

Fort Parker Being Reconstructed

Mexia, May 20.—One of the most interesting historical celebrations of the Centennial year was the commemoration of the fall of Fort Parker held in the new 1,600-acre Fort Parker state park near Mexia and Groesbeck Monday, Tuesday and Wednesday.

The pageant, feature of the program, depicted the colorful life of Cynthia Ann Parker who was cap-

tured by Comanche Indians during the massacre at the fort on May 19, 1836. She grew to womanhood among the Indians and married Peta Nocona, their chief. Quanah Parker, her son, became the greatest chief of the Comanches.

Work of restoring the old fort on its original site has been started and will be completed late in June.

FORMER RESIDENT VISITOR IN SONORA LAST FRIDAY

Renewing acquaintances in Sonora Friday of last week was L. W. Lacey of Freer, Duval county, who was here with his son, Louis, and Miss Meri Jaye, the latter two of San Antonio.

Mr. Lacey, a brother of Mrs. John Allison of San Angelo, was on his way from San Angelo to Freer where is a justice of the piece and is interested in development of the townsite. He lived here in 1897 while he was a ranchman in this section.

Particular inquiry was made by Mr. Lacey of his friends—the late Steve Murphy, George W. Smith and Joe Brasher.

U. S. Population Is 127,521,000

Washington, D. C., May 20.—On July 1, 1935, according to official census figures just released, the population of the country was 127,521,000, a gain of 3.9 per cent over the census of 1930.

SONORA LADIES RETURN FROM WEEKS IN TEMPLE

Returning from Temple last Sunday morning were Mrs. Josie McDonald and Mrs. Mike Murphy who went there about two weeks ago.

Mrs. McDonald underwent an operation while in Temple and is recovering now.

The Sonora ladies were met in San Angelo by Mrs. McDonald's son-in-law and daughter, Mr. and Mrs. W. P. McConnell, Jr., and by her son, Dr. J. A. McDonald, Mrs. McDonald and their three children, of Del Rio.

Jo Alice McDonald of Del Rio is being graduated from the elementary school this year. It was announced recently that she had made the highest honors of her class.

Mr. and Mrs. William Allison and her mother, Mrs. Ira Longaker, of San Antonio visited Mr. Allison's mother, Mrs. Lillian Allison, in San Angelo Sunday.

FEWER NEW BUSINESSES IN TEXAS DURING APRIL

Austin, May 20.—Both in number and in total capitalization, new charters granted Texas corporations during April declined sharply in comparison with the preceding month and the like month last year, according to the University of Texas Bureau of Business Research.

The number of new charters totaled 138, against 173 in March and 166 in April last year, decreases of 20 per cent and 17 per cent respectively. Total capitalization, \$1,304,000, was down 50 per cent from the preceding month and 37 per cent from the corresponding month last year.

The transportation group alone showed an increase in the number of new charters granted over the two comparable periods.

MOTHER OF SONORA WOMEN HURT IN FALL THURSDAY

Improvement has been noted this week in the condition of Mrs. M. E. Holland of Junction, mother of two Sonora women, who fell in her yard Thursday of last week, bruising herself severely.

Her daughters living here are Mrs. Tom Driskell and Mrs. Vernon Hamilton. Mrs. Driskell spent the week-end with her mother and Mrs. Hamilton and Mrs. Horace Rees, another daughter, of Eldorado, returned Saturday from her bedside.

June Marriage of Miss Francis Announced at Party

Hostesses at a bridge party, in honor of Miss Elizabeth Francis, at the clubhouse of the Sonora Woman's Club Wednesday afternoon were Mrs. Preston C. Lightfoot, Miss Rena McQuary, Mrs. W. C. Gilmore and Mrs. E. E. Sawyer.

The social courtesy was by way of announcing the marriage soon of Miss Francis to Robert W. Jacobs. The wedding will be in San Antonio June 12.

Award for high score in bridge was given Mrs. P. J. Taylor and second high to Mrs. C. H. Jennings. Tallies and table appointments were in pink, white and blue. Hydrangea plants and pink, yellow and white roses were used to decorate the clubhouse.

The refreshment course was pineapple sherbet, iced cake and nuts in paper cups bearing a figure of a bride.

As the refreshment course was completed Peggy Gilmore and Mary Gwendolyn Wyatt, dressed as newsboys, entered the clubhouse crying "Extra, Extra, Extra." Miniature newspapers, "Published at Clubhouse, Sonora, Texas," were distributed to the guests. Page one "news" consisted only of instruction that the reader should turn to page three for additional news matter. On that page the only words were "Francis and Bob—June 12th."

Miss Francis was given crystal water glasses and salt and pepper shakers and two silver pieces.

