## Texas A&M College Opportunity Awards

Ten Texas boys who have very slim hopes of obtaining a college education because of financial limitations are going to be able to realize their ambition at Texas A. & M. College.

Ten Texas A. & M. College Opportunity Awards, four year scholarships, beginning in September and running through 1950 were announced here today by President Gibb Gilchrist of the College, A. F. Mitchell, Corsicana, chairman of the board of the Texas A. & M. Development Fund and Carrol Gaines, San Antonio, president of the Association of Former Students.

The ten fortunate boys will be selected through statewide competition, and each will receive between \$200 and \$300 per year, an amount which may be supplemented by former student employment on the campus. Details of the selection are being handled by Registrar H. L. Heaton.

Under sponsorship of the A. & M. Development Fund, the Opportunity Awards are a joint project of the College and its Association of Former Students, and it is hoped to increase the number of the awards this year.

"These first ten awards are merely the beginning," Mr. Mitchell declared. "Each year more than half of the Texas boys who finish high school are unable to attend college for financial reasons.

"In that group we believe there is as much potential leadership and ability to pursue a college education as there is in the group who are financially able to attend college.

"The Opportunity Awards program is our answer to this tragic waste of one of the finest and most valuable resources of Texas its young manhood. We intend to make equality of opportunity a shining reality, instead of a hollow phrase to the young men of Texas who conscientiously desire a college education, and who are equipped to make a success of the chance to study.

"Ten awards each year are assured for the next five years. Our goal is one hundred such awards each year, backed by a permanent endowment. Such a program, we believe, would be the most important contribution we could make to the future of Texas and the nation.

"Participation in financing this program is not limited to men who once went to Texas A. & M. College. Selection of the fortunate boys who receive the awards will be from the entire state. We invite anyone interested in this project to join us in reaching our goal of one hundred four-year Opportunity Awards."

## Abolishing of Price Control Would Result In Inflation

United there is a substantial balance between supply and demand it would be utter folly to assume that the abolition of price controls would result in anything short of increased inflation. L. E. Lee, Chairman of the Spur Area Price Control Board, declared today.

Citing men's suits as an example, Mr. Lee said that prior to the war, America consumed 25, 600,000 men's suits yearly. Production is not back to that level yet, but at least 40,000,000 are being demanded.

Production of such sought-after items as automobiles, shirts men's wear, lumber and home appliances could not possibly increase greatly enough to satisfy demands and therefore, stabilize prices by the end of this year, Mr. Lee said.

Although large quantities of scarce items in the low-price level will show up on the market this summer, they cannot be expected to go very far in meeting a national "unquenchable demand," Mr. Lee warned. "Nevertheless, there will be a steady increase in production and everyone will see more and more goods for sale on merchants shelves."

Mr. Lee pointed out that although the production of most important commodities-except in the reconversion field-is running well above 1941 levels, demands has increased so much since then as a result of much higher incomes and accumulated wartime backlogs, that to remove controls on most of these products now would almost certainly result in sharp and cumulative increase in prices and business costs. It is difficult, he said, to imagine what would happen to the price of most farm products, coal, house furnishings, wool and rayon fabrics, bus and truck tires and most of the basic industrial materials if control on these products were removed suddenly. To avert the grave consequences and the irreparable harm of inflation here in this country we must hold prices to our present average. Decontrol of items before there is a substantial balance between supply and demand will result only in unprecedented hardships and calamity for millions of wage-earners who will be forced to pay outrageous prices merely to exist," Mr. Lee concluded.

## Army Offers Excellent Training Opportunities

Rainld further stated that those men who are eligible will receive as many months of college training as they serve during their Army enlistment plus twelve months. ## Advice Given On Community DDT Use

"Community efforts to control disease-carrying insects can be effective only if individual householders cooperate to the fullest extent," said Dr. Wendell H. Tisdale, manager of the Pest Control Laboratory of the DuPont Company, in a special statement today in reference to the use of DDT in current outbreak of infantile paralysis in the South.

