The Bond committee of Girard luck. will meet at Girard high school building Tuesday, April 27, at 8:30 p. m., for a patriotic program present and help put the program | Slim Myers, in Spur last week. over in a big way.

Staff Sergeant Woodrow Swaringen, who has been stationed at Camp Davis, for some time, arrived in Spur last Sunday night to spend a 15-day furlough with his wife and parents, Mr. and Mrs. Jim Swaringen of Duck Creek community. Sgt. Swaringen is enroute to Camp Velesia, Calif. On his return to his station Mrs. Swaringen will accompany him. Mrs. Swaringen is one of the very pleasing and efficient telephone operators here and has been connected with the company for many years, and is the sort of person hard to replace, should she decide to become a permanent resident of California. Best of luck to Sergeant and Mrs. Swaringen in the sunny state.

A feature of the Bond Rally will be an Army "Jeep". The jeep will be in Spur at the invitation of the Twentieth Century Study club. Rides in the jeep will be granted to school children on the purchase of one dollar's worth of War Saving Stamps. Adults may ride on the purchase of a War Bond of any denomina-

Through correspondence with the commanding officer of Camp Barkley, Abilene, the club women have been assured that the jeep will be here under the command of two soldiers from Camp Barkley. Plans are that the machine will arrive in Spur about 10 o'clock in the morning to be here until late afternoon.

Details of handling the sale of bonds on that day have been worked out by a committee of club-women, headed by Mrs. B. F. Hale. Others on her committee are Mrs. Erie Foster and Mrs. E. L. Caraway. The entire membership of the Twentieth Century Study club will help on the streets in selling stamps and bonds and in arranging for rides in the jeep. Personnel of the Spur postoffice and Spur Security bank have been enlisted for the issurance of

the bonds. The Twentieth Century club is the owner of two \$25 War Bonds. During the current club year, beginning in September, 1942, the women of this club have up to

War Bond Club

It is estimated that there are at least one hundred firms and individuals in Dickens county who could purchase at least \$1,000 worth of War Bonds and as an incentive to encourage the purchase of War Bonds in large amounts, The Texas Spur has inaugurated a "\$1,000 War Bond Club."

Purchasers of \$1,000 or more in War Bonds will be carried each week until the present campaign ends April 30. Following is a list of those who have purchased \$1,000 or more in Bonds to

Lives and Dollars

"They give their lives-you lend your money." This is the slogan with which the government is trying to sell \$13,000,000,000 worth of war bonds.

The hearts of the American people go out with the keenest sympathy to the brave service men who are doing such a grand job. The families of these young men are constantly thinking abou these absent ones. A cloud of anxiety rests on them, particularly on those whose men are overseas. The question rises daily, as to what perils they now face, whether they are having to encounter strains almost too great for them. The thought may rise, as to whether they could already have sacrificed their lives, or could they be lying wounded in some hospital on some remote spot, cared for with difficulty in that far away scene.

Those of us who have no close relatives in the service should think of these men with the same devoted purpose. A purpose has little value unless it is backed up by action. It takes a most inconceivable volume of weapons and supplies to keep all these men in action, and give them any power of offense against a resourceful enemy.

It is up to us here at home to supply all these things. And the money has to come from our people. They should put it up freely and enthusiastically, as the one thing they can do to shorten the war, bring the boys home quickly, save many casualties, and establish the safety of the country.

The prompt subscription of the money which the government asks will not merely protect our service men in their arduous task. It is also a safeguard against industrial and financial disaster at home. When great funds are raised to back up the war, there is less danger of the terrible inflation which could wreck our business and industrial system. The money put into war bonds is the wisest investment the people can make.

Easter and History

The authorities on religion and history will probably never agree as to just what happened on that ancient Easter day, when according to the Bible story, Jesus rose from the dead in physical form, and appeared to his disciples. Many competent authorities say it is one of the best attested facts of history. And many will say that whatever happened was of the nature of a spiritual appearance.

Something wholly out of the usual order happened, since a little band of scattered disciples became a conquering force that eventually obtained control of the vart Roman empire, then the ruling nation of the civilized world.

However you look at it, this event should give us all a confident belief in immortality. Human personality is the most vaulable thing in our universe. A living soul with an intelligent mind, able to plan and do good things and organize systems of life, is a far greater thing than any mere world of dead matter, which cannot think or exercise any act of intelligent will.

