ELECTION OF F. BAILEY SOUTHERN BAPTISTS PREDICTED BY DEMOS AS K. INDIA GOVERNOR IN BIG MASS MEETING TO CRUSH DRUG EVIL

Former Senator Wires He Will Carry the Governorial Fight to End, Regardless of Results.

DALLAS, Texas, May 15.—The election of former Senator J. W. Bailey as governor of Texas in the coming elections was confidently predicted at the mass meeting attended by some three hundred democratic adherents of Mr. Bailey here today. Resolutions were adopted pledging support to his candidacy and committees named to continue the former senator's campaign.

Mr. Bailey was not present, but he sent a message declaring he would return from Washington as soon as possible to carry the fight to the end. "I have thoroughly made up my mind to do that without reference to the results," he said. The meeting sent a telegram to the former senator asserting the belief that he would win.

R. C. Duff of Houston, was chairman of the meeting. A committee on resolutions, composed of C. F. Greenwood, Dallas; Colonel R. E. Johnston, Houston; Ed. E. Koss, San Antonio; J. L. Brown, San Antonio; and C. M. Portwood, Greenville, brought in a report proclaiming "unerringly allegiance to the ancient and fundamental principles of democracy," and pledging "our best efforts and unequalled support" to the election of Mr. Bailey. It was adopted by unanimous vote.

JOHNSON SAYS HOOVER IS SPOOFING OREGON

WASHINGTON, May 15.—Two statements dealing with public utterances of Herbert Hoover were adopted here tonight, one by Senator Johnson of California, dealing with Mr. Hoover's message to Oregon republicans, and the other by Attorney General Palmer, commenting on the former food administrator's comments on the sugar situation before a house subcommittee.

Senator Johnson attacked Mr. Hoover's plea to his supporters in Oregon to elect delegates to the republican convention which stand for ratification of the treaty of peace with reservations.

LOYAL LEADER FIGHTS WHILE CARRANZA FLEES

EL PASO, Texas, May 15.—A battle between Mexican troops under General Francisco Murguía, protecting President Carranza, and the constitutionalists in the state of Puebla, was reported in messages from the Mexican revolution. Agents here today from Adolfo de la Huerta, supreme commander of the movement.

SLIM, STRAIGHT LINES THE STYLE FOR WOMEN

CLEVELAND, Ohio, May 15.—The semi-annual meeting of the National Cloak, Suit & Skirt Manufacturers' association adjourned today with the adoption of the report of the style committee for women's fall and winter garments.

Next Meeting to Be Held at Chattanooga; Delegates, Housing Facilities of Washington, D. C.

WASHINGTON, May 15.—The date of the 1921 meeting of the Southern Baptist Convention was advanced from Wednesday, May 11, to Thursday, May 12, later by the convention in session here upon the suggestion of Dr. W. J. McElhiney, president of Furman University, Greenville, S. C., in order that messengers coming from a distance will not be compelled to travel on Sunday. Otherwise the report of the committee on arrangements which chose Chattanooga, Tennessee, as the meeting place, was unchanged.

Disapproval by the convention of the statement made by Vice President Marshall to the Virginia Bar association, that had the prohibition amendment been considered by the senate behind closed doors it would not have received 29 votes, was voted by the adoption of a resolution presented by Dr. H. W. Battle of Charlottesville, Virginia.

Prohibition of the drug and liquor traffic in India was endorsed by the convention in a resolution calling upon the governor of India to "prohibit the import, manufacture and sale in India of alcoholic liquors and drugs, particularly of the cultivation of the poppy and the manufacture and sale of opium for other than medical purposes."

Charging that the British government supports the opium trade in India by lending money, free of interest, to the opium growers, Tashanath Das of India, a Christian Hindu, pleaded with the messengers to help remove the drug curse from his country.

GOVERNMENT ASKED TO TAKE WAR ACTION ON FREIGHT CONGESTION

WASHINGTON, May 15.—The government was asked today to take emergency action similar to that taken to help this country enter the war to clear the railroads out from under the worst freight congestion since 1917.

A joint appeal to the interstate commerce commission by the Association of Railway Executives and the American Railway Association declares the freight jam to be such as to "warrant and require" immediate use of that body's broad powers under the transportation act in checking a "menace that has assumed threatening proportions."

Common use equipment and embarking emergency action similar to that taken to help this country enter the war to clear the railroads out from under the worst freight congestion since 1917.

FRENCH TROOPS DRIVEN BACK BY TURK FORCES

CONSTANTINOPLE, May 15.—A French column of 3000 soldiers which left Killis, Asia Minor, May 9 to relieve the garrison at Antak, about 30 miles north of Killis, was met by a strong nationalist force when 10 miles from its destination and was compelled to return.

"BONE DRY" COUNTRY HELPS THEATRICAL BUSINESS

CLEVELAND, Ohio, May 15.—The theatrical business has increased 50 per cent since the country went "dry," according to John Cort of New York, one of the country's leading producers, on a recent visit to Cleveland. He declared the dry era staved off a disastrous period for the theatrical world.

THE CRYSTAL GAZER

DANIELS SAYS WILSON WAS AHEAD OF PUBLIC WITH NAVAL PROGRAM

Declares That Unless United States Joins League of Nations It Must Build Greater Navy.

WASHINGTON, May 15.—Secretary Daniels' testimony today before the senate naval investigating committee was devoted to answering Rear Admiral Sims' charges that the navy was not properly prepared for war in 1917 and that adequate steps toward complete preparedness had not been taken after the world war started.

COMIC SHEET AGAIN DELAYED

The funny paper that should have accompanied this issue of the Morning News has been delayed in express and can not be accounted for. The News hopes to have this supplement for the children by next Sunday, however.

FATHER OF SLAIN TRAIN BANDIT DIES ON WAY TO CLAIM BODY OF HIS SON

BUCKLE, Mo., May 15.—L. T. Walton, father of Horace Walton, killed by police yesterday in a pistol battle, died at a hotel here today. He and his wife were on their way from their home in St. Joseph to Chicago to claim the body of their son.

ADVERTISING CLUBS OF WORLD WILL MEET IN INDIANAPOLIS JUNE 6-10

INDIANAPOLIS, Ind., May 15.—"Advertising—How and Now" will form the keynote for the convention of the Associated Advertising Clubs of the World to be held in this city June 6 to 10, coincident with the Indianapolis centennial celebration.

MURDER CASE GOES TO JURY

LLANO, Texas, May 15.—The fate of James Ollan, former president of the Texas Cattle Raisers' Association, charged with killing Vernon Billings in Menard county, last November, rests with the jury which was given the case at 3:30 o'clock this afternoon.

DEDICATE ARLINGTON AMPHITHEATRE TO THE HERO DEAD OF NATION

Veterans of Civil, Spanish, and Late Wars Stand Side by Side at Impressive Ceremony.

WASHINGTON, May 15.—Erected in memory of all patriots which died for the nation's preservation and defense, the Arlington Memorial Amphitheatre, rising impressively about the hills of Arlington National Cemetery received its formal dedication today.

KATY SWITCHMEN STRIKE IN MUSKOGEE, OKLAHOMA

MUSKOGEE, Okla., May 15.—Thirty switchmen employed in the Missouri, Kansas & Texas railway yards here went out on a strike at 4 o'clock this afternoon. They were joined tonight by switchmen of the Oklahoma, Kansas & Gulf railroad.

SNOW FALLING IN KANSAS

TOPEKA, Kan., May 15.—Goodland, in Northwestern Kansas, today reported a temperature of 32 degrees, and snow falling, the weather bureau here reported tonight.

CARRANZA GENERAL IS CAPTURED BY REBELS SAYS OREGON REPORT

Sonora General Is Sent Out With Safe Conduct for Former President of Mexico and His Family.

MEXICO CITY, (via Laredo Junction and Dallas, Texas), May 15.—Reports that General Manuel Dieguez has been captured, were confirmed Wednesday by a wireless dispatch from Guadalajara, given out by Oregon headquarters and signed by Colonel Isais Castro, stating that Dieguez, together with his staff and General Sebastian Allende, are imprisoned.

Prior to receipt of the wireless message it had been decided to send General Benjamin Hill with a strong column to capture Dieguez. Other statements made by liberal revolutionary headquarters indicate fighting still is going on in the vicinity of San Marcos, state of Puebla, between the column guarding the presidential train and revolutionary forces.

Oregon headquarters announces that permission has been granted General Guadalupe Sanchez to allow General Camilo Aguilar to pass through revolutionary lines to confer with President Carranza with a view to avoiding more bloodshed, General Aguilar later to surrender.

General Antonio Villarreal is apparently the leading candidate for the presidency, since General Pablo Gonzalez stated in an interview Villarreal was quoted as favoring him.

Other names being mentioned include Iguerra Calderon, Juan Sanchez Ascoba and General Jacinto Trevino.

TRADE CONFERENCE OF CLOAK MANUFACTURERS

CLEVELAND, Ohio, May 15.—A trade conference of more than 40 manufacturing concerns in the women's cloak and suit industry in Cleveland is to be held in connection with the co-operative opening of fall lines of women's wearing apparel by members of the Cleveland Garment Manufacturers' association and associated firms in the garment industry the week beginning May 31.

FRENCH-BRITISH FAIL TO AGREE

HTTHE, England, May 15.—Failure to agree on French financial proposals prevented the ending tonight of the conference of French and British ministers here discussing certain points of the peace treaty.

SENATE ADOPTS PEACE BILL OF REPUBLICANS DECLARING WAR ENDED

Resolution Was Substitute for Measure Dealing With Germany Alone; Wilson Will Veto It.

WASHINGTON, May 15.—With a few thrills and no hitch in the pre-arranged program, the senate adopted today, 42 to 35, the republican resolution declaring the state of war with Germany and Austria-Hungary at an end.

The roll-call on adoption of the resolution followed: For adoption: Republicans—Ball, Borah, Brandegee, Capper, Coker, Curtis, Dillingham, Edge, Ellms, Fall, Ferrand, France, Gurnea, Hale, Harding, Johnson, California, Jones (Washington), Kellogg, Kenyon, Keyes, Knox, Lenroot, Lodge, McCormick, McLean, McNary, Moses, New, Norris, Page, Phipps, Poinsette, Sherman, Smoot, Spencer, Sterling, Townsend, Wadsworth, Warren—40.

Democrats—Reed, Shields and Walsh (Massachusetts)—3. Total for—43. Against adoption: Republicans—Nelson—1. Democrats—Ashurst, Chamberlain, Cramer, Culberson, Dial, Gay, Gerry, Glass, Harris, Harrison, Henderson, Hitchcock, Jones (New Mexico), Kenrick, King, McKellar, Myers, Nugent, Overman, Owen, Phelan, Pittman, Pomerehne, Ransdell, Robinson, Sheppard, Simmons, Smith (Arizona), Smith (Maryland), Smith (South Carolina), Stanley, Swanson, Trammell, Underwood, Walsh (Montana), and Williams—37.

Total against—37. Those paired for the amendment were: Republicans—Cummins, Frelinghuysen, LaFollette, Penrose, Sutherland and Watson—6. Paired against were: Republicans—McCumber—1. Democrats—Beckham, Kleicher, Johnson (South Dakota), Kirby and Wolcott—5.

CARRANZA WHEREABOUTS STILL REMAINS MYSTERY

MEXICO CITY, via El Paso Junction, May 15.—The whereabouts of President Carranza remained undetermined today. Reports circulated yesterday that Carranza, Ignacio Bonillas, former candidate for the presidency; General Juan Barragan, chief of staff; Francisco Murguía, commander in the valley; Candido Aguilar, Carranza's son-in-law, and others had been captured between the capital and Vera Cruz, still lacked confirmation and were generally discredited.

U. S. CENSUS

WASHINGTON, May 15.—The government's census bureau gave out the following list today: Abilene, Texas, 10,274; increase 1970, or 11.6 per cent. Seattle, Wash., 318,852; increase 78,484, or 23.1 per cent. Trenton, N. J., 119,289; increase 21,474, or 23.2 per cent. Lincoln, Neb., 54,991; increase 19,981, or 24.9 per cent. Livingston, Mont., 6326; increase 957, or 18.0 per cent. Mobile, Ala., 69,124; increase 5603, or 16.7 per cent. Raleigh, N. C., 24,418; increase 5209, or 27.1 per cent. Chiltonham, Pa., 11,016; increase 2881, or 30.6 per cent. Gettysburg, Wash., 7549; increase 288, or 2.3 per cent. Clinton, Ill., 5879; increase 733, or 14.2 per cent. Brownwood, Texas, 8223; increase 1256, or 18.0 per cent.

MARLIN PASTOR TAKES BAPTIST PULPIT HERE

The Rev. C. G. Howard, lately of Marlin, has been called to Cisco, where he will become pastor of the Baptist church. Reverend Howard will preach today a sermon in the local Baptist church. He comes from Marlin well recommended. He succeeds the Rev. A. E. Eaton, who gave up the pulpit on account of poor health.

STOCK DIVIDEND TAX ADVOCATES LOSE OUT IN SOLDIERS' RELIEF

Further Fight Against the Cash Bonus Expected—Four Other Options Are Offered.

WASHINGTON, May 15.—On a vote with one member absent, republican supporters of a stock dividend tax to finance soldier relief legislation in the house today lost their fight for 10 per cent levy retroactive to last March 15.

The fight, opponents of the tax said, would be renewed next week when members of the committee meet with republicans to take final action on the relief bill.

As finally framed by the republicans, the new bill differs little from the original measure which met a check in the house a fortnight ago.

RURAL SUNDAY SCHOOLS OF SOUTH PROMOTED BY BAPTIST CHURCH BOARD

WASHINGTON, May 15.—Receipts of the Baptist Sunday school board for the last year were \$469,939, according to the 23rd annual report of the board made by Dr. L. J. Van Ness, secretary, to the Southern Baptist Convention in session here today.

In addition to its own business the Sunday school board financed the Baptist seventy-five million campaign to the extent of \$100,000, but the sum was refunded by the various state organizations.

In an effort to promote greater efficiency in the rural Sunday schools of the south a campaign for rural Sunday school extension was carried in various states in cooperation with the state organizations which resulted in 10,000 separate points being touched by teacher training institutes.

THREE BISHOPS ELECTED AT M. E. CHURCH MEETING

DES MOINES, Iowa, May 15.—Three bishops of the Methodist Episcopal church were elected today at the general conference.

Charles E. Lewis of Los Angeles, Cal., was elected as the new bishop of the West.

