

TREASURER'S REPORT

Report of Mrs. A. J. Smith, county treasurer of Sutton county, Texas, of receipts and expenditures from May 14 to Aug. 15, 1934, inclusive:

JURY FUND—1st Class		
Balance last report	2,241.21	
To amt. received since last report	112.01	
By amt. paid out since last report, Ex. A		128.36
By amt. per cent com. on amt. received		.11
By amt. per cent com. on amt. paid out		.13
Amount to balance	2,224.62	
	2,353.22	2,353.22
ROAD AND BRIDGE FUND—2nd Class		
Balance last report	6,468.97	
To amt. received since last report	1,905.84	
By amt. paid out since last report, Ex. A		4,486.31
By amt. per cent com. on amt. received		1.91
By amt. per cent com. on amt. paid out		4.49
Amount to balance	3,882.10	
	8,374.81	8,374.81
GENERAL FUND—3rd Class		
Balance last report	5,198.31	
To amt. received since last report	1,861.59	
By amt. paid out since last report, Ex. A		2,309.82
By amt. per cent com. on amt. received		1.86
By amt. per cent com. on amt. paid out		2.31
Amount to balance	4,745.91	
	7,059.90	7,059.90
COURTHOUSE AND JAIL FUND		
Balance last report	134.13	
To amt. received since last report	322.14	
By amt. per cent com. on amt. received		.32
Amount to balance	455.95	
	456.27	456.27
SPECIAL ROAD BOND A. B. C.		
Balance last report	23,866.28	
To amt. received since last report	5,048.75	
By amt. transferred to other funds, since last report		5.05
Amount to balance	28,909.98	
	28,915.03	28,915.03
SPECIAL ROAD AVAILABLE FUND		
Balance last report	1,054.52	
Amount to balance	1,054.52	
	1,054.52	1,054.52
SPECIAL ROAD BOND 1931 FUND		
Balance last report	321.15	
By amt. paid out since last report, Ex. A		247.50
By amt. per cent com. on amt. paid out		.25

SMALL POSTOFFICES SHOW FAVORABLE INCREASES

Washington, Aug. 30.—Receipts of a preponderant majority of third and fourth class postoffices in all but one of the states in the union showed substantial increases in July of this year over July, 1933. The average increase as applied to the two classes throughout the country was 14.57 per cent. Receipts of first and second class postoffices generally were much higher than a year ago. This especially applied to industrial cities which were favorably affected by reemployment and increased business.

All governmental and private commercial and financial reporting agencies accept increased postal receipts as the best barometer of improved conditions. The fact that this condition applies to small towns and villages is regarded as strong evidence of progress in the recovery program.

A traveler says it is still the custom in parts of Russia to sleep on top of the brick oven. What we know as "Home on the Range."—Detroit News.

"It's in the NEWS this week"—and you'll miss it unless you read it regularly. Student-Teacher rate: 9 mos., \$1.25.—adv.

Earliest Parachutes in Use in France, in 1784

The first parachute of recorded existence was used to descend neither from a balloon nor from an airplane, but from a three-story house in Lyons, France. That was in 1784, shortly after the invention of the balloon, when the world was undergoing its first great craze for aerial exploration.

The man who made the descent was Sebastian Lenormand, who had invented the device, and who used it thereafter in giving exhibition leaps from roofs of buildings.

The first person to take a parachute with him in a balloon, and trust himself to it in a leap to earth, is said to have been the noted pioneer aeronaut, Andre Jacques Garnerian. He made the descent in Paris in 1797 with a parachute 23 feet in diameter, composed of a number of gores of canvas. In this parachute a wicker basket was suspended from a hoop 8 feet in diameter somewhat below the top of the umbrella-shaped surface.

Parachute jumping developed into quite an art in the Nineteenth century, when almost every sort of fair or exposition had its balloon ascension and parachute drop. But the device was not employed at all in the earlier days of the airplane.

The first use of it in conjunction with airplanes appears to have been during the war, by the Germans. The allied armies adopted the idea to some extent, but few parachutes had been placed in their machines before hostilities ended.

"Buffalo Bill" Regarded Last of Famous Scouts

Mention the name "Buffalo Bill" and almost anybody's ears and eyes will open wide to hear tales of the pioneer days in the West, when cowboys and buffalos were wild and a fight with the Indians was all part of the day's work.

"Buffalo Bill's" real name was William Frederick Cody. He was the last of the great scouts of the West, the others being Boone, Crockett, Carson, Bridger and "Wild Bill." The daring horsemanship of "Buffalo Bill" as a lad who was riding the "Pony Express" has been told in many romantic tales of those early days.

Before the railroads had cut their way through to the Pacific coast, the "Pony Express" was the only means of getting communications through from St. Joseph, Mo., to Sacramento, Calif. In his travels from one post to another, "Buffalo Bill" learned much Indian lore and many customs which helped him when he became a scout for the United States army during the Civil war. He also took part in the campaigns against the Sioux and Cheyenne Indians in which he performed hair-raising deeds of valor, one of which was to kill the Cheyenne chief, Yellow Hand, in single combat.