So it seems incredible that the divine power which made the infinite universe would permit this supremely valuable force of human personality to be blotted out. Allowing useful lives to die and drop out of existence would be like the act of a child, who builds his house of cards, and then sweeps it away with his aimless hands.

So we can come to the Easter services of worship with a strong and confident mind, and listen with thanksgiving to the cheering words of the Holy Bible and of the preacher, and hear with hopeful hearts the lovely anthems which expres the thought of this glorious occasion. The world around us teaches us that the appearance of death is often far from reality. The trees look dead in winter, but now they bloom and blossom again So will it be, we can believe, with all that is worthy in human life.

History's Biggest Job

When this war is over the United States will be in no position to return to isolationism. Hardheaded economists agree that a broad program of international trade is the only sound method by which the American people can hope to service the crushing war debt now accumulating. In plainer words, we will either trade with the world. thus helping to maintain maximum production and em ployment for American industry and American workers in order that they may pay the tax that will be needed by a debt-burdened government, or we will retreat toward isolation, bankruptcy and another war.

We have everything to gain by taking the lead in establishing a just and permanent peace, and nations. Millions of men now in the armed force of the problems and needs of the rest of the world These men will have seen demonstrated the hopeless plight of people broken under tyrannical governments. They will have seen why our fore fathers fled the old world to set up the American Republic. They will bring home with them a realization that war is a destroyer of freedom, that recurring war abroad will ultimately clutch with bloody fingers at our own freedom.

As good American business men, they will realize that we have ahead of us the biggest organizing nad selling job in history if we are to help prevent future wars and save ourselves from bankruptcy and enslavement. We will have to help formulate and enforce a lasting peace, while leading the way in rehabilitating the world through

eign trade policy of the American government. I day when peace returns.

Home Store Responsibility

There are advantages in buying goods in your home town, because the home store people feel under special obligation toserve you well. When you consider buying something in such a store, that sale is not the only thing the store people have to think of. They know that if they sell you something you do not like, or charge too high for it, you will be dissatisfied, and may not come to their place again soon. Whereas if you shop in some distant city and buy of strangers, they do not Stabilization Director Byrnes and usually expect to see you again, and may not fee! Food Administrator Davis, there that special responsibility.

When you buy at home, you buy of people who are not merely desirous of making that sale, but are determined you shall be so weil pleased that you will keep coming there.

These figures given out of accidents do not seem quite complete, as they do not list the number who fell in love.

Highly important to get enough vitmins. The energy with which the orators keep talking suggests they have a super-abundance of the same.

MEAT CEILINGS POSTPONED

Maximum prices on beef, veal lamb, and mutton sold at retail will not become effective until May 17. OPA suspended ceilings scheduled to go into effect April 15 in order to be sure that the prices were in line with other living costs.

RAISE CORN PRICES

A ceiling price on corn five cents per bushel higher than present maximums, established April 14, will be effective until September 30, 1943. According to OPA, which acted upon instruction from will be no further increases in corn prices during the 1943 market season. The price is designed to relieve the present acute market season. The price raise is designed to relieve the present acute market shortage of corn for livestock feeding and industrial

NEW RULES ON SELECTIVE SERVICE

Chief effect of the recent chang-3 in Selective Service classifications is the elimination of dependency deferment except for: (1) Those who maintain bona

fide homes with children. (2) Those whose induction would cause extreme hardship to a wife, child or parent, and

the only method recommended by (3) Those with dependents who the U.S. Department of Agriculare necessary to and regularly exture for preserving certain types gaged in agriculture. of vegetables. Such vegetables os

Men formerly classified in III-A and III-B who had been deferred because of dependents will be asparagus, as well as meats. reconsidered. Class III-B is hure canner to kill organisms eliminated entirely. A child born after September 14, 1942, is not recognized at a "dependent" in classifying a registrant in Class III-A. The new classification, III-D, will contain all men whose induction, in the opinion of their local boards, would create extreme hardship or privation for a dependent wife, child, or parent.

WAR COSTS GO HIGHER

A new high of more than billion dollars was reached in war expenditures during March, when the average amount spent each day was \$263,400,000. To meet these mounting costs of war, Secretary of the Treasury Morgenthau recently disclosed that the 13 billion dollar second war loan is part of 70 billion dollars that must be raised during 1943. "This is a people's war, so all the people ought to have a part in financing it," said the Secretary as he warned that "ten percent is not enough."