PUBLIC HEALTH NURSING NOW ON PRACTICAL BASIS

AUSTIN, Texas, May 15.—The course in public health nursing being given at the University of Texas under the supervision of Miss Jane L. Duffy has been placed on a practical basis.

During the month of April the students supervised 637 children of the primary grades.

Special attention was given to defective teeth, the nurses finding at least 20 per cent of the children examined needing dental attention.

Public Health nursing, popular actress and film star, possesses a wonderful collection of feathered fans.

MISS BARBARA POWELL LEADING IN CONTEST FOR CARNIVAL QUEEN

Miss Barbara Powell is leading in the contest that is being held by the local Elks, to determine the most popular girl in Cisco.

CARRANZA, A FUGITIVE IN MOUNTAINS, IS NOT TO BE HARMED, ORDERS

WASHINGTON, May 15.—Venustiano Carranza, constitutional president of Mexico, was placed today by Alvaro Obregon, who forced him to flee from the capital a week ago, as a fugitive in the mountains somewhere between Mexico City and Vera Cruz.

Track Stars From Western Colleges to Meet Early in June

ANN ARBOR, Mich., May 15.—Track stars from a score of middle western colleges and universities will match their skill on Perry field, Ann Arbor, June 1 and 2 in the 25th annual Western Conference track championships.

TEACHERS TO ATTEND HOME ECONOMICS WEEK EARLY IN MONTH JUNE

AUSTIN, Texas, May 15.—Miss Mary Gearing, professor of home economics at the University of Texas, has received many letters from home economics teachers from all parts of Texas.

Realizing the great educational value of the program, some school boards are sending teachers at the expense of the schools; others, when this is not possible, are giving them the time to attend.

THEIR ROMPS ON WHITE HOUSE GROUNDS "GOOD AS MEDICINE" TO THE PRESIDENT

The two little children of Admiral Cary T. Grayson, personal physician to President Wilson, did much to cheer up President Wilson during his long months of illness.

The women of China are becoming habitual patrons of the motion picture theater.

When completed in concrete the stadium will seat nearly 30,000 people.

The women of China are becoming habitual patrons of the motion picture theater.

CISCO OIL FIELD NEWS

PECULIAR FORMATION IN MORAN WELL

MORAN, Texas, May 15.—One of the most peculiar formations ever found in the entire oil district, was found in the Apex well, about one and one-half miles east of Moran last Monday.

The formation, according to the best information available, was found at 94 feet, and was about 10 feet thick.

Various kinds of bones, petrified weeds, sticks, numbers of shells and gravel, such as is found around washes were brought out. There was any amount of silver ore brought to town, which was said to have come from the well.

CORRESPONDENCE COURSES ARE PROVEING VERY POPULAR

AUSTIN, May 15.—Correspondence courses offered by the extension department of the University of Texas are proving very popular, according to Miss Julia Vance, registrar of the extension division.

Negress' Buys Dan Coffin. BROWNWOOD, Texas, May 15.—An aged colored woman went to the undertaker's here a few days ago, bought one of the first class caskets, made a payment on it and is saying it out on the installment plan.

Mothers of Texas Urged to Put State In Registration Area

AUSTIN, Texas, May 15.—It is urged by the mothers of Texas to put the state in the registration area. The state board of health fully recognizes that if Texas as a state is ever set into what is known as the registration area of the United States, vital statistics become and become recognized as being on a par with those states which now enjoy this great advantage.

While it is the duty of the mother to know that her child's birth is recorded, at the same time, it is a great pleasure and a source of satisfaction to her to know that she has performed this important piece of business for her helpless child and there is no one thing requiring so little time and effort on her part that will be so much appreciated by the child when he grows up to realize the value of this record.

TEXAS STATE VICTOR S. W. TRACK EVENTS

HOUSTON, Texas, May 15.—The Southwestern Conference track meet closed today with Texas state victors with 35 23 points over Baylor University of Waco, with 23 14 15 and Rice Institute of Houston, with 22 14 points.

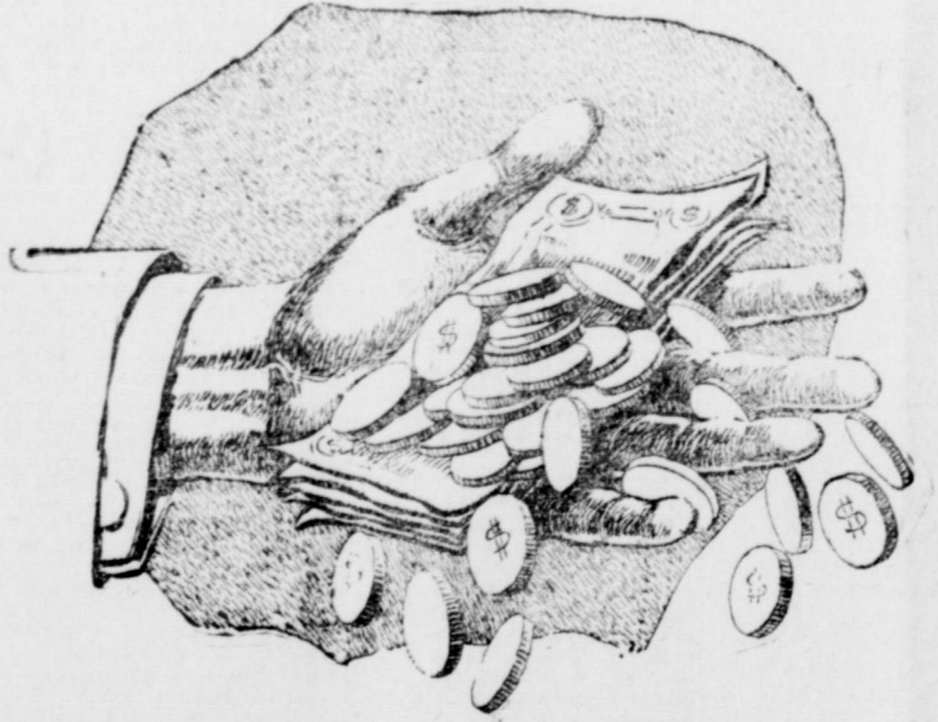

In spite of the light drizzling rain new records were set in the 250 yard hurdles, the two mile run and the discus throw.

Summary: 120-yard high hurdles: Moss, Texas. Lemon, S. M. U.; Jackson, Baylor, Procter, Baylor. Time 1:25.

It is the practice of the Ashantees to bury one-third the property of a dead man converted into gold dust, under his head, and rifling the grave of an enemy is considered the proper action of a warrior.

OUT-OF-TOWN VISITORS TO CISCO THIS WEEK ARE CORDIALLY INVITED TO CALL TO SEE US

UNITARIANS ENDORSE FRATERNALISM IN ALL INDUSTRIAL RELATIONS

CHICAGO, May 15.—More fraternalism in industrial and business life was recommended by the commission on social reconstruction of the Unitarian general conference, in a report made public today. The commission was appointed at the recent Unitarian conference in Baltimore and in its report has drawn up a statement of principles on which its members believe social reconstruction should be based.

The statement declared that all concerned in industry, the manager, the producer and the consumer are partners and that the community has a right to insist that the industry be carried on not for the sole benefit of any of the partners, but in the interest of all. It did not attempt to prescribe any single form of industrial organization. It recommended that the hours of labor should be reduced to the lowest point compatible with adequate production, but qualified this statement by adding that "in the present emergency the world needs a maximum production."

The commission recommended that the right be recognized of both industry and labor to organize freely and bargain collectively. It asserted that all wage earners have a right to a wage sufficient to support their families in health and comfort. It declared that much industrial unrest is caused by poverty and that a great deal of poverty could be eliminated by better distribution of workers, control of immigration, encouragement of thrift, encouragement of investing and managing ability and by providing funds for home building.

Laws were recommended providing for increased taxation of land values, with the purpose of bringing into use land held for speculative purposes, so as to promote home building; for the development of a graduated inheritance tax and income taxes and also legislation for the control of monopoly prices.

Among the ideals set by the commission were the raising of educational standards, universal opportunity for education, a campaign against such diseases as tuberculosis, prevention of exploitation of child labor, segregation of the feeble-minded in institutions and social insurance.

The commission also set forth as an ideal, the creation of machinery by which governments can be democratically controlled and made responsive to the public will. It also suggested a "world federation of peoples based on mutual abrogation of special concessions and mutual obligation of general service."

The report was signed by the following: C. W. Reese, Chicago, chairman; George R. Dodson, St. Louis; Earl C. Davis, Lancaster, Pa.; C. S. S. Dutton, San Francisco; Arthur Morgan, Dayton; E. C. Dexter, Atlanta; and S. P. Wetherell, Jr., Philadelphia.

ACCURACY OF HER GARTER WATCH LEADS MANY TO ASK TIME OF DAY

Miss Margaret Moore revealing her garter watch and a very dainty ankle. Miss Margaret Moore can always tell the time of day by simply lifting her very short skirt and looking at her watch which is attached to her garter. So accurate is her watch said to be, when fastened to her garter that busy men often stop to ask her the time of day. She is always obliging.

AT THE CHURCHES

First Christian Church.
Bible school 9:45 a. m.
Preaching 11 a. m. and 8 p. m.
Intermediate Christian Educator at 6 p. m. and Senior C. E. at 7 p. m.
Midweek prayer services on Wednesday evening at 8 p. m.
The pastor and delegates have returned from the state convention at Galveston and reports will be made today and at the Wednesday evening services.
Strangers and visitors cordially invited.

First Methodist Church.
Dr. O. F. Sensabaugh will preach at both services. The people who have heard Doctor Sensabaugh have greatly enjoyed his sermons and will be delighted to hear him today.
The services of the day will be as follows:
Sunday school 9:45 a. m. G. Fisk, superintendent.
Morning services, 11 a. m.
Story hour, 4 p. m.
Intermediate League, 5 p. m.
Senior League, 7:15 p. m. Speech by Mr. Dean, president of the North Texas Epworth League Conference. All young people are invited.
Evening services, 8 p. m.
Everybody welcome. Strangers and visitors specially invited.
LEWIS N. STUCKEY, Pastor.

Altar Society.
The Altar Society of the Catholic church will meet Monday afternoon at 2 o'clock at the home of Mrs. Martin V. Simpson, 6011 West Tenth street. The afternoon will be spent with needle work. Many pretty things are being made by the ladies for a bazaar to be held this fall. The new church will soon be completed and the dedication services will be announced later.

First Baptist Church.
Bible school with classes for all at 10 a. m. H. E. Hiltson, superintendent.
Sermon at 11 a. m. by Rev. C. G. Howard, recently elected pastor of the church.
R. Y. P. U. at 7 p. m. Installation of recently elected officers.
Popular song services at 8 p. m. with attractive musical program, including duet, quartette and chorus numbers under the direction of Mrs. Atkins.
The visiting soloists are: Mrs. Edgar Noel, soprano; Miss Mary Bates of Abilene, pianist; and J. R. Dyer, violinist. No admission fee will be charged. A silver offering during the evening to be applied on a fund for the purchase of a piano. A cordial invitation is extended to all to attend these services and unite with this church and its new pastor in bringing to pass great things for their Lord—and Cisco.

Brownwood Punting Up.
BROWNWOOD, Texas, May 15.—A painting campaign is now in progress and very few houses in this city are escaping the touch of the brush. It gives to the city a newer and fresher appearance in every way.

METHODIST CONFERENCE TO CONVENE IN CISCO

The Methodist conference for the Cisco district will convene in this city Tuesday for a five-day session. There will be a hundred or so delegates in attendance, including two bishops and many prominent ministers and laymen.
O. F. Sensabaugh, presiding elder for the local district, and who resides in Cisco, gives out the following program:

Tuesday, May 18.
Opening service 9:30 a. m.
Organization, election of committees.
Preaching 11 a. m. by Dr. H. A. Boaz.
Two p. m. local preacher's hour.
Reports and passage of character.
Other minute business.
Eight p. m. preaching by Bishop W. N. Ainsworth, D. D.

Wednesday, May 19.
Nine a. m. devotional hour.
Reports from committees.
Election of delegates to annual conference.
Eleven a. m. preaching by Bishop Ainsworth, D. D.
Two p. m. great rally of hymns. Speaking by Judge Williams and others.

FAIN DRUG & JEWELRY COMPANY IS NEW NAME OF CISCO DRUG STORE

The Fain Drug & Jewelry Company is the new name of the "Cisco Drug & Jewelry Company," according to announcement made by the proprietors of this store, to become effective today.

This is one of Cisco's old and reliable concerns, enjoying the confidence of the people of Cisco and vicinity for their squareness in business and the quality and completeness of the stocks they carry—equal to that of any modern drug and jewelry store of this section.
R. C. Fain and S. J. Vaughan are the sole proprietors, with the former as president and manager of the company under its new name. But they need no introduction; they are known to the public in the Cisco area.
The change of name, they announce, is not made for any particular reason other than to more closely identify the

name with the firm and the conduct of its policy and business.
"Service first, quality always" is the motto they have held to in the past and will maintain in the future, they say.

LITERARY ACTIVITIES DURING SUMMER SCHOOL

AUSTIN, Texas, May 15.—Pierian Literary society of the University of Texas will continue its meetings during the two terms of the summer school. Miss Bertha Horton of Austin, has been elected to serve as president for the summer term. Other officers will be the same as will serve for the coming year. Those elected are: President, Bernadine Appleby of San Antonio; vice president, Marguerite Bengener of Austin; secretary, George Ball of Bowie; treasurer, Zee Drummond of Mission; critic, Sue Bunsen of Austin; auditor, Marjorie Galvin of Austin; sergeant-at-arms, Wilma Pleasants of Alvin; historian, Zoe Kinney of Eastland; corresponding secretary, Marion Harris of Greenville.

VILLA REPORTED TRYING TO RECRUIT FOR REBELS

WASHINGTON, May 15.—Francisco Villa was reported in dispatches from the border to revolutionary agents here today to have gone into the state of Durango to persuade the Arrieta brothers to join the revolution. The Arrieta brothers already have been claimed by the revolutionary leaders, but it was assumed these reports had not been heard by Villa.

RESERVE BANKS

WASHINGTON, May 15.—Combined resources and liabilities of the 12 federal reserve banks were as follows at the close of business May 14:

Resources.
Total gold held by banks \$673,138,000.
Total gold reserves \$1,939,141,000.
Total bills on hand \$2,964,582,000.
Total earning assets \$3,270,910,000.
Total resources \$6,186,071,000.
Liabilities.
Total gross deposits \$2,646,800,000.
Total liabilities \$6,186,071,000.