Cody was called "Buffalo Bill" because he contracted to furnish buffalo meat to the laborers laying the track of the Kansas Pacific railroad in 1867. During this time he is said to have killed many thousands of buffalos.—Washington Star.

One-Word Chorus

"Amen" is the last word in the Bible, occurs again in the preceding verse; is used once more in the Book of the Revelation as a synonym for "form and true," and once by St. Paul in his second letter to the Corinthians, where he couples it with an affirmative, "Yea, and Amen." It occurs nowhere else, and Christ never uses it in the gospels. It comes straight from the Hebrew, and its significance is "truly," "verily," "Be it so really," "It is so in very truth," "Amen." All the churches, Roman, Greek, English, Nonconformist, use it. Jews and Mohammedans say "Amen." There has been controversy as to its proper pronunciation. The dictionaries give "a-men," but in public worship the word, usually when spoken, and always when sung, is pronounced "ah-men." Handel wrote a chorus in which no other word occurs, and a sevenfold Amen is commonly sung in churches at the close of a service.—London Tit-Bits.

Pine Grew When Chris Landed

One giant pine in Glacier National park was growing when Columbus discovered America and is the largest of its kind in existence. The pine is on McDonald creek, on the west side of the park. It is of the Pinus monticola variety and it is in this class that it holds the distinction of being the largest known. It towers 180 feet and its heavily buttressed base is 10½ feet at its greatest diameter. Four feet above the ground its diameter has tapered to slightly less than seven feet.

"Kangaroo" Mice

The jumping mice found principally in North America are a miniature form of kangaroo, at any rate their form of locomotion and their general contour resemble the kangaroo. The body and head are only about three inches long and tail another five, yet these creatures can jump to 15 feet at times. They are nocturnal in their habits, being seen in the daytime only rarely. They inhabit fields and forests, where they feed largely on seeds.

Larger Budget for Schools to Be Met With Same Rate

Treasury of School District Able to Handle Increase Over Last School Year

Establishing of the tax rate for the Sonora Independent School District at 80 cents on the \$100 valuation and approval of the budget of \$77,755 for the school year which begins Monday was the business transacted at the meeting of the school board Tuesday afternoon.

The tax rate remains the same as for the last two years. It is distributed in the ratio, fifty cents for bonds, thirty cents for maintenance. Two years ago the bond rate was cut to the present figure.

Included in the budget for this year is a sum of \$28,000 for the proposed Mexican school building, \$4000 for elementary school improvements and \$5000 for retirement of bonds for completion of the elementary school in 1915. The budget last year was for \$86,342.50. The Mexican school building allotment is contingent upon securing government aid and approval and use of the recent bond issue passed for the purpose.

Actual Expenses Up Only \$4000
In speaking of the budget for the new year R. S. Covey, superintendent, said Wednesday:

"Our actual expenses, we believe, will be only about \$4000 more than last year. This increase is caused by repairs to our educational plant which has 'run-down' somewhat in the last few years.

"Extra teachers added to replace those temporarily eliminated because of the stress of economic conditions accounts for part of it. They are badly needed now to maintain the standards required by the state department of education. The department has been lenient but is now demanding more and more because of the belief that

economic conditions are gradually improving.

"Salary raises granted last spring have increased the budget. They were deserved by a staff that has been extremely loyal and has co-operated with us in every way. Fifteen hundred dollars has been allotted for new equipment that is essential. Bond retirement and interest on the Mexican school building project has been included in the budget.

Mr. Covey stated Thursday morning that the financial condition of the treasury of the school district is such that the increased budget can be taken care of without an increase in the tax levy. All of the expenditures that are in excess of

those of last year have been deemed wise and necessary by those making up the board.

For the benefit of particular persons, movies might be classified so as to include a group to be known as "the cleanies."—Washington Star.

"There are no newspapers in heaven," asserts an evangelist. Of course not. You can't have newspapers without newspaper men.—Olin Miller in Thomaston (Ga.) Times.

MILLIONS OF PEOPLE HAVE ASKED . . . What, exactly, does Knee-Action do

the answer is

CHEVROLET'S KNEE-ACTION RIDE

Doubles

the pleasure of motoring

Chevrolet prices
have been reduced
as much as

\$50

The best way to prove that Chevrolet's Knee-Action actually makes motoring twice as pleasant as before is to drive the new Chevrolet over all kinds of roads. You will find that the continuous jars you used to get even on smooth pavements are ended. The steering wheel is free of vibration. Back seat passengers are comfortable and relaxed. You can maintain higher speeds over rough roads that used to slow you down. You will find, in fact, that probably for the first time in your experience, every foot of every mile is equally enjoyable. Perhaps that explains why so many people are buying and recommending this extremely low-priced car.

CHEVROLET MOTOR COMPANY, DETROIT, MICH.
Compare Chevrolet's low delivered prices and easy G. M. A. C. terms. A General Motors Value.

