By Wearing Wool and Using Wool!

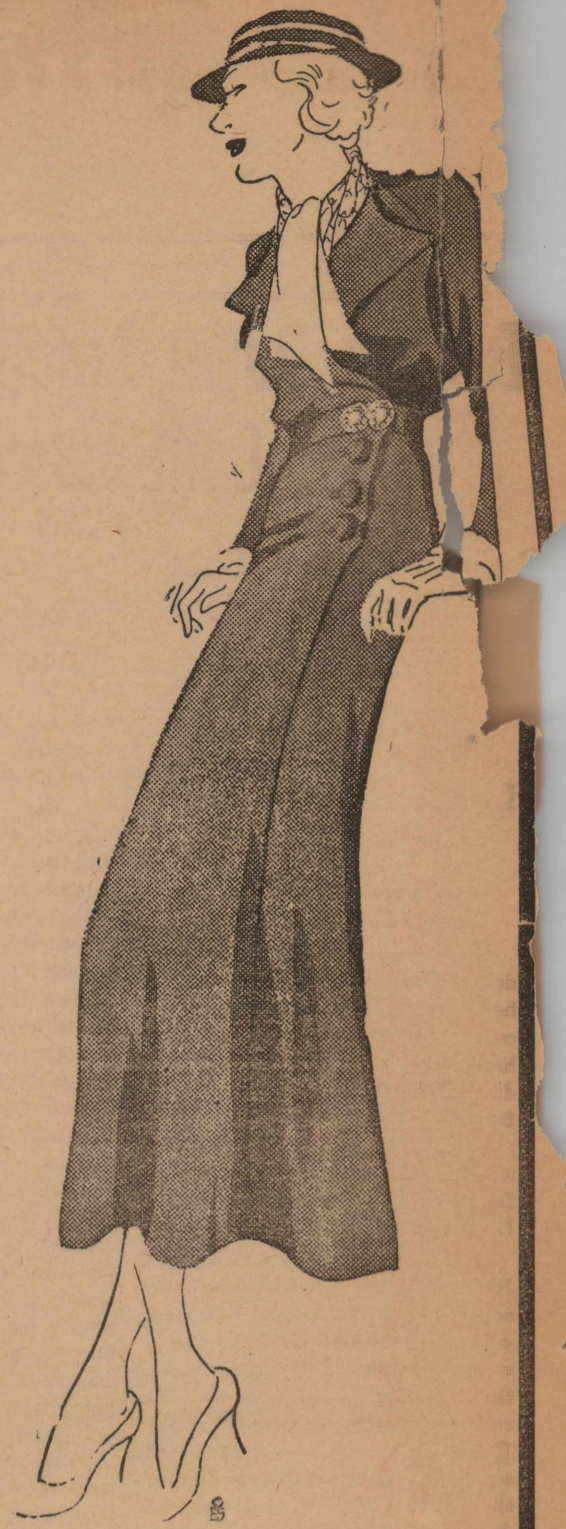

Let's All Buy Something
Made of Wool During

NATIONAL Wool Week

Ending November 26, 1932

Present healthy conditions of the wool market, with unusually low surpluses on hand, can be attributed partly to the work of public education accomplished during National Wool Week in 1931. The results of that movement are being made known now. Looking to the future, and considering the outlook for wool in 1933, we realize that it depends on consumption during the next few months—therefore it is to the best interests of every citizen of Sonora and Sutton county—for all have a deep interest in this major industry—to enter into the spirit of National Wool Week, buying woolen things ourselves and encouraging others to do likewise.

Edwards Plateau Oil Development Renewed by Test

Eastland's C-1 Love in Kerr Co. Ninth Test for Area in Two Year Period

Oil developments in the Edwards Plateau region was renewed last week when Eastland Oil Co. et al spudded in their No. C-1 Jeff Love, section 1595, in western Kerr county, about 45 miles west of Kerrville.