FARMERS WHO SELL TO KETAILEKS

A farmer who sells butter, lard, or any other rationed food to a retailer must collect ration points for the sale, just as he has done in selling to consumers since March 29. All farm sales must be made at current point values and ctamps collected must be turned in to local ration boards with a report made on OPA Form S-169. This form will be available to all local boards during the last week in April. The first report is due during the first fifteen days of May and will cover sales made between March 29 and the end of

WOMEN'S LAND ARMY

women's land army of about 60,000 city and town women will be recruited, as a part of the U. S. Crop Corps, to help meet the farm labor shortage. Ten thousand of these women are expected to enroll for year-round farm work and about 50,000 for seasonal work for one month or more. Three hundred thousand women will be placed by county agricultural agents for short-time age when the jar is opened.

SHOE LEATHER RELEASED

Certain types of leather, which had been frozen, have been reeased by WPB for the manufacture of shoes. As a result of the action, more than one million pairs of women's and girl's shoes are expected to be made from genuine and imitation reptile leather. Natural colored retan leather was also released, and manufacture of leather bows for shoes prohibited.

HIGHER SUPPORT PRICES

Support prices for dry beans drypeas, peanuts, soybeans and flax-seed have been raised. Payfor Irish potatoes and truck crops for production between 90 percent and 110 percent of farm

REVISED TIRE REGULATIONS Tire rationing regulations have

been tightened to prevent bootlegging and violations of tire inspection requirements. Changes ordered by OPA are: (1) Tire inspection record must be kept in the vehicle while it is in operation (2) Tire inspectors will report serial irregularities to the local lings, and pork neck and backationing board, (3) If an appli-

cant does not have a tire inspection record showing all inspection requirements completed, the local board may grant his application if an inspection was made 60 days before the application was filed (4) dealers need not hold tires turned in for 30 days as now required if, before that time elapses, the tires are examined by an OPA representative and their disposal authorized.

"ON THE FARM" WIRING

Farmers can now install farm. stead wiring for operation of equipment at the same time utility service connections are being made. A farmer eligible for electric service under order U-1-C, and who has been certified by ments have also been announced his USDA county war board, can purchase up to 75 pounds of wire plus necessary accessories, from any supplier, and is granted a preference rating of AA-3 to ohtain it.

POINT VALUES LOWERED

Because some perishable meat products were moving very slowly OPA reduced by one or two points the ration values of sausage (including weiners, bologna, pork, sausage), scrapple, chitter-

Fort Sill, Okla., April 7, 1943. Dear Soupy,

I thought I would write to the Rowell to tell the students of Old ring up that Dickens fire again. Spur High how it feels to be a Wonder who will put it out this Pvt. in Uncle Sam's Army.

I am in a department that I doubt if very many if any Spur boys are in. I am in the Medical department. The Medical department is different from the regular army as is the air force.

We only have thee weeks basic row certainly do make a stunning training as compared to the 13 weeks of the regular army. I haven't had my basic training yet but will probably start next week.

We get up at 5:00 in the morning, dress and make our bed. At 5:30 we fall out for Revelle and at 6:00 we eat chow, at 6:30 we start cleaning up the barracks and at doesn't seem to be any trouble for 6:45 we fall out for formation and inspection.

Our day really starts at 7:00; [we report for duty at that time. We then serve the patients their breakfast and begin cleaning up our ward. We usually have our wards cleaned up by 11:00 and their lunch.

Of an afternoon I have to take pulses, temperatures, and respirations, and chart them on each patient's individual clinic record. As soon as I get my basic training I will have drill and classes

two afternoons a week but at present I have neither. We have to wear white clothes at all times that we are on duty in the oddest places. But I guess which is from 7:00 a. m. to 7 p. m. Harold has business in the corn We get every other Sunday off patch. but other than that we don't get any time off. The Hospital is run

on 2 shifts with a day and night Every Saturday morning we have Barracks inspection. We usually have to work until "lights out" on Friday night shining windows, shoes, cleaning lockers, and arranging our clothes. On Saturdey moning we get up at 4:30 and may have a new romance. get ready for the inspector and believe me everything is really lucky guy next year after Pat is spotlessly clean and shoes shining. gone. Lou Emma is not something After I get my basic training to put on the shelf. I'll write all about it. I'd like to hear from all the Spur High

School students so write me all the news. My address is: Pvt. Clarence A. Ward, Asn. 38342757 Med. Det. 1864th Unit 8th Sev. Comd. (D-1) Cantonment Hosp.

