NUMBER 39

Teachers Named To Sonora School System Faculty

Walter E. Willis, Donna, and Mrs. Claudia Parker Sanders To Teach Here, 1935-36

On September 2 (the "first Monday") Sonora school pupils will again take up their duties in their respective grades and high school classes.

Students in Sonora high school will receive English instruction next year from Walter E. Willis, a graduate of Southwestern State Teachers' College, San Marcos.

Mr. Willis was selected at a meeting of the board Friday night when other business matters relative to the opening of the schools in September were handled.

For five years Mr. Willis was a member of the teaching staff in Donna, Hidalgo county town of 4,103. During his years there he was elementary school principal, junior high school principal and teacher of English. He is said to be an accomplished musician, specializing in voice, having trained glee clubs, quartets and other vocal groups. He has also trained debating teams which have entered state contests in that field of scholastic endeavor.

Mr. Willis expects to complete his work next summer for his master's degree.

B. H. McLain, superintendent of schools, went to Austin this week but expects to return here in about a week.

Mr. McLain says that it is his intention to use Mr. Willis in work with extra-curricular groups of various sorts, thereby taking advantage of his several abilities.

The third grade in the elementary school will be taught by Mrs. Claudia Parker Sanders, also a graduate of the San Marcos educational institution. Last year Miss Ruth Warner was instructor of children in that grade.

This summer Mrs. Sanders is a student in the University of Texas. For five years she taught in Lockhart and for the last two she has taught in Iraan. She has specialized in music and art in the primary grades and will be in charge of music in the three primary grades here. Her specialty has been the development and direction of rhythm bands among the beginners.

The board decided to seek bids for re-roofing the high school building, the tile construction of which has given a great deal of trouble recently. Furniture for the new Mexican School was bought and a number of additional items, not previously contemplated, were authorized for that building. These include the placing of heavy screen guards over the windows, provisions for tiling the water away from the building and the installation of a pressure water system.

HE KNOWS CHARACTERISTICS OF LIVESTOCK

(A Round-up Speaker)

Dr. B. L. Warwick is an animal husbandman at the College Station experiment plant. His address Wednesday morning at the Ranchmen's Round-up at the Ranch Experiment Station will be on "Inheritance of Characteristics in Animal Breeding."

HE'LL TELL OF RESEARCH WORK AT STATION

(A Round-up Speaker)

Dr. I. B. Boughton, veterinarian on the staff of Ranch Experiment Station (Substation 14), will speak Tuesday morning on "Investigation of Animal Diseases at the Ranch Station." The Station near Sonora has 3,461 acres in Sutton and Edwards counties.

Ica Adams, Now of Brawley, a Visitor

Former Sonoran, Now Postmaster. To Have New Building

The Texan traveling to California by way of the Imperial Valley will see no prettier country than that to which he has been accustomed this summer.

That was the statement made Tuesday by Ica Adams, postmaster in Brawley, Cal., Imperial Valley town, who with Mrs. Adams and their children, Ica Carl, Jr. and Jackie, arrived in Sonora Monday to visit friends and relatives. They spent a few days here and will visit in Menard, Del Rio and other towns before returning to California. Mr. Adams has not been here since 1927.

Mr. Adams, a cousin of Mrs. Fred Jungk and a nephew of Tom Adams, was reared here and formerly operated a pressing and tailoring establishment here. He left in 1920 and has been in a similar business with his brother in California until five months ago when he became postmaster in Brawley.

His mother, Mrs. Alice Adams, lives with her son and family and is making the trip with them. She stopped in Ozona to visit Mrs. Chris Meinicke. She is the lady who is said to have chosen the name "Sonora" in 1880 for what was destined to be "The Capital of the Stockman's Paradise" in the years to come.

Mr. Adams declares he likes the postoffice work and at present he is quite enthused over the prospects of his town securing a \$30,000 air-conditioned postoffice building. Recently in conversation with a Washington official of the department, he was assured that actual construction of the building was a possibility of the near future. The building has been authorized.

NEWS' PICTURE LAST WEEK ONE OF FIRST PRINTED

The NEWS takes a pride it believes to be pardonable in the number of pictures it uses of individuals "in the news" at home or elsewhere.

Last Friday the NEWS used a picture of Richard J. Osenbaugh of Denver, who Thursday was elected president of the International Association of Lions Clubs at the Mexico City convention. Alongside was a picture of John Eaton, Sonora Lions Club president.

The NEWS was one of the first, probably the only, West Texas weekly newspaper to give its readers a view of Mr. Osenbaugh so soon after his election. A cut of Mr. Osenbaugh from the national office of Lions International came in the Thursday noon mail.

The NEWS had its cut of Mr. Osenbaugh several days before. Not only was it ready for use but it proved to be a better picture of Mr. Osenbaugh than other weekly papers will use this week.

Depend on your NEWS.

Nine Boy Scouts of Troop 19 Pointing To U. S. Capital

Twelve Merit Badges Given Six Sonora Boys Who Will Be at Jamboree

Nine Sonora Boy Scouts of Troop 19—perhaps the largest representation, town population considered, of any in the United States—are counting the minutes until they "shove off" from Sonora for the National Jamboree in Washington, Aug. 21-30.

At a Court of Honor at the Scout Hall Tuesday night Reginald Trainer became a Life Scout and he and five other of his troop companions received twelve merit badges signifying their proficiency in certain subjects. All of the boys will be in the group "Washington-bound," by way of a preliminary camp at San Angelo, Aug. 14. The San Angelo camp at Log Cabin Village will be from Wednesday afternoon, Aug. 14, to the next evening when the 120 boys and Scouters entrain for Washington.

These are the Sonora Boy Scouts who are going to the National Jamboree in Washington:

Kenneth Babcock
Wesley Sawyer
A. W. Await
Jack Shurley
Lloyd McGhee
Louis Davis
Bobby Nisbet
Reginald Trainer
J. O. Mills

Some of these boys need items of cowboy attire that will help them in their stunts in Washington when West Texas boys show others of the United States "how it's done." If you can lend them anything of the sort call John Eaton Scoutmaster, or any of the boys.

Thursday afternoon, Aug. 14, to the next evening when the 120 boys and Scouters entrain for Washington.

Boys who received merit badges Tuesday night were:

Kenneth Babcock: Zoology, Chemistry, Painting.
Reginald Trainer: Safety, Civics.
Louis Davis: Personal Health, Safety, Reading.

Jack Shurley: Public Health.
Wesley Sawyer: Civics, Safety.
Lloyd McGhee: Woodwork.

Those from other towns who were given badges indicating their success in certain lines were:

Ozona: Howard Lemmons, Grover Jones, Richard Miller, Maurice Lemmons—all Star Scouts now; Howard Lemmons, Maurice Lemmons, Handicraft Merit Badge; Richard Miller: Handicraft, Life Saving.

Eldorado: Jo Ed Hill: First Aid to Animals, Woodwork, Firemanship, Pioneering, Bookbinding; Bob Bradley: Life Saving, Swimming; Willie Bridgman: Public Health, Personal Health, First Aid; J. T. Balleu: Animal Industry, Reading, Life Saving, Bird Study, Camping; M. C. Laird: Camping, Pioneering, Bird Study.

WAREHOUSE MAN TO TALK TUESDAY AFTERNOON

(A Round-up Speaker)

W. J. Fields, Jr. (Bill to you and you and you) will lead the discussion at the Ranchmen's Round-up after Frank Grayson of the Bureau of Agricultural Economics, Washington, speaks on "Grading and Handling of Wool."

HE'S DIRECTOR OF SIXTEEN TEXAS SUBSTATIONS

(A Round-up Speaker)

At 10:05 Tuesday morning A. B. Conner will welcome visitors at the Ranch Experiment Station's eighth annual Ranchmen's Round-up. Mr. Conner is in charge of the Texas Agricultural Experiment Station at College Station and of sixteen substations over the state.

Concho Basin Race Warms As Sonora Gets 5-Game Lead

Ellis Parts Slips Sunday As Station A Sonora Group Takes Another Two Games

Station A Sonora's two victories over Eola Sunday and the two defeats administered by Rowena to Ellis Parts the same afternoon left the Sonora entry five games ahead of Ellis Parts with only ten games remaining.

The Ellis Parts unfortunate work Sunday was a surprise to all followers of the Concho Basin League inasmuch as the Rowena team has shown little strength and after the games the Sunday before had been occupying the cellar position in the league.

Sunday the Station A Sonora team goes to Miles to play two games while Eola tackles Veribest and Rowena takes on Ellis Parts. The local team will be handicapped by its lack of Motley, catcher, and Hudson, left fielder, both of whom are on vacation. Nor will G. W. Archer, shortstop, be in his regular position.

Caught off third base in the sixth inning of the second game Sunday, Archer tried to slide back to the bag and in doing so sprained his left ankle. The injury will likely keep him out of the line-up Sunday and perhaps hamper his diamond activities the rest of the season, concluded Sept. 1 but with the play-off of five games between the winner this half and Ellis Parts, first half winner, to come after that.

