight of Leeray, there having been an increase of 15 in the past week.

There are nearly 100 drilling operations within six miles of the town.

Building activity is also on the upward trend.

Three drug stores have been established in two weeks. A new fireproof garage was built in a week on Main street, which is now rivaling Commerce street for honors as the hub of business in Leeray.

May's freight record at Leeray station show over 200 straight car loads distributed from this center; and with the service inaugurated Monday, providing a train both ways daily on the Cisco & Northeastern, these figures promise to be exceeded in June.

Norma Leeray Gunter, daughter of Mr. and Mrs. C. Gunter, is the first child to be born here. She began life at 4:30 Sunday, weighing 10 pounds, and, as her name implies, is called after the town. The mother only arrived last Friday.

C. OF C. NOW HAS 10 ASSOCIATE DIRECTORS

PERSONNEL CONTAINS VARIED BUSINESSES; SCHOOL BONDS ENDORSED

Ten associate directors were elected at a meeting of the Chamber of Commerce held in the City Hall Tuesday evening.

They are: Dr. F. E. Clark, Benjamin Lowrey, Rev. J. D. Leslie, Frank Harrell, S. P. Farish, Alex Spears, Morris Simon, R. C. Campbell, A. J. Olson, J. E. McCord.

Last night's election inaugurates a new quota of associate directors. Formerly there were but nine. At the meeting which were chosen before the original quota was taken into consideration, and it was decided to let the list stand.

Dr. Clark is a practicing physician here and a member of the board of health.

Benjamin Lowrey is engaged in the oil business here and is active in that field.

Rev. Leslie is pastor of the First Presbyterian church, is a member of the law enforcement league, and interested in public matters.

Frank Harrell is connected with the Rockwell Brothers Lumber Company, a heavy property owner, and an enthusiastic baseball fan.

S. P. Farish is the general superintendent and manager of Humbletown. His achievements there are well known.

Alex Spears is cashier of the First Guaranty State Bank and has wide financial capabilities.

Morris Simon is manager of the Higginbotham Lumber Company and an active business man.

Morris Simon is one of Cisco's newest business men, having established a haberdashery here recently. He was formerly a mayor of a large town in the west.

R. C. Campbell is a member of the high school faculty and is also interested in the oil business here. He has taken great interest in civic affairs.

A. J. Olson is a local capitalist and a member of the school board. He is one of the chief sponsors of the movement toward erecting a new school building.

F. A. Blankenbecker, recently elected president of the Chamber of Commerce, presided at his first meeting last night. He has been absent as a delegate to the national republican convention.

The directors endorsed unanimously the project to issue bonds for a school building. Good roads were discussed. No action was taken toward selecting a permanent secretary.

Constable Is Sued by Local Contractor; Trunk Causes Action

George A. Bock, local contracting painter, has filed a complaint in the County Court against Constable C. S. Looney, by whom Bock claims he was unduly arrested on an alleged theft of a trunk a few weeks ago and imprisoned without being allowed to make bond, or to see a lawyer.

The trouble began, says J. L. Stevenson, Bock's lawyer, "when A. Lotief, Cisco merchant, gave the sign man a trunk in return for which Bock was to have done some painting work, but in the meantime while Bock was buying and arranging material for the work, Lotief decided not to allow him to go on with the painting, and demanded the return of the trunk which he had already given to Bock."

Lotief turned the case over to Looney and imprisonment without bond or permission of legal advice was forced on Bock.

Stevenson says the minimum penalty for false imprisonment of this kind is 60 day jail sentence and a \$200 fine.

"The case will probably come up for trial some time in August."

Soft Drink Stand Proprietor Is Arrested; Punch Board Is Cause

The proprietor of a cigar and soft drink stand was arrested this afternoon for having a punch board on his counter, according to the police.

He was charged with operating a gambling device.

No action has been taken in the case as yet.

TEXAS CLUB WOMEN GO TO THEIR CONVENTION

DALLAS, Texas, June 17.—A Texas delegation, about 50 strong, gathered from a number of cities of the state, left Dallas Monday for the "Golden Prairie Biennial" of the Federation of Women's Clubs, which opened in Des Moines, Iowa, yesterday.

The delegation was headed by Mrs. Florence C. Flores, president of the Texas Federation of Woman's Clubs. She said that 5000 delegates as representatives of two and a half million club women of the United States are expected to attend the convention, which will be held from June 16 to June 23.

Brownsville, Houston, Corpus Christi, Iveston, San Antonio, Terrell, Dallas and other Texas towns are represented by the state delegation.

TEXAS COMPANY TOMLINSON NO. 1 INCREASES FLOW

NOW MAKING 1200 BARRELS; DOWN 3180 FEET IN BLACK LIME.

BEST NATURAL WELL

Will Deepen in Hopes of Increasing Output to 1500 Barrels.

LEERAY, Tex., June 17.—The Texas Company's Tomlinson No. 1, which came in without a shot on last Sunday, at 3174 feet, in section 452, was drilled four feet into the black lime yesterday and has increased its flow 1200 barrels.

The well will be drilled still farther into the lime, it is rumored when a flow of 1500 barrels a day is expected.

This is the best natural well so far that has been brought in in the Leeray field.

The Tomlinson No. 1 is within a mile and a half of town, and is now down 3180 feet.

STOLE PIE, BUT PINCHED BEFORE HE COULD EAT IT

HUTCHINSON, Kan., June 17.—William Taylor was paroled from the state reformatory here by Governor Allen the other day.

The parole was requested by both the judge and county attorney who declared that Taylor had done nothing more "ferocious" than to steal a piece of pie.

They clinched their argument by showing that Taylor was arrested before he could eat it.

Taylor had been an inmate of the reformatory for six weeks.

1,362,872 IS THE NUMBER FRENCH SOLDIERS SLAIN

361,854 STILL UNACCOUNTED FOR, OFFICIAL STATE OF WAR MINISTRY TODAY STATES.

PARIS, June 17.—The final official statement of the ministry of war, made public today, placed the total number of French soldiers killed during the war at 1,362,872.

Of this number there are no definite details of the fate of 361,854 soldiers which are listed and remain unknown according to an article appearing today in the Daily Matin.