NEW ENGLAND TEXTILE WAGES TO BE RAISED

BOSTON, Mass., May 15.—A wave of wage advance announcements to become effective May 31 rolled in today from New England textile centers indicating that the increase would extend to virtually all the three hundred thousand textile operatives in the district. Wherever the amount of the advance was definitely stated it was 15 per cent. This will bring the level of textile wages more than 100 per cent higher than it was four years ago. Approximately a million dollars will be added to the weekly pay rolls of New England mills by the latest raises.

"This sharing with operatives of textile enterprise companies after many of the companies have declared considerable extra dividends of stock or cash to their stockholders. Prices for the products are still the highest ever received."

TO SEEK VIOLATORS OF GARBAGE CAN ORDINANCE

Dr. J. W. Gregory, city health officer, and J. A. Smith, deputy fire marshal say they have planned to make a survey, together, of both the business and residential sections of Cisco in search of violators of the city ordinance 222, which says that all refuse and inflammable materials must be put into closely covered metal containers.

Doctor Gregory says that ample time has been given every one to comply with this regulation, and that violators of this ordinance will be carefully searched out and dealt with accordingly.

MASONS TO LAY BAPTIST CHURCH CORNERSTONE

MORAN, Texas, May 15.—On Saturday, May 22, the cornerstone of the new Baptist church now under construction at this place, will be laid. This building, when completed, will be reinforced concrete, with brick veneer, and will be one of the finest churches in West Texas. It will be up to date in every detail, with the Sunday school rooms in the basement and a large auditorium.

The cornerstone laying services will be conducted by the Masons and it is expected that a large representation will be present from Albany, Cisco, Baird, Putnam and other parts of the state. A prominent speaker will be present at that time.

CALL ON MEXICAN CONGRESS TO NAME PRO TEM PRESIDENT

MEXICO CITY, May 12, via Laredo Junction, May 15.—Governor De La Huerta was called upon to summon the national congress to name an interim president at a meeting held at the national palace tonight attended by numerous leaders of the liberal revolutionary movement.

Eggs at 25 Cents a Dozen.
BROWNWOOD, Texas, May 15.—For the first time in two years, eggs are quoted at one of the local groceries at 25¢ per dozen.

THE NEWS' PLATFORM FOR CISCO AND EASTLAND COUNTY.

- 1.—A municipal auditorium or convention hall.
- 2.—Removal of unsightly awnings, and erection of uniform marquis on Avenue D.
- 3.—Development of the public schools.
- 4.—Truthful publication of oil news.
- 5.—Better rural schools.
- 6.—Development of every foot of Eastland county soil into productive acres.

CISCO'S THIRTY-NINTH ANNIVERSARY.

THIRTY-NINE years ago today a few pioneers and a little group of railroad builders were making preparations for the launching of a new town—a town which was destined to become the dominating city of Central West Texas. This city is Cisco. Tomorrow will be the thirty-ninth anniversary since this launching—May 17, 1881. There are a few here yet who participated in that event, and they recall the stirring scenes with much pleasure and pride. The struggles of those pioneers were many, and the obstacles were difficult to overcome; and for many years the little town just continued in almost obscurity. It was perhaps first heralded to the outside world when in April, 1893, it was swept away by a cyclone in which the toll was near thirty lives. But Cisco and courageous Ciscoans struggled on for other years, and built a better town.

It is a different Cisco today. Now a thriving city of some ten thousand population. It is a city rich in railroads, and a city from which six motor vehicle paved highways are to radiate this year. It is a city now constructing a reservoir to impound seven million gallons of water—enough to supply 15,000 people. It is a city with paved streets and sidewalks, with sewage, electricity and gas. It is a city of modern schools, and church edifices, and of beautiful homes. It is a city of modern, fireproof hotels.

Cisco is becoming the home of the big industrial institutions which are developing this rich oil belt; it is their distributing center, where are located machine shops, boiler works, refineries and nitro plants; it is the home of wholesale houses, and all the minor factories that go to make up a modern city. And last, but perhaps not least, a morning newspaper with the A. P. service.

This much accomplished in thirty nine years, but principally in the past five years. Tomorrow, Ciscoans should jubilate a little. A fitting coincidence is that on this anniversary the Dallas Chamber of Commerce, in a touring body, will visit Cisco, and will spend a few hours here getting better acquainted with Ciscoans. They will parade Cisco's streets with their own band. Ciscoans and Cisco's hand will join them and show them a reciprocal appreciation of their visit here.

TOMORROW the Dallas Chamber of Commerce excursionists will visit Cisco. Welcome, gentlemen, to this live city of the central west.

AGAIN—RECREATION SPOT FOR CISCO.

THIS is another day, Sunday, May 16, that calls for some alluring recreation spot. A park, for instance, for Cisco's overflowing population. Where will they go today, or what will they do in the idle evening hours? All people are not of the same inclination; and what is recreation for some is not recreation for others. They may have motoring or other longings which they are unable to gratify. A pretty park is a resort that satiates most recreation longings. And Cisco needs a park in park, as well as a mere pretentious rural park. A prominent Ciscoan recently suggested a \$300,000 bond issue with which to start Cisco's park system. It is a splendid suggestion and should meet a responsive approval. No better investment could be made by the city.

AS an illustration of the high cost of building or construction, it is cited by local contractors that the agencies of distribution hold the key to the situation. They claim that brick which may be had in near-by brick factories at one price are doubled in price—plus the freight—when the dealer goes to buy them in Cisco. And that cement, which is distributed through one agency for this oil area, is diverted to suit the interests of the agency, while many construction contractors are tied up and waiting. This is not building Cisco, and if these charges of the contractors are true, there is a field for investigation and activity by the Cisco Chamber of Commerce.

THOSE who have witnessed the rains in Cisco the past week, and observed the repeated flooding of several business buildings, incline to the opinion that some better drainage remedy is essential. This is especially the case where the water comes down the long Seventh street slope, pouring its floods on to Avenue D. After the hard rain Saturday evening even pedestrian traffic was checked for half an hour on this street, except by those who wore high rubber boots. There seems to be no present conduit to carry off this water, which is forced to spread out over the street and walks.

SINCE these May rains have been prevailing the Cisco water has been like other surface water—muddy, and even interspersed with pebbles. It suggests some clarification process for the water served to the citizens of Cisco—and this will doubtless come soon. But in the meantime, R. W. Mancill is worried to know what fish do when they get pebbles in their eyes—just as if there were not fish oculists.

TOMORROW, May 17, is Cisco's thirty-ninth anniversary. Let Ciscoans take an inventory, and then congratulate themselves on the accomplishments. Stop business for a moment of contemplation.

ON THE SPUR OF THE MOMENT

Some contributor writes in advising us to raise mushrooms in the cellar. That may be very well for some people, but, as for us, there isn't any room in our cellar now—very well for mushrooms.

Pennsylvania people are planning madless days. Do you have to plan those? We plan a week for you most.

Looks as though New Jersey and Rhode Island would have to float out beyond the three-mile limit.

It is avowed that Attorney General Mitch Farmer is about to take steps to reduce the high cost of living, but the profiteers have already taken the steps, as well as the front porch, the automobile and most of the furniture.

Sitting in a lonely farmhouse twenty miles from Omaha, Dr. Frederick H. Minkner, a scientist, is waiting for Mars to signal the earth. If he is as good a waiter as liquor has been, he may get the message.

THE PERFECT ALIBI

"My dear, I tried three times to get you on the telephone."

Professor Todd, who is to communicate with Mars, will go up ten miles in a balloon to be closer to his subject. A friend will take him up. Of course, this will simplify matters. When the professor is ten miles from the earth he will be only forty-eight million miles from Mars.

The balloon was a happy thought. It would have been extremely difficult for the professor to stand on the earth and attract the attention of the Martians, there are so many of us standing around. The Martians would not know which one was the professor, and somebody else might have butted in and tried to stand in his place.

Being in the balloon with his friend, far removed from the maddening throng of the professor can wave a handkerchief or shoot off a pistol or yell messages, and there will be no doubt on Mars but that the message is official and genuine. Those Martians who have seen the professor before will recognize his features.

Reducing the distance by ten miles should add much to the clarity of the messages.

Every day we read: "The strike will end tomorrow."

But, was it not Abraham Lincoln who said: "There ain't going to be no tomorrow—never in a thousand years?"

Perhaps not, but somebody said it.

"There is much advice on the subject of kissing, but all of it is when not to kiss," says the Toledo Blade. It's all medical advice, though, and free, and everybody knows what medical advice you get for nothing is worth.

THIS DATE IN HISTORY.

This is the anniversary, the one hundred and thirty-second anniversary, to be exact, of the discovery that hard cider contains more than two per cent punch. The discovery was made at a meeting of the board of elders of a Puritan church in Connecticut. After two rounds of hard cider they decided to build a new church and give all the purposes of the village \$19 a piece.

People of Pennsylvania are determined to end the era of one-dollar haircuts inaugurated by the barber there. Perhaps this could be accomplished by wearing several. That's reasonable.

An art critic went crazy when he saw a poor picture. He must have been crazy most of the time for many years, then.

HEART-TO-HOME PROBLEMS

Dear Mrs. Thompson: I am a girl 19 years of age and am corresponding with a fellow I have never seen. It happened in a sad way, but I may change to happiness.

He has sent me a few photos of himself and asked for mine in return, which I had not refused to send. Do you think I did the proper thing?

I have corresponded with him for over a year and he has always sent me most interesting letters. He is living in another business like his mother and when he was a little boy. He lives about 600 miles from here and has gone for a visit. Would this be proper, or do you think I should make an excuse?

My father is thinking it may send my chances after he knows if I let him come for four years will think we are married. (That is your advice?) He is three years older than I am. Do you think it would be all right for me to accept a box of candy from a fellow I have never met? My brother was well acquainted with him for a few months during army life. Then my brother died. After that he has written letters that prove to be respectful. He has asked how I would like to live in the South with him, but I have never answered this question.—A Busy Reader.

Since the young man was a friend of your brother's, it was all right to correspond with him and under the circumstances and for him to send you his picture.

If he wants to visit you, let him come. People need not know who he is, and you can assure them that you are not engaged.

It would be all right to accept candy from the young man.

Dear Mrs. Thompson: I am a young man 18 years of age and have never been out with a girl. It is not because I didn't want to go, but because no one seems to care to go with me. I have a good reputation and am fairly good-looking.

If you know how to do it, please tell me—Lonesome and the partner.

You must remember that it is the man's place to do the asking. A girl should not even show her actions that she wants to go unless she is asked. You will not have to make many attempts before you find someone who wants to go with you.

Dear Mrs. Thompson: I am a girl 15 years old and am in love with a man of 45. My mother and father are very much against him, although I do not see anything the matter with him. He says he loves me dearly and I am all the world to him. He has also said he could not get along without me.

Please do not say that I do not love him, for I do. I don't believe I could live without him. My mother and father heard some very bad things about him, although he claims they are false. I do not believe they are true. I am isolated very well at home and much better since this trouble. I have a few friends who are younger than myself, they behave as I do. Please give me your honest opinion about the matter and I will try to follow it.—An Advisee.

Seventeen years is no great difference in your age. There is little chance that you would like the same things for many years. He will be old when you are in the prime of life.

When you think that marriage should tie you for life, it is a pretty important step to take. If I were you I would wait two years at least before making any decision.

Your father and mother should be bet-

WHO'S WHO IN THE DAYS NEWS

LIEUT. COL. CHARLES SWEENEY.

Lieut. Col. Chas. Sweeney, known as "Sweeney of the Tanks" in the late war is no doubt in command of an American contingent now fighting with the Poles against the reds. On September 6, last,

Sweeney, who is a typical soldier of fortune, sailed from this country for Poland, after recruiting between 100 and 200 Americans who had fought side by side with him in the foreign legion and later in the A. E. F., to join the Polish forces in their fight for liberty.

Sweeney joined the foreign legion in 1914 and was wounded twice before America entered the war. He came back to this country at that time with the rank of lieutenant. Gallant action in the field of battle in France quickly brought promotion to the rank of major and lieutenant colonel.

Among Lieut. Col. Sweeney's decorations are the Legion of Honor, the Croix de Guerre with two palms and two stars and at the time of his departure for Europe last fall he had been recommended for both the American D. S. O. and D. S. C. Only recently the French government made him an officer of the Legion of Honor.

There is considerable going on in Poland and plenty of opportunity for a military man," said Sweeney on the day of his departure. "Poland needs soldiers of the American dash, and I have had no trouble in recruiting men like Col. William Thaw with between 100 and 200 other seasoned veterans."

Among Lieut. Col. Sweeney's decorations are the Legion of Honor, the Croix de Guerre with two palms and two stars and at the time of his departure for Europe last fall he had been recommended for both the American D. S. O. and D. S. C. Only recently the French government made him an officer of the Legion of Honor.

DINNER STORIES

A golfer just over from Scotland arrived at the Richmond country country club States Island, the other day. There is a superb view of the sea from the links. A club member was pointing out the scenic beauties to the Scot.

"Over there," he said, "is Sandy Hook."

"Why, all I see is a long stretch of low ground," said the visitor.

"Well, that's it," said the member. "It's a club member was pointing out the scenic beauties to the Scot."

An untutored countryman once treated himself to a trip to London, where for the first time in his life he saw a schoolgirl go through her gymnastic exercises with the accompaniment of the tin-ones with which she was nocking.

After gazing at her with looks of interest and compassion for some time he asked a boy nearby if she had tin-ones.

"No," replied the boy; "them's gymnastics."

"Ah, how sad!" said the man. "How long's she had 'em?"

An elderly lady was questioning the ex-artilleryman. "And what was the most terrible sight you witnessed in the war?" she asked.

"Well, it was like this," replied the soldier. "We had just spotted a German machine gun nest with about 12 enemy gunners that were holding up our advance. We located the nest and put the first shot right in the middle of the machine."

"How successful?" interrupted the old lady. "Did it kill them all?"

"None," replied the soldier, sadly. "It was a dud."

Orders From the Cook

Mich'ln Childer—The people here live pretty well, don't they?"

Cook—Oh, yes, I have them to understand they'd have it if they wanted to keep me.

The earliest Bible pictures were painted on the church walls instead of being bound between the book covers.

A plotter is to be held in Switzerland today to determine whether that country shall join the league of nations.

St. Peter's, Rome, is to be the scene of further elaborate ceremonies today in connection with the canonization of Joan of Arc.

Do you want to try Mr. EDISON'S REALISM TEST?

This is the new and fascinating way of testing the New Edison's realism.

