

FINAL DIMES DRIVE ENDS JANUARY 30

TEXAS FROZEN FROM COAST TO PANHANDLE

Spur Public Schools closed until Feb. 2. The U. S. Weather Bureau at Dallas predicted Wednesday night that the current cold spell would begin to lose its grip on the ice-covered state within the next 48 hours.

It was the first indication of moderating weather since the tenacious cold front moved in on Texas six days ago.

The heartening forecast came as the state was suffering most in the throes of its worst winter in years.

At Least 11 Killed Texas was frozen from the tip of the panhandle to Brownsville. Cars skidded and crashed. People slipped and fell. Gas shortages developed.

SPUR SCHOOLS ARE CLOSED All of the schools of Spur were closed last Tuesday as a precaution against the extreme cold and the safety of children riding school buses.

Mother of Spur Man Buried At Lamesa Wednesday

Mr. and Mrs. J. L. Greaves and family were called to Lamesa Tuesday because of the death of Mr. Greaves' mother, Mrs. Jennie Greaves, age 65, who died at her home in Lamesa following a long illness.

'48 AGRICULTURAL CONSERVATION PROGRAM LAUNCHED FOR COUNTY

The 1948 Agricultural Conservation program is underway. County and community agricultural committees are now assisting farmers to take full advantage of the program.

SPUR'S BULLDOGS UPSET UNBEATEN FLOYDADA QUINT

The Spur Bulldogs turned in a major District 3-A conference basketball upset here last Friday night by defeating the previously unbeaten Floydada Whirlwinds.

The game started slowly and then picked up speed, as the players let leather meet netting. Spur clung tenaciously to an early lead, continually going ahead after a Floydada rally would narrow the victor's margin.

The Bulldogs went off the court at the middle stanza with a 21-16 lead, which proved to be just half of the final winning edge.

INSTALLING PLATE GLASS FRONT J. W. Henry is having a plate glass front installed in his building at 203 N. Burlington.

McAdoo P.T. A. To Present Program February 5 A program is to be presented by the McAdoo P.T. A. on Thursday, Feb. 5 at the McAdoo school.

Deadline Nears For Payment Of Poll Taxes

County poll tax officials this week urged tax payers of Dickens County to do their poll tax shopping at once as the deadline, January 31, 1948, nears.

Dickens County History One Of Most Colorful, Presented at Rotary Meeting

"Dickens County has one of the most colorful histories during the early frontier days, county organization, and development to the present day than any other county in the books" said Geo. S. Link, Sr., as principal speaker at Rotary last week in treating the subject of History of Dickens County.

Lions Membership Increasing; Result Of Consistent Drive

Three new members were introduced at the Tuesday luncheon of the Lions club as a result of the membership drive being made this month, honoring the birthday of Melvin Jones, founder of Lions International.

Guests of the club for the day were C. F. Cook, Dr. W. K. Callan, Speck Blair and V. C. Smart, Jr.

Dickens Doings

By Mrs. O. R. Cunningham
Mrs. Cecil Meador and Mrs. Eric Ousley were in Guthrie Tuesday to meet Jean, who had been to Abilene.

Mr. and Mrs. Gene Gage rushed their little son to the doctor Sunday. The report is that he is improving now.

Mrs. Frank Watson of Spur was a guest Monday of Mrs. Charlie Kimmel.

Guests for dinner in Mrs. Orville Cunningham's home Monday were Mr. and Mrs. Floy Watson of Spur.

Horace and Helen Nichols of McAdoo were in Dickens Tuesday. They are in the Butane business and at this time of year business is very good.

Mrs. Johnny Reynolds is spending a few days in Dickens with her daughter, Mrs. David Smiley and son, Rhee.

Wednesday of last week, Mrs. Ben Overstreet was rushed to Lubbock Memorial hospital for a sinus operation.

Mrs. Homer Jackson and Mrs. Charlie Jackson were shopping in Spur Monday.

Mr. and Mrs. H. P. Littlefield of Turkey were honored with a forty-two party Saturday night in the home of Mrs. Orville Cunningham, where they were week end guests.

Billy Overstreet is home for the week end from McMurry, where he is in school.

Jack Gipson was in Hobbs, N. M., visiting last Sunday.

Mr. and Mrs. Dick Spear, formerly of Spur were having supper at the Dickens Cafe last week end and visiting friends here.

Tallie Windham and Stanley Darden were in Dickens Friday attending to business.

Dickens school children were very busy this week taking mid-term examinations.

Mary Jo Allen, who is employed at the Dickens Cafe said the cafe business had been very good the past week, with people from Lubbock enroute to Fort Worth and Dallas.

Mr. and Mrs. Clyde Parnell were in Dickens Friday shopping and attending to business.

Teen-agers were entertained at a birthday party in the Watley home for Charlotte Saturday night. Refreshments were cake and hot chocolate.

Guests in Alha and Mrs. John Cosby's home this week end were her daughter, Mr. and Mrs. Clyde Lathan and children, Aaron and Von Sharon of De Leon, Texas.