Federal Employees, Seventy Years of Age, Can Not Draw Pension

WASHINGTON, June 17.—Federal employees who have reached the retirement age of 70, although they have not given a minimum of 15 years service required under the retirement law, must be dropped from the rolls and can not draw pensions.

This was the ruling made today by Attorney General Palmer.

361,435 Automobile Licenses to Date Is Texas' Record

AUSTIN, Tex., June 17.—Late figures announced by the state highway department placed the number of automobiles registered in Texas at 361,435.

Since the beginning of the year 65,673 transfers of second-hand cars and trucks have been recorded, and 15,756 chauffeurs were licensed.

Motorcycle registration totaled 3410 and dealers' licenses 2847.

Total number of duplicate seals issued was 3897.

STARTING FIRE WITH OIL CAUSES DAUGHTER'S DEATH

JEFFERSON CITY, Iowa, June 17.—The use of kerosene to start a kitchen fire resulted in the serious injury of Mrs. Richard Tilley of this place and the death of her six-year-old daughter here last night.

The mother ran from the house and quenched the flames which enveloped her by leaping into a tank of water. Meanwhile the clothing of the child, who had stepped into the kitchen, became ignited and she was burned to death.

ENTIRE TOWN SPRAYED BY GREASY OIL SHOWER

OIL CITY, Kans., June 17.—Dry cleaners are doing a record-breaking business and housewives are wearing a "peevish" look as the result of an "oil shower" which struck this place when a full head of gas blew off Wednesday.

The "eruption," which lasted more than a half hour, sprayed the entire town with a greasy, oily liquid which, when it came among rugs, carpets and clothing,

SIXTY-NINE BILLS OF INDIC MADE BY LAND GR

The Eastland county grand jury, which has been past 12 days—June 1 to 12—made its final report to district court—88th district—at Eastland last Saturday.

275 Witnesses Examined.

The jury examined 275 witnesses and returned a dictum, called attention to the system under which are working and their method of conducting the affairs, and made numerous recommendations for the improvement of the county's business affairs.

Gambling on Baseball Games.

Baseball games and the supposed gambling on same received the attention of the jury which, in its report, said that "officers see to it that gambling on baseball be stopped."

Sunday Closing Matter.

Taking up the matter of Sunday closing, or the enforcement of the "blue sky" laws of Texas, the jury's report shows almost flagrant disregard in Eastland county of said statutes, and calls the county judge's attention to the matter of lack of enforcement of said laws in a way that this matter bids fair to receive closer application in the future.

Picture shows, cold drink stands, gasoline stations, and other places of the kind were recited in the report as being violators of this law.

The recommendations of the jury on the matter requests that the "officers whose duty it is to assess the fines for such violations assess the highest fines against such persons as the law will permit."

Prohibition Law Violation.

Asserting that the sheriff of Eastland county is in possession of large quantities of liquor that has been possessed at different intervals of the county's campaign against violation of the prohibition laws, and stating that such liquor as has been taken into custody is now stored in the confines of the county jail at Eastland, the jury recommends that said liquor be destroyed by the sheriff immediately, and says: "Should it be necessary to accomplish such destruction, that the district judge make an order to this effect, authorizing and instructing every particle of said liquor to be destroyed."

The apparently current practice of peace officers "paying off," or "fining parties who are violating our laws," was another which received consideration of the jury; and in their recommendations in this matter the jury suggests a plan of procedure such cases that should show improvement both in the same and the more closely harboring of the county's violators.

The report of the jury follows:

To Hon. E. A. Hill, Judge of the 88th District:

We, the grand jury for the May term of the honorable district court of Eastland county, Texas, beg leave to submit the following as our final report:

We have been in session 12 days, during which time we have examined 275 witnesses and have found 89 bills, 59 of which were felonies and 10 misdemeanors.

We have used all possible diligence in investigating violations of the laws in this county which have been brought to our attention.

We feel that too many of our citizens who claim to be law abiding, are not assisting our county and city officers in the enforcement of the laws as they should, in that violations of the law within their knowledge are not brought to the attention of the officers or reported to our attention.

We are of the opinion that our county and city officers, whose duty it is to look after and see to the enforcement of our laws, are not doing their whole duty, and we therefore recommend that officers see to it that gambling on baseball be stopped, or at least, some effort be made to prevent it, and if necessary have as many officers at each and every game to see that no gambling is going on.

We further recommend that our county and city officials be more diligent in stopping Sunday violations, such as Sunday moving picture shows, selling cold drinks and gasoline, these being the most prevalent.

And we most earnestly recommend that when any of these violations of the law are brought to the attention of any and all of our county and city officers that complaints be, by them, immediately filed against the one who violates the law, and if they continue to violate said law or laws, that officials whose duty it is to assess the fines for such violations assess the highest fines against such persons as the law will permit.

We find that the sheriff of this county has in his possession in the county jail a large quantity of intoxicating liquors which has heretofore been seized and captured, and we recommend that the sheriff immediately destroy every drop of such liquor now on hand, and if he should deem it necessary to accomplish such destruction, that the district judge make an order to this effect, authorizing and instructing every particle of such liquor to be destroyed.

We recommend further that all city police, city marshals, constables, deputy constables or any other officers who seize and take possession of intoxicating liquors, that they immediately deliver same to the sheriff of this county and that same be, upon receipt of same, destroyed by him.

We further recommend that all city and town peace officers, all deputy sheriffs, constables or deputy constables or in this county immediately upon seizure of any intoxicating liquors that they label the bottle, jug, keg, barrel or whatever a liquor is in, writing on same the name and from whom same was seized, or in whose possession same was found, and deliver the same to the sheriff of this county, taking from the

We desire to thank all the officers of the court for their services rendered in assisting the grand jury during the time we were in session.

Having investigated all matters which have been brought to our attention, we respectfully ask that we be discharged.

Respectfully submitted, C. L. GASRETT, Foreman.

Single Arm Replaces Gate

A single re-inforced wooden arm has been placed at the crossing of the T. & P. and Katy tracks in front of the Cisco union passenger station by the T. & P. authorities, instead of the big cumbersome gate that has been used heretofore as a signal to engineers that the track was closed or open.