Roy Nance, official scorer for the Station A Sonora ball team, said yesterday that his records show the team has won 25 games, tied 1 and lost 10 during the entire season.

Although an official league standing was not obtainable from the league statistician in San Angelo, W. A. Hampton, Station A manager, said yesterday afternoon that he believed the following tabulation was accurate:

CONCHO BASIN LEAGUE			
	P.	W.	L. Pct.
Station A (Sonora)	12	12	0 1000
Ellis Parts	12	7	5 .583
Rowena	12	5	7 .416
Veribest	12	4	8 .333
Eola	12	4	8 .333
Miles	12	4	8 .333

WHERE THEY PLAY SUNDAY

SONORA AT MILES.
Eola at Veribest.
Rowena at Ellis.

Lefty White in the first game Sunday allowed six hits and struck out twelve batters. P. McLeod, Gardner and Ratliff were the leading hitters, each getting three hits, one of Ratliff's being good for a home run. The Station A group took the game by a topheavy score (Continued on page 8)

All in Readiness for Opening Round-up Program Tuesday

Money From Varied Sources Will Send Scouts On Trip

Rodeo Nets \$340, Mothers Earn \$25 and Baseball Profits More Than \$100

Baseball sponsorship by Sonora business men, the Race Meet and Rodeo, work by mothers of Boy Scouts and the Scouts' own efforts have made possible the fund which will send Sonora boys to the Boy Scout National Jamboree in Washington, Aug. 21-30.

George H. Neill said Tuesday that the net profit of the two-day rodeo-race meet was \$340—all of which is to be used by the Boy Scouts for their Washington trip.

Sonora business men, ever loyal to community projects, subscribed \$725 for summer baseball here, according to Roy E. Aldwell of the Scouters committee this week. Of this amount \$669.50 has been collected by W. R. Nisbet who has solicited and collected the money. Besides the cash received, \$5 in services was given.

Other receipts incidental to the baseball season, have been: season tickets, \$18; gate receipts, \$87.25; soda water sales at games, \$75.

Mothers of Boy Scouts have earned about \$25 for their boys by serving the Lions Club luncheons.

Each of the Scouts must provide the \$25 registration fee necessary for the Washington trip which will cost, for the boys and the local committee's share of a Scoutmaster's services, \$627.20. Amos Floyd of Humble Station B will be in charge of the boys who go from Troop 19.

Disbursements of the baseball project include such as the following:

To Station A Sonora Ball Club, \$620; printing and advertising, \$15.25; merchandise, \$2.80; lumber and materials, \$4.80; miscellaneous, \$1.10.

It is believed that the net to the Boy Scouts as a result of the baseball project (Continued on Page 8)

SONORA PHYSICIANS WILL CONDUCT P-T. A. ROUND-UP

Thorough examination of children who will enter school for the first time in September is the purpose of the annual "Round-up," sponsored by the Sonora Parent-Teacher Association at the high school building, Monday afternoon only.

Drs. J. Franklin Howell, Joel Shelton and Tom White will examine the children without charge to their parents.

CHIEF OF RANGE ANIMAL HUSBANDRY WORK

(A Round-up Speaker)

Ranchmen and others who attend the Round-up, Tuesday and Wednesday, will hear J. M. Jones of College Station tell of "Sheep Feeding in Texas" at 9:05 Wednesday morning. His address follows one by Dr. Verne A. Scott, veterinarian, John Tarleton College, on "Care and Management of Saddle Horses."

Motion Pictures Will Be Shown at Eight Monday Night

MANY TO ATTEND

Free Barbecue Dinner Both Days of the Program

"... Now how many pounds of pinto? All right. Now what kind of coffee do you want, Wallace? O. K. This is all for the Round-up, isn't it? All right, we'll get all of it ready for you."

It was R. D. Trainer, store manager, talking by telephone Thursday afternoon to W. H. Dameron, superintendent of the Ranch Experiment Station, as he ordered supplies for the free barbecue—an important feature of the Ranchmen's Round-up there Tuesday and Wednesday.

A NEWS representative happened by at just the right time to hear the details of the eatables being ordered for the Station's eighth annual "party."

"Plenty to eat!"—Dameron Mr. Dameron says that seventy-two goats are in cold storage and will be barbecued to feed the hungry people who will attend the two days program. In telling of the plans being completed for the Round-up Mr. Dameron said yesterday afternoon:

"The grass is green, stock is fat, people are feeling good and from all we hear there'll be many here. We're getting ready for them and we don't believe they'll disappoint us. They never have and certainly they shouldn't this year for 'things' look so well that people really have a right to take time off and come here for two days of instruction and entertainment."

The official program was released Monday and is, in substance, the same as the tentative one released last week by Mr. Dameron and published in the last issue of the NEWS.

Station Purposes Described

The program folder is concluded with the following statement relative to the size and purpose of the Ranch Experiment Station:

The Ranch Station property comprises 3,461 acres, all used for grazing except 60 acres of cultivated land utilized for growing feed crops. The grazing land is divided into five main pastures with several additional experimental traps.

The purpose of the Ranch Experiment Station is to study the livestock problems of the ranchmen in relation to efficiency in the operation of range livestock production. Among the important disease problems under investigation are soremouth, swellhead, convulsions, hard yellow liver, big liver and internal and external parasites. Other important problems are poisonous plant troubles, study of inheritance of characters in sheep and goats and improvement by breeding, shrinkage studies of individual and flock fleeces of wool and mohair, range vegetation studies and grazing habits of livestock.

A. B. Conner, director of the Texas Agricultural Experiment Station, College Station, has been chief executive of the state work since 1926 and will be here to welcome the visitors at the Ranch Experiment Station, one of sixteen substations over which he has supervision. The response will be by Claude B. Hudspeth of Comstock, brother of Roy Hudspeth, ranchman of this section.

Dr. Youngblood Coming

One of the most welcome of the gentlemen who are to be on the program is Dr. G. Youngblood, economic investigator, Indian Field Service, Department of the Interior. Recently Dr. Youngblood has been engaged in work on Indian reservations and he has written Mr. Dameron that he will have with him several of the Indian

CULTURE OF TIMES MIRRORED BY SHIPS

Far Cry From Normandie to the Dugout Canoe.

Washington.—When the Normandie, largest ship afloat, steamed into New York harbor, another thrilling chapter was written in maritime history.

Her quick crossing from Havre to New York, her air-cooling system, illuminated glass decoration, immense swimming pool and scores of other outstanding features will satisfy the modern traveler's craving for speed, size, and luxury.

"In every age, ships have mirrored the culture of their era," says the National Geographic society.

"It's a far cry from the streamlined Normandie to what was probably the first boat, a tree trunk to which a savage clung. Transitions from a log, to a dug-out canoe, to a boat made of planks calked with pitch were made early in civilization. Soon armored Vikings in their sturdy boats of riveted overlapping oak timbers rode the green combers of stormy, northern seas, and the oars of long, low galleys flashed in the sunny Mediterranean. Many of the galleys scudded along under a square sail, but they were propelled chiefly by the efforts of weary slaves. Galley slaves persisted as late as 1830, when captives still manned the ships of Barbary pirates.

In the Middle Ages.

"The Phoenicians, first sailors to explore the full length and breadth of the Mediterranean, modified the galley. Afraid of being swamped by following seas breaking over it, they raised the stern of the craft.

"During the Middle ages, the desire to travel longer distances led to the abandonment of oars for the crowded sails of the Spanish and Portuguese galleons. In galleons, the high stern reached exaggerated heights. These picturesque but clumsy craft were built primarily to transport large quantities of gold and other precious spoils, not for speed.

"Built for rougher waters and to chase fleet schools of fish, northern boats were sturdier and swifter. Some of the boats which darted like wasps around the ponderous Spanish Armada were the small, fast boats of English fishermen.

"Since the time of Alfred the Great, England has maintained a navy to protect her from attacks by sea. That the king's ships meant business is shown by the fact that until the end of the Eighteenth century, their interiors were painted red to make the bloodshed in naval battles less obvious.

"After Vasco da Gama sailed around the Cape of Good Hope and reached the Malabar coast, fleets of East Indianmen began sailing out to India. The ships carried 20 or 30 guns, were massive and rather slow.

"Ships built to run to the West Indies, on the other hand, were faster, because they carried what cynical captains referred to as 'perishable cargo'—fruit, and slaves packed in 'spoon-fashion' below decks. Trade in slaves, opium, and tea, as well as gold rushes, led to rivalry among American and English shipyards in building large, fast sailing ships. These found their climax in the clipper ships, the first of which was built in Baltimore about 1830. Most of the clippers from New England shipyards carried tea from China, or gold seekers to San Francisco and Australia.

Dramatic River Races.