In Spur shopping from Dickens Saturday were the following: Mr. and Mrs. John Sharp, Mrs. Earl Murchison, Mr. and Mrs. Bob Crockett, Mrs. Jim Koonsman and children, James and Peggybeth, Miss Earl Hyatt, Mr. and Mrs. Elie Holly, Chubby and Clyde White, Mr. and Mrs. L. Harvey, Mr. and Mrs. Dewayne Stephens, Mr. and Mrs. Charlie Gage, John-

CHURCH OF CHRIST Frank L. Cox, Minister Sunday Services

Ladies' Bible Class Monday at 3:00 p. m. Prayer meeting Wednesday evening at 7:30. with Bible classes for all. Greater interest is being manifested in the men's class in the study of the Gospel of John.

You are welcome to all the services of this congregation.

Here
Praises arise.
Prayers ascend.
The table is spread.
The bread of life is broken.
Gifts are presented.
The weary find rest.
"This is none other than the House of God, and this is the gate of Heaven." (Gen. 28:17.)

by Gage, Mr. and Mrs. George Pierce and family, Mr. and Mrs. Robert Williams and children, Rita Joyce, Anna Bob and Mackey, and Mr. and Mrs. Hoot Littlefield.

BRIDAL SHOWER

Mrs. Christine Hunt and Mrs. Shorty Watley complimented Joyce and Dewayne Stephens with a shower last Tuesday week. Many lovely gifts were displayed. Coffee and cake were served to approximately 25 ladies. Others who sent gifts were sisters of the groom, Mrs. W. M. Hunter, Mrs. Joe Powers, Mrs. T. W. Stephens, Dick Caraway, Georgia Arthur, Beth Williams, Wilma Stephens, Buster Arthur, B. L. Harvey, C. A. Stephens, W. M. Stephens, Fay Katherine Moss, Lora Dell Arthur, Mary Jo Harvey, Daisy Harvey and Schooner, Dahlia Sprayberry, W. E. Peters, Mary Wyatt, Grandmother Lemons, David Smith, Raleigh Harkey, Annie Worthington, Watt Holly, Josie Street, Lindell and Violet Holly, J. D. Hester, Birdie Nell Greer, Henry Elmore, James and Audrey Holly and J. W. T. B. McKnight, Hallet Holly, Eddie B. Lassiter, Frank Spear, Spraberry, Guy Thompson, Elmer Thompson, J. F. Baker, Mrs. Dodson, Dillard Jackson, Harry Martin, Gaston Jackson, Lena Johnson, Charlie Kimmel, H. G. Watley and Mrs. O. R. Cunningham.

Also all the seniors in the bride and groom's class, Marie Holly, Donald Hester, Wanzella Johnson, Hubert Hester, Odell Hawley, Shorty Gordon, Don Edwards, Janice Ogle, Jewell Nolan, Mickey Bilberry and Buck Scott sent a beautiful white and gold table lamp.

FARM NEWS

The annual loss from weeds in the U. S. has been placed at 3 billion dollars.

The production credit associations in Texas have made loans for nearly 700 million dollars in the past 14 years. Total losses since organization of the associations have been about 1-40 of 1 per cent of the money loaned.

Rats found in Texas are the Norway, or common rat, and Alexandrine or roof rat. The Norway rat lives on the ground, under buildings, heaps of rubbish

or in burrows, while the Alexandrine rat lives in attics, lofts, under roofs and eaves and in double walls.

Red Squill is the safest rat poison and properly used will give excellent results. Thoroughly cover the area where rats harbor with one application. Wait at least two weeks before spreading poisoned bait again.

To prevent reinfestation of rats, all piles of rubbish, trash and brush should be burned; feed concentrates should be protected,

barns and cribs should be rat-proofed.

USDA's State Crop Insurance Office reports that 3,993 cotton claims for indemnity have been received under the 1947 program and final payments in Texas will amount to approximately \$1,180,000.

BILLY HILLEY ABLE TO BE OUT AGAIN

Billy Hilley who has been confined to his home for the past two weeks suffering from an infected foot is able to be out again and back at his work with the Dickens County Electric Co-op office here.

December Receipts Cottonseed at Texas Mills, Register Gain
 Despite a 25 per cent slump from November, December receipts of cottonseed at Texas mills registered a gain of 166 per cent above last year's levels, reported the University of Texas Bureau of Business Research.
 The seasonally-adjusted index of crushings moved upward 11 per cent to reach 98. (Base: 1935-39-100.) Crushings during the month totaled 151,542 tons, bettering 1946 by 65 per cent.
 Stocks on hand at the end of December were 464,532 tons, 3 per cent below November figures.

Small But Not Restricted

Southwestern in atmosphere but suitable for any section of the United States, this small house is distinguished by the generous space it provides without the restrictions usually found in compact homes. It was designed by Randolph Evans, 140 Nassau St., New York 7, N. Y., and is his plan No. 148.

There are two large, ideally arranged bedrooms with an abundance of closet space. A stairway to the attic allows for future finishing of upstairs rooms.

The living room with dining nook runs the full width of the house and has two extra-size windows, the front one opening onto a terrace. The architect is proud of the kitchen, which he calls a "veritable laboratory for the preparation and storage of food."

The low roof line and fire-resistant asphalt shingles of a harmonizing color give the house a rambling appearance, close to the ground. Exterior sidewalls are of white clapboard.

