The advantages that Texas pos sesses in soil, climate, mineral re sources, timber, water power and agricultural, manufacturing and commercial possibilities have long been known to a more or less ex tent. Anthony Crozat and St Denis had a very good idea of them as far back as the year 1714 The Spanish vice regal authorities of Mexico appreciated them in a lymphatic sort of way when in that year they permanently established towns and Catholic missions in Texas. Their interest, however, speedily died out and save in name Texas remained under the practical dominion of the Comanches and other Indians until CORNELL & WARDLAW Stephen F. Austin began in 1821 to put into effect the plans of Angle-American colonization that he and his father evolved. He was thoroughly alive to the opportunities that the country had to offer, and an examination of the litera ture he sent out to induce immigration will show that the modern boomer has not passed him a peg, were living, he could give cards and spades and beat them, at the