The new contrivance is handling, easier appearing and less expensive," says J. McDade, T. & P. passenger agent.

Local Farmer Dies

James Wilkinson, farmer, died at the home of his parents four miles east of Cisco Sunday afternoon, according to Green & Gray, undertakers in charge.

Wilkinson was a single man 55 years old, and had lived in Eastland county for many years. The remains will be moved to Scranton, Texas, for burial. He was well known in this section of the county.

Bereavement Club Officers Meet.

The officers of the Bereavement Club of the Baptist church met Monday evening with the class teacher, A. I. Strick. Plans were discussed, looking toward the enlargement of the class by recruiting members and also methods of Bible study.

WAR CAT OUT; REAL PEACE IS VERY DISTANT

SIR HENRY WARNS BRITISHERS TO PREPARE BIGGEST OF SCRAPES.

TICKLISH TIME AHEAD

"Keep Fit and Ready for It; It Is Coming When You Must Fight Again."

By Floyd MacGriff, International News Service.

LONDON, June 17.—The war-cat is out of the bag again.

Sir Henry Wilson, field marshal in the British army and director general of operations at the British war office, says:

"We have been told that we went into the war to end war. We did not; we went into it to save our skins.

"We were told that after the recent war we were to have peace, but we have not got it. There are at present between 20 and 30 wars going on.

"We were told that the war was to end war, but it was not; it did not end and it could not."

Addressing the officers of the various British army services at the Union Jack Club, Field Marshal Wilson said:

"I hope you men, to whatever branch of the service you belong, will do all you can to keep fit and ready for the time that is coming. Except in August, 1914 our country and our empire have never wanted you more. We are living in ticklish and dangerous times, and our command on sea, on land and in the air is being challenged in various parts of the world.

"I hope you will carry this warning if you like it—away with you from a very old soldier who knows what he is talking about."

Sir Henry's statement, cool and calculated, has aroused considerable debate in the Westminster Gazette which it is a highly courageous declaration of truth which many British politicians have sought to hide.

A member of Parliament who sought further enlightenment on the question, being particularly concerned as to what power Britain would fight next—Russia or the United States—got no satisfaction.

To Enforce Ordinance Against Parking Near Fire Plugs in Cisco

Don't park your automobile near a fire plug.

This is the warning the fire department is promulgating broadcast.

Yesterday all the fire plugs on Main street were repainted red with a silver gilt top. A line of demarcation has also been placed on the curbing to indicate the prescribed limits of a fire plug, inside of which it is unlawful for an automobile to park. Where there is an alley the mark was set 20 feet from the plug and 10 feet on the other side of it.

The ordinance making it a misdemeanor to park within the specified limits of a fire plug will be strictly enforced, according to the authorities. The penalty for violation is \$5 and costs.

Returns From Tulla.

Mrs. E. Hart and children, who have been visiting Mrs. Hart's sister in Tulla, Texas, for the past week, returned to Cisco Thursday.

Mrs. Hart reports that Tulla and surrounding country have recently received good rains, and abundant crops in wheat, corn, and other farm products are looked for.

Committee of 45.

CHICAGO, June 17.—The committee of 45 announced today that it will pre-

pare a platform for the party which will be presented at the national convention in St. Louis, Mo., next August.

The pre-convention executive committee will meet in St. Louis, Mo., next August, and will be the first to meet since the party was organized in 1912.

The committee will be the first to meet since the party was organized in 1912.

THOMAS BLANTON TO BE IN CISCO SATURDAY NIGHT

Congressman Thomas L. Blanton of the 17th district will speak in the City Hall auditorium Saturday night, June 19, at 8 o'clock.

Blanton is on a six weeks speaking tour and will speak to a large crowd in Abilene Saturday evening.

Valued \$195 Trunk Causes Trouble

G. A. Bock, local contracting painter, was awarded a judgment of \$195 Thursday afternoon in the Justice Court against A. Lotief, Cisco merchant, for alleged failure on Lotief's part to live up to an agreement between the two.

Oscar Montgomery, attorney for Lotief, filed notice that the case would be appealed.

Bock, through his attorney, Jesse L. Stevenson, has also filed a complaint against Constable C. S. Looney in connection with the same case, alleging false imprisonment.

Possession of an empty trunk is the contention of the litigation.

Cisco's New Post Office Building Is About Completed

A new postoffice building on Main street opposite the Huey Motor company is rapidly nearing completion and ready for occupancy in the next few days, according to proprietors building.

Plans for the federal office have been ordered and nothing is being over in the expedient manner of finishing up work and other matters so a post office may be moved to its new home as soon as possible.

H. R. Officials Here. Shannon, general freight agent Texas & Pacific Railroad, and A. assistant general freight agent Cisco & Northeastern are in Cisco

at present.

The pre-convention executive committee will meet in St. Louis, Mo., next August, and will be the first to meet since the party was organized in 1912.

The committee will be the first to meet since the party was organized in 1912.

The committee will be the first to meet since the party was organized in 1912.

The committee will be the first to meet since the party was organized in 1912.

UP that they were unwilling to work together, or was it misjudgment on the part of the driver to attempt to harness two discordant animals to the same cart?

If the load had been put upon two wagons instead of one, and each of the oxen hitched to a separate wagon, it is probable that the destination would have been reached as quickly and with more satisfaction.

ON mising of animals called many a load and a teaming of men that has stagnated cities.

VS. SLAVERY. There is no question but that every resident of Cisco is agreed that everything possible should be done to push this city forward. The disagreement comes in the method of accomplishing this result.

If we can't have team work, let's at least have co-ordinated action.

If we can't attack this stupendous objective of civic endeavor en masse, the next best thing we can do is to organize into collaborating units and attack it from all sides and angles until it has been attained.

But is it useless to quibble over the division of glory and the spoils before any have been won.

BUSINESS SURVEY.

Why not a business survey of the city of Cisco?

The News is of the opinion that the town has grown so fast in the past two years that even our home people have not been able to keep in their minds anything like an accurate record of the new business and manufacturing enterprises that have located here.