Fort Sill, Okla. -An old S. H. S. Student Clar ence Ward.

Homemaking Girls Pass Home Nursing Course 100 P. C.

The sighs of relief going around are probably those from the girls in the second year Homemaking classes. The exams from the Red Cross on the Home Nursing course have been givin. The girls passed the course one hundred per cent. The certificates will be here soon and we know the girls work-ed hard for them and will be proud of them.

The Homemaking girls are going to present their annual Spring Style show on May 7. Before the show, the girls are going to have open house for their mothers. Each mother will be invited about an hour earlier than the show. The display will be in the Homemaking lab.

The girls are going to make the Spring Style review this year better than it has ever been, so come and see our Spring and Summer

Styles of Spur High

(By MELBA LEWIS) My! My! If there are more new dresses next week than I have seen this week I'll really have worse time than you are. something to write about.

Autrey Nell Dyess has a brand new white jumper. White is very becoming, Autery Nell, and Sen-ier boys love it!! "The Lady in Red" this week is Gwen Adams. She was wearing a red linen skirt with a splashy red linen jecket. Is that what you see all the boys off for the Army, Gwen? At least she didn't look as if she

were in mourning. Girls, in case you are interested in styles for wedding dresses Peggy wore a light blue rayon dress. The design was simple with no collar. She wore a necklace of

tator pumps of brown. Another marriage this weekend was that of Margie Cole. Margie was married in a suit. The color, gold, was very becoming to her. Her wedding was quite informal, as was Peggy's, because her husband is in the Ser-

vice and must leave soon. Ava Nell Bilberry wore a new dress last week. (We don't think it was a wedding dress). Hers was patriotically made of cotton weave. The color was tan with

brown figures. Virginia Crockett has a new suit. The skirt is of rayon seersucker with a green Tomboy linen jacket. If you haven't seen it you're not the only one. It seems the poys at Dickens are the only privileged ones.

> We are now entering into a Stamp and bond drive to buy another Jeep before school is out.

Song Hit Of The Week

THERE'S A HARBOR OF DREAMBOATS

There's a harbor of dreamboats Anchored on moonlight bay, Anchored because their skippers went away.

There are millions of sweethearts Waiting along the shore, Waiting to see their dreamboats sail once more.

With a prayer in each heart and their eyes on the distant hori-

They keep loking for that dreamboat in the sky. There's a harbor of dreamboats Anchored on Moonlight bay, Witing to sail again some sunny

Mr. Followill: "Well, what else is there in here to laugh about."

To Hasten Victory

No American wants this war to go one minute beyond the torious end. To hasten that victory-to save possibly the lives of millions of our boys on our far flung fronts-it is imperative that every American do his part in the Second War Loan. There is an investment to fit every purse. The most you can do is little enough compared with the sacrifice offered by our boys in service. They give their lives -you lend your money.

A father is fighting... So his boy may tinker with Electricity

Over 160 of our men (and one woman) are in the U.S. armed forces. Last week one of these men, a good electrician who had been with the company for many years and who is a veteran of World War I, came home on leave. (He's a volunteer in the Navy.)

With him when he dropped around to say "hello" and talk shop with the fellows was his 13-year-old son... wearing his Boy Scout uniform.

All the guys were darn glad to see him and know he has a swell Navy rating as an electrical technician. Naturally they asked a lot of questions and learned that Uncle Sam's Navy thinks mighty high of its men who come from America's electrical companies where they got their training and experience. They learned, too, that electric power is behind most of the Navy's great punch ... building ships, guns, bombs, torpedoes and the like with which to win the victory.

Finally someone asked: "Well, Don, have you decided-just what are YOU fighting for?" He answered right off, pointing to his son.

"Me-I'm fighting for this kid. He's a Boy Scout, see, and it teaches 'em to be independent and self-reliant. Well, dictators and bureaucrats don't like that-they want regimentation. So I'm fighting so he-and millions like him-will be free.

