

DESCRIPTION OF GREAT DAM TO BE CONSTRUCTED FOR CISCO AND COMPARISON WITH OTHER DAMS

Timely and Exhaustive Article Showing How This City Will Lead the World in the Building of a Dam of This Type and Weight — Many Advantages to Be Given the City By This Big Enterprise — Has Been Financed and Contractors Equipment on the Way Here.

H. M. Nabstedt of Kansas City has kindly written for the News a complete description of the great dam to be constructed for the Cisco water plant. By the comparisons he makes with other great dams in different parts of the world it will be seen that while there are some longer dams built on the plans on which this will be constructed, and one higher, considering both the length and height, this will be the largest yet constructed.

Such has been said regarding the new dam which Cisco has decided to construct across Candy Creek a few miles from the city. The papers have, at various times, had articles which have described the grandeur of the new lake and the wonderful setting which this project is to have.

The key to the whole situation is the dam. The engineers thought long and hard before concluding what type of structure should be used to hold back the tremendous body of water. Not only was the engineering feature taken into consideration as it was necessary to consider the ultimate cost of the structure. Accordingly the engineers worked out four distinctly different dam designs from which to choose and for which contractors were asked to submit bids.

It is not generally appreciated that there are various types of dams and that each dam site is peculiarly adapted to some one of the various types. In this case the Solid Gravity type dam was considered, but was found to cost \$1,154,000. This large cost is due to very large excavation costs and enormous amount of concrete to give the structure sufficient strength to withstand the pressure of a large body of water behind it.

The dam depends entirely on the distribution of that weight in place. The usual type of dam in the Earth Fill type is conservative. The foundation in this case was conservative. The foundation in this case was conservative. The foundation in this case was conservative.

Hence, the Cisco site is peculiarly adapted to the use of this reinforced concrete dam which is generally quoted in the modern technical books and engineering papers to have a much larger factor of safety than any other type of dam. It cannot slide out or turn over, its foundation loading in a minimum and the distribution of this pressure is uniform and controllable regardless of amount of water stored, it is independent of any upward water pressure under the dam. It can be economically adapted to any foundation conditions. It is free from the erosive action of waves of lake and it is the most economical and time for construction is estimated in the time asked for by a successful contractor and his bid beating the dam.

Cisco dam is not the highest. Concrete dam of the type there being one at which is 150 feet high, the highest high Ambursen dam and is rivalled by the dam in Porto Rico which is 1700 feet high and 1700 feet long. Its foundation is interesting. The foundation in this case was conservative. The foundation in this case was conservative.

ELECTION RETURNS FOR ENTIRE COUNTY EXCEPTION OF OKRA

The vote of the primary election, held in this county last Saturday, has been made to County Chairman Fisk. It is complete, with the exception of the box in Okra precinct. This will make no material change in the result herein given. The totals for the county are as follows:

- For the amendment, 1,174; against the amendment, 809. For Governor—Thomason, 852; Neff, 1,789; Bailey, 1,433; Looney, 415. For Lieutenant Governor—Humphrey 1,145; Davidson, 891; McNealus, 494; Johnson, 944; Culp, 573. For Attorney General—Cureton, 4,124. For State Treasurer—Baker, 4,437. For Court of Criminal Appeals—Davidson, 3,130; Martin, 963. For Supreme Court—Key, 1,396; Pierson, 1,275; Hawkins, 1,348. For Commissioner of Agriculture—Dixon, 2,131; Terrell, 1,921. For Railroad Commissioner—Mayfield, 2,755; Andrews, 1,365. For Superintendent of Public Instruction—Blanton, 4,761. For Land Commissioner—Robinson, 4,358. For Comptroller of Public Accounts—Goodlett, 2,245; Justice, 1,374; Wiggins, 1,323. For Associate Justice Court of Appeals—Buck, 4,359. For Congress (17th district)—Grisham, 2,223; Blanton, 2,667. For State Senator (28th district)—Smith, 1,134; Russell, 3,111. For Representative (108th district)—Burkett, 4,322. For District Judge (83rd district)—Hill 2,453; Bean, 2,015. For District Judge (91st district)—Davenport, 4,446. For County Judge (commissioners court)—Starnes, 4,413. For County Judge-at-Law—Trumble, 1,565; Hubbard, 1,033; Jones, 1,362. For County Attorney—Hazel, 1,720; Pendleton, 654; Pinnix, 322; Dunnam, 1,739. For District Clerk—Nunnally, 2,614; Reed, 1,769. For County Clerk—Jones, 2,101; Bender, 2,316. For Tax Collector—Parker, 2,104; Hart, 2,464. For Tax Assessor—Lyeria, 2,102; Collins, 2,335. For County School Superintendent—Howard, 4,415. For County Treasurer—Pritchard, 4,451. For Sheriff—Lawrence, 1,075; Barton, 653; Nolley, 1,493; Moore, 516; Hittson, 655. For Surveyor—Logan, 4,345. For County Chairman—Fisk, 4,416. For County Commissioner (precinct No. 4)—Eppier, 397; McClelland, 54; Stubbfield, 422; Mann, 158. Justice of Peace (precinct No. 6)—Baten, 583; Taylor, 393. Constable (precinct No. 6)—Phillips, 80; Looney, 331; Ray, 473; Pennington, 123.

