Nelson's Only Defeat. Nelson, like all the greatest commanders on sea or land, made his mistakes and his failures, but there is only one instance on record of at Santa Cruz, in the Canary islands, on July 24, 1797. The place was very strongly fortified, and Nelson, in the face of a fire of fifty guns from the batteries, attempted to storm the town by boats. The attempt was frustrated by the strength of the mole and the nonappearance of a land force which should have co-operated. A huna hundred wounded on the British side, and Nelson lost his right arm. Two flags were also captured, and these are still kept in the Cathedral of Santa Cruz.