Undoubtedly it would prove a great asset as an advertisement for Cisco to have compiled and published in book or pamphlet form a list of the large business enterprises doing business here, together with the investment of each.

The fact that the Humble Oil and Refining company has invested millions of dollars in the erection of a plant in Cisco is an asset that it would be well to let the people on the outside know about.

The fact that the Texas company has secured and will erect a modern and up-to-date plant in Cisco is likewise a tribute to the future of the city.

The fact that only in the last few days a cotton textile factory has decided to erect a mammoth mill in Cisco and will bring skilled labor from distant states, is something of which to be proud.

It would, without doubt, make interesting reading, not only to our home people, but to outsiders, as well, to learn the number of wholesale houses doing business in Cisco, together with the investment of each.

Of course, such survey would not be complete without a detailed report of the thousand of dollars spent in public improvement.

The News believes that the time has come when the city of Cisco should let the outside world know what it has accomplished.

The fact that business men of large means have invested millions of dollars in enterprises in this city will have its influence in inducing others to study the reasons for these investments.

Let's get together, gentlemen of the Chamber of Commerce and the Young Men's Business League, and plan concerted action to bring Cisco to the attention of outside capital and to the home-seeker as well.

The threatened break in the republican party only tends to prove whether a candidate for nomination has his own personal ambitions at heart or the welfare of his party. It's hard to see another man get the job you've fought for, much less help him get it.

But to look again at Dr. Baten's picture as an argument for team work—

Most of the time the driver is working harder than the driven, but—

Was it the fault of the oxen

GRAND JURY REPORT.

Since the dawn of civilization the great mass of the people have taken it for granted that they come within the category of what is known as "respectability" and have thought of crime and criminals as things and people relegated to a lower realm of existence.

But now comes the Eastland county grand jury, and in its final report to the presiding judge, charges the "law abiding" element of society with "not assisting our county and city officers in the enforcement of the law as they should, in that violations of the law within their knowledge are not brought to the attention of the officers or reported to the grand jury."

The grand jury could not have made a truer charge than this. People at large are inclined to think that the violations of the law they see are none of their business or else are not disposed to go to the personal expense, time and trouble to bring offenders to justice.

Some of the most respectable men who walk the streets of Eastland county's cities know where there are gambling games going on, even though they do not participate in them themselves. They know where there are lodging houses and hotels which are harboring women of ill repute. Yet these same men would prefer to stand about the street corners and talk about what the "police are permitting to go on in this city" than to go to the police, point out definite instances of law violation, and demand that immediate action be taken. By reporting such cases they could at least satisfy themselves that they were not accessories and accomplices of lawlessness.

The grand jury also charges the county and city officers are not doing their whole duty, and recommends that gambling on baseball be stopped. It likewise recommends that all liquor confiscated in raids be labeled and sent to the sheriff's office to be destroyed.

Both of these are very good recommendations, but whether they can ever be fully enforced is a question. Baseball bets are not made in the grand stand as a rule, and having the whole police force at a game would do little good.

There is no doubt that some provision should be made for the disposal of confiscated whiskey. It is certain that no good can come of vast supplies of liquor accumulating in the police stations, and it is still more certain that it is a constant source of temptation to all connected with it.

The grand jury further urges that city and county officials be more diligent in the enforcement of the Sunday laws. It is hard to realize how they could be any more diligent here.

That officers should bring violators of law before the proper authorities instead of personally accepting fines, is a good recommendation. While a policeman may not be dishonest, fines should be accounted for, and being permitted to plead guilty to a police officer is not good practice.

THE PRECIOUSNESS OF LIVES.

Now that Senator Harding has been nominated by the republican party to run for president of the United States, he ceases to be an ordinary mortal. We read in a news dispatch that he has returned to his desk in Washington, "guarded by policemen and followed by an automobile" filled with secret service men.

In other words, the life of Senator Harding has become sacred. It is the same life he had before he was nominated by the republican convention; the same life that

UND-UP

needed no watching or being ing before that time; the fact that almost any of us have been dominated by more intellect, pe

No reflection upon Senator Harding is intended by this observation. He is a worthy man, but it is strange to note how a force of circumstances can lift a mortal life out of the commonplace and make that life worth protection at the risk of other lives.

RANGER TIMES YEAR OLD.

The Ranger Times issued its first birthday anniversary edition Sunday. It was a 48-page paper, crowded with advertisements and photographs of people and buildings of the city to the cast of us.

On the whole the newspaper was not only a credit to the profession, but a credit to the city whose interests it is forwarding. It showed not only enterprise in newspaper work, but shows that the Ranger Times is getting sufficient business backing to enable it to exploit the city of Ranger.

There is no reason why the same exploitation can not be projected for Cisco in the same way. It just needs support and enough of it.

LET'S STRAIGHTEN THE LINE.

It's about time that Cisco snap out of this skirmish formation and get back into company front. There are too many people waving their arms and crying: "Follow me!"

Let's touch elbows, push onward together, and heed those whose shoulders are touching ours on either side, rather than him who races forward to lead, breaks the line, and becomes a stumbling block.

The sidewalks are looking pretty clean these mornings. Nobody seems to be sweeping any refuse out of his store onto the sidewalk, or from the sidewalk into the street. It was probably not so much the threat of arrest that has accomplished this as the thought: "Well, if they're going to make that man next door clean up once in a while, maybe it's worth while for me to start in cleaning up my walks again."

Cisco has a residential district of which it can well be proud. Attractive homes, beautiful shade trees and well kept lawns denote a home-loving people. Every effort should be put forth to make the business district compare favorably with the residential district. The broom, the flusher and a proper civic pride among the business men will accomplish the desired result.

Compare the depot grounds of Cisco with those of Abilene, and draw your own conclusions. Get busy about our depot, and let our traveling public get the impression that Cisco has "civic pride."—L. H. McCrea.

Rupture Expert Here

Seelye, Famous In This Specialty, Called to Abilene.

F. H. Seelye of Chicago and Philadelphia, the noted trust expert, will personally be at the Grace Hotel and will remain in Abilene Wednesday only, June 23rd. Mr. Seelye says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast improvement over all former methods—exemplifying instantaneous effects, immediately appreciable and without surgery, injections, medical treatment or prescriptions. Mr. Seelye has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section."