DYNAMITE IS FOUND STORED IN THE CITY, IS ORDERED REMOVED

Fire Marshal Smith this morning found three pounds of dynamite in a store room in the rear of a store on D Avenue. He at once notified the proprietor to remove it to a point outside the city limits and also notified that his insurance was automatically cancelled whenever he kept dynamite on his premises. The dynamite was removed at once. The state law prohibits keeping dynamite inside any town or city. Section 2 of the statute reads, as follows: "It shall be unlawful to store or keep any dynamite, nitroglycerine, giant powder, or other explosive, other than gunpowder, in any store room, building or on any premises in said city." The penalty for the violation of this law is a fine of \$25 and each day the same shall remain so stored is to be considered a separate offense.

WANT SIX MILLIONS BECAUSE MEN FAIL TO DELIVER THE OIL

HOUSTON, July 29.—Suit for over a million dollars damages was filed in the district court by the Brookman company against Frank Nelson P. Shelton, both of El Paso. The charges: failure to carry contract to sell 10,000 barrels of crude oil a day for five years at \$1.25 per barrel. Shelton's defense is that the contract was void because of his insanity at the time it was made. The suit was filed by the Brookman company, which is a subsidiary of the El Paso Oil Company. The suit is the result of a long and bitter struggle between the two parties over the oil contract. The Brookman company claims that Shelton failed to deliver the oil as promised, and is now seeking damages of over a million dollars. Shelton's defense is that the contract was void because of his insanity at the time it was made. The suit was filed by the Brookman company, which is a subsidiary of the El Paso Oil Company. The suit is the result of a long and bitter struggle between the two parties over the oil contract.

PEOPLE DEMANDING MONEY'S WORTH AND PURCHASING LESS

Are Insisting On Having Goods Both Quantity and Quality and Not at Profiteering Prices — There is Noted Great Increase in Buying of Liberty Bonds.

Associated Press. ST. LOUIS, July 27.—Extravagant buying is rapidly subsiding, despite the fact that the purchasing power of the public has not diminished, says the monthly report of the Eighth Federal Reserve district. Advices from department stores indicate that customers are demanding the worth of their money in both quantity and quality. Statements of bond houses show the public is buying Liberty bonds with eagerness. A well defined slowing down of the automobile industry is further indicative of a general trend toward saving, the report states. Prices of certain commodities show a sharp decline, but the reduction will hardly be felt in the bills covering the cost of living. There is no change in the forecast to show any industry. The prices of clothing for fall delivery are steady to higher.

THREE NEW WELLS ON THE TOLLE LEASE AT THE DOOR OF LEERAY

Special to the News. LEERAY, July 25.—Reporting three completions yesterday in rapid fire order, Leeray, the new township town located northeast of Cisco, figured prominently in the report for the North Texas oil fields for the week just closed. Increase in production for the three new wells totals 5,600 barrels daily, according to the gauge. The trio of new wells which has added impetus to building activity in Leeray is located on the Tolle lease and in the near vicinity, approximately one and one-half miles due east of Leeray. The first well reported in is the S. E. Tolle No. 2 of the Oriental Oil company, with headquarters in Dallas, formerly the Ajax Oil company. After a period of nearly three hours, following the ignition of a 300-quart shot of nitro in the hole as 3,192 feet, the well began flowing with a rush of liquid gold that flowed one hundred feet over the crown block. Conservative reports point to the well as being good for over 1,000 barrels settled production. At practically the same time as the Oriental's completion, the Southwestern Oil Development company, with field headquarters in Eastland, shot their Tolle No. 1 into production at about the same depth for 2,500 barrels production. These two wells are offsets. The Parker Greene No. 1, adjoining the Southwestern's well, was reported in at 600 barrels.

Leeray is rapidly becoming a man's size town with brick, cement sidewalks and numerous frame buildings under way and completed. Production for the most part is found in the Caldo lime which has proven an unusual long-lived producer. With a period of life as a town less than six months, Leeray is booming because of more than the average oil town prospects. The number of rigs surrounding the town totals better than one hundred, with a large number of strings of tools moving in and new derricks appearing daily on the horizon. The two financial institutions of Leeray, the Leeray Guaranty State Bank and the F. & M. bank, are rapidly becoming two of the strongest banks in the Stephens and Eastland county oil belt. Operators and business are moving in from every section of Texas and other states. Membership in the chamber of commerce is increasing in ratio with the population. Already the new postoffice site is taxed to capacity. From all signs, Leeray is going to be the best and most wide awake of the newer oil towns in the North Texas oil district.