Drive it only 5 miles and you'll never be satisfied with any other low priced car

One-Time Seaman Pedals Here and There Grinding Scissors for Texas Housewives

It took Fred Mancell, 66, of German descent, nine months of hard work at wages of \$1 and \$2 a week to get enough to buy a used bicycle to carry him over Texas so that he would be able to make his own living—a living which he says costs him only twenty-five cents a day.

A scissors grinder for the last twenty years, Mr. Mancell was here Saturday on his way to El Paso to ply his trade. The last nine months he has been working in a government transient bureau in San Antonio recouping his "fortune" following the theft of his bicycle.

Before he started putting sharp edges on scissors he was a seaman sailing on the Hamburg-American lines between Hamburg, Germany, and Hoboken, N. Y.

Balloon Tires Being Tried
Mr. Mancell has been riding a bicycle for ten years. He left San Antonio on the present trip Thursday of last week and said he would reach El Paso—"when I get there." "I'm trying the new balloon tires for the first time," Mr. Mancell explained. "I believe they're all right. They have inner tubes like the old-fashioned 'bike' tires. I rode 67,000 miles on the last set of ordinary tires."

"Where will you stop tonight?" someone asked.

"Oh, anywhere," was the reply. "Just wherever night overtakes. I have my hammock, blanket and camping outfit. A wide pasture is the finest hotel there is. You ought to try it sometime. I get by pretty well. It only costs me a quarter

a day to live. "You see all I need is a can of beans, a loaf of bread and some coffee. It's a good diet and I feel good all the time. Once in a while I splurge and have rice for breakfast. Say, there's a dish for you. My, what a dish! Especially if you put an egg in it."

"Put an egg in it?" he was questioned. "never heard of that."

"It's easy," was the ready answer. "Just put a raw egg in it as it finishes cooking. It's food fit for a king. But I don't have that very often. The budget won't stand it."

Automobile Owners Considerate
Wind is his greatest enemy, Mr. Mancell finds, as he pedals his way here and there. He makes better time, he says, by walking up grades rather than trying to ride. He makes twenty-five to forty miles a day, depending upon the wind resistance.

"Hitching" on a car doesn't pay Mr. Mancell decided after he had a smash-up doing that. Drivers are usually nice he finds, and when they blow their horn he gives them the "high sign" and they speed on past. Only twelve inches clearance is needed for him and his bicycle.

He doesn't know just how long he will be in El Paso. His is a nomadic existence. If the housewives have plenty of scissors to grind and butcher knives to sharpen he may stay quite a while, if not, on to the next place. His "bike" is always ready to take him there—and on to the next place—and still further if he so elects.

OREGON CITIZEN MASON SINCE CIVIL WAR TIME

Portland, Ore., Aug. 24.—"Private" Paul Trutt, aged 92, of Portland, Ore., a member of the 7th Indiana Infantry during the Civil War, noted a news item in which Willis T. White, sr., aged 88, of Port Orford, Ore., claimed to be the oldest Mason in the United States. This was a challenge to "Private" Trutt so he betook himself and wife to a newspaper office in Portland and presented an editor his initiation certificate issued by Lawrenceburg (Ind.) Lodge No. 4, September 4, 1865, and said, "There you are, my lad; let 'em beat that."

"Yes, sir, right after the Civil War I joined and if any one is going to get credit for being the oldest Mason in the country I want my share of it," he declared.

Edward W. Foy, of Oregon, who joined a Masonic Lodge in Mt. Morrit, N. Y., in 1866, also met Mr. White's challenge. Thus far Mr. Trutt holds the present longevity record for Oregon.

Mr. Trutt, who has lived in Oregon for 30 years, served as marshal of the city of Lawrenceburg, Ind., at one time.

Insolvency at Low Ebb Now
New York, Aug. 20.—Dun's insolvency index for the half of August stood at 55.0, the lowest for any month since September, 1920. It compares with 56.9 for July, 1934, and 99.3 for August, 1932.

We can't understand why Jim Farley has taken up fishing except that he has nothing else to do other than run the postoffice department and the Democratic party. —Des Moines Tribune.

History of House Cats Dates Back to the Ark

The long, colorful history of the house cat had its dawning in the Ark—that is, if one is to take the word of Damirel, the great Arabian naturalist who wrote of animals in the Eighth century of the Hegira, according to a writer in the Philadelphia Inquirer.

"When Noah entered the Ark his family represented to him that the mice would devour all their possessions; whereup the patriarch addressed a prayer on the subject to Allah, who in response caused the lion to sneeze a full-grown cat from its nostrils—the result being that the mice were not only kept in order during the Deluge, but were impressed with that timidity that has made them lurk in holes ever since."

Notwithstanding the learned Arabian's ingenious account, more recent scientific investigation indicates that the Egyptians were the first to domesticate the cat—a species of the African wild cat.