Just to cover an area of 31,728 acres 7 inches deep. Studies in this state indicate that loss of the top-soil here also has been serious—more serious on some farms than others, the committeeman said. These studies and the evidence we have all around us should make each of

Conservation Is To Help Prevent Soil Losses

"How much longer will your farm last?" asks W. L. David, member of the Texas UMA committee.

Explaining this challenging question, Mr. David said that when farms were broken out of the native vegetation there was a store of fertility in reserve. In some instances the reserve was rather small; in other instances there was a rather large reserve of minerals needed for plant growth. Crops have taken some of that reserve but a far larger amount in most cases has been washed away or blown away. The committeeman points out that unless something is done to restore these losses, sooner or later the land fails to produce because of the lack of one or more of the necessary minerals.

When the reserves of one of these essential minerals runs out, crop yields drop off. An abundance of calcium won't make up for a lack of phosphate. In most instances these minerals support each other in promoting plant growth; the committeeman explains.

Erosion and heavy production of cash crops have taken a serious toll from our land. A recent study in an important agricultural county reveals that 20 per cent of the top-soil had been lost in 33 years of farming. The total amount of top soil lost in this one county amounted to 31,728 acres based on an average of 7 inches of top-soil over the area. Putting it another way, enough soil was

Duck Creek Soil Conservation District News Notes

WILL WRIGHT TOM MURDOCK CHAS. WITT
BLEY WOOTEN, Chm. OSCAR MC-GINTY, Sec.

The terrace building program is moving along rapidly in the Duck Creek Soil Conservation District. Most of the work is being done by contractors, but several men have bought whirlwind machines to build their terraces and to maintain them in the future. At least one working every two years is necessary to keep them in an effective condition. Soil Conservation Service technicians assisting the District have been laying out terrace systems and making constructive checks for completion. Any cooperator of the Duck Creek District in Dickens or Kent Counties who anticipates needing lines this winter is urged to contact the Soil Conservation Service office in Spur as quickly as possible. The following named persons have completed their terrace systems during the past three weeks:

BUBBLE GUM HARMFUL

with the "indicated number" miles: Bill Linn, 4; Mrs. A. J. John, 5; Mrs. J. W. R. Furr, 2; Mercado, 3; Mrs. C. J. Pugh, 2; Mrs. Lada, 3.

Additional miles of terraces have been built lately by: Jim Barron, 2 3/4; W. R. Furr, 2; E. J. Shugart, 2; Jim McArthur, 3; R. J. Bell, 1; Pann Shugart, 1; Ben Lee, 1; Hugh Hagins, 3; Mrs. E. Cyfert, 4; Ted Goodwin, 3.

The District Supervisors have completed their annual report for 1947. The accomplishments of the cooperators of this District during last year are:

Contour planting, 16,057 acres. Cover crops, 1,796 acres. Crop residue management, 5,279

Funeral Services Conducted for Long Time Resident

Funeral services were conducted Sunday, Jan. 25 at First Baptist Church in Spur for Mary Elizabeth Cravey, 82, who died Saturday, Jan. 24 at 3 a. m., at her home in Spur. Rev. C. N. Gilbert, pastor, assisted by Frank Adams officiated for the services.

Mrs. Cravey was born in Louisiana August 7, 1865. Her parents were Mr. and Mrs. T. A. Smith. She was married to H. C. Cravey at San Saba, Texas, on November 17, 1886 and moved to Texas on December 18, 1896. They settled in the Red Mud community, where they have made their home for a good many years.

Pallbearers were Jimmie Stewart, Elmer Mabon, Dale Cravey, Jesse Morrison, Bill Wyatt, and Gordon Cravey.

Interment was in the Red Mud Cemetery with Chandler Funeral Home in charge of arrangements.

Surviving her are: three daughters, Mrs. Fannie Hufstutler of Comanche; Mrs. Eva Smeltzer of

District Offices.....\$25

Postal Receipts in Texas Exceeded Expected Gains

Postal receipts in Texas exceeded expected seasonal gains with December receipts advancing 52 per cent above November totals, according to reports of the University of Texas Bureau of business research.

Receipts for 56 Texas cities reached \$4,215,459 in better December 1946 figures by 14 per cent and push the Bureau's seasonally-adjusted index to 239 (Base: 1935-39-100.)

Although all cities reported November-to-December increases, postal receipts of Sweetwater, Childress, Big Spring and Galveston dropped below December 1946 levels. The greatest yearly gain of 97 per cent was made by Plainview; Corsicana followed with 45 per cent.

Dallas receipts led in dollar figures, totaling \$1,007,239 in December. Houston, running second, marked up a \$739,003 December total and Fort Worth came in third with \$424,432.

IN CASE OF EMERGENCY, CALL 267-J

CHICAGO — Dr. Edward A. Plesch, Cook county health director, says about this time of year many people contract colds. If your youngster is getting a cold, take away his bubble gum, the medical expert advises.

It appears that when pressure is applied such as blowing a bubble, it forces the infection into the middle ear, and may cause all sorts of complications. In one township school, the doctor found nine youngsters in one day complained of earaches. Investigation developed all had been chewing and blowing — bubble gum.

Range properly stocked, 9,027 acres.
Scolding range and pasture, 240 acres.
Farm and ranch ponds, 7 each.
Terracing, 544 miles.
Diversion, 62,700 feet.
Water facilities, 5 each.

Who's jamming a wrench in the gears?