"To make present efforts in Southern states fully effective," Dr. Tisdale said, every householder must check his own home first. Garbage piles, refuse piles, chicken coops, barns, and other possible breeding or feeding spots of flies outdoors are as important as those inside the home. There is a tendency too often to spray interior wall surfaces and window screens with DDT to the neglect of outside areas where insects continue to multiply unmolested."

"DDT has great possibilities for the current situation in the South," Dr. Tisdale continued. "Following its use on several hundred thousand people in Naples to quell an incipient outbreak of typhus during the war, the Army and Navy both adopted large-scale spraying programs in areas throughout the world. DDT has already been widely tested in Texas and Florida for the control of lice and horn flies on cattle with outstanding results. But no one can predict exactly the extent to which epidemics of diseases other than typhus and malaria can be checked through control of insects. We haven't enough experience with them.

"The best way for individuals to use DDT," he said, "is to spray it on surfaces and areas inside and outside the home, which attract flies, fleas, mosquitoes and other insects. When this is done, the powder residue which remains after the liquid sprays dries an amazingly effective insect killer. It will remain so for days and weeks-in some cases even months depending on climate and weather. Sizable areas can be covered without dissipating too much DDT in the air."

## It Seems Like Yesterday

It seems like yesterday that Nancy was playing with dolls. Now she's pushing her own baby carriage. Yes, there've been a lot of changes in the last fifteen years—most of them so gradual we hardly noticed them at all.

Nancy didn't grow up all at once. A tooth at a time—a curl at a time—an inch at a time—and suddenly a little kid sister was Mrs. Joe Jones, mother of Joe, Junior.

Like Nancy, the use of electricity has grown a lot in the last fifteen years. But the price of electricity has been going down steadily. You may not have noticed it because your bill may be about the same—but how many appliances have you added to your home since 1931? Actually, you're getting twice as much electricity for your money now as then.

Keeping electric service plentiful and cheap through years of rising costs was not easy. That today's electricity is at its very lowest price in history is a tribute to the hard work and experience of the men and women in the industry, and to its sound business management.

### FAT BUGS MEAN LEAN LIVESTOCK

Livestock lose when bugs eat your cotton crop, and you lose, too.

On the average, insects annually destroy enough cotton to produce 864,000,000 pounds of Cottonseed Meal and 520,000,000 pounds of Cottonseed Hulls—both badly needed this season for meat and milk production.

Your need for feed and more income are two of many reasons why it will pay you to control cotton insects this season. Work with the County Agent and your neighbors on a program that will safeguard your cotton crop, and put money in your pocket.

### Jean Engleman - Lt. Donald Henley Exchange Vows, Saturday Morning

In a candlelight home service, keynoted with floral arrangements of white gladioli, carnations, ferns and other greenery, Miss Jean Engleman, only daughter of Mr. and Mrs. E. D. Engleman of Spur, was married to Lt. Donald Henley, Jr., son of Col. and Mrs. Donald Henley, Sr. of Austin, Texas, Saturday morning at 9 o'clock in the home of her maternal grandmother, Mrs. J. W. Martin, at Haskell.

Reading the double ring ceremony was the Rev. H. R. Whately, pastor of the First Baptist church at Haskell.

Wedding vows were said before an improvised altar, formed in front of the fireplace, with background of white gladioli, carnations and greenery, lighted with white tapers in branched candleabra.

Descending the stairway with her father, by whom she was given in marriage, and her attendants, the bride was joined at the altar by the groom and his best man.

Traditional wedding music was played throughout the ceremony by Mrs. Wallace Cox of Haskell. Mrs. Edna Bennett of Haskell sang "O' Promise Me" and "I Love You Truly", accompanied by Mrs. Cox.

The bride's gown was of white marquisette, designed with long fitted bodice, with sweetheart neckline, outlined with a ruffle, which extended to the armholes. Across the back of a full skirt, was a bustle formed of ruffles, which widened as they descended the skirt, extending into a train. Bracelet length sleeves were ruffled at the bottom. Her fingertip veil of illusion, was caught to a Mary Stuart head-dress.