It's the Latest. PANA, Ill., July 29.—Pearl Carroll, blacksmith shop proprietor, believes in cleanliness. He has just had installed an up-to-date bathroom, with shower and tub, in his shop for the convenience of himself and help. There is hot and cold water, looking glass, towels and all the accoutrements of a first-class bath parlor.

McAdoo Will Speak. NEW YORK, July 29.—Wm. G. McAdoo announced that he has consented to deliver speeches in behalf of Governor Cox during what he said would be a vigorous and aggressive campaign. He warned that the people would not stand for a "barbed" president. He urged the necessity of pitiless publicity on campaign issues during the forthcoming campaign.

Shot Son for Burglar. MARION, Ill., July 29.—Mistaking his three-year-old son Lester for a burglar, James Finney shot and killed the child. The boy had arisen to get a drink and the father, hearing a noise, shot into the darkness. A coroner's jury returned a verdict of accidental killing.

COMPANY WILL SINK OIL WELL IN CISCO'S UNTRIED TERRITORY

It is announced that local men are interested in a project to drill an oil well here at Cisco, and that work will likely begin on the well at once and be rushed to completion.

While there is oil all around here, Cisco is in the center of several miles of territory that has not been tested for oil, and yet the best oil men seem to think that there is no better oil land than this particular territory. The company can easily drill the well without outside money, yet, as it is purely a wild-cat well, they will give Ciscoans a chance to take part in this enterprise if they want to, with the distinct agreement that whatever money they invest in it, will be spent on labor and material that will go into this well. Two high class, expert drillers will be in charge of the work, and having an interest in the well, they will get the oil if it is here. Details of the plans are not ready for publication at the present.

MUCH DEVELOPMENT AT LEERAY DURING THE COMING MONTH

By J. B. Hiatt. LEERAY, July 27.—Among the many wells in the Leeray district nearing critical depths and which will soon be watched with close interest are the Ajax's Good No. 3 and the Nussbaum No. 1 of the Mid-Kansas company. Production in the Good may cause great interest since it is located within a few rods of the depot of the Cisco & Northwestern railroad, and may be classified as a townsite well, in reference to its close proximity to Leeray. The Nussbaum test is an offset to the Baggett well of the Church interests, of Fort Worth, which acquired acreage in the Baggett tract from Greenwood-Tyrell company. Baggett No. 1, located about three-quarters of a mile north of the townsite of Leeray, was the first producer in the district, coming in last January at 1,700 barrels. Production at present is about 1,000 barrels. This well and forty acres was sold to the Church interests for the reported price of \$500,000.

Next month promises a large amount of development in the Leeray district. More than a score of wells will reach the pay and many of the rigs now awaiting tools will be the scene of action. Receipts of the Cisco Postoffice for the fiscal year ending June 30, each year were as follows: 1916, \$8,422.14; 1917, \$9,077.11; 1918, \$11,790.17; 1919, \$25,981.06; 1920, \$28,646.53. Number of pieces registered last year, 15,854; number of pieces insured last year, 3,665; number of pieces insured this year, 10,311; number of money orders last year, 19,677; number of money orders this year, 21,952; number of money orders paid last year, 2,747; number of money orders paid this year, 3,824. Postmaster R. A. St. John, referring to this statement and of the new office, said: "This office will be in the first class next year. The receipts for these last three quarters have been first class and better. "We will move into new quarters in a few days where we will have a much better chance to give the people service. We have seven hundred new boxes, most of them already assigned. Soon all will be taken, first come first served. If you wait until all are assigned, blame yourself. Please, in your correspondence, give the number of your new box and ask that your mail be so addressed. This will help us and be greatly to your advantage for it will require some time to familiarize ourselves with all these new boxes. If your service is not polite and efficient report your troubles to the postmaster. Our force is trying hard to give efficient service."

SPLENDID SHOWING CISCO POSTOFFICE NEAR FIRST CLASS

Receipts of the Cisco Postoffice for the fiscal year ending June 30, each year were as follows: 1916, \$8,422.14; 1917, \$9,077.11; 1918, \$11,790.17; 1919, \$25,981.06; 1920, \$28,646.53. CLOTHING FOR FALL TRADE TO BE LOWER RETAILERS DECLARE

Associated Press. CHICAGO, July 29.—Prices of clothing for fall will be lower, it was said at the sixth business buyers' conference here, which is attended by retail merchants from twenty-two states. They said, however, that a short crop and increased demand for cotton products since the war will hold prices for that class of goods at the level for another season at least.