"With the opening of the Suez canal and the growing use of steamboats, the popularity of clipper ships waned. In 1807, Robert Fulton's Clermont steamed up the Hudson at five miles an hour, while a man on its deck ran about listening. Whenever a hiss told of escaping steam, he stopped up the leak with molten lead. By 1818, steamboats reached the Great Lakes, and by 1832 they moved up the westernmost tributaries of the Missouri, carrying pioneers into the great Northwest. Fueling these wood-burning boats was a problem, as cottonwood trees near the banks made poor fires, and to saw wood inland meant risking attacks by Indians.

"In the latter part of the Nineteenth century, over 2,000 steamboats regularly plied the Missouri, Mississippi and Ohio rivers. From 1850 until the Civil war the winding reaches of the Mississippi resounded with splashing paddle-wheels. Rivalry was intense between passenger steamboat captains, who engaged in races as dramatic as those between clipper ships. Steamboats dashed past each other, furnaces stuffed with tar and resinous wood belching flames that lit up the night skies. In one famous race, when fuel gave out, stateroom partitions, benches, and even fine furniture fed the boiler fires of the winning ship.

"Although primarily a sailing packet that used its sails most of the voyage, and steam only part way, the American ship Savannah is generally credited with being the first steamship to cross the Atlantic. In its wake came a long line of ocean-going liners built in rapid succession and culminating in the present crown of modern maritime achievement, the Normandie."

Artist Sells Shares in Himself

Shares in the talents of young Richard Crist, Pittsburgh artist, show here in his studio, sold at a par of \$5. He wanted to go to Mexico on a painting expedition, and to finance his trip offered to bring back a water color or oil painting for each of those who would buy one or more shares in Richard Crist, Inc.

FHA Reports Farm- Home Improvements

California, Michigan and New York
Lead in Loans

Washington, D. C., Aug. 1.—More business was transacted with the farmers under the modernization credit plan of the Federal Housing Administration during the month of June than any other month of its existence.

More than 1600 farm modernization credit loans were extended through financial institutions approved by the administration during the month. This was a gain of approximately 300 over the number of loans extended during May.

The June credits totaled \$663,503.50. Since the inception of the modernization credit plan, 7,589 farm loans have been made totaling \$3,114,419.09.

California led the United States during the month of June with 307 credits extended in the amount of \$145,272.80. New York was second with 157 credits totaling \$66,961.93 and Michigan was fourth with 96 credits totaling \$31,237.

Arizona, which was third, rose from three loans extended during February, 1935, to 114 during June. In February the loans averaged \$356 each and last month the average for each credit extended was \$403.84. This was the greatest increase shown in any state.

George Barrow's Hand Cut

A severe cut from the back of his left hand across to the palm was suffered Sunday afternoon by George Barrow while he was peeling a peach with a butcher knife. He was attempting to remove the seed when the knife slipped and caused the painful injury. Stitches were necessary both Sunday and Tuesday to close the wound.

Scissors Real Aid To University Girls

Young Women Clip Newspapers
As Self-Help Project

Austin, Aug. 1.—Approximately 180 young women have been enabled to attend the University of Texas, and in many cases, to complete their university education by means of part-time work in the Students Clipping Bureau, it is estimated. The bureau is operated as an adjunct to the University Office of Publicity.

Started in 1915 for the sole purpose of obtaining a check on the amount of space devoted in Texas newspapers to mention of the university, the clipping bureau was a few years later expanded to give part-time employment to university girls. A small list of other clients was built up, among state departments, state-wide associations and commercial and industrial firms. All proceeds from the sale of clippings were and continue to be used to pay the salaries of the young women students employed.

The Students Clipping Bureau is student-maintained and student-operated. It receives no appropriation from state or university funds, and its revenues are placed in a separate fund in the university auditor's office and used entirely to meet its payroll. Whenever a sufficient profit accrues to the fund, additional girls are employed.

The girls employed in the bureau work approximately two hours per day and are paid at regular university rates. A preferred employment office on the campus, the bureau always has a long list of applicants awaiting jobs.

Sitting and wishing is a poor way to get what you want.—Dean E. V. White.

PERSONALS

Miss Reba Callan and Seth Lancaster were in San Angelo Tuesday afternoon.

Miss Zella Lee Thorp and Miss Muriel Simmons were in San Angelo Monday.

Miss Reba Callan of Station B is the guest of Miss Zella Lee Thorp this week.

Mrs. Rose Thorp and daughter, Ches, left Monday for a week's stay in Christoval.

Miss Reba Jones of Lometa is the guest of her uncle and aunt, Mr. and Mrs. C. H. Jennings.

Marguerite Howell has as her guest this week Josette Boughton of the Ranch Experiment Station.

Mr. and Mrs. Ray Glasscock of San Angelo are the guests of his parents, Mr. and Mrs. Bob Glasscock.

Mr. and Mrs. Mans Hoggett of Mertzon were the guests of Mr. and Mrs. W. L. Davis Saturday night.

Mrs. Fred Hull, Miss Margaret Hull, John Hull and Alice Adkins returned Monday from a visit to San Antonio.

Mr. and Mrs. Edgar Shurley and son, Billy, returned Thursday of last week from Jacksonville where they had been visiting.

Mrs. C. H. Jennings returned Thursday of last week from Belton where she has been visiting her parents, Mr. and Mrs. J. E. Lucas.

Mr. and Mrs. Jack Turner of Junction were the guests of Mr. and Mrs. W. L. Davis Friday and Saturday. Mrs. Turner is a sister of Mrs. Davis.

Mr. and Mrs. J. H. Brasher returned Monday from San Antonio. They were accompanied home by Mrs. Brasher's sister, Mrs. Walter Gulick, and Mr. Gulick.

Convenient FOOD STORAGE

CONSTANT dependable refrigeration, right in the kitchen, where it is most convenient... foods that ordinarily spoil easily, kept fresh, wholesome and healthful... ice cubes when they are wanted... crisp salads... delicious desserts... chilled drinks... these are some of the benefits enjoyed by thousands of women who have placed Superfex Oil Burning Refrigerators in their homes during the past few years.

The cost of these advantages is small, as the only expense with a Superfex is a small amount of kerosene daily. Users say their costs are as low as \$10.00 a year—less than a dollar a month!

Superfex is available in five sizes—convenient, good-looking and built to give many years of satisfying service.

Call on us soon for a demonstration.

MUSEUM OF "G" MEN IS FULL OF HORROR

Meant to Show That Outlawry Does Not Pay.

Washington.—The federal bureau of investigation, Department of Justice, is operating a museum of crime—admission free—which makes the celebrated Mme. Tussaud's wax-work horrors seem tame by comparison.

There's no wax in the government's museum. The blood is real. So are the bullet holes.

The display is housed in the modernistic reception room of J. Edgar Hoover, chief of the "G" men. There in glass cases surrounded by all four walls are mementos of some of the most notorious desperadoes in recent history—and how they met their ends.

In the place of prominence is the bloody straw hat of John Dillinger, who was shot to death in front of a Chicago movie theater. Beside it is a cheap cigar he had in his pocket, broken gold frame from the eyeglasses he wore as a disguise, and a plaster cast of his face, showing the bullet holes.

Missing—and asked about by most visitors—is the famous wooden gun which Dillinger is supposed to have carved in his leisure moments and used to make his escape from the Crown Point (Ind.) jail. There seems to be some doubt now whether such an imitation gun ever existed.

Outlaw Arms.

Near by is gruesome evidence of many a kidnaping, murder and bank robbery. Case after case is filled with machine guns, shotguns, revolvers and knives taken from criminals. There are pieces of hangman's ropes, which tightened around some of their necks.

It is interesting to note that many of the weapons are stamped with the insignia of the United States army, showing that they were stolen by underworldlings from National Guard armories. The Department of Justice even now is waging a vigorous campaign to force the states to keep their armories locked tight against marauding gangsters.

Another major display is the green thermos jug in which the kidnapers hid part of the \$200,000 ransom money they obtained from Charles F. Urschel, Oklahoma City business man. The jug was dug up from a cornfield in Texas.

Girl's Wig Shown.

Draped beside it is the red wig which a feminine member of the Urschel kidnap gang wore when she was captured in Memphis, Tenn.

It is a dull day when 100 or more persons do not sign the register at the display. Most of them take a regular tour of the Justice department, spending most of their time in the seventh floor laboratories, where science works amazingly in the war against crime.

There are the shops where faces and hands and sometimes whole bodies are reconstructed in plaster and painted so realistically that they seem real.

There is the fingerprint division, which contains the everlasting signatures of several million Americans, most of them lawbreakers, although the division also has a non-criminal fingerprint division for the protection of any law-abiding citizen who wants to make use of it.

A photograph laboratory, a microscopic division, which can look at a bullet and tell what kind of gun it came from, and even identify the gun, an experimental radio plant and a general chemical laboratory complete the layout.