She carried a bouquet of white gladioli, showered with Stephanotis, centered with a white orchid. She wore a single strand of pearls. For something old and borrowed, she wore a diamond set barpin, belonging to her paternal grandmother, Mrs. Bess Hess of Sagerton. For something blue she wore a blue lace garter that had been worn by four TCU room-mates of the bride at their wedding. She also wore a new Roosevelt dime in her shoe for good luck.

Myra Alice Ratliff, dressed in white organdy, fashioned with a basque waist, with dropped shoulders, outlined with a box pleated ruffle, with eyelet embroidered inset, and long full skirt, edged with a wide pleated flounce, set on with an eyelet inset, and carrying a nosegay in pastel shades, lighted the candles.

and also attended the bride as junior bridesmaid.

Jane Ritchey of Haskell, cousin of the bride, who was maid of honor, was attired in a blue lace and net dress and carried a nosegay of pastel shades.

Bill Ritchey of Haskell, uncle of the bride, served the groom as best man.

Following the ceremony, a reception was held, with Betty Summers of Stamford, cousin of the bride and Katherine Davis of Haskell, presiding at the bride's table.

The table was laid with a Maderia cut work linen cloth, centered with white snapdragons and fern, arranged on a reflector, lighted with white candles in crystal holders.

The bride cut the first slice of the three-tiered wedding cake, topped with a miniature bride and groom. Wedding cake and coffee was served to the guests.

Mrs. Henley's going-away suit was of pink gabardine, with which she wore a pink blouse and pink felt hat, her accessories were of brown. She wore a white orchid corsage, and a match set of gold, rhinestone encrusted bracelet, earscrews and clips, a gift from the bridegroom.

Lt. and Mrs. Henley will be stationed at the Topeka Army Air Base, Topeka, Kansas.

Mrs. Henley is a graduate of Spur High school and attended T.S.C.W. at Denton her freshman year, transferring to T.C.U. at Fort Worth, where she received her degree. She was a Rose Bud Princess at T.S.C.W. and was a member of the Glee club, the Campus Club, Frogette and Bryson club at T.C.U. Before her marriage she was a hostess with Braniff Airlines at Dallas.

Lt. Henley was a student at the University of Louisville, at Louisville, Kentucky before entering the army air corps in 1942. He was in the ETO for 14 months. His decorations include the Distinguished Flying Cross and Oak Leaf Cluster; Air Medal with 11 Oak Leaf Clusters; 4 battle stars on ETO ribbon; and the Presidential Citation, with cluster. He has been stationed at Love Field, Dallas, in the Air Transport command.

Guests for the wedding were Mr. and Mrs. Penn Shugart, Sue Ann and Kenneth, Mrs. V. C. Gillison, Mrs. Clarence Foreman, Mrs. C. H. McCully, Mrs. W. M. Hilley, Mr. and Mrs. L. D. Ratliff and Myra Alice, all of Spur. Mr. and Mrs. Paul Summers, Betty and Dorothy and John L. Guinn of Stamford, Mr. and Mrs. Ben Hess of Sagerton, Mrs. Chas. ### SIDELIGHTS FROM WASHINGTON

By **GEORGE MABON**

My mail from our District indicates widespread approval of the quick action of the House of Representatives in passing legislation to stop the paralyzing railroad strike. Within two hours after the President addressed the joint session of Congress we had passed the bill requested by him.

The railroad unions are made up of the highest type of American citizens. They did a great job during the war. The union organizations were 18 to 2 against the strike. It was principally the stubbornness of one man, Mr. A. F. Whitney, that produced the disastrous situation. A country that cannot protect itself against utter chaos is in a bad shape. I am convinced that the quick action of the House gave hope and encouragement to a majority of the American people.

The American people have been kicked around by such tyrants as John L. Lewis until their patience is threadbare. People generally do not have time and opportunity to read the Congressional Record and they cannot understand why more effective action was not taken against racketeers in industry and labor months ago.

The fact is that before the war during the war, and since the war, the House of Representatives passed legislation to meet the situation but the legislation has usually died in the Senate. However, the Senate has now passed the Case Bill which was approved months ago by the House, and the bill has gone to the White House.