FIRE DESTROYS HUEY BUILDING, THE TELEPHONE EXCHANGE AND CAUSES LOSS TO OTHER TE

Origin of Fire Was in Restaurant and Believed to Have Been Caused From Gas Escaping From Under Coffee Urn — Firemen and Citizens Prevented Spread of Fire — Losses Are Heavy With Partial Insurance—Toll Lines Have Been Established—City Phones Ready By Aug. 15.

A disastrous fire occurred last night when a two-story brick building, owned by E. S. Huey, at the corner of Fifth street and D avenue was virtually destroyed, part of the walls being about all remaining. The fire is believed to have started in the Home Sweet Home restaurant, owned by Blount & Shaffer, and evidently had made great headway before it was discovered. The telephone exchange was in the second story of the building, but a phone alarm was not turned in, a negro being sent to the fire station to notify the firemen. They turned out promptly and the fire whistle brought out the volunteers, but by the time the news of the fire reached the mayor the phones were out and it was necessary to send a man in a car to the water plant to order the pumps started and the alarm given. The fire burned rapidly and the firemen had some difficulty in reaching it. Fred Michaels crossed the street on a telephone cable, carrying a line of hose in an effort to reach the roof. Other firemen got a line over on the north side of the building and there was no discount on the good work done, but it was impossible to save the building. The roof caved in over the restaurant, falling to the floor. Everything in that room is a total loss. The restaurant had been closed for the night and there was no one on the premises. The American National bank, which had occupied the corner room since the organization of that institution, had moved into its new building Saturday. They had gotten out everything but some partitions of little value, but had not taken down the large electric sign on top of the building and this was burned. The Sweet Home cafe, also on the lower floor, of which Blount and Shaffer were proprietors, suffered a total loss amounting to \$5,000 on fixtures and \$1,000 in stock. The stock was covered by insurance, but they had only \$2,500 on the fixtures. A portion of the telephone exchange, which was virtually destroyed and every home in the city put out of commission. Early this morning the connection was made with the toll lines and these are being served. The company was soon to move its exchange to a new building just being completed on Seventh street, opposite the city hall. This work will be speeded up and the exchange completed as soon as possible. The Collins photograph gallery, which had just moved to the second floor of the building Saturday and the equipment had not been unpacked and arranged. It is a total loss and Mr. Collins has no insurance. In the rear of the banking room Lee Owen had his real estate and insurance office. Most of his property was removed and he sustained a loss of only about \$100. The law library of Judge McCrea, valued at more than \$15,000, was stored in the rear of the banking room and was badly damaged by water. The amount of the loss has not been determined. It is partially covered by insurance. In the John Hartman estate building, adjoining the Huey building on the north, was the store of the Nunn Electric company. This company carries electrical goods, fixtures and musical instruments. They removed the large part of their stock, but some of it is in a damaged condition. The loss is estimated at \$2,500, covered by insurance. Mr. Huey fixed the loss on his building at \$40,000 and said it was partially covered by insurance. Fire Marshal Smith placed it at more and said he was satisfied it would reach \$50,000. The fire proved a hard one to fight and Fire Marshal Smith, who took an active part in the work, said the building was one of the first in the city to be piped for natural gas; that at the time that was done there was no such thing as a cut-off at the ground, but was at the meter on the second floor and it was impossible to get to it to cut off the gas and as soon as the meter melted out there was a steady flow of gas to feed the flames. And in addition to this, he said, there were a number of ventilator pipes running from the floor to the top of the building and these operated as flues to increase the flames. He said the firemen and citizens did some splendid work in fighting the fire and that the direction of the wind prevented a spread to what might have been a most disastrous conflagration. He called attention to the two Lee brothers and Grimsinger, policemen, Judge Wright, city attorney, and John L. Kelly as among those on the roof with the hose who did excellent work. By the way, Mr. Kelly had a new straw hat costing \$5.00, and which he had worn but one day. When he went on the roof he handed it to a man to hold and he would like to have it returned.