Wednesday morning the newest plateau test was reported to be drilling around 450 feet in limestone.

The location is about 1,800 feet north and slightly west of the Jeff Love No. 1, which approached commercial production from a depth of 3,400 feet two years ago. The No. 1 Love made heads of oil, caught fire and burned down the derrick in November, 1930. Later it was placed on the pump and made 50 barrels of oil daily for a time before it declined and was shut down.

Eastland's C-1 Love is the ninth test to be started in western Kerr and northeastern Real counties within the past two years. Three of the wells are now unfinished and the others have been shut down. The renewed activity is evidence that the independent operators are convinced that the area has great possibilities. — Kerrville Mountain Sun.

Brewster Texas' Largest County

Contains 5,935 Sections; Rockwall, Smallest, Has 149 Sections

The largest county in Texas is Brewster. According to the census bureau the area of this county is 3,798,400 acres, which is equivalent to 5,935 square miles. However, the county has been surveyed and its area reported at 6,137 square miles; it is believed that the census failed to account for some of the land belonging to the county.

Three states of the Union, Rhode Island, Delaware and Connecticut, are smaller than Brewster county. Rockwall is the smallest county in Texas, containing only 95,360 acres, or 149 square miles.

TRAINING MEANS STRENGTH IN GOOD TIMES AND BAD

Scary headlines, such as "Wheat Prices Drop," "Stocks Hit New Low" and other pessimistic news items do not put fear in the heart of the young man or woman who has received a thorough business training or mastered a profession.

The Tyler Commercial College and School of Business Administration at Tyler, Texas, is one of the largest schools of its kind in America. Its growth has not been of the mushroom type, but a steady, conservative growth covering a period of more than a quarter of a century, and it now offers a curriculum of thirty-nine courses covering every kind of business training.

Two courses that offer an exceptional opportunity for the young man and woman who are considering entering the business field are Accounting and Secretarial work. The work is easy, the hours are short and the pay is good, and the demand for highly trained young men and women has always exceeded the supply. For that reason graduates of T. C. C. are in demand. These courses appeal equally to the man and woman.

Radio is another profession that is in demand; with increasing use of radio on both land and sea makes this a most inviting profession for the young man interested in this line of work.

Although Tyler Commercial College and School of Business Administration is an all year around school, many students prefer to work or take their vacation in the summer and enter school in the fall when they have more pep to apply themselves.

Young men and women interested in business training should write the Tyler Commercial College and School of Business Administration, Tyler, Texas, for their general catalog, which will be sent free upon request. Those interested in any particular course should write the school for full information on the subject or subjects they are interested in. Use this coupon: TYLER COMMERCIAL COLLEGE Tyler, Texas

Jazz Candidate Is Lieut. Governor

Orchestra Leader Wins Race in Washington; Ready for Fun

Seattle, Wash., Nov. 16.—Introducing Victor Aloysius Meyers, the state of Washington's "boop-a-doop" politician, lieutenant governor to you.

Victor Aloysius, jazz band leader, pin-point moustache and slick black hair, entered politics as a "joke" and just see what happened!

Last spring V. A. filed for mayor in the spring election in Seattle. He campaigned on a brilliant platform of chorus girls on street cars, harmony in high chairs, silk hats for traffic officers and service of cracked ice on all owl cars.

His favorite campaign costume was a Gandhi dinner suit, a high silk hat, and his boon companion was a frisky nannygoat.

When filings opened for the state election, Meyer planked down \$75 for filing fees and signed up with the state to run for lieutenant governor. He received little or no publicity in his second political attempt, and made only two or three radio speeches. When the primary votes were counted, lo and behold. It was Meyers who led the state ticket for lieutenant governor.