We can give the same test that was made by distinguished American psychologists in New York. Let us give it to you. See whether the New Edison produces the same emotions as listening to the living singer.

RED FRONT DRUG STORE

ROY GRIFFIN LEAVING FOR HIGHER POSITION ON FT. WORTH RECORD

Advertising Manager of Cisco Morning News bids Good-Bye to Friends Here; Leaves Saturday.

Roy C. Griffin, advertising manager of The Cisco Morning News, has resigned his position with this newspaper to accept a lucrative offer with the advertising department of the Fort Worth Record. His resignation took effect Saturday.

Sixteen months ago Griffin came to The Round-Up, the weekly paper that people here have been reading for forty years, and are still reading. He built up a clientele among the merchants here in the way of advertising support, and held them as patrons when the paper was established. He took charge of the advertising department of The News and has devoted his untiring energy and best effort in its behalf.

The News has been running exactly three months. Its advertisers have had time to feel the returns they have gotten from every inch of publicity they inserted. Just as Griffin told them they would. This issue of The News is proof that the merchants here are willing to support a bigger and better newspaper than any other town or city in this oil belt.

Besides soliciting advertising during all of his waking hours, Griffin has taken a keen interest in civic movements. He was one of the founders of the Young Men's Business League, which has had a phenomenal growth during the few months of its existence. He was the commander of Post No. 123, American Legion, here, and also a member of the county executive committee of the Red Cross, in which he has rendered a great service.

Griffin will be connected with the photographic section of the Fort Worth Record, a position which will not only give him novel and interesting employment, but which will enlarge his scope of activity to the vast field in which that paper circulates. For the present he will leave his family in Cisco.

The crowning tribute to Griffin's unceasing activity came a short time ago, when, out of thousands of aspirants, he was chosen as the battle-cry; this city will forever use in its conquest for progress and expansion, "Cisco—the City That Teamwork is Building."

For their own sake, people here will be sorry that Griffin is going; for his sake—glad.

Hungary Elects First Woman.

BUDAPEST, May 15.—The first woman elected to office in Hungary is Margarete Schachta, successful Christian Nationalist candidate for the national assembly from the first district of the city.

WOMAN BALKS GREAT PLAN OF TEMPERANCE PARADE THROUGH CITY

Parliament Soared Demonstration of Delegates to the World's Convention; It's Illegal.

LONDON, April 30.—Parliament was spared a demonstration by delegates to the World's Convention of Temperance Workers recently held here, only because one of the London members warned the women that such action would be illegal. The proposal was made by Mrs. Lee Cowie, of New Zealand, who aroused the enthusiasm of the delegates by telling them that New Zealand women had been successful in a temperance demonstration. She said that when the New Zealand government was too busy with the war to attend to temperance legislation, the temperance workers organized the "silent march" in Wellington, which an impressed legislator had the temperance bill passed by the house of parliament by a small majority. She said, however, that the bill would have to be adopted by three-fifths of the house before it became a law in New Zealand.

"Why don't you women march on parliament from this convention?" she urged. "You don't want hatchets and hammers. If you don't get into parliament, the very fact that you march to the house to pray may show that you are in earnest and at any rate they might give Wales her bill."

This suggestion was received with much enthusiasm, until Lady Carlisle pointed out that it would be illegal, and that the convention would have to arrange a delegation and not a demonstration to go before the house. It was decided to send the delegation.

Miss Agnes Slack, summarizing the progress of the temperance movement, said that Finland and Iceland have obtained prohibition and that in Denmark the work was nearing completion. Nothing had been heard of the temperance movement in Russia and Bulgaria for three years.

"In China," she said, "the work is overwhelming because the liquor trade from the United States and Canada are trying to make a center for the sale of their liquor there."

BUDAPEST TO PUT STOP TO SMUGGLING OF VALUABLES

BUDAPEST, May 15.—It is estimated by the newspapers that money, jewels, precious metals and other valuables of small size and easy concealment, to the value of several billions of crowns have been smuggled out of the country in recent months. The government is considering a plan to organize a force of 4000 frontier customs guards to stop this smuggling for export. A large number of men already are employed for that purpose.

SPORT SNAP SHOTS

Allen Sothoron, the leading Irish ball pitcher of the St. Louis Browns, says that the new rules prohibiting freak deliveries, will not prevent the use of the so-called "sailer" this year. Sothoron says that as soon as the ball is hit once by the bat it leaves a mark on the smooth cover of the ball, and that this one bruise will enable the pitchers to use this spot in throwing a ball that comes up so mysteriously that the batters imagine it is floating up to them.

Sothoron believes that pitchers like himself, Cicotte and Eller, for instance, will be able to throw the so-called shine ball without rubbing the ball on their uniform. The Brown star contends that if batters think they are going to have an easier time making base hits this year, they are mistaken, for it is going to be just as difficult as ever.

Ricardo Torres, catcher of the Havana Stars, has been signed by the Washington Americans. He will be used to help Gharitty and Piehlich. The Cuban has a good arm and the Griffs have stolen few bases on him. He played formerly with Sioux City in the Western league.

Before signing Torres, President Griffith released Kilo Watt, Washington sandlotter, to Portsmouth of the Virginia league; Grubb, former tech, high star, to Chambersburg of the Blue Didge league and turned Washburn back to Dichta of the Western league.

Wallie Pipp, first sacker of the Yankees, is putting the fear of defeat in the American league hurlers this season. From present indications Pipp is riding hell for leather to a new record in long distance swatting; nothing seems to curb him. He is once more "Pipp the Pickler," and his drives are going to do a lot toward helping the Yankees over the top in the drive for the American league pennant. If the other Yankees hit their stride presently, "murderer's row" will mean something. An unusual feature of Pipp's hitting is the fact that he is slicing them to left field. Wallie is known to rival pitchers as a right field hitter, but it looks as if they will have to change their reckoning on him. Likewise the left fielders can no longer jam in behind the infield when he comes to bat. If they do they face the exertion of a chase to the fence.

Myers of the Robins, who recently engaged in a fist battle with Coach Oscar Duguey of the Braves after that member of the Boston club had enraged Robin by making him a target for uncomplimentary remarks, has received a letter from President John Heydler of the National league, referring to the unfortunate incident. President Heydler, in view of Myers' exemplary conduct on the field since he broke into fast company, hesitates to punish the player, but hopes he will not be called upon to review a similar case in which Myers is involved. This is Myers' 12th year as a professional ball

player and until the contest in which he exchanged blows with Duguey he was never put out of a game.

Harry Vardon, six times British open golf champion, has sent a letter of thanks to Alec Pirie, secretary of the Professional Golfers' association, concerning the invitation to compete in the P. G. A. championship tournament to be held over the Flossmoor links later in the season. Vardon wrote as follows:

"Your letter to hand with many thanks. It is nearly certain that Ray and myself will be making the trip. I have been asked to make at least one more trip across, and we shall be very pleased to play in your P. G. A. championship if it is at all possible. I will advise you later when we think of sailing."

Hold Rural Carrier Examinations This County on June 12

The United States civil service commission has announced an examination for the county of Eastland, to be held in Cisco, Eastland, and Ranger, Texas, on June 12, 1920, to fill the position of rural carrier at DeSmetona, Eastland, Ranger, Rising Star, Carbon, Cisco, and Gorman, Texas, and vacancies that may later occur on rural routes from other post offices in the above-mentioned county.

The examination will be open only to citizens who are actually domiciled in the territory of a postoffice in the county and who meet the other requirements set forth in Form No. 1977. Both men and women, if qualified, may enter this examination, but appointing officers have the legal right to specify the sex desired in requesting certification of eligibles. Women will not be considered for rural carrier appointment unless they are the widows of U. S. soldiers, sailors, or marines, or the wives of U. S. soldiers, sailors or marines who are physically disqualified for examination by reason of injuries received in the line of military duty. Form No. 1977 and application blanks may be obtained from the offices mentioned above or from the United States civil service commission, at Washington, D. C. Applications should be forwarded to the commission at Washington at the earliest practicable date.

Moran School To Close Friday

MORAN, Texas, May 15.—The Moran public schools will close next Friday evening, with commencement exercises and presentation of diplomas at the school auditorium. The class of 1920 is composed of seven members, six girls and one boy.

The class roll is: Misses Lena Rose Pettus, Flora Noel, Jewel Whitlow, Dale Mashburn, Zola Clement, and Ora Lee Pool and Bruce Nicholson.

At a great fur auction in New York recently nearly 20,000 skins of domestic cats were sold.

Dreary Weary Wash Days

EVERY WOMAN'S DREAM OF MARRIED LIFE WAS TO BE A sweetheart—not a slave. Yet when she has to undertake such drudgery as clothes washing during the days of summer's stifling heat—it is nothing short of slavery that is imposed upon her.

BUT WOMEN ARE ARRIVING AT A RECOGNITION OF THEIR proper station in life—they're the home executives—not the home laborers. Wise women dispatch the home work with efficiency—put the home on a business basis. When a business man wants his building painted he doesn't do it himself, because his time is better devoted to more important effort, and he knows others are more proficient in doing the work for him. It doesn't pay.

WISE WOMEN GIVE THEIR WASH TO A COMPETENT LAUNDRY that can do the work better and permit them to devote their time to more important home or social duties.

LET US DO YOUR LAUNDRY WORK. WE'LL DO IT RIGHT

THE CISCO STEAM LAUNDRY

Launderers and Dry Cleaners

ANNOUNCEMENT

We wish to announce to our friends and patrons that on and after today (May 16) our firm, which has been operating in Cisco under the name of the Cisco Drug and Jewelry Company, will be known and conducted under the title of

The Fain Drug and Jewelry Company

In this connection, we desire to state that there is no particular reason for this change in our business title except to bring in closer identity of name and conduct the policy of the firm.

The buying public in Cisco and its trade territory is familiar with the completeness and quality of the stock carried by this store. Of course you know that we carry everything an up-to-date Drug and Jewelry Store carries; if you do not know this, you have not visited and inspected our up-to-date store. Our motto, in the future, as in the past, will be

"Service First, Quality Always"

Cast your vote at our store, for Cisco's most Popular girl in the Queen's Contest.

R. C. FAIN,
President and Manager

LATEST IN SPORTS

TEXAS LEAGUE

SAN ANTONIO, May 15.—Pete Knise celebrated today when he blew himself to a home run over the left field fence with Manager Nye on first in the eighth inning and defeated Dallas 2 to 0. Claude Davenport and Snipe Conley staged a pitching duel up to that time with big Dave's brother having the edge. He fanned seven and gave but five hits.

Score by innings— R H E
 Dallas 000 000—0 5 0
 San Antonio 000 000 02—2 8 0
 Batteries: Conley and Robertson; Davenport and Gibson.

BEAUMONT, May 15.—Fort Worth made a clean sweep of the series by defeating the Exporters in the third game here today. Moore's home run with two on bases in the sixth was the deciding factor in the victory. Appleton was hit hard but tightened in the pinches after the second inning. Schneider was pitching his first game in a Beaumont uniform.

Score by innings— R H E
 Fort Worth 001 018 000—3 7 0
 Beaumont 030 010 000—4 11 1
 Batteries: Appleton and Moore; Schneider and Easterly.

HOUSTON, May 15.—A 16-inning battle, won by Wichita Falls from Houston 4 to 2 here today, ended by the mobbing of Umpire Powell, who worked behind the bat during the game. He called a runner safe at the plate in the tenth inning and ordered Manager Jewel Engls from the game for protesting. Five hundred or more fans waited outside the park for the umpire and only by the use of police protection was he placed in an automobile. Several fans struck him while seated in the car. Pop bottles and cushions flew thick and fast as the umpire left the field.

Score by innings— R H E
 Wichita Falls 195 190 000—4 5 0
 Houston 000 000 000—2 5 0
 Ten innings.
 Batteries: Zinn and Kitchens; Glenn and Harkins.

GALVESTON, May 15.—Galveston was shut out for the first time since its victory by Verbout today. McDonald's misjudgment of Knauer's drive to left field in the eighth gave Shreveport the run that broke up a pitchers' duel between Cerniglia and Verbout.

Score by innings— R H E
 Shreveport 000 000 000—0 6 1
 Galveston 000 000 000—0 6 4
 Batteries: Verbout and Vanz; Cerniglia and Hauser.

AMERICAN LEAGUE

NEW YORK, May 15.—The New York Yankees broke Coveleski's winning streak today, defeating Cleveland 2 to 0 in the first game of the series. In addition to picking a great game, Quinn hit a home run into the right field stands with Bodie on base in the eighth inning.

Score by innings— R H E
 Cleveland 000 000 000—0 6 1
 New York 000 000 02—2 4 1
 Batteries: Coveleski and O'Neill; Quinn and Hannah.

BOSTON, May 15.—Chicago took the opening game of the series today 2 to 1 from Boston. Faber beating Pennock in a pitchers' duel.

Score by innings— R H E
 Chicago 009 000 011—2 9 0
 Boston 000 000 010—1 7 2
 Batteries: Faber and Schalk; Pennock and Watters.

PHILADELPHIA, May 15.—The bunting of errors by home players in the ninth today saved Detroit from a shut out at the hands of Pitcher Naylor, the locals winning 4 to 1.

Score by innings— R H E
 Detroit 000 000 001—1 7 1
 Philadelphia 010 000 000—4 9 3
 Batteries: Leonard, Oldham and Stange; Naylor and Perkins.

WASHINGTON, May 15.—Washington hammered Sothoron hard today and easily won the opening game of the series from St. Louis 8 to 4.

Score by innings— R H E
 St. Louis 001 001 010—4 11 9
 Washington 000 050 000—8 11 1
 Batteries: Sothoron, Davis and Serrard; Courtney and Gharney.

NATIONAL LEAGUE

ST. LOUIS, May 15.—Brooklyn won its second straight game from St. Louis today, hitting Jacobs and May opportunely. The score was 4 to 2.

Score by innings— R H E
 Brooklyn 000 000 111—4 11 9
 St. Louis 000 000 000—2 9 3
 Batteries: Marnaux and Miller; Jacobs, Mays and Clemens.

CHICAGO, May 15.—Vaughn held Boston to four scattered hits today and backed with great fielding by Terry defeated the visitors 5 to 1, making it six straight.

Score by innings— R H E
 Boston 000 000 100—1 4 0
 Chicago 000 200 000—5 9 3
 Batteries: Fillingim and Gowdy; Vaughn and Killefer.

PITTSBURGH, May 15.—Nehf held Pittsburgh to four hits today and New York won 2 to 0. Adams was effective except in the sixth and seventh when the visitors scored their runs.