Liberty Statue to Have Birthday Party in 1936

Washington.—American citizens have been invited by the national park service to participate next year in a program which will mark the fiftieth anniversary of the Statue of Liberty.

The monument was unveiled on October 23, 1886. The nation shared in the ceremonies.

The park service has requested that everyone interested in the semi-centennial celebration assist in locating and assembling poems and pictures of the statue which were published at the time France presented the memorial.

It was pointed out that many of those pictures and illustrated accounts were "striking and artistic, lending themselves admirably to effective reproduction."

Authors who wrote poems during the dedicatory period included John Greenleaf Whittier, Ella Wheeler Wilcox, E. C. Stedman, Charles Barnard, Esther Singleton, John J. Garnett, Sidney Herbert Pierson.

Indian Warriors Caught Hunting Airplane's Eggs

Cabuyaro, Colombia.—Several Indian warriors, caught by a sentry while hunting for something beneath the wings of a tri-motored Ford transport plane, confessed they were looking for the "big bird's eggs."

The savage tribes of this desolate region saw their first planes only recently, when the Colombian government established an airline from Bogota to Puerto Carreno, on the Orinoco river. Awed, they traced the "big bird" to its "nest."

July Stock Sales in Sonora Described

Many Wethers Go To Middle West Feed Lots From Here

Recent weighings at the Sonora Scale Co. and shipments given the NEWS by Tom Thorp, inspector for the Livestock Sanitary Commission, include the following:

July 8: Yearling muttons, 258 head, bought by Finley Kitchen, shipped by Robert Kelley and Dee Gibbs to Morris Walters, Amsterdam, Mo.

July 9: Wethers, 98 head, sold by G. B. Baker to B. W. Hutcherson.

July 9: Ram shipped to Bullard Eros., Woodland, Cal., by Virgil Powell.

July 12: Ewes, 495 head, shipped by G. P. Hill to G. G. McGruder, Paris, Mo.

July 14: Wethers, 373 head, sold by H. O. Byrd to B. W. Hutcherson.

July 15: Yearling sheep, 710 head, bought by H. O. Byrd, shipped by J. R. Ridley, Del Rio, to George Brooks, Hallsville, Mo.

July 15: Wethers, 238 head, sold by Henry Wyatt to B. W. Hutcherson.

July 15: 38 head sold by R. D. Trainer to B. W. Hutcherson.

July 15: Wethers, 23 head, sold by Lawrence Steen, Eldorado, to B. W. Hutcherson.

July 29: Wethers, 95 head, sold by Miss Clara Allison to B. W. Hutcherson.

July 30: Yearling sheep, 711 head, bought by Finley Kitchen, shipped by Jim Chadwick, W. J. Fields, Jr. and Howard Espy to Conley & Humphrey, Morris, Kas.

Bees and Keepers Travel Many Miles

Nearly Million and Half Miles California 1935 Record

Beekkeepers and scientists have made many estimates as to how far bees fly in making a pound of honey, but until now no one has determined how many miles by truck and automobile the modern beekeeper must travel in doing his part in producing and marketing a pound of it.

In a survey by the United States Department of Agriculture and the University of California, it was found that 225 California beekkeepers, whose honey crop in 1933 amounted to 6,130,181 pounds, traveled 1,493,628 miles.

The extent to which automobiles are used varies with the type of apiary. In Oregon and Intermountain States, where hives are now often moved from place to place during the honey flow, about ten per cent of the cost of a pound of honey is in transportation, whereas in the migratory apiaries in California, transportation accounts for from twenty to twenty-five per cent of the cost.

ALLISON BROTHERS USED TO SUMMER CAMP WORK

Summer military training is no new thing to Bobbie Allison and his brother, H. R. Allison, who left Thursday night for Palacios, Texas, for work with their Amarillo national guard unit.

It will be the seventh consecutive summer Bobbie Allison has been in the camp. His brother has been to seven training periods before this one but has not attended for two summers.

They will both return to Sonora about Aug. 20, visiting in Amarillo before they return.

try Gulf 3 weeks IN THE "TRAFFIC COURT"

Wanted: A fair trial

If it's been some time since you've used Gulf, try it 3 weeks—then give us your verdict.

Try it in traffic. Starts. Crawls. Get-aways. Climbs. There's no fairer test—and we think you'll confirm a recent judgment...

750 Turned Judges

We went to 750 owners of average cars—asked them to judge Gulf against their regular brands on mileage, starting, pick-up, power, all-around performance.

Gulf Won the Verdict!

At the end of the trial, 7 out of 10 voted Gulf superior on one or more of the 5 counts—many on all five.

Reason? Controlled refining makes Gulf 5 good gasolines in one. Gives it not only 2 or 3—but all five qualities of a perfect gasoline.

Try That Good Gulf 3 weeks—and you'll be an addict!

GULF REFINING COMPANY

Q. What tip on "pickup" can cut down gasoline bills? You'll find the answer in this Gulf Booklet, plus 14 other valuable economy hints. Free—at the Sign of the Orange Disc.

THERE'S A COMMUNITY JOB FOR SOMEONE TO DO RIGHT SOON NOW!

The bridge over Lowrey Draw is more than sixty per cent completed, according to E. E. Pittman of the state highway department who is representing the state in supervising construction of the structure.

Several months ago the NEWS, in a page one editorial, expressed the hope that before the bridge was completed the unsightly, disreputable-in-appearance "Welcome" sign near the new asset to Sonora and Sutton county could be removed.

Nothing has been accomplished in that direction.

To think of placing the sign in good shape is more or less folly. West Texas winds just are not "made" to allow such a sign to stay in good repair (and repute, one might say) for an indefinite period.

It has been said that it will cost quite a bit to remove the sign because it is cumbersome and because there is no place to store it after it is removed. One wonders why it should be stored? Certainly it has served a purpose and now is more of a disgrace to our community than an expression of good will to the many who pass hastily under the dingy, dilapidated letters which spell "Welcome To Sonora."

The NEWS again urges Sonora people to "take the sign by the horns," to paraphrase slightly, and to see that it is removed before the magnificent bridge structure is ready for traffic. That won't be long and something should be done NOW. Let's do it.

SONORA MAN WILL OPEN BRACKETTVILLE STORE

Both fall merchandise for his Sonora store and a general line for the variety store he will open about Aug. 15 in Brackettville was bought in Dallas this week by F. J. Wood.

An experienced manager is to be in charge of the Brackettville business, Mr. Wood said before leaving for Dallas Tuesday morning. While on a visit there last week he learned that a CCC camp to accommodate 300 "enrollees" is being built and that \$850,000 is expected to be spent in rebuilding the fort at Brackettville.

TESTIFIES AS TO RADIO ADDRESS IN TEXAS

Editor and publisher Peter Molyneux of The Texas Weekly, published in Dallas, was questioned in a recent senatorial investigation as to his radio speeches and advertising relative to utility companies. The investigation is directed at the lobbying methods used for and against the utilities bill recently considered by congress.

GEORGE H. NEILL CHOSEN BANKERS' GROUP OFFICER

Direction of the activities of the Hill Country Bankers' Association for the next year will be the duty of George H. Neill, cashier of the First National Bank.

Mr. Neill was elected Saturday night at a quarterly meeting of the association in Kerrville. The organization is made up of twenty-four financial institutions of southwest and west Texas. Other officers elected were: George Stengel, vice-president and cashier, Bevans State Bank at Menard, vice-president; L. S. Johnson, cashier, Junction National Bank, secretary-treasurer.

Mr. and Mrs. C. H. Allen attended the meeting. Mr. Allen is a teller at the First National Bank. The principal address of the afternoon and night sessions was made by H. M. Hart, vice-president of the National Bank of Commerce, San Antonio.

Let thoughts—not notions—occupy your mind.—Dean E. V. White.

YOUNG PEOPLE IN CHARGE OF SUNDAY NIGHT SERVICE

A program entirely in charge of the Young People's Division of the Methodist Church was announced Tuesday by Mrs. W. S. Ezell, superintendent, for the Sunday evening service at 8:15.

The scripture reading will be by Joseph Logan, a senior in high school last year. His sister, Emmalou, will give a reading. Wesley Sawyer, president, will be in charge of the program.

A playlet, "I Pledge Allegiance," will be given by Lunetta Marion, Wesley Sawyer, Edward Guffin and Kenneth Babcock.

Others who will have parts on the program are: Piano solos, Wilma Hutcherson, Lillie Marie Smith, Troy White; piano and violin duet, Kathryn Trainer and Rena Glen Shurley; vocal duet, Robbie Jo Wyatt and Frances Ezell.

If an African war comes, the mosquitoes and teste flies are likely to be pro-Ethiopian.—The Indianapolis Star.

Mexico Beauty and Interest Related By Sonora Lions

Delegates Representing 80,000 Lions Hear Address By U. S. Ambassador

The pleasures of sight-seeing and convention-attending in the capital of Mexico were related here, there and everywhere in Sonora by those citizens who were fortunate to have been there last week when the International Association of Lions Clubs was in annual session.