The final election was just a

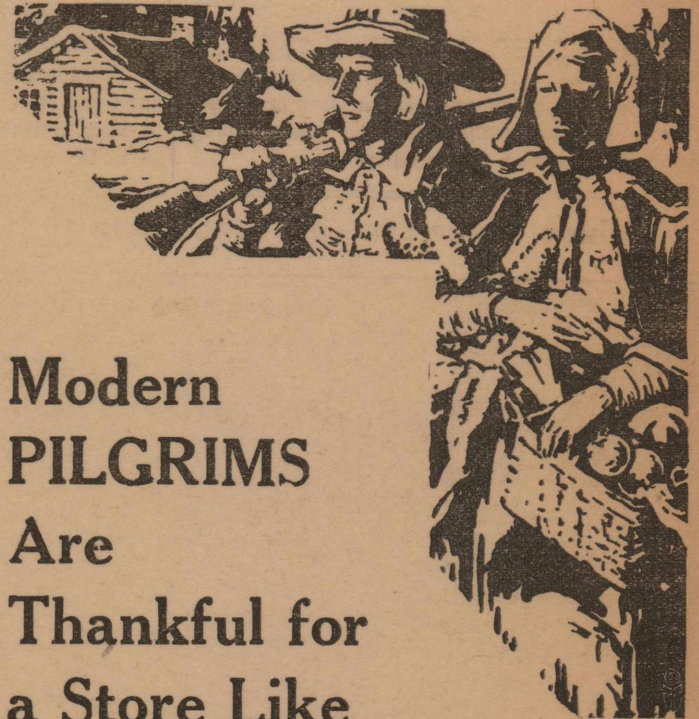

breeze, Meyers riding along with the Democratic ballot wave that swept the state.

"I owe my success in politics to taking cold showers every morning," said Meyers today.

"I am ready for all of the social duties that Governor-elect Clarence Martin won't be able to fill. Just wait till you see me snap into monument-unveiling and cornerstone-laying."

BUY MORE WOOL! USE MORE WOOL!

Wool Week reminds us that there is need for greater consumption of wool and woollen products. Surpluses force down the price of any commodity, and wool is no exception. Last year Wool Week did a lot of good. It got people to thinking about wool, and they bought wool, and used wool. This year the surplus stocks are smaller than in many years, and in spite of depressed conditions generally wool has made a strong recovery from the depressingly low prices of early spring.

This week, and every week, the people of Sonora and Sutton county, of all places, should wear woollen clothes and use products containing wool.

A ranchman who always wears cotton pants and shirts is like the restaurant man who goes somewhere else to eat.

Cotton may be more comfortable in summer..... some say one thing and some another. But in cooler months, nothing can equal wool for the comfort it gives the wearer and the value it offers.

Mennonites Do Not Know of Depression

German-speaking Colonists Prosper on Land in Chihuahua, Mex.

El Paso, Nov. 21.—A colony of German-speaking Mennonites, happy and prosperous in an isolated section of Chihuahua, is unaware that the United States and the rest of the world have been gripped by an economic depression since 1929.

This was revealed today by J. J. Peters, former overseer, on a visit to Juarez.

Peters himself did not understand the word "depression" at first. He admitted that the colony's principal crops—corn, beans and oats—are bringing less money, but had not linked the circumstances with a world-wide condition.

Happy in Colony
"We are happy down there," said Peters. "We do not have much contact with the outside world. We ask only to be let alone so that we can worship as we please."

In 1922 a group of Mennonites—members of a Christian sect founded in Germany in 1522—left Canada because the government assertedly refused to let them teach German in their schools instead of English.

The Mennonites bought 150,000 acres of land at Villa Cuauhtemoc, Chih., Mex., about 300 miles south west of El Paso.

They bought the land at \$8.25 an acre and have paid for it in full, Peters said.

6,600 in Colony
The colony numbers 6,600 men, women and children.

Peters said the Mexican government has just refused to permit 1,000 other Mennonites to enter from Canada.

The colony has requested military protection against bandit raids, which have been numerous lately.

"Financial aid is never requested from the government," said Peters.

"We take care of ourselves." While the entire farming area of the colony is owned by the church and the Mennonites lead a "communal" life, private ownership of property is permitted.