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seelye.

MOTHER SAVES TWO SONS FROM DROWNING

WAHPETON, N. D., June 15.—"Mother love" asserted itself here recently and prevented a double drowning. Seeing one son about to sink for the third and last time while another made a vain effort to rescue him, was too much for Mrs. T. E. Cole, the boy's mother. Plunging into the deep and swift waters of the Red River, she brought them both safely to shore.

PERSON

Hereford, who has also been visiting Mrs. Webster, Mrs. Kittrell and Miss Patton were honor guests at a large number of entertainments while here.

and Mrs. Henry Benham and Sarah Maud, were called to Cisco, oil, railroads, due to the serious roads, better streets, sanitation, pleasure parks, ball parks, coffee houses, refineries, water mains, telephone systems and everything else.

Sometimes, no doubt, our democratic freedom has been indulged to an extent not altogether helpful. The right to criticize is a democratic right, and it is well that it is so. And yet this right may sometimes be exercised to such an extent as to become hurtful to society. In fact, criticism may be pushed and pressed until it becomes destructive of good feeling and neighborly fellowship, resulting in hateful factions, and yet it is best that the community have such democratic rights. It would be a bad day in any community should such a day ever come, when freedom of speech should be denied to any citizen.

"I don't believe in a family fuss," said a quaint philosopher, "but I do believe in the liberty that makes a fuss possible."

Now, I don't believe in any kind of fuss, but I do believe in the fight of free speech and free press, exercised within the limits of peace and harmony. But freedom should never be exercised as to divide a town into hurtful factions. Such a use of freedom is always bad, and whoever willfully so uses it—rather abuses—his liberty as an enemy and not a friend to his community.

Well, what about Cisco? Cisco is all right, and her people are all right.

Moreover, the people of our town are just now ready to get down to business, and whoever willfully so uses it at each other, exercise a spirit of patience and good will, and get into harness, keep the tugs tight, "make up" with one another, and pull in the team for Cisco.

TEAMWORK COUNTS

When a mere child I learned to drive an oxen. My father had a yoke of fine, fat cherry-red steers.

As we drove them about the farm, I was oftentimes amused to see them pull against each other. Each would press his neck hard against the outside of the yoke and brace his feet inward, and tug as if he were trying to pull his fellow across the high middle of the road.

Upon a time I went with my father to make a long trip in the wagon drawn by these steers. It was thought that when we were well on our way, the boys, as we called them, as they began to grow weary in pulling the load, would cease pulling against each other.

But the more weary they became, the more contrary they grew, and so they threw all their weight against each other, and went right on.

The off side of each one's shoulder was soon skinned, festered and sore. The off side of their off-side hoofs wore out—wore to the quick—and still they pulled against each other.

Their feet and shoulders became so sore that the poor creatures were unable to travel.

So my father traded them to a farmer, by the way-side, for a smaller and weaker yoke of oxen—traded at a great sacrifice. By their pulling at cross purposes they broke up their good fellowship, and for a time rendered themselves utterly worthless in any team.

The weaker team for which we traded were splendid pullers. They were not nearly so capable as the others, but they did better work and gave satisfactory results.

If our old friend Aesop had told this story, he would have closed with his inevitable moral, which would have been something like this: "Behold, how bad a thing is discord, and how good a thing is concord."

"The City that Teamwork is Building" ought to live as to justify its slogan.

ATTENTION, CIVIC LEAGUE.

Compare the depot grounds of Cisco with those of Abilene, and draw your own conclusions. Get busy about our depot, and let our traveling public get the impression that Cisco has "civic pride."—L. H. McCrea.

WE HAVE STRUCK BED ROCK

Business in all communities is "quiet" now. There is relatively very little "turning over" of city property, or any other kind of property, at this time. Consequently prices have been greatly reduced in recent days, and "bed rock" has been reached. Many persons do not understand this.

PERSON

Don H. Biggo, Texas legislator, district, and editor Olden Advance, ternion in Cisco friends; and a brethren—The N.

N. L. Pulley of the United States on the western Honolulu and the will be awarded by the four years.

A farmer was offered, for about three acres of land, in the heart of the city of Dallas, the same batch of land worth many thousands of dollars. Now it is worth up into the hundreds of thousands of dollars.

He would have been glad to own the property when it was offered to him for his pony, but he expected to see the price "go lower."

In much more recent times Cisco sold at from \$15 to \$20 a piece. The same lots today are worth many hundreds, and some, thousands of dollars.

But in those days, there were persons who wanted to buy, but expected to see prices "go lower."

Others had faith in Cisco, bought largely, and have grown rich. On the other hand, some persons get hold of a piece of property, and just hold it—hold it—hold it! It may rise in value to 500 or 1000 per cent. And still they hold on, expecting to see the prices "go higher."

And prospective buyers go elsewhere, buy and settle down in other towns. It is good for Cisco that this latter class of persons represent a very small minority.

The great majority of our property owners are anxious to do their part toward building up the town, and they

COURT AND DISTRICT COURT CLOSED

JUDGES HILL AND RUST TO TAKE TWO MONTHS' VACATION; OPEN IN SEPTEMBER

Both the district and county court at Eastland have been closed until September, according to local attorneys who have just returned from the county seat.

At a meeting of the Eastland County Bar Association held Monday morning it was unanimously voted that Judge Hill be requested not to hold district court during the months of July and August.

Similar action was taken by Judge Rust of the county court at law when the same request was made to him by the Bar Association.

Elliott Is Indicted By Grand Jury; Is Out On \$1000 Bond

D. M. Elliott, deputy constable of Cisco, was arrested here yesterday on an indictment by the grand jury charging with malfeasance in office.

Local labor was in much need of a rest and vacation. He has been upon the bench every working day for the past year and has diligently executed his official functions during that time.

Elliott was placed under arrest Tuesday afternoon by deputies of the sheriff's office and was taken to Eastland. He was released a few hours later on his bond of \$1000.

"I asked them why I was under arrest," says Elliott, "but none of them at Eastland seemed to know. I furnished bond and left. That is all I know about it."