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engineers, Brotherhood of Railway Carmen and the Switchmen's Union of North America, representing 125,000 railroad employees, have refused to accept the offer of the Railroads of a wage increase of 15 1/2 cents an hour.

This is the same increase awarded 1,000,000 non-operating employees by an arbitration board in September, 1947.

This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947.

Agreements have been made with 1,175,000 employees, represented by nineteen unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America represents only about 75 of all railroad switchmen, the other 500 being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

Strike Threat

The leaders of these three unions spread a strike ballot while negotiations were in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employee in the presence of union representatives.

When direct negotiations failed, the leaders of these three unions refused to join the railroad in setting the National Mediation Board to arbitrate the dispute, but the Board paid jurisdiction to the conductors and has been operating since November 24, 1947, to bring about a settlement. The Board on January 16, 1948, announced its inability to reach a mediation conference. The leaders of the unions are in the request of the Mediation Board to arbitrate. The railroads accepted.

What Now?

The Unions having refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employes, stockholders, and the general public to know that throughout these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad employees, and those among the highest paid, can successfully maintain the threat of a strike which would cost the country \$1,175,000,000, and which would affect the lives of millions of people.

The threat of a strike cannot justify giving more favorable conditions to 125,000 employees than have already been put in effect for 1,175,000, nor will it alter the operations of the railroads to unwarranted wage increases or to changes in working rules which are not justified.

A glance at the box shows what employees, represented by the Engineers and Carmen, make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

Compare these wages with what you make!

Choice Steers Show Gain

Twelve choice steers showed an average daily gain of 1.2 pounds during a 215-day summer grazing period on six irrigated pasture mixtures at Texas Technological College, according to Edwin Dawson, graduate student, who is conducting a long-range experiment seeking to determine the value of various irrigated pasture mixtures for producing beef.

Six pastures used in the experiment were seeded with alfalfa; alfalfa, brome grass and perennial rye grass; alfalfa and brome grass; alfalfa and perennial rye grass; native grass; and

native grass with white clover. Feed costs per hundredweight gain during the summer averaged \$11.98. Costs were figured at 10 cents per head per day for pasturage, in addition to supplementary feed and minerals, including cottonseed meal, hégari fodder, sorghum, silage, salt, limestone and bone meal.

Summer grazing period extended over a period of 215 days, from May 1 to Dec. 2, at which time the steers were put in dry lot on a fattening ration. Steer weights on May 1 averaged 634.4 pounds. On Dec. 2 they averaged 893.6 pounds.

Because of the seasonal growth of the pastures, it was not possible to stay on them continuously throughout the period. Therefore animals were held 81 days of the 215-day period in dry

Children of Public Offered Service By West Texas Museum

As a service to public school children in the Lubbock area, the West Texas museum at Texas Technological college will offer special lectures and exhibits this spring, Dr. W. C. Holden, museum director, announces.

Subjects include South American countries, pueblo pottery, Southwestern Indian baskets, early settlers and history of the South Plains, Polson and Abilene man, and the Yaqui Indians of Sonora, Mexico.

Dr. Holden requests teachers interested in bringing groups of students to the museum to contact him at least a week in advance in order that all arrangements may be made.

TPA Mid-Winter Convention Speakers—January 31

HEADLINERS Feature speakers on the Texas Farm Association's Mid-Winter Convention program, January 31, at the Bessie Hotel in Dallas, will be the three newspaper executives pictured above. Mrs. Irene Summs Reid, center, advertising director of the *Monroe (La.) News-Star-World*, will address the Texas editors on the subject of "The Community Story on Public Relations." She is nationally known for her accomplishments in advertising and selling. G. B. Lachenmeyer (right), will present a publisher's viewpoint of an active state press association. He is owner of the *Texas City (Tex.) Sun*, the *San Benito (Tex.) Cameron County News*, the *Cushing (Okla.) Daily Citizen*, and is president of the Oklahoma Farm Association. W. R. Rutherford (left), publisher of the *Dumas (Tex.) Moore County News*, will discuss "Rural Legislation." Rutherford is the immediate past-president of the Panhandle Farm Association.

Influenza Most Prevalent At This Season

This is the season of the year when influenza or "flu" is most prevalent, according to Dr. Geo. W. Cox, state health officer. Colds, gripe, influenza or whatever we may call them, are believed to be spread from person to person through discharges from the nose and throat. To protect yourself and others from such diseases here are some of the things to remember:

Influenza is highly infectious. Practically everybody is susceptible to it. No matter how many times you have had the disease you may contract it again. Therefore, keep away from people who are coughing, sneezing, or who are actively ill with colds, influenza, or pneumonia. Keep away from crowded places. Have your own towel; always wash your hands before eating and sneeze or cough into your handkerchief.

Keep fit by drinking plenty of water, eating simple nourishing food, and taking some exercise each day out of doors. Dress according to the weather; get plenty of sleep in a well-ventilated room; and keep the bowels regulated.

Disastrous results may ensue from this disease if influenza victims are allowed to get about too soon. Persons convalescing from this disease are particularly susceptible to other infections; so, if you are just getting over some illness, return to your normal routine of life gradually.

Someone's Conscience Grew Clearer

Somewhere, someone's conscience grew clearer this week and, as a result, Texas Technological college is richer by \$50.

