Dickens County Has \$436,500.00 Bonded Indebtedness

It seems that some of our citizens are of the opinion that Dickens County is entirely free of debt. This is a mistaken idea. According to the records of Dickens County and the Auditor's report, Dickens County has a bond issue of \$567,500.00, \$131,000.00 of this amount has been retired, \$34,000.00 of the amount retired was retired during the years of 1939 and 1940. The outstanding indebtedness of Dickens County as of December 31, 1940 was and still is \$436,500.00.

This statement is made to clarify any misunderstanding the people in this county might have regarding this matter.

Respectfully submitted,
E. H. BOEDEKER,
County Judge, Dickens Co.

Behind The Scenes In American Business

By JOHN CRADDOCK

NEW YORK, Jan. 27.—BUSINESS

—There seems to be no let-up, or even prospect of one, in the steady expansion of industrial activity. Biggest step-ups, naturally, are in defense goods industries, but the fact that these call upon a wide range of industries furnishing the raw materials, has considerable effect in spreading out the work of producing and moving goods. Backlogs of unfilled orders in aircraft, shipbuilding and the machine-tool industries are increasing—which means there won't be any slackening of the pace for a long time to come. Private building contracts are at the highest level in weeks, reflecting the large volume of industrial construction as the feverish drive for additional plant capacity goes on. Housing projects are booming, too.

STIMULATION — More work, larger payrolls, juicy overtime paychecks mean gains in consumer buying power. The month of January figures to at least match the performance of December in reflecting this situation, by producing the highest national total of department store sales, for that month, in 10 years. Auto owners, fearing eventual curtailment in production of new models, are rushing to get their '41 jobs tucked safely in the garage. Auto deliveries are running nearly 20 per cent above the near-record pace of a year ago, and well beyond the previous high-water mark, set in the same weeks of 1937. And the manufacturers, feeling the same way are turning out cars at just about the fastest rate ever. During the middle two weeks of January the output reached an all-time high for any January period, and the outlook is for continued manufacturing volume at just about the present Speed.

NEW FARM MARKET—The war has been costly for American farmers. Wheat shipments, for example, dropped from 61,165,000 bushels in the 10 months ending November 1, 1939, to 13,500,000 bushels in the same period last year. At the same time, however, some farmers specializing in natively "old world" crops like limes, figs and lemons are enjoying expanded markets. Whereas 176,000 boxes of lemons were imported in 1932, practically none are now purchased from abroad, and domestic production rose from 7,600,000 boxes in 1931 to more than 12,000,000 boxes last year. Grape growers, who benefited from a 60 per cent increase in American wine consumption between 1935 and 1939, look for an even more promising future with the entry into the field with nation-wide distribution facilities. For example, Schenley Distillers, formerly large importers of European wines, have just purchased the famous Cresta Blanca winery at Livermore, Calif. According to Harry Caddow, secretary-manager of the Wine Institute, this trend will be of "immediate and lasting benefit to grape growers," and will make the public "even more appreciative of the fine quality of our American wines."

MORE ON A-B-C's—Housewives the country over heard good news this week. They learned that the A-B-C system of grade labelling of canned fruits and vegetables is going to be more broadly applied than ever. Hereafter they'll be able to buy canned foods with labels fully and clearly telling them what they are getting in the way of quality, quantity and so on. The step was announced by the Great Atlantic and Pacific Tea company, pioneers

Presbyterian Church
John C. Ramsay, Minister

This church welcomes strangers. It is supported by faithful members who thru the years have done their bit in Christ's Kingdom locally and by the prayers and liberal support of the one Mission agency working thru Fort Worth Presbytery. It seeks to extend more and more its scope in reaching the many unchurched, or at least in reaching the many of this area who seldom if ever attend any church. It, in no sense, wishes to proselytize but to win lost men and women to the only saviour of mankind. It, like all Presbyterian churches, does not believe that salvation is obtained by a sectarian dogma but alone by the one and only means, the blood of the Cross of Calvary. Therefore it feels it has a special place and requests this place of singular yet of equal importance of any church in Christendom because of its humble love in the Master and its Biblical ideals in serving Him, as is known throughout the world as one of God's great missionary and historic martyr churches which has been peculiarly honored for many centuries with his spiritual blessings in every mission field in the world its banner is unfurled.