Score by innings— R H E
 New York 000 001 100—2 7 0
 Pittsburgh 000 000 000—0 4 2
 Batteries: Nehf and Smith; Adams and Schmidt.

CINCINNATI, May 15.—Bunched hits successfully off Causey today while Salie held Philadelphia in check and the champions won 5 to 2.

Score by innings— R H E
 Philadelphia 000 010 000—2 9 1
 Cincinnati 002 022 020—5 14 1
 Batteries: Causey and Transgerer; Salie and Wingo.

West Texas League Games Called Off on Account of the Rain

All West Texas League baseball games were called off again Saturday on account of rain.

The Ranger Nitros are slated to try their luck against the Scouts this afternoon at Harrell Park.

The Nitros will be here for four full games and in spite of the fact that there are several cripples on their list they are coming over here determined to take the lion's share of the series.

Scouts Make High Batting Averages in Mineral Series

The Scouts hammered the ball with unvarying accuracy during the Mineral Wells series, and hung up a list of excellent averages. Following are the hitters who participated in all three games with their batting averages for the series:

Griesenbeck	.780
Neely	.500
King	.450
Wasserman	.416
Mason	.400
York	.360
Johnson	.360

Think Harrell Park Will be Ready for Game Here To-day

The infield of the local ball yard was left in a softened condition as a result of yesterday's showers, but if no more rain falls before 4:30 p. m. the management promises to have it in condition for the opening game with Jim Gallows' Nitros. Gasoline will be burnt over the entire inner field and sand sprinkled over its surface early this morning.

May Pitch Kotelnick.

Kotelnick, who turned back the Reporters in their opening game here last Wednesday, and who stopped their batting rally Friday, will likely be Manager York's starter this afternoon. Local fans who want to see a big-time twirler in action will be amply repaid for their journey to Harrell Park today, if this boy is picked to face the Ranger club.

Forfeits Game to Joplin.

ST. JOSEPH, Mo., May 15.—After the Joplin team had made six runs in the 18th inning, breaking a 3 to 3 tie with St. Joseph, Umpire Wilson declared the game forfeited to Joplin 9 to 9 on the ground that the St. Joseph players had employed dilatory tactics.

GIL'S GLEANINGS

The Brooklyn club is certainly being compelled to fight for almost every game they play nowadays. They traveled 14 innings again Friday before a verdict could be rendered. This time the extra inning game was with the St. Louis Cardinals. Both pitchers went the entire distance.

We hear that Young, the pretty little third baseman of the Mineral Wells club, is a brother of Ross Young, outfielder of the New York Giants. If so, West Texas League youngster shows the class his big brother possesses, the fans of this circuit will soon be in for a treat every time the Resorters come to Cisco.

Fred Merkle was fined \$25 the other day, according to reports, for missing a fly ball. If that rule were enforced in the West Texas League there would be no ball players who know of who would wind up each month owing the management a considerable piece of jack.

Woe Willie Keeler, outfielder of the old Baltimore Oriole team, was perhaps the best place hitter of any age. He could hit almost at will to any field, and his versatile clouting brought forth the old saying of "Hitting them where they ain't." The outfielders could never shift for Keeler. He was as apt to hit one down the right field line as to send one down towards third, or punch out a little liner directly over the second sack.

If this rain keeps mowing up things around our ball diamond out at Harrell Park we will have to organize a water polo club or hire a fishing smack to sail out to the daily game every afternoon.

Unofficial batting averages of the Scouts show Tim Griesenbeck leading the trail for the other boys with an average of .444.

The rough home set of the fans at Houston yesterday was another demonstration of how an umpire can get in bad real quick when he doesn't keep a weather eye to the interests of his judgment of decision. We say this for the reason that umpire ought to be more careful in making such decisions against the home team—when in Houston!

Southern Association

NEW ORLEANS, May 15.—Rallies in the eighth and ninth innings today gave New Orleans a 4 to 3 victory over Memphis.

Score by innings— R H E
 Memphis 120 010 02—2 10 3
 New Orleans 000 010 011—4 7 2
 Batteries: Vance and Bischoff; Perdue, Torkelson and Dowie.

ATLANTA, May 15.—Atlanta took the second game of the series with Nashville today 2 to 2.

Score by innings— R H E
 Nashville 001 001 000—3 9 2
 Atlanta 001 002 000—3 8 2
 Batteries: Jannard and Kohlbecker; Sheehan and Powell.

BIRMINGHAM, May 15.—Little Rock defeated Birmingham in both games of the series' double header, 3 to 2 and 4 to 0.

First game:
 Score by innings— R H E
 Little Rock 001 001 010—3 8 1
 Birmingham 000 000 000—0 6 0
 Batteries: Robinson and Brotten; Gallagher and Peters.

Second game:
 Score by innings— R H E
 Little Rock 031 000 000—4 7 0
 Birmingham 000 000 000—0 6 0
 Seven innings by agreement.
 Batteries: Lochman and Brotten; Herbst and Goch.

MOBILE, May 15.—Chattanooga and Mobile divided the first double-header of the season here today, Chattanooga taking the first 2 to 0 and Mobile the second 4 to 1.

First game:
 Score by innings— R H E
 Chattanooga 100 000 001—2 8 0
 Mobile 000 000 000—0 6 3
 Batteries: Noel, Vines and Neiderkorn; Lukonovic and Coleman.

Second game:
 Score by innings— R H E
 Chattanooga 000 010 000—1 2 2
 Mobile 000 200 000—4 7 1
 Seven innings by agreement.
 Batteries: Vines and Neiderkorn; Priests and Ponds.

UNIVERSITIES ALLOW MORE TENNIS ENTRIES

CHICAGO, May 15.—The traditional allowance of only two entries in the singles and one in the doubles to each university participating in the western intercollegiate tennis tournament has been increased this year in order to stimulate interest in the event. Each college represented in the tournament the last of this month may send four singles players and two doubles teams. Efforts are being made to extend the entries in the intercollegiate dual meets as well.

Iowa State Golf Tournament.

DES MOINES, Iowa, May 15.—The 1920 Iowa state golf tournament will be held on the links of the Des Moines Golf & Country Club June 23 to July 3.

Scotland Yard, the headquarters of the London police department, was so called from a palace built there to accommodate the Kings of Scotland when they visited England.

PHILADELPHIA ADOPTS OWN BOXING RULES

PHILADELPHIA, Pa., May 15.—Philadelphia's director of public safety, James T. Cortelyou, recently announced a new code of rules to govern boxing bouts in the city which it is believed will benefit the ring sport here. Under the old rules, which had been in vogue for about nine years, all bouts were limited to six rounds, but Director Cortelyou has decided to allow bouts of eight rounds duration. He claims that by lengthening the number of rounds boxers will be less apt to "stall" and every fighter who signs up for a match will have to "watch his" at, or under, the stipulated weight called for in his contract. The director also has asserted that the new code will be enforced to the letter, and has warned all promoters, managers and boxers to that effect.

Following are some of the new rules:
 - Contestants shall not be permitted to have more than three attendants or seconds and these must refrain from coaching during the progress of the rounds.
 - Seconds shall use a fan and not a towel for fanning boxers.
 - All seconds shall remain in their boxers' corner during the bout and not place themselves in a neutral corner.
 - Throwing water by seconds on their man during a round shall disqualify the boxer, and one-half of the latter's money shall go to a hospital to be designated by the club.
 - Wherever a boxer is apparently out-classed the bout must be stopped.
 - No boxer shall be allowed to contest against an opponent ten pounds heavier than himself, in the lightweight class or under.
 - Weights shall be announced from the ringside.
 - Only soft bandages shall be allowed on boxer's hands.
 - Only six round bouts permissible.
 - The fabled blow known as the "kidney punch" shall be barred.
 - Smoking shall be prohibited.
 - No boxer shall be permitted to wear white costume.
 - Every contestant must be furnished a contract, signed by manager, boxer and promoter.
 - Grieving a boxer shall not be permitted.
 - All contestants in star bouts shall report to the superintendent of police 24 hours before the contest.
 - In case of disappointment the public must be notified.
 - Gloves must be put on in the ring.
 - Gambling in any form shall be prohibited. Any boxer, manager or holder guilty of gambling shall be barred from contests in this city for all time.

Baird Wallops Moran

MORAN, Texas, May 15.—The Moran baseball team met the Baird team on the local field Wednesday, in one of the best ball games ever staged in this city. The game was a pitcher's battle from start to finish, and excellent work was done by both teams. Moran made the first score in the fourth inning, which was the only score they made. Baird ran in two scores in the ninth inning, winning the game. The batteries were Moran, Anderson and Allen; Baird, Ray and Mahan.

Ground Hogs Collapse Highway.

COLUMBUS, Ind., May 15.—Ground hogs, burrowing under the Jackson-Bartholomew county pike near here recently caused a collapse of the highway and the report was so loud residents of Waynesville believed an awful earthquake had occurred. The pike was torn up and caved in for about 75 feet. Some of the openings were more than 10 feet deep.

WOMEN OF THE SOUTH EXCEED QUOTA IN BIG BAPTIST FUND DRIVE

WASHINGTON, May 15.—While the Baptist women of the south were asked for only \$15,000,000 or one-fifth of the total sum sought in the Baptist seventy-five million campaign, they responded with subscriptions of \$21,834,000, according to the annual report of the activities of the women's missionary union made by Miss Kathleen Mallory of Baltimore, corresponding secretary.

During the campaign 2300 girls and young women volunteered to give their whole time to special Christian service, 1800 new missionary societies among the women and young people were organized, 8,400,000 pages of tracts and other literature were distributed in the half of the campaign and 29,000 letters were sent out and over 32,000 miles were traveled in the interest of the drive by two of the women's missionary union workers.

A total of 2200 new organizations

TO STUDY MODERN METHODS OF CHARITY AND PENOLOGY

AUSTIN, Texas, May 15.—Interested from trips to various state institutions are being made by students in the class in modern methods of charity and penology, given at the University of Texas, under the supervision of I. G. Wright, lecturer on sociology, on the Red Cross foundation.

This course is a practical one, giving the students a foundation for training as social workers, and a general idea of the social work which has been done in this country.

Visiting from Decatur.

Miss Carl E. Browning of Decatur, Texas, is visiting this week in the home of Mrs. A. E. Caldwell. Mrs. Caldwell's residence is at 303 West Third street.

Wild animals scarcely exist in Japan. Few reptiles, and none of the poisonous species are to be found there.

MONDAY AND TUESDAY
THE VICTORY PICTURE HOUSE
 THE BRIGHTEST SPOT IN TOWN

"You win or lose the minute he first sets eyes on you!"

That was the thought pounding through Keith's brain. He meant to tramp back to civilization—back to face the chief of the Northwest Mounted Police. His uniform, his figure, his face even to the peculiar scar on the forehead—everything about him would not be Keith the fugitive from justice but Comiston, the officer of the Royal Mounted who lay dying before him, under the Arctic stars.

Soon he would stand before the chief "whose eyes could see through bullet-plate"—and before the girl supposed to be his sister—and, then before Shan Tung, the Chinese mystic who had known the dead officer and who never forget a face.

In "The River's End," James Oliver Curwood has written a tale of such fire, such romance, such vigor and intrigue and charm—and Marshall Neilan has so vividly transferred it to the screen that those who see it will long remember it as one of the brilliant achievements in photodramatic literature.

How to Obtain Passage to Malone's Auto Machine Shop

Start at Broadway and Main (Ave. D) go three blocks west on Broadway to Ave. G, thence north five blocks to Third St., thence east two blocks to corner of Ave. E and Third St. Streets are in repair and blocked on all other sides. Right here you will obtain the best service you have ever had. We are prepared to weld your auto and truck frames, or any other acetylene welding job. Don't overlook the fact that we guarantee our work to give entire satisfaction. Telephone 437. We call for and deliver cars. Malone's Auto Machine Shop.

Buy Buildings for Brick.
JEFFERSONVILLE, Ind., May 15.—Many brick buildings of former days have been bought in Jeffersonville in the last few months for the value of the brick they contain. Builders assert that in many cases the brick is superior to any that can be bought at the present time. Some of the buildings that are changing hands are a hundred years old. The old brick is going into modern structures with newer brick as a facing.

Spent Week on Ranch.
Mr. and Mrs. G. D. Ward have been spending the past week on their ranch in Tom Green county.

MORE THAN TWO INCHES OF RAIN HERE SATURDAY

At 3 o'clock Saturday the rainfall that day had been 2.14 inches according to Dr. W. E. Mancill, unofficial weather observer.

And perhaps another quarter inch fell in the evening.

According to this observer, the rainfall in Cisco during the past 10 days has been 5 inches.

This is a good May precipitation, and puts a real "rop" season in the ground.

Might Have Been Beer

GALVESTON, Texas, May 15.—The familiar clink of glasses through the closed shutters of a dwelling led to a raid on the place by federal prohibition enforcement officers. Four hundred bottles of an amber liquid, which officers said "smelled like beer, looked like beer and tasted like beer," were confiscated. Two vats filled with mash and other brewing accessories were taken over by the federal officers.

Mr. Oliver Lodge says that if we were capable of harnessing all the atomic energy contained in a small piece of chalk or any other matter of a similar size, we could have enough power to raise 100,000 tons to a height of 3000 feet.

MARKETS

Cotton Livestock Financial

BAD WEATHER AND CROP ADVICE FEATURE COTTON

NEW YORK, May 15.—Unfavorable weather and crop advices were the features in the cotton market again today. October contracts sold up to 36.18, or 39 points net higher and 53 points above the low level and later fluctuations were irregular. That delivery closing steady at a net advance of 12 to 35 points.

The market opened firm at unchanged prices to an advance of 28 points and sold 20 to 30 points net higher during the middle of the morning on covering, while there was also scattered buying for long account and a moderate demand from Liverpool for near months. Reports of too much rain in parts of the western belt and that unseasonably low night temperatures were retarding germination appeared chiefly responsible for the advance which carried July up to 38.27 and December to 35.23. Business was fairly active at the start, but tapered off after the more urgent demand from shorts had been supplied and closing prices showed moderate reactions. There was a little trade selling at times during the day but New Orleans bought here and the tone of the market was generally steady to firm.

CORN ADVANCES, BUT FAILS TO HOLD WELL

CHICAGO, May 15.—Corn rose today to new high price records for the season but failed to hold well. Much of the strength came from wheat which was in great demand to ship to Europe. On the other hand possibility of a rail strike settlement early next week was an evident bearish factor toward the last. The market closed nervous at 1.8 to 1.2 net advance with July \$1.78 1/4 to \$1.78 3/4 and September \$1.64 3/4 to \$1.64 3/4. Oats finished 1/4 off to 3-5 and provisions down 1-2 to 30c.