HARDING WILL HOLD HIS JOB IN THE SENATE

THERE IS NO POSSIBILITY OF MY RESIGNING FROM SENATE," HE TELLS HIS INQUIRERS

WASHINGTON, June 15.—Warren G. Harding, republican presidential nominee, does not intend to retire from the

United States senate until his present term of office expires on March 4, 1921.

"There is no possibility of my resigning from the senate," Harding declared today.

"Why should I? I intend, however, to withdraw my petition, filed last week in Columbus, Ohio, giving notice that I would be a candidate for re-election. That will be done this week," he stated.

Snake-Bitten Little five-year-old of William J. bitten by a week ago.

"Why should I? I intend, however, to withdraw my petition, filed last week in Columbus, Ohio, giving notice that I would be a candidate for re-election. That will be done this week," he stated.

Home From Vanderbilt. Guy Gillespie, son of Mrs. C. Gillespie, of 708 West Ninth street, has returned to his home in Cisco from Vanderbilt University, where he has been studying dentistry.

Blitch Is Selected Third Commissioner at Tuesday Session

J. B. Blitch has been selected by the City Commission to fill one of the vacancies in that body brought about recently by the resignation of Commissioners Claude Wild and John Sue.

The other new commissioner has not been named as yet. He is expected to be announced within the next few days, according to Mayor James Williamson.

Commissioner Blitch was a candidate in the April election for the position he has now been granted. In the election result he ranked in number of votes next to the last man elected.

The new commissioner has been a resident of this community for many years. Several years ago he was telegraph operator and train dispatcher of the Texas & Pacific at the Union Depot.

When the oil boom first struck Ranger he moved to that place. Fortune favored him in business deals. Two years ago he moved back to this city and bought property. He has been interested in civic projects and public affairs since.

According to Mayor Williamson the choice of the other commissioner is now wavering uncertainly among three men. He says that the commission has decided that one of these three shall be chosen but does not come to an agreement as yet as to which.

When a full quota of commissioners has been obtained it is probable that the commission will be reorganized. It is understood that one of the old commissioners will be given charge of the fire and police departments, from which position Wild resigned, and that another of the old commission will be given the street department, from which Sue withdrew as head.

The two new commissioners will then be put in charge of the work formerly carried on by the old commissioners.

Miss Minna Schick and Miss Ethel Elliot, instructors in the University of Minnesota plan to devote their summer vacation to a bicycle tour through France and Italy.

Infant Son Dies. The three-week-old infant son of Mr. and Mrs. S. A. Crawford died at the family residence, 306 West 11th street Monday evening, after several days illness.

Green and Gray, local undertakers, directed the funeral services which were held from the residence at 10 o'clock Tuesday morning.

Burial was in Cisco cemetery.

Will Install X-Ray Machine. A new large size Victor X-Ray machine has been ordered by the Brice-Payne Sanitarium at 1011 West 12th street, and will be installed in the hospital about June 23, according to authorities of the sanitarium.

The machine will be capable of taking pictures of any part of the body or head, Dr. Brice says.

Mrs. Murray Improving. Mrs. L. A. Murray, who gave birth to an 11 pound baby girl May 31, has been critically ill for the last two weeks at her home on the west side of town, but her condition is reported to have taken a change for the better today.

Mrs. Murray is the wife of L. A. Murray, a Cisco oil man.

Ford

THE UNIVERSAL CAR

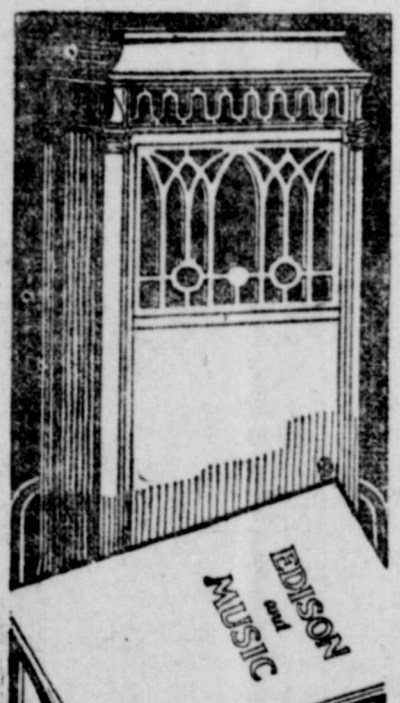

The Ford One Ton Truck may well be classed as an agricultural necessity, it fits into and fills so many wants on the farm. It is a reliable bearer of farm burdens, not only doing the work of several horses quicker and better than the horse, and does not "eat its head off" when not working. The aggressive farmer has only to consider the possibilities of the Ford truck and he is ready to buy one. We judge this to be so from the way farmers are buying them.

Let us have your order, and we will get it just as quick as we can.

Certain-tee Roofing Resists Fire

Certain-tee Roofing is fire retarding and spark proof; consequently your fire risk is greatly reduced when Certain-tee roofs your buildings.

Burning embers carried by the wind from nearby fires are always a menace to old fashioned, inflammable wood shingle roofs. Certain-tee forms a permanent protection against sparks and embers and all such carriers of fire.

Because of the great risk of general conflagrations in congested districts, and of the lack of safe fire protection in the outlying and rural districts you should get this Certain-tee protection on your buildings.

In addition to being fire resisting, Certain-tee is a most economical roof. It resists all forms of weather attack—rain, sleet, snow, etc. It is guaranteed by the manufacturer for 5, 10 or 15 years, according to the weight you select.

There is a scarcity of many type roofing products—you can always Certain-tee Smooth Surfaced Roofing, the most economical and serviceable roofing to be obtained.

See your dealer at once. He either has Certain-tee or can get it quickly from a nearby Certain-tee warehouse.

WE ARE GOING TO JURY STATE MO- CAUCUS SO ING INCIDE N'S SAKE Those Men Laughing at Delegate Shouted—250 Are Present.

3. Texas, June 14.—One of the... state convention here was... of the 250 women delegates... first big political meeting... name four women delegates... the national democratic... was the announced watch... of the caucus, but the hot sun... of politics brought the meeting to... D' boiling point.

Then at the end the four women were nam... and with 12 men were elected by the... state convention, with one-fourth vote... each, to cast the Texas four delegates... at-large votes as a unit at San Francis... co.