No Amusements
When a husband dies, his property goes into a "waisenamt," or widows' and orphans' fund, and is administered by two trustees until his children are of age.

Twelve bishops and two overseers govern the colony. Sale of property to outsiders and non-members of the church is forbidden. Children are taught German exclusively.

As for amusement and diversion, there isn't any. "Everybody works in the colony," said Peters. "We work and go to church."

Negroes Owned Slaves, Says Book

One-Seventh of Negroes of Country Free as Early as Year 1830

Few of the present generation, particularly in the North, know that before the Civil War a great many negroes in the South owned other negroes as slaves. Some interesting facts concerning the subject are given in Prof. Carter Goodwin Woodson's book, "Free Negro Heads of Families."

Coach Receives Big Birthday Ovation

Last Saturday was Coach Smith's birthday and he was presented with three birthday gifts, two of which Coach seemed to enjoy.

Before the football team went out to win the game they presented Coach with a beautiful pen and pencil set, consisting of a fountain pen, pencil, holder for the ink, and a holder for the pen and pencil. The second present was to be a victory over Junction. We had previously decided that if we were successful in presenting the second gift that we would present him with a third.

These first two presents were pretty "hot," but Coach says that the last one was the "hottest" of all. The football boys all waited on the lawn until Coach arrived from the football field and asked him to "grab ankles." He did so, and every member of the squad went by and gave him a hard lick. As this made only twenty-three, they completed the job with the required number of licks. Coach was seen soon afterwards sitting in a tub of cold water.

BRONCS WIN TWICE FROM JUNCTION IN TWO YEARS

The Sonora-football team has now won from Junction for two successive years. According to reports, these are the only victories that have ever been won over a Junction football team. Several years ago Sonora held the Eagles to a tie, but were never able to win a victory. Last year the score was 19 to 15, and this year, 14 to 6.

JOHN BLAKE CATCHES GREASED PIG SATURDAY

Saturday when the first half of the football game came to an end the honorable Mr. R. S. Covey turned loose a wild maverick pig, or so it was supposed to be. Scott Roberts and Clifford Trainer were responsible for the pig's dejection, or at least for the grease that was put on it.

Of course James Ed would pour highlife on the pig. He bought it and Scott Roberts poured it on. A good deal of scratching and twisting of his corkscrew tail resulted. When the pig finally was turned loose, it took the high speed of John Blake to catch him. John returned the pig to his box and received a fine, new dollar for his work. Of course John won't have to buy any grease soon because he got plenty from the pig.

PEP SQUAD STEPS OUT AT FOOTBALL GAME SAT.

At the ball game Saturday the pep squad performed a new and very colorful drill during the half.

Linked together by alternating strips of red and black crepe paper, the girls marched on the field in a clearly defined S formation. At the 50-yard line they gave a yell, "For red, for red, for r-e-d, red! For black, for black, for b-l-a-c-k, black! Fight! Fight!! Fight!! They held the red paper high for the first part and black high for the second part and both colors for the last. Then they formed five rows and marched off the other end of the field.

After the game the girls marched up and down Main street chanting, "We won, we won, by golly, we won." They stopped at the corner and gave a few yells.

Broncs Pick Eagles 14 to 6 Saturday

The Eagles, favorites to win easily from Sonora, found the Bronchos a bit too rough for them and left minus quite a few feathers and bits of skin. The Bronchos had their way most all the game except on the last quarter when the Eagles tried hard to redeem themselves, but of no avail. Fullback Kring made the first score when he plowed about 12 yards with two tacklers hanging onto him, but he would not drop till he crossed the extra line. Archer made the second touchdown on a line plunge of about 2 feet. Archer converted both times.

Junction's touchdown came in the third after blocking a Sonora punt and covering about 2 feet from the touchdown line. They pushed it over on the first plunge but failed to convert on a line buck.