A letter containing a \$50 bill, addressed simply to "Texas Tech, Lubbock," was received by Pres. W. W. Whyburn.

The letter stated: "Here is payment of a debt which I have been owing for some time. Sometimes it takes some of us a long time to develop high moral values. Some equipment in your physics department is just too accessible at times. Anyway, it was for me. Sincerely, a Friend."

RELATIVES VISITING IN C. B. CHANDLER HOME

Mr. and Mrs. Noble Brown of Notrees, Texas, accompanied Mr. and Mrs. H. C. Chandler to Spur last Sunday for a visit in the home of Mr. and Mrs. C. B. Chandler. Mrs. Brown is a sister of Mr. C. B. Chandler and the H. C. Chandlers are his parents. Mr. and Mrs. Brown returned to their home Sunday evening.

Beware Coughs from Texas Colds That Hang On

5¢ BOUGHT A COKE IN 1886—STILL DOES

lot or on other pasturage until the experimental plots had made sufficient growth to be grazed again. Then several steers would be put on the plot to graze it quickly.

Greatest gains per acre of pasturage were produced on the alfalfa-perennial rye grass mixture and on the alfalfa-brome-perennial rye grass mixture. These gains were seasonal in nature, with greatest gains being made from Sept. 13 to late November. Mid-summer grazings of these two plots produced little or no gain.

Alfalfa and alfalfa-brome grass plots showed carrying capacity equal to the two previously mentioned lots, but severe losses occurred in attempting to graze the two plots after frost, when most of the leaves dropped from the alfalfa plants, leaving little palatable growth to consume. Also, little or no gains were made in grazing during September. Most of the gains were made between May 1 to mid-July, and these gains barely off-set the losses that occurred later in the season.

The two plots containing native grass produced gains at a satisfactory rate, but the carrying capacity was so low this year that the beef produced per acre was lower than an average of the four plots containing alfalfa.

Throughout the grazing period, no blood occurred, and the steers had access to no supplementary feeds while on pasture. The alfalfa was usually grazed when it approached the haying stage, but once during the season it was grazed when succulent and premature.

The steers used in the experiment were purchased as calves, weighing 432.7 pounds average on November 26, 1946. They made winter gains of 1.3 pounds per head per day on wheat pasture and hégari fodder until May 1, a wintering period of 155 days.

Under supervision of Dean of Agriculture W. L. Stangel, this project is to be continued each year until 1950. Results are to be published annually in a bulletin by the college agriculture division.

Go this is MOUSEKEEPING

Breathes there the bride with soul as dead who never to herself has said, some day we'll build our own home!

It wasn't long after we were settled in our compact little apartment that I began dreaming of a winding staircase, ornate rooms and acres of closet space. All for "some day I'll have a floor plan, collected decorating tips and selected lovely color schemes. Then one cool evening I announced to the Man of the House that my dream home was ready—on paper—from doorknobs to book shelves. Naturally, I agreed magnanimously, plans were subject to extensive alterations to suit his pleasure. Well, the end took a quick look and guffawed!

It appears you can't have running water where you want it without pipes. But you can have water where you don't want it unless you have such unromantic-sounding things as gutters, downspouts and flashings. The first two "things" my spouse informed me, conduct water from the roof while flashings prevent leakage at joints such as where the roof meets the chimney.

To top off my chatter, the Ever Wice produced booklets, pamphlets and the summary of a talk he had had with an architect friend, all concerning safeguarding the home with copper and brass.

Patently he explained that copper tube and red brass pipe are sturdy, rust-free and resistant to corrosion. "So?" I asked, still a little hoarse. "Look," says he, "good brass and copper plumbing will deliver rust-free water for more years than you can think about. Furthermore, when about 50 tons of water fall on the average roof every year, the gutters and downspouts have to be good. The best is none too good for the Stuarts, and that means copper.

I was cleared on my long punch as I have had carefully planned for our future home—and told him so. But so matter what anyone says, leave it to a man to have the last word. I was just drifting off to sweet dreams when he brought forth the clincher. "And another thing—copper piping that brought water to Egyptian Pharaohs more than 4,000 years ago can still carry water!"

Internationally Known Artist To Appear With Lubbock Symphony Orchestra

Alec Templeton, the distinguished pianist and composer, great favorite on the radio and concert stage, will be guest artist with the Lubbock Symphony Orchestra for two appearances on Feb. 12 and 13. He was born in Cardiff, South Wales. He cannot remember the time when he did not reach out for music as a necessary part of his happiness. As a child, he played at music as others play at games—he still does.

His earliest sport, he tells you, was to ring people's door bells and distinguish the different tones. When his friends came to play with him, he knew exactly whom to expect before they arrived, by the sound of their bicycles.

His formal musical education began when he was four. His earliest teacher was Miss Margaret Humphrey, for whom he still retains the warmest affection. He tells you that it was "Margaret" who properly introduced him to the meaning of music; gave him the background upon which his career has been built.

He began to compose at four, and made his public debut a year later, at a Children's Concert in Cardiff, an occasion on which he distinguished himself as a pianist, choral conductor, and a poised performer. The Lord Mayor of Cardiff and his officials were present, and the aspect of so much magnificence proved disastrous to the composure and the musical values of the juvenile choir. After the first few bars, definitely off key, the tiny Alec rapped his baton, began the song a second time and this time infused accurate pitch into it. His piano solo brought insistent applause also from a highly pleased and amused audience.