With exporters holding their bids for wheat it did not take long for the corn market to succumb in sympathy and during the first half of the day the majority of traders acted as if there was little chance of any immediate relief from the scantiness of grain supplies at terminals. It was said that 20,000 cars would be sent from the east to handle grain.

Provisions declined with hog.

NO CHANGE IN SUGAR, UNDERTONE IS STRONG

NEW YORK, May 15.—While there was no quotable change in the local raw sugar market, the undertone was strong with holders asking much higher prices. No fresh business was reported and prices were nominal at 20 1/2 cents for Cuban cost and freight, equal to 21.57 for Centrifugal. Private advices from Cuba said 23 cents had finished trading during the past week and that the output would be much below last year's figures.

In refined two of the sales offices were closed and there is some talk in the trade of closing the market Saturday during the summer months. There was no change in prices, which are listed from 19 1/2 to 25 cents for fine granulated, the latter price for July-August shipment.

The continued strength in the spot market led to renewed buying in futures and prices were strong with several of the active positions selling a full cent above the previous close or the maximum fluctuation permitted in any one day's trading. The close was firm at 65 to 100 points net higher.

OVER EXTENDED SHORT POSITION IN MARKETS

NEW YORK, May 15.—Although authorities continued to emphasize the further reactionary tendency of the financial and commercial markets today's short session of the stock exchange was declared to have furnished additional evidence of an over-extended short position.

A sentimental factor in the moderate recovery of prices was the belief that further gold imports from London are impending.

Dealings fell to the smallest volume of any week end so far this year. Sales amount to 250,000 shares.

The clearing house statement, issued after the close of the market, was the reverse of most forecasts. Heavy transfers by local banks to meet federal interest payments and withdrawals by interior institutions for crop moving purposes caused only a relatively small increase in actual loans and discounts. Instead of a deficit in reserves that item showed a gain of considerably more than \$23,000,000.

Trading in bonds was fairly large again, concentrating in Liberty and Victory issues at further price impairment. Total sales (par value) aggregated \$6,750,000. For the week old United States 2's and 4's each declined 1/4 per cent on call, with a drop of 2 per cent on Panama 3's.

COLD WEATHER FORCES COTTON PRICE HIGHER

NEW ORLEANS, May 15.—Cold and wet weather in the southwest forced the price of cotton higher today in a moderate way. The market was steady from the opening and it rose steadily in the early hours. At the same time more or less caution was displayed among traders on the long side because of the unfavorable character of end of the week reviews of trade in general. The opening advance was followed by realizing from longs and from then on the tendency was to react in a small way. Closing quotations were 11 net gain for the session of 27 to 35 points.

Reports from the western belt indicated that the rains were fairly general and also that they were heavy in many places. In addition to the moisture, which was not wanted in any section, temperatures were too low. The forecast of showery weather for practically the entire cotton region was regarded as very unfavorable for the crop.

WOMEN OF KENTUCKY ASSURED OF VOTE

FRANKFORT, Ky., May 15.—Women of Kentucky have been assured of the right to vote for presidential electors in the coming presidential election, independent of the ratification of the federal suffrage amendment of the requisite number of states.

This opinion was given George G. Speer, state banking commissioner, by Attorney General Charles I. Dawson, who holds that an act of the Kentucky legislature passed this year, to provide for woman suffrage in presidential elections, is valid and that under its provisions women may participate in the presidential election.

The attorney general said he could find nothing in the bill which would conflict with the constitution of the state of Kentucky or of the United States.

The largest Christian church in Africa is the new cathedral recently consecrated at Kampala in Uganda.

Port Worth Cattle Market

PORT WORTH, May 15.—Cattle, receipts 1050; steady. Steers 8.00 @ 11.00; stockers 8.00 @ 10.50; cows 3.25 @ 9.50; heifers 3.00 @ 11.00; bulls 5.00 @ 6.75; calves 5.00 @ 11.75.

Hogs, receipts 300; 15 cents lower. Heavy 12.75 @ 14.00; light 14.00 @ 14.25; medium 12.75 @ 13.75; mixed 11.75 @ 12.75; common 10.75 @ 11.75; pigs 8.50 @ 11.25.

Sheep, receipts 3000; steady. Lambs 13.00 @ 14.25; yearlings 12.00 @ 13.00; wethers 10.50 @ 11.75; ewes 9.50 @ 10.50; culs 5.00 @ 6.00; goats 4.50 @ 7.25.

SELF-WHIPPING STILL BEING PRACTICED IN PHILIPPINES

MANILA, P. I., May 15.—The practice of self-whipping in public to appease divine wrath, which flourished in certain countries of Europe centuries ago, still exists in the Philippine Islands, although in a diminishing degree each year.

Advices from the provinces where educational advantages are not enjoyed show that the practice was indulged in during the Easter holidays this year, though not by as great numbers as in former years.

Hundreds of Americans and other foreigners gathered at an open field to witness the weird performance, but only six appeared to do penance.

These beat themselves over the backs with heavy flexible bamboo floggings rods. Later they walked to seven places in the field, denoting the seven notes of the cross, where they were beaten by the master of ceremonies. When the flogging is completed they throw themselves into a pool of mud and as they come from the stagnant water, their wounds are washed with pure water and healing medicines applied.

The Shop of Service

—Does It Pay to Advertise?

We have all heard this question asked many times. Now is a good time to settle this question for yourself. Remember this: that to-day is Sunday—you have nothing else much to do except go to Sunday School and Church, help get dinner, dry the dishes, read the papers and advertisements. In these ads you are going to see a "refrigerator" for sale. You know you are going to need a refrigerator this season, and you will get up in the morning with your mind made up to buy a refrigerator of some kind, so you will go to town and look at all the refrigerators at the different stores, and at last you will purchase a nice looking, well-built, ice-saving, labor-saving, LEONARD CLEANABLE refrigerator from H. L. HUTCHINSON & CO., who know a good refrigerator many times. Now is a merrier.

Don't fail to see the LEONARD before you sign your check.

Hanes Tires

Hanes Tubes

BETTER TIRES FOR LESS MONEY

People sometimes wonder how Hanes can make a Better Tire at a Lower Price than other manufacturers.

The answer is in the fact that the Hanes factory is located in the South—in the heart of the cotton fabric district, and near the rubber markets—and everyone knows that Tires are made of rubber, cotton fabric, and labor. Hanes does not have to pay big freight on rubber and cotton.

Hanes Tubes are as Good as Hanes Tires

Hanes "Gray Steel" Tubes—Hanes "Heavy Red" Tubes—Hanes "Rustpruf" Tubes. The good name enjoyed by Hanes Tires is based on fair dealing, good service, and long mileage.

Hanes Tires
Are Made
for the Kind
of Rough
Usage Tires
Must Get
on Country
Roads

HANES TIRES DESERVE HANES TUBES

A Tire is no better than its Tube; not even the best casing can give you trouble-proof service when a poor inner Tube is used with it.

Hanes Tubes are as good as Hanes Tires, and used together, the two make a combination that is hard to beat.

Hanes "Gray Steel" Tubes will outlast the average motor car. Some people prefer the Hanes "Heavy Red" Tube, at a slightly lower price. Both represent long service.

In the Hanes "Rustpruf" Tube you find a patented Tube that will resist the rubber-eating effects of the rust from the rims of the wheel.

"Try to Break One" is a familiar advertising phrase of the Hanes manufacturers. Use all the strength you have, apply all the tension you can, strain all you will, but you can not break or injure a sturdy Hanes Tube.

Automobile Accessories

WE WANT YOU TO GET ACQUAINTED WITH OUR COMPLETE LINE OF AUTOMOBILE ACCESSORIES—FOR EVERY MAKE OF CAR. USERS OF CARS THROUGHOUT THIS TERRITORY ARE FAST LEARNING THAT OUR ACCESSORY DEPARTMENT IS COMPLETE WITH EVERY KNOWN CAR ACCESSORY—AND EVERY ARTICLE LEAVING OUR STORE HAS THE BACKING OF SATISFACTION GUARANTEED, NOT ONLY FROM THE MANUFACTURER, BUT FROM US AS WELL. IF YOU ARE NOT ALREADY ONE OF OUR CUSTOMERS, WE INVITE YOU TO CALL AND INSPECT OUR STOCK—YOU WILL BE SURPRISED AT ITS COMPLETENESS.

IT IS POOR POLICY ON THE PART OF THE CAR OWNER TO WAIT UNTIL ACCIDENT OR TROUBLE OVERTAKES HIM TO THINK OF ACCESSORY NEEDS. THE SAFE PLAN IS TO TAKE AN INVENTORY OF YOUR CAR NEEDS EVERY FEW DAYS AND PLAN AHEAD ON WHAT YOU ARE SURE TO NEED—AND BUY IT—PERHAPS SAVING ACCIDENT AND NO END OF TROUBLE. WE OFFER OUR SERVICES TO THE MOTORING PUBLIC OF THIS SECTION TO EXAMINE YOUR CAR, TELL YOU WHAT YOU NEED AND SUPPLY IT FROM OUR COMPLETE STOCK OF QUALITY AUTOMOBILE MERCHANDISE. WE ARE ANXIOUS TO SERVE YOU.

900 AVENUE D, CORNER 9th

Along Automobile Row

By R. M. HUDSON

There have been two accessions to Cisco Automobile Row during the past week.

Tom Bliss, a Cisco young man, has opened a tire, inner tube and other rubber goods house at 419 Avenue D.

W. W. Bell & Sons, with the agency for the Standard Eight automobile, have a show room at 709 Avenue E.

One of the weary waits, next to waiting on a belated passenger train, is to be waiting for freight shipments of automobiles. "And if it is an Oakland on route," said H. D. Fulwider, of the Fulwider Electric company, "your patience is the more taxed, because of the price that is coming."

Work is speeding up on the Broadway auto block and Whiskey & Maffey expect to get in their new Elgin Six house there before June 1.

The Central Motor company is the biggest accession to Cisco Automobile Row recently. This company is the direct distributor for the Dodge Brothers' car, with main office in Waco, Tex.

The home of this new house is in the McBermet building on East Ninth street.

The Sturm Oil company is considered authority on lubrication. A. J. Lewis, manager of their three stations in Cisco, gives this lecture on the subject.

ed to go carefully over his truck and turn down all the grease cups.

"The life of a truck is increased by proper lubrication. The wearing parts are reasonably protected when coated with a film of oil or grease, and wear is considerably lessened, not overlooking the fact, too, that friction is decreased within the truck itself, leaving more power for the overcoming of road resistance."

"The engine oil should be changed at regular intervals, and occasionally kerosene run through the engine to clean it out thoroughly—removing any foreign particles or acid oil sticking to the metal. This is insurance against scored cylinders or burnt-out bearings."

"Often the thought is that the time spent in lubrication is lost time, but the advantage in overcoming large repair bills more than outweighs the so-called wasted time."

"A half-hour each day spent in systematic lubrication prevents the necessity for repairs that require days and sometimes weeks."

One of the most extensive and complete machine shops now in Central West Texas is the Auto Electric company. They have three distinct departments, the electrical repair and the machine.

In their electrical department, they have a complete electrical supply and care for all electrical troubles. This department contains an electrical testing machine, the only one in Cisco, they say, which locates trouble without experimenting, and it thus saves time and of course cost.

Their machine department is equipped with the most modern tools and machinery. Here, they can make any part of an automobile, or do any other machine work. Among the ponderous machines, is a Giant rolling machine,

that will turn out auto axles, or do any complicated steel routing. Another machine is a Giant Press, with a pushing capacity of 22 tons. It is used for removing gears and refitting bushings, and straightening auto axles without heating.

Then their equipment contains a machine for manufacturing acetylene gas for welding. And in this connection they have an oxygen process for cutting iron or steel. In this chemical process the heaviest parts may be severed by heat in just a few seconds and just as smoothly as if sawed, and cutting out no more of the steel or iron than a saw would.

Their big machine for pipe threading is partly up, but they haven't room in their machine quarters, and this department will be set up in some other location. Their threading machinery chambers pipe up to 18 inches.

This shop is a real credit to Cisco Automobile Row, and is conducted by A. B. Lewis and A. J. Edwards, in the Willard building.

CINCINNATI TO INSTITUTE DRASTIC TRAFFIC RULES

CINCINNATI, Ohio, May 15.—The designation of nine streets in the downtown section of this city as one-way thoroughfares is the outstanding feature of a tentative traffic code which has been submitted to the city council by a special traffic committee.

On these nine streets traffic would proceed either west, east, north or south. On none would traffic be permitted in the direction opposite to that designated for the street.

The adoption of this recommendation would mean the elimination of approximately two miles of street car track. Instead of present double track, single tracks would be utilized.

A special traffic committee bringing in the recommendations is composed of city officials, automobile owners, traction officials and others. Considerable opposition is being expressed by merchants anticipating that the abandonment of a part of the street car traffic would cut into their business.

Tanks Earning a Living

It was commonly supposed that the tanks, like the submarines, would become parasites. Not so. A French official in the employ of the ministry of public works harnessed one of the iron-tanks to a snowplow and set it to experimental work in the Alpine valley of the Barcelonnette. It forged its way over a snowbound road, clearing five

miles of roadway an hour for an expenditure of only one gallon of gasoline per mile. As a result, the French government plans to put all of the others to this profitable pursuit, which will pay the cost of their upkeep.—Motor Life.

A silent, keyless clock, which contains only four wheels and no springs, is a late invention.

Do You Know the Secret of Essex Leadership?

It is the New Light Type With Big Car Ability. Can Any Light Car Rival Its Speed, Power or Endurance? . . .

Lightness today is an overwhelming advantage in a motor car provided it means no forfeit of fine performance, endurance or distinctive appearance.

Yet, prior to the Essex, what car combined all these qualities? There were light cars to be sure. But none to meet the requirements of those who exact the highest standards of ability, comfort and good looks.

Had such a type existed, Essex could not have won such swift dominance. It could have set no world's selling record as it did, with a greater total paid for Essex than for any car ever brought out in its first year.

The very suddenness of its success shows how its qualities commanded attention. For men are not quick to buy a car that time has not proved.

And the Essex came unknown. Merit was its only advocate for recognition. Its quality was instantly obvious. In looks, in action, its appeal was dynamic. And it drew immediate response from all classes of motor users.