"Too, the kid's kinda like me. He has a knack for tinkering with electricity ... likes it, see. Well, the kid may not be another Edison. But I want him to have the same opportunities that Edison had-and a lot of other guys who helped make this country great.

"I want him to be free to tinker all he likes. And if anything comes of it, if his tinkering creates something useful to the world, like Edison's tinkering, I want him to share in the profits."

Out of this freedom of individual opportunity grew America's great industries that today are pouring out the weapons of war...as in peacetime they pour out the comforts and conveniences of everyday home life to give us the highest of all standards of living.

This freedom is worth fighting for. Free men and women, working out their own destinies with their own hands and minds ... building. inventing, improving ... taking the risks and enjoying the rewards. And bettering the world as they better themselves!

bones. Dry and semi-dry sausages-such as hard salami, hard cervelat, pepperoni, soft salami, thuringer, and mortadella-were not affected by the action.

WOOLEN FABRIC PRO-DUCTION

Production of woolen and worsted woven fabrics in 1942 reached a new all-time high of 525,090,-000 linear yards. This is almost 50 percent greater than in 1939 WPB has doubled wool quotas for essential civilian fabrics which is expected to make an additional 75,000,000 pounds of wool available for civilian needs. This is further assurance that there will be adequate supplies of clothing for civilians during the fall and winter of this year.

ONION, POTATO MAXIMUMS

RAISED Maximum prices on dry onions and white potatoes of the late 1942 crop for sales during May and June, 1943, will be 10 cents higher than in April, the OPA has announced. The change in based on the largest single purprice is designed to spread avail- chase of the preceding week. able supplies evenly over the next

TIRES FOR VETERINARIANS

three months.

Farm veterinarians can now get travel easier and safer in bad weather.

Price control on seven fresh vgetables will be established on a national basis April 22, supplanting present regional control, the OPA has announced. Retail ceilings for cabbage, carrots, lettuce, peas, snap beans, spinach and tomatoes will be set through use of uniform mark-ups over the retailers' net cost. For each vegetable except cabbage the retailer will determine his ceilings by multiplying his net cost by 1.39. Spoilage on cabbage is greater and Agriculture. its mark-up will vary from 1.50 to 1.65 according to the class of retailer. Store operators will determine their ceilings each Thursday by applying given mark-ups prices for food and beverages serto the net cost of the vegetable ved by restaurants, cafeteries,

PHONE 62

ND WAR LOAN DRIVE IS ON!

6168

There is one stark and simple fact about war which you had better get straight...and quickly, too

THERE IS NO SECOND PLACE IN A WAR-IT'S EITHER WIN OR LOSE!

This war is being fought for tremendous stakes ...

- ... for your life and your liberty.
- : . . for your church and your children. ::: for your freedom and your future.

And it's WINNER TAKE ALL. Don't forget that for a minute. The winner will dictate whether tomorrow you shall

be a free citizen of a free world, or a helpless serf to a 'master race." The winner will dictate whether you shall live and

prosper under the Four Freedoms, or toil hopelessly in the darkness of a "New Order." The winner will dictate . . . because the winner

takes all. The winner takes all. All you own, all you hold dear.

The winner is being decided right now...today... this very minute . . . on battlefields all over the world. Will you stand idly by ... or throw all your weight on our side?

The weight of mighty tanks and planes. The weight of thousands of guns and millions of shells. The weight of billions of dollars . . . 13 billions which your country asks you to lend during this Drive.

Your country wants to borrow every idle dollar you have—every dollar except what you need for the barest necessities of life.

You'll have to give up some luxury or comfort which was dear to your heart. You'll have to postpone some pleasure which you had been eagerly anticipating. But what of it?

Your sons and brothers and husbands are dying out there . . . fighting your fight. Surely it is no sacrifice to lend your dollars while they are giving their lives.

They need your help. They need the weapons your money can buy. If one of the War Loan volunteers calls onyou...greet him with open pocket-book. Remember, Uncle Sam's goal is 13 billion dollars in April.

Don't wait to be asked. Go to your nearest bank, investment dealer, broker, Post Office or issuing agency and lay your money on the line. Remember, it's an investment you're making - an investment that pays a good return and insures a happier future for you and your loved ones.

So lend up to the limit.

You'll sleep better for it.