Thirty-six delegates, with one vote each, also were elected, making the state's 40 convention ballots.

The caucus was exciting from the very start.

"Madam chairman," exclaimed a delegate after the meeting began to get warm, "there are four motions before the house now and I desire to make another."

"Women, we are making fools of ourselves," said the chairwoman, pounding her umbrella on the floor. "The men will be completely disgusted with us."

Finally the women were able to read the prearranged list of names.

Immediately the women were on their feet. How they chose for delegate-at-large.

Then several addresses were delivered simultaneously in favor of the candidates. This was followed by a debate over one of the candidates.

"Madam," shouted a woman from the audience, "if we can't agree on all four delegates, let's agree on the first three, and attend to the other later."

"We will vote on her the moment she is named," the chairwoman said, "and I will add the name of another delegate, and we will vote on all three."

Voices cried: "Question! Question!" and a vote was taken on the "pro" question. The "yes" won and the apparently named woman, the delegate, said she knew what the question was.

"I might demand that all the candidates be named and line up to the front," she said.

The candidates lined up, but she began to speak at the front and the "pro" question was not taken.

Then came cries of "We delegate: what right have the four number?"

A small, motherly looking woman saved her umbrella until the attention of the men was attracted.

Above the din of voices she declared the women ought to be satisfied with what the men gave them. Only five per cent of the women have paid their poll tax, and we don't deserve more than four delegates.

Out of the confusion another voice said: "The men put the selection of the women on us because they knew what a big job it was."

The seats were no longer in use and the house was filled with "walking delegates," each of whom had seemingly discovered suddenly that she had a political opinion of her own.

A tall, gray-haired woman, with a heavy umbrella, towered above the crowd and declared the meeting "a disgrace."

"This unseemly action will cause the men to have a contempt for everything connected with women suffrage," she shouted.

She demanded that a chairman familiar with parliamentary law be elected "so the meeting can be controlled."

The chairwoman appeared relieved rather than offended at her threatened overthrow.

A vote was taken and she was elected.

At this point a delegate got the floor and, tears in her eyes, urged the women to be more "reasonable and Christianlike."

"We are making history in this first convention of Texas women and our actions at this caucus may give a black eye to suffrage in this state," she said.

This cooled the meeting temporarily, but the temperature soon rose again.

A close vote was taken on the candidates and the chair called for a division of the house. But the house refused to divide.

It seemed that nearly 200 delegates were engaged in conversation and unable to find a place to leave off.

Suddenly a delegate noticed several newspaper men standing in a doorway.

"For heaven's sake, hush! Look at those men laughing themselves to death!" she shouted.

"Please don't let the public know how this meeting has behaved," scores of voices shouted.

The confusion, they declared, was caused by the "radical majority."

After the four women delegates at-large had been chosen, a Dallas woman walked out the hall shaking her head.

"I believe after all that our mother's council is a quiet and orderly organization," she declared.

Cisco Police Officer Gives Pickpockets a Run for Their Money

"You haven't lost your purse, have you?" asked Police Officer Jim Malone of a middle aged man, who, with his wife, was disembarking from an east-bound train yesterday morning.

"No, I don't think so," said the stranger.

"You'd better look and see," responded Patrolman Malone.

The man reached into his pocket and found that his purse containing \$15 was gone.

"I thought that fellow was picking your pockets," said Officer Malone as he swung aboard the train. On the way to Eastland he searched the coaches and found a man whom he claims to have seen block the path of the victim while a second man with a coat over his arm picked his pocket.

The alleged pickpocket could not be found, however, and having no evidence against the other man, Officer Malone released him from custody when the train reached Eastland.

"That's the fourth set of light fingered operators I've run out of here in the past two weeks," says Patrolman Malone, "and with that close call I don't suppose they'll be back for a long time to come."

CARMICHAEL SAYS CISCO HAD REMARKABLE GROWTH

Ray Carmichael of Healdton, Okla., is in Cisco, spending a few days with boyhood friends and business acquaintances.

Carmichael was reared in the immediate vicinity of Cisco, and left here 11 years ago to make his home in Oklahoma.

With him on this visit are his wife and four children, they having come down in an auto.

Carmichael's business interest at Healdton and in the oil fields thereabout are large, and while in The News office Monday afternoon he related incidents of his activity in the Healdton field that were interesting if not amusing.

Indignated by the writer to express an opinion as to the growth of Cisco since his departure some 11 years ago, Carmichael said "the growth of Cisco since my leaving here has been remarkable; and the teamwork of Cisco at this time is commendable and is having a good effect on outsiders."

"Cisco is on the line of practically every oil and business man in my territory," he said. "They always mention the possibilities of Cisco, some way or another. The consensus of opinion among the people away from Cisco seems to be that Cisco is the finest city in this oil belt, and the teamwork that you Cisconians are doing will further augment the sentiment that has gone abroad relative to Cisco's standing."

Healdton is but two years old," Carmichael said, "and we have a fine bunch of progressive town builders. In these two years we have built Healdton in to a population of some 5000, and the future is even brighter than the past for us."

"Cisco has the spirit that counts; her citizenship being fortified by that progressiveness and spirit of 'do it now,' which has already put her on the lips of everybody in my country, and that spirit will put Cisco in the front ranks without doubt."

PAINTERS' UNION GIVES BARBECUE AT LAKE BERNIE

Lake Bernie, Cisco's popular water resort, was the scene Sunday of a barbecue, given by members of the Painters' Union Local No. 937.

The committee having the barbecue in charge was composed of Messrs. Flowers, Kelly, Wilson, Rupp and others.

That the best of beef and pork constituted the major part of the edibles, would be cooked and ready for the picnickers when they arrived at the feast, several of the above committee betook themselves to the lake Saturday evening, carrying with them in trucks a sufficient quantity of beef and pork to feed the party of 58 odd who were in attendance.

Besides the meat, which was deliciously cooked by the painters themselves, the rural barbecue menu of potato salad, pickles, coffee, bread, cigars and bonbons were provided in plentiful quantities.

A local photographer was a guest of the painters and took a number of pictures of scenes and incidents thereto.

