

COMMENCEMENT EXERCISES AT HIGH SCHOOL FRIDAY EVENING, APRIL 20TH

Commencement exercises for the class of 28, Muleshoe High School, will be held Friday evening, April 20th, at 8:30 o'clock.

Panhandle-Plains Dairy Show To Be Annual Event

The Panhandle Plains Dairy Show which closed a successful four-day series of events Friday was generally considered to be a decided success.

At the close of the show directors and officers met and voted to hold the show annually in Plainview and to make an effort to increase its size and value each year.

Three classes of dairy cattle were shown, Jerseys, Holsteins, and Guernseys with some excellent animals in each class.

In addition to the display of cattle there was an auction sale at which 30 animals were sold Thursday and Friday for a total price of approximately \$3,000.

Big Picture At Brooks Theatre

James Oliver Currier's story, "The Courage of Captain Plum," has been done into a picture by Rayart, under the title "A Captain's Courage."

James to the Brooks Theatre for 3 days with Edward Earle and Dorothy Dwan in the leading roles.

The supporting cast consists of Jack Henderson, Al Ferguson, Lee McKee, Richard Holt, Eddie De Vos and S. J. Sanford.

Misses T. E. Arnold, J. M. March and Misses Fannie Anderson and Marie Arnold were Clevis visitors Tuesday.

R. A. Standifer was visiting with relatives in Floydada Wednesday.

Jim Patterson of Sudan was in town Monday on business.

Mr. and Mrs. J. B. Foster, of Sudan attended the singing convention here Sunday.

Winter Weather Visits This Section During Easter

Real winter weather, reminding one more of Christmas time than Easter, visited this section last week.

Many new Easter bonnets were laid on the shelf to wait for more favorable weather. The cold spell was preceded by high winds from the south and west, which did much damage to young wheat.

Work started Monday on the Lee Highway just west of town in which several short turns will be eliminated besides shortening the distance between this place and Farwell by something like a mile and a half.

The Highway will follow the railroad almost to Lariat. A fine grade is being put up and the road will be open to traffic within a few weeks it is said.

Longview News

Most every one in our community are rejoicing over the outcome and prospects of the local conditions of the past.

Several in our community enjoyed one of the best singings of the day at Muleshoe Sunday, despite the show that was fleeting them in the face.

I do not feel that we would do our community justice to fail to mention the great day that we had at Longview School house Tuesday.

Our school is fast drawing to a close, and with the course to complete will be very busy handling (egget every one in readiness for the closing, graduating certificates and diplomas have been ordered and will be delivered to the children showing the proper standing.

We are glad to announce the loving cup has come and will be given upon the last day of the school, we are to feel very grateful toward the Longview boys and girls for the progress they have shown.

Mr. Pat R. Cobb was down Tuesday, to see the members of the Baptist and come for the Convention, but any way he will let some body know that he was very much over the political issues of the day.

Twice to express the communities congratulations to Miss Ruby Johnson, who so unexpectedly was voted over Sunday, and has hope to Dickens County where they will make their future home.

Shad Green of Lubbock was back in town Monday visiting old friends and looking after business interests.

C. B. Williams, of the Huable Oil Company, left Saturday for Pampa, Texas.

Ed Hufstader, of West Camp, was a business visitor in the city Wednesday.

Baseball Season Opens

Singing Convention Has Big Day In Muleshoe Sunday

The Singing Convention, which met in Muleshoe Sunday was well attended and was a great success from every standpoint.

Many good singers were present such as the Legion Four, of Amarillo, Robert Perkins, Gnas, Smith and Roper, of Hale County, John P. Taylor, President of the Plateau Convention, Clovis, N. M. and Brisco, of Amberst.

Local talent was present in full force and the Muleshoe Quartet rendered some excellent music. Some special numbers were furnished by Mrs. Keeney, Miss Egbert, Mr. Roberts and Mr. Curtis Taylor of Muleshoe.

The officials of the Convention wish to especially thank the people of Muleshoe and the Chamber of Commerce for the way in which the noon day meal was taken care of, and any and all who had a part in making the day a success.

BAPTIST LADIES BIBLE CLASS HOLD MEETING

The ladies Bible Class of the Baptist Church met in business session Tuesday after W. M. U. was over. There were ten of the members present.

Boy Scouts Will Meet At Roswell

500 Boy Scouts and their leaders will gather at Roswell Friday 20th for the 4th Annual Jamboree.

Mr. J. P. Fitch Regional Scout Executive will be present and will have with him one of the National Councilmen. This will be the first time for the Eastern New Mexico Council to be visited by a National officer.

Another feature of the meet will be the demonstration put on by the Scouts of the Alamogordo Blind troop, and the demonstration to be put on by the Mesquero Indian Scouts.

Local Markets

These prices are furnished by the local buyers, and are for your convenience. The following prices held for the week of Muleshoe Elevators and produce houses:

Wheat \$1.80, Rye \$1.29, Barley \$1.29, Sorghum \$1.29, Cotton \$2.75, Salt \$1.00, Cane seed \$0.90.

Ed Paivlock is driving a Chevrolet Coach, purchased from the Valley Motor Company.

Miss Helen Elrod and brother, Tom, of San Angelo are here visiting their parents, Mr. and Mrs. W. T. Elrod.

Beauty Specialist To Be At McCarty Drug Store Soon

Mrs. Bertha Wright, representing Dorothy Perkins Toiletries, will be at McCarty Drug Store, April 16 to 18.

A cordial invitation is extended to all who wish to avail themselves of the opportunity to consult with a competent specialist as to their peculiar cosmetic and beauty culture needs.

Senior Class To Give Play April 19

On Thursday Evening, April 19, the Senior Class will present a four act comedy-drama entitled "Little Miss Jack".

The play is a representation of the poor districts of New York. "Little Miss Jack" comes from the slum world and surpasses those of the wealthy class, proving that riches do not always make character.

The play is given for the benefit of the class and the admission is 20 and 25 cents. High School Auditorium, 8:30 P. M.

TAYLOR BARBER SHOP UNDERGOING REPAIRS

Workmen are busy this week making changes at the Taylor Barber shop which will make it one of the nicest and most up to date shops in the county.

W. M. S. MEETING

The Methodist Missionary Society met with Mrs. Wallace Wednesday, April 11. Mrs. Nina Elrod had charge of the meeting and Mrs. Holland was leader.

MARRIAGE LICENSE ISSUED

Marriage licenses were issued Tuesday to Mr. Wayne Bennett and Miss Dorothy Johnson. They will make their home in Littlefield.

Quite a number of County officials attended the wedding ceremony of Mr. and Mrs. E. J. Trapp and Miss Rita Earnest were united in marriage at the Court House last Sunday afternoon.

W. M. U. MEETING

The W. M. U. met Tuesday with Mrs. Harper. After a short session the Society enjoyed an inspirational service. There were eleven old members and two new members present.

They lesson will be in Royal Service with Mrs. Roberson as leader. We hope there will be a large number of the ladies present.

IRRIGATION PROBLEMS DISCUSSED AT CHAMBER OF COMMERCE MEETING

Rev. W. B. Hicks To Preach Baccalaureate Sermon

The Baccalaureate Sermon will be delivered next Sunday, April 15th, at the High School Auditorium at 11:00 o'clock by Rev. W. B. Hicks, pastor of the Methodist Church of this city.

MANY COUNTIES STAGING OLD FIDDLERS' CONTEST

Amarillo—More than 25 counties in the Panhandle, Eastern New Mexico and Western Oklahoma, are staging old fiddlers' contests.

A cordial invitation is extended to all who wish to avail themselves of the opportunity to consult with a competent specialist as to their peculiar cosmetic and beauty culture needs.

Base Ball Season Opens In Muleshoe

The Muleshoe Baseball team is getting down to real work according to reports, and some excellent games are promised.

TECH STUDENTS WILL VISIT NATIONAL PARKS

LUBBOCK, Tex.—The second annual summer field trip of the department of geology in Texas Technological College will be made into Glacier National Park, Montana.

The party will leave Lubbock by motor bus June 4 with a return date of July 9. The boys will camp out the entire time being equipped with all necessary camping and cooking outfits.

Grade School Enjoys Easter Picnics

The four teachers of the grade school took their pupils on picnics and Easter egg hunts last Friday.

The 4th and 5th grades, with their teacher, Mrs. Weyer went to Willow Lake where they enjoyed an all day picnic.

Mrs. Jenkins took her pupils to the sandhills south of town on the Highway where they first enjoyed a lunch and then were led by Misses Opal Haney and Mildred Dillahunty on an egg hunt.

Strives For Service To Tire Customers. The fact that we supply motorists with a complete tire service is one of the reasons that our business is showing a steady growth.

At best, he said, "tires are subjected to a great deal of rough treatment. While it is true the average tire of today is built to withstand much harder wear than at any other time in the history of the industry, it is also a fact that tires are given much harder use than perhaps ever before.

Trustee Election Held Saturday

The trustee election Saturday was the closest and most interesting that has been held in some time.

The trustee election Saturday was the closest and most interesting that has been held in some time. F. C. Sisketers and R. J. Klump were re-elected, while Messrs. Reed and Coker won by a small majority over the remaining members.

WHAT'S DOING IN WEST TEXAS

CHILDRESS—The Panhandle Press Association will be held in Childress April 20 to 21.

LOCKNEY—The Lockney Chamber of Commerce is sponsoring a week of cleaning.

ODONNELL—O'Donnell is observing a Better Homes Week, in connection with the home demonstration work of the county.

HERMLEIGH—The Hermleigh Herald is sponsoring a "Lawn and Tree" Club and has suggested that it advocate a prettier home program for the town.

LAMESA—Lamesa and Dawson county celebrated their twenty-third birthday on Saturday.

STERLING CITY—An ice factory is to be erected here in time for the spring and summer trade.

LOMETA—A local stockman took first prize at the Fort Worth Fat Stock Show.

CROSBYTON—Contract for the new post office has been awarded and work is to begin at once.

MERKEL—Merkel is one of the numerous towns that have responded to request of the WTCC that all-year-round fire programs be inaugurated.

PETERSBURG—Within a short time the two main business blocks of this city will be paved.