The life of the cats in the Valley of the Nile would seem to have been a bed of catnip, figuratively if not literally. They enjoyed high privileges in being held sacred to Isis and to Pasht. In fact, cat-headed deities were not uncommon in the Egyptian Pantheon.

Mistreatment of the cat was a base crime in those days. Diodorus related that a Roman soldier who had killed a cat barely escaped with his life from the hands of the infuriated people.

Five-Month Year Said to Have Been Used by Noah

Telling the seasons in olden days was a complicated business, says Pathfinder Magazine. We tick off the days and months with a pencil, but the ancients calculated by the moon. It is said that Noah used the early Egyptian calendar of five-month year, thirty days to the month, and each month three weeks of ten days.

Sticks, tied in bundles, was the invariable way of telling the day and season with the greater part of the ancient world, and today some American Indians keep five bundles of thirty sticks, pulling out one stick for each day. The last bundle is repeated in each half-year to level things up, and the middle bundle is split in two to judge the approach of mid-summer or mid-winter.

In the South Sea islands the "moon stick" is used to determine the seasons. A notch is cut in the stick after each passing moon. Borneo uses a calendar consisting of various lengths of tattooed poles. The Dyaks have a custom whereby they tell the season by the length of the sun's shadow. Calendar makers tour the country in the season of sowing and plant these colored poles on the farms. By a system of queer calculation they adjust these poles to a certain length, marked on the ground. Invariably this shadow marking proves accurate, and in due time the calendar maker again tours the farms to receive his payment of part of the crop.

Ohio's Federal Court Fight

In 1850 a Simon Bushnell was found guilty of violating the fugitive slave act of 1850 and sentenced by the United States District court at Cleveland to the Cuyahoga jail. Counsel for Bushnell carried the case to the Ohio Supreme court, three of whose judges sustained the United States court, the other two dissenting on the ground that the fugitive slave law was unconstitutional. These two refused to be bound by repeated unanimous decisions of the United States Supreme court, declaring the constitutionality of the act. If a majority of Ohio's supreme tribunal judges had declared the act unconstitutional, Gov. Salmon P. Chase stood ready to call out the state militia to resist the federal authorities and to prevent enforcement of the decree by the United States court. Had this happened, it would have placed Ohio in 1850 exactly where South Carolina and her allies were in 1861 as regards constitutional principles. And the Buckeye state—perhaps—would not have known whether to fight for or against the Union.

School Vacations

School vacations in the South Temperate zone are usually different from those in this country. For instance, in Australia, the Christmas vacation is the summer vacation. It begins a week before Christmas day and lasts from 25 to 35 days. There is a vacation of two weeks in May, which is a winter month, and usually one week in August or September. In Argentina the summer vacation extends from the thirtieth of November to the first Monday in March.

Venomous Centipedes

Many species of centipedes are venomous. Their fangs pierce open through the claws of the first pair of legs, which are bent forward, so as to act as mouth parts. These creatures rarely, if ever, inflict serious injury to man, but the largest species which occur in warmer regions are said to be extremely venomous. Centipedes are voracious, feeding on insects; they usually live under stones, logs, bark, etc.

Record Number of U.S. Employees Now

Only 30,000 Less Than Shortly After Close of War

Washington, Aug. 30.—Figures released by the Civil Service Commission July 31 reveal that the total number of employees in the executive branch of the federal government alone reached a peace-time record of 661,094. These employees are largely employed outside the national capital, there being 87,196 on the permanent and temporary rolls there June 30. This is an increase of 95,662 since March, 1933.

The increase during the month of June was 2,000, 1,425 of which were added to the force in Washington. Of the Washington appointments, nearly half were in the navy department to take care of the huge navy expansion program. The Home Owners' Loan Corporation ranked second with the appointment of 289 new permanent workers.

At the close of the World War there were 917,760 employees in the executive branch, but by July, 1920, the number dropped to 691,116. This figure is only about 30,000 above the number now on the executive rolls.

The postoffice department heads the departmental list with 265,070; the war department, 60,087; navy, 57,492; treasury, 49,831, and agriculture, 33,298. The total of these accounts for 465,778, leaving the remaining 195,316 to the other five departments, the older federal agencies and the many new boards and commissions.

GENERAL MOTORS REPORTS UNIT GAIN IN JULY

New York, Aug. 30.—Sales of General Motors cars and trucks to consumers in the United States amounted in July to 101,243 units, against 87,298 in July, 1933. Sales to dealers in the United States were 107,554 units, compared with 92,546 in July a year ago. Total sales to dealers in the United States and Canada plus overseas shipments amounted to 134,324 units in July, against 106,918 in July last year.

Sales to consumers in the United States for the first seven months of this year totaled 596,215, against 487,062 in the corresponding period of 1933, while sales to dealers in the United States were 700,421, against 520,308, and total sales were 884,600, against 605,540. Sales of all types in July were the highest for any July since 1929.