Quite a large number of those in attendance were painters from Humboldt, where they have been busy for many months on the numerous improvements being consummated in that excellent addition to Cisco.

Many of the painters were accompanied to the barbecue by their wives and children, and J. T. Foreman says that the affair as a whole was so complete and well ordered that the visiting or journeyman painters expressed much satisfaction in the treat that was afforded them by their brother Cisco painters.

PROHIBITION LAW NULLIFIED IN CONTENTION

AUSTIN, Tex., June 12.—That the Texas prohibition law is nullified on the grounds that it is superseded by the Volstead act, is the contention made in application for habeas corpus filed in the court of criminal appeals today by J. W. Gimore of Collin county. The case was set for October 6.

The belief in India is that if the famous Koh-i-noor diamond is worn by a man some disaster will befall him. But if a woman wears it fortune will smile on her.

New Catholic Church Ready

The new Catholic church at the corner of Twelfth street and Avenue F is nearing completion, and will be ready to hold services by Sunday, June 20, according to James Collins, who has spent much time and energy in having the new church erected for the Catholic people of Cisco.

Mass will be held at 1 o'clock, and the Reverend Father W. M. Gurkin of Ranger will officiate.

SCHOOL BOARD MEMBERS ASK \$250,000 BONDS

PETITION BEING CIRCULATED TODAY HAS NECESSARY NAMES.

40 YEARS' TIME TO PAY

\$13,750 Yearly Is Total Sum It Will Cost Cisco for Adequate Building.

Cisco will have a magnificent new school building, costing \$250,000, if a petition addressed to the board of trustees of the Cisco independent school district and signed by the principal advocates is acted upon by that body.

The petition asks that an election be called to determine whether or not the district shall issue bonds to the amount of \$250,000 for the erection of a school building from materials other than wood and stone, the principal advocates upon which it is to stand.

Forty years is the time stipulated for the maturing of the bonds, if issued.

According to Professor J. J. Godbey, superintendent of schools here, and sponsor of the movement to provide adequate accommodations for the children of this district, the interest accruing on these bonds would bring the total amount to be paid back each year to \$13,750. With the issuing of \$250,000 in bonds the total indebtedness of this district would be \$314,000.

A. J. Olson, a member of the school trustees, is one of the principal advocates of the project and is working diligently to put it across.

The petition for an election, which required the signatures of but 20 tax payers, is as follows:

Petition for Bond Election.

To the Board of Trustees of the Cisco Independent School District:

"We the undersigned taxpaying voters of said Cisco independent school district, hereby petition your honorable body to order an election, as provided in Article 2387 of sec. R. S., 1911, to determine whether or not bonds of said district shall be issued to the amount of \$250,000, payable 40 years from their date, and bearing interest at the rate of five per cent per annum for the purpose of constructing and equipping a public free school building of other than wood, stone and brick, and purchasing a site therefor, within said district, and if there shall be annually levied and collected on all the taxable property in said district for the current year and annually thereafter while said bonds, or any of them, are outstanding, a tax sufficient to pay the current interest on said bonds and provide sinking fund sufficient to pay the principal at maturity."

Organize Boreau Club

The young men's class of the Baptist church used its regular lesson hour Sunday morning in organizing the Boreau Club.

A. I. Skiles was unanimously chosen teacher and the following officers were elected:

J. W. Cole, president.
Don Evans, first vice president.
Minter Womack, second vice president.
John Ramsey, third vice president.
J. O. Skiles, secretary.
E. M. Clayton, class reporter.

The pastor, Dr. C. G. Howard, was chairman of the meeting. He gave the club information along various lines of work and helped it to outline its plans and policies for the future.

The first step taken by the new organization is to invite all young men of this city to become members of the men's class of the Baptist church and members of the club.

The sparrow can fly for a short distance at the rate of about eighty miles an hour.

The notes used by the Bank of Eng, land cost exactly one cent each.

Indigestion Makes You Feel Old

PEPSINOL Keeps You Young by Keeping You Healthy

You feel old at 30, if your digestive system is weak and deranged. You feel young at 60, if you let Pepsinol keep your digestive organs strong and healthy. By helping your stomach do its work, Pepsinol creates rich, abundant, strength-building blood and by stimulating thorough digestion prevents the absorption of poisonous substances which undermine your whole system.

Proposed \$5,000,000 School Appropriation 3 Per Cent on Millions

AUSTIN, Tex., June 15.—Teachers' salaries can be raised about three per cent for each million dollars appropriated for school relief," said Annie Webb Blanton, state superintendent of public instruction, referring to the five million dollar school relief appropriation recommended by Governor Hobby.

"If the entire amount should be voted, it will give an average raise of salaries slightly more than 15 per cent. But the appropriation is not yet made. Those who favor this relief for the schools, which is imperative if they are to be saved from further deterioration, should make their desires known to legislature at the very earliest moment possible."

Local Constable Ill.

Constable C. S. Looney, who has been in bed for the past 11 days with a swollen foot, is now up and about town on a crutch.

Constable Looney says doctors are unable to determine what the cause of his ailment could have been, but that his foot has been paining him so badly he could not sleep at night. He is better, now, however, and hopes soon to be able to resume his duties as officer of the peace.

On Inspection Trip

Wm. G. Evers, C. J. Dalziel and J. G. Allan, representatives of C. H. Drury of Chicago, are on an inspection trip through the Deadmons, Ranger and Eastland oil fields.

Goodyear Advantages in Tires for the Smaller Cars

Just as Goodyear is successful in building extreme value into the Goodyear Tires that go on the highest-priced motor cars, so is Goodyear successful in supplying unusual worth in Goodyear Tires for smaller cars.

Into the making of Goodyear Tires in the 30x3, 30x3½, and 31x4-inch sizes have gone the full advantages of Goodyear experience, skill and modern facilities.

The results of this unusual endeavor are easily available to every owner of a Ford, Chevrolet, Dort, Maxwell, or any other car requiring the sizes mentioned.

Go to the nearest Goodyear Service Station Dealer's place of business for these tires, and Goodyear Heavy Tourist Tubes. He carries them in stock.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in outer proof bag \$4.50
