NEW YORK'S NEW TRAFFIC TOWERS DOUBLY USEFUL

One of the towers rising from the mountain of snow.

When New York police officials determined to try towers as aids to traffic officers in handling the vehicle congestion in the downtown districts it was with the main idea of making it easier for the drivers to see the officer and his signals. But just about the time the test towers were practically buried the city and the traffic officers had to climb aloft in the towers to see over the snow banks while directing what few vehicles that moved after the storm.

Mother's Picture in Bible Kept 'Blondie' From 'Breaking Jail'

Three prisoners escaped from the city jail road gang yesterday afternoon while working on the streets, but "Blondie" was not among them. And yet he was the very man the local police officers had figured would try to make a break for freedom if anybody did.

When the escape of the three, who were doing a few days penance on conviction of vagrancy, was first dislooked for covered everybody 'Blondie' and to their surprise found him among those present in the pick and shovel gang.

-he had every chance in the world to get away with the others. But the reason he didn't go was because he would have to leave behind him something that he cherished more than his liberty.

When Officer F. B. Matthews pickmeans of support" a few days ago, about the only thing the "vag" had with him was a small package, neat ly wrapped and tied with string and which he seemed to be safeguarding. The court fined him \$18.70 with the alternative of working it out at the rate of \$2.65 a day with board.

Somewhere on the police record is his name but everybody called him "Blondie" because he has blonde hair and it is easier to remember than his name. Also somewhere on the police record is his age, which is around 19

or 20 years. And his home-Chicago When committed to pail he insisted that his package be put somewhere for safe keeping. Chief Hitson put in his desk. It contained a small Bible, and among other keepsakes a

A Practical Oil Lease Law at Last. Government oil land prospectors a rejoicing in the passage by congress of

a new leasing law bill superseding th old placer claim system, which has long since become antiquated and which did more to discourage than encourage the development of Uncle Sam's unproveoil territories. The bill now requires only the signature of the president be fore becoming law and it is not though likely that he can find reason for ve

The placer claim law was a piece o loose-slung legislation which worked great hardship upon those attempting to operate gave free reign to unscrupulous pro moters and speculators.

Under the old system all it was necessary to do to procure a claim was to post a notice at the corner of the ground selected and register a dupl could stake out as many 20-acre claims as he chose but they were only good until the expiration of the subsequent calendar year and unless he kepit dilligently at work on them anyone else could jump his claims with government sanction. He was entitled to procure and sell as many claims as he could find purchasers for, which gave rise to the practice of promoters staking numerous claims in one state and sell ing them forthwith to people in other states who imagined that all they had to do was wait until oil was discovered in the vicinity of their holdings and then sell out at enormous profit.

Another bad feature of the old system was that if a man discovered oil on his claim, the government automatically canceled the leases of all surrounding claims without without reference to ownership and the discoverer himseif was entitled only to the claim upon

which he found oil. All of this has been done away with in the new bill, and all government of ands will be leased directly from the vernment along the lines of the state ng system. The present owners o

of very hard formation, and just as the bit dripped through this formation there came a puff of gas and the bit stopped. The well is not to be drilled in till pipe lines sufficient to handle the production are connected up. The oil is of a very fine grade, testing a little over 39, and a 600-barrel well is a good well, but when it is drilled in

it may make a really big well. The Humble Pipe Line company and The bill is certainly a good one and the Prairie Pipe Line company are both its passage by congress was won only making surveys from the Comyn tank after a 10 year's fight on the part of farm to the Hilburn well, by the way western legislators for some practicable of the Hill well. THE ECONOMY REFINING COMPANY OF CISCO, TEXAS

Started to work clearing and excavating the ground on their ideal site, preparatory to constructing their large 3000-barrel plant, and the completion of this plant will be finished as rapidly as the weather and unforeseen obstacles permits.

We ask and deserve your most close co-organion in helping us to build this bonafide dividend-paying industry, one of the greatest things that the city of Cisco can do, is to build her home industries. An industrial town is one that always stands.

Think of this when you think of the Economy Refining Company. We invite you, must plead with you, to call at our office and let us explain the plans and profits that are made from this great industry.

If one of the representatives of the Economy Refining Company should call on you to purchase its shares, do not pass it up as a wildcat proposition, for it is not, it is a home industry, backed by home people. We will drill no dry holes nor gamble with your money, for refineries speak for themselves. Give the representative a hearing, let him explain to you our plans and prospects of this great industry. The men behind this industry are practical business men of ability.

Call and see us, office at the Hartman Hotel, for now is the time to buy stock, while it is at par, to get the benefit of the increase in price of stock.

ECONOMY REFINING COMPANY

Printing Is Manufacturing

Under the rules of the bureau of census, now taking a census of the United States, the printing industry is classified as printing. Then the Cisco Printing & Publishing Company is a manufacturing institution.