At the club's luncheon Tuesday noon in the Methodist Church, Lions J. W. Trainer, John Eaton, club president, J. D. Lowrey, past president, and H. V. Stokes, district governor, spoke briefly of their stay in Mexico City and the beauties of the capital city and surrounding territory.

Alton Hightower, Mr. Eaton and Mr. Trainer drove to Monterrey in one day's time, left their car there and continued the trip by train. Mr. and Mrs. Stokes and Mr. Lowrey were on a special train out of San Antonio which was sidetracked in "Pullman City."

New President Praised

Mr. Stokes told of the interesting personality of Richard J. Osenbaugh of Denver, new president of the organization. Other officers selected were: first vice-president, Edwin R. Kingsley, Parkersburg, W. Va.; second vice-president, Frank V. Birch, Milwaukee; third vice-president, Walter F. Dexter, Sacramento Cal.

Convention business occupied Mr. Stokes' time, he said, to the point that he was unable to do much sight-seeing in the capital. Mexico, according to Mr. Stokes, left an impression of being a country of churches, photographers and flowers.

Train service from Monterrey to Mexico City, Mr. Trainer said Tuesday morning, was bad going down but excellent on the return trip. "Casey Jones," he said, must have been at the throttle on the return trip for it was made in about four hours less time than usually allowed.

"Rio Grande a Link"

Mr. Eaton told of the address of

Southwestern Electric Service Co.

Phone 225

SERVICE ON ANYTHING ELECTRICAL

Joseph Daniels, publisher of the Raleigh, N. C., News and Observer, now United States Ambassador to Mexico. The theme of Mr. Daniels' address was that Mexican people must be educated and taught to be a people of united action. The Rio Grande River, he said, was not a division between two countries but rather a link to join the two. A better understanding and better relationship between the two countries is the ever-desirable goal, according to Mr. Daniels.

Accredited delegates representing 80,000 Lions attended the sessions in the Palace of Fine Arts, beautiful structure in the capital. The number of clubs last year reached a new high—2,710. More than 20,000 separate activities were undertaken. These included such things as the building of playgrounds, the supplying of typewriters, radios and Braille courses to the blind, the installation of safety devices and a host of other humanitarian and community needs.

George Bailey, a member of the San Angelo Lions Club, was a guest at the luncheon Tuesday. W. C. Gilmore told of the group meeting at Ballinger Friday night which was attended by himself, C. H. Jennings and Alfred Schwiening. Sixty attended. H. E. Muller, manager of Wm. Cameron & Co., Inc., San Angelo, was elected group chairman and Ozona selected to entertain the next group session three months from now.

Mr. and Mrs. Abe Mayer were in from the ranch this week. Sam Cox, Sr. and Bass Turney were in from the ranch Monday to find out how the war was getting along.

Jack Dragoo the young ranchman who is pasturing his cattle on Dock Simmons' ranch was in Sonora Tuesday on his way to London after cotton seed.

Mrs. Abe Mayer left Thursday for McKavett to visit her mother, Mrs. Lee.

Buyer of Food May Profit By Reading

The "Label Reader" Likely To Save By Knowledge

Washington, D. C., August 1.—Canned chicken is one of the handy packaged foods selected for summer picnics and meals out-of-doors, as well as for home meals when a minimum of work and cooking is desired. It is an excellent choice from the standpoint of convenience and flavor.

But a wise buyer of home supplies, points out the Food and Drug Administration of the United States Department of Agriculture, makes a practice of reading labels on all packaged goods to be sure the family food money is well spent. She wants information as to the weight and purity of the contents. Canned chicken is no exception. In the case of chicken mixtures, she wants to know what else she is getting and how much of it. No one wants to pay chicken prices for canned noodles—in a chicken and noodle mixture.

"Boned chicken" or "boneless chicken" is meat, with or without a small amount of skin, sterilized in cans and jars. It generally is packed with a little salt, chicken fat and sometimes a small quantity of chicken broth for moisture. This is the chicken for sandwiches and salads or for slicing as jellied chicken. Sometimes the natural jelling power of the broth is increased by the addition of gelatin or agar-agar. These do not injure flavor or food value, but the law requires their presence be stated on the label.

"Potted" or "deviled" chicken is a sandwich spread everyone likes. It is made of ground pieces of meat, often spiced. Canned products such as "chicken a la king" and "chicken chop suey" contain in addition to the meat, various quantities of vegetables, condiments and flavoring materials. The names themselves suggest the nature of the products with which the chicken is packed, but they must be truthful.

Mrs. Neill Hostess at Party Tuesday

Honoring her niece, Blanch Breeden of Cuero, on her sixth birthday anniversary, Mrs. George H. Neill was hostess Monday afternoon at her home.

Guests included Geraldine Morrow, Martha Jo Moore, Mary Burtle, James Theodore Hunt, and Jane Neill.

Ice cream and cake were served by the hostess.

OUR CHILD AND THE SCHOOL
By Dr. ALLEN G. IRELAND
Director, Physical and Health Education
New Jersey State Department of Public Instruction

School Promotions

It is becoming increasingly more difficult to justify the annual promotion scheme used by most school systems. Educators recognize the faults and they're looking around for a substitute.

Parents can help at home by not placing so much emphasis upon the importance of promotion. Making it appear to be a "life and death" matter is dangerous. It becomes the horrible monster of the nightmare. Something terrible to be feared. No child can be happy or do good work with such a mental hazard. He comes to think of promotion as a means of escaping a parent's wrath or some dreadful mark of inferiority for life.

After all, the annual promotion is just another tradition, merely a custom inherited from the past. We shouldn't let it mean so much if we would be fair to the child. June may close the school year, but let it go at that. It's the beginning of the summer vacation. In September go on as though there had been no break. Education never stops, whether school is open or closed. Let each child go as fast as he can. Help him to do his best. But let's stop making him feel that promotion is the ONE great objective of education and life.

In his next article Dr. Ireland will show how summer play may be useful as well as entertaining.

Mrs. Halbert Entertains Club Monday Afternoon

Entertaining six tables of guests and members of the Just-Us Club, Mrs. R. A. Halbert was hostess Monday afternoon at her home.

Guests included: Mesdames R. C. Vicars, W. J. Fields, Jr., John Hamby, J. C. Morrow, Stella Stanley, W. H. Dameron, Rip Ward, P. J. Taylor, S. R. Hull, E. F. Vander Stucken, Sterling Baker, Lloyd Earwood, Duke Wilson, Mike Murphy, W. D. Wallace, Henry Decker; Misses Nan Karnes and Ada Steen.

Members present were: Mesdames G. H. Davis, Hix Hall, J. F. Howell, Edgar Shurley, Russell Long, W. C. Warren, and Libb Wallace.

Mrs. Earwood received high guest favor. Mrs. Dameron was fortunate in cutting.

Ice cream and cake were served.

Mrs. Taylor Club Hostess Thursday Afternoon

Entertaining guests and members of Las Amigas Club, Mrs. P. J. Taylor was hostess to three tables of bridge Thursday afternoon at her home.

A salad course was served to: Mesdames John Fields, Sam Karnes, Nolan Kennedy, Tom White, Collier Shurley, J. D. Westbrook, R. C. Vicars, J. C. Morrow, Misses Ada Steen and Nan Karnes, members.

Mrs. W. R. Nisbet and Mrs. R. A. Halbert were guests.

Miss Karnes received high club favor and Mrs. Fields second high club.

Mrs. Halbert won high guest award.

La Vista Obtains Dog-Horse Picture

"Imitation of Life" To Be Shown Again at Special Prices

Both Rex, king of wild horses, and Rin-Tin-Tin, Jr., sired by the ace of dogs, are to be featured in the new serial, "The Law of the Wild," the first episode of which will be shown at La Vista Friday and Saturday of next week.

Today and tomorrow the last installment of "Tailspin Tommy" will be shown with the feature picture "Neath the Arizona Skies"—a Western, to be sure, and a good one, too, Hix Hall, theater manager, says.

Sunday and Monday Ralph Belismy, Karen Morley and Mike Rooney are featured in "The Healer," a picture the press sheet proclaims is "the romance of a miracle man who hated civilization but loved mankind."

Jack Holt will be seen Tuesday only in "Best Man Wins." On Wednesday and Thursday "Imitation of Life" will be re-run by special request of a number of La Vista patrons. The admission price for the picture, the second time it has been shown here, will be 10 cents and 15 cents.

SHE WORKS WITH WOMEN IN RURAL HOMES (A Round-up Speaker)

Assistant state home demonstration agent, Texas Extension Service, is Miss Bess Edwards who will talk at 12:10 Tuesday on "The Ranch Home" and will give a demonstration of her work. The first address after noon will be by Judge L. J. Ward, former Sonoran.