Almost Doubles Light Car Endurance

They found ability, speed and power before believed impossible in a light car. Now see how Essex has justified all the fine things that have been said in its praise. An Essex stock chassis set the official world's 50-hour endurance record

of 3,037 miles. In three tests it travelled 5,870 miles averaging above a mile a minute. An Essex stock touring car also holds the world's 24-hour road record of 1,061 miles.

To those who had owned light cars, the Essex was a revelation. It gave them a new sensation of stability and power. They found charm of appearance, riding ease, and pride of ownership that comes from possession of a car they know none can surpass in performance.

The Dominant Light Car By Official Proof.

People accustomed to fine car qualities recognize in the light Essex, all the performance, comfort and good looks that formerly were regarded exclusive to the large, costly cars.

And with it Essex brings every advantage of the light type. These compel consideration. They consist not only of important economies, but of greater handling ease, safety and convenience. Parking for large cars is becoming an increasingly difficult problem. So, too, is their manipulation in heavy traffic. The light car clearly shows its value in greater nimbleness. The common sense facts prove it from every angle, the type for all-round usefulness.

When you know the appeal of the Essex you will scarcely be content to drive another car.

AUTO AND ROAD CHAT

The motor industry is said to be up to schedule production in the face of railroad troubles in handling freight, and the shortage of the required skilled help. According to the National Automobile chamber of commerce, more than 40,000 cars were driven from western factories to points as far distant as 1000 miles during the month of March. This is the largest number ever driven over roads to dealer agencies, and is an object lesson of the inability of the railroads to handle the shipments.

Two Salt Lake City women, Mrs. Alice M. Bulmer and Mrs. Kittie Brasher, who have just completed a 15,000 mile tour of America, have started for the Far East to tour the Orient in an auto.

May 15, today, is good roads Sunday, truck good roads week, and the national committee in charge has addressed a letter to clergymen of every denomination inviting their attention to the "relation between good roads and right living and good roads and Christian progress." This is one of the many methods employed in impressing upon the minds of the people the need for surfaced roads. In stressing the point that early construction of better highways will prove one of the quickest ways of facilitating production, the committee's call says:

"The purpose is to fix in the heart of citizens the conviction that the next step to be taken for the welfare of the community, the nation, and the world, is immediately to improve the highways and to inaugurate measures whereby every mile of roadbed in the United States may be hard surfaced as soon as the combined forces of counties, states and the federal government can secure this result."

Calling attention to the urgent need of increasing transportation facilities, the call continues:

"The waterways and railways can no longer handle the volume of traffic that must be moved.

"Daily, six carloads of freight are offered for shipment in five cars that are available for this purpose. The city dwellers cannot continue to pay the present prices of foodstuffs. A national factor in these excessive costs is the haul from the farm to the town over primitive roads. The human family cannot live on the present annual supply. If production is to be increased the farmer's life must be made attractive. Nothing will produce this result as surely as modern highways."

It is claimed that there is now a growing favor for the Oregon plan of automobile taxation, which is based on gasoline consumption. Oregon has a law that automobile owners must pay tax on gasoline at the rate of one cent per gallon. This is looked upon as an equitable tax, and it brought a revenue to Oregon from March 1, 1919, to January 1, 1920, of some \$6,000,000 automobiles of 1919-20. And it is estimated that the 1920 revenue will reach half a million dollars.

Cabinet Member's Favorite. S. S. Montagu, secretary of state for India, has proved his unique courage in riding a fiery, untamed motor scooter over the humps of Whitehall. To see him keep his monocle in place as his puffing steed bucks at the ruts would be a thrilling sight to even those veterans of Buffalo Bill days.—Motor Life.

"Per Cent Grade." The meaning of the expression "per cent grade" is not clear to a great many. It's simple enough when once those who have someone say that his car can make a 20 per cent grade, for instance, you know that he means that it will go up a hill or incline that has a vertical rise of one foot for every five feet of level forward motion. If the incline of a hill is a mile long, or 5280 feet, then its vertical height at the end of a mile is 1056, or 20 per cent of the base length. The distance from which the percentage is figured is not the actual distance the car travels in going up the hill but the length of hill's base line.

The "Ford's" Prayer. The Ford is my chariot I shall not want Another. It maketh me lie down in wet places. It destroyeth my soul. It leadeth me into the paths of ridicule for its namesake. It prepareth a breakdown for me in the presence of mine enemies. Yes, though I run through the valley at 25 per. I am tped up the hill. I will fear more evil when it is with me. Its rods and its shaft discomfort me. It annootheth my face with oil. Its water boileth over. Surely to goodness, if Lizzie follows me all the days of my life. I shall dwell in the house of the Nuts forever.—W. P. H. in Top Notch Bulletin.

Trucks Emptying Stables. Of the 10,884 stables that were in New York City in 1917 only 7920 remained in 1919, according to a census taken by the sanitary bureau of New York city health department. In the same length of time, the number of horses had been reduced from 108,936 to 75,749. While the reduction was most rapid in the case of private undertakings, nevertheless the city, state and federal services also showed pronounced reductions, there being 52 fewer stables and 286 fewer horses.

Tacks and Trucks. The trolley company in Waynesboro used a unique method to keep autos and trucks off its roadbed during the recent snow storms. Motor vehicles straddling its tracks threw snow off the rails and impeded the service. The officials gave orders to strew tacks by the barrelful over the roadbed and there after the service was better and snow-plows did not have to work so hard.—Motor Life.

TAYLOR A. E. BATEN

of Vernon Hinkle, 1397 University Court in Indianapolis, a tour's manager: "The oil men will eat and sleep in their private cars and already have their pastboards of admittance to the big auto classic, stowed away. The crowded hotel accommodations always incident to the race have no terror for these far-seeing Texans, who arrange their pleasure trips with much the same neatness and efficiency that characterize their business transactions."

Utility of Paint. Do not forget that paint on the motor car is not wholly for looks. Paint protects the surface below it from the effects of moisture or mud. And this is true whether the surface be metal or wood. For instance, the conventional wooden wheel will quickly go to pieces if this is not conserved by a coat of paint. And so by the same token will the wire wheel if it is not similarly preserved. Do not let the paintwork about the car fade off and permit the elements to work their way with the material underneath.

Airplane Survey. Tasmania, like the rest of us, is making the best of scientific achievement. Recently an airplane was used over certain areas in which no man had ever

placed his foot to survey a route for the erection of a transmission line capable of delivering 10,000 horsepower of electric current a distance of 50 miles. The plane traveled 189 miles, flying over wild mountain peaks, at an altitude of 6000 feet, over numerous lakes, lagoons, rivers and heavily wooded country. Before the airplane had reached its present efficiency it would have taken several months to obtain this information, owing to the forbidding nature of the country. In this instance it took but a few hours.—Motor Life.

Sweden was the first country to recognize the equality of sons and daughters in the matter of inheriting property. Even in the extreme south of Norway there is no darkness from the end of April to the middle of August.

Lowe's advertisement featuring an illustration of a painter on a ladder and text: "This paint goes farther and costs less to make it go. Lowe Brothers High Standard Paint has a way of spreading out and covering more surface than any paint you have ever used. Not only covers more surface, but covers it better. That's why it always costs less than cheap paints. High Standard not only saves you money—it makes you money because it makes your property worth more. Besides lasting longer, this paint looks better as long as it lasts. If you want to prevent painting troubles you want to use High Standard. Come in and talk it over. Ask for booklet and color card. Both are free. BURTON-LINGO COMPANY"

Chalmers advertisement featuring an illustration of a Chalmers truck and text: "The Story that Service Records Tell about the CHALMERS Hot Spot and Ram's-horn. A business man walked into a Chalmers store: 'If you will let me examine the service records of the Chalmers for the last three years I will tell you whether or not I will buy a car from you.' The records were laid before him. He bought a Chalmers. Three years ago Hot Spot and Ram's-horn were first used in a Chalmers. In that period replacements per car per year have become a remarkably small item. For Hot Spot and Ram's-horn, by their ingenious ways of preparing the inferior 'gas' of the day for combustion, have built up a series of virtues: 1—They get more power out of low grade 'gas.' 2—They get smoother power. 3—They prevent the frequent fouling of spark plugs. 4—They prevent raw 'gas' from trickling down past the pistons into the crankcase. (Thus the lubricating oil is not thinned out and such troubles as burned bearings and scored cylinders are notably absent.) 5—They reduce vibration. Not only does a Chalmers run smoothly, but this smoothness is a continuous performance. Hence repairs are small and replacements infrequent. The service records denote a diminishing influence in Chalmers cost, and in the meantime the obvious result has been increased impetus to sales. That is but another reason for that daily growing impression that Chalmers is one of the few great cars of the world. CISCO MOTOR CO. PAUL BURROUGHS 6th St., opposite Katy Depot Sales and Service"

No Job Too Large

Mr. Automobile Owner,
Dear Sir:

Possibly your car won't kill or injure someone; damage property belonging to others; be damaged by collisions; cost you damages in four figures or repairs in three.

But 1,400 daily Auto Accidents happen in America throughout the year in the United States alone.

Which is it with you—
FAITH OR JUDGMENT?

If faith, then you are gambling with luck. If judgment, then you will protect your savings and income by adequately insuring your car with J. M. Williamson & Co.

You will not have to face a liability or be called upon to pay damages or repairs.

We will step in, assume your responsibilities; tactfully and quickly pay damages, settle claims, take care of legal expense, defend suits and make satisfactory repairmen.

Very truly yours,
J. M. WILLIAMSON & CO.

NATIONAL MEMORIAL AMPHITHEATRE, WASHINGTON, NOW REALITY

Veteran of Grand Army of the Republic Sees 18 Years' Work Crowned in Success.

WASHINGTON, D. C., May 15.—To the memory of the soldiers and sailors who fought the battles of the United States, in all wars, a great memorial amphitheater was dedicated today in Arlington National cemetery.

The ceremonies were attended by veterans of three wars, members of the diplomatic corps, cabinet, senate and house and other government officials, and a large gathering of people.

The dedicatory exercises were under the auspices of the Grand Army of the Republic, to whose efforts credit is given for the inception of the memorial and for 18 years of work for it.

Secretary Baker, Secretary Daniels, both members of the commission which had charge of the construction of the memorial, and Colonel D. T. Hall of Columbus, Ohio, commander in chief of the Grand Army of the Republic, were the principal speakers.

The great structure of white marble built by the government at a cost of \$25,000, stands in the southern part of Arlington National cemetery, amid the graves of thousands of the nation's dead. Near it are the Maline memorial, where the battleship Maine's fighting top stands sentry over the graves of the men who lost their lives when the vessel was sunk in Havana harbor, and the Confederate memorial, surrounded by the graves of Southerners.

Besides commanding a view of the cemetery, the memorial overlooks the Potomac river and the city of Washington. It contains a chapel and seats 1800 people.

Fifty-six years ago yesterday Arlington National cemetery was first used when President Lincoln personally witnessed the burial there of 12 soldiers who died in the hospital on the Arlington estate, abandoned by General Robert E. Lee's family at the beginning of the civil war and bought by the United States at a tax sale for hospital purposes. Later the government paid the Lee heirs \$119,000. Soldiers' Home cemetery was filled and Quartermaster General Meigs, with President Lincoln's consent, ordered the soldiers buried in Arlington. That was the beginning of Arlington National cemetery, which has become one of the shrines of the nation's soldier and sailor dead.

For years a little vine-clad amphitheater served for ceremonies on memorial days, when the President of the United States usually was the orator, but the gatherings outgrew this and the Grand Army of the Republic 18 years ago began a movement for the memorial amphitheater.

Authorization for construction was given by congress several years ago and a commission appointed to carry out the plans. Besides the secretary of war, who is chairman of the commission and the secretary of the navy, the commission was composed of Elliott Woods, superintendent of the United States capitol building and grounds, Col. John McElroy, representing the Grand Army of the Republic, and Charles W. Newton, representing the Spanish war veterans.

Meeting at San Angelo on Monday About Orient R. R.

STAMFORD, Texas, May 15.—Two representatives of the West Texas Chamber of Commerce will be present at the San Angelo meeting Monday morning of citizens of towns along the Orient railroad in Texas to take action looking to the continuation of operation of that line after September 1. Ed P. Evans and N. C. Lyle, traffic and assistant traffic manager will attend.

The Orient owns about 400 miles of line in Texas which will be abandoned unless the government furnishes funds from the revolving fund of \$5,000,000 and diverts Interline business to it as was the case prior to the war. During 1919 it is said that this line was operated at a deficit of more than a million dollars. When it became rumored that the line would have to suspend operation when the government's aid was removed September 1, citizens on the line south of San Angelo held sessions at which they determined upon action that should be taken.

One county agreed to tax one million acres at 12 cents an acre in order to raise funds for the line and help it in its expansion policy.

It is said that if the Orient secures a loan from the government revolving fund sufficient to keep up operation until the line to the "parish" line of the Orient in old Mexico can be built, the line will then be on a cash paying basis and will come out from beneath the burden. At the San Angelo meeting pressure will be capitalized so as to make convincing argument at the Interstate Commerce Commission meeting shortly.

The Orient railroad, known as the line which put West Texas on the map, was a "still well" dream that came true. Towns along, or near it at the time of construction did not believe it would be built and the result was that a number of them, doing nothing for the construction, were left high and dry of the line.

Since it came into the railroad world it has been a perplexing problem, having been in the hands of receivers a number of times.

At the Arlington Memorial amphitheater it was the only memorial of its kind in the world, monuments and memorials of all kinds having been erected to generals and other leaders, but none heretofore has been erected to the soldiers and sailors who fought all the battles of the country.

POPULATION OF COUNTRY OUTGROWN HOG PRODUCTION

There can be no proceeding of the production of fine hogs in the United States so A. L. Ward, secretary of the Texas Swine Breeders' association, told a gathering of the Bell County Swine Breeders' association at Temple, Texas, recently.

"In 1890 there were 50,000,000 people in the United States and there were 47,500,000 hogs," Mr. Ward declared. "In 1920 there are nearly one hundred and ten million people in this country and only 75,000,000 hogs. The growth of the hog industry has not kept pace with the increase in population. This answers the argument that we can no longer afford to raise fine hogs."

"Just as soon as Europe can arrange credit in this country they will want still more hog meat over there. The packers of America recently granted a \$45,000,000 credit to Germany and this means a still greater demand for American hogs."