The success he achieved at five continued throughout his boy-

hood. Miss Humphrey prepared examinations at the Royal Academy of Music, London, and later at the Royal college. He studied under many famous teachers; won the Royal college scholarship for piano and compositions; and carried off first prize in a contest conducted by the London Daily Express for some 8,000 aspirants throughout the United Kingdom.

Before he was twenty, Alec Templeton's musical position was assured. He was quickly in demand as recitalist and orchestral soloist, and made extensive tours of England, France, Holland, and Germany. He made his first appearance in the United States in the early "thirties," by way of radio. Templeton ranks as perhaps the only major artist to build up a national following before he had set foot on a concert stage. He had appeared in a British motion-picture with Jack Hylton and when the latter came here to launch a series of broadcasts, he brought Templeton with him. Since then, there is not a city, town, or hamlet that has not heard Alec Templeton—and called for more!

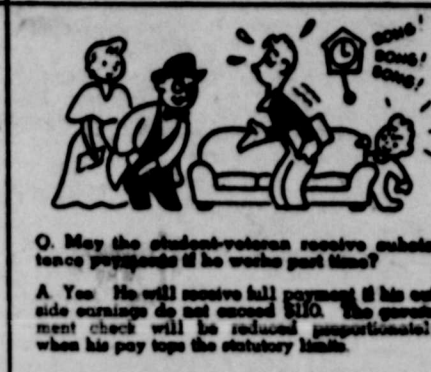

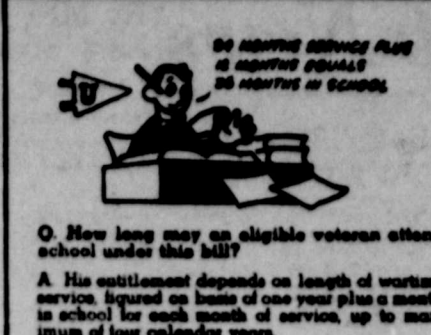

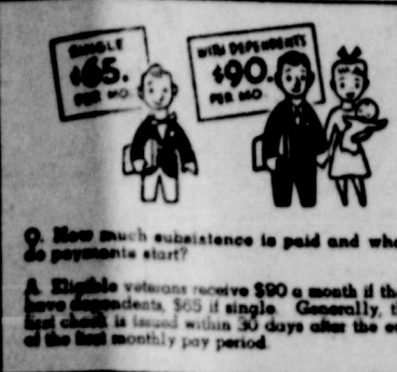

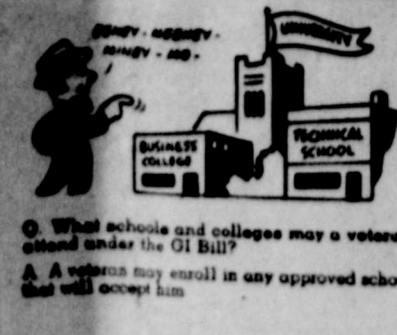

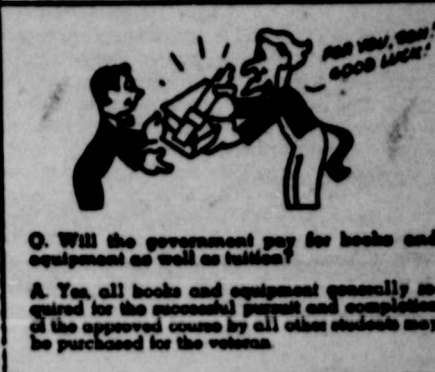

Tickets may be obtained by sending checks and stamped self-addressed envelopes to the Lubbock Symphony Orchestra, Box 894, Lubbock, or at the Adair Music Store after Feb. 2. Admission, including tax, is \$2.80; \$2.40 and \$1.80. All seats are reserved.

MRS. V. C. SMART, JR.
NEW LEADER FOR
GIRL SCOUT TROOP

A meeting of the Girl Scouts was held at the Methodist Church, Round-Up last Thursday, Jan. 22 at 4:15 p. m.

Dues were collected after which there was a discussion on Trefoil. Erma Lou Gannon was chosen to present the Trefoil to the P. T. A. Mrs. V. C. Smart, Jr., was chosen to succeed Mrs. Jack Rector as leader of the troop. Although this troop regrets losing Mrs. Rector, it is over-joyed to have a leader so capable and experienced as Mrs. Smart.

Carbon Monoxide Gas Dangerous

AUSTIN, Jan. 20. — To minimize the danger of carbon monoxide poisoning during winter weather, motorists and commercial drivers are urged by Dr. Geo. W. Cox, to check up now on the exhaust systems of their automobiles for defective connections and leaks.

He said that "warming up" a car in a closed garage is the greatest cause of carbon monoxide deaths. Leaks from manifold connections, cracked manifolds, defective mufflers, leaks from loose muffler connections and leaks from hot air heater connections are potential sources for release of carbon monoxide and should be checked.

"Pay particular attention to these items and remember that proper carburetor adjustment causes minimum production of carbon monoxide and that the highest proportion of this gas is produced by an idling motor."