There are 7 different types of U.S. Government securities-choose the ones best suited for you:

United States War Savings Bonds—Series E: The perfect investment for individual and family savings. Gives you back \$4 for every \$3 when the Bond matures. Designed especially for the smaller investor. Dated 1st day of month in which payment is received. Interest: 2.9% a year if held to maturity: Denominations: \$25, \$50, \$100, \$500, \$1000. Redemption: any time 60 days after issue date. Price: 75% of maturity value.

21/2% Treasury Bonds of 1964-1969: Readily marketable, acceptable as bank collateral, these Bonds are ideal investments for trust funds, estates and individuals. A special feature provides that they may be redeemed at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated April 15, 1943; due June 15, 1969. Denominations: \$500, \$1000, \$5000, \$10,000, \$100,000 and \$1,000,000. Redemption: Not callable till June 15, 1964; thereafter at par and accrued interest on any interest date at 4 months' notice. Price: par and

Other securities: Series "C" Tax Notes; 7/8% Certificates of Indebtedness; 2% Treasury Bonds of 1950-1952; United States Savings Bonds Series "F"; United States Series Bonds Series "C" Savings Bonds Series "G."

WHY I JOINED THE DICKENS **COUNTY FARM BUREAU**

By A FARMER

I live on a pretty good farm in Dickens county but I live and do about like the rest of the 1,100 farmers in the county. I take rying and planning for the business of farming. I was approached in regard to joining the Farm Bureau and refused my membership because I thought the \$5.00 membership fee was too high for a farmer of my caliber.

However, I listened to some of the reasons why I should become a member but all the time I was trying to develop as much resistance as I could because the \$5.00 was all I could get in my

That night I began to do a little figuring. I received in 1942 \$65.00 gasoline tax refund on my tractor gas, \$7.60 for leaving some cane stalks on the land and I made 20 bales of cotton at \$5.00 per bale amounting to \$100.00, all total \$172.50. You see all these payments or refunds were the result of some work done by someone. I am thoroughly convinced now that if it had not been for the efforts of the Farm Bureau and other similar organizations I might not have received this \$172.60. Well, I looked this fellow up and gave him my membership fee of \$5.00.

I also resolved that if I was going to be a member I was going. to attend the meetings and try to kee up with things that are happening each day that affect me in many different ways.

I buy a few War Bonds and donate to the Red Cross because I believe I should. I also believe I should carry my share of the load in the Farm Bureau as I got just as much out of it before joining as the members did, yet I believe there is no end to the possibilities of the Farm Bureau if all of us will get behind it with our membership.

ISN'T HE WORTH IT?

- This message is written to mothers . . . from your Government.
- It concerns the most precious thing in all the world to you...your child. It asks you to help protect that child...from fear...from starvation...from death from the fate that has befallen millions of children under the rule of Nazi and Jap tyrants.
- It asks you to urge your husband to buy all the WAR BONDS he possibly can in order to furnish the ships, tanks, guns and planes so desperately needed to guard you and yours from the horrors of defeat.

Robt. R. King To

As Superintendent

Robert R. King, high school principal, has recently been elected to the superirtendency of the Girard schools. Mr. King has served one year in the Spar schools and has installed a very complete system of physical edu-

cation for boys. Previous to coming to Spur, he served for two years as high school principal accoach of Silverton high school. His first three years of teaching

agriculture instructor, has been

elected as County Agent for Kent

County. Mr. Allen has been in

Spur only one year, and taught

agriculture two years in the Jay-

ton schools. He will assume his

new duties May 1, and a substi-

tute teacher will finish the term. Evelyn Keller, high school Eng-

lish teacher, was recently em-

ployed by the Dalby Motor

Freight Co., and she left Friday

for her new duties. Miss Keller had taught in Spur only one year.

Airleen Culpepper who taught language arts in Junior high

school resigned Friday to accept

training and employment with a

telegraph company. She had

taught only one year in Spur

The English classes, formerly

taught by Miss Keller, are now

being taught by Mrs. McNeill.

Superintendent Thomas has tak-

en over the classes Mrs. McNeill

"Underground Agent" CHAPTER 4 OF SERIAL

Conductor—You see, you and your mother are making your entire trip on this Burlington Zephyr. Your trip started at Ft. Worth a little while ago and it will end in Denver tomorrow morning. But this gentleman's trip is going to take him way beyond Denver. He's going from there to Billings then to Spokane and he'll end up in Portland.