Those of us who vote for the bill to stop Mr. Whitney's paralyzing railroad strike have been threatened by Mr. Whitney, and he has also insulted the American people. In commenting on those of us who voted for the bill, Mr. Whitney, according to the Associated Press, said: "My Board of Directors already has authorized me to spend \$2,500,000 to defeat the members of Congress who have voted for the shackling labor legislation Mr. Truman. The C. I. O. continued to breathe threats against those who have advocated and are advocating remedial legislation. What we desperately need in America today is government in the public interest—not government by pressure groups who threaten legislators and insult the intelligence and patriotism of the people. Minority groups are entitled to be heard in America and they are not entitled to run roughshod over the majority."

There is no perfect answer to all the problems which beset our country. But one thing is sure—this Nation cannot safely go forward without the adoption of a more clean-cut and workable Labor-Industry policy—a policy which will safeguard the best interests of the American people.

Mrs. E. L. Adams returned last week from Haskell where she had been visiting her father, T. W. Flennekin and a sister, Middle Weatherly. Mr. Chandler made the trip to Haskell to return Mrs. Adams, in the Chandler ambulance.

### Stamford Rodeo

The American Quarter Horse Association again accepted the invitation of officials of the Texas Cowboy Reunion to hold an "Official" American Quarter Horse Show at Stamford, Texas in connection with the rodeo on July 2, 3, and 4.

John C. Burns, executive secretary of American Quarter Horse association, and R. A. Brown, director of the organization met with officers of the Texas Cowboy Reunion to work out the prize list and other details of the show this week.

Mr. Burns stated that in addition to the regular cash prizes offered, the association would offer for the first time, a trophy to each of the first place winner of the Open Calf Roping Contest, and the Cutting Horse Contest, provided the stallion, mare or gelding winning the contest is registered in the Stud Book or Registry of the American Quarter Horse Association.

Roy Arledge, chairman of the Quarter Horse Committee mailed entry blanks and prize lists to breeders in the association this week. A record entry is expected from breeders over the nation.

Grand Champion Stallion of the 1945 show was "Star Deck" owned by A. L. Hurt of Tulsa, Okla. Grand Champion Mare was "Punkin" owned by Mrs. Helen Michaelis of Eagle Pass, Texas.

"Wild Bill" Elliott, popular cowboy movie is expected to attend the Texas Cowboy Reunion again this year. Elliott is a quarter horse enthusiast, and last year from Carl Smith of Stamford.

Several entries have already been received, according to the chairman, Roy Arledge, and he reminds breeders that June 20 is the closing date for accepting entries.

Linda Elmore, daughter of Mr. and Mrs. Leroy Elmore, was returned to their home in Spur Friday, from the Lubbock Memorial Hospital in Lubbock, where she was carried after receiving injuries when struck by a car about two weeks ago. Little Miss Linda received a broken leg, which was placed in a cast and will have to remain so far about two months. We hope Linda continues to improve.

Bill Hart, son of Mr. and Mrs. Frank Gray arrived in Spur, Tuesday from Arkansas, where he has been visiting his grandparents, Mr. and Mrs. T. L. Rowlett. Bill has recently received his discharge from the Army at Camp Lee, Virginia and will make his home in Spur in the future.

### CARD OF THANKS

We wish to express our sincere appreciation to our many friends and neighbors for their kindness and help, during our recent misfortune. To those who planted our crops and tended our stock while we were in the hospital, our kindest thoughts and blessings will always be with you. Mr. and Mrs. Durwood Pickens and family.

Mrs. Jack Ensey and daughter, Jacqueline Beth spent last week in Ralls, as guests in the home of her parents, Mr and Mrs. W. D. Karr. Also visiting in the Karr home is another daughter, Miss Nell Ruth Karr of San Diego, California. Miss Karr returned home with Mrs. Ensey this week for a visit in the Ensey home.

Mrs. D. O. Drennon of the Afton community was a visitor in the Texas Spur office last Saturday. She reports the rains have been quite spotted and everything is quite dry from the recent hot winds. Mrs. E. J. Duncan and children of Meadow were visiting in the D. O. Drennon home this past week and were to return here Sunday for a more extended stay.