The state health officer said that headaches which occur during long drives may be an indication that carbon monoxide is leaking into the car. Sleepiness, dizziness, fatigue, and in extreme cases, paralysis are other symptoms of carbon monoxide leaking into the car. Truck drivers making long drives are particularly vulnerable, he said.

Doctor Cox described this gas as being colorless, odorless, and tasteless. When in the air it gives no sign of its presence and is taken into the blood instead of oxygen. Suffering or collapse result from lack of oxygen.

should be checked.

Soviet-German Alliance Seen As Major World Peace Threat

Greatest menace to world peace, and a potentially more devastating weapon than the atom bomb, is the threat of an alliance between Communism and a resurrected German militarism, in the opinion of Eugene Lyons, noted writer on international affairs, and the first foreign correspondent to interview Premier Stalin.

"A more explosive combination than teaming Soviet manpower with German technical genius, Russian natural resources with Teutonic efficiency, can scarcely be imagined," Lyons declares in an article in the January issue of Cosmopolitan magazine. "In a time bursting with menace, this is by all odds the greatest single threat to world peace."

Although American opinion is as yet only vaguely aware of this picture, the chancelleries of European countries are deeply concerned about it, according to the article.

There is nothing new about the concept, according to Lyons, who points out the idea of a Russo-German combination dating to the Eurasian continent is at least two centuries old, and that it takes little account of the political systems in each country.

"It is the essence of the 'geopolitics' taught by the British geographer MacKinder, and the German Professor Haushofer—the idea that whoever controlled the 'heartland' from the Elbe to the Volga could dictate to the Eurasian world," the article states.

"What can the United States do in the face of this towering threat?" Lyons asks. "Exposure of the terrifying facts is essential. There are ample grounds for indicting the Moscow government before the United Nations on this score, and thus forcing the issue into the limelight. Fear, if nothing else, will then operate to unify the non-Soviet world and frustrate Kremlin adventures."

"Above all our America must remain strong and alert. A penny-wise policy now in matters of national defense and world rehabilitation will inevitably prove to have been pound foolish. The restoration of Teutonic military prowess now under way in alliance with a dynamic Communism, the prospect of Russian man power being joined to German technical science and experience—these provide a grim warning which it would be insane to overlook or to minimize."

Telephone preview for 1948

As we enter 1948, the 50,000 telephone people in the Southwest are continuing to work hard to make telephone service better than ever and to get service to people waiting. Here is what we think 1948 will bring:

INSTALLATIONS

Shortages of switchboards, cable, and wire continue, but we were able to install 480,000 new telephones last year for a net gain of 295,000. This year we expect to equal or better that total.

CONSTRUCTION

Dollars spent on construction last year came to 115 million, close to three times as much as in any previous year. In 1948, the job will take even more money—150 million dollars! That will buy new buildings, switchboards, cable, wire, and other things needed to supply more and better telephone service.

DEMAND

Demand for telephones continues at 50,000 a month. New orders keep the waiting list long, but it is smaller now than a year ago. About 200,000 persons in the 700 exchanges we serve are now waiting for service, but 3 out of 4 of them applied in 1947.

LONG DISTANCE

Improvements in long distance service are coming in 1948 as we add more miles of wire needed to handle calls. Some 50,000 miles of circuits were added in 1947. We expect to double that total in 1948.

SERVICE

Telephone service will grow better as more switchboard equipment brings relief from the extra-heavy loads now being carried. More than 18 million calls a day were made in the Southwest during 1947. This is well over a million more than the previous year, and a new record. The trend is upward for 1948.

RURAL SERVICE

We connected 50,000 more rural telephones last year. Our large-scale program to bring telephone service to more farms will continue in 1948. We hope to be serving 280,000 telephones in rural areas by the end of this year, nearly twice as many as at the start of 1946.

We worked hard to do what we did in 1947. We've still got an uphill job. We'll be doing the best we can to put in more telephones and further improve telephone service during 1948.

WHY

GENERAL ELECTRIC PUT LOWERED PRICES AHEAD OF OTHER THINGS

General Electric lowered prices because we wanted to do our part to stop the present spiral of inflation.

General Electric lowered prices on electrical appliances in greatest demand—because that is where lowered prices on General Electric products will do the most good and have the greatest effect.

General Electric lowered prices regardless of the fact that G-E profits are not high—are not at present levels high enough.

We did this because we know that in the long run General Electric can prosper only as the people of this country prosper. We believe that producing more goods for more people at less cost is the soundest way of running a business. And we feel that inflation in this country has reached a dangerous level—for the wage earner, for the man with savings, and for industry alike.

Do you know what inflation can do to you?

As money buys less and less, your savings lose their buying power. Life insurance policies dwindle in value. Money saved to take your wife to the hospital won't pay the bill when the time comes. Pay checks buy less and less. Retirement money won't pay for retirement.

We Must Destroy Inflation or It Will Destroy Us

GENERAL ELECTRIC

This applies to the man who brings home a weekly pay check, to the man with a little savings in the bank or a life insurance policy, and to companies that have to build new plants and buy new machines to fill future needs and provide future jobs.

Inflation is a sinister thing. It steals up on a country and its economy in a gradually accelerating two-step of prices and wages—each trying to get one step ahead of the other—and there is no red line to show when the danger point has been reached.

Inflation is like a fire. Once it gets well under way, it can never be checked until everything is destroyed.