STAMFORD—Grand championship prize on a carload of bull calves was won by R. V. Colbert & Son at the Fort Worth Fat Stock Show on their Hereford stock.

POST—Site for Post's new \$18,000 City Hall has been selected and plans for the building are being drawn.

STAMFORD—The Texas Louisiana Power Company has bought over the local power plant and is planning improvements in its operation.

STAMFORD—The town responded wholeheartedly to a home talent affair presented here recently.

MOTHER!

It sweetens the stomach and starts the liver and bowels without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

Allen's Foot-Ease The Antiseptic, Healing Powder for Itch, Swollen, Burning, Sweating Feet. It takes the friction from the shoe, prevents blisters and corns and takes the sting out of corns and bunions. Always use Allen's Foot-Ease for Itching and to Break In New Shoes. Sold everywhere. In a Pinch, Use Allen's Foot-Ease

HEALTH HINTS

Keep your vital organs active and you can forget about your health. Aid nature and she will repay you with renewed life. Since 1896, the sturdy Hollanders have guarded the kidney, liver, bladder, bowel troubles by their National Household Remedy—the original and genuine

Dr. Peery's Vermifuge "Dead Shot" kills and expels worms in a very few hours. One dose suffices. It works quickly and surely. All Druggists. All Dealers.

Grove's Tasteless Chill Tonic Invigorates, Purifies and Enriches the Blood.

PILE REMEDY Guarantee Every 15c tube with pile ointment and every 5c box of PAIN OIN TION. Druggists with the understanding that money will be refunded if you are not cured in any case of Itching, Blind, Bleeding or Protruding Piles. Why not try it?

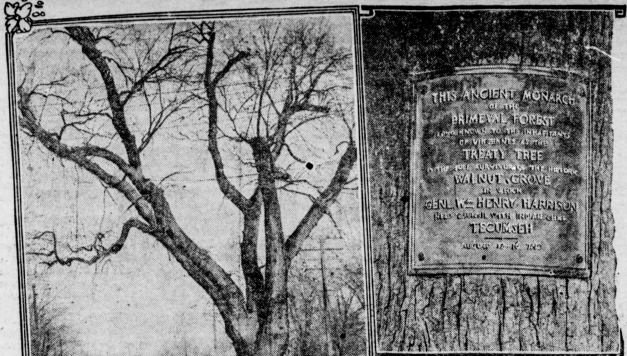

Woman in New Field Although not yet old enough to vote, Miss Mable Weller, twenty-three, has passed examinations in London which make her the first woman qualified as a ship-broker in England.

Sound Like It Grim—Does your wife speak more than one tongue? Show—Speak more! Sometimes I think she has more.

Quickly Relieves Rheumatic Pains 12 Days' Free Trial To get relief when pain tortured joints and muscles keep you in constant misery run on Joint-Ease. It is quickly absorbed and you can rub it in often and expect results more speedily. Get it at any drug store in America.

Joint-Ease FREE Send name and address for 12 Day trial tube to Pope Laboratories, Dept. 3, Hallowell, Me.

Historic Trees

By ELMO SCOTT WATSON
RESIDENT COOLIDGE'S proclamation, setting aside the week of April 22 to 28 as American Forest Week and urging that "where practicable and not in conflict with law or custom, Arbor Day be observed during the course of the week," should make all Americans "re-minded," in that they should "give thought to the preservation and wise use of our forests." It might be well also to give thought to some of the famous trees which have stood or are still standing on the soil of the United States and which have played their part in the history making of this nation. In fact, so important has been the role of trees in American history that the American Tree Association a few years ago established a hall of fame for trees and immediately citizens in all parts of the country, proud of the historic trees in their communities, brought them for places in this gallery of honor.

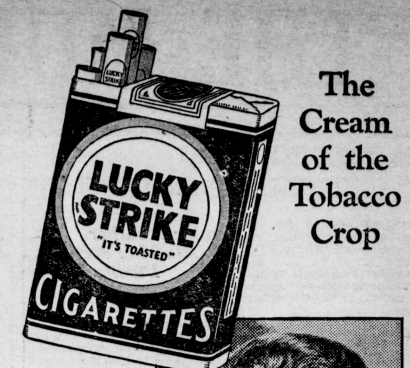

Although nearly every state boasts of one or more trees which is well known locally or throughout the state, there are comparatively few which are or have been objects of national veneration. There are three, however, which are probably known to every American. First of these is the Washington Elm in Cambridge, Mass., under which George Washington took command of the Continental army on July 3, 1775. The long and honored career of this tree, then more than 350 years old came to an end in August, 1923, when the whole trunk cracked and fell while workmen were pulling a dead branch from it.

Another famous tree of the same species was the Treaty Elm on the banks of the Delaware river under whose branches William Penn and the Indians made "the only treaty between these people and the Christians that was not ratified by oath and that was never broken," an agreement that gave the famous Quaker title to the land which later became the great state of Pennsylvania. The Treaty Elm was blown down in 1810 and its age at that time was estimated to have been 285 years.

The third in the trilogy of "most famous trees" was not an elm, but what nobody does not know the thrilling history of the Charter Oak which once stood in Hartford, Conn. In its hollow trunk it once held the charter of the colony of Connecticut where Capt. Joseph Wadsworth placed it when the lights were suddenly extinguished on that historic occasion in 1687 when Sir Edmund Andros who had been appointed royal governor of New England, demanded that the assembly surrender to him this symbol of their liberties as English citizens. And when the Charter Oak was uprooted by a storm in 1856 the whole state of Connecticut went into mourning, church bells were tolled and this great oak, which was believed to be between 700 and 1,000 years old, is the only tree on record for which "funeral services" were ever held.

Although the following is by no means a complete list of all the historic trees in the United States which have been registered in the tree hall of fame or otherwise honored by the American people, some of them still

standing and some long since passed away) it will give an idea of the intimate association of some monarch of the forest with some history-making event:
Washington Elm near Palmer, Mass., on the Springfield-Boston highway, of which it is recorded that "beneath this tree Washington rested and refreshed himself and delivered a short address only three days previous to taking command of the army at 'Ambridge.'"
Liberty Tree, an elm which stood in Boston Common and under which seedlings to protest against the Stamp Act and other oppressions by England were held by the patriots. It was cut down in 1775 while the British army occupied Boston, for firewood and for revenge upon the "rebels."
Lafayette Tree in front of Lafayette's headquarters at Yorktown, Va. The house still contains imbedded in its walls cannon balls fired during the siege of Yorktown and previous to the surrender of Cornwallis.
Treaty Tree, near Vincennes, Ind., sole survivor of a walnut grove in which Gen. William Henry Harrison held a council with the great Indian chief, Tecumseh, August 12-16, 1810.
Boone's "Bar" Tree, on Boone's creek, a small tributary of the Watauga in eastern Tennessee, which while still standing bore the inscription, carved by the noted pioneer, "D. Boone called a BAR on this tree year 1793."
Daniel Boone Judgment Tree, an elm at Ferris, Ohio, about fifty miles west of St. Louis on a farm which was part of the land titled by Boone during his Missouri residence in 1820. It is so named from the fact that Boone held court under it during the hot days of summer.
John Brown's Tree, a white oak near Barkhamsted, Conn., under whose branches John Brown of Danversville and Harper's Ferry fame played as a child, calling it "my tree" and revisiting it every time he returned to the ancestral home in Connecticut. It is also called the Council Tree, because of its use for that purpose by Indians of that vicinity.
Morse Elm in Washington, D. C., named for Samuel F. B. Morse, inventor of the telegraph, who often sat beneath it and related to interested listeners the wonders of the telegraph. Standing at the corner of Pennsylvania avenue and Fourteenth street, this elm had looked down upon every inaugural parade that

The Cream of the Tobacco Crop

FRED NIBLO
Photoplay Director, writes:
"To a moving picture director there is no comfort or luxury like a good cigarette. Such a cigarette I have found in 'The Lucky Strike'—and during the filming of big pictures like 'Ben Hur' I smoked 'Luckies' even while directing in the open air thousands of supernumeraries, and never once did I ever suffer from throat irritation."

"It's toasted"

No Throat Irritation—No Cough, ©1928, The American Tobacco Co., Inc.

Modern Style
Evidently it has remained for California to give the world a new style in architecture. At the recent convention in Detroit, the Georgian, Elizabethan, Roman, Queen Anne, etc., had been discussed as to their relative merits for various parts of the country.

Scythe Tree, in Waterloo, N. Y. When Whymr Johnson enlisted in the United army in 1861, he hung his scythe in a crotch of a small tree, to be left there until his return. He was killed in battle and the tree in its growth enveloped the scythe until now it is firmly embedded in the trunk with only the point showing.

Wesley Oak in Sioux City, Iowa. Gals Under this tree both John and Charles Wesley, founders of the Methodist church in America, preached their first sermons on this continent.

Webster Tree near Franklin, N. H. On this tree Daniel Webster hung his scythe when he decided to go to Dartmouth college and the path from this tree led Webster to congress and to the office of the secretary of state. He never reached the Presidency, but he twice received the nomination for vice president and in both cases the head of the ticket on which he would have been elected died in office.

Battle Ground Oak at Guilford Court House, N. C., also called the Liberty Tree. It stands on the battle ground of Guilford Court House, fought March 15, 1781, "the battle that won the revolution," since Cornwallis, costly victory there led directly to Yorktown and his surrender. General Greene is said to have tied his horse to this tree during the battle.

Kentucky Coffee Tree in front of the Ver Planck mansion at Fishkill-on-Hudson, occupied by Baron Steuben during the revolution. The first meeting of the Society of the Cincinnati was held under this tree.

Live Oak at Pomona, Calif., marking the spot where in 1837 the first white settlers camped in the Pomona valley.

Abraham Lincoln Tree in Decatur, Iowa, a hackberry planted by John P. in memory of the martyred President on April 27, 1865, the day which the governor of Iowa had designated as a day of mourning for Lincoln. The tree is now 110 feet high and nearly 12 feet across.

Write to us also for our beautiful free book "Artistic Home Decoration" by our Home Betterment Expert, Miss Ruby Brandon, Alabastine Company, 222 Grandville Ave., Grand Rapids, Mich. Alabastine—a powder in white and tints. Packed in 5-pound packages, ready for use by mixing with cold or warm water. Full directions on every package. Apply with an ordinary wall brush. Suitable for all interior surfaces—plaster, wall board, brick, cement or canvas.