Jean—How do you know he's going all those places—did the man tell you?

Conductor—No, but this long ticket did. You see, it's really a lot of tickets linked together just like a chain. Each one of them belongs to a different railroad. Right now, I'm tearing off the Burlington Lines ticket and it says "from Ft. Worth to Denver." After he leaves Denver, he'll ride on several different railroads and as he does, each conductor will tear off his share of this long ticket

Jean—A lot of other people on this train have long tickets, too. Are they all going where the man is?

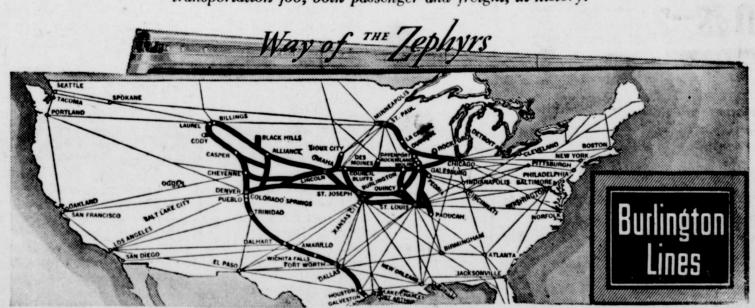

Conductor-No, if you could talk to all of them, you'd find they came to Ft. Worth from many different places -from East, South and West. And you'd find, too, that they're headed for a lot of different places.

Jean—Then how do they all happen to be on this same Zephyr train?

Mother-Don't ask so many questions,

Conductor—I'm never too busy to answer that question, young lady. It's because the Burlington is a natural link between railroads of the North, East, South and West. People just naturally find it convenient to use the Burlington. And, with our fleet of fine passenger trains, headed by 14 dieselpowered Zephyrs, they find it mighty pleasant, too. At least that's what they tell us.

Burlington's role as an essential link in border-to-border and coast-to-coast travel, has become doubly significant during these days when both war man power and materiel must be transported efficiently and speedily. We of the Burlington Lines—the Fort Worth and Denver City, Colorado and Southern, and Chicago, Burlington & Quincy-more than 35,000 of us are proud to be among the armies of railroaders who have teamed up to do the biggest transportation job, both passenger and freight, in history.

FORT WORTH AND DENVER CITY RY. * COLORADO AND SOUTHERN RY. * CHICAGO, BURLINGTON AND QUITTE AN ESSENTIAL LINK IN TRANSCONTINENTAL TRANSPORTATION

THE 7 ND WAR LOAN DRIVE IS ON:

Come on, Let's WIN this war!

IF we should lose the war, life would not be worth living.

"But we won't lose it," you may say.

Listen, brother-in this world nothing's sure, unless you make it so. This month it's up to us here at home to

do our part, and then some, to make Victory surer-and quicker! To do it, we've got to lend Uncle Sam 13 billion extra dollars. It isn't easy-but war isn't easy and Vic-

tory isn't cheap. It takes money-and more money-to buy planes, ships, tanks, guns and a million other things our boys must have to deliver that final, paralyzing knockout punch.

And it's a whale of a lot easier for us at home to lend our money than for our boys to fight through the hardships and dangers of deserts, swamps, jungles, ice-fields and sub-infested seas!

Just think! Every extra bond you buy will help provide the weapons to save the lives of many American boys! Isn't that alone worth every effort, every economy you can make? You bet it is!

There are 7 types of U. S. Government securities to meet the needs of every purse. They offer the finest investment in the world -liberal interest, plus securities guaranteed by Uncle Sam himself.

A volunteer worker for the 2nd War Loan Drive may visit you soon. Welcome this unselfish patroit-and buy all the bonds you can. But don't wait for that call. Gotoday-to your bank, investment dealer, broker, post office or bond booth and invest to your uttermost limit. Even if it hurts, it's nothing compared to the agonizing impact of a bayonet thrust, a flesh-tearing torpedo fragment or a bone-crushing bullet.

So dig deep, brother, and do it NOW!

There are 7 different types of U. S. Government securities - choose the ones best suited for you!

THEY GIVE THEIR LIVES ... YOU LEND YOUR MONEY