Calves Make Good Gain

Mason—Six calves fed by Byron Eckert, Mason county 4-H club boy, made an average gain of 3.33 pounds per day during the month of June according to R. B. Tate, farm demonstration agent. Young Eckert's calves averaged 420 pounds on July 1. They are eating a whole grain ration consisting of 50 per cent whole corn, 40 per cent whole oats, and 10 per cent pease sized cotton seed cake, while they also have access to a nurse cow and plenty of bright prairie hay.

In years to come there will be a haughty society composed of the descendants of persons who saw Dillinger killed. — Rockford (Ill.) Register-Republic.

PERSONALS

Mrs. John Fields was in San Angelo Saturday. She was accompanied home by the Misses Beavley and Florine Reiley.

Mrs. R. A. Halbert and daughter, Miss Allie, and Miss Muriel Simmons spent Tuesday and Wednesday in Christoval.

Mrs. Harry J. Behrens and son, Clinton, of Mason are the guests this week of her daughter, Mrs. Cecil Allen, and Mr. Allen.

Miss Rhesa Cawyer, who has been visiting her sister, Mrs. George E. Smith, returned to her home in Brady Wednesday.

The Misses Jamie Gardner, Callie Mae Love, Harva Jones, Mary Louise Gardner and Alice Karnes spent Tuesday in San Angelo.

Mrs. W. A. Miers and daughter, Addah, have been in El Paso the last week with Mrs. Miers' mother, Mrs. T. B. Birtrong, who has been ill.

Miss Mary Louise Gardner returned Sunday from Mertzon where she has been the guest of her aunt, Mrs. R. S. Williams, and Mr. Williams.

Mr. and Mrs. W. E. James and daughter, Faye, and the Misses Lois and Elsie McKellar of Austin spent Sunday in Texon as guests of Mr. and Mrs. B. B. Kelly.

Mrs. Henry Decker and son, Billie Frank, and her mother, Mrs. J. T. McClelland, returned from San Angelo Sunday. Billie Frank, who has been ill, is improving.

Mrs. Rose Thorp and daughters, the Misses Zella Lee and Ches; the Misses Muriel Simmons and Lyda Archer and Mrs. Troy White were San Angelo visitors Sunday.

Mrs. A. W. Bales and daughter, Martha, Miss Beatrice Casbeer and Miss Ollene Casbeer of Lampasas and Miss Iva Lee Gibbs of Burnet spent the week-end with Mr. and Mrs. H. V. Stokes. Mrs. Stokes returned to Lampasas with them to visit her parents, Mr. and Mrs. H. B. Casbeer.

MINISTER WILL RETURN FOR SUNDAY SERVICES

Although the Rev. E. P. Neal, Mrs. Neal and their children are visiting Mrs. Neal's parents, Mr. and Mrs. L. A. Aycock, in Rochelle this week they will return today or tomorrow and regular services will be held at the Methodist Church Sunday.

In the morning the Rev. Mr. Neal will speak on "The Use of Left-Overs" and at night on the theme "The Elements of Christian Living."

Hunting Stamp to Help Restore Waterfowl

Authorized by the recent congress, the new federal hunting stamp will be issued shortly by the Post Office department. The photograph shows Stanley P. Young, head of the division of game management (left), and Col. H. P. Sheldon, of the bureau of biological survey, examining the original drawing for the new stamp which was made by J. N. "Ding" Darling, who was a nationally known cartoonist long before he recently became chief of the biological survey. The sale of the stamps will provide funds to help conserve ducks and geese and every one over sixteen years of age who hunts migratory waterfowl is required to purchase one of the new dollar stamps.

Sportsmen who have confined their activities during the summer months to the luring of dace and crappie from West Texas lakes and streams can turn their attention tomorrow to that member of the pigeon family known as the dove. The season opens September 1.

C. H. Jennings, game warden, this week emphasized that hunters should pay heed to the regulations regarding dove shooting. There is a bag limit of fifteen a day as well as a limit for any one calendar week of forty-five birds. Hunting from cars is prohibited and a fine of \$25 may be levied on anyone violating this law.

No game animal or bird protected by the laws of Texas may be shot from cars. A fine of not more than \$100 may be levied against anyone shooting in, on, along or across any public road in the state.

Duck Stamps Not Received
The duck stamps required this year for hunters over sixteen years of age have not been received at the local postoffice according to T. C. Murray, postmaster.

A law sponsored by Richard M. Kleberg, congressman whose home is in Corpus Christi, was passed at the last session of congress. The stamps cost \$1 and must be bought by the hunter each season and affixed to his license.

Purport of Law Excellent
The conservation of ducks, geese and, in fact, any waterfowl is the purpose of the legislation. Anyone over sixteen hunting any type of migratory waterfowl will be required to buy the stamp. Hunters and sportsmen of all types are said to be enthusiastic in their support of the new law and its principles and purposes. Dick Freeman, sports writer of the Houston Chronicle, a few days ago commented on it in this fashion:
Congressman Richard M. Kleberg's duck-hunting stamps are causing the department of agriculture a lot of trouble, reports from Washington say.