IT'LL STOP NOW

Muleshoe citizens who occasionally receive a package through the mail containing neckties, handkerchiefs, etc., from total strangers "on approval" with a choice of sending a money order or returning the goods, are about to find a way of refuge. Congress has received complaints of such practice and has turned the matter over to a special committee for the framing of a law that will stop it.

Under ordinary conditions a consumer can stay out of a store if he wants to, and he can also close his door in the face of a solicitor without violating any law. But he doesn't feel safe in refusing to accept a mail package addressed to him, even though he does not know why it contains. The result has been that dishonest cheap-john merchandisers have taken advantage of it, and they fairly force their goods upon him, or get them into his hands before he knows what is going on.

It has been held that the recipient of such merchandise can legally use it without payment, or throw it in the can. But when the law does more than get a series of threatening letters. It is the fear of such letters that prompts him to either buy or return the goods. Uncle Sam has plenty of evidence, and copies of the letters. And he is fixing to set his foot down on this kind of merchandising. He proposes to stop this thing of sending goods through his mails that have not been ordered, even though the shippers are expected to top up with a still newer scheme by the time he has done so.

ADVERTISING THE GREAT CIVILIZER

It was only a few years ago that a store was founded at Rayne, Acadia Parish, Louisiana that does more than \$600,000 business a year in a community of 3,000 people. It started with one clerk; now it has 30. Its sales has a volume that may be any city jobber would envy.

Writing of the facts, the company manager says: "We have done a general merchandising business, with dry goods as the bulk of the business, catering to the trade of 10 parishes, and advertising in every paper in our section."

Advertising invites and fixes a standard of comparison, by which one's good methods, prices may be tested. Advertising creates demand; one who does not know of the advertised automobile, still drives the ox-team, or rides pillion-fashion, or walks through jungle paths; one who doesn't know advertised matches or electricity or gas, kindles a cave fire with a whirling stone, and grubs half-cooked meat off the banes of the prey he has slain with stone or club. Advertising is information and goodwill investment.

FOR SALE—Everbearing Strawberry Plants, \$1.50 per hundred. J. R. Lawler. 8-4tp.

FOR TRADE—Good Jersey cow on Ford car. See N. L. Tivis, Sudan, Texas. 1-tp.

Jeff D. Bryant & Son
Disc Rolling

FOR SALE—Buff Orpington eggs. Fifty cents per dozen. 7 miles west of Muleshoe on Clarks road. Mrs. M. J. Orpington. 6-4tp.

TEXAS AND TEXANS

By WILL H. MAYES

MILLION DOLLAR COMMUNITY

Rowena, which the last census estimated had only 500 inhabitants, but which is surrounded by a fine agricultural section, ginned 8,000 bales of cotton during the season just closed, that crop having an estimated value of \$800,000. In addition the produce sold in the town, according to estimates, was \$6,000 pounds of butter, valued at \$26,000; ten cars of eggs \$28,000; four cars of cattle, \$3,000; six cars of wheat \$15,000; and ten cars of oats, \$10,000. Ballinger, the county seat, which is close by, bought Rowena grown produce estimated at \$300,000. Many items, like vegetables and fruit are not included in the estimate of Rowena's produce. This paragraph explains why Rowena is not complaining of hard times.

BLACKBERRY PICKING TIME

Blackberry picking has begun in Smith county, where the acreage is before and stained lips and teeth all before, and stained lips and teeth all before, and stained lips and teeth all before. The aim of music in public schools is to make individual performers in any line, vocal or instrumental, to create in the boys and girls a love and taste for good music, and at the same time give them a power to sing with a group joyously and intelligently.

SMALL CITY PAVING

The small cities of Texas, in proportion to their population, keep fully up with the larger cities in the matter of street paving and other improvements. For instance, Uvalde with a little more than 5,000 population, has 14 miles of paved streets, and will soon vote a \$100,000 bond issue to be used for paving, side-walks and other improvements. McGregor is soon to asphalt some twenty-four blocks of streets in the residence districts of the town. These items were noticed in the papers what is going on all over Texas. A town or village is never too small to keep itself in the first class in matters of civic improvement.

MILK GOATS POPULAR

The prejudice that once existed against the use of goat milk has about gone, and as people are learning the healthfulness of the milk and its value as a nourishment, especially for invalids and young children, many farms and town homes now have a few milk goats. The milk goat is about the cleanest of domestic animals. It is easily and inexpensively kept and it is gentle and docile. Many families throughout the country, that reluctantly began the use of goat milk for some invalid on the recommendation of a physician, have found it so wholesome and nourishing that the milk has been substituted entirely for cows' milk for family use.

BEAUTIFYING CONTEST

The Dilley Civic League has put on a contest of a kind that might well be inaugurated in every place in Texas. The town is divided into four sections by the intersecting highways centering in the town. Each section will strive to see which if course, will use to still further beautify the winning section in the contest.

JUNCTION WATERWORKS

Junction has long been famous for its good water, but has been rather behind in its facilities for distributing the water to its citizens. That is to be overcome by the building of a water system as a result of a bond issue recently voted. Junction has for a long time been a natural health resort for Texans, but since completing a splendid hotel, putting in waterworks, building tourist camps and doing other things for the convenience of tourists it will become even more popular with travelers.

FROG SHIPPING PICKS UP

The Eastland frog story, so extensively circulated throughout the country, has stimulated renewed activity in the frog business. Frogs are frogs now, or rather, horned frogs are horned frogs. Northern and Eastern folks want to know what they look like. Boys are searching woods and fields for them and selling them for shipment. The Lockhart postoffice handled a shipment of six in one day recently, the frogs being consigned to Boston, Mass.

WINTER GARDEN ORGANIZATION

The sectional Chamber of Commerce in the Winter Garden District of Texas is so pleased with the results of its organized efforts, that it has decided to continue its operations along the same lines another year. The headquarters will be moved to Asherton, with J. G. Sullivan as president and J. G. Fraser as secretary. Texas truck and fruit growers have learned that the closest and most efficient organization is essential to their success. Some day the members of the organization, the cotton growers, will learn this valuable lesson from the experience gained by those in allied lines.

CARRIZO SPRINGS WATER

At a depth of only 220 feet, Carrizo Springs has "brought in" a water well that produces 650 gallons of water a minute and affords an abundance of pure, cool water to supply the city water works and sewage system now being installed. Carrizo Springs is in the heart of the shallow-well irrigation district Southwest of San Antonio, the famous Winter Garden area of Texas.

MOHAIR INDUSTRY INCREASES

From every section of Texas where attention is being paid to the mohair industry, reports are that the yield this spring is larger than heretofore and that the growers are pleased with prices and profits. The goat is no longer the humble and neglected ruminant animal, but the pride of the place. In Lampasas county there has been a ten-fold increase in mohair production in the last five years. The shipments this spring are expected to reach ten carloads. San Marcos estimates are that the Hays county production will bring in \$150,000, the fall clip having been approximately \$100,000. The price ranges from 52 to 65 cents a pound. There is hardly a farm in Texas, unless it be the small fruit or truck farm, on which at least a few goats may not be kept to profit and with little trouble.

MUSIC STUDY IN SCHOOLS TO DEVELOP ART LOVERS

Following is an article, written by Erma Nala Voss, of Wichita Falls, which was published recently in the Dallas News. It is being printed in the Journal by special request:

The aim of music in public schools is to make individual performers in any line, vocal or instrumental, to create in the boys and girls a love and taste for good music, and at the same time give them a power to sing with a group joyously and intelligently.

These things can be done by giving children a musical experience, beginning with the first grade, lasting through high school. They should be taught songs suitable to their age and experience and should be taught to sing these artistically. Incidental to their singing they can be taught something of the notation of music.

Another phase of the subject is the teaching of formal appreciation lessons with some kind of reproducing instrument. This should be a part of the children's musical training, should be complementary to the singing lessons. Appreciation is gained by the children spontaneously expressing themselves in song not in passively listening to records about music.

While I do not want to seem to disparage the use of the phonograph in school, I want to warn against its being used exclusively for the greater part of the time given to music. Appreciation of any subject demands experience, and the singing of lovely songs, singly and in groups, is often the best guarantee of a love for music. It makes for greater enjoyment in the learning of all music, whether radio, phonograph or concert. Often school boards or communities that music should have a place in the education of their children lack funds. Teaching music is no costlier than teaching of other subjects, but there is still that body of tradition to overcome; that it is a frill and not a fundamental.

Where it has been taught successfully it soon becomes a fundamental in the minds of the administrators. All modern educators are considering teaching of art in all its forms, of increasing importance, and music is a most vital art. Clarence Dickens says "The secret of its sway over the human heart has never been so graning that it is universal and deep in its appeal." Music is not only the most personal of arts, it is at the same time the most social, this because it is first of all, emotional. It has its intellectual side, but that is secondary, though necessary. The intellect isolates, the emotions unite. For the latter reason it should have a place in junior and senior high schools. For it to function best in these schools is should have the background of systematic instruction in the grades.

Music is in the heritage of every child in Texas, but every child is not receiving his heritage. It seems to me that the Women's Clubs and the Music clubs could do no bigger, no better thing than to bring the ideal of the music supervisors national conference nearer to realization, "Music for every child, every child for music."

LOST—LADIES ELGIN WRIST WATCH, WHITE GILD, PILLLOW SHAPE, FINDER RETURN TO JOURNAL OFFICE FOR \$5 REWARD

John S. McMurtry returned Monday from a combined business and pleasure trip around Silverton and Tulla.

Baptist Revival Closed Sunday

Muleshoe and vicinity has been greatly blessed the past ten days in a great Revival for God. Rev. B. N. Sheppard of Tahoka did the preaching. Bro. Sheppard is a strong preacher and delivers God's own messages. Our entire community has been blessed and honor Bro. Sheppard and it was with sadness we saw the services come to a close because there were lost souls still out of the fold and Bro. Sheppard must need go from us.