The passing attack was excellent and Ory nearly got away on a long pass, but the lone Junction tackler that stood between him and the goal brought him down. The Eagles tried to even everything up in the last period, and they might have succeeded had the time not been limited.

The Eagles led the Bronchos in yardage in scrimmage, 171 to 135. The Bronchos and Eagles tied on first downs, 11 to 11. The Broncs completed 5 out of 9 passes while the Junction crew completed 2 out of 6. In yardage on passes the Broncs were ahead, 75 to 31 and also on punting yardage, 200 to 35.

Dance Enjoyed Saturday Night

A group of boys and girls went to the Boy Scout Hall Saturday night to dance. G. W. furnished a portable and Alice and Edgar furnished the records. Some of the Junction boys and girls stayed and every one had a delightful time, although there were lots of wasps and it was rather chilly in the hall. Some of the girls had a hard time keeping out of the smoke from the old stove, because smoke follows beauty.

BRADY GETTING READY TO ENTERTAIN FIREMEN

Brady—Several hundred firemen from about 20 counties of this section will gather in Brady on February 13th for the semi-annual Hill

Country Firemen's Association convention.

Joint committees of the Brady Fire Department and the Brady Chamber of Commerce have been appointed to work out a program of instruction and entertainment.

Four Day Event Started Thursday Near Burnet, Texas

Last June the exploration and development of a gigantic cavern, located on state property in Burnet county, between Burnet and Marble Falls, Texas, was begun. In excess of eight miles of spectacular subterranean scenery was charted and mapped. Development consisted of the installation of electric lights, the paving of trails—in fact, every comfort and convenience of the visitor has been provided for. This magnificent underground palace opens Thanksgiving as a Texas State Park, with a four days' program, Nov. 24 to 27 inclusive.

The giant labyrinth is located in one of the most picturesque spots of all the famous Texas Hill Country. The state owns 2,124 acres of wooded hills surrounding the entrance. Amid oaks, elms, cedars, springs, creeks and canyons various recreation grounds and gardens are being developed.

The Cavern itself defies description. The eight miles which have been explored and charted definitely establishes the Cavern as the third largest in the world, yet one can but mentally conjure as to what tremendous proportions the labyrinth may attain when the maze of off-leading tunnels have been explored.

The scenic beauty of the explored area—the splendors which time and water have wrought—are awesome. Walls, ceiling and floors are literally covered with an amazing abundance of weird formations which Nature has constructed of glittering onyx and crystalized calcide. There is a lake, emerald pools of pure water, and a subterranean stream, which the visitor crosses, passing over a forty-foot bridge.

Five rooms are built of transparent crystal, clear as glass—the largest deposit of its kind known to exist on this globe.

One immense room has the natural architecture of a theatre; a floor slants gradually downward to an orchestra pit. The natural stage is framed with a proscenium arch of glittering flowstone. Behind the stage Nature has constructed several grottos—or dressing rooms. It is the world's only underground theatre.

Another large room is being utilized as an underground dining room, with floor for dancing and cabaret entertainment. The walls of this room sparkle with crystals of a dozen pastel shades.

The Cavern will be open every day and night of the year. Competent guides will be available. Guide service is gratis. During the four opening days three cavern trips will be made daily, morning, afternoon and night. The official program for the four days follows:

Thanksgiving Day

Governor's Day, Thursday Nov. 24: The governors of adjoining states have been invited as guests of honor. Other state officials of Texas will be present.

Thanksgiving service in the underground cathedral: Churches of all denominations in Burnet and adjoining counties will participate in a Thanksgiving worship, which will be held in the colossal subterranean cathedral room. The program includes a sacred concert.

Noon and evening: Turkey dinner and dancing in the subterranean restaurant.

Round-trip excursions throughout the cavern during morning, afternoon and at night.

Friday, Nov. 25th

American Legion Day: The Burnet American Legion Post will be the host to the entire state of Texas at a barbecue to be held in the Cavern Park. Members of all Legion Posts of the state are guests of honor. All newspaper men are cordially invited as guests of the Legion.