Self-restraint by industries and individuals the best check

You as an individual can do most by buying less and saving more—thus avoiding bidding up the prices for scarce goods. Business and industry can do much by lowering prices whenever and wherever possible—voluntarily.

General Electric put lowered prices ahead of other things because we believe it is a step towards taming inflation.

Hahn-Lee Wedding Vows Read Recently

The home of Mr. and Mrs. Bob Hahn of the Highway community was the scene at 8 o'clock on Friday evening, Jan. 9, of the wedding of their son, Glen D. Hahn and Miss Geneva Sue Lee, daughter of Mr. and Mrs. Oscar Lee of the same community. Rev. Frank Adams, officiated.

Only members of the immediate families of the bride and groom and Mrs. Frank Adams and daughters were present for the ceremony. Mr. and Mrs. Hahn left immediately after the ceremony for a wedding trip to Fort Worth and Dallas. They will make their home in the highway community where Mr. Hahn is engaged in farming.

Mrs. Doyle Fry Complimented With Bridal Shower

Mrs. Doyle Fry was complimented recently with a bridal shower in the home of Mrs. Eas Butler Assisting Mrs. Butler with hostesses were Mrs. Raymond Butler and Mrs. Tommie McArthur.

Many lovely gifts were attractively arranged and viewed by the guests. A Valentine theme was carried throughout in the decorations for the party. Refreshments of angel food, coconut and banana cake, coffee and cocoa were served to the guests. Those present to wish the recent bride happiness were Messrs. Bud Morrison, Doris Morrison, Margie Morrison and Karen, Edie Fagan, A. N. Fagan, R. G. Sweeney, Clyde Grisham, H. Witt, Jim Wyatt and Sharen, Clyde Smith, Frank Adams, Eugene and Frankie, Sallie Buckley, Marvin Smith, Paul Bateman, M. J. Morton, J. A. Westengen, W. H. Ripple, Buck Johnson, Lloyd Johnson, Jiggs McComb, Toke Mahon, Lee Williamson, Miss Mary Pearl Hagins, Mrs. T. B. Fagan, the honoree and two hostesses, Master Billie Ray Butler, Edie Bush Smith, Avery G. W. Grubbs, L. D. Crasey, Alvin Jones, Glenn Harwell, J. Austin and girls, Walter Driggers, Elmer Turbyfill, Lee Parker, Elmer Mabel, Otis Smith, M. A. Lee, Harold Cook, Walter Low, R. D. Lucas, Misses Jane Grubbs, Winnie Ferguson, and Charlie McClain.

Will Edgar of Dickens was a business visitor in Spur Wednesday.

Mrs. Belle Martin Honored On 82nd Birthday Anniversary

The home of Mrs. Ike Simmons was the scene of a "handkerchief shower" last Thursday afternoon, commemorating Mrs. Belle Martin's 82nd birthday anniversary. Co-hostess was Mrs. Earl Thomason.

A lovely refreshment plate of jello, cookies, hot chocolate and salted nuts were served to the following guests: Mesdames M. E. Tree, Jimmie Hahn, Forrest Martin, Cecil Estep, Donnie Pace, Lucy Young, J. Austin, Bill Sandlin, L. L. Teague, Jim Hahn and the honoree and hostesses. Those sending gifts were: M. E. Tree and Jimmie Hahn.

Shower Honors Mrs. W. B. Steele, Jr.

The home of Mrs. S. C. Reynolds was the scene of a dainty shower, complimenting Mrs. W. B. Steele, Jr., Friday afternoon, Jan. 16. Co-hostesses were Messdames J. I. Mecom, James Ribb, Weldon Reynolds and Miss Vivian Reynolds.

Mrs. W. P. Nugent Dies In Dallas January 19

Susan Lucinda Nugent, wife of the late W. P. Nugent, born September 15, 1862, died in Dallas on January 19, 1948 at the home of a daughter, Mrs. Nathe P. Bagley. Mrs. Nugent's home was in Spur. She was buried beside her late husband in Stephenville, the childhood home of both.

Mrs. Nugent is survived by four daughters and two sons: Mrs. Clara Ratliff of Vaughn, N. M.; Mrs. Charlie Long and Mrs. Nathe P. Bagley of Dallas; Mrs. Ed O'Sullivan of Jacksboro; C. L. Nugent of El Paso and John O. Nugent of Yaleta. Two brothers and three sisters, John M. Oxford and G. W. Oxford of Stephenville, Mrs. R. H. Settle of Houston, Mrs. J. W. Painter of Lubbock, and Mrs. Walter Cox of Lamesa.

Fourteen grandchildren also survive, three of which, Leo, Haney, and Eldon have resided in Spur. The Rev. John Wesley Ford, pastor of the First Methodist Church in Stephenville, officiated for the services.

SAFeway HAS ALL THE LOW FOOD PRICES EVERY DAY

Safeway customers benefit from savings we are able to pass on to them because of our efficient business methods. And like any large volume business, we are able to price everything we sell at the lowest point that will yield a reasonable return. But in fairness to our loyal customers it is often necessary to go beyond this. And so we say in all sincerity "We will meet the lowest price of any competitor in town—brand for brand, or with items of comparable quality." This is your assurance that at Safeway you will never be asked to pay more for any item than the lowest price in town on that item.