Bro. Sheppard is of a strong personality, winning the confidence and attention of his audiences at once. He was ably assisted by Bro. Evans of Farwell, who had charge of the song services. Bro. Evans is only 28 years old, but is already a power for God. There was a Gospel message in each song he sang, and God greatly blessed him in his efforts. His solo, "It Pays to Serve Jesus," won favor immediately. He was requested the third time to sing it. You just lived on a higher plane as Bro. Evans would bring the message in song. We have learned to love and honor Bro. Evans these days and his family. We know God's hand is upon him and we bespeak for him a bright and beautiful life of service to the Master to whom he has dedicated his voice and services. We pray for more singers whose lives are consecrated to the Lord's cause and whose names are dedicated to God's service. We thank God for these, his servants, together with the pastor who have labored so faithfully and earnestly with us these days. And may God lead them to greater services and us to higher planes of living. We feel our lives have been made better because of these days. There were fourteen conversions and five additions by statement and letter, making a total of nineteen additions to the church. "The ordinance of baptism will be attended to Sunday afternoon at the Bud Morris place."

REPORTER

STATEMENT OF THE OWNERSHIP, management, etc., required by the Act of Congress of August 24, 1912, of the Muleshoe Journal, published weekly at Muleshoe, Texas, for April 1, 1928. State of Texas, County of Bailey—ss. Before me, a Notary Public in and for said state and county aforesaid, personally appeared C. S. Holland, who, having been sworn according to law, depose and say that he is the publisher of the Muleshoe Journal, and that the foregoing is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: C. S. Holland, of Muleshoe, Texas.

2. That the owners are C. S. Holland, of Muleshoe, Texas.
3. That the known bondholders, mortgagees, and other security holders, owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: J. L. Dorsett, Plainview, Texas; Mergenthaler Linotype Company, New York City, N. Y.
C. S. HOLLAND, Publisher.
Sworn to and subscribed before me, this 9th day of April, 1928.
LEVI PRESSLEY, Notary Public, Bailey County Texas. My commission expires May, 1929. (Seal)

The honeymoon is over when the bride wants a heater in the coupe to keep her warm her warm.

In a few years, the modern mother will go out in the yard to find her boy and be told by a neighbor that he and another boy just started on a flight to Paris.

Felt hats may come and straw hats may go but the "high hats" seem to live on forever.

Just because a fellow's stomach is upset is no reason why he should eat his pie first and his soup last.

Money must be the root of something the way we have to dig for it.

The medal goes to the boy who in using the word "diadem" wrote that people who drive onto a railroad crossing diadem sicker quicker than those who stop, look and listen.

It isn't a "GAME" with us

There's as much difference in where you buy your tires as there is in the tires themselves.

We're not in the Tire "game."

We're in the Tire BUSINESS.

Believe us, there is a difference. When you are in the "tire game" it's largely a case of getting the money and getting by. But being in the tire business is entirely a different proposition.

We have a good location and we're equipped with every modern facility for rendering tire service in the right way. Our stocks are complete, our prices are fair and our service is prompt, courteous, expert—always in your interest.

We handle Goodyear Tires, Tubes and Accessories because we thoroughly believe they represent the best value. When we sell you a Goodyear we know you will be back for more.

More people ride on Goodyear Tires than on any other kind.

Goodyear has maintained leadership for more than ten years.

Goodyear has made and sold over 110,000,000 tires. Millions more than any other kind. The buyers of more than One Hundred Million tires can't be wrong.

We're in the Tire Business. We're here to stay. Use Goodyears—get more for your money.

POLTRY

HIGH MORTALITY LOWERS PROFITS

High mortality and low egg production go hand in hand in the farm poultry flock and if the death rate of hens is high the results from the flock will be only mediocre, regardless of how well the hens are bred and fed, says H. H. Aho, poultry extension specialist of the college of agriculture, University of Illinois.

"Records which 234 farm flock owners kept in cooperation with the college show a mortality rate of 12 per cent annually. If this rate is figured for the entire state there would be an approximate loss of 3,000,000 birds annually.

"A 12 per cent mortality on first thought may not seem very high, but it must be remembered that along with a mortality as high as this there goes a general low production throughout the flock. It is not so much the loss of a bird dying that counts as the loss caused by low production through sickness.

"While the causes for mortality may vary to a certain extent, the chief and main causes will be the lack of sanitation and personal attention. Very little credit for the mortality being no higher than 12 per cent can be given to improved conditions in and around poultry houses. Conditions probably have not improved a great deal with regard to sanitation. Diseases have increased and have given more trouble every year. The chief factor in protecting the flock is one of preventive measures.

"High mortality is spread fairly well over the whole year. The spring months quite often show an increased death rate due to increased production, especially so where the birds are forced for production. There is a certain mortality that might be termed normal mortality. This is where death results from causes beyond the control of the operator and is not due to a disease and therefore no worry. The bulk of the mortality, though, can be influenced by the personal ability of the operator. The determining factor with mortality is health and vigor and health and vigor come only from good stock, sanitation and feeding.

"All that is necessary to say as a warning to poultrymen in regard to high mortality is to remember that vigor can be defined as a hen's ability to live and produce under the best conditions and this essential to have this factor exhibited in selecting layers and brooders.

"Poultry drugs and medicines should not be treated to keep the flock free from mortality. Preventing and sanitation should be practiced instead and an abundance of common sense used in handling the flock."

Ventilators Should Be Regulated in Incubator

In hatching eggs in incubators it is frequently difficult to provide sufficient fresh air or give proper ventilation to the incubator and at the same time to keep the eggs from losing too much moisture.

The poultry department at the New York State College of Agriculture at Ithaca, N. Y., says the ventilators should be kept closed during the first ten days of incubation, because the chick inside the egg requires very little oxygen. After the tenth day the chick needs more oxygen and the amount increases gradually until the need is largest during the last three days.

After the tenth day of incubation the ventilators may be opened more and more until they are wide open at the eighteenth day. The moisture pans should not be allowed to get dry at any time.

Eggs should lose about 15 per cent of their original weight, and not more, during the three weeks of incubation. If they lose more moisture than this it is impossible to replace it. Sprinkling the eggs with warm water several times daily during the last three days is often recommended, but while this can do no harm, it can do little good.

Narragansett Turkeys

The Narragansett turkeys are almost the same weight as the Bourbon Red turkey of about six pounds lighter than the Bronze. They are similar to the Bronze in habits. They are good rangers and dress out nicely. In color they are somewhat lighter than the Bronze. They are not as popular a breed as the Bronze, White Holland or Bourbon Red, and as a result it will be more difficult to get new stock of this breed than of any of the other breeds mentioned.

Charcoal for Turkeys

Powdered charcoal in the feed is an aid to digestion. Indigestion in turkeys is caused by irregular feeding as often as by wrong feeding. The turkey is a creature of habit; it likes the meals that are given to come at regular intervals. In the wild state it feeds often and little, working up its appetite by its own activities. If it gets the habit of irregular feeding, it is restless and either "goes next its feed" as an Irish friend used to say, or overeats.

M. P. Smith returned Friday from a business trip around San Antonio and other points east.

Mr. and Mrs. E. L. Gardner of Hollis Oklahoma, spent several days here last week with Mr. and Mrs. J. M. March and Doris.

CITATION BY PUBLICATION

THE STATE OF TEXAS,
To the Sheriff or any Constable of
Bailey County—Greeting:

You are hereby commanded to summon L. A. McManis by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Bailey County, to be held at the Court House thereof, in Muleshoe, Texas, on the first Monday in June, A. D. 1928, the same being the 4th day of June, A. D. 1928.

then and there to answer a petition filed in said Court on the 20th day of June, A. D. 1927, in a suit numbered on the docket of said Court No. 242, wherein John McKee, the legally and qualified guardian of the person and estate of W. A. Milroy, non compos mentis is Plaintiff, and L. A. McManis is Defendant, and a brief statement of plaintiff's cause of action, being as follows:

Suit upon a certain promissory note in the sum of \$2,400.00 dated January 1st, 1925 and due on or before 15 days after date, bearing interest at the rate of 6 per cent per annum, and payable in annual installments as follows: \$200.00 January 1st, 1926; \$300.00 Jan. 1st, 1927, and \$300.00 each year thereafter beginning Jan. 1st, 1927 until all of said notes and interest has been paid, and providing that failure to pay any installment of interest or principal when due would at the option of the holder mature all of said indebtedness, and stipulating that ten per cent of the amount of principal and interest then due as attorney's fees shall be added if placed in the hands of an attorney for collection; that defendant did on Jan. 1st, 1928 pay to plaintiff the sum of \$200.00 but has failed and refused to pay the installment of \$300.00 due Jan. 1st, 1927, whereupon plaintiff has declared all of said indebtedness due and payable, the sum of \$200.00 heretofore paid.

Said note was given for a part of the purchase price of the following described land: Tracts Numbers 3, 4, 5, and 6 of the W. A. Milroy subdivision of the S. W. 1/4 of Sec. No. 32, in Block "Y", Johnson's Subdivision No. 2 of Bailey County, Texas.

That in the Deed of Conveyance to said property a lien was reserved hereon to secure the payment of said note; that said note has been placed in the hands of Mathews and Folly, attorneys, for collection and plaintiff has agreed to pay them ten per cent attorney's fees stipulated therein.

Wherefore plaintiff prays the Court that defendant be given legal notice and citation to appear and answer hereon; that he have judgment for his debt, interest, attorney's fees and cost of suit, and for the foreclosure of his lien on the above described land and premises and that the same be decreed to be sold according to law, and for such other and further relief, special and general, in law and equity, that he may be justly entitled to.

Herein Fail Not but have before said Court at its next regular term, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Muleshoe, Texas, on this 20th day of March, A. D. 1928.

C. C. MARDIS, Clerk, District Court Bailey County, Texas.

**CHEVROLET AGAIN BREAKS
RECORD FOR PRODUCTION**

Detroit, Mich.—With March production running fourteen per cent ahead of any previous month in history, and sales organizations operating at a record-shattering pace, the Chevrolet Motor Company for the first quarter of 1928 built a total of 342,184 cars and trucks. W. S. Knudsen, president and general manager, announced here today.

This record output is 70,000 units more than the turnout in any one corresponding period last year, and gives substantial backing to the statement made a week ago by Chevrolet executives that the company is in the midst of an unusual era of prosperity that is destined to hold throughout the greater part of the year.