The Hartman hotel, kept by Fire Marshal Smith, became filled with smoke. He ran to the fire, leaving his son in charge. The young man and an officer went upstairs to get out a man and woman, both blind, and some small children and while they were upstairs some persons raided the lower floor of the hotel, going into Mr. Smith's room and taking from a drawer \$20 in bills and some small change. Then they went into a store room, opened a number of suit cases, taking what clothing they wanted and then going away with two suit cases. The case were found this forenoon by Chief Hittson, along the railroad track. This afternoon Fire Marshal Smith said he believed he had discovered the origin of the fire. He said he talked with two men who were among those first to arrive at the fire and enter the restaurant. There had been a report of a gas explosion and he found from talking with these men that the hose couplings under the coffee urn had been dislocated or burst and that gas escaping and gathering in the room had exploded. When the fire was first discovered, or when men reached there, the entire ceiling of the restaurant was ablaze. This led to the belief that it might have been caused by defective wiring, but Fire Marshal Smith, when the recent survey of the city was made by him and a deputy state fire marshal, they found all the wiring in the building complied with the regulations. Manager Pettit of the Telephone Exchange said he believed he had discovered the origin of the fire. He said he talked with two men who were among those first to arrive at the fire and enter the restaurant. There had been a report of a gas explosion and he found from talking with these men that the hose couplings under the coffee urn had been dislocated or burst and that gas escaping and gathering in the room had exploded. He said he talked with two men who were among those first to arrive at the fire and enter the restaurant. There had been a report of a gas explosion and he found from talking with these men that the hose couplings under the coffee urn had been dislocated or burst and that gas escaping and gathering in the room had exploded. When the fire was first discovered, or when men reached there, the entire ceiling of the restaurant was ablaze. This led to the belief that it might have been caused by defective wiring, but Fire Marshal Smith, when the recent survey of the city was made by him and a deputy state fire marshal, they found all the wiring in the building complied with the regulations. Manager Pettit of the Telephone Exchange said he believed he had discovered the origin of the fire. He said he talked with two men who were among those first to arrive at the fire and enter the restaurant. There had been a report of a gas explosion and he found from talking with these men that the hose couplings under the coffee urn had been dislocated or burst and that gas escaping and gathering in the room had exploded. CISCO ROUND-UP
The Cisco Printing & Publishing Company, Inc.
Published Each Friday
Entered at the Post Office at Cisco, Tex. as second class matter.

PRICE OF BREAD.
Bakers of Ft. Worth give notice that immediately the price of a loaf of bread in that city would be advanced from 12 to 14 cents.

It is true that the bakers explain that last May they were compelled to advance the wages of their employees. Also that the price of wax paper and lard have increased.

The Ft. Worth bakers, in their explanation, also refer to the high price of flour. Again reference to the market reports will show that wheat declined Saturday in Chicago, 8 cents and that on yesterday there was an additional drop of from 11 to 14 cents.

The Ft. Worth paper telling of the notice given by the bakers says the price of bread will be advanced, since the price of flour is now \$6.80 to \$7, whereas a short time ago it was \$8.

With this decline in the price of flour, the price of bread will be advanced, since the price of flour is now \$6.80 to \$7, whereas a short time ago it was \$8.

until the grain is safely out of the hands of the producer, but surely, while this low price and the resultant lower price of flour prevail, the consumer should come in for some consideration at the hands of the bakers.

Unfortunately, there is no new crop of houses coming on and the landlord is busily engaged in raising the rents wherever he can do so.

That Hilburn Road.
It was generally supposed that all the money necessary for the construction or repair of a road from here to the Hilburn well had been contributed and everything was in readiness for the beginning of work on the road, but at the meeting of the Chamber of Commerce and Production last night, an additional committee was named to solicit funds.

This is a matter of such importance and one so calling for immediate action, that it should not be necessary to take up much time in finding the money. The demand of that locality for material, which Cisco alone can supply, is unlimited but without a passable road this material cannot be taken there.

The Humble Oil and Refining company has not only promised to contribute a sum equal to that given by the citizens of Cisco, for the repair or construction of the road, but it has donated the services of its force of engineers to locate the best route and to do and perform other needed engineering work in building the road.

This liberality should be met promptly by every citizen of Cisco. It is not a matter to benefit any one person, or class, but will bring to every citizen, directly or indirectly, good returns on the money. What benefits any community proves of benefit to all.

COURAGE IN POLITICS.
When Grover Cleveland was a candidate for the presidency and a scandal was started in which he was said to be involved, party leaders, greatly excited, went to him and asked what they should do. "Tell the truth," he said. The people loved him for the courage he displayed and elected him.

When Samuel Gompers, president of the American Federation of Labor made up a "blacklist" of

would not do his bit to support him in legislation he was asking for, on that list was the name of Congressman Blanton, of this district. The word went forth to every union man that Blanton must be defeated. The district was flooded with Gompers propaganda. Mr. Blanton met the issue squarely, never receded a step and never hesitated to say just where he stood. He has been elected by a large majority over his opponent.

When organized labor's representatives asked the gubernatorial candidates in Texas where they stood on the question of the open shop, they received but one direct reply. That came from former Senator Bailey and he told them very emphatically that he was opposed to it, that he favored the open shop and throughout the campaign never ceased to fully explain his position in all his speeches.

The other candidates for the gubernatorial nomination either tried to get on both sides of the question, or remained silent. They were apparently afraid to meet the issue and thrash it out as did Bailey. The result was that Bailey led in the voting, receiving about one-third of all the votes cast in the state. Many people evidently admire his courage.

Former Senator Bailey contended that the farmers produced what they had to sell under open shop conditions, but when they went in the market to make necessary purchases they had to take goods produced under closed shop conditions and consequently paid an enormous price. They felt the rule should work both ways and favored the open shop and voted for Mr. Bailey.