Those who attended the party were:

Mesdames A. W. Awalt, Roy E. Aldwell, Sterling Baker, J. H. Brasher, Maysie Brown, W. E. Caldwell, George D. Chalk, Vernon Hamilton, John Fields, R. A. Halbert, J. Franklin Howell, B. W. Hutcherson,

The above prevailing minimum wage rates shall govern on this contract. Overtime and legal holiday work shall be paid for at the regular governing rates.

A local employment agency from which the Contractor shall obtain employment lists will be designated prior to the award of contract. Plans and specifications available at the office of E. E. Pittman, Resident Engineer, Sonora, Texas, and State Highway Department, Austin. Usual rights reserved. 29-27c

GREAT ARTIFICIAL LAKE TAKING FORM

Colorado River Now Filling Boulder Dam Basin.

Washington.—The world's largest man-made lake is taking form. Behind gigantic Boulder dam's mass of concrete, Boulder lake is spreading through deep canyons and across deserts. Ultimately it will have a shoreline of 550 miles and area of 145,000 acres, making it a dozen times larger than the lake above Assuan dam on the Nile.

"Originally planned for power, irrigation and flood control, Boulder lake also is developing into a scenic gem of first rank," says the National Geographic society.

"It may be a lake to man, but to animals it is a devastating flood. As the water rises, a foot or two daily, little wingless creatures scurry up hillsides to escape, only to find themselves marooned on rapidly shrinking islands. When these islands are gradually submerged, the sparse shrubbery protruding from their tops bears strange 'fruit' of little rodents and reptiles.

A Modern Noah.

"A government conservationist, taking pity on their plight, went boating into the midst of these terrified tree-colonists, and offered a free ride to dry land. They sprang into his boat, scuttling under seats for cover. Crowded on a diminishing island about three by six feet square, he rescued two cottontails, one jackrabbit, one desert kangaroo, two snakes and three lizards.

"A projecting peak has already been informally christened 'Sheep Island,' because of the stubborn old mountain sheep ram marooned there, which has refused to leave. Such incidents may occur daily as Boulder lake lays up treasure in the shape of water, wealth, recreation, safety, and beauty. Its giant bulk has already backed up enough water to flood the state of Connecticut ten feet deep. Turbulent muddy Colorado river deepens far beyond the huge dam in Black canyon and waits quietly to be needed for irrigation or power, meanwhile acquiring beauty as it loses freedom.

"From Black canyon through Boulder, Virgin, Travertine, and Iceberg canyons into magnificent Grand canyon itself, Boulder lake's peaceful waters are rising. Between narrow reaches in the gorges, the lake bulges dumb-bell fashion across broad expanses of flat desert. Spring floods in May or June will lift it higher. It is already deeper than Lake Erie.

Will Weigh 42 Billion Tons.

"If a mirror could reflect this dashing painted river-lady of the desert, she would see herself losing her slim active figure, gaining weight and width on the way to a possible girth of 40 miles at the juncture of the Virgin river. Admirers estimate that her weight may reach 42 billion tons. And what a change in temperament accompanies her expansion into a long and bulging lake! Calmer, bluer, far more reflective, less given to haste and rapids scurrying around rocks—thus the Colorado river would see herself, becoming Boulder lake and a tourist attraction!

"At intervals Boulder lake will lap over sunny desert, now dotted with dull, gray-green clumps of mesquit and cactus. These dusty areas are subject to change without further notice, for at the water's approach, they burst into bright bloom with buttercup, desert poppy, evening primrose, Indian paintbrush, and yucca.

"As great a lure to visitors is the knowledge that rising water in Boulder lake gives access to remote canyons, some of them unnamed or even untraversed by white men. It seems intended by nature that Colorado river along the greater portion of its lone and majestic way shall be forever unvisited and unmolested," commented an explorer, only 80 years ago. But Boulder lake vetoes his prophecy.

"It will be possible for a motorboat to sail from Boulder dam to the mouth of Grand Canyon, about 115 miles as the launch chugs, navigating gorges previously almost impassable because of shallow shifting channels or churning rapids. Undiscovered sprays of waterfalls, plunging like tinsel threads off precipices; traces of vanished Indian tribes; giant stone 'faces,' frowning from glacier-carved cliffs; striped gorges aglow with color—all await the explorer of tomorrow.

"While new vistas will be revealed, some familiar scenes will be submerged and added to legends of sunken cities or lost continents. The little vacated town of St. Thomas will meet a watery grave. Lost City, site of excavations revealing Pueblo and Piute Indian habitations as far back as 200 B. C., will be lost again except to archeologists in deep-sea diving suits."

"As a recreation area Boulder lake will offer sightseeing, boating, camping, swimming, fishing, and field study in natural sciences. Visitors in 1935 numbered 365,000."