In March Chevrolet built 133,657 cars and trucks. This is 17,000 units better than February, 1928, which previously was the largest month's output in the sixteen year existence of the company. Mr. Knudsen pointed out:

On top of the new high performance in March, the fourteen domestic Chevrolet factories are building cars as fast as precision methods will permit with the expectation that April, despite having two less working days than March, will show practically as high a production volume as the month just ended. Mr. Knudsen stated that still higher records are possible when a new assembly plant with a capacity of 350 cars a day, which is shortly to be opened at Allentown, Pa., is under way to augment the output of the other factories.

An unusual feature of the March output was the fact that more than 119,000 units of the total volume were absorbed by the domestic market to assure all dealers of an adequate number for prompt delivery.

The remarkable showing of the company was interpreted here as a sweeping endorsement of the refinements embodied in the Bigger and Better Chevrolet, as well as a tribute to the far-seeing policy of Chevrolet officials in arranging their production facilities so that cars might be instantly available to the public.

MUSCLE SHOALS

Among the half-dozen or so questions that have been continuously agitated for the past several years by those who pretend or believe they are trying to save something valuable for agriculture, Muscle Shoals continues to stand out prominently.

The importance of this hydroelectric power site is local, but the problem of its disposition has become national. The policy of government ownership and operation of water power has been injected into it. Although it now has been pretty well established that improved methods of making fertilizer have rendered Muscle Shoals obsolete in this field, certain farm leaders still are urging Congress and the administration to operate the plant or lease it for operation as a source of synthetic nitrogen.

The disposition of Muscle Shoals is properly no more of a national problem than is the distribution of power from the Keokuk Dam or of water from the Elephant Butte reservoir.

No matter how you look at it, a grater by any other name would still be a thief.

Another thing that ails this world, is that to many people insist on climbing mountains before they get to them.

**ROTARIANS WILL MEET
IN LUBBOCK FOR CONVENTION**

LUBBOCK, Texas.—Lubbock Rotarians and other Lubbock citizens are waiting with open arms for the coming here April 19 and 20 of some 500 visiting Rotarians and "Rotary-Anns" when the 41st district convention of Rotary International will be held.

"It is to be held in the Boyd's party," J. A. Rin, of Lubbock, general chairman of the Lubbock committees says in speaking of the District Governor and over 50 towns and cities of West Texas will have a delegation here. FT Worth and other towns are to run special trains to Lubbock for the convention.

A trip to the Carlsbad Caverns near Carlsbad, New Mexico is being planned as a feature of the convention. Homer D. Grant is chairman of the transportation committee and is making arrangements for the trip. This cave is the eighth wonder of the world and it is necessary to see it to comprehend its immensity and wondrous beauty as the Lubbock Rotarians plan to give their brother Rotarians a treat while they are in this section. A special train is being signed up to make the jaunt to Carlsbad. The train leaves Lubbock every evening April 20 and will return Sunday morning early April 22.

**FIRE-PROOF BUILDINGS TO
REPLACE SHACKS AT U. OF T.**

AUSTIN, Texas.—Former students of the University of Texas from all parts of the state, parents of students in the University now and other who are interested in the institution are becoming more generally interested in the quick removal of frame shacks from the campus and the substitution of fire-proof buildings since the burning of the old main gymnasium, according to T. W. Gregory, chairman of the University Union campaign. The campaign is being conducted for the purpose of raising funds for the financing of these buildings which will be devoted to student uses.

**LEGION CONVENTION TO
STAGE BIG PROGRAM**

SAN ANTONIO, Tex.—The national convention of the American Legion and its Auxiliary, to be held here October 3 to 12, will surpass in wealth of entertainment, in interest and in notable events the great convention held by the organization in Paris last year, according to National Adjutant James F. Barton.

Barton here to check over plans for the convention, expressed himself as especially well pleased with the convention entertainment program.

Entertainment features include a world's championship rodeo with the biggest prize money of the year and the leading cowboy and cowgirl contenders, a decision prize fight at Fort San Houston with two principal contenders for the world's welterweight title, spectacular battle exercises by the Second Division using tanks airplanes liquid fire and all the latest methods of warfare, the greatest air circus ever staged in America.

Other entertainment specialties will be a Broadway show, a Mexican revue with the best actors, singers and dancers from the City of Mexico, the famous City of Mexico Police Band.

More than 100 Legion bands and drum corps from all parts of the United States are expected to be in attendance at the convention, according to Philip B. Stapp, general convention director. Distinguished visitors from abroad and leaders in many fields of American life will be present.

To the convention parade, always a spectacular affair with its thousands of marching men and women, the entire day of Tuesday, October 9 will be devoted. Mr. Barton decided. The marching columns will be reviewed on historic Alamo Plaza, where stands the Alamo, cradle of Texas liberty.

KILLING TWO BIRDS

Using whitewash is still another way of killing two birds with one stone. You not only beautify and brighten whatever you apply whitewash to, whether it be fences, trees or outbuildings, but you lessen the dangers of contagious disease at the same time. Lime has long been recognized as the greatest disinfectant for use around the house. Spread on the yard it also feeds the soil and helps the grass to grow but care should be taken to see that the quantity used is not too generous. It furnishes a protection from the weather for fences and buildings, and insects that feed upon wood steer clear of lime when it is applied in the form of whitewash. But still another advantage not to be overlooked is its cost. Nothing in the way of paint or disinfectant can touch it for cheapness and whitewash serves both as a paint and a disinfectant. Let's use more of it around Muleshoe. Let's make a healthier town by making a more attractive town—and whitewash will do both.

Only the only men who ever gave marriage serious thought are still bachelors.

Never tell a man that his boy looks exactly like his mother if that man owes you money.

DAIRY

**DAIRY INCOME IS
MOST CONSTANT**

Gross cash income to farmers from the sale of dairy products has been more stable during the past eight years than the gross cash income from any other department of agriculture, according to figures which have been analyzed by V. B. Wertz of the Ohio agricultural experiment station, working with the rural economics department of the Ohio State university.

Wertz has studied the gross cash income of agriculture as an index of farm prosperity which is more reliable than unit price indicators, because it shows the volume of business done. His statistics are based upon an index of 100, which is the average gross cash income from the principal sources, in 1924, 1925 and 1926.

On this basis the dairying income started in 1929 at 147 and dropped with all other sources of income, in 1921 to 97, which was a shorter drop than was shown by any other group of commodities, and was seven points above the total gross cash income.

In 1922 there was a further drop to 91, which was three points above the figure for the total, it was above the index for every other department except the sale of meat animals. Dairying income soared in 1923 to 116, the highest figure reached by any important department of farm industry since 1920, and 21 points above the total income index. It dropped in 1924 to 102, but was still above all other figures. In 1925 the index was 97, three points below the figure for the total, and in 1926 dairying income led in its past performance by registering 99, the lowest of all the indices.

In 1925 all important departments of farming other than dairying showed peaks as compared with 1925. But in 1927, according to preliminary estimates, there was a sharp drop which was not shared by the dairying branch. While the index for the total income in 1927 was down to 94, the dairying remained at 91, the point reached in 1925.

**Bad Flavors and Odors
in Milk Due to Weeds**

Bad flavors and odors in milk and cream are common in spring due to wild onions and other weeds in pastures. Taking the cows off pasture at least three hours before milking is advised as a preventive measure. Even if the pasture contains no wild onions, sudden change to grass in the spring is apt to develop bad odors in milk. Some additional food should be given when the pasture season opens. The grass is short and it does not at first provide sufficient nourishment to maintain the milk flow. A small amount of grain and hay will pay well until grass has made a good growth.—John Tolver, Deputy State Dairy Commissioner, Colorado Agricultural College.

**Keep Calves in Dry Lot
Until They Are Marketed**

Calves which have been full fed on grain during the winter, with the intention of marketing them in the Texas liberty, should be turned on pasture before they are shipped. These calves should be fat enough so that they can be finished in the feedlot. If they are turned on grass for a few weeks they will not make as good gains as in the feedlot. Chasing from dry lot feeding to pasture causes the calves to scour somewhat and consequently their gains will not be as good as they will be if kept in the dry lot until ready to ship to market.

**Get Rid of Cows Giving
Very Slimy or Ropy Milk**

Milk drawn from cows affected with a bacterial udder trouble, known as garget, is sometimes called ropy. In reality, it is merely very slimy. It is almost impossible to strain slimy milk through cheesecloth. A cow may contract it from an udder bruise by lying on a cold floor, or from faulty feeding. Some cows have the trouble frequently. In such a case it is best to get rid of them. Others have it only occasionally and are cured by cutting down the feed and giving them a dose of epsom salts and a tea spoonful of saltpeter in the feed each day for two or three days.

Insufficient Pay

When some people get their cheec from the country they don't stop to look on both sides of it, for they wonder if it is sufficient to pay for the feed that the cows have eaten. The resulting effect of this idea usually takes effect in either one of two forms: they either change the market place for their cream or they try to economize on the feed that is consumed by the cows. Some cows that are star bachelors should be put into the fattening pen.

ANNOUNCEMENT

METHODIST REVIVAL

Beginning Sunday, April 22

Will continue for ten days. Preaching by the Pastor. Song services led by Good Hardin. Services will be held at 10:00 A. M. and 8:30 P. M. You are cordially invited to attend all of these services.

the County Court of Bailey County, Texas, an application for the probate of the last will and testament of said Lambert H. Roubinek, deceased, filed with said application, and for letters testamentary of the estate of Lambert H. Roubinek, deceased, which will be heard at the next term of said Court, commencing on the first Monday in May, A. D. 1928, the same being the 7th day of May, A. D. 1928, at the Courthouse thereof, in Muleshoe, Texas, at which time all persons interested in said estate may appear and contest said application, should they desire to do so.

Herein filed not, but have you before said court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

GIVEN under my hand and seal of said Court at my office in Muleshoe, Texas, this 28th day of March, A. D. 1928.

C. C. MARDIS, County Court Clerk, Bailey County, Texas

TEXAS WEEKLY IN-

DUSTRIAL REVIEW

Gilmer--Work will start soon hard-surfacing Highway No. 65 in Uphur County.

German--Texas Electric Service Co. voluntarily reduces electric light rates in this place.

DeLeon--Central Texas National Gas Co. drills in well near the Tidwell producing around 2,000,000 feet daily.