Her Birthday Party in the Air

Because Jean Schmidt of Newark, N. J., obtained good marks in school, her father gave her a special treat on her fifteenth birthday. He allowed her to have a birthday party in the air in one of the Airline planes. Ted Schmidt, father, is the head of the American Airlines flight department at Newark airport. Here is Jean cutting her birthday cake.

Mrs. Trainer Party Hostess Thursday Afternoon

Members and guests of the Pastime Club were entertained Thursday afternoon of last week with four tables of forty-two at the home of Mrs. J. W. Trainer.

A salad course was served to Mesdames O. L. Richardson, W. A. Miers, Joe Berger, W. S. Ezell, J. T. Penick, guests.

Members attending were:

Mesdames W. E. Caldwell, Orion Brown, C. E. Stites, Joel Shelton, W. D. Wallace, Hi Eastland, W. E. James, Rose Thorp, Merton Shurley, R. D. Trainer and Robert Rees.

Mrs. Ezell and Mrs. Rees held high scores.

Mrs. Hull Contract Hostess Tuesday Afternoon

Including a table of guests, Mrs. S. R. Hull entertained the Contract Club Tuesday afternoon at her home.

Mrs. Joseph Vander Stucken held high club score and Mrs. R. A. Halbert high guest score.

Members attending were:

Mesdames Mike Murphy, E. F. Vander Stucken and Joseph Vander Stucken.

Guests were:

Mesdames W. D. Wallace, Edgar Shurley, Bryan Hunt and R. A. Halbert.

Congratulations continue to overwhelm the Mississippi brothers who stayed up in the air twenty-seven days for a new official non-congressional mark. — The Des Moines Register.

And as yet, praise be, the Washington bureaucrats haven't reduced the Supreme Court of the United States to SCUS. — The Manchester (N. H.) Union.

Gilmores Hosts at Club Party Friday Night

Mr. and Mrs. W. C. Gilmore were hosts at a dinner party for guests and members of the Friday Night Bridge Club Thursday evening at their home.

Mrs. Collier Shurley and P. J. Taylor received awards for high scores, and R. A. Halbert for high cut.

Members present were:

Messrs. and Mesdames Collier Shurley, P. J. Taylor, R. A. Halbert, A. C. Elliott, Mrs. J. D. Westbrook, Mrs. R. C. Vicars, Miss Ada Steen, Nolan Kennedy and George Wynn.

Dr. and Mrs. Joel Shelton were guests for the evening.

Wilfred Berger Given Birthday Party Tuesday

Mrs. Joe Berger honored her son, Wilfred, on his tenth birthday anniversary with a party Tuesday afternoon at her home.

Guests were:

O. L. Richardson, Edith May Babcock, Glen Richardson, Jamie Trainer, Patsy Gilmore, Charlene Hull,

Dock Simmons, Glen Westbrook, Billy Shurley, George Milton Hopkins and Joebeth Taylor.

Ice cream, cake and lemonade were served.

Queen of Clubs Members, Guests of Mrs. George Neill

Including several guests, Mrs. George H. Neill was hostess at four tables of bridge when she entertained the Queen of Clubs Friday afternoon.

Guests included: Miss Bertha Harris of Cuero, Miss Muriel Simmons, Miss Nan Karnes, Mrs. Rip Ward and Mrs. Grady Loftin.

Members attending were:

Mesdames S. H. Allison, Henry Decker, Lloyd Earwood, John Hamby, John Fields, Bryan Hunt, Sam Karnes, J. C. Morrow, Duke Wilson, Virgil Powell and Miss Ada Steen.

Mrs. Karnes won high club award and Mrs. Earwood second high. Miss Harris received high guest award and Mrs. Loftin was presented with a gift by the hostess.

A salad course was served at the close of the games.

Bridge Club Entertained By Mr. and Mrs. Allison

Mr. and Mrs. S. H. Allison were hosts to the Sonora Night Club Saturday night at their home with several guests included.

A salad course was served.

Mr. and Mrs. George H. Neill won high club award and Mrs. Duke Wilson and Mr. Allison won second high.

High guest award went to Mr. and Mrs. W. J. Fields, Jr.

Guests included:

Messrs. and Mesdames John Fields, John Hamby, W. J. Fields, Jr., J. C. Morrow, Miss Bertha Harris of Cuero and Howard Espy.

Members attending were:

Messrs. and Mesdames Henry Decker, Bryan Hunt, Lloyd Earwood, George H. Neill and Mrs. Duke Wilson.

Shirtwaist Frocks, Dark Trim "Good"

Soft, Filmy Sheers Do the Trick For Afternoon Wear

Denton, August 1.—When the summer sun is trying its utmost to melt you, when the clothes you bought earlier in the season have a wilted look—then it's time to squeeze a new frock out of the budget. Select one that can defeat hot weather and put fresh snap into a wardrobe because it knows all the latest trends.

Which part of your wardrobe needs help most? Fashion exponents at Texas State College for Women will wager you've worn those crisp little shirtwaist frocks into tatters. And if you think another will be just the same old thing, then you haven't seen the new fabrics and colors that contrive to give the present versions something very special. So letter perfect are the new shirtwaist frocks that you'll want to add a monogram to the next one. Dark trim and accessories are the thing with light sports costumes and a rich violet has the sponsorship of young moderns.

There's another category of sports frocks that is sure to need an addition to see you smartly through the summer. You know these as spectator frocks—a cool brief-sleeved type of thing that is ideal in town and at the club. White and the pastels rank first for these frocks and they can be gaily trimmed with buttons and stitching.

Lawn parties garden fetes, benefit bridges and 5 o'clock festivities have managed to put a crimp into early printed voiles and chiffons. Try soft filmy sheers plain and printed for first aids to the rising temperature of the afternoon. So many occasions call for them and they pack into such tiny space in the vacation luggage.

1—National Guardsmen in Tacoma, Wash., dispersing with gas bombs strike pickets who were intercepting workers in lumber mills where the union men are on strike. 2—Some of the 35,000 Puerto Ricans who demonstrated before the capitol in San Juan demanding legislation for the permanent reconstruction of the island government. 3—Mickey Ladd, son of a former United States senator, who has succeeded Melvin Purvis as head of the Justice department's forces in Chicago.

"Bell-Shaped" Ladies in Elizabeth's Time

Writer Once Called Starch "The Devil's Liquor"

Queen Elizabeth was a leader of fashion during the many years she ruled over England. Observes a writer in the Detroit News, she was vain about her dress, and it is recorded that she had 3,000 gowns. During some years of her reign hardly a month passed that she did not add twenty to thirty new dresses to her wardrobe.

It was the custom during Elizabeth's time for women to wear petticoats under their gowns, with padding about the hips. Their clothing gave them a "bell shape" from the waist down.

During the second half of the reign the "Farthingale" costume came into favor. A whalebone "wheel" was suspended from the waist and it caused the underskirts petticoat and dress to bulge out. In addition the woman of fashion wore a kind of wooden corset.

In early years of Elizabeth's reign a simple frill about the neck was common; but later the large neck ruff grew popular.

The coming of starch made large ruffs possible. The people of England, it seems, did not know how to make or use starch until six years after Elizabeth came to the throne. The knowledge was brought from the continent.

An English writer of the time called starch "the devil's liquor," and he went on to tell how the ruffs, after being washed in starch, would stand "stiff about the neck."

The queen's hair, we are told, was red or reddish, and many women in the kingdom dyed their hair in the effort to make it look of the same color. — Kerville Mountain Sun.

ONLY DOG WITHOUT SENSE BITES TOAD SECOND TIME

Washington, D. C., August 1.—A dog may bite a toad once, but if he does it a second time he has a low intelligence quotient.

When the inexperienced dog bites toad, a bitter astringent taste is produced in his mouth by the milky poisonous fluid secreted in a pair of large, glandular masses behind the toad's eyes. Biologists of the Biological Survey, United States Department of Agriculture say the secretion also protects the toad against most other animals, but not against snakes, skunks or birds of prey.

Skunks in eating toads usually roll them about roughly with their paws until the poisonous secretion has been discharged and rubbed off.

Former Resident Here Tuesday A ranchman in this section for many years, Ira W. Word, now of San Antonio, was renewing acquaintances in Sonora for a few minutes Tuesday afternoon. He was on his way home from a business trip.

U. of T. Professor Will Do Research for U. S. Cannery

Mrs. O. B. Williams, Reared in San Angelo. Formerly Held University Position

Austin, Aug. 1.—Leaving the academic field for that of research, Dr. O. B. Williams, associate professor of bacteriology at the University of Texas, has accepted a position on the research staff of the bacteriological laboratory of the National Cannery Association in Washington, D. C.

Preliminary to starting work in the general laboratory, Dr. Williams will be connected with the field laboratory of the association in the middle-west until some time in October. During the last two summers he has been on the staff of the field laboratory. In his work in the laboratory at Washington he will be engaged in a study of food problems, especially that of spoilage of canned food.