The stamps are not yet on sale. But regardless of this, sportsmen are so eager to help the cause that they are falling over each other trying to buy them. And the duck-hunting season is about three months away.

Hunters Want to Buy

Disappointed when postmasters tell them the stamps are not yet on sale, thousands of sportsmen have taken it upon themselves to try to buy the stamps anyway. So they make out money orders to the chief of the agriculture department's bureau of biological survey, and send them along to him in Washington with the request that a stamp or stamps be returned forthwith.

But the chief hasn't got any stamps.

So many requests have been pouring into his office that in desperation he asked the postoffice department if something couldn't be done about it. The department thought it over, and this week sent to every postmaster in the country in towns of 2500 or more population a request that the postmasters tell stamp seekers to bide their time.

Stamps will be placed on sale at these postoffices as soon as they are printed and ready for distribution.

T. C. Murray said this week that postoffices in county seat towns would handle the stamps even though the population of those towns is less than 2500.

Three Days Hunting a Week
New regulations announced recently by the bureau of biological survey provide for a shorter season for hunting ducks and other waterfowl.

Those who like to hunt must do it, in Texas, on Friday, Saturday or Sunday of each week during the open season of Oct. 26 to Dec. 30. Only thirty days of shooting are allowed. Daily bag limits have been reduced from sixteen to ten on cinnamon teal, canvasback, eider duck, redhead, greenwing teal, shoveller and gadwall ducks.

Game Law Violators Fined
Charges of hunting without a license and trespassing were preferred recently by C. H. Jennings, game warden, in the court of C. C. Doty, Eldorado, against two McCard men. Each was fined \$21 on each count.

The NEWS will print it for you. Phone 24.—adv.

Del Rio Softball Players Take 2 of 3 Games Sunday

Counter Hoppers Continue to Lead League; "Independents" Use This Week for Practice

LEAGUE STANDING		
	W.	L. PCT.
Counter Hoppers	8	4 .661
Independents	6	4 .600
Highway	5	6 .451
Lions Club	3	8 .271

Interest during the past week among softball players has centered on the practice sessions as a "warming up" of the "Independents" for the San Angelo tournament which starts today. League games have been sidetracked since last Friday.

On Thursday of last week the Independents took the Counter Hoppers into camp by a score of 1 to 0. A home run was hit by Blanton.

The next day the straggling Lions lost another when the Highway players defeated them 1 to 0. Smith struck out 2 and walked 1. Carroll walked 1. A 3-base hit was secured by McClelland.

Del Rio Wins Two Sunday
Del Rio players "strutted their stuff" in the second and third games Sunday but failed to do their work in the first game when Sonora players proved better mudhens and took the long end of an 8 to 7 score. The first game was played in the rain.

In the first game Jodie Trainer made a 3-base hit and home runs were knocked by Hamilton of Sonora and Love and Gordon of the border town.

Scores in the second and third games were: Del Rio 7, Sonora 3; Del Rio 3, Sonora 1. Forrester of Del Rio knocked a homer in the second tussle. Lancaster walked two men. Bill Fields hit a 2-bagger.

Condensed scores of the first two Sunday games were:

	R	H	E
Del Rio	000	160	0 7 10 4
Sonora	022	400	-- 8 9 3
Del Rio	040	110	1 7 9 3
Sonora	001	020	0 3 7 4

EIGHTEEN PER CENT GAIN IN BUILDING PERMITS

New York, Aug. 30.—Large increases in building permits in July over the June totals and those of July, 1933, seem to reflect definite results from the President's housing program, Dun & Bradstreet reported. The cost of permits issued in 215 cities amounted to \$34,840,879 last month, compared with \$28,621,565 in June and \$29,484,891 in July a year ago. This was an increase of 18.2 per cent since last year.

A gain of 75.3 per cent was recorded for New York City, where the total was \$7,908,885 last month, compared with \$4,512,238 in July, 1933. Increases of expenditures for new work and alterations were reported from all states except the West Central and Pacific and the aggregate volume of building permits for the whole country during the first seven months of the year was brought up to 19.6 per cent.

On his descent into the sea, William Beebe... fish with headlights. And at least every third one, no doubt, was driving too fast.—Boston Evening Transcript.

TO THE MEMORY OF FRED BERGER
Died at Sonora, Texas, Thursday, July 26, 1934

Whereas a tidal wave of sadness flashed over our quiet little community when the sad but stern fact was known that Brother Berger had fallen victim to the ruthless hand of Death; and,

Whereas, we wish to pay a tribute of respect to our departed Brother, who has been a member of the Sonora chapter Number 575, Order of the Eastern Star, for almost twenty years; therefore,

Resolved, that in his passing our golden chain has been broken and with sad hearts we regret the loss of a useful member, the community a Christian neighbor, and the family a beloved husband and devoted uncle.