Happy--First carload of material for construction of \$30,000 new hotel arrives.

Grayback--Texas Company brings in good oil-producing well on Waggoner ranch in southeast Wilbarger County, matching shop building at Santa Fe shops here in present recent week.

Borger--Contract awarded for installing street markers in free mail delivery zone east and west on Dixon street.

Phillips--Road between this place and Borger being graded and improved.

Flotonia--Carload of spinach shipped out from here during recent week.

Moulton--Cucumbers will be grown here this year for commercial market.

Eagle Pass--125 carloads of this season's spinach shipped from here up to recent date.

El Paso--Pasotex Pipe Line Company awards contracts for 200-mile pipe line from Wilbarger County to this place to cost \$1,500,000.

Sierra Blanca--\$20,000 new hotel at Indian Hot Springs opened to public.

Biggs--Cotton warehouse will be constructed on W. R. Bishop's property near P. & M. P. tracks here.

Paris--New creamery here completed and opened during recent week.

Wilson--Building boom in progress here.

Canadian--Work started on construction of \$50,000 new Methodist Church here.

San Juan--Chamber of Commerce discusses plans for establishment of cold storage plant here.

Anastasio--De Luxe Airlines Corporation of Wichita, Kan., plans operation of airline from Wichita, Kan. to this place.

Snyder--Snyder Produce Company shipping carload of eggs weekly to New York markets.

Snyder--Two brick business buildings under construction at West Bridge St.

Corpus Christi--Grossman Brothers remodeling store.

Rosenberg--Chamber of Commerce organized here recently.

Rosenberg--\$35,000 contract awarded for construction of sewer system here.

Center--Three brick buildings under construction in business section here.

Dallas--National Convention of United States League of Local Building and Loan Associations will convene here May 21.

Rosenberg--Extensive improvements being made to ice plant.

Rosenberg--Drill ground on Ward No. well near El Pleasant recently.

Loveland--Plans being drawn for 9 new brick buildings in business district here.

Nueces County ranks second in state in production of cotton.

Corpus Christi--2-story frame stucco store building will be constructed at Dwight and Comanche Streets.

Corpus Christi--Installation of white water lighting system on Water Street begun by Central Power & Light Co.

Dilley--New 30-room hotel will be constructed here within short time.

Higgins--Survey of city being made with view to construction sewer system.

Del Rio--Gamewell automatic fire alarm system installed in this city.

Galveston--Plans making for renovation of \$75,000 new Scottish Rite Cathedral on same site.

Texico--Robertson Produce Company building addition to store here.

Alice--Construction under way on five brick veneer residences on property of Milnor Development Company.

Electra--Plans making for construction of new home for local American Legion Post.

Corpus Christi--Bids opened for remodeling of Amuse Theater on Mesquite Street.

Dallas--\$175,000 Y. M. C. A. building proposed for construction here.

Corpus Christi--Building permits issued here for February totaled \$1,270,635, compared to \$59,427 for February, 1927.

Does Friendship Really Count In Business?

Quite a long time ago someone said, "there is no friendship in business." He couldn't have been thinking very hard when he said it because nothing was ever farther from the truth.

The business of our store has been built up entirely on friendship--the sincere kind that tries to give our customers just a little more than a square deal.

The very future of this town depends on the friendship of the surrounding community, and we who serve in its stores should remember that every discourteous and selfish act on our part hurts our own future; every kind and thoughtful act is just another stone to build up mutual prosperity.

Let's make 1928 a big year for community development. We can do it if we'll all pull together.

J. C. Penney Co.

OK

AN ECONOMICAL TRANSPORTATION

CHEVROLET

USED CARS

with an OK that counts

Because we are delivering more new Chevrolets than at any other time in our history, we are offering a number of exceptional values in reconditioned used cars.

Our used cars carry an official O. K. tag which is reproduced on this page. Attached to a used car by a Chevrolet dealer it signifies that every vital part of the car has been inspected, properly reconditioned

and where worn, replaced by a new part. This plan enables anyone to select a used car with absolute confidence as to its satisfactory operation, and the price is absolutely fair and right.

Reasons why you should buy your used car from a Chevrolet dealer

- Chevrolet dealers have been selected by the Chevrolet Motor Company as the best of their financial responsibility and dependability.
- Chevrolet dealers offer used cars on a plan original and endorsed by the Chevrolet Motor Company.
- Chevrolet dealers have the necessary modern tools and equipment to properly recondition used cars.
- Chevrolet dealers desire the good will of used car buyers the same as they enjoy from new car buyers.

A few of our exceptional Used Car values. "with an OK that counts"

CHEVROLET SEDAN, 1925

4 brand new tires, disc wheels, bumpers, motor-meter, new Duce, looks and runs like new car; must be seen to be appreciated. Practically a new car at a bargain price. CASH OR TERMS.

WITH AN O. K. THAT COUNTS

CHEVROLET COUPE, 1928

Very clean, has had exceptional good care. Fully equipped and ready to go, has many extras. Will cheerfully demonstrate. CASH OR TERMS.

WITH AN O. K. THAT COUNTS

CHEVROLET IMPERIAL, 1927

3 brand spanking new Tires, 6 ply, Duce in A1 shape, many extras, motor like new car; surely a bargain for someone. We invite your inspection. TERMS.

WITH AN O. K. THAT COUNTS

CHEVROLET COACH, 1927

Tires in good shape, 2 new, one disc wheels. Duce in A1 shape, motor good, runs and drives like a new car. 200.00 down, balance in 12 months.

WITH AN O. K. THAT COUNTS

CHEVROLET TRUCK, 1928

New tires, New Cab, Good bed, a big bargain for someone that needs a good Truck; will certainly pay you to look this one over. TERMS.

WITH AN O. K. THAT COUNTS

CHAPTER X

A Novel From the Play

By Mary Roberts Rinehart and Avery Hopwood

WNU Service
'The Bat.' copyright, 1926, by Mary Roberts Rinehart and Avery Hopwood.

The Hidden Room
A few moments later Jack Bailey, seeing a thin glow of candle-light from the attic above, and hearing Lizzie's protesting voice, made his way up there. He found them in the trunk-room, a dusty, dingy apartment lined with high closets along the walls—the floor littered with an incongruous assortment of attic objects—two battered trunks, a clothes hamper, an old sewing machine, a broken-backed kitchen chair, a pair of dilapidated dress-suitcases and a shabby wicker chair that might once have been a woman's dressing-case—in one corner a fire fireplace in which, obviously, no fire had been lighted for years.

But he also found Miss Cornelia holding her candle to the door and staring at something there.
"Candle-grease!" she said, sharply, starting at a line of white spots by the window. She stooped and touched the spots with an exploratory finger.
"Fresh candle-grease! Now who do you suppose did that? It lies straight to the fireplace!" she murmured in tones of Sherlockian gravity. Bailey repressed an involuntary smile. But her next words gave him genuine food for thought.

"It's been going through my mind for the last few minutes that no chimney flue runs up this side of the house," she said.
Bailey stared. "Then why the fireplace?"
"That's what I'm going to find out!" said the spinster grimly. She started to rap the mantel, testing it for secret springs.

"Jack! Jack!" It was Dale's voice, loud and cautious, coming from the landing of the stairs.
Bailey started to the door of the trunk room.
"Come in," he called in reply. "And lock the door behind you."
Dale entered, turning the key in the lock behind her.
"Where are the others?"
"They're still searching the house. There's no sign of anybody."
"They haven't found—Mr. Anderson?"

Dale shook her head. "Not yet."
She turned toward her aunt. Miss Cornelia had begun to enjoy herself once more.

Rapping on the mantelpiece, peeling and pressing various corners and sections of the mantel itself, she remembered all the detective stories she had ever read and thought, with a sniff of scorn, that she could better them. She rapped on the wall above the mantel—exactly—the way she was the hollow echo she wanted to hear.

"Hollow as a candle's head!" she said triumphantly. The fireplace was obviously not what it seemed—there must be a space behind it unaccounted for in the building plan. And that was the next step detectives always took. Oh, yes—they looked for panels; panels that moved. And when one showed them away there was a button or something. She pushed and pressed and finally something did move. It was the mantelpiece itself, false grain and all, which began to swing open into the room, revealing behind a dark, hollow cubbyhole, some six feet by six—the hidden room at last!

"Oh, Jack, be careful!" cried Dale, as her lover took Miss Cornelia's candle and moved toward the dark hiding place. But her eyes had already caught the mantel's spring, and she had found the key in her hand. In a moment more she was in and in spite of her fears, her lips formed a wordless cry of victory.

But Jack Bailey said nothing at all. One glance had shown him that the safe was empty.
The tragic collapse of all their hopes was almost more than they could bear. Coming from the upper nerving-ekets of the night, it left them dazed and directionless. It was, of course, Miss Cornelia who recovered first.

"Even without the money," she said, "the mere presence of this safe here, hidden away, tells the story. The fact that some one else knew and got her first cannot alter that."

But she could not cheer them. It was Lizzie who created a diversion. Lizzie who had hotted into the hall at the first motion of the mantelpiece outward, and who now with equal precipitation came bolting back. She rushed into the room, and at the door behind her, she collapsed into a heap of moaning terror at her mistress' feet. At first she was completely inarticulate, but after a time she muttered that she had seen "him," and then fell to moaning again.

The same thought was in all their minds, that in some corner of the attic per floor she had come across the body of Anderson. But when Miss Cornelia finally quieted her and asked this, she shook her head.
"Was the Bat I saw," was her astounding statement. "He dropped through the skylight out there and ran along the hall. I saw him, I tell you. He went right by me!"

"Nonsense," said Miss Cornelia, briskly. "How can you say such a thing?"
But Bailey pushed forward and took Lizzie by the shoulder.
"Was it like look like?"
"Like the doctor?" he asked. He was all black where his face ought to be.
"Who you mean be your a mask?"

"I don't know."
"Then you didn't lock that door?"
"Then you didn't lock that door?" Bailey menaced him.

made a move toward the door, she broke into frantic wailing.
"Don't go out there!" she shrieked. "He's there, I tell you. I'm not crazy. If you open that door, he'll shoot you!"
But the door was already open and no shot came. With the departure of Bailey and Miss Cornelia, and the resolute silence due to their taking the candle, Lizzie and Dale were left alone. The girl was fainted with disappointment and strain; she sat huddled on the floor, her head buried in her hands. She would not have been afraid to move anywhere else.