HEROISM OF WOMEN.
So many occasions have arisen where the heroism of women has been proven, that the fact has become one of general acceptance on the part of the American people, whose daughters have given so many evidences of it.

Such acts of heroism are told in the daily press, read and dismissed, as being of only general run of news, but when an instance of this kind occurs in the reader's own community, then is realized what it really means, this devotion to duty and the desire to aid and save others.

A Cisco telephone operator, Miss Minnie Reed, only a young girl, during the devastating fire Sunday night, remained at her post, did all that could have been done in an effort to sound an alarm, and being forcibly removed from the operating room, went back the first and second time in an effort to do what she knew should be done, entering a room filled with smoke and flame and being removed the last time just before the roof fell in, completely burying the switchboard where she had been working but a moment before.

This is the kind of heroism the memory of which dwells with the people who have direct knowledge of it.

Hot Sulphur Baths
Nature's Cure for Rheumatism, Skin Diseases, and Stomach Troubles.
THE TERRELL WELLS, at San Jose, Texas (near San Antonio) are equipped with hot sulphur baths, with competent attendants and Modern Hotel accommodations. Reasonable rates. We are now drawing patients from long distances, all of whom will testify to great benefits, and generally absolute cures. Try them at once and be well again. Write or wire for literature. Address TERRELL WELLS CO., San Jose, Texas county, Texas. Recreation, swimming pools, music and dancing.

AN ORDINANCE.
To Prevent Poultry From Running at Large Within Certain Defined Districts in the City of Cisco.
BE IT ORDAINED by the City Commission of the City of Cisco:
Section 1. Any person who shall permit to run at large within the section of the City of Cisco hereinafter set out, any chickens, guineas, turkeys, ducks, geese, ponies, or other poultry, or who shall own and fail, or refuse, to keep the above mentioned, or any of the above mentioned, fowls or poultry, within a good and sufficient enclosure, shall be deemed guilty of a misdemeanor.

Section 2. The section of the city hereinafter referred to shall be defined as follows: Beginning at a point on the south right-of-way line of the Texas & Pacific Railway, and the center of Avenue J. to 2nd St. thence in a westerly direction to west boulevard, thence in a southeasterly direction with west boulevard to the intersection of South Boulevard and Avenue D., thence in a northerly direction along the center of Avenue D to the intersection of Avenue D and Eighteenth Street, thence in an easterly direction along the center line of Eighteenth Street, to the intersection of Eighteenth Street and Avenue A, hence in a northerly direction along the center of Avenue A, to the south right-of-way line of the Texas & Pacific Railway to the place of beginning.

Section 3. Any person found guilty of violation of any section of this ordinance shall be fined at any sum of not less than \$5.00 nor more than \$25.00.
BE IT FURTHER ORDAINED, that this Ordinance shall take effect and be in force upon and after its publication.
Passed April 12, 1920. Approved April 12, 1920.

J. M. WILLIAMSON, Mayor of the City of Cisco.
W. B. STATHAM, City Secretary.

UNITED STATES OF AMERICA Northern District of Texas.
To John Meyers in said District-Creeting:
For certain causes offered before the District Court of the United States of America within and for the Northern District of Texas, as a Court of Bankruptcy, we recommend and strictly enjoin you, having all other matters aside and notwithstanding any excuse, that you personally appear before our said District Court to be helden at Abilene, in said District, on the 30th day of July, A. D. 1920, at 10 o'clock A. M., to answer a petition filed by Perkins Dry Goods Co., Kinseola Hat Co., Rose Manufacturing Co., in our said court, praying that you may be adjudged a bankrupt; and to do further and receive that which our said District Court shall consider in this behalf. And this you are in nowise to omit, under the pains and penalties of what may befall thereon.

Witness the honorable Edward R. Meek, Judge of said Court, and the seal thereof, at Abilene, this 10th day of July, A. D. 1920.
LOUIS C. MAYNARD, Clerk.
W. D. GIRARD, Deputy.
A true copy of the original writ issued in said cause, I certify.
Witness the seal of said District Court and the name of the Clerk thereof, at Abilene this 10th day of July, A. D. 1920.
LOUIS C. MAYNARD, Clerk.
W. D. GIRARD, Deputy.

The home of Mr. and Mrs. Oscar Walton on West Fourth street, Tuesday night was opened to welcome friends to a 7 o'clock dinner, served in honor of Mrs. Clara Mimms in honor of her natal day. The guests who participated in this sumptuous affair were Mr. and Mrs. R. H. Collins, whose home is on West Avenue E. Mr. and Mrs. Walton and Mrs. Mimms. The delightful menu that had been prepared by the hostess to honor her friends was tempting and delightfully cooked and served. The table decorations were of flowers of the season, and the hospitality of only those whom know how to entertain was showered upon the guests.