Resolved, that we deeply sympathize with the family in their sorrow and know that their loss is his eternal gain. "Blessed are the dead that die in the Lord, from henceforth: Yea, sayeth the Spirit, that they may rest from their labors; and their works do follow them." He has only gone before, has crossed over the river and rests on the other shore, where sickness, sorrow, pain and death are felt and feared not.

Resolved, that a copy of these resolutions be sent to the relatives of the deceased, spread upon the minutes of Sonora Chapter No. 575, Order of the Eastern Star, and a copy furnished the press.

Fraternally submitted,
Jean Westbrook
Jessie Johnson

School Opening—

(Continued from page 1)

three years he was principal of North Park junior high school in Abilene and last year was principal of the Blackwell high school.

Miss Maurine Loranice will teach English in the high school in the place of Miss Johnnye Guyne who was recently appointed and resigned to accept work in Port Arthur. Miss Loranice has a B. A. and M. A. from University of Texas and has taught in the McAllen high school for two years. She was offered a position in McAllen again this year but preferred the Sonora work.

Visitors May See Improvements

Mr. Covey has urged that all who attend the Monday meeting in the auditorium also inspect the elementary school building where work is being completed. Walls have been painted a light buff, the ceilings in new ivory and the oak floors which have been laid throughout the building finished with two coats of varnish and one of wax. A thick layer of deadening felt was applied before the new flooring was laid on the old.

A new electric stove and four hot plates with ovens have been installed in the high school home economics room instead of the gasoline equipment. Thirty-one girls indicated last spring that they would take home economics instruction. Miss Florence Langford will devote all of her time this year to home economics instruction.

More than 1000 new books have been received from the state agency for that purpose. These have been made necessary by changes in textbooks authorized for the high school by a local committee appointed by the board and, for the elementary school, a local committee working in conjunction with a state group.

Mr. and Mrs. C. H. Carson and daughter, Edythe, and Miss Elsie McKellar of Austin were in San Angelo Wednesday. Miss McKellar and Miss Carson will remain several days as guests of Mrs. Stewart Mitchell.

Silkworm Gives Secret of Clever Manufacture

Until the middle of the last century few people thought seriously of applying to the silkworm to learn the process of manufacturing artificial silk, as a commercial product, says Tit-Bits Magazine.

Then fate brought together a young French student, afterwards Count Hilaire de Chardonnet, and Pasteur, at that time studying a mysterious disease known as pebrine, responsible for the deaths of large numbers of silkworms. Inspired no doubt by the zeal of his great master, the young Frenchman began to investigate the silkworm's "private factory." He found that the insect fed exclusively on the leaves of the oak and the mulberry, and expelled the excrement through two tiny orifices in the form of a gum, which on contact with the air solidified into a fine thread. He set to work to reproduce the process.

Utilizing several existing inventions, notably the system of producing wood pulp, discovered accidentally by F. G. Keller, a weaver of Saxony, Chardonnet, in 1884, started the textile world by an announcement of his successful manufacture of artificial silk. This he obtained first by winning cellulose from the pulp of mulberry trees, then converting this substance into nitrocellulose, which he finally dissolved and forced under pressure through orifices into hot-air chambers, leaving a meshwork of silky fibers. Unfortunately, the material gave such spectacular proof of its inflammability that in the interests of public safety the authorities prohibited its further manufacture. A way was soon found, however, of avoiding this, and the ban was lifted.

Northern Rhodesia Like an Oval-Shaped Balloon

Northern Rhodesia is the northern two-thirds of old Rhodesia, that vast British-owned, central African empire that is named for the intrepid Britisher, Cecil Rhodes, says the National Geographic society. The colony is one of the queerest shaped political subdivisions of Africa. If it were not for a few miles of straight line along its borders, it might be described as the profile of an oval-shaped toy balloon that has been forced out of its normal form by a finger thrust into one side. The finger in the case is a point of land belonging to the Belgian Congo which so far indents the colony's northwestern border that it comes within 100 miles of meeting the border of Mozambique, a Portuguese colony, which bars northern Rhodesia from the Indian ocean.

Most of the colony occupies the central plateau of Africa. Only a small area is less than 3,000 feet above sea level while much of it is about 5,000 feet.

A hike across the wilderness of northern Rhodesia might be compared to a visit to the animal tent of a circus, except that on the African trip there would be no bars and fences between the visitors and the animals. Elephants and giraffes range over nearly the whole colony. Lions, antelopes, and zebras are at home in northern Rhodesia; hippopotamuses are found in nearly every river, and hartebeest.

Mystery of a Grave

Those who make a journey, sentimental or otherwise, to the grave of Laurence Sterne, in the old burial ground of St. George's, Hanover square, may, indeed, sigh to read the inscription on the stone. But let them spare the starting tear! Why? Because Yorick certainly does not lie beneath. The parochial authorities have made rather a habit of shifting the stones about. Before the war, when they turned the graveyard into allotments—which in part remain—the Sterne tomb was situated in the middle. It is now far on the west side. Moreover, there is no sort of certainty that Sterne's remains are anywhere in the ground at all. A contemporary rumor had it that he was "snatched" almost at once. As an old man once encountered near the spot said: "They do say that Jimmy Twitcher got 'un." Now Jimmy was a noted resurrectionist.—London Daily Telegraph.