"I see lights up here from outside," continued the doctor easily. "And I thought—"

Miss Cornelia interrupted him. She had laid down her candle and was now on the top of the clothes-hamper and now stood gazing at the mantel fireplace.
"The mantel's—closed," she said.
The doctor stared. So the secret of the hidden room was a secret no longer.

The Bat was working rapidly. She heard his quick, nervous movements; apparently he had come back for something and secured it, for now he moved again toward the door. But he was too late; they were returning to their way. She heard him utter something and quickly turn the key in the lock. Then he seemed to turn toward the window, and for some reason to recoil from it.

The next instant she realized that he was coming toward the mantel room, that he intended to hide in it. There was no doubt in her mind as to his identity. It was the Bat, and in a moment more he would be shut in there with her.

She tried to scream and could not, and the next instant she was in a dead faint on the floor.
Bailey meanwhile had crawled out on the rug and was carefully searching it. But other things were happening also. A disinterested observer could have seen very soon why the doctor had thrown the window as a means of egress.

Almost before the mantel had swung to behind the arch-criminal, the top of his graining ladder had appeared at the window, and by its quivering showed that some one was climbing up, rung by rung. Unconsciously enough he caught the mantel at the top and flashed a light into the room, and then cautiously swinging a leg over the sill. It was the doctor. He gave a low voice, but there was no reply, save that he had seen it, the mantel swung out an inch or two. Perhaps he was never so near death as at that moment.

"Dale!" called Bailey's voice from the corridor. "Dale!"
"Dale! Dale! The door's locked!" cried Miss Cornelia.
The doctor hesitated. The call came again, followed by Miss Cornelia's wailing.
"Dale! Dale!" and Bailey pounded on the door as if he meant to break it down.
The doctor made up his mind.
"Wait a moment!" he called. He stepped to the door and unlocked it. Bailey hurried himself into the room, followed by Miss Cornelia with her candle. Lizzie stood in the doorway, timidly, ready to leap for safety at a moment's notice.

"Why did you lock that door?" said Bailey, angrily, threatening the doctor.
"But I didn't," said the latter, truthfully enough. Bailey made a movement of irritation. Then a glance about the room informed him of the amazing, the incredible fact. Dale was not there! She had disappeared!
"You—you," he stammered at the doctor. "Where's Miss Ogen? What have you done with her?"
"Miss Ogen?" Bailey was baffled.
"Done with her?" he said indignantly. "I don't know what you're talking about—I haven't seen her!"
"Then you didn't lock that door?" Bailey menaced him.

The doctor's denial was firm. "Absolutely not. I was coming through the window when I heard your voice at the door!"
Bailey's eyes kept to the window—yes—a ladder was there—the doctor might be speaking the truth after all. But if so how and why had Dale disappeared?

The doctor's admission of his manner of entrance did not make Lizzie any the happier.
"Was the window—just like a bat?" "In at the window—just like a bat!" she muttered in slinking tones. She would not have stayed in the doorway if she had not been afraid to move anywhere else.

"I see lights up here from outside," continued the doctor easily. "And I thought—"

Miss Cornelia interrupted him. She had laid down her candle and was now on the top of the clothes-hamper and now stood gazing at the mantel fireplace.

"Dale!" Called Bailey's Voice From the Corridor.

longer. He saw him rapping before him—a dim, unmissable abyss. "Damnation!" he cursed, impotently, under his breath.
Bailey turned on him savagely.
"Did you shut that mantel?"
"Na!"
"Will see whether you shut it or not!" Bailey leapt toward the fireplace. "Dale! Dale!" he called desperately, leaning against the mantel. His fingers groped for the knob that worked the mechanism of the hidden entrance.

The doctor picked up the single lighted candle from the hamper, as if to throw more light on Bailey's task. Bailey's fingers found the knob. He turned it. The mantel began to swing out into the room.
As he did so the doctor deliberately snuffed out the light of the candle he held, leaving the room in abrupt and obliterating darkness.

"Doctor, why did you put out that candle?"
Miss Cornelia's voice cut the blackness like a knife.
"I didn't—!"
"Then you—I saw you do it!"
The brief exchange of accusation and denial took but an instant of time, as the mantel swung wide open. The

Grain Trade Periled by Railroad Rebates

Serious troubles were encountered by Chicago traders in the early nineties through the practice of accepting railroad rebates. The railroads of the time were keenly aggressive, and they inaugurated a war of cutthroat competition, giving rebates to heavy shippers, regular shippers—a sort of bidding for business. At first the rebates were welcomed by shippers, who were flattered by the thought that they were getting something for nothing. The practice became such an abuse that there was now a grain firm faced financial disaster because of it. No one ever knew just how great was the rebate that his competitor obtained and the whole situation added a trade hazard that was immeasurable. The rebates ran from 10 to 25 per cent of the published tariff. It was, of course, difficult for the concern that was able to obtain only 10 per cent rebate to

Tempted Fate Too Often

Sam Patch was a widely known figure during the 18th and 19th centuries in Rhode Island. He was born in 1807 in Rhode Island, and became a cotton spinner in Paterson, N. J. A jump from a bridge into the Passaic river brought him such notoriety that he traveled about leaping from bridges and diving from topsides of ships. He was killed in 1829 when attempting to jump of 125 feet into the Genesee river.

next instant there was a rush of feet across the floor from the fireplace—the shock of a collision between two bodies—the sound of a heavy fall.

"What was that?" queried Bailey, dazedly, with a feeling as if some great winged creature had brushed at him and passed.

Lizzie answered from the doorway. "Oh, oh!" she groaned, in stricken accents. "Somebody knocked me down and trampled on me!"

"Matches, quick!" commanded Miss Cornelia, "Whose's the candle?"

The doctor was still trying to explain his curious action of a moment before.

"Awfully sorry, I assure you—it dropped out of the holder—ah, here it is!"

He held it up triumphantly. Bailey struck a match and lighted it. The wavering little flame showed Lizzie prostrate but vocal, in the doorway—and Dale, lying on the floor of the hidden room, her eyes shut, and her face a drained color as the face of a marble statue. For one horrible instant Bailey thought she must be dead.

He rushed to her wildly and picked her up in his arms. No—still breathing—thank God! He carried her tenderly to the only chair in the room.

The doctor, once more the physician, knelt at her side, and felt for her pulse. And Lizzie, picking herself up from the floor, looked at some violent body had thrown her, retrieved the smoldering sals from the floor. It was onto this picture, the candle light shining on the doctor's face, the dramatic figure of Dale, now semi-conscious, the desperate rage of Bailey, that a new actor appeared on the scene.

Anderson, the detective, stood in the doorway, holding a candle—as grim and menacing a figure as a man just got out of the gallows.

"That's right!" said Lizzie, unappalled for once. "Come in when everything's over!"

The doctor glanced up and met the detective's eyes, cold and menacing. "You took my revolver from me, downstairs," he said. "I'll trouble you to give it back to me."

The doctor got heavily to his feet. The others, their suspicions confirmed at last, looked at him with startled eyes. The detective seemed to enjoy the unusual confusion his words had brought.

Slowly, with sullen reluctance, the doctor yielded up the stolen weapon. The detective examined it casually and replaced it in his hip pocket.

"I've something to settle with you pretty soon," he said through clenched teeth, addressing the doctor. "And I'll settle it properly. Now—what's this?"

He indicated Dale—her face still and motionless—she breath coming faintly she seemed hardly to breathe at all, as Miss Cornelia and Bailey tried to revive her.

"She's coming out," said Miss Cornelia, triumphantly, as a first faint flush of color reappeared in the girl's cheeks. "We found her shut in there, Mr. Anderson," the spinster added, pointing toward the gaping entrance of the hidden room.

A gleam crossed the detective's face. He went up to examine the secret chamber. As he did so, Doctor Wells, who had been inching surreptitiously toward the door, sought the opportunity of slipping out unobserved.

But Anderson was not to be caught napping again.

"Wells!" he barked. The doctor stopped and turned.

"Where were you when she was locked in this room?"

The doctor's eyes sought the floor—the walls—wildly—for any possible loophole of escape.

"I didn't see her in—if that's what you mean!" he said defiantly. "There was some one shut in there with her!"

He competed with the one that got the 25 per cent reduction. Another phase of the rebate system was that the rebate was merely a sort of "gentlemen's agreement" between the trader and some high official of the railroad. Nothing ever was written about the rebate. The "gentlemen's agreement" sometimes became a disagreement and there was then no way to force the railroad to live up to the understanding—James A. Patten, in Chicago Daily News.

Metal Burial Caskets

A patent for the manufacture of metal burial caskets in this country was granted about the year 1850, and the first one was made in Cincinnati, Ohio, and Providence, R. I.

So pestered at the hidden room. "Are these people new?" Miss Cornelia caught him up at once.
"The fact remains, Doctor," she said, her voice cold and anger, "that we left her here alone. When we came back, you were here. The corridor door was locked, and she was in that room—unconscious!"

She moved forward to throw the light of her candle on the hidden room as the detective passed into it, gave it a swift professional glance, and stepped out again. But she had not finished her story by any means.

"As we opened that door," she continued to the detective, tapping the false mantel "the doctor deliberately extinguished our only candle!"

"Do you know who was in that room?" queried the detective, fiercely, wheeling on the doctor.

But the latter had evidently made up his mind to cling stubbornly to a policy of complete denial.

"No," he said solemnly. "I didn't put out the candle, it fell. And I didn't lock that door into the hall. I found it locked!"

The detective turned from Bailey now centered everyone's attention on himself and Dale. At last the girl was recovering from the shock of her terrible ordeal and regaining consciousness. Her eyelids fluttered—closed again—opened once more. She tried to sit up, weakly, clinging to the doctor's arm.

"Please close that awful door," she said in a tremulous voice. "I don't want to see it again."

"The doctor went silently to close the iron door."

"What happened to you? Can't you remember?" faltered Bailey, on his knees at her side.

The shadow of an old terror lay on the girl's face.