"There are two problems of food bacteriology," Dr. Williams said. "One is that of spoilage and the other food poisoning. It is very seldom that a case of poisoning from eating commercially canned food occurs. Of late years any case of this kind has been practically unknown. The last case reported was in 1926 and it was caused from eating imported Italian canned goods."

Dr. Williams is a native of Kosse, Texas. He obtained his bachelor of arts degree from the University of Texas, in 1921, his master of arts in 1923 from the same institution, and his doctor of philosophy from the University of California in 1928. He has been a member of the teaching staff of the University of Texas since 1920.

Dr. Williams' wife, the former Miss Frances Rowe, is well known in university faculty and newspaper circles of Texas. Following her graduation here she was assistant to the director of publicity of the university for two years. Both she and her husband were members of Phi Beta Kappa. Mrs. Williams entered the university as a student from San Angelo. Her father, formerly a San Angelo business man, will live with them in Chicago and Washington.

TIRE BLOWOUT CAUSE OF AUTO WRECK SATURDAY

A blowout was the cause of a car wreck Saturday afternoon when a group of LaGrange and San Antonio people on their way to Carlsbad Caverns for the week-end were injured on the highway west of Sonora.

The party was made up of Mr. and Mrs. H. D. Williams of San Antonio and Mrs. L. M. Schaefer and son of LaGrange. They met in San Antonio and were planning to spend the week-end at the New Mexico pleasure spot.

Mrs. Williams suffered a severe back sprain, Mrs. Schaefer contusions and sprained shoulder and the two men minor abrasions.

Their car is said to have turned over 1 1/2 times. It was repaired and the group returned to San Antonio Sunday.

An advantage in having many kin is that some of them may not be as worthless as others.—Dean E. V. White.

Summertime Outdoor Meals Easily Planned—and "Executed"—If Thought Given "Job"

Denton, August 1.—With the approach of hot summer evenings, the thoughts of the housewife naturally turn to getting out of the kitchen for the evening meal. People who eat at restaurants continuously tire of that as do people who do their own cooking. Just to have a change of scenery and a change of food whether it be any better or not is a great enjoyment to the housewife. The outdoor scenery, together with the absence of dish-washing afterward, adds to the beauty and enjoyment of a picnic.

On a week-end when the husband is having a holiday it is only fair that the wife have one too. It is easy to fix up something that does not take much time, pack it into a pasteboard box and go into the open air to enjoy an evening filled with the beauties of nature and outdoor life.

Paper cartons with lids may be secured today at a very nominal price. They are nice for taking salads and sandwiches without any worry of spilling and breaking.

If the husband wants a change of occupation and takes great delight in showing off his culinary art, let him amuse himself awhile by barbecuing the meat over some coals. There are many ovens for this purpose these days, but if necessary a hole can be dug and a piece of wire netting can be placed over the coals and the meat barbecued in this manner.

Menus

Breakfast: Fresh apricots, wheat cereal, muffins, scrambled eggs, cocoa.

Lunch: Toasted cheese sandwiches, vegetable salad, cucumber pickles, cinnamon rolls, punch.

Dinner: Fried chicken, gravy, creamed potatoes, pickled beets,

fruit salad, biscuits, ice box cookies.

Breakfast: Peaches and bran, toast, bacon, strawberry preserves and coffee.

Dinner: Barbecued beef sandwiches, potato chips, olives, apple and cabbage salad, gingerbread.

Supper: Barbecued beef, gravy, rolls, creamed peas and carrots, stuffed tomato salad, date pudding.

Recipes

Cinnamon Rolls: Roll biscuit dough to 1/4-inch in thickness, keeping dough in rectangular form. Spread generously with soft butter, cover with a thin layer of sugar and sprinkle with cinnamon. Scatter raisins on top of sugar and press slightly into the dough. Roll the dough as for jelly roll keeping it tight and firm. The long thick roll is cut with a sharp knife in 1/2-inch widths. Place each section into a muffin ring with cut side down. Bake in medium oven twenty minutes.

Date Pudding: Two eggs, 1/4 cup bread crumbs, 6 oz. pecans, 2 oz. dates, 6 tablespoons sugar. Beat yolks thick; add sugar, chopped nuts, dates and crumbs. Beat whites stiff; fold in last. Bake in slow oven thirty minutes. Will serve four average servings.

Gingerbread: Mix and sift 2 1/2 cups wheat flour, 1 teaspoon soda, 1 teaspoon ginger, 1/4 teaspoon salt, 1/4 teaspoon clove, 1/2 teaspoon cinnamon. Cream 1/2 cup sugar and 1/2 cup fat. Add egg yolk and mix thoroughly. Mix 1/2 cup molasses and 1/2 cup sour milk. Add alternately with dry ingredients to butter, sugar and egg yolk. Add beaten whites of egg. Bake in a moderate oven for 40 minutes.

STORE SALES IN TEXAS SHOW GAIN THIS YEAR

Austin, Aug. 1.—Reports from 93 department and specialty stores in Texas indicate an average increase in dollar sales during June of 4.4 per cent over June a year ago but a decline of 12.1 per cent from the previous month, according to the University of Texas Bureau of Business Research. The average decline is 14.5 per cent.

"Sales during the first six months of the year averaged 3.5 per cent above those of the corresponding period last year," the Bureau's report said.

"The different types of stores varied considerably in relation to the two comparable periods. Men's clothing stores made the best showing followed in order by women's specialty shops, large department stores, small department stores and dry goods-apparel stores.

"Cities in which sales for June and the first six months show more than the average increase over the corresponding periods last year are: Austin, Dallas, El Paso, San Antonio, Temple and Tyler."

Suffers Injury To Ankle

Mrs. Maysie Brown who suffered a sprained ankle recently is improving and will return to her work at the First National Bank soon.

If it's printing, see the NEWS.

F. J. Wood's Baby Improving

The infant son of Mr. and Mrs. F. J. Wood—Thomas Farrar Wood—is improving after an operation last week in a San Angelo hospital. He was quite ill for some time after birth, was brought home improved but was taken back there recently. Mrs. Wood visited her sister in Eldorado this week while her husband was in Dallas.

Kerr County Girl Wins State Contest

Laura Oehler Improves Bedroom Better Than Many Others

College Station, Aug. 1.—Laura Oehler, 16-year-old 4-H Club girl from Kerr county, was awarded first place in the state-wide 4-H bedroom improvement contest conducted by the Texas Extension Service at a banquet Tuesday evening honoring the bedroom contestants.

Grace Gossett, 14-year-old girl from Wharton county, was second and Mahala Bell Rutherford, Young county, was third in the contest.

More than 650 farm girls entered the contest as bedroom demonstrators this year, representing 83 counties. Besides these bedroom demonstrators, more than 11,000 4-H girls throughout the state acted as bedroom cooperators.

At the banquet, which was a feature of the twenty-sixth annual farmers' short course being held this week at Texas A. & M. College, Mrs. Bernice Clayton, extension specialist in home improvement and the state judge, said:

"There is a noticeable difference in the general improvement of farm homes where 4-H club girls acted as bedroom demonstrators. Through sacrifice and hard work, these 4-H club girls raised money for their rooms. Some planted gardens and sold their vegetables. Others sold canned goods from their pantries, some picked cotton, or raised poultry. One girl picked wild blackberries and sold them. Last year a 4-H club girl boarded puppies to raise money to furnish her room."

The first place winner made improvements in every phase on which the bedrooms were judged, including lighting, interior finish, furnishings, storage for clothing, general appearance and suitability to the needs of the particular girl.

Mrs. Roy Gilliam and daughters, Nora and Sue, are visiting Mrs. Gilliam's parents, Mr. and E. W. McNutt, in Littlefield, where Mr. Gilliam will drive for them Sunday.

Damming the White Nile to Irrigate Egypt

The second major link in Egypt's stupendous irrigation progress is now under construction on the White Nile, 30 miles south of Khartoum, where 8,000 men are at work on the Gebel Aulia dam. When completed, in the fall of 1937, the dam will form a lake 250 miles long and will provide water for 3,000,000 acres of land in Egypt.

Alien Wasps Recruiting Army at Presidio For USDA Battle on U. S. Pink Bollworms

Washington, D. C., August 1.—Traveling over the fastest air and water routes, three lots of promising little wasps from Egypt recently reached the United States. They are now building up an army soon to be turned loose against the pink bollworm in the few North American cotton fields invaded by this pest. The pink bollworm—the most destructive cotton pest in nearly all the important cotton-growing countries of the world—has not yet reached the main Cotton Belt here. Every effort is being made to keep it from doing so.

"A few of these wasps," says C. P. Clausen, in charge of insect parasite introduction, "were obtained with the assistance of the Egyptian Ministry of Agriculture and increased by entomologists of the United States Department of Agriculture on the other side of the world. Then they were shipped to the Department's insectary at Presidio, Texas, making the trip from Cairo in about two weeks."