In adition to being equipped to do ordinary printing, the News plant is now engaged in turning out books, catalogs, pamphlets, prospectus and other high-class work.

SERVICE AND QUALITY are important elements in printing. It has taken a large investment to reach the point of perfection attained in the printing department of The Morning News. No plant in this section of Texas is so fully equipped. New machinery, new type-and printing artists-a combination that will please you.

In addition to printing, The News can supply you with office equipment to your order.

BATHERS FROLIC UNHAMPERED AT HAVANA

Mrs. B. L. Eastman of New York, at left, and Miss Beatrice Hernandez of New Rochelle, photographed on beach.

One-piece bathing suits without stockings are permitted on the bathing beach at Havana, Cuba, this winter, and the feminine bathers are taking advantage of the opportunity to swim and paddle about unhampered by fancy trimmings. The photo, taken at Maria Nao Beach, on the outskirts of Havana, shows two typical bathing costumes.

STAR OH HORSEBACK LEAPS OVER BROKEN BRIDGE ABOVE CHASM

leap on horseback over a broken bridge above a chasm, taking great risks, in a scene from the First National special feature, "In Old Kengreat American clasic will be shown at the Victory theater today.

The bridge is a draw over a ravine more than 100 feet deep. But the draw has been wrecked. In the story it is necessary for Miss Stewart to villian has placed a dynamite bomb

beneath him. The horse, upon which she is mounted at first refuses to make the jump, but she starts again, and spurring it to the utmost speed, rides straight for the broken bridge. The horse sises to her spur and makes the jump. But it reaches the opposite side by such a narrow margin that broken bits of the bridge are kicked from beneath its feet into the chasm beneath.

Miss Stewart admits that she was terribly frightened, but had every confidence in the horse, as it had made greater leaps than the one taken in the picture, though never such

dangerous one. This thrilling scene is clearly shown in this picture, which is the story of an untutored girl, who after risking her life for her friends in the mountains, goes to the city where she wins laurels for herself.

ANY man who looks around will know there's to be a fine dustry when he is inaugurated today ANY man who looks around will know there's to be a line as president of the American Institute scrap in the 17th Texas Congressional district. Mr. Blanton has of Mining and Metallurgical Engineers. much to interest him this summer.

ACCORDING to those who don't violate the Sunday closing law, those who do are anarchists. And to think that the great Dealers' association. State of Texas would have so many reds and none be deported!

A CANDIDATE FOR CONGRESS.

THERE'S really to be opposition to Congressman Blanton in ference of South Carolina this congressional district, Hon. R. N. Grisham, of Eastland, having announced he will make the race in the democratic primary. Mr. Grisham has issued a letter to the press of the district, in Cold Storage association which he says he's going to make a strenuous fight for the nomination. Little of his campaign dope is given in his preliminary an- association.

To beat the present congressman, a man must have the support of the labor unions, as there is little opposition to Mr. Blanton from association. other sources, and the indications are that this will be the issue. Mr. Grisham says nothing on this point. Mr. Blanton has come out in opposition to the war record of the union leaders, and has developed an opposition that will undoubtedly be a factor in the election results. This will probably be a battle ground between the unions and the men who have opposed them. Mr. Blanton will probably say during the campaign that he has never opposed the unions. The leaders who have, in his opinion, taken advantage of the government during the war, have been bitterly called to task by him, and for this opposition and fight, the unions are said to of men identified with labor organizations in Cisco, the energy then turn right around when the thing and effort of the entire labor forces of the nation is to be directed is all over and say "I told you so. against the congressman when he seeks renomination.

Opposition to Mr. Blanton will probably make an effort to wishes the gas and electric company court this labor organization vote and influence. The Eastland would get a direct current and do away

Economy Refining Company

In The Heart of Production

In The Path of Progress and Prosperity

We are going to build a three-thousandbarrel plant; location of plant on the Olsten tract of land, joining the city on the east on the Texas & Pacific Railroad. Plenty of water, oil, gas and railroad facilities.

This is a home industry, backed by home people. Officers of the company are: Judge B. B. Greenwood, president; W. D. Nunn, vicepresident; F. A. VanDeren, treasurer; J. A. Smith, secretary; W. L. Sanders, general manager, and L. W. Hilgenberg, trustee. Every citizen should put his shoulder to the wheel and help build this great dividend-paying industry. We know that the refinery end is the great paying industry of the oil business, and now the ECONOMY REFIN-ING COMPANY offers you the opportunity to invest in its dividend-paying securities.

We extend to you an invitation and a cordial welcome to call at our office - at the Hartman Hotel-for further information regarding this great industry.

Now is the time to invest, while stock is at par. Fill out application attached and mail to us at once.

DETACH AND MAIL TODAY

ECONOMY REFINING COMPANY, Cisco, Texas