"I was in here alone, in the dark," she began slowly. "Then, as I looked at the doorway there, I saw there was somebody there. He came in and closed the door. I didn't know what to do, so I slipped in—there, and after a while I knew he was coming in, too, for he couldn't get out. Then I must have fainted."

"There was nothing about the figure that you recognized?"

"No. Nothing."

"But we know it was the Bat," put in Miss Cornelia.

The detective laughed sardonically. The old duel of opposing theories between the two seemed about to recommence.

"Still harping on the Bat!" he said with a little sneer.

Miss Cornelia stuck to her guns. "I have every reason to believe that the Bat is in this house," she said.

The detective gave another jarring, mirthless laugh.

"And that he took the Union bank money out of that safe, I suppose?" he jeered. "No, Miss Van Gorder."

He wheeled on the doctor now.

"Ask the doctor who took the Union bank money out of that safe, I suppose?" he thundered. "Ask the doctor who attacked me downstairs in the drawing room, knocked me senseless and locked me in the billiard room!"

There was an astounded silence. The detective added a parting shot to his indictment of the doctor.

"The next time you put handcuffs on a man, be sure to take the key out of his vest pocket," he said biting off the words.

Rage and consternation mingled on the doctor's countenance—on the face of the others astonishment was followed by a growing certainty. Only Miss Cornelia clung stubbornly to her original theory.

"Perhaps I'm an obstinate old woman," she said, in tones which obviously showed that if so she was rather proud of it. "But the doctor and all the rest of us were locked in the living room, not ten minutes ago!"

"By the Bat, I suppose?" mocked Anderson.

"By the Bat!" insisted Miss Cornelia inflexibly. "Who else would have fastened a dead bat to the door downstairs? Who else would have braved to do that? Or what you call the imagination?"

In spite of himself Anderson seemed to be impressed.

"The Bat, eh?" he muttered, then, changing his tone, "you knew about this hidden room, Wells?" he shot at the doctor.

"The doctor bowed his head. "And you knew the money was in the room?"

"Well, I was wrong, wasn't I?" parried the doctor. "You can say for yourself. That safe is empty."

The detective brushed his evasive answer aside.

"You were up in this room, earlier tonight," he said in tones of earnest certainty.

"No, I couldn't get up," the doctor still insisted, with strange tolerance for a man who had already admitted such damning knowledge.

"The detective's face was a study in disbelief.

"You know where that money is, Wells, and I'm going to find it!"

BETTER COLOR IN HER FACE

Lydia E. Pinkham's Vegetable Compound Built Her Up

Espanola, Wash.—"My husband ran your advertisement for Lydia E. Pinkham's Vegetable Compound and wanted me to try it as I was in a frail run-down condition. I am a farmer's wife and you can judge what work I do. Since taking the Vegetable Compound I feel more spry and vigorous and my husband says I have more color in my face and look better. I recommend it to any one who says a good tonic."—Mrs. Rorr. Lovett, Espanola, Wash.

Don't Fuss With Mustard Plasters!

Just Rub Away Pain. Don't mix mess of mustard, flour and water when you can relieve pain, soreness or stiffness with a little clean, white Musterole.

Musterole is made of pure oil of mustard and other helpful ingredients, and takes the place of mustard plasters. Musterole usually gives prompt relief from such troubles as: lumbago, neuralgia, rheumatism, stiff neck, asthma, neuritis, pleurisy, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bite, colds of the chest (it may prevent pneumonia).

Better than a mustard plaster

Saving Disposition

The model for thrifty Scots was found in Glasgow, Scotland, in the person of a beggar who was wearing five overcoats and three pairs of trousers, in the pockets of which were hundreds of half-smoked cigarettes, many used and useful matches, keys, purses, knives, pipes and rings, three hard breakfast rolls and copper coins weighing 13 1/2 pounds.

"O Happy Day" sang the landlady as she hung the snowy wash on the line. It was a "happy day" because she used Red Cross Blue—Adv.

The Question

Mrs. Pryor—I heard this morning that Mrs. Shirll has completely lost her voice.

Mrs. Guyer—Goodness gracious! Why how will she ever get anything to wear, my dear?—New Bedford Standard.

DON'T suffer headaches, or any of those pains that Bayer Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not hurt the heart. Every druggist has it, but don't fail to ask the druggist for Bayer. And don't take any but the box that says Bayer, with the word 'Germantown' printed in red!

Aspirin is the mark of Bayer Manufacture of Monocristallinester of Salicylic Acid

Paint Your Home

Before you choose the paint for your home, come in and see our Lowe Brothers High Standard Paint. By making that your first step you will save yourself a lot of time and worry. We can supply you with your first need for a good job—the right kind of paint!

Our Stock is complete, and we are equipped to give you the best of service.

Learn from us the remarkable qualities of High Standard. About its unusual covering capacity. About its great durability. About its rich and beautiful colors. And how it will both beautify and protect your home at a remarkably low cost.

POULTRY FACTS

POULTRY NEEDS CARE IN SUMMER

Though egg production drops in hot weather the poultry flock should receive attention so that best results may be secured when production starts on the upgrade again.

"The decline in egg production begins in June," says Dr. R. F. Knapp, head of the poultry department of the North Carolina agricultural college. "We estimate that each hen will average about 15 eggs during this month. The breeding season is also over in June and it is a wise plan to sell all the old male birds not needed for another season. Those males that are wanted should be placed in a separate field with plenty of range and a comfortable small house. The male is not needed for egg production, and when he is kept away from the flock, infertile eggs are produced. An infertile egg keeps better in hot weather than a fertile egg. In any case, it is wise to gather the eggs frequently and market them at least twice each week. For best prices, they should be kept clean and cool."

Doctor Knapp suggests that it might be a good idea to caponize a few of the early cockerets and grow them out on range this summer for the holiday trade. Capons are in demand around Thanksgiving and Christmas, and with a little care, a good trade in capons may be built up. When birds are dipped to control body pests, a warm dip should be selected and a solution of 1 per cent coal tar dip used. The house should be well ventilated. Open the rear ventilators but do not permit a draft to blow across the birds.

Red mites play havoc with the vitality of the farm flock, states Doctor Knapp. For this reason, it is not a bad plan to paint the perch poles with pure dip or some used cylinder oil that has been diluted with kerosene. All birds need plenty of shade and fresh clean water during summer, and the poultryman who does not provide these simple necessities makes a serious mistake, advises Doctor Knapp.

Cause of Heavy Death Rate of Young Chicks

Ninety per cent of the sick and dead chicks received by the veterinary department of Purdue university during March and April of this year, had the illness white diarrhea. These chicks came from 1,000 flocks. In most cases the letters that accompanied the different lots indicated that the growers did not suspect the true cause of the heavy death rate, and most of them believed that the feed was responsible for the loss.

The acute "bacillary white diarrhea" is somewhat misleading. Many poultrymen believe that it is a disease of the intestines and the sick chicks appear to die. As a matter of fact, there is very little evidence of bowel trouble, either in the form of scumous or loquid, in the most destructive outbreaks and heavy death rates. Birds that survive the infection for several days or a week show lesions in the liver, lungs, heart and intestines. The lungs are commonly affected. This gives rise to difficult or labored breathing, and poultrymen have frequently mistaken bacillary white diarrhea for another pneumonia, a less common disease.

Teaching Chicks to Roost Prevents Crooked Bones

Teach the chicks to roost. Crooked breast bones may be the result of the early roosting on perches which do not support the body, but a 2 by 2 inch scantling with the upper edges slightly rounded, placed at about a foot from the floor at first, will not cause crooked breast bones and will prevent banding in corners and piling up. Teaching the chicks to roost is better if it means going to the brooder soon before dark and putting up the chicks that have come to the corners. But once they are roost-trained, there is little danger of chicks piling up, even though we have the occasional cold night which plays havoc with chicks in cold camps.

Time to Caponize

The time to caponize is when the cockerel is 1 1/2 to 2 1/2 pounds in weight at two to four months of age. This weight is a part of one of

WHAT'S GOING IN WEST TEXAS

RANKIN--Rankin's building program is being continued without interruption.

EOLA--Bonds for a \$20,000 modern fireproof school building to be erected here by the Independent School District have been sold.

EDEN--A carload of corrugated iron culverts, the first ever shipped here, have been unloaded for distribution through the county.

PLAINVIEW--The Panhandle-Plains Dairy Show held here April 2, 3, 4, 5, and 6 was declared one of the outstanding ever held in the country.

CROWELL--Eighteen cars of pipe have been unloaded here for the gas extension of the Stamford and Western Gas Company from Chillicothe to Stamford.

MIDLAND--Hotel Wallace, a first class seven-story hotel, is to be erected here at once.

SEAGRIVES--Seagraves citizens are planning rebuilding of their town following destruction of twenty-one of its business houses.

ABILENE--Abilene's new directory shows a population of 32,400 people, a gain of 7,000 people in seven years.

FRIONA--Friona will be an incorporated city as result of a 65 to 34 vote in the matter.

Albert Taylor of Lubbock, was in town Tuesday morning attending to business affairs.

Mr. and Mrs. D. E. Keeney and son spent Monday in Lubbock, where Mrs. Keeney received medical attention.

Mrs. Pat Winn of the Fairview community was visiting with Mrs. D. W. Winn and family Monday.

C. E. Dotson purchased a new Chevrolet Coach from the Valley Motor Company Monday.

Do You Know

That this is the season when dairy cows and chicks need the most careful attention?

For dairy cows, the grass is not at its best, and a falling off in production is the result if a balanced ration is not given them.

MERIT BRAND FEEDS

are manufactured from the best products obtainable and give the correct ration.

Our Chick feed guarantees you good growth and healthy chicks.

We also have a full line of Seeds.

MILK PAIL PROOF
Purina-fed cows have broken more than sixty state, national, and world records. Yet these records don't tell the whole story after all. They only prove that Purina makes more milk. They don't prove anything about Purina producing a cheaper quart of milk and that's the thing that every dairyman wants. But here's what does prove Purina produces a cheaper quart—twenty thousand more dairymen are feeding Purina this year than fed it last year! When twenty thousand dairymen—big and little—change to one feed in one year, it says a lot more than any feed salesman can say about the Purina quart being the cheapest!

Come in and let us show you what Cow Chow, Bulky-Las and Calf Chew will do for you