NOTICE.
THE STATE OF TEXAS, COUNTY OF EASTLAND.
By virtue of a vendition exponas issued out of the honorable Justice Court of Precinct No. Six, Eastland County, Texas, on the 16th day of July, 1920, by the Justice of the Peace in the case of
CHARLES DENNERY vs. N. W. ADAMS, No. 2312, and to me as sheriff of said county, directed and delivered, I will proceed to sell, within the hours prescribed by law for sheriff's sales on the fifth day of August, 1920, at the Auto Inn on East Broadway in the City of Cisco, said precinct in said county, the following described property to-wit:
Four sanitary Bread Pans, One Hobart Power Cake Machine (complete).
145 sets strapped five on sanitary bread pans, size 4 1-2 by 8 1-2 by 2 3-4. Two eight-foot wood dough troughs. One Little Giant Cake Filler. One Dumping Rack.

Which said property was levied upon under a writ of attachment issued in said cause, as the property of the said N. W. Adams, to satisfy a judgment amounting to One Hundred Ninety-two and 45-100 (\$192.45) Dollars in favor of said Charles Denberry, and costs of suit, or so much of said property as may be necessary to satisfy such judgment and costs.
Given under my hand this 19th day of July, 1920.
H. T. LAWRENCE, Sheriff Eastland County, Texas.
By J. L. Ray, Deputy, Jy. 23 1920.

Mrs. W. E. Spencer left for Plainview yesterday to join Mr. Spencer, who has been there the past month looking after his wheat crop.
Mrs. T. A. Rose left Monday to visit her sister in Dallas for a month, where she will meet another sister who is coming from Mississippi to visit Mrs. Rose in Cisco.

Miss Ada Winston, accompanied by E. W. Patterson and wife to Eastland Tuesday to spend the day with friends in that city.

In the District Court of the United States for the Northern District of Texas at Abilene.
In the matter of JOHN MEYERS, Bankrupt No. 644 in Bankruptcy.
Whereas, a petition was on the 29th day of November, A. D. 1919, filed here in for an adjudication in bankruptcy against John Meyers, formerly of Ranger, Eastland County, Texas, and it appearing to the court upon petition heretofore filed herein by the attorney for

the petitioning creditors, that the said bankrupt is not within the Northern District of Texas and that personal service of the filing of said petition cannot be made upon him and that his present whereabouts is not known, it is therefore,
Ordered that a certified copy of this order be published in the Cisco Round-Up, a newspaper published at Cisco, in Eastland County, Texas, in said District, once a week for two consecutive weeks, the last of said publications to be made not later than the 30th day of July, A. D. 1920, and that the said bankrupt is hereby ordered to appear and answer said involuntary petition filed against him within ten days after the date of the last publication of this order, otherwise the allegations in said petition will be taken as confessed. It is further ordered that a certified copy of this order together with a copy of the petition in bankruptcy be mailed to said bankrupt at the last place of abode of said bankrupt.

This the 9th day of July, A. D. 1920.
JAMES C. WILSON, United States District Judge.
I hereby certify that the foregoing is a true copy of the original thereof now in my office. Witness the signature of the Clerk, and the seal of the Court, this 10th day of July, 1920.
LOUIS C. MAYNARD, Clerk.
W. D. GIRARD, Deputy.

Ordinances and City Charter of the City of Cisco.

Now, therefore, be it Resolved, By the City Commission of the City of Cisco that the said report or statement filed by the said Henry Exall Elrod Company, Consulting Engineers, having been duly examined, is hereby approved; and

Be it further Resolved, That the part of the cost of such improvements shall be assessed against the abutting property upon the alleys named to be improved and the owners of said property, and that the total cost of said improvements shall be paid and defrayed as follows:

(a) That the City of Cisco shall pay one-fourth (1/4) of the total cost of improving said alleys named to be improved, save and except the cost of curbing.

(b) That after deducting the proportion of the cost provided for in sub-section (a) above, the total remaining cost of such improvements shall be paid by the owners of property abutting on said alleys named to be improved in the following manner:

The owners of the property abutting upon said alleys named to be improved shall pay the whole cost of installing concrete curbs in front of their respective properties, and an amount equal to three-fourths (3/4) of the whole cost of all other improvements shall be paid by the said property owners, and shall also be assessed against them and their respective parcels of land abutting upon said alleys named to be improved, and said assessments shall be made in accordance with and subject to the Revised Statutes of 1911 and the Ordinances and City Charter of the City of Cisco; and after the hearing herein mentioned against the owners of the property abutting upon said alleys named to be improved and their property; that the cost which may be assessed against such property and its owners shall be in accordance with the "Front Foot Plan" in proportion as the frontage of the property of each owner is to the total frontage of the property on said alleys named to be improved, but that no assessment shall be made against any of said property or its owners in excess of special benefits in enhanced value to said property caused by said improvements nor until after the hearing hereinafter mentioned.