One of the small aliens—Microbracon kirkpatricki—has long been

a natural enemy of pink bollworms in East Africa. It was successfully colonized in Egypt several years ago, but efforts to import it into North America failed. The delicate little insect could not stand the long, hard journey. Air express and fast ocean liners, with modern refrigeration facilities, however, have removed the hazards of travel for Microbracon. From the Egyptian parents that came safely over the great stretch of land and sea a large number of American-born wasps are now ready in the Presidio insectary for release in cotton fields.

The other two insect newcomers—Exeristes roborator and Elasmus—are native parasites of the pink bollworm in Egypt. Some time ago Exeristes was brought into the United States from Europe to prey on the European corn borer. When liberated against the pink bollworm in Texas, however, this wasp seemed unable to adapt itself to conditions here. Perhaps, entomologists say, the strain from the banks of the Nile will do better.

Study of Soil Aid in Plant Production

Newer Method To Use Growth Adapted To Ground

Washington, D. C., August 1.—Every soil is fertile. But not for all plants. Ordinarily when a soil is called "fertile" or "unfertile" reference is to crop plants—when as a matter of fact every soil is fertile to some plant. It may be corn, grass or strawberries. Or again the plant may be cactus, jack pine or bulrushes.

All land is not fertile, however, as all land does not have soil. Before soil can be formed rocks must be broken down by weathering. The weathered rock is made into soil by living organisms. Each soil has its own characteristics produced by the action of microorganisms. Soils and plants develop together—each influencing the other.

There are thousands of soils, each with its own characteristics developed with and by the native plants. In general, it may be said that each plant attempts to make soil from the weathered rock fertile for itself. Thus each soil is naturally most fertile for those plants with which it developed.

There are two ways—fundamental to all agriculture—to have a soil fertile for the crop which it is to produce. Man can change a soil so that it will grow some particular plant. Or, he can choose plants adapted to the soil as it already exists. Those who favor the latter—and newer—method, say it will save much labor that might be wasted upon the former.

Mr. and Mrs. Merton Shurley and children, Rena Glen and Jack, spent Sunday in Junction where they joined her parents, Mr. and Mrs. John R. Howse of San Angelo, and her sister, Mrs. L. M. Clopton, Mr. Clopton and their sons, Gerald and Albert Henry of Austin.

MRS. KRING'S SISTER IN CLEBURNE BURIED MONDAY

Funeral services were conducted Saturday in Rio Vista, Johnson county, for Mrs. Nannie Putman, 56, sister of Mrs. J. A. Kring, who died at her home in Cleburne Saturday.

Mrs. Putman has been ill for some time, never having fully recovered from injuries received in an automobile accident several years ago. Besides her husband she is survived by three children.

Mrs. Kring returned to Sonora Monday. She was called to her sister's bedside Tuesday of last week.

CHAINED HIS KIDS

This is Jacob Miko, fifty-one years old, a farmer near Unlontown, Pa., whose children, three little girls and a boy, have been kept chained in a dungeon of the Miko farm home, according to statements made by the children who were rescued by Pennsylvania state troopers.

The Exact Size He Had To Have

The conductor came down the bus collecting fares and stopped before a passenger who was sitting with his arms extended in front of him.

"Your fare please?" he asked. "You'll find a dime in my right-hand coat pocket," said the man. The conductor stared at the man suspiciously.

"Anything the matter with your arms?" he asked. "Oh, no," came the reply, "the width between my hands is the size of a pane of glass I'm going to buy."—Toronto Globe.

SLEEPING DEER SCAMPERS AWAY WHEN MOWER COMES

While mowing one on his ranch in the Cleo community last week, Chester Bannowsky ran into a deer with his mowing machine. The deer was lying up during the day in the cane field and had probably become accustomed to the noise of the mowing machine. The deer had evidently gone to sleep and was not aware that the machine was so close. Mr. Bannowsky did not see the deer until the mower ran into it. It was dragged several feet before it was able to get on its feet.

When once up, however, it waved the white flag and bid Mr. Bannowsky adieu, seeming to have suffered no injuries from the mower.—Junction Eagle.

General Johnson told the press he didn't know a thing, and the incident made page one. Now if that Virginia evangelist will just bite the snake.—The Atlanta Constitution.

RUPTURE

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at the St. Angelus Hotel, San Angelo, Monday and Tuesday only, August 5 and 6, from 9 a. m. to 5 p. m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increases the circulation, strengthens the weakened parts, thereby closes the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments. Mr. Shevnan will be glad to demonstrate without charge or fit them if desired. Add. 6538 N. TALMAN AVE., Chicago.

For 15 years assistant to F. H. Seelye, famous rupture expert of Chicago.—adv.

FIVE SONORA MEXICANS LEAVE FOR C.C.C. CAMP

Five Mexican young men left Tuesday for San Angelo as their first step toward location in a C. C. Camp.

They were accepted the day before and left here with the belief that they would finally be stationed at a camp in Arizona. Those in the group were:

Arnulfo Virgen, Secundino Ramos, Tomas Hernandez, Gilberto Rodriguez, Pedro Hidalgo.

A wise man profits by his losses.—Dean E. V. White.

SUTTON CATTLE BACK FROM PASTURE IN SOUTH TEXAS

Four hundred and twelve head of cattle which have been spending the winter in South Texas arrived in Sonora Wednesday night with Pat Cooper, Texas A. & M. student, in charge of the shipment.

The animals belonged to Frank Bond, Ira Shurley, George S. Allison and W. J. Fields.

The eleven cars came by way of San Angelo, Temple and Algoa. Feeding was at Temple.

Mr. Shurley said this week that he believed the South Texas wintering plan was satisfactory for dry stuff or steers but not so pleasing for calving cows.

The livestock arrived in San Angelo Wednesday.

Concho Basin Race—

(Continued from page 1)

of 14 to 8.

In the second game Bud Smith allowed only one hit and secured both a hit and a run when at bat himself. The score: Sonora 7; Eola 3.

Batting averages for Station A Sonora players during the last half, including games last Sunday, have been supplied the NEWS by W. A. Hampton, team manager. Gardner and Hudson are each batting over .400 and four other players—Ratliff, White, P. McLeod and Archer—are over the .300 mark. The complete tabulation shows:

	AB	H	Avg.
Gardner	47	22	.468
Hudson	16	7	.437
Ratliff	48	17	.354
White	42	14	.333
P. McLeod	40	13	.325
Archer	45	14	.311
Smith	17	5	.294
W. McLeod	31	7	.258
Motley	21	5	.238
Fields	26	6	.231
D. McLeod	17	2	.118
Bishop	18	2	.111
Ohlenburg	14	1	.071

Box score of the games Sunday was:

SAVELL HOME IMPROVING COMPLETED THIS WEEK

Improvements at the Theo Savell home completed this week include the construction of a bath room where a small back porch was formerly located and enlargement of a breakfast room.

Bath fixtures and hamper are in orchid. Walls and floor are of tile. An interesting feature is a cedar-lined linen closet with cabinet drawers.

A concrete floor was laid in the enlarged breakfast room which has a new wall covering over what was weather boarding. A corner shelf piece is made of what Mr. Savell says was the first bar in San Angelo. A mirror in it and another in the bathroom are also from the bar.

The room between the bathroom and the breakfast room is designed as a play room for Mr. and Mrs. Savell's grandson, James Theodore Hunt.

Wiley McDaniel was the contractor in charge of the improvement work.

Mrs. Louis Roueche and daughter, Nina, returned Sunday from Midland where they spent two weeks with Mrs. Roueche's sister, Mrs. R. C. Mobley, and Mr. Mobley.

Astronomers say the distance to some of the stars has been greatly exaggerated, but it is still difficult to interview Garbo—the Omaha World-Herald.

Remember it is easier to ask questions than to answer them.—Dean E. V. White.

HE KNOWS FEED PROBLEMS OF RANCHMEN

(A Round-up Speaker)

The discussion after W. H. Dameron's address, "Utilizing Available Feeds During Drought," Wednesday morning will be led by Roy Hudspeth, Sutton county ranchman, pictured above, and J. T. Baker of Fort Stockton.

Round-up—

leaders who will camp at the Station.

It was while Dr. Youngblood was chief of the Texas Agricultural Experiment Station, College Station, that the Ranch Experiment Station (Substation 14) was established.

Arrangements have been made for the dance the first night, Tuesday. Motion pictures will be shown Monday and Tuesday nights by O. G. Babcock. Although no information was available on the matter yesterday it is customary for business houses to close one day, usually the first, of the Round-up.

Money From Varied

(Continued from page 1)

ball project will be about \$130.50, and that the receipts from all sources will total enough to send the boys. Any additional money which the committee has, may be prorated among the boys for their miscellaneous expenses or to apply on the registration fee which each one pays.