Polo matches, rodeo, band concerts, etc., held on the recreation field in the Cavern Park during afternoon and evening.

American Legion demonstrations in the cathedral room morning, afternoon and evening.

Barbecue dinner with all the trimmings, at noon. Everyone invited.

Evening: Dinner dance and entertainment in the subterranean restaurant.

Round-trip excursions throughout the cavern during morning, afternoon and at night.

A question that
Looms large in
Every Family ---

How Much Does It Cost

Everyone wants to know. Always an important question, in present times it becomes the uppermost thoughts of everyone when buying is considered. Careful managers always know what costs are going to be. They can be depended upon to get full value for the money they spend, too. Many people are aided in making purchases through careful reading of advertising. The News carries each week any number of messages telling you where to buy, describing what you will get, and telling you the price. It makes shopping a lot easier if you carefully read every advertisement, and it saves you a lot more money in one month than the cost of The News for a whole year.

Consistent Advertising Answers Their Questions

Sonora merchants do their customers, as well as themselves, a good turn when they tell of their wares and give their prices in News ads. Much of the uncertainty in the minds of the people in this area regarding cost of trading at home can be dispelled thru advertising. Sonora prices are right, but not everyone knows it. Consistent advertising in The News, with prices, will go a long way toward the elimination of mail-order and out-of-town buying. A complete cut and copy service is always at your service.

ed in nine tries, with Junction completing 2 out of 6.

Wes Hill, at right end, was a shining light on the Sonora team, both on offense and defense. Ory also played a splendid game at right half, carrying the ball for good gains several times, and snaring Archer's passes with accuracy. Bob Johnson, who started at center, with Ernest Smith, regular pivot, shifted to guard, played an exceptionally good game in the line.

The victory made Sonora's second for the year, the locals having downed the Tivy reserves in the season opener.

The starting line-up follows:

Gosch Mentioned for Drug Board

Former Sonoran Urged as Member of State Commission

Clarence Gosch, San Saba drug store owner, and former Sonora druggist, known to many older citizens of Sonora, is being mentioned by friends as a probable appointee to the State Pharmaceutical Association.

Mr. Gosch left Sonora some 20 years ago, after spending several years here, during part of which time he was associated with John S. Allison in the drug business. He has lived in San Saba since that time, and is, at present, a partner in the City Drug Store.

His friends believe that he is a logical man for the state job, and many requests are expected to be made of Mrs. Miriam A. Ferguson, governor-elect, that he be named on the board.

Child Welfare—

Mrs. Roe, who has volunteered her services in expounding the general theme, "Safeguarding Childhood Through This Crisis," which was adopted by the state convention, has been for 18 years a national field secretary in P.-T. A. work. She is now making a tour in Louisiana, and is to be in Texas from Dec. 9 to 14 before returning to Washington. Beaumont and El Paso are the only other cities of Texas which have obtained her services during that period, and it is the intention of the local P.-T. A. to arrange a program of vital interest for the morning and afternoon session to be held here Dec. 12. Details of the day's plans will be announced later.

Every citizen of Sonora is urged to send charity applicants to Geo. E. Smith, city manager. He investigates their case, and gives aid where it is deserved, but very often finds the applicant unworthy of help.

Guests Monday were Stanley Patton, Sonora, J. N. Kilman, Dallas, father of Dr. Kilman of Sonora, and three Junction Lions, G. H. Delano, W. G. Smith, and J. H. Graham.

Next week's program committee follows: Joseph Vander Stucken, W. C. Warren and J. D. Westbrook.

Among distinguished guests of the convention were T. Alfred Fleming, Supervisor Conservation Department National Board of Fire Underwriters, who, according to the ladies, presented one of the most outstanding appeals of the convention: a plea for fire prevention, based upon his witnessing of the Toledo school fire disaster.