That the part of the said cost to be paid by the said property owners and assessed against them and their property abutting upon said alleys shall be payable in three equal installments; the first payable in thirty days after the final completion and acceptance of the work by the City; one on or before one year from said date; and one on or before two years from said date, with interest at 8 per cent. (8%) per annum, provided that any property owner may pay before maturity by payment of principal and accrued interest; and

Whereas, According to the report or statement of the Henry Exall Elrod Company, Consulting Engineers, heretofore and hereby approved by the City Commission, the total estimated cost of such improvements is \$30,647.87, and the proportion of the amount of such cost to be assessed against the abutting

Now, therefore, be it further Resolved, That a hearing shall be given to the said owners or their agents or attorneys and to all persons interested in said matter as to said assessments and as to the amount to be assessed against each said owner and his property and as to the benefits of said property made by such improvements or any other matter in connection therewith, which hearing shall be held in the Council Chamber of the City Hall in the City of Cisco, Eastland County, Texas, on the 9th day of August, A. D. 1928, at 9 o'clock p. m., at which time all said owners, their agents or attorneys or persons interested in said property are notified to appear and be heard; at which hearing said owners, their agents or attorneys or other persons interested may appear by council or in person and may offer evidence; and said hearing shall be adjourned from day to day until fully accomplished. And the City Secretary of the City of Cisco is hereby further ordered and directed to give notice of said hearing by having a copy of this resolution published in the Cisco Round-Up, a newspaper of general circulation published in the City of Cisco, once each week for three successive weeks, the first publication to be had not less than ten days before the date hereinafter fixed for said hearing; that this resolution shall take effect from and after its passage as in such cases made and provided.

Approved the 12th day of July, A. D. 1928.

J. M. WILLIAMSON, Mayor.

Witness my hand, this the 12th day of July, A. D. 1928.

City Secretary.

Laredo Has 22,710 Associated Press.

WASHINGTON, July 29.—The population of Laredo, Tex., is 22,710, an increase of 7,855.

Cisco, Texas, July 12, 1929.

Resolution of the City Commission of the City of Cisco determining the necessity of levying an assessment against the property and the owners thereof abutting upon the following named alleys:

The alley in block 29, running from Fourth Street to Fifth Street.

The alley in block 30, running from Fifth Street to Sixth Street.

The alley in block 30, running from Avenue D to alley running north and south.

The alley in block 31, running from Sixth Street to Seventh Street.

The alley in block 31, running from Avenue D to alley.

The alley in block 32, running from Avenue D to M. K. & T. right-of-way.

The alley in block 43, running from Avenue D to Avenue E.

The alley in block 44, running from Avenue D to M. K. & T. right-of-way.

The alley in block 45, running from Avenue D to Avenue E.

The alley in block 47, running from Avenue D to Avenue E.

The alley in block 49, running from Avenue D to Avenue E.

The alley in block 32, running from Avenue D to M. K. & T. right-of-way.

The alley in block 43, running from Avenue D to Avenue E.

The alley in block 44, running from Avenue D to Avenue E.

The alley in block 45, running from Avenue D to Avenue E.

The alley in block 49, running from Avenue D to Avenue E.

The alley in block 32, running from Avenue D to M. K. & T. right-of-way.

The alley in block 43, running from Avenue D to Avenue E.

The alley in block 44, running from Avenue D to Avenue E.

The alley in block 45, running from Avenue D to Avenue E.

The alley in block 49, running from Avenue D to Avenue E.

Whereas, In accordance with the Revised Statutes of 1911 and the Ordinances and City Charter of the City of Cisco after calling for bids the said work of improving said alleys between by filling, grading, raising or paving the same and by the construction and re-construction of curbs and gutters, and by the construction of necessary appurtenances thereto, including storm sewers and necessary drains and along the points above named has been let to Elmer D. Brown; and

Whereas, The said Elmer D. Brown has duly given bond for the performance of said work and the Henry Exall Elrod Company, Consulting Engineers, have in accordance with the Revised Statutes of 1911 and the Ordinances and City Charter of the City of Cisco filed a report with the City Commissioners as to the cost of said improvements and as to the other matters required by the said Revised Statutes of 1911 and the

Equip Your Small Car With Goodyear

Goodyear Tires in the 30x3 and 31x4-inch sizes are made with characteristic Goodyear build high relative value into carcass and tread.

Last year more cars taking these were factory-equipped with Goodyear Tires than with any other

In order to make these tires widely available to users of such cars, we are operating the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car requiring one of these sizes, go now to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30 x 3 1/2 Goodyear Double-Cure Fabric, All-Weather Tread \$23.50

30 x 3 1/2 Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes cost no more than the price you are asked to pay for tubes of less merit—why not castings when such sure protection is available for 50 30 x 3 1/2 size in waterproof legs