"But a better class of hogs is needed. When hogs raised themselves in the woods, costs were not counted. We must know costs now. We are feeding high class feed and we must have animals that will make economical gains from his feed. The purchased animal is the more efficient feeder. I have watched the hogs that come in at the stock yards and the average type is very low. Some fear that hog breeders may reach the point of saturation in the purchased hog business has been expressed by hog growers. When I tell you that only one-half on one per cent of the hogs in the United States are registered, you will see this is not so."

"It has been shown for the state of Texas that each acre of ground produces an average of 165 pounds of lint cotton. With an acre of ground you can raise 200 pounds of pork."

Mr. Ward concluded by declaring that hog growers in this state need to find the right kind of pork, grow it right, and sell it right. The Texas Swine Breeders' association, he said, is co-operating with the livestock associations all over the state to achieve these ends.

Pickles and Pop vs. Potatoes. Red Cross dietitians, investigating conditions among undernourished children in St. Louis public schools, found scores of youngsters who stated their preferences for dill pickles and soda pop as against baked apples, cup custard, roast beef, mashed potatoes, vegetable soup and similar nourishing foods. Hot palatable dishes are being furnished them at noon in Red Cross community kitchens.

Word of Words. "There was one word," wrote a Red Cross nurse serving in a French army hospital, "that we quickly learned in five languages. It was the word that came most often to the lips of sick or wounded soldiers when suffering or delirium wrung utterances from them. It is mutter, mere, moeder, madre and mother."

BEAUTIFUL WHITE GIRL UNDER SPELL CHINAMAN

Wierd Story of Oriental Mysticism and Treachery Revealed in 'The River's End' by Oliver Curwood, at Victory Theatre

There is a strange tale of Oriental mysticism in "The River's End," that will both startle and fascinate. This picture from the book by James Oliver Curwood, author of "Back to God's Country," will be shown at the Victory Theatre Monday and Tuesday.

Shan Tung, the Chinese, is a prince in disguise. Driven from his own country by political factions, he settles in North-west Canada on the edge of civilization, where he keeps an opium den and traffics in vice.

And Shan Tung, because of his wealth is a power in the community. He falls in love with a beautiful white girl and demands that she marry him. She loathes him and is horrified. Yet he holds a strange spell over her and she apparently is powerless to cope with his will.

She appeals to an officer of the Royal Mounted to help her free herself from his influence, but she withholds some secret from him, evidently fearing to reveal it.

The Chinese is getting more and more of a hold on her when the officer of police visits the den on Shan Tung's command. And Shan Tung openly demands that he has a party to the deliverance of the white girl to him.

But the officer is not the craven Shan Tung thought. There is a terrific battle in the opium den, which is finally set afire and burned. What happens to the officer and the white girl is something you will want to see—Victory.

BRITISH AIRPLANES MAY FLY OVER ANDES

LONDON, May 15.—Establishment of an aerial route from the Pacific to the Amazon as a means of surmounting difficulties of road travel among the Andes is advocated by G. M. Dyott, until recently a squadron commander of the British royal naval air service.

"There is no serious difficulty in the way, so far as the scheme's practicality is concerned," Mr. Dyott told the Royal Geographical Society. "We have heard of the great height of the Andes, but there are low altitudes at which they may be crossed. One of the Andes ridges can be negotiated at a height of 7000 feet, but there is another rising to 15,000 feet.

"Peru," he continued, "is peculiarly suitable for aerial traffic. Aerial highways will undoubtedly play a large part in the future development of that country. It is of importance that rapid communication should be established between the interior and the coast, and in order to do this the airplane must come to the rescue."

Discussing the difficulty of traveling by road, Mr. Dyott said that it took him five days to travel from one part in the Andes to another, whereas the airplane would cover the distance in 15 minutes, and in another stage of the journey it took him exactly a week to travel a distance which would be negotiated by the airplane in 30 minutes.

Labors in Vienna Prosper.

Boy, Vienna's the place. Red Cross workers there report street car conductors, tailors and laborers making from 25,000 to 30,000 crowns a year while doctors and lawyers and professional men generally only get from 10,000 to 15,000 crowns. Due to the fact that manual labor pays three times as much as executive positions, prosperity reigns throughout the homes of the artisans, the Red Cross workers say, while misery lies in the abodes of the once salaried classes.

RED CROSS BUSSSES FOR WAR CEMETERIES

On the pilgrimage of sorrow that make this summer to the graves of the soldier sons who lie buried in France, they will travel in motor busses provided by the Red Cross.

American war cemeteries are mostly inaccessible. Many lie 10 miles or more from the nearest railroad. To save American visitors, particularly the aged mothers and infirm fathers, from the difficulty and expense of obtaining private transportation or the alternative of making the trip on foot, the Red Cross is organizing a system of bus lines, that will reach the principal cemeteries.

The Red Cross also has erected rest barracks at the larger cemeteries, so that visitors may take shelter in inclement weather. At Romagne, France, where the largest American cemetery is located a Red Cross hotel has been established.

Russian Generals Soup Chefs.

Red Cross relief tendered Russian refugees from bolshevik armies at Constantinople, while pitiful and distressing, was not without its humorous aspects. High staff officers as well as generals and colonels of the Russian volunteer armies were put to work washing dishes, cooking furnaces, making soup and cooking.

20 Bowls Firms Join.

BOWIE, Texas, May 15.—Twenty memberships in the West Texas Chamber of Commerce were voted by the Bowie Chamber of Commerce here a few days ago following a reorganization of the local organization, which was perfected by field agents of the parent organization.

OMAHA TO BE BASE DEPOT 500 MAIL PLANES

OMAHA, Neb., May 15.—Omaha is to become, within two years, a base depot for 500 airplanes, according to Colonel J. A. Jordan, chief of construction and extension of the air mail service.

Each of the planes to be used in the New York-San Francisco mail service and the radiating branches is to be so constructed that within a day they could be transformed into fighting aircraft, he said.

"Omaha has been designated for the base because of its topographical conditions and its central location," said Colonel Jordan. "In case of trouble a battle plane, converted here, could reach coast or border in from 15 to 20 hours."

Colonel Jordan, who is on an inspection tour of landing fields, predicted that within a year mail will be transported from coast-to-coast in 26 hours. "The plans contemplate that," he said.

Birds Help Nature's Balance.

Keen satisfaction is felt everywhere outside Missouri, and possibly no large group of people there are disappointed, over the supreme court decision upholding the migratory bird law. The birds which move north and south with the seasons are no more the property of a state over which they pass than are the migratory shoals of fish which ascend our rivers. The vast flocks of birds which come north with warm weather serve a very useful purpose in maintaining the balance of Nature. They have their place in the scheme of things and play a tremendous part in keeping down destructive insects and other harmful animal life which prey on man's food sources. Consequently it would be the height of folly to allow one state or a group of states to seriously interfere or nullify one of the recognized processes of Nature to equalize the wild forces of our forests and fields.

War Brides From Overseas.

According to statistics received by the Red Cross from embarkation records of the war department 3769 foreign brides of soldier members of the American Expeditionary Forces were cared for by the Red Cross and the Y. W. C. A. The total number of American soldier marriages abroad is computed at 5699. Of the brides whose nationality was recorded, 2295 were French, 1161 British, 79 Belgian and only 31 German.

Cornell University was the first American college to possess a professorship of American history.

Fifty years ago the consumption of paper dollars in the United States amounted to 225,000,000 a year.

TEXAS UNIVERSITY PRESIDENT BARES NEEDS OF INSTITUTION

By Robert Vinson, President.

One of the most valuable and interesting customs of our organizations is that which affords opportunity to individual members from time to time to present their own business affairs to their fellows, so that each one becomes more familiar with the nature, methods, and difficulties attending the business experience of all the others. All of us profit by such exchanges, for aside from the broadening effect of the information thus acquired, it produces a better understanding of the other fellow's motives, ideas, and problems, and consequently a greater sympathy therewith. Now, I take it that all of the elements referred to are involved in my effort today to discuss with you my own classification, for the conduct of a great university is a great business enterprise, dealing with many complicated, involving many persons, handling large sums of money, all of which is being worked upon raw material of priceless value, yet of greatly different quality, and endeavoring to turn out a product each unit of which will be a valuable addition to the intellectual, social, civic and commercial life of the state. I am sure, therefore, that the members of this club when brought to any sort of intimate relationship with such a business will react toward it with greater sympathy and understanding than with the present conditions and the future prospects of the business than with its history, more so than as to what is to be done than as to what has been done, those engaged in such work are considered that we need all the kind of our achievements to serve us in all respects the best which is within us. My purpose today, therefore, is to set before you some plain facts about your university in the hope of securing your interest and cooperation in dealing with them.

First, I shall endeavor to present some facts about the volume of business now being done, some statement of operating costs and some comparisons with other universities of the same sort.

Increase of Enrollment.

Do you know that the enrollment in all departments for this year, including the summer school and the department of education, is 10,000 students? In comparison with the last normal year before the war, 1917, this is an increase of 42 per cent.

as compared with the session of 1917-1918, an increase of 47 per cent; and as compared with last year, it is an increase of 25 per cent. It should be noted, however, that the figures for previous years are based upon the total enrollment for the entire session, while that for this year are drawn from the enrollment as of March 1. It is safe to say that the totals for the present year will somewhat materially exceed that by enlargement of the percentage named. Up to a few months ago our percentage of growth over last year was the greatest among the larger universities of the country whose figures we were able to obtain. Our growth in the past few years has been 75 per cent, or, in other words, we have been compounding attendance during that period at the rate of about 11 per cent per annum. If the same rate of increase should obtain for the next five years it should be greater, we might expect an approximate enrollment of 2100 students by the session of 1924-1925. If we add to the present enrollment that of the summer school and those taking correspondence instruction the figures for the present year would reach a total of over 1400 students who have been connected with the university since June, 1918, the end of the last academic year.

Operating Cost per Student.

Now something about the cost of operating the business. There are two ways in which operating costs can be viewed. One is from the standpoint of the gross amount expended, the other is with the volume of business done and according to the unit of cost in all activities with well recognized standards. It seems one thing to compare the expenditures of 1000 of \$10,000 with those of 1000 amounting to \$2,000, but to compare the gross amount in contrast with the volume of business done, that is, to compare 1000 of \$10,000 with 1000 of \$2,000, is to compare apples with oranges. The simple fact is that there are few institutions in America of such character as your university whose operating costs per student are anything like so low. From 1912 to 1919 the average annual cost per long session student for all expenses except the department of education and the department of economic geology and geology was \$118.00, and if you divide the total expenditures of whatever sort, including the medical department, and charge the whole to the long session students, the average annual cost has been \$144.22 per student. Only in one year, 1919, was the cost per student exceeded that of the session of 1917-1918, the year of the war, and

today, in spite of the fact that the cost of living and supplies has advanced over 83 per cent, the University of Texas is being operated at an expenditure of \$218 per long session student, and over against all expenditures the cost is still only \$271 per long session student.

Perhaps it may be valuable to you to know that in 1917, according to the United States Bureau of Education, while Texas stood among the states of the union fifth in population, and seventh in wealth, her university stood tenth in working income, eleventh in the value of plant, including land, buildings, and equipment, 27th in income per inhabitant, 22nd in income per \$1000 of wealth, 14th in income per student, and 11th in the number of students per teacher.

More Faculty Members Needed.

Next to the volume of business and operating costs we must consider the people who are most directly concerned with the material upon which the university works and the product which it sends forth, viz., the faculty. It is the very heart of the university. It is of infinitely greater importance that there should be the right sort of men and women leading your children in

their preparation for life than that there should be great buildings, a broad campus and extensive equipment. It might be possible to conduct a first-class university in shacks or even tents if need be, provided there is a faculty adequate in number, preparation, skill and personality. Men and women, not brick or stone or marble, are the essential requirement of a university. Do you know that these faculty members in your university have spent the larger portion of their lives up to approximately 30 years of age, in preparation for their work? Do you know that even then they must begin at the bottom of a long long ladder, with a salary of not more than \$1400 and that under present conditions they may never hope to receive more than \$4000 and this only after some 20 years of service?

Do you know that the only increase in number of students demands a corresponding increase in faculty members, and that this year, although we searched the country over, we could not find a sufficient number to meet our requirements? Do you know that those who were on the ground have but their backs to the extra burden, that they have done and are doing double duty, cheerfully and without a cent of

extra remuneration, and do you know of any other set of people who still value their work so highly as to do it practically without reference to pay? Do you know that the only increase past was an adjustment in 1917 by which all grades were raised by an average of only eight per cent? Do you know that the cost of everything they have to buy, the commonest necessities, has increased in these years so that the man whose salary is \$3000 now is not getting as much value as the man whose salary was \$1000 a few years ago?

Do you know that many of these men and women have been here for more than a generation, that their lives are inwrought into the life of the university and that they will not leave it at any cost? They taught you; they are now teaching your son or daughter; they will continue to teach here as long as they have strength, and when strength vanishes and active service ends, their salaries will end also, and they will be cast aside? Do you know that the younger ones are looking around for employment of this or another sort which will enable them to support their families? Do you know that your uni-

versity recently lost perhaps the leading young man in his field in the United States and that he is lost to the teaching profession because a business concern recognized his true financial worth and paid it? Do you know that the leading universities of the country either have made or are planning to make increase in faculty salaries ranging from 25 per cent to 50 per cent, and that on account of the scarcity of suitable men, many of ours must go unless we can also make an immediate upward revision?

But I must forbear, for it is not my intention to discourage you—only to set the true situation before your eyes.

Physical Plant woefully inadequate.

Now what sort of physical plant has this business of yours which is handling such valuable material? You know, of course, that your university is divided into three parts, the main university here in Austin, the medical department in Galveston and the department of mines and metallurgy in El Paso, all of which gives the general manager a considerable scope of territory to cover. The last-named department is provided with both an excellent and an adequate

(Continued on Page 15)

LITTLE CONVENIENCES

CRAZY QUILT CUT-OUT

Quite Correct. A gentleman who was interviewing a valet asked him: "Why did you leave the last place you lived at?" "Well, sir," replied the valet, "I didn't like it at all, and was glad to leave. But I could go back any time I like."

That shows you must bear a good character, so I'll engage you," said the gentleman.

It afterward transpired that the last place the valet lived at was a prison.

Artute Patient. Doctor—My dear sir, it's a good thing you came to me when you did.

Williams—Are you happy now that thing you came to me when you did.

"Why, Doc? Are you broke?"

Joined the "Workers." "You see, the trouble about Bill is that 'e's allus afore the times."

"Wot's 'e done?"

"Well, 'e went away to look for work, an' 'e found there's a strike on. So 'e joins the strikers afore 'e's got the job."