A Universal Language

There have been several attempts to found a universal language. Long ago, Latin was the universal learned language of Europe, both in speaking and writing; while in more recent times French has been used as the language of diplomacy. The first "manufactured" language to gain any popularity was Volapuk, devised in 1880 by a German priest. It was based largely on English. Esperanto, the most successful of all, was invented in 1887 by a Russian, is taught in schools in many countries, and has an extensive literature of books, grammars, etc. The "youngest" of these languages is Ido, a modified form of Esperanto, "born" in 1907.—Answers Magazine.

Reindeer in Arctic Regions

The only domestic animal that is bred profitably in the Arctic regions is the reindeer, because it requires neither hay for food nor shelter. There are more than 125,000,000 of them, and it is not uncommon for single breeders in Arctic Siberia to own herds of 10,000 at a time.

District Court to Hear Suit Against Contracting Firm

Pecos County Residents Allege Company's Negligence Was Cause of Injuries

Plea for damages of \$25,000 and medical and hospital bills is contained in a petition in the damage suit of Mr. and Mrs. Arthur Harral of Pecos county against W. W. Vann & Co., highway contractors, set by Judge Joe Montague for the first day of the 112th district court which convenes Monday.

The Harrals allege that the defendant company, said to be a partnership made up of W. W. Vann, Ross Anglin and W. W. Bradford, was negligent in building a deep and dangerous pit across the road approximately thirty miles east of Ozona in Sutton county. Insufficient warning signs were used, it is claimed.

It is alleged that "on or about April, 1933" the Harral's car went into the ditch and Mrs. Harral received as a result a fractured and dislocated back, physical shock and intense nervous shock.

A plea of privilege has been considered by Judge Montague and the case set for hearing on the first day of the court session.

Few New Cases on Oocket

A number of cases, filed several years ago, and repeatedly continued several times, are scheduled. Among these are:

Mamie E. Clarkson vs. Wool Growers' Central Storage Co., trespass to try title and for damages.
 E. C. Garvin vs. S. T. and W. C. Gilmore, suit for damages.

A. F. Clarkson vs. C. S. Keene. Rent and foreclosure of landlord's lien.

W. L. Davis, et al, vs. Ben F. Meckel, suit for writ of injunction.

W. H. Hill, et al, vs. American Angora Goat Raisers' Association, suit for damages.

Several Suits on Notes

Among the civil proceedings which are set for hearing are:

First National Bank vs. Joy Bros., suit on note and foreclosure of lien.

E. F. Vander Stucken vs. James R. Caldwell, suit on note.

Mrs. S. M. Sessom vs. J. S. Glasscock, suit to foreclose on vendor's lien note

Divorces are requested by Mrs. Gertrude Ramirez and Mrs. Verna Archer in proceedings styled: Mrs. Gertrude Ramirez vs. Charles P. Ramirez and Mrs. Verna Archer

vs. W. E. Archer.

Only one criminal case is set—that of Arlez Terry, charged with wife desertion. Complaint was filed March 20, 1932. He broke jail after arrest. The case has been continued several times.

Jurors Selected

Those who have been ordered to report for grand jury service have been summoned by Cashes Taylor, deputy sheriff, to appear at 10 o'clock Monday morning. They are:

Roy Aldwell, A. W. Awalt, Roy Baker, Joe Berger, Frank Bond, S. S. Bundy, Mac Cauthorn, W. R. Cusenbary, John Eaton, Jr., Aldie Garret, Leonard Gibbs, R. E. Glasscock, Sam Karnes, Bill Mittel, William Allison, M. G. Shurley

Petit jurors who have been summoned include:

E. A. Bode, Orion Brown, W. A. Carroll, George D. Chalk, W. L. Davis, B. B. Dunbar, F. E. Dungan, W. S. Evans, John Fields, W. C. Gilmore, R. A. Halbert, V. F. Hamilton, Charlie Hull, Fred Hull,

Bryan Hunt, L. E. Johnson, C. T. Jones, C. E. Lehman, Robert Kelly, Ed Mayfield, Vernon Marion, B. F. Meckel, R. R. Murr, J. T. Penick, Virgil Powell, Dow Puckett, C. O. Ridley, J. B. Ross,

Collier Shurley, H. L. Taylor, Perry Valliant, Tom Wilson, Dante Reiley, B. M. Halbert, jr., Thomas Espy, Otto Thiers.

They will report to the judge Wednesday morning at 9 o'clock.

New Doctor Located Here

Delayed about a week because of the illness of his son, Frank, jr., Dr. J. Franklin Howell, Mrs. Howell and their two children, formerly of Sweetwater, came here the latter part of last week and are living in the Mrs. E. A. Cusenbary property near the courthouse.
